

The Terry County Herald

"The Truth about Brownfield and Terry County, is good enough."
An appreciated Weekly that covers the Territory thoroughly.

Printed in Terry County, on the South Plains, the last stand of the Cattleman and the future home of the most prosperous Farmers in the United States

VOLUME TWENTY-NINE

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, FEBRUARY 16, 1934

NUMBER 27

Church of Christ Secure New Minister

As was announced in these columns last week, O. M. Reynolds, Christian minister, of Abilene, Texas, preached from Friday night through Sunday night, with a view of working with the church. Owing to the weather, audiences were only fairly good, but splendid interest was manifested by those who did attend.

In an enthusiastic business meeting Sunday afternoon the church engaged the services of Brother Reynolds for at least till July first, beginning with last week's services. The officers of the church and new

O. M. REYNOLDS

ministers are very optimistic about the future of the most pleasant and fruitful work together.

Brother Reynolds has lived and labored with a number of splendid churches, including Gainesville, Memphis, Plainview, and Weatherford, Texas, having terminated five years of fruitful work with the Weatherford church last summer; also, Hollis and Madril, Okla.; Ontario, Calif., and Albuquerque, N. M.

The church and minister solicit the closest co-operation of every member of the church in every department of activity. If anyone has been irregular in attendance, do not wait to get into regular attendance—start this week! Bible study will be conducted at 10:00 A. M., as usual, and let's have a full attendance. Preaching 11:00 A. M. and 7:30 P. M. Morning subject: "The Whole Church at Work" and evening, "Why Preach the Word?" The public is cordially invited and will always find a warm welcome.

The minister not only preaches, but is an experienced song leader and teacher of vocal music. At an early date he will conduct both a song drill and an evangelistic meeting.

Judge Mullican In Race For Congress

We are in receipt of a letter from Clark M. Mullican, Judge of the 99th Judicial District, Lubbock, Texas in which he authorizes us to place his name in our political column as a candidate for Congress from the 19th Congressional Dist. His views on public and vital questions will be presented at another time.

SUNDAY SCHOOL TRAINING SCHOOL TO BEGIN

A Sunday School training school will open Sunday at the Methodist church with Rev. W. E. Hamilton, Executive Secretary of the Northwest Texas Conference, as the teacher. Rev. Hamilton will teach the text book "Organizing for Christian Education in the Local Church."

The school will continue each night through the next week, closing on Friday night. All Sunday school and church workers, both young and old, are invited to take these courses.

The many friends of Red Tudor will be glad to know that he is very much improved after a very serious illness.

Claude Hudgens and family are entitled to a pass to the Rialto Theatre to see Man of the Forest Be sure to present this clipping at the box office at the Rialto Theatre. Compliment: Rialto-Herald

County Basketball Championship Tourney

(Swiped from the Cub Reporter)

The Terry County Basketball Tournament is to begin in the Brownfield High School gymnasium Thursday afternoon, February 15, at five o'clock. The games will last through Saturday night. The teams are divided into three classes: Class A, B, and C. It was agreed that girls games were to be alternated with the boys games. The arrangement of the schedule and the notification of the several teams were left to J. Logan Green and Fred Groves, Rural Schools Director and Athletic Director, respectively.

M. L. Penn, representing the Brownfield Girls' Basketball Squad, offered to pay the expenses of the officiating and furnish a trophy for the winners in the B and C classes, if he be allowed to charge a fee of ten cents for admission to all players and their coaches. This was accepted and the financing of the County Basketball Tournament was left to the Brownfield basketball girls.

Monday afternoon, February 12, Coaches Osborne and Gammill of Meadow met with Coaches Penn and Daniel in Supt. Lawlis' office. They agreed that there would be one game each for the boys and girls in Class A to decide the championship in that class.

The girls game was played here Wednesday night and the score was Meadow 27; Brownfield 24.

The boys game was played at Meadow, last evening, and as we had already gone to press will have to tell you about this game next week.

Slight Precipitation During The Week End

We were greeted with slightly colder and damp cloudy weather last week end, the first what looked might be really bad wather, we have had.

A cold wind got up Friday afternoon late from the east and on arising Saturday morning a heavy mist covered Brownfield. All day intermittent rain fell, and a flurry or two of snow was seen.

The skies cleared, however, Sunday, but the temperature remained lower than usual and at this writing, Tuesday, the weather man seems to have put our good rain off for awhile.

Governor Signs Bill Extending License Date

AUSTIN, Feb. 10.—Owners of motor vehicles in Texas were given until March 31 to pay their 1934 registration fees when Governor Miriam A. Ferguson today signed a bill, which became law immediately, fixing that date as the permanent deadline for such remittances without penalty.

The bill had been approved by a two-thirds majority vote in each house, thus making it effective when signed.

Under the statute that the new law replaces those who did not pay each year before midnight of February 1 were subjected to a penalty of 20 per cent of the amount of the registration fee if they operated their vehicles upon the highways.

The new law provided that those who had been obliged to pay a penalty this year since February 1 must be refunded.

\$100 BILL FOUND BY ARCHIVIST IN PAPERS

Austin, Feb. 11.—A \$100 bill has been found by Miss Winnie Allen, archivist of the University of Texas, in papers presented to the university by grandchildren of Alexander Gilmer, who was a pioneer in the yellow pine lumber industry in Texas. F. S. Filson of Houston and Miss Ann Gilmer of New York were the donors.

It was a currency note issued by the Cincinnati National Bank on Dec. 22, 1864, and still is worth its face value.

Gilmer made his home in Orange. The letters and documents presented to the university tell the pine industry story from 1872 to 1905.

University officials believed that Gilmer, or some member of his family had placed the currency in the papers inadvertently. Letters were sent to members of the family telling of the find.

J. W. Moore has accepted a position with Murphy Bros Grocery.

Prisoners Stage Successful Jail Break

Three prisoners, two of them with penitentiary sentences, escaped from the jail here Monday night, somewhere between 10 and 11 o'clock.

Sawing out of their cell and then out of the run-around, the trio clambered down blankets from the jail on the third floor of the courthouse.

The men were: Odell Brown, about 25, under two-year sentence for theft.

Chief Howard, about 25, under two-year sentence for burglary of a Meadow store.

Paul Spurgeon, 23, indicted for theft.

A passby saw the knotted blankets hanging from the jail about 10:30 o'clock and called officers, said night watchman L. M. Rogers. The fire alarm was also sounded and seemed most of the town joined in the hunt. Sheriff Jess Smith believes the men fled on foot.

Brown was about 5 feet 10 inches tall, dark complexioned and with black hair and bushy eyebrows. He walked with a noticeable limp.

Howard, said to be part Indian, is about 5 feet 9 inches tall, dark complexioned, and with black hair. He was coatless. Sheriff Smith made a trip to Dallas to pick Howard up after had been captured in Oklahoma, week before last.

Spurgeon is about 5 feet 11 inches, weighs about 160 pounds, and is light complexioned.

There were two other prisoners in the jail at the time also, but said they didn't desire getting out that way.

Later: About 5 o'clock Tuesday morning a fairly new Chevrolet was stolen at Meadow, presumably by these fugitives.

MILLIONS ASKED TO KEEP STUDENTS IN SCHOOL

Lubbock, Texas.—Application has been filed by Texas Technological officials for an allotment of the \$5,000,000 fund provided by the Civil Works Administration to help students stay in school, according to President Bradford Knapp.

Jobs will be available to 10 per cent of the student body, based on the enrollment of October 15, 1933. Of this number, 75 per cent will be old students and 25 per cent new students. Regular college wage scales will be used with students working a sufficient number of hours to make \$15 monthly.

\$102,000 In CWA Money Spent In County

Since the CWA first begun its work in Terry county on November 16, 1933, the total pay roll up to February 8, has been \$102,000 employing on an average of 850 persons each week during the time with its various projects over the county, Malcolm Thomason, office official, said here Monday.

\$200,000 was allotted to Terry county and are expecting another allotment for the new projects that are being approved, among these being the T. B. Cattle Test, work on which will begin in a week or two.

