More Loyalty To Cubs Than For Some Time

As all but just a few of the leading players of the local football club graduated last year, the general public did not have much faith in the Cubs accomplishing much this year. And indeed Coach Hayhurst himself was not expecting much of a team, but thought with hard work he could hold his own with some of the smaller towns in the district. But sometimes the best of us are fooled, and we get real talent from some source we are least expecting. For instance, we have gotten absolutely raw material from some of the rural schools this year, notably from Union, that are making real football players.

From the jump go, they have consistently won from their opponents, and while some of the games have been real tough, especially the Post Antelopes and the Amherst team, they have been downed by the Cubs in real style. It is true that the Cubs have gotten no publicity from the daily press of this section, the reason we guess is that we have no daily paper sport reporter. But that has not kept the home folks from being good rooters for the team. After about the second game was played, enthusiasm was raised 100 percent, and good attendance has been had except Saturday when they met a team from Lubbock, and few people can leave their businesses on Saturday.

All games so far have been non-conference, but they were used for practice purposes for all they were worth. The first team met was Seminole which was beaten 20 to 0. No great score was tried for against them, as Mr. Hayhurst wished to play all the men possible, and was the only game so far away from home. The Junior High, however, played Seagraves last week, defeating them 6 to 0. The next game with Amherst Oct. 7, with a 38 to 0 victory. On October 14, the Cubs took on Post with a 18 to 20 victory, and last Saturday played the Lubbock Cowhands, defeating them to the tune of 18 to 0.

Friday, we will get to see the Cubs in their first conference game with the famed Lamesa Tornados. They greatly outweigh the Cubs, and are said to be tough hombres, but sometimes the bigger they are, the harder they fall, and Brownfield and vicinity is going to be behind the Cubs 100 percent. Even, if the Cubs are not able to handle the Tornados, the people will be right there with them when they go down fighting. But we believe they will be able to handle the Lamesa windstorms.

After the Lamesa game, two more are yet scheduled, with Slaton Nov. 4th and Tahoka Armistice day. We might possibly see still another on Turkey day but it has not been scheduled.

Born to Mr. and Mrs. Ted Watts, of Abernathy, a 7 pound girl on the 20th, who will answer to the name of Billy Ann. Ted was a former Brownfield boy, and a brother of Mrs. Laurence Green.

I. Swan, Did You Ever See Such Weather?

You know the Herald keeps a little note book, and after the rains of last week, when old sol burst out clear and bright with a nice little breeze from the southwest, we made a little note in that book, CLEAR AGAIN, —MAYBE. And it proved out just about that way. In those good old days before the Republican Party took charge of the weather bureau in Washington and Texas, a man had a bare chance of predicting something about the weather. In those good old Wilsonian Democratic days before Harding, Coolidge and Hoover, when the wind got out of the southwest, we were in for a right smart period of pretty weather. Now if Hoover thinks he's going to make the Herald vote for him by punishing us with all kinds of ungodly weather, he's Nerts.

Anyway, Saturday and Sunday were Democratic days, but the Republican weather was run in from the north Monday, but was clear, and we thought that because a norther was blowing that undoubtedly it would remain clear. But you can never tell. By midnight it was thundering, lightning and raining, and rather cold and disagreeable Tuesday. Tuesday afternoon, the Democratic weather men tried to get in charge again, and the clouds were skimming off. We call on all Democrats to go to the polls on Nov. 8th and try to get a better variety of weather.

Highway Engineers Moving To Lamesa

Com. L. L. Brock and Project Engineer, F. B. Ogle, were callers at the Herald office Wednesday, when the later stated to us that he and his crew finished their work here, or would finish in a few days, and upon its completion, they were moving to Lamesa to do similar work in that county. He also stated that the work of engineers for the time being was complete from here to the Hockley county line between Ropes and Meadow, but a little more was to be done between Brownfield and the Gaines county line this side of Seagraves.

Mr. Ogle informed us that this does not mean that the work of an engineer is done on 137, but was only finished until contract was let for grading and later on for finishing. When a contract is let for actual construction, and he does not think that will be but a few weeks, he or some other engineer and crew will be sent back here to take charge of the work.

Mr. Ogle also stated that there was not a doubt in the world that the State Highway Department would fail to keep faith with Terry county Commissioners Court and Terry county people.

Lence Price Presents Herald With Pumpkin

Almost two weeks ago, Lence Price of the Challis community presented the Herald with a mighty fine pumpkin, he called it, and it was put away at the Herald office and almost forgotten. We espied it this week, and pulled it out of hiding under some paper, and carried it to the shack where the wife will make some pies and can the rest. You know it isn't a great while till Thanksgiving, and pumpkin pies always go with that day. However, they always taste good to us.

But back to the pumpkin, it was shaped more like a huge cucumber than anything else, and even more like a kershaw than a plain, old fashioned pumpkin, but had the looks, meat texture etc, like the old fashioned round, corrugated pumpkin of our childhood, and we can tell you more about the taste later. We believe Lence called it a bannans pumpkin. The specimen was 28 inches in length, 22 inches in circumference and weighed 20 pounds.

Dr. W. H. Bennett, prominent Lamesa physician and surgeon, was buried last week.

Man Identified As Sharp Slayer Held

H. C. Blanton, 21, of Amarillo, has been identified as the gunman in the slaying here October 15 of Robert Sharp, 25, assistant grocery store manager, and in the two grocery holdups executed here that night, Cap Moore, deputy constable, and J. C. Keller, state highway patrolman, said this morning.

A charge of robbery with firearms of H. D. Aycock, manager of M-System store No. 6 at 1945 Nineteenth street, from which about \$200 in cash was taken, was filed Sunday against Blanton in Justice of the Peace J. S. Connell's court here by Burton S. Burks, assistant district attorney.

Arrested on an Amarillo street about 2 o'clock Sunday morning, Blanton was identified by six employees and a customer of the two M-System stores in the Potter county jail about 3 o'clock Sunday afternoon, Moore and Keller said. Blanton did not resist arrest and was unarmed when taken into custody by Deputy Sheriff Vanaderpool of Potter county, on information from Moore and Keller, they said.

