

## TOWN PEOPLE SHOULD NOT USE PARKING SPACE

Country People Have Begun to Complain About Town Folks Grabbing All the Good Parking Spaces Before They Reach Town. Let's Be Nice to Our Guests.

Again, we wish to call the attention of the people of the city to the bad habit they have of parking their cars around the square especially of Saturdays when all available space is taken soon in the afternoon. If you will view it in the right way, you will decide it is only not a good policy, but rather bad manners as well. This time, we are not telling you this of our own initiative, but at the request of a number of farmers who do all or most of their business here.

One of them told us that the country ladies used their cars to rest in when tired, and they disliked to have to go to some side street to their car. In fact, they get a great kick in setting in their cars to rest, and at the same time watch the milling procession of people pass up and down the sidewalks in front of them. On the other hand, the town ladies can go home in a minute or two when they

are tired to rest if they want to. The habit of all the merchants and professional men parking in front of their places is just as bad and should be discontinued.

These people come here to trade with us, and if it were not for them, your property, now valuable, would not be worth a poor song, and you sing it yourself. Would it not be the right thing to at least give up all the space in front of our stores at least one day in the week. Have some of the family bring you to town, and send the car back home.

The Chamber of Commerce as well as some of the civic clubs are to take this matter up in earnest as soon as the paving is complete, but in the meantime, we could do this voluntarily and show our guests that we do not have to be asked or begged to give up our favorite parking space on Saturdays.

## Chamber of Commerce Has Fine Bunch of Good Laying Poultry

By Secretary—

The writer was in the warehouse of the West Texas Gas Company one day this week and noticed that there was something like one dozen broken gas meters that had been destroyed by being run over by some automobile, truck or other vehicle and naturally had to be replaced with new stuff. These instruments are very costly and destruction of them, represents one of the reasons why the gas company has to maintain its present charge for service. They are all located well above the surface of the ground and within the property lines and there is not good reason for any person being so careless as to disturb them. There is a penalty attached to malicious destruction of property and some fellow is likely to have to pay for the pleasure that has been afforded him as the company is getting pretty tired of replacing broken machinery and gas users are about caught up on having service disturbed.

Your secretary was at Lamesa Monday night, in attendance upon the annual banquet of the chamber of commerce and at each plate was a report of the secretary and also the Lamesa Mutual Aid Association, which is organized for charitable purposes only and appears to have been very successful in its operation without great cost to its contributors. It might be that Brownfield could adopt the plan and it would be a good idea to do so and the writer expects to place it before the board of directors for their consideration. We have been sending out about \$300.00 to an organization national in its scope and one which has done a great deal of good in its day, but the fact remains that no direct benefit has accrued to us and we should arrange to take care of needy people who are nearer home. During the past two years, the chamber of commerce has been handling emergency and transient cases of charity but the funds of the organization are not sufficient to allow for caring for those who need any considerable amount of assistance and a more liberal arrangement should be made.

Next week the writer expects to begin a series of articles concerning highways and highway bond issues as they concern Terry County, some of which will be from his own pen and others "filched" from newspapers and magazines. The directors of the organization have not agreed to sponsor any bond issue and the articles are only intended to be informative in their scope.

### W. A. BELL PUT IN RACE FOR MAYOR BY FRIENDS

The many friends of W. A. Bell have asked us to write an announcement for him for the office of Mayor of the city of Brownfield, and will say that Mr. Bell needs no introduction here as he is one of the town's oldest settlers. He has been in the banking business here for many years, and was in the hardware business during 1929. Being a well balanced business man, he will be well qualified to take charge of the business end of a constantly growing city that owns its own light, power, water and sewerage systems. While Mr. Bell says he will not make any effort for the office, if his friends elect him he will serve, and they ask you to vote for W. A. Bell, for our mayor, April 1st.

Jeff Holland of route 2, is both a new reader of the Herald and a new comer to Terry. Thanks, Jeff.

## Terry to Be Well Represented at Dairy Show

Terry County will send a car of Jerseys to the Panhandle Plains Dairy Show which is to be held in Plainview, April 7-10. Breeders who will have animals in the car are S. W. White, R. H. Timmons, T. L. Causeaux, Herbert Chesshir, Carlton White and J. C. Bohanan.

Mr. S. W. White of Meadow will be in charge of the cattle and he will be assisted by the County Agent. The C. of C. of Brownfield and Meadow will defray the freight.

Marion Craig and family returned last week from a visit to Sherman, Texas. Marion says a trip back there only increases his love and admiration of old Terry.

## Good-by!

## County to Pave to Their Property Line

After seeing the ugly vacancy that existed between the streets and the county property line that was to be unpaved, the commissioners court decided this ought to be paved as they had plenty money to do so. However, it is our understanding that this space will not be paved on a concrete base, as it will carry no traffic, but the brick will be laid on a good caliche base and a heavy coating of asphalt put on it, which will make the space ideal for parking purposes.

In conversation with County Judge H. R. Winston recently, he informed us that they had something like that in mind all the time, but kinder got balked up on it, but discovered the mistake in time to make the change while the construction crew is here, and the curb is being set this week and the ground prepared to lay the brick as soon as it is thoroughly settled. Drainage will be made to the gutter of concrete at the edge of the present paving.

In making the surveys, it was found that the old curb was not on the property line nowhere, which was a surprise to many. It was off about two feet on the east and south side of the courthouse park, and some six feet on the west and north. After the permanent curb is set, a nice six foot concrete walk will be made around the entire property. The Herald wishes to take this means of joining the many friends of the Commissioners Court in commending them on the step they have taken to further beautify our valuable county property.

## C. of C. Directorate Entertained by Sheltons

On Wednesday evening 5th, inst. at the home of Mr. and Mrs. J. E. Shelton the Board of Directors of the Brownfield Chamber of Commerce were entertained.

Mrs. Shelton served a full course dinner at the conclusion of which a resolution was passed by the entire Directorate voting her one of the most charming hostess they had so far had the pleasure of visiting.

After the bountiful repast in the dining room, the directors were called to the living room and were placed in executive session where the year's program and budgets were given attention until late hours. The hospitality of the Shelton home will long be remembered by the directors.

The directors attending were: Ben Hurst, Roy Davis, Tom Cobb, Cecil Smith, Morgan Copeland, W. R. McDuffie, Homer Winston, Jim Miller, Claude Hudgens, Henry Chisholm and Will Alf Bell.

County Treasurer J. T. Pippin says his children rounded him up about their subscription to the Herald after our article came out last week, but he had already attended the matter. We are glad the ladies and children are on our side. They often influence hubby or papa as the case may be to get the old iron man in on time.

George Carter and wife, of Ropes, accompanied by Mr. and Mrs. Wheeler of Meadow, were here trading Saturday.

## Brownfield Has Radio Broadcasting Station

Brownfield on the air; Brownfield everywhere! Yes, sir, we now have our own broadcasting station, and it is going over nicely, and at the same time is giving our hustling little city not a little advertising. And incidentally, we are a jump ahead of other towns on the south plains, at least. Also, we can now use our radios in the day times when statics eliminate station at a great distance from us.

Some two weeks ago, Mr. H. H. Stevenson, of Paducah, came in and put in a music store, after traveling all over this section, including some of the towns in New Mexico. He liked Brownfield and finding that musical instruments were not being pushed here except as side line, he figured this would be a good place to settle down and establish the Brownfield Music Store, and put in his broadcasting station. Of course the station is small at present, but Mr. Dalton, salesman of the firm, informed us that both the power and size of the station would be increased from time to time as business justified. But they come in fine in the city and surrounding country, and have been heard out as far as 60 miles. Indeed, they have had calls from Lubbock and O'Donnell for request numbers.

They go on the air at noon each day on a wave length of 750 kilocycles, and play request phonograph numbers for about two hours. For the first time since they have been here, local talent was heard over the station Monday at noon, when the Bennett Bros. & Poore string trio was tried out. Those listening in at the time say the program was fine, and others will be given from time to time, as well as other musical organizations of the city. However, it was discovered that the sound proof booth was too small for very large organizations, and the owners will remedy this in the near future.