Since the work started the following projects have been accomplished: Sanitation, wherein pit toilets in portions of the city not reached by sewerage, have been made more sanitary by a design approved by the Department of Health at Washington and Austin; Roads: One has only to drive about the country to see what has been accomplished on this project. A business census and enumeration census has also been taken providing work for several.

But we are all hoping that by May first, Terry county will be among the first to be in a position to create its own jobs and that the people here will be able to making their own way, because people are more contented and more progressive when they can create their own opportunities.

Mr. Lee Lyon presented the Junior member of the Herald with a nice side of spareribs and now we can see what kind of a cook the wife is. Also Mr. Ed Thompson presented the Herald family with some nice ribs, backbone and sausage. Many thanks.

A London scientist says we are taller in the morning than at night—and, we may add, we're shorter on Thursday than on Monday.—Mexico Daily News.

The Herald Has A Junior Mistress

On last Saturday, February 10, Mr. Jack Stricklin, Jr. of Brownfield and Miss Edith Taylor of Dennison were married by Elder R. P. Drennon of Tahoka, Texas, at that place.

The bride is the daughter of Mr. and Mrs. S. R. Taylor and numbers her friends by her acquaintances. She, with her parents, formerly resided at Seagraves, Texas. It was there that the romance began five years ago.

Jack Jr., as his friends call him, is the junior partner in the Terry County Herald and is a young man of sterling qualities. He is a strictly western product and the type of gentleman that everyone is ready to give the glad hand.

The young couple will make their home in Brownfield. The writer who has known him from infancy is joined by hosts of friends in wishing them both success and happiness.

Bachelor Girls NRA Code From La West

Mae West, screendom's exponent of the New Deal, today gave her hearty endorsement to the NRA code but declared it does not go far enough.

She proposed a special code for Bachelor Girls, of which she is one of Hollywood's fairest examples.

"Our hours of work have been shortened by NRA," she pointed out. "This leaves us with more time on our hands. How to use that time to the best advantage is the problem."

Miss West, star of Paramount's "I'm No Angel," coming on Sunday to the Rialto Theatre, was requested to improvise some sort of code for single girls.

"How is this?" she asked: Men friends: No single woman shall have more than three male admirers: one steady, one "tall, dark and handsome," and one for laughs. (This would sorta pass the men around more, and give deserving girls a break.)

LaGrange, Ind., Feb. 11.—There's a cake here that's 54 years old. It belongs to Silas Ridley and was baked in 1879 for the late Cyrus F. Fillmore—brother of Millard Fillmore, thirteenth President—in honor of Cyrus' seventy-seventh birthday. Fillmore was the great-grandfather of Mrs. Ridley.

The cake has a fruitcake base, seven inches in diameter and two and a half inches high. A model of the old Fillmore home is made in icing which has turned to a soft cream color from age.

2297 Students Now Enrolled In Tech

Lubbock, Texas.—A total of 1,947 students including 341 new entrants registered at Texas Technological College for the spring semester, raising the total to 2,297 for the individual enrollment of the year, according to Dr. Bradford Knapp, president of the college.

"It is expected that the student relief work will increase these figures," Dr. Knapp stated. "The last day for registration is February 12."

Enrollment exceeds records of last year when 1,938 registered for the winter term and 1,756 for the spring term.

YOUNG DEER TAKEN TO PALO DURO

More than a little interest was created here Sunday afternoon when a truck load of baby deer passed through, en route to Palo Duro canyon, which has recently been named a national park.

There were twenty of the little fellows in the truck, and they were as tame as puppies. The driver of the truck, who had caught them for the park, was also their physician, and several of them bore marks of his attention and treatments. They had no fear whatsoever of human beings and appeared to enjoy having their ears scratched and their faces patted fully as much as would any household pet.

The park is, of course, a wild game preserve, and is being stocked at government expense.—O'Donnell Index.

MARRIED

Mr. S. C. Franks, son of Mr. and Mrs. D. J. Franks and Miss Winona Wise, daughter of Mr. and Mrs. G. H. Wise of the Harmony community were married the 9th of February by Elder A. L. Burnett at his residence, in the presence of a few friends with a simple ceremony.

Grady Patton, Rt. 2, is a new reader of the Herald.

Corn-Hog Contract Offers Interesting Benefit

To the cotton farmer who has already reduced his cotton acreage by diversifying with other crops and livestock in previous years, and who feels the Government cotton program is unfair to him, the corn-hog contract may offer interesting possibilities, says R. C. Reed, county agent.

Suppose a farmer changed from an all-cotton farm system to half cotton and half feed a few years ago. He milks cows and feeds hogs and raises chickens for a steady year round living, and takes his cotton money in the fall for paying the bigger bills. He makes the same percentage reduction in his 1934 cotton crop as the neighbor who still plants nearly the whole farm to cotton, but he will receive only half as much in the way of a Government cotton benefit check.

In many such instances it works out that the diversified farmer may sign a corn-hog contract to reduce corn acreage or hog production or both, and receive Government benefit checks that will total just as much or even more than those received by the all-cotton farmer. In addition the diversified farmer is in a much better position than the all-cotton farmer to use the extra feed which the farm can grow under the terms of the cotton and corn-hog contracts.

The corn-hog contract is open to every farmer in the county who produces a surplus of either corn or hogs and who can otherwise qualify, the county agent points out. The rush of the cotton campaign makes a farm-to-farm canvass of farmers in the interest of the corn-hog program an impossibility, but men who may be eligible to sign these contracts should investigate the plan, he suggests.

CAKE BAKED IN 1879 IS KEPT IN GLASS CASE

LaGrange, Ind., Feb. 11.—There's a cake here that's 54 years old. It belongs to Silas Ridley and was baked in 1879 for the late Cyrus F. Fillmore—brother of Millard Fillmore, thirteenth President—in honor of Cyrus' seventy-seventh birthday. Fillmore was the great-grandfather of Mrs. Ridley.

The cake has a fruitcake base, seven inches in diameter and two and a half inches high. A model of the old Fillmore home is made in icing which has turned to a soft cream color from age.

Young Demos Pleased With Interest Taken

Young Democrats of West Texas, who attracted statewide attention by the fight staged over adoption of resolutions in their convention at Lubbock, have been pleased with the editorial comment which has followed.

The heartiest "pat on the back" came from the Dallas News whose lead editorial on February 6 was headed "Rah For Young Democrats." The News noted that the resolution proposing a "complete revision of the state constitution" passed with little opposition but that the trouble flared when "detailed suggestions for this revision" came up for consideration and observed that such details should best be left to the constitutional convention when called. The News said that Young Democrats would perform a patriotic duty to their state if they would concentrate upon getting the convention called "to be composed of one delegate from each senatorial district" and secure its adoption in time for it to go into effect in 1936 as a fitting celebration of the 100th anniversary of Texas independence.

Hugh Anderson, Lubbock attorney, president of the West Texas Young Democrats, has declared that the organization "is now pointing toward the state convention to be held at Dallas in May and West Texas will present a united front at that convention."

New Market Man At Hudgens Grocery

With other arrangements the Hudgens Grocery Co. has been undergoing recently, they have added a new market man to their business.

He is Mr. Madison Weaver and is said to be an experienced man at the meat cutting trade. He comes here from Slaton.

You are invited to pass your judgment on this change the first time you visit the store as Mr. Weaver is anxious to please the patrons of this store.

We welcome this new family to our little city.

Conoco Travelers To Journey To Monterrey

Guided by the rapid-fire descriptions of the "Old Traveler" and lulled by the music of special Spanish entertainers, radio fans throughout the nation will journey to Old Mexico Wednesday night, February 21, by means of Continental Oil Company's second 1934 travel broadcast over a network of 27 N. B. C. stations.

Wednesday's night's trip, which begins in Fort Worth and ends in Monterrey, brings to the air the real life experiences of two adventurous young couples who decided, on the spur of the moment, to take an automobile jaunt into the ancient land of palm trees, hot tamales, and tangos. Beautiful and historic Texas scenes along the way are pictured. Mirth, romance, thrills and valuable facts have all been crammed into Conoco's new program.

Local listeners who wish to tune in may do so by dialing the nearest N. B. C. station at 9:30 Central time.

