NO. 49.

Some of Hunter's Oil Experiences

In addition to his law practice in the last fifteen years, Hunter has also been interested in oil development as an independent operator. As in his other ventures, Hunter worked hard when he turned to the oil game and knows all their is to know about drilling a well. He worked with his men and took his share of the tough jobs.

N. A. Thornton, boss driller, tells an interesting story about "the boss" as he calls Hunter. It has to do with the bringing in of a big well at Corsicana making 15,000 barrels of oil and 10 million cubic feet of gas under terrific pressure.

"The bailers was resting on the bottom of the well for the last time down, Thornton relates, when things began to happen. The bailer line began shooting up out of the hole, typing itself into loops and whipping around as it came up. The rough necks and others of the crew left for parts unknown, and in quite a hurry. The driller, a man named Erwin, and Judge Hunter were the only two left on the scene. Erwin stuck to his post trying to spool up the line as it came out, while the Judge crawled under the Christmas tree, under the derrick floor to handle the valves when the oil they knew was coming arrived at that point. Erwin got his job done, scared to death that the spouting gas and oil would be ignited from the rotary rig's boiler only a short distance away and then crawled down to where the Judge was manipluating the valves.

"Erwin tried to get the Judge to leave, told him there wasn't any use for both of them to risk their lives. But the Judge never asked any of his men to go where he wouldn't go so he stuck and the two of them got the well under control."

And any oil man can tell you that Hunter and Erwin were shaking hands with sudden death had a single whiff of the gas come into contact with a spark of fire.

Another sidelight in Hunter in connection with his oilfield experience is told by John N. Scott, of Decatur, who owned a lease in partnership with Hunter in a wildcat test.

Hunter took the contract to drill the well and ran into complications that resulted in a cost to him of three times the contract price agreed upon. What seemed to be a good showing of oil was found at just the time when Hunter was in dire financial distress.

But let the rest of the story come from Scott's lips:

"As a result of this oil showing, trading got brisk, and we were about to close some good contracts for acreage which would have taken Hunter out of financial trouble. Before the lease contracts were closed, however, Hunter and his crew pushed on through the sand and discovered that the well would not deliver. Hunter came off the derrick floor to me and asked if I had any uncompleted transactions and when I told him I had he informed me not to close the deals.

"Don't take their money," Hunter told me, "because we haven't any oil in that hole."

And Scott never tires of telling the story when the subject of Hunter's integrity is broached.

SHOWERS

Light showers visit Terry county as well as some of the adjoining counties Tuesday night, and rained nearly a quarter of an inch, not enough to do but little good.

It was about like it was in town in most places heard from, but was reported to be heavier from Tokio to Plains.

CARD OF THANKS

We take this means of thanking our friends and neighbors for their love and sympathy in the loss of our darling wife and mother, Mrs. Minnie Lou Gaston. Their kind words of hope and love will ever dwell in our hearts a precious memory. Charlie Gaston and children.

Applications For Feed Loans Slowing Up

Applications for the Drouth Feed Loan are not nearly so numerous as they were for the first few days after it opened and this is probably caused by the fact that the supply of blanks became exhausted and many people may not be aware that a new supply has been received. Then again, many farmers may be of the opinion that they are not eligible, when as a matter of fact, most of them can qualify for it. And, while the writer does not take applications, except when the loan office becomes overcrowded, he does do the Notary work on all of them and has informed himself on the rules and regulations and if there is any farmer who is in doubt as to whether he is eligible for a loan or not, we would be glad to have him call at our office and we will undertake to give him the desired information.

We have had several inquiries concerning the territory covered by the different Justice of the Peace Precincts, and will advise that as to Precinct No. 2, that Meadow is the only voting box in it, and in Precinct No. 4, that Wellman, Willow Wells, Sawyer, Hunter, and West Forrester are the ones located in it. All other voting boxes are located in Precinct No. 1.

A temporary halt was called on construction of Highway 137, due to the fact that the necessary cash for the payment of labor and other expenses, had not been received by the county administrator, but it is expected that he will be placed in possession of the necessary funds within the next day or two and is hoping that no further delay will be encountered.

Some interest is being manifested in connection with the construction of Highway No. 84, but nothing will be done about it until additional right of way can be secured and this may take some time, as the county does not have any money which can be used for this purpose and property owners are just going to have to donate the 10¢ on each side that will be needed. We believe that we can get the highway commission to add to their program provided that we can get the right of way for them. A general meeting will probably be called within the next few days for the purpose of formulating plans for securing this construction and maybe we can put it over.

Commerce Hotel Will Be Reopened

Mrs. J. W. Sawyer of Plains has leased the Commerce Hotel from Dr. Webber, and for the past two weeks, she and her brother have put in many long hours in renovating the place, and now have it just about ready for opening. In fact, by the time this paper comes out they will be. Note their ad.

All the wood work is being repainted, the walls calcemined, the floors scrubbed until they are spotless. New mattresses and bedding have been put on the beds. Indeed it is a new place, and spotless throughout. There will be two apartments downstairs for those who wish light housekeeping, and one upstairs. There are five single rooms to rent.

Mrs. Sawyer and her brother seem to be well pleased with Brownfield, and are fixing up to make their living and some extra if possible, and become real citizens.

Hon. Gordon B. McGuire Here Last Week

District Judge, Gordon B. McGuire of Lamesa, was a visitor in our city last week, being here in the interest of his candidacy for re-election to the office he holds. Despite the fact that he has an opponent in this county, he has many friends and well wishers here, as all like him whether they intend supporting him or not.

He informed the Herald that it certainly was dry in Dawson, and qualified it by stating that it looked like a Sahara desert down there, and that added to the warm weather made it very uncomfortable. He stated that Terry county people should be very thankful for their prospects.

A new arrival on being ushered in through a door on the first floor exclaimed, "I positively won't have this room, it is entirely too small." "Get in, Ma'am," said the attendant, "this is the elevator."

