

The Essentials of Farm Legislation

From an address of Congressman Marvin Jones, delivered at the Columbia network, Saturday evening, March 18, 1933.

The beginning of the new Administration is a turning point in our country's history. After passing through a trial by fire, the American people are getting the national viewpoint. Selfish forms are being discarded and individuals are beginning to realize that their own interests are bound up with the nation's welfare.

The most important step right now in the farm program is to have an adjustment and refinancing of farm mortgages. A program is being now worked out, and action should be had as early as practicable. I hope it may be broad enough to relieve the tremendous emergency in this regard. This Republic is anchored in the farm homes of America. Nothing is of greater importance than to save these homes from foreclosure and to preserve these happy firesides that have been the bulwark of national safety.

The farm problem, however, is so complicated and involves so many different commodities that no one method can be depended upon to bring full relief. Methods must be devised to raise the price levels of farm commodities. These low price levels have almost destroyed farm purchases, and the stagnation thus produced has had in turn a paralyzing effect upon industry.

The President has shown his understanding of national problems by urging emergency action for agriculture as one of the primary steps in his immediate program. He realizes the importance of the farm problem and has turned his attention in that direction.

It is his intention to try "an untrod path" in an effort to avoid the difficulties which will result if another year of planting gets underway before something is done. The relief measure which he advocates is admittedly an experiment. While I am not in accord with some of its provisions, I am supporting it because we must have action in these trouble times.

This emergency legislation may be able to relieve immediate conditions while the groundwork is being laid for the thorough, long-range program which must be instituted if agriculture is to rise once again to the level of other industries where it deserves to be.

In addition to the adjustment and refinancing of farm mortgages, other phases of the permanent farm program involves adjustment of trade barriers, the correction of freight rate discriminations, the curbing of excessive speculation in farm commodities, an adequate currency on a sound basis, and the reduction of expenses of government.

If the discriminations which now exist are corrected, the cause of the trouble will have been removed and the greatest possible step will have been taken to restore agriculture to its proper place in the affairs of the Nation.

The upset condition of our country calls for a strong program of readjustment, a reassembling of our national elements of strength, and a rededication of all that is best in the character of our citizenship.

Some few people are complaining of the measures made necessary by the great emergency. The powers that are being granted to the President could not be justified if times were normal, but these are not ordinary times.

No one within a generation has captured the imagination of the people of American like President Roosevelt. They are thrilling with the confidence of a new hope—a hope born of courage and the willingness to follow a leader who is unafraid.

Like millions of other Americans who have pinned their faith in him, I believe he will lead us out of the darkness into the full sunshine of a new day.

A Dime a Democrat Is the Texas Quota

A dime a Democrat is the quota assessed Texans by the Democratic National Committee. The Texas National Democratic organization of which Roy Miller is director, Senator Margie Neal, co-director, and Frank Schofield, finance director, has assumed the task of raising the \$75,000 deficit, which is 10 percent of the \$750,000 deficit of the Democratic National Committee.

This rather formidable sum is proportionate to what Texas has received and expects to receive at the hands of the Democratic party, it was said in a statement released by headquarters in Austin.

The amount requested from Texas was approximately one-tenth of the number of Democratic votes cast in Texas last November. In determining the quota for each county the Texas organization decided to allot the quota in proportion to the votes cast. Ten cents for each Democratic vote approximates very closely the sum expected from Texas.

There were 1447 votes cast in Terry county. The quota therefore is \$147.70.

"Every Democrat in Terry county ought to feel that the New Deal is worth at least a dime to him," Frank Schofield said. We are now advising county chairmen of the sums expected of them and anticipate no difficulty in raising Texas' part of the party's debt.

Chevrolet Sales Beat Same Month in 1932

Chevrolet dealers in the second ten days of March reported delivering to consumers 10,006 new cars and trucks despite the existence of a national banking holiday through much of the period, H. J. Klingler, vice-president and general sales manager of the Chevrolet Motor Co. announced today.

