

Candidates For Congress Here Past Week

Judge Clark M. Mullican, of Lubbock, candidate for Congress of the new 19th district, was a visitor here all day last Thursday, and the afternoon of the day before. Judge Mullican has many friends and supporters in Terry county, and was here feeling out the pulse of the voters. He at one time was the district judge here when Terry county was a part of the 72nd judicial district.

He expressed himself as well pleased with the results of his preliminary survey of the district. He believes he will be in the runoff with either Mr. Duggan or Mahon. He found that Mr. Mahon was very strong in the southern part of the district.

Hon. George Mahon, of Colorado, also a candidate for Congressman of the new 19th district, was a visitor here last Friday. He was here practically all day, and left for Levelland. Mahon has many old friends and school mates in this city who are supporting and working for him. He is also making new friends. While all want the office, the district will not be hurt whether it is Duggan, Mullican, Mahon or Pharr.

Another County in Arkansas Heard From

Byron, Ark., May 10, 1934
Dear Editor: I see from the date on the Herald that it is past due, and kept thinking it would stop. Am getting the Hockley County Herald. The reason I checked was that I have a son living near Levelland. This is the second time he has taken your paper. I put an ad in one time and sure got good results.

Am planning on coming out there later on, and from the way you boost Terry county, that should be a good location for a man. I believe from the papers you put out that you are a big hater, boosting kind of fellow that gets a kick out of most everything. I sure did enjoy reading about your trip to Calif. I know you had a great time except the few minutes that looked like you were being held up. That would get on any one's nerves. I think you put out one of the best country papers I ever read.

Yours,
O. P. PREWETT.

Free Vaccine For Indigents of County

City Health Officer
Brownfield, Texas
Dear Doctor Jacobson:

Your letter of May 22 relative to typhoid vaccine has been received. We can furnish typhoid vaccine for the indigents only when the request comes through the city or county health officer.

If you will let us know just how much vaccine you will need for the indigents in your city, we will be very glad to send it to you.

If there is any way in which we can assist you, do not hesitate to call on us.

Sincerely yours,
John W. Brown, M. D.
State Health Officer.

Anyone desiring to take these inoculations may apply to City Health Officer.

BEN WOLFFARTH PASSES

Ben Wolffarth, pioneer of this section, dropped dead at his home a few miles from Plains last Thursday. The body was carried to Lubbock where the funeral services were held Friday, conducted by Rev. Haymes and Elder Liff Sanders, the latter being an old friend of the family.

The Wolffarths settled in Lubbock county before or about the time the county was organized, and some of his brothers still live there. For several years Ben and family lived in Terry county. Several old friends from here attended the funeral, including Geo. E. Tiernan, who at one time lived with Ben's parents.

J. O. Wheatley and family are entitled to a pass to the

Rialto Theatre

Looking For Trouble

Be sure to present this clipping at the box office at the Rialto Theatre.

Compliment: Rialto-Herald

May Get Another Big Feed Operation

We were informed confidentially the past week that another big feeding company was negotiating for pens in Terry county, the heart of the corn belt of the South Plains. Our informant said that developments had not reached the point where the promoters would let it be known who they were, or whether it was their own cattle they wished to buy, or proposed to buy them.

However, we were informed that the feed pens would very likely be located at Lahey, a switch six miles southwest of Brownfield, and that the company would drill their own well, and put in their own pumping apparatus to care for the watering. As Lahey now has but one small store, this city would benefit from the operation just about as well as if it was located right in town.

Terry The Biggest Feeder
According to an article by Sam T. Lewis in Sunday's Avalanche-Journal, Terry county is the largest cattle feeding county on the south Plains, perhaps in Texas. Lubbock county stood second to Terry, and Lamb third. The table follows:

By counties, feeding totals were: cattle—Terry, 11,000; Lubbock, 10,451; Lamb, 7,805; Hockley, 5,120; Dawson, 4,217; Hale, 4,158; Cochran, 3,100; Crosby, 2,050; Bailey, 1,267; Floyd, 930; Castro, 540; Garza, 282; Lynn, 235; Dickens, 154; Gaines, 140; Swisher, 25; total, 51,484.

The first load of Hearst steers to reach Fort Worth this year failed to top the market, but the Star-Telegram Monday had a picture of them in the pens, with quite a crowd looking them over. They averaged over 800 pounds in Fort Worth, and brought better than 6c. Incidentally, Brownfield got some good advertising.

Candidate For Gov. Speaks Here Today

Hon. Maury Hughes, of Dallas, will address the voters here today on the issues of his campaign for Governor of Texas.

Maury Hughes of Dallas Candidate for Governor

He will very likely address the voters from the band stand. The hour is 10:30 A. M.

Whether you intend to support Mr. Hughes or not, he should have a respectful hearing. He will, in all probability be supported to some extent by the Young Democrats, as he is very prominent in that organization.

School Districts Consolidate With Seminole

In a special election called for the purpose of deciding whether or not Wright School District No. 19, east of Seminole, and Bessie School District No. 15, would consolidate with Seminole Consolidated Common School District No. 1, both districts voted to come in by large majorities.

The vote in each district was as follows:

Wright	for 15; against 6
Bessie	for 35; against 1
Total	for 4; against 7

With the consolidation of these two districts this brings the total number of sections in Seminole Consolidated District to around 750 sections, making the district one of the largest, if not the largest in Texas.—Seminole Sentinel.

Mr. and Mrs. R. M. Kendrick returned Thursday night after visiting in San Angelo, Houston and Galveston. Mr. Kendrick was a delegate to the Chamber of Commerce Convention at San Angelo.

When Edgar Witt Opened His Campaign for Governor at Belton

Here is the great crowd which turned out at Belton, Texas, last week when Lieutenant-Governor Edgar Witt officially opened his campaign for governor in the city. The white arrow at the right center of the picture points to Witt making his first campaign speech. Witt was born in Bell county near Belton. (Texas News Photos.)

New Industry Looms For the South Plains

A new industry for the South Plains was reflected in the shipment since January 1 from Post of 23 cars of cotton ash to tobacco manufacturing concerns of the east and south to be used as fertilizer in growing tobacco.

The ash, in clinker form, was purchased by Ted Alkire, a buyer who has been here for some months. Prior to this year, Mr. Alkire had the ash ground into powder form in various places. Now he has established a hammer mill at Post and does the work there.

Chief purchaser of the ash is the Sumatra Tobacco corporation of Griffin, Conn. However, companies at Amsterdam, Ga.; Quincy, Fla., and Bridgeport, Conn., are also purchasers.—Lubbock Avalanche.

Will Rogers Still Fun-nier in "Mr. Skitch"

Laughter is the order of the day! Will Rogers comes to the Rialto theatre, on Sunday, in his latest picture for Fox, "Mr. Skitch." The film will remain for two days.

This is the screen adaptation of Anne Cameron's Saturday Evening Post story, "Green Dice," and with SaSu Pitts in the principal feminine role opposite Rogers, is bound to register high as a screen treat of rare flavor. The story details the adventures of a typical American family who take to the road in their flivver after the depression has cleared them of all their other possessions. Of course, they encounter all sorts of adventures, most of them unexpected, and all of them hilarious.

Others in the cast that supports Rogers and Miss Pitts are Rochelle Hudson, Florence Desmond, Harry Green, Charles Starrett and Eugene Pallette. James Cruze directed the production. The screen adaptation for "Mr. Skitch" was made by Ralph Spence and Sonya Levien.

Gaines County Jurors Dismissed For Term

On an order issued by District Judge Gordon B. McGuire, Monday, all petit jurors have been notified that they are dismissed for the term.

The docket being very light for this term of court, and only a few non-jury cases being tried, the expense of the jurors was disposed of for the remainder of the term.

One case to be tried the coming week in which Judge McGuire will decide same. Hence all jurors summoned for the third or last week of court are being notified not to appear.—Seminole Sentinel.

Etex Oil Leader

Jules Constantin (pictured above) of Constantin & Co., independent oil producers and refiners of Tyler, Texas, and president of the Independent Oil Refiners' Association of East Texas, has been named on the refining sub-committee by Secretary of Interior Harold L. Ickes. (Texas News Photos.)

Five Injured in Car Wreck Tuesday A.M.

Five people from Brownfield, on their way home from Austin, were more or less injured early Tuesday morning, near Durmont, in Scurry county, and the car of Raymond Simms was a total wreck. The party consisting of Simms, Clyde Lewis, both school trustees, and Mrs. P. F. Lawlis, the father-in-law of Raymond Simms. All were more or less skinned and bruised, but Mr. Lewis seemed to be hurt worse than any of the others. His thigh seemed to have been badly wrenched, and he had to be assisted to walk.

The party had been to Austin in the interest of Federal aid for the local school when the accident occurred. It seems that a calf or yearling decided to cross the road, and the car ran over him, veered over to a bridge, tore the railings from it and dropped some ten feet. Mr. O. Dennis, who went after the party, informed us that it was well nigh a miracle that the five were not killed. A car picked them up and carried them to a Snyder hospital, where they were given first aid.

Mr. Dennis said that he figured that it was somewhere near one o'clock in the morning when the accident occurred. He was called about 3 a. m. from the Snyder hospital to come after them. The Herald is certainly glad that the accident was no worse.

Leads War Vets

Pictured here is W. G. Schroth of Houston, Texas, who has been elected commander of the Spanish War Veterans of Texas in the closing session of the 36th annual state convention, held in Brownwood, Texas, last week. He succeeds Wayne C. Shearer of Sherman, Texas. (Texas News Photos.)

Another Tight Ball Game Here Sunday

The colored ball team of this city and Ralls locked horns here last Sunday, and we understand the game went ten innings before the score of 10 to 11 was won by the Brownfield team.

Manager Louis Beverly of the locals says there will be many matched games during the summer. Crosbyton has recently organized a colored team, the Crosbyton Woodpeckers, whom Luffs hopes to meet soon.

Liff Sanders Will Preach Here Sunday

Elder Liff Sanders of Lubbock, who has preached here in the pioneer days of the church of Christ, and later was its minister for more than three years, will fill the pulpit here Sunday at both the morning and evening hours.