Blanton, placed in Lubbock county jail about 7 o'clock Sunday night, made a statement, contents of which were not revealed, to Assistant District Attorney Burks. Blanton, who is married, and who was reported summoned as a juror in Potter county court last week, denied he was implicated in the holdups and homicide.

Working Quietly
Moore, constable-elect, and Keller said they had been working quietly on the case since the crimes were committed. Learning their suspect was in Amarillo, they informed M-System employees they would be summoned if the suspect were arrested.

Several Viewed
Blanton had on a light blue shirt, dark trousers, and was bare headed and freshly shaved when aligned with several other prisoners. Witnesses were instructed to look at the group, to go into another room without saying anything, and there to say whether they could identify any of the men, Keller explained.

Blanton's residence at 406 North Polk street, Amarillo, later was searched, and khaki clothing found there was identified by the grocery employes as like that worn by the holdup man, the Lubbock peace officers added.

Intermittent slumping of Blanton's shoulders, hunching as had the bandit's when he shoved forward a pistol; a peculiar and only slightly perceptible hop in the suspect's step, which also revealed a weak leg, and a peculiarity of his teeth figured in the identification, Keller related.

Blanton Car Returned
Moore and Keller left Lubbock about 5:30 p. m. Saturday. Arriving here early today, Moore went to Hobbs, N. M., and got Blanton's automobile, which was being used by other persons, and drove the car to Lubbock. Whether it was used in the holdups had not been determined at noon.—Lubbock-Journal.

Big Day Here Saturday—Look Like Fall Crowd

Saturday turned off pretty after a few days of disagreeable fall weather, giving the people a chance to come in and get their needs from the stores, and a good crowd thronged the streets all day, and especially in the afternoon. Some of them had gotten out some cotton, and were spending some money for clothing and other family needs. If the weather would just behave for another week or two, we would have normal fall business here.

Anyway, the merchants report an increasing business, especially in the week days, which is making smiles come to their faces. A number of new readers have been added lately, some of which said they were not only buying the Herald for the county news that it contained, but also to read the bargains offered each week end by the merchants.

Lion District Gov. Here Last Wednesday

Mr. C. Herbert Walker, of Pampa, was here last Wednesday night, and delivered a talk to the Lions Club following a banquet at the Wines Hotel. Mr. Walker is the new district governor of the west Texas district, and this was his first visit to Brownfield. Lions report that Mr. Walker delivered a very fine address, and gave them much encouragement to press forward.

Mr. Walker was for some 23 years the editor and publisher of the Dalhart Texan, but sold to the Nunn-Warren interest several years ago. Since that time he has located in Pampa and is conducting an office supply business. The Lions Club is steadily growing here now, having about 23 members.

DIES FORM INJURIES

The little two and one half year old daughter of Mr. and Mrs. J. H. Parrish of the Union community, died last Friday, and the body was laid to rest in the Union cemetery. According to L. L. Brock, the little one was rolling a bucket lid with a stick, and stumbled, falling heavily on the end of the stick, the other end being against the ground. This caused internal injuries that lated resulted in its death.

The Federal Emergency Relief Act

The last Congress of the United States, just before its adjournment, passed, and the President approved, an Act known as "The Federal Emergency Relief Act," and appropriated the sum of Three Hundred Million Dollars, to be used if necessary, under the provisions of said Act.

The purposes and intentions of the Act was to "Aid and Assist" the different towns, counties, and states, in caring for their "poor and needy" through the coming winter, purely as an Act of charity.

It was not the intention or purpose of Congress and the President to divide this huge sum of money among all those who might ask for it, but to handle it through the local charitable organizations, of the different communities where it might be needed, in the form of "food and clothing" and I might add fuel.

Our Governor, Mr. R. S. Sterling, realizing that there might be portions of our State, and especially in the cities where there are so many dependent on their labor for a living, asked that Texas be included in the list of States to benefit by virtue of the Act.

The State of Texas was divided into Districts to handle the matter, and the West Texas Chamber of Commerce, with headquarters at Stamford was placed in charge of this portion of the State.

By virtue of the fact that Terry county had ceased to maintain its membership, in the West Texas Chamber of Commerce and was therefore without its regular representation, in same, the management of the organization, arbitrarily appointed the writer hereof, to act as chairman of the Relief Committee, for Terry county, and sent to us necessary blanks for making application for whatever amount we might deem necessary to handle the situation in this county.

I examined the blanks which were sent me, and found that there were few, if any, in our town or county, who could qualify for aid, under the terms of the applications. (The blanks can be examined by any one who cares to do so at my office at anytime.)

However, before answering the communication, above mentioned, I proceeded to interview the local pastors, of the different churches in town, together with the different business and professional men of town, who were known to be interested in such matters, and they all without an exception advised me that they knew of no destitute families, that could not and would not be provided for locally, at least for the present, but that it might become necessary to later call on the State, through the "Federal Emergency Relief Act," for assistance.

And right here and now let me state that the writer hereof, together with ten or twelve other citizens of the county, who have volunteered their help, have an abundance of good sound ear corn, that any family or individual, who desires meal for bread may have for the asking. The only condition being that they do not expect us to "shell the corn for them."

The above statements are set forth for the reason, that a considerable body of our citizens, have recently signed a petition, asking to be placed on this list for Federal Charity, and we are constrained to believe, that a portion of them at least, did not fully understand the provisions of the Act, but rather thought that it was similar to the "Federal Crop Production Loans" and really thought that it would be a Loan to them in the form of money.

In the meantime we believe that the citizenship of Brownfield and Terry county, should organize themselves through a General Mass Meeting of the county, and appoint or elect a staff of officers, to see that none of our citizens should suffer from cold and hunger during the coming winter.

Respectfully submitted,
R. M. Kendrick

A lot of us applaud because we're glad the party's over.