In the comparable period last year reported retail sales were 10,378 new cars and trucks. Owing to the difficulty in getting cars to dealers because of lack of facilities for clearing drafts, stocks of new cars in the field was reduced 3477 units in the second ten days of the month, Mr. Klingler reported.

"In both January and February we exceeded our retail sales of last year by a comfortable margin."

To Have Another Big Oklahoma Feed Friday

M. C. Chambers was in Monday after supplies, and to take in Tuesday. He informed us that the Terry county Oklahoma colony would pull another big feed today week at the Jack Bryan ranch, and that again Jack would be the chef in making the pot roasts, coffee and son-of-a-gun and what have you. Well, you that fed out there last spring surely remember what a feed it was, but we want some of the men to hide some of the tallor as Jack got his "gun" to salty last year.

However, this year the feed will be free in a way again, but not entirely. A small charge per family will be made and this sum will be donated to their pastor out at Forrester. The amount will be so small you will not miss it and goes to a good cause.

MARRIED

Jimmie Jones, son of Mrs. S. W. Jones, and Miss Naomi McLeod, the charming daughter of Mr. and Mrs. J. H. McLeod, both of this city, went to Lovington, N. M., last Saturday, where they were united in marriage. Both are very popular with both the young and old folks of the city, and are receiving the congratulations of their many friends. They will make Brownfield their home.

W. M. DuBose, called while in the city Monday, to renew.

I'm Telling You!

IF THE GAS TAX WERE USED FOR ROADS ONLY, 2,000,000 CHILDREN WOULD GET ENOUGH TO EAT—

Our word "ROAD" comes from the Anglo-Saxon "RAD"—meaning "RIDE"

The School and City Elections Very Quiet

Unlike a year ago when the city and school elections got red hot, and several hundred votes were cast in each, this year was a tame affair in comparison. However, enough votes were cast to show that the people have not lost sight of an interest in the affairs of either. We failed to get the vote in the trustee election, but was informed by someone who had informed themselves that R. A. Simms and E. L. Redford were the two high men, and declared the two to be elected.

The city election Tuesday of this week brought out 137 qualified voters, according to Jim Miller, who was the presiding Judge at the election, compared with about 400 votes that were cast a year ago, when a mayor, city marshal and two or three councilmen were elected. The high men ran as follows:

Homer Nelson, 107; Cecil Smith, 94; Marion Craig, 79; Bruce Knight, 73; Tom May 52. The three high men, Nelson, Smith and Craig are the new councilmen. Craig was re-elected for a second term.

Farm Board Abolished By President Roosevelt

Washington.—President Roosevelt, Monday issued an executive order, which in effect abolishes the Federal Farm Board, and sets up in its place a farm credit administration in which will be centered all of the government's agricultural credit agencies.

Immediate saving of \$2,000,000 and establishment of a "sound permanent or co-operative agricultural credit" are contemplated in the order, the first issued under the sweeping powers of reorganization given Mr. Roosevelt by the special session of congress.

The order will become effective in sixty-one days unless vetoed by Congress which gave Roosevelt the power he is now exercising. Veto is not anticipated even remotely.

Henry Morgenthau, Jr., selected by President Roosevelt to head the Farm Board, becomes governor of the new Farm Credit Administration.

In this fashion then, the Farm Board set up by the Hoover administration answer to the farm relief program passes into discard after a career of spectacular attempts at price pegging in cotton and wheat. The stabilization operations, forbidden under the new organization, cost the government some \$500,000,000.

Back to a Seven Column Paper Again

They say that the leopard never changes its spots, but the Herald certainly has been doing plenty of size changing in the past four years, and if business don't get better soon, we may be able to handle the printing on a job press. But we are not bellying. We are doing as well as most of the other citizens here we presume.

