BROWNFIELD, TERRY COUNTY, TEXAS, JULY 12, 1929

NUMBER 47

## On the Proposed School Bond Issue

We are here giving you something definite relative to the necessity, purpose, cost, etc.

We would first state that the Legislature recently passed a law lowering school age to 6 years which is to take effect in 1930, which will bring some 40 or 50 additional students into our system. In this connection the school board has been presented with a petition signed by 28 parents of children ranging from 5 years to 7 years of age asking that we put on a kindergarten teacher for this next regular term. The law provides that when presented with such a petition that we shall put on this teacher. You can see that we will be crowded with this additional room from the start, which effects any additional room that we might have at the Grammar School building. The Grammar School will be full to running over from the start.

There were passed from the Grammar School to High School this year 47 students and 27 graduated from High School which from that source alone will increase the size of High School and make further taxed conditions. There are indications that there will be far more transfers into this district this year for High School than has ever been before. We would state also that we now have an over crowded condition in the town since every house is occupied and in several houses are two and three families, you have always found plenty of vacant houses in town at this time of the year before. Our crop conditions are good at present and if matured as they now look we could naturally expect a big immigration from that source.

The school now has some library with no place to put it. Had a Manual Training Department last year with room and tools enough for 5 or 6 students when we should have 30 or 40 students. We have no Domestic Science, Home Economics, Agriculture, and many other things that we might mention as Bookkeeping and Typewriting, which are now maintained by all schools most all over the country. Our school now has 18 units of affiliation and we should have 25 at the outside and I am not too strong on too many credits of affiliation, but I do believe that we should have the most important units. In order to put on more work or to maintain what we have we are going to be compelled to arrange for room. We can only do this arrangement economically by building substantially.

It was the purpose of the school board to submit plans, a picture or coloring of which you will find on display, and we are not prepared just now to say where, but somewhere in town, of what they thought after several weeks of consideration and study of the needs and requirements, not only from a standpoint of advancement for the school but from a financial standpoint of the district and its taxpayers, for each member of the school board are representative tax payers of the district, most of whom are making a fair living for themselves and their families, which we usually term successful. The building as proposed should have an auditorium and some 10 or 11 rooms besides to accommodate the school, in the way of additional class rooms, laboratory rooms and sewing rooms.

The present valuation of our school district is in round figures \$2,500,000.00 as based on last years assessments. This year we believe at its average rate of increase in the past that it should run \$2,750,000.00. At this valuation it will take 20 cents or the hundred dollars to pay for the \$75,000.00. You of course understand that our rate is now the limit of \$1.00 and has been for some time in the past, which rate cannot be raised, that it would be necessary in order to raise this 20 cents on the hundred dollars, that assessments be made to cover the additional amount, but we believe that in a period of 2 or 3 years that our valuations would be so increased that the present valuations would be sufficient to cover the additional costs.

There have been rumors that we would spend a part of this money for a teacherage. We wish to call your attention to the Order of Election and that the law provides that this

## Rail Birds

## Gomez to Erect Splendid School Building

The Board of Trustees of the Gomez Independent School District, let the contract Monday for the erection of their splendid new fire-proof school building for which \$18,000 was voted some time ago. Lee Thompson, of this city got the contract for the building, and the material will be furnished him through the Cicero-Smith yard in this city. The contract price was \$14,984.00, we understand, and the rest of the money will be used for equipping the new building.

The building will be of face brick and tile material and plastered in the inside. It will be one story and contain six class rooms and a large auditorium. We understand that the building will be furnace heated.

We are glad to see the school communities of the county stepping out and putting up good, substantial permanent buildings. They spent some \$2,000.00 a few years ago in remodeling their old wooden building but have since seen their mistake, and are now building for years in the future. We understand that the new building for the Needmore district will be contracted today. They voted \$16,000.00 for their building, and the plans and specifications have been approved. We have not seen their plans, and cannot give them at this writing, but will tell the reader about their building next week.

## Tech Report on Two Of Our Local Boys

Bill E. Collins of Brownfield made the honor roll for the spring term at Texas Technological College with an average grade of B on 15 term hours of work, according to the report of the registrar's office.

James Harley Dallas of Brownfield made the honor roll for the spring term at Texas Technological College with an average grade of B plus on 15 term hours of work, according to the report of the registrar's office.

money can only be spent for the purpose set out in this order. The matter of spending for this purpose was never mentioned at any board meeting. We believe as patrons that after you have gone into the matter with as close a study as the school board has that you will vote "yes" on the bond issue and feel like you know that a school board of 7 men who are representative tax payers of the district will do their best to spend the money to a good advantage.

Yours,  
Fred Smith.

The Herald \$1.00—Tell Your Friends

## First Gas Demonstration A Big Success

Mrs. W. W. Graves and daughter, Mrs. Alexander, came down from Lubbock Tuesday of this week to put on the first of a series of four days of demonstration of gas cooking ranges. The demonstration opened in the offices of the company in the Hankins building. Some 75 or 100 of the ladies of the town attended the first afternoon, and were well pleased with the information gained, as well as the nice way they were entertained and the efficiency of gas as a cooking fuel. Many good eatables were distributed among the ladies as well as men who attended.

In her talk to the ladies, Mrs. Graves gave some very valuable information, while the ladies were seated in chairs about the front of the building in the use of natural gas in heating and cooking, and promised that if she had not made herself perfectly clear that she would return after service is given here and help them all she could. Mr. J. D. Williams drew the prize for the afternoon, which was a nice set of bath towels. There will be demonstrations three other afternoons of this week, Wednesday, Thursday and Friday.

The forces here were welding hope to complete their task this week, if weather permits, and the crew laid the line from Tahoka in to the corporation limits last Saturday. Officials felt sure that at least some would be using natural gas here by the first of August.

## Acorn Store Changes Mgrs. at This Place

Leslie White, district manager of the Acorn Stores, Inc., of the West Texas district, with headquarters at Big Spring, was up this week and installed his father, Mr. H. E. White as manager of the Acorn Store at this place, succeeding M. E. Singleton, who has been manager here since the store opened. We welcome Mr. White to our city, but regret to lose Mr. and Mrs. Singleton, who have made a host of friends while here.

These gentlemen were accompanied by Mr. H. J. Ferris, who is representing the New York office of the company.

## MODEST MAN

Peggy—"The man I marry must be brave as a lion, but not forward; handsome as a Greek god, but not conceited; wise as Solomon, but meek as a lamb; a man who is kind to every woman, but who loves only one."

Peter—"How fortunate that we met."

## Must Not Hamper the Growth of Our Schools

There are a number of things one can economize in and do just about as well as the other way around, but when one begins economizing too much with their schools, they are liable to ruin something that will take years to overcome. We do not mean by this that money should be wasted. In fact, few of us ever heard of money being wasted on a school plant. It seems at taxpaying time that our taxes are more than we can bear, but when we begin figuring we find that we are getting an education for our own and our neighbors children cheaper a hundred times than we could do the work or hire it done somewhere else.

We must also figure what our schools amount to as an asset to our community. We must stop a moment and just imagine what would happen to our fine community if we should wake up some morning and go up to our school buildings and find a big sign on them reading: "CLOSED PERMANENTLY." There would not be a store here in five years, and the churches would close in less time. Did you ever hear of a real tough place in the west when the west was really wild where schools and churches were given any thought? No. Well, that was the reason that they were wild. Churches and schools are the greatest civilizers the world has ever seen, and the most ignorant, the most benighted places are those containing neither. Show us the community with the greatest pride in their schools and churches, and we'll show you the most progressive, the most intelligent, and the most law-abiding community.

With these facts in mind, let us united go to the polls on Monday with full determination to put over the greatest school program we have ever undertaken here. Let's go with the determination that we will provide for our children and the children of our friends and neighbors a school up to those provided in any of the cities and towns of the class of Brownfield. Let's go and give our boys and girls the chance of every advantage in the way of affiliation that they may not be embarrassed when they go off to college to complete their education. Let's not waste money, but spend it wisely, and spending money for educational purposes is one of the most wise ways that we are aware to spend it.

Don't forget also that Tuesday is another day, and lets help all of old Terry out by helping put over the small bond issue for paving around the square with the cheapest money that can be procured and at the same time the city is paving. It will be more economical to pave then than at any other time.

## Huge Crowd Here For The Bargains Saturday

One of the largest crowds that has been upon the streets of the city for several weeks were here Saturday, and most of them were in a real good humor, for all of the west end and most of the east end of the county had received rains in the past two weeks, and the crops were reported to be growing nicely. Therefore the farmers were all feeling "fit" as the saying goes, and were actually here to buy some stuff as well as to see and be seen.

From week to week it seems that our crowds are gradually increasing for the week end trade, and owing to the fact that no new people are coming in much at this time of year, this can be accounted for in no way except that the merchants here are just simply gradually extending the width and breadth of the trade territory and bring more and more people here to their shopping. Some of this is of course due to the persistent use of advertising space in the Herald and a lot of it comes by customers talking up Brownfield as a trading center to people who have heretofore been going to some other point to do their trading. Some of it comes by neighbors lending their Herald to others who live near them but probably closer to some other town than they are to Brownfield. This is often confirmed by people coming in and subscribing for the Herald for the benefit of the ads alone.

There is still another angle to the matter that appeals especially to people who come here to trade. They are not needlessly molested about traffic rules except at the very busiest corners, and our wide streets permits parking three deep on them. That is, one may park on both sides of the street at the curb, and in the center of the streets, yet permitting full and easy traffic up and down them.

Still another drawing card is that our merchants show their appreciation of this trade whether one makes a large or small bill. Perhaps 90 percent of the merchants here are either former farmers, or were raised on the farm, and they know how to carry on a conversation with a farmer. In other words our business men know what a farmer means when he mentions a hame string or a bellyband. They soon learn each others given names, and to each other they are simply Tom, Bill, Dick and Harry, and Tom would as soon sell his brother a fecked banana as to sell one to Bill, and when Dick comes to town and tells Harry that his eggs and butter are strictly fresh, he means what he says, and its just that way. There are a few exceptions to this perhaps, but there are very few if any.

Then real service goes with the trade. There is a good fire going if it is winter, and plenty of ice water and fans if hot weather for the customers to freely use. No matter where the car or wagon was stopped, the merchants will see to it that all purchases are carried to the vehicle for the customer, if he cannot park near the store. This service is given without grudge. In fact, it appears to be a real pleasure to our merchants to accommodate their customers. Some people think that farmers never make good business men. We once heard a fellow remark that all the merchants in Brownfield were a bunch of farmers. Well, that bird did not belong here, but was a "drop in" who failed to put over a graft on our merchants and he was mad. The business men of this city will refute any such idea as the above. Come and see.

## TWC TECH JUNE GRADUATES WITH STANDARD OIL CO.

Lubbock, Texas, July 8.—Paul Leforge of Amarillo and Jerome Sanders of Haskell, June graduates of the engineering school of Texas Technological College, are connected with the Standard Oil Company for the summer. They are working in the plant at Elizabeth, New Jersey doing research and development work. Both specialized in chemistry and were student assistants in that department of Tech. They plan to enter Yale this fall and work toward the Ph. D. degree.

W. D. Moor, Wellman merchant, was up the next week and informed us that he had both stores there, but would sell one of them.

## Is Brownfield Growing? It Must Continue

Will the putting in of gas help the growth of Brownfield? Is the coal stove just as good as the gas stove? Is there a saving of work in the gas stove? Is there a saving of soot in the change from coal to gas?

Will the paving of the streets add to the growth of Brownfield?

When people see these improvements and wish to move here, they ask, "And what about your school?"

Yes we have affiliated schools.

Have you Home Economics for girls? No, we have no rooms for that. We began to teach that, but had to stop it because we had no room. Have you Manual Training for boys? Yes, we can accommodate six. How many wish to take manual training? About fifty. Have you bookkeeping and typewriting? No, we have no room for them. Have you a good library? No, we have a few books in the English room, but the supervisor of school so advised us to set aside a room adjacent to the study hall. Have you General Science and Biology? No, we have no room for them? Have you a chapel for opening exercises and for giving plays and commencement? No, we use the study hall for chapel exercises and we go to the opera house for our plays. Health and physical exercise is so essential to the children. Have you a good gymnasium? No, we go to Ropes when we wish to have games. It seems that you need a good many things for your school?

