

# GRAHAM CRACKERS

—WHG

More than one-third of Farmer County's votes in the Democratic Primary came from the Friona precinct. We believe that the 650-plus vote of Friona citizens is an indication that this community is above-average in taking an interest in politics.

Only one blunder in our election reporting has been called to our attention. We referred to E. G. Phipps, candidate for commissioner, as "Glyn." He isn't. Just plain E. G.

Being editor of The Friona Star has gotten us out of practice with the mechanical or "back shop" role we have been used to playing so many years in the newspaper field.

We have always been just another "country printer," and proud of our trade. The ink is really in our veins. So we thought it would be a snap last week to help do the work in the printing department which was necessary as two of our back shop employees were on vacation.

Few people get upset about errors committed through ignorance, but stupidity is something else. That's what we credit ourselves with, because we left out one whole page of The Friona Star!

However, it's back in the paper this week, and after the razzing we took from our fellow bona-fide printers about this blunder, you may be sure that this particular boner will never happen again.

For about three weeks we have been doing some part-time research into Friona's rainfall records. Buddy Lloyd at Friona Consumers is keeping the only accurate current records we know of, and we felt he might possibly tell us how far back we could obtain them.

Because the records at Consumers go back only a few years, we attempted to trace some elsewhere in town, but have always ended up in a blind alley.

However, this past week, we have found out that the Weather Records Processing Center at Kansas City probably has the dope we are hunting. If they'll help us out, we may be able to get the records for the past 29 years.

So far as we know, no one has ever compiled statistics on Friona's rainfall over a long period of time. We think it should be done.

Friends were in to visit the Gramhams over the weekend, and they brought their kids along. That gave us a total of five little boys three years and younger underfoot.

Things went pretty well all Saturday afternoon, but when bedtime came, it began to get hectic. At 1:30 a. m. we were still trying to stick the little rascals into bed.

It seemed as though whenever we got one down, two would get up—for miscellaneous reasons.

We came to the conclusion that what Friona needs is what we need: a night watchman.

Just look around you a little. Friona is building!

We realized this Saturday when we showed off the town to some of our friends. Until a person points things out one-by-one, most of us who see the town every day don't realize how much is going on.

The summer sports season is almost at an end, but we'd like to make a suggestion that we hope is acted on by next year. We feel that it would be a wise move to have an official record keeper of all sports activity in the community. This would be a big job, and someone would have to be paid for doing it, but it is a needed service.

For example, because we are trying hard each week to get all the news in and around Friona in The Star, we certainly don't want to overlook or underplay sports. But have you ever started out to find out who won all the games in the Little League, Pony League, amateur baseball, and softball circles?

It's a pretty tough chore, we'll assure you. If you try to find out the details of the game, it reaches impossible proportions.

Now, we aren't suggesting an official recorder merely for our own benefit and convenience. We have people call the office to inquire about how games have turned out, and it isn't always possible to help them. In fact, on many occasions, we have called the people who actually sponsor the teams, and even they didn't know how things are going!

There isn't any way that a newspaper editor can apply headlines to it, but somehow, deep inside us, we feel an upsurge of vitality in Friona's downtown area within the past few weeks.

# Trades Day Participants List Swells To 68

Participation in the coming Trades Day promotion of Friona merchants swelled to unexpected proportions last week, and when the canvassing of the community's business district had ended, a total of 68 merchants had agreed to cooperate.

The trade-incentive program, which will be staged weekly, will have a "jackpot" feature, with Friona businesses contributing \$2 and \$2.75 per week.

First of the drawings is to be held Saturday afternoon, August 18. Here are the businesses which are in the program:

## Mrs. C. H. Stewart Buried at Turkey

Funeral services for Mrs. C. H. Stewart, long-time resident of Castro County and mother of Allen Stewart, were conducted August 2 at 3 p. m. at the First Baptist Church in Turkey.

Rev. Glen T. Smith, pastor, had charge of the services. He was assisted by Alva Johnson. Johnson performed the wedding ceremony for Mr. and Mrs. Stewart.

Mrs. Stewart was born November 13, 1893 at Center Point, Arkansas, but had lived in West Texas for a number of years. She moved with her husband from Castro County to Big Spring in 1943.

Survivors besides her husband include two sons, Allen of Friona, and Vernon of Stockton, Calif. Vernon is a former resident of the Black community.

Burial was in the Dreamland Cemetery at Turkey under the direction of Eudy-Seale Funeral Home.

# September 4 Set For School Bells

## Holidays, Budget Revealed

Tuesday, September 4, will officially mark the beginning of the 1956 school year, announced Superintendent Dillie Kelley this week.

The date was confirmed at a board meeting Monday night at which time work on the physical plant during the summer and projected plans for the system during the coming year, were discussed in detail.

First activity for this year will be Saturday evening, September 1, at 7 o'clock, when a meeting of faculty and school board will be held to introduce new teachers and

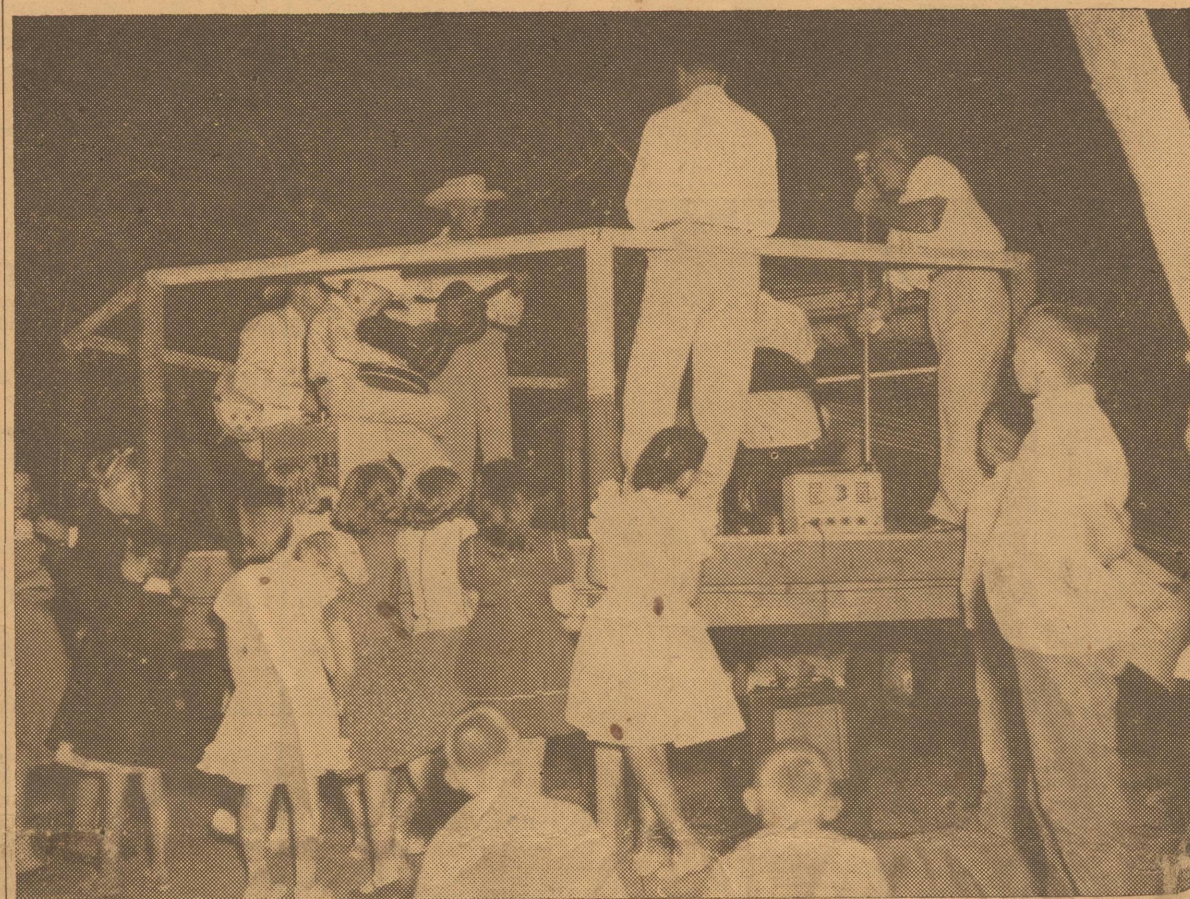

ready the kick-off of school. The meeting will be in the school cafeteria.

Then on Monday, September 3, the teachers will return to school for a day of orientation at which time they will check over their schedules, arrange rooms, and prepare for the busy days that will follow.

Buses will make the routes on Tuesday, the first day of school.

The superintendent said that no pre-school age children will be permitted to ride the buses, as a state law requires that no pupils

(Continued on Last Page)

"JAMBOREE" FUN—These local musicians entertained at a free open-air Western music concert in downtown Friona Saturday night, and drew a large crowd to the city park, where they set up. On the new band stand are Reaford Shirley and son, George Green, Delmer Shirley (with fiddle), and Don Green at the piano. Russell Massey is adjusting the microphone. Jamborees will be each Friday night, says Massey.

## Helton Is Named Night Watchman

Friona's city commissioners took action Monday night that they hoped would end their long and worrisome attempt to hire a night watchman for the city.

They approved the application of Herman Helton of Hereford, and hired him for the job at \$275 per month. Helton is to start work August 15.

Helton, a former member of the Hereford Police Department, told the city dads that he and his wife have located an apartment in Friona, and that they will move to the city.

The new watchman will work from 9 p. m. until 6 p. m., and will furnish his own car, being paid 7 cents per mile for its use. Equipment previously ordered by the city, including a radio, will be installed for his use.

Helton, who is 56, weighs 250 pounds.

Two clocks and a dozen keys are on order by the city which will be "punched" by the new city employee as a means of certifying records which will make Friona eligible for a five percent credit on the key rate used to determine fire insurance premiums.

This credit will result in an over-all saving of premiums to community fire insurance policy holders of approximately five percent. The savings will fluctuate depending on the type structure and its location, but will average out about five percent across town.

The key rate at the present time is 51 cents.

Other news important to the city was the decision by the commission to expand planning and engineering of the proposed widening and installation of curb and gutter on Fifth Street, commonly referred to as West Loop Drive.

Up until Monday night, the city had been including only that portion of the Drive in the Staley Addition to the west city limits, but the commissioners agreed that it should be extended eastward to a point where curb and gutter already is installed at Euclid Avenue.

A letter from District Highway Engineer S. C. McCarty at Lubbock several weeks ago okayed the city's hope to improve western

(Continued on last page.)

## No Baseball Game For Friona Indians

Friona's Indians, who lead the Central Plains Amateur Baseball League, didn't play their regular Sunday game. They missed the contest because of the disbandment of Dimmitt's team, which was scheduled to be their opposition.

By virtue of the surprising defeat of Bovina in the hands of Nazareth while the Indians were taking a breather, they slipped into a cinch for first place in the regular season play.

The Indians, Bovina's Bulls, and teams from Umbarger and Nazareth are expected to draw up a post-season playoff series by next week to determine the League championship.

## Fleming and Son Win Softball Title

Fleming & Son Gin of the Hub community stormed past Herring Implement Monday night in a lopsided contest, 14-0, to win the season pennant in the Friona softball circuit.

That contest was a revival of one originally scheduled for Thursday night of last week. Bad weather caused its postponement. Friday of last week, Fleming's Ginners sailed past International 15-5 to further demonstrate their strength.

It will be in the amount of \$310,000.

Official school holidays: Thanksgiving—November 22 and 23; Christmas—December 21-January 2; Easter—April 22.

Present at the meeting were Kelley, Paul Fortenberry, D. C. Herring, Cordie Potts, and Hadley Reeve.

Four new teachers have been added. One fourth grade teacher will increase that section to four. There are three new teachers in the high school, making the system one with 45 instructors for this year.

Several new courses have been offered for the fall term. They include physical education, and solid geometry and trigonometry. "Every student will be required to take physical education unless exempt because of a physical disability or because they take part in the athletic program," says the superintendent.

## Ethridge-Spring To Move Offices

Removal of the offices of Ethridge-Spring Agency is soon to be made into the location formerly occupied by the Friona Post Office, Dan Ethridge announced this week.

Arrangements have been made with T. J. Crawford, owner of the building, for "extensive" remodeling of the new location prior to the change, says Ethridge.

THIS MUST BE THE PLACE—June Floyd, Star society editor, starts to scrape off a sign on the window of what this week became the new office of The Friona Star. The office is behind the bank, and next door to Southwestern Public Service Company.

# Celebration Fever Rising Fast

## September 20-23 Picked as Dates

Excitement for Friona's 50th Anniversary Celebration picked up a head of steam at a meeting in the Friona Chamber of Commerce office Friday night. Thursday, Friday and Saturday, September 20, 21 and 22, have been selected as

the days for the big celebration. Sixteen men from the community swapped ideas at the meeting, and Wright Williams, Chamber president, handed out key committee appointments to start the ball rolling on what workers hope will be

the biggest community-wide occasion ever to be held on the Plains.

Here are the appointments: **PROGRAM COMMITTEE**—Mr. and Mrs. H. K. Kendrick, Mr. and Mrs. Carl Maurer, Mr. and Mrs. Oscar Lang, Mr. and Mrs. Dan Ethridge, and Mr. and Mrs. Dillie Kelley.

**AGRICULTURE COMMITTEE**—Steve Bavousett, chairman, and County Agent Joe Jones, J. T. Gee, Deon Awtry, and A. L. Black.

**PUBLICITY**—W. H. Graham,

Jr., chairman, and Mrs. Ralph Wilson, Mrs. Lawrence Lillard, and Frank Spring.

**PARADE COMMITTEE**—J. C. Claborn, chairman, and Andy Hurst, Joe Ferrell, Hollis Horton, and Charles Allen.

**BARBECUE COMMITTEE**—A. L. Black, chairman, and Ralph Taylor, D. C. Herring, Glenn Reeve, and John Blackburn.

Williams said that after spending a week sounding out opinions of residents of the community, he

was confident that a successful celebration could be held.

Ideas on events to be included in the three-day celebration flew thick and fast at the meeting, and were supplanted by survey cards passed out by Williams which bore additional ideas from persons on the streets.

The program committee, which will assemble the ideas into a workable program, planned to get together this week to map out initial details of the celebration, according to Kendrick.

Several ideas were mentioned

with such frequency at the meeting that they seemed assured of inclusion in the events. Those were a big barbecue, an early morning "chuck wagon" breakfast, and a parade.

"We are making every effort to have the most complete, well-rounded celebration ever attempted in Friona," said Williams. Another big planning meeting will be called in about a week or 10 days, at which time all interested persons of the community will be invited.

# THE STAR'S EDITORIAL COMMENT

## It Won't Be Here

If you are asked to contribute to the Renner Foundation movement to get a station established on the Plains, make your decision without the consideration of where the station will be located.