For some ten years the Herald was a standard six column paper up to the fall of 1929, when it was changed to a seven column. Last year business fell off so much we had to go to a six again, printing eight pages without the waste required of a seven column eight page. But business just kept getting "worse" instead of better, until now we have to print four pages a great deal of the time. A paper is and has to be just as large as the support it gets.

But, we find that four pages of a six column does not give us enough space ordinarily, even of a poor advertising week. So we are going back to a seven column and print 4 pages until business justifies a larger paper, which we do not expect before fall at least. Four pages of a seven column gives more inches than five pages of a six column does.

We hope the readers will like this new arrangement, and bear with us until times are normal or better and we can give them a normal times paper. As usual for the past few months, the readers will get the magazine section once a month.

Local Schools Asked To Send a Speaker

The Brownfield High School has been asked to enter a student speaker in the annual My Home Town Contest at the 15th annual convention of the West Texas Chamber of Commerce in Big Spring, May 11-12-13th. The entry blank and rules of by Supt. A. B. Sanders from C. M. Caldwell, chairman of the contest.

Contestants must be high school students and each town may select its contestant in any way it desires. The speech must be original, and about the home town of the student. The rules provide it shall not contain poetry, and shall not be over five minutes in length. A loving cup is offered the winner.

Mr. and Mrs. Red Tudor visited her parents, Mr. and Mrs. Sam Dixon of Plains, last week.

Tech Prexy Defends School's Enrollment

Lubbock.—Dr. Bradford Knapp, president of the Teas Technological College, has released the following statement regarding the enrollment of the institution:

"Recently statements have been made that the University of Texas is the only state institution increasing its enrollment. This statement is not true as for as the Texas Technological College is concerned. The total enrollment for the regular session at Tech from September 1, to date is 2,323. The enrollment for the sessions of 1931-32 was 2,153; for the session of 1930-31, 2,319; for the session of 1929-30 2,353; 1928-29, 2,088; 1927-28, 1,632; 1926-27, 1,535; 1925-26, 1,043.

"The slump in the enrollment at Texas Tech for the year 1931-32 was 200 below the highest enrollment in any year, namely 1929-30. The enrollment for the present year lacks only 30 students of being equal to the highest enrollment in the history of the institution. The increase in enrollment of 1932-33 over 1931-32 is 170 students, which is practically 8 percent. Thirty-four percent of the student body are taking courses in agriculture, engineering and home economics. On the basis of full time students, the percentage is higher because students in technical divisions take the full course of study more uniformly than students in non-technical courses."

Scout Troops to Hold Court of Honor Tues.

A big majority of the scouts in Troop 19 are just beginning the game of scouting and will receive their first awards in this Court of Honor.

The parents of the boys are especially invited to come to this program that honor their boys. There is nothing that will inspire a boy more than to have his dad notice the things that he is making a success of. The program for this occasion is as follows:

Brownfield Wins Two League Championships

At a meeting of the executive committee of the Terry County Interscholastic League on Monday afternoon at the Brownfield High School it was decided that Brownfield had won the class A high school championship and Brownfield Junior High the Ward School Championship.

It will be remembered by the Brownfield High School that the Meadow High School was close on their heels all the time for the Class A award. It appeared for awhile that they might take it back home with them but the final count of points shows Meadow 239 1/2 and Brownfield 265. Meadow was particularly strong in literary events this year. Having won a few more points than Brownfield, in literary events, the Meadow group is to be congratulated. They really made the work interesting and the contest close. It should be recalled, out of fairness to Meadow, that they participate in class A voluntarily in order to make the County meet interesting and permit the smaller class B schools to enter into competition among themselves. This is a great contribution to the success of the meet and the Meadow folks are showing an attitude of good sportsmanship by so competing.

