

## CHAMBER OF COMMERCE

It is a very rare occurrence that you will find a chamber of commerce that is supported by public subscription taking an active part in bond elections, either road or paving, for the reason that the members are usually about equally divided upon the question while the officials of the organization reserve the right to vote as they please, they make no attempt to influence the opinion of others. There are occasions however, when it becomes necessary to undertake to explain the purposes of bond issues that are in progress of being voted upon and we now have one in this county that comes within this category.

A few weeks ago the citizens of Brownfield cast their votes in favor of paving certain portions of the streets within the corporation which included the courthouse square. Under the law, the city pays one third of the cost, abutting property owners one-third, and the county one-third. It also allows the county commissioners full authority to pay for paving the county's portion without calling for the issuance of bonds, but due to the financial condition of the treasury, and a further desire to secure the approval of a majority of the property tax-paying voters, the commissioners have ordered an election to determine whether bonds in the sum of \$15,000 shall be voted, the proceeds of the sale of same to be used in paving of that portion of the public square that falls to the lot of belonging to the county. The bonds are to be issued in serial form bearing five percent interest and payable in ten years. Naturally the question that enters the mind of the taxpayer or land owner is the increase in taxes that will be added to their property, and the following is as an average. The taxable value of a quarter section of land in Terry county as set by the commissioners is \$7.00 per acre, or a total of \$1,200.00. The rate set for paying interest and creating a sinking fund is 4 1/2 cents on the \$100.00, or in round numbers 50c on each quarter section annually, or a total of \$5.10 to be paid in ten years. It is possible for the commissioner to issue warrants but they would prefer the approval of the voters on a bond issue. Under the present market, a 5 percent bond can be sold at par, but a 6 percent warrant would be required to secure the same amount of money, and the interest saving on this alone would amount to \$1,500 in the 10 year period. No bids have been received on the work but estimates place the cost of paving to the county of \$18,500, and \$1,200 for walks around next the curb.

One mud hole looks as good as another on an unpaved street, but can you vision the appearance of one-third unpaved portion of the public square and that portion located next to our \$140,000 courthouse. It's up to the voters to express their preference.

## Forty Boys and Girls Registered For Prizes

Forty boys and girls have registered with the Bell-Enders Hardware Co., signifying their intention of feeding a pig for the fat class at the fair this fall. These boys and girls represent just a part of the pig club members of Terry county. They will feed their pigs all they will eat and see which can raise the largest pig, at the cheapest cost, between now and the County Fair. If we do not miss our guess a good number of these pigs will weigh around four hundred pounds by the latter part of September. The race is on now lets see how fast pigs can grow.

## CAREFUL DRIVER

"Hey, you!" yelled the traffic officer to the amorous driver, "why don't you use both hands?" "I'm afraid to let go the steering wheel," grinned the irresponsible youth at the wheel.

Miss Fay Brown, daughter of Mr. and Mrs. T. I. Brown, returned Monday from Abilene, Texas, where she has been attending A. C. C. the past term.

## Welcome

## Why Brownfield Needs A New School Building

She needs to put in Domestic Science and Art. To do this two or three new rooms are necessary. It is impossible to teach and secure affiliation in this subject with the rooms that we have. She needs to put in Agriculture under the Smith-Hughes Act. For this two new rooms are necessary. She needs to enlarge the Manual Training Department to five times its present capacity. Now she can accommodate only six pupils in this department and she needs to accommodate thirty. She needs to put in Typewriting and Shorthand for pupils that never expect to graduate from the high school. She needs a gymnasium for the boys and girls physical development, for their indoor basket ball and other games. Now they have to go to the city of Ropes for these games. She needs an auditorium for chapel exercises and for plays and for other usages in the high school. For her Commencement Exercises and for community interest.

Tahoka, a town not any larger than Brownfield, has a hundred thousand dollar high school building well furnished and well equipped. Past a town not much larger than Brownfield has a magnificent high school building whose home economic department was visited and highly commended by the teachers from the Tech College. Seagraves and Leveland both have good high school buildings. Meadow is building a good high school this fall. Shall Brownfield pave her streets and become first class in that respect and remain second and fourth class in her school capacity? Home Economics and Agriculture under the Smith-Hughes Act is paid one half the expenses of the teachers by the Federal and State Governments. Shall the other towns receive this and Brownfield not receive her share?

Brownfield has no auditorium for any public meetings. The school auditorium would meet this long needed demand.

The first question asked by people moving to a new town is "Have you a good school?" Good schools and good churches help to make a good town.

## County Agent Attends Dairy Directory Meet

R. B. Davis, county agent, attended the directors meeting of the Panhandle Plains Dairy Show in Plainview last Thursday. The dates for the next show will be April 7-10.

The catalogue committee, of which Mr. Davis is a member, will have the catalogue out by fall of this year.

## Prairieview to Entertain Aged of County

As has been their custom for some years, the progressive Prairieview community, a few miles east of Meadow will entertain the old people of the entire county, and we presume the adjoining parts of the counties of Lynn, Lubbock and Hockley, next Sunday. Annually, on the 4th Sunday in June, this is always done. This time the entertainment comes on the 23rd, which is the coming Sunday. They will be entertained with singing, recitations, etc., and at noon with a picnic style luncheon. In fact the old people of the country will be their special care on that day.

The Herald has been informed that if any old person wants to attend, and does not have a way, for them to let their wants be known and a way will be provided for them to get there if possible. The Herald wishes to say that it believes this is a noble move on the part of the people of that section, for too many people get the idea that the old people are kindly slow, and sometimes think they are in their way of having a good time. But people can usually be judged by their attitude toward old people and children, and personally the writer would not be afraid to risk anything with the people of the Prairieview community.

## Brownfield Trims Lubbock Again Sunday

The Lubbock team was not satisfied with the drubbing the local team gave them here last Sunday week and came down for another Sunday afternoon, and were taken to a cleaning to the tune of 12 to 5 by the locals. It is said that there was a number of errors on both sides, and especially with the visitors. Also, plenty of wrangling, but of a good natured quality—just didn't want anything put by them—that's all. There was to have been another game with Seagraves, but the local boys were so tired running when the first game was over that only one game was played.

The locals have purchased several more uniforms, base balls, bats, and other ball paraphernalia, and are now in fine shape for a number of games this summer. The local fans are also giving good support by attending and encouraging the games, and in a few more weeks they hoped to have a team that will be hard to beat. The locals defeated Meadow one day last week by a small margin.

The Cicero Smith Lumber Co. offices, sheds and fences are looking new and bright since their fresh coat of orange yellow paint was applied.

## Lubbock Man Buys Anthony Grocery Here

A deal was consummated last week through the real estate firm of J. J. Gray, in which Mr. Pollard, of Lubbock, became the owner of the Enterprise Food Palace, that has been conducted here for the past several years by Earl Anthony, Sr. We understand that invoicing will be under way this week, and that the business will be turned over to the new owner at once. It is also rumored that Mr. Pollard also purchased another popular grocery here to consolidate with the Anthony stock, but the Herald could not confirm this report.

We understand that the new store will be turned into a Piggly Wiggly store. While this comes to us through those who seemed to know what they were talking about, we did not confirm this report, and we give it for what it is worth. Anyway, Mr. Pollard will conduct an up-to-date grocery business here, whether it is connected with the chain store system or not.

We have not learned Mr. Anthony's intentions for the future, but we hope he does not leave our city, as he has been here so long that he is considered a part and parcel of the town. He owns a splendid farm here yet, and we hope he and his excellent family decide to remain here permanently.

## Redford Smith Building Duplex on Broadway

Foundation was laid last week for what promises to be one of the nicest duplex residences in the city, on east Broadway, between second and Third Streets. Workmen are putting up the framing this week and construction will be rushed as fast as possible. Roy Wingerd is the contractor.

The building will be of face brick veneer exterior, and each compartment will contain four large rooms and bath. The interior will be finished with best rock, over which will be papered with a good grade of wall paper. The finish will be of the very best. This apartment will be close in to the business section, and we believe will be in great demand when finished.

## J. D. BOREN NOW PASTOR OF CHURCH OF CHRIST, LAMESA

LAMESA—J. D. Boren, former a pastor of the Church of Christ at Big Springs, for the past three years has accepted the work at the Church of Christ at Lamesa. He succeeded J. T. Barr, who is now pastor of the Church of Christ at Midland, Texas. —O'Donnell Index.

