VOLUME 26

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, SEPTEMBER 19, 1930

NUMBER 5

TEXAS-PACIFIC OFFICIALS VISIT THIS CITY TUESDAY

President Lancaster Promises Road Equal to the Main Line. Construction of this Line Will Mean Millions For Labor, and Will Benefit the Whole Nation.

L. C. Porter, of Dallas, traffic department manager of the Texas and Pacific, and Mr. C. M. Evans, of Marshall, agricultural agent of the Texas-Pacific, were here this week in the interest of the proposed new line of the Texas Pacific Northern, which has been chartered from Big Spring to Vega, with branch line to Lubbock and Amarillo. While here these gentlemen called on the Herald, and like the first meeting with them, they are still keyed high, and are going to make the supreme effort of their lives to give us a real railroad. Indeed, we believe they are even more enthusiastic about the matter now than they have been, for several reasons, among them being that they like this section of the country better every time they pass through here.

Both have traveled practically all over Texas in the past two months, and volunteered the information that the four counties, Dawson, Terry, Hockley and Lamb, through which the proposed line will pass, have the best crops they have seen this year in Texas. And in view of the fact that these same counties were in the white spot of Texas last year, and have been for several years, makes them enthusiastic than ever to build through the heart of this incomparable section.

Another thing that has caught the fancy of these men is the people and the business men composing the citizenship of this section, and the way they have been treated at the hand of the people of this section. They express it like this: "The people of this section have a fine country and know it. They seem to be composed of the cream of Texas and other states and get right into a proposition for their advancement and go to work. We have not asked them to do anything but what they have entered with a zest that shows them to be boosters and builders. They have that old hearty welcome and hand shake that makes us know we are among good friends and well wishers. All the towns and counties through which we propose to pass are solidly behind the proposition, and we can't conceive of anything that will keep the I. C. C. from granting a necessity and convenience in constructing the road. But this does not mean that we can lay down and rest on our oars, for there is much to be done yet."

We informed them that many of our farmers seemed to be as enthusiastic about the matter as the business men, and this seemed to please them immensely. Mr. Porter said that

he hoped that every farmer in this county would get behind the movement, for the new road will directly effect every farmer in Terry county, as well as every farmer in Yoakum county, and northern and eastern Gaines county, for it will give them a better rate on their cotton, corn and maize to the big trade centers and tide water at New Orleans. The Herald has had a number of farmers come to us and ask us to keep boosting for the road, and to sit right in and pitch until the I. C. C. tells us whether or not the road can be built.

The building of this new road will effect almost every industry in the south. Steel rails must come from the mills at Birmingham, Ala., or Pittsburgh Cross ties must be purchased from the farmers of east Texas, who in turn will give employment to thousands of cross tie makers. Ties alone will cost in the neighborhood of a million dollars. When actual grading starts thousands of more men and their teams will be put to work throwing up the grade. The same will be true of the surveying and the laying of steel. Hundreds of others will quickly follow after the track laying crew putting down rock ballast, for Mr. Lancaster says that it will be as well ballasted and equal in every way to the main line from El Paso to New Orleans. It will give us a direct overnight route for their poultry and eggs to El Paso, the best egg and poultry market this side of Chicago.

Aside from this, it will increase the taxable valuation in Terry county by about a million dollars, and will give each school district through which it passes from \$800 to \$1500 additional taxes to run their schools and help pay for bond issues against them. We could go on and on enumerating the many benefits to be derived from this road both immediate and future, but there is no use of it. Any one with a pencil and paper can soon see for themselves.

Therefore, it is very necessary that every farmer in the county get behind the business men of Brownfield in helping to put over this deal. If you have a friend in business here, sound him out on the proposition and encourage him all he can. We need the building. We need the money that will be turned loose here for construction, and thousands of poor unemployed need the labor and what it will mean to them. Let's keep going!

Will Rogers Finds Oklahoma is Alright

Will Rogers never misses a chance to publicize his home town, Claremore, Oklahoma. In "So This is London," his Fox Movietone production, which comes to the Rialto Theatre on Sunday, Monday, and Tuesday, there is a scene on board ship headed for London with Will on deck. At every turn he seems to encounter an irrepresible kid, played by little Martha Lee Sparks of "Happy Days" fame. The kid hurls one question after another at him until, finally, Will stops her and says:

"Hey! Wait a minute. You ask a lot of questions. Just what part of England are you from?"

And the little girl answers: "Claremore, Oklahoma!"

You don't have to guess who put that line in and it stays, too. "So This is London," adapted from the stage play by Owen Davis, Sr., who also wrote the dialog, proves more delightful entertainment than Rogers' first Fox Movietone success, "They Had to See Paris."

Irene Rich heads the supporting cast with Mary Forbes, Maureen O'Sullivan, Frank Albertson, Dorothy Christy, Lumsden Hare prominent in the cast. It is the forty-ninth directorial effort of John G. Blystone.

Sharak in Her Estimation

Mr. Pewee—"Why did you get me such big shirts? These are four sizes too large for me."

His Wife—"They cost just the same as your size, and I wasn't going to let a strange clerk know I married such a little shrimp as you."

The Ramona Beauty Shoppe has been moved this week from the City Barber Shop to the Rialto Theatre Building.

City Schools Have a Record Enrollment

Brownfield School opened Monday, September 8, 1930, with the following enrollment:

Low First	76
High First	36
Low Second	40
High Second	25
Low Third	38
High Third	21
Low Fourth	25
High Fourth	27
High, Low Fifth	58
Low Sixth	17
High Sixth	30
Seventh	32

Total Grammar School 425

In the High School is the following enrollment:

Seniors	45
Juniors	35
Sophomores	49
Freshmen	39

Total High School 168

There has been several new pupils since the enrollment, making about 200 students in the High School and about 450 in the Grammar School, which is several more than last year. We are teaching several new subjects this year, health, physical culture, and Commercial subjects. In the Commercial Course, we have enrolled 42 High School Students, 17 Industrial Vocational Students, 9 Night School Students, making a total of 68 in the Commercial Department. In the Home Economics, a new subject, we have enrolled, 72. The spirit of the school is fine. The attendance, good; the department, excellent.

Two gentlemen were here from Hamlin last week hunting grass for their stock, but we did not learn whether they found it or not.

Departs

Terry County Will Have All the Labor it Needs

It is not believed that it will be necessary to apply to the U. S. government employment agency in Fort Worth or elsewhere for aid to get our cotton crop, for to advertise the matter would probably have a bad effect of bringing a lot of people here who would fail to get work and would be on the town and community in the shape of charity. In fact, from two to five charity cases each week have to be taken care of by the chamber of commerce now, and street beggars and solicitors for charity from larger cities are here most every day.

We have a good many people here already who say they want work, and if they do, they had best make their connections right now, for if they hang around waiting, as a last resort the chamber of commerce may have to order in laborers. There is no use for those who aim to pick cotton to expect high wages for that kind of labor this year. That is out of the question, for a farmer would be foolish to pay a dollar per hundred for picking 8 and 10c cotton. He had better leave it in the fields. It will be much better for all concerned to use home labor all they can, for then all the money will be kept here at home, or at least go to neighboring counties to our east who have failed this year.

The Herald is of the opinion that with what labor that is already here, and with relatives who still come in from the dry belt to help kindred here, and with those who will naturally drift in from the tiers of counties directly east of here, Terry county will have all the labor it needs to gather this cotton crop in the minimum time, and it will cost no one a great deal to get to the work or to return to their homes when the work is finished. If we advertise in the papers for several hundred hands to gather this crop, not only the laborers will come—too many in fact, but with them will come all the riff raff of humanity that we do not need or desire. Let's try to make out with what is in sight if we possible can.

Many of the Merchants Are Buying a Bale

Many of the Brownfield merchants are purchasing a bale of cotton on the buy a bale movement, and some of them have them out in front of their stores. We understand that some are purchasing more than one bale, or two members of one firm in some instances are buying a bale each. Also, we understand that some of the gin men are buying cotton to hold off the market.

Among those who have bales out in front of their places, we note Carter Chevrolet Co., Chisholm Bros., Hudgens and Knight, Cobb Department Store and the M System. There are others who have already promised farmers to buy a bale from them that have not been delivered, while still others have bought them and stored them elsewhere.

Snyder—This city to receive free mail delivery in near future.