Aside from the membership, he has hundreds of good friends here who will be glad to see him again and hear him preach. He makes friends but never loses one.

Rialto Has Installed Washed Air System

The Herald man called over to the Rialto Theatre this week to see the new cooling system that has just been installed at the Rialto Theatre. It is called the washed air system, and it literally does that. We were at the show Tuesday night, and for awhile before the machinery was turned off, one almost wished for a coat.

At the rear of the building, housed in a sheet iron room, is the machinery that does the work. The air in the theatre is sucked in through this aperture, which is some ten by ten feet square. Here the air encounters water pipes which are literally covered with sprays or jets. The water is forced through these pipes by a centrifugal pump, and the jets spray the water toward the huge fan that circulates the air.

Of course this air comes from the outside, and in the summer is hot and carries particles of sand and dirt, but after the machinery runs for a few minutes, the water through circulation, becomes quite cool, almost like ice water, and the sprays not only cool, but wash and clean the air.

The manager, Earl Jones, stated that he could in extremely hot weather, double the speed of the fan, which he may have to do for hot weather with a Saturday afternoon matinee, but at night and on all ordinary occasions, the first speed will be sufficient. Anyway during hot weather, the Rialto Theatre will be the coolest place in town outside an ice vault.

The Herald congratulates the Rialto on this forward movement for the comfort of its patrons.

J. A. Taylor Burns To Death in Home

The home of J. A. Taylor, who lives in east Yoakum county, near the old Harris community, was burned to death in his home about ten o'clock Tuesday night. Neighbors reported that the body was burned to a crisp, and could not be recognized excepting they knew who was in the house at the time.

Mr. Taylor was a prominent citizen of that community and, had taught school for several years. He was a good farmer, loved by his family and neighbors. It is reported here that he possibly thought one of the younger children was still in the house and went back after it when the roof fell in.

He leaves a wife and about three children, the oldest of which is about 14. The body was prepared by the Brownfield Undertaking Co for burial, and it was presumed that funeral services would be held in that community. The body will be buried here, this Wed. afternoon, the time depending on the arrival of relatives from Pampa.

Colored Baptists to Install New Pastor

Members of the New Hope Baptist church, which is the local congregation, are installing a new pastor, the Rev. B. H. Campbell of Plainview, who will still live in that city, giving this congregation the 2nd and 4th Sundays each month.

Quite an elaborate program has been prepared, beginning Wednesday night of next week and lasting thru Sunday night, during which other visiting ministers and quartets from Tahoka and Lamesa will be appearing. The congregation here is preparing to erect a new house of worship.

Joe Eudy was in Wed. and reported a fine rain.

Much Acreage Southwest Planted Over

The editor, boss and assistant boss drove out Tuesday afternoon as far south as the Lee Lyon place, and found his home—not at home—as usual. Going out, we turned south one and one half miles southwest of the city, for some eight miles, turning west to Forrester. Returning, we came by Lahey, thence down 137 to where one can go straight north to Gomez, turning east again just before reaching Gomez.

We found that where cotton and corn, and even maize was planted sometime before the rains of last week, was up to a good stand, and doing nicely. We saw much corn that was knee high and better. O. M. Minnix seemingly had about 100 acres knee high and better. M. C. Chambers was plowing out his cotton, which was planted in April. He had a good stand, and it will be but a short time until this cotton is forming.

But much of the area is being replanted, as the heavy rains of last week in this vicinity washed in too much dirt on the small plants and covered them up, or else covered seed too deep. There was little evidence anywhere that the truck had been blown out, but rather washed out. With the fine season they have, their newly planted seed will be up in a few days and growing nicely, and we do not believe that most of the land will blow badly from now on.

West Texas Head

Pictured here is Judge James D. Hamlin of Farwell, Texas, who last week was elected president of the West Texas Chamber of Commerce at the annual convention of that organization. Plainview was selected as the next meeting place at the San Angelo convention. (Texas News Photos.)

Brownfield Couple View Body of Barrow

Mr. and Mrs. J. L. Cruce returned last week from Dallas, and Mr. Cruce told us about them being there when the bodies of the bandit Clyde Barrow and his pal, Bonnie Parker came into Dallas. They lined up single file with thousands of others to march between ropes lined with police to view the body of Clyde. They did not see the body of Bonnie.

Mr. Cruce said that Barrow was a fine looking young man, and if shot in the face, he could not tell it, but it was said that his body was riddled. Listening to remarks, Luther said that some would express themselves that the officers did their duty, while others said they ought to have been given a show, or captured alive.

Luther says the last part did not state whether THEY would have tried to take them alive or not. Clyde and Bonnie never gave any of their victims a ghost of a show.

Asseby of God Convention Sunday

Will convene in Brownfield at the City Tabernacle the evening of the 13th at 8:15 o'clock and all day the 14th and the evening of the 14th at 8:15 o'clock.

Our District Superintendent, A. C. Bates, will be with us and many other ministers of the Texas District will be bringing inspired messages throughout the convention. Also plenty of good music and singing.

We will serve barbecue at noon the 14th, and it will be cooked in the old time way. We extend a hearty welcome to all the churches of Brownfield and the public to come and be with us. Let us have a good fellowship meeting together.

Assembly of God Church, Rev. Homer Sheets, Pastor.
Mrs. G. W. Graves and son, Jim, accompanied by her little granddaughter, Jackie Holt, are in Oklahoma and Arkansas, visiting relatives and friends.

Tragic Death of Baby Shocks Community

Harrol Don, 13 months old son of Mr. and Mrs. Chester Sanders of Loop, died at the Brownfield Hospital Monday night at 9:25 as a result of drinking kerosene.

The baby obtained the fatal draught from a pan placed under the tank of an oil stove to catch the dripping oil. The condition of the strangling child was noticed immediately and was rushed to Brownfield by the frantic parents and neighbors, but despite the efforts of the physicians died at 9:25 p. m.

Little Harrol Don was the only child of the family. Mr. Sanders is the son of Mrs. C. L. Edmondson; the mother is the former Miss Aurelia Morgan, daughter of Mrs. Bertha Morgan, all of whom reside in Loop, and are well known in Gaines County.

Funeral services were held Tuesday afternoon from the First Baptist church in Loop by Rev. M. R. Pike of Seagraves. Interment was in the Seagraves cemetery under the direction of Messrs. Morris and Morrisbank. Many tokens of sympathy and floral offerings were made.—Seagraves News.

Jack James Injured In Dynamite Blast

Jack James, brother of Ed James, is in a hospital at Pecos, seriously injured as a result of a dynamite blast. The accident occurred Friday of last week, and members of the family here went immediately to Pecos after receiving the news.

The most serious injury is to his eyes. It was feared for several hours that his eyesight was permanently destroyed in both eyes, but Mr. Ed James said Monday that physicians now hope that he will be able to see out of his left eye. Other injuries were cuts and bruises from flying rock, and a deep powder burn from the blast itself.

The injured man was working on a highline out of Mentone when the accident occurred. The crew was burying "dead men" in the rock. One charge of dynamite had failed to go off, and another was placed so as to touch it off. However, the first charge failed to go off with the second, and when James came along with the air drill, the point hit the cap and touched it off, so that the blast caught him full in the face.—O'Donnell Index.

Wells Postmaster Of the Tahoka Office

On Monday H. M. Larkin checked out as acting postmaster, and Coleman Wells was checked in for a term of four years. Mr. Wells received his commission as postmaster Sunday.

Mr. Larkin was appointed almost a year ago to fill the unexpired term of D. A. Parkhurst, who was relieved of his position. He had been serving capably in this capacity for many years, but was not permitted to fill out his last term. This term would have expired on April 28. Mr. Larkin filled out the unexpired term in a most acceptable manner, but there were a number of applicants for the permanent position, and due to the uncertainties of politics, Mr. Larkin was not awarded the big plum.—Tahoka News.

350 Brood Mares Arrive in Seagraves

Three hundred-fifty stock horses were driven into Gaines county this week from the old Burk Burnett ranch in Culbertson county. The large herd of young mares, three to four years old, was driven the entire trip, and presented a spectacle pleasing to local stockmen, who were on hand to look the herd over.

The three hundred fifty mares are only a part of the twelve hundred purchased by Fred Snyder from the Burk Burnetts after the death of the owner. Mr. Snyder recently purchased the old "T" bar ranch in the southwest portion of Gaines county and with the rehabilitation of the ranch will devote his time to the breeding of good stock horses.

Markus Snyder, brother of Fred, owns a large cattle ranch in this county and is a frequent shipper to the cattle markets. He expects to ship a large number of heaves to Kansas City in the next week or so.—Seagraves News.

Somebody has been spoofing John Santa Fe again, as we see by the late issue of "Earth," Santa Fe publication, that there will be a courthouse built jointly by Terry and Hockley counties—to straddle the line between them, we suppose. Both have very nice courthouses at Brownfield and Levelland, and we don't believe the citizens of either wish a bond issue to build a joint courthouse.

It is said that Frank Hamer offered his services to the Federal government to track down John Dillinger, but the Ex-Texas Ranger was rejected because he didn't happen to be a lawyer. The government may have some reason for this that the common lay country editor knows nothing about, but it sounds as silly to us as to say a man could not be a successful farmer because he was not a school teacher, or that a man would not make a good sheriff because he was not a finger print expert. If a guy is able to "get his man," it looks to us like that would be sufficient.

Like all other professions, a preacher bobs up every once in a while who takes the rag off the bush for silliness. For instance, the one that preached over Clyde Barrow and Bonnie Parker, that God loved them because they loved each other, was about as far from scriptural as could I, if I wrote my own dictionary's Bad Boy. Of course all peo-

ple believe that God "so loved the world that he gave his only begotten Son" to save it, but the same Bible says there is a like of fire and brimstone prepared by the devil for the murderers and thieves.

Editor Suits in replying to one of our editorials recently, said that all towns were more or less selfish, and did not help another pull for things beneficial to no one but themselves. This is true in a sense, but we cannot help another town get anything without indirectly benefitting the home town. For instance, every town in this section pulled for the Tech to come to Lubbock—every town pulls for the South Plains Fair, both of which directly benefits Lubbock, and only indirectly benefits Lockney and Brownfield. But when we were trying to get the Texas & Pacific through this section a few years ago, Lubbock was hard to line up, and never did until they were promised a branch of it.