It is very unlikely that it will be nearer than 40 miles of Friona, and consequently, will not make any direct contribution to our community's payroll.

The Star believes that the merits of the Foundation's plans are such that support from our community is warranted. However, we felt it might be wise to point out that we shouldn't expect the location here.

## Congratulations, Merchants

If the participation in Friona's coming Trade Days isn't a shock it is, at least, a big surprise. Not even the wildest dream-

Elsewhere.....\$4 Per Yr.

Entered as second class mail matter July 31, 1925, at the post office in Friona, Texas, under the Act of March 3, 1897. Published each Thursday.

They thought that more than 50 businesses would get in the plan—and the total is almost 70!

While The Star may have some misgivings about the plan hit upon to bring people to town, we have no hesitancy acknowledging the cooperative spirit of the town's businesses in this undertaking, and congratulate them for it.

It was necessary for a number of local merchants, who are busy with affairs of their own, to take time off to get out and pound the streets and sell the plan.

That's the kind of heads-up promoting that sets a town apart from its competitors, and our hats are off to the fellows who did it.

## Blanton Butane, Inc. To Add LPG Retail

Blanton Butane, Inc., this week announced their plan to add retail facilities for LPG users at their Friona office on Highway 60.

A tank and equipment necessary to fill trucks, pickups, bottles, and other units using butane for fuel will be installed in the near future, says Mack Bainum, Blanton manager.

## What's Doin' In Friona

- Thursday, August 9
  - Friona Lion's Club Lakeview Community picnic at D. G. Hand's
  - Reeve vs. International, softball
- Friday, August 10
  - Reeve vs. Herring, Little League Jamboree, city park
- Sunday, August 12
  - 10th St. Church of Christ Gospel meeting begins
- Monday, August 13
  - Deadlines for Farm Bureau Queen entries
- Wednesday, August 15
  - Sewing workshop for Home Demonstration ladies at 2:30 p. m., in Miss Wainscott's office in Farwell.
- Thursday, August 16
  - Farm Bureau Queen Contest at Friona School auditorium

According to one agricultural expert, one pound of ammonia fertilizer, a petroleum product, will produce an extra two to two and one-half pounds of steak since this much fertilizer will double the number of cattle an acre of pasture can graze.

Involuntary muscles are those that work automatically.

The Tammany Society in New York was founded by Aaron Burr.

Smoking has been forbidden in Congress since 1871.

The dance called the cancan originated in Paris about 1830.

# Football Schedules Are Released for A, B, Grade Teams

Football schedules for varsity, "B" squad, and grade school football teams were released by Friona Schools this week. The Friona Chiefs continue in their Class A circuit this year, except for a few changes in members.

The addition of Farwell, another county team, is a notable change in the 1956 conference booking.

Friona's grade school Braves will be included in the brand new Parmer-Lamb County league, formed in January of this year.

Here are the schedules:

- FRIONA CHIEFS**
- September 14 Hart here
  - September 21 Stinnett here
  - September 28 Whiteface here
  - October 5 Dimmitt here
  - October 12 White Deer here
  - October 19 Bovina here
  - October 26 Farwell here
  - \*November 2 Sudan here
  - \*November 9 Springlake here
  - \*November 16 Morton here
- (Denotes conference game)

- FRIONA "B" TEAM**
- September 7 Lazbuddie "A" here
  - September 15 Springlake "B" here
  - September 20 Farwell "B" here
  - September 27 Muleshoe "B" here
  - October 4 Dimmitt "B" here
  - October 13 Springlake "B" here
  - October 18 Muleshoe "B" here

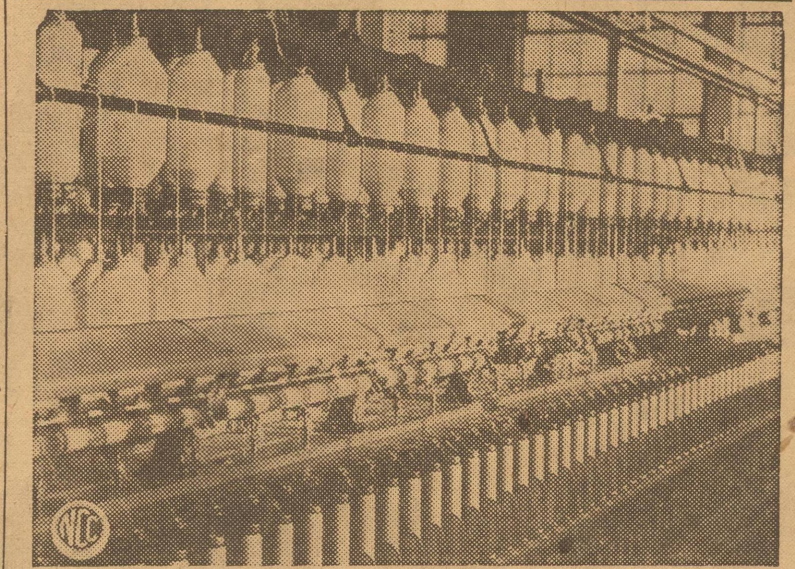

October 25 Farwell "B" here

## GRADE SCHOOL

- SEPTEMBER 17-21

## The BIBLE Says

"O Jehovah, I know the way of man is not in himself; it is not in man that walketh to direct his steps." (Jeremiah 10:23) In the days of the wickedness of the people of Israel, even before they were carried off to the Babylonian captivity, the evil way they were going was pointed out by faithful men and they were begged to return to God. It was not possible for them to devise the way in which they were to walk acceptably before God. The principle is still true today. God must direct our steps or they are taken in vain. We may be sincere in what we are doing and verily think it to be

right and acceptable to God but if he has not ordered it or approved it, it is wrong. We may be as honest as we can possibly be and as conscientious as Paul but if we do not do WHAT GOD SAYS and DO IT AS HE SAYS DO IT we are not following his word.

In order to reach heaven we must be honest, sincere, and conscientious but we may be all three in all that we do and still be lost eternally. The answer lies in our enlightening our conscience with the light of God's word and living with it as our guide in all areas of our activity.

WORSHIP WITH US AT THE SIXTH STREET CHURCH OF CHRIST Friona, Texas

# THANKS

... To the many people who voted for me. I am sorry you lost your vote but for your protection I will do a thing that I wish some citizen would have done during my term as county commissioner. I will sit in on some commissioners' court meeting, check minutes and bills, then report to you by paid advertising if you fail to receive a fair deal.

With the help and cooperation of many friends I have been able to get 21 miles of farm-to-market paving for this precinct. Eight miles were paved several years ago, giving us a total of 29 miles of farm-to-market blacktop. We are in line for from eight to fourteen miles this fall if we cooperate.

I have been able to more than double the precinct fund and at the same time buy and install more drainage horns than any commissioner in the past. Road hands are on a better salary (commissioners same as ever).

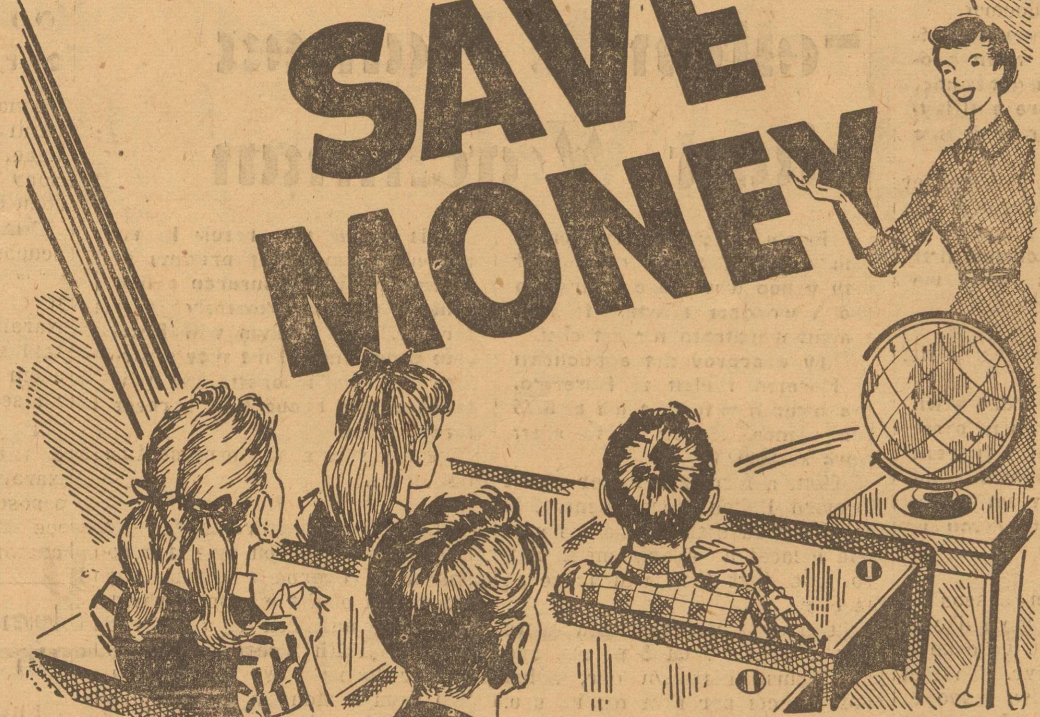

I have traded for one new machine and paid off a balance on a machine bought before I became commissioner. The cash difference in my machinery trade was \$2000.00 less than any machine traded for by the county for four years before or since. That, with the rising price of iron, is something. I have often furnished shop space, tools, and personal service on county machines at no cost to the county.

I have not voted for an increase in taxes on any individual or for lowering them on any big corporation. I do not care to brag but I am proud of the job I have done. I had thought that I could do much better next term. Therefore, I will expect and demand that whoever follows me in this office make some improvement.

Needless to say, there are many people in other precincts of this county who are more than happy to see me lose this job. Oh well, from the vote there must be quite a few in this one too!

### Hospital Auxiliary Organized in Friona

Organization of the Women's Auxiliary of the Parmer County Community Hospital was started at a meeting held in the Friona Club House on Friday, August 3.

Purpose of the Auxiliary will be to assist the hospital staff and administration. Various projects will be undertaken for the benefit of the patients and hospital.

These projects will include assisting with open house and moving into the new building; mending; furnishing reading materials and floral arrangements; and others.

Representatives from all communities in the county were invited to the meeting. A committee to draw up the constitution and by-laws and a nominating committee were appointed.

The next meeting will be August 17 at 3 p. m. at the club house. All who are interested in belonging to the Auxiliary are urged to be present for this meeting.

Those attending the organiza-

tional meeting were Mesdames Dan Ethridge, John Bengel, Sloan Osborn, Loyd Shackelford, Pete Buske, J. T. Gee, Carl Schlenker, Jimmie Baxter, Walt Mabry, H. K. Kendrick, J. G. McFarland and P. L. Spring.

### Door Trick Gives All-Season Porch

Here's an idea for screening in a porch for summer that will double as a sun room the rest of the year.

Enclose it with combination storm and screen doors made of ponderosa pine. The doors, fitted together around the open sides of the porch, eliminate much of the need for elaborate framing.

With the screens in place, the porch becomes a dining, sleeping, relaxing or play area. With the first chill days of autumn, the screens lift out and the light glass panels slide into place, making a sun room which can be used in all but the coldest months.

## Little Leaguers to End Season Play

Friona's six Little League baseball teams are in their final week of regular season play, and the team from Hub is still holding onto a league lead it has maintained through the year.

They have never met a defeat. In what was called "the upset of the season," Rockwell Lumber was beaten by Reeve Chevrolet Friday, by a score of 13 to 12. Here are game statistics as supplied by Johnny Bengel, scorekeeper:

Winning pitchers were Glen Herring and Tommy Roberts. Catcher was Charles Ray. Losing pitcher was Steve Aragon, and catcher Everett Gee.

The game by innings: 1st—Reeve got 2 hits, 1 run, 2 strike-outs, and had 1 out on base. Rockwell got 1 hit, 2 strike-outs, and also had 1 out on base.

2nd—Reeve picked up a hit, a walk, 2 runs, and 3 strike-outs. Rockwell struck back with 4 hits, a walk, 2 runs, 2 fly-outs, 1 strike-out, and left 1 man on base.

3rd—Reeve collected 3 hits, 2 runs, 2 strike-outs, and had 1 out on base. Rockwell added 3 hits, 5 walks, 5 runs, struck out 3, and left 3 on base.

4th—Reeve got a hit, 2 runs, 1 walk, and administered 3 strike-outs. Rockwell returned for 3 hits, 3 runs, 1 walk, had 1 out on base, and picked up 2 strike-outs.

5th—Reeve brought in 3 hits, 4 runs, 2 walks, had 1 out on base, and gave 2 strike-outs. The opposition got a hit, a run, 2 walks, took 2 strike-outs, and left 1 on base.

That would have left the game tied 11-11 because of the time limit, but another inning was played to settle the tie. In the final, Reeve started with 2 runs off of 1 hit and 3 walks, gave 3 strike-outs,

and left two men on base.

Rockwell picked up 1 run off of 1 hit, but had all 3 strike-outs.

Runs by innings (Reeve): 1st Charles Ray. 2nd—Glen Herring, homer by Ronald Brookfield. 3rd—Tommy Scales, homer by Mike Stephens. 4th—Glen Herring, Ronald Brookfield. 5—Fred Ferguson, Mike Stephens, Ronald Scales. 6th—McKinney, homer by Brookfield, homer by Tommy Charles Ray.

For Rockwell: 2nd—Everett Gee, homer by David Carson. 3rd—Arlen May, Danny Murphree, Cary Jackson, Danny Smith, Davis Carson. 4th—Cary Jackson, David Carson, homer by Everett Gee. 5th—Tommy Sanders. 6th—Steve Aragon.

At that point, three teams were left in a tie for second place, those being Rockwell, McCaslin, and Herring.

On Monday, Bengel met McCaslin. The latter took an easy 15-7 victory. Winning pitcher was Craig Coon, and catcher was Dale Cunningham.

Losing pitchers were Roy Dean Nazworth and Dewayne Phipps. Catching was Wayne Cason.

The summary: 1st (McCaslin) — 3 hits, 1 run, 1 strike-out, 2 out on base. Bengel — 1 hit, 2 walks, 1 run, 3 strike-outs, 2 men left on base.

2nd, McCaslin—2 hits, 1 walk, 1 fly-out, 1 strike-out, 1 out on base, one man left. Bengel—2 hits, 1 run (a homer by Bob Welch, his first of the season), 2 strike-outs, 1 out on base.

3rd, McCaslin—2 hits, 2 runs, 3 strike-outs. Bengel—2 hits, 2 strike-outs, 1 out on base, 1 man left.