Yes, but we have ordered a bond election to meet these deficiencies and when the people know our needs they will vote "yes" to meet them. They will not wish their school to lag behind the other improvements of the town and cause good citizens to go to other towns to get what we ought to have here.

You believe in your town then? I certainly do. They have always done the right thing and they will do it this time. The people of Brownfield know what a great asset to a town a good school is and they know that they can not have the best school without a good building and equipment. They do not wish to see Tahoka with its hundred thousand dollar school building, and its magnificent auditorium; Post with its splendid building; Seagraves with its beautiful building; Levelland with its substantial school building; Gomez with its new building and auditorium; Meadow with its new building; Lamesa with its magnificent school system, and Brownfield without an efficient school building. Being equal and ahead of these other towns in other things, when she thinks of her school building she would be like a strutting peacock when he sees his feathers fall. When the people of Brownfield know the facts they will not sacrifice their children on a cross of gold.—Contributed.

## Child Dies From Rattlesnake Bite Tuesday

The little fifteen months old son of Mr. and Mrs. Bailey Bridge of the Tokio community, was bitten by a rattlesnake Tuesday morning about 8 o'clock, and died Wednesday morning about 7:30. He was given rattlesnake serum by a local physician who stated the serum seemed never to take effect.

The mother of the little fellow set him out in the yard near some vines, but she did not notice the snake coiled in the vines, which later struck the little fellow sinning his fangs into the child's back. The mother tried sucking the poison out, but neglected to slit the wound with a knife, and too much of the poison got circulated with the blood into the little body. At the time this is written no funeral arrangements had been given us.

## THE WISE GENERATION

Teacher—"We are going to have a little talk on wading birds. Of these the stork is one—what are you laughing at, Elsie?"

Little Elsie—"Oh, but, teacher—the idea of there being any storks!"

R. W. Smith had business in the county capital Tuesday.

**Streets Badly Torn Up  
With Gas Line Ditches**

One has to watch their steps these days, for one hour one may pass along a street, and find it O. K., and the next hour have a ditch across it about two feet deep. This in a way has been some help, for it has somewhat lessened the speed of some of our "flying Dutchmen" as even they are sometimes a little careful of their own necks at least.

The gas company is doing its best to keep all piping out of the street at night, as well as lanterns on the ditches, but sometimes these go out in spite of every precaution. Therefore, it will pay all to pull down the speed of the bus some forty or fifty miles per hour and keep a sharp watch out for ditches. The company usually keeps the whole street closed only an hour or so, and open a passage through it.

Mr. and Mrs. W. C. Smith and sons, Adolphus and Dell returned Wednesday morning from Glendale, Arizona where they visited their son and brother, Mumford and family. Little Miss Margurette Smith returned with them.

We have been authorized to announce that a series of revival meetings will begin tonight, the 12th at the Church of Christ at Meadow. These meetings will be conducted by Elder E. S. Fitzgerald, of Rotan, Texas, and will continue for ten days or two weeks. One and all are invited to attend part or all of these meetings.

C. L. Wines is building two additional apartments onto his apartment house just north of the Wines Hotel. They are being constructed of tile, which will be stuccoed on the outside and plastered inside. We understand he will lease his hotel again and look after the apartments.

**IN THE NURSERY**

No wonder the little duckling  
Wears on its face a frown,  
For it has just discovered  
Its first pair of pants are DOWN.

**CITATION BY PUBLICATION**

In the District Court, Terry County, Texas.

M. N. Thomas

vs.

J. S. Fisher and unknown heirs of J. S. Fisher.

The State of Texas to the Sheriff or any Constable of Terry County—Greeting.

You are hereby commanded, that by making publication of this Citation in some newspaper published in the County of Terry once in each week for four consecutive weeks previous to the return day hereof, you summon J. S. Fisher, whose residence is unknown, who is alleged to be non-resident of the State of Texas, to be and appear at the next regular term of the District Court of Terry County, to be holden at the Court House thereof, in the City of Brownfield, on the fourth Monday in August A. D. 1929, the same being the 26th day of August A. D. 1926, then and there to answer a petition filed in said Court on the 13th day of June A. D. 1929, in a suit, numbered on the Docket of said Court, No. 1154 wherein M. N. Thomas is plaintiff, and J. S. Fisher and the unknown heirs of J. S. Fisher, defendants; the nature of plaintiffs demand being substantially, as follows, to-wit:

That on or about the 12th day of January A. D. 1928 he was lawfully seized and possessed of the following described land and premises situated in Terry County, Texas being the southwest one fourth of Survey Number Eleven (11) in Block C-37 land containing 160 acres. That on the day and year last aforesaid defendant unlawfully entered upon said fore said Court on the said first day land and premises and ejected Plaintiff therefrom, and unlawfully withheld from him the possession thereof, to his damage in the sum of five hundred (\$500.00). That the reasonable annual rental value of said land and premises is \$500.00.

Herein Fail Not, but have you before said Court on the said first day of next term thereof this writ with

### MRS. BETTIE LONG CELEBRATES 70TH BIRTHDAY

Plains, Texas

A number of friends and relatives were royally entertained Thursday, June 27th at the home of Mrs. Bettie Long by her daughters, Mrs. Mat Williams of this place and Mrs. S. F. Keller of Brownfield. Those present were Mesdames Long, Danell, Cates, Moreman, Lynn, Calahan, McGuinity, Hague, Cox, Turner, McClellan, Sawyer, Trimble, Dixon, Geo Cleveland, Arnett, Bartlett, Criswell, Revel Morris and son, Davis and daughter, Luna and daughter, McLorien and sons, Jordan and daughter, Fitzgerald and daughters, Knight and children, Clouch and daughter, L. Cleveland and daughter, Williams and children, Keller and daughter, Miss Webber, Mr. J. Beal and Mr. Dick Long.

About 10:30 A. M. guests begin to call on Mrs. Long, telling her they had come to spend the day with her, and by the noon hour Mother Long had suspicions some one had surely been inviting guests.

At 12:30 P. M. the ladies were invited into the lobby, where Mrs. Williams announced that we came to celebrate Mother's 70th birthday, and asked her to offer thanks for the noon-day meal.

The ladies were all lined up above 60 years of age first and so on down the line to the children and marched into the dining room where each person was furnished with plate, knife and fork and were marched by the best loaded tables I have ever witnessed on the Plains. The tables were stacked with chuck of all kinds and sorts for you to help your plate, then we were marched out to cool room and galleries where tables were placed for all to be seated.

After lunch a number of kodak pictures were taken. Then all were invited to a room and seated while Mother Long was presented with a basket running over with nice gifts. Each gift passed down the complete

circle of ladies to all view and read cards.

After the gifts were all placed on the table, gorgeous material of bright colors, thread and scissors were passed to each lady and old timey split bonnets were made. Mrs. Cates received first prize, a big split bonnet; Mrs. Moreman, boobie prize, a big stick of candy. While seated in the circle with laughter and joke telling, in came a gypsy fortune teller, who made our sides ache with pain.

Then the birthday cake with the 70 lighted candles went down with the ice cream, like a fog on a misty morn. All went home wishing Mother Long 70 more birthdays as happy and true.

—A Friend.

### MUSIC IN THE AIR

The old songs will soon have to be revised and brought up to date. For example—

- "Parachuting Nelly Home."
- "In the Zooming, Oh, My, Darling!"
- "My Bonnie Flies over the Ocean."
- "After the Fall Is Over."
- "Two Little Girls Who Flew."
- "On a Sky-Cycle Built for Two."
- "The ide-Slips o'er New York."
- "Nobody Knows How High I am."
- "Has Anybody Here Seen Kelly Field?"
- "Motor of Mine."
- "Airily We Roll Along."

### CHURCH OF CHRIST, WELLMAN

Bible Study—10:30 A. M.  
Worship—11:00 A. M.  
A. L. Burnett preaches 2nd Sunday at 11:00 A. M. Elder Liff Sanders at 4:30 P. M. on the 4th Sunday.

Mr. and Mrs. Marion B. Stone and Miss Alpine and Mrs. M. D. Smith returned last Thursday from Munday where they visited Mrs. Stone's parents, Mr. and Mrs. S. J. Banks, also other relatives and friends in Munday and Knox City.

### More Rain Fell Here Last Friday Night

Sections of Terry county were again visited by week end rains the past week, which amounted to 61-100 of an inches here, and was perhaps about the same over the most of the west portion of the county, but heavier in the southwest portion. The rain of the week end previous amounted to 50-100 of an inch according to the government gauge here, but it like the last one was only partially general over the county. Most of the east portion of the county got little rain out of either cloud.

There is some anxiety concerning worms where the rains have been heaviest, but most people think the weather is too hot and the plants too small for the worms to make much headway. We are not going to say anything about favorable weather for more this week, as it never rains when it looks favorable, but waits and comes when we think the rains are over for awhile. We have been here long enough to know better than mess with the weatherman's business, but it seems we are too hard-headed to learn anything.

### Hon. Marvin Jones Visits This City Wed.

Our efficient and accommodating Congressman, Hon. Marvin Jones, of the 18th of Texas, was a pleasant visitor here Tuesday and Wednesday morning. He is spending his vacation in the district during the congressional recess to get in touch with his constituency and get their idea of needed legislation, if any, or other matters he can help them in his capacity as their representative.

He reports lots of work during the portion of the new congress that is already history, but some amusement, especially as concerns some of the social doings up there. The 18th has a good representative and we should keep him there.

Mrs. Claude Hudgens was a visitor to Lubbock Tuesday of this week.

## THE FIRST NATIONAL BANK

OF BROWNFIELD, TEXAS

# An Appreciation

## WE THANK THE LADIES OF BROWNFIELD

For the wonderful way in which they received our gas demonstration during the past week. This was conducted at considerable expense to us and it is indeed gratifying to know of the great interest shown in the NEW FUEL that is being brought to your city. Large crowds were in attendance every day and we feel sure that all attending were benefited by Mrs. Graves' explanation of NATURAL GAS and in obtaining her wonderful recipes.

## NATURAL GAS—The Cleanest, Cheapest and Most Dependable of Fuels

Will be available in the very near future and our representatives are here to assist you in solving your problems in your change from other fuels. The company is naturally interested in assisting their prospective consumers to obtain the most efficient appliances so that best results may be obtained from the use of their product.

## LET US FIGURE YOUR HOUSE PIPING

We are prepared to PIPE YOUR HOUSE and INSTALL MODERN EFFICIENT A. G. A. APPROVED APPLIANCES. ALL FOR A SMALL DOWN PAYMENT. BALANCE MONTHLY WITH YOUR GAS BILL.

Why not turn your problems in changing to NATURAL GAS over to us—Secure in the knowledge that your interests will be well protected and that you will obtain the best results from your new fuel?

Included in our stocks are the nationally known ERIEZ and CLARK-JEWEL RANGES; RUUD and RIVAL WATER HEATERS and HUMPHREY and RAY-GLO ROOM HEATERS all offered at prices and terms that will appeal to everyone.

REMEMBER—We Install, Service and Guarantee the Complete Satisfaction of Every Appliance Sold By Us.

## Her husband's sweetheart

A gripping story of a blind girl's fight to hold her husband's love

AT last Christine knew the truth. Gone was the sweet dream of love which her marriage to Relio had brought her—since that other woman, Nina, had come into their home. His "sister," Relio had called her. But he seemed to change somehow. Often there clung to him the odor of lilacs—Nina's perfume.

"You needn't lie," Christine once told him sadly. "I know you love Nina. But you needed money. So you married me, a blind girl, and brought Nina here as your 'sister,' thinking to hide from me the truth. The hurt to my heart doesn't matter. I can never repay you for the happiness—you have given me, for having sold yourself to a blind girl, even for a time."

Of course he had de-

nied, protested, pleaded—had almost convinced her that she had been wrong. Then came this tragical summer's night when suspicion became certainty—when she had knocked at Nina's door—and Nina had screamed.

"I shall wait for you, Relio, in my own room," Christine had called through the door.

And so now she waited, white-lipped, dry-eyed, gripped by emotions that seemed to rend her very soul. Read her dramatic revelation, "Out of Her World of Darkness," in August True Story.

