

Our Recent Trip to Sunny Tennessee

Some of our readers profess to want us to give them some more coon hunts. Well, with two little incidences this issue, we aim to close out our hunting experiences which were brought to mind by our trip to the old Volunteer State this summer. By the way, there was an interesting article in the paper recently about the State of Franklin, which was the original Tennessee, but only went a short distance west of the city of Knoxville. It was ruled by John Sevier and others and was kinder in rebellion against North Carolina. In this article, it was brought out that Sam Houston was governor of two states, Tennessee and Texas, and also President of the Texas Republic, something of which no other man can boast.

Well sir, if you want to get the cunning old con, don't try getting out too soon at night. If you do, all the dogs will be in a possums and flying squirrels. Get up about two hours before day—yes! we know that it is hard on the nerves—but it is the best time to hunt his honor, the raccoon. He is still feeding, and will do so until sunrise, when he will hunt his den high up in the old oak. It was a clear calm and not too cool morning, with a heavy dew on the vegetation one fall about 1893 that we caught the biggest and most ferocious coon we ever saw. We had gone down the Sawpit hollow a mile or two, and had sat down to give the hounds a chance to cover this hollow and another coming into it from the old Nancy Brown place.

We hadn't sat long until all at once, old Watch cried out as if he was right on something, then as quickly the other two dogs seem to join him, and the three seem to have the critter treed, and such a baying as they sat up indicated that the varmint was in sight in a low bush. Before we had time to get anywhere, their prey seemed to have leaped from the tree and another race came off. There seemed to have been just a brief fight, and the animal took to a sink hole underground.

We always carried an ax, and a sapling was soon cut and shaped like a spade and we helped the dogs "dig" or "grapple" toward the way the coon went underground. It did not take long, and when he was cornered in a part of the hole too small for him to get farther, he came out fighting, and such a fight. You may think we are exaggerating when we tell you that three average sized hounds with years of practice fighting coons, could not hold that critter down, but that is literally facts. And any time that a coon cannot be held down, he's going to cut your dogs into ribbons, especially the ears and nose. In all probability, all good fighters, would have worried the coon until they could have held him to the ground and crushed the life out of him with their powerful jaws, but it was telling on our dogs, and we had no desire to have them badly cut up, so a pole was placed across the neck of Mr. Coon and with the work of the dogs he was soon dead. You could hear blood dripping from their ears and nose. Usually we skinned our coons where we caught them, but he was carried home this time on a pole in the style that the faithful spies came back to the wilderness with the grapes from Canaan, as we wanted to see how much he weighed. We stopped at Uncle Dan Casey's and the coon tipped the beam at 34 pounds and had legs as long as an ordinary grey fox.

Speaking of Uncle Dan, who has passed on to a better world, reminds us that he had a dog, about half hound. One day when a big snow was on the ground, and one of our dogs, Old Watch, had fought a coon in a sinkhole for half an hour and finally drug the coon out half dead, Uncle Dan's old Tig (Tiger) flew in and fought that coon to a fare-you-well. Whereupon, Uncle Dan, who lisped some, said, "I'll 'thees'" (just let ole Molly (his fine mare) against anything that old Tiger can kill the biggest coon in Hardeman county." The next day or so, the writer and oldest

Ed Evans and family are entitled to a pass to the—

Brownfield to Have Three Stop Lights

In conversation with Mayor L. C. Wines this week, he informed us that the city council had decided or were about to decide to put in at least three stop lights on Main street, one at the corner of 6th, one at 5th and another at First street and Main, where highway 137 goes down First street and crosses Main.

Of course as Mr. Wines stated, these lights will cost the city considerable money at this time when they are trying to economize, but too much economy is not always to the best interest of all concerned. These are all heavy traffic corners, and if they are the instruments of saving one life, they will be a cheap investment.

It is believed that by slowing up our speedsters at three different places on main, which is paved, that it will give the children and other pedestrians an even chance, and he says that when they are installed, the officers intend to bear down heavy on those who run through these lights.

At that time, he said, we may also stop U-turns on Main street. With growing traffic, and as fast as cars move now with their great speed and quick get-away, we believe it is high time to protect our people against reckless drivers.

Not the Right Sort Of Publicity Now

Recently, two of our Commissioners went to Austin to get some of our projects started, and if possible more relief funds. These two men, Coms. L. L. Brock and Mack Thomason stated to us that they did mightily well with the Relief Commission, and succeeded in getting some projects started that had been up for some time.

But imagine their embarrassment when they walked down stairs and bought an Austin Statesman, and on the very front page with glaring headlines, appeared an article about the feeding plant here and the thousands of tons of feed that was being bought from our farmers, and that some were getting big sums for their spare feed crop.

All of which is literally true. But there are lots of people here as elsewhere that made no crop - didn't try others in dryer sections did not make near enough feed to run them, and very little cotton. But these commissioners would have had a heck of a time explaining this to the Relief Commission, had they seen the article before our commissioners walked in.

Com. W. E. Hinson and family were down shopping, Monday.

brother, Bud, and a son-in-law of Uncle Dan's by the name of Wiley Luttrell, took old Ring, Watch and Tige back in the hills west of our old place to track up coons in the snow.

Late that afternoon, we found where fresh tracks had been scallow up and down an old dead, hollow chestnut. We soon had it down, it falling across a little ravine, and the hole where the coon was dened, was some three feet off the ground. Bud juggled in, and there was a fine specimen of a fighting she-coon. Wiley remarked: Mr. Casey says Tige can whip any coon in Hardeman county. Let's hold Ring and Watch, and see a fight. We agreed. Whereupon the two dogs were collared, and Tige was invited to lift the coon from the hole now big enough for him to get his head inside.

Now Tige had had a world of experience with squirrels. Indeed he was an excellent squirrel dog, but had never fought a coon by himself. And he had lifted many squirrels from holes and crushed them to death. Well, Old Tige reared up to that hole, sniffed a second, curled his tail over his back, and unconcernedly lifted the coon out by her loose skin and proceeded to walk off a few steps before dispatching her. But it only took that coon about three seconds to wrap herself all around that hound's head, take a good hold on his nose and proceed to shut her eyes and make it very miserable for Tige. He set up a howl and tried to shake Miss Coon loose, which he finally did by tearing out the Coon's nose hold. The coon tried to grab again, but Tige was good on ducking, backing off and barking. He had had enough, and would piteously look around to see if Ring and Watch intended to help. They were then released and made short work of Madame Coon.