4th, McCaslin—3 hits, 1 run, 1 strike-out, 2 out on base. Bengel—

1 hit, 1 out on base, 3 strike-outs. 5th, McCaslin—4 hits, 2 runs, 2 out on base, 1 strike-out. Bengel—2 hits, 1 run, 1 out on base, 2 strike-outs.

6th, McCaslin—11 hits, 1 walk, 9 runs, 1 fly-out, 1 out on base, 1 strike-out, 1 left on. Bengel—2 hits, 2 walks, 4 runs, 3 strike-outs.

Scoring for McCaslin: Floyd Reeve, 3 (one homer); Dale Cunningham, 1; J. Parker, 3 (one homer); Craig Coon, 1; Robert Houlette, 3 (2 homers); B. Deaton, 1; Ferrich, 1; W. McKeenan, 1; B. Coon, 1.

Runs for Bengel: Kent McKeenan, 1; Delmar Dement, 1; Dean Nazworth, 1; Dewayne Phipps, 1; Jim Lillard, 1; Bob Welch, 2 homers.

That ended season play for both Bengel and McCaslin, and left Hub in first place with 7 wins, no defeats, McCaslin 2nd with 6 wins, 4 losses; and Rockwell, Herring, Reeve, and Bengel trailing in that order.

William Tell was a legendary person.

### Cotton Knit Makes Big Lingerie Hit

A lingerie hit of the summer season is cotton knit.

The National Cotton Council reports that the cool, easy-to-care-for material is a favorite of both vacationers and stay-at-homes because it washes and dries with minimum of effort and needs no ironing.

One large manufacturer has designed cool summer lingerie in the same soft, smooth cotton knit used for baby clothes. The knit is printed in tiny violets or rosebuds in soft blues, pinks, or yellows. Another pattern features a vivid geometric diamond print in aqua, blue, or red.

Summer sleepwear styles in cotton knit are designed in shorty, full, or street length.

Pennyroyal is a strong-scented herb of the mint family.

The Hawaiian Islands voluntarily joined the U. S. in 1898.

Charles Reeve Honored Sunday

Charles Reeve, son of Mr. and Mrs. F. W. Reeve and former resident, was honored with a picnic dinner at the City Park Sunday.

Present for dinner were Mr. and Mrs. F. W. Reeve; Mr. and Mrs. Glenn Reeve Sr.; Max and Joe; Mr. and Mrs. Hadley Reeve, Floyd, Sharon, David and Carol; and Mr. and Mrs. Glenn E. Reeve Jr. and Glenda, all of Friona.

Also Mr. and Mrs. J. H. O'Rear, Curtis, Joyce and Gene and Miss Mary Ellen McCarter of Amarillo; Mrs. Floyd Schlenker; Mrs. Elmo Dean, Gladys and Lindy; Mr. and Mrs. Carl Schlenker, Connie, James, Floyd and Carlene, all of the Rhea Community; Mr. and Mrs. Charles Lovelace and sons of Farwell and Miss Mary Reeve of Pampa.

Charles Reeve who lives at Naugatuck, Connecticut, has been visiting relatives in Friona since Monday evening of last week.

WSCS Meets Tuesday Morning

The regular meeting of the WSCS of the First Methodist Church was held Tuesday morning at the Methodist annex. Twenty-seven members and two guests, Mrs. David Moseley and Mrs. E. H. Crandall, were present.

The program was under the direction of Mrs. J. G. McFarland. Mrs. Opal Jones led the opening prayer. The spirit of Christ for all of life was discussed by Mesdames Arthur Drake, James Boyle, Howard Ford, Ernest Anthony, Kenyth Cass and Hugh Blaylock.

Mrs. Hank Outland sang two solos. This was the last meeting of the year. The next meeting will

be in September. Hostesses were Mesdames W. M. Stewart, U. S. Aiken, James Boyle, A. A. Crow, Jean Anthony, Hank Outland, Opal Jones, Hugh Blaylock, J. T. Gee, Lucy Vestal and Ella Bradshaw.

Kinsley Past Matrons Meet

The Kinsley Past Matrons Club met Friday afternoon in the home of the Junior Past Matron, Mrs. Casey Dunn. Mrs. Bert Chitwood, vice-president, presided over the meeting. The devotional was given by Mrs. Ed Boggess.

The devotional was based on "All of The Women of the Bible" by Edith Dean. Mrs. Boggess chose the study of Ruth, the faithful daughter-in-law.

Several items of interest were discussed. Mrs. Bartlett suggested a rummage sale, and this received some discussion. The other business was tabled until the September meeting. Mrs. J. T. Guinn will have charge of the devotional for the next meeting.

Refreshments of assorted ices, iced tea and cake were served by the hostess.

Weekend in Colorado

Mr. and Mrs. Ralph Price and sons, Randy and Jeffery, spent the weekend at Colorado Springs. While there, they visited Mrs. Price's aunt and uncle, Mr. and Mrs. Bill Shackelford, and went sightseeing. They were gone from Friday until Monday.

FRIONA ENTERS ARMY

Keith Brock, son of Mr. and Mrs. G. H. Brock, reported for army duty at Fort Smith, Arkansas, Tuesday last week. Brock, who is a June graduate of Texas Tech, has been employed by the SCS at Big Spring.

Naomi Class Has Meeting

The Naomi class of the First Baptist Church met in the home of Mrs. Wesley Hardesty for a business and social meeting Friday evening. The families of the members were invited for supper.

Fried chicken, salad, pie and ice cream were served to the following: Mr. and Mrs. Bee Westbrook, Mr. and Mrs. E. R. Day, Mr. and Mrs. Clyde Hayes, Mr. and Mrs. Fred Dennis and Julia Jan, Mr. and Mrs. T. E. Woods, Mr. and Mrs. Roscoe Parr, Cordelia and Roscoe Jr., Mrs. Dewey Price, Mrs. Beatrice Stevick, Mr. and Mrs. Truett Pool, Mr. and Mrs. Wesley Hardesty and Luann. Guests were Mr. and Mrs. Spencer Hough, Patsy and Charles, and Mr. and Mrs. Lloyd Prewett.

Party At Hub Tuesday Evening

The Rene Snead barn at the Hub was the scene of a party Tuesday evening. Hosts with the Sneads were Mr. and Mrs. Steve Struve and Mr. and Mrs. Wynn Holcomb.

After a treasure hunt and several games, refreshments of hot dogs, punch and watermelon were served to the following guests: Billie Jean Barnett, Betty Barnett, Kay Struve, Carolyn Crump, Jim Carl Lillard, Reggie Hays, Margaret Mabry;

Also, Elaine, Peggy and Phyllis Holcomb, Gerald and Geneva Floyd, Janet, Gary and Jimmy Snead, Bobby Daniel, Kathryn Gollihar, Jean Wilson, Mikie Welch, Janet Buckley, and Carolyn Godfrey.

Visiting At Abernathy

Mrs. A. O. Drake and granddaughters, Erma Lou and Betty, are spending two weeks with Mrs. Frances Howard of Abernathy. Mr. and Mrs. Arthur Drake and Peggy and A. O. Drake took Mrs. Drake and the girls down Saturday afternoon.

Josh, son of Mrs. Howard and grandson of the A. O. Drakes, has gone to the West Coast for two weeks sea duty with the naval reserve.

Mrs. Lonvick was Ray Nell Foster before her marriage. While they are here, the Lonvicks will also visit in the home of Mr. and Mrs. Jake Lamb and other relatives and friends.

Return From Vacation Trip

Mr. and Mrs. Glenn Williams and son, Dale, returned home Thursday after a ten-day vacation trip to points in Arkansas and Oklahoma.

At Searcy, Arkansas, they visited in the home of Mr. and Mrs. R. E. Pruitt. Pruitt is a brother of Mrs. Williams. Then they spent several days with her parents, Mr. and Mrs. W. E. Pruitt at Duncan, Oklahoma.

Brocks Attend Family Reunion

Mr. and Mrs. G. H. Brock went to Brownwood over the weekend. While there, they visited a reunion of Brock's family.

Sandra, daughter of the Brocks, returned home with her parents. She had been visiting relatives in Houston for two weeks.

Gospel Meeting Begins Sunday

Evangelist Paul B. Keele Jr. of Big Spring, Texas, will do the preaching in a gospel meeting which begins at the Church of Christ on Tenth Street August 12.

Services will be conducted each day at 10:30 a. m. and 8:00 p. m. through Sunday August 19. J. W. Baxter states that the public is cordially invited to attend.

Visitors Here From Wichita Falls

Mrs. Lester Denny and children, Linda Gail and Jimmie, of Wichita Falls arrived Sunday for a visit in the homes of Mr. and Mrs. R. F. Talley, Mr. and Mrs. Clarence Veazey and Mr. and Mrs. C. H. Veazey.

The Denny's plan to be here one week. Mrs. Denny is the former Bobby Nell Veazey.

Guests From Archer City

Mr. and Mrs. Delvin Bratt and Jeannie spent several days last week in the home of Mr. and Mrs. Rosco Ivie and Calvin. Mrs. Bratt, who is a former resident, is Mrs. Ivie's sister.

Newcomers In Friona

Mr. and Mrs. Al Johnson and daughters are new residents in Friona. The Johnsons moved here from Amarillo where he was in the Air Force. Johnson is employed at Farmer County Implement Company and they live in Charley Jones' apartment.

Lonvicks Visit In Foster Home

Mr. and Mrs. Ed Lonvick and daughter, Mal Lynn, of Dallas, arrived in Friona Tuesday morning for a visit in the home of Mrs. Lonvick's parents, Mr. and Mrs. Wesley Foster.

Mrs. Bertie Stowers and Mrs. Ruby Barnett were Clovis shoppers Tuesday.

Mrs. Lloyd Shulk and Charles spent Friday with Mr. and Mrs. Jim McCabe at Dawn.

Frionans Go Fishing

Mr. and Mrs. Buddy Lloyd and Mr. and Mrs. Rodney Hinkle and Delwin returned from Possum Kingdom on Sunday. The group had spent several days fishing there.

Move to Farwell

Mr. and Mrs. Fred Barker Jr., residents for several years, moved to Farwell Saturday. They now live one block south of the Farwell Piggly-Wiggly store.

Mr. and Mrs. Edwin Ramey of Dimmitt spent Thursday in the home of Mr. and Mrs. O. J. Beene and sons. The Rameys are Mrs. Beene's parents.

Sunday dinner guests in the home of Mr. and Mrs. Calvin Martin were Mr. and Mrs. J. W. Baxter. Mr. and Mrs. Charley Baxter of Clovis were afternoon callers.

Roy Mack Nazworth, who makes his home with his grandparents, Mr. and Mrs. W. J. Nazworth, returned to Friona Saturday after

spending several weeks in the home of his father, William Nazworth, at Sweetwater.

Randol Allen and Donald Bradley have returned to Friona after spending several weeks in Kansas, Nebraska, South Dakota, and Wyoming working in the wheat harvest.

Proposed Constitutional Amendments

To be voted on at an election to be held on

NOVEMBER 6, 1956

HOUSE JOINT RESOLUTION NO. 23 proposing an amendment to Section 9 of Article VIII of the Constitution of Texas so as to provide that the Commissioners Court may levy whatever sums may be necessary for general fund purposes, permanent improvement fund purposes, road and bridge purposes and jury purposes so long as the total of these tax rates does not exceed Eighty Cents (80c) on the One Hundred Dollars (\$100) valuation in any one (1) year, and providing further that the Commissioners Court shall not incur any outstanding bonds or other obligations; providing for the necessary election and form of ballot, and providing for the necessary proclamations and publications.

SENATE JOINT RESOLUTION NO. 5 proposing an amendment to the Constitution of the State of Texas, amending Section 48a, Article III of the Constitution of the State of Texas, so as to authorize needed changes in and revision of the Teacher Retirement System of Texas; providing that this section shall not amend, alter, or repeal Section 63 of Article 16 of the Constitution of the State of Texas, as amended, and providing for the necessary election and form of ballot, proclamation, and publication.

SENATE JOINT RESOLUTION NO. 2 proposing an amendment to Section 49-b, Article III of the Constitution of Texas, so as to change the membership of the Veterans' Land Board; so that the total amount of bonds or obligations that may be issued by the Veterans' Land Board shall be increased to Two Hundred Million Dollars (\$200,000,000); providing for the issuance of said bonds or obligations and the conditions relating thereto, and the use of the Veterans' Land Fund; providing for an election and the issuance of a proclamation therefor.

# Do you bring home everything you've paid for?

It's a good question.

Which you can answer "yes" – if you always buy from the business people right here at home. Where you live.

Wherever you buy, part of your money goes to build and to keep up the community in which you spend. To support schools, churches, civic projects, to pay the people who work in that community, and to provide better business and job opportunities for those who live there.

When you buy in YOUR OWN town, you get about the same merchandise you'd get anywhere else – PLUS the enjoyment of these other things that your money pays for.

When you buy anywhere else, you get merchandise ONLY. And your home community is a little poorer because you carried off part of its resources. And the many things other than goods that your money pays for are left for somebody else to enjoy, while they wait for you to return and give them some more.

*It Pays to Buy  
where You Live*

Friona firms are the only business establishments in the world who are genuinely interested in the future of this community where you make YOUR living.

# Parmer Water Sands 3 Times Lubbock's

Lubbock County in January 1956 contained about 4,630,000 acre-feet of ground water available for pumping. In 1938 Lubbock County contained about 7,350,000 acre-feet of ground water available for pumping and about 2,720,000 acre-feet or 37 percent of the water was pumped from 1938 to 1956.

According to inventory taken in the fall of 1955, Parmer County's ground water storage (available for pumping) totals 13,600,000 acre-feet. This is more than any other county in the High Plains District.

All of Lubbock County, about 570,000 acres, is within the boundary of the Water District. The accompanying maps were prepared from data compiled from a study of about 1,600 logs of water wells and about 400 measurements of water levels in wells.

The volume of water remaining in the underground reservoir was determined by subtracting the volume of material unwatered since 1938 from the total volume of saturated material in 1938 and multiplying the remainder by the coefficient of storage of 15 percent.

Some of the irrigation wells in the north central part of Lubbock County draw water from crevices and solution channels in limestone strata in the Cretaceous rocks which underlie the Ogallala formation in that area. Pumping from the so-called "crevice wells" causes a decline of the water table in the Ogallala formation; therefore, it is evident that the water in the crevices and solution channels is derived from water in storage in the Ogallala formation.

The thickness of the water-bearing material in the Ogallala formation underlying any particular farm, therefore, is a practical measure for the determination of the quantity of water in storage available for pumping.