### LONDON AND K. C.

Last year in the city of London, the earth's largest aggregation of human beings, there were eighteen murders. Every one of the 18 murders was solved by the police. Eleven murderers convicted and sentenced; the other seven committed suicide.

Just how good that record is, contrast it with that of Kansas City, one of the smaller municipalities of first magnitude in the United States. Kansas City had 165 murders last year. Only 23 murderers were tried, convicted and sentenced; five were acquitted. The rest seem not to have been annoyed by the police in any way.

London cleaned up on its slayers 100 per cent. Approximately 75 per cent of Kansas City's slaying fraternity went unwhipped of justice.

That is one reason why London, a city of 7,000,000 had only 18 killings, while Kansas City, with a population of one-third of a million, had 105.

BALLINGER, the starting place of the Fourth Annual Motorcade sponsored by the West Texas Chamber of Commerce, is planning an elaborate luncheon for those who start the projected tour of the scenic spots of West Texas and eastern New Mexico. The dates for the motorcade are from July 10 to July 20. B. M. Whitaker is in charge.

QUITAUQUE's Chamber of Commerce has reached an agreement with the commissioners court whereby a portion of the road bond issue of the precinct will be sold. The local committee is now engaged in endeavoring to secure the desired right of way for the permanent improvement of two lateral roads.

Texas leads the United States in oil refining.

### FEW BANKRUPTCIES INDICATE GOOD BUSINESS

Austin, Texas, July 8.—Business conditions in Texas over the past six months have been satisfactory, it is indicated by the relatively small number of bankruptcies reported during that time, according to Bernard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas.

A total of 266 bankrupt companies having liabilities of \$4,734,000 were reported, compared to 313 failures with liabilities involving \$8,052,000 for the same period of 1928. Mr. Nichols pointed out. Failures during June were the fewest for any June in more than ten years. There were but 30 bankruptcies in the State last month, compared to 51 in May and 44 in June, 1928.

BLEDSON plans to celebrate the biggest event of its kind ever held in Texas west of Lubbock on July 12 and 13. The leading features of the program are a free barbecue, rodeo, baseball, dancing and state wide known speakers. Judge Hamlin of Farwell manager of the Capitol Reservation lands will speak on the opening day.

HAMILTON now has 6 miles of natural Uvalde rock asphalt paved streets, and the county will vote on a \$500,000 road bonds issue on July 16th. The town will burn natural gas supplied by the Lone Star Gas Company by October 15. The Hamilton County Fair and Race meet will be held in Hamilton July 24, 25 and 26.

"I wish you wouldn't knit at meal time," said Tony to his Rose. "I can't tell where my spaghetti leaves off and your sweater begins."

### A GRAMMATICAL KISS

A kiss is always a pronoun, because she stands for it.

It is masculine and feminine gender mixed; therefore common.

It is a common conjunction because it connects.

It is an interjection; at least it sounds like one.

It is usually in apposition with a career; at any rate it is sure to follow.

A kiss can be conjugated, but never declined. (refused)

It is a preposition because it governs an objective "case" (in same cases). However, it is not an adverb, because it cannot be compared, but is a phrase that expresses feeling.

—Stolen.

TURKEY is adding the finishing touches to the large 200,000 gallon reservoir for the city the contractor is furnishing the pump houses which complete one of the most modern, up-to-the-minute water supply plants in West Texas.

BRADY's historic town bell will ring again, but no more from the old court house steeple. It has been donated to the Richards Park and placed into the athletic stadium to toll out the time of the horse races and other races at various celebrations.

Boss—"Rastus, you good-for-nothing scamp, where have you been loafing all day? Didn't I tell you to lay in some coal?"

Rastus—"Yassuh. Ah's ben layin' in de coal all day, though dere is lots of softer places where Ah'd rather lay."

Mr. and Mrs. B. C. King of Georgetown, are the guests of Mr. and Mrs. Luther Cruce this week.

### WHERE THEY GO

"Johnny," said the preacher, "do you know where little boys who swim on Sunday go?"

"Oh, most any place where there ain't likely to be no wimmin passin,'" was Johnny's reply.

AIBANY is seeing over \$100,000 put into homes by its citizens. Most of the residences are of brick or other permanent construction and range in value from \$10,000 to \$35,000.

SAN ANGELO is to have a large dam, the contract for which has been bid on by 6 well known construction companies. The project includes a 45 foot dam, 6,000 feet in length, top width 20 feet, bottom width 225 feet, with the reservoir to have an average width of five-tenth miles and to extend several miles up the river.

A Scotchman was discovered wandering around Detroit with a pair of rumpled trousers over his arm.

"Can I help you in any way?" asked a kindly citizen.

"Man," replied the Scot, who was evidently a new-comer, "I'm looking for the Detroit Free Press."

Texas has 103 airports with 53 more under construction, planned or proposed.

Texas manufactured products in 1928 were valued at \$1,200,000,000 having practically doubled in volume (not value) since 1920.

The education of a son has some advantages. In one case it entirely cured his father of bragging about him.

"Do you consider my legs long?" she asked demurely.

"Yes," said he, "whenever possible."

### THE CALIFORNIA HEAT MELTS WINDSHIELD

A clipping from the Brawley, California, Daily News of date of Tuesday, June 25th, was sent to "Mother" Shell of this city by her son with a request that it be handed to "Dick" Hyatt. The article follows which indicates that it must have been warm enough that day in Sunny California.

Thermometers, windshields and celluloid combs all go bang at the heat! Yesterday, according to government thermometers here, the Brawley torridity attained the 118-degree mark, a figure reached only twice before insofar as official statistics kept here show.

A thermometer belonging to Mrs. Humphrey which has served her faithfully seventeen years exploded yesterday afternoon when it touched 114. In other summers it had passed the figure safely but yesterday—perhaps due to old age—it could stand no more than 114.

Henry Ford may be interested to learn that one of his nonbreakable windshields melted as it faced, parked in the street, the setting sun.

The temperature last midnight was 95 and at six this morning it stood at 80. From this figure it rose to 106 at noon.—Rolls Banner.

### OUR PET PEEVE

Our pet peeve for today is the person who gets a \$25 service out of a 25c classified ad, and then lets us send six bills before they remit. Every business house has a lot of just such petty charges.—J. C. Morrison, Morris (Minn.) Tribune.

"Why did you let that young man kiss you in the living room?" exclaimed the indignant mother.

"Why don't you be more considerate, Mother," answered the debauchante. "The hall is so cold."

Texas is the leading Jersey outfit state in the Union. Ohio used to be.

### NEW CAVERN IS DISCOVERED BY TAHOKA MAN

TAHOKA, July 2.—Either a new cavern or a new entrance to the Carlsbad Cavern has been discovered by Clay Hughes and Elmer Terry, local citizens, who have just returned from the R. F. Hughes ranch, 20 miles west of the world-famous cave.

While exploring the ranch, these three men discovered an obscure opening in a mountain side through which a strong draught was pulling. Two days of exploration in the newly-discovered cavern revealed that it was very similar to the Carlsbad Cavern in appearance and magnificence, but unlike the main entry to the famous cave, the passage way into this cave slopes back gently from the opening. Though it is possible, these men state, that this is an entirely different cave, they believe that the opening leads into the Carlsbad Cavern, much of which is yet unexplored.

### OBJECTION SUSTAINED

They were talking about modern music and dancing.

"I don't like dancing to jazz," said the girl. "It's nothing but hugging, set to music."

"Well," said the man, "what is there about that to which you object?"

"The music," she said.—Tit-Bits. Friend (visiting hospital patient)—"Do you know, old man, that's a swell looking nurse you've got."

"I hadn't noticed."

"Heavens! I had no idea you were so sick."

The Santa Fe railroad has been permitted to build a 65 mile line from San Angelo to Sonora, Texas.

EDEN is endeavoring to install a sewer system, and work is being done to interest fifty home owners into tying in on the system in the near future so that work may start.

#### COTTON LEAF WORM APPEARS

College Station.—The cotton leaf-worm has appeared in moderate numbers in parts of Nueces county and to a limited extent in portions of Bee county, and while the situation does not necessarily mean that Texas will suffer an early and general destructive infestation of this insect, it should be closely watched, according to R. R. Reppert, Entomologist in the Extension Service.

"This infestation is about a month earlier than the insect has appeared in the same section in previous leaf-worm years," Mr. Reppert says. "Under very favorable conditions damage might develop over a great portion of the state within the next few weeks, but with dry, hot weather it is not probable that the infestation will become general before the latter part of July."

"The outbreak is serious enough in the places mentioned to warrant immediate poisoning. Extensive purchases of poison materials elsewhere are not advised, but farmers in sections where leafworms often appear would do well to inquire as to supplies of poison and to have a source located in advance of possible need. The prompt application of calcium arsenate, either in dust or liquid spray form, is effective in the control of this insect. Paris green and lead arsenate may also be successfully used, but are more expensive."

A great many of our citizens went to Hobbs, N. M. on the 4th, and report that town rather wide open that day. Most anything one wanted to drink, lots of gambling going on, but very little shade to get under from the heat. Well, we printed the Herald that day and had a temporary

breakdown to boot. So it was just another July day to us.

After finishing the regular work that came before them Monday of the usual monthly routine, the Commissioners Court sat Tuesday as a board of equalization, and many citizens were appearing to talk over proposed tax raises. We failed to note any present whose taxable property was lowered. We're all funny that way.

Luther French was in with his Yo Yo Saturday. He is getting in the expert class with persistent practice.

S. W. Ballard was up from Lamesa the past week visiting with his son here.

Mrs. E. A. Morgan, of Amarillo, was down over the week end visiting with her sister, Mrs. Stricklin.

## NO PLACE FOR BANK ROBBERS

Texas' Rewards for Dead Men Discourage Professional Bandits.

Austin, Texas.—Professional bank robbers have been scarce in Texas since the State Bankers' association posted a reward of \$50,000 for dead bank robbers in November, 1927, according to Capt. Tom Hickman, state ranger commander. For several months just prior to making the standing offer of this reward, bank robberies had been occurring at an average rate of four a week.

During the last month of 1927 and the year 1928 there were only ten bank robberies in Texas, and these were, it is believed, committed in most cases by amateurs. During the first three months of 1929 seven bank robberies were committed, and the evidence indicates that these were also the work of local talent. The latest was the daylight robbery of a bank at Brady, in which two boys and three girls of the town participated. All of them were captured, and the money, \$2,000, recovered.

#### Dead Daylight Robbers.

Due to the fact that a frame-up caused two innocent Mexicans to be killed while standing in front of the bank at Stanton at midnight early in 1928, the State Bankers' association amended the reward offer so as to provide that the \$50,000 would be paid only for dead daylight bandits. Since the reward went into effect the association has paid out \$25,000 for dead bank robbers. So satisfactory is the plan that the offer is to remain in effect indefinitely, according to W. A. Philpott, Jr., secretary of the association.

The first \$10,000 was paid to Sheriff Reeder Webb of Ector county who shot two robbers at Odessa on November 21, 1927, after he had been notified that they would loot the Citizens National bank there. Webb and his deputies shot the bandits as they were jimmying the bank door.

The next \$5,000 went to Chief of Police G. E. Bedford and Policeman George Carmichael of Cisco who killed a "Santa Claus" robber at Cisco on December 23, 1927, after he had scooped up \$12,000 from the First National bank there.

The last \$10,000 went to Sheriff J. O. Barfield of Rankin, who, after waiting three days on a "tip," shot two bandits as they attempted to enter the First State bank at Rankin at four o'clock in the morning of January 12, 1928.

#### Don't Want Them Alive.

On the walls of 1,200 banks of the state now hang the \$50,000 for dead but not one penny for live robber \$1208.

"The Texas Bankers' association offers a standing reward of \$50,000 for each dead robber legally killed while in the act of robbing and holding up a subscribing bank in Texas with firearms," the offer reads. "No limit as to place of killing while the robbery and holding up is being committed—in the banking house, as the robber or robbers leave the bank, as they climb into their car, ten or twenty miles down the road as they flee, or while resisting a posse giving chase."

"The association will give not one cent for live robbers. They rarely are identified, more rarely convicted and most rarely kept in the penitentiary when sent there—all of which operations are troublesome and costly to our government."