DR. DAVIS TO TREAT EYES

Dr. E. C. Davis, with offices in the Alexander building, has announced that he is now equipped to examine and treat eye diseases and do refraction in connection with his medical practice.

All work and material used will be of the highest quality obtainable through the American Optical Company which is the largest optical manufacturing company in the world. They do most of the prescription work for the oculists over the United States and that assures one of getting up-to-date, high quality merchandise where their material is used. Refraction is a medical problem and should be done by one who knows the interrelation of systemic diseases and eye conditions as a medical refractionist does.

Miss Bonnie Dale Gross of West-laco, Texas, spent the week end with Sallie Stricklin and Evelyn Judd. She came with her parents, Mr. and Mrs. Clyde Gross to Lubbock.

Chamber of Commerce

—By J. E. Shelton, Secretary

Applications for the loans that are to be had through the Lubbock Production Loan Association, are now open and we are ready to accept and complete applications with as much speed as possible, but the forms are such that we will only be able to handle a few each day and may find it necessary to call upon other Notaries for assistance. The instructions from the Lubbock Production Association, is that a charge of 50 cents must be made on each application, payable at the time that the application is made.

The Feed and Seed Loan, which is the same as the one that has been handled out of this office for the past two years, has finally passed Congress and it will probably be ready for business within the next few days, but is only meant to cover on those who for some reason are unable to qualify for the other loan. Don't know just what the setup will be or who will take the applications for it, but we may do it also.

The Directors of the chamber of commerce held a meeting on Monday of this week and authorized the writer to act as loan agent for each of the loans if necessary. They also decided to have an annual banquet and it will be pulled off within the next few days. Right now we do not know just where it will be held, as it will require a much larger space than is contained in either of the hotels here, but we may find a vacant building that is suitable.

A representative of the West Texas Division of the Texas Good Roads Association was here a few days ago, and succeeded in securing a goodly number of subscribers to his organization and would probably have sold more people on his proposition, if he had not been called to another town for a meeting.

The local chamber of commerce is now at work on a plan to put some pressure in the right place and see if it is not possible to secure some immediate improvement of our highways and it is very likely that a meeting will be held in Brownfield for that purpose with representatives from several other interested towns. East Texas seems to be the favored spot at this time but we expect to put up a strong fight for what we think is our rights in the matter.

The average production of Terry county on list production is running around 170 pounds to the acre and as this is too far above our allowed average of 122. The county committee is going to have to call for gin records on all high production and undertake to secure an agreement with producers to allow a reduction of a few pounds in each case. It is not going to be possible to get the State Board to accept our contracts when there is such a large difference in the figures.

It might be of interest for people to know that a County Conciliation Board has been appointed for Terry county and among the many duties that they are supposed to take a part in, is, to act as a committee between land owners who are having difficulty in refinancing their property or who are in danger of foreclosure. In other words the duties of the committee is to undertake to secure an agreement between the land owners and mortgag holders, that will either call for a reduction of the debt or for an extension that will enable the farmer to pay or arrange to pay the indebtedness. The following compose the committee and people are advised to see them in regard to their problems. C. L. Lincoln, Chairman; R. M. Moorhead, Secretary; W. W. Terry, P. R. Cates and G. M. Thomason.

We will undertake to give full information concerning the various functions of the board in a future issue of the Herald. And also dates upon which they will hold meetings.

Return From New York

Mr. and Mrs. M. B. Sawyer, and Mr. and Mrs. Cye Tankersley returned from New York City Sunday night. They were accompanied home by Miss Christova Sawyer who has been attending Columbia University.

Mrs. Sawyer says that of all the places she saw, and their itinerary carried them through several states, she'd rather live in Brownfield and Terry county than any of them.

There was a big snow while they were in New York

After reading over the Cub Reporter this week we have about decided B. H. S. is budding a journalist or two.

The Courier Gazette and weekly Democrat-Gazette published at McKinney by Messrs. Perkins & Wilson, are celebrating their Golden Anniversary. Congratulations.

Well, the "old personality" will be lacking in the Herald this week, and if any you other "guys" happen to recognize your article with probably a new bit of lace on it, don't "bawl" us out for copy stealing. The editor of this magnanimous paper, Mr. An-

drew Jackson Stricklin done hied himself off to the sunshiny land of California, for a little vacation and visiting the wife's kinfolks. He left Sunday morning in company with a nephew, E. C. Roberts and wife of Seagraves. And anybody that thinks writing is an easy occupation try drawing pay for what you can put out. All we ask is that you bear with us until the old maestro gets back, for we are sure he will have lots of interesting things to tell you then. Meanwhile we are hoping he is having a good time.

I heard on the sidewalks of Wink that there is going to be a woman enter the race for Sheriff, Tax Assessor and Collector, and that she is receiving a lot of encouragement. Some of the fellows who have already announced, and have been in the race for some time, unofficially, are almost sorry they are running for that office, because they want to vote for the woman for sheriff. I am constitutionally opposed to women holding office, but in the last few years, they have taken on so many mannish habits, such as smoking, drinking, swearing, plowing, and rideoing and racketeering, that I have just about decided to let them have what they want, and we men can take what's left and be happy. Aside from this comment, if Winkler county were to have a woman sheriff, we no doubt would get a lot of valuable publicity, and advertising pays.—Col. I. Heardit in the Wink Times-Herald.

HERE IS THE ANSWER

There are many reasons why advertised goods sell best. In speaking of nationally advertised foods, for example, travelers are able to purchase the same brands of crackers in the east as in the west, in the north as well as in the south. And the same principle applies to all goods made or sold locally. The buyer knows that a local advertiser is ready to stand behind his product because his advertising is proof of his confidence. The advertiser is known and has pledged himself to stand back of his merchandise. He has given his printed word to the general public and must keep it. It is the mark of good faith and is recognized by buyers the world over as such. Almost without exception all of the improvements in packages or other containers have been the direct outcome of advertising. When there is something you want to buy you can depend upon this—you are always safest when you buy goods that are being advertised.—Big Spring News.

NOT THE WORST DEPRESSION

Dun & Bradstreet's statistics of business failures seem to refute the belief that the 1929-33 depression was the most disastrous in history. The highest failure record in recent years was that of 1932; but it was not so high as that of 1878. There was greater commercial distress in 1867, according to Dun & Bradstreet and in the depression period from 1876 to 1878 than in any other times.

Bankruptcies are only one item measuring business conditions of depression, but they are important barometers. It is a curious fact, and contrary to general opinion, that failures are higher after the deflation period has run its course and recovery has started up than earlier

in major depressions. The Dun & Bradstreet statistics now bear this out, since 1878, the record year for failures, came five years after panic and only a year before the great revival in 1879. In the latest depression period the year of highest failures was 1932, three years after the break. In the depression of the nineties, also, the peak year for failures was 1896, three years after the panic.

The Dun & Bradstreet figures are not in accord with the often heard phrase, "through no fault of their own," implying that the losses and failures in times of depression are due to the errors or practices of somebody other than the victims. Dun & Bradstreet report that the three main causes of business failures are poor accounting practices, inadequate capital and poor management, particularly indecision and dilatoriness.

Even in the New Deal, these human foibles will not be abolished, nor will they be exempt from their old-time consequences. The number of business failures in 1932 was 31,822, but in 1926, the year which political experts now advise us was "normal," the number was 21,773.—Fort Worth Star-Telegram.

McGUFFEY SHRINE

A saga of the growth of the American public school system is found in a recently established shrine to the McGuffey brothers in Oxford, Ohio. William H. and Alexander McGuffey are remembered from the days of the "Little Red Schoolhouse" era as authors of the McGuffey Readers, used for 75 years as text books from the first to the sixth grade.

The first "McGuffey Eclectic Readers" appeared in 1836 and were edited by William H. McGuffey, who was 16 years his brother's senior. The elder McGuffey was well-known as one of the nation's leading educators having occupied chairs at Miami and Ohio Universities, Woodward college in Cincinnati and the University of Virginia. Alexander McGuffey, while a well-known attorney, contributed to the readers in his leisure time, collaborated with his brother.

The McGuffeys believed their books should be character-building as well as educational, teaching patriotism, honesty, industry, temperance, courage, politeness and other virtues. Many will recall the story of George Washington and the cherry tree and the "snow dog" of Mount St. Bernard.