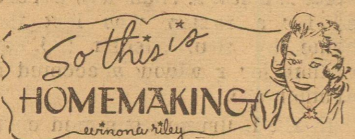

Some areas in the eastern part of Lubbock County have a hundred or more feet of water-bearing material. However, some of the irrigation wells have rather meager yields in gallons per minute. Logs of many of the wells in the eastern part of the county show that the Ogallala formation consists mainly of very fine-grained sandy clay and clay. These fine-grained materials reduce the permeability of the water-bearing strata, and are responsible for the meager yields of

the wells. The approximate quantity of underground water in storage, available for pumping, beneath an individual farm may be determined by multiplying the number of acres in the farm by the thickness of the water-bearing strata underlying the farm and then multiplying by the storage coefficient of 15 percent.

Decisions of the Supreme Court cannot be overruled.

The first residents of The White House were President and Mrs. John Adams in November, 1800.

The Friona Star can be a better newspaper if you will give us your news tips. We need them.

The reason I went to cooking school was because a certain movie star did. I saw the movie three times trying to master her technique of breaking an eggshell with one hand. At home, I broke, cooked, and served innumerable eggs. Finally, my husband rebelled.

"Your new RCA Estate range is a pretty versatile unit, isn't it?" he prompted. "Of course," I bit, "grills, bakes and barbecues all at the same time."

"Great," Bill countered, "grill, bake or barbecue something for dinner tomorrow. Anything, as long as it isn't eggs!"

Sometimes I can be as subtle as Bill. Next day I was off to cooking school where I learned to bake a cake. A real, old-fashioned pound cake that called for six eggs.

A home economist from Whirlpool-Seeger Corporation, the company that made my range, provided the recipe, the helpful hints and the moral support.

Well, it was a perfect cake. Light, evenly browned and with a wonderfully subtle lemon flavor. Of course, my balanced heat oven was a boon. No hot spots or cold corners anywhere. Everything bakes uniformly.

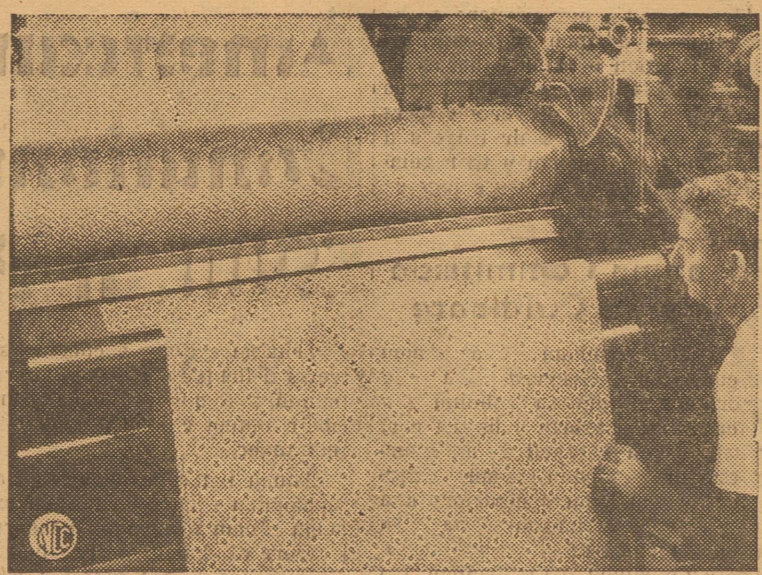

Bill loved the cake. Ate five pieces and not a word about eggs. Although I can hardly illustrate the one-handed egg-breaking technique, I can give you six practice starts with my new recipe.

### Modern Pound Cake

- 4 c. flour
- 1/4 tsp. salt
- 3 tsp. baking powder
- 1/2 c. butter
- 1/2 c. shortening
- 2 c. sugar
- 6 eggs
- 1 c. milk
- 1/2 tsp. vanilla
- 1 tsp. lemon rind, grated

Sift dry ingredients. Cream butter and shortening thoroughly. Add sugar to creamed shortening slowly and beat well. Add eggs one at a time beating well after each.

Mix milk and vanilla. Add flour mixture and milk to batter alternately, beating after each addition. Stir in grated lemon rind. Pour into greased tube pan. Bake in 325° oven for 1 1/4 hours.

Embossing calender impresses surface effects on a resin-treated cotton fabric, adding permanent texture appeal to the cloth. Textile artistry at the finishing plant has added to cotton's inherent beauty as well as making it more versatile than ever.

## Bullock, Brewer Demo Delegates

Wiley Bullock, Lazbuddie, and Loyde Brewer, Friona, will represent Parmer County at the second Democratic State Convention to be held September 11.

They were selected at the county Democratic meeting in Farwell last Saturday by 17 precinct delegates to the convention. No resolutions were adopted at the meeting, and the delegates will go un-instructed to the state meeting.

## Run-Off Absentee Voting Underway

Absentee voting for the runoff of the July Democratic Primary Election got underway Monday of this week and is to

continue through Tuesday, August 21, announces Hugh Moseley, Parmer County Clerk.

All eligible voters who cannot take part in the August 25 election may obtain ballots from the clerk's office.

Names of the candidates to appear on the ballot have been announced by G. D. Anderson, chairman of the Parmer County Democratic Committee. They are as follows:

Governor—Price Daniel, Liberty; and Ralph Yarborough, Austin.

Lt. Governor—Ben Ramsey, San Augustine.

Attorney General—Will Wilson, Dallas; and Tom Moore, Waco.

Commissioner, Precinct One, (Friona) Parmer County—E. R. Day and E. G. Phipps.

Commissioner, Precinct Three (Farwell) Parmer County—E. F. Billingsley and J. H. McDonald.

# Four Miles "Shot" On North F-M Road

The first four of approximately 12 miles of farm-to-market paving north of Friona to the Deaf Smith county line were "shot" this past week, bringing nearer the date when the community will link itself with neighboring Deaf Smith County's system.

The "shot" was made six miles north near the "Anthony Corner." But it will still be "from one and

one-half to two more weeks—depending upon the weather" before the work will be finished, estimates J. D. Barlow of Littlefield, who is the district Highway Department inspector.

On the widening of Highway 60 through Friona to four lanes, he commented that it probably will be three more weeks until that project will shape up, also. Crushed aggregate rock used in the final topping has been in short supply and delayed construction, lately, he said.

## Winners Announced At Marcum-Claborn

Winners of last week's prizes in the opening of Marcum-Claborn Furniture, were announced this week.

They are Mrs. Roy Clements, who won a portable barbecue grill; Mrs. G. B. Buske, who won a combination TV light-clock; and Mrs. C. L. Vestal Jr., who won an electric skillet.

The awards were made Saturday.

Mr. and Mrs. Jess Sparkman of Hobart, Okla., returned to their home Sunday after spending a week in the home of Mr. and Mrs. Glenn E. Reeve Sr.

Mr. and Mrs. Sonny Nazworth of Orange, Texas, were Sunday visitors in the home of Mr. and Mrs. W. J. Nazworth.

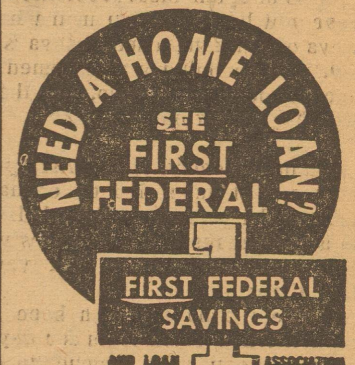

Miss Janie Beall of Albuquerque spent last week with Lavon Fleming.

## Accent Rugs Win Decorators Favor

A popular trend in home decorating is the use of lighthearted, gay cotton accent rugs in many rooms, the National Cotton Council reports.

The range of designs in the colorful, small cotton rugs is wide. Some of the novelty rugs feature fruits—a slice of pink watermelon with black, tufted seeds or a realistic, huge strawberry in its natural color.

One quaint rug appropriate for a child's room is of thickly tufted cotton in the shape of a big cat—size 32 by 42 inches—with its features outlined in pink and blue.

# Super Home Market!

Here's a BIG home market that's super in more ways than one. It's a super time saver. You freeze foods (even whole meals) in advance when you have the time. When unexpected company drops in you serve super meals in minutes... just heat and serve. And, say, looking for super health for your family? The home freezer can help you. Quick frozen foods hold their vitamins and other healthgiving properties. You capture all the freshness of fresh-picked garden vegetables by quick-freezing minutes after you've picked the cream of your crop. Wondering about saving money? A freezer can help you save on the food budget. Buy when prices are low, in quantity. Quick-freeze for quick savings. An electric home freezer... super home market.

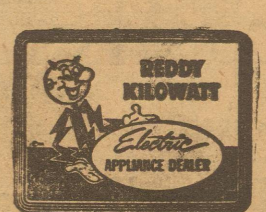

Electric home freezers come in upright (illustrated) or cabinet models.

**September 4 Set For School Opening**

(Continued From Page 1)

may ride buses for the purpose of attending private schools. "Houses and apartments that are furnished are needed for new teachers," he said. "We also need bedrooms and bedrooms with kitchen privileges for single men and single women. No unfurnished houses or apartments are needed." Ed Duke, the new bus foreman, says the fleet will be ready for operation by time school starts. Four old buses have been repaired and re-painted. The sports bus and one other will be reconditioned before the opening of school. The fleet includes 10 regular buses and two sports buses. "One of our biggest problems this year will be congestion in the hallways of the high school," says Kelley. "The building was designed to accommodate 200 pupils, and there will be approximately 250."

Pupils, teachers, and visiting parents will note a lot of changes around the premises this fall. Here is a brief resume of changes which have been wrought during vacation time:

The old band hall has been remodeled into classrooms for physical education. The agriculture lab room has been converted into a classroom for solid geometry and trigonometry.

In the field house, a new floor has been added and showers repaired.

The gym floors have been refinished as have the bleachers and dressing rooms.

In the cafeteria, floors have been repaired, broken tile replaced, and tile installed in the entrance hall.

A new building has been erected for storage, and an additional baking oven and deep fat fryer has been added, too.

In the grade school, four rooms have been repainted, and 36-inch wainscoting has been put in five upstairs rooms. "This wainscoting is a trend which is being followed all over the state," says Kelley. "It was recommended by

Butler-Kimmell, architects, and has been used in the Slaton High School and the new Denver City High School."

Floors and halls have been repainted in the grade school building, also. Playground equipment has been moved from the south of the grade school to the elementary playground. A "Jungle Gym" containing 450 feet of pipe, has been added.

The furniture in the elementary building has been refinished. New folding chairs have been purchased for the music department. Additional shelves have been built in the library.

A new projector has been bought for the school, and new furniture has been purchased for two classrooms in high school. The desks have plastic tops and coral bases. Additional shelves have been built and storage space provided in the home economics department.

New and additional blackboards and bulletin boards have been bought and installed in the grade school.

Eighty-one boxes of new textbooks have been received.

**CRACKERS—**

(Continued From Page 1)

A visiting person from a thousand miles away can tell in a few quick glances whether a town is "dead" or "alive."

Friona's merchants are cooperating in a splendid way to make the impression a favorable one, and their work already is showing results.

The traffic in town is increasing, and stands an excellent chance to continue to do so as long as retail and wholesale merchants take an interest in the affairs of the town.

The success in obtaining nearly 70 businesses to participate in the Trade's Day promotion is an example of this type of cooperation. The willingness of many to work, and work hard, for the coming 50th Anniversary Celebration is another.

The weekly "Jamboree" sessions during the evening at the city park will continue to attract people and make them think of Friona as a friendly, progressive town that is "alive."

Use left over sweet pickle juice instead of vinegar in cole slaw.

Musk, used in perfume, is obtained from the preputial sac of the Musk-deer.

**City Hires Helton As Night Watchman**

(Continued From Page 1)

Fifth Street, and now Friona will be seeking approval for the remainder of the street into the downtown area.

The commissioners said they felt that the expansion would include some of the portions of the city which need drainage the most.

If the plan is approved, assessments against property owners for curb and gutter will be made by the city, and the Highway Department likely will install their paving next spring, at no cost to the city or individuals.

The possibility of a suit against Parmer County by the City of Friona came up again at Monday night's meeting, and the commissioners discussed the subject for a few minutes.

City Clerk Roy Wilson said that word had been received from Ben Morning, Amarillo attorney, that although his research on the dispute was not complete, he felt "confident" that he could obtain judgment against the county.

The disagreement is one of longstanding, having to do with paving which the city commission ordered six years ago around Block 50 in the center of the city. The county owns the property, but would not authorize installation of the paving, and has not paid for it in the meantime.

About \$4800 is involved.

Clerk Wilson read a letter from E. T. Cummings of Canyon, city auditor, who recommended that the city "charge off" the cost of the paving, and attempt to obtain a deed to the property from the county.

Although Commissioners J. G. McFarland and J. L. Marcum and Mayor A. W. Anthony discussed the subject for a few minutes, they gave no further indication of what the city's next move in the dispute will be.

Previously, they have indicated a desire to go ahead with the suit if attorneys considered it possible for the city to win.

The city's plumbing code was talked about for a while, and the commission authorized the tightening up of enforcement on restrictions in future building.

Approval for the erection of a barbed wire fence around the cemetery was given. Cattle from neighboring farms have been attracted to the cemetery by grass now being raised by a recently installed irrigation system.

The expiration of terms for three members of the city's planning and zoning commission resulted in the re-appointment by the commission of these men. They are Oscar Baxter, Forrest Osborn, and Sloan Osborn.

Trees and shrubbery on some property within the city is becoming a problem where it restricts the view of motorists, said Clerk

Wilson to the commissioners, as he cited an ordinance providing for the correction of such hazards.

The city dads instructed Wilson to send letters to property owners who need to trim their trees and shrubbery to conform with regulations designed to insure safety on the city's streets.

**Planning Commission Interprets Ordinance**

Friona's planning and zoning commission reviewed the city ordinance regulating building setbacks from property lines the past week, which resulted in an interpretation resolving some differences which local contractors and the city commission have had over the statute.

After studying the ordinance, the commission, composed of Oscar Baxter, Joe Douglas, and Glenn Reeve, filed the following motion:

"A front yard setback is not required when the building faces the front of a lot and the front of a lot is the opposite side from the alley."

This was a clarification of the intent of an ordinance which has twice caused the appearance of Glenn Stevick, Friona contractor, at city commission meetings.

**Funeral Services For Paul Helmke**

Funeral services for Paul Helmke, former Parmer County resident, were conducted from the Rose Chapel of Gilliland Funeral Home in Hereford Saturday, July 28. Rev. H. V. Fields, pastor of Grace Gospel Church in Hereford, officiated.

Helmke, who was born in Nebraska May 12, 1898, died at his home in Hereford July 26. He was married to Mollie Renner in Farwell in 1919, and lived in Parmer County before moving to Hereford in 1951.

Pallbearers were Frank Griffith and Denver Smith of Friona, Jim Cross, R. F. Day, H. J. Hollenstein, and Ed Davis. Graveside rites and burial were in the Friona cemetery.

