

## North Terry and Hockley County Dry

E. C. Roberts and wife of Seagraves, came up Saturday night, as the writer, wife and Jack Jr., were to leave early Sunday morning for Sudan, to pay a visit to Cleve Holden and family, who is a brother of Mrs. Stricklin and an uncle of Mr. Roberts. The Stricklin family were guests of Mr. and Mrs. Roberts for the trip. We left here early, very early to us, in order to make the trip before it became hot, and in order that we would have plenty of time to see the country as we rode along.

One does not get many miles out of Brownfield north, until you find territory that did not get much rain three weeks ago, and they have nothing up, but many of them seem to have dry planted, and are keeping their fields free of weeds. When and if a rain does come, they are ready for it, and will have stuff up in a few days, unless they get a packing rain. There is a small scope of country around Sundown, just over the line in Hockley county, that has both cotton and feed crops up, and looking fine. The rest of Hockley county, or what we saw of it, seemed to be dry.

In going, we turned due north at Levelland, instead of going by Littlefield, coming out near Amherst into highway no. 7. We arrived in Sudan a half hour later, having covered the distance in about two hours. The folks were not looking for us, but immediately got busy, and soon had a freezer of ice cream to refresh us, and a fine dinner started. We were later shown over the fine little city of Sudan, with its good stores, nice residences with well kept lawns, splendid school buildings, and what have you.

Returning, we came back via Amherst and Littlefield, stopping a few minutes in the former to say howdy to Mrs. Eli Perkins, formerly of this city, and other friends we have met there, including Mrs. Morris and Mrs. Daniel. Eli was over at Littlefield punching golf balls. This was our first trip up into the little city of Amherst, as it is off the Highway about a mile, and we found it to be a very fine place with good stores, homes, and schools.

We reached Brownfield about eight P. M., tired out but appreciated the enjoyable trip very much.

## Telephone Company Pleased With Work

Just before the first of the month, the Herald job department printed and delivered to the Southwestern Associated Telephone Co. exchange at this place, a supply of new directories to be used by their subscribers at this exchange. We are sure that by this time they are in the hands of the subscribers.

Miss Laura Jones, local exchange manager for the company, informed us this week that the company officials were well pleased with both the material used and the printing of this directory. This company is now issuing a directory every six months, and rightly so, for a directory will become obsolete by many changes in a time longer than that, and are almost worthless for information.

Another good thing (we think) about the Southwestern, is that they are now giving all this work to the home printers over this section, and that means several dollars for directories, etc., that is left in the home town of the exchange that has formerly been going to printers in the larger cities.

And, the company officials say they are getting good jobs of printing, on specified materials, with less errors in names and numbers and at prices well in line with big city job printing prices.

The Tahoka News tells us that the Ford dealer, Mr. Connally of that city, is now the Chevrolet dealer also. It isn't often that the two are under one firm.

P. R. Cates of Wellman, was up this week and handed in \$1.00 subscription.

W. J. Baldwin and family are entitled to a pass to the Rialto Theatre to see "Fourth Horseman" Be sure to present this clipping at the box office at the Rialto Theatre. Compliment: Rialto-Herald

## Funeral Home Opened On East Main Street

In company with Roy B. Collier, embalmer and funeral director of the undertaking department of the Brownfield Hardware Co., we visited the new funeral home he has opened on the ground floor of the Downing Apartment, which occupies the entire section of the west half of the ground floor. This building is easily reached from any part of the city, near all the churches, and has lots of parking space, and near a city street light.

Entering the front way, one first enters a nice bed room. This is for the convenience of the mother, sister or other female relatives of the deceased. It is well arranged and furnished with pleasing furniture, as nice as most modern homes. Lots of ladies don't like to be forced to stay around the store, is the reason Mr. Collier has fitted up this home.

One next enters the room where the body lays in state. Instead of the usual cooling board, a nice little bed is prepared for the dead, and appropriate furnishings and pictures in keeping with the solemnity of the occasion, adorn the walls. This room can be locked from the others, in case Mr. Collier thinks best, and secures the corpse from public gaze.

From this room, still moving north, one enters the operating or embalming room. This room is fitted with hot and cold running water, and it makes Mr. Collier's task much easier than at the store, where he had to run down and up stairs every few minutes. So much handier is it that aside from being more convenient and homelike to the bereaved, Mr. Collier informed us that he was able to make a substantial reduction in the price of embalming.

Entering a hall way from this room, one has access to the lavatory and bath room, where modern washing, bathing and toilet facilities are available.

The casket display room will still be maintained at the store and no stock will be kept at the funeral home. As we stated above, the funeral home is convenient to all the churches for funeral services, but should the relatives of the deceased desire a private chapel service, that can be arranged for in the same building.

Brownfield being the center of a large trade territory, it has stood in need of just such a place as this general home for some time, and Mr. Collier and the Brownfield Hardware Co., are to be thanked for making it possible to have this privacy for bereaved people who do not live here in town.

## Harp Singing Convention Been Called Off

W. P. Elmore, President of the Terry County Harp Singers, and C. Sears, one of the best singing convention listeners in seven states, two of the men that had much to do toward bringing the North and West Texas Sacred Harp Singers Convention to Brownfield this year, visited the Herald office Saturday afternoon for a few minutes.

They appeared very sorry to tell us, that under present conditions in this section, they thought it wise to ask release from entertaining the convention this year. The president Mr. W. H. Free of Abilene, will understand, ask that Abilene entertain the singers instead.

Messrs. Elmore and Sears asked us to announce for them that they appreciated the encouragement they had received here and throughout the county, as well as for promises to help entertain.

Their reasons for turning down the convention are entirely logical. When they asked for the convention last summer, they expected of course that when the convention met here early in July this year, all crops would be planted and worked out. As it is, the stuff is just beginning to come up, and in some sections of the county, they have only dry planted, or haven't planted at all.

If no more rain comes, the people will be too blue to properly support a convention of this size, and if rain does come, only town people and no farmers will be able to attend. The farmers will be planting day and night with Sunday thrown in.

Howard Miller and wife of Stephenville, were up the past weekend as guests of their friends, Kyle Graves and family. Mr. Graves states that Mr. Miller and his father are among the largest hatcherymen in Texas.

A number of wells now are producing oil from beneath the ocean's floor off the Pacific coast.

## A Key That Always Fits

## Large Brokerage Firm Puts in Exchange Here

Messrs Jackson & Hannah, Brokers in Texas, with offices at Hillsboro, Corsicana and Tyler, have added Brownfield to their offices, with Mr. W. W. Rice as local manager.

This firm has as their correspondent, Messrs. Beer & Co., of New Orleans, who are recognized as most substantial and reliable brokers, having established business in 1872, when the New Orleans Cotton Exchange was established, assure Jackson and Hannah, and their clients unexcelled facilities. Mr. Rice, having been connected with the brokerage handling business for other firms and himself, as a member of Exchange since 1899, is in a position to handle business for clients in a most satisfactory manner, being familiar with stocks, grains and cotton.

Mr. W. G. Terry, known locally, will assist Mr. Rice as operator and otherwise.

## Local Negro Team Flays Ralls Sunday

Ralls sent a very strong colored team down last Sunday, but they were unable to get and hold a lead on the hefty Brownfield Tigers, and the game wound up with a close score of 5 to 4 in Brownfield's favor after a very exciting game. We did not learn whether or not the locals team have a game matched for this coming Sunday.

An unusually large crowd was on hand to witness the game, mostly white people. It was reported to us that cars almost entirely encircled the field. If we are not mistaken, the locals have won five out of eight matches this season.

## A Red Circle Around Your Name Means—

that your subscription to the Herald has expired, and that we are asking you to renew at once. The Herald does not get fall time on paper, ink or labor bills. They even insist on cash for postage at the postoffice. So if there is a red circle around your name, we ask that you come in at once and renew. If you can't spare a dollar, 50c will put it up till fall if you are not too much in arrears.

