The Official Paper of Terry County and the City of Brownfield.

Reported to have happened at a Relief office: A farmer came in and asked for shorts for his hogs. A young lady employ became indignant and told him that they would furnish shorts for him and his boys, but that the darned hogs could freeze so far as she was concerned.

It was an editor away "out west" who received a letter from an indignant subscriber saying: "I don't want my paper any longer." "That is right, I would not make it any longer if you did, because in that case I would have to buy a new press. The present length just suits me, and I am glad it suits you."—Ex.

The ginners' fraternity has been up in the air for the past year because they had to do bookkeeping and clerical work for the AAA cotton contracts they ginned free, and justly so. Now the Hon. Joe Eagle has introduced a bill in congress to pay ginners 25c per bale for handling this work.

Raymond Hamilton, the last real bad man from the southwest, meekly surrendered to the Dallas sheriff and deputies, and Fort Worth officers last Friday in the Fort Worth railroad yards. This after kidnaping a reporter at Houston some time ago and swearing he would sell his life dearly before he was taken.

There was an old lady from Wheeling who once in her garden was kneeling when, by some strange chance, she got ants in her pants, and invented Virginia Reeling.

A soap man was in to see us last week. He wanted a half page ad or more, and indicated that his firm was very desirous of local advertising in conjunction with the local merchants.

Believe it or not, we are told that one of our farmers living not very far from Rochester went into his cow lot the other night and by mistake mixed up a nice mash in a box full of saw dust instead of bran.

During the campaign for repeal of the Eighteenth Amendment, the wets cited as argument how repeal would cut down the number of inmates in federal prisons—vast numbers sent there for liquor violations.

The city election Tuesday was an exciting affair. The contest for Mayor between Huls and Wade was a horse race from start to finish.

claims he only acted in self defense. The whole matter may eventually be carried to the supreme court for settlement.—Jayton Chronicle.

The fearful looking election at Corpus Christi, that had city officials issuing statements to the press and sending messages to the state ranger authorities, was mild as milk.

Pretty well said, Mrs. Editor Hyatt. You seemed to have grasped the art of politics pretty well in your few years of voting and observing.

Anent the recent decision of the U. S. Supreme Court that the Democratic party in Texas had the right to say who could or could not be a member of that party, was of course meant to bar negroes from participating in the primaries.

AUSTIN, Texas April 9.—"Texas will unite with other states throughout this country on May 1, in the celebration of Child Health Day," stated Dr. John W. Brown, State Health Officer.

**Many Names Originated With Hebrews, Teutons**

Names are so intimately associated with personalities that their traditions, their derivations, and their evolutions from one language into another provide an absorbing topic—especially to parents seeking appropriate names for the most recent additions to the family circle.

In the dawn of history, in the Old Testament era, notes a writer in the Chicago Tribune, names conferred by parents on the eventual patriarchs of the Hebrews were descriptive phrases, which have been handed down from generation to generation. Thus Joseph was so called because he was not the first child, the old Hebrew translation of the name being "Addition." When Benjamin was born, his mother, Rachel, feeling that his birth must cost her own life, called him Benoni, meaning "Son of sorrow," which his father modified to Benjamin, interpreted "Son of my right hand."

Thus many names in use today originated in the old Hebrew tongue, being varied somewhat in spelling and pronunciation as they were adopted by other nations and races. Many more hark back to the Teutons and reflect meanings closely associated with the deities and the warlike spirit of the people who first used them. These include many references to battle and to animals. The various traits of the latter—strength or cunning or speed—were commemorated in Teutonic titles. Few names in this category were suggested by complexions, which frequently inspired the Keltic clans—"the ruddy," "the yellow," "the dark," "the white," being applied in numerous instances to distinguish a man or a maid.

**First Bank Started**

The first bank can be traced to ancient Rome, Greece, Egypt and Babylon. In the modern sense of the term, the earliest bank is probably that of Barcelona in Spain, which was established in 1461. In America there was little banking before the adoption of the Constitution. The first bank was the Pennsylvania bank, which commenced business on the 17th of July, 1780.

**Theater Seat Space Regulated**

District of Columbia regulations require that all theaters or public buildings with fixed seats must allow a space of not less than 2 feet 6 inches from back to back of chairs, with an aisle width of not less than 4 feet—this width to be increased with the increased size of the hall. Where there are no fixed seats, 8 square feet per person must be allotted.