## Mr. Crawford Predicts Plenty Rain For 1930

We had a conversation early this week with our old friend M. C. Crawford concerning the outlook for the year 1930, and found him very optimistic as far as plenty of rains are concerned, as well as heavy crops. He advises us however not to look for any rain until about the last of this month, when there will be a new moon. However, it is showering some today (Tuesday) and we might say it looks rather favorable for more before this rain period has passed.

Continuing, Mr. Crawford says that after rain starts the last of the month, he doesn't expect to see any very long periods between rains from then till fall. Indeed he expects an abundant rainfall well distributed during the growing months. As to the crops, he says we will have crops fully equal to those of 1914 and 1920 and that possible we may even excel the crops of those years.

He advises the farmers to get their lands up and ready for the good rains which he feels sure will come in about ten days or two weeks.

We thank J. E. Moore for his renewal for the Herald this week.

## Nabbed For Taxes As He Tried to Ship Out

A firm came to this town last fall when the pickings were good and we guess reaped a nice harvest through the winter, taking from the merchants who are well established here a bountiful portion of the business that should have gone to them. At the end of the ready money time, he was ready to seek greener fields as he does no credit business. It is a cash over the counter proposition for them or you leave it.

They had located a place in a new oil town southwest of here, and had everything loaded early Saturday morning on trucks when city marshal, Geo. Tiernan discovered them, and being connected with the tax collecting part of the city government, he demanded taxes, and got them. He also notified the county officials as well as the Brownfield Independent school district authorities, and soon, Sheriff Mon Telford and J. L. Cruce were on his trail. They were held up till all taxes and other bills were settled. This was one of the kind of firms that love to see the coin rolling in to them, but none go out. The Herald never presented them with a bill that was not disputed or a row started in order to collect it. Others had the same trouble, we understand, and personally we are glad they are gone, and hope we never have another like them.

It looks to us like firms that go into a new place to them would want to go in to make everybody a friend that they possibly could, but it seems that some will row and take all the advantage they possibly can, if they can, come what may. There is, so it is reported to us, a big chain store wanting a place here being vacated by another firm, but rather than pay a hundred dollars or so for some display improvements this firm has made, the big fellows threaten to lease when the present one expires thus precluding all possibility of a short lease to others by the present occupants. This may be a fine business policy, but the Herald is inclined to think otherwise.

## Sears Cans His Own Meats—Lives at Home

Believing that a fat jersey calf was worth more to eat than to sell, Mr. C. Sears butchered a eleven months old jersey steer that dressed 285 lbs and put it in the can.

Mr. Sears invited Mrs. C. J. McElroy, Mrs. Welch, Mrs. K. Sears, Mrs. I. M. Smith and Mr. and Mrs. R. B. Davis out for dinner and when the feasting and the work was over there was still left 73 large cans of delicious steak, roast, sandwich meat, and chili, besides one hind quarter weighing 72 lbs. and the ten dollars of fresh meat that was sold. This would total up considerable more than the market value of the calf besides there is the satisfaction of having something to eat in the cellar that may be served upon short notice.

T. L. Chapman of route one, came in to renew for his Herald the past week.

## BROWNFIELD TO HAVE A MODERN SCHOOL PLANT

Not the Largest, But One of the Most Modern. To Be Well Equipped Throughout With Latest Appliances. The Auditorium to Be the Pride of This City.

The new school building, mention of which contract was let in these columns last week, will be one of the most modern in this section of the state when completed. Of course it will not be one of the largest, for there are several larger, but will nicely supply the needs of our school for the time being. We will not say that it will supply our needs for years to come, either, for we have long since quit saying anything like that in this section of Texas. Another thing, members of the school board are of the opinion that they have saved the district at least \$10,000, or have been enabled to get that much more building and equipment than if they had gone on with the building last fall, for materials have radically declined since the wall street episode, and labor has not been as plentiful and cheap as now in years.

We have not seen an architect's drawing of the new building, but have seen the front, rear and side elevations, and we were very much impressed with the beauty and symmetry of the plant. It is to be two stories, with basement sufficient to take care of the heating plant. The outside dimensions of the building will be 120x128 feet, or nearly square. There will be nine class rooms and a very large study hall that can be converted into two rooms if need be.

The auditorium will not only be thoroughly modern, but a real work of art. It will have a seating capacity of 600, with a balcony large enough to take care of all the pupils that are in the upstairs rooms without their having to come down to the first floor. The stage, which will comply with the very latest research in acoustics and arrangement, will be equipped with a motion picture booth, and the best of curtain arrangement and lighting. There will be a number of laboratory rooms which will be modernly equipped with materials.

This building and equipment is to cost about \$75,000 for the building and equipment, and is to be completed within 120 working days after the work is started, which will be as soon as the contractor makes satisfactory bond, and of course will be ready for occupancy when school opens this fall. While we look for a great increase of scholastics this summer, we will be ready for them this fall with plenty room, good equipment and an efficient faculty.

Brownfield has paved streets, electric lights and power, natural gas for fuel, modern waterworks and sewer system, fine, well equipped schools, good churches. What more do you want in a town. It also has an unexcelled trade territory surrounding it.

Maurice Chevalier, Jeanette MacDonald in the Ernst Lubitsch Production, "The Love Parade". A Paramount Picture

## "The Love Parade" Modern in Thought

Although "The Love Parade," the talking screen's first original musical romance, coming to the Rialto theatre Sunday, Monday and Tuesday, is a costume production, it is as modern as tomorrow's newspaper, according to Ernst Lubitsch, who directed it. The story deals with the love of a queen for a prince, but she is a modern queen and he is a very modern

young man. The fact made the problem of costuming a difficult one. This problem was solved by the Paramount designers by basing all the costumes on fashion trends that are indicated for the coming season, elaborating on here, modifying there, and lending to all a richness ordinarily lacking. Maurice Chevalier is starred in "The Love Parade" which features a large cast of musical comedy and screen favorites including Jeanette MacDonald, Lupino Lane, Lillian Roth and Eugene Pallette.

## Revival at Methodist Church Begins Sun.

Beginning March 23, evangelistic services will be held for two weeks at the Methodist church. Rev. C. A. Bickley the Presiding Elder of the Lubbock District will do the preaching. Morning services will be held at ten o'clock and evening services at 7:30. Prayer services have been held for the past two weeks in anticipation of a gracious awakening of spiritual life. The results that we may have will not be by the power of man, for it is "Not by might, nor by power but by My Spirit saith the Lord." A cordial welcome is extended to the Christian people of the town and adjacent country and the unconverted are especially on our hearts and invited to all these services. If you have any talent or song or prayer you are urged to use that talent to its fullest extent during this meeting.

Those who have heard Brother Bickley have been impressed with his spiritual fervor and thorough command of his subject. Sister Bickley his wife will also be with us during most of the meeting to add the power of her prayers and work with young people. The pastor urges a full cooperation of the membership and friends of the church in this special endeavor. B. A. Doubler Sunday. Geo. E. Turrentine.

## Davidson May Be Candidate For Governor

AUSTIN, March 17.—Possibility that former Lieutenant Governor Lynch Davidson of Houston may enter the governor's race as a candidate this year was seen by his friends here after he visited the capitol this week. He made no statement of possible plans in connection with the political race. His comment on Governor Moody's controversy with the legislature on prison relocation that Governor Moody had "more than met his expectations," was said to have been jocular but at the same time a hint of disagreement with the governor's ideas and policies. Mr. Davidson is on record as favoring prison relocation.

The former lieutenant governor served as state chairman of the "Harmony Democrats" organization two years which joined Governor Moody in seeking to hold dry democrats in the harness of party regularity. Mr. Davidson recently made public a letter he had written to E. G. Senter, Dallas candidate for governor, saying that he did not consider "any candidate so far announced" as suitable material for election as governor.

N. W. Jones, who has recently moved to the city, has renewed his subscription to the Herald.

### Sketch of Career of Ex-President Taft

This remarkable man was born in Cincinnati, Sept. 5, 1857, the son of Alphonso Taft, whose distinguished career included the secretaryship of war, a post his son was later to hold. He prepared himself for his life's work in the public schools of Cincinnati, Yale university and the Cincinnati Law school.