Tomato Crop Brings Two Million Dollars to Valley

This Brownsville cannery pictured above is a typical example of the activity now prevalent at the nine Rio Grande Valley cannery plants now canning the Valley tomato crop. The tomato crop this year is expected to bring close to \$2,000,000 to the Valley.

Agricultural Notes

By R. C. Reed, County Agent

Assistant Agent
The Agricultural Adjustment Office has been named for Terry county. Mr. B. W. Chesser of Southland, Texas, has been appointed to this position. Mr. Chesser is a graduate of the school of Agriculture of Texas Technological College. He assumed his duties here three weeks ago and is demonstrating his ability to serve efficiently in this capacity.

Terry County Farm Association
The organization of the Terry County Farm Association has been completed. This organization consists of three dirt farmers from each rural school district. These committeemen were elected by a vote of the people at meetings held in each school district. These committeemen from each district met and elected from their group the following executive committee: President, B. L. Thompson; Vice-president, W. G. McDonald; Secretary, J. T. Pippin; Representative from Precinct 1, W. A. Brock; Rep. from Precinct 2, J. L. Millap; Precinct 3, W. R. Tilson; Representative 4, L. D. Hamm.

All Agricultural work for the county will be handled through this organization. A meeting was held on July 11 and plans were laid for work to be carried out by the organization. It was voted to carry out the following projects:

The administration of the Bankhead Bill, the measurement of cotton retired land, and the appointment of a county cotton committee.

The Cotton Reduction Program
The Cotton Reduction Contracts were adjusted in line as requested by the State Cotton Board of Review. This work was done by the rural committeemen of the Terry County Farm Association. The final figures have been accepted by the State Board and contracts have gone to Washington for payment.

Corn-Hog Program
The Terry County Corn-Hog Control Association received notice from the State Corn-Hog Review Board that the Terry County Corn-Hog Contracts have been accepted. The final copies of these contracts will be completed in a few days at which time it will be necessary for the producer and the landlord to sign them.

The Emergency Cattle Buying Program
The government cattle-buying program started in this county on Thursday July 12. The second day approximately four hundred cattle were bought and about one half of them were condemned and killed. Five thousand cattle have been signed up by the farmers in this county to date. It is estimated that six thousand cattle will be bought under this program.

The prices paid are as follows: Over two years of age, twelve to twenty dollars, one to two years of age, ten to fifteen dollars; under one year of age, four to thirteen dollars. Farmers wishing to sell cattle should apply to W. A. Bell, Secretary of the Cattle Buying Program located at the Farmer's Cream Station.

Cotton Tagger
The official cotton tagger for Terry county received his appointment last week. This appointment was made to W. R. Tilson. His duty will be to see that every old bale of cotton in this county is tagged. Approximately four thousand bales of this cotton still remains within this county.

Mrs. J. D. McGee and children of Dallas, are here this week visiting her parents, Mr. and Mrs. J. H. McLeod and family.

According to law, all school transfers must be made before the first day of August. Those considering transferring to high schools of the county, should do so at once.

We Look at Some Crops Sunday P. M.

Some of the Herald folks took a spin Sunday afternoon down the Seagraves road and back across by Gomez and thence home, and found that in most cases the crops were growing nicely, although they showed that some more moisture was to be expected in a few days or they would begin deteriorating.

This was especially true of fields that have not been cleaned. And there are so many standing in weeds which are the ban of crops in dry weather. We fear that many of our farmers are staying too much in town trying to get a dole or a job on public work rather than try to clean their crops which will pay them best in the long run.

Out in the Gomez section, we saw the best crops, for they have had two heavy rains in the past few weeks, and water is still standing in the lakes and bar pits. If the farmers will clean these crops of weeds, they will make a lot of stuff yet with favorable weather conditions from now on.

Year before last when there was so much rain, was the year that weeds got such a start in the fields. That year, weeds were cut down by the go-devil knives only to have another rain on them and start them growing again before they died. One of the great troubles with Terry county farmers is that most of them are badly over cropped.

Absentee Voting Under Way Here

Before turning the Terry county ballots over to County Chairman, R. M. Kendrick last week, the Herald delivered to Rex Headstream, county clerk, 50 ballots to be used by voters who expected to be out of the county on July 28th.

Tuesday of this week, some of the office help of Mr. Headstream came over for more ballots, thinking they were still at the Herald office. This shows that there will be a lot of Terry county people away from home when the big day arrives.

The furthest from home any of the tickets will go, according to Mr. Headstream, will be New York City. We noted that Abilene was sending some ballots as far away as London, England.

Sacred Harp Singers To Gomez Sunday

We have been requested to announce that the South Plains Sacred Harp Singers will meet at Gomez Sunday for an all day singing, according to H. M. McEachern, chairman. Dinner will be served at the noon hour.

All Sacred Harp singers are requested to come and bring their books.

Co-Ops Have Office At Hardware Store

Mr. Foster, in charge of the Texas Cotton Co-operative Association here has secured desk room at the Holgate-Enderson Hardware, and can now be found there by the farmers. He stated that heretofore it was hard for the farmers to find him as he had no office.

Bill Collins came down from Lubbock Wednesday and spent the day with his parents, Mr. and Mrs. W. H. Collins.

A Milling Mob of Buyers Here Saturday

No one had to ask the merchants if they had a good day Saturday, Prima facie evidence was only too clear that they did have a great day, for their stores were full of people, and others were coming out with bundles and packages, and market baskets full of food. Others still were going in to be waited on. The sidewalks were jammed in the business section from wall to curb.

However, just to test them, we asked several how the day went with them. All reported a great day, and that they and their clerks were tired out, and ready to go home and to bed as soon as the doors were closed Saturday night. Many reported the best day they have had in several months. Many people from adjoining counties were noticed, and the out of county cars parked backed this up.

Brownfield is fast becoming a favorite trade center for a great and growing section of the South Plains. Many of the business men are giving some good prices through the Herald to induce this trade to come here. A few of the merchants don't advertise for the reason they don't like the editor or other causes.