**A Quiet English Village**

Who says the English countryside is absolutely ruined? West Ashton, in Wiltshire, is proud of its simplicity. It has no railway station, no "pubs," no policemen, no crime and none but voluntary unemployment. There's a bus from the nearest town every other week. There are electric lights along the roads, in the church and on several large farms. The cottagers are content with oil lamps. There's no real estate office.

**IT'S NOT ALWAYS EASY:**  
To apologize.  
To begin over.  
To take advice.  
To be unselfish.  
To admit error.  
To face a sneer.  
To be charitable.  
To be considerate.  
To avoid mistakes.  
To endure mistakes.  
To keep on trying.  
To forgive and forget.  
To profit by mistakes.  
To think and then act.  
To keep out of the rut.  
To make the best of little.  
To shoulder deserved blame.  
To maintain high standards.  
To recognize the silver lining.  
—But it always pays.

**E Pluribus Unum, Motto on U. S. Seal and Coins**

"E Pluribus Unum"—One out of many—is the Latin motto which appears on the obverse of the great seal of the United States. It is thus the "official" motto of the government, and by act of congress is also inscribed on the coins.

The motto was originally proposed on August 1, 1776, by a committee of three which had been appointed by continental congress to prepare a device for a state seal. The committee consisted, incidentally, of Benjamin Franklin, John Adams and Thomas Jefferson.

Their suggested seal was not accepted, however, and it was not until June 20, 1782, that the motto was adopted as part of the second and successful device, which was submitted by Charles Thompson, secretary of congress.

It was in 1796 that congress directed the employment of "E Pluribus Unum" on the coinage. On the great seal it is inscribed upon a scroll issuing from an eagle's mouth. It also appears on many coins.

The motto itself is an ancient turn of phrase, to be found in a number of the classical authors.

**DUST STORMS TAKE GOOD SOIL**

A Kansas professor has estimated that dust storms have robbed Western Kansas of 46,500,000 truck loads of rich soil.

Mesdames R. L. Harris, J. C. Hunter and C. F. Hamilton were Lubbock visitors Thursday of last week.

**RECEIVER'S SALE**

In the United States District Court for the Western District of Texas, Waco Division, No. 236 in Equity.  
J. M. HUBBERT VS. **TEMPLE TRUST COMPANY.**

Notice is hereby given that the undersigned, as Receiver for Temple Trust Company, has filed his application with the Clerk of the United States District Court in and for the Western District of Texas, Waco Division, for an order authorizing him to sell and convey to Atlas Life Insurance Company, 160 acres of land lying and being situate in Terry County, Texas, and being all of the Southeast Quarter (SE 1/4) of Section Six (6) Block D-12, in cancellation of said Company's claim amounting to about TWENTY THREE HUNDRED DOLLARS (\$2300.00).

Said application will be heard by the Honorable Charles A. Boynton, Judge of said Court after this notice shall have been published for a period of ten days and any person interested in said Receivership Estate may contest this application.

Witness my hand this 5th day of April, A. D. 1935.  
H. C. GLENN, As Receiver for Temple Trust Company.

**WILL BE GOOD CROP YEAR, SAYS UNCLE DAVE WELLER**

"This is going to be a good crop year," Uncle Dave Weller ventured to remark to the Review man Wednesday on the street. When asked on what he based his predictions he said: "Look at those black locust trees. They are going to be full of blooms and when they have lots of blooms we have a good crop year, is my observation for many years. Last year there were no blooms, consequently no crop."

"Another thing," Uncle Dave said, "is the continued sand storms. A good crop year follows sand storms in the spring.

Then he recalled other years similar to this one to prove his predictions.

"It will rain some in April, and then in May and June," he said. —Crosbyton Review.

Mesdames J. T. Auburg and Louis Blair were visiting and shopping at Lubbock Wednesday.

County Judge R. A. Simms, was unable to give us any reports on the other school elections this week. They will appear next week.

Mrs. Tom Cobb's brother, Gordon Cobb of Seminole, is very ill with pneumonia in the Lubbock sanitarium.