Immediate survivors besides his widow include a son, Paul of Hereford; a daughter, Mrs. Ruthie Longmire of Albuquerque; a brother, Fred of Friona; three sisters, Frieda Treiber and Rosie Dunahoo of Shattuck, Okla., and Teena Harbor of Huggins, Texas. Also three grandchildren.

"My husband is an efficiency expert in a large office."  
"What does an efficiency expert do?"  
"Well, if we women did it, they'd call it nagging."

**American Legion Donations Total \$900 in Past Year**

Charitable activity encompassing several fields for the past year was summed up this week by Joe Brummett, outgoing Friona Legion Post commander.

Although the benevolences of an organization such as the American Legion cannot always be measured in terms of dollars and cents, it is significant to see that the men of the Post dug down for a total of \$916.78 for good deeds the past year.

A breakdown of this figure indicates that the Legion contributed \$25 to a needy family, and picked up the tab for \$10.26 worth of groceries and \$12 worth of gas for persons in need.

Their March of Dimes contributions totaled \$177, and they made a cash donation of \$13 to the new Parmer County Community Hospital building. Also at the hospital they furnished a room at a cost of \$118, and donated \$50 to last year's Eastern Seaboard flood disasters.

Christmas sacks for 1,800 community children cost the Legionnaires \$284.61, and donations to the Veterans Hospital in Amarillo came to \$43. Flowers at veterans' funerals accounted for \$41.25.

A dunking board built by the Post cost \$47.66, and the fund for Boys' State ran \$55. A chair was purchased for a family who lost their home by fire, costing \$30, and clothes for a widow accounted for another \$30.

In all, Brummett summed up the report by saying that he felt it significant to see what an important part in charitable activities the Legion has played in the community in the past year.

Equipment of The Star, though outmoded and not presently in use, will continue to be housed in the Priboth building across the street from Marcum & Claborn Furniture, the paper's location for many years.

Last-minute moving details were being held up pending moving the telephone to the new office, but Graham said he hoped that by time the paper had been mailed the change would be complete.

**RHEUMATIC VICTIM THROWS AWAY CANE**

Thanks to AR-PAN-EX Tablets

"I have had terrible pains in my knees for over two years and couldn't walk without a cane," writes Mrs. Mary Creamer, St. Louis, Mo., "About two months ago a friend suggested AR-PAN-EX Tablets. I took a bottle and the pains left my legs and by the time I finished my third bottle I was walking without any pains at all."

The big reason why AR-PAN-EX works best, is because it contains seven special ingredients — works seven ways at once — speeds long-lasting relief to chronic deep-seated agony (increases energy and resistance) and tones system. Sensational new formula of a prominent Eastern Scientist, scientifically "film-coated" to prevent useless, distressing action in the stomach. "Film-coating" dissolves in the small intestine where all pain-relieving medicine is quickly released into the bloodstream — speeds fullest possible relief.

Positively Nothing Like AR-PAN-EX  
Thousands of men and women suffering from crippling torture of deep-seated rheumatic, arthritic pains get surer, faster, relief, by taking AR-PAN-EX Tablets. Be guided by them. If your druggist is out of AR-PAN-EX he will be glad to order it for you.

**FRIONA**

With June

Isn't the new post office nice? Think everyone in Friona is proud of it and feel that they should be. Getting the Friona Star mailing done is much easier now. All we have to do now is to pull up to the dock in the rear, load the papers into a cart and guide the cart down the ramp into the post office. Sure makes it handy.

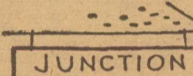

Besides the feeling of pride everyone has concerning the new building, more laughs were heard inside last week than we had ever heard in any post office. Every time we stopped to pick up the mail someone was having difficulty getting a box opened. Several decided there was something wrong with the combination, then found out they were trying to open the wrong box.

There was also some competition. Each person was anxious to learn to run the combination without looking at his card. When this was accomplished, it produced a feeling of satisfaction and customers began to feel at home. Going to the post office this week, will

It's a dear bargain when you carry automobile insurance in a company that isn't licensed in every state in the country and that can't serve you wherever you go.

*We have a hunch you'd rather*  
**BUY FROM AN AGENT**

who places your insurance in companies that have facilities all over the country so that you can have "home town" treatment no matter where you may be.

*That's how this Agency*  
conducts its business.

**ETHRIDGE-SPRING AGENCY**

FRANK A. SPRING  
BILL STEWART

not be nearly as much fun as it was last week.

We also liked the spirit of helpfulness we observed when everyone was trying to learn to work the combinations. When anyone had difficulty, a neighbor always offered assistance and the two working together never failed to open the stubborn boxes.

OUR CONGRATULATIONS to the staff, Mr. McLellan, Orma Flippen, and LaVerne Burrow, on your new place of business.

The new grandstand which was constructed in the City Park last week was put to use Saturday night. There was a large crowd out to listen to the music produced by George and Don Green, Delmer, Reaford and Bobby Shirley. Gwendolyn Green sang several songs which were well received.

In spite of the mosquitoes, a lot of people were sitting out in the open listening. Parking space was hard to find in the range of the loud speaker. We don't know whose idea it was, but do know that a lot of people enjoyed the performance.

To those of you who were not there, you missed an opportunity to see and visit with your friends and neighbors while you listened to good western music. The next similar program will be Friday night of this week. Each Friday night thereafter plans are for there to be local amateur performers in the grandstand.

One of our subscribers from Connecticut was a visitor in our office one morning last week. Many of you probably know Charles Reeve. We had never had the pleasure of meeting him until last week. Surely did enjoy having him visit us and learned a lot of things about the northeastern section of the United States that we had never known before.

Reeve, who is the son of Mr. and Mrs. F. W. Reeve, is employed in the boot and shoe division of one of the nation's largest rubber manufacturer's plants. He is a native of Friona, but has been away for about 15 years.

Here are two expressions that we rather like. Maybe you will enjoy them, too:

Some people are like buttons, always popping off at the wrong time. (We wonder if there is any right time for popping off.)

A life makes a pretty worthless package if it is all wrapped up in itself.

If anyone wonders why Mrs. Lucy Welch seems especially happy this week, we think we know. For the first time in several years, she has had all her children and grandchildren home at the same

time. A son-in-law who lives in Philadelphia, one in Austin and one in Midland were unable to come to Friona, but all the rest of her family has been here.

Just this morning we accepted a new job. The local secretary of the American Red Cross has moved away, and we have been asked to take her place. Have always wondered how it would be to pay bills with a check book without wondering where the money was coming from. Surely paying bills will be a pleasure when someone has responsibility for contracting them, then authorizes you to pay them.

**Friionans Return From California**

Six Friionans left Friday of last week for San Diego, California, to visit the six Friona boys who enlisted in the Navy in a group in June. They returned home Tuesday.

Mrs. Audrey Skinner and Sandra, Mrs. Cleola Kirk and Kay, Mrs. Ivy Petty, and Mrs. Lois Dennis spent Saturday and Sunday visiting with Bill Dennis, Charles Kirk, Delmer Renner, Jerry Houlette, Dick Morrison, and Donald Petty.

**Ceremony Read In Kansas**

Mary Sudderth, co-owner of Mary's Cafe in Friona, and E. H. Pilgrim of Lubbock were married July 20. The ceremony was read in Fredonia, Kansas. Pilgrim is employed by Fanning Construction Company of Lubbock. Both Mr. and Mrs. Fanning will continue with their present work.

**Martins Return Home Tuesday**

Mr. and Mrs. Calvin Martin returned to Friona Tuesday after spending two weeks visiting relatives in Colorado and South Dakota. First, they visited Mr. and Mrs. Eugene Nidey, Sandra, and Brenda at Campo, Colo.

The Nideys accompanied them to Stamford, Colorado, where they were guests in the home of Mr. and Mrs. Larry Martin and children. The entire group then went to Pierre, South Dakota, where they visited Mr. and Mrs. Miles Robbins and Phyllis, Mr. and Mrs. Bill Baxter, Mr. and Mrs. Marvin Massey and children, and Mr. and Mrs. Darrell Robbins and sons.

On the return trip, they visited Mr. and Mrs. Fred Weatherly and Mr. and Mrs. Calvin Adams at Denver. Then at Rye, Colo., they visited in the home of Mr. and Mrs. Charley Baxter.

The Baxters, Martins, Masseys and Robbinses are all former residents of Friona.

**Missionary Circle Meet Tuesday**

The United Pentecostal Missionary Society met Tuesday afternoon in the home of Mrs. Kenneth Houlette. The devotional, which was a lesson on faith, was given by the hostess. She also read two scriptures from the book of Luke.

Refreshments of sandwiches, cake, whipped cream and iced tea were served to the following: Mesdames W. C. McKeehan, Roy Lee Jones, Frank Griffith, J. B. Buske, Lawanna, Houlette, Mary Ruth Riley, and Joyce Houlette.

Recent visitors in the home of Mrs. Florence Buske, Mr. and Mrs. G. B. Buske, Mr. and Mrs. J. B. Buske and Mr. and Mrs. J. F. Buske were Mr. and Mrs. M. W. Webb of Central Pine, Oregon.

The Webbs left Monday for their home and were accompanied by Darrell Buske, son of Mr. and Mrs. J. B. Buske. Darrell plans to spend a month in Oregon.

**Girl Scout Leaders Meet**

Nine women who are interested in Girl Scouting in Friona met in the home of Deke Kendrick Wednesday morning. The purpose of the meeting was to plan the day camp

which will be in the city park August 21, 22 and 23.

The Senior Scouts will assist with the program for the day camp. Morning sessions will begin at 8:30 and end at 11 Tuesday and Wednesday and the Thursday session will begin at 6:30 p. m. and be dismissed at 9.

The last session will be a camp-fire session.

Those present for the meeting were Mesdames Russell O'Brian, J. G. McFarland, Frank Spring, Ben Jordan, Ralph Wilson, Vernon Roberts, Jim McLean, and S. V. Chitwood.

**Overnight Guests**

Mr. and Mrs. B. C. Collier and children from Oklahoma City spent Tuesday night as guests in the home of Mr. and Mrs. David Moseley.

**Sunday Dinner Guests in Green Home**

Mr. and Mrs. Reaford Shirley and Bobby were Sunday dinner guests of Mr. and Mrs. George Green, Gwen, and Rita.

In the afternoon, the Greens, Shirleys, Mr. and Mrs. Don Green and Glen, Donald Bradley, and Mr.

and Mrs. D. T. Shirley, all of Friona, and Mr. and Mrs. George Brewer of Wellington went to Clovis.

Andrew Jackson's home was called "The Hermitage."

Confucius was known to his disciples as Kung.

**MS Club Establishes Miller Loan Fund**

A \$300 loan fund, named in honor of R. B. Miller, Jr., son of Mr. and Mrs. Ralph B. Miller, has been established by the Modern Study Club of Friona. Purpose of the loan fund is to assist Friona youth to complete their higher education.

Loans will be made for college, nurse's training, business school or beauty courses.

After completing a semester or its equivalent in college or other institution of higher learning, any Friona youth will be eligible to apply for a loan. A low interest rate will be charged.

Those interested in applying for a loan are to contact any member of the R. B. Miller Jr. loan fund committee. Committee members are Mesdames Wright Williams, John Blackburn, H. K. Kendrick and J. T. Gee. Mrs. Gee is the committee chairwoman.

**Sunbeams Meet Thursday Afternoon**

The pre-school age Sunbeams of the Golden Light group met Tuesday afternoon at 3 p. m. in the First Baptist Church.

Plans are being made for an August Christmas party to be held August 14. Each child will bring one gift from the following list: combs, toothbrushes, toothpaste, toys, books, school supplies, hair ribbons, wash cloths, towels, tablets and pencils.

These gifts will be sent to Mrs. Marvin Sorrells at Sells, Ariz., to be used at Christmas time for the Navajo Indian children.

After the worship service Tuesday, refreshments were served to Kathleen Sheehan and her cousin, Charles, Andrea Kay Wilson, Philip and Wade Coker, Bob Bailes, Tommy Mars, Becky Coffey and the sponsors, Mrs. Evert Bailes and Mrs. Bob Coker.

**All Day Training Session Well Attended**

The all-day training session for parents and teachers interested in teaching children, which was held at the Sixth Street Church of Christ Monday, was well attended, says M. B. McKinney, minister.

About 65 adults were present. Visitors came from Fort Sumner, Portales, Melrose, Adrian, Bula, Dimmitt, Hereford, and Lazbuddie. Mrs. Ernest McGee of Hereford outlined a program designed for more effective teaching.

**Moseleys Visit At Artesia**

Mr. and Mrs. David Moseley returned home Tuesday after spending the weekend with a nephew, R. D. Collier and his family, at Artesia. Mrs. Carrie Collier, a former Friona resident, was also a guest in the home of her son.

On the return trip, the Moseleys were luncheon guests of a niece, Marie Cooper, at Roswell.

**A Long Move For Such a Short Stay**

Rev. and Mrs. W. C. Wade are residents of Friona again this week. Week before last the Wades packed up bag and baggage and moved to Floydada. Then last week, they moved back to Friona.

Since moving seems to be part

of a minister's life, the move to Floydada was probably a routine affair. However, the moving back was probably unusual.

One of the big problems that confronts every family who moves is the one of fitting curtains and drapes from the old home to the new one. At least that was not a problem of the Wades.

**Community Party At John Renners**

Fried chicken with all the trimmings, ice cream and cake were served at the Hub community party Thursday evening. The party was sponsored by members of the Hub Home Demonstration Club and was held in John Renner's barn.

Those attending were the Floyd Duttons, John Hands, Jack Shirleys, Paul Daniels, Rene Sneads, Gene Ellises, Dean Bingham, T. I. Burselons, Leo Ruzickas, Wes Longs, Ralph Taylors, and John Thomases.

Also present were the Ed Walters, John Renners, Joe A Walters, and Buddy Bingham.

**George Green Honored Tuesday**

Mr. and Mrs. Reaford Shirley honored George Green with a birthday party in their home Tuesday evening. After supper, the guests spent the evening visiting.

Those present were Mr. and Mrs. George Green, Gwen and Rita; Mr. and Mrs. Don Green and Glen, Donald Bradley of Melrose, and Ronnie Green of Sunray. Birthday cake and ice cream were served to the guests.

**July Fines Total \$248.40 in Court**

Fines levied in eight cases in Justice of the Peace Walter Loveless' Court in July totaled \$248.40, he reported this week. The judge reported that this was the lightest month he had had in a long time.

Other statistics reported from Judge Loveless' office indicated that 16 births were recorded in Friona in July, but no deaths occurred.