The red pencil will not apply to those who get their papers in single wrappers, will be notified by letter. As an accommodation, the Herald will accept a limited amount of shelled corn, shelled or maize head. Don't need much as we just have a few chickens to feed. Will allow a little better than market price for either corn or maize.

A barking dog seldom bites.

## Government Accepts Gift of Palo Duro Park

Years ago an old Panhandle pioneer had visions of a great national highway extending across the nation from east to west. That highway was pictured as coming through Medicine Park Oklahoma thence thru Palo Duro canyon and on by the Carlsbad Cavern and the Grand Canyon to the Pacific coast, that dream or vision is rapidly coming true at this time.

Palo Duro (hard stick) Canyon long known as the "Baby Grand" because of its similarity to the Grand Canyon, is the most outstanding scenic wonder in the great Lone Star state because of its many advantages, and because of the striking contrasts of flora and artistic coloring given it by nature as contrasted with the level surrounding plains.

Little more than a week ago the owners of the B. S. Arnold ranch comprising of 14,466 acres, agreed to convey title to this land to the federal government if it would be made into a national park at once with the establishment of three forestry camps. The offer was accepted.

## Lumber Company Remodeling Offices

The Cicero Smith Lumber Co., are tearing out a petition in their office building back some 50 feet, and are remodelling it into a modern store and display room. The walls and ceiling will be covered with sheet rock and painted the new style of varicolored paints. A small stock of wallpaper will be added to their paint department.

Martin Line, bookkeeper, stated that the time had come in the history of merchandising that one has to both display and price their wares to sell them. People have about quit inquiring for what they want. If they don't see it, they decide you don't have it, and go elsewhere. The bookkeeper's office will be moved nearer the center of the building, giving much more display space next to the large plate glass front.

## Ralls Farmer is Victim of Suicide

Ralls, June 10.—Herbert D. Clark, 29, a farmer of the Savage community, 10 miles southwest of Ralls, was found dead in a cellar at his home about 6:30 o'clock this morning. A single-barrel shotgun was beside the body.

F. M. Reed, justice of the peace, who investigated the death, returned a verdict of suicide.

Our old friend, Sam Davison, of the Meadow section, was down Saturday morning around with the crowd. Sam still has a smile.

## Last Four Cars of Steers Go to Chicago

A. M. Brownfield was in this week to tell us that just a threat to advertise for his stray saddle horse had brought results. Dick was in last week too late, but gave orders to run the ad this week, if he had not found the horse. The steed was found down about Lahey, and a farmer was using him to plow. Dick don't think he will stray off again soon for fear that he will be put to work.

Dick informed us that the last four car loads of the steers he has corn fed this winter and spring will leave here today, billed direct to Chicago. His son, Lee and John L. Cruce will go along with the steers and take in the World's Fair while away. Dick and the rest of the family will go through by auto and join the boys in Chicago, and all take in A Century of Progress together.

Asked if the steers had made satisfactory progress, Dick informed us that most of them had, but remarked that there was always a few in every herd that did not seem to respond to feed as they should.

## Judge Barret Heads No. 137 Association

The new president of the Highway No. 137 association, which elected officers here Wednesday afternoon is County Judge Jay Barret of Terry county.

W. H. Collins of Brownfield was named secretary, and J. T. Long of Odessa, Roy Carpenter of Andrews, J. W. Childress of Seminole, W. W. Price of Brownfield, and Durwood H. Bradley of Lubbock, with the president and secretary, will serve as directors.

## Paving Is Sought

Object of the association is the paving of highway no. 137. The section through Terry county is unpaved, but grading and drainage structures from the Lubbock county line to Brownfield have been completed.

Lubbock representatives at the meeting were Carl Slaton, M. D. Ratliff, A. B. Davis, and Durwood H. Bradley.—Lubbock Avalanche.

## Debtor Nations Given Formal Notice to Pay

Washington, June 9.—Notes were dispatched tonight to all of America's debtor nations reminding them of their payments due next Thursday.

This is a practice that has been followed previously to all due dates. The notices were prepared by the treasury department and sent through the state department.

The communications were identical. The state department declined to make public the texts.

## Red Cross Swimming Classes to Start Mon.

Arrangements are being made to start two Red Cross Life Saving and swimming classes in Brownfield on Monday morning, June 19. Provided there are enough applicants, the girls' and women's class will begin at 8:00 A. M. Monday, June 19th. We must have at least sixteen girls and women from ten years old, up and not more than twenty five in the class. Those who are interested will register with W. H. Dallas, Secretary of Local Chapter, and pay him \$1.00 for the privilege of the pool for the entire period of ten lessons. The first twenty five to register with Mr. Dallas will be the class. No late registrations will be had. If you want this work be sure to register by Saturday afternoon June 17th.

The boys' and men's class will begin promptly at 9:00 A. M. June 19. This class will have the same regulations as to number etc., as the women's class. The registration fee will be the same and must be paid to Mr. Dallas the same as above.

The instruction in this work will cost you nothing. It is being given as volunteer work by the local Chapter of the American Red Cross. The work will be under the direct supervision of A. B. Sanders, local Life Saving Examiner for the Red Cross.

Those who can complete the beginners course and pass the test will be awarded the Beginning Swimmers button. Those who pass the swimmers test will be awarded the swimmers award. If there are those who are able to pass the Life Saving test they will be awarded emblems of that achievement.

## Fugitive is Blamed For Theft of Car

Tahoka, June 10.—A 1929 model coupe, stolen here last night, was believed to have been used by all or part of several men who escaped from the Lynn county jail.

The automobile was stolen from a garage at the Ray Richards residence in north Tahoka. The coupe was reported in Gail, Borden county, between 2 and 3 o'clock this morning. Sheriff B. L. Parker said he had been informed there were six men in the car. Richards discovered his car was missing when he went to his garage this morning.

## Roosevelt in New Message Outlines Aim

Washington, June 10.—President Roosevelt tonight sent to congress his executive orders reorganizing the government, estimated to bring about saving of \$25,000,000.

The series of executive orders called for consolidations, regroupings, and abolishments of numerous government agencies.

The 25 million saving was estimated by the White House to bring the total cut in the federal budget for the next fiscal year to \$900,000,000. With this saving, the president was represented as confident of balancing the budget.

The reorganization program abolishes the shipping board and transfers its functions to the department of commerce. It sets up a single unit for the purchase of all governmental supplies.

Many other realignments of government agencies are contemplated by the president and will be put into effect later.

## Treasury Securities Issue Oversubscribed

Washington, June 9.—The treasury's first offering of securities since the gold payment was officially cancelled has been oversubscribed five times and officials hailed this today as evidence of the country's confidence in the government.

To big subscriptions, the books on the \$900,000,000 offerings are now closed, but for two days longer bids for securities in blocks of \$10,000 or less will be received. Secretary Woodin had announced he would accept all of these regardless of how much the total exceeded the actual offering, and last night he said large numbers of small investors already had taken advantage of the offer.

J. H. Howell was in Tuesday A.M. from the Challis community and reported a shower centering around the Dave Broughton place.

The Brownfield Swimming Pool is now in full operation.

## A Man's Job to Legislate Morals in Humans

For several years every time the legislature met, some new law was brought forth, some new and untried law, looking to putting down immorality in the youth as well as the aged in Texas. But the last legislature seems to have backed up on some of them at least, and are proposing to allow Texas a bit more liberty if they want it. The Herald for one believes that too much restraint as well as too little can be thrown about children. In our childhood, we remember that it was the boys in the community that had little liberty of action, and nothing whatever to say about their movements at home, were the worst when out from under the domineering influence of their parents.

To show the trend of time to less restraint, and perhaps a lead toward educating people out of immorality, and at the same time a move, we hope, toward less subterfuge and a more genuine respect of the law, the legislature legalized both boxing and horse racing. This is permitted in nearly every other state in the union, and was badly camouflaged in Texas to get by the law. Horse racing for a purse was permitted, and no one but God Almighty knew how much betting was done on the sly. Boxing bouts were carried on all over the state under the alias of "athletic training." Wrestling was permitted by law, and it appears to us that it was the roughest sport of the two, and neither kills nor cripples half the number that are maimed in football games.