But for chance, Taft might have become a newspaper man, like his brother, the late Charles P. Taft, whose recent death hastened the breakdown of the chief justice. He began earning a living as law reporter on the Cincinnati Times. He had a bent in that direction and after his retirement as president he was an associate editor of the Philadelphia Public Ledger.

His first public office was assistant prosecuting attorney of Hamilton county, Ohio. He became assistant county solicitor, judge of the superior court, solicitor general of the United States, United States circuit judge and entered national affairs as president of the Philippine commission in 1900.

Taft was the first civil war governor of the Philippines and entered Roosevelt's cabinet as secretary of war in 1904. During his incumbency, construction of the Panama canal was begun.

#### PRESIDENT ONE TERM.

At the dictation of his friend and admirer, Roosevelt, Taft was nominated and elected president on the republican ticket in 1908, defeating William Jennings Bryan on his third attempt for the White House. The dynamis T. R. broke with Taft because he failed to carry out "my policies," notably the recall of judges, which Taft denounced.

This break led to the famous bull moose uprising in 1912. The Roosevelt cohorts were "steam-rollered" in the republican convention at Chicago, but T.R. running on a third ticket, defeated his one-time friend for a second term and elected Woodrow Wilson president.

On June 30, 1921, Taft was appointed chief justice of the supreme court of the United States by President Harding, resigning Feb. 13, this year on account of failing health.

In later years the rupture between Taft and Roosevelt was patched up and friendship restored. Taft outlived Roosevelt, Wilson and Harding and now leaves Calvin Coolidge the only living ex-president.

#### SIDELIGHTS BY MARVIN JONES, OUR CONGRESSMAN

Southward, as well as Westward, the star of Empire takes its way. We have reached the end of an epoch in the history of our country.

New England industry is on the wane. The South and Southwest have been growing and building.

The coming decade will witness the greatest development in the Southern and Southwestern States that has ever taken place within the borders of America.

In making this statement I am not merely expressing my own views. It represents the viewpoint of practically every one who has studied these conditions.

What are the influences that are bringing about this new development? Why are men of experience advising young men to seek their fortunes in this fast-growing section? Here is the reason:

The South and Southwest today possess much of the reserve supply of the natural resources of America, the raw material out of which so many thousands of articles are being made. The south has a large reserve supply of timber, coal and iron.

The Southwest has a large reserve supply of the world's oil, natural gas and hydro-electric power.

Our portion of the Union has, in large measure, a natural monopoly on cotton, cotton seed and cotton seed oil.

We have the finest wheat lands in America.

In addition to all these advantages, the Southwest has a climate and a fertile soil with which no other section of the world can compare.

If properly utilized, her coal, oil, natural gas and water-power will give her a tremendous advantage over New England—that of cheap power with which to transform her raw materials into the finished article.

By saving the freight charges from New England to the Southern States, our factory owners would prosper, our laborers could be well paid, and our section would grow wealthy.

The difference in climate between our section and the Northern States gives the average family in the South and Southwest a decided advantage in the cost of clothes and fuel, to say nothing of the saving in building construction.

According to the Department of Commerce, our industries have tripled in the last decade.

As a dairying section, we are destined to lead the Nation. Our soil, climate and abundance of feed materials give us advantages with which other sections cannot compete.

When the fact becomes generally known that Texas and surrounding States are practically free from tuberculosis among the cattle, while the cattle of the Northern States, and especially the Northeastern States,

#### Old Fiddlers Contest Seagraves, April 10.

A real entertainment is in store for the people of Seagraves and this section when on April 10th an Old Fiddlers Contest will be staged at the High School Auditorium.

Interest is already running high as several Old Fiddlers have declared they will enter and invitations are being mailed to all Fiddlers in this section including not only Seagraves and Gaines county, but Lamesa, Brownfield, Tahoka, O'Donnell, Lubbock, Levelland, Hobbs and Lovington.

If you have a favorite Old Time Fiddler you should have him enter as everyone who plays the old time pieces such as Sally Goodin, Turkey in The Straw, Leather Britches and The 8th of January, etc., will be allowed to enter regardless of age, but the new modern Jazz tunes will not be allowed in the contest.

Besides the Fiddling Contest there will be some good numbers such as jing dancing, trick fiddling etc. and a short talk on the American Legion and its purpose by a well known speaker out of town. All old time fiddlers who wish to remain over night after the contest will be cared for in the homes of the members of the local Post.

The receipts from the contest will be used to equip the Clubroom of the local Post of the Legion, which is made up of ex-soldiers, sailors and Marines of Gaines county. If you wish to enter the contest please write the American Legion, Seagraves, Texas.—Seagraves Signal.

#### TALKIES SOON TO HAVE PHONES FOR DEAF PERSONS

New York.—Thomas Edison is only one of many thousands of deaf people whose pleasure in the movies has been spoiled by the coming of sound films. Although this has been brought often enough to their attention, producers have been unable to do anything about it. Now the Warner Brothers, who introduced Vitaphone to the industry, are equipping their theatres with devices enabling the deaf and hard of hearing to enjoy talking pictures.

A theatrophone system, designed by Charles H. Lehman, is being installed in the local Warner theatre and others will be equipped later.

In various sections of the theatre, arms of certain designated seats will carry a small box to which a specially designed earpiece may be plugged. A movable button on the handle of the earpiece make it possible for the user to regulate the volume of sound.

Louise Dresser, in discussing a few days ago the sorrow that the talkies had brought upon the deaf, remarked:

"My mother, who used to find such delight in silent pictures, now spends most of her time hunting a theatre still unprovided. They become rarer each week. Since she does not hear well, my mother cannot enjoy talkies. I think that eventually there are so many thousands of deaf people in the United States, each city will have at least one theatre where only silent films are shown."

#### NEAR TRAGEDY AVERTED TUESDAY County Agent Getting Judging Team Working

The presence of mind and absolute coolness of a Scurry county lady, Tuesday morning, averted what might have been a near tragedy and confirmed the fearlessness of a lady when serving in the line of duty.

Sheriff Frank Brownfield went upstairs early Tuesday morning to attend to a matter in the cell block of the county jail. He opened the door which locks a cell that contains six men, three of whom have records of the blackest type. These three jumped on Sheriff Brownfield, and while he had one around the throat, another by the hair, two of the men darted through the open door for downstairs and safety.

But Mrs. Brownfield met them at the downstairs door with a "six-shooter" and an invitation to return to their former place of abode, and she marched them right back upstairs, completing the prevention of a jail delivery and adding her name to the long list of women who have risen to the heights in the completion of their duty. Congratulations are thoroughly in order to Mrs. Brownfield.—Snyder Times-Signal.

### County Agent Gives More Dope on Disease

Further conversations and correspondence with veterinarians at Lubbock and A. & M. College with reference to the disease that has been prevalent among horses and cattle fails to disclose the exact nature of the trouble. The fact that some animals are affected in a different way to others makes it rather difficult to say just what the trouble is.

While it would be well to be careful about feeding worm eaten corn or other bad feeds yet it is a wise precaution to vaccinate against hemorrhagic septicemia. Farmers report that some of the affected horses and cattle which they vaccinated recovered and that none took it after vaccination.

Dr. I. E. Barr, of Lubbock, recommends that an animal which is affected be given a double dose of bacterin the first vaccination and a single dose twenty-four hours later.

Further losses of work horses and milk cows this past week makes it advisable to vaccinate for while that may not be the trouble yet it is cheap insurance.

**American Legion Had Prominent Visitors**

Bob Whitaker, of Cleburne, who is Adjutant of the Texas Dept. of American Legion, with headquarters at Austin, and his wife, also Mrs. F. H. Carpenter, of Sour Lake, Texas, President of the American Legion Auxiliary, Dept. of Texas, were here Wednesday from 10 to 12 o'clock at the local Legion hall. They are touring this section of the state, having attended the district meeting at San Angelo this week.