But none of us ever dared to tell Uncle Dan about how we framed up on Old Tige.

Lubbock Goodwillers Stop Off Here Awhile

The bunch of Lubbock Goodwillers paid the Andrews oil field a visit last week, as also Seminole and Seagraves, spending most of the day in that vicinity in order of course to form better trade relations with the oil field section. But they had a man along, we understand that played many pranks on the natives that day, and his "rep" seemed to have beat him to Brownfield that afternoon.

So, as soon as the delegation landed in Brownfield, this guy was promptly taken in charge by City Marshall Brown on a trumped up liquor charge and thrown in the county bastille. It is said that the others members of the party soon caught the joke and threatened to leave him here.

No! he was going too. But Gene Brown can be as solemn as two Philadelphia lawyers when occasion need, and he promptly informed the prisoner that he was staying here. He was finally released, but played none of his smart tricks in Brownfield. He went home.

Lubbock delegations are always welcome in the smaller towns of this section, but they usually have a pranker along that does not always leave a good taste with the host city. Small town people naturally conclude that the "big" city folks think they are smarter, and love to play jokes on their "green" neighbors.

THAT RED CIRCLE

The Herald is hoping that old Santa will come to see us this year. Many of our readers are behind with us. Some badly in arrears, and we have waited patiently throughout the year because we realized you were having tough going. So, we are putting a red circle around your name this week, which indicates that you are behind according to our books, and we are hoping that you play Santa Claus to us by renewing in the next few days. Want you?

Shoppers Looking For Better Goods

In conversation with Claude Hudgens, of Hudgens & Knight store, recently, he remarked that he was having to use different tactics in advertising now from what he used two years, or even one year ago, which proves that people are generally in better circumstances.

At that time, he said, when we ran some real hardware and notion bargains, the people snapped them up. Now, they pay but slight attention to them, and ask to see something nice in the way of furniture, rugs, radios and even silverware.

Their firm, he said, was enjoying a good trade as well as good collections, but the bulk of it was coming in on nice furnishings for the home that people have done without for the last few years.

Next Week Will End Santa Claus Letters

Next week's issue will be the last number in which letters to Santa Claus will be published, for Christmas will be over before the issue of the 28th comes out. So, to be sure that your letter gets in next week, better mail on Monday, or hand them in directly at the Herald office.

Again, let us stress the fact that this department is for the kids and kids alone, who have not yet been "wised up." It is not for tall blonde or brunet girls or boys twelve years old or older. All such letters are not headed for the last roundup, but the waste basket.

The Colored School Opened Last Monday

Opening with around 20 pupils, the local colored school was put in motion last Monday, December 3, for the term.

The same teacher, Mrs. Jones of Lubbock will have charge again this year.

The government, will buy, kill and ship a few hundred more Terry county cattle this week.

U. S. Cotton Estimate Raised 97,000 Bales

WASHINGTON, Dec. 8.—Texas cotton production in 1934 was 2,395,000 bales, the Department of Agriculture said today in its final estimate for the year, which represented an increase of 5,000 bales over the Nov. 1 estimate for Texas. The United States crop was estimated at 9,731,000 bales, 97,000 bales more than the last previous estimate. Average production on 27,412,000 acres harvested was 169.2 pounds per acre for the United States.

The crop this year was 3,316,000 bales below that of last year and 4,935,000 bales under the average of the 1928-32 production. It was substantially below the Bankhead tax-free limit of 10,460,251.

The department estimate, based on reports as of Dec. 1, indicated about 3.2 per cent of the 28,412,000 acres in cultivation on July 1 had been abandoned, leaving the 27,515,000 acres for harvest.

The drought cut sharply into the harvest in Texas, Oklahoma and Western Arkansas, but in other areas the acreage harvested was normal, the report said.

Last year's crop totaled 13,047,000 bales, picked from about 30,000,000 acres yielding an average of 208.5 pounds per acre.

The Bankhead act exempts from taxation 10,460,251 bales.

At the same time, the Census Bureau reported 9,029,792 bales ginned from this year's crop prior to Dec. 1, compared to 12,106,377 bales ginned prior to the corresponding date last year and 11,635,089 bales in 1932.

To Start Office Building Here Mon.

Contractor Roy Wingerd will begin the erection Monday morning about the middle of the block on the east side of the square, a brick and tile building with solid plate glass front, size 25x60 feet for Rex Headstream, present county clerk, but who goes out of office January 1st.

This building will be used by Mr. Headstream for his abstract business, which he is getting up to date as fast as possible, in order to be ready for business as soon after Jan. 1st as possible. This building will have built in vaults as well as other fire proof containers which will not only protect his abstracts, but will house customers fire or life insurance papers.

We are certainly glad to see Mr. Headstream making this forward move. He stated to a Herald representative that he liked Brownfield, intended to make it home, and had no desire to move.

Some Very Beautiful Christmas Windows

While there is little or nothing on the streets or sidewalks, except a few Christmas trees set in the holes made for flags on holidays, to indicate the Christmas holidays are upon us, a glance at the show windows, or even a view of the whole interior of many of the stores gives one a good idea that Christmas spirit is in the air here, and that the merchants aim to make the most of it.

Right here, we want to offer our congratulations to the clerks who have decorated these windows as well as the interiors. All of them are beautiful, but some of them show the handiwork of real creative ability, which cause the milling crowds on the sidewalks to pause in front of them and take a long and admiring look.

The grocery stores, too, are doing their bit, and it always seems to make Christmas to us nearer, even if we did not look at the calendar, when rich ripe oranges and red apples, and other fruits and nuts are being stressed in the grocery stores.

Yes, the Christmas spirit is in the air, and taking things on an average, this is going to be one of the best that Brownfield and trade territory has seen in some time.