#### Tunnel Workers Strike \$20,000,000 Gold Vein

Manila.—Working on an aqueduct near Manila, Philippine Islands, workers struck a gold vein. Investigation disclosed that the ore is worth at least \$20,000,000.

Officials and employees of the Atlantic Gulf and Pacific company, contractors, halted a possible gold rush by staking claims over a wide area. They said they were preparing to develop the project.

The gold vein is located beside the aqueduct which is being built to carry water to Manila from the Angat river, 25 miles from the city.

#### Ask and Get Permit to Slay Aged Woman

Paris.—Three natives of Kamchatka recently wrote a letter to the commissar of that region requesting permission to strangle the old and ailing aunt, according to report appearing in the Russa newspaper, Krosssaya Gazeta, and reproduced by La Nation Reunite of Paris.

"We respectfully ask you to accord us permission," the letter read, "to strangle old Aunt Elyngnett, who is willing that this be done."

"Following out tribal customs, we always kill our elders. Besides, Elyngnett is sick, and can neither eat nor work. She weeps continually and begs us to apply to her the law of our ancestors."

The commissar, the newspaper continues, answered the letter as follows:

"Let the old woman be strangled."

"THE PLACE TO SAVE"

#### Hunter Notes

Since the rain, crops are sure looking good. Crops are not the only things either, but as you know, weeds are always the exception.

Misses Esther Herndon and Ellen Jordan from Baylor county were back out in this part last Tuesday and Wednesday visiting. They were driving around in a new Ford.

The South Route has started on a new way now. It comes almost right through the center of Hunter community, and it sure makes it handy to get your mail every day right at your door.

Troy Lee Williams spent Tuesday night with George Dana Byrd.

Quite a few were kind and thoughtful as they went in last week and hunted corn and feed for Mr. George Byrd. He has been sick and is not able to work. The ones that went were Messrs. Lee Lyon, Jim Offill, J. L. Williams, Hayden Kemp, Elmer Edwards and Will Cheak.

Bro. Wanson did not get to fill his appointment here this week end as his sister was operated on at the Lamesa Sanitarium. But don't forget, Bro. Patterson will preach here Saturday night and Sunday.

Mrs. Allen and her sister from Brownfield visited Mrs. Lee Lyon Thursday afternoon.

Mr. and Mrs. Pyeatt from Brownfield spent a few hours in the home of Mr. and Mrs. Lee Lyons, Thursday night.

While the bunch was at George Byrd's planting last week, they came to a large hole or den in the ground. They examined the place thoroughly and found coyote tracks all around. They began digging, and to their surprise dug out four coyotes about half grown. That was great sport and also a help to the community.

Mr. and Mrs. Kemp spent Sunday with Mr. and Mrs. Jenkins.

Mr. and Mrs. Raymond Adams from Brownfield spent Sunday with Mr. and Mrs. George Byrd.

There was a ball game Sunday afternoon between Pleasant Valley boys and Hunter boys. The scores were 3 and 5 in Pleasant Valley's favor. But they can't do it again. If hunting would have done any good, Hunter would surely have beat.

Mr. and Mrs. Jim Bryant from Challis community and Messrs. Joe Bryant, Dean Daniels, and Johnnie Beck from Union community spent a few hours with Mrs. R. B. Offill and family Sunday afternoon.

Mr. and Mrs. Harvey Fitzgerald, and Mr. and Mrs. John Thompson toured out in this part the Fourth and visited friends and relatives.

Our county agent, Mr. R. B. Davis, was out last Monday night, and was going to have a club meeting. But as a cloud was coming up, only two members were present. But that's all right. Everyone is still at work.

Tom Bingham is finishing up a job of plastering and stuccoing the gymnasium at Tatum, N. M. Willie Bolton of this city is helping on the job.

Ben Hurst and wife were called to Snyder, Monday by telephone which stated that his brother-in-law, Bob Snodgrass was seriously ill.

# 70 SUCCEED

TO SUCCEED—we believe that it is necessary to secure good services which we gladly give are all part of the effort but our best service is to sell Mohawk Tires. We know them and we are confident of your approval and our success on the merits of Mohawk Quality.

**THE HERALD**

Brownfield, Texas

A. J. STRICKLIN, Editor and Prop.

Subscription Rates  
In Terry and Yoakum Counties  
per year \$1.00  
Elsewhere in U. S. A. \$1.50

Advertising Rates on Application

Official paper of Terry County.

An Illinois woman is mayor of her city at the age of 35. However, that is not news but the feature that makes the news item is the fact she is willing to admit she is 35.—Carthage (35c.) Press.

We note that the Levelland bank has purchased the school bonds recently issued by that city, providing they are refused by the State, who has the refusal of all bonds. It used to be very uncommon for people here to handle their own bond issues, but it is becoming rather common now, and shows the healthy financial condition of this section.

We want you to read the bank statements in this issue of the Herald, and then put a clothes pin on your lip if you are one of those who have been saying that there is no money in the country, and that there is no reason to make an effort to get the trade of this section. These bank statements refute any such idea as this much better than we can in these columns. Read them.

Crops are still making rapid growth in Terry county, and in fact over the entire south plains section, but there is some uneasiness about worms with the repeated week end rains. We are of the opinion that we are having too much hot sunshine between the rains for the worms to make much headway. However, it is a good idea for the farmer to keep a sharp watchout for leaf worms at least.

A half in Crosby county since the new marriage law went into effect, there being only one license sale since the law went into effect, despite the fact that June is supposed to be the premier marriage month of the year. The little god of love has not had the usual fair sailing in Terry county, but we understand that he is kinder crawling out from under the new law. However, we are rather close to New Mexico where no questions are asked, if the contracting parties seem old enough to get hitched.

The white citizens of Eldorado, Oklahoma, stepped a crew of negro workmen up there according to newspaper reports who were being brought in by the Frisco railroad to do some work for them. The railroad company report they could not keep white people on the job. We used to be like that here a long time ago, but when we wanted a railroad right bad, we permitted negroes to be brought here to do that work, and since then none have ever been molested if they came here to work and behaved themselves.

The Herald does not care a rap how you vote on the amendments to the state constitution next Tuesday, and while not trying to dictate how you vote Monday or Tuesday in the bond election, it would remind you that we must be careful not to hamper the

growth of this community or county. New people are coming here for our modern conveniences and good schools and we must keep them up and going. Nothing stands still; it must either go forward or retreat, and he people are the doctors who prescribe the remedy for a healthy community growth. Shall we stint and retreat, or shall we give liberally and go forward?

The more one reads the papers the more one becomes convinced that it is not so much the farmers that are demanding government aid, but is the politician. Most of the real dirt farmers that we read after in the farm papers are just demanding a square deal for the farmers, and by this they mean just laws for them as well as the manufacturer. They do not object so much to a tariff being put on the entrance to our ports of goods made by cheap foreign labor, but they do object if on the other hand cheap farm products, such as Chinese eggs, Danish and Swedish butter and cheese, Philippine coconut oils, Cuban sugar, Canadian wheat, Argentina beef, etc., are allowed to be brought in free of duty, or about so. What the farmers want is an equal protection. But he objects to paying a high price for stuff he has to buy that is protected by a high tariff wall, while his own production has to meet the competition of cheap foreign labor.

**Concerning the Irish Spud and Some Messes**

Plains, Texas  
July 2nd, 1929

To Terry County Herald:—  
Dear Jack:—In your last issue we note an appeal or two concerning the raising of Irish potatoes: why the new crop is better than the old; and just what constitutes a proper definition of the word, MESS? And while we are not final authority for anything (as all things are but relative and subject to the law of Evolution, the ever changing prerogative of Progress), we are liberal enough to endorse Frank P. Tibbets, "The going your way, so lets go hand in hand. You help me, and I'll help you. We shall not be here very long for soon Death, the kind old nurse will come back and rock us to sleep. Let us help one another while we may." So here goes:

I too labored for a long time under the mistaken notion that Irish Potatoes would not thrive in this country, but persistent effort has convinced us that we were entirely wrong. This season we have gathered the tubers as large as base balls early in June from our garden. Plant them in the dark nights of March, well fertilized and cultivated, and as soon as they begin to bloom, dig a deep furrow around the roots, fill it with rich light humus—rotten hay mixed with lot of horse manure, and cover it lightly with soil, and you will get best results.

As to why the new are better than the old—is because Sweet Sixteen is preferable to Grey-haired Grandmother for Life's chief delight—Lord Byron once said of wine, "Who art the only thing that get better with age" yet to partake of wine even in the most juvenile state of fermentation, under our modern methods of protest and progress legislating, religion and morals into the race, one must become a common criminal, even tho' the Bible tells us to "take a little wine for the stomach's sake." Instead we knife the stomach for almost every ailment, and knife with damphoon laws every ill of social origin. Instead of using precept, example and divine appeal to the better instincts of the race, as was the wont of our fathers.

Definition of MESS: "A, great

**WITH BROWNFIELD GOING FORWARD**

Constantly keeping abreast of modern banking needs and a willingness to adjust ourselves to them, together with an earnest desire to co-operate in every legitimate way, enables us to make this institution more serviceable to our territory than ever before.

The success of this policy is reflected in the steady growth of this bank; for almost a quarter of a century this bank and this territory have grown together. We invite your business with the thought in mind that if you BANK WITH US YOU MAY BANK ON US.

**BROWNFIELD STATE BANK**

**DESOLUTION NOTICE**

Brownfield, Texas  
July 1, 1929.

This agreement, entered into this day between W. G. Hardin and A. L. Burnett, members of the Hardin-Burnett Auto Co., wherein, for equitable and valuable consideration, A. L. Burnett transfers and surrenders unto W. G. Hardin all his interest in the Hardin-Burnett Auto Co., such interest consisting of notes, accounts, accessories and shop equipment.

And all parties owing the Hardin-Burnett Auto Co., are requested to see W. G. Hardin at once and arrange for settlement.

Respectfully,  
W. G. Hardin,  
A. L. Burnett,  
Itc.

**CITATION BY PUBLICATION**

The State of Texas,  
To the Sheriff or any Constable of Terry County, Greeting:

You are hereby commanded to summon J. M. Bizzell, Jr., Jodie Shuping, Mrs. N. C. McConnell, S. D. McConnell, and Wayne F. Arthur, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Terry County, to be holden at the Court House thereof, in Brownfield, Texas, on the Fourth Monday in August, A. D. 1929, the same being the 26th day of August, A. D. 1929, then

and there to answer a petition filed in said Court on the 22nd day of November, A. D. 1928, in a suit, numbered on the docket of said Court as No. 1109, wherein Nelson W. Willard is Plaintiff, and J. M. Bizzell, Jr., Jack Woodard, A. E. Mills, G. W. Byrd, Jodie Shuping, Mrs. N. C. McConnell, S. D. McConnell, and Wayne F. Arthur, are Defendants, and said petition alleging that on May 11, 1920, J. M. Bizzell, Jr., made, executed and delivered to Thos. C. Spearman seven vendor's lien notes for the sum of \$481.00, each, payable on or before December 1, 1921, 1922, 1923, 1924, 1925, 1926, and 1927, respectively, with 6% per annum interest from their date, interest payable annually, and providing that past due interest shall bear interest at the rate of 8%, and for 10% additional as attorney's fees if placed in the hands of an attorney for collection; that said notes were given in part payment for the West Half (W 1/2) of Section No. Five (5), Block C-36, containing 320 acres of land, in Terry County, Texas, and are secured by vendor's and deed of trust liens on said land; that said land was conveyed by J. M. Bizzell, Jr., and wife to Jack Woodard, December 1, 1923, and said Woodard assumed the payment of said notes; that all of said notes and the liens securing same were transferred by Thos. C. Spearman to plaintiff for a valuable consideration before the maturity thereof; that Notes Nos. 1, 2 and 3 were extended to December 1, 1928, 1929, and 1930, respectively; that default was made in the payment of the principal and interest due December 1, 1924, 1925, 1926 and 1927, and plaintiff declared all of said notes due and placed the same in the hands of his attorneys for collection; that default was made in the payment of State and

County taxes for the years 1924, 1925 and 1926, on the South Half (S 1/2) of said land, and plaintiff paid said delinquent taxes amounting to \$73.76; that default was made in the payment of the School taxes for the years 1925 and 1926, and plaintiff paid said taxes amounting to \$50.92 on June 1, 1928, under the terms of the Deed of Trust; and defendants are liable to plaintiff for the amount paid for taxes with 10% per annum interest thereon. That defendants, A. E. Mills, G. W. Byrd, Jodie Shuping, Mrs. N. C. McConnell, S. D. McConnell, and Wayne F. Arthur, are asserting some liens or claims to said land, which are subordinate and inferior to the liens held by plaintiff. Plaintiff prays for judgment against J. M. Bizzell, Jr. and Jack Woodard for the principal, interest and attorney's fees due upon said notes, and the amount paid for taxes, with interest; for costs of suit; and against all of the defendants for foreclosure of his vendor's and deed of trust liens; for order of sale; writ of possession; and such other and further relief, both at law and in equity, general and special, to which plaintiff may be entitled.