Lions Club Endorse Texas-Pacific Northern

WHEREAS, it is proposed by the Texas & Pacific Northern Railway Company to build a trunk line of railroad beginning at the town of Big Spring, Texas, and extending north and west via Lamesa, Brownfield, Littlefield, Levelland, and other points, to the town of Vega, a distance of some two hundred thirty-two miles, with spurs into Lubbock and Amarillo, Texas; and

WHEREAS such a line would serve a large and ever increasingly important and developing territory, and such line would serve in a large way to promote the growth and development of the territory served, as well as the general welfare and entire public good; and

WHEREAS the territory proposed to be traversed is not adequately served by trunk line transportation facilities, and shippers are subjected to penalties in differentials and delays, and are often required to waive valuable rights in shipment of their products which are diverted from their natural markets offered by the time element of the movement; and

WHEREAS the natural increase in population due to the great resources and the potential, and undeveloped, agricultural possibilities, herald a vast increase in population and importance of this vast domain, the development of which must but work to the general good and prosperity of this great state; and

WHEREAS it is the general feeling, sentiment, and the expressed public opinion that such a line of railway as proposed would serve a public necessity, and an imperative public need; and

WHEREAS there is much work to be done, and two undertakings of major importance to secure such a railway, to wit: First, the securing of right-of-way for such a line, and Second, the assemblage of such statistical facts and data pertaining to agriculture and industry to show the Interstate Commerce Commission that such need exists as we feel and know exists, which undertakings will require the co-operation of every patriotic citizen;

THEREFORE BE IT RESOLVED: That the Brownfield Lions Club endorse the proposal, express our confidence in the same, and voice our sentiment that such a line would serve a public necessity and need; and

That we lend the movement our active aid, encouragement, and support, and we here and now tender our services and wholehearted assistance to those charged with responsibility of carrying forward the undertaking, locally and otherwise.

Brownfield Lions Club.

ALL-POWERFUL

Hubert: (in poetic frenzy, as they strolled along the shore at Frybee.) "Roll on, thou, deep and dark blue ocean, roll!"

Mary: "Oo, Hubert, how wonderful you are! It's doing it."

A herd of 11 Jerseys in DeWitt county has paid its owner, O. C. Fitzhenry, 77 cents per hour for his time with them, or a profit above feed cost of \$107.42 in one month.

Get in a Good Co-op. Is Farmers' Best Shot

The Herald believes that the best shot for the farmer right now is to get in some good Co-operative Association, and our favorite is of course that which the U. S. government is standing behind for the reason that there is some money behind it, and after all, money is what makes the mare go. There are other perhaps that may be better governed; they may be better and fairer to the farmer, but it takes lots of money to handle the southern cotton crop. Right now they are paying the farmer almost as much down on his cotton as he can get in an open market, and in the open market the cotton is gone out of his hands for all time. But if he takes a down payment the government and prosperity returns to the nation, and other nations make a better demand for cotton, and it should take a turn upward, he has another chance yet to cash in on his cotton.

On the other hand, there will not be enough people who can handle a bale on the Buy-a-Bale movement to make any perceptible change in the demand or market, and at the same time the farmers of the south acknowledge to the world that they are broke and need charity, and are asking the business men of the south to take a gamblers chance on a bale of their cotton for charity's sake. Of course the farmer never originated or even thought of originating this idea. It was all hatched out down at Austin in the mind of little Dan Moody, who has another idea that will make him popular with the farm class of people in the future when he has need of them. It was tried out with disastrous results once before when the nation was much more prosperous than now.

Of course everybody likes to advise the farmer, and some like to pat him on the back to make him think they are his best friends. Cotton perhaps has almost touched the bottom. Past history of the last 16 years remind us that when it reaches bottom, there is always an advance in the next year or two, and the fellow who is able to hold long enough comes out at the big end of the horn. But this will depend on the farmer exclusively. If he plants a huge crop and makes it next year, Hello 5c cotton. On the other hand, if he plants less and raises a small crop, Hello 20c cotton. He and he alone can control the market if he wills.

RAIN U. S. DIDN'T GET WORLD FLOAT NAVIES OF WOULD

All the navies of the world could be floated many times over the water which has failed to fall upon the United States through the drought. J. B. Kincaid, chief agricultural meteorologist of the weather bureau computed the deficiency in normal rainfall for the states east of the Rocky Mountains during the month of July and found that it would aggregate 230,000,000,000 tons.

A. L. Burnett reports that the dust storm was so bad near Post Sunday afternoon where he went to preach, that lights had to be turned on. He said it was black as any midnight.

REMEMBER THE FAIR NEXT FRIDAY AND SATURDAY

Terry County Will Stage One of the Most Elaborate Exhibitions in its History. All Departments to be Better Represented. Many New Attractions This Year.

Everything is rapidly taking shape this week to put on one of the best if not the very best fairs in the history of Terry county. Just as fast as the catalogs are turned out by the printers this week Mr. Shelton is mailing them out from his office. These catalogs should have been mailed two weeks ago, but due to the fact that the data was not given to the printers until late, it was impossible to get them out any sooner. But you will get yours some time by the middle of this week, and this will give you ten days or more to make your selections of the things you want to display.

Now to make the fair as interesting as possible, it is very necessary that you get as many exhibits as possible in for the catalog sure does cover a lot of latitude, and there is hardly a farm in Terry county that will not have a chance for one or many of these premiums. In view of the fact that our cotton has been green and growing longer than in most plains counties, a smaller portion of it is open, and you will have a better chance to attend the fair one or both days than you would a week or two later. Whether or not you have anything to display, attend the fair anyway and bring the family, for the gates are FREE to all. But if possible bring something to add to the attractiveness of the agricultural display. Perhaps you have a cow, calf, bull, pigs or shoats that would look good on display. Don't forget them. Perhaps you will find a buyer that wants something that you have, and you will be paid over and over for your trouble.

There will be many attractions besides the fair proper, for a big carnival company will be here with all its gay attraction, merry-go-rounds, ferris wheels, etc. This will attract the children as well as some of the grown ups. At night there will be a brilliant display of fire works that will be worth going mile to see. Also there will be a rodeo nearby that will be one of the best ever put on here, and it will be put on by a man you all know, Roy Moreman, who will not fake you in the least for nothing on earth. He will put on terrapin races, horse races, will cow and horse riding, roping stunts, as well as some more of those thrilling wolf-hound races, in which two large stag hounds will pit themselves against a snapping, snarling coyote to see whose hounds dispatch their wolf in the quickest time.

Terry county has one of the best crops of its history, and will of the exception of fruits have one of the best displays in its history if the people so will. This will be the last time the Herald will be able to reach you before the big event comes off, so we want to remind you again to come and bring just as big exhibit as you can, but come anyway. Don't tell us after you get here that you have better stuff at home, but did not want to bring it, for maybe we will not be prepared to believe what you have to say unless you produce it. This has gotten to be a "Show Me Show" nowadays.

Preparations have been made for your entertainment and education. Come and see.

Henson Has One of Most Up-to-date Gins

The Herald man went over to the W. E. Henson Gin last Friday morning and took a lot at the new machinery and improvements that he has put in this year, and if we are any judge of a gin plant, Henson has one of the most complete that is possible to buy. There are many larger plants, perhaps, but none that will do better work than one he operates, and he wants the farmers of Terry county to just give him one trial, and if they are not satisfied entirely, he does not even ask them to come back. Isn't that fair?

Last year he put in four new 80 saw stands, as well as one of the most complete cleaning plants made. These are still as good as new. This year he has put in one of the newest and best presses, and he promises to make one of the prettiest and most compact bales you ever looked at. Added to this, he has completely rebuilt his furnace with fire brick and two inch asbestos. This will enable him to always keep a good head of steam for emergencies, and at the same time save in the gas bill for fuel. In other words, the plant is in ever way ready for the season, and started merrily on its trip Monday with three bales.

Go over and give Mr. Henson a trial, and read his ad in this issue of the Herald.

State Bank Shining Like New Money—Painted

Painters have had full headway for the past several days on the exterior of the Brownfield State Bank building, getting it ready and all shined up for the big fall rush that will come on with the cotton and corn harvest, and we must say that they have added 100 percent to the looks of the building, and at the same time kept a lot of our street crowd guess and commenting on the color.

The first two coats put on the concrete frames and beams were a dull brown, and some said it looked like a freight depot, which others liked the color, but when it was finished off in a beautiful cream color, it seemed to suit all, and we have heard numerous compliments on the neat appearance of the building. The woodwork has a deep chocolate color, and contrasts well with the dark brick and cream colored beams. Let others do likewise. Let's freshen up the old town and attract new comers.

Mrs. C. S. Cardwell was a pleasant caller at the Herald office last Saturday.

Rodeo Grounds One Mile Northwest Town

The Chamber of Commerce has finally secured from the Brownfield estate the right to use the grounds one mile northwest of the city for the rodeo ground during the fair. This was as close in as could be obtained and answer the purpose. Mr. Moreman informed us Wednesday that work would be started immediately to prepare the grounds for the events.

Among other things, will be a horse race, wherein the Brownfield mare will be pitted against a horse belonging to Carl Rushing of Plains. Four or five outlaw horses and mules have been obtained not to mention a whole string of broncs for the riding events. The roping events also promise to be interesting.

Then, there will be the Wolf-hound rodeo that proved so interesting earlier in the spring. There will be something to see every minute of the Terry county fair next Friday and Saturday. So don't miss seeing it.

Cotton Crop Estimated At 25 to 30,000 Bales

At this time of year the Herald always tries to get two of our most prominent crop estimators opinion on the cotton crop. These two men are T. I. Brown, buyer, and John Gathing, ginmer. They are never far apart on their estimates, and when the season winds up, they are never far from the government final estimate of the crop.