Then we decided that we would forever stop the drinking of intoxicants in Texas by our youths by forbidding its manufacture. We don't have to explain the results to those in position to know what is really happening. Anyway, from Adam and Eve on down to 1933, youth has always craved the forbidden. The last legislature has correctly left this issue up to the voters, and the majority will settle that matter. That is democratic.

A few years ago, the Texas legislature told the people of Texas that they could not get hitched without "giving notice of intention" for three days, and the male should pay a fee for a physician's certificate. Gretna Geen trekked across the border into adjoining states by the thousands. It only partially worked, and set in the minds of our youths another way to evade the law. It was rightly killed by the last legislature, by accident, but killed just the same.

There are some people who have such restrained appetites, tastes, and passions, that they cannot see a horse race, a football or baseball game without gambling on it. If you stop all these, they will gamble on whether the sun will rise tomorrow or something else. Then there are other people who can't take a drink of intoxicants without going on until they are well "soused." They have been at it since Noah got off the Ark, planted his vineyard, harvested it, and celebrated with a big drunk. Just why some people are so constituted, we don't know. Maybe a brother or sister to such a victim abhors strong drink. The weakness does not run in certain families. It is as apt to pop up in a preacher's family as in a gambler or drunkard's family. But no legislation so far seems to have restrained them. It is much easier to restrain evil intentions and designs of one against his neighbor than it is to control what one wears, eats and drinks.

Personally, the writer takes a shot of "good stuff" when he feels like it, and can get it, and we consider that our business. But we don't believe that there is a man or woman in Brownfield that has ever seen us when we could not behave and act at least as much of a gentleman as we usually do. But there is not a person in this city nor nowhere else that ever saw us bet on anything. We just ain't got any sporting blood, but a good "hoss" race comes nearer to drawing out our two pennies and a lone dime, to "back our judgement" than anything else we ever saw in the way of sports.

## Garner Spurs 52 Grand for Speeches

Washington, June 10.—Vice President Garner refused an offer today to make \$52,000 a year in addition to his government salary.

The Texan was offered \$1,000 a week, the year round, to make one speech a week over the air.

Garner promptly refused, explaining he did not think it proper for a man in his position to discuss government or public affairs.

The folks have the least leisure.

Last Sunday we saw a truck carrying a wing of an airplane in for repairs. The plane had fallen in a field west of Sudan. Just another reason that we are still satisfied to travel our old dirt roads for awhile longer.

Some of the boys who have gone to the reforestation camps write in that they are highly pleased. Others state that they are not. Some boys seem to be afraid to learn to work. To our notion about half the many millions of unemployed are that way on purpose.

Max Baer, the American from the Golden State, trimmed Max Schmeling, the German, to a fare-you-well, at the Yankee stadium, New York, last Thursday night. If we were a betting man, and we are not, we'd hazard a pretzel to a stein of 3.2 that Max Baer's ancestors originally came across the pond from "Shermanny."

We notice by the papers that the old McGuffey series of readers are trying to stage a comeback in Oklahoma. Well, the Oklahoma Educational Board could do worse. There is not a story in the entire series that is at all impossible like some of the modern readers. Of course, the publishers would have to have their artists touch up some on the wearing apparel of the folks in the pictures. But the stories are still good, and the English the best.

A series of one of our daily gives the following information: "Umbrellas with hollow handles containing diminutive toe rubbers are new and smart. And it's chic to have your umbrella match your raincoat." Yeah! but who in heck wants an umbrella in this county; it don't rain, and a tan is popular. If the hollow is large enough, we might use it to carry our gin supply.

Over at Littlefield they have a curfew law now in force. This is a good thing if impartially enforced, but in a town where we once lived, they made a difference in the children of old Banker Billions and those of Clem the Cobbler. We will state for the benefit of those who may think we become prejudiced on account of a hangup with the "law," that we were then several years too old to come "within the law."

Advertising and the paper is all that any newspaper has to sell and if they are given away, the paper can not exist. Many people, business people, too, do not give it a thought when they walk into a newspaper office and pick up a newspaper and walk out nine times out of ten and not even say thank you. But I have yet to see the first dry goods store, grocery store, drug store, cafe or any other business institution, where very many people help themselves to cigars, cold drinks, sandwiches, soap, or a loaf of bread without paying for it.—Wink Times Herald.

"That little wop, Pecora," as Will Rogers called him, has been having a big time spot-lighting the affairs of national figures. All the efforts of Senator Carter Glass, said to be the Senate's greatest financial mind, have been unable to stop Pecora, who knows that the public right has been violated and that his sledge hammer blows are now seen to have feet of clay. Some of the frankest writers on political under-currents are saying that, contrary to the belief of certain quarters, the disclosures of the Morgan house's transactions are bringing no small degree of satisfac-

tion to the President, who entertains no great amount of affection for the House of Morgan and its tactics.—Clarendon News.

With wool higher than it has been for years under a Democratic administration at that, what has become of the old Republican battle cry about "being ashamed to look a sheep in the face, if we voted the Democratic ticket." Whos's sheep shy now?

The Big Spring Schools, like many others in west Texas, "hubbed it" financially this year. But they had a big hearted rancher by the name of Tom Good that came to their rescue with a loan of \$8,000. Pity all the towns haven't a Tom Good or some other Santa Claus.

Much discussion in the press of the 18th district has been put forth lately on whom are we of the new 19th going to get to fill Marvin Jones' shoes. All agree that is some job for the 19th to face. And all are agreed that we don't want to send some "Promise Everything" Politician to represent us at Washington.

Some paragrapher tells us that so far 1933 has been the most freakish of years so far as weather is concerned. There is another freakish streak in old 1933 too. There has been more schools graduating a larger class of boys than girls than in all time since we can remember. There were two or three such coincidents right here in Terry.

"Train up a child in the way it should go," we believe came from the Proverbs by Solomon. Solomon, we understand, raised a good many of his own, and we believe it holds good to this very day. If fathers are guilty of questionable deals, or taking unfair advantage of a neighbor in a swap, or using subterfuge in a deal that might mean a few dollars to the family, they should never discuss such before the children. The child of course, thinks that if dad put over crooked deals, it's alright for them to do the same.

**BAD HABITS FORMED EARLY IN CHILDHOOD**

Austin, Texas.—According to the State Department of Health a child's habits are responsible, in a large measure, for their mental actions in later life. A child of five or six years may have a bad temper. He can be taught as he grows older, to exercise self control so that it will not often be manifested. It would be better for him though if he acquired a good temper instead of a bad one.

Now is understood better than before the enduring influence of habits that begin in the earliest years of life, in the nursery, or even in the cradle. In the young child, as a result of habit, certain types of behavior become established.

Perhaps the child learned while yet an infant, that he could get what he wanted if he cried long and loud enough. Perhaps he had learned, when a little older, that bad behavior, as screaming, tantrums, rolling on the floor or sulking, brought him what he wanted after his request had been refused or ignored. If he had this experience once you can be sure that he would repeat the action the next time the occasion arose. If he found that such actions did not bring the desired results he would not try it again.

Other behavior habits, good and bad, are acquired from imitating older children and adults. In this way many likes and dislikes, tastes and ambitions which in later years became crystallized into character habits have their beginning. Calmness and poise, as well as nervous and panicky behavior in the presence of an emergency, are nothing more than behavior habits established by imitation and made permanent by repetition. The elders are responsible far more than they realize for the conduct of the child in the family. In this we see a new meaning of the old adage, "As the twig is bent the tree is inclined."

**YES PRICES ARE GOING UP**

According to a graph in the New York Times, the index commodity prices has been moving upward without interruption.

The nation-wide policy of the moment is to raise prices to a more normal level, and by one means or another, keep them there.

Here are two facts that should interest every property-owner, and every potential builder. They mean that present low prices are doomed; that we're going to pay more for what we buy—whether it's food and clothing, or a new house.