Lost 20 Lbs. Of Fat In Just 4 Weeks

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and futhermore I've never had a hungry moment." Fat folks should take one half teaspoonful of Kruschen in a glass of hot water in the morning before breakfast — it's the SAFE, harmless way to reduce as tens of thousands of men and women know. For your health's sake ask for and get Kruschen at Alexander Drug Co. Inc., or any drug store—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not satisfied with results—money back.

Brownfield Cubs Down Lubbock Cowhands 18 to 0

The Lubbock Cowhands came to Brownfield Saturday thinking that they could lick our team without a struggle, because they were a much larger bunch than ours. They went back home sadly disappointed because we gave them a good licking.

In the first quarter of the game Lubbock kicked the ball and it went over the touchdown line. The ball then came in possession of Brownfield at the twenty-yard line. Brownfield punted back down the field and gave the ball to Lubbock. After several runs and exchange of punts the quarter ended 0 and 0.

In the second quarter the ball was in the possession of Lubbock. After three unsuccessful runs, Lubbock punted the ball. Huckabee who was playing safety for Brownfield fumbled the punt and Lubbock recovered the ball. After three more runs, which were unsuccessful, Lubbock tried a punt which was slapped down by Brownfield. Brownfield came in possession of the ball. Huck threw a pass to Neill and he ran to the twenty yard line. Brownfield tried to make the touchdown while they had the ball so close to the touchdown line but they lost the ball to Lubbock. Lubbock tried to punt but Bogle of Brownfield blocked it and Brownfield recovered the ball. Brownfield was in a very good place to make a touchdown but the whistle blew for the half. The scores were 0 to 0 at the first half.

In the third quarter, Neill ran for two touchdowns. Lubbock blocked both field kicks. Lubbock made one first down but they just could not seem to get anywhere. The scores at the end of the third quarter were 12 to 0 favor of the Cubs.

In the fourth quarter after one exchange of runs and punts, the ball finally came in possession of Brownfield. The ball was snapped back to Neill and he ran around Lubbock's right end about 50 yards for a touch down.

Brownfield lined up to kick the field goal but it was blocked by Lubbock. At the end of the game the score was 18 to 0 in favor of Brownfield Cubs.

Tackles made by Brownfield boys are as follows: Huckabee 2, Chambliss 1, Neill 3, Tankersley 3, Graham 1, Moore 3, Bogle 4, Flache 2, Owen 1, Thomas 5, Smith 6, Bandy 2.

Brownfield made eight first downs and Lubbock only 3.

Boys Pep Squad Meets

Some of the boys met last Wednesday to organize a boys pep squad. The boys which were in this are not large enough to play football. Roy Chambliss was elected leader. Roy made a talk in which he said they intended to back the football boys to the limit and that they were going to show the girls how to yell. Mr. Penn is sponsor for both boys and girls squads.

Basket Ball Girls

The girls have been coming out every afternoon for a hard workout. They played Gomez a practice game Thursday afternoon beating them 28 to 10. Gomez sure has a hustling team. The game was for the inexperienced players and they sure did some fine playing. From the way they all played, Brownfield is sure going to make a fine showing this year.

Sphinx Club

The Sphinx club enjoyed a program Tuesday, October 17. It was as follows:

Life of Edison—Wilma Frank Dunn.

Life of Rockefeller—Mary Clarke.

Life of Franklin—J. D. Stewart.

Life of Robert Fulton—O. L. Tidwell.

After the program there were several collections brought for the museum. These were, sculpter of a rock formed the shaped of a serpents' head, given by Sharleen Graves. A pair of glasses and a stick used to turn a spinning wheel was given by Wilma Frank Dunn. They were used by her great grand mother 100 years ago. We also had some very interesting newspapers, presented the club. The aged papers were so old they had turned yellow and could hardly be read. They were presented by Roy Chambliss and J. D. Stewart. This is creating more in-

terest in the club and we are progressing nicely and will continue to do more in the future.

Dramatic Club

The Dramatic club met October 18th. When the roll was called, everyone answered a quotation from Shakespeare. A talk on Selection of a Play, by Woodrow Chambliss, Marion Chisholm gave a talk on Reading a Play. In the business meeting, the club voted to ratify the action already taken by the president and others in having the football schedules printed, and a motion carried to order the books for the play to be put on soon out of the proceeds of the football programs. The cast for the play was announced, including O. D. Thomas, Jim Neill, Imogene Luckie, Bonnie Dale Gross, Annie Letha Hamilton, Frankie Rickles, Lee Brownfield, John L. Cruce, Ester Ruth Smith, Martha McClish, Wayne Tipton, Sawyer Graham, Carmon Anderson, Woodrow Chambliss, James P. Davis and Kyle Adams.

The Zellica Club

Tuesday, October 18th, the Zellica club assembled at their regular meeting place, in Miss Taylor's sewing laboratory, where we meet each Tuesday. We have been having interesting programs weekly until this last meeting. Each one was required to bring some project on which to sew. Some embroidered, others pieced on quilts. All enjoyed the sewing and some may surprise their mother, with a Christmas gift of their work.

Pete—"Do you believe there is luck in a rabbit foot?"

O. D.—"Well, I'll say this much: It's luckier to be kicked by one of them than by a mule's foot."

"Oh," Mary Jo said, "I can do that. I blush everytime I am seen anywhere with you."

We had two letters this week from Tokio community. As two correspondents often duplicate news from communities, we cannot use but one. At present Joe Shelton is the official writer from that community, and we will ask that you give him you news items. Anyway, we thank the other party for the offer and the newsy items sent in this week. Again, we will have to ask the correspondents to mail Monday, as some of the letters reach us too late for publicity that week, and to carry them over, they lose their news value.

A boys and girls calves show is to be staged in Lubbock, soon, according to the South Plains Farmer. We understand that several Brownfield men asked for reserved seats in the girl section.

