BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, JULY 6, 1934

NO. 47

Economic Highlights

Every President, according to tradition, is entitled to one honeymoon with Congress—a session in which his pet legislative proposals will be okayed by the representatives of the people without strenuous opposition.

Mr. Roosevelt's honeymoon made those of his immediate predecessors look like a meeting between the parrot and the monkey. The first Congress to sit under his Administration gave him every extraordinary power he asked for. It surrendered rights and prerogatives it had prized for generations. There was no organized opposition. When occasional individual voices appeared in criticism, they were snowed under.

Most Presidents encounter trouble with their second Congress. And in Mr. Roosevelt's case, it is true that the 'hailing wasn't as easy as it had been. But the honeymoon continued. A certain amount of opposition appeared, largely within the President's own party, but the high-gear Democratic congressional machine made short shift of it. The powers of the Chief Executive, broadened to an amazing degree through acts of the preceding Congress, were broadened still more during the one that has just come to a sudden and dramatic end.

Most remarkable bill passed during the session was the Reciprocal Tariff Act. Under it, the President is empowered to bargain with foreign powers and raise and lower our tariffs on almost all products to the extent of 50 per cent. Mr. Hoover asked for a similar bill—and it is noteworthy that some of the Democratic leaders who put it through for Mr. Roosevelt, were instrumental in decisively defeating it at that time.

The Silver Purchase Act gives the President further unprecedented powers over our money. He is permitted, at his discretion, to purchase 100,000,000 ounces of fine silver in the world market and issue currency against it.

The Stock Exchange Act is another Administration bill of the first importance. It stringently regulates all exchange activities and makes illegal a number of common practices such as wash-selling, low margins and dissemination of tips. Mr. Roosevelt is thus made virtual dictator of the nation's security markets.

In brief, every bill the Administration deemed essential, passed. Mr. Roosevelt goes into the middle of his second year as Chief Executive with every weapon for fighting depression he wanted. The Congress has been subjugated; it has lost vast amounts of both prestige and importance. There was never a period in our history when a President was so powerful, and when the legislative branch of the nation was so weak.

Talk is now centering on the next Congress. Mr. Roosevelt will again ask for much—but unless the signs fail, he will have a harder time getting it. There will be considerable opposition to his proposal for social insurance, which will be one of the principal planks in his program for next year. He will also ask for more regulatory legislation concerning natural resources, principally water power, and that will likewise be a live subject for hit congressional debate.

The November elections will probably be the determining factor. If his party sweeps the country once more, his influence on Senators and Representatives will be as potent as ever—no Congressman likes to throw away votes. If the Republicans make substantial gains, such as taking 70 or 80 House seats now held by Democrats, the picture will undergo decisive change. Most political commentators, writing for papers representing both major parties, are of the opinion that the Republicans are likely to regain much of the ground they lost in 1932. It is usual for the party in power to experience more difficulty in the off-year elections than in the years in which a president is running.

"Do you know," said the successful merchant pompously, "that I began life as a barefoot boy?"
"Well," said the clerk, "I wasn't born with shoes on, either."

Be sure to present this clipping at the box office at the Rialto Theatre. Compliment: Rialto-Herald

No Relief For Those Who Refuse to Work

July 4, 1934
Mr. Jack Stricklin, Brownfield, Texas
Dear Mr. Stricklin:

Will you please furnish space in your paper for these instructions, for the benefit of those having made application for Direct or Work Relief?

The following Resolution was passed at the meeting of the Texas Relief Commission June 27, 1934:

There has been and is great complaint from the citizens of Texas that the services of farm laborers and household servants are most difficult to secure, and it is believed that persons on relief rolls have been offered and refused such employment but have continued on the relief rolls, and

That persons physically able to work who are offered employment at the prevailing wage scale in the locality wherein the work is to be performed, and who refuse to accept same without good cause, shall not be furnished relief:

And requesting persons who offered employment to others to advise their local County Boards when the employment offered is refused; such advice to include the name, address, employment offered and wages offered and to be furnished the local relief board in writing. The Director shall require the local relief board in each county receiving relief to insert such advertisement in every newspaper published in the county where it can be done without cost to the Texas Relief Commission, and such publication must be made without delay. The Director shall require each county Administrator to secure all further publicity possible of the substance of this Resolution.

When any person has been offered employment and has refused it under the conditions stated above, the County Relief Boards of the several counties are prohibited from giving him either Direct or Work Relief.

Yours very truly,
P. R. Cates, Administrator,
Terry County, Texas

Will Rogers in the title role of "David Harum," his latest Fox picture, seems to be wondering what it's all about. But wondering what it's all about is the secret of Rogers' success. LPA

Hunter-For-Governor Club to Organize

Through the efforts of Mrs. Will Adams, who has been in communication with Mrs. Vera (Scott) Hunter, and who is a former Terry county girl, leaders of the Hunter candidacy for governor of Texas, have decided that inasmuch as this is the old home county of Mrs. Hunter, and for two years the residence of Mr. Hunter himself, it would not be anything but right to organize a Hunter-For-Governor club here.

Mrs. Adams has been quite busy with the telephone, and leaders have decided that the band stand in the court yard would be a good place to meet, and if the weather is inclement, another place could be decided on then. It is very desirable that not only town people meet there that night, but that we have a good representation from the country voting precincts. Mrs. Hunter said she would make the trip up here if we thought necessary, but anyway will send all the literature we will be able to distribute.

Dallas Man Runs Amuck; Kills Three and Himself

Hugh Davis, 50, of Dallas, Texas, suddenly ran amuck Monday morning, shot his wife, his mother-in-law, his 17-year-old son to death, then killed himself. He was estranged from his wife. The only witness to the shootings, a woman neighbor, could not be found. Pictured above are Dallas officers standing around a bloodstained bed where one of the women lay. All the killings were committed with a shotgun. (Texas News Photos.)

Will Rogers' First Speech Most Vital

Will Rogers has made many speeches during his career. But the first words he ever uttered in public changed the whole course of his life.

It occurred one night nearly 30 years ago while he was in vaudeville, spinning two ropes. One of his spurs caught in one of the ropes and Rogers muffed the trick.

"Got my feet through all but one of 'em," muttered the comedian and those of the audience nearest the stage laughed.

The next night, either by accident or design, the same thing happened, and from that time on, talk gradually crept into his act.

Before that, all he had to depend upon was a pair of chaps, the two ropes and a stick of gum.

"Had it not been for that spur and rope getting tangled up I might still be spinning ropes," declared Rogers on the "David Harum" set at the Fox Film studio recently. "It is the little things that guide the entire course of our lives."

"For instance, one day I was on the way to the Brown Building in Buffalo, N. Y., to patronize my favorite barber. A few yards from the entrance to the shop, which was on the ground floor, a beggar stopped me and asked for a dime.

"I did considerable fumbling before I was able to fish out a quarter to give him and, in the meantime, the Brown Building collapsed and killed everybody in the barber shop.

"They were excavating for another building close by and the earth gave way, causing the Brown structure to fall into the hole. That was the narrowest escape from death I ever had and I was mighty glad that beggar held me up long enough for the thing to happen while I was outside."

"David Harum" begins a 3 day engagement at the Rialto Theatre on Sunday.

New Cotton Exchange Opens in Brownfield

Wells & Stanton, well known cotton brokers of New Orleans have recently opened a cotton exchange here over the State Bank, with Grady Terry in charge. The firm also has an exchange at Lubbock. Mr. Rice has closed out the one that has operated here for the past year financed by a Hillsboro firm.

Mr. Terry has had considerable experience in cotton exchange business both here and at other places, and is well qualified to handle the orders of both his company or orders for local people. Wells & Stanton are not only cotton brokers, but handle stock and grain as well.

Leo Holmes Heads Local Lions Club

The local Lion's Club in a meeting Wednesday at noon installed officers for the coming year. Paul F. Lawlis, retiring president, installed his successor, Leo Holmes. Other officers installed were Rex Headstream, 1st vice-president; Dr. M. E. Jacobson, 2nd vice-president; William Graham, Secretary; Herman F. Heath, Lion Tamer and Clyde C. Coleman, Tail Twister.

L. Blackstock was in from the farm Tuesday, smiling all over his mug-nogomy.

Methodist Meeting Here Begins Sunday

We begin our meeting Sunday with Rev. W. M. Pearce doing the preaching. The singing will be led by local people. We invite all churches to join with us and help to have a great revival which is so badly needed in Brownfield. This will not be a membership campaign, not that we do not want each and everyone that would desire to unite with the church. We would gladly receive them. But the real purpose of the meeting is to get men and women to a higher plain of living. We extend a special invitation to each and every christian in Brownfield to join with us in this campaign for lost souls and a better life for all.