**2 PERMITS ISSUED**

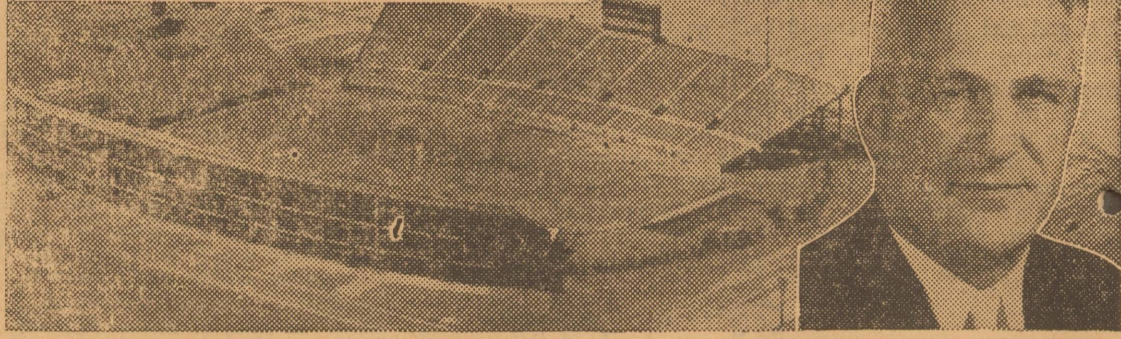

Two building permits were issued by the City of Friona this week. Paul Aragon will move in a 2-room house and convert to 3-bedroom, at 504 W. 3rd Street. Material cost is estimated at \$3500. Blanton Butane, Inc., was issued a permit for a butane service station and bottle filler, and a radio tower.

**Weekend At Tres Ritos**

Mr. and Mrs. Sam Rule and Patsy, Rev. and Mrs. W. C. McKeehan, Steve and Kent, and Mr. and Mrs. D. P. Mann, all of Friona, spent the weekend at Tres Ritos and Taos.

**1956 Texas Tech Schedule**

Sept. 22—Texas Western	at Lubbock (N)
Sept. 29—Baylor	at Waco
Oct. 6—Texas A&M	at Dallas (N)
Oct. 13—West Texas	at Lubbock (N)
Oct. 27—Arizona	at Tucson (N)
Nov. 3—Oklahoma A&M	at Lubbock (HC)
Nov. 10—Texas Christian	at Lubbock
Nov. 17—Tulsa	at Tulsa
Nov. 24—Houston	at Lubbock
Dec. 1—Hardin-Simmons	at Abilene

**SOUTHWEST CONFERENCE MEMBERSHIP** has been attained by Texas Tech. Although the Red Raiders will not compete for the grid title until 1960 or for other championships until 1957-58, the big (8,000 enrollment) West Texas school at Lubbock will meet three Southwest Conference foes on this fall's rugged schedule. Above are Tech's Jones Stadium, capacity 28,000, scheduled for expansion, and the Lubbock Municipal Auditorium-Coliseum, which seats 10,000 for basketball. Pictured also is DeWitt Weaver, athletic director and head football coach, who in five seasons piloted Tech to four Border Conference titles and a Border record of 19 wins, one loss, and two ties.

**LIONS TO MEET THURSDAY**

The Friona Lion's Club will hold its regular meeting Thursday night. The program will be under the direction of J. L. Marcum.

**GAME IS CANCELLED**

The Benger vs. Hub Little League baseball game scheduled Thursday night of last week was cancelled due to rain. That marked

the second attempt to get the two teams together for the game.

The State Penitentiary at Huntsville, Texas, was built in 1849.

**HANDLE WITH CARE!**

**DAMAGE TO HANDS CAN BE AVOIDED**

DO WEAR COTTON OR CANVAS WORK GLOVES WHEN RE-ARRANGING THE FREEZER OR HANDLING DRY ICE.

DO USE LONG HANDLED TONGS, OR PERFORATED SERVING SPOONS TO LIFT VEGETABLES FROM BOILING WATER.

DO PROTECT HANDS DURING ROUGH CHORES SUCH AS PAINTING OR GARDENING. TRUSHAY LOTION, APPLIED BEFOREHAND, MAKES PAINT AND DIRT EASIER TO REMOVE.

DON'T USE A KNIFE AS A JACK OPENER—SPECIAL GADGETS ARE AVAILABLE.

DON'T USE RAZOR BLADES WITHOUT A SAFETY HANDLE.

**All Day Training Session Well Attended**

The all-day training session for parents and teachers interested in teaching children, which was held at the Sixth Street Church of Christ Monday, was well attended, says M. B. McKinney, minister.

About 65 adults were present. Visitors came from Fort Sumner, Portales, Melrose, Adrian, Bula, Dimmitt, Hereford, and Lazbuddie. Mrs. Ernest McGee of Hereford outlined a program designed for more effective teaching.

**Moseleys Visit At Artesia**

Mr. and Mrs. David Moseley returned home Tuesday after spending the weekend with a nephew, R. D. Collier and his family, at Artesia. Mrs. Carrie Collier, a former Friona resident, was also a guest in the home of her son.

On the return trip, the Moseleys were luncheon guests of a niece, Marie Cooper, at Roswell.

**A Long Move For Such a Short Stay**

Rev. and Mrs. W. C. Wade are residents of Friona again this week. Week before last the Wades packed up bag and baggage and moved to Floydada. Then last week, they moved back to Friona.

Since moving seems to be part

**KEEP ON THE MOVE**

## Cotton Is Early-- Growers Have Hope For Good Yields

A survey of the cotton crop picture in the Parmer County area this week revealed conditions are looking good to excellent in most cases. As a whole, this is the earliest cotton crop the area has managed in recent years.

County Agent Joe Jones, after checking conditions, reported that although the picture is a pleasant one at the present time, there still are many factors to be considered before the crop will be "in the bag."

"Farmers should begin bearing down now to insure top quality cotton this fall," he said, and emphasized, "The ginners won't be able to deliver better cotton than the farmer takes to him, no matter how good the ginning equipment may be."

This year, owing to the early start of the crop, the possibilities for advantageous use of defoliant are greater than has been true in prior harvest seasons, believes the agent.

De-leaving the crop with chemicals in order that mechanical harvesting can be accomplished may result in farmers being able to deliver cotton with quality this year comparable to hand-pulled cotton.

There are three main things which cotton growers need to keep their eyes peeled for between now and the time the bolls begin to open, believes Jones. Those are:

1. Watch for the appearance of cotton bollworms, which can result not only in the knocking off of part of the crop, but the spotting and down-grading of additional cotton.
2. Stop irrigation early enough to insure that the cotton plants will have time to fully mature before the expected freezing date.
3. Gather the cotton when dry and fluffy—don't tramp it into the trailer.

\*\*\*\*  
"Last year served as a grim reminder of what can happen when farmers try to gamble with West

Texas weather," said Jones. "Sooner or later, all find out that it is costly to try to outguess Mother Nature."

For that reason, the agent suggests that farmers lay off their watering around the middle of August, and look on August 20 as being the latest practical date for irrigation.

Late freezes of 1953 and 1954 caused farmers to believe that it is profitable to water into September. Farmers who did quit watering early looked at their neighbors who may have watered late, and decided they had made a misjudgement.

However, the law of averages more than caught up with many last fall, when the October 5 killing freeze caught considerable cotton in a green, sappy condition, resulting in the loss of thousands of dollars of what otherwise would have been good fiber.

"Gambling by watering late can't pay off, because there isn't enough at stake in extra cotton," believes Jones. "The cotton that will be put on after the last irrigation would have time to make, but in most cases because the plants are already loaded, it will be 'thrown off.'"

On defoliant, they should be applied at least 35 days after the period of maximum flower load. This permits maximum staple length development.

Another way to time the application would be 30 days after cotton quits making "cut out" or when the youngest bolls expected to make cotton are 30 days old.

Application should be made two to three weeks prior to intended picking. When 50 percent or more of the bolls are open, it is safe for most defoliant to be applied.

These dates depend, naturally, on the stage of maturity of the cotton, but normally may be expected to be around the last of September into the early part of October, says the county agent.

### THE H. D. AGENT'S CORNER

Jimmie Lou Wainscott

Have you hung new or freshly laundered white nylon curtains to discover a short time later that they look grayish? Does your plastic upholstery seem to be a constant dust catcher?

If so, here's one reason. Extension home management specialists say friction causes static electricity in synthetic fibers. This charge is slightly negative and dust has a positive charge. Thus, dust that is stirred up in the room, is attracted to them, just as iron is to a magnet.

Most manufacturers are solving this problem by using a permanent anti-static finish. But if you have some nylon curtains or plastics without this special finish, you can eliminate their dust-catching habits.

Simply add a few drops of vinegar to the rinse water when washing synthetic curtains or plastics. The vinegar acts as an anti-static solution and eliminates the attraction for dust.

\*\*\*\*  
Most every cook gets caught without a certain ingredient at one time or another. With proper know-how you can make some quick substitutions. Here are some equivalents which may help you out of a difficulty sometime.

For 1 cup butter or margarine, use ¾ cup lard, or ¾ cup oil, or 1 cup hydrogenated fat. Add about ½ teaspoon salt with each, if desired.

For 1 square (ounce) chocolate, substitute 3 or 4 tablespoons cocoa plus ½ tablespoon fat.

You may use 2 egg yolks instead of 1 whole egg for thickening or baking.

In baking, if recipe calls for sweet milk and baking powder, use an equal amount of sour milk plus ½ teaspoon soda per cup. Each half teaspoon soda with 1 cup sour milk takes the place of 2 teaspoons baking powder and 1 cup sweet milk.

If recipe calls for sour milk in baking and you have only sweet milk, add 1 tablespoon vinegar, or 1 tablespoon lemon juice, or 1½ teaspoons cream of tartar to 1 cup sweet milk.

For 1 cup cake flour for baking, substitute ¾ cup all-purpose flour. One tablespoon granulated tapioca or ½ tablespoon cornstarch is equivalent to 1 tablespoon flour when used for thickening.

In baking bread, for 1 cup all-purpose flour, you may substitute up to ½ cup bran, or whole wheat flour, or corn meal plus enough all-purpose flour to fill cup.

## Whitfield Resigns As ASC Manager

Jim Whitfield, manager of the Parmer County ASC office since last fall, resigned August 1 and returned to Silvertown to take the same position at Briscoe County. Whitfield was ASC manager at Silvertown prior to coming to Parmer County.

Prentice Mills, office manager trainee at the Parmer County office, is presently acting manager until a replacement is hired by the county ASC committee.

Applications for the position will be taken for 10 days by the committee. Qualifications for a manager are that he have a farm and business administrative background, Mills says. He must also have at least a year in agriculture, either education or past experience.

The county committee will take applications through August 10, before hiring a replacement. After a new manager is hired, he must also be approved by the state and district committees, according to Mills.

Members of the Parmer County Committee are Joe Magness, chairman, Roy Euler and Jack Smith.

## Hal Mayfield To M. C. Contest

Hal Mayfield, assistant farm editor of KGNC, will act as master of ceremonies at the Farm Bureau queen contest in the Friona School auditorium Thursday night, August 16 at 8:30.

Glenda Rickerd, office secretary, who is directing plans for the contest, said that about six girls were expected to be entered this year. Deadline for submitting entries is Monday noon, August 13.

Entries reported Monday morning were Jeannette Hughes, sponsored by Farwell Hardware and Beverly Roberts, sponsored by Bovina Cafe.

Winner in the county contest will receive a check for \$100 which may be used for formal outfitting to be worn in the district contest in Lubbock which will be held in September. Other entries will receive token awards.

The district winner will have an expense-paid trip to the state convention in Houston in November, and the state winner will be allowed \$500 expenses for herself and matron to attend the National Convention in Miami early in December.

Judges for the county contest will be from other counties, and will be acquainted with none of the entrants, said Mrs. Rickerd.

Entertainment will be provided Thursday night by the Keyboard Club, sponsored by Eva Miller. Don Lewis will sing a solo. Anyone desiring to enter a girl before Monday noon may call at the office in Friona, or call 3521, Friona, collect, said Mrs. Rickerd. A \$5 entry fee is charged to defray expenses of the contest.

## SOIL CONSERVATION DISTRICT NEWS

During the Parmer County SCD supervisors' meeting held in July it was decided that September 16-22 is to be Soil Conservation District Week in Parmer County. The Annual SCD banquet is to be held Thursday night, September 20, 1956. At this banquet the farmer who is selected as the outstanding conservation farmer will be recognized. Make plans now to attend this banquet. Circle September 20 on your calendar now.

More about the conservation of our irrigation water:

Tail water is not the only loss of water. Many farmers have rows that are too long. In order to get the water out to the lower end of the rows, it has to stay on the upper end longer than necessary. The results are that the upper end is wet deeper than the roots will go. All water that goes deeper than the root zone is wasted.

Many fields have a good crop at the upper and lower ends with a poor crop in the middle. The poor crop in the middle is probably due to lack of moisture. More than likely, had the water been used properly; there would be a uniform crop throughout the field. In other words, enough water is being wasted at the upper and lower ends of the field to properly irrigate the middle.

There are many types of systems that can be used to conserve our underground water. A few methods are proper length of rows, level rows, to prevent loss of rain water and to get even distribution of irrigation water, watering when needed, and applying the amount of water needed.

If you are interested in analyzing your irrigation system, the Soil Conservation Service will be glad to go over your system and discuss with you the good and bad points.

## NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Farm Bureau activities will be speeded up from now until the end of the year. The queen contest next Thursday night will begin the series of public meetings from which your directors and committees obtain your ideas for local, state and national farm improvement legislation and other action.

In the near future, the resolutions committee will meet to assimilate suggestions already picked up from farmers through the year. These will be formulated into suggested resolutions which every qualified voter in your county Farm Bureau will be urged to discuss pro and con at an open forum type meeting. Suggested corrections will be made, and then late in October, members will vote on the final draft of such resolutions.

There will also be an opportunity for the person who prefers, to make his resolution on the floor, for consideration of the membership. This process is what makes Farm Bureau the true voice of agriculture. We would like to urge you now, to watch the agricultural

section of county newspapers for announcements of any meetings that may affect future years of farming operations.

A banquet meeting in the Bovina Restaurant last Tuesday night, attended by directors, committee members, and their wives, was one at which ways and means of getting all farmers to say what they think were discussed. Millard Shivers, State Organization Director, was the speaker.

Since you have been consistently asked to attend any or all directors meetings, which are held regularly on the first Monday night of each month, in the Friona office, we are sure your directors will not be accused of pushing their ideas with your backing as a member, unless they believe you approve.

It seems that our local officials are always in demand for other jobs of service to the citizens. We congratulate our president, Gilbert Kaltwasser, upon his appointment and approval as a member of the FHA committee. We can assure you that he will be an active and conscientious worker at that, too.

We were pleased to have as a visitor last week, Charles Reeve, with whom we started and finished school in Friona. Mrs. Pauline Lovren, office secretary of Deaf Smith County, also visited our office one afternoon the past week to compare filing methods with Mrs. Rickerd.