T. I. was the first we talked with. He puts the crop at 26,000 bales as a conservative estimate. The crop last year was just a fraction under 24,000 bales, and we believe he estimated the crop at 22,000 bales last year.

Mr. Gathing said it was a little hazardous guessing at this stage of the game, but that he believed from present appearances the crop would run from 25,000 to 30,000 bales, or the biggest crop in the county's history. As stated above, both of these men have hit close to the crop for the past several years. Note their guesses down and keep tab on them, or make your own guess if you want to.

LABOR LOST

"Why did you leave your last position?"

"There was no future in it."

"Why?"

"The boss was already married."

Midland—Two dozen highway signs to be erected here.

State Officials to Support T. P. Northern

BY BYRON C. UTECHT
Staff Correspondent, Star-Telegram

AUSTIN, Sept. 15.—Three state departments gave encouragement and promise of co-operation Monday to a group of West Texas citizens who came here requesting support in behalf of the proposed railroad from Big Spring to Vega, to be built by the Texas, Pacific and Northern. Although no positive declaration was made as to intervention, the Railroad Commission and Attorney General's Department agreed to become actively interested in the project and help develop facts to be presented to the Interstate Commerce Commission. The three members of the Commission, Pat M. Neff, C. V. Terrell and Lon A. Smith; R. L. Bobbitt, Attorney General; Governor Moody and R. S. Sterling Democratic gubernatorial nominee, conferred with the delegation.

"You can rest assured," Chairman Neff told the West Texans, "that the commission will have at least one of its members attend the I. C. C. hearing in behalf of the T. & P. application. We are interested in the development of the State and upon your presentation of the evidence will rest whether we shall make a recommendation."

Co-operate With Towns.
Terrell declared that Texas depends upon its railroads more than any other factor for its development, citing that twice previously the commission made recommendations, once for the Fort Worth and Denver on the Plains and again for the Southern Pacific in the Rio Grande Valley. Bobbitt agreed to put one of his assistants immediately to work on the program, co-operating with towns along the route, to intervene in behalf of the 333-mile line if the evidence shows it justified and members of the committee assured him the evidence would more than satisfy him. Sterling and Moody also spoke encouragingly of the proposition when they conferred with the group, offering any aid necessary.

John P. Slaton of Hereford, chairman of the delegation, outlined the project before the commission hearing, emphasizing that "it is not a West Texas project, but one for all Texas, meaning as much to East Texas as any other section, for it will enable exchange of commodities."

"No rail line is more badly required than the one proposed," he informed the commission. "Because of inadequate rail facilities the area involved is compelled to ship most of its hogs and sheep to California when they ought to be shipped to the Fort Worth market. The same situation holds true as to grains."

"That ought not to be," Neff commented.

Expect Warm Fight.
"My county of Deaf Smith," Slaton went on, "ships more agricultural and livestock freight than the big counties of Bexar, Harris, Dallas or Tarrant, although our population is but 6,000. We pay a larger freight bill on outgoing products than any of these counties, and still we are up against it for proper facilities. We do not have the connection with Fort Worth that is needed. The way our country along this proposed line is settling up conditions soon will become unbearable without a railroad."

When the Fort Worth and Denver proposed a 292-mile branch from Estelline to Lubbock and Plainview, not only the Railroad Commission but the Attorney General's Department as well filed a brief in behalf of the project. It is expected that Bobbitt will assign Jack Blalock, Assistant Attorney General, to the job as Blalock is in charge of railroad matters coming before the department. Dewey Lawrence, another Assistant Attorney General, also offered aid.

Members of the delegation said they expected a warm fight with the Santa Fe, Fort Worth and Denver and Rock Island opposing but expressed confidence they would win.

Those coming here for the several conferences included:

Big Spring—L. S. McDowell, Ray Wilcox, Wendell Bedicheck, Garland A. Woodard, R. T. Piner, J. B. Pickle, Joe Kuykendall and C. T. Watson.

Ackerly—A. F. Davenport, J. W. Coleman, Joe Britton and J. Archer. Lamesa—W. W. Evans, S. R. Simpson, Claude Evans, Carl Roundtree.

Levelland—C. W. Rhea, John Doyle, W. D. Cope and Boyd Rhea. Dimmitt—L. P. White, C. J. Mapes and T. A. Singer.

Vega—O. H. Lloyd and C. E. Windsor.

Littlefield—Arthur P. Duggan. Brownfield—W. W. Price.

To Cost \$13,000,000

The project will cost the T. & P. \$13,000,000, a heavier investment than any rail project in Texas in years.

"We are going to President Hoover on this project," Slaton declared. "For we want his influence to obtain prompt action before the I. C. C. He already is on record that he will ask the federal commission to give an early hearing. The sooner it is begun the more it will help as a

Now Ready To Gin

We have first-class up-to-date machinery and methods of cleaning your cotton in order to give you the best turn-out possible. We are prepared to give you the kind of SERVICE you expect. We want you to keep a complete record of your cotton ginned, and if you find that we have made any errors or mistakes, we want you to feel free to ask us about it and we will at all times stand ready and willing to correct any mistakes and make the transaction a pleasure. No expense has been spared to make this a gin where you will get good service. Our employees are courteous and polite and want you to feel at home here. Your report of any inattention on the part of anyone connected with this gin will be appreciated.

We will appreciate receiving a liberal share, if not all your patronage, and will endeavor to make it worth your while.

W. E. HENSON GIN

relief measure. "When we put the matter up to Ross Sterling today we explained that it was just as necessary as a new link in his highway system and he at once said he understood and would be glad to help us."

The line goes almost due north from Big Spring to Vega, with two branches, one leading to Amarillo and the other to Lubbock.

Watson, secretary of the committee, said work already is in progress to get up a large amount of data on tonnage and exhibits which will be given to the I. C. C. It is expected, he said, that the hearing will be held in Big Spring.

It has been a wonderful time for Mr. and Mrs. C. H. Hester and family for a little over two weeks as some of their children has been visiting them. Mrs. W. S. Ward, and children of Bryan. Mr. and Mrs. H. B. Hester and family of Corsicana, and Rev. J. N. Hester and family of Vera. Neither family knew the others were coming. Mrs. Ward and children had been there about an hour

and H. B. and family drove up, it Mrs. Ward will stay a while longer. was a great surprise to see H. B. Mr. Hester returned home with H. and family, another daughter Mrs. B. and family for a months visit. J. H. Gober, husband and children of Needmore, also came. They had a Dr. Archie Pardree of Hamlin, great time together. There were visited his uncle Mr. C. H. Hester twenty two most of the time, and and family last Wednesday after twenty eight once. H. B. and J. N. noon. Dr. Pardree said there were and families have returned home, no crops in that county.

WE HAVE ONE OF THE BEST EQUIPPED SHOPS IN WEST TEXAS. WE ARE EQUIPPED TO DO

FIRST CLASS CAR WASHING;
THOROUGH CAR GREASING;
INSTALL AUTOMOBILE GLASS;
Automobile Painting, Duco and Lacquer;

Mechanical work on all makes of cars, Expert Mechanics.

Complete assortment of New and Used Cars; we sell on terms and will trade for automobiles; cattle, hogs, sheep, goats, crops or money.

NOBLE MOTOR CO.

313 East Main Street Phone 75 Brownfield, Texas.
Whippet and Willys Knight Dealer

Tremendous Power from the Wind

THE Aermotor Co. is now making a self-oiling windmill 20 feet in diameter. If you have a well 1000 feet deep, or if you want to raise a large quantity of water from a shallower well, this is the windmill you need. This new Auto-Oiled Aermotor weighs nearly 2 1/2 tons without the tower. It is a giant for power.

Whatever your water requirements may be there is an Auto-Oiled Aermotor of the right size for the work.

They are made from 6 feet to 20 feet in diameter. Use the smaller sizes for the shallow wells and the larger ones for the deep wells or large quantities of water. Our tables, sent upon request, tell you just what each size will do.

The Improved Auto-Oiled Aermotor, the genuine self-oiling windmill, is the most economical and the most reliable device for pumping water. It works every day and will last a lifetime. Every size of Auto-Oiled Aermotor has double gears running in oil. All moving parts are fully and constantly oiled. One oiling a year is all that is required.

The Auto-Oiled Aermotor is made by the company which originated the steel windmill business. For full information write AERMOTOR CO. 2500 Roosevelt Rd. CHICAGO

Mr. and Mrs. Bernard Thompson, of Nashville, Tenn., were here a few days last week on a short vacation and visit with his parents. Mr. and Mrs. B. L. Thompson. Bernard is one of the teachers in Vanderbilt University, and Mrs. Thompson holds a place on the faculty of Ward Belmont, college for young ladies. Bernard reports crops spotted all the way from here to Nashville.

County Attorney W. W. Price left last Saturday for Austin to appear before the railroad commission with other citizens from this section, asking them to support the petition of the Texas & Pacific before the L. C. C. to build through here, account of which is found elsewhere in this issue.

SHE WANTED TO KNOW

Irate Old Lady (at telegraph office): "Well, if you're so smart and can send flowers, money, and photo graphs, young man, I'll be blessed if I can see why you can't telegraph an umbrella."

