

## NOT SUPPOSED TO GIVE FUNDS TO BEGGARS NOW

Those Who Have Contributed to Brownfield Associated Charities Are Exempted From Street Solicitors Unless the Contributor Wishes to Help Other Cases.

It seems that it is very hard to make some understand the object of the Associated Charities organized here two weeks ago, and who have since been solicited for funds. The real object is to do all charity work through one CENTRAL organization in order that there be NO DUPLICATIONS. Say for instance, if all were trying to do the work independently, perhaps the Baptist church and the Methodist church would be duplicating their work on one family and that family could then appeal to the Chamber of Commerce or the American Legion, and no one would be the wiser except the beggar.

This is therefore the real object of pooling the interests of the churches, the civic organizations and others. In other words, when the solicitor comes around, they are citizens of the town whom you personally know to be alright and not soliciting for themselves. The funds they take up belong to ALL the pooled organizations, with one central committee, and there is NO OTHER dispensing committee. All beggars should be sent to them for investigation. If the beggar gets sore and does not want to appear before this investigating committee, that is a very sure fact that he or she are not entitled to charity and are merely begging to keep from work.

When a solicitor for funds appears before you if you are a contributor to Associated Charities, don't give them any funds but send them to J. E. Shelton, who in turn will call the investigating committee, who are composed of the pastors of the city. After they investigate his or her needs, the amount they recommend will be paid those applying for charity, providing they live in the town or country. If they are merely passing through, they will be helped to reach their folks, or to the next town at least, where they can be helped again. Of course if you do not donate to Associated Charities and

want to contribute independently, that is your affair, but it will likely cost you more and you will be worried more than if you contributed to the central committee. Also, if you are a contributor to Associated Charities and want to contribute to special cases independently, of course that is your affair, also.

When the first solicitors started out last week soliciting for funds, the cards were not printed which are to be given each donor. They read: "THIS FIRM IS A CONTRIBUTOR TO BROWNFIELD ASSOCIATED CHARITIES." These are large cards easily read, and soliciting committees who are to work other sections of the city this week will distribute them. The other committee that solicited before the cards were printed will probably return this week and give you a card. If not, call for one at the office of the Chamber of Commerce.

The investigating committee report that it is having many calls for food, and they are also distributing much clothing and fuel. If you have any good outgrown clothing that you have hung up in the closet for the moths to eat up, this is a mighty good place to find use for it. There are people right here who do not have enough clothing to keep them warm this winter without help. They may be the very best of people but have been very unfortunate also. Take this clothing to the central committee which at present is located in the basement of the courthouse. J. E. Shelton has the key to this room, and his offices are also located in the basement. This appeal for cast off garments is made to country people as well as the town people. Rummage the closets to day, as the pastors tell us that this department of the help is called on very frequently, and it will save the committee from having to spend so much money if they can get the cast off clothing.

## May Have a Champion Basket Ball Team

Those who have watched the Brownfield basket ball boys here work out and play the two games they have had, are confident we have some district champions at least. And, it is said their sisters are not far behind. Indeed the girls have a fine team which is being encouraged and carefully drilled.

To date, the boys have won both games they have played. Last week they trimmed the Lubbock boys to the tune of 18 to 26, mention of which was NOT made in the Avalanche. The Lubbock girls beat the Brownfield girls by a small score. Tuesday night of this week both the boys and girls played against the Wellman boys and girls, both local teams defeating their opponents badly, and Wellman has always had good basket ball teams.

Mr. K. B. McWilliams, here from Hillsboro as government cotton classifier, and who has watched basket ball for years, watched the games Tuesday night and says Brownfield has champ timber in both the boys and girl's teams.

## Mrs. Cave Decides on 'Milady Shop' as Name

Mrs. Cave announces that Miss Mary Cone Bailey was the successful winner in the contest to name her hat shop, having decided on the name "Milady Shop" as suggested by Miss Bailey, who also won the hat given by Mrs. Cave.

Mrs. Cave also wishes to thank all others who suggested names in that contest. Also, she takes this means of wishing one and all a very Merry Christmas and a Happy New Year.

## MRS. LUSK PREPARING TO MOVE TO SANTA FE

Mrs. Georgia Lusk is at home making preparations for moving to Santa Fe before the first of the year. Mrs. Lusk was elected State Superintendent at the November election, which will necessitate her moving to the Capitol city during the term of her office.