According to the San Francisco Chronicle, hay fever cures are at least consistent. In the first place, according to that journal, hay fever is not caused by hay, and in the second place, there is no cure.

Sen. Hiram Johnson of California is a progressive Republican. Some weeks ago he announced that he could not support Herbert Hoover, and later announced that he would make some speeches for Roosevelt. With the help of progressive Republicans in that state, Democracy is almost sure to roll up a majority for Roosevelt.

Editor E. I. Hill of Tahoka News and Sam Braswell of the Clarendon News are tickled pink that Governor Roosevelt has said something or another which they take justifies one in bolting, and we gather that these men, probably bolted four years ago. But, my good friends, Mr. Roosevelt surely did not mean that you should bolt him this year?

Editor Jack Stricklin of the Brownfield Herald, states that he was presented a peck of sweet potatoes last week and noting the capture of a possum by Oran McClure, extends the McClure brothers an invitation to bring our possum out some time this winter and enjoy an old Southern feast of 'possum and taters.' That sure sound appetizing Bro. Stricklin and if we have a good enough fall to buy juiciline for our buzzwagon we may take you up on that, Suh!—Texas Spur.

A man working for a big oil concern got into Spur too late recently to get a \$50 bill changed at the bank, and tried to get it changed at several stores, as he had to make some purchases. He probably had not heard that a few weeks ago some big counterfeit bills were worked off on people of this section, but he realized something was wrong when the law took him in charge. A banker was called in, and pronounced the bill ok. But in Spur like all other west Texas towns, \$50 bills are so scarce since Hoover Prosperity struck us, that they never see them—nothing higher than one's and fives get by out here.

And down in old Kent county, the old home of Tom Hunter, they are having a newspaper fight all of their own. It seems that the old County Judge, whose time expires in Jan-

uary, and the man that defeated him for that office, got rather rank with each other over some funds belonging to the county, that went up in smoke when the Jayton bank failed, and these accusations and counter accusations have rankled in the hearts of these contestants up to now, even though the election was decided back in July or August. In the meantime, Editor Wade has to hold the bag by giving these men some ten dollars worth of space in his paper each week. That is the only trouble with a newspaper fight. The poor old editor has the whole bill to pay.

A man remarked last week that he hoped they would put a muzzle on Hoover, for every time he makes a speech, cotton drops. No wonder. In order to get back into office, he has made some of the most dreary speeches in history, including the one about us having come so near having to go off the gold standard, until not only our own stock markets but foreign markets as well have become uneasy about their investments, and not only stocks and bonds, but products have found a new low level. In the meantime, some of the big manufacturers, including Ford are advising those dependent on them for a job to vote for Hoover. It is our opinion that the American people have had the wool pulled over their eyes by Hoover and his crowd about as long as they are going to stand for it, and will start an avalanche on Nov. 8th that will bury them in political oblivion.

Gov. Ross Sterling has made a statement, and in this statement he makes it quite clear that he will not only scratch Ma, but that he will vote for her opponent. The Herald was for Ross Sterling in the second primary, but voted for Tom Hunter in the first. It believed that Mr. Sterling was nearer our idea of a man for place than Jim Ferguson and wife, but since he has made such a baby display over the fact that he was beaten, we have our doubts. Many good Democrats that never scratched the ticket, but who voted for Sterling, have turned to the Fergusons and Sterling's political career is ended in Texas. On the other hand, many good men will vote for Orville Bullington for Governor, without the least quom of conscience. As Andy says, with the "picklement" that we are in now, the Herald does not blame either side. Just take your choice and vote, for it is none of the other man's business. Didn't you pay for your own poll tax receipt? Then vote your sentiment.

Bob Locker has put a partition through the center of his building on the west side of the square and repapered and painted both sides. He is conducting his short order business on one side of the partition, which he says is plenty room, and has the other side for rent.

Report Of Work Of Legion Auxiliary

The American Legion has in the past year helped fifteen families with food and has furnished transportation for six families that were stranded. Also employment has been secured for four men.

The Auxiliary has turned its attention mostly to the furnishing of clothing. Although \$20.60 has been expended for food and donations of food amounting to \$35.30, have been secured.

Winter before last the Auxiliary co-operated with the Associated Charities and collected and helped distributed clothing to 137 families with approximately 500 children.

Since that time, the Auxiliary has used the Legion Hall as a center and clothing has been distributed to 78 families including 103 children. Most of this clothing was old clothing collected and distributed, although \$31.76 was expended for new clothing where nothing could be found and the need was very great.

Seven layettes have been furnished, material having been bought and articles made by ladies of the Auxiliary. Also boxes have been sent to the Legion Hospital and Orphanage at Kerrville, Texas.

The Ex-soldiers in the hospital at Fort Root, Arkansas, make rag rags out of old silk rags, stockings, underwear, etc. and 33 lb. of these have been sent.

The Legion has cooperated with other organizations in spreading cheer at Christmas and last year bought and distributed toys to 124 children as their part.

At present there are at least fifteen children in the school here needing clothing, besides those calls from the country, and we ask people from all over the territory to bring us all the clothing that is outgrown, or can be used at all. All the old silk rags, no matter how ragged they are and also all toys, that can be mended and used to be distributed this Christmas. Also if you know of worthy people who are needy, please notify us.

These articles can be left at the following places.

All Year School Exhibit To Be Had

The pupils and teachers of the Brownfield Public Schools are preparing for rather extensive and continuous exhibition of the work done in the school here this year. The present plan is to have two general exhibits during the year at which time every grade will have materials that represent work done this grade. The first one of these exhibits will be announced later. The last exhibit will be held during the last month of school.

Beginning next week there will be a continuous exhibit started that will continue through the remainder of the year. The first month will be had by the primary teachers. They will change this exhibit once each week for the four weeks of the school month. The following month will be had by the second grade and so on until all the grades have had the exhibit on month. Each grade when in charge of the exhibit will change the scene once each week.

The parents of these children are invited to look these exhibits over and see for yourself some of the things that your children are doing as learning exercises in the schools of today.