**Feed Crop Sprouting From Old Stubble**

J. E. Montieith and others farming in the Hart Wells community are going to have early feed crops without planting one grain of seed. Believe it or not, they already have crops of higar, cane, grohoma and sudan grass coming along fine, and just about a perfect stand, and they have not planted a seed in the fields where these crops are growing.

The new crop is springing from stubbles from last year's harvest and the growing plants are now about eighteen inches high.

Mr. Montieith states he planted the feed crops on his place in April of last year and harvested one crop in August and a second crop sixty days later in October. And now the stubble looks like it is going to produce two crops this year.

In the Montieith field there are 10 acres of higar, 6 acres of cane and 4 acres of grohoma, and if it keeps coming along as it has started he will be able to harvest an early feed crop.

Such freaks as this has never been noted in this section heretofore. While an occasionally stalk of cotton of grain sorghum stubble has sprouted the second year, this is the first time entire fields sprouted. The Hart Wells section had mighty little rainfall last year, but the soil is of a sandy nature and an excessive amount of rainfall is not needed to produce good crops.

The crops now growing from stubble will be watched closely to ascertain if this is to become a regular thing here. —Big Spring News.

**STAND ASIDE, MAGICIANS, LET THE PRESIDENT REBUILD**

"The country is going ahead. It is emerging from the depression greater than ever. And prosperity will be built by the same thing that has built everything worth while in the world—hard work."

"The American public knows this. It knows that Roosevelt knows. It knows that Roosevelt's plans are possible. So, enough of political clap-trap. Enough of promises that the homes, automobiles, clothes, food and luxuries Americans should have will miraculously be produced by wand wavers in America.

"Stand back, magicians, and let the work of rebuilding America under the President's guidance go forward." —Tacoma Times (Ind.)

Mr. and Mrs. Floyd Ledbetter visited his parents in Abilene and a sister and family of Mrs. Ledbetter at Snyder, over the week-end.

*Think..*

**only \$465\* for a New Chevrolet!**

*New Standard and Master De Luxe... in eleven beautiful body-types... all with valve-in-head engine... all providing the same basic Chevrolet quality*

TALK about value!... You certainly get it, in overwhelming measure, when you buy one of the big, beautiful, finely-built Chevrolets for 1935. Chevrolet prices are the world's lowest prices for a six, but that's only half the story, as you will quickly agree when you examine and drive a new Chevrolet. All of these new Chevrolets are the highest-quality cars in Chevrolet history... finely engineered... smartly tailored... precision-built. Their performance is a thrilling new kind of performance that would be considered

exceptional even if they sold at much higher prices. And they give this new performance with even lower gas and oil consumption than in any previous Chevrolet model. Visit your nearest Chevrolet dealer and get full information about the New Standard Chevrolet, with list prices of \$465 to \$550, at Flint, Mich. ... and the new Master De Luxe Chevrolet—the aristocrat of the low-price field—with list prices of \$560 to \$675, at Flint, Mich. **CHOOSE CHEVROLET FOR QUALITY AT LOW COST!**

WHY GIVE AWAY THE COMMODITY YOU SELL

Newspapers are accused of being mean and selfish because they cannot afford to give away space and work for every conceivable type of publicity.

BANK CLEARINGS AT NEW HIGH OF YEAR

NEW YORK.—Bank clearings in the week ended on March 20 were the largest for any week in the year to date.

Clearings here were \$4,166,235,000 or 13.3 per cent more than a year ago, while the aggregate of \$1,821,987,000 for centers outside New York was 15.8 per cent higher.

Mrs. D. J. Harris, of Meadow, was here Tuesday night to attend the P. T. A. Council.

Mr. and Mrs. Harvey Gage visited Mrs. Gage's mother at Levelland last Sunday.

Mrs. B. Tidwell of Quemado, Texas is visiting her mother, Mrs. Sam Jones, and family, here.

Dub Dickinson, New Mexico ranchman, was through last week to visit his wife and family, who are staying in Lubbock for school benefits.

Among the new readers added in the trade territory, are J. T. Clappett, Rt. 1; O. E. Brandon, Wellman; Tobe Howze, Rt. 1; N. A. Cooper, Meadow; Otey Howe, Rt. 2; R. L. Wassum, Meadow; West Side Cafe, city; Mrs. A. V. Black, city; A. M. Martin, city. Several others were ordered to go to other states.

Mrs. J. L. Randal is visiting her sister, Mrs. Chas. Randal of Seymour this week.