Even if we did not like a fellow personally, if he had something to sell that we needed and would help our business, we would buy it. Not because we like the guy, but because it would help us.

Lamesa Chamber of C. Secretary Here Sat.

William A. Wilson, secretary of the Chamber of Commerce of Lamesa, accompanied by Mr. Lewis Eager of that city, were in our city last Saturday, and the former was a pleasant caller at the Herald office, being here in the interest of Hon. Arthur P. Duggan, of Littlefield, who is making the race for Congress from the new 19th district.

Despite the fact that Dawson county has a great drouth on and failed on their cotton last year, he remarked that they were still optimistic, and felt that rain would still come in time to make a feed crop. Mr. Wilson is a hail fellow, well met, and seems to be well liked by the people of his home city, and they keep putting him back on the job.

List of County Court Jurors For August

Drawn for the first week of the August term, 1934, to appear at the courthouse at Brownfield, August 7, L. Baker, Sam Branch, O. J. Bonham, E. R. Norton, L. L. Blackstock, A. T. Fowler, W. B. Benton, Frank Ballard, Frank Condra, Will Hight, Tom Cobb, Brit Clare, J. A. Bass, W. F. Banks, J. E. Gracey, A. Z. Couch, M. J. Craig, T. L. Causseaux.

DEATHS
Mrs. Charlie Gaston, aged 29, died last Thursday following a brief illness, and was buried Friday in the Brownfield cemetery, following funeral services at the Church of Christ conducted by A. L. Burnett.

Mrs. Gaston leaves a husband, four children and other relatives to mourn her departure.

All Emergency Work Stopped Here Monday

All emergency work of every nature, whether it was building outdoor sanitary closets, or work on the highways, was suddenly closed here Monday afternoon at the quitting time. The order from Austin seemed to have come without warning, except that it seems to have been expected just a few hours before the order came by wire.

No reason except a lack of funds, was given, that we heard of and at this time we have not heard that it was stopped anywhere else in the state. In fact, we learn that it is still going on in Yoakum county, and the dailies said nothing about it stopping anywhere else.

This is very unfortunate, as many families were depending on this work for bread and meat, not to mention clothing, and especially those in the dry belt of last year. Othrs had gone to great expense equipping trucks to haul caliche. Some went so far as to buy new trucks with the expectation of paying for them partially at least with this work.

We hope that within a few days everything will be straightened out, and these men put back to work.

South Plains Cattle Purchases Ordered

LUBBOCK, Texas, July 12.—Instructions for buying several thousand head of South Plains cattle by the government as a drouth relief measure were given to 200 South Plains county administrators, agents, cattlemen, farmers, and others here Thursday. O. G. Tomlinson, district agent, presided at the session and principal speakers included: Dr. H. L. Darby, Fort Worth, United States Bureau of Animal Industry, G. W. Barnes, College Station, in charge of the program in Texas, and C. B. Braun, Austin, assistant director of State relief work.

Actual buying will start in seven counties Saturday and in five Monday, it was announced. Purchases will be made in the following counties: Dawson, Crosby, Hockley, Lubbock, Borden, Yoakum, Terry, Lynn, Kent, Gaines, Scurry and Garza.

Cotton Prices Receive Boost

NEW ORLEANS, July 13.—The price of cotton went above 13 cents per pound today for the second time this week and touched high levels not reached since 1930.

The October option here traded up to 13.09, and December to 13.24, both 32 points above the close of yesterday, representing an increase of \$1.60 per bale.

Spot cotton closed 25 points higher with middling selling at 13.02 cents per pound.

Continued drouth in the west, unfavorable crop reports from Texas and Oklahoma and a scarcity of contracts to meet the good demand contributed to the upturn.

Today's gain brought the advance for the week to more than \$4.00 per bale.

Quante Says Gold too Shy on His Claim

Chris Quante and family have returned from their mineral claim in Arizona, and showed the Herald many of the specimen of gold bearing rocks taken from the surface, which he says essay some \$6.50 per ton, but he is 22 miles from a railroad town over the roughest mountain roads one most ever saw. He says that if he was able to put in a stamping mill on the claim, he could make something out of it. Statistics show, however, that more money is spent in prospecting for gold than is ever made from it.

He reports that cows by the hundreds and thousands are starving for water. Many of the small cattlemen have driven their cattle to the rivers, he says, and now the rivers are drying up. Cottonwood branches are being cut off to feed the cattle, and they are following around after their owners like hungry dogs. Some of the cattle have tried to eat cactus, and their noses and mouths are full of thorns.

"It is utterly impossible to keep up with the things that happen in Washington."—Frank R. Kent, political commentator, The Baltimore Sun.

Terrell Name On The Ticket Again

The News is this week printing the official ballot.

All of our readers who are voters should take this ballot and study it. Find out what you can about the various candidates, so that you may be prepared to vote with reasonable intelligence when you go to the polls.

There is one name that we wish to call particular attention to at this time. That is the name of George B. Terrell, a candidate for state treasurer. This is a political fraud. His name was in reality George Baker until a few months ago. Obviously for political reasons he filed a petition in one of the district courts of Dallas county asking that his name be changed to George Baker Terrell. His request was granted and the name was legally changed. Then he announced as a candidate for state treasurer and filed his name as George B. Terrell, evidently believing that the name Terrell would attract many votes. We know nothing whatever about this man Baker (Terrell) further than as stated above but we do know that any man who would undertake to perpetrate a political fraud like this is not fit to serve in any public capacity.

The real George B. Terrell was for a long time commissioner of agriculture and is now serving as congressman at large. He will retire at the end of his present term. He is not a candidate for any office. His home is at Alto in Cherokee county. —Tahoka News.

Atty. General Rules Negroes Cannot Vote

DALLAS, July 12.—Negroes are not entitled to vote in coming Democratic primaries, according to an opinion handed down by Attorney General James V. Alford here today. Alford said the opinion was addressed to D. B. Woods, county attorney of Williamson county, but also answered queries on this issue from numerous election officials and others over the state.