It appears that the statute books of most states will be taken down from their shelves, dusted off and opened to the pages on which are written the laws prohibiting indecent exposure. Many states all over the country are beginning to frown on the establishment of nudist colonies and for the most part are relying on their laws against appearing in public in the nude to exclude such "colonies." Of course, anyone who could be a nudist would only be half baked, and it is the natural temptation of such half-bakes to lie out in the sun and get fully baked. This explains the craze for nudism which started in Germany and has spread like the German measles.—Pathfinder.

Two editors of Panhandle papers that come to the Chief exchange desk took occasion to knock on the Panhandle Press Association in their editorial columns last week. The last session held in Amarillo, May 4-5, was in our estimation the very best convention that has been held in years. Some of the old heads were missing at the meeting, including the two editors that handed "slaps" at the fraternity, but in our opinion this was all the better as it gave the small country fellow a chance to horn in where otherwise some of the "big boys" constantly have the floor. The press gang officials for next year are live wires, with Dave Warren of the Panhandle Herald as president, and J. C. Eastlack of the Donley County Leader, Clarendon, as secretary.—Miami Chief

Some people take themselves so darn seriously they have come to believe that if they are not in attendance at any kind of gathering it is bound to be a "flop." Any meeting is better off without them, for in most cases they are so narrow between the eyes they can look through a key hole with both eyes at the same time.—Lockney Beacon.

That is exactly what is ruining most press associations especially among the weekly papers. Some dozen guys cohort together and run the whole darn works, or else they gum it. Some of these boys think that none but the daily publishers have sense enough to run the association, and of course they are run to suit the needs of the dailies. If there is ever a successful small publisher's association, it will have to be confined to weekly papers only, and a change made every two years at the outside in the lineup

Among the novel ideas recently advanced by the Tennessee Valley Authority is that of making mucklage for the government out of surplus sweet potatoes. Our wonder is why the demand for government red tape hasn't served to wipe out the cotton surplus.—Rotan Advance

Someone remarked to Will Rogers that Webster spoke perfect English. To which Will responded: "Well, so about as far from scriptural as could I, if I wrote my own dictionary's Bad Boy. Of course all peo-

CITATION

The State of Texas: To the Sheriff or any Constable of Terry County, Greetings:

You are hereby commanded to summon: Frederick Griesinger, Catharine Griesinger, Henry Griesinger, Henry A. Griesinger, George J. Griesinger, Mary A. Daggy, Wilhelm F. Griesinger, Caroline Whitmyer, Sadie M. Griesinger and C. C. Akin, and the heirs and legal representatives of Frederick Griesinger, Catharine Griesinger, Henry Griesinger, Henry A. Griesinger, George J. Griesinger, Mary A. Daggy, Wilhelm F. Griesinger, Caroline Whitmyer, Sadie M. Griesinger and C. C. Akin, deceased, to appear at the next regular term of the District Court of Terry County, Texas, to be held at the Court House thereof, in the town of Brownfield on the 27th day of August, 1934, being the Fourth Monday in August, 1934, then and there to answer a petition filed in the said court on the 19th day of February 1934, the file number of which is 1745, in which suit A. L. Manjeot is plaintiff and Frederick Griesinger, Catharine Griesinger, Henry Griesinger, Henry A. Griesinger, George J. Griesinger, Mary A. Daggy, Wilhelm F. Griesinger, Caroline Whitmyer, Sadie M. Griesinger and C. C. Akin, deceased, are defendants.

Plaintiff sues, and prays for judgment, for title to and possession of the following described land, situated in Terry County, Texas and being

All of section No. 15, Block D-11, Certificate No. 24, issued to Stone, Kyle & Kyle, containing 640 acres said land patented to Benjamin H. Wisdom by the State of Texas, by patent No. 97, Vol. 32; and that his title thereto be quieted, and that any and all claims, either real or apparent, of title to or interest or estate in said land, of defendants, be removed as clouds on plaintiff's title, and alleges as his cause of action, that:

On December 30th, 1901, by general warranty deed, of that date, C. H. Earnest sold and conveyed said lands to John W. Gordon, and said deed was filed and recorded in the

deed records of Terry County, Texas, on January 1st, 1902 in Book 2 at page 174.

On or about July 9th, 1923, said John W. Gordon died, leaving a will by which his residuary estate, which included the above described lands and other property, was bequeathed to Minnie S. Givan, also known as Mary S. Givan, M. G. Gordon and R. Harvey Coons, share and share alike.

On or about August 16th, 1925, the said R. Harvey Coons died, leaving a will whereby his residuary estate, which included the above described land, was bequeathed to his son, Artie Coons.

That the wills of the said John W. Gordon and R. Harvey Coons were duly probated in the probate court of Terry County, Texas, all debts of said estates have been paid and all legacies bequeathed by said wills have been satisfied; and the above described land, in a partition of the said John W. Gordon's estate was allotted to said Artie Coons, and the said Artie Coons and his wife, thereafter, by general warranty deed, dated December 18, 1933, sold said lands to plaintiff, and plaintiff is now the owner and entitled to possession thereof.

That immediately after said lands were conveyed to the said John W. Gordon, with his deed so recorded, he went into possession of said lands, and held possession thereof adversely and continuously from the 30th day of December, 1901 to the date of his death, occupying, enjoying, using and claiming the same under said deed, to the date of his death, and while so in possession of said land, paid all taxes that were assessed against said lands each year before the same became delinquent, and by reason thereof the said John W. Gordon acquired title to said land, under both the five and ten year statutes of limitation.

That the defendants are claiming some right, title, interest, or estate, in and to said lands, adversely to plaintiff, which said claims cast and create clouds on plaintiff's title thereto.

application of Joe Boyd for probate of last will and testament of the said John W. Gordon, deceased and letters testamentary; The last will and testament of said deceased; Th order praesens and granters letters testamentary; The bond and oath of Joe Boyd, executor; The final report and application of executor to partition said estate; The order appointing commissioners to partition said estate among Mrs. Mary S. Givan, M. G. Gordon and Artie Coons, as executor of R. H. Coons, deceased; Report of said commissioners partitioning said estate among said parties; Order of said court approving said partition and distribution made by said commissioners and directing the said Joe Boyd executor of said estate to deliver to the said distributees their respective shares and allotment set apart to them by said commissioners, closing said estate and discharging said executor; The petition to probate the will of R. H. Coons, deceased, and for letters testamentary; The certified copy of the last will and testament of said deceased, together with the probate thereof had in the probate court of Marion County, Missouri; the citation issued out of the probate court of Terry County on said application to probate said will, and grant letters testamentary with the officer's return thereon; The order of the probate court of said Terry County admitting said will to probate, granting letters testamentary to the said Artie Coons and appoint appraisers to appraise said estate; Bond and oath of said Artie Coons, executor of said estate; Inventory and appraisement of said estate; Order of said probate court approving said Inventory and Appraisement; Final report and application of said executor for discharge and closing of said estate; Order closing said estate and discharging said executor.

You are hereby commanded to notify the defendants of the filing of said certified copies and to so summon the defendants, and to serve this citation, by making publication hereof once in every week for four consecutive weeks previous to the return day hereof, in a newspaper published in your county; but if no newspaper is published in said county, then in the nearest county where a newspaper is published. Herein fail not, but have you before said court, on the said first day of the next term thereof, this writ, with your return

hereon, showing how you have executed the same.
Witness Mrs. Eldora A. White, Clerk of the District Court of Terry County, Texas.
Given under my hand and seal of said Court, in the town of Brownfield, Texas, this the 21st day of April, 1934.

(SEAL) Mrs. Eldora A. White, Clerk of the District Court of Terry County, Texas.
By Veda H. Greenfield, Deputy.

A local blacksmith, W. D. Linville has invented a double row go-devil that is quickly adjustable to different width rows, and has some other interesting and useful features. We understand that he is seeking a patent on the implement.

The pie supper at Willow Wells will be on the night of June 7th instead of the second, as we had it last week. We also had it being a box supper—well its a pie supper.

**A group of additional
new models for the
1934 Chevrolet line
—four full-size cars
—100% Chevrolet in
quality and reliability**

Right at the peak of Chevrolet popularity —with nationwide demand sending production to new all-time "highs"—Chevrolet dealers are displaying an additional group of four new models. These cars are identical in quality with all 1934 Chevrolets. And the prices have been set at such incredibly low figures that you can now buy a Chevrolet for \$490! "A Chevrolet for \$490!" That's the world's lowest price for a six-cylinder car. The lowest price, also, for a car of this size, wheelbase and power! And a figure that sounds even more impressive after you find out what it buys: A great big, full-size, long-wheelbase car, 169 inches from bumper to bumper. A cushion-balanced SIX of surprising smoothness, power, snap and dash. The most economical full-size car that money can buy—a record-breaker for gas and oil mileage, as well as long, dependable service. And every closed model has a Body by Fisher. Nobody interested in motor cars can afford to let another day slip by, without seeing this "Chevrolet for \$490."

Carter Chevrolet Co. -- Brownfield, Texas

Fifth Annual Cowboy Reunion at Stamford

One hundred towns and cities of West Texas are expected to send girl riders as sponsors to the Fifth Annual Texas Cowboy Reunion to be held at Stamford July 2, 3 and 4. Letters inviting the naming of the sponsors are being mailed to chambers of commerce this week by H. G. Andrews, chairman of the committee in charge of this feature of the Reunion. A handsome, special-made saddle, valued at \$300, will be awarded as

first prize in the judging of sponsors this year. The saddle will be contributed by the Salesmanship Club of Dallas. Second prize will be a pair of boots contributed by the Bryant-Link Company of Stamford; third prize, a pair of spurs given by the Nocona Boot Company, Nocona, Texas, and fourth prize, a pair of bits, contributed by W. R. Boone, Lubbock. In the awarding of prizes, the appearance, horsemanship and riding apparel of the girl, and the appearance, performance and equipment of the mount will be considered by the judges. The judging will take place

in the rodeo arena of the Reunion grounds on the morning of the first day. Winners of prizes in past years will not be eligible for awards at the 1934 Reunion. Sponsors are required to furnish their own mounts and equipment, but grooms and forage will be provided by the Reunion. The girls will ride in the parade to be held during the Reunion, and will be guests at a round of social affairs in their honor, including dances, teas and receptions. Mrs. W. B. Harrison of Stamford has been selected as hostess to the sponsors. Miss Dorothy Bunkley, daughter of Mayor and Mrs. E. P. Bunkley of this city, has been chosen as Stamford Sponsor.

engine running at 500 r. p. m., the lamp illuminates the ball for an instant 250 times a minute. If the timing is correct, the ball appears directly under the fixed pointer. If it doesn't, correction is effected by loosening the distributor clamp and rotating the unit gradually until the ball and pointer line up exactly. Locking the distributor in this position ends the operation. Chevrolet engineers have found that the ability to time an engine while it is running brings better results than even an expert job with the engine stopped. Ordinarily, timing is checked only during infrequent engine tune-up jobs at service stations. By simplifying the job, Chevrolet enables owners to keep their engines at maximum performance capacity by frequent timing.