The wise citizen who possibly can, will spend now, when it will get him the largest dollar's worth he has ever known. And he will spend largely on property-improvement, where it will give him something of real and permanent value. There is hardly one of us who hasn't let his property slide a little the past few years. We have put off painting, repairing, installing labor-saving machinery in kitchen and laundry, building a new garage, overhauling the heating plant, repairing or replacing the floor, walks, fences, etc. But we have now reached the point where if we put it off any longer it will mean dollars out of our pocket.

And when we build and repair, we are doing our bit toward stimulating employment. Our dollars will pass through the hands of workers in a hundred industries. We are increasing purchasing power, and laying the groundwork for future prosperity for ourselves as well. Don't forget that investment and employment are cheaper than charity.

**May Chevrolet Sales Greatest Since 1931**

Chevrolet dealers reported the sale at retail of more than 65,761 new cars and trucks in May for the largest single month's retail deliveries since June, 1931, W. S. Knudsen, president and general manager announced today.

In May, 1932, the figure was 48,210 units, a gain of 36 per cent, and in April this year 53,936 units, Mr. Knudsen said.

**SHERIFF'S SALE**

The State of Texas—County of Terry:

Notice is hereby given that by virtue of a certain order of Sale issued out of the Honorable District Court of Terry County, on the 27th day of February 1933, by Eldora A. White as District Clerk of said Terry county Texas for the sum of One Thousand and Nine and 97-100 Dollars and costs of suit, under a judgment in favor of C. D. Shamburger Lumber Co. Inc. in a certain cause in said Court, No. 1652 and styled C. D. Shamburger Lumber Co. Inc. vs. C. B. Markham, placed in my hands for service, I, J. S. Smith as Sheriff of Terry County, Texas, did, on the 1st day of March, 1933, levy on certain real estate, situated in Terry County, Texas, described as follows, to-wit: Lots Number One (1) and Two (2) in Block Number Fifty-five (55) of the original town of Brownfield, Terry County, Texas, and levied upon as the property of C. **AIRPLANE TYPE RAILROADING**

The wise men of the nation have done a lot of talking about what can be done to save the railroads but, as Mark Twain said about the weather, nobody really does anything about it.

But at last the spirit of initiative and enterprise is again seen in railroading, after lying dormant for years under legislative and regulatory handicaps.

That old pioneer, the Union Pacific System, is going to give the public something new in transportation on rails. It is the first radical change since the steam trains took the place of the stage coaches in joining the Pacific and Atlantic. While engines, cars and tracks have been improved, primary features of railroading remained the same—heavy cars, slow stops, slow starts, etc. The passenger trains have lost business to more appealing and faster types of transportation. The travelling public seemed to prefer speed to comfort.

Now the Union Pacific will offer speed plus comfort. In six months it will be testing a three-car, light weight, high speed, stream-lined, rocket-like train, weighing only 80 tons—the present weight of one sleeping car. A 600 horsepower distillate burning engine will turn electrical generating equipment and motors. It will develop a speed of 110 miles an hour and maintain a speed of 90. The train will be fully air-conditioned with forced ventilation and uniform temperature winter and summer—no dirt and no cinders. Heavy body insulation and use of rubber in trucks will reduce noise. Indirect lighting, the most restful type of seats, beautiful interior decorating, roller bearings and every modern convenience will give the passengers luxury in transportation never before attempted.

This is an answer of the Union Pacific to a railroad problem—airplane type passenger transportation on the ground.

**State Campaign for Prohibition Repeal Is Under Way**

Majority of District Chairmen Appointed at Fort Worth Conference.

Fort Worth, Texas.—The overwhelming votes by which Indiana and Illinois voted for repeal of the Eighteenth Amendment to the Federal Constitution were hailed today by Judge John M. Mathis, Sr., of Houston, chairman of the Texas Liberal Legion, as an indication of the way the Nation is going.

Judge Mathis recalled a remark made by Bishop James Cannon, Jr., leading prohibition advocate, before the Indiana election that "if we can win in Indiana, we can prevent repeal." "The inference in Bishop Cannon's remark," Judge Mathis pointed out, "was that if the prohibitionists could not carry Indiana, they might as well give up hope of carrying the thirteen States necessary to prevent the adoption of the Twenty-first Amendment. Well, it looks like the Bishop will have to admit that National Prohibition is doomed. Not only did they not carry Indiana, heretofore one of the 'dryest' States in the midwest, but after the overwhelming majority by which Indiana, Illinois and the other eight States that have voted so far ratified repeal, it looks as if the prohibitionists will be hard put to it to carry a single State."

Judge Mathis, whose organization is waging the fight in Texas, for both legalization of 3.2 per cent beer and repeal of the National Prohibition Amendment, went on to say that "of course everybody knew it was a foregone conclusion that Illinois, New York, New Jersey, Delaware, Rhode Island, Michigan, Wisconsin, Nevada and Wyoming would ratify the repeal amendment; but nobody, no matter how enthusiastic, ever dreamed these eight States would pile up such tremendous majorities for real temperance against bootleg liquor."

Such consistently large majorities, with even the heretofore dry sections of these eight States going for repeal, coupled with the Indiana and Illinois returns, can mean only one thing: that Texas and the entire Nation at last realize what a failure prohibition has become. Even when the prohibition wave was at its height, the Houston liberal recalled, the vote in Texas was close, "as all know who can remember the election in which the State adopted State-wide prohibition. So with the present club, the prohibition tide, with thousands and tens of thousands of life-long dregs convinced by events that temperance can not be enforced by law, it would be a miracle indeed if Texas did not join the parade of States August 26th and vote for repeal and legalization of 3.2 per cent beer."

The judge said with a twinkle in his eye, that a prohibitionist reminded him of a man who tried to live by gambling. "One thinks he can live without working, and the other that he can make people curb their appetites by passing a law instead of educating them."

In this way, the Houston liberal sought to bring home the point that "the Texas Liberal Legion's aim is the same as that of the sincere prohibitionist—real temperance." Prohibition, in his view, would be a wonderful thing if it would work, but it has not.

The State campaign for repeal "really got under way this week," Judge Mathis said, with the return of the various Senatorial district chairmen to their districts after the State-wide conference at State Headquarters here last Friday. Only a few of these district chairmen remain to be appointed. Those already named are: First district, W. A. McCartney, of Texarkana; second, Tom Foster, of Kilgore; third, J. J. Collins, of Lufkin; fourth, Bill Lea, of Orange; sixth, Bruce Gilliam, of Frost; eighth, John T. Dickson, of Paris; tenth, Guy Massey, of Greenville; eleventh, Harry P. Lawther, of Dallas; twelfth, E. T. Underwood, of Itasca; fourteenth, Sam D. W. Low, of Brenham; fifteenth, Senator Gus Russek, of Schulenburg; sixteenth, John F. Kirby, of Houston; seventeenth, Captain E. Marrast, of Galveston; eighteenth, August C. Hartman, of Cuero; nineteenth, R. E. McKie, of San Marcos; twentieth, Polk Shelton, of Austin; twenty-first, Sam Roddy, of Temple; twenty-third, Judge Harvey Harris, of Wichita Falls; twenty-fifth, Clyde Vinson, of San Angelo; twenty-sixth, Preston Anderson, of San Antonio; twenty-seventh, Senator Archie Parr, of Benavides; twenty-eighth, Sam Sayers, of Fort Worth; twenty-ninth, A. H. Culwell, of El Paso; thirtieth, Ed H. Robertson, of Rockwell; thirty-first, Major E. A. Simpson, of Amarillo.

**POOR WAY TO CELEBRATE DAY OF COMMEMORATION**

One of the most impressive features of Memorial Day was what the headlines termed the annual automobile classic on the Indianapolis speedway. Although only three men were killed in smashups, the race was a brilliant success. A new speed record was set, a new champion was applauded, and a good time was had by the thousands of spectators.