Those who do not have children in school will be asked to look these over and convince themselves as to the activities of the modern school.

The exhibit above mentioned will be placed in the middle window of Bell-Endersen Hardware. The school is greatly appreciative to the management of this good store for the consideration in extending the space.

Mrs. J. C. Lewellen was in this week with a statement you will find elsewhere in this issue. Mrs. Lewellen said she had fully decided to remain in Brownfield and conduct the Corner Drug Store, owned by her late husband, as she like Brownfield and her people so much. She has two excellent employes, Jake Warnick and Fred Youree.

BROWNFIELD STATE BANK

OUR 23 YEAR COLUMN

Taken from the Herald of October 29, 1909.

If anyone has any idea that the argument for deep plowing is a late thing in Terry county, for instance, originating about the time that we had our first county agent, he should come to our office and let us show him a paper from our files of date, October 30th, 1909, in which we had a two-column article with a two-column 36 point headline, reading, "Does Deep Plowing Pay?" After stating the nature of our soils, and the many kinds that we have, we told readers why it was necessary to break deep here and to cultivate well just the same as in other sections of the State for best results. We argued that we could not shirk cultivation no more than anywhere else. We told about Fred Heine's farm on the Miles ranch, how that he had broke deep in the spring and cultivated shallow and although he was in the driest belt of the county, had produced enough feed for the 200 head of stock on the ranch. We also stated that Uncle Joe Bryant had the same idea in farming, and was aiming to turn all his land but 20 acres over to the boys the next year, and he was going to experiment with intensive diversified farming, with full compliance with that meaning as outlined by the Dallas News. Although

we had only been here part of the year, and as editor only three months, we had become quite eloquent in describing Terry county. For instance, witness the last "paragiraffe" as Andy says, of that article: "And so, come to Terry county while homes are cheap, where appetites are as keen as any two-edged sword, where weeds and grass do not corrupt good farms and tempers, and where Morpheus waves his magic wand over the slumbering toiler throughout the night."

Pride Dots: J. K. Epperson was in Lamesa on business. Mr Tisdale carried a load of potatoes and chickens to Lamesa. Tom Corner and family were moving to Shafter Lake. Lou school had taken 30 days vacation to help harvest. Mr. Opie Reed had returned from Coke county. R. F. Randal was building a porch to his home. C. H. Martin made a flying trip to Big Spring. Prayer meeting at Pride was rained out. J. W. Russell returned from the railroad (Big Spring). The young people enjoyed a singing at Mr. and Mrs. John Allen's.

Harris Happenings: Preaching the past Sunday by Bob Harris of Bronco. Robt. Shaw had returned from Lubbock. Mr. Reding and family had left for New Mexico to make

their home. Frosty Ellington had returned from Lubbock with wire and post to fence with. John Burnett was out looking after his cattle interests. A. J. Baker was off to Big Spring after freight.

Editorially, we remarked that they were having some good "horse races" at the Dallas Fair without the betting, and suggested that some inventor get up a betless crap game for the colored brethren. We also paused to remark that we had rather see a good family move to Terry with five full blood Rhode Island Red chickens than to hear President Taft speak, Bryan and Bailey debate, Cook lecture, Peary cuss or Jefferies and Jack Johnson fist fight.

In the courts: We note that fifteen lawyers had attended district court here that week, about as many as come these days. These were all from other places than Brownfield. In the case, State of Texas vs. G. W. Workman, he was found not guilty, don't say what he was charged with, stealing though we guess as we had no whiskey cases then. First National Bank of Portales vs. Roy Beal; verdict for plaintiff. Hattie T. Lewis vs. J. W. Gordon, verdict sent to plaintiff. In Justice Court. Brownfield Mercantile Co. vs. B. F. Nix, hung jury.

Locals: O. P. Gaymon, Editor of the Canal Winchester, Ohio Times, was here looking after his land and prospecting for more. He liked Terry fine. J. A. Correll of Loop had produced four bales of cotton on twelve acres after the rabbits had left about half a stand. Cotton raising was a little doubtful in those days. Lemons were selling at 25c per dozen. Alvin Duke was driving the southbound mail hack. Rev. P. E. Riley preached his farewell sermon to a large crowd.

M. V. Brownfield made a flying trip to Big Spring. J. F. Winston made a trip to Lubbock. S. E. Hamilton had taken initiatory degree in Odd Fellowship. E. S. Rowe was over from Plains, attending court. J. O. Miller, district organizer, had organized a W. O. W. lodge at Gomez. F. S. Custis had the Herald sent to his mother in Parker county. A meeting of the Brownfield Commercial Club was called for Monday night. The Brownfield Pressed Stone Co. begin making concrete blocks for the Thomas DeShazo residence. John Peters and family came in from Ivan to make this their home. Judge Spencer was in Seminole on court business. A. P. Moore popular Fomez grocer, was over on business. D. Robinson and family had moved to their ranch. S. A. Shepherd was in town. Deputy Marshal Odum, of Clovis was here attending court. W. D. Winn came in to renew and to send the Herald to his friend. Frank Smith of Riverside, Calif. Mrs. Chas. Anderson and Misses Minnie and Kate Bryant, were shopping here. Early Key, Chas. Moore and Shorty Greyhouse were over from Gomez watching some of the boys ride the Woodman goat. School had opened at Johnson in the new school house with Mrs. R. W. Rambo as teacher. W. D. Winn was in Big Spring to meet Jim Parks and family who were returning from Mineral Wells, where they had been for Jim's health. G. E. Lockhart had plead his first case in court, and won it. Major Perryman, county judge of Lynn county, was attending district court here. W. H. Black of Gomez, was over attending court. J. W. Belcher, of Lou, had called to renew. He was a successful rancher. Dr. Ellis had been hurriedly called to see Will Hurley of west Terry who got his hand crushed in a feed cutter. Dr. Maddox of Gomez called to visit the Herald. We noted that our two young attorneys, Percy Spencer and Earnest Lockhart should be watched. Both made good. Brock Gist, who was teaching out at No. 3, was in Saturday. H. H. Longbrake announced that he was going to feed a pumpkin on milk next year. Dock Powell said he didn't know a pumpkin ever ate, and asked "Breaky" how he fed them. J. R. Lanier and Miss Eula Seitz were married the Sunday before at the home of her parents, just north of Gomez, Mr. and Mrs. A. P. Seitz. Rev. Edgar Owens, officiating. Moore Bros. Land Co. had sent twelve Heralds for a short time to acquaintances in the east. Three of the twelve families had already located in Terry. Some might try that stunt in 1932 with equal success.