Timing Accurate With New Stroboscope

Hairbreadth accuracy in timing motor ignition, heretofore a job for a trained expert, is made so simple that anyone can do it in a few minutes by an ingenious application of stroboscopic principles developed by Chevrolet engineers. As a result, the owner of any 1934 Chevrolet car or truck may roll it into an official service station and have his timing perfectly adjusted with even less trouble and delay than are involved in having his battery checked; in fact, without even stopping his engine. An accuracy in timing to one-half of one degree is readily obtained. The Chevrolet arrangement is to use a polished steel ball, pressed into the rim of the flywheel, as a marker, instead of the usual faint groove; and to provide a simple and inexpensive means of making the ball clearly visible and seemingly standing still every time the spark plug of No. 1 cylinder fires, while the engine is running at idling speed. This stroboscopic effect is obtained by using a special Neon lamp connected to the spark plug. With the

Dealer For Paint Products Selected

Dealer-distributor for Pittsburgh Plate Glass company paint products is South Plains Hardware & Supply company, 1116 Texas avenue. Distribution will be made to South Plains counties and a full line of paints and brushes will be stocked at the Lubbock store. Guy Bailey, who recently moved here from Oklahoma City, will work the territory as salesman for the products. Pittsburgh products are also handled at Thaxton Brothers Hardware store in Littlefield, Struve Mercantile company in Abertanney, and the Brownfield Hardware company in Brownfield.—Lubbock Avalanche.

Mr. and Mrs. W. H. Collins attended the opening of the Collins Dry Goods store at Lamesa Friday. Mr. W. B. Collins is manager of the store there. Their business had so outgrown their building that larger quarters had to be obtained, hence the opening Friday.

Vacation Time to Vaccinate Children

Austin, Texas.—Parents of children who will enter school this fall, are reminded by D. John W. Brown, State Health Officer, that vacations are a good time to have their children vaccinated against smallpox. "The family physician is expected to vaccinate every baby and young child under his care," Dr. Brown said, "and the parents should see that it is done. The earlier it is attended to, the better it is for the child. Until the child enters school, the responsibility for having him or her protected against smallpox rests with the parents. After this it is shared by the teachers. "Children, if vaccinated in the first year of life and again in the tenth or twelfth, will be immune to the disease, practically for life. Single vaccinations usually last from seven to ten years. In part, this explains why most of the cases that have developed in the past few years are in adults who were vaccinated only once. "Smallpox is a disease of ignorance. It attacks the rich and the poor, the healthy and the weak, with no discrimination; but it does not attack the immunized person who safeguards his health by taking advantage of modern preventative medicines. "To stop vaccination would be relaxing our vigilance and the result would be rapid infection of non-immune people. There were 854 cases of the disease last year in Texas, every one of which could have been prevented by recent vaccination."

Mrs. Fred Youree and little daughter left Saturday for McCamey to join Mr. Youree, who accepted a position with a drug store there some few weeks ago.

Mrs. M. B. Sawyer, Clarence Lewis and Miss Christova Sawyer were Lubbock visitor: Monday

PRICE ISN'T ALL
The shrewd buyer, when purchasing any article, naturally takes into consideration the question of price. But he doesn't buy on price alone. He has had too many unfortunate experiences with "bargains" that turned out to be extraordinarily expensive in the long run to look at dollar marks to the disregard of everything else. That is true whether you're buying shirts or watches or furniture—or fire insurance. In fact it's a great deal more important that you look beyond price when you're buying fire protection than in the case of almost any other service or commodity. It's possible that on some future date, a policy will be all that will stand between you and ruin. You won't be thinking of price then—you'll be thinking of quality. The average stock fire insurance rate is less than three-fourths of one per cent of the amount of the risk. The purchaser who seeks cheaper insurance can "save", at best, but a fraction of this fraction of one per cent. In return he is liable to give up something that is an unwritten asset in every stock insurance policy—security. The stock fire insurance industry has made a fine record during depression, as it did before. It gives the most it possibly can for the money, without sacrificing safety and soundness. And that is why the vast bulk of fire insurance in force today is written by stock companies. G. C. Holden, wife and little daughter, Mildred, came through Sunday from Coahoma, and spent the afternoon here. His sister Mrs. Stricklin, who had also been visiting at Coahoma, accompanied them this far. The Holdens live at Sudan. Uncle Jack Blankenship of Plains, was through Tuesday on his way to Big Spring. Mrs. J. H. O'Connor is visiting with her daughter, also a sister in Amarillo. Jimmy is "havin'" pretty well for just a young bachelor left on his own resources. C. C. Garner of the Union community, was brought to the local hospital for treatment last Friday. It is understood that he may have to undergo a serious operation.

Forrester Items

Sunday School was well attended Sunday. Those who do not come, we wish would come out and help make it better.

Mr. Dewey Hulise is able to be back home from the Sanitarium since his operation and is doing fine.

Miss Dale Maness visited Miss Hazel Ragsdill Sunday.

Messrs and Mesdames G. M. Thomason and J. A. Forrester, Misses Helen Rogers, Sibly Thomason and Dorris Chambers visited Mr. and Mrs. Francis Mathis Sunday.

Mr. Reaford Warren is home from the hospital and doing fine.

Mr. and Mrs. Earl Farrell of Clovis N. M. visited Mr. and Mrs. W. W. Thomason Monday.

There will be singing Sunday night. Everyone is invited to come.

TEAM WORK IS REQUIRED TO END RAVENS

About the only effective method of combatting ravens and prevent crop damage is to organize a county wide campaign.

It will be necessary for the farmers in every community to organize and then designate a certain week, so everyone can be advised that poison bait is to be spread along the roads, where the ravens are known to feed, so everyone can keep their dogs and cats penned up and prevent them from getting this poisoned bait.

If a few men with poison would get busy following a rabbit drive and put poison in the dead rabbits, many a raven could be exterminated.

If a county-wide campaign could be arranged it would be easy to formulate plans to secure a sufficient amount of poison at reasonable rates. Complete cooperation is essential so signs can be posted and persons warned that poisoned bait is being placed about and thus avert any serious accidents.—Big Spring News.

Last Friday, the city of Spur voted 192 to 263 against the sale of 3.2 beer in that city. The county seat, Dickens City, is wet, we understand.

Bailey Will Bring Drive to Lubbock

Joe Bailey, congressman-at-large from Texas, will bring his campaign for the Democratic nomination for the United States senatorship to Lubbock, June 4. The speaking will start at 8 p. m. but the place had not been selected, according to Durwood H. Bradley, Bailey's campaign representative here.

Bailey will speak at Borger on June 2nd, at Amarillo June 5, at Plainview and Abertnathy on the afternoon of June 6, and at Snyder that night.

Bailey is seeking the post now filled by Senator Tom Connally.—Lubbock Avalanche.

Mr. Bailey was to have been in Brownfield on the afternoon of June 5th, but we had later notice that on account of circumstances over which he had no control, he could not make the appointment here. So we presume that those who wish to hear Mr. Bailey, had better attend the Lubbock meeting.

PRESBYTERIANS TO GIVE WEEKLY PROGRAMS

In view of the fact that the congregation of the First Presbyterian church here has no pastor, and are not expected to have one in some time, they will give weekly programs each Sunday morning following Sunday School.

The programs will be gotten up each week by some of the membership, and different ones assigned parts. This is in order to keep the church together and working, we understand.

QUITE A DIFFERENCE

Jimmy—"What's de best way to teach a girl to swim?"

Johnny—"Well, yr want to take her gently down to de water, put yer arm around her waist, an'—"

Jimmy—"Aw, cut it out! It's my sister."

Johnny—"Oh, well in that case, just push her off de dock."

Government Behind Home Building Plan

The next major activity of government will be an attempt to stimulate heavy industries—which normally provide the bulk of employment, were hit hardest by depression, and have been the most lethargic in recovering from it. And the first step in doing that will be to unloose capital for home-building repairing, thru Federal guarantees of mortgages. Mr. Roosevelt has sent a special message to Congress to expedite such legislation.

Experts estimate that it is possible to unloose credit to the tune of \$1,500,000,000 or more in this manner. That money would go to painters, carpenters, masons, plumbers, contractors. It would buy cement, steel, paint, lumber, roofing, electric fixtures. It would pass through a hundred great industries, creating jobs and opportunities as it went. It doesn't take much imagination to visualize the extent of its influence in pulling businesses of all kinds out of the doldrums.

Here's a thought for the wise property-owner to start considering right now: If building is greatly accelerated, prices for everything involved are going to rise. They're going to leave depression levels behind and return to the normal average—that, in fact, is one of the cardinal aims at this time. Those who can afford to repair and build now have an opportunity that may never be repeated in their lifetimes.

BEGINNING AT GRASS ROOTS

"Real recovery," says the Moorhead, Minnesota, Daily News, "must begin at the grass roots."

That opinion is shared by a sizeable army of economists. In spite of the population drift from farm-to-city that began after the war the bulk of the population is still dependent on agriculture for its livelihood. And the farm market is the greatest potential field for sales of manufactured products of all types.