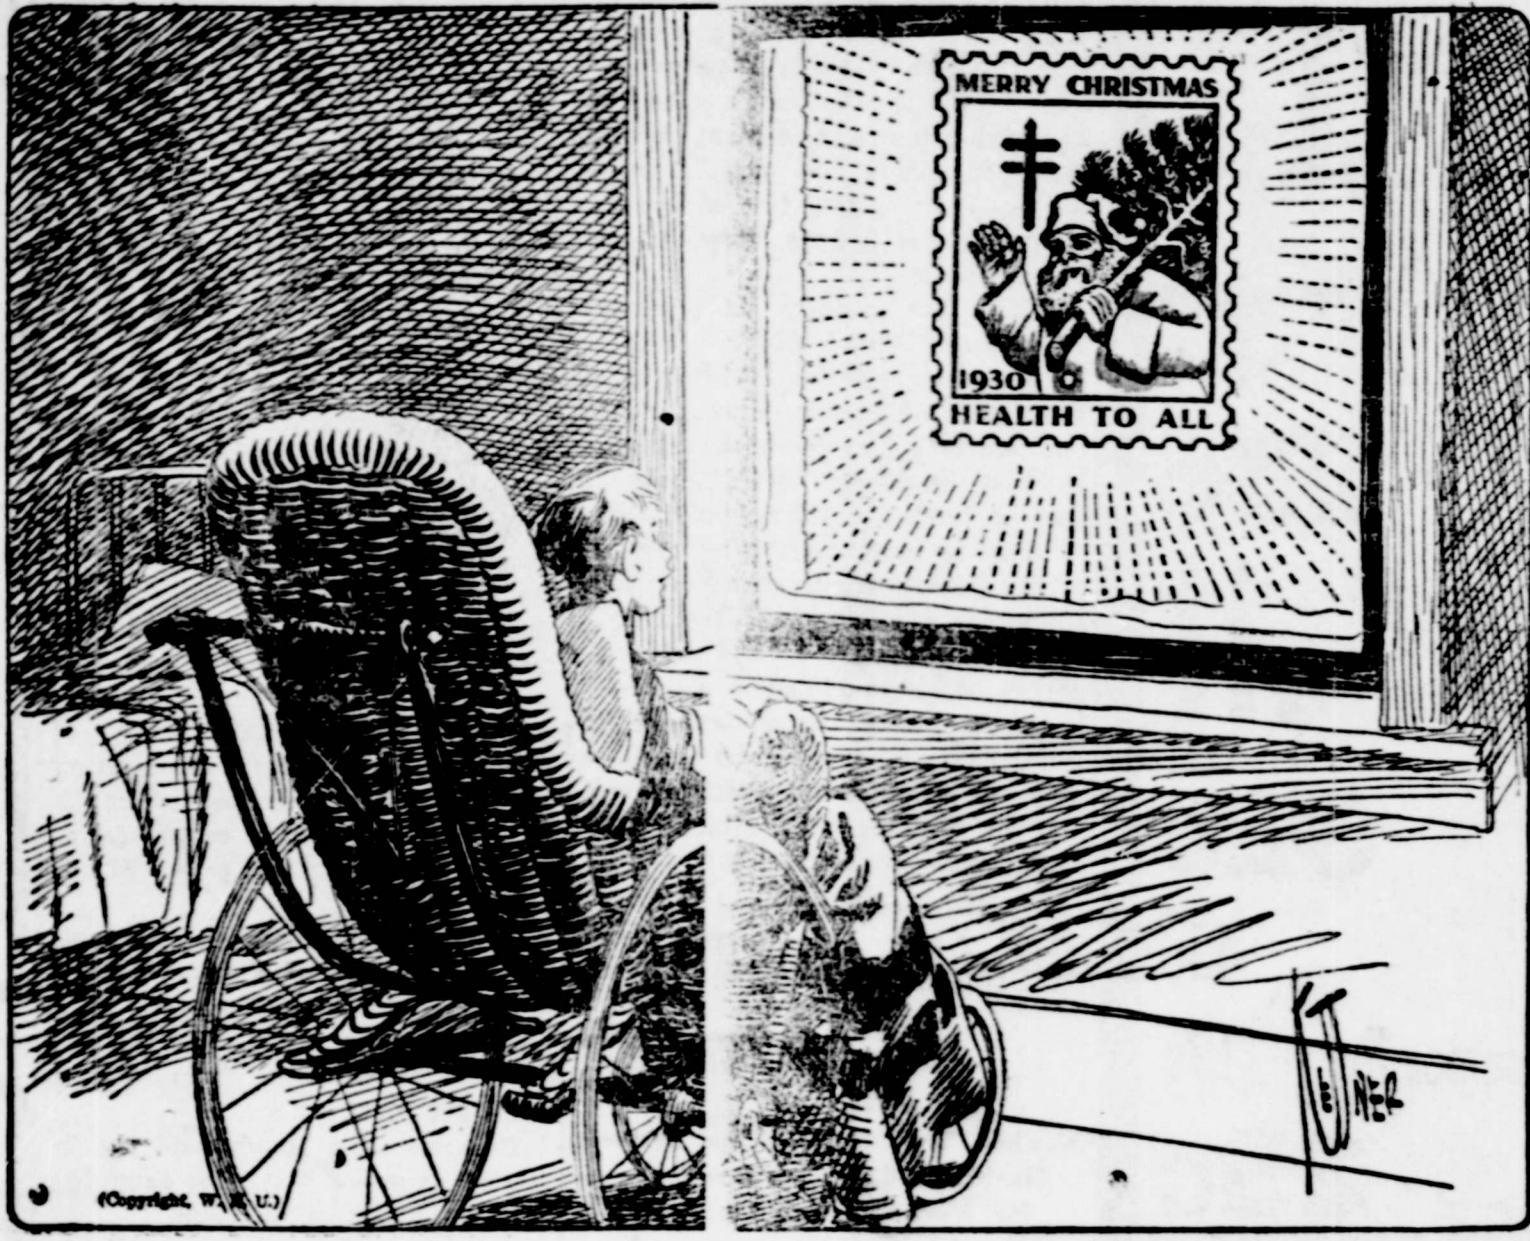

She has resigned her position as teacher in the Lovington school and Miss Ethel Yaden has been elected in her stead.—Lovington Leader.

## GOMEZ HIGH SCHOOL TO PRESENT PLAY

The Gomez High School pupils will present "An Arizona Cowboy", at Gomez, on December 18th. The admission will be 25 and 15c. The proceeds will be used to purchase the much needed playground equipment. Everybody is invited to come.

Years ago, when you wanted to poison people you put it into their coffee. Now you invite them down cellar.

## SOME REAL AIR THRILLS HERE SATURDAY

Three air aces will be here Saturday afternoon to entertain the people of this section with some of the most thrilling stunts ever seen in the air, such as walking out on the wings, and jumping from planes and plunging through space for 1000 feet before opening the parachute. This is provided for Brownfield people through the courtesy of several business men here whose names appear in the Air Circus Ad. Read all the ads.

## Telephone Co. Maintain Expansion Program

"We are rather proud of the fact that we have not reduced our construction crews, or our force," E. E. Johnson, assistant general manager of the State Telephone company said in announcing that the company's construction and expansion program for 1930 was virtually complete.

"We have maintained nine crews in construction work on our properties, he continued. "In addition to this work we have added to our general office here, increased our office space and added a new department, the traffic department."

## Headquarters Here

More than a quarter of a million dollars was included in the construction work of the State, Standard, Haskell and the Kansas State telephone companies, all in the allied group with operating headquarters in Lubbock. In addition to the announced program, a new switchboard building and system had to be built at Hobbs, N. M., to care for Old and New Hobbs and the oil fields business. It is still growing there.

Ralls, Brownfield and Wellington properties were rebuilt outside; the new Wellington building opened; the new Dalkart building ready, with a new building project started at Waynoka, Okla.

A rural plant is being started at Flomot; a rural line from Muleshoe to Earth is being constructed and new extensions at Carlsbad and Lovington under way.

Many new toll circuits, Brownfield to Tatum; Lubbock to Littlefield and Clovis and intermediate points; Hobbs to Carlsbad, to Lovington and to other points and smaller circuits have been finished or will be before the first of the year.

General Manager R. B. Fairly is in Los Angeles working on the 1931 budget, which will be announced shortly, it is expected. No indication is given as to probable plans for next year.—South Plains Farmer.

## Foul

Stranger: "What's up with the two old chaps?"

Local Resident: "Oh, they're just crazy mad to fight each other, but they can't fight with their glasses on for fear they'll break them, and if they take them off they can't see each other."

One way to stop over-production of wheat would be to establish a Tad Pole golf course on each farm.

## Ralls Banner Regrets To Give Up Rev. Hale

Rev. and Mrs. J. M. Hale and children are moving this week to Brownfield, Texas, where Mr. Hale has accepted the pastorate of the First Baptist Church.

The Rev. Hale tendered his resignation as pastor of the First Baptist Church in Ralls some few months ago, effective the first of December. The Banner didn't make mention of the fact, due to our hope that maybe the affairs of the congregation would take shape so it would be possible to keep Mr. Hale as the pastor. Such was not possible, however, and he has accepted a call to the Brownfield church.

Ralls is losing one of its best families to Brownfield and the Baptist church one of the very best preachers ever in this part of the country. The Rev. Mr. Hale is a pulpit orator of unusual ability and an extraordinary religious worker. Under his guidance the Baptist folks here have erected one of the most completely modern church buildings in this section of the State and the congregation has been "up and doing" all the time.

The Banner regrets sincerely the loss of this preacher and his excellent family. We wish them great success in their new field of endeavor.—Ralls Banner.

## Move Under Way to Start A Negro School

We understand that a move is under way here to start a school for the colored children of the city. It is said there are some 21 or more of them in the school age, and they have petitioned the board of trustees for a school. We understand that a teacher was here last week negotiating with the board for the position of instructor.

It seems that the only problem now is the securing of a building for the school. The only one available seems to be the one now used for a residence or boarding house on south sixth, and the business interests in that section are seriously objecting. They do not want any kind of school that close to their business, white or colored.

If possible a building for their school and church if they want a church should be provided for them in a section of the city where there are no white people. It would be better and more suitable to both races.

## Big Rains Cover This Co. Again Past Week

The outlook at present does not in the least indicate that any of this section of the state will suffer drought in 1931, for reports from all over the section indicate clearly that the whole territory is receiving more rain at this time of year than for years past. No section is complaining that they have not received the best season for the time of year in the memory of many old timers. The fall season last year was good in Terry and saved our hides this year, but it fell earlier than this year and before vegetation became dormant, and lots of it was sapped from the ground before freezing weather. But our sandy lands retained more of it than harder lands.

Week before last, we were slipped upon by a quarter inch rain as reported last week. Last week it hardly slipped upon us for the conditions became exactly like they were the week before but we had much more rain, nearly an inch and a half, 1.43 to be exact, which fell the later part of Tuesday night and all day last Wednesday. As this is written, there is increasing cloudiness and conditions seem to be getting ideal for rain again. Later: It did.

In the meantime some of our roads are becoming very bad again, especially sections of the Lamesa and Seagraves roads, but we have been informed that both Com. Brock and Com. Thomson say they are going to get these roads on a high grade this coming winter and spring to where they will drain readily.

## Kids to Get a FREE Christmas Hair Cut

It looks as if nearly every one is trying to do their share this fall to help out in doing charity work, and not the least of these is one of our barber shops. Every little bit helps, and will be appreciated by those in need of the work, as well as the Associated Charities as it will go along with the work they are doing. Mr. B. C. Daulton has decided to devote one day in his shop on the east side of the square to cutting hair for children 12 years and under, of dependent families, widows, etc., who are really not able to pay for the work, in order that the kids will all have a fresh hair cut when Santa Claus comes.

So he has selected Tuesday, Dec. 16th for the day, as his regular work is usually light on that day. He promises if your children are sent to him on that day, they will be giving just as good work as if they were paying for it, and will be treated just as courteously as any of his best customers. Remember the date, Tuesday, December 16. Place: The B. C. Daulton Barber Shop on the east side of the square.

Lubbock is to have a big air carnival Sunday out on the Brownfield-Lubbock road with a 1000 feet parachute jump, for the benefit of their Community Chest. Many other death defying stunts will be pulled in the two hour program, the notice of which came in too late for this issue.

## STORES GAILY DECORATED - A WEEK TO ADVERTISE

The Addition of Colored Street Lighting Would Have Helped Greatly in Tuning In Santa Claus. One More Week For Holiday Advertising. Get Copy Early.

Well, make the rounds of the store, the cafes, the barber shops and all other shops, and you will find a riot of colors indicating that old Santa Claus is on the way and had left a full consignment in the stores here for the holidays. This is the right spirit to assume, Mr. Merchant. Forget gloom for awhile and make merry. What has Brownfield and this section to gloom over. Absolutely nothing.