Sunday 11:00 A. M. at the Tabernacle. Evening worship 8:30.

Morning hours of worship throughout the week will be from 10 to 11 o'clock.

ED THARP.

Young Postmaster

Pictured here is Dan J. Quill, youngest postmaster to be named to position in any of the large cities of Texas by the new Democratic administration. Quill, 36, is now serving as acting postmaster of San Antonio under the recommendation of Congressman Richard M. Kleberg.

Wellman-Forrester Have Singing Schools

Mr. Clyde Bursleson and Mr. M. M. Meek of the Stamps-Baxter Music Co. are conducting Singing Schools this week in the Wellman and Forrester communities. Forrester in the afternoon and Wellman at night. Everyone is urged to attend these schools, as they are open to the general public.

The Wellman class closes Friday night, July 12, with a big time concert, by local talent and also outside entertainment including Carson Bros. Trio, Texas Trio, formerly of the Harley Sadler show, and others. The Forrester school will close Saturday night, July 13th with a similar program.

MEMPHIS TO HAVE BEER FOR FIRST TIME WITHIN 38 YEARS

MEMPHIS, TEXAS, June 30.—For the first time in 38 yrs., the Hall county precinct embracing Memphis will have legal beer. After a heated election today, the third within a year, the city precinct voted wet, the count being 310 for beer and 252 against.

THE BRIDE'S HYMN
Can opener, 'tis of thee,
Friend in emergency,
Of thee I sing.
When burnt brown is the steak,
And sinks the ten pound cake,
O kitchen king!

Monday Was Another Great Tradesday Here

People representing the four corners of the universe were here Monday for Tradesday. They not only came because of the bargains offered but also because they would be able to meet their friends and neighbors for a short chat. On account of dry weather, most of the farmers were well up with their work, and there was nothing to hinder them from taking the day off.

Merchants report one of the busiest days they ever had here on Tradesday, and this included every line of business. The dry goods, grocers and drug stores were especially busy, with all others sharing in the good day to some extent. It was also a great day for the candidates, as they had an opportunity to meet hundreds of voters that they may be unable to see before polling time.

Brownfield has now been carrying on its Tradesday for some three years without a letup, and it has become known favorably over several south plains counties. Hundreds of strangers, that are not here often at other times may be seen on Tradesday. In fact, the day might go on at a good rate were there no effort made to stimulate it in the future, but the progressive merchants of Brownfield have no idea of letting anything like that happen. They feel that the First Monday Tradesday is well established, and because the boiler is well fired up with lots of steam, they have no idea of quitting shoveling coal in the furnace.

After the merchants had distributed \$50 to six people on the east side of the square, a regular First Monday program, the crowd gathered under the trees at the courthouse and were told by the candidates how badly they needed the offices they were seeking.

President Signs the Moratorium Act

WASHINGTON, June 30.—President Roosevelt today ended speculation over the fate of the Frazier-Lemke farm moratorium bill with the announcement that he had signed the measure.

One of the broadest acts yet passed for the relief of any class of debtors, the bill would allow debt burdened farmers a five year moratorium if they are unable to reach a satisfactory arrangement with their creditors.

Swimming Class to Start Here Monday

On next Monday morning at seven o'clock Mr. and Mrs. M. L. Penn will begin another series of swimming lessons at the local pool. Thirty-eight enrolled in the class which was held a couple of weeks ago and all reported a fine time.

The seven o'clock class will be especially for ladies and children. All boys who are interested in getting into a boy's class should report to the pool at eight o'clock Monday morning.

The class will run for eight days. Total cost of instruction and the use of the pool will be one dollar for each pupil, to be paid in advance.

Bruce Hancock was among the visitors from Union in the city, Tuesday.

Two Murdered Near Post, Texas, Sunday

POST, July 2.—Two persons, J. A. Donaldson, 48, and Bertha Gordon, 24, were dead of bullet wounds, and a Lubbock man who was their Sunday evening companion was held by authorities here today.

The bodies were found about 9 o'clock Sunday night at the edge of state highway 84, 4 1/2 miles east of Post. Both victims lived here.

The man who had been with Donaldson and Miss Gordon reported the deaths to the Garza county sheriff's department about 10 p. m.

Officers on the way to the scene of the slayings met several unidentified Post youths who first found the bodies while on a pleasure drive.

Sheriff W. F. Cato subsequently arrested here the man who had brought word of the deaths.

Oral Statement Made
The suspected man had made an oral statement, which did not incriminate him, District Attorney G. H. Nelson of Tahoka said here at noon today. A complaint had not been filed in the case, the prosecutor said. Robbery had been eliminated from probable motives.

The man held said he had lived recently with his mother in Lubbock. He had a police record for minor offenses in Lubbock.

Donaldson was charged in United States district court here July 4, 1933, with possession and passage of counterfeit \$10 federal reserve notes. The charge later was dismissed.

The trio had been together in a sport coupe owned by the man subsequently detained.

Miss Gordon's body was at a right angle from the highway, lying north and south, the head at the edge of the borrow pit. Donaldson's body was at an angle of about 45 degrees from the roadway, his head also at the pit's edge.

The corpses were close enough together the legs of one were on those of the other. Within the triangular space between the bodies, a .45 caliber revolver was found.

The man held owned it, investigators said. Later: The suspected man proved to be Monte Bridges, who has had trouble with the law heretofore. He is being held in jail.

Officer Sued

Barney Finn, resigned secretary of the Police Department Benevolent association, Fort Worth, is being sued for \$7,400 by the association and is being urged to deliver the books to the police department. (Texas News Photos.)

APOLOGY

We had a communication some two weeks ago from a committee at Wellman, stating there would be an all day singing there on the First Sunday. This letter was mislaid, and not found until this week, too late to do them any good. We sincerely regret this.

The Herald.

Candidate Speaking

There will be a candidate speaking Monday night, July 23 at 8 o'clock under the tabernacle. A pie supper will be given by the Legion Auxiliary. There will be plenty of music and lots of fun. A prize will be given for the prettiest girl in Terry county. Everybody come and bring a pie and pick out your candidate.

Legion Auxiliary Entertainment Committee:
Mrs. Chock Hamilton,
Mrs. Hayden Griffin.

A PAIR

"Mrs. Smith won the ladies' rolling pin throwing contest by hurling a pin seventy-five feet."
"Mr. Smith won the hundred yard dash."

Highway Work to Be Started on the Plains

Highway construction, approximating 272 miles in 13 or 14 South Plains counties, is planned as drouth relief for counties in this section and some of the work is to begin this week Guy R. Johnston, district engineer, announced late Saturday.

Work is scheduled to begin this week on 87 miles of paving and 65 miles of grading and drainage in Terry, Dawson, Gaines, Yoakum, Cochran and Bailey counties.

Right-Of-Way Lacking
Right-of-way is lacking in Castro, Parmer, Swisher and Hockley counties and when this is secured 72 additional miles will be started.

Plans for Lubbock, Lynn, Garza and probably Hale, are being made, an additional 58 miles being scheduled.

The program includes the building of a road across Hockley county on highway 24, when the right-of-way is furnished the state highway department. "When we get the right-of-way across the county on No. 24 from the Lubbock county line to Whiteface, we will be ready to begin," he added. Plans are ready for the construction.

Engineers Are Named
Resident engineers have been named for most of the counties and offices established at Muleshoe, Tulia, Lamesa, Brownfield, Post, Morton, Quitaque and Lubbock.

Following is the program scheduled to start this week or as soon as possible:

Terry county: paving 15 miles on No. 137, Meadow to Brownfield and 20 miles, Brownfield to Gaines county line

Dawson county: grading and drainage work on No. 83 for 15 miles east of Lamesa abandoned when CWA work stopped; paving of 20 miles south from Lamesa on No. 9.

Gaines county grading and drainage on 25 miles east from Seminole to Dawson county line.

Yoakum county: grading and drainage on No. 84 east of Plains.

Bailey county: paving of 12 miles on No. 7, Muleshoe to Parmer county line.

Depends On Right-Of-Way
Following work depends upon the county securing right-of-way for the state:

Hockley county: 30 miles of grading and drainage in Hockley county, Lubbock county line to Whiteface; paving to come later.

Lubbock county: 10.5 miles paving and grade and drainage on highway 12, Lubbock through Hurliwood to county line.

Garza county: paving for at least 15 miles east of Post on highway 84.

Hale county: completion of 194 northwest from Plainview when county is made a drouth county.

Graduates Are Hired
"I have employed every available graduate of the division of engineering at Texas Tech, including the 1934 graduating class," Mr. Johnston declared. "I have hired every man I can get for this program."

Lon C. Ingram, Lubbock, was named assistant division engineer in charge of construction.