Among the exhibits at the McGuffey shrine, is the study table used by the elder McGuffey, his spectacles, his bed with old-fashioned corn-husk

matress, bits of fancy work done by Mrs. McGuffey and the old bell that summoned to classes the students of Female College, now the Western College for Women.

William H. McGuffey died in 1873, aged 79 years, while Alexander died in 1896, aged 80 years. Neither brother lived to see the new McGuffey Readers, which appeared in 1901 and are still used in some elementary schools.

DEATH ON THE RADIATOR

About one out of every ten of the automobiles that use public streets and highways, should wear as an emblem a large, staring death's head.

It wouldn't be a pretty sight. But it would be an accurate symbol. Ten per cent of motorists are responsible for our gigantic death and injury toll. Not all of them, of course, have an accident every year. But they all take chances. They are irresponsible or incompetent or congenitally careless. They drive cars with defective breaks and steering mechanisms and poor lights. They cut in and out of traffic, missing oncoming cars by an eyelash and feeling a thrill of achievement while doing it. They pass on hills and curves, and regard even the most basic and sensible traffic laws as being inimical obstacles which should be avoided whenever possible. They drive at high speeds when road and traffic conditions make it exceedingly dangerous.

And—every year—they leave behind them 30,000 corpses and hundreds of thousands of injured persons whose sole offense was that they happened to be present when the reckless driver was taking one of the chances he didn't get away with.

Yes, there should be the emblem of death on a long line of automobiles which otherwise look no different than any other cars of their kind. This suggestion may make some of

PLYMOUTH IS THE ONLY LOW PRICED CAR THAT OFFERS THESE FOUR BIG FEATURES

TODAY PEOPLE DEMAND A SMOOTHER RIDE!

People no longer buy a certain car just because it's the kind they had before. They're looking around more—and more carefully. They're testing the ride before they buy. That's how Plymouth made its sensational sales record in 1933.

That's why these new Plymouths for 1934 are ready making sensational sales records. The 1934 Plymouth ride is outstanding in the low price field. Plymouth led the way to smooth riding, with floating power engine mountings, which put an end to engine vibration.

Floating Power engine mountings placed Plymouth in the front rank of popularity—and continue to be the greatest "ride" feature of recent times.

But Floating Power is just half of Plymouth's 1934 ride story. Now Plymouth presents Individual Front Wheel Springing and the end of galloping—Cross-Steering and the end of steering wheel wiggles. No more road fight—no more rear seat jouncing. Plymouth frees you of vibration from both engine and road!

No wonder people everywhere are enthusiastic over the new kind of ride that the 1934 Plymouth gives.

Proof Of Fine Weather We Have Been Having

Lubbock, Texas.—Mustard greens, carrots, turnips and radishes planted February 1 by A. Judd local irrigation gardener are up high enough now to be cultivated.

"I water the ground before planting" he said. "This weather we have had up to this time has been the best I have ever seen here in 27 years for winter gardens. We have had turnips all winter long."

Mr. Judd has a 30-acre irrigation garden on the Slaton highway and supplies Lubbock grocers with fresh vegetables.

Since last edition we have added H. R. Thames, Rt. 4; Bruce White Rt. 3; I. E. Newberry, Childress; W. T. Pickett, Rt. 3; Miss Violet McBurnett, Abilene; M. V. Anderson, Tokio; Goldie Beauchamp, correspondent for Hunter; Homer Franklin, Meadow; L. P. DuBose, Rt. 2; Mrs. J. E. Woodard, Fayetteville, Ark.; and T. A. Smith, Rt. 3, to our new subscriber list.

Mrs. G. M. Thomason, our correspondent from the Forrester community, was in Monday and said she wouldn't have any news from there this week because she and husband were on their way for a visit in Haskell county. They were going to attend a celebration of her father's and mother's golden wedding anniversary at Rochester.

DON'T FEAR YOUR MUSCLE

The young men employed on forest work by the government conservation camps have averaged to gain 12 pounds in weight while thus engaged. Many of these fellows, accustomed only to sitting on office chairs or at school desks, must have looked at their axes and saws with some apprehension.

"How can I swing that heavy thing all day?" many of them probably said. It must have taken a lot of liniment for the first weeks to soothe those sore muscles. But how they must have tucked in the beefsteak at the mess table, and how they would sleep after their mighty labors in the stimulating air!

After a few weeks of it, you would see their flat chests expand, their feeble muscles fill out, until they would swing an axe the way they used to handle a baseball bat. No one should fear to use the muscle Nature gave him. It was never meant to lie asleep. Many a powerful fellow who is stifling his lungs as he bends over a desk, could learn from these boys that what he needs is life in the woods or on some farm.

—Ex. In terms of depressions and droughts, we're beginning to suspect that all's well that ends.—Pampa Daily News.

Portland Oregonian inquires if the horse is coming back. The one we put our money on doesn't seem to have gone.—Dallas News.

It Isn't A Novelty

Speaking before an audience in New York City recently a well-known eastern man said he had found a new way to happiness. He said he had recently learned that the surest way to get joy out of life is by being of service to others, by doing something for the other fellow. And he actually declared it to be a new discovery.

Here is a man who has never lived on a farm, or in a town like Muleshoe where people all know their neighbors, and where they have to be mutually helpful. He has probably always lived in cities, where the people are so self-satisfied that they will have nothing to do with their next-door neighbors. Suddenly the realization has come to this man that a life of smug isolation and personal seclusion and selfishness is wrong, and that human beings should think more about their brothers. To this man this feeling has come as a new revelation, and he is so enthusiastic about his discovery that he thinks he has found the universal key to happiness.

That's fine. But the fact is this chap hasn't made a new discovery at all. He has only discovered for himself what the world has known for ages as the Golden Rule. He has only discovered what those who live in small towns and rural sections have always known and practiced. And that is that service and helpfulness to others is the real secret of happy and contented living.—Muleshoe Journal.

"EVERYTHING WILL WORK OUT ALL RIGHT"

William Green, president of the American Federation of Labor, is optimistic. He had a conference with the President. They were closeted together for an hour. Then Green bowed himself out. Correspondents awaited him. He expressed the belief to the newsmen that "everything will work out all right."

President Roosevelt hopes that the CWA workers can pack up their shovels and go into private industry before May 1. They have been carried through the winter. They will be carried until the coming of May. Harry L. Hopkins has fixed the deadline as May 1. This after holding a conference with the President.

There was attached to the deadline date, however, a reservation that if private industry could not find jobs for a good share of the 4,000,000 workers by that time the President would consider the question of extending the life of the relief agency or set-up.

There will be a demand in spring-time for farm and ranch laborers. There will be a demand for workers in cities and towns. Mighty generous is the record that Uncle Sam has established. He has provided work for millions. There should be a deadline established somewhere. This does not mean that worthy people should be permitted to go hungry. It is an intimation that the government cannot continue as the employer and Good Samaritan of those who demand special jobs and special favors.

Man should do his level best to create his own opportunities and make his own way.—Cleburne Times Review.