A debate on the woman suffrage question was pulled off at the school house Friday afternoon. Walter Scudday, John Williams and Arthur Sawyer had the affirmative, while Roy Scudday, Newt Copeland and Dude Pyeatt had the negative. The negative won. Three flights daily in a Wright-Curiss plane was being made at the International Fair at San Antonio as part of the program of the fair. All for this week.

After you've lost money there's nothing so irritating as to hear of somebody who's made a lot.

TOKIO TALKINGS

Cotton pulling was more or less halted during the week on account of lingering wet weather. Pleasant weather Saturday and Sunday however, is helping considerably and during the following week gathering should be in full swing. The bolls seems to be cracking considerably faster than they have at any period during the last several weeks.

The B. Y. P. U. held an interesting meeting Sunday. The inspiring program was opened and closed by songs led by Mr. Norman Lovelace. Prof Milton Greer and wife left during the first part of the week for a few weeks visit in Meadow, after which they plan to go to the home of Mr. Greer's father in Lubbock county.

Quite a large attendance was had at the Nazarine Sunday school Sunday.

Joe Young, Jack Jones and others were seen Saturday at the football game between Brownfield and Lubbock.

Miss Edneth Green is visiting in the Johnson community over the week-end.

A large attendance was had in the Baptist Sunday school Sunday. Mr. Kemp is now superintendent of the Sunday school with Mrs. Trout as Secretary.

Prof. Logan Green was in Tokio Wednesday from the Johnson community.

Mr. and Mrs. Joe Casey were visiting Mr. Casey's mother in Tokio Sunday.

Any one in the community having anything in the line of news or anything of interest to the community, should see the correspondent, and what ever they have will be gladly submitted.

Mr. and Mrs. K. B. McWilliams were visitors to Lubbock Sunday.

RED GOOSE The Ojibwa

(Synopsis)

Red Goose is with his father, Red Eagle, Chief of the good Ojibwa Indians. On his fourteenth birthday, he joined Red Eagle for the first time in his work to protect the Pale Face people from the bad Indians. They are now at Fort Ridgley, which is being held by only three white men—The Sergeant, Tom Boling, and a youngster named Bear Cat. The Sioux, on the warpath, are approaching the Fort. Someone must ride for re-enforcements.

The tom-toms of the bad Sioux Indians could now be heard more clearly. There was no question about it. Led by Kongra Tonga, which is Indian for Big Crow, they were approaching Fort Ridgley, awaiting for darkness to come and cover their attack.

Inside the Fort, Red Eagle was in deep conversation with Sergeant Henry, Tom Boling, and Bear Cat.

"Someone must ride to the Agency and ask Captain Sutter for help, but we can't afford to spare anyone," growled the Sergeant. "There are only three of us besides you, Red

"Red Goose Rides For Help"

Eagle, and if the Sioux attack before reinforcement arrive, we would be helpless."

The heart of little Red Goose was beating madly with excitement. He had listened to every word and had kept silent as long as he could. But now, stepping out in front of his father, he said:

"Me—Red Goose—son of Red Eagle—me go for Captain Sutter. Rest stay and protect Pale Face squaw."

"Well, bless my soul!" said the Sergeant. "There's a boy for you—a true son of Red Eagle! Thanks, Lad—you're a brave 'un, all right. But riding to the Agency is a man's job. You can stay here and help load the guns."

"Me young," replied Red Goose, "but can ride like wind. Red Goose not afraid."
"Um-m-m—" the Sergeant grunted. "So you think you could ride out through those Red Skins and get to Captain Sutter, do you?"
"Me go now," said Red Goose.

Bear Cat put his arm around the shoulders of the Indian lad, whose eyes were shining with eagerness and excitement, and said:

"What a brave young blade you are, son! Do you know the Agency is fourteen miles from here?—and you'd have to get through that whole tribe of Sioux to get there?"
"Me know. Me go now," said Red Goose.

"What do you think, Red Eagle?" asked the Sergeant, looking at Red Goose with admiration.
"Him blade of Red Eagle," grunted the Chief proudly. "Him come back—you see."

"All right, Red Goose. Go ahead," said the Sergeant. "Bring back Captain Sutter and reinforcements. Do you understand?"
"Me understand."

"Look out for the arrows, and God bless you."

Like a flash, Red Goose jumped on his pony—Bear Cat opened the gates—and in less time than it takes to tell it, the son of Red Eagle disappeared over the top of the hill, riding like the wind toward the Agency where Captain Sutter and his men were stationed.

Chiropractic For Health

Brownfield, Texas,
October 25, 1932.

Dear Folks:
I have had several bad attacks of Acute Rheumatism and have found that Miss Weldon gives the greatest relief in the least time of anything that I have ever tried. I have had her with my family for several years and have found her very conscientious and efficient in her work. If you have rheumatism, remember that chiropractic is the thing.