The following resident engineers were assigned:

S. A. Shoemaker, University of Texas graduate, Lubbock, Hockley and Lynn counties; Harry N. Roberts Lubbock, Bailey and Lamb counties at Muleshoe; W. H. Garrett, Swisher and Castro counties at Tulia; F. B. Ogle, Dawson and Gaines counties at Lamesa; R. T. Rowland, Terry and Yoakum counties at Brownfield; Elliott Taylor, Garza county at Post; Mr. Pillely, Cochran county at Morton and F. P. Stanley, Floyd and Briscoe counties at Quitaque (temporary). J. C. Kerr is later to be assigned to Parmer county at Farwell.

Lamesa Man is a Robbery Victim

AMARILLO, June 30.—Dock Aldridge of Lamesa, found unconscious Friday on a highway near here, was released today from an Amarillo hospital.

Aldridge said he had been stopped by two highwaymen, who had stopped his truck and robbed him of \$19.75.

Motorists from Borger found the man lying in front of his truck and brought him to the city.

Chris Quante and family are vacationing in Arizona. A card from them stated that next day they would not see a human for several days. They are visiting their mine claim and it is just a one way pass to get from it, so Chris says.

just read between the lines.
THE TEXAS WEEKLY—An unusual incident took place in Waco recently when Attorney General Allred spoke in that city. He was introduced by Lieut. Governor Edgar Witt, who is a candidate for Governor against Mr. Allred. . . . All of which prompts The Dallas Journal to observe as follows: "This is the way gentlemen should run for office. It adds dignity to the race and confers dignity upon the office sought. Texas needs more of that spirit in public life."

The Literary Digest is taking another one of those polls that have proved to be infallible. We mean by that, that they are always correct. This time the poll shows that Roosevelt and his policies of government are more popular than they were on paper. The poll shows that a majority of voters in every state in the union but one approves the New Deal. Unless an entirely different trend of thought develops in the next two years, no Republican will run against Roosevelt unless he just wants the exercise.—Ralls Banner.

"Calmer, most constructive, least bitter in thirty years." So vice-president Garner describes the session of Congress just closed. Such a record is a tribute to the men who make up the law-making body of our government. Though they are likely to be looking out for themselves and their relatives and the folks back home in the order named, the record of the votes polled show that most of the men who have been in the capitol the past few months have been earnestly trying to follow the leadership of President Roosevelt in helping the country out of the confusion and ruin we were in when Hoover went out.—Ralls Banner.

Another Glorious Fourth has come and gone, and we hope all had a great time. As for the Herald force—it worked as usual. No rest for the poor printer. A customer will insist on his job work just as much as any other day. At the time this is written, only one accident to mar the day. A light standard suddenly left its mooring on the side walk and jumped right out in front of a car. The car and light standard were smashed. The driver was led to jail. No it was not 3.2, as we understand the fellow likes it stronger, and one man said he had a capacity of exactly six vanilla extracts in ten minutes. That's not drinking—that's funneling.

I heard on the sidewalks of Wink a conversation something like this: "Why don't you get work on a certain job," and the fellow replied, "I wouldn't work for any g. . . . outfit at a dollar per day. In ten minutes that same fellow was in my office asking for money to buy a meal for a 'poor old oil worker' He did not get the price of a meal, nor even the price of a cup of coffee, nor a bowl of soup, but next morning, this same fellow, sat beside me and ate a full breakfast of two hot cakes, plenty of syrup, two soft fried eggs, a cup of coffee, and buttered toast. Some free hearted fellow had tossed him a four-bit piece, and he was getting a square meal. I heard the same fellow later on in the day hit another free hearted, good natured fellow for a meal and got it. Such characters as this should not be encouraged, but should be promptly 'booted' out of town. Professional bums should go hungry till they would be willing to put forth some effort to earn their grub.—Wink Times.

ANYTHING
Minister: "I wish to announce that on Wednesday evening the Ladies' Aid will have a rummage sale. This is a chance for all the ladies of the congregation to get rid of anything that is not worth keeping, but is too good to be thrown away. Don't forget to bring your husbands.

The highway department promises that work will begin on No. 137 just as soon as it is possible to get men, tools and machinery in action. That means payrolls and food and clothing for many workers.

A citizen pointed out to us recently that all the former Ku Klux were actively supporting Jimmie Allred, and called our attention to windshield stickers. But they are not all supporting Jimmie, for we have seen a few of them handing out McDonald cards and literature.

Well, July is here and politics have been simmering and reached the boiling point. When men quit being polite and call each other liars and other dirty names, you may know that there is a Texas election just in the offing. Not only is the state and district races warming up, but we have one or two right here in old Terry that promises caliente.

Have you noticed that Amon G. Carter's Star-Telegram has been rather light on Clint Small editorials of late, and had you guessed the reason? Had you noted that this has all happened since Clint came out strong for repeal of the race track law? Well, you know that Amon's good friend, Mr. Waggoner runs the Arlington Downs near Fort Worth, one of the biggest race tracks in Texas or the south for that matter. So

HISTORY OF "OLD GLORY"

The Stars and Stripes was adopted our National Flag by Congress on June 14, 1777, which anniversary is now celebrated by the observation of Flag Day.

Betsy Ross, of Revolutionary fame, made the first Old Glory by hand and presented it to George Washington. This flag, which had 13 stripes of alternate red and white, representing the 13 States, and a rectangular blue field with 13 white stars forming a circle within it, was an outgrowth of several flags which had been used in early Revolutionary battles.

Old Glory is said to have received its baptism of fire at Fort Stanwix, N. Y., where on August 3, 1777, just as British forces launched an attack, Continental troops unfurled a flag of the "Betsy Ross" type improvised from pieces of uniforms and clothing.

In 1795, after the admission to the Union of Vermont and Kentucky, two more stripes and two more stars were added to the Betsy Ross Flag.

As other States were admitted to the Union during the next few years, it became impracticable to add both stars and stripes. Congress, therefore, passed an act on April 14, 1818, restoring the 13 alternate red and white stripes as representing the original 13 States, and providing for the addition of one star for each state admitted to the Union.

The last addition to the American Flag was made July 4, 1912, when two stars were added—one for Arizona and one for New Mexico—bringing the number to 48, as it now stands.

As the manner in which the stars were to be arranged in the blue field was not designated by Congress, the present arrangement of six rows of eight stars each was determined jointly by the Secretary of War and the Secretary of the Navy, with the approval of the President of the United States.

A BILLION NEW DOLLARS

The new silver policy, now in process of fulfillment, is expected to add a billion dollars of new money to the country's supply of ready cash. The process will continue until our monetary base is divided 75-25 between gold and silver, respectively. It is not inflation, but expansion, of the currency. Inflation is the

reckless and uncontrolled printing of paper money without proper metallic backing. We could double our money in circulation now without exceeding the limits of safety; in other words, we have enough metal in the vaults or being purchased to cover twice the amount of money now in the country.

A billion dollars in new money may mean much or little. The silverites assert that it will mean the difference between continued slack business and a sudden prosperous upshoot. The anti-silverites say it will make little or no difference, that the new money will be absorbed without creating even a ripple on our economic life.

In all probability it will make considerable difference in the silver states, and bring prosperity to the mining regions. After all, that was the chief ground for enacting the silver bill. If it accomplishes its purpose, who should object?—Abilene News.

The highway department with a crew of men are digging caliche pits on No. 137 to begin preparations for paving. It will be paved from the Hockley county line near Ropes to the Gaines county line near Seagraves, a distance of about 35 miles, and will give employment to many people.

BROWNFIELD, TEXAS**

HENRY FORD TO COMPLY WITH NRA CODE

WASHINGTON, June 30.—Hugh S. Johnson said today Henry Ford's motor company had certified past, present and future compliance with NRA's code for the automobile industry.

An unsigned letter of compliance stamped "the Ford Motor company," was submitted to the recovery administrator by a local agent. It was revised slightly and then reported approved over the telephone by a Detroit official of the huge automobile concern.

ROOSEVELT'S SOCIAL PLANS

In this last of President Roosevelt's talks to the people he rehearsed the record of Congress and the administration, denied charges of fascism, socialism, or communism, and appealed to each individual citizen to testify as to his improved situation over that of a year ago. It was a clear and convincing review of his record, given in homely English, and it must have made a decided nationwide impression of sincerity and wise planning.

An important part of his address centered about his plans for the future. His attention naturally heretofore has been devoted to relief measures and to an attempted constructive reorganization of economic and financial situations. Hereafter he proposes to give attention to problems of the utilization of land and water resources, better housing and social insurance, along with the social problems of lowered hours of labor, living wages, and higher standards of home life for the average citizen. The details of this program he expects to make known after his return from his sea voyage, during these coming months of the year.