More Than 500 Delegates Expected

Fort Worth, Dec. 13.—Mr. and Mrs. C. L. Lincoln of Brownfield are in Ft. Worth attending the thirty-first annual convention of the Southwestern Life Insurance Company.

More than 500 representatives from all parts of Texas are here for this convention, which is the largest life insurance event of its kind ever held in the State. Southwestern Life agents earn the right to attend these meetings by writing a certain volume of business during the year; and, as the number of qualified agents about 20 percent greater than in 1933 a larger volume of business is indicated for 1934.

Registration took place this morning at the Blackstone Hotel, at which all sessions of the convention will be held.

Jon Milner and Jimmie Jones have leased the cafe from Bob Locker on the west side of the square and renamed it the West Side Cafe. Both are experienced cafe men.

Loses Garage and Cotton in Sun. Fire

A. Clements, farmer, living some six miles north of town, had the misfortune of losing his garage and a bale or two of cotton. We understand the fire occurred in the afternoon.

Neighbors, who saw the smoke, came in their cars and helped to put out the fire before more damage was done.

WARNING!

Your attention is called to an ordinance elsewhere in this issue pertaining to the matter of shooting fireworks on the streets.

Group Four Lion Clubs Met Here Monday Eve

Group 4 of Texas District 2T, Lions Clubs, met here Tuesday night, the large show rooms of the Tudar Sales Co., being used as the meeting place and banquet hall. Plainview, Lubbock, Lamesa and Demmitt each had large delegations here, being the other four clubs, five including Brownfield. An effort is being made to revive the Littlefield club.

Paul F. Lawlis acted as toastmaster, and Judge W. W. Price delivered the welcome address. This was responded to by Dr. Johnson, faculty member of Tech College, which was also the principal address of the evening, and was said to have been a masterpiece, and appreciated by all present. The next meeting will be held with the Demmitt club.

The P. T. A. served a turkey dinner to the visitors and local club, which the delegates praised very highly. One Plainview man was heard to remark that if the local club had sent the menu with the invitation, there would have been a 100 percent attendance.

Music of fine quality was furnished by a visiting pianist of Demmitt, and home talent. Tap dancing by pupils of the local dancing teacher was also enjoyed.

ADDITIONAL CATTLE—Terry County has received an additional quota of 1,000 cattle this week in the Emergency Cattle Buying Program. This makes a total of 8,500 cattle that has been allotted the county by the government. Mr. W. A. Bell at the Cream Station is in charge of the signing up of the cattle to be bought. The cattle will be brought to a central point for appraising. No farm-to-farm canvas will be made to pick up the cattle. Dr. P. M. James will be the doctor in charge of the buying.

TURKEY SHOW

Three Terry County turkey demonstrators had birds that won places at the Plainview Turkey Show last week. They were S. L. Greathouse, C. J. McLeroy, and O. F. Kreuger. The county exhibit won fourth place. The turkey belonging to Mr. McLeroy was the heaviest turkey at the show. It weighed 29 pounds and brought 29 cents per pound. Terry County sent 175 birds to the show. None of the 175 birds that were pooled brought less than 25 cents per pound. The county is planning to show a great many more birds next year.

CORN-HOG COMPLIANCE

Final compliance papers on Corn and Hogs were signed by the producers last week and were inspected Tuesday by C. B. Martin, District Corn-Hog Inspector. The papers will go directly to Washington but payment is not expected until after the middle of February.

MEADOW P. T. A.

The Meadow P. T. A. met in regular session Thursday, December 6, and rendered a very interesting program, which consisted of the following numbers.

Opening Song Silent Night
Reading "Giving"
Patsy Jean Stearns
"Wood Nymph"
Marcille Burleson
"Living the Christmas Spirit"
Mr. Montgomery

A very interesting speech relating facts from his own experience with children by Judge Avery from Lubbock.

Cubs Open Cage Season With Interquad Tilt

Tonight at the local gym at 7:00 o'clock, the Brownfield Cubs will make their first public appearance on the basketball court. This will only be an intersquad game but should be of much interest due to the fact that Coach Daniel has not as yet determined who shall be the first stringers, therefore every one of them will be on their toes trying to earn a berth on the "A" team and having the privilege of wearing one of those flashy solid red uniforms. The "B" team will wear white jerseys and red trousers.

About eighteen boys have been coming out for the team. Of this bunch, only four of them are less than five feet, nine inches tall. Six are between five feet, ten inches and six feet, and five of them gaze down on the rest of the world from the height of more than six feet.

We could use a lot more space, giving a personal sketch of each of the players. But we want you to come out and see for yourself the team that will wear the red and white this year. We know you will be pleased.

The girls' team will play Tokio. This promises to be a game that will hold your attention from start to finish. This is not the first game the girls have played this year, but we were unable to attend any of them and cannot give much information about them. We hear, however, that they are plenty good.

Interscholastic League Elects New Officers

At ten o'clock Monday morning, December 8, the teachers of Terry County met in the High School auditorium at Brownfield and organized for Interscholastic League work. There were some seventy-five teachers present and a good spirit of cooperation was manifested.

Brownfield was chosen as the place of meeting in 1935. The following officers were elected, or appointed, in most cases the elections being made by acclamation:

Jack D. Wester (Brownfield) Director General.
M. L. Penn (Brownfield) Secretary
Mr. Osborne (Meadow) Director of Declamation.
Terry C. Redford (Gomez) Director of Debate.
G. R. Day (Union) Director of Extemporaneous Speaking.
Miss Price (Meadow) Director of Spelling.
Mrs. Ivy Savage (Brownfield) Director of Ready Writing.
Mr. Bell (Happy) Director of Rural Schools.
Coach H. N. Daniel (Brownfield) Director of Athletics.
Miss Blackstock (Meadow) Director of Music Memory.
Mrs. Lee Fulton (Gomez) Director of Picture Memory.
Mr. C. A. Wilhite (Wellman) Director of Arithmetic Contest
Mr. J. Logan Green (Lahey) Director of Choral Singing
Mrs. Airheart (Meadow) Director of Tiny Tot Story Telling.

A motion carried that Girl's Basketball be subject to same rules of eligibility that govern Boy's Basketball. Mrs. Lee Fulton was elected director of Girls' Basketball. Both divisions of basketball are to be played into A, B, and C groups in playing off eliminations for County Championship.