Mr. Whitaker profusely complimented the local post, and said they had believed the largest membership, (145) in the state, the size of the town considered. His address was received with interest, although short. A good percent of the membership, as well as several ladies were on hand. Mr. Whitaker said this was the first time he had ever visited this section of the state and was carried away with the country and the high class citizenship, and their get-up and get-way. He intimated that when his term of office expired he thought he would cast his lot with this growing section.

Mrs. Carpenter was next introduced by the master of ceremonies, Judge Winston. She was fully as complimentary as Mr. Whitaker about this section. Her address stressed the importance of the ladies auxiliary, and at the conclusion, she helped the auxiliary reorganize here, report of the new officers of which will appear in these columns next week.

**Scudday News**

The T. W. D. T. C. entertained with a program Monday morning. Some very interesting talks were given by the pupils.

The play Thursday night put on by Union was a real success. There were several visitors from other communities. We wish to thank each and everyone that came out to see it.

Rev. Fordson preached at the school house Saturday night, Sunday and Sunday night. He will begin a revival meeting here, starting Saturday night. He will be assisted by Brother Allen.

Mr. and Mrs. Johnnie Norman and baby from Post were visiting Mrs. Norman's parents, Mr. and Mrs. J. E. Young the week end.

Mr. Andrew Rainwater of Ralls, visited in the home of his parents, Sunday.

Mr. Spike and B. F. Hill made a business trip to Lou Monday evening.

Mr. John Hill has been on the sick list this week.

Mr. Sims and family of this community are moving over in the Forrester community.

The Scudday ball team went to Lou Friday and played an indoor ball game. The score was 7 to 8 in Lou's favor.

We will be ready for the tract meet Friday and Saturday.

**TAKING ADVANTAGE OF THE HIGH PRICES OF HENS**

Mrs. W. L. Graham, Mr. Alexander, Mrs. Richmond, Tom and F. A. Howard, Mrs. Crowder and Edd Newberry culled their poultry last week and sold the cull hens. They were assisted in culling by the County Agent.

**AGAIN KONJOLA GIVES PROOF OF AMAZING POWER**

Ten Years of Rheumatism Are Ended When New Medicine Is Given A Chance.

MRS. G. H. COLEMAN

What cheer and encouragement are to be found in the many victories of Konjola, the new and different medicine of 32 ingredients. Take, as a typical example of Konjola work, the case of Mrs. G. H. Coleman, R. F. D. No. 3, Ft. Smith, Ark. Imagine her happiness when she was able to say:

"When I look back and think how I suffered from rheumatism and kidney trouble for ten years I can hardly believe that I am well and happy as I am today. And all this glorious change is due to Konjola. For ten years I endured awful agonies. At times the pain in my limbs was so severe that I could not get around. Every night I was up many times, and the loss of sleep and rest told on my general health. A friend urged me to try Konjola, and what good advice that proved to be. In four weeks I was without a sign of rheumatism, and my kidneys were as good as ever. No wonder Konjola is the most talked of medicine in America. It should

be in every home throughout the land."

Konjola is sold in Brownfield at Alexander Drug Co., and by all the best druggists in all towns throughout this entire section.

ANNOUNCEMENTS

We are authorized to announce the following candidates for city offices of the city of Brownfield, subject to the election to be held on Tuesday, April 1, 1930.

For City Marshall: Geo. E. Tiernan; J. R. (Jim) Burnett; A. M. McBurnett; E. (Gene) Brown; Bob Simmons.

Brownfield has always offered the new comer good schools, but she is now getting in shape to offer school facilities second to none.

Now comes forward the startling scientific announcement that a way has been discovered to burn gas under water. Well, who in the name of high heaven wants to burn gas under water?

We have heard several citizens say recently that the best way for a fellow here to get rid of a case of blues over business matters was to take a trip east, or west for that matter, just so you get away from the south plains. They say you will come back with a light heart and a determination to boost this section as never before.

At last we have a candidate for mayor, although an involuntary one, a candidate just the same. This is something which the town has never had before, or at least none have ever permitted his name to go before the public in the news columns. We believe though, that this augers well for our hustling little city and shows that it has finally climbed out of the villagehood class, and now claims its place with the progressive municipalities of this section.

Style notes tell us that the rather radical change in styles this year, especially of ladies' outer garments, is causing not a little interest to those who care to keep up in the front line of the procession. The Herald would advise such folks that the advertising columns of the Herald are a good place to keep abreast of fashion notes and changes, for our progressive dry goods men are always out for the latest, and will have it here as soon as it comes into Dallas from the east. Watch the advertisement columns of the Herald.

We just don't believe that some of our town people have thought about grabbing most of the parking space in the business section here of Saturdays in the right spirit, and when they do, they will willingly do the right thing. They are a sporting people and being good sports they will be the game square. To reverse the order, suppose you were to drive out in the country to see one of your good friends that had been trading with you for the longest, and after you arrived there, he would not ask you in, and if you did go in his home anyway, suppose the family were to just keep their seats and leave you standing? Think a little.

Many people are encouraged from dispatches this week that Lynch Davidson may be induced to make the race again for Governor, and if so, the intelligent people, the people who really wish the best for Texas should get solidly behind him and see that the cry of wolf! wolf! be permitted to scatter his following. We have heard many staid business men, as well as well to do farmers who have the state at heart say recently that they wished Davidson could be drafted to run. A few have expressed some doubt that he would be able to make a come back sufficient to put him in the run off, being that he failed once, but we have known several to make a poor race and finally be elected, and little Oscar Colquitt was one of them.

The Chamber of Commerce announced last week that it would take no part in trying to dictate to the farmers about how much of their land they should plant to this or that crop, as the farmer never presumed to tell the town man what to sell or how much. Yet, as friends, it is not out of place to advise with one another. While the farmer may not tell the merchant audibly what he should sell, he nevertheless dictates to a great extent what the merchant does sell, for the merchant, if a real business man, will keep what the farmer wants and not some substitute. However, the Herald is of the opinion that the legislature is fooling away time in trying to make a law to force reduction of cotton or any other kind of acreage. It seems to us that we are already too well regulated by law now.

Not long ago, in a nearby town, a group of executives and attorneys of two corporations sat at a conference table. A document had been drawn, signed and approved by the lawyers, whereby one company decided to the other a suburban sub-division of a good many acres.

"Well gentlemen," said the President of the Corporation which had sold the land, "so far as I can see this business is completed—except for the detail of filing the deed at the Court House. With your approval, I shall be glad to attend to that matter."

Approval came forthwith. The president filed the deed. But first he added to that document a paragraph stating that his company would keep title to certain building lots. When the deed was recorded our friend mortgaged these lots.

Result: The purchasers were put to great trouble and expense before the property could be sold. Title insurance would have protected them against this.

**Terry Co. Not Surveyed in Reduction**

Concerning an article that appeared in the daily papers within the last few days, stating that a survey had been made of ten South Plains counties which included Terry county. And that said survey had revealed the fact that a considerable increase in cotton acreage had been decided upon. Since the articles appeared, several of our citizens decided to convince themselves as to the correctness of the survey and after interviewing a considerable number of our farmers, reached the conclusion that no increase is contemplated nor is any considerable reduction in prospect.

The matter of securing consent of cotton growers to a reduction of acreage was taken up and discussed by the directors of the Brownfield Chamber of Commerce and it was decided that no attempt would be made to influence a reduction nor suggest a change in variety planted. For the reason that the average farmer was a reader of daily or at least weekly papers and was as well informed concerning the situation as any other citizen and as capable of deciding upon it and further that he had by actual experience been able to adopt a variety that gave the best yield and produced the most profit to the acre.

It was also the opinion of the directors, that only about forty per cent of the cultivated land in this county was planted to cotton the remainder being used for corn and sorghums and that there was not any incentive for increasing the acreage in these upon account of prices being paid and no reason for increasing the number of poultry and dairy cattle because cream and eggs are selling for the lowest prices that has prevailed in several years. So taking the situation as a whole our people have about arrived at the conclusion that we will pursue the even tenor of our way and plant as usual, being prepared to accept whatever is offered for our products after they are harvested.