## County to Vote \$15,000 To Pave the Square

The Commissioners Court being in regular session last week, and being presented with a petition with the required number of signatures, they ordered an election over the entire county to be held on the 16th day of July to determine whether or not the county's bonds in the sum of \$15,000 would be issued for the purpose of paving that section of the public square adjacent to the courthouse park, during the time the city and private property owners are paving theirs. Property owners, public or private are supposed to pave one-third of the width of the street, adjacent to their property, the city paving the one-third in the center of the street.

In view of the fact that the order of election running in these columns are drawn up according to law as road bond elections are run all over the state, they are not very plain to the average voter, and appear from the face of the order that the bonds are to be used for the construction of public roads and no indication is given the voter where the money will be used. Therefore, the county officials as well as a number of citizens have asked that we give the voters in intelligent explanation this week just where the money will be used, how and for what purpose. They do not want the voters over the county to be left in the dark about anything concerning the election nor for what purpose the bonds are to be used. We do not know why the order in itself could not have made this clear, but the folks down at Austin have a set rule in their election orders, and they must be drawn up exactly that way or they are not legal. In view of these facts, lots of times a lot of explaining must be made.

The Commissioners Court were confronted with two things, either issue bond or warrants, and bonds get cheaper money, and they decided on that route of procedure. They could have issued warrants without the formality of consulting the voter in the matter, but the best they could have gotten for them would have been 6 percent, whereas the bonds will only draw an interest rate of 5. By having an election, it will take longer to get ready to do their part of the saving, but in the long run will save the tax payers of the county quite a considerable sum of money.

To pave while the city and residents of the city are paving will also save the county considerable money, as they can now pave their part of the square cheaper than they can ever have it again, for the reason that they will have the advantage of the construction company here at that time who have the machinery and know how to do the work as economically as it can be done. Then, too, there will not have to be a lot of joints fitted with the original paving if it is paved now instead of in the future. Building on to anything costs more money. In fact, right now is the time to pave if we ever pave the county's share, as it will be more economical from several points of view.

Now for a word on just what will happen if the county does not pave its share of the streets around the courthouse, four blocks. In the first place, the streets will be raised a great deal higher, especially in the center than they are now, which will tend to throw the water back next the curb of the court park, and it will always be muddy or a hole of water there when it rains, as it will not be high enough to drain. In fact, during muddy weather, one will have to have a footing to get to the courthouse, and West Texas people are not much for mud and lakes.

It will take a two-third majority of the voters to put the matter over, but we believe that the farmer folks of the county of Terry have pride enough about them to want their part of the affair to look equally as good as that belonging to the city. At least we have always found them that way. Before the city election when bonds were voted for the paving here, many of them asked us to vote for the bonds, and many more were heard to express themselves as hoping the bonds for street paving would be voted and get their trading point out of the mud. Now it is up to them to do a little improving, and we believe

## Too Much Policy Sometimes Bad As None

There are people in the world that will make no independent move for anything for the good of the town or community before scanning the horizon to see just how the land is going to lay after having had their say. This is like "too many cooks spoiling the broth." Too much policy will sometimes lose one the confidence of his neighbors, friends and business associates for they lose confidence in their wisdom, their initiative not to say their independence. It appears that some one must have a halter on them, and have them staked out.

The Herald would be the last to advocate speaking too quick without giving even a public question due consideration, for one can easily and needlessly lose friends by so doing, but no matter what business one may be engaged in, he has a perfect right to his individual opinion. At the same time, he may state that it may not be the opinion or policy of the institution with which he is connected, but merely his or her own private opinion. But all public men should leave no doubt in the minds of anyone just where they stand on anything governing the betterment or advancement of the city or community in which they live and have their advantages. No reasonable person will require that a semi-public man keep his mouth tightly closed concerning questions of moment in the towns in which they live. For instance we know a banker in a city not far removed from Brownfield who not only takes a stand for every forward move in his city, but he takes a leading part in putting them over. Yet he is one of the most popular men and bankers on the South Plains, and his bank has grown with every forward move his city has made.

There may be times when pussy-footing pays. As Jeff says, there may be a time to use discretion, but usually these times are when some political move is up that does the community no good one way or the other, and when one hot word usually brings on another, and the more said the wider becomes the factions on each side of the question. As stated above, when the whole thing is simmered down, it amounts to nothing, and brings no happiness, no health, no wealth, but just plain old bitter animosity to the community. But when a question comes up like an educational one, a moral one, a sanitary one, no business man should hide behind the broom handle in his office. The people of the community expect men of this type to come squarely out in plain, but reasonable language and tell just where he stands and why.

A business man of this city visited us this week and said that when his business become such that he had no opinion of his own concerning the advancement of the city and county, or if he had one, was afraid to express it, he would part company with his business and move to the farm where men are men. We voted with him too, and added that if the community ever becomes so erratic as to forbid us expressing our own opinion, we would forthwith move to the farm and get a job grabbing mesquites.

that they will go to the polls on July 16th, and show the people of Brownfield that they are just as progressive as the town folks. Of course the town people here in Brownfield will help pay their just share of these bonds, and will join the country communities on the 16th in helping to put the matter over in a nice way.

There may be other questions that people would like to ask before the election comes off, and if so, the Herald stands ready to explain the matter if it is able to do so, and if not, we will get some one else to do so who understands the matter. If the Herald can help any, no voting tax payer in the county, man or woman is going to the polls to vote on this issue in the dark, for the Herald, the county officials, and every citizen in Brownfield want the matter thoroughly understood, and that no one be in the dark on the matter before us. Let it be thoroughly understood that no one connected with the matter is trying to pull the wool over any one else's eyes. This is strictly an above board matter.

J. S. Siddons was in Saturday and reports the pumpkins the Herald gave him are up and looking nicely. By the way, several called for the seed we offered last week, but have a few hills left.

Paul Crawford and mother came in last Friday from Paris, where he has been visiting for about ten days. Paul said it rained down there every day and hot as blazes. He was tickled to get back to the ballies.

Mrs. G. D. Montgomery and daughter, Vental and son, Floyd of the Hunter community and Jessie Montgomery of Pleasant Valley made a trip to Hollis, Okla. last Sunday and returned Thursday to see Mrs. Montgomery's brother that was sick. They report a good crop, lots of rain and worlds of fruit.

Rev. C. F. Hinds, pastor of the First Baptist church at Amory, Miss., with his family, spent the week end with his old friend, Rev. E. V. May, and filled the pulpit at the local Baptist church last Sunday night. Rev. Hinds is taking a special course at the Southwestern Baptist Theological Seminary at Fort Worth this summer, and ran out here for the week end.

Paul Crawford, Jim Cousineau and Jack Stricklin, Jr., made a trip to and took in the Carlsbad Cavern over the week end. Now each are walking advertisements for that wonder of wonders.

There is no use calling your attention to the big Collins sale running in this issue of the Herald, for we are sure you will either see it in the Herald, or one of the big two-page circulars. This is going to be one of the biggest bargain events ever pulled off in the county, and it will be to your interest to come miles to attend. Collins does not pull many sales, but when he does, he surely puts on one to be remembered a long, long time.

Don Hare, pig club boy of the Pleasant Valley Club, shipped a nice registered sow pig to Mr. J. G. Harrel at Littlefield this week. This pig was given to Mr. Harrel as a trades day prize by the town of Littlefield.

**CITATION BY PUBLICATION**

In the District Court, Terry County, Texas.

M. N. Thomas

vs. J. S. Fisher and unknown heirs of J. S. Fisher.

The State of Texas to the Sheriff or any Constable of Terry County—Greeting:

You are hereby commanded, that by making publication of this Citation in some newspaper published in the County of Terry once in each week for four consecutive weeks previous to the return day hereof, you summon J. S. Fisher and the unknown heirs of J. S. Fisher, whose residence is unknown, who is alleged to be non-resident of the State of Texas, to be and appear at the next regular term of the District Court of Terry County, to be holden at the Court House thereof, in the City of Brownfield, on the fourth Monday in August A. D. 1929, the same being the 26th day of August A. D. 1926, then and there to answer a petition filed in said Court on the 13th day of June A. D. 1929, in a suit, numbered on the Docket of said Court, No. 1154 wherein M. N. Thomas is plaintiff, and J. S. Fisher and the unknown heirs of J. S. Fisher, defendants; the nature of plaintiffs demand being substantially, as follows, to-wit:

That on or about the 12th day of January A. D. 1928 he was lawfully seized and possessed of the following described land and premises situated in Terry County, Texas being the southwest one fourth of Survey Number Eleven (11) in Block C-57 land containing 160 acres. That on the day and year last aforesaid defendant unlawfully entered upon said land and premises and ejected Plaintiff therefrom, and unlawfully withheld from him the possession thereof, to his damage in the sum of five hundred (\$500.00). That the reasonable annual rental value of said land and premises is \$500.00.