The government, as a matter of fact, has sought to begin at the grass roots in pursuing its recovery program. Its efforts have certainly not been completely successful—nor have they been utterly a failure. Farm prices have risen—but not so rapidly as have prices for manufactured products. And where prices for industrial products are above the pre-war level, farm prices are substantially under it.

In the work of agricultural rehabilitation, the farmer himself must intensify his efforts in his own behalf. He can best do that through strong, faithfully-backed co-operatives. One of the most difficult problems faced by government in aiding the farmer was lack of organization—and lack of a common viewpoint and purpose. The cooperative move has made fine progress—but, if the farmer is wise, the progress of the future will make that of the past look small indeed.

SPEED IS THE DANGER

The world's record for throwing the 16-pound shot, one of the regular events at all track and field meets, is 53 feet.

The amount of energy possessed by an averaged-sized automobile traveling at 60 miles an hour would be sufficient to throw that shot 52,800 feet—nearly ten miles.

To use another illustration, a car traveling at 60 has the same capacity for inflicting damage as if it were driven off a twelve-story building.

Those facts, brought out in a recent report of the Travelers Insurance Company, give some idea of the potential speed menace on the highway. During recent years the death and injury rate per accident has been rising—and the increase was especially marked in 1933. The chance of a person being seriously hurt or killed in an accident is substantially greater now than it would have been five or ten years ago in a similar accident. The reason can be expressed in one word: Speed.

Today's cars have better brakes, better steering, better lights and stronger bodies than those of the past. By all engineering standards, they are safer. What has happened is that the public has exaggerated the increased safety factors—and actually turned these improvements into dangers.

Watch your speed—adapt it to local conditions at all times—and you'll have taken a long step toward becoming a safe driver.

HIS FEE

The teacher heard a child crying and rushed out to the playground to find the cause of the disturbance.

"What is the trouble?" she asked of little Jimmy, who stood calmly by, eating an orange.

"Billy took Fred's orange," explained the witness.

"And where is the orange?" asked the teacher.

"Oh, I have that," replied Jimmy. "You see, I am the lawyer."

FEDERAL BUILDING PROGRAM INTERESTING TO SMALL FAMILIES

Among the many and far reaching plans by which the administration has gone about bolstering prosperity in these United States, the most sensible and the most interesting, at least to the majority of the population, is the recently proposed building program, a program which has as its aim the fostering of a renewed activity in building homes for small families.

Declared by leading economists as a step scheduled for the improvement in heavy industries such as cement, steel, and lumber, the program is to have three phases, the most important of which is the Federal aid in financing home building and repairing. It is hoped that this will release \$1,500,000,000 of private Capital which is now more or less non-productive.

In this matter of home financing the government will simply guarantee a portion of the loans, from 10 to 20 per cent. Experts say that this is enough to loosen a vast amount of dammed-up credit. Also, it will make possible long time financing, with amortization over as many as 20 years thus eliminating the type of mortgage which matures every three years or so and must be then refinanced at a substantial cost to the borrower.—O'Donnell Index.

BACK TO SLAVERY

"I want a man to do odd jobs around the house, run errands, one who never answers back, and is always ready to do my bidding," explained a lady to an applicant for a post in the household.

"You're looking for a husband, ma'am," said the seker for work, not a servant!"

G. D. Luker of the south side made us happy by renewal this week.

FARM INCOME CLIMBS UNDER FIRST YEAR OF ADJUSTMENT ACT

Cash income of American agriculture increased more than 39 per cent during the year which ended May 1, 1934. This marked improvement was cited by the Agricultural Administration last week in a general summary of the first 12 months' operation under the Agricultural Adjustment Act passed May 12, 1933.

Estimated farm income, exclusive of the value of products used on the farm, was \$3,979,000,000 for the year ending May 1, 1933. For the year just ended the cash income was estimated at \$5,530,000,000. The increased income was more than one and one-half billion dollars. Rental and benefit payments to farmers cooperated in adjustment programs accounted for more than 12 per cent of this increase.

At the close of the first year under the Adjustment Act, farmers have signed more than 2,860,000 contracts to restrict acreage. In addition about 800,000 farmers are benefiting from marketing agreements put into effect during the year.

Definite progress has been made toward "parity" for farm prices, which is the object of the Adjustment Act. A year ago the ratio of prices the farmer received to the price he paid was 52. It now has advanced to 62.

"I have never had any feeling about the working classes except a desire to abolish them and replace them with sensible people," says George Bernard Shaw. The trouble with George is, he never works anything but his mouth.—Rochster Reporter.

Politician—"That's just the trouble. They found out how I spent it."

PIG HOLDS MILK BUT DOESN'T FILL PAIL

Erie, Pa., May 5—The quantity of milk a "runty" little pig consumed has Clayton Hinkson worried.

Hinkson says he put the pig in a pen all to itself, gave it a huge pail of milk and stood watching while the greedy animal downed every drop.

"Then I picked up the pig and placed it in the pail," says Hinkson. Although it had consumed all the milk it still didn't fill up the pail.

"Yes, siri! It's got me worried!"

After holding the place two consecutive years as the official band of the West Texas Chamber of Commerce, the Anton band was nosed out by Ralls this year.

C. J. Bonham and family were up from Willow Wells community, Monday, shopping.

Insurance on Deposits To \$15,000 Possible

Under the new deposit insurance law the guaranty of any one account is limited to \$2,500.

But in Dallas the past week Comptroller J. F. T. O'Connor gave Texas bankers in annual session there some information that was news to most of them, and will be even more interesting to the public.

The O'Connor tip: A man and his wife may each open accounts in a bank and the guaranty will apply to each of them to the limit of \$2,500, or a total of \$5,000 for the two. Then, if they wish they may open a joint account which also will carry the \$2,500 protection clause. That is a total of \$7,500 for man and wife. They may double this process at a second bank, the comptroller explained.

J. O. Shelton, Citizens National and W. Rich Keeble, Farmers & Merchants, were the local bankers attending the convention. Shelton's verdict: "It was the greatest convention we ever had."—Abilene News.

DR. BELL LEAVING

To My Friends and Patients:

I am leaving for the summer to be with my sons on our ranch in New Mexico, and wish to thank all of you for your friendship. I am leaving all my accounts and notes with the First National Bank at Brownfield and request those who have promised to pay me soon to kindly call there and settle with them. Also Dr. T. L. Treadway has very kindly agreed to look after my patients and am sure will render you efficient service.

Expressing in this way my appreciation for your friendship and business relations with me, I am

Very Respectfully,
Dr. M. C. BELL.

Geo. Henson, prominent farmer of the Challis community, was in this week and showed us the effects of getting one's hand in the power part of a washing machine. The ends of three of his fingers were badly mashed.

Mr. and Mrs. L. J. Dunn were Levelland visitors Monday.

New Train Breaks Non-Stop Run Record

CHICAGO, May 26. (AP)—A stream-lined train of stainless steel slid into Chicago at 7:09 o'clock to-night after a non-stop, record-breaking run of 1,017 miles from Denver at an average speed of 78 miles an hour.

The up-to-the-minute creation of the Chicago, Burlington and Quincy railroad flashed through a finish wire strung across Halstead street at 16th street after a dash that started in Colorado at 6:04 a. m. central standard time. Its total elapsed time was 13 hours and 5 minutes.

WOLFFARTH FUNERAL WAS HELD FRIDAY 25TH

Funeral services for Ben R. Wolffarth, 69, a West Texan 56 years, who died unexpectedly about 3 a. m. Thursday at his home, six miles west of Plains, were to be conducted at 3 o'clock this afternoon at Rix-By-num Funeral home.

Rev. J. O. Haynes, pastor of the First Methodist Episcopal church, assisted by Liff Sanders, a Church of Christ minister, was to officiate. Burial was to be in Lubbock cemetery.

Pallbearers were to be: Ed Green, Chief of Police H. L. Johnston, Russell Myrick, Hubert Wolffarth, Earl Hunt, and Lawrence Bacon.

Honorary bearers were to be: B. O. McWhorter, Albert Taylor, George Boles, R. C. Burns, J. K. Wester, J. K. Milwee, George Tierman, Tobe Lyn, Lisle McLun, P. B. Penney, and W. A. Bacon.

Mr. Wolffarth was survived by his widow; three children, Read, Eastin, and Nora Wolffarth of Sapulpa, Okla.; four step-children, Sam, Earnest, Earl and Grant Rhoden, of Plains; three brothers, Eastin and George C. Wolffarth, Lubbock; Scott Wolffarth, Silver City, N. M.; and four sisters, Mrs. J. W. Aynes, Crosbyton; Mrs. J. D. Owens, Mrs. James Breech, and Mrs. Pat O'Sullivan, all of Jacksboro.

Mr. Wolffarth had lived near Plains 10 years.—Lubbock Avalanche

Secretary of Agriculture Visits Texas

This photo was made on the ranch of John W. Carpenter, President of the Texas Power & Light Co. when Secretary of Agriculture Henry Wallace visited Dallas. In the picture, seated from left to right, are Dr. Bradford Knapp, President of Texas Tech, Lubbock; Secretary Wallace and J. E. McDonald, Texas commissioner of agriculture. Carpenter stands at the left of Knapp. Others pictured are some of the farmers from Navarro, Anderson, Freestone and other nearby counties, who came to Dallas to confer with Secretary Wallace. (Texas News Photos.)

MARRIED

"Those wedding bells are breaking up that old gang of mine." Fred Horner and Miss Marie Rouse of this community were married in Brownfield last Wednesday. Mr. and Mrs. Burness Holly accompanied them. The bride is the charming daughter of Mr. and Mrs. Ray Rouse of this community. The groom is the son of W. P. Horner of Seagraves. Willow Wells wishes them a long and happy life together.—Seagraves News.

CARD OF THANKS

We take this means of thanking our many kind friends and neighbors for their loving words, wonderful help, and beautiful floral offering in the death of our blessed beloved son, brother, grandson and nephew.

Mr. and Mrs. Will Cunningham and family.
Mr. and Mrs. Clint Boyer,
Mr. and Mrs. Nunly Boroughs,
Grandmother and Maggie Eastham.