To the Farmers Marketing Ass'n of America

The Texas Cotton Co-Operative Association, and all Non-Association Harrison and McSpadden Gin wants your cotton to gin. We will buy your cotton, sample it, get your bill of lading. All in record time and thus save you, much of your valuable time.

We have installed new Gin Stands and as every one knows the gin stand is the main part of the gin. So when you want to gin your cotton on a new gin plant we have it and we are prepared to give you the best possible service as our employees are experienced gin men. Having spent a large sum of money installing this machinery and rebuilding the entire gin plant thoroughly, we feel sure that we have the most up-to-date plant in Terry county. We give the cotton raisers the full benefit in ginning and buying cotton. Ginning is now reduced to 30 cents per hundred.

Feel free to call on us at any time as we are at your service—
Harrison and McSpadden Gin.

The A. V. C. Store here reports fine business with their sale which has been going on since they opened here. Mr. Smith, the manager says he sure likes Brownfield, and thinks it will some day be one of the important cities of the Plains.

Roy Moreman, of Plains, who if he claimed a second home, would no doubt give the place as Brownfield, was over the past week getting things in shape and his advertising matter ready for the Fair and Rodeo, the latter of which will be under his direction. Roy says Brownfield is the best and fastest growing town on the Plains, and he says it like he means it too.

Relief From Curse Of Constipation

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store, Alexander Drug Co.

Levelland—New grocery store to be opened in Ratliff building.

Sheriff Mon Telford of this county, and Sheriff Walter Moreman of Plains, left last Thursday with four prisoners between them for Plainview, where they were turned over to a penitentiary agent to be conveyed to Huntsville. Walter had one prisoner, which had been held in jail here, and Mon had three, which had been convicted at this term of court.

Graham—Highway Department building large shed near oil mill for storage of highway machinery.

THE OLD SUBSCRIBER

The other day we were browsing through a book and came across a chapter which bore the head, "The Old Subscriber," in which the author, after various opening remarks, declared, "I would like to say a word on behalf of the old subscriber. Since the old subscriber does not generally say much in print, I make bold to say in his behalf that, as a rule, he is not treated half as well as the prodigal son, who has been spending his substance on a rival paper, or stealing his news outright from the old subscriber." He then discourses as follows:

Why should we pat the new subscriber on the back, and give him a new album that will fall to pieces whenever you laugh in the same room? Why should you forget the old love for the new? Do we not often impose on the old subscriber by giving up space he has paid for to flaming advertisements to catch the coy and skittish gudgeon who still lurks outside the fold? Do we not oftentimes offer a family Bible for a new subscriber when an old subscriber may be in a lost undone state?

Do we not again and again offer to the wife of a new subscriber a beautiful, plain gold ring, or a lace pin for a year's subscription and \$1. while the wife of our old subscriber is just in the shank of a long, hard, cold winter, without a ring or a pin to her back?

We ought to remember that the old subscriber came to us with his money when we most needed it. He bore with us when we were new in the business and used such provincialisms as "We have saw" and "if we had knew." He bore with us when the new column rules were so sharp that they chawed the paper all up, and the office was so cold, waiting for wood to come in on subscription, that the "color" was greasy and reluctant. He took our paper and paid for it, while the new subscriber was in the penitentiary for all we knew. He made a mild kick sometimes when he "didn't get his paper reggler"; but he paid on the first day of January every year in advance, out of an old calfskin wallet that opened out like a concertina, and had a strap that went around it four times and looked as shiny and sweaty and good-natured as the razor-strop that might have been used by Noah.

The old subscriber never asked any rebate, or requested a prize volume of poetry with a red cover, because he had paid for another year; but he simply warmed his numb fingers, so that he could loosen his overalls and lower one side enough to let his hand into his pocket of his best pantaloons underneath, and there he always found the smooth wallet, and inside of it there was always a \$2 bill, that had been put there to pay for the paper. Then the old subscriber would warm his hands some more, ask "How's tricks?" but never begin to run down the paper, and then he would go away to work for another year.

I want to say that this country rests upon a great solid foundation of old, paid-up subscribers. They are the invisible, rock-ribbed resting-place for the dazzling superstructure and the slim and peaked spire. Whether we secure a new press or a new dress, a new contributor or a new printer's towel, we must bank on the old subscriber; for the new one is fickle, and when some other paper gives him larger or a redder covered book, he may desert our standard. He yearns for the cash-pots and the new scroll saws of other papers. He soon wearies of a uniformly good paper, with no chance to draw a town lot or a tin mine—in Montana.

Let us therefore, brethren of the press, cling to the old subscriber as he has clung to us.

The book in which we found the above was "Remarks" by Bill Nye, one of America's greatest humorists. Although Nye wrote those words nearly 45 years ago and although the picture of the country newspaper which they reflect is scarcely an accurate picture of that institution today, there is in what he has said, as there is amid much of the jesting of a real humorist, much sound common sense and food for thought for the publisher of today.

We commend it to the attention of publishers who are accustomed to giving "prizes" with a year's subscription to their papers, to those who make use of circulation contests to lure new subscribers onto their lists and to those who apparently do not realize their obligation to give their "old subscribers" a newspaper filled with interesting reading matter. And, incidentally, doing just this, The Auxiliary believes, is the best way in which the publisher can attract worth-while "new subscribers" and make them "old subscribers."—Publisher's Auxiliary.

TOO MUCH TO ASK OF THE NEWS

Mr. George Hyman, of Tyler, Texas, asking too much of the Dallas News editor when he expects him to be consistent. Consistency, as has been said by a famous statesman, may be the "virtue of fools," but that does not mean that all fools are consistent.

Mr. Hyman has written a letter to the Dallas News comparing of rather contrasting some of that newspaper's inconsistent attitudes. He says in his letter:

"In the editorial of your great daily of August 30, in the article 'Vicereine of Bray', the eminent editor take Mrs. Ruth Hanna McCormick to task for the large sum the lady spent to bring defeat to Mr. Deneen for senatorial honors. In the same column he condones his gubernatorial candidate for an act of the kind. Also he is amused at Mrs. McCormick's willingness to accept the exalted post dry or wet, To say the

least, he is inconsistent. Was the editor's \$350,000,000 bond candidate willing to take hold of the other horn in the great bond issue to attain political success? As far as altering convictions like the Vicar of Bray, to suit the occasion, likewise, did our gubernatorial nominee. That reminds one: When an applicant for the clergy was asked whether he believed the earth is round or flat, his answer was, 'Either way, so I get the ministry.' Well, the saying is, 'All is fair in politics.'—Ferguson Forum.

"UNION MAKE-UPS"

Foy Lewis, Claudia Marlin, Ernest Shepherd and Perry Bryant returned home Friday night. They have been in South Texas.

J. C. Bass and family, also Ruth and Nelson Groves, went to Roswell, New Mexico Wednesday and returned home Saturday.

L. L. Brock and family have returned home after a visit with his

brother in Southern New Mexico. We are sure they had a nice time and saw many beautiful scenes.

Everybody is picking this week of course we'll all be in town Saturday with our pocket full of money. Union was well represented at the B. Y. P. U. Zone meeting Sunday. We are proud of our church and B. Y. P. U. although we didn't win the banner.

Miss Margaret Christy and Teney Arnold took dinner with Mrs. T. T. Christman Sunday.

L. L. Brock and family visited W. J. C. Johnson and family took dinner with T. E. Inman and family Sunday.

Curtis and J. L. Bass Tommie Roe, Bill and Rascoe Christy went for a horse back ride Sunday.

Misses Edith Harred and Edna Brock will go to school at the Tech this fall.

Mr. Alton Owens who is attending the Wayland College at Plainview, Texas visited in his parents home over the week-end.

ALEXANDER DRUG CO.

Cotton ginned this year prior to Sept. 1, was, 1,119,373 as compared to \$10,653 bales at the same time last year. It is believed that the drouth prevalent over most of the state has caused early maturing, thus the high ginning record to date.

Editor Carl Holden, who formerly edited and published the Wilson Pointer, was here last week from Hamlin with some gentlemen who were seeking a location here. Mr. Holden says if they make a crop around Wilson next year, he will likely start up the Pointer again.

Editor W. D. Rhea, was up one day last week, and paid the Herald a short call. He says that with the exception of one day, he and Mrs. Rhea get out the Seagraves Signal. We consider this fine, as they knew little of the printing business when they purchased the Signal last fall.

We have seen a few farmers in this week after hands to help pick cotton. Most of those we have talked with seem to think we will have no trouble getting all the labor we want without making any great appeal. In fact some of these farmers were looking for relatives in from the east to help them out.

We note in the last Seagraves Signal that R. B. Haynes, editor of the Miami Chief, has been in that city. We don't see how he got to that city without passing through Brownfield either going or coming, and we have no record of his stopping and saying hello. Is R. B. afraid we will hit him up for the hat we won off him when he bet us Tahoka would still be larger than Brownfield in 1930? If so, next time call and we'll declare the bet off.