We have harvested an average if not a bumper crop. True it brought little, but no other section got much for theirs. We have had one of the largest corn and feed crops in our history. Again, the price is low, but that does not hinder us from feeding it to hogs, sheep and yearlings and

make something out of it. Man, we have much to be thankful for and should show it in our actions, and even talk it.

Next week is the last issue the merchants will be able to reach their customers before the real sale comes off for the holidays. Will you please assist us by getting your copy in early next week. We can give you ad more attention, and you better service.

The thing to do is to go on as you have in the years past with your part of the deal, and when the holiday sales are over, you will wake up to the fact that your sales have been normal. Do your part. Watch and see.

## Young Man Fails to Get Up Page Ad Last Week

A young man came in last week and undertook to get up a page ad for the merchants here, but we presume that he failed in the undertaking as he has not been around lately. He came in and got our prices on a page ad and intimated that he wished us to give him an endorsement as he was the son of an editor who is now deceased. We informed him that was strictly against our rules; if he got up the ad it would be on his own merits and without mentioning us in the arrangements, except to say it was intended for the Herald.

From what we could get from his proposed copy, it was something on the order of the Buy-a-Bale movement, which is now some three months behind the order of things, as that movement is not mentioned now scarcely, and the cotton season is almost over even on the Plains. He acknowledged to us that he was about all in financially and had his old mother to support—and she was with him. This of course touched our heart, as we believe the young man honest, but this did not and never will incline us to be disloyal to the merchants here who have stood by us in good and bad times. We just simply couldn't see nothing in his proposition, and told him so in a nice way.

A lady was here from Plainview this week who first announced that she liked our town and thought she would move here after a little more investigation. She finally divulged that she was soliciting "another" church calendar. We informed her that another lady had beat her to it by about two weeks and we doubted that she would be able to get another, as most merchants here preferred the paper route in advertising, and were about fed up on special advertising. We have not seen her since up to the time this has been written. However, we gave her prices on the work she wanted and treated her nicely, as we always try to treat the ladies.

## TCCA Pass 6,000 Bale Mark Here Last Week

The 6000 bale contract the city of Brownfield had with the Texas Cotton Cooperative Association was passed last week, and the merchants and business men are now released from all obligation for the \$3,000 for which they signed up for early in the fall to pay the expenses for opening a branch of the district office here. However, Mr. K. B. McWilliams, the classifier and the buyer here believes that he will pass 7,000 bales here before the season is over, as he draws from all points in this county and Seagraves in Gaines county.

We believe Mr. McWilliams has been in every way fair to the farmers of this section here and has given them every point their cotton will stand. In fact, we have it on good authority that what few corrections that have been made by the Dallas or Memphis head offices were found that he had given the cotton just a bit higher grading than it would stand.

We are in hopes that when the office is opened here next fall that Mr. McWilliams will be sent back in charge of the office here as he is well liked by the people in general, and he seems to like Brownfield and her people. The last report we had he had reached in the neighborhood of 6300 bales.

## Many Terryites Attend L.C.C. Meet at Lubbock

A great many people from here are attending the sessions of the meetings of the Interstate Commerce Commission at Lubbock this week, some as witnesses, if called on, but mostly to see and hear what is going on. Possibly there will not be but one witness from this county, Morgan Copeland of the State Bank, as he is the statistician, and will introduce evidence from others in his testimony if permitted. Otherwise the other witness will be on hand where they can be called at any time. Others may attend from time to time, but really it is not necessary other than to show interest in the hearing for others than witnesses to attend.

From the way the hearing opened Monday, as reported by the dailies, the fire is going to fly before this hearing is over, for the Santa Fe, Denver and Rock Island are going to contest every inch of the way to try to keep this section gobbled with their main and branch lines, but we believe that when the battle is over the boses up at Washington will say to the T. & P. "go ahead and put out that thirteen million dollars for labor and material, for we believe that section of Texas capable of supporting a huge population, and that its tonnage will increase from year to year for many years to come." Not only will it support the other roads and the T. P., but as the years roll by other roads will cross and crisscross this section from time to time, and they'll not all hit the same towns.

The conditions that now exist over the United States, and the need for some money to be turned loose, will, we believe, largely determine the decision of the I. C. C. in favor of building the new road.

## Geo. Dupree Addressed Rotary Club Friday

One of the finest talks we have heard in some time was delivered here last Friday at the noon luncheon hour of the Rotary Club. This was in answer to an exchange program arranged by the two clubs. Very likely, the local club will put on a program for Lubbock in the future some time. Mr. Dupree was accompanied by Neill Wright, also of that club, who is well known here, and who was chiefly instrumental in getting the club organized here. He introduced the speaker.

His address covered the 7th phase of the Rotary code of ethics, in the making and maintaining of friendship. He maintained that our asserting of "Service Above Self" and He that serves most serves best are dead issues without actually carrying that into effect. Resolutions, he asserted are as nothing when not braced by action. He advised all business men to make friends with the younger generation, both boys and girls and to encourage them in their efforts to press forward. He does not blame young people themselves for their short comings, but rather their parents, and those who should be friends who hold themselves aloof from the young. He cited example after example where older people had played a large part in influencing young people to a better life.

The Herald appreciates such talks very much, and along with other Rotarians expressed great satisfaction with the address, but we sure wish more people could have heard it.

### Poor Circulation is Right, Mr. Babson!

Roger Babson was right when he said this nation was suffering from poor circulation. Poor circulation of her dollars.

More money is not the cause of the wave-like having of the charted course of business over a long stretch of time. As a power in business, the vital thing about money is not its amount but its rapidity of circulation. Theoretically a million-dollar business might be transacted by a single dollar bill if it changed hands with sufficient rapidity. Just as we refer to the speed of an engine by saying that it makes so many revolutions per minute, we can describe the rapidity of circulation of money by saying that it runs over twelve times a year.

When that rapidity is increased and money circulates faster, business picks up and becomes better. As the circulation of money slows down, business falls off. Some superhuman hand on the throttle, speeding up or cutting down circulation, could make or unmake prosperity. Why cry for a superhuman hand, when we have it already available in advertising?

By advertising I do not refer to cheery copy proclaiming a non-existent prosperity, but advertising to sell existing products. Each business man can best promote national welfare by building up the business he knows best—his own.

### Relief Comes to This Galveston Lady

Konjola, The New Medicine, Restores Health To Galveston Resident—No More Stomach Or Bowel Trouble.

MRS. MAGDALENA MUEHE

"I suffered for several years with stomach trouble and constipation," said Mrs. Magdalena Muehe, 1409 K Street, Galveston. "Many times I had such severe attacks of indigestion that I thought I would die. I tried many things for relief, but none of them helped me as Konjola did. I shall certainly take this wonderful medicine for a sufficient length of time to cleanse my system of the poisons that brought on this painful ailment. I am giving this endorsement so that others, suffering as I did, can get the same relief."

It is the sincere statement of thousands of men and women of all ages that has made Konjola the most famous medicine in America. Try Konjola today. It is free from alcohol or harmful drugs.

Konjola is sold in Brownfield, Texas at The Alexander Drug Co., and by all the best druggists in all towns throughout this entire section.

### Tremendous Power from the Wind

THE Aermotor Co. is now making a self-oiling windmill 20 feet in diameter, if you have a well 1000 feet deep, or if you want to raise a large quantity of water from a shallower well, this is the windmill you need. This new Auto-Oiled Aermotor weighs nearly 2 1/2 tons without the tower, it is a giant for power.

Whatever your water requirements may be there is an Auto-Oiled Aermotor of the right size for the work. They are made from 6 feet to 20 feet in diameter. Use the smaller sizes for the shallow wells and the larger ones for the deep wells or large quantities of water. Our tables, sent upon request, tell you just what each size will do.

The Improved Auto-Oiled Aermotor, the genuine self-oiling windmill, is the most economical and the most reliable device for pumping water. It works every day and will last a lifetime.

Every size of Auto-Oiled Aermotor has double gears running in oil. All moving parts are fully and constantly oiled. One oiling a year is all that is required.

The Auto-Oiled Aermotor is made by the company which originated the steel windmill business. For full information write

### TO CUT MARRIED WOMEN OFF OF STATE'S PAYROLL

Austin, Dec. — Governor-Elect Ross S. Sterling's unemployment relief plans started a backwash of anxiety within the capitol over the week-end.

Workers starting their last full month before he comes into office were stirred by reports of his purpose. What started as rumors were being quoted as facts, that his intention to spread work among the jobless may strike home to those who are holding state jobs.

It was said married women whose husbands have jobs may be barred from holding places that will furnish employment to jobless heads of families.