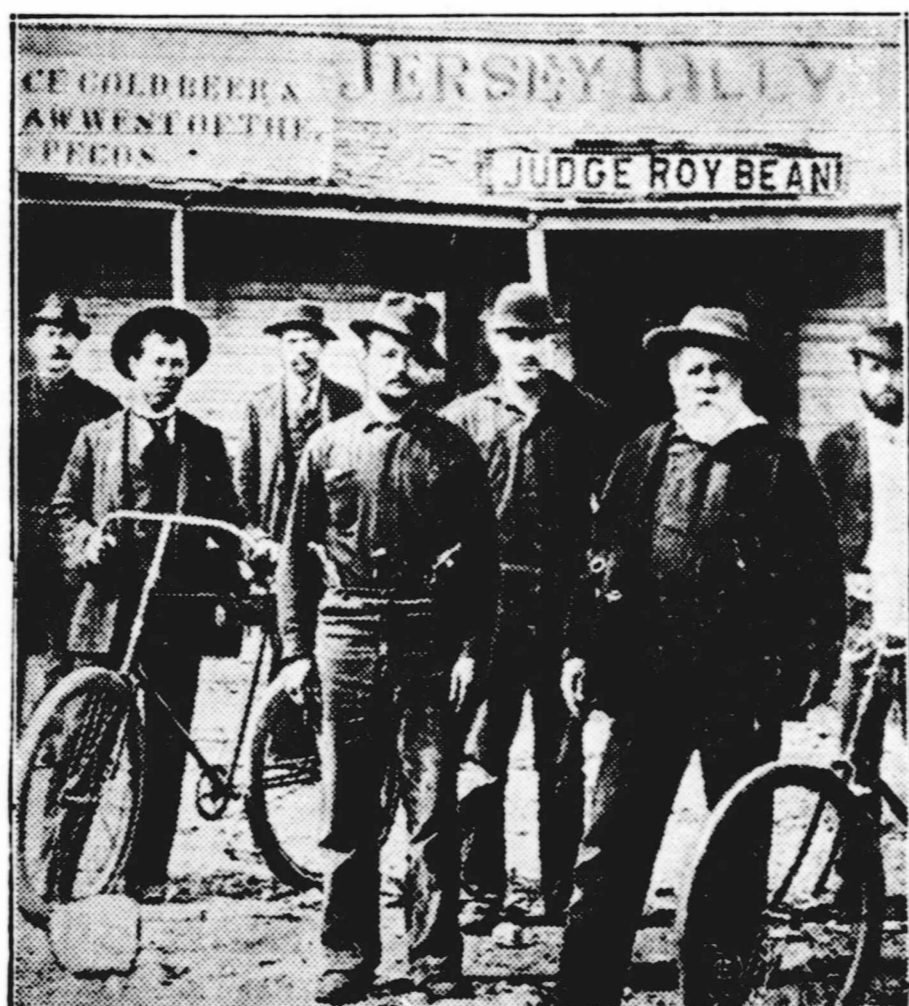

A PRACTICAL MOVEMENT

The Regional conferences of the East Texas Chamber of Commerce are setting an example to the entire State in inaugurating a campaign for "home renovizing." At the opening conference at Sulphur Springs on Tuesday, Curtis Morris, assistant manager of the chamber, said that the object is to stimulate construction and relieve unemployment. A dispatch reports Morris as saying that "the chamber is seeking CWA funds for use in making renovizing surveys in twenty counties in East Texas and plans also to sponsor builder's expositions, central employment bureaus, and the soliciting of pledges from home owners to repair and improve their property." All of this was endorsed by formal resolution, and it is the intention that similar action shall be taken at all six of the conferences.

This is the kind of "cooperation with recovery" that is needed. Of late there has been apparent too much of a disposition to look to the Government for everything in the way of recovery effort. That there is a limit to what the Government can do, particularly in the matter of expending large sums of money, ought to be perfectly clear. But aside from this, one thing that needs to be realized is that real and lasting recovery must come from the resumption of private expenditures and private effort.

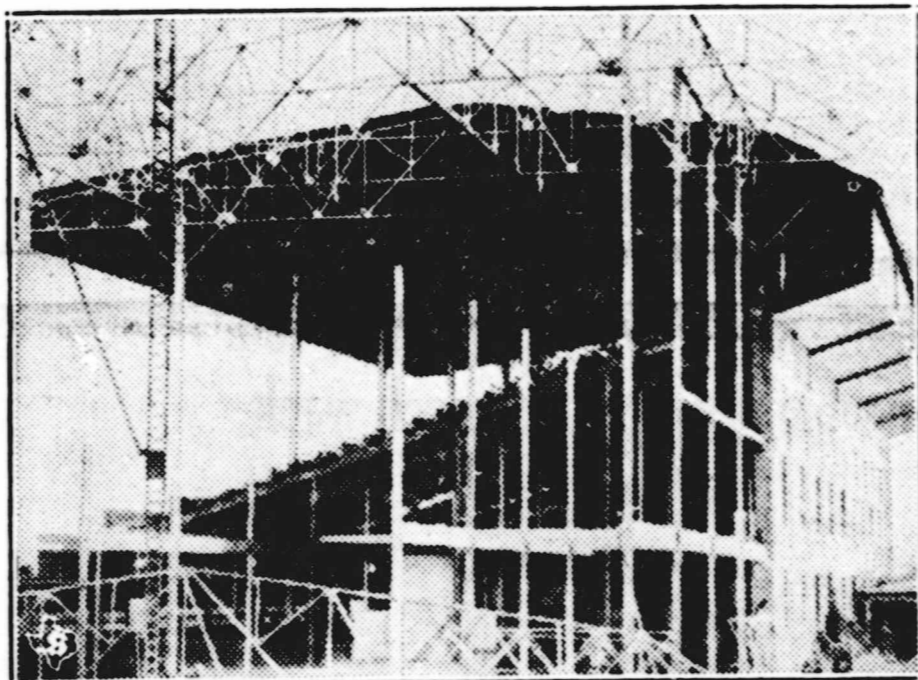

The suggested campaign to promote the "renovizing" of homes is precisely the kind of effort that is needed. For one thing it has a practical program. One does not need to make a survey to know that a large percentage of dwellings have been permitted to run down during the past few years. And this is one of the worst forms of waste. Expenditure of private funds to restore prop-

"Cold Beer and Law West of Pecos"

Here is a true and authentic photograph of Judge Roy Bean, "The Law West of the Pecos," pictured with some of the boys who used to whoop it up with him at the Jersey Lilly saloon in Langtry, Texas. Old Judge Bean in years gone by meted out justice in no uncertain terms. Finding a Chinaman shot to death, a gun on his hip, \$30 in his pockets, Bean fined the dead man \$30 for carrying concealed weapons and confiscated the pistol. The town and the saloon were named after the famous Broadway dancer of old times, Lilly Langtry, who once passed through there on the train and made a big hit with the Judge. In the picture, Judge Bean is the man with whiskers at the right.

Arlington Downs Dresses Up for Season

In no small way for the coming racing season. A beautiful sunken lake, with a swan island in the center, now graces the infield of the big double track, and huge grandstands are swinging into place to make the stands the largest in the Southwest. The new addition, which will make the stand 360 feet long, is pictured above. Pari-mutuel betting, now legal in Texas, is making this possible, and though this beautiful \$6,000,000 racing plant between Dallas and Fort Worth may never pay for itself, the Waggoners of Tri-D Ranch fame are having a lot of fun with it.

Texas Boys Learn Farm Terracing Young

A BERGOS COUNTY SCHOOL GROUP, showing how to terrace a farm properly cared for, took his entire class of boys to a county agent demonstration that they might learn how to terrace farm land. They learned so well that they terraced eight farms and earned a substantial sum with which to buy playground equipment for the King's Highway school. In the picture above the boys are shown running terrace lines on one of the farms.

partly that has been deteriorating is the soundest kind of investment. For its effect is to conserve a much larger investment. Aside from the desirability of promoting employment in the construction trades and the building material industries, the thing is worth doing for its own sake.

As we say, in undertaking this campaign the East Texas Chamber of Commerce is setting an example to the entire State. It should be taken up in other sections, and in all of the

larger cities. We feel certain that the movement will meet with more than sufficient response from the public to make it highly successful. Its success, to be sure, will not of itself "bring about recovery." But it will help immensely along with other similar effort.

Mr. and Mrs. H. E. Whitmire of Tatum, N. M., visited Mrs. Whitmire's sister, Mrs. L. E. McClish on Monday.

EDNA BAKER (The Attorney's Wife)

SAYS --

"My Gas Refrigerator Changed Our Argument"

Paul Baker, the attorney, will substantiate every argument he makes in court, but when talking to friends he's human like the rest of us and apt to base his opinions on what someone said. That's why he and his wife Edna, classed themselves with those who felt they were paying too much for gas. The Bakers have used gas for cooking and water heating so long that they lost all idea of its value as compared to substitute fuels.

Several months ago Paul gave Edna a new gas refrigerator for her birthday. They were surprised to find that its operation required no more than 1000 cubic feet of gas a month, for which they paid 67½ cents. Since 1000 cubic feet of gas will give three dollars' worth of service, they value it at that amount for this purpose. No longer do the Bakers complain about the price of gas. Instead, they praise gas service as their greatest bargain.