Herein Fail Not, but have you before said Court on the said first day of next term thereof this writ with

**Airplane Plays Poor**

**Second to the Birds**  
A group of French scientists have proved to their own complete satisfaction that wonderful as airplanes may be, they still come a long second to bird flights. A single swallow is three times as swift and economical a flyer as the very best pursuit plane in the French army. Three scientists, Huguenard, Magnan and Sainte-Lague, have used a new "machine gun" motion picture camera with a double objective to evolve a method for testing the "finesse" on real airplanes in actual flight and on birds in the air.

The camera gives simultaneously on the same strip of film clear images of a guiding mark on the ground six feet from its lens and of an airplane flying away, as well as a clear image of a man placed 150 feet away. Using it, the scientists discovered that a good pursuit plane gave a "finesse" inferior to 6. The "finesse" of a swallow was found to be at least 19.

**Use Common Sense**

In the nature of things all ordinary stunts and feats of strength are at the same time wonderful exercises for those physical culturists who are advanced enough to be able to do them. You can combine the spectacular with the practical. The human system, no matter how robust, was never intended to handle packages weighing a couple of tons. Why not leave that to the elephants? Indeed, intended record-breaking lifts of any kind, with barbells or other weights, are not to be regarded as exercise in the proper sense, and should only be undertaken by highly developed professionals in this field—or by amateurs who have attained professional standing by way of accomplishment.—Carl Easton Williams in Physical Culture Magazine.

**Holland's Independence**

An error often made is to attribute Dutch success in the war for independence too much to William and to Dutch pluck and endurance. Both these were inestimable factors in the defeat of Spain. But William died 25 years before Dutch independence was recognized and Maurice of Orange and Oldenbarnevelt must both be given their due for their work after his death.

Nor must Spanish inefficiency and poverty be forgotten. A Spanish captain once said: "If death had to come from Spain we would be sure of a long life," and twice Philip had to repudiate his national debt.—New York Herald Tribune.

**Danger From Marchers**

The director of the Engineering societies library says that soldier-marching in step across a bridge might cause failure of the bridge due to too great a load or due to vibration. If the type is known, together with certain other details of its construction, it is possible for a bridge engineer to calculate whether or not the bridge will break. It is sometimes possible to produce oscillations in a bridge by men marching in step, and these oscillations may be sufficient cause to break down the bridge. In 1850 a suspension bridge at Angers, France, gave way when 487 soldiers were marching over it and 220 were killed.

**Three-Minute Egg**

A Detroit woman who put in a long distance telephone call wanted to talk only three minutes. She decided to time herself with a contrivance used for timing eggs being boiled. The device is fashioned on the principle of the hour-glass and by setting it near the telephone where she could see it she felt she was able to get the full benefit of her conversation over the telephone without any danger of talking longer than she desired.—Detroit News.

**The Way It Goes**

"That bird is so lucky that no matter when he gets downtown he always arrives at a parking place just as some other fellow is pulling out and he can back right in."  
"And I am so unlucky that if I turned into a street, hunting one, I'd get there just in time enough to see a dozen machines backing into open spaces that hadn't been occupied for at least half an hour."

**Firemen Get to See Bathing Beauty Revue**

The Herald has tried to interview several of the firemen who have returned from Galveston on just what they saw and learned while in that city recently. Invariably the "saw" gives them a starter, and they take about the firemen and their convention, but on the other hand this give them a started, and they took their text from the bathing girls, and tell us all about it, how they dressed or rather, they were undressed, their department, beauty, etc.

All of them are at variance with the attitude of Gene Howe, editor of the Amarillo News, whose latest sensation is that he could have picked whole beves in Amarillo that would have outshined any of the contestants at Galveston. He may have found a few in Amarillo, our boys say, and several in Brownfield, but still those at Galveston could be looked at all right without smoked lenses. In fact, George, Eunice, Henry and Mack all say that they were real easy on the eyes. But, they say, the trouble about getting our girls or perhaps Amarillo girls in such a contest, would be that they wouldn't stand for being examined by a bunch of strange men not unlike a bunch of cattle or swine by judges at the county fair. There are girls, however, that will subject themselves to such examinations, measurements, etc., for the pots of gold offered.

But, if you insist, the boys will tell one a little about the convention which they were supposed to attend. In fact, they report a nice crowd and that they were all entertained by the city despite the other main attraction being there at the same time. The entertainment features included a boat ride out on the gulf several miles. A number of contests were pulled off by visiting fire companies, Brownwood having won first place. The next convention goes to San Angelo, much nearer home.

Has the weather been hot enough for the readers of the Herald this week?

**A Complete Rotary Rig Through Saturday**

About nine o'clock Saturday morning several big trucks began arriving from the direction of Seagraves loaded with some kind of heavy machinery that was all Greek to a fellow that had never been around an oil field much. So the writer and other old timers who have not been beyond the borders of the county in a great while guessed the stuff off at anything from a cotton gin plant to and including street paving machinery, gas line machinery, and even haphazardly at perhaps that it was oil well machinery of some kind.

Later in the afternoon, inquiry was made of people close to whose business the trucks stopped, and they informed us that it was a full rotary rig, and was being moved from Jal. N. M. to Pampa, Texas, to be used in putting down an oil well. It took nine large mogul oil field trucks to move the rig.

**Obtains Good Results With Rat Poisoning**

Mr. W. M. Nichols reports that he killed forty-two large rats the first time that he put out rat poison which he obtained from the County Clerk. This Barium Carbonate rat poison can be obtained from the Commissioners Court through the County Clerk at a small cost and it will kill rats if used according to directions. It is poisonous to chickens and other animals but it takes more of it to kill than of strychnine.

Poison grain is the best bait for mule-tail or field rats.

LAMPASAS is planning a large July 4th program. The American Legion is preparing a rodeo for six or seven thousand people, special features of which will be a barbecue for all Legionaires and a drum and bugle corps contest with three handsome cups as prizes. A prize of \$100.00 in gold is offered to the rider of one of the post's outlaw horses.

There is strong talk of the third called session at Austin now in order to finish the work the legislature ought to do before finally adjourning. In other words, they aim to fight it out on the lines if it takes all summer.

Local fruit is beginning to come on the market here, the first outside of berries being apricots. The fruit this year is well developed, having had plenty rainfall, and is of excellent flavor. As the county agent said last week in one his articles lets can all we can can this year. Can enough to last several years, for we don't have a good fruit crop every year, and sometimes none whatever.

The Herald has ticket to admit the editor and lady to the auto races at Abilene, July 4th, at the Fair Grounds in that city. That's a mighty long hot trip to go to see auto races when one can sit out in front of the house most any day and see all the races he wants to up and down our streets. And we mean, they're moving along some too. However, we appreciate the invitation just the same.

Some of the citizens are setting good examples by cutting their weeds but it seems that some of their neighbors do not easily take hint and do likewise, and it might insult them if the neighbor with a sharp hoe got over on their premises. So, we guess the weeds will have to grow on till frost, and then let the first norther rick them against the first south fence to be burned at the leisure of their owners.

The tornado that wiped up Running Water the other day explodes the theory that twisters never come or the Plains. But, even without that evidence, this editor has been a strong advocate of the storm cellar since time immemorial, and if the clouds look sufficiently angry, with plenty of vivid little tongue playing in and out of it, we believe it is but common sense that one seek the safety of underground chambers.—Ropes Rustler.

For a long time we thought we had the only job that there was any work attached to, believing all along that the other fellow just bragged about how much he worked to hear his head rattle. But we have about come to the conclusion that everybody works who has a job or business that is really worth while, for we often see them burning night oil in their stores and places of business, and they are getting grey and stoop shouldered just like we.

The high winds of the past few days have caused but little damage. Some fields have blown enough to damage or destroy the crops on them but as a whole crops are growing

nicely. Of course warm still weather would be more ideal for growing crops but then we need not expect ideal weather here or anywhere else. It is more likely that other parts of the state are suffering more than is Terry county.

The tourist season has fully opened and the roads are kept hot by folks going here and yon, and to the fellow along the roadway, it appears that some of them haven't fully made up their minds where they're going, but they're on their way. In meeting each other, the car from the west and the car from the east, or the man in the car from the south, or the one in the car from the north seem to look at the other guy in utter contempt and wonder why in blazes the blame fool is going that direction for. Thus and so, the great American public is now on wheels.