President Roosevelt has a social vision of a Nation in which poverty, hunger, and useless suffering are to be eliminated. He desires to see the lot of the slum dweller better and the tenant farmer, laboring under serf conditions, made into a free man enjoying the comforts of a civilized home. He hopes that the aged poor will be humanely cared for and health made possible to those now worn down by unnecessary illnesses. He dreams of a people made happy and prosperous through wise legislation.

President Roosevelt needs a rest and may obtain it under the stimulus of sea breezes and the freedom of an ocean voyage. His fellow-citizens join in wishes and prayers for his safe return, in the vigor of health, prepared to "carry on" for the fulfillment of his social program.—Dallas News.

Jessie had been sent to a fashionable boarding school, and after the first two weeks she signed her letter home "Jessica."

Her father, a plain but sensible old farmer, replied: "Dear Jessica—I received your welcome letter. Mamac and Tomica are quite well. Tomica has a new friend by the name of Samica Jonsencia. Aunt Maryca and Uncle Georgica have gone to Bostonica. Your loving Dadica."

Mr. and Mrs. Sam B. Johnson, left last week to spend a few weeks with his son, Lee Johnson, one of the instructors at the West Texas State Teachers College at Canyon.

NOTICE

Notice is hereby given that suit will be filed on all delinquent taxes in Yoakum county in the next ten days.

Watch For Impure Water and Milk

The Texas State Department of Health has joined the Government and other organizations in the use of letters to designate phases of their work, according to Dr. John W. Brown, State Health Officer. The letters used at this time are F F F and they stand for fingers, flies, and food—the three most common methods of transmitting intestinal diseases. The three Fs are generally responsible for the spread of typhoid fever, diarrhea, dysentery, and enteritis. Drinking water is considered a food and, as it is used by all ages, great care should be exercised to assure one that their supply is pure. If uncertain the water should be boiled before used for drinking purposes. Surface water and shallow wells are always to be suspected unless proven otherwise. Your city or county health officer will be glad to advise you on the proper method to use in chlorinating your water supply.

It is during hot weather when the most complaints are received on account of diarrhea and dysentery, and parents should do their utmost to prevent it. The chief causes include impure milk, water, contaminated foods or wrong diet. If diarrhea develops the feeding should be stopped or greatly diminished and a physician called. Carthartics should not be given unless the doctor prescribes them.

The three Fs are the sources of danger to the baby. Flies carry disease germs to the baby and its food. Fingers and hands that are not thoroughly washed before preparing the babies food are likely to be germ carriers also. All milk and water intended for the baby should be boiled for five minutes and then carefully covered and kept in a cool place until used.

NOT THE SOLUTION

Those who are urging government ownership of the railroads as a solution to our transportation problem will find grave difficulty in obtaining widespread public support for so drastic—and expensive—a move.

If railroad service were inefficient, there might be cause for government operation. But the American railroad have provided us with as certain, as fast, and as comprehensive a transport system as anywhere in the world. They are making steady progress in promoting safety (today you are actually safer on a railroad train than in your own home); increasing freight and passenger train speeds; such innovations as the new streamlined trains—as a matter of fact, they are bettering service in every direction.

If railroad rates were exorbitant the government ownership advocates would have a case to present. But rates are low now, and in the case of most commodities the cost of transportation is an infinitesimal item in the final selling price. And a heavy percentage of the revenue received by the railroads is indirectly returned to the public, through gigantic taxes they pay municipalities, counties, states and the federal government.

Public ownership of the railroads would require tremendous bond issues—there are many conflicting views as to true railroad valuation, but it runs far into the billions. It would require the creation of a vast government department to operate them. And, if experience of government-operated railroads in war-time is any augury, rates would be no lower than they are now—and service would be immeasurably inferior.

SIAMESE ENGLISH AS WRIT

An advertisement of a Siamese newspaper reads: "The news of English, we tell the latest. Write in perfectly style, and most earliest. Do a murder commit, we hear and tell it. Do a mighty chief die, we publish it, and in borders of somber. Staff has each one been to college, and studied writing of Kipling and others. We circulate every town and extortionate not for advertisement. Buy it."

Poultry, Egg Shipments Show a Falling Off

Austin, Texas, July 3.—Poultry and egg shipments from Texas to interstate points showed a marked decline in May in comparison with the same month last year, according to the University of Texas Bureau of Business Research. Total shipments of poultry and eggs were only 160 cars, against 206 cars last year, a decline of 22 per cent. Of these totals, 87 cars were poultry, compared with 128 cars in May last year and 73 cars were eggs in comparison with 78 cars a year ago.

Receipts of eggs from out-of-state points totaled 50 cars, against 44 cars last year. All of these receipts came from Kansas this year, whereas last year 42 cars came from Kansas and two from Missouri.

CRAMPING THE BANK HOLD-UP MAN

Cities and towns in the United States of less than 25,000 population need no longer fear that hold-up men will clean out the local bank—if the little bankers are willing to go along with the new Bank Robbery Limitation Plan recently put into effect by the member companies of the National Bureau of Casualty and Surety Underwriters. The plan does not prevent hold-ups, but it does reduce the amount of money available to the great and little Dillingers to 15 per cent of that heretofore in sight.

After several years of investigation, the companies determined that the small town bank seldom requires more than 15 per cent of its cash on its counters for its routine business. As long as the other 85 per cent is kept accessible there will be no interference with business.

The delayed time lock helped to work out a plan. This is an expensive device which enables the banker to open his safe during banking hours only, within 15 minutes or some other prearranged period after the time mechanism has been started. A hold-up takes from three to 5 minutes on the average. If 15 per cent cash were on the counter and 85 per cent in a vault where it would take time to obtain, the criminal would find his trade much less attractive.

The idea was put into effect in 23 middle western and southern states in 1933. The experiment was so successful that this year it was spread to the remaining 25 states. As an illustration, if a bank taking this form of insurance has \$10,000 cash, it is permitted to have \$1,500 available on the counter, the remaining \$8,500 being in a vault with a delayed time lock. If a depositor comes in with a large check, the bank starts the time lock to open a few minutes later. Once the money has been procured the vault is again locked and the business goes on. There is a similar ceremony at the opening of the bank in the morning and at night when it is closed.

Reports for the year's experience show that the plan has been extraordinarily successful. In Minnesota, for example, on three different days, in three different towns, robbers found, instead of \$15,000 or \$20,000, \$2,000 or \$2,500. They could not wait for the delayed time lock to operate.

Mr. and Mrs. E. C. Roberts of Seagraves, were Brownfield visitors last Thursday. Mr. Roberts informed us that he was opening a new filling station for Sinclair products at Andrews.

World's Fair Visitors Watch Chevrolets Made

First month's production of Chevrolet cars at the Chicago World's Fair, General Motors building assembly line totaled 4668 units, according to information released by Dudley Fraser, assembly line manager.

By actual count, 6466,107 people have visited the exhibit to watch the building of Chevrolet cars, an increase over the first 30 days last year.

Retail sales of Chevrolet cars in the General Motors building are materially higher than last year also, it was reported.

The Chevrolet World's Fair assembly line employs 175 workmen selected by merit from the Janesville, Kansas City, Norwood and Flint assembly plants. They work six hours a day, six days a week, according to the NRA automotive code. The line operates from 1:30 in the afternoon till 9:30 at night, except Sunday.

NEIGHBORHOOD QUARRELS

One of our older folks remarks that people do not quarrel with their neighbors as they used to. He can recall in his early life how frequent it was for neighbors to be hostile toward each other. They were constantly arguing about their rights and duties. Or they might go for years without speaking to these folks.

People seemed to be careless in those days about doing things that made them disagreeable to their neighbors. If they kept chickens, these birds roamed over all the nearby lots. If they had dogs, Fido and Towzer were allowed to wander at will, and were constantly digging holes in the neighboring gardens. Children were always committing mischief. If you protested to their parents, the latter would take the children's part.

Life in those former days moved in a too narrow circle. There was not much going on, and plenty of time to cherish sour thoughts. Things that were said across the back yard fence rankled, and innumerable disputes kept people's tempers hot.

Today most people are learning better how to behave in community life. If the children or the pets make trouble, the effect is usually made to correct these faults. But life is too active to fret over little matters. Men and women whose days are full of active work, whose lives are lightened by social enjoyment, who have good books and newspapers to read, are not going to fret and fuss over trifles.

There is one phase of good neighborhood conduct, however, that some people have not yet learned to be a good neighbor, one must keep one's home place in attractive condition. A run down home is a blot on the street, and the neighbors naturally resent it.—Lubbock Avalanche.