Vitamin Family Serves Mankind in Many Ways

Vitamin A is necessary for growth and reproduction; it maintains resistance to infections of different kinds, and promotes good health.

Vitamin B stimulates the appetite, helps lactation, prevents nerves becoming frayed, wards off diseases of the digestive tract, and helps ward off fatigue.

Vitamin C, first became famous because it was found to prevent scurvy. Since then it has been found necessary in building strong teeth and bones, promoting growth, good disposition, and general good health.

Probably the most famous member of the vitamin family is brother D, known to his friends as the Sunshine Vitamin.

The last of the vitamin family about which much is known is Vitamin G. The baby brother of the family, he helps the others in promoting normal growth and functions of the body.

Pitcairn Islanders Are Mutineers' Descendants

Pitcairn Island lies in the Pacific ocean at 25 degrees 5 minutes south latitude and 130 degrees 5 minutes west longitude.

The islanders are all descendants of the mutineers of the British ship Bounty which left England December 23, 1787, bound for Tahiti for the purpose of securing young breadfruit trees to be transplanted in the West Indies.

Leaving Tahiti in April, 1789, the Bounty went on to Anamooka where water, fruits, goats and other live stock were taken aboard.

The mutineers at first all returned to Tahiti. Some remained, but six of them were ultimately court-martialed in England, three being executed in 1792.

In 1808 this strange colony was discovered by the Topaze, an American vessel, and from time to time visited by exploring ships.

The island, a British possession, is governed by a council of seven members, with a president who acts also as chief magistrate, and a vice president who is also government secretary, subject to the control of the high commissioner for the western Pacific.

Grams, Ounces Measure Weight of Small Birds

The ruby-throated humming bird weighs between three and four grams (tropical hummers are both larger and smaller) according to the Montreal Herald.

Your Weight on Planets

If you weigh 140 pounds, you would be a giant on the sun. According to scientific computations, your weight there would correspond to 3,571 earth-pounds and you probably would have difficulty raising one of your 300-pound hands.

The Word "Gringo"

The Spanish word "gringo" originated among the Mexicans, but it has spread to all Latin American countries as a contemptuous term for citizens of the United States.

"Brand-New"

Before the streets of cities and towns were illuminated with lamps or electricity, it was customary for people to light their way at night by carrying burning torches.

Old Quebec

The old French city, the Quebec of the Seventeenth century and the ancient capital of Canada, and modern Quebec, the provincial capital, are two distinct and yet united cities.

Bonded Warehouses

There are two kinds of bonded warehouses, the term usually being applied to warehouses in which taxable wares may be stored.

Letters H, I, J and K of Phoenician Origin

Four letters of the alphabet, H, I, J and K, have had interesting developments. The first of them, H, was called het in the Phoenician alphabet, from which it passed into the Greek language.

The next two letters, I and J, are historically the same symbol. The letter J first appeared with an independent value of its own as recently as the Fifteenth century.

Perhaps the least change since earliest times of any of the letters of our alphabet is the symbol K. In the Phoenician K was named kaph, which in Greek became kappa.

Ranchmen in Oregon Use Wells as Weather Guide

In the desert-like regions of Oregon, the cattlemen put their ears to the ground when they wish to find out if rain is coming.

Birds Fly Upside Down

Ravens turn somersaults in the course of their aerial sports, for they are playful birds. At the moment of turning upside down, as if to celebrate the feat of flying, the birds utter a loud croak.

Smoke Frozen in the Sky

Messages in smoke, frozen on the face of the skies, may be a familiar feature of daily life soon. The airplanes producing these messages will work at a height of 20,000 feet, so that the pilots will have to wear electrical-heated suits.

Racketeering, Extortion

Racketeering and extortion are by no means a product of our own particular civilization, says Literary Digest. The American Museum of Natural History, New York, has just acquired a series of Mexican codices dealing with the period following the Spanish conquest.

First Negro Slaves

So far as the record shows, the first negro slaves brought to the English colonies in America were landed at Jamestown, Va., by the Treasurer, commanded by Capt. Daniel Elfrith, that sailed from England in April, 1618.

"The Southern Cross"

A pearl oyster found by pearl fishers in western Australia in 1874 was discovered to have formed nine pearls instead of one, and these were fastened together in the shape of a cross.