Well, how did the sandstorm suit you last Sunday afternoon. It seemed to have kinder scared a lot of the new comers, not to mention some that were not so new. After all, it looked a sight worse as it approached than it actually was after it hit us. In fact, it was hardly worth getting in doors for protection, was it? But we have it that it was blinding further north and east. It seemed to have developed from a rain cloud on the north plains.

Times are discouraging. Some think the country is going to the dogs. Farmers find low prices offered for nearly everything they have to sell. Some have had a drouth on top of it. There is a tendency to quit formerly profitable lines, such as dairying, to fish in new waters. But

those who stay "put" and continue to cut costs will likely keep on making some money from cows, because many who have been managing herds wisely have been making small profits all summer.

With the passing in Germany of Will Hogg, of Houston, Texas loses one of its most distinguished sons. While the son of the great commoner governor, Jas. S. Hogg, he himself was made rich when oil was found on his lands, but he never forgot the common people, and it was through his efforts and help that many poor boys have received an education. He was always a Texan first, but spent much time in New York, where he was the bosom friend of many of the literary geniuses and columnists of the day. So far as we know, he was never married.

Everyone seems to be taking an interest in accumulating tinfoil for Shriner hospitals for crippled children. We even notice small children picking up cigarette and tobacco packages on the streets, then sit down somewhere and patiently strip the tinfoil off the package. Thus they are learning in youth to be charitable to the unfortunate whom the Shriners are trying to heal. The writer found recently that three ordinary tobacco packages contain at least 5c worth of tinfoil. Tinfoil bring these hospitals 75c per pound, we understand. In each drug store in this city, there is a box to put tinfoil for this purpose, and each individual should be a committee of one to collect all they can, for it is certainly used for a worthy purpose, yet is a waste if thrown away. There are it is said, 13 of these hospitals in the United States and Canada, one of which is located in Dallas.

Drouth relief measures are said to be working slow, very slow, according to some of the business men and bankers in the relief section. According to the Rail Banner, one of the Ralls bankers is of the opinion that most of the relief must come from their own section, as the government has done nothing visible except send committees in the drouth stricken areas, who in turn have passed resolutions and adjourned. But farmers who have no feed for their stock and no groceries to go on their tables cannot live long on resolutions. Farmers must have winter wheat seed, rye or oats to plant for winter pastures, as these will keep stock going through the winter, and they hope to make a crop next year with grass and a little feed. The government got busy with the Mis-

Mississippi flood sufferers a few years ago. Why can't they get the same action in regards to the drouth stricken sections? The people who are in the drouth section of West Texas, are not asking for charity. They want to borrow money to tide them over until another crop is made, and they promise to return this money with interest.

Rev. R. A. Hoover, closed a successful revival at Needmore last Sunday night.

A dairy herd demonstrator in Bastrop county says his 10 cows have paid him from \$83 to \$95 per month above feed for his labor and care of milk and for the use of five acres of sudan pasture. Two others declare that their cows are feeding themselves and the family, helping to pay for farm improvements, and rebuilding the land besides.

M. W. Franks in Coryell county says he's rather milk dairy cows than to pick cheap cotton, and thinks \$93 above feed cost from 13 cows in one summer month isn't so bad. His feed cost \$1.50 per hundred, the cost of producing a pound of butterfat was 14 1-2 cents, and it sold for 43 cents. He stays by his cows and plants surplus land in cotton.

Use The Herald Want Ad Column.

NOTICE

TEXAS AND PACIFIC NORTH-ERN RAILWAY COMPANY hereby gives notice that on the 25th day of August, 1930, it filed with the Interstate Commerce commission at Washington, D. C., its application for a certificate of public convenience and necessity authorizing the construction of a line of railroad from a connection with the Texas and Pacific Railway at or near Big Spring northwesterly and northerly to a point 2 miles north of Vega, approximately 232 miles, with lines connecting with said road extending from Dimmitt to Amarillo, approximately 55 miles, and from a point approximately 66 miles north of Big Spring to Lubbock, approximately 46 miles, an aggregate distance of approximately 333 miles, all in Howard, Dawson, Terry, Lynn, Lubbock, Hockley, Lamb, Castro, Deaf Smith, Oldham, Randall, and Potter Counties Texas. TEXAS AND PACIFIC NORTH-ERN RAILWAY COMPANY. 6c.

Judge H. R. Winston and family left this week for Gordon, where Mrs. Winston will visit relatives, while the Judge continues on to Fort Worth, where the County Judges' Convention will be in session.

Brownfield Cubs Win First Game of Season

The Brownfield Cubs, the high school football team played and won the first game of the season last Friday afternoon, when they met and defeated the fighting team from Levelland. Neither team scored in the first three quarters of the game, and the teams seemed to be pretty well equal, but the Cubs got the bust on the visitors in the last quar-

ter and made the final score 20 to 0. Today they are to meet the Antelopes of Post, which heretofore has been considered one of the strongest Class B. teams in this section, but it is said that our team is preparing to give the Post team a fight for their money. Those who are fond of football should go out and patronize the game.

The Johnson chicken farm near Bowie, Texas, is said to be the largest in the world devoted exclusively to raising chickens and producing eggs.

Many New Firms Located Here Recently

The Herald has tried to make most of the places which have put in stores or other businesses of late, and finds that all of them so far seen have assured us that they are permanent fixtures in this city, and are real glad to be with us. That it is their intention to make this their permanent home and hope to grow along with the city, which is one of the fastest growing little cities in west Texas. These new firms all seem to be good advertisers, and supported their papers before they came here, not because they liked the editor or publisher, or wanted to see him make a good living, but because they thought advertising paid them.

You will find their ads in the pages of the Herald. They want your trade or a portion of it, and promise you value received for all good you buy from them. Also, you will note that they want you to call on them and get acquainted. They want to be your neighbor and friend. Go around to these men and women and tell them how proud you are that they have come to our city.

HUNTER NEWS

The meeting closed at Johnson chapel, Baptist church Wednesday night, Rev. W. K. Horn, of O'Donnell did the preaching, assisted by Rev. C. A. Allen, pastor. A great meeting was held with several conversions, and additions to the church. The community was greatly revived, those missing the services missed a great blessing.

All are invited to come help in our Sunday school every Sunday 10:00 o'clock.

Mr. and Mrs. Mon Telford, Mr. and Mrs. Dube Pyeatt, Mrs. Denis Rentfro and Dale, Orvis Bockman, C. G. Smith and Wayne Goza were guests of Mr. and Mrs. J. L. Lyon Sunday.

There will be church at Hunter school house Saturday night, Sunday and Sunday night. Everyone are invited to come.

Mr. and Mrs. Virgil Jenkins were business visitors at Brownfield Monday.

Arvie Adams visited the Miller boys Sunday.

Mr. and Mrs. Elmer Machen from Lahey visited Mr. and Mrs. Oris Breechland Saturday night and Sunday.

Velma and Olean Holleman visited Beaulah and Jettie Williams Sunday.

Arvie Snow attended church at Forrester Monday night.

Mr. and Mrs. L. O. Reatherford from Lahey visited the latters parents Mr. and Mrs. O. M. Edwards Sunday.

Mr. and Mrs. Lindsey are visiting in Jones county.

Orvis Brockmen visited R. L. Jenkins Sunday.

Mr. Homer Butler returned from a business trip to Odessa, Friday.

Wilburn Bryan is attending school at Brownfield.

Mr. and Mrs. John Jenkins were Sunday visitors Monday night.

Mrs. Kemp has returned from Alabama where she visited relatives and friends.

Albert Buchanan took dinner with Mr. and Mrs. H. L. Hollmon Sunday.

Mr. Wayne Goza from Brownfield spent Saturday night and Sunday with his aunt and uncle, Mr. and Mrs. Lee Lyon.

Those that joined our church during the meeting were baptized Sunday at Mr. Newton tank. A large crowd was present from surrounding communities. Those baptized were:

Miss Irene and Fay Washman, Lucille Smith, Thelma Williams, Delnia Williams, Ruby Mills, Geneva Williams, Mrs. Cecil Smith and Mrs. Woody, Mr. Carroll Music, Hayden Kemp, Cecil Smith, Orvis Bockman, Deward Williams, Garland Walsler, and C. G. Smith.

Mr. John Kemp is visiting relatives and friends at Ballinger Texas.

Mr. and Mrs. Johnson from Happy visited the latters brother, Mr. O. M. Edwards and family Sunday.

We wish to thank Miss Marie Webber for the splendid help she was to us during the meeting as she played the piano. She lives near Lahey but she says she likes Hunter. Thanks Marie.

To those who do not know Hunter church is called Johnson chapel in honor of Bro. Johnson who organized it.

Will Alf Bell, local insurance man, sent on of Terry's prize water melons to President Lancaster of the T. & P. Railway, at Dallas this week. Will Alf says the specimen weighed close to 60 pounds, and just would go in a barrel, as it was of the long variety. We hope Mr. Lancaster enjoys eating the melon as well as we like them out here.