ALEXANDER'S

TRAIL BLAZER

It was customary for the congregation to repeat the 23rd Psalm in union, but invariably Mrs. Spielfast would keep about a dozen words ahead of the rest. "Who," asked a visitor of an old church members one Sunday, "was the lady who was already by the still waters while the rest of us were lying down in green pastures?"

The banks, barber shops, grocery stores and dry goods stores were closed for the Fourth of July. Some stayed at home and others journeyed to nearby cities where there was a celebration.

Mesdames Jack Stricklin, Kyid Graves, Clarence Hudgens and Flen McSpadden were Lubbock visitors Tuesday afternoon.

Water "Shipped" Down the River on Order!

Water from Lake Brownwood Brownwood, Texas, is shown above starting a 480-mile trip to the drought-stricken rice fields of Matagorda and Wharton counties in a unique experiment. The Gulf Coast Water Co., Bay City, bought 4,573,800,000 gallons of water from the Brown County Water Improvement District No. 1 for \$10,000. Flood gates of the dam were opened to allow 14,000 acre-feet of water to flow into Pecan Bayou, then into the Colorado River and thence to the stricken area, where huge pumps will pick it up. It is estimated that 50% of the water will reach its destination after a 12-day journey. The price was cheap at that—4.574 gallons of water for one cent! (Texas News Photos.)

Many Americans Discovering United States for First Time

No California itinerary is ever considered complete unless it includes the world-famous Mariposa grove of big trees in Yosemite National Park. There are some 600 monarchs of the forest, several thousands years of age and so huge that the roadway was tunneled through one of them—the famous Wawona Tree.

Now that the depreciated dollar is encouraging many an American to keep away from Europe and instead climb into the family car and "discover" America, motor touring is becoming increasingly popular because it is an inexpensive means of travel and there is no better way of seeing the country. Many Americans who have been overseas and are today turning to the United States for tourist attractions, are learning that this country is rich in places of scenic interest and likewise rich in places of historical interest. For example, the country's national parks and forests are among the show places of the world.

To encourage Americans to know their own country there has been established with headquarters in Denver what is known as Conoco Travel Bureau. A letter to the director of this bureau in which you tell where you want to go by motor car and when, will bring to you at no cost to you maps of the states you will cross together with your best routes indicated. You will also receive hotel guides, tourist camp guides, booklets about scenic places and historical places to visit. There are no strings attached to this complimentary service which is available to readers of this newspaper.

Union News

Bro. Lovelace filled his appointment here this week end. He brought us three great messages.

The Methodist revival will start here the third Sunday in July. The Baptist revival will begin the first Sunday in August.

Everyone came to Sunday School and B. Y. P. U. next Sunday. In the latter we're going to have a "Liberty" quiz contest; be sure to read your daily Bible readings.

Mrs. L. C. Shepherd has been on the sick list. We hope that she will

soon get well.

We saw Mrs. Gay Price of Brownfield out to church, Sunday night.

Miss Edna Ruth Johnson of Wayland College, Plainview spent the week end in our community.

Miss Lola Mae Parrish spent Saturday night with Miss Helen Lassiter.

Those who spent the afternoon in the Elbert Green home Sunday were: Morris Green, Ray Swindle, Thomas Montgomery, Edna Ruth Johnson, Opal Fielder, and Letta Mae Bass.

Misses Frances and Florence Brock are back again with us. They have been visiting relatives at Roby and Sweetwater for the past month. We

are sure they enjoyed themselves, but are glad to have them back at home once more.

Malcolm Cooper spent Sunday afternoon with Fay Lewis.

Guss Ranchiff and family are moving to the villey this week. We regret very much to see them go, for we will surely miss them.

Marie Shepherd spent last week with her sister, Mrs. William Sanders at Labey.

Miss Alma Cypert of Pool is spending the week with her cousins, Mary Anna and Catherine Cypert. They spent last week with her.

Mrs. Melvin Ray of Big Spring is here visiting her mother, Mrs. W. E. Fielder.

Union was well represented at First Monday.

Gomez Gossip

Singing was well attended Sunday night.

A number of people from our community attended Singing at Wellman Sunday afternoon.

Rev. Cook of Plainview will preach at the Baptist church Sunday afternoon at 3:00 o'clock.

The Senior Baptist Sunday School Class enjoyed a moonlight picnic last Tuesday night.

Miss Edna Odum left last Friday for her home at Bronne.

Mr. and Mrs. W. G. Carter and children visited last Sunday with Mr. and Mrs. C. F. McNeil.

Mrs. Logan Earnest and little son are here visiting her parents Mr. and Mrs. J. J. Whitley.

Mr. and Mrs. J. E. Lee took dinner Sunday with her brother, Mr. and Mrs. Rose.

Rev. John Denton of Farmer, Rev. W. L. Wright and family of Loop spent Saturday night with Mr. and Mrs. J. W. Ball and family.

Misses Lillian Lee and Iva Lee McLeroy took dinner Sunday with Miss Maurine Loyd.

Mr. and Mrs. Walter Garrison and family took dinner with Mr. and Mrs. W. F. Collins Sunday.

Mr. and Mrs. A. J. Johnson and son of Levelland visited their daughter, Mr. and Mrs. Henry Franklin, Sunday.

There will be a pie supper at the school auditorium, Thursday, July 12. Everyone is invited. We extend a special invitation to the candidates and their families.

There will be a Sacred Harp Singing at the school auditorium Sunday, July 22.

S. O. Murray, manager of the Brownfield Produce informed us this week that while hens back east quit laying during extremely hot weather it did not seem to bother them out here. He is buying around 5000 dozen a week, and says he knows that he is not getting all the eggs here.

The local dry goods stores were closed all day Wed.

Drouth Relief Money— Who Can Obtain It?

Drouth relief funds from the \$100,000,000 drouth relief appropriation to farmers and stockmen made available by Congress for the purchase of feed for farm and range livestock and to plant forage crops in primary drouth areas in Texas, New Mexico, and Arizona, will be disbursed immediately, according to announcement made today by Charles W. Sherrill, Regional Manager of the Southwestern Emergency Crop and Feed Loan Office of the Production Credit Division of the Farm Credit Administration at Dallas.

Mr. Sherrill has returned from a conference in Washington with S. M. Garwood, Production Credit Commissioner, and Norman Monaghan, Assistant Director in Charge.

Explanation of the regulations governing the loans have been made at regional points by Mr. Sherrill and the sessions were attended by the local county administrators of the Federal Emergency Relief Administration, county loan committees, county agents, Chamber of Commerce executives, and field supervisors of the regional office. Application for aid will be accepted from the following Texas counties, designated as primary drouth area, immediately: Dawson, Gaines, Lynn, Terry, and Yoakum.

In discussing the provisions of the regulations, Mr. Sherrill pointed out that applications can be accepted only from applicants residing in counties designated as primary drouth areas. Applicants eligible to receive consideration must have no means or other sources of credit enabling them to undertake the production of a forage crop or crops or to purchase feed for their livestock.

Loans will be advanced in monthly installments, with a supplemental application necessary for each month's requirements.

The lien securing the promissory note given will be subject to nondisturbance agreement to be executed by lien-holders, if any, who must agree to take no steps to enforce the payment or collection of any claim against the borrower nor dispossess him of any property until January 1, 1935.

Applications must be submitted to the Emergency Crop and Feed Loan committee for the county in which the applicant's livestock is located and, or forage crops to be planted. Headquarters of the county loan committee will be at the office of the local County Relief Administrator who will serve as a member of the county committee. Stenographic and other help will be supplied by the Relief Administration, according to agreements reached in conferences with Col. Lawrence Westbrook of the Federal Emergency Relief Administration, Mr. Sherrill says.

Since it is the desire of President Roosevelt, who requested Congress to appropriate the drouth relief funds which will be disbursed thru the Dallas office for the benefit of drouth stricken farmers and stockmen, that every farmer and stockman who needs assistance in this form will be taken care of, we are depending on the cooperation of every agency in this emergency so that there may be no delay in any phase of the work. Applications will be acted upon at once by the Dallas office.

GEORGE MAHON

Mitchell County

CANDIDATE FOR CONGRESS

We do not need to tell you anything about George Mahon if you have met him. Those who know him have found him to be a plain hard working West Texan who has shown himself worthy of public trust. He is capable of ably representing us in Congress. Age 33. 26 years in the District. Serving fourth term as District Attorney. Let's elect him to Congress.

Friends of George Mahon.

Schedule of New Service on Bus Line

Schedule of the new service which Grover McMakin, owner of the Brownfield-Lubbock coaches is starting Sunday (July 1) to Hobbs and Carlsbad, N. M., was announced yesterday.

No change is made in the morning bus for Brownfield and Roswell, leaving at 8:45 and arriving Brownfield at 10:15 a. m. The bus leaves Brownfield at 10:30 and arrives in Roswell at 2 p. m. mountain time. Returning, leaving Roswell at 3 p. m. it arrives here at 9:30 p. m.