**SAFE - SOUND - SECURE**

"The Place Where Most People Trade"

Wednesday, August 8, 1956 Friona, Texas

Would you like to have a 1956 convention handbook, the kind Uncle Jay of KGNC is offering if you will send him 10 cents to cover the cost of mailing? If you will stop by the Parmer County Implement Company, we will give you one. These booklets give you the facts you need to understand the meaning of this year's conventions.

They also give you facts about the presidents, the presidency, the vice-presidency, and the fascinating story of past conventions. Get your booklet, courtesy the Parmer County Implement Company, and keep it near your television set or your radio. Consult it often and score your own record of the big events in Chicago and San Francisco.

Byron-Jackson Pumps have been tried and tested. For more water and cheaper operation try a Byron-Jackson pump. Why not let us give you an estimate on your new well job?

Town and Country Bridge Club met at the Hollis Horton home. High score went to Juanda Jerrell and low to Frank Carson. Guests were Mr. and Mrs. Tom Caldwell.

—P C I C N—

Prepare for cotton harvest. IHC cotton strippers do a better job on all types of cotton. Cleaner fields and better staple.

—P C I C N—

Larry Johnson is the eight-year-old son of the Truitt Johnsons and is a big help to his Dad with the farm work. Larry has been helping his Dad set the irrigation tubes and insisting that he is big enough to do it all by himself. Truitt kept telling him, "O. K. son, some day you can set all the tubes all by yourself."

Sunday the Johnsons had company from Pampa and everybody slept a little late. When the families got up they found that Larry and his company, who is seven years old, had started the pickup and driven to the well. The seven-year-old, who had never driven before, drove the pickup along the ditch and Larry set all the tubes and in the right places too. Which goes to prove that everybody should sleep late on Sunday but not too late.

—P C I C N—

We hope you will come by the Parmer County Implement Company soon and meet our new parts man, Al Johnson. Al is from Tulsa and received his discharge from the air force only last month. He was stationed in Amarillo. Al is married and has three daughters. They live at 1305 North Main.

How to join the Coronary Thrombosis (heart disease) Club! This Club is the most popular in America today. It takes very little red tape to become a member. Simply obey the following rules:

1. Eat your lunch in a hurry or just grab a quickie.
2. Don't take any vacations—you don't need them.
3. Go to the store or office evenings and Sundays.
4. Take your work home evenings and week-ends and review your bills and your troubles at home.
5. Regard fishing, bowling, playing cards, gardening or golf as a complete waste of time and money.
6. Don't ever take in a movie with the family; just send them out while you stay home and work and worry some more.
7. If you have to travel, work all day and drive all night or most of the night,—then members are given a nice piece of ground about 2'x6' deep which they can call their very own.

### FFA Boys Report On Convention Trip

FFA boys from Farwell and Bovina gave reports on their trip to the State FFA Convention at the regular Farm Bureau directors' meeting in Friona Monday night.

Roy Crawford, Bovina advisor, introduced the following boys from his chapter: James Stevens, son of Mr. and Mrs. J. D. Stevens; Don Steelman, son of Mr. and Mrs. Amos Steelman; and Duane Rea, son of Mr. and Mrs. Carl Rea. Duane was the voting delegate from Bovina, and made the main report.

Prof. Morton, Farwell advisor, introduced Morris Reed, son of Mr. and Mrs. J. M. Reed, who served as Farwell's voting delegate. He gave a report on the convention. Dale McCuan, son of Mr. and Mrs. Dale McCuan, also attended the convention.

All of the boys and their instructors expressed appreciation to Farm Bureau for financial assistance given them to attend the convention. Friona and Lazbuddie chapter received checks from Farm Bureau also, but were not present to report on the trip.

The directors also discussed methods of stimulating interest in local and national elections. No action in this direction was taken, but all present agreed to encourage their neighbors to participate in all elections.

Nominating committee for directors and officers to be elected in the fall was elected, consisting of L. F. Bruns, chairman, Bruce Parr, Jack Morris, T. E. Lovett, and M. T. Glasscock.

Date for the annual Farm Bureau convention was set for September 24, in the Bovina School Auditorium. The date, a month earlier than usual, was selected in the belief that milo harvest may not be so far underway that it would interfere with attendance. Every effort will be made to get every Farm Bureau family out to discuss and vote upon resolutions, officials said.

All proposed resolutions prepared by the resolutions committee, of which H. P. Hamilton is chairman, will be mailed to all members at least a week prior to the convention. Hamilton also expressed hope that any individuals or groups let him know of any suggestions they might have for county resolutions that would interest farmers. Such ideas may be mailed, phoned or brought to the Farm Bureau office, Hamilton said, and the committee will include them in their list of suggested resolutions.

Officers, directors and employees attending the meeting were Gilbert Kaltwasser, Jack Patterson, Roy Grace, Roy V. Miller, Harry Hamilton, J. T. Jones, A. R. McCutchan, L. F. Bruns, E. T. Ford, Aubra Ellison, and Raymond Euler.

### THE HAPPY HOMEMAKER

Lucille Latta has been one of our favorite people ever since we first met her. At that time, she was a third grade teacher in the local school.

Later she was our daughter's Brownie leader and we thoroughly enjoyed working with her. One day last week we called and asked for an ice cream recipe which she uses. Several persons had remarked to us that it was the best one they had ever tried.

This morning, Lucille brought it down to us and we are printing it for you to try. Dissolve one package strawberry jello in one cup boiling water. Beat six eggs until very thick and lemon colored. Add 1 1/2 cups sugar and beat until all sugar is thoroughly dissolved. Add one pint cream and one teaspoon vanilla and blend thoroughly.

Then add two cups frozen crushed strawberries and juice. Blend the mixture thoroughly again. Pour into one gallon freezer, finish filling with whole milk, then freeze.

A fellow we know once said, "There is no end to the things a woman can think up to throw together, then call the dish salad." We agree with him right down the line and it is always surprising to learn how different combinations of fruit and vegetables taste in a salad.

He said, "If there is a dish on the table that you don't recognize, just ask someone to pass the combination salad and you can't go wrong." We still agree with him and would like for any of you readers to send us your unusual combination for a salad dish.

How many of you have ever heard of eating fried cucumbers? One homemaker we talked to recently says that if cucumbers are sliced, soaked a few minutes in salt water, then fried like squash that they make a delicious dish. Think we will try it soon.

To scrape the bottom of a pot, use the sharp end of a wooden clothespin for less damage to the pot.

## Plans Are Mapped For Foundation

Plans were laid out at a meeting in Bovina last Thursday night, which are aimed at encouraging Parmer County farmers and businessmen to support the proposed establishment of a High Plains field station, under direction of the Texas Research Foundation at Renner.

If enough support can be obtained from the irrigated Plains region of Texas, the Foundation hopes to set up a branch of its famous privately-supported research organization to delve into better crops and more efficient uses of those crops, for Plains farmers.

Huey Whitehurst and Dr. Earl Collister of the Foundation were at the meeting last week to explain

the proposal. Whitehurst is an assistant to Dr. C. L. Lundell, director of the Foundation, and Dr. Collister is head of plant science there.

Officers for the Parmer County push include Gilbert Kaltwasser, chairman; W. L. Edelman, vice-chairman; Bob Wilson, secretary; and W. H. Graham Jr., publicity.

Other counties on the Plains already organized and in the process of collecting funds to make the establishment possible include Lamb, Bailey, Castro and Hale.

Rep. Jesse Osborn of Muleshoe is the over-all head of the drive on the Plains.

About 35 farmers and businessmen were out Thursday night to hear the men explain that the

Foundation is receiving much encouragement throughout the area, and is being asked to explore into more fields of research than had been anticipated.

"If we expand to include all the phases that people seem to want, our budget may go as high as \$100,000 a year," said Whitehurst. About \$30,000 was the first figure mentioned when talk of the field station began.

He said that one field in which farmers have made many requests concerns the commercial production of vegetables.

Whitehurst emphasized the need for individual support of the plan. "It seems reasonable to think that some of the farmers are going to have to participate in a program to solve some of their own problems," he said.

Substantial contributions have already been pledged from several Plains corporations, and more have been hinted. As yet, the "grass-roots" support of farmers has not been obtained, and it is this endorsement that the Foundation workers are now seeking.

Field stations for the Foundation are not brand new in Texas. Three others now are in operation. Those include establishments at Henderson in East Texas, Corpus Christi in the Coastal Bend, and Abilene in West Texas.

Kaltwasser, in mapping out the work in the county, indicated this week that Parmer County has no quota, but that he is hoping that at least \$8,000 yearly can be counted on to help carry on the work at the station.

He compared that amount with the gross farm income of Parmer County, which is about \$25,000,000, and pointed out that the introduction of a single new cash crop or the only slight improvement of existing crops could repay this investment many times over for the county.

"This is a way that we can help ourselves a lot by helping this kind of work a little," he said. Renner work is all privately supported. No government agency or aids of any kind is involved.

In reviewing the list of county workers, Kaltwasser says that Sam Aldridge has replaced G. D. Anderson in Farwell, and Bedford Caldwell will be a Bovina worker, rather than Ovid Lawlis as previously announced.

The West Indies are also known as the Antilles.

## THE PARMER FARMER

Last fall made a believer out of some cotton farmers on the advisability of not watering too late. We talked with one grower east of Farwell last week who swears he's already through. If he is, we bet he'll have to go fishing or turn his back when that broiling late August sun beats down.

Cotton men tell us it's plain torture to sit by and watch the plants wilt and shrivel when they could turn the water in with very little trouble.

Supporting the Renner station which will probably be built on the Plains is something every farmer ought to seriously consider. Yes, of course there are too many "worthy" projects calling for your money now.

But instead of charging off money to the Renner Foundation as a "donation," or "contribution," for good will purposes, it seems to us that farmers ought to regard such expenditures as investments in the future.

The Foundation will be established for the specific purpose of research to help PLAINS FARMERS, not just agriculture in general. If established, this station will make it possible for farmers to take their problems directly to the station for expert study and scientific analysis.

We believe it's a truly wonderful opportunity for the farmers of our area to help themselves.

Floyd Crume of the Soil Conservation Service writes a weekly column for these farm pages. He feels as strongly about water conservation as anyone we have ever known.

Seldom does he supply an article to us that he doesn't push the need for better irrigation practices. We know that some farmers are getting sick and tired of hearing people tell them how to run their business, but we'll back up Floyd 100 percent.

There isn't any way in which the water supply problem can be over-exaggerated. We must deal with the shortages of tomorrow by acting TODAY to conserve the wonderful supply that we now have.

**Baby Pictures?**

**SASS STUDIO**

Phone 4-6143  
Clovis, N. M.

It's difficult indeed to find anyone this summer who will tell us "our water is inexhaustible" as they did a few years—even months—ago.

Some farmers used to scoff at our concern for water wasting, but very few do any more. Just last week we heard someone say that a deep well on the A. L. Black place east of the Hub community is "breaking suction."

A variety of things could cause this difficulty, but it usually means that the water table drawdown is greater than the capacity of the sands to refill the pumping area.

This is especially significant because in the instance of Black's

well, it is located in almost the exact middle of one of the thickest deposits of water-bearing sands on the High Plains.

When even our strong water weakens, it's high time that we do something to conserve this indispensable resource.

**NEW LOOK... NEW POWER... ALL NEW... ALL THE WAY...**

**MM 445 TRACTOR**

first of the **POWERLINED** series!

This is the POWERlined 445, the 40 HP class Minneapolis-Moline tractor that takes a big, new step into the future! It's the tractor with the power, the handling, and the time-saving advantages to make today's farming pay as never before! These are some of the ways this new tractor puts you ahead—and keeps you there—year after money-making year:

- Dynamic new design!** Trimmer outside... tougher inside... it's a man's tractor, with solid stay-power built in!
- Tremendous new power!** Tucked under that POWERlined hood is your choice of four all-new valve-in-head engines for gasoline, diesel fuel, LP gas or tractor fuel.
- Exclusive power-traction balance!** MM's exclusive Ampli-Torc Drive and Ampli-Trac hydraulic hitch match power and traction to any job.
- New power assists!** Uni-Matic hydraulic power for steering and implement control... rear wheels that power-adjust to fit any row crop... new, scientific control location—it never took less muscle to run a tractor!

You can buy the 445 in two POWERlined models, the all-purpose Universal, or the compact, versatile Utility, with a complete line of new MM implements for front or rear mounting. Come in now... be one of the first to drive this out-ahead tractor... on a real job... on your own farm!

# English Farm Student Visits

**HEALTHY HYBRIDS**—If you want to see how hybrid grain sorghums are showing up against common types such as Martin's and Caprock, the Rene Snead farm at the Hub is the place to do it. Here Rene shows how he has carefully marked each variety in order to distinguish the strains.

A mutual interest in the breeding of the Southdown sheep, and in farming in general, has helped to bring together two young men, one American and the other English, for the second time. The young Englishman was a guest in the home of his friend and his family, Cary Joe Magness, and his parents, Mr. and Mrs. Clyde Magness, the past week.

John Craig, the 24-year-old Englishman, who is visiting the United States as a representative of rural young people in England under the International Farm Youth Exchange, and the local boy met one another when Cary Joe was stationed in Europe with the Army. Cary Joe, during a leave, toured several countries and while in England, inquired about visiting a farm which was noted for its Southdown sheep. He was referred to the farm of John Craig Sr.

There he met John Craig Jr. for the first time. When the new friend learned that he had been selected as a representative to tour this country, he wrote Cary Joe, hoping they could see one another again.

The IFYE is a project of the National 4-H Club Foundation.

After eight weeks of living on farms in New Mexico in conjunction with IFYE program, John was given a week to spend as he wished and he chose to visit his friend in Farwell.

John lives in the village of Ringmer, Lewes Sussex England, where he is associated with his father in farming 1100 acres. Milk is the main enterprise, and crops of wheat and potatoes are grown commercially. Oats, hay and silage are farmed for use on the farm. The Craigs have a flock of 200 Southdown sheep. Besides John and his one brother, 23 full-time workers are employed on the farm. John Sr. is principally occupied with business committees and duties having to do with agriculture, the young man says, and leaves much of the farm management to his partner, John's uncle. Cary Joe explains that the older Craig is one of the better known livestock judges in England.

Employees of the farm have cottages there on the farm.

Asked about equipment used on the 1100 acres, John named five tractors and five horses, also miscellaneous machinery. He added that the tractors on the farm are all manufactured in the United States. The horses are used for carting feedstuff and carting off root crops when the ground is too wet for heavy crops. The Craig estate is unusual in that only about

JOHN CRAIG

three percent of English farms can boast this many acres.

John was interviewed by two selection committees before he went before the third committee in London to determine his eligibility for being a representative of IFYE. Nineteen young people from the United Kingdom were named to make the trip. One of the qualifications is that those selected must be a member of the Young Farmer (4-H) club.