The events of class A high schools and the winning schools are as follows: Senior Track Brownfield 1st, Meadow second; Senior Boys Declamation, Meadow 1st, Brownfield second; Girls Declamation, Meadow 1st, Brownfield 2nd; Volley ball, Meadow first; Boys tennis doubles, Brownfield 2nd; Girls tennis Doubles, Meadow first; Girls tennis singles, Meadow first; Boys Debate, Brownfield first, Meadow second; Girl's Debate, Brownfield first, Meadow second; Extemporaneous speech, Brownfield first, Meadow second; Extemporaneous Speech Girl's, Meadow tied for first and Brownfield third; Essay, Meadow first, Brownfield second; Spelling, Meadow first, Brownfield second; The Junior events and results were as follows: Junior Track, Brownfield second; Boys Declamation, Brownfield 1st, Meadow second; Girl's Declamation, Meadow first, Brownfield second; Junior Boys Playground ball, Brownfield first, Meadow second; Junior Girl's Playground ball, Brownfield first, Meadow second.

In the Ward school division there were 5 schools that participated, viz. were Wellman, Meadow, Union, Gomez, Brownfield Grammar, and Brownfield Junior High. The competition in that field was rather strong. Brownfield Junior High won by a good majority over the closest school. The winners in order were; Brownfield Junior High, 1st with 249 1/2 points, Meadow Ward second with 192 points, Brownfield Grammar, 3rd with 97 points and Gomez with 90 points and Union and Wellman with 62 1/2 points each. This is the second year that the junior High has had the Ward school cup.

The Class B High School contest was a hot one also. Gomez won from Union by the small lead of 3 1/2 points. Gomez won 127 1/2 points to Union 124. Wellman came for 3rd and last place in this class. Her record was credited with 100 points.

The Rural school division was the largest in the County meet. There were ten schools participating in this class. The schools were Forrester, Harmony, Hunter, Johnson, Lahey, Midway, Needmore, Prairie View, Scudday, and Pool. Lahey won the cup with Forrester a close second. The points were Lahey 157-1-2 and Forrester 152. Scudday came in third place with 140 points. Needmore crowded Scudday for 3rd with 133 1-2. Prairieview, winner of the cup last year, scored 127 points this time. The remainder of the schools mentioned above made good records in the meet.

We failed to learn last week that a fine little daughter was born to Mr. and Mrs. Howard Swan on the 21st ult.

W. W. McGee of the Meadow section, was here Monday and called on the Herald.

What's The Matter With Texas?

By S. W. Adams—Room 65, Driskill Hotel, Austin

I was busy last week with the plans and details of the meeting in Austin, for the purpose of organizing a Texas Weekly Press Association. So did not send out my weekly letter. I hope to keep it up from here out, until the legislature adjourns.

Legislation stumbles along with anomalies spattering its pages in profusion. Here's what a number of the boys are saying: "We are prolonging the consideration of the appropriation bill because in this way we can keep them from taking up time and probably passing bad bills." Then another says: "We are certain of a special session, for the Governor has said the defeat of the pari-mutal horse-racing bill and the small chance of passing his sales tax bill will make it imperative that she call a special session."

The dabbling in business of the State thru ill-advised legislation, and the creation of boards and bureaus and commissions, is the most serious trouble with Texas. Our constitution seeks to protect all classes, but our Legislatures are busy passing laws giving special privileges to special groups, which completely set at naught the constitution.

We create commissions and boards to "regulate" groups in the interest of the people; then turn right around and permit these boards and commissions to fall into the hands of groups we sought to regulate, and they then function for the groups and always against the people.

Take our Insurance and Banking Boards, our railroad commission—all of them, and when you get underneath their functions, you find that they serve the groups they are supposed to regulate. I do not know a single board or commission down here that is not an impediment to right governmental functions, and is not in the hands and under the control of those they are created to control and regulate.

Take the greatest oil field in the world. The entire time of the rail commission and the army and the Legislature has been devoted to the protection of the oil men, in total disregard to the consuming public. All the machinery of the government for two years has been directed to the task of giving profits to a bare 150,000 people, at the expense of six million in Texas.