The afternoon bus, leaving Lubbock at 4 p. m. and Brownfield 5:20,

arrives at Seminole at 6:30. Leaving Seminole at 7 p. m. it arrives in Hobbs at 7 p. m., mountain time.

A bus for Carlsbad leaves Hobbs at 7:15 a. m. and arrives at Carlsbad at 9:15. Returning it leaves there at 1:30 p. m. arrives in Hobbs at 4:15, leaves Hobbs 4:30 and arrives in Seminole, 6:30. Leaving Seminole 7 p. m. it arrives at Brownfield at 8 p. m. to connect with Roswell bus leaving the latter place at 3 p. m. Arrival is in Lubbock at 9:30.—Lubbock Journal.

We are authorized to announce that Fred C. Haile of Spur will speak here Saturday afternoon in the interest of his candidacy for congress at 5 p. m., and at Plains the same night at 8:30.

DRASTIC PRICE REDUCTIONS

UP TO \$50 BRING

CHEVROLET

to the record low price of

\$465

AND UP, F. O. B. FLINT, MICH.

NEW REDUCED PRICES

Above are list prices of passenger cars at Flint, Mich. With bumpers, spare tire and tire lock, the list price of Standard Models is \$18 additional. Master Models \$20 additional. List prices of commercial cars quoted are f.o.b. Flint, Mich. Special equipment extra. Prices subject to change without notice. Compare Chevrolet's low delivered prices and easy G.M.A.C. terms. A General Motors Value.

CHEVROLET With the announcement of price reductions several weeks ago, Chevrolet stepped into the most favorable price position it has enjoyed in a long time.

Reductions amounting to as much as \$50—the most substantial price cuts announced in the low-price field this year—dropped Chevrolet's base price to a new low figure of \$465. Just compare this price—compare any Chevrolet price—with those of other cars. Then compare what you get for what you pay! There'll be no question in your mind which car to buy.

Chevrolet offers patented Knee-Action—and others do not! The same thing applies to Fisher body, cable-controlled brakes, shock-proof steering, and valve-in-head six-cylinder engine. Chevrolet gives you far more features—for finer quality. Yet the price of the Chevrolet Standard is lower than that of any other six or any eight in the world.

HOW PERSONS DROWN

The eight persons who have drowned in Dallas County during the current swimming season did not die as a result of water-filled lungs, according to D. H. McAnnally, Red Cross first aid instructor, but because of the paralysis of the diaphragm.

"When a person is drowning," McAnnally said, "the epiglottis closes, followed by a nerve impulse sent to the breathing center of the brain. Man is rendered unconscious and the diaphragm paralyzed. The heart may beat as long as thirty minutes after the diaphragm ceases to function. If water gets to the lungs it is rapidly absorbed by the body, therefore it becomes unnecessary to waste time in ridding the body of water to save a life, but artificial respiration must be applied immediately. Unless applied the person suffocates due to lack of oxygen and retention of carbon dioxide in the body. Artificial respiration must be continued until disturbed nerve centers recover normal function and the person is able to breathe. Rigor mortis may not set in for four hours, but usually after an hour or two."

Artificial respiration, according to McAnnally, does not consist in battering the unconscious person to consciousness.

All public bathing places should have capable lifeguards on duty at all times. Better still, everyone ought to know how to administer artificial respiration. — Waxahachie Light.

There will be a pie supper and candidate speaking tonight at the Hunter school house. One and all from this and surrounding communities are invited.

OUR 23 YEAR COLUMN

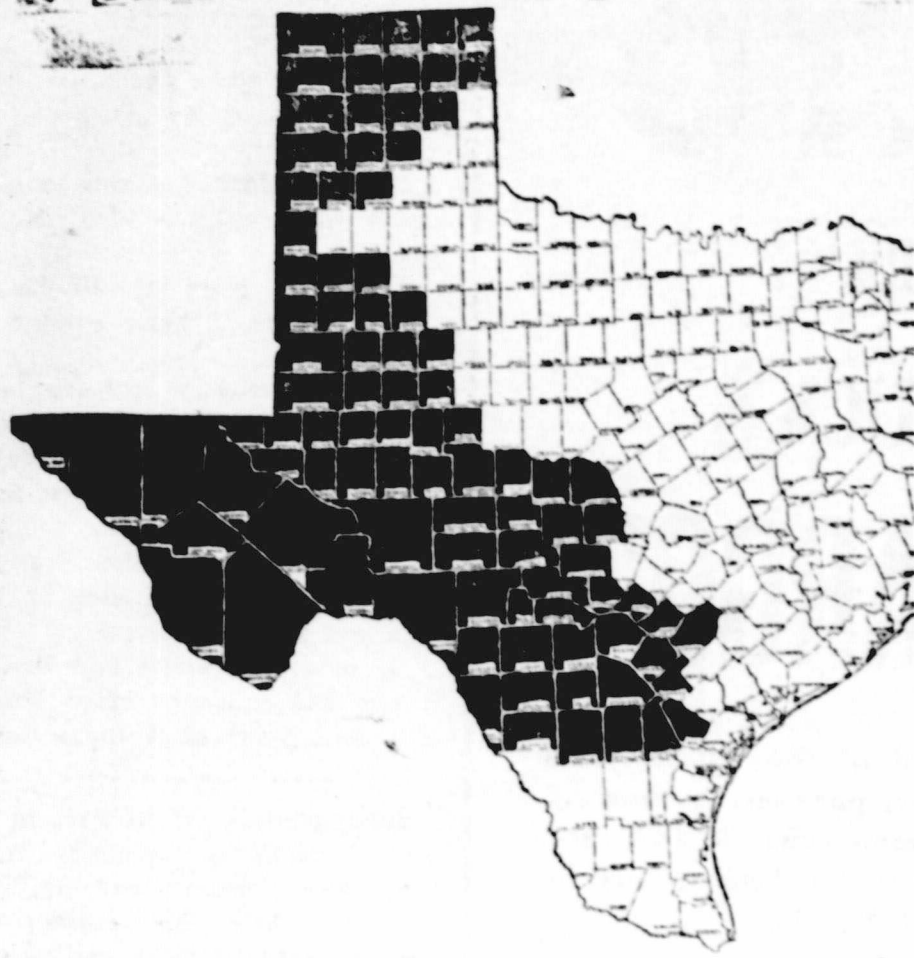

In our issue of July 7, 1911, there was an account of a hot ball game between Brownfield and Lubbock which was won by Lubbock by a score of 3 to 2 in the eleventh inning. Earl Hill, Brownfield pitcher, struck out 18 Lubbockites. There was almost a page ad on the 3rd page paid for by the anti-prohibition forces of Texas, in which Mary Winn Smith, better known as Aunt Lucinda, told how prohibition worked in Oklahoma, or rather, to quote her, "how it did not work." Here is one of our editorials quoted verbatim in that issue: "Traveling by air-route conveniently and safely may be the order of the future, but we don't expect to live to see it in vogue. Fact is, our present system of locomotion on Terra-firma is swift enough, and just as dangerous as we desire." Well, we did live to see it anyway, but we have never "rid" in one of the "critters."

Gomez: Hundreds of people enjoyed a great picnic with dinner enough left to have fed another crowd as large. Mrs. Glover accom-

panied by her sons, Tom and Vance, spent a week with her daughters, Mesdames Hunter and Hurst at Lubbock. Mr. Nichols, living southeast of Gomez, brought in some cotton blooms. Rev. Kirby was conducting a meeting at the Methodist church. Simon Holgate had returned from an extended trip to Brownwood. He was accompanied home by his sister-in-law, Miss Zellica Knox. Sam Withers had sold his farm to a Mr. Smith of Amarillo. Miss Lois Reeves was visiting relatives. The gardens were failing from dry weather.

Luther French spent the Fourth in Lubbock. J. C. Green went to Tahoka after a load of feed for Coble & Allmon. Son Hughes had visited Lubbock and reported that it was the biggest town he ever saw. Jack Drinkard was showing cotton blooms. There was to be a prohibition rally at Needmore. R. G. Wood was in from the Meadow section. Mr. and Mrs. Ed Ellis had moved into the Mallard residence. Jim Lewis was in from Needmore trying to raise a fuss with the bench warmers. Rev. Thomas held a short meeting at Slaton. John C. Scudday had returned from Fort Worth where he under-

Texas Drouth Status at End of June

This map shows the 93 Texas counties which are now getting Federal drouth relief. The first group of counties to get Federal relief totaled 56, and 37 more were added on June 19. Continuation of the dry weather will probably result in more being added each week. It is significant to note that the drouth is most severe in West Texas, where farmers and ranchers are better able to withstand dry weather, and as a result, Texas is not suffering as much from the drouth as other states. (Texas News Photos.)