The public's morbid love for excitement and thrills should be satisfied for a time now, even for another year. But it is regrettable that such tragic entertainment should be afforded on a day which the Nation has set apart in memory of her sons who have died for high causes.—Dallas Journal.

**THE PRINTERS DREAM**

Good morning, Mr. Printer! Your competitor down the street, who is not equipped to do the type of printing I want, sent me down here with his guarantee that you were a fine printer. Here's a nice job for you; absolutely no hurry; use your own judgement in laying it out; I'll pay for your time in copy preparation and any alterations that may be necessary. Never mind showing me the paper stock; use your own judgement. Price is no factor; I want the finest work you can do. Oh, yes, you do not know me, of course, so here's a certified check that will more than cover the total price of the job; credit any balance on the future work I will have for you. I make my living in this city and will pick out a good local printer and stick to him. Nice plant you have here, have a cigar, s'long.

**LOW PRICE CARS VS. CHEAP CARS**

We do not build a low-price car: the cost to us of building our car is pretty high.

But we do sell a high quality car at a low price. Almost every new Ford V-8 car we have built so far this year, has cost more to manufacture than its selling price was. As you buy them at only \$490 to \$610, we have to depend on increasing volume to make up the difference.

The reason for this is simple:—a manufacturer who gives good value must expect to lose money on the first cars he sells because he cannot charge all his costs to the people who are first to buy.

But with the purchaser it is different—he cannot afford to lose anything on a car. It must give him full value from the first, and keep on giving him full value for years.

Two things make possible our combination of low prices and high cost quality:

1. Volume Production
2. Taking only one profit

First, we set our price at what would be fair to the public on the basis of economies we enjoy in volume production. Then, in order to justify and maintain our low price we must get volume sales.

Thus it comes that a car which is really high-cost to make, is also low-cost to buy.

There is a difference between a cheap car and a low-priced high quality car.

Ford prices are always fixed at a point which makes it profitable for a customer to buy.

Good and lasting business must produce profit to the buyer as well as to the seller. And of the two, the buyer's profit must be, comparatively, the larger one.

It pays us to sell the Ford V-8 because it pays you to buy it.

**Red Goose—The Ojibwa**

An Indian Story for Boys and Girls  
By Carlyle Emery

**Episode No. 31**  
Red Eagle and his broves had started north on a hunting expedition. In their absence Red Goose and Little Beaver are playing near the bank of the river, when Red Goose suddenly hears a strange noise. He becomes instantly alert and, shading his eyes with his hand, he looks searchingly up the river.—Now go on with the story.

Now Red Goose recognized the sound that had alarmed him. It was the swish-swish of many canoe paddles being dipped in and out of the river.

Then, as his keen eyes kept watching, he saw the bow of a Sioux war canoe come silently around the bend, and his heart almost stopped beating as he realized that the Sioux were on their way to the Ojibwa Village.

In less time than it takes to tell it, Red Goose turned and almost flew back to Little Beaver, who was busily pounding out rice cakes.

"What is the matter?" she asked.

"Is Red Goose that hungry he come back so soon?"

"There is no time to lose, Little Beaver," said her playmate, speaking quietly. "Strange canoes are coming around the river bend. My father and the Ojibwa warriors are not here and we must do something quickly."

"Is it the Sioux?" whispered Little Beaver, jumping to her feet.

"Yes, many canoes of the Sioux in war paint. Little Beaver must run like the wind to warn the squaws in the village."

"What will Red Goose do?"

"Red Goose must hurry north and bring back the Ojibwa warriors at once."

Without another word, Little Beaver headed toward the village, and as she disappeared from sight, Red Goose turned his face north and started on the long trail that was ahead of him.

Red Eagle and the Ojibwa braves had a full day's start, but Red Goose knew they would not hurry and so he hoped to catch up with them before sundown.

He saved his energy, running at a slow, even dogtrot, but it was surprising the distance he traveled the first hour.

In the meantime, Red Eagle was saving the strength of his warriors, too, and instead of letting them travel too far the first day, he had ordered them to stop and make camp.

"Ojibwa hunt better when not too tired," he said. "Then we shoot straight and save many arrows and bullets."

**NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF THE STATE OF TEXAS**  
S. J. R. No. 3.

Be it Resolved by the Legislature of the State of Texas:

Section 1. That Article IX of the Constitution of the State of Texas be amended by adding thereto a section to be Section 3, which shall provide:

"Section 3. (1) Holding the belief that the highest degree of local self government which is consistent with the efficient conduct of the affairs by necessity lodged in the Nation and the State will prove most responsive to the will of the people, and result to reward their diligence and intelligence by greater economy and efficiency in their local governmental affairs, it hereby is ordained:

(2) Any county having a population of sixty-two thousand (62,000) or more according to the last Federal Census may adopt a County Home Rule Charter, to embrace those powers appropriate to the purposes herein provided. It further is provided that the Legislature, by a favorable vote of two-thirds of the total membership of both the Senate and the House of Representatives, may authorize any county, having a population less than that above specified, to proceed hereunder for the adoption of a Charter; however, as a condition for such authorization, it is required that notice of the intent to seek Legislative authority hereunder must be published in one or more newspapers to give general circulation in the county effected, not less than once a week for four (4) consecutive weeks, and the first of such publications shall appear not less than thirty

(30) days next prior to the time of an Act making proposal hereunder may be introduced in the Legislature. No County Home Rule Charter may be adopted by any county save upon a favorable vote of the resident qualified electors of the affected county. In the elections submitting to the voters a proposal to adopt a Charter (unless otherwise provided by a two-thirds vote of the total membership of each house of the Legislature) the votes cast by the qualified electors residing within the limits of all the incorporated cities and towns of the county shall be separately kept but collectively counted and the votes of the qualified electors of the county who do not reside within the limits of any incorporated city or town likewise shall be separately kept and separately counted, and unless there be a favorable majority of the votes cast within and a favorable majority of the votes cast without such collective cities and towns, the Charter shall not be adopted. It is expressly forbidden that any such charter may in any way affect the operation of the General Laws of the State relating to the judicial, tax, fiscal, educational, police, highway and health systems, or any other department of the State's superior government. Nothing herein contained shall be deemed to authorize the adoption of a Charter provision inimical to or inconsistent with the sovereignty and established public policies of this State, and no provision having such vice shall have validity as against the State. No Charter provision may operate to impair the exemption of homesteads as established by this Constitution and the Statutes relating thereto.

(3) a. A Charter hereunder may provide: the continuance of a County Commissioners' Court, as now constituted, to serve as the governing body of a county to operate hereunder; or, may provide for a governing body otherwise constituted, which shall be elective, and service therein shall be upon such qualifications, for such terms, under such plan of representation, and upon such conditions of tenure and compensation as may be fixed by any such Charter. The term of service in such governing body may exceed two (2) years, but shall not exceed six (6) years. In any event, in addition to the powers and duties provided by such Charter, such governing body shall exercise all powers, and discharge all duties which, in the absence of the provisions hereof, would devolve upon County Commissioners and County Commissioners' Courts. Further, any such Charter may provide for the organization, reorganization, establishment and administration of the government of the county, including the control and regulation of the performance of and the compensation for all duties required in the conduct of the county affairs, subject to the limitations herein provided.

"b. A Charter hereunder may provide that Judges of County Courts (including that County Court designated in this Constitution), and Justices of the Peace be compensated upon a salary basis in lieu of fees. The jurisdiction of the County Court designated in this Constitution, and the duties of the Justices thereof, may be confined to that general jurisdiction of a probate Court which is defined in this Constitution. The office of Justice of the Peace may be made either elective or appointive. Other than as herein provided, no such Charter shall provide for altering the jurisdiction or procedure of any Court. The duties of the District Attorney and for County Attorney may be confined to representing the State in civil cases to which the State is a party and to enforcement of the State's Penal Code, and the compensation of said attorneys may be fixed on a salary basis in lieu of fees.