Based on Resolution
The attorney general's decision was based upon a resolution adopted at the state convention of the Democratic party in Houston May 24, 1932, reading as follows:

"Be it resolved that all white citizens of the state of Texas who are qualified to vote under the constitution and laws of the state shall be eligible to membership in the Democratic party and as such be entitled to participate in its deliberations."

This resolution in effect limited the right to participate in Democratic primaries to whites, and consequently excluded negroes.

Chevrolet Sales Best Since June of 1929

Detroit, July 12.—Chevrolet's record breaking sales continued their advance in June, shattering all monthly sales records since May, 1931, and achieving the highest June total since 1929, officials of the Chevrolet Motor Co. announced today. Retail sales for the month, as compiled from dealer's reports, were the basis of the announcement.

The showing is considered especially notable in light of experts' predictions that automotive volume in general would fall off some 12 per cent during June. Instead of recording, Chevrolet sales showed a gain of more than 12 per cent. Dealers credit Chevrolet's new low prices, which took effect June 2, with upsetting the prediction so far as Chevrolet is concerned, and paving the way for this substantial increase.

South Plains Dealers Form Tire-Bat. Assn

Lubbock, Texas, July 18.—Thirty-five dealers from eleven South Plains towns met in Lubbock July 12 to form the South Plains Tire and Battery Trade association with L. E. Grimes, Lubbock, President; Deple Jordan, Plainview, vice-president; and A. B. Davis, Lubbock, Secretary.

Directors: Grimes, Jordan, Dan Ford, Ralls; E. G. Thompson, Abilene; O. D. Kinney, Slaton; L. E. Mabe, Levelland; E. H. McKinney, Lubbock; M. B. McClain, Lubbock; and Shelley Shook, Plainview. The association has applied for permit to operate under the code fair competition. When the permit is issued, a board of control will be appointed.

E. G. Senter of Dallas, chairman of the Independents, whatever they are, writes in to say that he believes that every candidate for the legislature should be asked the direct question, "are you now in the employ of a utility concern, and would you accept fees from them while a member of that body?" And while we are about the matter, should not the candidates for congress and the U. S. Senate be asked the same question?

We are not specially spiteful toward the dailies this week, but they can make mistakes the same as weeklies. The society page in the Star-Telegram last Sunday told us that one of their lady citizens had spent the last four Fourth of July's in foreign countries as follows: 1931 in London; 1932 in Germany; 1933 in Wyoming; and this year in Mexico City. Until we read that, we always thought that the Stars and Stripes flew over Wyoming.

The Texas dailies give us the score and standing of the standing of the Pacific Coast league, but little about the Southern Association. The Dallas News is the only daily we get that gives the scores and standing of the latter. Wonder if any of the other dailies ever figured how many of their readers were raised in the section covered by the Southern league compared to the number that were raised on the Pacific coast.

A citizen from another county was here a few Saturdays ago and was heard to remark that more pretty country girls came to Brownfield than any place he ever saw. Asked how he knew they were country girls, as town and country girls dress alike these days. Well, he says, I know that Brownfield is not big enough to have as many girls as I see here any Saturday. The man is right; sit out some Saturday in your car next to the sidewalk; the parade of queenly girls you'll see.

Chinese bandits came down out of the hills of China and sacked a small village and killed four hundred people last Saturday. Why the attack on one knows. The daily press only carried a small notice about this wholesale slaughter of innocent Chinese. Hitler of Germany snuffed out the lives of about sixty people and the papers carried great stories about it. Had it spread all over the front page, etc. Why the difference? We can tell you, the munition manufacturers are trying their best to stir up trouble in Europe so they can peddle their wares. They would not get much business out of China in case of a small war. But when a little trouble starts in Europe they dance with glee.—Lockney Beacon.

Candidate Speaking

There will be a candidate speaking Monday night, July 23, at 8 o'clock under the tabernacle. A pie supper will be given by the Legion Auxiliary. There will be plenty of music and lots of fun. A prize will be given for the prettiest girl in Terry county. Everybody come and bring a pie and pick out your candidate.

DISEASED CATTLE ARE TO BE SLAUGHTERED

The government has appropriated \$3,000,000 to purchase for slaughter all cattle found to have tuberculosis or Bangs disease.

This appropriation is entirely separate from the \$50,000,000 appropriation to buy cattle in the drought area.

"Mamma, if Father should die would he go to Heaven?"
"Hush! Harold," replied his mother. "Whatever put such a ridiculous idea as that into your head?"

The Lovington (N. M.) Leader says that the FERA has used a crew of men in that country to kill thousands of raven and destroy hundreds of eggs, but failed to give the method used.

At least, Hitler can brag that he was praised by his own press for shooting 'em down, and now we have our own Gen. Hugh S. Johnson rushing across the continent to see the fight between troops and strikers, and very few American papers have the nerve to criticize our general boss.

Well, at least Brownwood can say they acted the part if they do not believe in the saying of Methodists that they "believe in full measure, heaped up and running over." Probably Brownwood would not have been so extravagant and free hearted with the South Texas rice growers if they had kept the hinges on their water gate oiled a bit.

The new chairman of the National Republican party should be booted across the continent for criticizing the Democrats for lack of patronage for Republicans, when there are hundreds of hungry Democrats still looking through the cracks at Republicans who are still at the pie counter and after eighteen months of New Deal rule. Have the Republicans outdealed us?

HELPING THEMSELVES

One thing that has made the past four years seem hard to some Big Spring people if they've forgotten how to help themselves. No doubt they were hit hard. But in many instances instead of starting right in to help themselves they spent their time wondering how they could go about getting the state or the government to help them out.

Those sturdy old pioneers who settled this country were not "leaners." They knew how to help themselves. In their day there were no roads, modern houses or barns; no fast transportation; money was very scarce. When they needed water to make crops grow they dug irrigation ditches and built their own dams. They didn't wait for the government to do it for them. As a result many of us are now enjoying blessings that came through the ability of those pioneers to help themselves.