DO A NEIGHBORLY TURN

The enterprising weekly publisher, with all good intentions, visits his merchants one or more times each week in an earnest endeavor to assist his merchant neighbor in getting more business. Hours of study based on the best "cut and copy" service is at the command of the merchant without price—yea handed to him with a smile.

Suppose the merchants return the neighborly act just one week. Let him study the trials and handicaps of his publisher, go to the printing plant and point out how he may cooperate with him in increasing his volume of business. Let every merchant in town make the same kind of visit taking a plan based on the same technical skill as is used by the publisher when he visits the merchant, or at least suggest something worth while within the scope of his judgement.

If the city is besought by any calamity, the merchant loses no time in calling upon the defender of public rights, the exponent of progress, the herald of glad tidings in soliciting his support because the merchant knows the publisher has the medium through which any message may be spread before the eyes of the public in short order.

It is time for the merchants and publishers to get closer together and talk trade—the exchange of ideas which always develop a more neighborly spirit in any town. You can't get along without your neighbor, but one-sided visits get tiresome. It's the merchant's move next.—Clarendon Leader

INSURANCE CASES ARE INVESTIGATED

Houston, May 26.—Postoffice inspectors here today pushed an investigation into what they characterized as an insurance "swindle" in which postmasters and postal employees in the smaller communities of New Mexico, Texas and other southern and southwestern states were the alleged victims.

One man was under arrest here on charges of using the mails to defraud. He was H. L. Bramble, 35, a salesman.

Wallace Blankenship, wife and two boys were down from Levelland Wed. They were to meet a sister of Mrs. Blankenship, who was coming in with Cye Tankersley and wife from Rochester. Wallace is owner of the Levelland Theatre.

SUMMER SCHOOL

Summer school for Brownfield Public Schools will open Monday, June 4. Half unit courses will be offered in high school subjects, and, by special arrangement, courses for grammar school pupils may be obtained.

Classes will be conducted six days a week for a period of eight weeks, or for 44 ninety-minute lessons. Pupils will report only for the recitation period. It is hoped that the schedule of classes will cover only the mornings—from seven to twelve o'clock.

Pupils will be permitted to make two half-units in new subjects or three half-credits when at least one subject is a repetition of some subject in which the pupil has failed. Special stress will be placed on English and history courses. Principal Jack D. Wester will have charge of the classes.

Tuition must be paid in advance. The charge will be \$7.50 if only one subject is taken; \$5.00 a subject if more than one course is taken. The charge for subjects below seventh

grade will be slightly less. Pupils will be expected to attend regularly and do thorough work.

NEXT MONDAY IS TRADES DAY

CATCHING UP WITH EUROPE!

We hear a great deal about over-taxed European countries—and have been led to think that we-by comparison, are fortunate.

But if the present trend continues American workers and investors will soon have as much to fear from the tax collector as the citizens of any other country.

At the moment, about one dollar out of every five we earn goes to government—the same ratio that prevails in Germany. The highest taxed country in the world is England. There government takes one dollar out of ever four of the national income. That is very little more than we pay—and we're catching up rapidly. A few weeks ago English taxes—notably the income tax—were reduced, while United States taxes are steadily rising.

Most of us don't pay our taxes directly. We may even think we're beating the game. But if we rent a house, its taxes are part of the rental cost. The taxes paid by the corner grocery and the concerns producing the food it sells are reflected in prices. If we drive a car, buy a glass of beer, turn on an electric light, go to a show, purchase clothes or other necessities, we are paying taxes.

On the average, we work one day

out of every five for the government. And unless there's strong public opposition to higher taxes, we'll soon be working one day in four in order to keep up with the tax collector.

City Marshall Gene Brown is having the middle section of the east side of the square marked off for correct parking.

Regular gully washing, trash mover rain was reported beyond Gomez.

Indications are good for more rain, this Wed. morning.

BROWN'S LOTION

Is not an experiment. In fourteen years tens of thousands of bottles have been sold for the relief of ITCH, ATHLETE'S FOOT, SORES, ECZEMA, POISON IVY, RING-WORM, etc. Sold and guaranteed in 50c and \$1.00 sizes, by Palace Drug Store.

Mrs. Lucy Cantrell, of Amherst, daughter of Dad and sister of Red Tudor here this week visiting them.

YEAH, COME ACROSS

He—"Will you marry me?"
She—"No, I'm afraid not."
He—"Oh, come on, be a support."

OUR 23 YEAR COLUMN

Pride Dots: Everything fine but needing rain. Mrs. W. F. Cathy was called to the bedside of her daughter near Lamesa. J. H. Cathey was called to Tuva, N. M., to take charge of the Cathey-Martin store. Uncle Sam Singleton had leased the Cathey grass. Mrs. J. C. Preston was visiting her daughter at San Angelo. Singing and dinner on the ground Sunday before.

Gomez News: Very hot weather for the time of year was reported. Simon Holgate's baby was poisoned on fly paper. Mrs. G. E. Lockhart of Tahoka, and children, were visiting in Gomez. A. C. Copeland was running a cold drink stand in the Gainer building. L. W. McPhaul of Needmore and Mr. Ashberry of the Slaughter ranch, were in. Emmett Green came in with a load of hardware and groceries. A movie show had been in town. A three-wheeled auto had created a sensation in Gomez. Mrs. Mose Dumas and daughter, Miss Nancy, were in from south Terry, shopping.

Primrose News: Crops looking fine. Lee Cowan attended court at Lubbock. Miss Grace Cowan was attending the Normal at Lamesa. School closed May 26th. Young people had an ice cream supper at Floyd Pyeatts. Two singing teachers from Snyder were coming. Sunday School had been organized. (If the newcomer doesn't recognize Primrose it is now the city of Ropes slightly north and east of where Primrose was).

Brownfield: John Peters was the one who had brought in the issue we advertised for. G. A. Whitley called on the Herald. W. L. Graves renewed.

W. H. Gist was a caller. Mrs. W. R. Spencer left for Ballinger to spend the summer. Atty. Percy Spencer and Boone Hunter were attending court at Lubbock. Miss Gaster Randall was hostess to a Progressive Hearts party. Son Hughes was in from the sheep ranch. Messrs. Jewell Baker and Berlin Dickenson were here from Hockley county. Born to Mr. and Mrs. D. Y. Blanton a girl. Brownfield I. O. O. F. team went to Gomez to initiate four candidates. H. H. Longbrake was building a sheet iron tank for himself.

Local blacksmiths were busy building go-devils. Mr. Schultz and son of Rocky Okla. were here looking for a business location. Mr. and Mrs. Floyd Pyeatt and Miss Clara Cowan were here from Primrose, shopping. A son was born to Mr. and Mrs. J. M. Johnson. Mrs. Kimbro of Lubbock lectured to the W. H. M. here. Lence Price reported the prettiest cotton he ever had at the time of year. Uncle Joe Fisher reported considerable hail damage to his crop and orchard.

A three wheeled auto passed thru on a trial trip from Hartford, Conn., on its way to San Francisco. It had made an average of about 100 miles per day, with little or no trouble. Some speed. Many were planning a trip to Galveston, when the Santa Fe was finished from Brownwood to Lubbock. M. V. Brownfield dropped in to renew and send the paper to four other people, including a relative, B. B. Brownfield at Uniontown, Pa. Redge Burnett left for Mineral Wells to try the water and baths. J. W. Welch had brought some very fine grapes to the Herald office. L. P. Richardson, of Austin, was spending the week here. All for this week.

TYPHOID FEVER

THE CAUSE

Typhoid fever is contracted by taking into the body through the mouth excreta that has come from the body of a person who has, or has had, the disease.

Typhoid Fever is contracted in this way only.

Typhoid Fever is caused by a living poison in the form of a very small vegetable organism. It grows in the body of the person having the disease and leaves the body of the patient in the discharges from the bowels and, occasionally, in the urine. If all such discharges from the bodies of all persons were destroyed so that no particle could ever enter the mouths of other persons, there would be no more typhoid. Fecal matter is responsible and is the agent by which the disease is transmitted.

How Typhoid Is Carried

By taking into the mouth from the person's own hands filth which contains germs of the disease, or by food or drink which has been contaminated.

A typhoid "carrier" is a person who has apparently recovered from the disease, but who still has the germs in his internal organs. If the hands of the "carrier" happen to have germs on them it is easy to understand how the disease may be transmitted to others.

In Water, Milk and Other Food

Typhoid germs in filth may get into the water supply and a person drinking this may develop the disease.

If milk is handled by a person sick in the early stage of the disease or one not entirely well or a "carrier," germs may get into the milk. This method of infection is very frequent.

Uncooked vegetables, such as lettuce, may be polluted, and if not properly washed, or if washed in water having the germs in it, may be the means of carrying the disease. Cooked foods seldom contain the active germs of this disease.

Flies are responsible for much of the spread of typhoid. The minute sticky pads on their feet take up small particles of anything on which they walk or feed. The fly eats practically all kinds of animal and vegetable matter and where there are open privies it is no unusual occurrence for flies to go direct from the filth of the privy to the food in the kitchen or dining room.

Vaccination Against Typhoid

The final means of protection against typhoid fever is afforded by means of typhoid vaccination. Typhoid vaccination must not be confused with small pox vaccination. They are very different. Typhoid vaccination is performed by injecting a small amount of suspension of dead typhoid germs under the skin once a week for three weeks. It can be done in an entirely painless manner. It does not produce any "sore," although usually within the first 48 hours after the inoculation there may be a slight rise in temperature and reddening of the skin at the point of inoculation and perhaps stiffness of the underlying muscles. The symptoms, however, are of very short duration and are rarely ever such as to interfere with one's usual performance of duties.

EDUCATOR LOOKS AT LIQUOR HABIT

Dr. Joy E. Morgan, editor of the National Education Association, says: "The cause of abstinence is getting ready for a great new growth. People are beginning to see what liquor drinking means. Just now the liquor tide is running strong; these people who shift about with every changing fad are easy victims to this new form of commercial exploitation. But there is another group of young men and women who have too much self-respect to fall victims to such a destructive and wasteful habit. They will keep themselves clean and strong. And out of their courage and strength and independence will come to the leadership of tomorrow. During the many years in public life I have had an opportunity to watch the careers of many men. I have never known a drinking man who would not have been stronger without the habit. If there ever was a time when America needed to be sober, that time is now. The men and women who refuse to drink will have clearer heads than their fellows. They will see better and act more wisely, and just as surely as tomorrow's sun they will go farther and get the best places. Self-discipline still remains the price of achievement and progress."