"c. Save as hereinabove and hereinafter otherwise provided, such Charters, within the limits expressed herein, may invest the governing body to be established for any county electing to operate hereunder with the power to create, consolidate or abolish any office or department, whether created by other provisions of the Constitution or by statute, define the duties thereof, fix the compensation for service, make provision for the election, appointment, and the same elective or appointive, and prescribe the time, qualifications and conditions of tenure in any such office; that no such Charter other than as hereinbefore authorized, shall provide to regulate the status, service, duties or compensation of members of the Legislature, Judges of Courts, District Attorneys, County Attorneys, or a any office whatever by the law of the State required to be filled by an election embracing herefrom nominations, elections or appointments to office; the terms whereof may not have expired prior to the adoption of this Amendment to the Constitution, at such time as a Charter provision adopted hereunder may be in effect (save as to those offices which must continue to be elective, as herein elsewhere specified), all terms of office of such officers and all contracts for the giving of service by deputies under such officers, may be subject to termination by the administrative body of the county, under an adopted Charter so providing, and there shall be no liability by reason thereof.

"d. Any county electing to operate hereunder shall have the power, by Charter provision, to levy, assess and collect taxes, and to fix the maximum rate for ad valorem taxes to be levied for the purposes in accordance with the Constitution and laws of the State provided, however, that the limit of the aggregate taxes which may be levied, assessed and collected hereunder shall not exceed the limit or total fixed, or hereafter to be fixed, by this Constitution to control counties, and the annual assessment upon property, both real, personal and mixed, shall be a first superior and prior lien thereon.

"e. In addition to the powers herein provided, and in addition to powers included in County Home Rule Charters, any county may, by a majority vote of the qualified electors of said county, amend its Charter to include other powers, functions, duties and rights which now or hereafter may be provided by this Constitution and the statutes of the State for counties.

"4. Any county operating hereunder shall have the power to borrow money for all purposes lawful under its Charter. To include the re-

funding of a lawful debt, in a manner conforming to the General Laws of the State, and may issue therefor its obligations. Such obligations, other than those to refund a lawful debt, shall not be valid until authorized by a majority of all votes cast by those resident qualified voters of the area affected by the taxes required to retire such obligations, who may vote thereon. In cases of county obligations, maturing after a period of five (5) years, the same shall be issued to mature serially, fixing the first maturity of principal at a time not to exceed two (2) years next after the date of the issuance of such obligations. Such obligations may pledge the full faith and credit of the county; but in no event shall the aggregate obligations so issued, in principal amount outstanding at one time, exceed the then existing Constitutional limits for such obligations and such indebtedness and its supporting tax shall constitute a first and superior lien upon the property taxable in such county. No obligation issued hereunder shall be valid unless prior to the time of the issuance thereof there be levied a tax sufficient to retire the same as it matures, which tax shall not exceed the then existing Constitutional limits.

"(5). Such Charter may authorize the governing body of a county operating hereunder to prescribe the schedule of fees to be charged by the officers of the county for specified services, to be in lieu of the schedule for such fees prescribed by the General Laws of the State; and, to appropriate such fees to such fund as the Charter may prescribe; provided, however, no fees for a specified service shall exceed in amount the fee fixed by General Law for that same service. Such Charters as to all judicial officers, other than District Judges, may prescribe the qualifications for service, provided the standards therefor be not lower than those fixed by the General Laws of the State.

"(6). a. Subject to the express limitations upon the exercise of the powers by this subdivisions to be authorized, such Charter may provide (or omit to provide) that the governmental and or proprietary functions of any city, town, district or other defined political subdivision (which is a governmental agency and embraced within the boundaries of the county) be transferred, either as to some or all of the functions thereof, and yielded to the control of the administrative body of the county. No such transfer or yielding of functions may be effected, unless the proposal is submitted to a vote of the people, and, unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature such a proposal shall be submitted as a separate issue, and the vote within and without any such city, town, district, or other defined governmental entity, shall be separately cast and counted, and unless the majority of the qualified voters of the county, favor the proposed merger, it shall not be affected. In case of the mergers hereby authorized, without express Charter provision therefor, in so far as may be required to make effective the object of the proposed merger, the county shall succeed to all the appropriate powers, duties, rights, procedures, restrictions and limitations which prior to the merger were imposed upon, the yielding governmental agency. Particularly, it is provided that the power to create funded indebtedness and to levy taxes in support thereof may be exercised only by such procedures, and within such limits, as now are, or hereafter may be, provided by law to control such appropriate governmental agencies were they to be independently administered. Such mergers may be effected under proposed contracts between the county and any such yielding governmental agency, to be approved at an election as hereinbefore provided for. In order to increase governmental efficiency and effect economy the county may contract with the principal city of the county to perform one or more of its functions, provided such contracts shall not be valid for more than two (2) years.

"b. In case of the partial or complete merger of the boundaries of a city operating under a Home Rule Charter with the government of a county operating hereunder, those city Charter provisions affected thereby shall cease to control, and the county Charter provisions shall control.

"c. When any embraced incorporated city or town elects to merge its governmental functions with those of the county under the provisions hereof, such Charter may provide for defining or redefining the boundaries of such city; and towns, provided, however, that in defining or redefining the boundaries of such cities and towns, such boundaries may be extended only to include those areas contiguous to such cities as are urban in character; and as to such cities or towns and for the benefit thereof the county, in addition to the primary city and county tax herein authorized and any other lawful district tax, may levy and collect taxes upon the property taxable within such city or town as defined or redefined, within the limits authorized by Sections 4 and 5 of Article XI of the Constitution, (or any Amendment thereof) for incorporated cities according to the population, provided that no tax greater than that existing at the time of such merger or for any added purpose shall be imposed upon any such city or town unless authorized by a majority of all votes cast by the resident qualified voters of any such city or town.

"d. Areas urban in character though not incorporated under appropriate Charter provision may be defined as such by the governing body of the county, provided, however, that no portion of the county shall be defined as an urban area unless it has sufficient population to entitle it to incorporate under the then existing laws of the State; and no such urban area, when created, shall be vested with any taxing or bonding power which it would not possess if it were operating as a separate incorporated unit under the then existing Constitutional and Statutory provisions of this State; and provided further that the governing body of the county for the government of such areas shall have and exercise all powers and authority granted by law to the governing bodies of

similar areas when separately incorporated as a city or town, and such areas shall be subject to additional taxation within the same Constitutional limits as control taxation for a city or town of like population. Likewise such Charter may provide for the governing board of the county subject to existing Constitutional and statutory provisions to define, create and administer districts, and have and exercise the powers and authority granted by the Constitution and laws relative to the same.

(7). No provision of this Constitution inconsistent with the provisions of this Section 3, of Article IX, shall be held to control the provisions of a Charter adopted hereunder, and conforming to the Charters adopted hereunder shall make appropriate provision for the abandonment, revocation, and amendment thereof, subject only to the requirements that there must be a favorable majority of the votes cast upon such a proposal, by the qualified resident electors of the county; and, no Charter may forbid amendments thereof for a time greater than two (2) years. The provisions of this section shall be self-executing, subject only to the duty of the Legislature to pass all laws (consistent herewith) which may be necessary to carry out the intent and purposes hereof. Further, the Legislature shall prescribe a procedure for submitting to decision, by a majority vote of the electors voting thereon, proposed alternate and elective Charter provisions."

Section 2 The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all ballots shall have printed thereon the following:

"For the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

"Against the Amendment to Article IX of the Constitution of Texas adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

Section 3. The Governor of this State is hereby directed to issue the necessary proclamation ordering an election in conformity herewith to determine whether or not the proposed Constitutional Amendment set forth herein shall be adopted, and the Governor shall have the same published as required by the Constitution and laws of this State.

**NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF THE STATE OF TEXAS**  
H. J. R. No. 43.

Be it Resolved by the Legislature of the State of Texas:

Section 1. That subsection (a), of Section 20, of Article XVI, of the Constitution of Texas, be amended so as to hereafter read as follows:

"(a) The manufacture, sale, barter or exchange in the State of Texas of spirituous, vinous or malt liquors, or medicated bitters capable of producing intoxication, or any other intoxicant whatever except vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight, (except for medicinal, mechanical, scientific or sacramental purposes) are each and all hereby prohibited. The Legislature shall enact laws to enforce this Section, and may from time to time prescribe regulations and limitations relative to the manufacture, sale, barter, exchange or possession for sale of vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight provided the Legislature shall enact a law or laws whereby the qualified voters of any county, justice's precinct, town or city may, by a majority vote of those voting, determine from time to time whether the sale for beverage purposes of vinous or malt liquors containing not more than three and two-tenths per cent (3.2%) alcohol by weight shall be prohibited within the prescribed limits; and provided further that in all counties in the State of Texas and in all political subdivisions thereof, wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws of the State of Texas and in force at the time of the taking effect of Section 20, Article 16, of the Constitution of Texas, it shall continue to be unlawful to manufacture, sell, barter or exchange in any such county or any such political subdivision thereof, any spirituous, vinous or malt liquors or medicated bitters, capable of producing intoxication, or any other intoxicant whatsoever, unless and until a majority of the qualified voters in said county or political subdivision thereof voting in an election held for such purpose shall determine it to be lawful to manufacture, sell, barter and exchange in said county or political subdivision thereof vinous or malt liquors containing not more than three and two-tenths per cent (3.2%) alcohol content by weight, and the provision of this subsection shall be self-executing."

Section 2. The foregoing Amendment to the Constitution shall be submitted to a vote of the qualified electors of this State by election to be held throughout the State on the fourth Saturday in August, 1933. At this election all voters favoring the proposed Amendment shall write or have printed on their ballot the following words: "For the Amendment to the Constitution of Texas, authorizing the sale of vinous or malt liquors of not more than three

and two-tenths per cent (3.2%) alcohol content by weight." Those voters opposing said proposed Amendment shall write or have printed on their ballot the following words: "Against the Amendment to the Constitution of Texas, authorizing the sale of vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcohol content by weight."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for such election and to have same published as required by the Constitution and Amendments thereto.

**NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF THE STATE OF TEXAS**  
S. J. R. No. 30.

Be it Resolved by the Legislature of the State of Texas:

Section 1. That Article 3 of the Constitution of the State of Texas be amended by adding thereto another section, Section 51a, which shall read as follows:

"Section 51a. The Legislature shall have power to authorize by law the issuance and sale of the bonds of the State of Texas, not to exceed the sum of Twenty Million (\$20,000,000) Dollars, bearing interest at a rate not to exceed Four and one-half (4½%) per centum per annum; and payable serially or otherwise not more than Ten (10) years from their date, and said bonds shall be sold for not less than par and accrued interest and no form of commission shall be allowed in any transaction involving said bonds. The proceeds of the sale of such bonds to be used in furnishing relief and work relief to needy and distressed people and in relieving the hardships resulting from unemployment, but to be fairly distributed over the State and upon such terms and conditions as may be provided by law and the Legislature shall make such appropriations as are necessary to pay the interest and principal of such bonds as the same becomes due. The power hereby granted to the Legislature to issue bonds hereunder is expressly limited to the amount stated and to two years from and after the adoption of this grant of power by the people. Provided that the Legislature shall provide for the payment of the interest and redemption of any bonds issued under the terms hereof from some source other than a tax on real property and the indebtedness as evidenced by such bonds shall never become a charge against or lien upon any property, real or personal, within this State."

Section 2. The foregoing Constitutional amendment shall be submitted to the qualified voters of the State on the Twentieth day of August, A. D. 1933, at which election all voters favoring such proposed amendment shall write or have printed on their ballots the words, "For the amendment to the Constitution providing that the Legislature may authorize the issuance of bonds of the State of Texas, not to exceed Twenty Million (\$20,000,000) Dollars, for relieving the hardships of unemployment and for the necessary appropriations to pay said bonds." Those voters opposing said amendment shall write or have printed on their ballots the words, "Against the amendment to the Constitution providing that the Legislature may authorize the issuance of bonds of the State of Texas, not to exceed Twenty Million (\$20,000,000) Dollars, for relieving the hardships of unemployment and for the necessary appropriations to pay said bonds."

**PROVIDES AIDS FOR BUSINESS, JOBS TO MANY**

Washington, June 9.—Forming an impenetrable cordon around the major provisions of the industrial bill, the democratic majority brought the administration's business recovery measure through the senate tonight in virtually the same form as it had come to the floor.

Driving back amendment after amendment, the administration forces marched straight ahead to the final vote which sent the bill back to the house for agreement to amendments. The bill is the last major measure of the president's special session program.

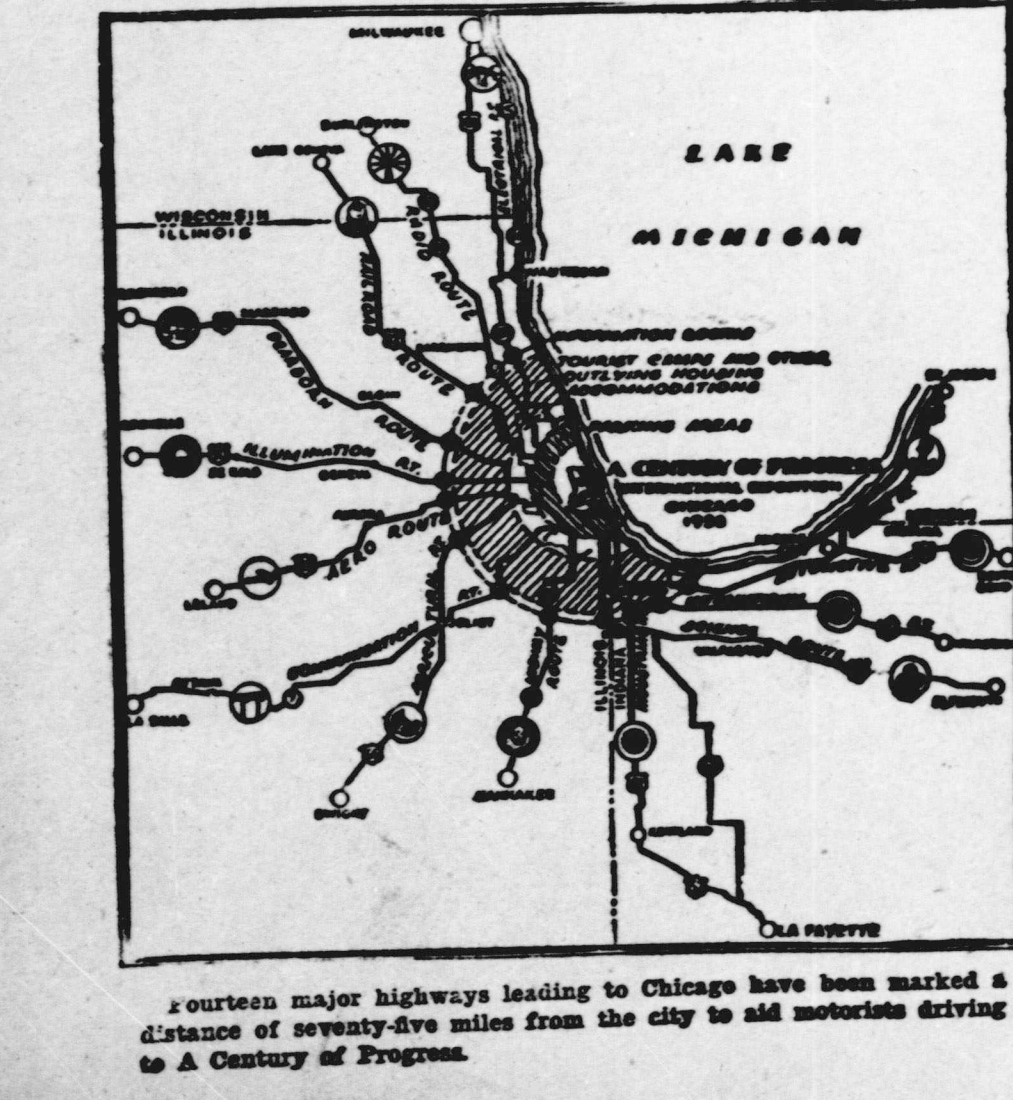

**FIRST 1933 WHEAT RECEIVED AT RALLS**

Ralls, June 10.—The first load of 1933 wheat was brought into Ralls last Wednesday by Tom Starch, who raised it about a mile and a half north of Ralls. It averaged between 10 and 12 bushels an acre, tested 62 pounds a bushel, and brought 57 cents a bushel.