The tide of agitated discussion was evident throughout the capitol building.

It was estimated that probably 100 married women were drawing state salaries. Some departments are known to have several married women employes whose husbands also are drawing salaries. In some instances, both husband and wife are on public payrolls.

The reports got its start indirectly from personal opinions expressed in the capitol that Mr. Sterling would extend his recently announced far reaching plans of reducing unemployment even into the capitol. Discussion arose over re-appointment of Mrs. Jane Y. McCallum as secretary of state, even though her office is principally an honorary one, so far as compensation goes. It pays \$2,000 a year.

It quickly developed that the rule would go beyond one or two office-holders and touch perhaps 100 employed workers in the capitol, married women receiving from \$150 to \$229 per month.

Governor Dan Moody said he intended no action along the same line during the rest of his term.

"So far as I am concerned," he said, "I regard it as a matter of getting the most efficient people possible for the jobs—out of providing pensions for people up here."

Mr. E. H. Awbery, of Ropes has purchased the Marchbanks Service Station at the west end of Main Street, and has renamed it the Super Gulf Station. Note his ad elsewhere in this issue.

Pupil: "Thomas A. Edison. He invented the phonograph and the radio so people would stay up all night and use his electric light bulbs."

### Watch Out For Christmas Fire Hazzards

Austin, December 2, 1930. To The Fire Marshals and Fire Chiefs Of Texas Towns and Cities.

Gentlemen: The Texas Fire Insurance Department is exceedingly anxious that every precaution be taken in your community against "Holiday Hazards," and we are appealing to you to make regular inspections during the month of December.

Periodic inspections are better

than none at all, but we are strongly in favor of daily inspections.

We believe that the Fire Marshal and Fire Chief should work together in arranging a systematic inspection of their community. A Fire Chief's big job today is "Fire Prevention" work, instead of waiting for a fire to start as in the old days. Experience has proven that firemen make good inspectors on account of their long period of training and by working under the supervision of the Fire Chief it will be possible to have different men on duty each day, and in this manner daily inspection are made possible.

The holidays introduce special haz-

ards in the home and in the commercial districts in the form of combustible decorations, candles, lanterns or fireworks. You should recommend the purchase of decorations which have been impregnated with a solution which prevents their burning readily. Asbestos should be used instead of cotton wool for Christmas "snow." Substantial candlesticks should be used, and candles should not be put on Christmas trees, in windows or near curtains, near decorations, or in paper lanterns.

We suggest that you use your newspapers in urging your people to cooperate with you in keeping down "Holiday Hazards," and in doing so constantly keep before them that heavy losses naturally affect insurance rates adversely, and that it is the people themselves and not the insurance companies who pay the losses.

A low fire loss in Texas during December will help to establish a lower annual fire loss this year than in 1929, and this is the goal we are striving to reach.

Very truly yours,

J. W. Deweese  
Fire Insurance Commissioner.

Please bring me a baby doll, fruit, nuts, and candy. That is all that I will ask for this time, so other poor children can get something too. Don't forget my little brother, bring him a wagon and some fruit, nuts and candy too.

Your friend,  
Marjorie Moore.

Meadow, Texas, Dec. 12 1930.  
Dear Santa Claus:  
I am six years old, and am in the high first grade. I have blond hair and blue eyes. I have tried to be a good little girl ever since last Xmas, for I would like to get me a set of dishes for my little blue table. I would also like to have a new doll with sleepy eyes and long curly hair, a doll bed and ring. I hope I am not asking for too much for I want you to remember other little boys and girls. Also, don't forget my little sister.

Love,  
Mary Dell Hawkins.

Meadow, Texas, Dec. 12 1930.  
Dear Santa Claus:  
Please remember me. I am Mary Dell's little sister. I have also tried to be a good little girl. I am three years old. For Christmas I would like to have a new doll that will cry, also a little red wagon and a pretty doll blanket.

Love,  
Lois Ruth Hawkins.

Brownfield, Texas, Dec. 12, 1930  
Dear Santa Claus:  
I want a doll buggy and a doll. I also want a tricycle. Be sure to bring me lots of fire crackers and candy and nuts. My little sister, Ida Mae, wants a doll, a doll buggy, also a tricycle too. She also wants lots of firecrackers, candy and nuts.

Your friend,  
Jo Pete May.

Brownfield, Texas, Dec. 12, 1930.  
Dear Santa Claus:  
I am a little boy 6 years old. I am in the primer, I like my teacher. I want you to bring me some caps, an air gun, BB shots, a dump truck, apples, nuts and candy. I wish you a merry Xmas.

Your friend,  
Pat Wayne Franklin.

**GENERAL MOTORS GOING AFTER BUSINESS**

Talking about the return of prosperity, advocating "Buy Now" campaigns and advising what others should do to restore the normal flow of business, are not harmful gestures, but they are not nearly so effective as actually doing something.  
Chevrolet Motor Company, one of the General Motors units, is performing, not merely talking.  
While others are talking about better business, Chevrolet is going after it.  
The tenor of all the addresses at the Knoxville division conference of Chevrolet dealers yesterday was that of confidence and aggressiveness. It is to be expected that other automobile manufacturers will have to go after business in the same way if they keep up with Chevrolet.  
Instead of reducing their forces of salesman, Chevrolet is employing more salesmen. Instead of waiting for business to come to them, Chevrolet dealers are going out after it.  
And, best of all, G. M. A. C., the powerful financing institution allied with General Motors, is manifesting a most liberal attitude toward new motor sales of Chevrolets. G. M. A. C. believes in the American people and consequently is willing to finance their purchases of Chevrolet cars on terms that can be met without difficulty.

Our old friend A. L. Turner is 80 years young today. He is still as spry as a jack rabbit, as jolly as a clown and keeps his Herald way in advance. Many happy returns old boy.

The people who spend their time playing Pee-wee golf and talking hard times might better start Pee-wee gardens and grow something to eat.

Brownfield, Texas, Dec. 12, 1930.  
Dear Santa Claus:  
Come to see us this Xmas. We would like to have a little pony and saddle, if you have them. Thanks.

Brownfield, Texas, Dec. 12, 1930.  
Dear Santa Claus:  
I am writing this to let you know that we have moved from Houston, to Grandpa May's, at Brownfield, Texas, so you would know where to find us. I (Gertrude) want a trunk, a dresser, a cabinet, a stove, and a bed. I (W. A.) want a fire truck, a wagon, a gun, a foot ball, a tricycle and some tinker toys. We want some candy, oranges, apples, and some nuts.

Gertrude and W. A. Langdon.

Brownfield, Texas, Dec. 12, 1930.  
Dear Santa Claus:  
Please bring me a peddle car, and a typewriter, some fireworks, a little shift gear car that has an engine in it, a sleepy doll, a paddle car for Christmas. I want Santa Claus to be good to everyone.

Your friend,  
Larence Whitley.

Brownfield, Texas, Dec. 12, 1930.  
Dear Santa Claus:  
I want a moving truck, a little red wagon, a bird house, a new suit, a little oil well, air gun, little bank to keep my money in, a airplane, a toy tool table, an Indian set. Well Santa that is all.

Your friend,  
Billy Joe O'Neal.

Tokio, Texas, Dec. 12, 1930.  
Dear Santa Claus:  
I want you to bring me a little dump truck so I can haul groceries. I want a toy pistol so I can shoot rabbits, and please bring me a white bull dog. I already have a little col-

lar. I just want the dog. I promise not to kill this one. Our chimney is so small that you can't come through it, so you can leave my things in my vacant dog house. Please bring me a little tomb stone so that I can mark my dog's grave, that I killed.

Your friend,  
Jim Casey.

Brownfield, Texas, Dec. 12, 1930  
Dear Santa Claus:

The Brownfield stores are being gaily decorated for the holidays. Boy, they sure look good too. If we could have gotten our streets fixed up to match.

We were very sorry to learn last week that Editor E. I. Hill of Tahoka had lost his life companion. May the Holy Comforter help to sustain him in his hour of sorrow. The loss of wife and mother is the greatest blow that can befall the family ties.

The Olton Enterprise came to us this week marked up for exchange. Had a 16 page railroad booster edition which was very neatly gotten up. Alright Smith, glad to exchange with you old boy. Got to liking your style while you were at Dimmitt.

Don't talk hard times to anyone that comes into your place no matter how great the urge. We have read several of late who have lost big sales by talking hard times to a customer who came to their places with the cash to pay for what they wanted. After hearing a hard time story the would be customer would decide to hang on to his old car or whatever he intended to buy.