**Jersey Heifer Makes 45 Lb. Butter Fat Record**

Tormentor's Fernette, a registered two-year-old Jersey heifer belonging to Mr. T. L. Causseaux, produced forty-five pounds of fat the past month. This record will entitle her to a place on the honor roll as published in the Progressive Farmer.

Tormentor's Fernette is the second cow that Mr. Causseaux has placed on official test. The other Jersey, Masterman's Pearl S. finished a 305 day record in February that perhaps will be the highest of any Jersey on the South Plains. She produced a little more than 500 lbs. of fat in the ten months and should qualify for a silver medal.

Mr. Causseaux is milking his heifer three times a day and is making an effort to place her among the highest producers of her class in the State.

Wade Headstream was in Monday and reported that the ginning season was over for the Wellman gin.

**Much Petty Thefts Going On in Town**

There report that was current here the latter part of last week that a car had been stolen from an employee of Hudgens & Knight, and which appeared in some of the dailies proved false. A lady had taken it home as her car, and the difference was not discovered until her son drove in with their real car. Which goes to show that we should not hop in the first car we come to that looks like ours, especially if we have a Ford or Chevrolet, as it causes no small amount of worry to the owner, not to say an expense to county officials wiring to other places.

There are a bunch of small boys here that worry not only their parents, but their neighbors as well as they have to be watched all the time it seems to keep them from taking other people's property. Many people have been missing small things like having their gas tanks drained, or radiator caps stolen, and their milk missing from their front porches. Two of these boys were caught this week and carried before the sheriff, but they begged and promised so hard to be good boys from this on that the owner of the milk relented and saved them from a night in jail. Some of these boys, we understand have been whipped unmercifully by their parents, but seemingly to no good. Possibly the reformatory is awaiting them.

Mr. and Mrs. R. C. Burselon were in town Tuesday from their place 20 miles southwest town.

**Thomas Announces For State Representative**

Possibly for the first time in the history of this section, a Tahoka man becomes a candidate for Representative in the Legislature. John N. Thomas this week authorizes us to announce that he has decided to become a candidate for this responsible position.

Mr. Thomas is an old-timer on the plains. He came to Tahoka in May 1906, almost 24 years ago. There was very little Tahoka here at that time, the entire population of the county amounting to only a few hundred. He has seen Lynn county and the entire south plains converted from a ranching country to a fine agricultural section. Not only has he seen this transition take place but he has had no little part himself in the development of the country. He is thoroughly familiar with the history and development of this section and acquainted with its needs. For six years, from 1914 to 1920, he served as tax assessor of Lynn county. At other times during his residence here he has been engaged in business and also knows what it means to do manual labor, having followed the trade of a carpenter for a number of years. He has experienced both prosperity and adversity and being one of the common people, his sympathies are always with them.

Mr. Thomas is a man of good ability and of the highest character. Honest, sincere, a devout Christian and church worker, it would be hard to find a better man than John Thomas. He is all gold and may be relied upon to do what he believes to be right in every circumstance of life. If John Thomas goes to the legislature, this district will be in safe hands.

The 119th district is composed of nine counties: Crosby, Lubbock, Hockley, Cochran, Yoakum, Terry, Lynn, Dawson and Gaines. It will be impossible for Mr. Thomas to see all the people of the district and he must therefore rely upon his friends to help lay his claims before the voters of the district. The News takes pleasure in commending him unreservedly to the people of the district.

**OAKLAND-PONTIAC OWNERS PROTECTED FROM GLARE**

The new Fisher non-glare windshield, set at an angle which prevents annoying and dangerous reflections from striking the motorist's eyes during night driving, represents an important safety feature of the Oakland Eight and the New Series Pontiac Big Six.

This type of windshield recently was perfected by the Fisher Body Corporation after many months of intensive research and laboratory work at the General Motors Proving Ground.

After extensive experiments with light reflections on many types and designs of windshields, the Fisher engineers finally discovered that the reflections would fall safely below the driver's line of vision when the windshield was set at an angle of seven degrees.

In addition to its non-glare feature, the new windshield retains all the original advantages of unobstructed vision and scientific ventilation originally developed by Fisher. The seven degree angle has been achieved with no increase in the diameter of the front body pillars at points where the vision of the driver might be obscured.

Fisher's policy of using only flawless, carefully-selected plate glass, is of course followed in the manufacture of the new seven degree windshield for Oakland and Pontiac bodies.

**AVERY Sled and Two-Row Listed Corn Cultivators**

**Give a good crop a good start.**

When your listed corn is young, is the time to lay a foundation for profitable growth. Careful cultivation at this time brings a generous reward.

Listed corn farmers who work their corn through the early stages with Avery Sled and Two-Row Cultivators, bring down to the young crop exactly the required amount of finely pulverized soil and give their crop the best possible start. They do the most for the crop, in the easiest and best way, when good corn is most needed.

In designing the Avery Sled Cultivator, which runs in the furrow outside the row, every essential has been provided for doing the work easily and accurately. The Avery Two-Row

Listed Corn Cultivator offers a broader development of the same principle, but due to the exclusive Avery equalizers and other features, it cultivates two rows with the same ease and accuracy as does the single-row machine.

Avery Sled and Two-Row Cultivators bear the unmistakable quality characteristics of all Avery tools. Because they do better work and last longer, they are the most economical in the end to buy. They are built in America's finest implement factories—do meet a need that springs direct from the soil—by men inspired by 100 years of implement-making leadership.

Ask us for the details. We will gladly give you all the facts upon request.

There is a full line of famous Avery walking, riding and tractor plows, tillage implements, and Champion harvesting and haying machines.

**BIOGRAPHY  
of ANNIE LEE STONE**

Her Granddaughter—Kathey Hunter  
High Sixth Grade

Annie Lee Stone was born near  
Louisville, Kentucky, January 9,  
1867. She lived her girlhood days  
on her father's plantation. Her father  
had about fourteen slaves. She  
had a fine time the first fourteen  
years until her mother died then she  
had a hard time because she was the  
oldest girl of the family and of course  
she had to make all of the children's  
clothes because they were about  
twenty miles from Louisville.

After about two years of this life  
her father married a rich, mean lady.  
They had an old negro woman who  
was very kind. Annie Lee's step-  
mother made this old negro woman  
take care of the smaller children and  
would make some of the negro men  
whip the negro mammy if she would  
not do just as she told her. All of  
the children loved the old negro wo-  
man better than they did their step-  
mother. She got more strict every  
day until she would whip them every  
time they would get just a little spot  
on their clean clothes.

One day she went to Louisville  
with Mr. Stone. The children surely  
were glad she left. She had about  
twenty jars of jam on a shelf in the  
kitchen and the boys decided they  
wanted some. So they told Annie  
Lee to get on their shoulders and get  
up there and get them some jam. So  
she got on their shoulders and held  
on to the shelf and just when she  
thought she had the jam, over came  
the shelf, jars and jam with a bang.  
When she came home they got the  
whipping which they had expected.

When Annie Lee was twenty-two  
years old she married C. W. Tankers-  
ly. She now has a large family, of  
ten children. At the present she lives  
at Brownfield, Texas.

**CAUGHT IN A STORM**  
Winona Smith . . . Sixth Grade

One hot summer afternoon my  
sister and I decided to visit a cave  
about ten miles from where we lived.

We reached the cave about three  
o'clock and saw many interesting  
things while going through.

When we got back to the mouth of  
the cave the sky was dark with clouds  
and it looked as if it were going to  
storm, although we decided we could  
get home before it came.

When we were about half way to  
the cave my sister thought about leav-  
ing her hat where we had rested while  
in the cave, and had to go back after  
it. When she came back it was about  
six o'clock. The storm was coming  
fast, but we are going to try to get  
home.

We got about two-thirds of the  
way home when it began raining and  
the wind began to blow. It blew so  
hard it stopped our car and we could  
not start again. We were about  
three miles from any house so we had  
to sit in the car and wait until the

storm was over.

The wind began to blow harder and  
harder until it took the top off the  
car. Then we could feel it lift the  
two front wheels off the ground and  
whirl it around until it faced the oth-  
er way.