Demand For New Cars Swamp Auto Plants

DETROIT.—The seasonal rush to buy cars is getting "out of control" according to reports from automobile factories.

In spite of peak operations that are being expedited against steadily mounting orders, production is running far behind demand for new cars.

Wilton Smith, son of I. M. Smith, prominent Terry county farmer, who is attending a business college at Chillicothe Mo., was in the 880 yard relay race of the Cosmopolitan Club, and his team stood second in the contest.

Strawberry, "Strayberry," Known in Victorian Days

"No vegetable production of the colder latitudes is at all comparable with the strawberry in point of flavor." Thus wrote a well-known authority on fruit in early Victorian days.

The strawberry was brought under cultivation during the early part of the Nineteenth century, though some wise folk had attempted it on a small scale previously.

In the days of the expert quoted above, the cultivation of strawberries was largely carried on in London, notably at Cumberwell, and a little way out. Large quantities were grown at Isleworth and Twickenham.

It has been suggested that the strawberry owes its name to the straying habit of the plant. It was certainly pronounced strayberry in early times.

Memory of Smells Permanent. Sensations of smell and their mental effects are seldom lost by people, an authority declared after analyzing reports of over 250 distinguished people.

Crawfish Lures Bass

The crawfish, or crayfish as it is sometimes called, is one of the most important forms of bait for freshwater fishermen, being particularly attractive to bass.

Lighting the U. S. Capitol

Experiments in electric lighting in Washington began at the Capitol on November 20, 1878. The forty-sixth congress appropriated \$2,400 to light the building with electricity.

First Greyhound Race

The museum at the Guildhall, London, contains a cup which proves that even eighteen hundred years ago the Londoner was fond of greyhounds.

Feeding Calves

A small amount of grain and hay should be offered to the calf when about two weeks of age or when skim-milk is substituted for whole milk.

# LET'S GO, AMERICA!

Surveys show that America is "getting behind the wheel" in greater numbers this Spring than at any time for the past four years. And as a "Spring tonic" for motor cars, a revolutionary refining process is now being used to make a new kind of summer oil, it was announced here today.

A GAS turned into liquid under pressures of from 200 to 250 pounds per square inch plays a vital part in the revolutionary process perfected by the Socony-Vacuum Oil Company to provide motorists with a new kind of summer motor oil announced today. The new oil will be available this week throughout the country.

The gas transformed into liquid as a step in the new refining process is known as propane. Stored in two huge cylindrical tanks, it is powerful enough to blow up an entire town, yet it performs a most revolutionary development in the history of the petroleum industry.

The propane is liquefied by subjecting it to high pressures and then acts as a solvent which collects all of the valuable parts of the crude oil. Meanwhile, another solvent known as cresylic acid dissolves and settles the natural impurities present in even the finest crude petroleum, ridding it of carbon and gum forming elements. After the impurities have been carried away, the propane-oil mixture is permitted to reach room temperature and the propane, once more a gas, bubbles away.

The process insures for the first time an oil free from weak and unstable elements which burn up with engine heat. Motorists using the

new summer Mobiloil will be able to drive farther this season and spend less in oil purchases. The new summer Mobiloil has the highest resistance to gumming of any oil yet developed. After 100 hours of engine operation with old-type oils the engine valve chamber is coated with gum formed by impurities which the old chemical refining processes failed to remove from the crude oil. Gum causes higher repair and overhaul expenses for the motorist.

Road tests from Canada to Mexico in more than 100,000 miles of driving have given the new summer oil thorough practical tryouts. Such a hard-driving cross-country test as that staged by Harry Hartz, race driver, testifies to the high quality of the new oil, automotive engineers point out.

Two huge plants at Paulsboro, N. J., and Beaumont, Texas, were built especially to provide full production facilities for the revolutionary process perfected by Socony-Vacuum engineers after years of research and study on the new refining method. Chemists describe the new process as a physical one as contrasted with the chemical refining methods of filtration and acid treatment previously used. The new physical process separates the impurities from the rich lubricating oil without any chemical change in the oil at all.