It seems that local business men did not take kindly to our holiday lighting scheme. O. K. Suits us alright to go on from year to year in the even tenor of our way. But along about January 1st, don't come to us telling us about how nicely decorated some little town was down in the dry belt and ask us why our town can't do that. We might tell you that we do not do so because we are too all fired stingy and lazy—mostly the later.

Adam and Eve are said to have missed all the joys of childhood. They could never recall when they were kids to dream of Santa Claus and the annual fair and picnics. There never was a time in poor Adam's history when he could remember when he wanted so bad to go to bed without washing his feet. Nor could

Eve., poor girl, ever recall when mama called her in from play to wash the dishes. They were both said to have been created full grown man and woman and missed all the joys and all the heartaches of childhood. Probably they never heard of Santa Claus.

The kids have sure been pouring in their letters this week all sections of the county, and we believe we promised this week to point out a few facts to show that old Krissy Krinkle generally termed Santa Claus is no myth. But why carry on this old argument with a few confirmed pessimists. Listen kids: Don't you feel the urge of the season in your very bones? Are not your elders who sometimes make skeptical remarks about Santa, are they not also preparing every day against that Great Day? Are they not just as busy as you preparing to get ready for Santa's entrance to their homes? Then why go on with this argument. The very face of all evidence shows that Santa exists in person, and is preparing to visit nearly every home in the land.

Well, we'll have to answer Al Hill of the Lubbock PROGRESS again this week, as he came tearing back at Editor Baldwin of Levelland and this pencil pusher. But they ain't much to answer for Al used two columns of perfectly good space in his sheet to tell the world that he was opposed to the other towns of this section ever bringing anything else but feeders to Lubbock, and that he wanted them to stay put on a branch line of the great Santa Fe system in order that they have no other alternate than to trade at Lubbock. Well, Al, the people are becoming fed up on this one-market stuff here now, and one of our gin men got out last week and went to Sweetwater and Abilene and found a better market than Lubbock for cotton. Probably the cotton men up there had decided they had the thing grabbed, but they didn't. Besides, Al, Lubbock can't or won't buy all we have to sell. For instance, last winter we had tons and tons of corn shucks that Lubbock did not want, Fort Worth turned their nose up at them, and El Paso had all the tamala shucks they needed, but the piney woods of east Texas and Louisiana which you mention in your epistle wanted the shucks—were willing to pay real cash for them, and a number of car loads of them were shipped for cash, fob Brownfield. Fort Worth and Dallas buys the bulk of our corn crops each year of several hundred cars, and many go as far east as Shreveport and New Orleans. What if we had to depend on Lubbock to sell this crop or more than a million bushels of corn each year? What would we get for it. Lubbock usually has all the feed they want raised locally, and depend on shipping some themselves. Texas is a raw material state yet, and must have outside markets for part of its products. We are not self contained yet by a jug full, and we must have rail lines to fully develop. All other sections, including Lubbock have had to get railroads. We can remember, Al, when Lubbock had less than 500 people in it. It had no railroads, but has grown to a real nice city by getting plenty of them. Why you old pessimist, we are going to get Baldwin some of these days, and if we think we need any more help we'll go by the Avalanche and get Guy and Lewis and come over to your shop and carry you for a ride—to one of the big hotels in Lubbock and feed our faces at your expense—you doggoned old rooster!

Also, the Herald wonders if Plain view, after doing what she can to keep the counties of Dawson, Terry, Hockley, Lamb, Castro, Deaf Smith, etc., from getting a north-south rail line by filing her protest will then have the nerve to ask the people of

these counties to continue to help her push her dairy show? We wonder? Plainview was the only town in this section that protested. Slaton, Tahoka and O'Donnell did not, and it means the same thing to them that it does Plainview, as neither of them will be touched by the proposed road. To our notion Plainview is just too narrow and provincial to mother anything as big as the Plains Dairy Show should be, and there ought to be a move fostered to move it before they go to any great expense providing for it.

Editor John L. McCarty of the Dalhart Texan will hold his second annual "Cuss-The-Editor" week December 7 to 13, during which time all his readers are invited to write what they think about the editor and his paper. Our experience has been that every week of the fifty-two the editor gets cussed; no matter what stand he takes on any question, there is always someone to oppose and to cuss him for his stand. McCarty may be able to crowd all the cussing into one week, though, and not have to be bothered the other fifty-one. Anyway, the scheme enables him to find out more nearly what the people really want in their paper, and that's what the week is for.—Tahoka News.

**TAKING ROMANCE OUT OF FARMING**

Labor-saving machinery and the great need for lower production and harvesting costs is gradually taking some of the oldtime romance out of farming. While they continue to have corn husking contests up in the corn belt, and even plowing contests, the time is near at hand when little interest will be shown in them. Oldtimers can remember the days of contests with the cradle in the harvesting of grain. Who, of the older generation, does not remember the husking bees and the search for the red ears? The younger generation get their fun by going to moving pictures and their kisses while sitting in automobiles.

Modern machinery is putting plowing contests into the discard. Team pulling contests attract but little interest. Cotton picking contests are seldom heard of. With the advent of cotton harvesters and cotton picking machinery, old records will stand because no new ones will be made. Only recently, corn harvester demonstrations have set a new mark in economically handling the corn crop. The corn combine not only cuts the stalk, shreds it, and distributes it on the field, but husks and shells the corn at a cost that cannot be duplicated by the best corn plucker in the country. Tractor-drawn plows have eliminated interest in plowing contests, and corn husking contests will be of the past before very long. The world moves and agriculture is rapidly adopting efficiency methods. It is not the man, but the machine that is doing the work.—Farm and Ranch.

W. D. Moon informed us the past week that he might build a house at Wellman and move back there.

**SHERIFF'S SALE**

THE STATE OF TEXAS ( ) COUNTY OF TERRY ( ) NOTICE IS HEREBY GIVEN That by virtue of a certain Alias Execution issued out of the Honorable County Court of Terry County, on the 2nd day of December 1930, by the Clerk of said Court for the sum of Forty Six Dollars with interest thereon at 6% per annum from December 23, 1927 and costs of suit, under a certain Judgment in favor of P. #### HUNTER NEWS

A large crowd of Hunter folks went to Loop Sunday night, along with the B. Y. P. U. pupils. A nice program was rendered both by Johnson Chapel and Loop B. Y. P. U. Mr. and Mrs. Lonie Reatherford have moved from Lahey to our community, we welcome them.

Miss Florence Fitch was a dinner guest of Mr. and Mrs. Lee Lyon Sunday.

Mr. and Mrs. Brockmon and Mr. and Mrs. Fred Benton went to Lab-bock on business, Friday.

Mr. and Mrs. H. H. Butler have moved back to Odessa for a short time. They intend to return in time to farm their place next year.

T. J. and W. H. Hight visited Olen Edwards, Sunday.

Mrs. R. C. Hall and Miss V. H. Hight were visitors in the O. M. Edwards home Sunday.

Some people look good in almost everything they eat.

#### MEAT SCRAP ESSENTIAL IN POULTRY RATION

Marshall—A noticeable increase in egg production has been reported by Mrs. C. F. Peteet in her demonstration poultry flock since she put meat scrap into the Big Five ration. working in cooperation with Miss Maggie Peach, home demonstration agent, Mrs. Peteet made a profit above food cost of \$294 from her 106 Rhode Island Red hens last year on her Harrison county farm in Athy community. She didn't think she could afford to use the meat scrap included in the home mixed ration suggested in the Extension Service calendar until she tried the mash both ways. The laying ration includes equal parts of ground corn or grain sorghums, ground oats, bean, shorts and meat scrap.

O. K. Tongate was in the past week and informed us that he got 20 hales off 50 acres this year. Pretty good we call it.

#### Don't Be a Goose

A teacher asked her class to write an essay on geese. This paper was turned in by an eight-year-old miss: "Geese is a low, heavy-set bird, which is most meat and feathers. His head sits on one end and he sits on the other. He ain't got no between-his toes, and he's got a balloon in his stummick to keep him from sinking. Some geese, when they get big, has curls on their tails and is called ganders. Ganders don't haff to sit and hatch, but just an' loaf and go swimming. If I was a goose I'd rather be a gander."

W. A. Bell left this week for Marshall, Texas, to visit with his age-mother for a few days.

E. C. Willis, route 1, is a ne-reader.

W. D. Benson, attorney of Hobl N. M. was a business visitor he Friday.

**METHODIST CHURCH**

Does Christmas have any significance to you other than the exchange of presents and the return of members of the family for a family reunion? These means of celebrating the day are not to be despised, but the main purpose of the day is to remember the advent of our Lord to earth. In order to bring to mind the Christmas element in the day we are planning to celebrate the Christmas season with songs and talks appropriate to the worship of our Master and this will begin Sunday with a sermon on the Angels song, "Glory to God in the Highest and on earth peace among men of Good Will." R. V. A high spiritual tide that promised revival seasons was especially noticeable in the District meeting at Slaton and a resolution to set apart Friday morning for prayer and fasting that we might have a mighty outpouring of the Holy Spirit was adopted. Will you who were not there join with us in this united petition to God for a great awakening?