We thought we were gone. But  
it gave another big puff which blew  
my hat off and then stopped all at  
once.

After the storm was over we got  
out to see what all we had lost. We  
found that when the wind lifted the  
wheels from the ground it took the  
right front tire with it.

We finally cranked the car turned  
around and had to go home on the  
rim, without any top and barehead-  
ed. When we reached home it was  
getting dark and Dad was just start-  
ing to look for us.

Mother had supper and a good hot  
fire. After we had changed our wet  
clothes and had a good hot supper we  
went to be thinking we surely didn't  
want to be caught in a storm again.

**BOOK REVIEW**  
Story Editor . . . George B. Hancock

"The Corner House Girls"  
Jeannette Hancock . . . High Fifth

Author—Grace Brooks Hill.  
It is a mysterious book.

The scenes are laid at Milton,  
N. Y. in 1925.

The most important characters are:  
Ruth—The largest Kenway girl.  
Agnes or Aggie—Next to Ruth.

Thress—Third in size of the Ken-  
way girls.

Dot or Dorothy—The baby.  
Aunt Sarah—The lady who never  
speaks.

Mrs. Treble—A lady who says she  
is the heir to the place.

Lillie Treble—A spoiled child that  
is always getting into trouble.

Uncle Rufus—A servant.  
Sandy Face—A cat with four kit-  
ens.

The most interesting incident is  
"Seeing the garret ghost." In the  
garret on rainy and windy days  
something white looked out of the  
window at the left of the chimney.  
Everyone was afraid of the Corner  
House.

When Ruth was cleaning the gar-  
ret she saw what the ghost was.

If you want to know what the  
ghost is read the "Corner House  
Girls."

Mr. Arvis Backmon and Mr. Ar-  
ville Snow visited in the home of  
Mr. E. L. Williams Saturday night  
and enjoyed several games of check-  
ers and 42.

Mrs. Kemp visited Mrs. Allen Sun-  
day.

Mr. Deward Williams and Mr. Ar-  
vis Backmon have been running the  
tractor day and night for Mr. J. L.  
Lyon. They will soon be done over  
there and will start on a 160 acre  
field for Deward, which Mr. Lyon has  
rented now. Talk about farming  
they sure have tore the fields up the  
last week.

Mr. Graham and three daughters  
of Ackerley visited Mr. and Mrs. E.  
L. Williams. They came after Mrs.  
Graham.

Mrs. Aris Breland is still down  
with rheumatism. It has bothered  
her now a long time, but we hope she  
can soon be up again.

Mrs. J. O. Thompson of Brownfield  
visited her brother, E. L. Williams  
Monday night.

## Chevrolet announces

### A NEW

# SERVICE POLICY

The Chevrolet Motor Company and its  
dealers are pleased to announce a new  
service policy—one of the most liberal  
ever offered on a low-priced automobile.

Put into force as a written agreement  
given to the purchaser by the Chevrolet  
dealer when the car is delivered—it  
offers the following provisions:

1 Every Chevrolet owner receives his  
car from the dealer in perfect condition  
—thoroughly lubricated, properly ad-  
justed, and ready to operate efficiently  
from the first mile of ownership.

2 Every Chevrolet owner is entitled to  
free inspection and adjustment of his car  
at the end of the first 500 miles of usage.

3 Every Chevrolet owner is entitled to  
free inspection of his car every 1000  
miles thereafter, so long as the car is in  
operation.

4 Every Chevrolet owner is entitled to  
free replacement of any part which may  
prove defective in workmanship or  
material, within the terms of Chevrolet's  
standard warranty. This includes both  
parts and labor.

5 Provision number 4 will be carried  
out by any Chevrolet dealer in the  
United States. As a result, the Chevrolet

owner may travel to any part of the  
country, with assurance that the guar-  
antee on materials and workmanship  
will remain in force.

This new policy constitutes proof of  
Chevrolet's high quality—for such liberal  
provisions could only be made in connec-  
tion with a car built of fine materials to  
exacting standards of workmanship.

Back of this policy, and assuring its suc-  
cessful operation, is one of the most  
complete and efficient service organiza-  
tions in the world.

There are more than 10,000 Authorized  
Chevrolet Dealer Service Stations in the  
United States alone. Each employs  
skilled mechanics thoroughly trained at  
Chevrolet Service Schools. Each has  
specially designed tools and machinery  
developed exclusively for Chevrolet ser-  
vice work. And each has on hand, at  
all times, an adequate stock of genuine  
Chevrolet replacement parts.

Chevrolet's flat-rate charges, including  
both parts and labor, are the lowest in  
the industry on many service operations,  
as well as in increased economy.

In considering the purchase of a low-  
priced automobile, think what this service  
means—in terms of lasting satisfaction,  
as well as in increased economy.

### Don't Sell Wheat Short Federal Control of Power Memories Fade Smallpox Also Marches

Uncle Sam buying wheat at a price above world market and storing it helps wheat growers of other countries, although that is not his intention.

What the wheat situation will be next July nobody can guess. Wise gamblers will refrain from selling short. Uncle Sam's pocketbook is back of wheat prices in the United States, a new kind of power.

Flour has reached its low price since the World war, \$6.60 a barrel, compared with \$7.20 a year ago, and \$15 a barrel, the peak price in war time. Good news for housewives. Bad news for farmers.

Senator Couzens introduces a bill to regulate production, transmission and distribution of all classes of power in interstate commerce.

He would let government supervise rates, and securities issued by holding companies.

Some say the people should have no control of power and its distribution, although power in national life comes next to food, water and air.

The people at least might supervise sales of securities. One company issued more than 90,000,000 shares of stock based on odds and ends of power companies. Foolish investors bought the pieces of paper at a price exceeding fifteen hundred million dollars for the whole collection.

William Howard Taft, chief justice of the Supreme court, President of the United States, secretary of war, rode to his grave in Arlington cemetery on a gun carriage, the first United States President to be buried there.

A military funeral was, perhaps, not what he would have suggested, but he was entitled to it as former secretary of war and commander in chief of the army and navy.

Before burial the body of the late chief justice lay in state for three hours in the Capitol, on a catafalque upon which had lain the coffins of Presidents Lincoln, Garfield, McKinley and Harding.

Now Lincoln stands out in that, or any list. How soon men become unimportant and are forgotten! Lincoln never.

Ominous and threatening for India is the beginning of Mahatma Gandhi's campaign of "no violence, but refusal to obey," against the British.

Gandhi and his followers march in protest to make salt tax free, and smallpox marches with them.

Three are dead, 22 prostrated by disease. The British have made a desperate fight against the various plagues in India, smallpox included, with the natives fighting against them.

It has never been possible to prevent natives bathing in the filthy Ganges, occasionally swallowing water upon which corpses are set adrift.

Under British rule the population of India has increased by 100,000,000. It would soon diminish under native rule, with the aid of smallpox and other plagues.

There is plenty of money in this country, the difficulty is to get it.

Secretary Mellon needs \$450,000,000 for Uncle Sam.

The public offers to buy twelve hundred and ninety-one million dollars' worth of treasury certificates. There is plenty of water in the oceans, lakes and rivers. The trouble is to get it on dry soil that needs it.

All doctors and parents will be interested in news of a "meningitis carrier," a nineteen-year-old youth, William Feliker, in the reformatory for boys at Brownville, Mo.

Five superintendents and inmates with whom he came in contact died of meningitis, showing how easily the deadly disease may be contracted.

From Devil's Lake, N. D., comes the sad story of Stour Indians that drank anti-freeze mixture for the sake of its alcohol.

It was the wrong kind.

This small item of news interests managers and stockholders of railroad and steamship lines.

An airplane driven by a Diesel engine flew from Detroit to Miami in ten hours fifteen minutes without stopping, with Chief Engineer Woodson of the Packard company and Walter Lees, pilot.

And the trip cost for fuel \$8.50.

"Every sweet has its sour; every evil its good," Emerson said it. British torpedoes believe it. The attack on religion in Russia has created intense feeling in Britain. If Premier MacDonald's labor government refuses to break off relations with Russia, it will probably be driven from power.