### RAILROADS IN MARKET FOR NEW EQUIPMENT

NEW YORK.—The Seaboard Air Line has ordered 4 locomotive tenders from Baldwin Locomotive Works according to Railway Age. The

Atchison, Topeka & Santa Fe is inquiring for two stream-line-type mail and baggage cars. The Atlantic Coast Line has ordered 5,000 tons of rails from Tennessee Iron & Railroad Co. The Chicago & Eastern Illinois will air condition 30 parlor,

sleeping, and dining cars.

The less a man knows, the longer it takes him to tell it

Character is the sum of the affections.

### A Nursery School at Grammar School Bldg.

A nursery school is being operated in the Grammar School building by the federal government for relief

children and ex-service men's children. The Federal Emergency Aid is given for teachers salary and groceries for two part lunches and one full lunch daily. The town and county is aiding or supposed to aid, in equipment, etc. So far the P. T. A. is about the only organization that has functioned.

This school was made possible by Mr. P. R. Cates Relief Administrator, and Paul F. Lawlis, local superintendent of schools; and the equipment was made possible by work of men taken from relief rolls, under the supervision of Mrs. Ruth E. Baker, who is supervisor of the school. All equipment is home made, except a victrola donated by Mrs. Roy Wingerd and repaired by B. J. Gaither. The local merchants furnished orange crates which were made and painted, giving servicable and neat chairs. Miss Winston's sewing class made us sixteen nice floor pillow cases. Material was donated by the Parent-Teachers Association.

Our daily routine of work is as follows:

Inspection first thing in the morning by Mrs. E. E. Newsom.

Bath room and water, 9-9:30 a. m.

Supervised play by several pupils.

Part lunch 10:00 a. m.

11-12:00. Constructive work for concentration, such as cut work, drawing and story telling, and rhythm.

Lunch 12-12:30. (Supervised.)

Dressed and put to bed, 12:45-2:00 P. M.

3:00 P. M. Part Lunch.

We want visitors. All neighboring schools are invited any time except from 12:00 to 2:00 P. M., which is quiet hour. Mother's visiting hours 1 and 3rd Fridays from 2-4 P. M.

We are striving to form correct habits and build character and healthy bodies for these children. Will the town give us your cooperation? We need toys, dishes, shoes, and etc. If you will call me, I shall be glad to pick up any of these articles.

If you are not on relief, but just striving to stay off and the mother needs to work, your children are welcome free.

We take a few children from any home other than relief for a small tuition fee. Ask about details.

Teachers of this school are Mrs. Ruth E. Baker, and E. E. Newsom, and Miss Arlena Moss.

Mr. Darnell, who is head of the Federal Emergency Education Program in Texas, paid us a visit today (Wed.). He tells us what we have is good, but we must have more play equipment. He says if Brownfield will get behind this move, the school will probably be continued all summer.—Mrs. Ruth E. Baker.

From what we can learn, the harder lands to the north of us are blowing worse than our sandy soils this year. They had no rain to speak of last fall is believed to be the cause.

POWER ZONE

COMFORT ZONE

ECONOMY ZONE

V-8 POWER

With the introduction of the V-8 engine, Ford brought a new standard of performance to the low-priced field.

Comfort Zone Riding

Gives the ease, smoothness and comfort of a "front seat ride" even to back-seat passengers—an important engineering advance.

FORD ECONOMY

The 1935 Ford V-8 gives you the most economical car to operate Ford has ever built.

# Why take less?

FORD has always aimed to make the automobile-buying dollar go as far as possible.

This year, the 1935 Ford V-8 gives you traditional Ford low prices, traditional Ford operating economy—and, in addition, riding comfort, body roominess, new beauty and new safety features that will satisfy the requirements of almost everyone.

Consider some of the major improvements in the Ford V-8 for 1935. Take Comfort: From this standpoint alone, what a completely rounded car this is! Comfort Zone Riding that gives "front seat comfort" even to rear seat passengers. Deep cushioned, high-backed, wider seats. Big, air-balloon tires. Easier steering and a newly-designed clutch that responds to the touch of your foot.

Consider safety: There's safety glass all around—on all models—at no additional cost. A new, welded all-steel body. New, more powerful brakes, with an unusually high ratio of braking surface to car weight. And a lower center of gravity that gives increased safety and stability on curves!

Why be satisfied to receive less than this for your money? Examine this new 1935 Ford V-8. Ride in it. You'll realize that it is truly a new automobile value.