The ones who are now emerging from the economic slump are those who pitched right in and began finding ways and means for helping themselves. The depression will never end for those who refuse to help themselves but who figure that the government or the state will keep right on doling out free relief forever. We are faced today with conditions that call for more of the pioneer spirit. We must not become so helpless that when a cloud appears in the sky we will be content to sit down and wait for the government to drive it away. Help yourself—and you can get out of any hole you get into.—Big Spring News.

BETTER MORALS FOR THE CANDIDATES

If we are to judge from the statements from some of the candidates, we might infer that one of the surest highroads to standards of high morality is the political arena.

For instance, it is asserted that Senator Clint Small voted for the race-track gambling law, which he now denies, and which he now declares is one of the great enemies to public morals in Texas. Here a few weeks ago, Senator Small assured us the three great results of the past legislature were: The beer-control law, pari-mutuel horse-race betting,

and legalized prize-fighting.

Now he jumps with all four feet on the race-track gambling law, and logically he will likely come to the conclusion that the other two consorts in liberalizing conduct, should also be repealed. So far, that high-priest of race-track betting, Amon Carter of the Fort Worth Star-Telegram, has not withdrawn his support from Clint nor taken issue with him, so it is assumed that everything is pretty well understood.

All in all, it looks as if it might be "Deacon" Clint Small—if the race lasts long enough.—Clarendon News.

Although hope may often have cheated us yet we never lose faith in its promises.

Woman's sphere nowadays seems to be the big round earth.

Battlefields demand less courage than daily life.

Some Real Terry Corn and Peas On Market

Clarence Hudgens, local grocer called our attention to some real roasting ears and "speckleyed" peas at their store last Friday, and from their very greenness one could tell that they had not been shipped in. It ought not to be long now until those highly flavored cornfield beans come in.

Corn, peas, beans and melons that are shipped in are generally inferior in both looks and flavor to the genuine Terry county product. The same may be said of tomatoes. Beans are generally gathered too ripe, and tomatoes too green, and when they are cooked or sliced as the case may be, taste more like a stalk of some kind than food.

We had a mess of corn the other day that came right out of a Terry county field—and were they good.

Mr. and Mrs. Joe J. McGowan and Bill returned Saturday from a short vacation at Colorado Springs, Colo.

Poison, Luxury, Necessity—the Tomato Evolves In Its Century of Edible Existence

HOW the tomato has evolved! Not so long ago it was regarded as poison, and judging by its original name, "love apple", apparently a most insidious one. Then it became a luxury. Now the tomato enters into more dishes served on the American table than does any other fruit or vegetable.

No longer a luxury, it has come by way of being an institution. So much so, indeed, that a national festival is being held this year to honor the tomato, on the one hundredth anniversary of the discovery that tomatoes are good to eat. In Texas, where much of the crop is grown, Governor Miriam Ferguson this month proclaimed a state-wide celebration and made public some of her favorite recipes calling for the use of tomatoes.

A great mineral source, providing phosphorus, calcium and iron, tomatoes are also exceptionally high in vitamin content. They contain vitamins A, B and C, with the last named in abundance.

For children, tomato juice is now recommended at any age over three months, but for adults probably the most familiar way of eating the tomato is in salads, with mayonnaise. If you fancy the tomato, perhaps you would like the special salad dedicated to Governor Ferguson.

Ma Ferguson Salad

- 6 medium tomatoes, peeled
- 1/2 teaspoon salt
- 2 tablespoons double-whipped mayonnaise
- 4 tablespoons celery, diced
- 5 tablespoons cucumber, finely diced
- 18 canned asparagus tips

Cut off thin slice from stem-end of each tomato and remove seeds and part of pulp. Salt inside of tomatoes, invert, and chill 30 minutes. Blend mayonnaise, celery, and cucumber. Fill mixture in tomatoes. Place 3 asparagus tips (and marinated) around each on crisp lettuce. Serve with special mayonnaise and garnish with green pepper rings.

Tech to Conduct A Coaching School

LUBBOCK, Texas, July 17.—Half a thousand athletic coaches, college, university, high school, and unemployed, some of them gray from the cares of years of coaching—many of them with less experience will swarm into Lubbock, July 30, for the 4th Texas Tech Coaching school, July 30-August 11.

There will be no rest for these coaches. After classes from 8 a. m. to 6 p. m., there will be golf tournaments, swimming banquets, dances, watermelon feasts, barbecues and other entertainment with plenty of events for the visiting wives.

The teaching staff, handling everything from football to interscholastic league work, is characterized by Tech coach Pete Cawthon as "the greatest ever assembled in on state."

For football instruction there will be Harry Kipke, Michigan, with his "pass-punt and prayer"; Noble Kizer, Purdue, with an intricate Notre Dame shift; Lome Star Dietz, with his high scoring record with the Boston Red Skin professionals; Fritz Crierler, fresh from an undefeated 1933 season at Princeton; Harry Newman, New York Giants professional, famous for smart quarterback play; and Rip Miller, Navy, outstanding line coach.

Jumping to the basketball field there is George Keogan, and Ed M. Krause, of the Notre Dame fast breaking team. Then too, Indian Schulte, Nebraska,

ka, will offer track; D. M. Bullock, Illinois, taping injuries, training; Berry Whitaker, Texas, physical education; D. Ludlow, Oklahoma A. & M., boxing; Roy Henderson, Texas, interscholastic league work.

RED GOOSE—THE OJIBWA INDIAN BOY

An Indian Story for Boys and Girls
By Carlisle Emery

The Blackfeet Indians are holding a victory dance to celebrate their stealing of the Ojibwa horses. Red

Eagle, Red Goose, and Little Beaver hidden in the bushes, are watching them, when suddenly a Blackfeet guard starts riding directly toward the spot where they are hiding . . . Now go on with the story—

Sure enough, a big Blackfeet guard who had been ordered by his chief to watch the horses, was slowly but surely riding straight toward the bushes where Red Eagle, Red Goose,

and Little Beaver were hiding. "Let him come close, my son," whispered Red Eagle. "Then work fast. He must make no noise." Red Goose crouched low down, ready to spring at the signal of his father. He kept his eyes glued on the big Blackfeet brave, who was looking around carefully first to the right and then to the left.