Herein I fail Net, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Brownfield, Texas, this 1st day of July, A. D. 1929.  
(Seal) Rex Headstream, Clerk  
50c. District Court, Terry County.

**THOSE AMENDMENTS**

In a few places about town I find tacked up or posted on the windows three notices of elections to be held the coming week. Two of these have to do with local improvements at Meadow and Brownfield. The third is the proposition of increasing the governor's salary from four thousand dollars a year to ten and to add six more Judges to the Supreme Court of the state.

The first two propositions are with local affairs and should receive the careful notice of our people. Meadow needs the money to build additional quarters for her increasing pupils, in fact she is faced with the proposition of either building or going back to a grammar school as she cannot get additional credits without adding to her school building.

People naturally feel that taxes are already high enough but if we are to keep our place with the advances of school requirements we must meet the additional expense of new buildings.

It also seems right that we should bear our part in the paving about the Court House at Brownfield, in fact don't see how we can escape it as the Commissioners can do this work without our consent and it is pretty certain that they will do it even though the bonds asked are voted down.

The third election on Tuesday the sixteenth, the coming week we are asked to change the Constitution of the State for the convenience of those that wish to be governor in the future. Since the Constitution 1875, the salary of the governor has been four thousand. As the years have gone along much has been added to his salary by meeting certain expenses about the Mansion and personal allowances until about eight or nine thousand are now spent for the governor in salary and expenses.

In addition to the above the glory of being governor is worth something and it also furnishes a convenient stepping stone to the United States Senate and other valuable places.

Nobody is compelled to run for governor still about a third of the population are now grooming for the race.

Lets give the darned thing a black eye.

For several years past many eminent lawyers and a few leading papers have been clamoring for court reform claiming that expenses of the court procedure would be reduced almost half. A large number of lawyers however are members of the

legislature and are able to choke off all legislation along this line.

They propose instead to increase the number of Judges from three up to nine and quite a number are now on the stump in the hope of putting the amendment over.

Lets fool these Weary Willies and go to the polls Tuesday, July the 16th and give it the blackest eye any proposition for Constitutional Amendment ever received.

**Brownfield Team Defeats Seagraves Sun.**

What was reported to us as being a rather slow game was played here Sunday between the locals and a picked team of Seagraves players and the Pure Oil geologists who are working in the neighborhood of Seagraves, but on the face of the score, it appears to have been a tolerably well matched game. But one informant said that both teams seemed to have never become warmed up, or to put any too much enthusiasm into the game.

At the close of the game the score stood 3 to 1 in favor of the local team, and all things taken into consideration, the fans seemed to have been well pleased with the entertainment given them for their money on the local diamond. The Brownfield team has been defeated twice this season. By Lubbock and by a team from the Lou community some two weeks ago, but that was in mid-week, when several of the players could not get off for the game.

The locals went over to Hobbs, New Mexico on the 4th and celebrated by taking the game from the Hobbs nine, 15 to 2.

Dr. J. D. Moorhead of Meadow was in the city Tuesday afternoon for a few minutes, and reported destructive hails around Tahoka, O'Donnell and Lamesa Sunday night. He was called to Dawson county Sunday to see a patient whom he has practiced for in the years gone by.

Agent R. L. Harris, of the Santa Fe, informed us that the Santa Fe officials had given him permission to have gas piped into the agent's home here, which greatly pleased Bob, and we'll bet his friend wife, also.

New CHEVROLET Sixes  
on the road since Jan. 1st!

Today's Chevrolet is scoring a huge nationwide success because it represents one of the most sensational achievements in automotive history—a Six in the price range of the four.

The Chevrolet six-cylinder engine delivers its power freely, quietly, and easily throughout the entire speed range—delightfully free from annoying vibration and rumble. Combined with this remarkable six-cylinder smoothness are equally remarkable speed, power and acceleration—and an economy of better than twenty miles to the gallon.

In addition to such sensational performance the Chevrolet Six offers the outstanding advantages of Bodies by Fisher. And no car ever provided a more impressive array of modern convenience features—adjustable driver's seat and VV one-piece windshield in closed models, easy action clutch and gear-shift, ball bearing steering, and instrument panel complete even to theft-proof Electrolock and electric motor temperature indicator!

A SIX IN THE PRICE RANGE OF THE FOUR

### NEW ANTI-AIRCRAFT GUNS FAR SURPASS EARLY MODELS

United States Army Develops Weapon That Does Everything but Fire.

Washington.—Mobile anti-aircraft weapons and fire control instruments described as five to ten times as effective as those used during the World war have been perfected by the War department, officials of the ordnance department disclosed.

Probably the greatest strides, according to these officials, has been made in the development of the three-inch anti-aircraft artillery equipped with automatic fire control apparatus which virtually does everything but fire the guns at the target.

The new weapons are said to have many times the fire power and greater accuracy than the World war equipment.

So effective are the new weapons that efforts now are under way to include funds in the 1931 army budget to begin replacement of part of the obsolete material now in use with these modern guns, carriages and fire-control instruments. The militia bureau has asked for sufficient funds to inaugurate a program calling for the arming of National Guard anti-artillery regiments throughout the country with the equipment.

American forces for the most part are armed with anti-aircraft equipment inadequate for combating modern high-speed aircraft. These weapons have poor mobility, are inaccurate, have low muzzle velocity and are considered generally unsatisfactory.

Capt. G. M. Wells, chief of the anti-aircraft section of the artillery division, in a recent article, approved by Maj. Gen. C. C. Williams, chief of ordnance, points out some of the characteristics of the new three-inch weapons and fire-control equipment.

According to Captain Wells, one instrument finds the target range, another the altitude, while a third, termed the anti-aircraft director, computes the firing data.

"The director may be regarded as the heart of the anti-aircraft fire-control system," Mr. Wells said. "It is essentially a super computing machine which automatically and continuously observes the target and computes its future position in space. All factors which in any way influence the flight of the projectile are corrected automatically within the instrument."

The firing data are transmitted electrically to three data receivers on the guns.

### Settle Wine Tax Suit After 25 Years

Buenos Aires.—A \$200,000 lawsuit, started 25 years ago by the government to obtain payment of a fine assessed against a distillery, has just been settled in favor of the defendant.

The case began in 1903 with imposition of a fine, for alleged nonpayment of taxes, on Pedro Griffo & Sons. The firm protested and refused to pay, upon which their distillery was closed.

The action dragged through various courts and reached the Supreme court a few months ago. In denying the tax authorities' claims, the court pointed out that the distillers had not only suffered enormous losses by having their plant closed for a quarter of a century but had also had to mortgage other property in order to deposit bond, on which they paid interest the whole 25 years.

### Street Car Argument Jams Vienna Traffic

Vienna.—Exercise by a Viennese of "every man's right to criticize the authorities when, where, and as often as he pleases," recently caused a record traffic jam.

While standing on the forward platform of a street car this Viennese began to express his opinion of the way in which the city authorities were clearing away the snow.

The motorman, a red-hot Socialist, decided to avenge the insult to his government—which is also Socialist—by driving the passenger from his car. Other street cars arrived on the scene, as did also numerous automobiles and wagons.

Only by a compromise was the problem solved. At the suggestion of the police the passenger consented to go inside the car.

### Monkey Gland Grafting Process Is Discredited

Berlin.—Dr. Serge Voronoff's monkey gland operations must be considered discredited, the famous surgeon, Prof. August C. Bier, and other speakers declared recently at a surgeons' convention here. The tissues or organs transplanted soon die, the surgeons said. Although the theory of complete rejuvenation was generally discounted, the surgeons admitted that grafting of organs often serves as a stimulus.

### New Zealand Gets Free Joke on Harry Lauder

Christchurch, New Zealand.—Sir Harry Lauder, the world-famous Scottish comedian, has provided New Zealand with a new joke—free, gratis, and for nothing. Although holding a ticket entitling him to travel first class, Sir Harry traveled second class for a number of miles before he found out his mistake.

### Cavern Highway Ass'n. Meets at Altus, Okla.

The Herald is in receipt of a letter from Carl S. Guinn, of Paducah, president of the Carlsbad Cavern Highway association, in which he calls attention to the fact that the next and third quarterly meeting of the association will convene in Altus, Okla., Monday morning, July 22. At this time reports from the various committees will be heard and many interesting features of the work will be

discussed, he said. He is requesting that a good delegation from Brownfield attend this meeting.

Mr. Guinn said in his letter that the highway had been marked with steel markers from Altus, Oklahoma, south to El Paso, and maps are being sent out this week. By the time the meeting is held, the Carlsbad Cavern Highway will be known over the entire United States.

Mr. E. H. Lilly, manager of the Altus Chamber of Commerce, is making preparations to entertain a large delegation, he advises, and it would be well for as many Brownfield men to go as possible.

We neglected to mention last week that Virgil Hargett of Dallas, was in to see us the week before. Virg was driving one of the late model Piercecars that looked like it was as long as from here to yonder. He informed us that he owned two battery stations in Dallas. Virg., who formerly lived here with the family when he was a young man, was accompanied up here by his little son, and his mother and sister, of Seagraves, who he and family are visiting.

Dr. Webber and family are in Oklahoma visiting his father and brother and enjoying a brief vacation.

Here's a range to be proud of

YOU WILL BE PROUD of its appearance and you will be proud of its baking when you put a New Process Red Wheel Gas Range in your kitchen.

New Process Gas Ranges are famous for their neat design. Their beautiful porcelain enamel finish is attractive and easy to keep clean. Everyone admires the boltless fronts, concealed flue connections, and the improved front frame construction.

Flush top grates make it easy to move utensils without tipping or spilling. Broilers have extra height.

Utensil drawers are roomy. Ovens, enamel-lined, are at right or left.

**SLATON TO ENTERTAIN OLD SETTLERS OF PLAINS**

Slaton, Texas, July 9.—Plans are practically complete for holding the three day Old Settler's Reunion, July 18, 19 and 20, on the old Igo Ranch, five miles north of Slaton, in the Yellowhouse Canyon. This is announced by H. L. (Bud) Johnston, former Lubbock county sheriff, one of the ranch owners.

The 3-day program of entertainment will include swimming, fishing, boating, rodeo performances, many kinds of sports, buffalo riding, pony racing, chariot racing, a terrapin derby, band concerts, public speaking and other forms of diversion.

Extensive improvements on the 5,300-acre ranch, which is a natural playground, furnish excellent facilities for entertaining the several thousands of West Texans who are expected to attend, Johnston said. Included among the visitors will be hundreds of old-timers, he has announced after receiving scores of letters from all parts of West Texas.

**TAX THE LOAFER**

Theoretically, the perfect tax would be a tax on inaction. The proper man to tax would be the loafer, not the worker; idle land, not the used land; inactive capital, not active capital; lack of enterprise, not enterprise.

Such a tax would not be practical but it would be a just tax.

Our present taxes are based on an opposite theory.

We tax thrift, action, capital, enterprise.

We levy taxes in proportion to ability to pay, which means that the harder a man works, the more we tax him; the more thrifty he becomes, the more we tax him; the more efficient he grows, the more we knock him down.

If a man saves his money and buys a home, he is taxed; if he wastes his money in extravagant living, he is not taxed.

None of our taxes encourages production by the simple process of discouraging idleness, shiftlessness, inefficiency.

The devil himself could not do a neater job of hobbling the race.—Fort Atkinson, Wisconsin, Journal.

**DISCONTENTED MILK**

"What makes this milk so blue?"  
 "Oh, I got this bucketful from a discontented cow."—The Turkey Gobbler.