No government was ever rightly administered through boards. Texas would be infinitely better off if every board, bureau and commission was destroyed, and then, by simple statute, guarantee that every man shall have equal rights before the law, and no one is granted special privileges.

With apologies to Abe: We have a government of the Boards, for the Bureaus, and by the Commissions.

Luther Nichols, noted Dallas attorney passed away last Saturday, rather suddenly, although comparatively a young man.

We have asked this same question on former occasions and now ask it again, but have never been accommodated with an answer: Why does our government spend four or five million dollars on an airship that cannot ride the elements in inclement weather?

For the life of us we can't understand while the American people have run after that silly British jackass, George Bernard Shaw. He only comes over, it seems to us, to make light of and criticize Americans and American methods, and to tell us how ignorant and superstitious we are.

er read his books, for he is strictly a critic, and we can hear enough criticism on the streets any day to suit us. We like to read something of a constructive nature.

The Mexican people don't seem to like President Roosevelt's choice for ambassador to that country, and in fact they make it quite clear that they will not welcome Josephus Daniels to that country.

Fill'er up with Conoco Bronze!
Illustration of a car and people.

Nicknamed! that's what happened

THE contest for a name and slogans for Conoco's new gasoline is over. The winning name and slogans have been selected and awards made to the contestants listed here. More than half a million good friends tried sincerely to help us, and we are grateful to all of them for the names and slogans sent us, each of which had a careful reading and consideration. Even though we have selected and paid for a splendid name, we find we cannot use it or any of the many hundreds of good names submitted. Here is what happened: Personality always wins a "nickname." We never thought of that in our anxiety to get a good name for an outstanding gasoline. Bronze was used as a color to make this new gasoline distinctive and to protect our customers. It was liked by everybody—they, you, everybody called it Conoco Bronze. So, try as we might, we couldn't change now. It will always be known as Conoco Bronze. It had too much personality to avoid this popularity rating—"nicknamed!" Therefore, conforming with contest rules, we are using a name of our own creation, the name used in all the contest advertisements—"Conoco Bronze"—even though it is not the name for which we paid \$5,000. Each user of Conoco Bronze gets a perpetual prize of instant starting, lightning pick-up, greater mileage and power—for it is a great gasoline.

OUR 23 YEAR COLUMN

We note from the Meadow news in our issue of April 9, 1910, that Henry George of Gomez had called and addressed the school. That two of the Way children had undertaken to ride a horse to school that had ran away with them to a buggy several times, but the horse fell with them and still other arrangements had to be made. Dehorning was the order of the day at nearby ranches. At Fride; They had a shower the past week. Farmers were preparing to plant corn. The school at Fride was to close the coming Friday. J. K. Epperson had purchased a 224 egg incubator. A pound supper at the J. T. Turner home Friday night. Snakes were beginning to crawl. On the first page, Prof. L. F. Fouts of St. Louis gave instruction on how to find Halley's Comet that had just appeared in our sky.

On the second page it was reported that Luther Steele of Groom, Texas, had purchased 3,000 head of cattle from Clarence Schaubrough of the Five Wells ranch in Gaines County. Consideration of \$117,000 or \$39 around. A bunch of business men had met and designated the first Saturday in each month as Tradesday. Neill and family. Henry French had accepted a position with the Spencer & Spencer Abstract Co. Luther French remarked that the telephone wires were so crossed that week that a lady ordered a pound of butter and got two tickets to the school play at Gomez. Rev. Victor Trammel had returned from Aspermont, where his sister, Mrs. Lipscomb had died of typhoid fever.

Class Meeting The Sophomores had a class meeting last Thursday to decide about another entertainment. We finally decided after much confabbing, to have a weiner roast at Salt Lake.

We are going to leave about 3 o'clock Saturday, April 8, and have our fun about sundown. We haven't decided how we are going to get out there, yet, but by our next meeting we will have decided.—Soph. Reporter.