Men and nations, with their radios, movies and other interesting things, may seem to lose interest in religion. But such an attack as Russia makes on established beliefs shows that religion retains its hold on the human race.

### ZONE MEETING OF B. Y. P. U. HERE SUNDAY AFTERNOON

# Even with its SUPERIOR PERFORMANCE this new eight is economical to own

Few cars can equal the speed, pick-up and climbing ability made possible by the 85-horsepower engine of the New Oakland Eight. It is the most powerful used in any car of comparable size and weight, only trading cars accepted. But even with its superior performance, this car is inexpensive to own. Its first cost is very moderate. And its gasoline mileage equals that of many sizes of the same size. Maintenance costs, too, are very low because parts are easily reached and the power plant is remarkably sound in basic design. Valves can be easily adjusted. Bearings are large, sturdy, interchangeable. A water re-circulation system promotes greater engine

efficiency. And full pressure lubrication assures positive oiling. Oakland's Fisher bodies, too, are built to withstand extremely hard wear. The effect of all these features is not only to assure economy, but to keep the car's ultimate resale value high. Come in, let us point out the New Oakland Eight's many exceptional qualities. Then let us give you a demonstration, and you will realize how much you are offered in the car with superior performance.

# COMPARE VALUES BEFORE YOU BUY AN AUTOMOBILE

**Low charges for distribution of the new Ford  
save you at least \$50 to \$75 in addition to  
the many savings in making the car**

THESE are days when every dollar counts. The period of reckless spending is over. People are going back to the good old-fashioned principles of thrift and economy. Value is again being carefully considered.

Nowhere is this more important than in the selection of an automobile. For the purchase of a car represents a considerable investment. It should not be decided on hurriedly, but only after analyzing every important factor that concerns cost, value and performance. The time to do this is before buying—not afterward when it is too late.

ON THE basis of cost, performance and the actual comparative worth of every part, the new Ford is a value far above the price you pay. It is made of better materials and with greater care and accuracy because of the recognized efficiency and economy of Ford manufacturing methods.

The value of these methods is known and understood by millions of people. It is not generally realized, however, that these same principles of efficiency and economy are applied also to every step in the distribution of the Ford car. The low cost of selling, financing time payments, etc., means a direct saving to you of at least \$50 to \$75 in addition to the money saved by Ford economies in making the car. Here are three reasons why this is so.

(1) The Ford dealer does business on a smaller margin of profit because of the greater number of

cars he sells. His discount or commission is the lowest of any automobile dealer. The difference in your favor, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

(2) The Ford charges for financing are low.

(3) No expensive extra equipment is needed when you buy a Ford. The car leaves the factory ready for use. The f.o.b. price includes a Triplex shatter-proof glass windshield and an extra steel-spoke wheel, in addition to four Houdaille double-acting shock absorbers and fully enclosed four-wheel brakes. Any accessories you may wish for your individual taste are sold considerably below the usual prices. None of these charges for selling, financing or accessories is marked up or increased to cover a high trade-in allowance on a used car.

Get all the facts, therefore, before you buy and figure out just what you are getting for your automobile dollars. Go beyond the f.o.b. price and find out how much more you pay the dealer than the dealer pays at the factory. Analyze the used-car allowance. Compare all charges—item for item—value for value.

WHEN you do this you will have a new appreciation of what the Ford Motor Company and Ford dealers are doing to keep down the cost of Ford cars. You will also know why it is possible to put so much real value into the new Ford and still retain the low price. The money you pay goes for value in the car. It is not wasted in excessive costs in manufacturing or selling.

## SPRING—

Oh! Who would stay in the house to-day

While over the meadow the larks sing near  
When counted by hours are the lives of flowers,  
And Spring itself is almost here?

Here by a stream is the pale blue gleam

Of a little flower, to children dear—  
It seems to say, "I am on my way"  
'Forget-Me-Not' as I come each year."

## "Friday 42" Given Luncheon

Mrs. H. O. Longbrake was hostess to a prettily planned luncheon at her home Friday at one o'clock March 14, to members of "The Friday 42." The tables were made very attractive with beautifully embroidered linen and silver. The hostess served chicken pie, creamed potatoes, congealed salad, hot rolls, sweet peach pickles, sour pickles, iced tea and caramel pie. Table prizes were drawn at the beginning of the games. Mrs. McBurnett, receiving a powder puff, Mrs. McSpadden salt and pepper set, Mrs. Elliott cake plate. A contest followed for eighty-four bid and made. There were twenty-six eighty-fours made during the game. The name of each making eighty-four was put in a box at the close and Mrs. Holgate's name was drawn out. She received a potted fern. Mrs. Brothers received an embroidered vanity set for drawing high and Mrs. Kendrick a pillow for low.

Members attending this delightful affair were Mesdames A. M. McBurnett, H. W. McSpadden, C. Hamilton, Simon Holgate, Walter Gracey, C. R. Baldwin, R. M. Kendrick, P. B. Brothers and W. B. Downing. Guests were Mrs. Dee Elliott and John Scudday Jr.

## Contract Bridge Club

Mrs. W. R. McDuffie very charmingly entertained the Contract Bridge Club Friday, March 14 and honoring her sister, Miss Christine Owens of Ennis. Mrs. Michie received a Dutch Kitchen Clock for high. Table favors were orchid and green pleated handkerchiefs and went to Mrs. McGowan and Miss Owens. Guest prize which also went to Miss Owens was a bottle of French perfume.

**PRAYER FOR THE PRESS**

The Drifter in the Nation: A correspondent has sent the Drifter a prayer which a clergyman of Columbus (Miss.) is said to have delivered at the opening of a convention of the State Press Association:

"Eternal God, our Heavenly Father we ask Thy blessings upon these newspaper people, who are wont to communicate with the end of the earth. They are people who can smell a revolution in China; people who have the license to enter the gates of princes and potentates; but who will have a mighty hard time getting inside the gates of Paradise."

"Have mercy, O Lord, upon these people who have to carry all kinds of things in the cause of their newspapers. Have mercy, O Lord, on these people who are invited to so many banquets and luncheons that they must sacrifice their digestion on the altar of free advertising."

"Have mercy O Lord, on these people who are chased by the Colonial Dames, W. C. T. U., Kiwanis, Rotary and Chamber of Commerce. Have mercy on these people who have to hobnob alike with Jew and Gentile, white and black, Democrat and Republican, Baptist, Methodist, Presbyterian and Episcopalian."

"Have mercy, O Lord, on these people and help them in their dash from ballroom to church social and back to rum runners, and who have to associate with anybody from Andy Mellon to Andy Gump."

"Make this a good convention in Columbus. It is an easy matter to break into print, but how will some of them break into the pearly gates? We pray Thy blessings upon them, and when they have done with newspapers and stories, and their careers are finished here, may they have a finer story from St. Peter than they ever had in newspapers here. And,

though it is hard for newspaper men to get into the Kingdom, may they receive a warmer welcome in the New Jerusalem than they do in Columbus today."

**OUTSTANDING SPEAKERS FOR HERD IMPROVEMENT SCHOOL**

A two-day herd improvement school will be given in connection with the Agricultural Department of the Teachers College at Canyon on the last Friday and Saturday of this month. The aim of this school is to better acquaint the breeders of West Texas with the scientific principles underlying bull clubs, pure seed farms, and improved poultry strains. The classes will start at ten o'clock Friday morning March 28. The first day will be devoted to the physical basis of inheritance; particularly the principles underlying the scientific mating of farm animals; also, reasons why farm animals will not breed will be discussed. The second day will be devoted to diseases of reproductive organs, line breeding, bull clubs, poultry improvement, and problems concerning seed farms.

Outstanding speakers from the Livestock Sanitary Board at Fort Worth, from the Pure Seed Commission at Austin, and from Agricultural Colleges will participate in the program. Mr. P. C. Bennett, Agricultural Manager of the City Board of Development of Amarillo, and founder of the first bull club in Texas; and Professor George P. Grout of Panhandle, who approved blood lines for the first bull club in Texas, will have prominent parts on the program. Professor William Gourley of Silverton, who is President of the Panhandle and who is one of the Vocational Agricultural Teachers of promoters of the school, thinks this one of the greatest opportunities West Texas dairymen and other

livestock breeders have had to learn the most important facts concerning their work.