Starch received a premium of a 100-pound sack of flour from R. L. Whaley, manager of the Ralls elevator, which received the wheat.

Ralls' first load of wheat last year arrived June 11, as compared with June 7 this year, and brought 33 cents a bushel.

TREASURER'S QUARTERLY REPORT

In the matter of County Finances in the hands of Mrs. J. L. Randal, Treasurer of Terry County, Texas.

We, the undersigned, as County Commissioners within and for said Terry County, and the Hon. Jay Barret, County Judge of said Terry County, constituting the entire Commissioners Court of said County, and each of us do hereby certify that on this, the 7th day of May, A. D. 1933, at a regular term of our said Court, we have compared and examined the report of Mrs. J. L. Randal, Treasurer of said County, for the period beginning on the 1st day of February, A. D. 1933, and ending on the 30th day of April, A. D. 1933, and finding the same correct have caused an order to be entered upon the minutes of the Commissioners' Court of said County, stating the approval of said Treasurer's Report by our said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since her last report to this Court, and for and during the time covered by her present report, and the balance in each fund remaining in said Treasurer's hands on the 30th day of April, A. D. 1933, and ordered the proper credits to be made in the accounts of the said County Treasurer, in accordance with said order as required by Articles 1636-1637, Chapter 1, Title 34 of the Revised Statutes of Texas, 1925.

Enchanted Island, Five Acres of Make-Believe Fairy Is Big Attraction for Children at Chicago's World's Fair

CHICAGO, April 00.—A five-acre land of make-believe where thousands of children may play in a story-book setting while their fathers and mothers are seeing the sights at the 1933 World's Fair is rapidly taking form on the grounds of A Century of Progress Exposition.

It is the Enchanted Island, the official children's development located on Northrup Island between Lake Michigan and the lagoon, with the Electrical building on the north and the Horticultural building on the south.

An enormous wooden soldier, a sailor whose arms revolve with the wind, a wooden Indian, a straw man and the Tin Woodman from the Wizard of Oz, each twenty feet high and painted in gay colors, are among the figures that will greet the eyes of the youngsters as they enter the Enchanted Island.

A colossal umbrella 21 feet high and 60 feet in diameter, constructed of steel, plywood and brightly colored canvas, will rise as the central feature of the main entrance.

Three Unusual Features Just outside the main entrance will be three unusual attractions—a marble shop, a giant coaster wagon and a toy shop.

In the marble shop, children may learn how marbles are made. The front window will be built of two thicknesses of plate glass with brightly colored marbles between. An enormous marble six feet in diameter, representing a globe with the various oceans and continents, will surmount a vertical pylon at the entrance.

Looming next to the marble shop will be a giant red coaster wagon, 25 feet long and 15 feet high, with wheels 9 feet in diameter. A huge figure of a boy will occupy the wagon. A plate glass enclosure will be constructed in the body of the coaster wagon in which assembled coaster wagons will be on sale.

Adjoining the wagon will be the toy shop, housing a complete collection of mechanical and other types of toys. Some will be on exhibition only, and others will be for sale.

Has Model Nursery

A model nursery and kindergarten for children from two to six years of age will be housed in a building erected for this purpose. Appropriate forms of educational and recreational activities will be provided both indoors and out. Food will be prepared by a complete dietitian and will be served attractively.

A zoo and a model farm inhabited only by baby animals will attract many young naturalists.

A Magic Mountain, 30 feet high, will rise from the center of a circular court. It will be surrounded by water and there will be a bridge and some small boats to reach the mountain. The boats may sail the moat surrounding the mountain, and will be side-wheelers, propelled by boy or girl power. The water is to be only 30 inches deep.

Three of the many attractions which will be found this year on Enchanted Island, the children's fairyland at A Century of Progress—Chicago's 1933 World's Fair. At the top is Noah's Ark, to the left the Giant Tin Soldier, and at the bottom, right, is the Giant Red Coaster Wagon.

### Many Highway Meetings

Highways and highway meetings have been the order of the day for the past week or two, and are still in the limelight so far as this immediate section is concerned.

County officials residing along 84, which is our east and west route, held a meeting here Tuesday of this week and arranged to form a committee for the purpose of putting a hard surfacing proposal before Judge Ely and the highway commission. It is expected that this committee will call upon Judge Ely at sometime during the present week, and if not then, it will be during the following week.

The committee that appeared before him at Abilene last week, were pleased with the result their meeting and are of the opinion that the entire project between Lubbock and Seagraves will receive favorable action within the next few weeks.

However there could be a delay in ordering construction for the reason that it is not possible at this time, to determine when the Federal highway appropriation will be ready for distribution and further as to the agency that will handle the distribution of it in this state. The logical thing for it would be to have the highway department to handle the funds, but it is possible that the Texas Relief Commission may be decided upon and if this is true, then our previous understandings will have to be placed in the discard and the matter taken up with the new agency, unless we can persuade the commission to construct the road with or out of the maintenance fund, which is the same fund that was used in the grading and drainage of the North section of 137. They are letting \$500,000 contracts to be paid out of the maintenance fund, to be done at a meeting scheduled for the 20th of this month and they expect to contract an equal amount, payable out of the same fund within the next few weeks, that is, if they don't get into a dog fight over future policies, which is not expected.

A meeting for Wednesday has been called for Haskell, of the Arkansas, Texas and New Mexico Highway Association, which route connects with the Fort Worth & Roswell route at Old Glory and is a cutoff between this section of the state and Texarkana. The writer wanted to attend this meeting, but was not able to arrange for transportation, and aside from that, was not able to see any reason for a meeting at this time, as two counties east of us have refused to furnish right-of-way surveyed by the highway department, and until they do, there won't be anything done toward improving the route. Several years ago, this county had some experience along the same line, and we finally had to come up to the lick-log and that is what they are going to have to do.

Tomorrow (Thursday) a meeting of about 15 south plains counties will be held at Levelland, for the purpose of arranging for a survey of county lines, and for the discussion of procedure to be followed, as it covers the various highways that traverse the section. The writer will not be in attendance on this meeting as it is strictly a county official affair, but he does expect to attend a meeting which is to be held in Lubbock on the same day for the purpose of giving out information concerning the various projects for which funds can be secured out of the recently enacted Public Works Legislation.

The County Judge, Commissioners and members of the County Relief Committee are in attendance upon the same kind of a meeting in Lamesa, today (Wed.) and the information they seek is probably different from that desired by the writer. As a matter of fact, I have in mind a few projects that would benefit the town and county, provided the funds could be secured to construct them, and that is the main reason for the Lubbock visit.

**Wanted: A General Rain.**

Right at this time, all of us are hoping and almost praying for a general rain, and a lot of people are saying that it is too late to plant cotton. The writer has lived here for 16 years and has seen a good cotton yield made from plantings as late as the 4th of July, and has heard of cotton that made one-third of a bale to the acre that was planted as late as July 13th. The average freezing date for this section is Nov. 2nd, but I have witnessed more years when it was received after that date than before. It is said to take around 120 days to mature cotton after it is planted. If this is true, count the days from July 4th and see where it places. We are willing to admit the deadline is fast approaching, but it has not reached us yet.

This office has just received a new supply of bulletins converging on dairying, poultry and hog raising, and they are free to those who desire them. We also carry bulletins on a number of other subjects and are very glad to order special numbers on any subject desired.