# Here Is True FARMALL POWER

reduced in size, weight, and capacity to take over the power problems on tens of thousands of small farms, and to serve as an auxiliary tractor on larger farms.

FARMALLS Now in 3 Sizes— a Size for Every Farm.

THE tremendous success of the McCormick-Deering Farmall tractors naturally created a demand for the same efficient Farmall power in a smaller size. International Harvester engineers have produced such a tractor.

The new McCormick-Deering Farmall 12 is the result. It has surprising power for its size. Weighing a little over a ton, it displaces four or more horses in field work. It handles all the operations in growing and harvesting all crops. Pulls a 16-inch plow bottom or two 10-inch bottoms.

It is an ideal tractor for planting and cultivating corn, cotton, etc., the capacity on these operations being 25 to 33 acres a day. Wheels are adjustable to a wide range of row spacing. The Farmall 12 is ready to middle bust, handle haying operations, pull tractor binder and corn picker, cut ensilage, grind feed, etc. Like every other Farmall, the Farmall 12 is a true all-purpose tractor.

Ask us for full details on specifications, equipment, etc.

**A QUICK WAY TO BETTER PAY**

The most important objective in any educational program is the ability to earn a good living. For in this modern age when there are so many things that require a substantial income, such as a car, good clothes, pleasant vacations, and facilities for entertaining friends, money has become more than ever a symbol of success.

Business as a career offers the shortest route to these laudible rewards. It provides early incomes, congenial surroundings, association with successful people, and broad opportunities for development of talent and culture.

It has therefore been the life-work of Draughon's Colleges to make it possible for young people to step into good incomes at the earliest possible time and begin the accumulation of a bank account that will gratify the wholesome desires of a happy life.

A new booklet, "Planning Your Future," describes today's inspiring opportunities in business and a proven method of securing good starting positions for graduates. Clip and mail for your copy today. Address nearest Draughon's College, Dallas, Wichita Falls, Abilene, or Lubbock.

**Will Visit Big Feeding Operations Here**

Dr. and Mrs. D. D. Jackson, 2404 Fourteenth street, have as their guests Mrs. Jackson's parents, Mr. and Mrs. O. A. Mills of Uvalde. Mr. Mills, a cattleman and banker, is a former county judge. During his visit, he plans to go to Brownfield to inspect the Hearst cattle feeding operations.—Lubbock Journal.

**Must Pay in Cash**

Notice is hereby given that I will take no more personal checks for car and truck registrations and tags. I must have the cash on the barrel head.

Tax Collector.

**WOODROW CHAMBLISS MEMBER LITTLE THEATRE**

WACO, Texas, April 9.—Woodrow Chambliss, student in Baylor university from Brownfield, was elected into the Baylor Little Theatre last night as a result of work done by him on certain dramatic productions of the past season.

**TWO TABLE CLUB ENJOYS A BREAKFAST—**

Mrs. Jack Stricklin Sr. was a very pleasant hostess to the Two Table Bridge Club Wednesday morning of last week at nine o'clock. Fresh strawberries with cream, pecan waffles, Brookfield sausage, maple syrup and coffee were served to Mesdames Kyle Graves, E. C. Davis, W. C. Smith, N. A. Hanson, John R. Turner, W. H. Collins, Arthur Sawyer, and Tom Cobb. Games of bridge were enjoyed after the breakfast. Mrs. Davis scored high and received an ice bowl.

**AMOMA CLASS MEETING**

The Amoma Sunday School Class had a meeting Sunday afternoon at the home of their teacher, Mrs. Ame Flache. In their business meeting some plans were made to increase the class membership, also to take flowers to a member of the class that is ill. They urge that all members of the class be present next Sunday, and are anxious to get new members.

**M. & M. CLUB**

Twenty-one members of the Maids and Matrons Club were the guests of Mrs. Garret Daugherty, Tuesday afternoon. Mrs. Wingerd was leader on the following interesting Forestry Program:

Landscaping the Small Home Grounds—Mrs. Stricklin.  
Poems About Trees (selected readings)—Mrs. Penn.  
Great Trees of Song and Story—Mrs. Moore.  
Our Forest Heritage—Mrs. Wingerd.  
A report was given by the delegate to the convention of Women's Clubs in Plainview. Mrs. Gilliam Graham was elected to membership on the waiting list.

