NEW and IMPROVED CONOCO - Germ Processed Motor Oil -

LIVE big men can relax in utter comfort on the deep cushions of the Ford V-8. Wide seats keep elbows out of ribs. Ample leg room keeps legs from being cramped.

Why? Because Ford measures roominess in terms of usable body room. Not in terms of the distance between bumpers, which means nothing when you come to analyze it.

The Ford V-8's very engine construction gives you more body room, as the diagram explains. Cylinders are "doubled-up" saving space, not strung along in a line to waste it.

· See how much less pace is occupied by neans more space

The Ford V-8 front seat is adjustable. It quickly and easily adapts itself to a six-foottwo husband or a five-foot-two wife. It ends forever that source of strife.

Before you buy any car at any price, drive the Ford V-8.

SEE YOUR NEAREST FORD DEALER and up, F.O.B. Detroit. Easy Terms through Universal Credit Company - the Authorized Ford Finance Plan.

JAMES L. McNEES

Pledging himself to oppose monopolistic control of the Railroad Commission, James L. McNees, prominent Dallas attorney, has announced his candidacy for the place on the Commission to become vacant at the end of this year.

He pointed out that Texas receives income from oil produced in this State which is given to the school fund, and said he would discourage the importation of oil produced abroad which does not yield school revenue.

He emphasized that the Railroad Commission has become the most powerful agency of government in Texas, vested with wide powers for regulation of railroads, busses, trucks and the oil industry, and that the efficiency of its members should be of interest to the voter.

It is pointed out that all recent road meetings were for those that come from the east or south and go into Lubbock, such as the road to Fort Worth and Dallas, No. 9 from the south, and that they have been as silent as the grave on building 84 and 83, and pulling for 137 that goes to that city. But if the smaller cities on Arthur P. Duggan, Lamb county other routes will get right in the harness and show some fight, they will get results, Lubbock or no Lubbock. They don't pay all the taxes in this section.

> Recently, we wrote an editorial about wreckless driving by drunks, making special reference to the incident in which our district attorney was hurt and a good citizen of Tahoka was killed. Editor Hill of the Tahoka News copied, then went on with a lot of ambiguous language. He advises that all stores, crossroads etc., be allowed to dispense all kinds of liquors without restraint, and that all liquor laws be repealed, which anyone who has ever read after Hill knows is pure sarcasm. All of which goes to show that men can become intemperate in speech and with pen the same as with the use of intoxicants, and one is warned against just as strong in the New Testament as the other. This paper has never wrote an editorial for or against the repeal of the Dean Law, and does not expect to. But we do believe that if the majority of the people of Texas want to vote on the matter. that is a democratic privilege that is their due. If it carries, or don't carry, will not make a particle of difference to us. We always submit to the majority. We would also respectfully remind friend Hill, that the accident did not happen in a county that sells beer, and very likely the driver was not drinking beer, but some of Dawson county's strongest bootleg. But these drunken drivers are killing people in both wet and dry communities, and the law against drunken drivers should be so stringent that they will fear to get in a car when drunk. You can't tell us

Now that Raymond Hamilton has

TO OPEN NEW

FAIR MAY 26

Lower Cost to Visitors; 84

Miles of Free Exhibits.

Chicago.- A new World's Fair will

It is not simply an encore of the 1933 Century of Progress Exposition. In addition to many startling new features it retains all those of last year's

Fair that were too important and popular to leave out-but even they have been enlarged, changed and improved. This summer's Fair will cost little

to see and little to get to. There are 84 miles of interesting free exhibits.

The Exposition will look after the visitor's comfort hospitably, efficiently and inexpensively. Last year the aver-

age visitor spent only \$1.17 a day in-

World's Greatest Fountain,

100 of the old buildings. New ones have replaced them. The entire phys-

ical appearance is different, with new

color and new landscaping everywhere. New lighting effects at night, even more daring than those of the

1933 Fair, surpass anything of the

kind ever attempted anywhere. Scores of new exhibits have been added, one

of them the largest ever built. Vir-

tually every exhibit hel' over has un-

Comparable to the ferris wheel of

DEALER ADVERTISEMEN

WHY do you suppose Chevrolet keeps repeating, in all of its advertising, "Drive it only 5 miles"? Here's the reason: Chevrolet engineers have tried out all the various makes of cars in today's low-price field. And they have proved to their complete satisfaction, the same things that hundreds of thousands of Chevrolet owners are proving in their daily driving: How much more smoothly a car travels with genuine, fully-enclosed Knee-Action. How much more comfortably it handles, with shock-proof steering. How much more restfully you ride, in a Fisher Body car. How

much more safely you drive, with cable-controlled brakes. And how much finer performance and better economy are secured from an overhead-valve Six! In other words, Chevrolet engineers know for sure that the Chevrolet ride simply can't be matched by any other in the low-price field. They know it—thousands of owners know it—and now we want you to know it too, before you make your final choice of a low-priced car. CHEVROLET MOTOR COMPANY, DETROIT, MICH. #### Here's Something Good to Eat

Every real boy and girl comes running when they know there's a loaf of our milk-bread about to be spread with butter and jam. They like its nut-like flavor and the way it satisfies that hungry feeling. It's good to taste, and it's good for them, for our bread has all the necessary nourishment young growing bodies need.