He has been a member for 11 years, and has at one time held most of the club offices.

He left his home country May 4 and docked in New York on the Britannica on May 12. After five days orientation in Washington, he took the bus for New Mexico, the state assigned to him, as his host state. He stayed with six different families, trying to grasp the routine of farm life in that area.

His next stop was Farwell, and his host showed him every phase of farming in this area. He has seen the irrigation procedures, the feed lots in the area, the elevators, and a seed plant where he learned something about seed production.

Just for fun, a group of young men took him to Alamogordo to try his luck at water skiing. John wasn't too excited about his ability at the sport, although he considered it a unique experience.

According to his observations, he has noticed little difference in the methods of land conservation in the United States and England. They do not irrigate on their 1100-acre tract, but several experiment stations in the country are testing feasibility of irrigation for Eng-

land. The most impressive feature about his visit has been the people. "People are so friendly," he says, and too, "you have to go a long way to get anywhere here."

The Craig farm is situated on the South Downs, a range of hills where the Southdown sheep originated. It is an old farming section, and John thought their farm had been in cultivation at least since the 1300's. Their Village Church dates back to that time.

The farm is situated only a few miles from the English channel and elevation is 20 feet ranging to about 400 feet near the Downs. Average rainfall is 25 inches, and temperature this time of year is usually from 65 to 75 degrees.

The visitor left Farwell Sunday morning for Ames, Iowa, for a 4-day conference with the other delegates, before he goes to Maryland for more study on farming practices. He will return to England September 19 on the Queen Mary.

Explaining the Farm Youth Exchange project further, this project is designed so farm youth from the U. S. can live and work with farm families in other coun-

tries, and vice versa. The Exchange now includes about 50 countries.

The project is dedicated to the belief that understanding people is the foundation of world peace, and by learning another way of life by living it, rural young people can better understand the problems and attitudes of those in other parts of the world.

Participants have farm experience, secondary school education, faith in the project, and a desire to know and understand other people.

Avoid lumpy gravy by mixing a little cornstarch with the flour.

## Hybrid Sorghums Growing in Parmer

You may think that hybrid grain sorghums are still in the future, but if you look around a little bit, you will discover that a considerable number of the area's farms are blossoming forth with small and large plots of this new development in small grain production on the Plains.

Most of the farmers who have hybrids this year are planting only a few rows or acres to the new seed. These are primarily "experimenters" who want to see how hybrids will measure up to other common varieties which have been grown on the Plains for years.

A few farmers have obtained seed from commercial sources and have considerable acreage. Their numbers are very limited, however.

The largest group of hybrid growers in the county are those working in cooperation with the county agent's office. Seed was secured through Agent Joe Jones from experiment station locations.

One of the most interesting projects of this kind is the farm of Rene Snead of the Hub community in central Parmer County, where six varieties of hybrids are growing side-by-side with Martin's Milo and Caprock.

Four of the hybrids, Texas Nos. 660, 620, 590, and 611, are from the agent's office, and two, DeKalb Nos. E-56 and F-62, were furnished by that company.

All are separately marked and are receiving identical treatment.

They will be harvested and weighed separately in order that results may be exactly compared.

Right now, one variety looks much like another, and without the signs detailing which rows are which, it would be hard to tell the difference. The two DeKalb varieties are the only ones which appear strikingly different. They have fan-shaped, open heads.

Snead, who says that judgment shouldn't be passed until after the combines have done their work and the grain weighed in, admits that in appearances at least, the hybrids aren't too impressive.

"That hybrid maize will sure have to go some to beat my Martin's," he declared, as he looked across the field.

Snead's farm is considered an ideal site for experiments of this nature. First, he is centrally located at the intersection of Highway 86 and the Muleshoe-Friona farm-to-market road.

Then, his land is of the mixed type, representing a compromise between the tight clays to the north and the sandier soil to the south. His place lays well, and he is regarded as a top farmer.

Agent Jones recommended that persons interested in seeing how the test is progressing stop by where they can see for themselves the different strains under identical conditions.

Snead pre-irrigated the field, and has irrigated twice. He planned to irrigate again this week. The

crops are on land that was in cotton last year, and an application of 66 pounds of anhydrous ammonia was applied for a nitrogen boost.

The hybrids are getting a test on dryland, too. John West of the Oklahoma Lane community is growing nine varieties on an un-irrigated tract.

Others who are trying out the hybrids (all irrigated) are Cecil Winegeart, Gilbert Kaltwasser, Walter Kaltwasser, Oklahoma Lane; Ed Steinbock (35 acres of Texas 620), John McGee, Ben Foster and Jack Smith, Lazbuddie; Arlin Hartzog, Bovina; Melvin Sachs, Rhea; Taft Lovett, Friona; Bruce Parr, Black; James Mabry, Hub; and Leon Langford, Farwell.

A list of those who obtained seed commercially is not available.

### NEWS FROM THE FARM BUREAU

By RAYMOND EULER

One of the newest Farm Bureau members is Glenn D. Welch. Mr. Welch and family live northwest of Bovina, where he is employed by James Readhimer.

We are glad to see most farmers who use gasoline as a farm fuel filing for the 2c federal road tax refund. Next year, it will be a 3c refund, making a total of 8c per gallon exemption. Farm Bureau has championed both the state and federal road tax exemptions for farm-used fuels. This channels approximately thirty-two thousand dollars back to the pockets of Parmer County farmers each year.

According to USDA reports, real markets, including exports for farm products, are looking somewhat better. We are hoping that milo market prices will exceed the loan offer enough that it will move from the field to market, instead of into government storage. Some wheat went that way this season, and a trend continuing in that direction would, we believe, bring relief to producers exceeding any government assistance possible.

Senate Bill 1135 is one we hope doesn't get far. It proposes making Civil Air Patrol and similar civilian defense project workers, auxiliary military members. The promise of disability and retirement benefits for workers and members of their families is being used to promote the bill. A few moves in that direction would put most Americans under direct supervision of military heads. A majority of independent civilian families is necessary to a continuing democratic nation like ours.

If farmers will take as much interest in the establishment of the Texas Research Foundation substation as their bankers and other business friends have expressed so far, we believe it will be established. The proposed project would benefit the farmer first, and the interest of others is significant.

CONSIDER THIS: Be thou diligent to know the state of thy flocks, and look well to thy herds. Proverbs 27:23.

According to tradition, the first printed news sheet appeared in Nuremberg, Germany in 1457. It was called The Gazette.

## NEWS FROM LAZBUDDIE

BY MRS. BERT GORDON

### Lazbuddie Teams Are County Champs

After slow starts, the Lazbuddie Red Sox and Dodgers came through to win the Parmer County Little League baseball championship. In regular season play the Red Sox and Dodgers were in third and fourth places, trailing the first and second place Pirates and Yankees of Texico-Farwell.

In the first game of the double bill in the playoff, the Red Sox batted their way to a 14-8 victory over the Pirates of Texico-Farwell. Backed up by the fine play of their teammates, David Koelzer and Roy Mack Miller teamed up to pitch the Red Sox to win the chance to play in the finals. Koelzer did a fine job on the hill until the fifth when the Pirates broke loose with four runs. With only one out and two men on base, Coach Williams sent Miller to the mound to stop the rally.

In the second game, it was a pitchers' duel all the way except for the top of the seventh, when the Dodgers pushed across four runs to win the game 7-3.

The Dodgers scored three runs in the second to get out in front only to have the Yankees come back with three runs in the fifth to tie it up 3 all.

David Smith, pitching his best game of the season, backed by the fine defensive play of his teammates, put the Dodgers in the finals of the play-off with the Red Sox, who won their game.

After the Dodgers and Red Sox both reached the finals, Coach T. J. Williams, of the Red Sox, and Coach Purl Tippie, of the Dodgers, held a conference with their players and decided to call the two teams co-champions of the League.

We would like to extend our sincere congratulations to the coaches, Mr. Williams and Mr. Tippie, for their fine work after taking over at mid-season, and to Mr. Dukes who had the boys at the beginning of the season. Both Williams and Tippie will teach and coach in the Lazbuddie School this year. Tippie will teach and coach boys' basketball while Williams will teach and coach girls' basketball and assist in football.

### Return from Tour

Mr. and Mrs. Luther Ham and Mr. and Mrs. Lewis Freeman of San Antonio have just completed a tour through New Mexico, Arizona, California, Oregon, Washington and Canada. They report seeing some very beautiful country. They came back through the midwest states and report that crops as a whole are very poor.

### School to Start September 3rd

Lazbuddie School will open Monday, September 3. Pre-school day will be held on Tuesday, August 21, starting at 9 a.m. Students will remain at school about two hours.

Supt. Ward would like for all beginning first grade students to report to the school on this date. Thirty-five students pre-registered in the spring and he would like for them, and those who have not pre-registered, to be present on that date.

Ward asks that anyone knowing of any new students who did not pre-register to call him at the school, YO 5-3156.

Beginning students must be six years of age on or before Sept. 1, 1956 and must present a birth certificate for proof of age when they register.

### Jimmy Ray Oliver On All-Star Team

Jimmy Ray Oliver was a representative from this district to play in the East-West all-star basketball game played Thursday night in the Tivy Gym. The following was printed in the "Kerrville Times" of Kerrville, on Friday, August 3.

"Jimmy Oliver, the Longhorn guard from Lazbuddie, who was one of the smallest men on the court at 5-9, was named the most outstanding player of the game. Oliver, who played for the losing West quintet, bucketed 14 points and didn't get to play but little more than two quarters. The West led at the first quarter, 15-12, and had stretched that into a 28-25 margin at halftime, mainly on the work of Oliver and Tankersley."

Jimmy Ray is a 1956 graduate of Lazbuddie High School, and was active in all sports. He has re-

ceived a basketball scholarship from New Mexico A&M at Las Cruces, N.M. He is the son of Mr. and Mrs. F. L. Oliver, who live near Friona.

### Lazbuddie To Play Eleven-Man Football

Lazbuddie will be playing eleven man football this year and will be playing in a new district. The following is the schedule as it stands at the present time.

Sept. 7, Friona "B", here; Sept. 14, open; Sept. 21, New Home, there; Sept. 28, Whitharral, here, x; Oct. 5, open; Oct. 12, Farwell, here; Oct. 19, Amherst, here, x; Oct. 26, Happy, there, x; Nov. 2, Hart, there, x; Nov. 9, Bovina, there, x; Nov. 16, Kress, here, x. All of the above listed games will be played at 8 p.m. The x denotes conference games.

### WMU Members Have Business Meeting

The W. M. U. of the First Baptist Church met Monday at the Church for the regular monthly business meeting. Mrs. Bert Gordon presided in the absence of the president, Mrs. Jimmie Ivy. Reports were heard from the standing committees, and a report on the camps was given by young people's director, Mrs. Wesley Barnes.

Those present were Mesdames Claud Heath, Harold DeLoach, Abe Mallouf, W. S. Menefee, Juel Treider, D. W. Cargile, Earl Peterson, J. L. Withrow, Luther Ham, C. K. Roberts, Hambright, Wesley Barnes, and Bert Gordon.

Mr. and Mrs. Claud Heath visited in Hobbs, N. M. Saturday with Mr. and Mrs. Chester Prater.

Mr. and Mrs. G. E. Wingfield of Phoenix, Ariz., visited the first of the week with Mr. and Mrs. Jess

Pendergrass and family.

Mr. and Mrs. George Maye and Daniel attended a family reunion of Mrs. Maye's family at Lubbock Sunday in MacKenzie State Park.

Mr. and Mrs. Dick Scott and family are vacationing in the mountains of New Mexico this week.

Mr. and Mrs. Joe Cox of Farwell visited relatives here over the weekend.

Mrs. J. P. Wilson of Friona visited Mr. and Mrs. Ralph Cox and children on Sunday. Mrs. Wilson is Mrs. Cox's mother.

Mr. and Mrs. Bob Freeman, Mr. and Mrs. Kenneth Keith, Mr. and Mrs. John Littlefield, Mr. and Mrs. Gene Smith, Leonard and Dan Smith, Betty and Jeanell Floyd, and Mrs. Mary Floyd enjoyed an outing at Buffalo Lake Sunday.

Mr. and Mrs. A. E. Redwine, Donna and Bobby are visiting Mrs. Redwine's parents in Missouri this week.

### NEWS FROM

## RHEA

By GLADYS DEAN

### FARM BUREAU MEETS

Members of the Rhea Farm Bureau held its regular meeting at the Lutheran Parish Hall on Friday night, August 3. Franklin Bauer presided during the business session. Refreshments were served by Mr. and Mrs. Cordie Potts, Mr. and Mrs. Billy Sifford and Mrs. Elmo Dean.

Mr. and Mrs. Billy Alderson were host and hostess for a wiener roast at their home on Sunday evening. Present were Mr. and Mrs. Jack Woltmon and Butch and Mr. and Mrs. Bill Denney, all of Bovina.

Mr. and Mrs. Billy Alderson were in Clovis on Monday.

Mr. and Mrs. Billy Sifford, Lindy Dean and Lonnie Wilson visited during the weekend in the home of Sifford's parents, Mr. and Mrs. Herman Sifford. Mrs. Herman Sifford returned to Rhea with the group for a few days visit here.

Mr. and Mrs. Franklin Bauer were in Borger recently to attend the funeral of a cousin.

Friday evening guests of Mr. and Mrs. Charlie Calaway were Mr. and Mrs. Henry Reynolds.

Visiting Sunday evening in the home of Mr. and Mrs. Herman Herzog were Mr. and Mrs. Christian Drager and family and Mr. and Mrs. Franklin Bauer.

James Schlenker visited Sunday night with Jay Potts.

Mr. and Mrs. Glen Richie of Bovina visited Sunday with Mr. and Mrs. Jack Patterson and family.

Mr. and Mrs. Billy Lawrence of Gatesville visited during the weekend with Mr. and Mrs. C. A. Lawrence.

Connie Schlenker visited Sunday

night with Lindy Dean.

Mr. and Mrs. Johnny Miller and Melinda Ann visited her parents, Mr. and Mrs. A. G. Whitten, in Friona on Sunday.

Phyllis and LaVon Dean of Black visited Monday afternoon with Mrs. Sarah Dean, Gladys and Lindy.

The word Rubaiyat means stanzas consisting of four lines.

The word "lynch" comes from the name of Charles Lynch.

## DECOMPOSE YOUR WHEAT STUBBLE

Chances are, in this day of heavy cropping, you are finding it necessary to plan to return wheat to where you grew wheat last year.

That poses the problem of bringing your land up to its peak in order that you may have a chance for a good yield on the same land next year.

We suggest that you check into the advantages of plowing your stubble under the ground and then making an application of Anhydrous Ammonia.