Three men from a neighboring city were down this week in the interest of getting this city lined up on a non-stop tour of the West Texas counties in a Ford car, but they did not seem to interest the local citizenry very much. We have a lot of this non-stop stuff here already, for one can hear them zoom by at all times of the night, in the hands of the youngsters, and when the chickens come off the roost, dad is ready to grab the old Lizzie as it comes by to get to his office, and then Ma and sister Susie keep the old gas wagon on the go making social calls the rest of the day. The whole family winds up at the picture show or a card party. No, non-stop automobile runs are no strangers to Brownfield—very tame, very tame affairs.

With the price of wheat below a dollar a bushel, the lowest in 16 years, the National Congress is still debating farm relief. When Congress began talking farm relief, wheat was better than \$2 per bushel, and when President Hoover convened a special session of Congress to enact farm relief legislation wheat and other farm products were bringing a good price. Now what are they bringing? It does not necessarily mean that Congress has "talked" the price of these commodities down, but the price has continually slumped while Congress was talking. Now the price of wheat is the lowest in 16 years and one of the biggest crops in history is coming on the market. It may be that Congress will do something to help the farmer, but The Record editor will have to see it done before he will believe it.—Colorado Record.

**EASTERN STAR INSTALL**

Monday evening, June 3, 1929 Brownfield Chapter No. 785, Order of the Eastern Star met for Installation of officers. Mrs. Seleta Brownfield, our first W. M. acted as Installing Officer with Mrs. Elizabeth McBurnett as Marshal. The following officers were duly installed to serve the chapter the coming year: Miss Olga Fitzgerald, Worthy Matron; E. T. Powell, Worthy Patron; Miss Violette McBurnett, Associate Matron; B. W. Hurst, Associate Patron; Mrs. Caroline Ellington, Secretary; Mrs. Cornelia Moore, Treasurer; Mrs. Lorelle Bailey, Conductress; Miss Elizabeth Dumas, Associate Conductress; Miss Grace Hulse, Ada; Mrs. Ona Gore, Ruth; Mrs. Della Thompson, Esther; Mrs. Seleta Brownfield, Martha; Mrs. V. A. Hurst, Electa; Mrs. Elizabeth McBurnett, Warden; J. W. Fitzgerald, Sentinel; Mrs. Jewell Harris, Chaplain; Mrs. Maurine McDuffie, Marshal; Mrs. Lois Wingerd, Organist.

J. E. Harred sent in the price the past week for renewal to the Herald.

**HUMAN - ASSETS**

A good bank possesses strength over and above the satisfying figures of a financial statement. Our vaults do not contain all that makes this bank a power in the community.

The officers and employees who give daily expression to our ideals of banking service; the friends we have and the friends we make; these are HUMAN ASSETS of incalculable worth.

You will like to do business here because you will like the courtesy and friendliness of those who serve you.

**SHERIFF'S SALE**

THE STATE OF TEXAS, County of Terry.

By virtue of an order of sale, issued out of the Honorable District Court of Dawson County, on 21st day of May A. D. 1929, by the Clerk hereof, in the case of A. C. Woodward versus D. S. Todd, Mary Iris Todd and H. N. Taylor, No. 1413, and to me, as Sheriff, directed and delivered, I will proceed to sell for cash, within the hours prescribed by law for Sheriff's Sales, on the First Tuesday in July A. D. 1929, it being the 2nd day of said month, before the Court House door of said Terry County in the town of Brownfield the following described property, to-wit: All of the north one-half of section eighteen (N 1/2 Sec. 18) in Block C-29 Public School Lands in Terry County, Texas; located about 25 miles southeast of the said town of Brownfield, Texas, and is known as the Todd arm; levied on the 31st day of May 1929, as the property of D. S. Todd and Mary Iris Todd to satisfy a judgment amounting to \$391.48 in favor of A. C. Woodward, and costs of suit. Given under my hand, this 31st day of May A. D. 1929.

**NOTICE OF ROAD BOND ELECTION**

The State of Texas, County of Terry: To the resident property tax-paying voters of Terry County, Texas: Take notice that an election will be held on the 16th day of July A. D. 1929 within Terry County, Texas, to determine if said County shall issue bonds; and if a tax shall be levied in payment thereof, in obedience to an election order entered by the commissioners court on the 10th day of June 1929, which is as follows:

On this 10th day of June 1929, the Commissioners Court of Terry County, Texas, convened in regular session, at the regular meeting thereof, in the Courthouse at Brownfield, Texas, all members of the Court to-wit:

H. R. Winston, County Judge; L. Brock, Commissioner of Precinct No. 1; Mrs. Temmie Stewart, Commissioner of Precinct No. 2; J. W. Lasher, Commissioner of Precinct No. 3; and G. M. Thomason, Commissioner of Precinct No. 4, being present, came on to be considered the petition of G. M. Green and 62 other persons, praying that bonds be issued by said County in the sum of \$15,000.00 bearing 5% percent rate of interest, maturing at such time as may be fixed by the Commissioners Court, serially or otherwise, not to exceed thirty years from date thereof, for the purpose of constructing, maintaining and operating macadamized, graveled or paved roads and turnpikes; or in aid thereof, and whether or not a tax shall be levied upon the property of said County, subject to taxation, for the purpose of paying the interest on said bonds, and to provide a sinking fund for the redemption thereof at maturity; and it appearing to the Court that said petition is signed by more than fifty of the resident property tax-paying voters of said Terry County; and

It is therefore considered and ordered by the Court that an election be held in said County, on the 16th day of July 1929, which is not less than thirty days from the date of this order, to determine whether or not the bonds of said County, shall be issued in the amount of \$15,000.00 bearing 5 per cent rate of interest and maturing at such times as may be fixed by the Commissioners Court serially or otherwise, not to exceed thirty years from date thereof; and whether or not a tax shall be levied upon the property of said County, subject to taxation, for the purpose of paying the interest on said bonds

and to provide a sinking fund for the redemption thereof at maturity. The said election shall be held under the provisions of Articles 726 to 752, inclusive, of Chapter 3, Title 22 of the Revised Civil Statutes of 1925 and amendments thereto.

All persons who are legally qualified voters of this State and of this County, and who are resident property tax-payers in this County, shall be entitled to vote at said election, and all voters desiring to support the proposition to issue the bonds shall have written or printed on their ballot, the words:

"For the issuance of the bonds and the levying of the tax in payment thereof."

And those opposed shall have written or printed on their ballots the words:

"Against the issuance of bonds and the levying of the tax in payment thereof." The polling places and presiding officers of said election shall be respectively as follows:

At South Brownfield No. 1 with A. M. Brownfield as Presiding Officer. At North Brownfield No. 2 with J. E. Shelton as Presiding Officer. At South Gomez No. 4 with B. O. Black as Presiding Officer. At Sunday No. 5 with I. A. Lowe as Presiding Officer. At Meadow No. 6 with D. J. Harris as Presiding Officer. At Sawyer No. 7 with J. M. Matthews as Presiding Officer. At West Forrester No. 8 with J. ## Terry Becoming Pork Producing Center Fast

Further evidence that Brownfield is a hog center is shown by the number of cars of market hogs that are shipped each week from here. Howell & Lovelace shipped three cars last Wednesday. This firm together with Gore & Poole ship at least ten cars of hogs a month. These men are paying less than a cent under the Fort Worth market and are receiving hogs from all over this territory.

A car of hogs is worth around two thousand dollars, so you can see hogs are adding to the income of this country.

### DAIRY COWS IN HALE ARE 25,000

PLAINVIEW, June 12.—There are more dairy cows than people in Hale county according to an estimate made recently by County Agent R. M. Milhollin. Milhollin estimates there are 25,000 dairy cattle in Hale county. Recent estimates of Hale county's population based on scholastic enrollments and other indices are that there are about 22,750 people in the county.

Milk products manufacturers figure that it takes one cow to supply every five people with their actual needs in every locality. Taking that as a basis and figuring that Hale county has 12,500 of the 25,000 dairy cattle that are producing milk all the time, there is a surplus of milk from 2,500 that can be turned to manufacturing plants of one kind and another such as creameries, milk plants, cheese plants and the like.