Junior Sale The Junior class put up a stand Thursday and sold peanuts, candy, chewing gum, soda pop and Eskimo pies to the contestants and onlookers of the Interscholastic meet, Friday and Saturday, Mar. 31, Apr. 1.

They sold enough to at least keep busy although many of the "supposed to be customers" were only visitors. Maybe, instead of giving our Seniors a weiner roast, we can afford to give them a jolly good old banquet.

Thanks to all who helped us to put over this sale.

Junior Reporter. Christine—"Gee, that popcorn smells good."

Red Goose-The Ojibwa

An Indian Story for Boys and Girls By Carlyle Emery Chapter Three Story No. 22

Red Goose, son of the good Ojibwa Chief, Red Eagle, had received five eagle feathers for bravery—one for saving Betty from the prairie fire—one for killing the blacksnake that threatened the Captain's daughter—one for saving Fort Ridgley from the attack of the Sioux—one for riding the Iron horse, and one for escaping from the hostile Blackfeet Indians. This gave him more eagle feathers than any other boy in the Indian tribe.—Now go on with the story.

Shortly before Red Goose returned from the Blackfeet country, the Commander of Fort Ridgley said to Bear Cat:

"Tell me, Bear Cat, how are the provisions lasting? Do you think we will be able to get through the winter with them?"

"No, Captain Roberts, I'm sure we won't," answers the Bear Cat. "The prairie fire destroyed all the crops for miles around. In another month, most of the food will be gone."

Red Goose Learns He Will Go to Saint Louis.

"Then we'll have to send a group of men down the river to Saint Louis for supplies. We'll leave a good company here to protect the fort."

"Shall I select the men to go, Sir?"

"Yes. Pick twelve good men for the trip. We'd better plan to leave right away."

"Yes, Sir! I'll make arrangements at once, Sir."

"Good! Report to me as soon as you are ready." Then, turning back to the stockade, Captain Roberts met Red Goose. "Hello there Red Goose!"

"How?"

"Where is your father, Red Eagle?"

"Red Eagle at Council Teepee in Village."

"Good! How would you like to take a message to him for me?"

"Red Goose take message."

"Tell your father we are going to send a party down river to Saint Louis for supplies, and we want him to go with us as a guide."

"Red Goose understand."

"And tell him I said you could come along, too."

Red Goose tried to hide his pleasure at the thought of a trip down the river to the big Pale Face Village, but his eyes were shining with happiness when he delivered the message to his father.

But when Little Beaver heard about Red Goose going away on a long trip down the Mississippi, her disappointment was keen.

"Little Beaver wishes she could go, too," she said as she watched Red Goose making preparations to leave.

"Little Beaver mustn't mind. Red Goose will bring back a nice present from the big Pale Face Village."

"Red Goose won't forget?"

"Red Goose never forgets."

And so, the brave little son of Red Eagle set out on another adventure that was to be filled with plenty of excitement before he returned.

Comparison of "Life in the Country as to Life in the City."

I have lived in town only a few years of my life; maybe that is the reason that I prefer country life in general. Whether true or not, both soul and mind seems to be more free in country.

In the country we have our wide open places such as our meadows or pastures, fields, orchards, while in the city the houses are so close together, they have no room for orchards, green meadows, fields no room which to raise pets, no place to hunt while in the country they can have their pets such as the horse, dog, cat and pet chickens.

The mind is not always crowded with street scenes, increasing happenings, numerous entertainments to attend, but it meditates hour after hour in the afternoon, studies nature, selects worthwhile readings, builds air-castles, and dreams of the future. Then when twilight descends and the gorgeous rays of white moonlight almost change the rolling prairie land into a fairyland.

This simple quite beauty cannot be described as felt by someone on her pet horse on the top of the sloping hillside, and is not disturbed by the buzz and hum in the city.