Uncle Billie Pyeatt is taking his vacation with relatives and old friends in San Saba county, the old stomping grounds where he was raised.

R. E. Hamilton has returned home from La Junta, Colo.

**Terry County Singing Convention at Johnson**

The Terry County Singing Convention will be held this time with the Johnson community in their splendid new auditorium on the 3rd Sunday in this month, which will be the 21st.

The people of this community are making huge preparations for the entertainment of the convention, and are expecting a big crowd. They are not only expecting good classes from all over the county, but trios and quartets from various sections of Texas and New Mexico, and the visitor there that day will be well entertained.

**THE TEST OF A MAN**

The place to take the true measure of a man is not the forum or the field or the market place or the amen corner, but at his own fireside. There he lays aside his mask and you may judge whether he is imp or angel, king or cur, hero or humbug. I care not what the world says of him; whether it crowns him with bay, or pelts him with bad eggs; I care never a copper what his reputation or religion may be; if his babies dread his homecoming and his better half has to swallow her heart every time she has to ask him for a five-dollar bill, he's a fraud of the first water, even though he prays night and morn till he's black in the face, and howls hallelujah till he shakes the eternal hills. But if his children rush to the front gate to greet him, and love's own sunshine lights up and fills the face of his wife when she hears his footfall, you may take it for granted that he is true gold, for his home's heaven, and the humbug never gets that near the great white throne of God. I can forgive much in that fellow mortal who would rather have the hate of the whole he-world than the contempt of his wife; who would rather call anger to the eyes of a king than fear to the face of a child.—William Cowper Brann.

**HAIR GLUE**

Little Freddy was preparing to go out calling with his mother. Suddenly he called to her in a rather startled voice:  
 "Mamma, is this bay rum in the brown bottle?"  
 "Gracious, no, dear! That's mucilage."  
 "Oh," said Freddy, after a pause. "Maybe that's why I can't get my hat off."

Mrs. Jot Akers is reported to be very ill at the home of her sister, Mrs. Clyde Lewis, with acute appendicitis. We have not learned whether an operation has been decided upon or not.

**Unfortunate Wreck Tues. at Barber Shop**

About one o'clock Tuesday, a three chair section of the eight chair Sanitary Barber Shop fell, demolishing the mirrors, lavatories and the granite tops and trimmings, causing a monetary damage in the neighborhood of \$1,700.00.

The few who were in the barber shop at the time say the section fell almost without warning, but about the time a heavy blast went off in the western part of the county, where the Pure Oil geologists are making their surveys. There was no insurance except fire, which of course will not touch this accident.

**GEORGE WASHINGTON'S HOME LIGHTED BY ELECTRICITY**

On the theory that George Washington, were he alive, would enjoy modern comforts, the custodians of Mount Vernon have replaced candles with electric lights on the Virginia estate of the "Father of His Country."

The new facilities do not mar the ancient beauty of the place, however. All buildings except the mansion are supplied with electricity through underground conduits. The Mount Vernon Ladies' Association has entered into a contract with a local company to supply electrical energy.

The old kitchen building is equipped with an electric range and a refrigerating plant. Woodlawn, adjoining Mount Vernon, home of Nellie Custis Lewis, formerly occupied by the late United States Senator Oscar W. Underwood of Alabama, is also equipped with electricity, as are old Christ Church in Alexandria, where Washington was a vestryman, and the Fairfax mansion, Mount Eagle, near Alexandria.

Mrs. C. S. O'Connor of Commerce, Texas, Mrs. C. E. Davis and daughter, Gwen Marr of Quanah, Texas, and Miss Anna Mae Davis of Iowa Park, Texas are visiting in the home of J. H. O'Connor. Mr. O'Connor had not seen his sister-in-law, Mrs. O'Connor and his niece, Mrs. Davis in 29 years when they all lived in Tenn.

Roland Brown and wife were here over the week end from Hereford to show the new son to the grandparents, Mr. and Mrs. E. Brown.

Gus Ratcliff was in from the Wellman community Saturday, shopping with our merchants.

W. B. Benton, one of the south side most successful farmers, was in Saturday and reports lots of squares in his cotton.

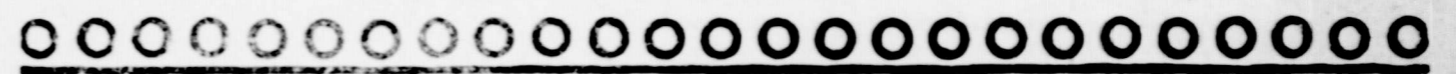

Mr. and Mrs. W. B. Downing are vacationing and taking the baths at Hot Springs, N. M. They will be gone for two or three weeks.

PAMPA'S building permits totaled \$131,100 for one week, recently making the total for the year \$777,940, and placed Pampa second in the Panhandle and among the first 10 cities of the state. The largest permit was

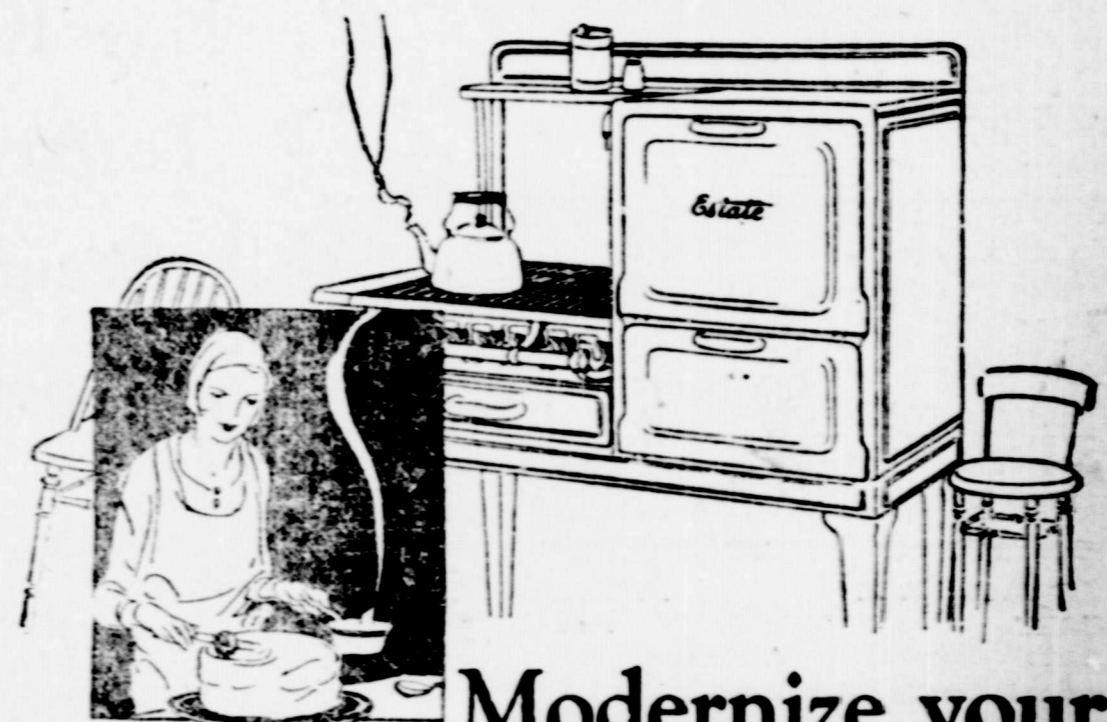

issued to Horace and Guy Saunders, who will erect a \$54,000 two-story garage building.

We noticed a new milking machine on exhibition at the Hudgens & Knight store this week. It will juice two cows at a time, but the stripping must be done by hand, but this can be done while the machine is at work on two other cows. It is operated by

small gasoline engine. PECOS launched another building program recently when permits amounted to more than \$49,000 for structures downtown and on the highway. Buildings of reinforced concrete of one and two stories predominate, with one of three stories which will include an addition to the Pecos Hotel.

**WHAT TWENTY YEARS HAVE BROUGHT**

The starting progress in the United States of industry, wages, luxuries and conveniences is secured by comparing some outstanding factors today and twenty years ago.

Twenty years ago the average working week was sixty hours, the average family income \$800, the average saving of ten million savings depositors \$700. Today the average working week most workmen is forty-four hours, the average family income is \$2,200, the average savings bank deposits of twenty-three million persons \$1,000.

Twenty years ago there were 312,000 automobiles; today there are 24,000,000. Twenty years ago there were no radios; today there are 8,000,000 sets. Twenty years ago there were 8,000,000 telephones, today there are 17,000,000.

What is the answer? Simply that America has learned to use power in place of muscle. Twenty years ago the average wage earner was assisted by three horse power of machinery. Today he is assisted by seven horse power although the population of the country has increased only one-third in twenty years. No other nation can compare with the United States in productive capacity and power is the answer.

S. F. Collier, of the south route, is a new reader of the Herald.

**A NEWSPAPER**

A newspaper is the most unique institution in the history of the world. It is the only business enterprise, conducted upon business lines and in a perfectly legitimate manner, that actually serves the progressive life of the state more than all other institutions of the country put together, and this service is rendered without cost to the public or state. It is still more peculiar in that regardless of the profit it makes for its owners it returns even more profit to the community. There is no newspaper in Pennsylvania today that is not making far more profit for the community and the state than it does for itself. And this profit to the community is the result of a service in news and editorial space freely given in the interest of public progress. Destroy the newspapers of the nation and you have lost the greatest influence of progress in the field of industrial, civic and moral life that exists today. —Lititz, Pennsylvania Express.

**SOMETHING WRONG**

Crosslin: "If you had five dollars in your pocket, what would you do?"  
 Scoggins: "I'd think I had somebody else's pants on."

Exports through Texas harbors in 1928 were valued at \$797,140,493—second only to those of New York.

NOT WELCOME

It is safe to say not a single reader of the News would visit a home if they felt they were not welcome. Advertisers in the News spend money each week extending invitations to News readers to visit their stores, where a welcome always awaits you. Those who do not advertise in the News clearly indicate you are not welcome by refusing to extend you an invitation, so why not be polite and illustrate you are familiar with social usages and remain away from the nonadvertiser's store?—Tucumcari, New Mexico, News.

**SANITARY DAIRY**

**LITTLE COUNTRY PAPER**

I get a little paper from a little country town—  
 A far cry from the dailies, that on Sundays weigh us down;  
 It's printed every Friday, and it has no supplement,  
 Not colored rotogravure, but I'm always glad it's sent.  
 It gives no clever verses by syndicated bards,  
 But states that Mrs. Williams entertained some friends at cards;  
 "Ye Scribe" saw Judge McArthur shaking hands with friends today;  
 It says the Curtis family sold out and moved away.  
 On Boulder Dam it's silent, and there's nothing on finance—  
 It tells that the Rebekahs gave an installation dance.  
 That Miss Day is returning soon to open up her school,  
 That Alexander Hargrave lost a valuable mule.  
 It's glad that Jimmie Gallagher can be around again.  
 It claims that the alfalfa crop is much in need of rain;  
 The supervisors voted for the road work to commence;  
 Will Anderson hauled lumber for his new garage and fence.  
 The worldly ones may smile at it, but theirs are tender smiles—  
 These home town items form a bond through many years and miles.  
 Oh, little country paper, with your little weekly talks!  
 I like to wander with you down remembered roads and walks.  
 —Clara McCreery in Liberal, Mo., News.

**Local Boy Scouts Win In Contest at Post**

Spencer Kendrick of Troop 19, Brownfield won the swimming meet at the Post, Texas, Scout Camp, July 7, winning first place in every diving and swimming event and the Brownfield relay team tied with Troop 4, Lubbock, for first place in that event.

Events:  
 40 yard swim—Spencer Kendrick, Troop 19, 1st; Ordis Norbess, Troop 4, 2nd; Mike Crenshaw, Troop 4, 3rd.  
 20 yard back stroke—Spencer Kendrick, 1st; Ordis Norbess, 2nd; Mike Crenshaw, 3rd.  
 Life Saving—Spencer Kendrick, 1st; Ordis Norbess and Mike Crenshaw tied for 2nd.  
 Diving—Spencer Kendrick, 1st; O-dell Blackwell, 2nd; Ordis Norbess, 3rd.  
 The Brownfield relay team was composed of Spencer Kendrick, Vernon Bell, Woodrow Scudday and Don King.  
 Kendrick's total points were 21, the next highest being Ordis Norbess with 10 points.  
 (Sent in by W. B. Yates, Scout Executive.)