**LIKE COD LIVER OIL, EGG YOLK KEEPS RESISTANCE HIGH**

When planning her meals during the winter months, the wise homemaker includes in the family diet foods rich in the vitamin A. For what they think about the editor and against low resistance to infection which reflects itself in coughs, colds and other cold weather ailments. Total absence of Vitamin A often results in xerophthalmia, a serious eye disease.

Eggs, butter and milk provide generous amounts of this important food factor. To supply an adequate amount of vitamin A is one of the reasons why dietitians urge "an egg a day" for every member of the family. Not only is this a safe standard of adopt, they declare, but it is an economical one as well, due to the present low prices of eggs.

Egg yolk ranks next to cod liver oil in the amount of vitamin A it furnishes, according to Dr. H. B. Sherman, an authority of nutrition. The daily egg need not always be eaten at breakfast, dietitians point out. It is possible to use the egg as the basis of a variety of delightful main dishes for luncheon or for dinner.

## HERE'S SOMETHING I CAN'T TELL MY HUSBAND

**H**OPE he reads this ad. That's the only way he'll know I'd rather have a Tiffin Model Magic Chef Gas Range than anything else in the world. He thinks all I like are dainty things to wear and would never believe I actually prefer a stove for Christmas. But what a stove!

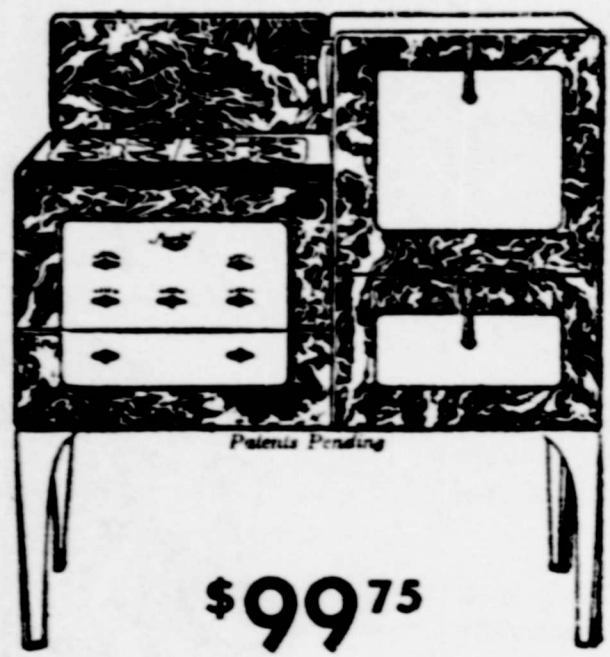

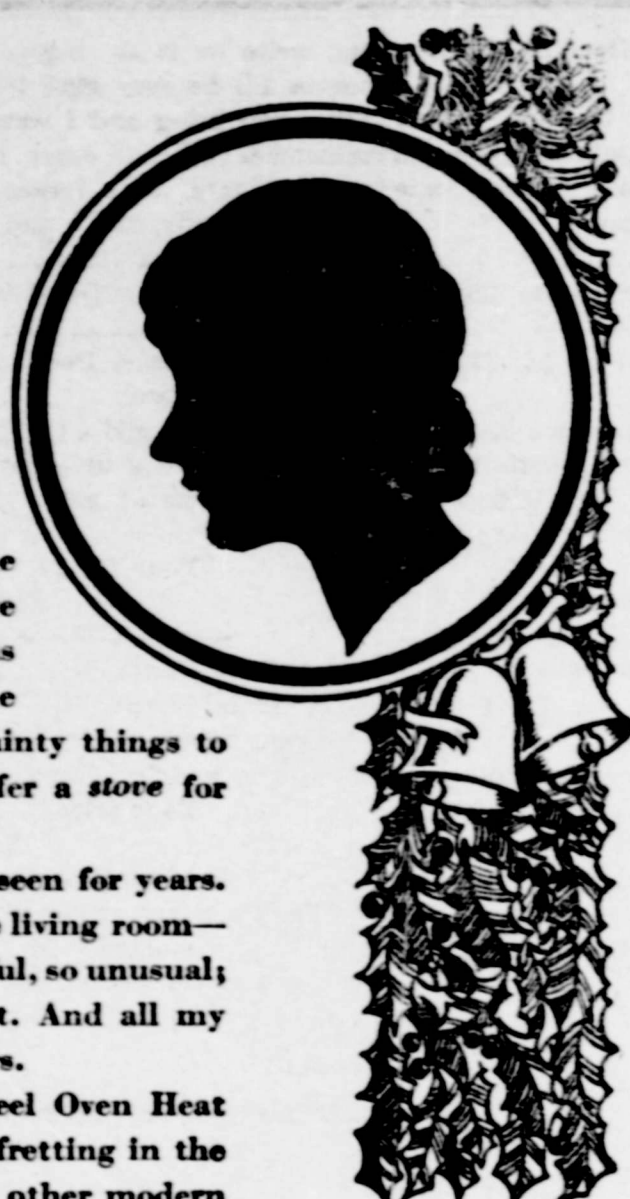

This Tiffin is the most enchanting thing I've seen for years. It is to the kitchen what a grand piano is to the living room—a real mark of distinction. So compact, so colorful, so unusual, every woman falls in love with it at first sight. And all my friends who have them say they're perfect bakers.

I've always wanted a stove with a Red Wheel Oven Heat Regulator. I'm tired spending hours needlessly fretting in the kitchen. The Tiffin has a Red Wheel and every other modern improvement to make it easy to cook the kind of meals people praise.

Like other women, I prefer a gift I can share with the family, and we'd all enjoy the advantages of this wonderful, new gas range. The price of the Tiffin is almost unbelievable—it's so low. Maybe my husband will surprise me and have one installed. Here's hoping.

It is a GOOD Gas Range That Has This Red Wheel

### TOKIO TALKINGS

Miss Magdolene Purtell visited her mother, Mrs. A. C. Holcomb at Lahey this week-end.

Brother Hoover and Weaver Lovelace were here from Plainview Saturday and Sunday. Bro. Hoover filled his appointments at the local Baptist church.

The Tokio school is giving a pie supper, Friday night. Everyone is invited to come and take part.

The party at Mr. Sam Days last Friday night was enjoyed by a large crowd of young people.

Mrs. Flora Mae Rowe has been very ill with erysipelas but is much better at this writing.

Miss Imogene Rutledge is now visiting her sister, Mrs. Vernon Barrett.

### PTA CHRISTMAS PROGRAM

The Brownfield Parent-Teacher Association met Tuesday, December 2, at 7:30 P. M. in the high school auditorium. Before beginning the program the work of the Associated Charities was put before the house and the association voted to cooperate in every way possible with this good work.

Mr. Stricklin, brother of the Editor, made an interesting talk on P. T. A. work and demonstrated some play ground equipment which appeared to be far ahead of anything else the writer has seen.

A Christmas program followed, composed of: A violin duet by Virginia May and Mattie Jo Gracey accompanied by Miss Pickett at piano; A talk, The Christmas Spirit, by Rev. Drennon; A play, The Christmas Chimes, by Mrs. Boone Hunter's pupils; Singing by the Tiny Tot's Glee Club; A story, The First Christmas Present, God's Gift, dramatically told by Miss Annie Long; Piano selections by Mrs. Jack Jackson and Singing by the Junior Glee Club.

This was a beautiful program and should inspire all who were present to celebrate Christmas this year with the right Christmas spirit.

We will have a business meeting at the same place Tuesday evening, December 16, at 7:00 P. M.

Publicity Chairman

W. K. Calahan was among those on the streets from Plains, the past Saturday.

T. B. Wood was seen milling around on the streets Saturday.

### Harmony News

We thought the ministers that have been preaching at Harmony would have to resort to the old custom of rod-tapping to keep the church-goers awake. From the amount of interest some showed, it looked as if they had already been tapped—to sleep. But Bro. Richards held us spell-bound with a very interesting sermon on "Inheritance," Sunday morning, and each of us went home with a resolve to live better in the future.

We are proud to announce that Bro. Richards will preach again at Harmony one month from Sunday. Everyone is invited to attend services.

Bufford Hobbs was even at church for the first time in several Sundays, sporting a spiffy looking flower in his coat lapel. The big fashion plate!