"He doesn't see us," murmured Red Eagle, between shut lips. "When I touch shoulder, Red Goose, you jump and strike fast with big rock." "I am ready," assured the boy quietly.

And now they could hear the guard talking to himself. "All other dance, eat, have good time," he said. "Tell me keep watch—they not watch. I not watch. I go back and dance, too."

At that instant, Red Eagle touched the shoulder of his son and said

"now!" Like an arrow shot from the bow, Red Goose sprang from the bushes and leaped on the back of the guards horse. Twisting his left arm around the neck of the Blackfeet to shut off his wind, he pulled him off the horse and before a single cry could be raised, he had the warrior so bewildered, Red Eagle tied him hand and foot and without the slightest trouble.

"Good work, my son," chuckled the proud Ojibwa Chieftain. "Now we must work quickly. Little Beaver, hurry and gather brush, and get the brush ready to burn. You, too, Red Goose," he said, addressing his son. "Get brush and make many small piles."

Working swiftly and silently, the two children made over twenty small piles of dry brush, placing them in a line along the hillside about ten feet apart.

"My father is great chief," said Red Goose, as they finished making the last pile. "He know what to do."

"But what is he going to do with all this brush we have gathered?" asked Little Beaver.

"You wait, you see." Then returning to Red Eagle, his happy son announced, "Twenty piles ready, father—all along hillside."

"Hold blanket up high in front of me so Blackfeet won't see light." With this command, Red Eagle struck a light with his flint and lit a flaming torch.

NOISELESS BEER DRINKING IN "BLEEDING" KANSAS

It is oked to drink beer after midnight in Topeka, capital of bonedry Kansas, but drinking must be done without noise. Topeka police have agreed that there must be no music or other disturbing noises in beer gardens or restaurants after the hour of midnight.

A well trained beer drinker is a noiseless drinker. A whiskey drinker in the raw without training is said to be just the reverse. If the ghost of former Gov. John St. John could return to Kansas, his ghostship would be given a terrific shock. In days of old when St. John held the reins of the government and Carrie Nation wielded an ugly battle ax the twain agreed that intoxicating beverages should be used exclusively for the elimination of that dastardly enemy of the tiller of the soil known in the devil's workshop circles as "Johnson grass."

St. John is in his grave. Carrie Nation is sleeping the sleep of the mighty after a most spectacular career. Beer flows in the gardens and taverns of Topeka where John Barleycorn extends a glad hand to all comers—but beer-drinking must be noiseless, without the fascinating strains of music or the soul-singing of "Sweet Adeline." — Cleburne Times.

GOP CANDIDATE REFUSES TO RUN AGAINST NEGRO

Oklahoma City, July 7.—E. R. Hughes, republican member of the state corporation commission, who faces a run-off fight for renomination with a negro school teacher, conferred today with the party's state central committee and laid declared emphatically: "I'm not going to run against a negro."

He did not elaborate on the conference, but said he would issue a statement "at the proper time."

State election board tabulations disclose the situation, unique in Oklahoma. The negro is Frank A. Anderson, Okmulgee, holding second position in a field of four republicans. Hughes was first, but his vote total apparently was insufficient to avoid July 24 run-off.

HASCALL HEADS LIONS INTERNATIONAL CLUBS

Chicago, Ill.—The eighteenth annual convention of the International Association of Lions Clubs adjourned today at noon in Grand Rapids, Michigan, after a four day session. Vincent C. Hascall of Omaha, Nebraska, was elected president of the Association for the fiscal year 1934-35, succeeding Roderick Beddow of Birmingham, Alabama, and six new directors were elected to the International Board.

Vincent Hascall was elevated to the presidency from the position of first vice-president. He has a record in Lions Club work that extends back almost to the beginning of the Association. He was a charter member of the Omaha Lions Club which was chartered in 1920. Since that time he has attended every International convention. In 1926 he was elected district governor of the Lions Clubs in Iowa and Nebraska, and in 1927 was chosen chairman of the board of governors of the Association. When his term in this office expired in 1928 he was elected to the International Board of Directors where he served for three years. From the Board of Directors he was elevated to the third vice-presidency at the 1931 convention, which was held in Toronto, Canada. In succeeding years he was made second and first vice president, and at this convention was elected to the presidency, which is the highest office in the Association.

Mr. Hascall is by profession a lawyer, receiving his degree in law from the University of Nebraska in 1917. He was born in Ogden, Utah, in 1888.

F. H. Smith, a prominent citizen of Plains, died last Tuesday morning and was buried at 5:30 that afternoon in the Plains cemetery.

GEORGE MAHON
Mitchell County
Candidate for Congress

We do not need to tell you anything about George Mahon if you have met him. Those who know him have found him to be a plain hard working West Texan who has shown himself worthy of public trust. He is capable of ably representing us in Congress. Age 33. 26 years in the District. Serving fourth term as District Attorney. Let's elect him to Congress.

FRIENDS OF GEORGE MAHON
Blevins Tidwell of Quemado, Texas, was up the past week visiting relatives and boosting the valley.

Jail For Silence

Ollie Whatley, Fort Worth guitar player, was divorced from his wife. She held custody of their son, Robert Clifton. Mrs. Whatley married Ira Nelson and later died. The boy was declared dependent by the court and given to the custody of Nelson—until Whatley kidnaped the boy. A district court placed Whatley in jail; his stay being contingent on his telling the whereabouts of the boy. Whatley vowed he'd never tell, but a week's incarceration changed his plans. There the case hangs to date. Whatley is pictured above in the Dallas county jail. (Texas News Photos.)