Banks Repaying Loans From R. F. C.

Although banks and trust companies have been the largest borrowers from the Reconstruction Finance Corporation, they have exceeded all other classes of borrowers in the rapidity of their repayments. Since the inception of the R. F. C. in February, 1932, loans have been authorized by it to 7,050 banking institutions in the amount of \$1,995,000,000. Of this sum \$442,000,000 was not taken by the borrowers, the actual advances being \$1,553,000,000. Repayments against these advances through April 30, 1934, aggregated \$925,000,000, or about 60 per cent. The ratio of repayments for all classes of borrowers has been only about 37 per cent. These rapid repayments by the banks are taken by competent observers as a strong indication of returning normal financial and banking conditions.

Bankers Finance Scholarships

The American Bankers Association Foundation for Education in Economics has since its establishment in 1928, awarded 354 college loan scholarships, the total loans repaid in that period being \$262,000 and the amount now outstanding \$86,900. The total investments of its funds are \$540,000.

Driest Town on Earth

What is described as the driest town on earth is Arica, Chile, where, in 17 years of taking records, the precipitation averaged only .02 inch a year.

Tobacco Native of America

Tobacco is a native of America. The Indians originated tobacco smoking. Tobacco plants are related to the potato, the eggplant and the tomato.

Wars 586 B. C.

Archaeologists have excavated the ancient city of Lachish. The Judean ruins reveal signs of assaults by Assyrians in 701 and 586 B. C.

Wren Tit of Pacific Coast

The wren tit of Pacific coast regions, particularly California, represents the one family of perching birds peculiar to North America.

Where Twins Are Rare

Twins are so rare an occurrence among the natives of Uganda that their arrival is made the occasion of a feast.

London Baby's Chance

If he survives his first year, a London baby has an average expectation of fifty years of life.

Cold Cream Aways Back

The cold cream invented by the Roman physician, Galen, almost 1,900 years ago is not very different from the modern formula.

Acid Vital to Growth

An acid common to all animal and vegetable life, called panthothenic acid by its discoverers, is said to be vital to growth.

Radium From Pitchblende

Radium is extracted from certain kinds of pitchblende which consist largely of uranium oxide. Eight tons of pitchblende will yield about a half-teaspoon of radium.

Grasshoppers Breathe Through Side

Grasshoppers, like all other insects, breathe through openings in the side of the abdomen and cannot be drowned by holding their heads under water.

PHAROAH'S DREAM

We never did give very much credit to Pharoah for his dream, but all the more to the wise Jew of another country who interpreted it for him. We suspect that Joseph artfully interpreted a dream to accord with a fixed opinion as to policy he had long held.

Anyway any policy of crop control that does not contemplate a systematic storing of surplus of commodities for the lean years is only leading to disaster. We suspect that we will hear less of crop control for the next several years than we have for some time. This year's deficiency of wheat production will absorb the large surplus, or nearly so. Our surplus anyway, was more or less a result of poor distribution. There are many millions of our people who could have consumed beneficially more of our food products and used more cotton, had they the money to buy with. We dare say a policy will be devised to handle our surpluses to better advantage.—Almagordo News.

J. L. Murray and family from Nashville, Ark., are here visiting his brother, S. O. Murray and family, of the Brownfield Produce Co. The father of these boys sold the syndicate most of the land on which the world's largest peach orchard now stands near Nashville.

Arthur Snodgrass of Snyder, is here the guest of his old friend, Randolph Rutherford. Arthur has been vacationing in New Mexico.

went an operation. District Attorney Vickers was spending a week in Brownfield. Almer Brownfield of Sweetwater, was visiting his father, M. V. and family. Judge Spencer had returned from Crosbyton, where he held court. John Jarrot of the Abernathy ranch was visiting Will Ed Harris. Will Alf Bell had bought a new carriage.

Mr. and Mrs. Jenkins were in from their farm. The Herald was selling blue-back spelling books. Miss Rebecca Butler of Brookhaven, Miss. was visiting her uncle and aunt, Judge and Mrs. W. R. Spencer. J. F. Winston was out raising money for the old Soldiers Reunion and barbecue. Mr. Weeks was over at Tahoka selling his brooms.

Primrose: Corn wilted and needing rain. Volnie Farris had returned from a visit to Okla. Mrs. Maud Whiley was attending the Holiness meeting in Lubbock. A singing at Meadow Sunday night. Born to Mr. and Mrs. Homer Marcey, a boy, Jake Beal of Brownfield was visiting his parents. Mose Lee's little boy was very ill and had been taken to Lubbock for treatment. R. G. Way and Hardin Long visited Lubbock. New Copeland of Lubbock was visiting his brother, Harry.

Groves Chapel: J. N. Groves and wife returned from Loraine. G. M. Smith was making war on jack rabbits. Uncle Joe Bryant and force were working out their crop on the Hamilton place. D. and W. L. Groves were up from Gaines county. All for this week.

OLDEST RESIDENT OF WACO, 107, DIES

WACO, June 23.—I. Adams, 107 years old, oldest resident here, died last night.

He had lived here ore than 75 years and was engaged in business until he was 90. He was born in Russia and was survived by 135 direct descendants, including several great great grandchildren.

Atty. R. L. Graves of this city has been appointed by the Commissioners Court of Yeakum county to file suit for collection of delinquent taxes in that county.

Crusaders Speed "Excitatoria" To Millions of American Citizens

THOUSANDS of "excitatoria" are being dispatched throughout the United States today, from The Crusaders' national headquarters in the Pershing Square Building, New York, calling upon the people of the country to join in a new crusade for the protection of representative government.

Ancient Crusaders made effective use of messages of appeal which were known as "excitatoria" and were carried throughout medieval Europe by mounted couriers. The modern version of the "excitatoria" is being carried over the country by air-mail. The Crusaders are men and women—Democrats, Republicans and Independents—who believe in sound government, and are militant for the rights and liberties guaranteed by the United States Constitution. Fred G. Clark, commander-in-chief of The Crusaders, states the purpose of the organization in the "excitatoria" as follows: "To preserve, protect and defend the Constitution of the United States and a truly representative form of Government. "To fight vigorously any attempts to have the majority of Americans ruled by organized minorities seeking special advantages. "To oppose any violation or distortion of the Constitution to achieve various objectives in our governmental, economic and social systems. "To resist any so-called 'plan-

SOCIETY

With the Churches

Baptist met for Bible study and work this week. Circle one had a Bible lesson with Mrs. Lawrence Green as hostess on Wednesday afternoon. Circle two quilted at Mrs. E. B. Thomas' home Tuesday. Circle three had a Bible lesson with Mrs. Will Adams as hostess, Tuesday, and Circle five met with Mother Green in a Bible lesson also.

Ten ladies met at the church of Christ Monday afternoon at 4:30 for Bible study. Mrs. R. L. Bowers led a lesson from 18th chapter of Acts. The ladies voted to meet at 4:30 every Monday during the summer months.

Mrs. Judson Cook led a Bible lesson from 3 and 4 chapters of Gen. Tuesday when ten members of the Methodist Missionary Society met at the church.

The twelve day Daily Vacation Bible School closed Monday night at the Methodist church where some forty children put on a program. Their work done during the school was on display. Ice cream was served to the children Monday afternoon.

T. E. L. CLASS

Last Thurs. afternoon, Mrs. J. M. Hale was hostess to the T. E. L. Sunday School class in a social and business meeting. The following officers were elected: Mrs. Hale, teacher; Mrs. W. H. Collins, Pres.; 1st Vice, Mrs. Jenkins; 2nd Vice, Mrs. McBurnett; 3rd Vice, Mrs. Flache, Mrs. Daugherty Sec. Treas. Punch and cookies were served.

The G. A. girls met at Mrs. Hale's Monday and had a Bible study. There were nine present. Cookies and punch were served.

Last Tuesday quite a number of members of the Brownfield Baptist church attended an all day Workers Meeting at New Home.

Mrs. J. Hayden Griffin was hostess to the Priscilla Needle Club Wednesday of last week. Ice cream and cake was served to the ten ladies present.

Mrs. Oia Wall was called to Kilgore last week to see her daughter who was quite ill.

Mrs. E. V. Adams left Wednesday to make her home near Ruidoso, New Mexico.