A very unfortunate accident occurred in the Chamlee home this past week. Their oil stove caught fire, and they proved their skill as firemen by getting the stove outside before it damaged the house, but the stove was ruined. Fortunately, no one was burned.

Fowler Carroll is visiting relatives in Ford County this week.

Delvie Sullivan thinks her like is made up of being a wedding witness, as she accompanied another couple, Tommie Emerson and Alpine Smith, to Lovington, N. M., Saturday, where the Justice of Peace tied the matrimonial knot. Delvie had better look out! "Three times a bridesmaid, never a bride."

Lovington surely sells plenty of marriage license. There were six other couples waiting in the Clerk's office to purchase a license when Tommie bought his.

Whoopie! we'll wager some publishing company is going to sell plenty books entitled "How to Hold a Husband."

### American Legion Convention at Wellington

Members of the American Legion and Legion Auxiliary from all parts of the 18th District will gather in Wellington Saturday and Sunday, December 13-14, for the first district convention under the Hal Brennan regime. The 18th District is the largest in Texas, in area, population and membership in both the Legion and Auxiliary. Fifty-three West Texas counties are in the dis-

### Johnson News

Johnson was quite a bright spot Sunday night. We have some new Carbide lights that everyone is proud of.

Bro. Burnett preached a fine Sermon Sunday evening.

Miss Dorothy Dubose gave a 42 party Wednesday night.

A number of people enjoyed the radio program at Mr. G. R. Day's home, Friday night and Mr. J. O. Wheatley Saturday night, over Mr. Jack Dubose's radio.

Mrs. R. I. Cook's sister and husband from Clarendon spent last week-end with her.

There will be a pie supper at Johnson school house Friday night.

Miss Minnie Hazel and Luna Maud Gore spent last week-end with friends in Brownfield.

Mr. and Mrs. Dallas Patton from Gilliland spent Saturday and Sunday with Mr. Patton's parents, Mr. and Mrs. W. T. Patton.

Mr. H. L. Lee, Willie Cagle and Alva Flanagan, went to Willow Wells Monday.

We understand that A. M. Brownfield has bought the fattening pens from Harrison-McSpadden near the stock pens, and will fatten out some sheep and maybe some yearlings.

F. M. Cox was in from Plains Saturday and renewed for his Herald. Says the family likes the Herald very well.

L. E. Bigham came in this week to trade us buttermilk for the Herald and Farm News. Just suited us.

tract, the boundaries being the same as the 18th congressional district.

On Saturday evening, open house for all Legionnaires and Auxiliary members will be held at the Wellington Legion hut. On Sunday morning, a joint session starting at 10:00, banquet at noon and separate meetings of the two organizations in the afternoon.

State Commander Hal Brennan, State Adjutant Bob Whiteaker, State Auxiliary President Mrs. Carpenter, and other notable people will be present. Dr. Roy Webb, Pampa, Texas, 18th District Chairman, will preside at the Legion sessions, and Mrs. Van W. Stewart, Perryton, will have charge of the Auxiliary meetings. G. Ward Moody, Wellington, assistant district chairman, has general charge of the entertainment and program.

Tom Montgomery, of Tahoka, was some corn and maize, as he was in over this week looking after buying the dry belt this year and made no feed. The writer used to know Tom at the Herald office for a few minutes in Jones county and he called it.

### DID YOU KNOW

That eighty five percent of all ailments are caused from adverse eating and the digestive tract.

That ninety five percent of all disease can be handled successfully by Chiropractic and corrective diets.

That Thirty-five years ago there was only one Chiropractor and that one Chiropractor had only one patient. Today there are about 40,000 Chiropractors with about 30,000,000 people that are strong advocates of the Chiropractic Science. A science grows only on its merits.

Dr. Holder is very successful in his practice and gets marvelous results in Chronic conditions, when other methods fail. Many people in this territory have found this to be true in their individual cases.

### Stabilization, Not Price, Is Wanted—Legge

Chairman Legge, head of the Farm Relief Board, told the Agricultural Committee of the U. S. Senate last week that "stabilization" and not "advanced prices" for wheat and cotton, was desired and that an advance in price, at this time, would result in increased acreage and a consequence surplus.

Some farmers will read that and desire to throw Chairman Legge in the river, since increased price is the great desire of the wheat farmer and cotton farmer who are not, as a rule, motivated by the desire to have the Farm Relief Board using its power to prevent heavy acreage in future by holding the price low for the present.

But, the Southern and Western farmers who have permitted the heavy tariff for the purpose of advancing prices of manufactured products in the East, which the farmers need to buy, surely had small basis for hope of genuine price results when the program of such farm leaders as Senator Norris was turned down by Mr. Hoover and the old line Republicans who have never been genuinely friendly to the farmer.

The manufacturer, through the tariff, can sell home supplies at sufficient profit that he can unload his surplus product in world markets and still show a handsome profit upon the whole.

The Norris plan, with its "debture" process would have put the farmer upon something of a similar basis that would give the farmer a real tariff benefit and let his surplus also go, as does the factory surplus, upon world markets at whatever reduced price necessary to make sale of paid surplus.

As organized the Farm Relief Board has some forty million losses in wheat and almost as much in cotton. Then naturally with the government a buyer, Mr. Legge is not altogether unsound in policy when he declares: "Higher prices not desired so much as acreage reduction to prevent future surplus."

For the government to buy and continually buy the surplus wheat and cotton at a loss of millions, with this surplus increasing all the time, there would be nothing but bankruptcy for the government eventually, in pursuing such a policy. Hence, Mr. Legge's ideas are sound in seeking to head off future surpluses that would increase the troubles and losses of his Board, if he would support the Republican program.

The unsound feature is in counting upon high tariff Eastern Republicans to cure farm troubles heaped upon the farmer. If Republicans cease to rob the farmer for the benefit of the Eastern factory in tariffs they will naturally cease to get their big campaign funds, if not lose completely to the Democrats in the factory sections.

We are willing to grant that Mr. Legge's policy of holding down the prices of wheat and cotton to prevent overproduction is sound if he will only put the factory section in the same class by removing the tariff that gives the factory the opportunity to continue to extort from the farmer as result of this governmental aid and thus make it just.

The tariff was originally claimed for "infant industries" and now it is increased for mammoth greed and has become—largely—a strict party program of rulership by which the country has too long been ruled.—Greenville Messenger.

#### WOMEN WOULD STOP CRITICISM

The Women's Christian Temperance Union in session at Houston, Texas, appointed a committee whose work is to put a stop to the criticism directed against President Hoover. The ladies will find that they have a "man's" job on their hands.

There is only one person who can possibly put a stop to this criticism and that person is President Hoover himself. And this must be done by doing nothing worthy of censure. Of course, it is impossible for any man to please all the people, but when there is as much adverse criticism directed against any man as is found against the president there must be some just grounds for it.

And criticism cannot be killed by resolutions and by the appointment of committees. In Russia they have a way of stopping it and doing a sudden and thorough job of it. The critics are lined up against the wall and both their mistakes and their criticism are buried with them.—Lovington (N. M.) Leader.

Editor: "Well, what happened to McTavish?"

Reporter: "Some one told him he could get his pants pressed free by letting a steam-roller run over them."

Editor: "Why did that kill him?"

Reporter: "They forgot to tell him to take them off."—Boston Transcript.

"I told Tom that the average woman's clothing weighs only eight ounces."

"And what did he say?"

"He thought it was a shame they had to wear such heavy shoes."—Tit-Bits.

#### PIGS PAY \$1.80 PER BUSHEL FOR CORN

Gonzales—While B. R. Boenig is selling his corn through pigs for \$1.80 per bushel this fall other Gonzales county farmers were hauling it to the elevator for 65 cents per bushel. As a result of this and a similar demonstration by Mr. Boenig last spring in which he realized \$2.25 per bushel for corn fed to pigs, many nearby farmers have commenced feeding operations as a means of profitably marketing home-grown feed, reports J. M. Saunders, county agent.

Mr. Boenig fed corn and a portein supplement in a self-feeder to 27 pigs while they ran on sudan pas-

ture. The pigs weighed in July 1st at 47 pounds and sold out September 20th at 186 pounds for \$9.30 per hundred. They consumed 170 bushels of corn and 1665 pounds of portein supplement worth \$2.50 per hundred.

The supplement consisted of 40 pounds tankage and 40 pounds cottonseed meal mixed in a self feeder with all the corn the pigs would clean up.

Policeman (to motorist who nearly collided): "Don't you know if you should always give half of the road to a woman driver?"

Motorist: "I always do when I find out which half of the road she wants."