### FOUR CARLOADS SENT FROM SLATON CREAMERY

SLATON, June 12.—In the first 15 days of operation the Slaton creamery has shipped four carloads of butter to New York and Chicago markets, scoring high percentages by government test, according to W. M. Bandle, manager. The plant is partly financed by Slaton business men and farmers, and has an annual capacity of 1,000,000 pounds of butter.

Patronize the advertisers.

TAHOKA is to have a new business block. C. A. Hill of Lamesa has announced that he will erect a brick building 50x125 in size to house a chain grocery store and an automobile agency. The old Howell building one of the first garages erected in this section will be razed for the new structure.

## RHEUMALAX RELIEVES HEUMATISM

LUMBAGO, a pronounced form of rheumatism can be relieved in 2 to 3 days with RHEUMALAX, as it reaches the cause and removes it sure and certain or costs you nothing. Sold and guaranteed by Alexander.

### NOTICE

The State of Texas, To the Sheriff or any Constable of Yoakum County, Greeting:

You are hereby commanded to cause to be published in some one issue of a newspaper published in Yoakum County, Texas, not less than ten days prior to the first Monday in July, A. D. 1929, the following notice:

The State of Texas, To All Persons interested in the Estate of S. D. Hinkle, Deceased:

Know ye, that W. E. Munn, administrator of the estate of S. D. Hinkle, deceased, having on the 30th day of May, A. D. 1929, filed in the County Court of Wise County, Texas, his application to sell the following described land belonging to said estate:

"All of section number three hundred and twenty (320) in block D, surveyed by virtue of certificate number 338, issued to John H. Gibson, containing 640 acres of land situated in Yoakum County, Texas, and being the same land conveyed to W. H. Kelley by J. W. Moore and wife, M. E. Moore, by deed dated November 20th, A. D. 1922, and of record in book 14, page 534, of the Deed Records of Yoakum County, Texas, to which reference is here made for a full and more complete description of said land."

Now, therefore, there are to notify all persons interested in the said estate to be, and personally appear at the next regular term of said honorable County Court, to be holden at the courthouse in the city of Decatur, Wise County, Texas, on the first Monday in July, A. D. 1929, the same being the 1st day of July, 1929, and then and there to show cause why such sale ought not to be made, should they desire so to do.

Given under my hand and seal of office on this the 30th day of May, A. D. 1929.

Lory D. White, Clerk.  
(Seal) By Douglas Dickson, Deputy County Court of Wise County.

I hereby certify that the above and foregoing is a true and correct copy of the original citation now in my hands.

Walter Moreman, Sheriff,  
Yoakum County, Texas.

## THE BANG OF BURNED OUT BEARINGS YOUR MOTOR CAN ESCAPE IT

If you've ever listened to the anvil chorus under the hood when a bearing burns out, you realize the damage that poor oil can do to a motor. Replaced bearings cost real money—a great deal more, in fact, than the cost of a year's supply of good oil.

Isn't that reason enough why you should always insist upon a brand of oil which has stood the test—a brand backed up by an organization which has spent years specializing in the lubrication needs of every type of motor?

Such are the brands offered you by the Continental Oil Company. You may be sure that an oil sponsored and sold by this organization is the right oil for your car.

You protect the bearings—and your pocketbook, too—when you ask for these brands at service stations and garages.

Conoco Motor Oil insures protection. It seals compression—saves gasoline—fights friction. Stands up under most intense cylinder heat. In short, does a complete lubricating job in all kinds of weather.

Ask for the grade made especially for your car

### CONTINENTAL OIL COMPANY

Producers, Refiners and Marketers of high grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

Conoco Amalie is 100% Pennsylvania Oil—refined from premium crudes by a special process. Universally recommended by automotive engineers and lubrication experts.

Through exhaustive laboratory and road tests it has demonstrated its ability to lubricate properly under the most trying conditions of motor operation.

#### WHITE WAY COMPLETE; LIGHTS TURNED ON

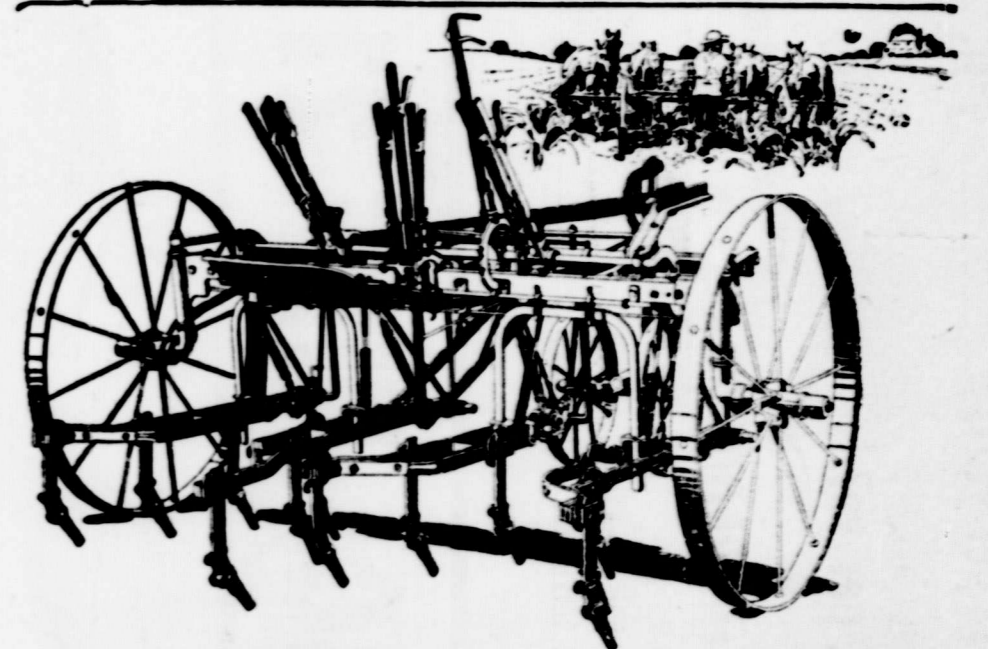

The "White Way" in the business section of Tahoka is an accomplished fact. The lights were turned on for the first time Tuesday night. The old swing lights in the middle of the streets were being removed Wednesday, and thus another link in the chain of progress has been forged.

The "White Way" consists of fifty-two lights on standards erected along the main business streets and around the court house square. The installation of this system represents the investment of quite a sum of money on the part of the Texas Utilities Company, but the new system affords the city much better and

more attractive lights. Both the city and the Company are to be congratulated upon this improvement.—Tahoka News.

J. A. Rushing of the Tokio community was in Tuesday after supplies and called in to slip the Herald enough cash to put him a year in advance. He informed us that he had finished planting.

SLATON fruit growers report that unless unforeseen damage is experienced, the fruit crop through the territory will be the best in years. Trees are now heavily loaded and giving promise of a high quality of apples, peaches, plums, cherries and many other kinds of fruit.

### Use This Cultivator For Better Work

Here's the cultivator with outstanding features that put it far in advance of other machines of its type. It has two-row capacity, which enables you to make a real reduction in your labor costs, and you do a better and easier job of cultivating. It's the

#### John Deere ND Two-Row Cultivator

Get into your fields with the ND this year. You will be sure to like the simplicity and convenience of the one master lever, by means of which you raise and lower rigs without stopping at ends of rows. Quick, easy dodge makes it easy to follow crooked rows. Works all the soil—shovels always cut out their full width and kill all the weeds. Knife attachment can be furnished. Remember, this cultivator is unusually long-life. John Deere quality throughout. Come in and let show you other good features of the ND.

—QUAKER STATE OIL—

### BRICK GARAGE

Locals seem to be as scarce this week as the proverbial hen's teeth. Oh, for some good friend to apply each week with a nice batch of them already written out during this hot weather.

County Agent Roy Davis says the crops are making fine progress and so far as he can tell the high winds of Saturday, Sunday and Monday did not seem to damage them any to

amount to anything. JULY 10 to 20 has been set as the dates for the fourth annual motorcade conducted by the West Texas Chamber of Commerce so as to include two district meetings of the regional organization. These are the Big Bend district meet to be held at Van Horn on July 13, and the Pecos Valley-Inter Mountain meet to be held at Roswell on July 16.

**Our Students Can Enter Any Texas College**

For the benefit of those who do not know, and for those who speak about things they do not know, and for those who are perturbed about things they hear about the school, I wish to make the following statement: In bulletin No. 238, State Department of Education, Directory of Classified and Accredited High Schools, Brownfield is given 4 credits in English, 4 in Mathematics, 4 in History, 2 in Spanish, 2 in Mechanical Drawing, and one each in Chemistry, Manual Training, making a total of 18 credits.