Mesdames Lazelle Huckabee and Harvey Gage went to Lubbock Thursday after Mrs. Luke Huckabee, who had been visiting relatives there some two weeks. Friends of Mrs. Huckabee will be glad to know she is able to be out again after some five months of being shut in from a bad burn received during Christmas.

Mrs. Glen Akers has returned from El Centro, California, where she visited a month with her mother, Mrs. Rich Bennett.

Millinery Sale

For Saturday and First Monday

All our line in ladies spring and summer millinery will go on sale. Wide and narrow brims, straw trims and panamas. All colors. Valued at \$1.95 to \$2.25, they are to close out Sat. and Monday at

\$1.49

Come early and get yours, for they will not last long at this price.

ARYAIN D. G. CO.

TEXAS FARM HOUSING

The theory that the world has arrived at the age of overproduction sounds logical, until one reads figures such as those showing results of the survey of rural housing in Texas. An expenditure of \$250,000,000 would be required to bring Texas farm homes up to a minimum standard. This is what the survey shows. No one who has driven through rural Texas will doubt the figures.

Here are hundreds of thousands of homes without electrical equipment of any kind, without plumbing, without anything except the minimum requirements for shelter in a mild climate. The average farm home is inadequate in size, unpainted, in poor repair, without bath or sanitation, without refrigeration, without electric lighting, and without furniture, books and the other refinements of life except in negligible quantity. This is not the interior of China, but interior Texas inhabited largely by native Anglo-Saxon folk who have a way of thinking of themselves as the most civilized tribe in the world.

These rural dwellers who stand ready to buy \$250,000,000 worth of building materials and home equipment when they can get the money, have not the money because they have produced too much cotton in a ragged and starving world—a world which is ragged and starving because it cannot develop the farmer's \$250,000,000 market in Texas and similar markets like it throughout this and other countries. To extricate ourselves from this situation we plan to cut down production of cotton, production of electrical equipment, production of production of plumbing. There is to be regimentation and limitation on every hand. It may be the only way out for the

present because of the emergency into which we have worked ourselves. But it is the circuitous way. We have not saturated the markets—not while there is a crying need of \$250,000,000 of farm home materials in the single state of Texas.—Dallas News.

AN INVESTMENT THAT GAINED IN VALUE

Here is a true experience. A man had \$65,000 of investments, about half of which were equities in life insurance policies. For the past two years he hadn't inventoried his holdings, because, being human, he didn't want to know how much more they had depreciated. Finally he spent a few hours on that doleful duty and found his investments to be worth \$2,000 more than at the time of the preceding inventory, although securities and property values and almost everything else had tended downward. He had sustained a number of investment losses, and there were few advances—but the regular increase in value of his insurance policies was sufficient to overcome all losses, plus \$2,000.

This man's experience isn't at all remarkable. During depression a multitude of people have seen all their investments wiped out—with the sole exception of insurance, which continued to increase in worth. That's why a legion of Americans, now that times are looking up, are giving life insurance a larger place in the family budget.

A special train came down after the Harley Sadler show, Sunday. They are showing in Crosbyton this week.

"IF ITS IN A DRUG STORE, WE HAVE IT"

•• A DOLLAR AND A HALF WORTH OF OIL PROTECTED THIS MOTOR FOR OVER FOUR THOUSAND MILES!

Low Consumption and Motor Protection proved in the most daring and convincing Motor Oil Test ever made

WHEN New and Improved Conoco Germ Processed Motor Oil was perfected, it had lubrication values so great that a mere statement of them would seem absurd. Could you believe that any strictly stock motor could run 4,729 miles on just five quarts of oil before wrecking itself? It did—and Conoco proved it in competition with five widely known, nationally advertised, quality brands of motor oil!

The competition was held at the Indianapolis Motor Speedway, under the supervision of the Contest Board, American

Here is the winner—the car that covered 4,729 miles at fifty miles an hour, lubricated with New and Improved Conoco Germ Processed Motor Oil.

Automobile Association. Six new, strictly stock cars, were used—a different oil of the same S. A. E. grade in each.

After the cars were broken in for 2,500 miles, they were drained, examined and a fresh fill of five quarts put in each crankcase. No more oil was added. Then the cranks were sealed by an AAA official. The real test began. It was ordered that they be driven at an average of 500 miles a day at 50 miles an hour until their motors failed to operate. Oil No. 4 was first to fail at 1,713.2 miles. Oil No. 5 failed at 1,764.4 miles. Oil No. 6 failed at 1,815.9 miles; three of them were out of the running. The next day Oil No. 1 failed to lubricate and, its motor wrecked, stopped at 2,266.8 miles.

Two cars—two oils—still left in the test. Oil No. 3, after a remarkable run of 3,318.8 miles, came to a shuddering stop,

and the last competitor of New and Improved Conoco Germ Processed Oil, was out. The lone car, with this tremendously vital oil, labeled No. 2, went on and on. On the tenth day, at an almost unbelievable total of 4,729 miles, it failed—an all-time record mileage on a total of five quarts!

The "Hidden Quart" of new oily penetrativeness won—the greater film strength and higher resistance to the effects of dilution—the absence of carbon and sludge—all aided in this great achievement. It firmly supported Conoco's patented principle of added oiliness—it proved every claim. Conoco alone can make oil this way. It is covered by recent United States patents.

You can have this oil in your car, for it costs no more than other quality oils. Drive into a Conoco Station or dealer, marked by the Red Triangle. Fill and know the satisfaction, the freedom from repairs, the economy of low consumption that only Conoco gives.

Five quarts of each brand of oil were carefully put in the cars by AAA officials.

Here are the Representatives of the Contest Board of the American Automobile Association who supervised every detail of the test and attested to the records made.

The official sealing of crankcases after fill of five quarts was out in. No addition of oil was permitted in this "destruction" test.

These were new motors before the test. They were wrecked to prove to you how to protect yours.

Warning

to new car owners...

Some car manufacturers are using new types of bearings which will stand greater pressures and temperatures, resulting from increased power and speed. New and Improved Conoco Germ Processed Motor Oil has been extensively tested on these new bearings. The results show that it gives them greater protection against damage than any straight mineral oil now on the market. Protect your new car by using the motor oil you can be sure of.

SOCIETY

With The Churches

PRESBYTERIANS

Mr. W. H. Dallas was hostess to the Presbyterian ladies Monday. Ten were present. Mrs. Dallas led a Bible lesson. Sandwiches, iced tea, cake and ice cream was served.

CHRISTIAN

Ladies met with Mrs. F. E. Walters Monday and studied the 26th chapter of Matthew. Four were present.

CHURCH OF CHRIST

Met at their church Monday with Mrs. Bowers leading the Bible lesson. There were nine present.

METHODIST SOCIETY

Met Monday in a monthly social in Mrs. W. B. Downing's home, with Mesdames Cook and Hester joint hostesses. A covered dish luncheon was served at one o'clock to thirty-seven ladies.

BAPTIST CIRCLES

Circle One met at Mrs. Evans'. Circle 2 at the church with 4 present. Circle 3 at Mrs. Bandy's. Refreshments were served to nine. Circle 4 at Mrs. Flachs's; 4 present. Refreshments were served. Circle 5 at Mrs. Auburg's. All circles worked on quilts for the orphans home.

FRIDAY 42 CLUB WITH MRS. THOMAS

Mrs. E. B. Thomas was a very congenial hostess last Fri. when she entertained the "42 Club." Ladies attending were Mesdames McSpadden, Gore, McPherson, Webber, Holgate, Dunn and Kendrick. Congealed salad, potato chips, crackers, cake and iced tea were served.

ACE HIGH CLUB WITH MRS. FRED SMITH

Mrs. Fred Smith was hostess to the Ace High Club Thursday of last week. Congealed salad, crackers, iced tea, maple nut ice cream and angel food cake was served to Mesdames Ray Brownfield, Roy Ballard, Morgan Copeland, Joe J. McGowan, Roy Wingerd, Bob Bowers, W. H. Collins, J. E. Michie, W. C. Smith, Arthur Sawyer, W. H. and James H. Dallas. Mrs. Wingerd received a pair of pillow cases for high prize.

Mr. and Mrs. G. S. Webber visited Mrs. Webber's sister, Mrs. Key at Lamesa, Sunday.

Mesdames Dee Elliott and Pete Tiernan left Tuesday for Vernon where they will visit Mrs. J. A. King for several days.

Miss Olga Fitzgerald visited her sister Mrs. Pollard at Lubbock, last Friday.

LAF-A-LOT CLUB HAS NIGHT PARTY

Thursday night of last week the Laf-A-Lot Club enjoyed a night party at the home of Mr. and Mrs. Frank Ballard. Bridge was the diversion of the evening. Lemon ice cream and angel food cake was served to Messrs. and Mesdames Earl Thaxton, Graham Smith, Earl Anthony, Clovis and Spencer Kendrick, Jack Stricklin Jr., Blue Graham, and Herman Heaths; Mesdames Voncile Williams and Glenn Webber; Misses Lou Ellen Brown and Bess Thompson; Messrs. Ralph Bailey, Stinson and Simmons. Earl Anthony, received a cigarette lighter and tray, and Mrs. Graham a wall plaque.

Miss Ann Hamilton is spending her vacation with home folks. Ann is working in San Angelo at Penney's.

MRS DAUGHERTY HOSTESS

The T. T. Club played bridge Wednesday of last week when Mrs. Garrett Daugherty was hostess to this club. Mesdames Paul Lawlis, P. I. Clayton, Herman Heath, Kyle Graves, Cecil Smith Jr., Earl Jones, Roy Herod and Clyde Cave were the guests. The house was decorated with pink wild flowers. Pink and green was also carried out in the refreshments and place cards. A salad course, iced tea, and candy was served. Bath powders went to Mrs. Herod for high.