Yours truly,

"JIM WILL LET THEM GO." (MY APOLOGY)

By J. M. HALE

Poetry, more and better poetry, is coming thick and fast. Anything in prose or verse, to give Jim's gang a blast. They are mighty strong for Jim, this Ferguson gang you see, And when I ventured to tell the truth, they trained their guns on me. The Ferguson bunch are up in the air, and cry for "Ma" so bold, But they are ignorant of the facts, in Texas History told. The Fergusonites may cry, "dirty deal," but the facts in history stand, And we still say, down with the crooks, and give us instead, a man. I am asked to furnish evidence, in proof of charges made, You see it was these things set forth, that laid Jim in the shade. But since the facts are known by all, I need not here repeat, Jim's gang may put me on the run, but history will not retreat. The Texas constitution says, I've read it o'er and o'er, That the governors salary shall be four thousand dollars, and no more. When Jim accepted that money, from those six German Brewers in this state, He violated his oath of office, I here again repeat. They class us with the bolting cattle, pretty bad you see, And say that the Ferguson gang, are going to get rid of me. But in this the doctor is mistaken, for I love my Texas land. If "Ma" is elected governor, I'll be an American and do the best I can. You may class me with the cattle, or any sort or brand, But don't class me with that Ferguson gang, that I will not stand. I had rather be a Jersey cow, and be free by the law, Than to be lined up with the Fergusons, and have to yell for "Ma." A large Shepherd dog one day, was put in an awful tight, A little Texas skunk met him, and challenged him for a fight. Old Shep stopped and looked him over, and said that it wasn't fair, To get tangled up with a skunk, that he had rather fight a bear. So I am challenged by the Ferguson gang, to enter a political row, But to fight such gang as his, I have never yet learned how. And so like old Shep in my story, I beg to be excused you see, My friends will understand, I am sure, and not fall out with me. I am not a slave to any party, I've never joined any click or clan, I am a free American born, and claim to be a man. The right of self expression, is an American principle true, I demand this right for myself, and would not deny it to you. The Federal constitution, written by our fathers pride, States that the right of suffrage, shall to no man be denied. Therefore, no Democratic committee, or any other click or clan, Has the right to intimidate, the voters of this land. To vote for a party against my country, when a crook is the nominee, Is an act of disloyalty to my land, and smacks of treason to me. This is my mild apology, and I hope it will be enough, If the Ferguson gang gets on me again, I might get a little rough. But they say that Jim has reformed, and will make good this time, This we do not believe, for reformation is not in Jim's line. They compare him to the Virgin Mary, Christ and the patron saints, And say that if we will put him in again, that he surely will walk straight. All the skunks got together, in convention they did meet, And passed strong resolutions, that they were going to smell sweet. But the other animals did not believe it, they said that it was all a lie, For skunks have an odor you know, that will stay with them till they die. They may take the Atlantic Ocean and hang her out to dry, Pull down the moon and stars, from their places in the vaulted sky. All this may be accomplished, and we may live to see, But to make a saint out of "dirty Jim" would require all eternity. Jim Ferguson a patron Saint, that can never, never be? For he has sinned away his day of grace, take the truth from me. Texas is full of Democrats, who have always been loyal and true, Now say, Bullington we don't like your party, but going to vote for you. Jim's chances to win this race are slim, this his followers understand, Democrats are giving up the brass collar idea, and voting for the man. We need men these days, no crooks or traitors will do, Men of honor, men of brains and poise, and men of character too. When Judas becomes the patron saint, and Brutus the Roman Knight, When Benedict Arnold becomes the American, and Washington refuses to fight, When Christ becomes the traitor, and the Devil makes our laws, I'll then get on Jim's band wagon, and yell hurrah for (nothing) "Ma."

You are expected to be out on the Cub Field Friday afternoon with a good, clear voice and plenty vim behind it.

Thomas Thompson and sister were in Monday from the farm and reported that they had out 4 bales of cotton.

CHEVROLET MOTOR CO. "COMES OF AGE"

The coming week marks the "coming age" of the world's largest automobile company.

For, just 21 years ago—on Nov. 3, 1911—the Chevrolet Motor Company was incorporated in Michigan for the manufacture and sale of automotive vehicles.

The first car ever to carry the name "Chevrolet" came out of an upstairs flat converted into a workshop in Detroit, and now, a generation later, the name has decorated more than 8,000,000 radiators of cars and trucks throughout the world.

Today the Chevrolet Motor Company has a past record of leading the industry in sales in three years out of the past five. For the 1932 year-to-date Chevrolet registrations outnumber the second highest make by approximately 100,000 units, indicating another year of Chevrolet leadership and an increase in "firsts" to four years out of the past six.

Curiously enough, the first Chevrolet bore a basic resemblance to the modern product of the company in that Louise Chevrolet, famous race driver of another era, who did some experimental work on the first car and whose name it perpetuates, employed a six cylinder engine. The company's greatest comparative success came with this type of motor, built exclusively during the past three years, and now being copied by other entrants into the low priced market.

GOVERNOR STERLING SAYS HE CAN'T SUPPORT FERGUSON

In a statement last Saturday Governor Ross S. Sterling said he would not support Mrs. Miriam A. Ferguson in the general election next month. He said he was unwilling to turn the state of Texas over to Mrs. Ferguson and her husband, ex-Gov. James E. Ferguson.

"Knowing Jim Ferguson's record and having declared it to the people of Texas, I would consider it recreant on my part to cast a vote to put the government of Texas in his hands," the Governor stated.

"It is my understanding that it is generally conceded and frankly admitted that if Mrs. Ferguson is elected Governor here husband will dominate the affairs of the office and act as Governor in fact. In two campaigns for Governor I discussed the record of James E. Ferguson and made serious charges against him. Not only did I make the charges but I believe I submitted proof to 500,000 fair minded voters of Texas."

IS IT MASSED COERCION?

The Abilene Morning News suggests that the evident attempt of a huge concern to coerce its employees into supporting the Republican ticket, and Henry Ford's open appeal for his army of employees to support the Hoover banner, may be a backfire for the G. O. P. Political coercion of employees doesn't taste good to Americans, no matter for what party the coercers are manipulating. —Snyder Signal.

WE PREDICT ROOSEVELT BY AT LEAST 38 STATES

Texas will have a representative at the head of the United States Senate, when John Nance Garner becomes vice-president on March 4.