A meeting of the Executive Committee for Terry County was called to meet at the County Courthouse at ten o'clock on Saturday morning, January 12, 1935.

Building For Ward Shoe Shop Started

Contractor George Snodgrass started the erection of a brick and tile building this week for V. B. Ward, of the Ward Shoe Service. The building will stand just north of the First National Bank, facing west on fifth street.

The building to house this industry will be 17x35, and so arranged that Mr. Ward will have all the advantages of natural light possible, and also to conveniently arrange his machinery to fit the building and save steps.

We are glad to see this progressive step taken by Mr. Ward.

PRODUCTION CREDIT ASSOCIATION APPOINTS LOCAL REPRESENTATIVE

E. G. Akers of Brownfield, has been appointed local representative of the Lubbock Production Credit Association of Lubbock, Texas, and is ready to assist farmers and stockmen in preparing necessary papers to apply for loans for crop or livestock production purposes.

Mr. Akers has been authorized to write applications and to help farmers in Terry County and others who prefer to apply at Brownfield, in closing their loans. Thus local farmers and stockmen are saved the necessity of making a trip to the headquarters office of the Association to arrange for loans.

During the past year many farmers in this community and thousands of others in all parts of Texas have been provided with necessary money to finance crop and livestock production at an interest rate as low as five percent. Those in this community who will be in need of additional working capital and wish to file applications for loans may get in touch with Mr. Akers, who can supply all needed information.

Production credit loans are made upon adequate security to responsible farmers who can furnish a definite budget plan for repayment. This form of credit has been worked out to meet the particular needs of farmers and stockmen and is an important part of the Farm Credit Administration's program of helping farmers to help themselves.

A Warning About Christmas Inflammables

All indications point to the realization that this Christmas will be one of renewed hope and good cheer and we, as a people, have much for which we should give Thanks.

Let us, among other things, give Thanks to all of those who have worked so diligently this year in the prevention of fires and give to them encouragement by a willing spirit of cooperation in a continuation of this splendid public service, but lest we forget, the observance of Christmas is fraught with danger to life and property because of many special fire hazards that come into use at that time. A careless act or the use of an unsafe article, may blight the day, replacing joy with grief.

Some of the facts pertaining to special fire hazards that everyone should acquaint himself with during the Holiday Season are as follows:

"That evergreen trees decorated with highly inflammable materials often ignite.

"That cotton or lighted candles should never be placed on the Christmas tree.

"That the cotton beard of a Santa Claus frequently catches fire with serious results.

"That the old Yuletide custom of placing a lighted candle in the window near curtains has cast many a cloud of gloom.

"That small children should never be permitted to handle fireworks.

"That wrappings from packages should not be allowed to accumulate.

"That toy electric trains, motors, and other appliances should not be attached to light sockets until all fuses and connections are in perfect order.

"That pennies or wire should never be used in replacing blown-out electric fuses. The fuse is the safety valve on your wiring system to protect you against fire."

Barring any catastrophe losses between now and the close of the year, the fire loss in Texas will be lower for 1934 than it has been in any year since 1919.

RAYMOND S. MAUK,
Fire Insurance Commissioner.

The State Line Tribune in its Graham Cracker Department says that the Thanksgiving turkeys in that section sang, "Headed for the Last Groundup," the day after the holiday.

That story by rancher and historian Haley in the last issue of the Saturday Evening Post, caused some of the dailies to get straddle of his neck. Personally, the Herald did not think the subject matter was overdrawn, and while we somewhat disagree with policies Haley upheld, the picture illustrations were true to life.

This passing year has been a big tractor selling year, one firm here putting out more than they have sold perhaps in the past four years put together. This was on account of scarcity of feed produced in the north half of the county last year.

Some believe that Raymond Hamilton and a companion were here over the week-end for a few minutes. Those that saw the men say they were armed with pistols and had a machine gun in the car. It has always been the belief of the Herald that when these gentry travel, they do so as inconspicuously as possible, without any display of firearms, until they are ready to use them, knowing as they do that every officer is on the alert for them, and the sight of firearms will cause others to tell the officers.

PARENT TEACHERS MEET

A beautiful exhibit arranged by the teachers of the elementary school and admired by hundreds of visiting patrons, was the feature of the Parent Teacher meeting held in the high school auditorium, December 10.

Mr. McDuffie talked on the influence of the home in law observance. Mr. Penn gave a short talk on standards, and Mrs. Savage, Mr. Dennis and Mr. Penn exhibited the Amick pictures given to each school by the Maids and Matrons Club and framed by the P. T. A. Mrs. Cobb responded for the M. & M. Club.

Mrs. Rentfro's room received the picture for the largest number of par-

ents present.
Proceeds from the dinner for the Lions Club meeting, Tuesday evening will go for the purchase of playground equipment.

Texas Farmers Are More Optimistic Now

Farmers in Texas are more optimistic than they were a year ago in spite of the serious damage done by the drought, A. C. Williams, president of the Houston Federal Land Bank told a conference of the 12 Federal land bank presidents here today (December 7).

"Considering the severity of the drought in Texas, the collections of maturing installments on Federal land bank and Land Bank Commission's loans have been good this fall," President Williams said. "Borrowers have appreciated their loans from the Federal land bank and the Land Bank Commissioner and are cooperating by prompt payment.

"In spite of the drought there is a very good demand for farms and our sales of farms will exceed sales during 1933," Mrs. Williams reported. "We are anticipating a continued rise in the prices of good farms for some time to come," he continued.

"The cotton crop in Texas was only about one-half of normal this year because of the drought and was considerably below the allotment under the Bankhead Bill. Higher prices and benefit payments, however, have partially made up for the short crop. Cattle numbers in the livestock sections of Texas have decreased materially as a result of the drought and sales to the Government. A rise in the price of livestock is expected when the effect of the shortage in breeding herds begins to be felt," President Williams stated in discussing agricultural conditions in the tenth Federal land bank district.

"Although there was a slight seasonal rise in the number of applications received for loans by the Houston Federal Land Bank during the early fall a decline occurred during November when about 1300 applications were received, compared to 5,500 during November 1933. This would indicate that the number of farmers needing to be refinanced is declining and the bank is returning to a more normal period of operation," President Williams said.