Rev. and Mrs. R. A. Hoover and children are visiting relatives in Lawton and Durant, Oklahoma and in Red River county at Clarksville, Texas. They expect to be gone about ten days, and upon return, Rev. Hoover will be engaged in Revival meetings in which he is dated up until the fourth Sunday in August.

**ARE EDITORS UNPOPULAR**

It is likely editors are the most unpopular people in the world. If they try to please one group, they offend another. If they express honest convictions which they usually do—narrow critics to the contrary notwithstanding—they are by many misjudged and discredited. If perchance, at rare intervals an editor hears of no error that has crept in or feels no assault on his idea of what should or should not be published, he is profoundly relieved—almost unhappy. He does not need commendation for any meritorious thing he has written or done to make him measurably satisfied with life. All he needs is freedom from the sharp stabs of those who are looking for imperfections or grounds for disagreement. There is no closed season, and often he is lambasted without knowing it, he is not hurt, and he may even imagine he has escaped by unanimous consent. We would counsel the young who contemplate journalistic careers to develop thick and tough hides as a preliminary step and leave behind all desire to run for office or to win in any other form of popularity contest.—Wyoming Press.

G. C. Holden, wife and little daughter, were through here last Friday afternoon on their way to Coahoma, where he has business.

**RHEUMALAX RELIEVES RHEUMATISM**

# SOCIETY and Club

MRS. R. L. BOWERS, Editor  
Phone 1-8-2

## BOY SCOUTS RETURN HOME

Tuesday evening the Boy Scouts who have been encamped near Post entertained their "big brothers" with a chicken barbecue. Quite a few local Rotarians and others who had boys in camp went over.

Those from Brownfield were Messrs McDuffie, Kendrick, Will Alf Bell, Flem McSpadden, Michie, Will Adams, Mrs. Dallas and James Harley, Mr. and Mrs. Ray Brownfield.

## S. C. S. CLASS MEETING

The S. O. S. Class of the Presbyterian Sunday School met Tuesday afternoon at four o'clock at the home of Mrs. Dallas for a business meeting, to discuss plans for contributing to the Orphan's Home.

The members present were Misses Larue and Christova Sawyer, Geneva Perry, Juanita Perkins and Florence Holt. Punch and cake were served.

## BIRTHDAY PARTY FOR PATSY RUTH LEWIS.

Little Miss Patsy Ruth Lewis celebrated her fourth birthday Tuesday afternoon with a party. The usual games were played after which the pretty pink and white birthday cake was cut and served with lemonade and candy.

The little guests were Quilla and Wanda Graham, Emma Jane Coleman, Cecil Ross Smith, Jimmie Green, Deverle and Bobbie Lewis, Kathryn and Mary Barrier.

Captain Bruce Reed of Vernon is visiting his friends, James Harley Dallas and Bill Collins. Captain Reed is an ex-captain of the football team at the Tech and is a splendid athlete.

## THEATER PARTY FOR CHILDRESS VISITOR.

Mrs. Eva Owen entertained with a theater party Tuesday evening in honor of her guest, Miss Hazel Owen of Childress. The party went to Lubbock to see "The Desert Song," after which refreshments were served. The guests were Misses Vivian Winston, Fay and Alma Brown and the honoree and hostess.

Reverend Payton Waddill of Lubbock will preach at the Presbyterian church Sunday morning and evening.

Mr. and Mrs. J. E. Michie spent the Fourth at Post.

Mr. and Mrs. L. F. Hudgens left

Monday for Amarillo to visit their daughter, Mrs. Vernal Rentfro.

## VISIT THE CAVERNS ON FOURTH

Mr. and Mrs. J. T. Hamilton and children, Charles Hamilton and family, Misses Annie and Addie and Mr. and Mrs. Weldon Ridgeway went through the Carlsbad Caverns on the Fourth.

Mr. and Mrs. Sandford Lackey of Hitchita, Oklahoma have been visiting their friends, Dr. and Mrs. Graves and Mr. and Mrs. Jack Holt.

Mrs. S. V. Wheeler was called to Miles Saturday night because of the serious accident in which her father, Mr. Glace was run over by a car. He died Monday.

Mr. and Mrs. Tom May and children returned Saturday from Colorado Springs where they took Miss Rebecca to the Colorado Encampment for girls.

Mrs. W. G. Harris and children are at home after a three weeks visit in Sanger, Denton and Pilot Point.

## CELEBRATE FOURTH AT CROSBYTON AND SILVER FALLS.

Mr. and Mrs. Albert Endersen and children, Mr. and Mrs. Leo Holmes, D. and Mrs. DuBois, and Mr. and Mrs. Allen spent the Fourth at Crosbyton and Silver Falls. A splendid time was reported by all.

Mr. and Mrs. A. M. Brownfield returned Friday from Dallas where Mrs. Brownfield has been in the Sanitarium.

## THE YOUNG WOMEN'S MISSIONARY SOCIETY.

The Young Women's Missionary Society met Wednesday afternoon because of Thursday being a holiday. The last chapter of the book was studied with Mrs. Dodson as leader.

The Society voted to meet on the second and fourth Thursday of the month for the remainder of the summer.

Those present were Mesdames Dodson, Davis, Finney, Knight, J. C. Hunter, Baldwin, Mustain and Cecil Smith.

## BIBLE CLASS MEETING

Mrs. Will Moore led the lesson of the Bible Class which met at the Church of Christ Monday afternoon

at four o'clock.

The members present were Mesdames Sanders, Homer Winston, Will Moore, Williamson, Collier, W. G. Harris, Jackson, Claude Hudgens and Flowers.

## BAPTIST W. M. U.

All of the Circles of the Baptist Women's Missionary Union met Monday afternoon with a lesson "Prayer" from the "Royal Service."

Circle One met with Mrs. Pat Brothers with the following members present, Mesdames Baker, Allen, Auburg, Ray Brownfield, Orgal Adams, Alexander, Coo, Clare, Alawine, Collins and Floyd.

Jello and cake were served.

Circle Two met at the church at five o'clock with Mrs. J. C. Green as leader. Present were Mesdames Tom Glover, Flache, Dunn, W. W. Price and Green.

Circle Three met with Mrs. Lulu Smith at three thirty. Mrs. E. V. May led the lesson. Those present were Mesdames Pauline Wirtz, T. W. Wirtz, May, Markham, T. J. Price, Pounds, W. W. Price, Neill and Grandin Hulse.

Cake and iced tea were served.

The Louise Willis Circle met at the home of Mrs. Benton with Mrs. Wayne Brown as hostess at 5 o'clock. Mrs. May led the lesson with the following members present: Mesdames DuBois, Mangum, Townsen, Lawrence Green, Ike Bailey, Ralph Carter, Gay Price, Ballard, Sexton and Brown.

Cake, iced tea and sandwiches were served.

Next week all of the Circles meet at the church at four o'clock for a missionary lesson in home or foreign fields.

## METHODIST MISSIONARY SOCIETY.

Mrs. B. L. Thompson led the lesson in "The Voice" Monday afternoon when the Society met at the church at four o'clock.

The members present were Mesdames Powell, Thompson, Carpenter, Downing, Cleve Williams, and Longbrake.

## PRESBYTERIAN SOCIAL

The members of the Presbyterian Missionary Society entertained their husbands Monday evening with a forty-two party at the home of Mr. and Mrs. F. M. Ellington.

After the games sandwiches, olives, potato chips and punch were served to Mr. and Mrs. Dallas, Mr. and Mrs. Brazelton, Mr. and Mrs. Earl Hill, Mr. and Mrs. John King, Mr. and Mrs. Murphy, Mr. and Mrs. J. H. Griffin, and Mr. and Mrs. H. W. McSpadden.

Mrs. H. W. McSpadden, Mrs. Flem McSpadden and Mrs. Leo Holmes were Lubbock visitors Monday to see "The Desert Song."

## HARMONY CLUB REPORT

The Hen, Hog, Hominy Harmonizers met Friday night at Harmony with eleven of the members present.

We are going to send two members to the short course this year. J. O. Hobbs and Mildred Young were elected to go.

We are all looking forward to Friday and intend to have all members with us there. We are very sorry to report the illness of our vice-president, hope she will be with us again soon.

—Reporter.

It is reported here that Lubbock put over her \$650,000 bond issue for new school buildings and equipment this week by a vote of 7 to 1.

Fred Smith, president of the local school board showed us five \$1,000.00 school bonds that they had taken up of the old issues against the district this week. Asked why he took up so many at one time, and he informed us that they had the money to do it with, and wanted to save interest.

## LOYALTIES

Hard-Boiled Grocer—"No, sir! no checks! I wouldn't cash a check for my own brother."

Disappointed Customer—"Well, of course you know your family better than I do."

Mrs. Eva Owens has returned from an extended visit to Dallas, Childress and Sweetwater. She was accompanied home by her sister-in-law, Miss Hazel Owens, of Childress.

Dick Burson left Thursday for Ft. Sill, Okla., to enter the C. M. T. C. for thirty days.

Hudgens & Knight put on their last Kelvinator demonstration last week for the season, and report a number of sales. They announce they will now press the sale of gas stoves.

## British Royalty Are Ardent Cinema Fans

London.—There is just as much thrill for royalty in a good film as there is for the humblest "man" judging by the popularity of the "pictures" with the royal family. The prince of Wales, the duke and duchess of York, Prince George, Princess Helena Victoria, and Princess Marie Louise all enjoy an odd hour or two at the movies, while the Princess Royal is such a constant picture goer that she is well known at almost every West end theater.

Other noted fans are Lord Bickenhead and his daughter, Lady Eleanor Smith; Sir Austen Chamberlain, Sir Thomas Lytton, the duke of Wellington, and Gordon Strachan, the millionaire department store owner. Lord George has a well-equipped picture room at his residence at Chart, and Sir Eric Goble also has his own screen and projection machine.

## Bedridden, Happy With Friend 9,300 Miles Off

Lima, Ohio.—Bedridden since he was twelve years old, James C. Lisk, twenty-eight, a radio operator, fares life each day with a pleasant, sunny disposition and a welcoming smile to visitors.

Lisk has established a mutual friendship with Hampton Buchanan in Adelaide, Australia, 9,300 miles distant, whom he has grown to know intimately during the last four years but has never seen.

This acquaintance is the bright spot in Lisk's life and is one of the reasons why he looks forward to each new day with a pleasure lacking in most invalids.

The strange friendship began four years ago. Lisk lay in bed, his radio in operation, when the faint call of a remote station caused him to reach for the key and begin rapping out staccato clicks in answer to the Australian operator.

Soon the two men, separated by thousands of miles, were engaged in conversation. Thus did the casual meeting begin and soon ripen into a close friendship that has been uninterrupted daily since.

At present Lisk is concentrating his communication with the Byrd expedition at the bottom of the world. When the Eleanor Byrd's ship was steaming toward the Antarctic, Lisk held a two-way communication with the radio operator on board.

## France Plans to Seek Health in Nudity Camp

Paris.—The movement in France to "return to nature" by removal of clothes has been given impetus by the arrival here of the German apostle of nudity, Herr Zimmerman. Zimmerman came to Paris to confer with his colleagues in this country regarding the establishment of a health camp for members of the nudity society in France.

"You can have little idea of the moral revolution brought about by nudism," he said. "I believe that humanity can only be saved from evil by the practice of complete naturism. I also believe that this regeneration must be international in character. This is the reason I have come here to see M. de Monestel and his friends who are soon to open a camp."

Zimmerman founded a health camp at Klingberg near Lubeck, 25 years ago for persons who preferred to stroll about without clothing. Since the war the movement has grown rapidly and it is now claimed that it has 10,000 members in Germany.

## Plane Going 60 Miles an Hour Picks Up Mail

Roosevelt Field, L. I.—A successful demonstration was made here of a new catapult for loading mail, fuel, and supplies on airplanes while in flight.

Lieut. H. B. Clarke, former army flyer, piloted a plane 60 miles an hour over the catapult, which was set up over the field, and picked up a 23 pound mail sack five times and a 37 pound can of gasoline once. The mail sack held groceries, which included a dozen eggs in a metal container.