Any college or university in Texas will admit the graduates of an accredited high school when they present their entrance slip showing that they are graduates, and have 15 affiliated credits signed by the superintendent of that school.

Texas Technological College says that the requirements for full entrance is 15 units, ten prescribed as follows: English 3 units, Foreign language 2 units, mathematics 2 units, 2 from either history, civics, economics, or one from chemistry, general science. From any accredited high school subjects, five others making 15 in all.

Parents that have children graduating from the Brownfield high school need not be worried about them entering any college or university in the state, since the state has pledged that they may do so. The main thing to worry over is to see that they secure these credits, then all will be well. I have written the above statements that you may know the facts.

W. B. Toone, Supt.

Master Bert Elliott went to Midland last week to visit with his sister, Mrs. J. A. King for a few weeks. He is the son of Mr. and Mrs. Dee Elliott of this city.

**TEXTILE STUDENTS ARE GIVEN GOOD POSITIONS**

LUBBOCK, Texas, June 17.—The five graduates of the Texas Technological College textile department who received their diplomas May 27 have all secured good paying positions with large companies, according to Professor E. W. Camp, head of the department. Professor Camp said he had never known textile graduate students to secure jobs with such uniformly large salaries. He ascribes this to be increased growth in textile manufacturing and to the movement of the textile industry southward.

College officials are also very much pleased that the first graduates of the textil department have been able to secure places with nationally known concerns, thus giving evidence of the high standing which this department of the institution has already achieved in the textile world. And it is further seen as proof that the school is fulfilling its mission to stimulate the textile industry as was intended by the founders of Texas Technological College.

Jack Maddox of Mission has accepted a place with the Goodrich Rubber Company, of Akron, Ohio, and has already commenced his duties. He is in the company's textile laboratories.

Rudd Hardesty of Abernathy will be in the knitting department of the Davenport Silk Hosiery Mills of Chattanooga, Tenn. He will begin work July 1.

DeWitt McGehee of Wayside has been offered a position with the American Chatillon Corporation of Rome, Ga., a five million dollar concern engaged in the manufacture of Rayon.

Jule Love of Marshall and Ray Thomas of Tehuacana have both accepted positions with the Goodyear Tire and Rubber Co. of Akron, Ohio. They will begin work July 1.

Anton Hansen and Frank Swenson were in Monday from the Hunter community after building supplies.

**U. S. POPULATION  
GROWS RAPIDLY**

**Census Head Expects It to Reach 120,000,000 Next Year.**

Washington.—The population of the United States is now increasing at the rate of about 1,400,000 persons a year, or about one person every 23 seconds, according to William M. Stewart, director of the census bureau of the Department of Commerce, who recently outlined the scope of the work to be done in taking the 1930 census.

"The total increase," said Mr. Stewart, "is made up of the annual excess of births over deaths, which amounts to an additional 2,000,000 per year. By 1930 the population will be more than thirty times as great as it was in 1790, and nearly twice what it was in 1890, or only 40 years ago."

The census figure for 1790 was 3,826,214 and for 1890 the total population was 62,947,714. The census taken in 1920 showed a population of 105,719,620. The census bureau has made an estimate of population on July 1, 1927, as 120,719,620.

**Census Knowledge an Asset.**

"History records no other instance in which the population has increased so rapidly," said Mr. Stewart. "Further, there has been no other nation in which the increase in population has been accompanied by such improvement in the comfort and well being of the people. As a statistician, I believe this advancement has been due in no small degree to the definite knowledge we have of our production, our resources, our facilities for transportation, and our population as expressed in current statistics."

It required 13 months to take the first United States census in 1790. In taking the 1930 census the director will be required in one month to enumerate more than 120,000,000 people.

"The 4,000,000 people who lived in the United States in 1790," said Mr. Stewart, "occupied a territory of 868,000 square miles, there being 4.5 persons for each square mile of territory. The present area of continental United States is 2,974,000 square miles and the average population per square mile in 1920 will be more than forty, or nearly ten times the earlier average."

"In 1790 there were in the United States only six cities having as many as 8,000 inhabitants. The population of these cities formed a little more than 3 per cent of the total population of the country. In 1920 there were 124 such cities and their population was nearly 44 per cent of the total."

"Including the population of smaller cities down to those with 2,500 inhabitants, the urban population of the United States in 1920 formed a little more than half of the total and the rural a little less than half, while the farm population taken alone formed less than 30 per cent."

**A Nation of Cities.**

"It appears, therefore, that we are becoming more and more a nation of cities. But there are strong factors operating against this tendency. One of the most potent of these is the automobile. You may be obliged to work in a city, but if you own a car you can readily live out in the more spacious regions of hollyhocks, roses and vegetable gardens."

"There are some who prophesy that by reason of this growth of suburban residential areas, the 1930 census will not show the usual increase in the proportion of urban population."

"The first census recorded only the name of the head of the family and the number of persons in the family, distributed into four or five groups or classes. The family of John Hancock, for example, was reported as comprising two white males over sixteen years of age, three white females and seven other free persons, not white, who were presumably negro servants."

"There are about 3,100 counties, 17,000 incorporated cities, boroughs and villages, ranging in size all the way from the little village of Derling Harbor, N. Y., which at the last census could boast of a total of three inhabitants, to the great metropolises of New York, Chicago and Philadelphia."

**Admit They Don't Like Women Smokers**

Syracuse, N. Y.—A few side lights on students of Syracuse university were revealed recently by the results of questionnaires circulated among them by Prof. Julian D. Corrington of the zoology department.

Of the 85 collegians taking the test, 30 admitted falling in and out of love at random, 57 said they wise-cracked, 44 detour cantaloupe sans seasoning, and 51 are "agin" the present-day usurpation of gentlemen's smoking rights by women.

The professor said he gave the tests not as a psychological experiment but as a means of discovering variations of thought among the students. They were allowed three seconds in which to answer each question.

**SHOWER FOR MRS. RIDGEWAY**

Miss Marie Bell assisted by her mother, Mrs. M. C. Bell, entertained Wednesday afternoon with a miscellaneous shower for Mrs. Weldon Ridgeway, who was Miss Allie Hamilton until her recent marriage.

Upon the arrival of the guests, punch and cakes were served by Misses Ruby Johnson and Mauritta Bell. A pleasing program was given in which Mrs. Harry Longbrake sang "Dream House;" Mrs. E. V. May toasted the girls left behind. Miss Anne Letha Hamilton in a very appropriate manner presented to the bride a key which unlocked a beautiful cedar chest of gifts. The following toast to the bride written by Mrs. W. G. Hardin was read by Mrs. Baldwin:

"When you toast and brew and bake and stew,

When your world is upside down, When the time just flies and the baby cries

And the biscuits are over brown, Chase care away, there's a fairer day Which will dawn with its azure skies. There are those afloat in the selfsame boat

And we know how to sympathize. Let a fond wish pass with each sparkling glass,

That her life all smoothly runs That her joys may be as the sands of the sea,

And her troubles be little ones.

A humorous "Essay on Man" was read by Mrs. May. Many friends who could not go sent gifts.

The guests were Mesdames B. L. Thompson, D. A. Ridgeway, Frank Ballard, Chester Quiett, Arthur Sawyer, Baldwin, Downing, Ame Flache, H. H. Longbrake, Harry Longbrake, Wheeler, Dalton Lewis, Earl Jones, E. V. May, J. C. White, Will Cook, Chas. Hamilton, Bowers and Misses Ruby Johnson, Larue and Christova Sawyer, Nettie Thompson, Mamie Sue Flache, Robbie Marion and Kathaleen Hardin, Annie and Addie Hamilton and Sidney M. Hamilton.

Mrs. R. A. Crawford of Paris is visiting her daughter, Mrs. Boone Hunter.

Mr. and Mrs. R. B. Holmes of Seminole spent the week end with Mr. and Mrs. Leo Holmes.

**OUT-OF-TOWN VISITORS ENTERTAINED.**

Mrs. Chester Quiett of Pecos, Mrs. Herbert Lees of Big Spring and Mrs. Paul Stevens of Roswell were guests of honor Thursday afternoon when Mrs. John King and Mrs. J. D. Miller entertained at the home of the latter with a bridge party.

Seven tables were arranged for bridge with Mrs. Ike Bailey making high score and Mrs. McGowan next to high; Mrs. Bailey receiving a set of pretty rose marie shербets and Mrs. McGowan, an ice bucket in rose marie. The guest prizes were dainty handkerchiefs.