It is reported here that Mrs. E. B. McBurnett, of Crowell, is very low, following childbirth recently. Mrs. A. M. McBurnett, mother of E. B., Mr. and Mrs. L. R. Pounds, parents of Mrs. E. B. McBurnett, and

Mr. and Mrs. L. J. Dunn, uncle and aunt the sick lady are down there at present. Mr. and Mrs. McBurnett are both well known here, having both

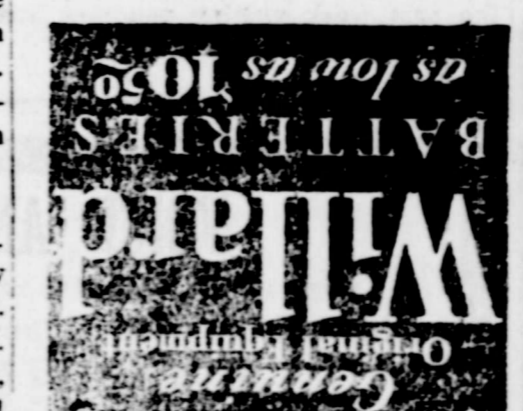

A SAFE GUIDE to Battery Quality... the SAFETY POINT

There's a safe way to save money on batteries. Select the battery that offers known quality at a fair price.

You'll find this safety point of battery economy in a Willard. For twenty-eight years Willards have satisfied their owners. Twenty million have been purchased.

Seventy-six makers of cars, trucks and busses pick them as the best battery quality they can hand on to their customers.

MILLER & GORE

attended Brownfield High school.

J. S. Smith and family have moved back to their place just north of town. J. S. says the hail got the wheat up at Hart where he moved last winter, and a crop failure fol-

lowed, so he decided to come back to old Terry.

Hubby—"I miss the old cuspidor since it's gone."
 Wifey—"You missed it before. That's why it's gone."

TEACHERS ENTERTAINED BY FEDERATED MISSIONARY SOCIETY

The entire faculty of teachers was entertained Monday evening on the High school lawn by the Federated Missionary Society.

The band played many splendid pieces during the evening. Mrs. Roy Wingred gave the welcome address after which Miss Perkins responded for the teachers. Mrs. H. F. Crews and Miss Lenore Brownfield each gave readings.

iced watermelons were served to a good attendance. Games were then played by all.

Miss Wynona Burnett left Monday to register in the Tech and make arrangements for this year's school work.

Mr. and Mrs. Stanley Bowers of Lorenzo were visitors in R. L. Bowers home Sunday.

Miss Mozelle Treadaway left Wednesday for the Tech.

HALLEY AND BALDWIN WEDS.

Miss Bess Halley and Mr. Fred Baldwin were married August 17th in Lovington, New Mexico, by W. C. Garrett, pastor of the Baptist church there. The young couple kept it a secret until last week. The bride is the daughter of Mr. and Mrs. R. L. Halley.

KIDDIES CLASS MEET AT CHURCH OF CHRIST

Fourteen members of the Kiddies class were present Sunday evening, when the class met for a study of the "Early Life of Paul." Next Sunday the class will learn the names of the fourteen books written by Paul and something of each of his missionary journeys.

JUBILEE AUXILIARY MEETING

The Jubilee Auxiliary met Thursday afternoon at the Methodist church for a business meeting and for a lesson in the Missionary Voice. Mrs. Clyde Coleman conducted the lesson. Other members present were Mesdames; Keller, V. A. Bynum, A. B. Bynum, Knight, J. C. Hunter, Feviney, Rickels, Davis and Baldwin. The Auxiliary will meet every Thursday now.

BIBLE CLASS OF CHURCH OF CHRIST

The Bible class of the Church of Christ met Thursday afternoon at four o'clock at the church, with Mrs. Kyle Graves in charge of the lesson. Those present were: Mesdames; L. F. Hudgens, Roy Collier, Legg, Ditto, Jap Proctor, Dewey Murphy, Haddock, Nelson, Williams, Drevhone, Jack Jackson, Guy Nelson, Travis and Graves.

Mrs. Jackson will teach the class next week.

CHRISTIAN MISSIONARY SOC'Y

The Missionary Society of the Christian church met Monday afternoon with Mrs. Jones in the Wingred duplex. The lesson chapter was 1st Corinthians 14. It was the first lesson in the new Bible outline—Mrs. Miller was leader.

The members present were: Mesdames; H. F. Crews, Arthur Sawyer, Ballard, Flippin, Walters, George Snodgrass, Walter Gracey, Miller, Brown, S. H. Holgate, A. B. Cook, Guthrie Cook and Joe Price.

METHODIST MISSIONARY SOC'Y

The Methodist Missionary Society met Monday afternoon at the church for mission study. Mrs. H. O. Longbrake, superintendent of Mission study, led the lesson on "India Looks To Her Future."

Those present were: Mesdames; B. L. Thompson, Henson, Powell, Lenville, Cleve Williams, Turrentine, Webber, Wheeler, Cook, McDaniel, Downing and Longbrake.

L. L. Brock and family returned Saturday from a visit to his brother at Hanover, N. M. They came via El Paso for the Judges and Commissioner's convention which met the 11 and 12th. L. L. went aboard while in El Paso (only to view the U. S. from a foreign country. Lo and behold he met four other Terry countyites, who went over for the same purpose,) but whose vision had become very dim.

Bill Allman, of Floydada, was here the past week visiting relatives and friends.

THE DORCAS S. S. CLASS

The Dorcas Sunday School class met with Mrs. McLeod Friday afternoon, at 4:00 P. M. for a business and social meeting with group No. 1 entertaining group No. 2.

Mrs. W. H. Collins, the class president conducted the business meeting which was opened with scripture reading by Mrs. Brit Clare, followed with a prayer by Mrs. Lawrence Green. The class voted unanimously to again divide into two groups for the next three months with Mrs. W. R. Lovelace, captain of group No. 1, and Mrs. McLeod captain of group No. 2. The group winning the most points to be entertained by the losers. Come on, all you Dorcas members, line up and help your group win.

The social hour was enjoyed by all present and ice watermelons were served to the following: Miss Annie M. Long and Mesdames; W. H. Collins, W. R. Lovelace, Cecil Shaw, C. K. Alewine, Brit Clare, Lawrence Green, Garrison, McGee and McLeod.

SENIOR B. Y. P. U.

Edna Brock left Tuesday for Lubbock to enter the Tech.

Those that don't get the Fair Catalog by mail, call at the Chamber of Commerce for one.

The Senior B. Y. P. U. met Sunday, September 13, at 7:30 o'clock at the Baptist church and had a business meeting and elected new officers as follows:

President—Miss Naomi McLeod. Vice-President—Mr. Ernest Word Secretary—Josephine Lee. Corresponding Secretary—Mrs. Bob Lovelace. Treasurer—Edith Day. Group Captain—Orvalene Price, Lola Mae Tittle. Bible Reader and Leader—Mr. Bob Lovelace. We had eleven present and hope to have more next Sunday Come.

JOHNSON P. T. A.

The Johnson P. T. A. held their second regular meeting Tuesday evening September 9th. A program consisting of two round table discussions was interesting and helpful.

1st. Appreciate dress for school children. Led by Mrs. E. C. Brockman and Mr. T. A. Loe.

2nd. To what extent should parents help the children with their home work. Led by Mr. Talley.

Next meeting will be the fourth Tuesday in this month.

MARRIED

Mr. C. C. Perry of Dalhart, Texas, and Miss Minnie Lee Cardwell, charming daughter of Mrs. C. S. Cardwell put one by on their friends on September 2nd, when they drove over to Lovington, New Mexico, and were married at the Methodist parsonage in that city, the Methodist pastor officiating.

Mrs. Perry was reared and educated in Brownfield, but later took a business course and has been connected for the past few months with one of the abstracting firms here as secretary. She has many friends here who wish her well in her new associations. Mr. Perry is a telegraph operator at Dalhart, where they will make their home after a short vacation.

JUNIOR CLASS OF 30-31 HOLD FIRST CLASS MEETING

The first meeting of the Junior class of 30-31 was held Tuesday, September 8. The meeting was held for the purpose of electing class officers and a class sponsor. Orchid and silver were also chosen as class colors. The class is greatly pleased to have Mrs. Rountree, the new commercial teacher, as their class sponsor.

Pat Shelton was elected president of the class, Theo Adams Vice-President, Marjle Moore Secretary, Treasurer and Billie Smith class reporter.

PLESANT VALLEY SCHOOL HOUSE

Brother Turrentine will fill his third Sunday appointment at three. He wishes to see his friends from the neighborhood and test their singing since the school of singing that has recently been held. Good reports have come from the school.

Dawson County has annual farm products payroll of \$6,425,000, according to figures compiled by "Lamesa Reporter."

METHODIST CHURCH

We reached our attendance goal of two hundred and went over the top last Sunday. There were many absent whom we hope to see next Sunday together with the same folks who came Sunday. Help make this a Rally year. Special music is promised for Sunday. Mrs. Ellington and Mrs. Longbrake will sing a duet. We welcome to our town and church the new people who are moving in. Mrs. Noble, Mrs. Carpenter and Miss Taylor came into church fellowship. Many more are coming by letter and vows in the near future. Our orchestra is beginning to take shape. The playing of Miss Pickett, Miss Rasco, Mr. Powell and Mrs. Herod was especially appreciated last Sunday and the talks were very timely and inspiring by Mr. Powell and Prof. Toone, while the children did well in their parts, under the direction of Mrs. Boone Hunter.