MESDAMES W. C. SMITH AND D. P. LEWIS HOSTESSES

Last Friday afternoon Mesdames W. C. Smith and D. P. Lewis entertained ten tables of friends at bridge in the home of the former. Sherbet and cake was served to Mesdames McDuffie, W. H. and James H. Dallas, Ray Brownfield, M. Copeland, A. Sawyer, Wingerd, McGowan, Heath, Ike Bailey, Pysatt, Claude and Clarence Hodgens, Jacobson, Cecil Smith Jr., Self, Cave, Telford, Lawlis, Lester Treadaway, Frank Ballard, Mary Erdresen, Howard Swan, Kyle Graves, Allen, Cobb, Collins, Michie, Herod, Jack Stricklin Jr., Clayton, Herbert and Ralph Carter, Clyde Bond, Parish, Daugherty, Thaxton, Aut, Tight and Blue Graham, Pete Tiernan and Randal. High and 2nd high went to Mesdames Telford and Pysatt and were Pyrex dishes.

MURPHA DEENE BALLARD HAS BIRTHDAY PARTY

Mrs. Roy Ballard entertained in honor of her small daughter's birthday Wednesday afternoon. The cake with one candle, all day suckers and ice cream cones was served to Paty Frank Ballard, Ida Mae and Pete May, Howard Glen Swan, Larue, Christova and Ima Gertrude Akers, Monroe Bill Sawyer, Charlyne Danielle, Alma and Mary Ballard. Each little guest brought gifts.

Mr. Boswell of Boswell, Okla. visited Mr. and Mrs. W. H. Collins the latter part of last week.

EVENTS FOR REST OF WEEK

Mrs. Arch Fowler was hostess to the Priscilla Needle Club Wednesday.

Mesdames M. B. Sawyer, Clarence Lewis and Arthur Sawyer are inviting guests to a tea for Thursday afternoon of this week.

Mrs. Roy Herod is hostess to the Kolonial Kard Klub today.

Mrs. Claud Hester returned last week from Honey Grove, Tex. where she attended the bedside of her father about 5 months. Her father, Mr. McSpadden died latter part of April.

Mr. and Mrs. J. H. Griffin and children are visiting Mrs. Griffin's relatives in Whitesboro this week.

Mr. and Mrs. Tom Cobb went to Dallas Monday where they attended commencement exercises in which his sister received her law degree.

Messrs. H. W. Fowler of Arkansas City and Oscar Fowler of Vernon visited their mother, Mrs. L. C. Wines and other relatives Sunday.

Quite a number of ladies attended the Methodist District Conference in Lamesa Wednesday.

Mr. and Mrs. S. V. Wheeler left Tuesday for Miles, where they will spend some time visiting Mrs. Wheeler's mother.

LATEST PRESIDENTIAL GRANDCHILD AND MOTHER LEAVE TEXAS HOSPITAL

FORT WORTH, Texas, May 21.—Ruth Chandler Roosevelt, 11-day-old granddaughter of President and Mrs. Roosevelt, was removed from the Cook Memorial Hospital here Sunday at 2:30 o'clock to the home of her maternal grandmother, Mrs. J. B. Googins.

The baby and her mother, the former Miss Ruth Googins, who met her husband, Elliott, second son of the First Lady and her husband in March 1933, in Fort Worth and married him in Iowa in July that year, will be at the Penn street home of Mrs. Googins until Elliott and Ruth will take their daughter to the Pacific Coast. They probably will leave here the last of June and will go to Los Angeles.

APPENDICITIS MORE PREVALENT IN HOT WEATHER

Austin, Texas.—This is the season of the year when more deaths are recorded for appendicitis than in cooler weather. A careful study made by the State Department of Health brought out the fact that more appendicitis deaths occurred during the warm months. In twelve months about six hundred and fifty persons died of this disease, many of whom would be alive today if they had not been delayed in calling a doctor.

There are two principal causes for these deaths: the first is delay in calling a doctor, and the second is the taking of strong purges when one has pains in the abdomen. When the appendix is in a diseased condition the taking of strong laxatives often results in the rupturing of this organ. Of the deaths mentioned, 588 of them had ruptured appendix and thirty-five per cent were not operated upon.

The removal of an appendix is now a very simple matter when done early or before the appendix becomes gangrenous and ruptures, which may take place as early as 15 to 18 hours after the onset of the attack. In the case of abdominal pain that persists do not take a strong purge but call your physician as he will be able to tell whether or not you have appendicitis and the method you should use in treatment.

Many persons wonder why there is so much appendicitis today when years ago it was never mentioned. The reason for this is that it has undoubtedly been with us always but was recognized as a specific condition. One of the common names under which it was cloaked was inflammation of the bowels.

C. I. A. Beauty

Here is the most beautiful girl in Texas State College for Women (C.I.A.) Denton, Texas. She was picked from 32 contestants. The young lady is Miss Gladene Parr of Waelder, Texas, an olive brunette. Miss Parr is a junior and her major study is dramatic art. (Texas News Photos.)

Tahoka had a class of 29 seniors, and Lamesa had 85.

Bus That Plunged Four to Deaths

Here is a view of the Greyhound bus which plunged through the wall of an overpass three miles west of Cisco, Texas, taking four to their deaths on the railroad tracks below. The unusual photo was taken from the point on the overpass where the bus went through and shows the 40-foot drop which burst the bus into pieces. The driver said he believed the steering gear of the giant car broke and that he could do nothing to stop its deadly plunge. (Texas News Photos.)

Bees Need Right Kind of Quarters

Replace Weak Queens and Weed Out Diseased Colonies Before Packing.

By George H. Ross, New York State College of Agriculture.—W.N.U. Service.

Before packing bees for winter, weak queens should be replaced and any diseased colonies destroyed. Plenty of honey should be left for winter. When the final surplus is removed, single-story colonies should have the upper ten combs full of honey. It is a mistake to remove too much honey and to depend on feeding. Bees should be moved out of a windy location for the winter. The more may mean the loss of many bees but the loss will not be serious, as only the young bees reared late in the season live over the winter.

Winter insulation may be applied any time after the colonies have been prepared for winter. Packing cases of various sorts may be used. Wood cases made of good grade of siding are expensive but will last for many years. Tar or asphalt paper is satisfactory if properly applied. "Slaters' felt" is one of the most economical tar papers to use.

The colonies should be about 4 to 5 inches from the ground. If two or more colonies are to be packed, it is more economical to place them in pairs, both facing toward the south or east if possible. Set them tightly against each other. The space between the bottom boards and the ground should be filled with packing material. Then place the slaters' felt around the two colonies, standing it on edge as tightly as possible against the ground. Use laths to hold the felt in place.

Four to six inches of the packing material should be packed between the felt and the hive sides. Then put on the top packing and fold the felt over. Use an additional piece of felt for a cover. Twine should be tied to projecting nails in the lath below and carried around and over the hive until the whole package is securely tied against damage from wind.

For best results the packing should be done before the ground freezes.

Warm Storage Is Best for Potatoes at Start

Potatoes should be stored at a temperature around 50 degrees Fahrenheit for the first few weeks, says Prof. Ora Smith of the New York State College of Agriculture, as this temperature will allow cuts and bruises on the tubers to heal. Potatoes which are stored immediately at a temperature of 35 degrees, fall to heat and lose as much as 25 per cent in weight by decay. They also lose much additional weight by shrinkage.

An approximate temperature of 50 degrees may be obtained by keeping the doors and windows of the storage open during the day, to let in warm air, and closed at night. Or, if the weather is extremely cold, a wood or coal stove might be used. After the first few weeks, the temperature should be lowered to 39-38 degrees Fahrenheit, and this temperature should be maintained during the entire storage period.

The humidity should be between 85 and 95 per cent, or just below saturation, so that no moisture condenses on the walls or ceiling or collects on the top layer of potatoes. If the temperature is low, usually no harm results even if the top layer of potatoes is moist.

Soil Absorbs Limestone

Tests recently completed at the Ohio experiment station indicate that the reaction between finely ground limestone and soil acids proceeds with surprising speed. Under practical conditions, however, the rate of decomposition is not so great, because commercial ground limestone is not so uniformly fine and cannot be mixed with soil as perfectly. The moisture content of the soil is important; limestone is not decomposed in dry soil. Although the limestone as such has disappeared by reaction with the soil, it has not been lost. The lime content has simply combined with soil acids, neutralizing and being held by them. This active lime is gradually removed by crops and lost by solution in drainage water and by surface wash.

Agricultural Briefs

A sheep's horns shrink in circumference with age.

Taylor county, in Kentucky, has eliminated all grade and scrub male hogs from its farms.

Farmers in Thomas county, Georgia, have planted about 2,000 acres in cucumbers for the fall market.

Wisconsin's cranberry crop this year is estimated at 50,000 barrels, or about 90 per cent of the 1932 crop.

Work on farms is reducing unemployment in the Irish Free State.

A properly constructed box for holding the fuel needed for the kitchen range will be found a big convenience and time saver for the farm housewife.

In the last 30 years, machinery and power on farms have made it possible to grow wheat and corn with about half the human labor previously needed.

L. L. Blackstock had his smiling countenance around on the streets, Tuesday.

Flowers-Plants-Bulbs

I have rooted Roses, Verbenias, Petunias, Snapdragons and Salvia plants; Dahlias and all kinds of bulbs; Pot Plants and Cut Flowers for any occasion; Wire orders appreciated also.

No Bank Failures In 1934 Sets Mark

During 1934 not one of the 15,000 national, State or private banks in the United States has failed, declared Comptroller of the Currency J. T. F. O'Connor, who arrived at Dallas on Wednesday by plane from Washington to address the Texas Bankers Association. This constitutes an all-time record.

Deposit insurance as set up in the national recovery program of the Roosevelt administration was cited by O'Connor as the reason for this startling sign of renewed confidence and growing prosperity. That the administration from President Roosevelt down is committed to such insurance as a permanent feature of American banking was made clear.

In contrast with the record since Jan. 1, the Comptroller added, there was an average of 314 banks in the United States failing in the first four months of every year since 1924, or at the rate of some \$100,000,000 a year in losses to depositors. These crashes in the financial structure ran through the Coolidge prosperity era and the great bull market years to end in complete paralysis of all banks early in 1933.