The school will be handled from the practical side rather than from the technical. Those in charge expect to have every talk at the school given in every-day language which will make it possible for those without technical training to have an opportunity to learn scientific breeding principles. This is the first time that such an attempt has been made in West Texas.

**WHY SACRIFICE YOUR COWS?**

Word comes to Farm and Ranch that many farmers who became interested in dairying during the period of high prices are now selling their cows at a great sacrifice. No doubt a shortage of feed has increased the desire to get out of the business as much as the low prices received for the product. But, these men should remember that spring is at hand when pasture will be available and that the cost of keeping their cows will decrease. Another thing to take into account is that the dairy industry has had fewer periods of depression than any other branch of farming and that there is reason to believe that the outlook will be greatly improved in a few months. Those who save their cows even at a loss of profits will no doubt be in a position to make up their losses before the end of the year, while those who sell at a sacrifice will be out buying high priced animals within another twelve months. The dairy industry is a \$3,000,000,000 business in this country and it will not be allowed to lag.

If the farmers of the Southwest who are letting a period of depression discourage them in their dairy efforts were equally as susceptible to similar attacks as concerned cotton or any other farm undertaking, they would all be in town working for somebody else. They have grown cotton most of their lives and we have not heard one of them admit that he had made a cent of profit during the last twenty years, two years being excepted. That same kind of persistency in dairying or any other branch of the livestock industry would have replaced seventy-five per cent of the shacks on the farms in the Southwest with comfortable homes and built good fences, barns and other out buildings which always go with a well-conducted farm business.

When you quit dairying or livestock of other kinds and go back to all cotton, you have not improved your condition. If you are selling your cows because dairy products are at a low price, why will you plant cotton when prices are now lower than they have been in several years? If it is true that it cost 22 cents or more per pound to produce cotton in normal years, then today's farm market is seven cents below cost of production. Is this an inducement to plant

**TO SWEEP UNSAFE CARS FROM SOUTHERN ROADS**

Sixty-nine thousand unfit automobiles will be removed from the highways of the South during the coming year in an effort which is part of a national Highway Safety Plan undertaken by various companies in the automobile industry, as announced by the National Automobile Chamber of Commerce. The program will involve the expenditure of approximately \$2,600,000 in the Southern States. Nationally, the motor companies plan to scrap 400,000 old automobiles in 1930, at a cost of about \$15,000,000.

The number of cars which it is estimated will be scrapped in each of the Southern states is as follows:

Virginia	6,060
North Carolina	6,640
South Carolina	3,240
Georgia	4,260
Florida	3,960
Alabama	5,490
Louisiana	4,490
Mississippi	3,760
Tennessee	5,860
Arkansas	3,620
Texas	21,210

The program is characterized as "perhaps the greatest single safety move in industrial history," by Alvan Macauley, president of the Automobile Chamber, and former chairman of its Street Traffic Committee.

"This widespread experiment will strike right at the heart of the unsafe vehicle problem by eliminating a high block of those cars which are in the poorest condition," says Mr. Macauley.

One of the hazards of the highway situation has been the rattle-trap car which keeps re-appearing on the road after it has presumably been sent to the discard. The aim of this program is to guarantee the actual scrapping of the vehicle. The Plan will be worked out by each company participating, in line with its general sales policies and the volume of its production.

R. H. Grant is chairman of the committee which planned this program. Other members include: C. H. Bliss, J. E. Fields, Paul G. Hoffman, H. W. Peters, Courtney Johnson, Edward S. Jordan.

Mrs. K. Sears is selling some of the eggs from her splendid breeds of turkeys to Terry county people this year, as well as eggs from her prize winning R. I. Reds. Mrs. Sears informed us that she could sell all her turkey eggs to people elsewhere, but had rather sell to home folks as she wants to see Terry county people have as good turkeys and chickens as they have anywhere. Mrs. Sears got her share of ribbons at the poultry show here this winter, as well as the county fair last fall.

**PROGRAM FOR THIRD PLAINS DAIRY SHOW**

**THE TREE DOCTOR PLACED IN LARGE ELM**

Kent, O., March 17.—For the first time in history, a living tree has been made to serve as a monument to a man whose life work is finished and as a "cornerstone" in which has been laid away the record of his origination of a science which made him famous.

The tree is an American elm, 50 feet in height and 18 inches in diameter, which was taken from a forest and replanted today at the entrance to Roosevelt high school as a memorial to John Davey, father of tree surgery.

A cavity nearly a foot deep was cut in the trunk of the tree and in the niche so formed was placed a copy of his book, "The Tree Doctor"—the book which made known his conception of a new science. sectional concrete according to the principles Davey originated. The Bark will creep over it and in time all traces of the "operation" will disappear.

**JUST WHAT WE WANT**

The Fluvanna school board advertises for sale a "Discarded auditorium and stove." This is just what we want.

We have long felt the need of an auditorium—a personal, private auditorium. We frequently feel the urge of oratory, though our physician is inclined to think it is merely the effect of too many red beans. Often when spouting off about politics or wet weather to a crowd on a street corner we have been advised to "rent a hall." Now if we had an auditorium wherein we could hold forth the street corners could be released for lesser and more unimportant spellers who only have audiences once or twice a week.

We would sure like to have that discarded auditorium, provided it is in good condition. We could move it over here and set it up on some good post holes we have stacked up in the backyard and we have plenty of bung holes saved from worn out beer kegs that we could patch up any damaged places in the auditorium.

But we really don't need the stove. There are plenty of private hot air systems in Rotan that we can get for nothing, in case our own hot air is not sufficient to heat the auditorium.—Rotan Advance.

County Agent, R. B. Davis, reports that quite a few boys are coming in each Saturday and getting him to assist them in making application for registering pigs. There is a strong demand for pure bred pigs over the country and the boys who have spring litters will be well paid for taking good care of them. Terry County supplied this county and adjoining counties with registered pigs last year and there are inquiries coming in now for good pigs.

**CHALLIS CHATS**

(Received too late for last week)  
We are wondering how many more of these beautiful West Texas rains we will be privileged to enjoy.

This beautiful week-end was thoroughly enjoyed we would suppose by the number of visitors.

Mr. and Mrs. Jess Howell and family visited in Lamesa with her sister, Mrs. Sam Matlock. Miss Inez Matlock who returned home with them is visiting with her aunt this week.

Mr. and Mrs. Evans attended a birthday dinner, at the home of Mr. and Mrs. W. C. Evans of Brownfield, given in honor of his mother, Mrs. Augusta Evans.

Friday afternoon Miss Joyce Lee Evans, of this community, attended a birthday party at Brownfield given in honor of Miss Erma Iona Smith's seventh birthday.

Mr. Tom Simmons and Edith Simmons, his niece, both from Frederick, Okla., visited in the C. R. Warren home Sunday.

Mr. and Mrs. State Nance visited in the Proctor home Sunday.  
Mr. Marvin Speed visited in Level-land.

Mrs. Money Price spent the week-end in the home of Mr. and Mrs. Bayne Price.

Miss Moon enjoyed a delightful visit with Miss Rodgers in her home at Lubbock this week-end.

Miss Hallie Mary Howze had as her guests Sunday, Misses Opal Howell, Doris and Jimmie Marchbanks.

Mrs. Massengill of Brownfield visited in the home of her daughter, Mrs. Joe Eudey this week end.

Mr. Lee of Tokio visited in the home of his uncle, Mr. and Mrs. Lewis.

The P. T. A. has purchased some shade trees for the school and will meet Tuesday afternoon, March 11, to plant them.

Mr. J. H. Howze, who has just returned from visiting in other states, was a visitor in the school Friday afternoon. Misses Hallie Howze and Opal Howell were also visitors. They understood there was going to be a ball game but there was no game matched. A game was scheduled for Thursday with Harmony but they failed to come because of the weather we suppose.

Many of those we had to cut off last week have renewed for their Heralds.