Seeks Governorship

MAURY HUGHES
With the biennial governor's race drawing to a close, supporters of Maury Hughes are claiming that the former state Democratic chairman will go into the run-off with a big vote. Hughes has gotten much prestige from his active participation in national affairs. He will have made more than 160 speeches when the first primary day rolls around. Mr. Hughes first came into political prominence as the district attorney of Dallas county. He later became a member of the state Democratic executive committee and, in 1932, the chairman. Because of his party service, President Roosevelt chose him to be state NRA Advisory Board chairman. Raymond Moley, the president's adviser, recently gave Hughes a "pat on the back" in his magazine, "Today." Hughes claims he will lead the ticket in North and South Texas, and that he will get a big vote in East and West Texas. Friends have been active for him throughout the state. His old-age pension plan has given him much strength. He helped to write that plan for social reform into the Democratic platform at Chicago. Hughes advocates stricter law enforcement, with consolidation of state forces, more money for rural schools, to be taken from the highway fund if necessary, the right of labor to organize and bargain collectively, an "for any piece of constitutional legislation which will guarantee to the farmer the cost of production and a profit."

OUR 23 YEAR COLUMN

In our issue of July 21, 1911, we find that committees had been appointed to look after the big Old Soldiers Reunion that was to be held here August 12th. Mrs. Chas. P. Taft of Cincinnati, O., was said to own nearly a quarter of a million acres of land in the counties of Webb, La Salle and Demmitt counties in Texas.

Primrose: A good rain had fallen, lakes full, grass green, and some were eating roasting ears. The young people enjoyed a singing at Lee Walker's. The people of Meadow enjoyed an ice cream social. Mrs. A. L. Baker had moved to Lubbock. Miss Grace Cowan had returned from Lamesa where she had attended the normal. Henry Pulliam was doing a rushing cold drink business at Meadow.

Lence Price was a Gomez visitor. O. E. Adams was over from Gomez.

Geo. Tiernan had just returned from Dallas. L. L. Forrester was in from the farm. Judge Neill was keeping batch. Mrs. Kinard and family were spending a few days on the farm canning fruit. T. J. Price was sowing the courtyard in turnips. Judge Spencer had just finished his term of court at Crosbyton. Dick Jarrott of the Abernathy ranch was here on business. A. P. Sietz and sons, Vernon, were down from Lubbock. Ben Hurst and wife were down from Lubbock visiting relatives at Gomez. Tom May was a Lubbock visitor. John Williams was showing cotton two feet high. Roy Cardwell brought in an onion from their garden that measured 13 inches in circumference. Mrs. E. L. Duke was visiting in Meadow. Floyd Pycatt was down from Meadow. The local market was well supplied by home grown peaches and plums. Noah Bell was in from the Needmore community.

Jim Smith and daughter, Miss Lu- ra, attended the Odd Fellow associa-

tion. Messrs. McVickers and Eastham of Dawson county, attended the Odd Fellow association. Powell & Banowsky had traded their interest in the sheep business to Chas. Benton. Miss Eula Whisenant was here from Archer county to visit her uncle, Geo. E. Tiernan and family. Edwin Groves brought in plums that measured 5 1-2 inches in circumference. Tom May was preparing to restock the McAdams lumber yard. Mr. and Mrs. Ed Farmer and son of Purcell, Okla., were visiting the May home here. The Odd Fellow Association elected Percy Spencer, of this city, President, and Mrs. J. L. Randall, secretary-treasurer. The other officers were from Tahoka and Lubbock. Powell & Banowsky had stocked some pianos.

An Indian grave had been discovered on Sulphur Draw in Yoakum county. On our visit to Lubbock we noted that the 3 story Citizens National Bank, was to start, thousands of feet of 14 feet side walk-

Be Careful of Your Food and Water

AUSTIN, Texas, July 17.—Dr. J. W. Brown, State Health Officer, warns those going on a vacation or picnic, to be careful about their food and the water they drink if they want to avoid unpleasant after effects.

"As to foods," Dr. Brown said, "First, be sure that what you take is perfectly fresh. Second, take things that won't spoil. During the hot muggy weather that prevails at this time of the year, it is hard to keep any kind of food in good condition, as every housekeeper knows. Rich, perishable food taken off the ice and carried around for several hours before using will spoil very quickly.

"It is better to avoid rich salads and indigestible combinations and to stick to the simpler things. Sandwiches—of which an infinite variety can be prepared—cake, the simpler the better—and plenty of fresh, ripe fruit, are usually safe and satisfying and should form the principal part of your menu. Whatever you take, don't over eat and don't indulge in all sorts of queer mixtures. If you do, the day after the picnic is not likely to be a pleasant one for you.

"And as a third precaution: Take your own drinking water, unless you are sure that the water supply of the place where you are going to spend the day, is free from contamination. Thermos bottles, thermos jugs, fruit jars, can all be pressed into service. It may be more trouble to carry water from home, but it is much safer than to drink water from a source that may be contaminated with disease germs, especially those of typhoid fever."

Man: "Have you any good pork?"
Butcher: "Good pork? I've got some pork that will make better chicken salad than any veal you can buy."

Optician: "Weak eyes, eh? Well, how many lines can you read on that chart?"

Patient: "What chart?"

was to be built, and a sewer system contracted. G. A. McDaniel's barn was destroyed by lightning during a rain storm.

Gomez: The streets were flooded by a huge rain. Walter Gainer and Bob Glover were exhibiting their fine cotton. Earle Key and Carroll Phillips attended the normal at Lamesa. Many were planting fall gardens. Mrs. Bob Snodgrass and children were in from the ranch visiting her parents, Mr. and Mrs. R. W. Glover. Mr. Heard and family of Comanche county were visiting his father-in-law, R. W. Rambo and family. Tom Taylor was sowing turnips on the square. All for this week.

Will Rogers Jokes at The Cows and Calves

Usually, the cows are in a bit of unruly mood when the hot branding iron is host at the party, but not so at the Halsell roundup being held west of here. All the calves are giggling, and the attentive mothers are in full attendance with a grin from ear to ear as WILL ROGERS, famous humorist and columnist, wisecracks his way thru herds of victims of the branding iron and vaccinating needle.