By turning to gas refrigeration you can prove to yourself that gas is worth three dollars for this purpose. By comparing the value of gas with substitute fuels for other uses you will find it to be worth \$2.50 per 1000 cubic feet for cooking and \$1.25 for water heating. These amounts are much higher than the price of gas in this community.

West Texas Gas Co.
GOOD GAS WITH DEPENDABLE SERVICE

Newspaper Bargains

We received a notice from the Abilene Morning News and the Abilene Daily Reporter wherein they were offering from NOW until October 1, 1934 either one of the above (including Sunday's of either one by mail) for \$2.95.

Congress and the State Legislature are both in session now and there is plenty of news happening. Also this is election year, and politics will begin to warm up pretty soon. You have until April 1st to get in on this bargain, but subscribing now will be your chance to get a good paper every day for 8 months, including a funny for the kiddies on Sunday.

We are still taking the Dallas Semi-Weekly Farm News at the rate of \$1.50 with our paper, too. Also Pathfinder which comes once each week.

1. "At the Devil's booth are all things sold." Among the worst ones are robbers, bankers, villains, and school teachers.

2. This good old world is full o' fools. Give 'em time and they'll kill themselves. I dunno what we'll do when we run outta time.

3. Automobiles are wonderful things. The stage of perfection is just ahead. They're fool-proof now. Who'll make 'em woman-proof?

4. Radios are made with dials on 'em so's we can shut 'em off. Pity that our librarians ain't made like that.

5. There are lots of good school teachers and bankers—of course they're all dead! But what has been might be again!

WHEN TO LAUGH

Do we really know when to laugh? Laughter expresses mirth, joy, gaiety and happiness, but unless we are very careful it will mar our character. When you annoy others by your laughing you are telling the world what an illbred, impolite person you are.

Do people think twice before they laugh? Suppose a teacher is telling the student body an interesting story on a subject that is often brought up. If the pupils laugh does the teacher feel at ease? He is doing that for our benefit and why should we take advantage of him?

That is not sportsmanship. In fact, what is it? We don't like to be laughed at or made fun of, do we? We are bored, feel out of place, embarrassed, unimportant, and not wanted. Then why should we laugh at the other fellow? He is human as well as we.

Our assembly program offer us a place for exercising discretion in this matter. Let us not laugh at serious chapel talks, when announcements are made, or when it will cause or result in someone's discomfort. You should refrain from laughing too quickly or boisterously in church or at other public gatherings.

Mr. F. E. Robertson was correct when he said "That man is a bad man who has not within him the power of a hearty laugh," but be

sure you are positive that you do not annoy others.

In brief, laugh when a wholesome regard for others will permit you to do so. Never laugh when another has been injured or when your laughter will cause embarrassment or injury. But let us hear gay laughter when it is in order. "Laugh, and you'll never feel blue."

THE LIBRARY DRIVE

The library drive, sponsored during the past week by the Brownfield High School, netted some one hundred usable books for the school libraries. The campaign opened Monday, February 5, and closed as a contest Friday, February 9. However, Principal Jack D. Wester expressed the opinion that additional books would be handed in from time to time.

The classes ran a race to see which class could collect the most books. Each student was asked to inquire at home about books that would be useful to the school libraries and that would not be useful at home. A committeeman from each class was appointed to go from house to house to collect the books. The winning class was to have the privilege of presenting all the books to the school. The results were as follows:

Freshmen	43
Seniors	36
Juniors	5
Not classed	16

Total 100

All the books are appreciated and are of value to our library.

The schools wish to thank each person who was so kind as to give a book. To Mr. W. B. Toone, former superintendent of the schools at Brownfield, the Senior class is specially indebted, since he donated some thirty of the books they gathered.

The committeemen were: Seniors, Kenneth Purtell; Juniors, Clyde Dallas; Sophomore, Clifton Jones; Freshmen, Joe Bob Burnett. The driver was Burdett Auburg.

P. T. A. MEETS

Thursday evening, February 8, the Parent-Teacher's Association assembled at the high school building for their regular meeting. The program was given in honor of the organization of the National Congress of Parents and Teachers. A large audience enjoyed the evening's entertainment. Slide pictures of the Orient were shown as a concluding feature of the program.

After a short business meeting the group gave a program in commemoration of the 36th anniversary of the founding of the Parent-Teacher's Association, this organization having been started at Washington D. C. on Feb. 17, 1897. There was a cake with eight candles on it, and each candle represented one of the eight cardinal principles of education. The group of eight women, each lighted a candle and told what each candle was for.

Then a contest was held to see who would get the cake. The plan was somewhat on the order of a human roulette wheel. Places were sold for ten cents each until thirty people had entered the contest. While music was played the entries moved around a circle upon which the numbers were placed; when the music stopped each person was to stand on one of the numbers. A small girl from grade school got the cake, as she was standing on "Lucky Thirteen" when the music ended.

A series of slides was shown. The pictures were of the Orient—Hawaii, Japan, and China. Mr. Dennis directed the machine while Mr. Lawlis gave the lecture or explanation. The pictures had been rented with money furnished by the P. T. A. The machine had been given to the school some three years ago by the business men of the town.

The crowd seemed to enjoy the pictures and the lecture accompanying the program was reported to have had high value as instruction.

LYNN COUNTY TOURNAMENT HELD HERE

On February 9, 1934, the Lynn County Basketball Tournament was played at the local gymnasium. Those participating were O'Donnell, Wilson, Taboka, and New Home. New Home was defeated by Wilson, and Taboka lost out to O'Donnell. The finals were played at eight o'clock, Friday night between Wilson and O'Donnell. O'Donnell won with a score of 29 to 23. Coach Daniel of B. H. S. officiated.

MR. LEDBETTER CONTRIBUTES TO BIOLOGY

Monday morning, February 12, in Plane Geometry class, the students' wandering minds were disturbed by a loud roaring. To their minds there appeared visions of dragons and other terrible animals. But upon closer examination it was proved to be a monstrous fly, about to feast upon the able instructor's head.

Finally becoming exasperated, Mr. Ledbetter made a slap at the fly. Accidents do happen; he hit it. Dazed, the fly fell on the desk. Mr. Ledbetter pounced upon the defenseless animal. Holding it between

merciless fingers, he asked for a biology student. There was silence for a minute, then a student timidly held up her hand. Mr. Ledbetter produced a container, incased his victim therein, and bestowed the monster fly upon the fair maiden with the suggestion that she present it to the Biology Class. This gift, according to the maiden, will furnish a welcome diversion from frogs.

The complicating question that now disturbs all biology pupils, as well as their instructor, is "To operate, or not to operate."

SOPHOMORES RECEIVE INTERESTING LETTERS

As a project in English Two B, the sophomores have been writing letters to sophomores in other states. Each pupil selected a town about equal in size to Brownfield, and addressed his letter to the Sophomore Class in care of the high school principal of that place. Eighteen letters were sent to sixteen different states.

During the past week the class has been enjoying the answers to these letters. The first letter came to Clifton Jones, and was written by a sophomore in Buford, Georgia. A second interesting letter came to James Burnett, from a girl in South Deerfield, Massachusetts. Clarence Thomas has received two letters from Michigan. One letter has returned unclaimed.

The class is very interested in these letters, because they tell about the climate, and industries that are carried on in these states. The class hopes to hear from every state that has been written to.

WE WIN AND WE LOSE

Last Saturday evening, February 10, the Brownfield Girls' Basketball Team clashed with the Seagraves team. The game began as if it were being played in slow motion, but as the minutes ticked off, the girls began to put up some real play. At the end of the second quarter the Seagraves girls were panting like a pack of wolves, and we had piled up a score of eleven to nine.

The second half started! Perhaps the talk given to the Seagraves girls by their coach pepped them up for they were certainly raring to go. Well, they were fooled again because our huskies were keeping up their pace for dear old B. H. S.

At the last few minutes of the game, the Seagraves girls were hoodooed for sure. The game ended with a score of 33 to 15 in Brownfield's favor.