The eggs were unbroken in the transshipment.

## Vatican Building Garage to House Dozen Autos

Rome.—A new garage capable of holding a dozen automobiles is being built in the Vatican city in the so-called "Civico Vaticano" behind the courtyard of the Belvedere. With the creation of the new pontifical state, the Vatican court will require an increased number of automobiles and five new cars are already on order. The previous automobile complement of the apostolic palace was five cars.

## Southern Floods Give Fishermen Paradise

Bainbridge, Ga.—The receding flood waters from the overflow of rivers in this section of the last month have turned lagoons in this country into veritable paradises for fishermen. So great is the number of fish left stranded in the lagoons at the lower channel here that the state game department has been asked to gather the fish and dispose of them.

## Hepecked Man Calls for World's Sympathy

I often think of the last czar of Russia. He was the ruler of a great country, with royal blood in his veins, and the owner of possibly the world's greatest collection of crowns, jewels, vestments and the like. His subjects pretended to love him, and reverently called him the Little Father. At a frown from him, great hordes of men sprang to arms. . . . Yet one night some men took him into a dirty cellar and beat him to death, together with his wife and children. . . . I didn't know it for years, but I was always better off than the czar. . . . His main trouble was dreadfully commonplace; he was hepecked. So far as I am able to make out, from the records, his wife was one of those good women who, without the slightest evidence, believe in signs, omens, dreams, and find the truth shocking. . . . The rule is to laugh at a hepecked man. We should, instead, go to his rescue. I know hepecked men who are being as cruelly wronged as a man seized by bandits.—E. W. Howe's Monthly.

## The Secret of Success

The talent of success is nothing more than doing what you can do well, and doing well whatever you do, without a thought of fame. If it comes at all, it will come because it is deserved, not because it is sought after; and, moreover, there will be no misgivings—no disappointment—no hasty, feverish, exhausting excitement.—Lanfellow.

## First Inn Built in 1634

The earliest known public inn in this country was licensed by the General Court of Massachusetts in 1634. Inns increased rapidly from that time on. About 1675 Cotton Mather, who objected strenuously to the drinking and smoking in places of public entertainment, declared that every other house in Boston was a tavern.—Gas Logic.

## As to Faith

There are men and women who will not believe anything that does not sell itself to their reason. To take that position is to place too high a value on your own limited reason. There are many things undoubtedly true that the reason cannot comprehend.—Groce Patterson, in the Mobile Register.

## Rainfall Under a Roof

The palm house of botanical gardens at Leningrad is watered by an artificial rainfall which is distributed over the entire interior at one time. The water is forced through the pipes electrically and the flow is controlled through the operation of a single switch.

## "Limited" Trains

About 50 years ago the number of cars on some trains was limited and when the space was booked, no more passengers were accepted. These trains were called limited. Today the word describes a train which may stop only at the more important stations.

## Better Take a Taxi

"I never was so mortified!" exclaimed Mrs. Averypops.

"Yeah? What happened?" asked her husband.

"I got on a street car today," said the lady of many pounds, "and a rather thin man got up to give me a seat, but as the man next to him wouldn't get up, too, I had to stand and listen to the rest of the passengers in the car scold."—Cincinnati Enquirer.

## The Kingly Eagle

It is not the eagle of the naturalists who sits above our standard, but the eagle of legend and history which for centuries typified strength and swiftness and all the virile attributes of the warrior and above all else, freedom.—American Magazine.

## GREATEST NEWSPAPER

There are some publications in the large cities which "admit" that they are the world's "greatest newspapers." In an address at the MPA meeting by G. S. Crane, of the Campbell-Ewald Co., one of the largest advertising agencies, the following interesting statements were made:

"The greatest newspaper in North America is not published in New York City. Chicago has none that compares with it. Florida or California's large cities know it not. For the greatest newspaper in North America yields ten times the influence, is read by a hundred times more readers, carries inestimably more pages of advertising than any newspaper in any great city in this continent of ours.

"The greatest newspaper in North America gets closer to its readers, is read longer, believed in more confidently determines the outcome of more elections, exerts a greater power for progress, sells more merchandise and rights more wrongs than any metropolitan daily ever published.

"The greatest newspaper in North America is issued 11,500 editions, fifty-two times a year, published in 11,000 separate newspaper offices, in 8,000 different town and villages throughout the United States, which offices occupy a combined floor space far in excess of that afforded by the great Woolworth building of New York and the great Wrigley building in Chicago.

"The business of this greatest newspaper in the aggregate would astound even the president of America's largest industrial corporation. The greatest newspaper in America is the home-town paper, better known to us as the country weekly"—Newport Beach, California, News.

The little child of Mr. and Mrs. John Birgham of the Needmore community, was brought in last week to the residence of Mr. and Mrs. Bill Cook to be put under treatment of a physician, who says the little one is suffering from slow fever. It is reported better at this writing.

We are glad to see Earl Jones, of the Rialto Theatre, up again after a few days confinement to his sick bedroom.

### Dozen Great Accomplishments of Legion

"The American Legion has justified its existence in the first decade

of its life by its unselfish accomplishments for the benefit of all Americans," said C. B. Quante, Post Commander of the Legion here in pointing out why the entire community should support the present effort of the local organization in strengthening its forces to accomplish more ef-

forts. Application for membership in the Legion can be made to any member in good standing.

"There are scores of outstanding accomplishments that could be enumerated," he said. "Here are a dozen of them:

"1.—The Legion has successfully cemented the common purpose of the men in the fighting forces of the World War into continuing the same high plane of loyalty to country, and good citizenship upon which they stood while serving the colors in the emergency.

"2.—It has caused to be passed very bit of legislation for the benefit of all veterans; caused the organization of the U. S. Veterans' Bureau that the disabled might receive the justice and privileges a grateful government intended they should have.

"3.—It saved this country from a dangerous period of unemployment, in 1921, when, almost overnight, it opened an employment bureau with 1,000 branches and found jobs for more than 1,000,000 returned soldiers.

"4.—It demonstrated to congress that adjusted compensation for all veterans was right, and instead of causing a heavy national debt as predicted, it actually aided in eliminating hard times.

"5.—It raised a \$5,000,000 endowment fund in 1925, the income from which is used to aid and care for the disabled and orphans; maintaining a constant service for each class.

"6.—It successfully held a good-will pilgrimage to France in 1927 that has had far-reaching effects toward establishing permanent peace in the world.

"7.—It is promoting Junior Baseball for boys, the program for the second time being assisted in 1929 to the extent of \$50,000 by the two major leagues; not that the Legion is interested in baseball as such, but because it believes that good sportsmanship, learned under the guidance of Legion leadership, will develop in the boy the principles of good citizenship he will never forget as a man; fair play, obedience to rules and law, and the ability to win or lose like a gentleman.

"8.—It performs in more than 10,000 communities an emergency relief unit, which is of immediate service in time of disaster before the regularly established agencies can get on the scene.

"10.—It has promoted aviation, the marking of cities for pilots and the construction of airports.

"11.—Treasuring our rich heritage of Liberty, National Independence and Democracy, it is ever on guard for the adequate national defense of our institutions.

"12.—It promotes Boy Scouting, R. O. T. C. and C. M. T. C. activities, not because the Legion is militaristic, but because such training for the youth of our land creates a class of leaders and promotes love of country and loyalty to American ideals.

### JUST LIKE OLD TIMES

Adam and Eve came back to earth to see the latest styles. Said Eve to Adam—"It seems to me, the styles are about the same as they used to be."

Will Beauchamp, of Rule, Texas, has moved to Brownfield, and are occupying a house on west Broadway. Mrs. Beauchamp is a niece of the edi-

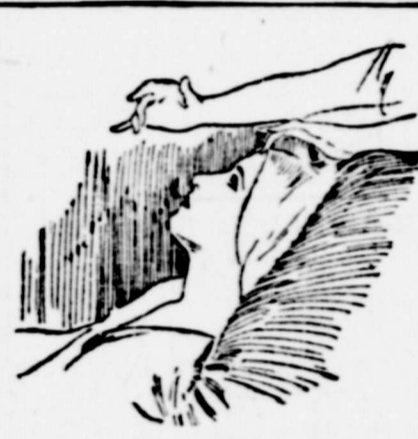

### Twins Born to Colored Couple Here Monday

Robert Fuller and wife, (colored) have been expecting the arrival of an offspring for sometime, but they, like white folks were not a little surprised when two appeared on the scene instead of just one like they had ordered. But both were gladly accepted, and the couple seem real pleased, and citizens here of both colors are complimenting the Fullers.

One is a boy, and the other a girl, and they have already been named. Occupying the servant house of Mr. Luther Cruce, the two babies also carry one of the names each of himself and wife. The boy's name in full is Luther James Fuller, and the girl bears a rather longer one, Bessie Jean Louise Fuller, the Bessie part being for Mrs. Cruce.

Robert is porter at the City Barber Shop.

W. J. Baldwin was in from the south part of the county Tuesday on business.

**ELIZABETH ARDEN**

Treatment  
is based on  
three fundamental steps  
**CLEANSING · TONING  
NOURISHING**

The cleansing—with *Venetian Cleansing Cream*—rids the pores of all impurities which cause blackheads and coarseness. The Toning—with *Arden's Skin Tonic and Special Astringent*—clarifies the skin and firms the contours. The Nourishing—with *Orange Skin Food* or the delicate *Velva Cream*—rounds out lines and wrinkles. These three steps, which supply every need of the skin to keep it naturally clear and lovely, should be a part of your daily care of your skin at home.

### Sage of Nubbun Ridge Off Selling Salves

Several of the friends of C. Sears were making inquiry early this week as to his whereabouts, and the editor thought he was out about the farm on Nubbun Ridge, until informed that he had suddenly disappeared from out there, and even the folks were uninformed as to his whereabouts. Finally we had business in the Commissioners Court room, when that august body gave out the information that he was sojourning for the present down in Haskell county, his erstwhile old stomping grounds.

The Commissioners were very glad it seemed to give us all the information about the Sage of Nubbun that we wanted, giving as their informant one J. O. Wheatley of the Johnson community, who seems to keep pretty well up with the movements of Sears. It is thought though, however, that Sears does not desire too much publicity about his movements, and upon leaving tries to cover up his trail to the best of his ability, but it seems that Wheatley once took a special correspondence course with the Burns Detective "Boorow," and keeps Sears pretty well shadowed. The Commissioners informed us that Wheatley informed them that Sears was down in Haskell county making campaign speeches for the Socialist Party, and between speeches was selling soft soap to the farmers to make expenses.

Note: Will say, though that Mrs. Stewart, one of the Commissioners, did not concur with the male portion of the body about this information, saying that if Wheatley gave out any such information, it was during her absence. In fact, this seemed to throw somewhat of a damper over the other portion of the Commissioners, as it appeared on the face of her statement that she rather doubted Wheatley giving out the information as stated above. But Sears is gone, and knowing his habits of old, she

safe guess that this information will prove not far from the right solution of his whereabouts. He is also reported to be selling corn salve.

### Baptist Let Contract For Modern Parsonage

After the bids were opened Monday afternoon, it was found that Lee Thompson was the best bidder for the construction of a modern new parsonage for the Baptist congregation of this city, and as soon as this building is completed, will be occupied by their pastor, Rev. E. V. May and family. The contract price was \$3800.00.

The building is to be 28x42 feet, contain 6 main rooms, a breakfast and a bath room. The material is to be brick veneer using a dark wire cut brick as near like the church as possible, and will occupy the lot just east of the church building. The roof is to be of crushed red brick and asphalt cement. The garage will be of brick front construction with sides and rear stuccoed. Some seven hundred square feet of walks will be built in front and around the parsonage and church buildings.

The Herald congratulates the Baptist people in their movement for the improvement of their property, thus helping the growth and development as well as the beautifying of our city.

### DIFFERENT METHOD

"Papa, the preacher was here to lunch today."  
"Is that so?"  
"Yep—and he swore about mama's cooking the same as you do, only he bowed his head and held his hands over his eyes."

First Girl: "Wouldn't your mother be awful angry if she saw you in that scant bathing suit?"  
Second Girl: "I should say she would. It's hers."