After an interview with Mr. Rogers Tuesday morning, the editor took time to witness some of the antics of the trick-roping humorist. The corral was lined with yawning westerners as the movie actor from the West Coast, not only entertained them, but also kept the cattle in good humor—apparently. His work was just as religiously executed as the hired hands, and one after another, his tricky lariat bonded the hind legs of some youngster cow, as he passed comment aloud on subjects varying from the diet of a yearling to the vacation of Harry L. Hopkins.

Mr. Rogers arrived Monday to aid in the round-up of the cattle belonging to the Halsell Land Co., owner of which is a very close friend of the Rogers family. He was accompanied by his younger son, Will Jr. Both left today for their home in Beverly Hills, Calif., where they will prepare for their proposed journey to the Orient in July.—The Amherst Argus.

Farm Purchasing Increases 25 Percent

COLLEGE STATION.—Farm purchasing power on the average throughout the United States has been 25 percent higher during the first nine months in which benefit payments have been distributed through the provisions of the Agricultural Adjustment Act than in the corresponding period of the previous year.

This is the conclusion reached by L. H. Bean, economic advisor to the Agricultural Adjustment Administration, following a study of the prices farmers receive for their products, compared with the cost of commodities they buy. Cash income, including benefit payments, during this nine month period increased by 38 percent but this increase was partial offset by an increase in the cost of commodities farmers buy.

Benefit payments on production adjustment contracts contributed one-fifth of the net increase of 25 percent in purchasing power. For the first four months of 1934, the net

increase in farm purchasing power was 28 percent over the first four months of 1933.

Mr. Bean's study also shows that the purchasing power of the farmer increased somewhat more than the purchasing power of the country as a whole during the first four months of 1934. During this period, the total national money income, including the distribution of emergency funds, was about 20 percent higher than in the corresponding period of 1933, but the cost of living for the country as a whole increased eight percent, leaving a net increase of 12 percent in the national purchasing power. The net increase in farm purchasing power was 28 percent for the same period.

Make Short Work of Bank Bandits

Sheriff Walter Jones Joe Oney, Deputy Sheriff

Bandits who would pillage in West Texas are fast learning that dealing with law and order on the Plains and in the cattle country is dangerous business. Two San Diego, Calif., men, Buster Orr and W. O. Ortega robbed the First State Bank at Allison, Wheeler county, Texas, of \$200. Sheriff Walter Jones of Canadian, started on the trail immediately, carrying Deputy Joe Oney and a passenger, a man named Funston. Just inside the Oklahoma line the Sheriff's car, equipped with bullet-proof windshield and a machine gun, sighted the bandits. A running gun battle began when the bandits slightly wounded Funston, and ended eight miles later with Orr and Ortega dead. (Texas News Photos.)

Rice Gets Plenty of Water When Gates Jam

The Gulf Coast Water Company of Bay City, Texas, bought 14,000-acre feet of water (5,000,000,000 gallons) from Lake Brownwood in a unique experiment. Lake Brownwood's flood gates were opened to allow the water to run 450 miles down the Colorado River to Wharton and Matagorda counties where it would be pumped out and used to irrigate the drought-stricken rice. Somehow the flood gates jammed and could not be shut. On July 14, more than 52,000-acre feet of water had gone from Lake Brownwood. The picture shows how far the water has receded the dotted line being the initial water-line. (Texas News Photos.)

Y. W. A. ENCAMPMENT

Last Thursday afternoon at two o'clock three cars with fifteen Y. W. A. girls and boys and Mrs. Penn left for Buffalo Springs to attend a two-day encampment there. Upon arriving the girls went for a two hour swim. After the swim, a very appetizing supper was enjoyed. At seven thirty a very interesting program was given. One of the interesting features of the program was that all Y. W. A. girls from different towns had to put on some kind of a stunt. These different stunts proved very amusing. Friday morning was spent in the study of the book, "Winning Others to Christ." The book was taught by Mrs. Rork of Wayland College. In the afternoon swimming was again enjoyed until about four o'clock when everyone started for home. Those enjoying this encampment were Wayopa Burnett, Mary Jo Neill, Mary D. Thomas, Bernice Hale, Lillie Mae Johnston, Annie Letha Hamilton, Ester Ruth Smith, Ruby Nell Smith, Stella Maurine Hensley, Carrie Allen, Dorothy McGlothlin, Orvalene Price, Ora Belle Chambliss, Irene Adams, Lurline Brown and Mrs. Penn.

Y. W. A. MEETING

Last Monday night the Y. W. A. girls and also the younger group of girls met at the home of Mrs. M. L. Penn. The purpose of this meeting was to organize a separate Y. W. A. for the girls under seventeen. The following officers for the new Y. W. A. were elected: President, Irene Adams; Secretary-Treasurer, Laverne Mullins; Vice-President, Betty Jo Savage. Mrs. Penn will be the sponsor for the new organization at the present time. She will be assisted by the older Y. W. A. girls. The meeting will be on Tuesday night of every week. Among the old girls present were Millie Fay Strickland, Mary Dee Thomas, Ora Belle Chambliss, Lillie Mae Johnston, Annie Letha Hamilton, Bertha Allen and Bernice Shepherd. The new girls present were Irene Adams, Mildred Adams, Ruby Nell Smith, Mattie Jo Gracey, Mollie Mae Allen, Stella Maurine Hensley, Wilma Frank Dunn, Imogene Wall, Bernice Hale, Betty Jo Savage, Helen Quante, Laverne Mullins, Evelyn Shepherd and Mrs. Penn.

Mrs. Holgate was hostess to the Needle Club Wednesday of last week. Mrs. Simon Holgate was hostess to the Priscilla Needle Club. Ten members were present. The hostess served sherbet, cake and tea. Mumford Smith, wife and daughter, Miss Margaret, left Sunday morning for their home in Glendale, Ariz., after two weeks visiting here with his parents, Mr. and Mrs. W. C. Smith. They were accompanied home by Mumford's brother, Dolphus, who will spend some time in Arizona.