Geo. E. Turrentine.

Rev. J. B. Vinson called in this week to cheer up the Herald force and to tell us what a good man we have for a new preacher, as he lived close to him four years at Roaring Springs. He says Elder Drennon is one of the best Boy Scout workers he ever saw, and this information may come in handy at some future time. Few men are good workers with boys.

Mr. and Mrs. O. M. Hale, were here Saturday night on their way to Clovis, N. M., to visit his father, Dr. J. W. Hale. Mr. and Mrs. Hale spent the night with his uncle, J. L. Cruse and family. He is manager of the Penny store at Harlingen, Texas.

Needmore Baptists Have Great Revival

The Baptist revival which has been in progress at Needmore the past week closed Sunday night with a total of 23 converts. The School board and the teachers very graciously consented that 45 minutes of their time be given to the services. Thus, the school attended the morning services in a body. We feel that all were rewarded since 21 of the youngsters were converted.

The revival was held by Rev. Hoover. Mr. Loveless helped with the singing. Rev. Hoover had a full house to preach to almost every night. Several of his friends from other communities were here to hear him. Mr. and Mrs. Fulton from Gomez, Mr. Roy Ragstall from Forrester, Mrs. Hester and her sister from Brownfield were some of the visitors. The revival was a success and we feel that all were benefited in some way.

Baptizing will be held at 4 o'clock next Sunday afternoon at grandpa Watkins' tank. Everybody is invited to come.

4-H Clubs to Hold a Meeting Saturday P.M.

There will be a county 4-H Club meeting Saturday, September 20th, in the office of the county agent at Brownfield. Although we have lost our county agent, we wish to carry on the work of the clubs just as we have before until we get a new agent.

We urge that every club member that possible can do so, be present and lend their aid. We want to discuss and perfect plans for the club exhibits at the fair next Friday and Saturday, September 26-27. Hoping to see the club members present, I am,

Sincerely yours, Orville Watkins, Club President.

CELEBRATES FIRST BIRTHDAY

Junior Herring was honored on his first birthday last Friday afternoon by a party given at the home of his grand-parents, Mr. and Mrs. A. H. Herring. Junior is too small to realize much as to what it was all about, nevertheless, he was center of attraction.

The writer can say that "Grandma" certainly knows what it takes to please little folks, as well as the larger, as can be seen by the refreshments which were served. They consisted of: Pop corn, water melons, candy and ice-cream.

The youngsters that enjoyed the afternoon were: Billie Dean Luker, Carroll Herring, Willard Brock, Rudolph Luker, Neelan Luker and Junior. Each left wishing Junior could have another birthday in a very short while.

"What's the matter, Rastus, you seem as mad as a wet hen." "Well, why shouldn't I be? The doctor what operated on me for pendicitis wen and sewed me up with white thread."

City Banker (visiting the farm): "I suppose that's the hired man?" Farmer (who has visited banks): "No, that's the first vice-president in charge of the cows."

Texas has more telephones and telegraph and railroad mileage than any State in the Union.

J. W. Head Opens New Dry Goods Store Here

J. W. Head and family are new comers to Brownfield in a way, and in another way, they are not, as he was for a long time connected with the Head-Hargrave Dry Goods Co., in this city, and we welcome them here as full pledged citizens. He has opened a stock of choice dry goods in the old Head-Hargrave stand on the north side of the square, and is adding a full line of new fall and winter goods which are arriving daily.

Mr. Head informed us that he did not think it advisable any time to move the other stock from Brownfield, but as he only had a small interest at that time he did not try to prevent it. However, the company has carried their lease on the building right on, and he had no trouble to get the building when he wanted it.

In conversation with the Herald, he agreed that the article we wrote last week was to the point and good, but inasmuch as he had come to stay and share in the advancement of this section, that the article did not hit him. The territory at Quitaque is limited and it has no future outlook like Brownfield, caused him to move here. Indeed, he said that point in the matter influenced the move even more so than present drought at Quitaque did.

Local Rotary Club Entertain the Teachers

Instead of holding their meeting last week at the regular time, at noon, Friday, the meeting was moved up to night in order that the membership might have as their guests the faculty of the Brownfield Public schools. There was a very good attendance of both hosts and guests, and the program was fine. But to express it in the words of some present, we believe the teachers came nearer entertaining the Rotarians than the other way around. Anyway, if the faculty enjoyed the meeting half as well as the members of the club, the meeting will be long remembered here by both organizations. The banquet was held at the Handcock Cafe in the Hotel Brownfield at 8:30 P. M.

The opening song, "America" was sung by the entire audience, and was followed by invocation by Rev. Geo. E. Turrentine. A splendid piano selection was rendered by Mrs. Jack Jackson.

The welcome address was delivered by Morgan Copeland in a few well chosen words, and we don't believe there was not a teacher present that did not feel heartily welcome to our city after the address. The response was given by Prof. Toome in a very feeling way, all his own.

Mrs. Roy Herod pleased the audience with one of her best selection in her well cultivated soprano voice. This was followed by a reading by Mrs. Toome in a humorous sketch that was thoroughly enjoyed. The audience also enjoyed a violin solo by Miss Pickett, accompanied by Mrs. Dallas. Miss Rasco followed at the piano, in which she mimicked the flapper who first runs the cords thru the high school age when she gets familiar with all the jazz stuff on through college when the touch of the artist is attained. Miss Ainsworth followed with a splendid reading. All of these selections were given a big hand, and the hour of entertainment following the repast was only too quickly over.

Shelton Says South Plains Fair to Be Great

"It's going to be something that no one should miss," is the way J. E. Shelton, Vice-President of the Panhandle South Plains Fair characterized the seventeenth annual fair and exposition that is to be held at Lubbock, September 29, to October 4, inclusive.

"The fair has developed into one of the most successful and one of the most comprehensive expositions in the entire Southwest in the past few years, and this year the amusement and educational features of the show are to be especially good," he said.

"With departments for the women, boy scouts, machinery and implements, agriculture, beef and dairy cattle, horses and mules, swine, sheep, poultry, boys' and girls' clubs, and merchants and distributors, the educational exhibits are comprehensive and will be usually interesting this year.

"The amusements include free circus acts, five free football games, carnival attractions, fire works each evening and other things of interest."

Britisher—"So, you're from Detroit, eh? That's where they make the automobiles, isn't it?"

Proud Yankee—"Yes, but then, of course, you know we make other things in Detroit, too."

Britisher—"Yes, I know. I've ridden in them."

WELLMAN

The Wellman Parent-Teacher Association held a business meeting Friday afternoon after school to plan work for the year. We are working to make our association standard this year. To do this we must have fifty percent of the teachers and patrons to join. The teachers have joined one hundred percent. We will have our first program Friday evening, September 26. After the program we will have a social hour. Every patron is urged to be present. The following program will be rendered:

Devotional, business, plans for the year, how to make association standard—Mr. McPeters, The Room Mother Plan—Mrs. Adair, The Year's Gwendoline Baker, Is this Woman You?—Margaret Schroeder, What the P.-T. A. is? What it is not and why we should join?—Mrs. Baker, Song, A little child shall lead them. Social Hour.

Mr. and Mrs. Gould Winn will have a Sunday school class social at their home Friday evening September 19, from eight to eleven o'clock. Every member is urged to be present.

Mrs. Gilbreath, Mrs. Adair, Mrs. Wardreth and Mrs. Kates spent the afternoon with Mrs. J. D. Roberts, Sunday.

Miss Roma Lewis who is attending school in Brownfield spent the week-end with her parents, Mr. and Mrs. W. M. Green.

Mr. and Mrs. W. M. Schroeder and children visited Mr. and Mrs. Pruitt of Seagraves Sunday.

The 4-H club held a meeting one day last week and they decided to have a booth at the fair. Those who were appointed to attend to it were Ted Burnett, Curtis and Dean Griffith and Elmer Adair.

Mr. Jers McTehaney and Miss Mildred Davis of Lubbock were united in marriage Sunday evening, September 14th, at the First Baptist church in Lubbock after church services. The newly weds came to Wellman and spent the night with Mr. and Mrs. Schroeder. They left Monday morning for the Carlsbad Caverns and other points in Mexico on their honeymoon after which they will make their home in Lubbock.

The Wellman Senior and Junior B. Y. P. U.'s had a social at the home of Mr. and Mrs. W. M. Schroeder, Miss Mary B. Mosley of Seagraves had charge of the our-door games, she surely put pep and enthusiasm in the various exercises after the fun we lighted a big fire composed of card board boxes and toasted marshmallows, then drank lemon-ade. The purpose of the social was to get new life in our Union our pastor being with us, it was well attended, about 40 guest were present.

TRENCH MOUTH HEALED

Konjola Very Medicine This Lady Required

She Rejoices Over Wonder Relief From Indigestion—Happy To Endorse New Medicine.