MR. AND MRS. LAWLIS ENTERTAIN CLUB

"Our Night Out" Club enjoyed a party last Friday evening with Mr. and Mrs. Paul Lawlis. Those playing bridge were Messrs. and Mesdames Joe J. McGowan, Clarence Hudgens, Dick McDuffie, Lee O. Allen, Herman Heath, Roy Ballard, R. L. Bowers, Dube Pyeatt, Mon Telford, Dr. and Mrs. E. C. Davis, Dr. and Mrs. M. E. Jacobson, Ralph Carter, Vernon Lundstrum and Mrs. Mary Enderson. Refreshments were congealed salad, rolled cheese sandwiches, potato chips, fudge squares and iced tea. Mrs. Enderson and Roy Ballard scored high and received twin vases and a tie.

Mrs. Leo Holmes' mother from Paris, Texas is visiting her this week.

Mr. Leo Holmes' mother from Seminole visited her son and family latter part of last week.

Mr. and Mrs. Horace Rambo had as their guests Sunday Mr. and Mrs. F. C. Bailey and family from Levelland and Mr. and Mrs. Bari Hahn and family from Seagraves.

Mrs. Clyde Briley and son, Clyde Jr., came in from the ranch and spent a few days latter part of last week with Mr. and Mrs. Tilson.

Mrs. M. E. Jacobson and little son, Jackie, left Sunday for Lysburg, Kans. to visit her parents for several weeks. Dr. Jacobson and Miss Althea Lundstrum, sister of Mrs. Jacobson's will join her later, and together will all go to the Worlds Fair.

MRS. EARL JONES HOSTESS

Mrs. Earl Jones was hostess to the Kolonial Kard Klub last Friday afternoon. Ladies in play were Mesdames Daniels, Akers, D. Lewis, Telford, James H. Dallas, Allen, Roy and Frank Ballard Lewis, McDuffie, Clayton, Daugherty, Collins, Self, Heath, Herod, A. Swyer, W. C. and Cecil Smith, Parish, and Day. Prizes were decks of cards and went to Mrs. McDuffie and Mrs. Dallas as guest and club high. Colors of red, white and blue were carried out in the brick ice cream, cake and punch, also in the table decorations.

SHOWER FOR RECENT BRIDE

Mesdames Lolan Flippin and Glen Webber, Misses Bess Thompson and Lena Mae Ballard honored Mrs. Red Wood with a miscellaneous shower at the home of Mr. and Mrs. Dalton Lewis last Thursday afternoon. Before her recent marriage Mrs. Wood was Miss Lataine Eicke. She received many useful and pretty gifts from friends wishing her every happiness. Punch and cakes was served.

"THE JOLLYETTES"

On Tuesday, June 19, a number of girls in the teen age met at the home of Ruby Nell Smith and organized a club—"The Jollyettes." They elected officers, chose their motto—"To be jolly while learning;" their flower, white rose, their colors, green and white. They chose Mrs. A. A. Sawyer as their club mother. The charter members are Misses Queenelle Sawyer, Virginia May, Ruby Nell Smith, Elray Lewis, Iris Lewis, Mattie Jo Gracy, Lucille Harris and Margene Griffin.

There was one special guest, Miss Maurine Hensley of Jacksboro, who will be in town several weeks. The members are expecting to have a good time in this club. Two of the members Lucille Harris and Margene Griffin were unable to attend. Their next meeting will be at the home of Mattie Jo Gracy. —Reporter.

On Tuesday, June 26, the "Jollyettes" met at the home of Mattie Jo Gracy. After the program, they discussed a social to be given in the following week. Delicious fudge and pop corn was served to Misses Queenelle Sawyer, Virginia May, Maurine Hensley, Ruby Nell Smith, El Ray Lewis, Iris Lewis, Lucille Harris and the hostess.

PRESBYTERIAN SERVICES

The Presbyterian congregation are especially fortunate in having secured speakers for the morning services through the summer months. Mr. M. L. Penn, Mr. W. A. Tittle and Rev. Richards have been greatly appreciated and for Sunday, June 8th, Mr. Jack D. Wester, principal of the Brownfield High School, will address the congregation on "The Challenge to the Christian." They invite you to hear him. Some of Brownfield's best singers will also bring a message in song.

Mrs. M. Marguerite, of Glendale, Ariz., came in Sunday and will spend two weeks here with his parents, Mr. and Mrs. W. C. Smith and other relatives. Mumford is assistant city clerk of that city, and official water meter reader.

Sub-Irrigation Makes the Difference

Tomatoes growing in a garden row sub-irrigated with home-made concrete tile are 40 inches tall at the home of Lee Brown, Harpersville Community, Stephens county, Texas. Tomato vines in nearby rows decrease in size the farther removed they are from the sub-irrigated row. This is one of 10 such demonstrations in the county in co-operation with Miss Mamie Pryor, home demonstration agent, who says it costs one cent per foot to make the tile. (Texas News Photos.)

Firestone Shows Plantations at World's Fair

Few Americans, indeed, have seen rubber growing—that is why the Firestone Plantations, a new feature of the Firestone Factory and Exhibition Building, is attracting so much interest at the World's Fair this summer. Actual trees were brought from the Firestone Plantations in Liberia, Africa. The liquid rubber is seen flowing from the trees. All of the steps in gathering rubber are shown and explained—tapping, the preparation mill, coagulation into solid rubber, sheeting, smoking, drying, and baling. To make it more realistic a native village is shown in the background. Firestone this year has many new valuable and interesting exhibits, including the complete manufacture of the new Air Bell low tires, which are turned out at the rate of 70 per day.

Forrester Items

The people of this community sure would appreciate a good rain. Crops are looking very well to be so dry, however.

The candidate speaking and pie supper was well attended Monday night.

Rev. A. D. More will fill his regular appointment here Sunday and Sunday night.

A Singing School is being taught here by Mr. Clyde Burlison and Mr. M. M. Meek. Beginning Monday afternoon will continue 10 days. Everyone is invited to come.

Several from this community attended the all day singing at Wellman last Sunday.

Mr. and Mrs. Smith and Mrs. McBroom and children visited Mr. and Mrs. John Smith of Wellman Sunday.

Randolph Rutherford got in last week from Detroit, where he went to get a new Plymouth car for his sister, Miss Marie. Miss Rutherford is teaching at Littlefield, and is at the present taking a summer course at Tech college.

G. W. Chisholm and family were Abilene visitors Sunday to see their daughter and sister, Miss Bessie, who is attending summer school at A. C. C.

CRIME DOESN'T PAY

Sentenced to Die

Pictured here is Joe Palmer who was assessed the death penalty at Anderson, Texas, when a jury convicted him of the murder of Major Crowson, Eastham prison farm guard, in the sensational break last July 16. This was the break staged by Clyde Barrow and Raymond Hamilton. Palmer's jury deliberated only 20 minutes. Palmer only smiled when the verdict was read. (Texas News Photos.)

Champion Typist

Pictured here is Miss Mary Burger of Abilene, Texas, holding the trophy she won when she typed 85 words per minute to gain the title of Champion Amateur Typist of the World at a contest at the Century of Progress in Chicago. Miss Burger set a new world's record, the former record being 76 words per minute. She also holds the championship of the Texas Interscholastic League, won in Austin with a record of 84 words per minute. She entered her first typing class in high school in September, 1933. Trucks For Hire Must Show the Code Insignia

AUSTIN, June 30.—National Code Authority at Washington has notified the Texas code authority to certify to them all truck operators for hire who fail to register under the trucking code during this week, according to Col. Harry Stewart, chairman of the Texas authority today. After June 13 the full penalties of the National Recovery Act will apply to any operator of a truck for hire whose truck is not equipped with the insignia of the trucking code furnished only to those who register. "The National Recovery Administration estimated at the time the trucking code was approved that it was capable of absorbing 11 per cent of the unemployment expected under the entire national recovery program," said Col. Stewart, "except in those states where restrictive tonnage laws tend to prevent the normal use of this transportation agency." "According to Mr. Ted Rodgers, Chairman of the national code authority, who was in Dallas on a tour of some of the principal cities of the country," continued Col. Stewart, "it is evident that the administrator for national recovery is determined to enforce the trucking code. It is the biggest code of all in its potential employment."

Three places in west Texas voted down 3.2 beer last week-end and three voted it in. The dry places are O'Brien in Haskell county; Clyde in Calahan county and the city of Abilene, the later by only 35 votes out of near 3000. The wet places are Putnam and Cross Plains in Calahan county, and Memphis, county seat of Hall county.

A. and M. Man Makes Major Discovery

A discovery that may prove of major medical importance has been effected by Fred Hale of Texas A. and M. college, College Station, Texas. Working with hogs, Hale finds that deficiencies in Vitamin A in the diet of the mother causes eye defects, rather than heredity, as was previously thought. Pictured above is a pig born without eyeballs after the mother sow was fed a ration devoid of Vitamin A. Thirty-five pigs from three litters have thus far been produced under these conditions. All showed eye defects and also the absence of one or both kidneys in some instances. This discovery may have an important bearing on human prenatal care.