**GRAVE HAS NO TERROR FOR MAN ONCE DEAD**

ARLEY, England, Feb. 9—A "dead" man has returned to life and health with a very satisfying impression of the "next world."

John Puckering, a market gardener, was "restored to life" on the operating table. Doctors certify that he was "dead" for four and a half minutes. One of them messaged his heart—"more from a sense of duty than with any hope"—and Puckering is now back at his work and in apparently normal health.

The old gardener is sorry this surgery worked.  
"What I saw during my brief spell of death," he says, "has made me re-

gret that I ever came back. I was surrounded by thousands of people all supremely happy, and among them were three that I knew. They nodded and smiled, so happily that I was overjoyed to be dead.  
"The grave has no terrors for me now. I realize that earthly life, sorrowful as it can be, is just a training ground for something fuller and better."  
Immediately after his revival Puckering called his daughter, a nurse, and told her he had seen her mother who died a year ago.  
Mr. and Mrs. Dick McDuffie visited at Fort Worth and Dallas and attended the races at Arlington Downs the latter part of last week.

**Weekly Church and Social Happenings**

Church of Christ ladies met Monday afternoon at 4 o'clock at the church. The class studied the 7th chapter of 1st Corinthians. Rev. Fry led a very interesting lesson.

Baptist were in three regular Circle meeting Monday. North Circle met with Mrs. Elco Evans north of town in a Bible lesson; Mrs. Hale led. Refreshments were served to ten ladies. South Circle met with Mrs. Tittle; Mrs. Will Adams led the Bible lesson. Refreshments were served to nine. Young Matrons Circle met with Mrs. Wayne Brown. Mrs. Auburg led a Mission program. Next Monday the Young Matrons plan to meet at the church at 10:30 in a covered dish luncheon. They will have a Mission program. All members are requested to attend.

Ladies of the First Christian church met with Mrs. E. D. Ballard for a continuation of the study of Revelations. After the Bible study they packed a large box of cookies to go to the Fowler Orphans home at Dallas. Next Monday Mrs. Simon Holgate will be hostess to this aid in a social meeting. There were six present Monday.

Mrs. John R. Turner was leader at the Methodist church in a monthly World Outlook program Monday P. M. Reports of different departments were made. The Society wants to thank each one that responded so

willingly to the dish shower they are sponsoring for the church. There were 18 present.

Mrs. Harrison Carpenter left Tuesday morning for Childress to attend the Methodist Woman's Annual Conference. She joined other delegates at Lubbock where a bus was chartered by women from Lubbock, Acuff, Brownfield, Levelland, Slaton, Canyon and Posy. Childress entertained this conference twenty-five years ago and a number of delegates that attended the conference then will be honor guests and will appear on the program, and reminiscences of the 1911 conference will be the feature of the Silver Anniversary session this week.

Last Friday the first Zone Meeting of this year was held at the Methodist church at Seagraves. Ladies attending from Brownfield were Mesdames Webber, Turner, Carpenter, Herod, Cook, Cox, Parker, Sharp and Rev. Tharp. The four former ones appeared on the program.

**MR. AND MRS. G. DAUGHERTY GIVE PARTY LAST WEEK-END**

Six tables were in play Thursday night of last week when Mr. and Mrs. G. Daugherty entertained friends at Bridge. Pear halves on lettuce leaves with cream peas representing Easter eggs, potato chips, meat and cheese sandwiches, iced tea and individual

chocolate pies were served to Messrs. and Mesdames E. C. Davis, Clyde Cave, Dick McDuffie, Mun Telford, Paul Lawlis, Bob Bowers, James H. Dallas, Roy Wingerd, Dube Pyeatt, Roy Herod, Mesdames Lester Treadaway and M. E. Jacobson. Linen guest towels were couple prizes and went to Dr. and Mrs. Davis and Mr. and Mrs. Cave.

**RECENT BRIDE HONORED WITH SHOWER**

As a courtesy to Mrs. Richard Chisholm, a recent bride, Mesdames Williamson, Wilson and Collier were hostesses to a number of her friends at a shower last Friday afternoon in the home of Mrs. Collier. Mrs. Bob Bowers gave a toast to the "Girls Left Behind;" Mrs. James A. Fry "Don'ts To The Bride;" Mrs. Webb "Do's to the Groom;" Carol Collier, Harold and Randal Fry said "Love's