The boys of B. H. S. and Seagraves were now beginning to warm up for they were anxious to show their opponent just what they were made of. The game started, giving us a little disappointment for our boys were finding it hard to keep up with the visiting team. Throughout the game they kept just ahead in the score. We were becoming afraid and couldn't help from showing it. The time was flying, and also our boys were being fouled off. That meant that we would not do as well as we had been doing. In the last quarter of the second half, the last man of Seagraves' team fouled off, and the game was finished with only four men on their team. Still they crushed us with a victory of 29 to 21.

If the people of Brownfield would come out to these games and help support the boys and girls, they would be more enthused in helping make ole' B. H. S. the best on the map.

HOME ECONOMICS CLUB

The Home Economics Club has really started on the road to "success." For the past two days Mrs. Redford Smith met with them and taught them how to crochet. Last club day Mrs. M. L. Perry taught the remaining girls how to knit. The girls appreciate very much these ladies taking their time to teach them. It is believed the girls will improve themselves and accomplish a great deal before this semester ends.

All members and their sponsor are helping to make this club the most successful club in B. H. S., that school which is dear to so many hearts.

HISTORY CLUB MEETS

On February 12, the History Club met and continued with the program of autobiographies.

The club party was put off for at least two weeks because County Championship in basketball was to be determined during this week.

JUNIORS PRESENT SCHOOL WITH NEW SONG BOOKS

During chapel, Wednesday morning, February 7, Roy Chambliss, the class president representing the Junior class, presented the school with one-hundred new song books. The books are "One Hundred and One Best Songs."

The Brownfield High School has been badly in need of some new song books for the past year. The Juniors saw this need and decided to present the school with the books. The teachers and students enjoyed the singing Wednesday morning as

there were enough good song books for everyone.

WHO'S WHO IN B. H. S.

1. What Junior girl is afraid two of her class mates are going to vamp her Senior boy friend?
2. What boy has let some girl steal his heart? (As a result there will be a trial in Dramatic Club, Monday.)
3. Who was the only person in Civics class, Friday, that did not have chewing gum?
4. What big event took place Saturday night?
5. What new attraction is there on the bulletin board in study hall?
6. Who are the two girls in B. H. S. who have dyed their hair black?

Dissenter From Alto

Here is George B. Terrell, Texas Congressman from Alto, who greatly aroused the antagonism of the citizens of his home town when his was the only vote cast against the continuance of the Federal CWA program in United States Congress.

A barking dog seldom bites.

HUNTER NEWS

We are very glad for the change in the weather. Everyone is wishing for a large rain so they can begin their work.

Miss Goldye Beauchamp visited in the home of Mrs. Welch, Sunday.

Mr. and Mrs. H. M. Austin, and Mr. and Mrs. Pearle Miller left Monday morning for Hobbs, N. M.

Master H. M. Austin spent Friday night with Joseph Beauchamp.

We are very sorry to hear of the death of Mrs. Tom McNew. She passed away last Friday afternoon about two o'clock.

TREASURY DEPARTMENT

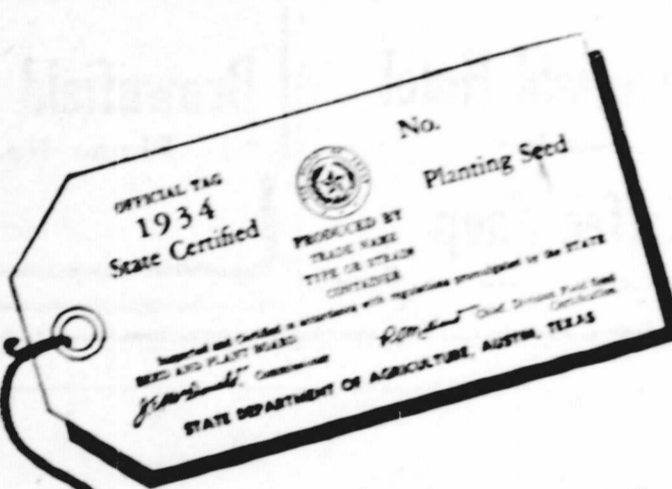

Office of the Comptroller of the Currency, Washington D. C.
December, 12, 1933.

Notice is hereby given to all persons who may have claims against The First National Bank of Meadow, Texas, that the same must be presented to Victor H. Lindsey, Receiver, with the legal proof thereof within three months from this date or they may be disallowed.

J. F. T. O'CONNOR,

3-16c. Comptroller of the Currency

CONSTIPATED 30 YEARS AIDED BY OLD REMEDY
"For thirty years I had constipation. Sourcing food from doctors checked me. Since taking Adonis I am a new person. Constipation is a thing of the past."—Alice B. Alexander's Drug Store; in dow by the Meadow Drug.

A sack of planting seed—Cotton, Southern or Small Grain—bearing this Official Tag is the purchaser's assurance of a QUALITY product produced by a REPUTABLE concern QUALIFIED under State Laws as a REGISTERED Plant Breeder or CERTIFIED Seed Grower.

Registered INSURANCE

Southwestern Life Gives You EXTRA Protection

Just as the REGISTERED and CERTIFIED Tag shown above means PROTECTION to the grower of Cotton and other crops, so does the following CERTIFICATE, which is attached to every Southwestern Life Policy mean PROTECTION to the Policyholder:

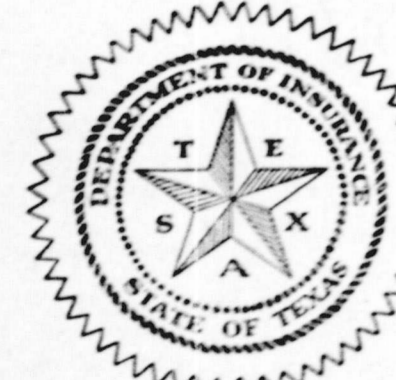

"THIS POLICY IS REGISTERED, AND APPROVED SECURITIES EQUAL IN VALUE TO THE LEGAL RESERVE HEREON ARE HELD IN TRUST BY THE COMMISSIONER OF INSURANCE OF THE STATE OF TEXAS."

And, in addition to its required legal reserves actually on deposit with the State of Texas, Southwestern Life now holds, for the extra protection of its Policyholders, \$6,597,248.40 of Capital and Surplus Funds.

SOUTHWESTERN LIFE DOES NOT OWE ANY GOVERNMENTAL AGENCY OR OTHER FINANCIAL INSTITUTION

Just as the State Department of Agriculture advises: "Know the QUALITY of the Seed You Sow"; so does your good judgment suggest: "Know the QUALITY of the Policy You Buy." See the Southwestern Life Man in your community; he is well qualified to help with your insurance problems, without obligation on your part.

"Sun Parlor" Fine for Chicks When Spring Comes to Texas

Spring, baby chicks and warmer weather are coming to Texas, and the best way to handle the baby chicks in the warmer weather of spring is with a "sun parlor" as pictured above.

RED GOOSE—THE OJIBWA INDIAN BOY

An Indian Story for Boys and Girls

By Carlyle Emery

Betty and Red Goose were about to start up the hill again with their sled, when Twisted Nose, a big Sioux Chief, rose up out of the bushes.

Before Betty had gone halfway up the hill, two other Red Skins caught up with her and dragged her back to their hiding place.

Twisted Nose joined them shortly and said, "Ojibwa boy is dead. Come—we go."

The Sioux had hidden their horses, too, behind a large clump of bushes, and it was only a question of a few minutes before the Sioux war party started away, carrying Betty with them.

In the meanwhile, the soldiers back at the Fort had heard the shot when Twisted Nose had fired at Red Goose, and now they were gathering together quickly at the top of the hill.

"That shot came from the bottom of the hill," said Bear Cat, "Come on—let's investigate. Gosh!" he added, as the men started to run.

"What is that over there in the snow?" asked Captain Roberts.

"Good gracious!" he exclaimed as he bent over something brown and still. "It's Red Goose, and he's been killed!"

"And Betty is gone!" exclaimed Bear Cat, excitedly "Quick! Send to the Fort for horses! We'll form a searching party at once."

"Poor brave Red Goose," sighed Captain Roberts sadly. "He evidently lost his life trying to save Betty. May God protect my little girl until we find her"

Bear Cat was now bending over the still, quiet form in the snow. Suddenly his face lit up and hope began to shine in his eyes.