From close observance of the trend nationally, we predict that Roosevelt and Garner will be elected by pluralities in at least 38 states. And we believe this is giving Hoover a benefit of the guess.

We will not be surprised to see Hoover's defeat so great that he will carry not more than five states. Paste this prediction somewhere and read it again after November 8.—Lorenzo Enterprise.

SCUDDAY NEWS

The norther feels cool this morning after several beautiful days. We hope the weather will continue to stay pretty, so we can get to pull cotton.

It seems that Mr. Arnold is having a hard time trying to get oil from Hobbs, N. M. to make syrup with. The other time he went he had truck trouble and Saturday morning Sam Walters, Mr. Myers and Mr. Arnold left for another load of oil and had truck trouble and didn't get in until Sunday. They had to leave all the oil but one barrel at Seagraves.

Mr. and Mrs. Simmons, Mr. and Mrs. Wilson, Mrs. Myers and children, and Mr. Clay Warren ate dinner with Mrs. Sam Walters in the home of Mrs. Frank Walters Sunday. We had a real nice dinner and it was enjoyed by all.

Bro. and Mrs. Webb, Eunice Norris, Mr. and Mrs. Buckner and Mr. and Mrs. Robertson were dinner guest in the Aycock home Sunday.

The Zone meeting met Sunday Union was the only ones present. They took the attendance banner and we kept the efficiency banner. The next meeting will be at Union. Now lets everyone go and not let our zone meeting die. Just two or three B. Y. P. Us., can't keep it going very good.

Mr. and Mrs. Bullock from Union spent the day with her parent's, Mr. and Mrs. Young.

Mr. and Mrs. Alvia Brown's brother and sister from Vinson, came to see them Sunday.

Mr. Clay Warren left for San Angelo Monday morning.

Frank E. Givan, manager of the Gordon ranches, was down this week looking after business and dropped in to see whether or not the Herald had the Mabetis or Sterlingitis. Finding that we were not badly diseased with either, he changed the subject before we could find whether he was sick with Hoovercratis or was taking Rooseveltium.

The Herald is not trying to get any free publicity for itself, but it can't refrain from telling its customers that we now have some cotton content bond in stock, made in the south of southern pulp, and using a bale of cotton to every ton. Why not use this bond for your next order of letterheads and consume that much distressed cotton.

Methodist Missionary Society met at the church at 3 p. m. Monday. Mrs. Cook had charge of the study lesson, "Living Issues in China." Mrs. Carpenter made an interesting report of the Zone meeting at Seminole. The society plans to quilt at Mrs. Dee Elliott's home next Monday. Ten ladies were present.

BUYING GOODS FROM HOME PEOPLE

Much is being written these days about buying goods from home people, but unfortunately it is most generally confined to reasons why merchandise should be bought from home merchants to the exclusion of all other business transaction. However it is of more importance that the products of the farm and ranch be purchased by home people than it is that local merchants be patronized, and every one should have enough interest in his home town and community to patronize the home merchants in all cases. But when a dollar is spent for merchandise, at least 75 cents of that dollar goes out of the country to pay the first cost of the goods purchased, but when a dollar is spent for a product of the farm or ranch of the community, every penny of that dollar stays right at home.

Recently a complaint was made by the farmers living near Brownfield that although they were making a good grade of sorghum molasses, they were unable to sell their product to the Brownfield merchants who were getting their molasses from East Texas. The Brownfield merchants said in defense of their action that they were able to buy the East Texas products for a few cents less per gallon than they were asked for the molasses made at home.

But isn't that the reason advanced by the mail order customer for the purchase of his merchandise away from home? He is told that it is his patriotic duty to buy at home and thus keep his money at work in his home community—all of which is true. But should not the business man apply the same principles in his business dealings?

There are enough home grown products in Lea county to supply all the needs of all the people of the county during the whole year if the business men will make it a rule to buy nothing from out of the county that can be had at home.

Most of the Lea county merchants are buying Lea county products exclusively. They should be encouraged by the public to continue along these lines. Let all the people demand Lea county products of their merchants and thus help with the development of our country.—Lovington (N. M.) Leader.

PUBLIC IS WARNED OF TWO KINDS OF CROOKS

The Monthly Bulletin of the Retail Association gives some valuable information this week about a man who goes about over the country claiming to be a government inspector, confiscating canned goods, puts up by the people living in the rural sections. He enters a home and after confiscating canned goods, says that they are found to be faulty. He takes several dozen and makes his getaway. This notice is printed with the hope that it will be read by people of Terry county who might be visited by men of his type. If such an inspector should call at your home, notify the sheriff at once.

Another form of fraudulent work is that of a man representing himself to be a government currency inspector. He calls on business men ordinarily and checks paper money. He usually finds a bill of high denomination which is declared spurious. He takes this and departs. Better be on the lookout for such characters.—Bonham News.

WILD TURKEYS REPORTED TO BE PLENTIFUL IN HILLS

Reports from the Sacramento mountains indicate a plentiful supply of wild turkeys awaiting the hunters this fall. Feed is abundant and there is an unusually large supply of acorns which should insure plenty of fat game.

There will probably be a large contingent of Lea county nimrods going into those mountains for a Thanksgiving turkey.—Lovington (N. M.) Leader.

A visitor in our office this week told us that he had visited Lubbock and other towns lately where considerable cotton had been harvested, and that while the people were buying right along, he did not find them thick in the stores that feature only high priced goods. They are, he said buying inexpensive materials, and as much cotton materials as will meet their needs, in place of silks and

rayons. Well, what's the matter with that.

Mrs. Uyles Sawyer was over this week from their ranch in eastern New Mexico, visiting relatives and making fall purchases. She reports that a lot of the ranchmen supported Hoover four years ago, but will vote the Democratic ticket this year almost to a man, and this includes the ladies as well. She says that she has had opportunity to see a lot of these ranchmen and their wives lately and hear them express themselves.

Bro. and Mrs. Tharp are expected home Thursday from Sweetwater, and will fill his pulpit next Sunday.