MRS. ALMA WEBSTER

"I had stomach trouble for a year and a half," said Mrs. Alma Webster, 5017 Avenue R., Galveston. "Each meal brought pain for my food was not properly digested. Gas formed after every meal at times making me very ill. There were many things I did not dare eat because of the condition of my stomach.

"I kept reading in the papers about Konjola and what it was doing for so many people that I began the treatment. Konjola has so improved my condition that I have not had a sick or dizzy spell since I began taking the medicine. I can eat any thing I wish without fear of subsequent misery. I have improved in general health and am happy to endorse this medicine because of what it has done for me."

Sufferers do not have long to wait after Konjola before relief comes. However, a six to eight bottle treatment is suggested for the average case.

Konjola is sold in Brownfield, Texas, at Alexander Drug Company, and by all the best druggists in all towns throughout this entire section.

WE HAVE IT EVER TWO YEARS

Well, it is all over, except confirmation at the November general election. We have had our usual red-hot campaigns in the Southwestern States and the follow-up runoff primaries, and it has proved expensive entertainment, no matter how you take it. If one-half is true of what has been said of candidates for office, Texas, Oklahoma, Arkansas, and other States have filled their public offices with incompetents and crooks. Fortunately this is not true, but it is not saying much for our political methods that good citizens must slander and be slandered in their efforts to fulfill an ambition to enter public service.

Texas and Oklahoma have a Nation-wide reputation for red-hot campaigns, and it serves no good purpose. Our primary election campaigns are disgraceful and a reflection upon the intelligence of our citizens. It brings out the worst that is in us and creates a lack of respect for Government and Government officials. So brazen have been some of the charges made against candidates, not only in the campaign just closed, but in previous ones, that the general opinion of thousands of our citizens is to the effect that all public officials are grafters and even worse.

We hardly become familiar with the names of our public officials before we enter into another campaign of similar nature, and again will speakers mount the platforms all over the country and drag the ill-smelling carcass of scandal in front of the nostrils of the people. It would be encouraging if the people resented it, but on the contrary, a lot of them like it and call for more. Like jackals, they crowd around the platform and howl "Pour it on 'em". The discussion of issues is of minor importance of the majority of the crowd. They would not stay five minutes to listen to a candidate discuss questions of importance. What they want is to see "straw men" constructed and torn into bits with a savagery becoming an Apache. If this is done, they return home satisfied. If it is not, they vote for the other fellow.

Is it any wonder that we pay a high price for Government? Is it any wonder that the laws of the land mean nothing to many of our people. Yet, there are some who would lengthen the list of elective offices, relieving other officials of responsibility, and adding to the confusion we must suffer every two years. If we ever have confidence enough in ourselves to write a new Constitution, and we doubt we ever will, we hope the term of office will be made four years with a provision that four years must elapse before any official can become a candidate for the same office previously held, or any other office of equal importance.—Farm and Ranch.

REVOLVER PROHIBITION?

"The professional criminal will always get his gun, by theft, through a 'fence' or from a 'gun bootlegger' regardless of any legislation," says Capt. Charles L. Gilman, in commenting on a proposed anti-revolver law. "In all, it appears to the writer that the possible public benefit from police selection of those who can purchase arms is so slight and the advantage accruing to the crook from the restriction of arms in the homes—and in the cars of law-abiding citizens is so obviously great as to cast doubt upon the desirability of the proposed ordinance."

The anti-gun agitators fall into the error of believing that the passage of a law is directly followed by its enforcement. Our experience with other kinds of restriction legislation shows that this is far from the truth. An anti-revolver law would be no exception to the general rule; it would be obeyed by good citizens and laughed at by the underworld. It would amount, in effect, to protection for the criminal.

Crime has become a major issue, largely because of the activities of reformers who have been unable to separate fact from fancy. Every new law breeds new crimes. What America needs is a campaign of crime suppression that will go after the criminals and leave the rights and liberties of law-abiding citizens alone.—Livingston Tribune.

Elder Vance of Crosbyton, was here the past week representing the Tipton Orphans home. He delivered a lecture at the church of Christ Friday night.

Children's and Infant's Tams, made new Styles and Colors, New Low Prices 25c

REDEEM BONDS WITH GAS TAX

"Bonham Favorite—We think it is doubtful that the legislature will submit to the voters an amendment to the constitution making it possible for the state to issue road bonds, the payment of which will be guaranteed by a tax on gasoline, and we doubt if the people would adopt it if submitted, but we do not doubt that it would be the wisest thing to do. It would relieve many counties of bonded indebtedness incurred in the building of state highways, and it would insure the completion of a

highway system much sooner than it can otherwise be completed, and that at no extra cost to the taxpayers."

Greenville Messenger—The idea of redeeming county bonds is the chief plea for State bonds and many people appear to think this is the only way the thing can be done to relieve the counties.

Should we vote the three hundred fifty million bonds, less than one hundred million would be necessary to redeem county bonds, where the proceeds used to build State highways.

Then too, these county bonds are maturing over a long period of years and only a small percent of funds required for this purpose would be needed in any one year.

Then why not just add one cent to the present gasoline tax and use same for this purpose?

If the constitution is changed and the State permitted to issue bonds and take over gasoline tax, we immediately lose that one-fourth, amounting to some eight million dollars which now goes to the public school fund that would immediately have to be made up by a raise in taxes or else our school system would suffer woefully.

Some counties have burdened themselves with highway bonds to aid in securing State highways and the State already has taken over the upkeep of these highways while the local people get an advantage that does not come to those counties that have no State highways.

Possibly too that some counties voted bonds and perhaps wasted considerable funds that would give the State poor return for good cash if all this bond money refunded.

The way taxation has developed and increased in this country there is no need to court opportunities for extravagant expenditures. And, surely there is no sound reason for getting all excited in those counties already bonded, over the false hope of collecting large State funds for bond money that in some instance was accompanied by heavy waste, while in others the tax payer has been given value received in road service.

The idea is held up by some that "the people surely have a right to pass on this matter." Just here is where the fellow who desires to get the people to release their rights in the bond issue program, indirectly deceives "we common people."

Until the people vote the privilege to the legislature to issue State bonds, they have no power to do so. Hence, no special interest can put this over. Once given the right, who can say what the limit might be? If the bond issue promoters really desire to retire that portion of county bonds used on State highways, on a fair and equitable basis, the matter is very simple. Just add another penny to gas tax and let those who use the roads have the task.

The public school fund will profit by this too. Get that in you pipe.

Ten millions a year will pay the sum required each year, to retire the county bonds now outstanding, over which we hear so much lamentation from those whose fingers are itching for an opportunity to rake off a portion of the three-fifty million bond pie. In less than ten years the matter would be settled—if bond holders would permit their payment before due.

This would leave as many millions each year for road work as could wisely be spent, if Highway Commissioner, Cone Johnson, is correct in how large a fund can be wisely spent in any one year.

This way millions we would otherwise pay in interest will go into roads—with much less latitude for graft, too.

The longest river entirely within one of the United States is in Texas.

AMEN, BROTHER, AMEN!

The New Era has accumulated a rather heavy exchange list for a paper that has less than a 1,000 circulation, and we are, we regret to say, obliged to cut off a number. We get about two dozen exchanges that never have an editorial in them, and of course they are of no use to us. How an editor can turn out a paper with not a single idea expressed, not even one copied from another paper, is one of the mysteries of the business. Either they are too indolent to write editorials, or they believe such things unnecessary. If they believe that, then we are ready to part company with them, because we believe that the editorial page is the very life of any up-to-date newspaper, large or small. We receive many exchanges that we do not even open, knowing their contents by the wrapper. We simply waste our paper by sending it to editors who do not reciprocate in kind. However, we will say that any paper that has even one idea expressed each week will be left on the list.—Bristol (S. D.) New Era.

Roy Hines has purchased the Phillips filling station at the Brick garage and is handling a full line of Phillips gas and oils, as well as auto accessories. Note his ad in this issue of the Herald.

Mobeetie—Panhandle Power and Light Company's second major electrical generating station under construction four miles east of here, at estimated cost of \$350,000.

Beware!

When You Buy Outside Second Hand Cars.

In all probability this immediate section will be flooded with hused cars from other territories this fall.

In justice to the car buying public we want to call your attention to a few fundamental facts:

1. USED CARS IMPORTED HERE FOR SALE ARE AN UNKNOWN QUALITY, YOU DO NOT KNOW WHAT CONDITION THEY ARE IN OR WHO HAS USED THEM.
2. When you buy used cars from your local dealers you are assured of their conditions, you have your local dealer here available to service the same at all times and he is interested with you to the extent that he wants it to stand up.
3. WHEN YOU BUY USED CARS AT HOME YOU ARE ASSURED OF ITS TITLE, THAT THERE ARE NO LIENS AGAINST SAME AND THAT IT IS YOURS ON THE CONDITION OF ITS PURCHASE.
4. The recommendation of your local dealer of yours standing is your best assurance of a good second hand buy—when you buy from a transient dealer it is a purchase in the dark—THINK IT OVER BEFORE YOU BUY