#### Knows His Crooked Rows Pay

Paint Rock—Terracing pays. Arthur Floyd knows it pays because he has checked and double checked the crooked rows on his Concho county farm for three years. In 1927 seven acres of this black land farm, unterraced, yielded less than one-half bale of cotton. Then came the county agent, R. W. Terry, and the seven-acre plot was terraced. With about same rainfall in 1928 the same land made two and one-half bales of cotton.

In 1929 Mr. Floyd introduced the crooked rows in more of his farm, and from 18 acres gathered six bales of cotton as compared to three bales

from 22 unterraced acres. This year, from an additional 25 acres terraced he has made six and one-half bales of cotton against three bales and 600 pounds of seed cotton from an unterraced 30-acre field.

A farmer received a crate containing some fowls. He wrote to the sender, informing him that the crate was so badly made that it had come to pieces when he was taking the hens home with him and they had all escaped, and, after much searching, he had only succeeded in finding eleven of them. In due course he received the following reply:

"You were lucky to find eleven hens, because I only sent you six."

#### THE AMAZING AGE

If "law" did what it is supposed to do, the United States would be the most moral and "crimeless" country in the world. No other nation has ever had such a volume of legislation.

Yet the newspapers sag with accounts of the doings of celebrated gangsters and "racketeers." Law enforcement officers search frantically for ways to press charges against them, but to no avail. An arrest is the signal for swift activity on the part of lawyers to show that supposed law-breaking is "within" the law.

The irony of such a situation is in-

escapable. We have thousands upon thousands of criminal laws and there is talk of asking the federal government to take a hand in subduing the criminal element in one of our gang-ridden cities! As a "crime remedy" it is often proposed to make it a crime for a perfectly honest citizen to own a revolver or pistol—while it is a rare week in which gangsters fail to "bump" someone off with machine guns.

And still we talk of passing more laws. Why not reverse the process enforce some existing laws? We do live in an amazing age!—Ex.

Bob Owens was in Rotan with home folks over the week-end.

### Pioneer Terry Rancher Died Sunday Morning

Carl G. Goodman, 43, of Plainview, died in a Fort Worth hospital Sunday morning at 2 o'clock, and was brought back to Plainview and laid to rest in the cemetery there. Mr. Goodman had been in poor health for some time, and was stricken with uremic poisoning while on the Pool & Goodman ranch in this county some two weeks ago and left immediately for Fort Worth for treatment, but he never rallied long at a time.

Besides having banking connections at Plainview, he had some valuable farms in Hale county, and was in partnership in the ranch business with Will Pool in this county, which partnership was formed some 20 years ago. During all that time, no misunderstanding or cross word ever passed between them, according to Mr. Pool, of this county. That is a mighty fine test of the qualities of a man, and his passing is a distinct blow to the entire section.

He is survived by his wife, a brother of Denver, Colo., and his step mother of Tuscola, Ill. Funeral services were held at St. Marks Episcopal church at Plainview by a former rector.

#### A Surprise

"I want a revolver—for my husband."

"Did your husband say what make of revolver?"

"No, but I don't think that matters. He doesn't even know I'm going to shoot him."

J. C. Bond is remodeling his residence on east Broadway. He is having a concrete foundation put under it, together with a new roof, and will have it cut into two apartments, or a duplex. Both apartments will be thoroughly modern in every way when completed. We understand that both apartments have already been taken.

#### ESTILL-PICKETT

Miss Thelma Estill and Mr. Fred Pickett motored to Lovington, on Tuesday, December 2, and were married. Miss Estill is the lovely daughter of Mr. and Mrs. Gus Estill who reside three miles north of town near the Harmony community.

Mr. Pickett's home is in Truce, Kansas. He has been here only a short time. The bridal couple left shortly for Truce, Kansas where they will make their home.

Cam Sears was in the city Monday trying to buy the Herald another year for 75c. We ought to charge him \$5.00.

Sam Davison, of northeast Terry, near Ropes, was down this week paying his taxes. He also dropped in to renew for his Herald.

Commissioners Court was in regular monthly session here Monday. This will likely be the last session in which Judge H. R. Winston will preside, or Mrs. Stewart will sit in, as she retires Jan. 1, and Mr. W. A. Hinson takes her place.

Jessie May, of Clovis, N. M. had the misfortune of getting his jewelry store robbed of some \$3,000 worth of jewelry and diamonds one night last week. Mr. May is a brother of Rev. E. V. May, former Baptist pastor here, and a son-in-law of Mr. and Mrs. J. C. Green, of this city.

#### Hi-School Happings

Oraline—"Taking anything for your hair fever?"

Felton—"Yes, I'm taking boxing lessons so I can wallop the first man who gives me free advise."

The Sunday school teacher was talking to her class about kindness to animals and told them how the Bible enjoined on us the mercy which a merciful man shows to his beasts.

Now, she said—"Suppose one of you saw a bad boy cutting off a cats tail, what would you say to him out of the Bible to convince him he was doing something wrong?"

Robert—"I would tell him, What God hath joined together, let no man put asunder."

Mother—"Where is your father, James?"

James Parker—"In his bedroom, ma'am, talking to his collar button."

Boyd—"What do you think of capital punishment as a crime deterrent?"

Warden—"Well, none of the men we have hung have ever been known to commit another crime."

Mrs. Diffey—"Why did you strike your little sister?"

Jack—"Well, we were playing Adam and Eve and instead of tempting me with the apple she ate it."

#### GOOD INTENTIONS, BUT POOR JUJUDMENT

The idea conceived by William Urban to bring the body of Jess Maple back to Houston and give him a soldier's burial was certainly one of mistaken judgment. Mr. Urban, however, may be excused to a certain degree, due to the fact that he is himself a disabled veteran, but who did not see overseas duty, and due to the additional fact that Maple was commanding front-page headlines in the daily papers of the state. Red-blooded men who served overseas during the World War have experienced a sense of humiliation and shame, as they witnessed the farce of giving a criminal the benefit of a soldier's funeral, and they believe that all men who have worn the uniform and rendered service have been given an effort which renders them ashamed.

In great contrast are recent pictures of the funeral of General Bliss showing the casket draped with the nation's flag being borne by men in uniform. To bury a man in the full uniform of service and drape his casket with the flag, is an honor which should only be conferred where no dishonor has stained the record.

An overweening sentimentality, and the overplaying of the news value of the last days of criminals needs to be analyzed as well as the effect these things have on the moronic mind. If a man who has hijacked and robbed and shot down two young officers of the law in the discharge of duty, is to be honored and given the spotlight of publicity, society may expect more and more crimes being committed with the hope of getting the spotlight and a lot of mushy sentimentality.—Houston Mirror.

Elder Robt. Drennon was called to Idalou Sunday afternoon to conduct the funeral of a lady, who was burned to death Saturday night at Littlefield.

The little daughter of Mr. and Mrs. A. W. Endersen was hit by an automobile in the streets here Friday but was not badly injured as luck would have it.

#### THEY WANT IN HISTORY

The adjutant of the American Legion of Texas is aghast to find that the doings of Texas in the late World War are not adequately chronicled in a text which it is proposed to put into use in Texas schools. He says the State Board of Education ought to hold open sessions before adopting texts, and hold hearings on the books presented and considered for adoption.

Of course, if we are going to have pure democracy in the conduct of our schools, he is probably right. The whole people ought to conduct the education of the whole people. The difficulty in that theory is that the whole people know precious little about education as a technical process and the sort of education that would result would be fair to middling poor, if not worse.

It is the Legion attitude, as expressed in the interview of Adjutant Robert Whiteaker, that the histories which Texas boys and girls study should have a great deal to say about the part that Texas had in the war. Well, the part that they had was doing their duty, and they did it. Some of them did pretty well, some did it supremely well and some did as little as they could. But it was not a Texas war, and relatively the Texas part in it was, we may say, something like one-twentieth of a hundredth part of the allied contribution to the contest. It was an honorable hundredth, and costly. But it is possible to dwell too much even upon such things. The history of Texas is important for its bearing upon our past, but it is more important for its influence on our future. It is possible neither to conceal glory by ignoring it nor to make greater its real worth by fiercely championing it afterward.

## Another woman stole my husband

—do I deserve pity ..... or blame?

SO...it had happened to her, too. Deserted by her husband, for another woman. She, the woman who had struggled and sacrificed. Cast aside. An object of pity and scorn...

Stephen had been a good husband. What sudden madness had made him desert his wife and his two adoring children?

"I'm through," he had cried. "I hope I never see you again." And he had left her—trembling, abandoned... "He had no right to leave me," she sobbed. But perhaps she had made the one fatal mistake that has driven countless husbands into other women's arms. Can any woman ever regain the love she lost?