NOTICE

THE STATE OF TEXAS, COUNTY OF TERRY, CITY OF BROWNFIELD:

LIFE BEGINS AT 70— NOT 40—SAYS EDUCATOR

FORT WORTH Dec. 1.—Life begins at 70, not 40! At least, that is the belief of Dr. Clinton Lockhart, professor of Old Testament and Semitics at Texas Christian University and former president of the institution.

"One has a broader, richer appreciation of life after 70, provided his health is good," says Dr. Lockhart.

At 77 the lean and active educator is studying German at night school and reading the Bible in Spanish. When 74 he received the honorary degree of Doctor of Letters from T. C. U. The doctor reads 10 languages and plays the piano, violin and guitar. He took up the study of the violin on his 70th birthday.

"Advancing years and the experi-

ence which they bring with them give one the key to many enjoyments of life not open to the younger man or woman," Dr. Lockhart says.

"The years take you from some of your favorite athletics and your lost interest in romance, but you find ample compensation in the full, new understanding you have of life."

Dr. Lockhart holds the A. B., A. M. and LL. D. degrees from Transylvania and the Ph. D. degree from Yale.

Tom Thompson, after a year with a farm tractor is going back to the old reliable "hoss" team on his farm but he has a lot of feed this year—none last year.

DO WE WANT A BAND?

Would the city of Brownfield profit by having a band? Would it prove a help to B. H. S.?

The people of Brownfield seem to care very little about a band. Why is this true? Every town the size of Brownfield and every school with 170 students enrolled should have a band. A band adds very much to civic pride, or to any kind of school program. Why not add to the school and town by having a band?

Mr. Kilpatrick of Lubbock came to Brownfield some two weeks ago to organize a band. The school and the people have not cooperated with Mr. Kilpatrick in his earnest efforts to organize this band. Two or three can not make a band. It takes several more people, with the town cooperating with them to make a band a success. The ones who said that they were interested in a band have failed to meet their lessons and band practice. Every school student has quit a few things to do on school night so the nights for band practice should be arranged to fit in with the other school programs.

If we are not willing to make a sacrifice to make something possible we will not get much out of the effort. We have to put something into the pot before we can get something out. Are we going to get something out of this band? Then, why not put something in? Ought we to be willing to make a sacrifice to make this band possible? How long have we waited for someone to come to Brownfield and start a band! That person is here. What are we going to do about it?

A band will need support. It will need support before it can get started. Who is going to give this support—will it be you? Let us show Mr. Kilpatrick that we appreciate the efforts he has put forth in the organizing of a band for Brownfield. Wh is going to be responsible for the success or failure of this band? If it is a failure let it be someone else, but if it is a success let it be you?

The question is asked again—Do we want a band???

BASKETBALL

The Brownfield Girls' Basketball Team played their first game last Thursday night in the local gymnasium. The A-team played Union, and the B-team played Gomez. B-team played first and lost with a 24 to 12 score. They did some good playing considering that it was the first time for most of them to play. A-team played then and won with a score of 25 to 14.

Again Friday afternoon, A-team played Wellman and beat with a score of 26 to 21. A-team had to do some hard playing to keep up with Wellman, but they did it.

MRS. TOONE SPEAKS IN CHAPEL

On Wednesday morning, Dec. 5, the students of B. H. S. assembled for the regular chapel exercises. They were favored by a very interesting talk by Mrs. Toone from Panama. Mrs. Toone had just come from the Panama Canal Zone where she lives and teaches in the schools of the city of Panama. She is here with her husband, visiting his parents, Mr. and Mrs. W. B. Toone.

She gave a brief history of how the country of Panama was founded and of the dangers and hardships that were endured by the explorers. She gave a brief summary of their customs and the characteristics of their native people. She told something of their worst enemies, the snakes, mentioning how dreadfully poisonous they were.

Mrs. Toone did not have the time to tell enough all about Panama, but the students and faculty invite her back. Her talk was greatly enjoyed by all who were present.

Later in the day Mrs. Toone returned and lectured to the Spanish classes. She told the classes about her private teachings in Panama—how she teaches the Spanish speaking pupils to speak English so that they may be able to attend the public schools. She told also of the troubles and difficulties she had with her students. She holds night and day classes, working with the Spanish people. The students in her English classes are not allowed to speak a word of Spanish in the class.

It is reported that she will return the latter part of the week to speak to the English classes.

CUB CELEBRITIES

JACK WESTER.

Jack was born on the Mayflower as Columbus was coming over to discover America. He was very young and had four sisters, and they had one brother. Jack's greatest ambition was to make life hard for young people, so he began teaching English.

Jack became a member of B. H. S. in 1933 at the early age of 67. He has been a great man, and he firmly believes in Santa Claus.

Jack will finish high school someday, and he expects to be a sailor. He will be greatly missed, and we wish him luck. (He'll need it). Jack intends to live until he dies and he probably will.

PAUL LAWLIS.

Paul was born in the beautiful Ozark mountains of Arkansas when he was very young. His mother said later that she should have kept the stork instead.

Paul has been teaching school for the past forty years, more or less, and he will continue to do so. He lives in Brownfield now.

Paul had ambitions to be a cowboy, but he didn't have a horse so he decided to teach school. His favorite hobby is telling jokes and shooting fire-crackers.

BHS CUB COMMENT

Do you know that when you are absent from a class that one point is taken from your six week's grade? It is very important that you attend every class. It doesn't take many points off to bring your grade down. Following you will find the percentage of attendance for the past six weeks: Seniors 94.40; Juniors 90.58; Sophomores 98.65; Freshmen 96.28.

B. H. S. has an improvement sheet for the past six-weeks. The Seniors have 24 members who have improved; the Juniors have 25; the Sophomores have 20; and the Freshmen have 23. We call special attention to the fact that Seniors have only 3 failing grades, the Juniors, the Sophomores 19, and the Freshmen 44.

Perhaps we are glad that some of the girls are learning to dance, but we think that the home or the dancing lesson is the place to practice, not in the halls of B. H. S., between classes.