A pretty plate of sandwiches, fruit salad, potato chips, sliced tomatoes and iced tea was served.

The guest list included besides the honorees, Mesdames Bailey, Fred Smith, McGowan, H. W. McSpadden, Ray Brownfield, Dallas, Graham,

Cecil Smith, Shelton, Arthur Sawyer, Camron, M. C. Bell, Webber, Claude Hudgens, Walter Gracey, Chester Gore, Morgan Copeland, Kendrick, DuBois, Toone, McDuffie, Michie, Earl Jones, Leo Holmes, Bowers and Miss Marie Bell.

Mr. W. G. Harris and family left Sunday for a visit with relatives in Pilot Point, Denton and Kaufman.

Mr. and Mrs. J. B. Jouett and daughter, Miss Sue Bell, of Elizabeth, Louisiana, visited her sister, Mrs. L. C. Wines and family Friday.

**BIRTHDAY PARTY FOR LAVERNE COLLIER.**

Mrs. Roy Collier entertained a host of little folks Friday afternoon in honor of her little daughter's, Laverne, seventh birthday.

After enjoying two hours of playing games, the white birthday cake with its seven pink candles was cut and served with ice cream.

The little folks enjoying this party were Winona Pace, Valdene Dumas, Aubry Inez Linville, Charles and Bernice Marie Baldwin, Jackie Holt, Christine Hamilton, Doris Gore, Buster and Velmoise Burnett, Earlene and Evelyn Jones, Betty Joyce and Donald Bynum, Mary Nell Adams, Marjorie Sue and Katherine Bynum, Beth Hamilton, Florene Williamson, Jenna V. Murphy, Nina Ruth Dunaway, Louise Allen, Mary Evelyn Eulanks, Mary Faith Harris, Laverne Hoover, Sammie Legg, Bettie Jo Savage, Caroline Jones, Bobbie Virginia and Marion Bowers.

Mrs. Walter Gracey is at home after a three week's visit with her sister at Enid, Oklahoma and her mother in Floydada.

Mrs. Joe McGowan and Bill have been visiting relatives in Quanah and Paducah.

Mr. Dalton Lewis and Glen Webber returned Monday from a sight seeing trip in Arizona visiting the Grand Canyon and other points of interest.

Mr. and Mrs. Ed Smith and son, Edwin have returned to their home in Vernon after staying a few days on the ranch west of Plains.

**SLUMBER PARTY FOR GIRLS**

Last Friday evening Miss Mary Ann Bell entertained with a bridge and a slumber party. After the games refreshments were served.

Ulysses Graham, James Harley Dallas, Bill Collins, Dr. Parrish and Will Alf Bell were bridge guests while Misses Kathaleen Alexander, Elizabeth Hargrave, Lucille Webb, Fay Brown, Sue Flache and Vivian Winston were guests of the bridge and slumber party.

Mrs. Herbert Lees and children who have been visiting her parents, Mr. and Mrs. W. H. Dallas returned Sunday to their home at Big Spring. They were accompanied by Mrs. Arthur Sawyer who will visit her sister, Mrs. Ransom King.

Mr. Charlie Rushing and children

of Stephenville returned Wednesday after a visit with his sister-in-law, Mrs. Dalton Lewis and family.

**MRS. GRIFFIN ENTERTAINS FRIDAY FORTY-TWO.**

Mrs. J. H. Griffin entertained the Friday Forty-Two Club Friday afternoon at four o'clock. The high cut prize was a vase and went to Mrs. Pat Brothers and the low cut prize was a bon bon dish and went to Mrs. Baldwin.

To Mesdames H. W. McSpadden, Longbrake, Borthers, Baldwin, Kendrick, Simon Holgate, Hamilton, Gracey, Downing, Webber, John Seudday and M. B. Sawyer was served ice cream, angel food cake and punch.

Earl Jones, Jake Hall and Tom May are vacationing at El Paso?

Bill Youree of Wichita Falls is visiting his mother and brother.

Mr. and Mrs. Raymond Barrier of Lubbock visited relatives here during the week.

Mrs. Roy Herod and Mrs. E. M. Singleton are visiting friends and relatives in Abilene and Cisco.

Mrs. Will Moreland of San Angelo spent the week end with her cousin, Mrs. B. L. Thompson and family.

Mrs. B. L. Thompson and Miss Nettie and Mrs. Weldon Ridgeway went to Prairie View, New Mexico, Thursday to visit Mr. Thompson and Mr. Ridgeway. Mrs. Ridgeway remained.

Mr. and Mrs. Will Alf Bell left Thursday for Marshal because of illness of Mr. Bell's mother.

Mr. and Mrs. L. F. Hudgens have as guests their two grandsons from San Angelo.

Mr. A. M. McBurnett returned Thursday from Roscoe, Texas where he was called to the bedside of his brother who died the preceding Tuesday.

Mr. and Mrs. E. B. McBurnett returned Wednesday to their home at Crowell after visiting his parents, Mr. and Mrs. A. M. McBurnett, and her parents, Mr. and Mrs. L. R.

Pounds.

**MRS. THOMPSON HOSTESS TO MISSIONARY SOCIETY.**

Mrs. B. L. Thompson was hostess to the Methodist Missionary Society Monday afternoon in a social and study meeting. Mrs. Wheeler led the lesson on "Jesus, the Ideal."

Sandwiches, cherry pie and iced tea were served to Mesdames Cleve Williams, Hester, Wheeler, Longbrake, Powell, Webber, Linville, Dodson, Downing, Jackson, Ridgeway and Carpenter.

**BIBLE CLASS MEETS**

The Bible Class of the Church of Christ met Monday afternoon at the church for regular study. Mrs. Bowers led the lesson on "The Shorter Epistles." The members present were Mesdames Hamilton, Jackson, Williamson, O'Connor, L. F. Hudgens, Sanders, Moore and Bowers.

**JOINT SESSION FOR BAPTIST LADIES AUXILLIARY.**

The Baptist Ladies Auxilliary met at the church Monday afternoon in joint session with twenty-five members present. The president, Mrs. W. W. Price presided. After the regular business session, a short program was rendered by Mrs. Collins and Mrs. Auburg. Miss Conn gave an inspirational talk concerning the B. Y. P. U. training class. All of the reports were very encouraging.

Next Monday the Auxilliary meet in Circles.

**THE YOUNG WOMEN'S MISSIONARY SOCIETY.**

The Young Women's Missionary Society met Thursday afternoon at the Methodist church for a "Missionary Voice" program with Mrs. C. R. Baldwin leader.

The members present were Mesdames Knight, Boone Hunter, J. C. Hunter, Allen, Virgil Bynum, Fitzgerald and Baldwin and Mrs. Jackson as visitor.

**SHOWER FOR TWO PRESBYTERIAN BRIDES.**

The Presbyterian Missionary So-

cety and the S. O. S. Sunday School Class sponsored a miscellaneous shower Monday afternoon at the home of Mrs. H. W. McSpadden for Mrs. George W. Lane who was Miss Roselle Goodpasture, and Mrs. Bud Williams of Hot Springs, New Mexico who was Miss Carrie Head. Both brides were members of the S. O. S. Class and were married on the same day.

Garden flowers were used in the decorations of the house. Punch and cake were served in the dining room upon the arrival of the guests by class members. An entertaining program followed with readings by Miss Francis Brownfield and Miss Lenore Brownfield. Mrs. J. H. Griffin toasted the brides. "These Wedding Bells Are Breaking Up That Old Gang of Mine," was played on the Victrola. The pep squad with Miss Florence Holt leader gave several rabs after

which the gifts were brought in two baskets by Dorothy Murphy and Estelle Goodpasture who were dressed as colored laundresses.

Sixty-five guests registered in the two hand-painted bride's books presented by Mrs. H. W. McSpadden.

Roy Collier and family left Sunday afternoon on vacation, their first stop to be Brownwood, where they will visit Mrs. Collier's mother and sister, Mesdames J. W. Welch and N. L. Brandon. After a trip to south Texas, they will return home via north Texas, where Roy's parents will be visited. The undertaking job in his absence fell to Sam Tankersley, but we understand Sam threatened to resign, and Bill Downing will answer calls.

We appreciate your subscriptions.

**NOW FOR A COOL REFRESHING TREAT**

Pull up to the curb or come in for a refreshing treat whenever the weather gets too hot for you. Our fountain is the town's "cooling off" Mecca these days. Meet your friends here and order an ice cold drink or a frozen dish. It will change your whole attitude on the hot weather.