"His heart is still beating! Captain! That shot just grazed his temple. Quickly the other men came over to the place where Red Goose was beginning to regain consciousness.

"Betty ran fast, but Sioux catch her," he said so faintly they could barely hear his words.

"The Sioux!" gasped Bear Cat. "They've kidnapped her! Here Bill, he called to one of his companions, "Help me take this lad back to the Fort."

"What do the tracks in the snow show?" asked Bill, as he and Bear Cat placed Red Goose on Betty's sled.

"There were five of the varmints. They had horsed hid over behind those bushes over there. They're probably several miles from here by now."

(To be Continued)

Arthur and Mrs. Sawyer presented the Herald family with some choice corn fed beef the past week, that was delicious. Arthur always feeds out a few beeves and hogs each year and always remembers us, about this time of year.

Mr. and Mrs. J. T. May returned to Lubbock Thursday after visiting in the homes of Tom May and W. B. Downing, some ten days.

How One Woman Lost 10 Lbs. in a Week

Mrs. Betty Luedeke of Dayton, writes: "I am using Kruschen to reduce weight—I lost 10 pounds in one week and cannot say too much to recommend it."

OUR 23 YEAR COLUMN

The issue of February 17, 1911, was announcing the arrival of a mighty gully washer and trash moving rain, the best rain by big odds that had fallen in Terry county in three years.

Colonel Beal and another railroad man had spent the night in Brownfield and said we were almost sure to get the Texas Central.

M. Scott of New Mexico, had decided to cast his lot with the people of Terry county.

The marriage of Miss Blanche Hunter and Mr. Ross Kinsey of Fort Worth was announced in this issue which had taken place the 8th of February.

May's Store was advertising fresh garden seed and onion sets. Claude Criswell was making regular runs with his new Case auto to Tahoka.

E. L. Duke had handed in his subscription. Sam Walker had plunked down \$4 for his four subscribers to the Herald. Will Moore had been in and told us a good story on a neighbor of his.

The Brownfield State Bank had secured the county funds again at 2 1-3 per cent. The new set of commissioners were in session for the first time. C. H. Hester of Frost, Texas had pleased us with his subscription, but what tickled us most, was that we were likely to have Mr. Hester as a neighbor one of these days on his land southwest of town—and sure enough we do.

R. H. Banowsky had bought the bunch of 800 sheep belonging to Sam Walker and Frank Howard. He also had purchased an interest in the Charley Bentley herd.

Something like \$30,000 worth of horses and mules had been bought and shipped out of Terry county in the past six months.

Uncle Jack Coble had leased his interest in the livery and feed business to J. C. Green. A. M. McBurnett had returned from a business trip to Snyder. They were having quite a snow along with the rain too, it seems.

FORRESTER P. T. A. NEWS

The Forrester Parent-Teacher Association met in regular session, Friday night, Feb. 2. After a short business meeting the following program was given by the school children:

Reading—Ruth Warren. Alphabet Soup—Children of Elementary grades. Play, "Squaring It with the Boss"—High School pupils. Friday night, Feb. 16, a Founder's Day program will be given.

EIGHTEEN MORE WORDS ARE SIMPLIFIED

Chicago, Feb. 11.—The Chicago Tribune tonight announced 18 additional words which it will spell hereafter in a simplified manner in its news and editorial columns.

A few weeks ago the newspaper issued a list of 24 words to which it proposed to accord a simplified spelling. The latest list follows:

- New Old Agast—Aghast Aile—Aisle Ameba—Amoeba Aquin—Aquila Bagatel—Bagatelle Criscross—Criscross Crum—Crum Crystalize—Crystallize Instalment—Installment Jocky—Jockey Missil—Missile Pully—Pulley Subpena—Subpoena Bailif—Baliff Burocracy—Bureaucracy Burocrat—Bureaucrat Burocratic—Bureaucratic Apalog—Apalogue

1,333 Cars Registered Up To Present

Auto registrations reached the 1,333 mark in Terry county before Mrs. Ferguson gave a reprieve to March 31, on buying car license.

Of these 1,145 were listed as passenger cars and 188 trucks.

Tom May made a business trip to Lubbock, Thursday.

Notes From Troop 19

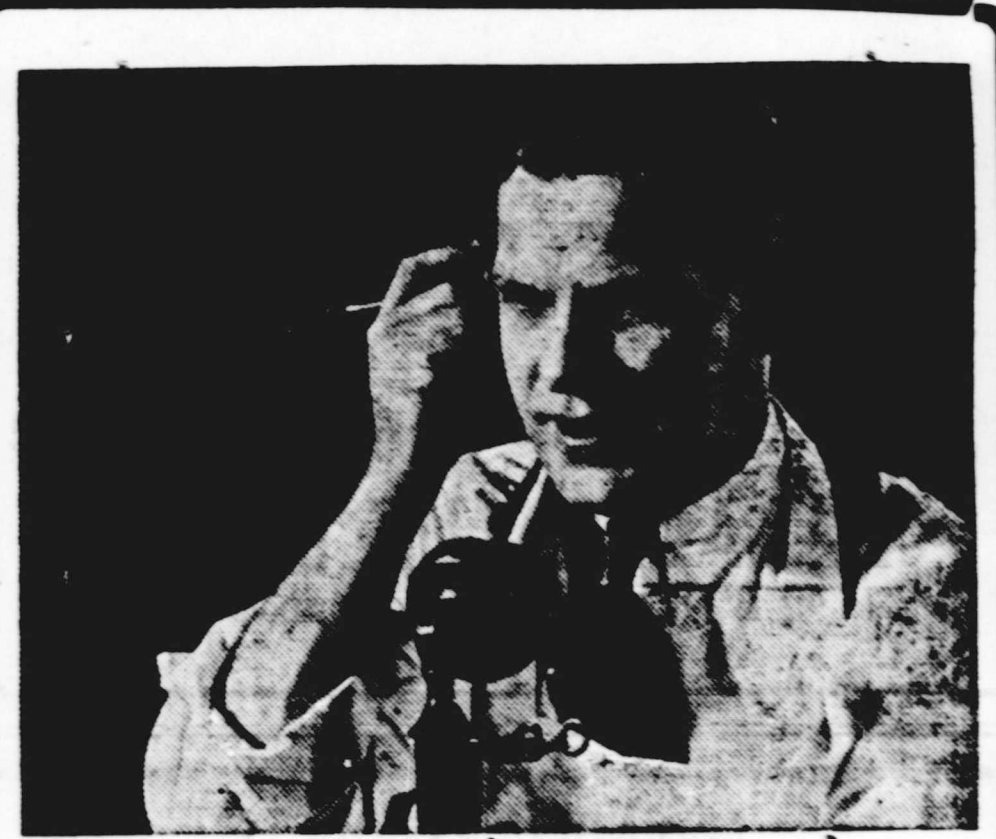

The Scouts of Troop 19 met in their regular meeting Friday night. One of the tenderfeet, "Squirrel" Burnett, took his test on the history of the flag. One new applicant showed up and was accepted for membership.

After the usual meeting we adjourned by giving the pledge of allegiance to the flag. We marched to the Scoutmaster's house where he had a surprise for us. He served us ice cream and cake, after which we sang scout songs and then adjourned. The scouts present were: Alvin Smith, Claude Hudgens, Terrell Fowler, X. L. Norwood, Bud Andersen, "Squirrel" Burnett, Jimmie Hudgens, "Buddy" Rambo, Mr. Dennis, and Mr. and Mrs. Lawlis.

Mrs. W. H. Dallas visited her daughter, Mrs. Herbert Lees in Big Spring the first of the week.

Renewals this week have been—O. L. Jones, city; C. F. Holt, city; J. C. Little, Wellman; Rex Headstream, city; W. H. Black, Rt. 2; Ben Hurst, Wellington; H. M. Austin, Rt. 3; O. H. Garner, Rt. 5; W. E. Robertson, Running Water, Tex., and Walter Luker, Rt. 3.

SCIENCE AND MILK We don't leave the puriness of our milk to guess work. Our cows pass rigid health examinations every few months. Absolute cleanliness prevails in our dairy. J. C. HUNTER