Basketball in B. H. S. is progressing very nicely. The two girls teams have played three games which proved fairly successful, but there is much room for improvement. We are also expecting a winning boys' basketball team this year.

When students are in detention for misbehavior is this a sign of lack of training in the home or is it a sign that the students haven't enough work to prepare.

We wish to thank the publisher for teaching us how to spell Quemado Valley in last week's "Cub Reporter." We had made a poor guess.

Tuesday morning in second period study hall a shot was heard. Pupils and teachers rushed to the scene only to find that some playful "child" had been celebrating the coming holidays with firecrackers.

Lucille McSpadden brought in eight good books which she donated to the B. H. S. Library, Tuesday.

BHS CUB CLUBS

THE LILLIANNA CLUB—

The Lillianna Club met Tuesday, December 4. After the club had been called to order and the minutes read and approved, each member of the club joined in an animated discussion of remodeling and repainting old toys for needy youngsters.

So, mothers, if your children have some old toys which they have no use for, send them to the Lillianna Club girls to be remodeled and repainted, then you, as well as your children, will have brought joy to some poor youngster who has probably begun to think that there isn't a Santa Claus.

It was decided that all members of the club who could, would meet Saturday afternoon at 1:00 o'clock in the high school building in order to begin work on the toys.

DRAMATIC CLUB—

Last week the program in Dramatic Club consisted of a musical reading by Cathrine Cates and a short talk by Mr. Wester. Part of the period was given to the practicing of the one-act plays.

The club is very happy to have Roy Chambliss, the president, and vice president, Logan Redford, present at the meeting again. Up until now these boys have been in a "letterman's club" but they intend to be with the Dramatic club the rest of the year.

The football boys enjoyed a banquet at the Wines Hotel Saturday night. It was given by Mrs. McGowan, and we hear that it was greatly enjoyed by all.

HISTORY CLUB—

The History Club met Tuesday, December 11. The program was continued from the last meeting which was based on "An Outline History of Transportation."

The Argosies of Venice—Harold Carpenter.

A Muddy World—Sybil Murrely.
The Triumph of Steam—Clara Estes.

B. B. B. CLUB—

The B. B. B's met on Thursday, December 6, and practiced on the usual songs with our harmonicas. We elected another officer, who was Verma Brothers. His office is to keep tab on the members, how many times they are there and if they had their Harmonicas or not. We still get better as the days pass by. Watch out for the B. B. B's to start buzzing pretty soon.

SENIORS—

The end of the Contest is just around the corner. It was decided Monday in the class meeting that the Seniors would win the Contest.

The president and sponsor gave enthusiastic talks, after which the class were more than determined to win.

During the last few minutes of the period the report cards were handed out. They showed a slight improvement over the last six weeks.

JUNIORS—

The Juniors received their report cards Monday morning and a decided improvement was noticed during the last six weeks.

As a surprise the Juniors received two dollars from their class mother, Mrs. Treadaway, to apply on the ticket selling contest, a prize which was appreciated very much by the class as a whole.

TOAST TO THE SOPHOMORES

Here's to the class with spirit and pep That will always be true to their good old rep.

In every sport they all take part And go in to win with their very heart.

To their dear old school they are loyal and true, And strive to win in whatever they do.

Here's to their sponsor who has helped them thru' snares,

Made good times brighter, and lightened the cares;

Each day with its trials and good cheer;

She always has a lending ear For each little trouble and fear, She holds every headache dear.

Here's to the Sophomores, best in the land,

In every contest they take their high stand.

They're out to win in every thing And will soon have their candidates crowned queen and king.

Auto Deaths Equal World War Record

The number of deaths in Texas due to automobile accidents during the past five years more than equals the number of Texans killed during the World War, according to a statement issued by the State Department of Health. Last year over twelve hundred persons met death in this manner and form the figures compiled so far for 1934 the number of deaths will be even higher.

Most of the automobile accidents occur on week-ends or holidays. This is a surprising fact since fewer pedestrians are abroad and traffic congestion in towns and cities is less on Sunday than on other days of the week. This paradox may be explained in part from having more inexperienced drivers on the road, together with their failure to observe traffic rules.

Some of the most frequent violations of traffic rules are: exceeding the speed limit, driving on the wrong side of the road, failure to give right of way, and running without lights. The observance of rules and regulations is not enough to prevent all accidents. The car itself must be in good shape, especially the brakes and steering connections. The common sense must be used in all situations.

The consequences of an automobile accident are so disastrous that no one can afford to stand on their legal rights in a situation of impending danger. Only if you have conceded such rights and have made every possible effort to avoid an accident, can you consider yourself blameless in case of accident.

Christmas cards are on sale cheap at the Herald office. We have just a few left from last year that we are going to close out at a real bargain. You boys that crave something in the comic line, will be pleased with our showing.

FORMAL OPENING

SATURDAY, DEC. 15th

To the people of Brownfield and trade territory, we wish to announce the Formal Opening of our Battery, Electric, and Tire Shop. Located just east of our Filling Station. We invite you to come around and give it a complete inspection. Everything is new from the equipment to the Bldg. We have Mr. Lonnie Johnson, formerly of Amarillo, employed as manager. Mr. Johnson has had ten years experience in general electrical work.

When we speak of electrical work we mean any kind of job pretending to electricity, no matter how big or how small the job may be. We feel the people of Brownfield and trade territory are fortunate in having such a shop in Brownfield, as we can give you as good service and meet prices as you can receive in any of the larger cities.

So remember when you have any kind of electric job or battery job, or need new batteries, or tires, come around and give us a trial. We will keep in stock a large supply of Monarch Batteries and Federal Tires. We also want you to come in and see the new Arvin Hot Water Heater and let us explain it to you.

Below we quote a few prices on Tires and Batteries now available. We will also give a 10% Discount on all Tires and \$1.00 exchange on old batteries on this day.

In planning your gift list for Christmas, we cannot think of a better and more useful gift than a new set of Federal Tires, or a new Monarch battery, or an Arvin Hot Water Heater. A gift that would benefit and be appreciated by the entire family.