By Aesculapius.

The United States has just had its second tea party. The first was in Boston harbor, nearly 156 years ago; the second was pulled off at the White House, Washington, D.C., a few days since. The first was to resist with emphasis the attempt of a king to tax a people without their having a voice in the making of laws that should govern them. The second, a puny attempt to lift a negro woman into the social life of Washington and impress the negro of the South with the thought that the Administration would leave no stone unturned to break down the barrier of race inferiority; that color and form-c. servitude should not militate against his attaining the social equality rung of the ladder he has sought so long.

Other administrations have extended the glad hand of recognition to the Senegambian, but heretofore it has been a Ho-Coon that was allowed to climb up. In the last the sop was given the She-Coon.

It was undoubtedly a splendid oc-

clusion. It was intended to set a precedent, and the greatest publicity was given the affair. I can imagine the necessary preparations: The colors should have been green; the decorations of gourd vines; the table vases should have contained sprays of Jerusalem Oak—the kind that uster grow in the corners of the fence and was given the kids for worms. The odor of lysol would have given an air of freshness to the assemblage. Just how this aggregation of female misfits were groomed despondent say I do not. Sure all of them should have worn black stockings and gowns of yellow, set off with a permanent wave. We congratulate our Hoover crowd on the acquisition of this lady of ancient lineage to the society of the capital city of the nation. Wonder if Tom and Oscar were on hand to swat flies and look after the cuspidors. The more I see of some so-called human beings, the better I like dogs.

Is anyone surprised at this turn of affairs? In his acceptance speech, the President said that "he would make no difference between race, creed or color. This will not be the last straw either. This episode gives

some color to the assertion that he danced with a ginger-cake gal during the Mississippi floods. You know that some of our Hoover crowd turned black in the face and almost fractured their lungs denying this charge. Well, if his wife can fete and tea one of the race, its dollars to doughnuts that her husband can go her one better. It could not have occurred without his express wish.

This recognition of the race will be followed by attacks on white women of the South, followed in turn by bar-boccos like that at Paris in 1892, or roasts like that at Tyler. Better put armour plates on the statute of liberty or some black brute will attack her before the year has passed.

Coon! Coon! Coon! I wish my color would fade.

Beacuz I likes a lighter shade. The negro deserves and should receive justice. Educational help has about equal to the white race throughout the South. Social equality will never come to him. North or South. Why, we don't even have white equality. Our country is one of classes, and the passage from one to the next above—so called—is a darn slow climb. Try it.

So much for the social doings at Washington. In our own capital at Austin they are also making history and drawing their salaries, and incidently increasing our taxes. Our ubiquitous Governor is worrying the lawmakers and fixing his fences for the race for U. S. Senator. He is some historian in addition to his other qualities. He appears to remember that one Charles Culberson gained renown and the U. S. Senatorship stopping a prize fight, although he was forced to call a special session of the legislature to help him.

How one who enjoys a gridiron battle can find any fault with the "bruisers" passes my understanding. There is more fatalities and other accidents maiming men on the gridiron in one season than in the squared circle in the past fifty years. Yet, in spite of this our state universities and the church school maintain at great expense a football team.

Let all who read this remember that on July 16th two amendments to the State constitution are to be voted on. One is to raise the Governor's salary from \$4,000 to \$10,000 per year, and the other is to increase the Supreme Court Judges from three to nine. Both should get the ax. We have too many courts now, and their salaries would soon be raised to \$10,000 per year, as this figure seems to be the goal of the average seeker from collector to governor. Our Governor already receives the equivalent of something like \$8,500. Salary \$4,000 and the executive mansion rent free valued at something near \$1,500. The mansion is fully equipped and laundry, lights, water, telephones, swatters, also traveling expenses of \$500. We have had a few governors that have lived on this wage. In spite of the so-called inadequate salary, a large part of the population try to get in the running for governor each two years. Let's reduce the salary instead of increasing it.

I don't think that with taxes increasing rapidly there should be any more places made for a lot of dead-head lawyers. In addition to this bunch of nine, we already have about eleven courts of appeal and in addition some commissions of appeal. In

spite of all they say, this bunch of hungry lawyers will be installed for all time to come. Who ever heard of a paying office filled by a lawyer being repealed, discontinued or even abolished?

Go vote and let's kill the darned amendments so dead they will never poke out their snaky heads again for a century at least. Most of us will be dead by that time and they can then do as they please.

Most of what the average farmer or other wage earner gets hold of these days goes for taxes. The farmer in this section is living on the cream and eggs produced on his farm and to talk of increased salaries or any other avoidable expense is well nigh criminal. Our wives and daughters can hardly make the lower border

of their dresses and the tops of their stockings meet now. With higher taxes, what might happen.

Crops of both kinds seem to be flourishing in this vicinity, and I have heard that it is getting dry and the wind is still moving the sand.

The Stork continues to depredate and fool car drivers fail to find the crossing of the railroad below town, although there are three boards on one side to warn them. In the past three weeks two new Fords have been wrecked at this crossing. The last one burned up and its occupants skedaddled after the accident. Fool driving has its compensations, as now and then one is retired.

Born to Mr. and Mrs. Walter Duke, a girl the past Saturday night.

**BOLES WELL WILL**

GO DOWN 5,000 FEET

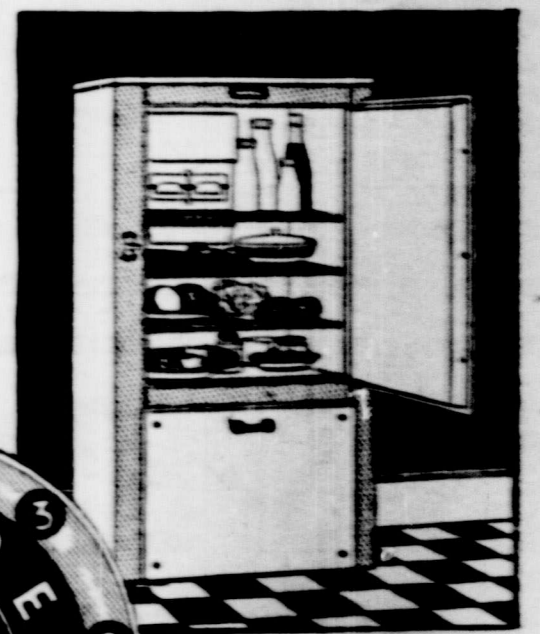

With finances available to drill to a depth of 5,000 feet on the Boles No. 1, eight miles southeast of Lubbock, and the hole practically cleared after some sixty days of fishing, drilling will be resumed on the well within the next few days. The tests at a depth of 4,170 at present, and samples from this depth reveal some very interesting formations, that will aid greatly in future operations in this territory.—Plains Progress.

Miss Clara May of Wilson, Texas, one of the teachers in the B. Y. P. U. training school here this week, is spending the time with her cousin, Rev. E. V. May and family.

With more than a million Frigidaires in use we announce a second National "Cold Control" Demonstration

See the "Cold Control" in actual operation. See how delicious frozen desserts are made. Taste them. Get the free souvenir book containing recipes. See the "Million Model" Frigidaire now on special display for the first time in this city. Will you be our guest?

Starting Tuesday for 8 days only

The "Million Model" Frigidaire AP-4. Finished in porcelain enamel inside and out. Only \$29.95—positively your home.

Frigidaire has the "Cold Control" for faster freezing of ice cubes and desserts. This is in addition to the standard temperature regulator which automatically holds an even temperature in the food compartment.

ation has any single improvement created such widespread enthusiasm. It has helped make possible the sale of the millionth Frigidaire.

So again we are giving a special 8-day demonstration. We are showing how the "Cold Control" gives faster freezing of ice cubes, salads and desserts. We are showing how it gives you Frigidaire-frozen delicacies that could never be made before. We are showing how it adds to the pleasure and convenience of automatic refrigeration.

Spend at least a few minutes in our display room sometime this week. We will be open evenings until 10 o'clock.

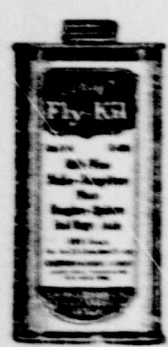

PEOPLE everywhere are talking about the sensational Frigidaire "Cold Control." People everywhere want to see it. They want to know more about it. They want to find out what it does. Never in the history of electric refriger-

SPECIAL OFFER to all who buy Frigidaire before 10 p. m. July 5