Little Miss five-year old Francis Jane Wier is slowly recovering from a second operation that had to be performed inside a month. First she suffered ruptured appendix and then something like a week ago adhesions of the intestines set up.

Last Sunday Mrs. Will Adams and little son, Tom, left for Dallas to attend the funeral of Mrs. Adams' brother-in-law, Mr. Albert Long, who was killed in a car accident Sunday. Mr. Long was an attorney in Dallas, and leaves a wife and six children.

Mrs. T. L. Treadaway is remodeling her garage, having torn down the old one south and back of the house and putting the new one on the east side and facing the north.

Mr. and Mrs. Willie Hyman and family and Mr. and Mrs. Ira Hyman and little daughter, visited at Lubbock Sunday with Mr. and Mrs. Greene Thompson.

Those who crave a real battle between Class A teams should see the battle that will rage between Amarillo of District 1, and Big Spring, of District 2, on the Tech field tonight. Both are champs of their respective districts, and there is in promise some real thrills and spills.

Messrs John and Walter Gracey were called to Dallas Sunday morning to attend the funeral of their sister, Mrs. Goforth. Mrs. Goforth and family visited in Brownfield last summer.

GREATER MOTOR PROTECTION— LOWER OIL CONSUMPTION PROVED

At Indianapolis Motor Speedway, under AAA supervision (Sanction No. 3001), New and Improved Conoco Germ Processed Motor Oil was tested against five other nationally known motor oils.

Six identical stock cars were broken in on oils assigned them by lot. Each car was filled with five quarts of its assigned oil—no more added—and driven until the motor was wrecked.

New and Improved Conoco Germ Processed Motor Oil carried its car 4,729 miles—3,105.8 miles farther than the first oil to fail and 1,410.2 miles farther than the best of the five oils!

Could you ask for better proof of greater motor protection and lower oil consumption? Drive into a Conoco Red Triangle Station today and fill with New and Improved Conoco Germ Processed Motor Oil!

TRACTOR demonstration

See the New Allis-Chalmers Row-Crop Tractor do Actual Farm Work in a Sandy Field!

AIR TIRES

ALLIS-CHALMERS developed and introduced the air-tired farm tractor, and the Model "WC" tractor was especially designed use with air tires. With air tires, the Model "WC" will pull two 14-inch plows at 4 3-4 miles per hour, in average plowing conditions, easily. It will travel from place to place on the farm and over roads and streets at speeds of 9 or more miles per hour. It will do 20 to 25 per cent more

work per day than steel-lugged two-plow tractors. It will reduce fuel consumption by 15 to 23 per cent. It is vastly more comfortable to ride, and much easier to drive.

The measure of a tractor's value is judged by its usefulness. The Model "WC", with air tire equipment, is the most useful 2-plow tractor . . . and the most advanced in design . . . on the market today.

Demonstration will be held on the W. F. Banks farm, four miles west of Brownfield on the Tokio Road, Tuesday, Dec. 18th from 10 o'clock in the morning to 4 o'clock in the afternoon.

Our 23 Year Column—

We note in our issue of Dec. 15, 1911, that old Terry had some variable weather. First a good rain had fallen, and on Tuesday morn when the inhabitants arosed from their slumber, they found a three inch snow on the ground, and a good season. There was also an article on the front page about the peanut, its possibilities, advantages and disadvant-

ages in raising. A big effort was being made to get a daily mail line from Lubbock via Meadow, Brown Moore. Several Santa Claus letters appeared in the Herald. Uncle Billi Byrd and Lester McPherson were building a new residence for A. L. Walker 12 miles north of town. Tom May had won the Tacky Party contest given by Cortez McDaniel. Fred Morris of Fluvanna was loaning money from \$1,000 up on Terry county

real estate. Henry Pulliam and wife had moved here from Meadow. T. J. Carter was out from Jones county, prospecting. Sam Funderburk of Gomez was over on legal business. The merchants had their Christmas goods field, Gomez, Plains to Bronco, and we had been promised an inspector of the route right away, and we hoped to have it going by early 1912 Mrs. J. W. DeShazo, of Lubbock was visiting her mother, Mrs. J. H. Walter Yeiser was work-

ing at the Hotel and attending school. Mr. Sanders, county treasurer of Yoakum was over. Bert Ingram was a new reader. A lamp had exploded in the home of O. L. Turner, which burned their home.

Among those who wrote to old Santa, appear Aubrey Banowsky, Maude Eytel Banowsky, Esther and Edna Criswell, Ples Underdown, Helen Johnston, Addie Lena and Allie Mattie Hamilton, Grace Truman

Green and Victor Trammell, Jr. All for this week.

SHERIFF'S SALE

STATE OF TEXAS, County of Terry.

By virtue of an order issued out of the Honorable District Court of Bell County on the 26th day of November, 1934, by the Clerk thereof, in the case of H. C. Glenn, as Receiver for Temple Trust Company a private corporation, versus W. A. Webb, G. W. Snodgrass, S. J. Johnson and Katherine Johnson.

No. 21,161, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the FIRST TUESDAY IN January, A. D. 1935, it being the 1st day of said month, before the Court House door of said Terry County, in the city of Brownfield, the following described property, to-wit: 160 acres of land in Terry County, Texas, and being all the S. W. Quarter (SW-1-4) of Section 108, Block D11, Certificate No. 267, C & M Ry. Company, Original Grantee, patented to Geo. W. Snodgrass, and being the same tract of land conveyed by L. E. Ayers and wife, to W. A. Webb by warranty deed dated January 12, 1925, recorded in Volume 22 at Page 262 of the Deed Records of Terry County, Texas, together with all improvements thereon situated;

Levied on as the property of S. J. Johnson and Katherine Johnson to satisfy a judgment amounting to \$2,888.16, in favor of H. C. Glenn, as Receiver for Temple Trust Company, a private corporation, and cost of suit.

Given under my hand, this 4th day of December, 1934.

J. S. SMITH, Sheriff. (SEAL) 19c

Mrs. Chris Quante wants its distinctly understood that she—person ally—killed one of the deer we credited to Chris and his father last week. And she gave hint that these columns better not intimate that the deer was tied when she shot him, either. As Andy says to the Kingfish, "Shore! Shore! Shore!"

Mrs. L. J. Dunn handed in her renewal this week, but it was conditional on getting a pass to the Rialto for some show during the year. Well, we have a real job ahead, as she will have just 52 chances in 1,100.

Chamber of Commerce

J. E. Shelton, Secretary

The Brownfield Chamber of Commerce has been requested by the West Texas Chamber of Commerce to consider declarations of principles of the All-State Council of regional chambers of commerce adopted at the Waco meeting of the Council in October with a view to adopting the principles as the local chamber's policy also.

The request was received by R. M. Kendrick, the West Texas Chamber of Commerce director for Brownfield and J. E. Shelton, Secretary of the local chamber. It was sent by J. A. Rix, assistant manager of the West Texas Chamber of Commerce in charge of organizational activities at the direction of president James D. Hamlin.

The principles which the local chamber have been asked to adopt are as follows:

First: We stand for a championship of private business, industry, and ownership of property as the road to recovery, to which end we shall sponsor all Federal and State measures, which tend to lend encouragement and confidence to private business and shall oppose all measures and administrative acts which have or will destroy the confidence of business and capital and retard its welfare.

Second: We call for a rapid balancing of the Federal budget; for a reduction of the Government's extraordinary expense and for a drastic curtailment of existing and proposed Government Bureaus.

Third: We shall oppose every ef-

fort of the Federal and State Governments to go into business in competition with private and semi-private business. Although granting to the Government the right of regulation of public utilities, we oppose the Government destroying private investments by competing with utilities.

Fourth: With local and state Governmental liens already existing against a great portion of the tangible private property of the state with local public debts burdening property for many years to come and with greatly decreased property values and earnings, we believe that something must be done to relieve tangible property from a portion of the ad valorem tax—otherwise the private ownership of property will cease to be the cornerstone of American civilization and prosperity. We, therefore, call upon our Legislators to study the question of the burdens of the ad valorem tax as imposed by State, School, City and County Governments with the view of immediately lifting from property at least one-half of the combined ad valorem tax now levied.

Fifth: We recommend this Declaration of policy for the profound consideration of all local chambers of commerce in Texas and indulge in the hope that these local bodies will in turn officially adopt it.

Baptist ladies finished their week of prayer program last Monday when they met at their church at 3 p. m. Next Monday they will meet at the church at 3:00 and give all quarterly reports and wind up the year's work.

Phillips 66

I'll be seeing you soon As ever without fail; In a few days now, I'll be hitting the trail. With my toys for the kiddies And good tidings galore; I'll be coming this year Just as ever before.

I've made this visit For many a year With my two runner sled And my trusty reindeer. I've mad eit by auto By bus and by train, But I'm coming this year In an aeroplane.

But even in my plane I'd be in a fix, If I couldn't "Phill-Up" With Phillips "66"; For well you all know That up here where I stay, It's colder than blazes Both night and day.

And I'm grateful, too, For "66" Oil; For many an hour My motor must toil. In frigid climate And tropical lands, What terrible punishment This Oil Withstands.

So get yourself ready For a big holiday; The time draws near, And I'm headin' your way. An dso on Christmas Eve, When St. Nick calls on you; Remember that PHILLIPS Made that possible too.

Chamber of Commerce

Well: I have been called most everything and named every name and probably qualify for most of them but up to a few days ago I was never accused of being a preacher, but now I have that title attached to me, as an announcement of marriage of a Lubbock couple, which appeared in the Avalanche of last week, stated that the ceremony was performed by the Rev. J. E. Shelton. My wife got a big "kick" out of the article and proceeded to spread it over the town and as a consequence I have receive dseveral phone calls, asking when I was ordained as a Minister. I was not able to answer the question but will say that if there is any couple who desire the Rev. Shelton to perform a marriage ceremony for them, they will have to hurry and get it done before the first of the year as I will be out of the marriage business at that time and they will have to secure the services of the Rev. Dutch Burnett or some other qualified per-

son if they want to get the job done. In the vent that farmers and other interested persons are not clear as to the regulations covering the processing tax on hogs, we are endeavoring to explain it in a very brief manner. As of November 1st, any farmer may sell as much as 300 pounds, live weight, to a consumer without paying any tax, but where he sells to a market cafe or to any person for re-sale, the purchaser must pay the tax. On all above 300 live weight, sold to a consumer the farmer is subject to the tax.

We notice in the papers, where exhibitors in the dressed turkey show that was held in Plainview last week, won several premiums and that Mr. McLeroy was one of the winners. I judge that the name was misspelled and that C. J. McLeroy, was the winner, as he is a noted turkey raiser who keeps his flock up to the highest class by the addition of new blood and aside from that, was one of the leading turkey raisers in Haskell county before his removal here and we suspect that Mrs. McLeroy, had

something to do with getting the turkeys in shape for show purposes.

We may have mentioned in a previous article, but anyway, no harm will be done in repeating the story, and that is that we are going to get a survey on highway 84 through the entire county. This is the result of a trip that was recently made by Judge Barret and the writer to confer with Judge Ely of the Highway Commission, at which time he promised it to us and now the necessary papers are being prepared by the district engineer and it is expected that the local engineers office will be actively engaged in the work within the next few days. The above is just an opening wedge toward the further improvement of 84, which we are expecting to develop as soon as the CWA-PWA, program on No. 51 is completed and in connection with the latter, we have been assured that it will receive hard-surfacing treatment soon after the second coat of caleche has been placed.

No Cotton, Corn & Hog Checks

have been received within the last several days, but we are hoping that the remainder of the first cotton checks, first corn checks, second cotton checks and the parity payment will arrive sometime during the next few days. If they do not, a number of us will go short on Christmas money. Let us live in hope, if we die in despair.

Pleasant Valley News

A fair crowd attended the box supper at the School House Friday night. We had a Country Store in addition to the box supper. All donations were appreciated. \$32.50 was collected from the merchandise and Boxes.

The singing school started Mon. night December 10th, directed by the Stamps Quartet of Lubbock. They are also teaching music lessons, both on piano and guitar. They are charging extra for the music lessons, but the sum is small.

There was fair attendance at Sunday School Sun.
