# The Terry County Herald

The truth about Terry County is good enough. An appreciated weekly that covers the territory thoroughly.

Printed in Terry County, on the South Plains, the last stand of the Cattleman and the future home of the most prosperous Farmers in the United States

VOLUME THIRTY

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, JULY 12, 1935.

NUMBER 48.

## Federal Funds For School Grounds Asked

Supt. Baze was in conference with P. R. Cates, local relief administrator Wednesday, the two making application for FWA funds for building walks and curbing around the school grounds. This application is to be pushed with all vigor until these funds are available, these men stated to a Herald representative.

Mr. Baze stated that Brownfield Independent school district had too much money invested in grounds and buildings to let them deteriorate in the least, and that was up to himself and the local school board to get these funds while they are available, and at such a low rate of interest.

Mr. Baze also seemed to be greatly concerned about the beautiful shade trees about the ground. Some of these, he stated have their roots exposed to the hot sun and winds, and while this condition exists there will be no growth, and the school stands a chance of them dying and losing them entirely.

Mr. Baze stated that after the curbs and walks are built, it will be an easy matter to fill in around those trees with exposed roots, and not only save them, but start them growing again.

It was later learned that the total sum of \$1980.00 had been applied for on this project.

## Austin & Hadin Get Highway Contract

Austin & Hadin of Houston, Texas who are hot topping Highway 51 from here through Meadow to the Hockley county line, were also given the contract to put the finishing touches, a triple asphalt topping on 51, from Wellman to the Gaines county line just this side of Seagraves. They were the lowest bidders when the bids were opened July 3rd at Austin.

It is our understanding, that as soon as the present job is completed, which will be in the next few days if weather remains good, they will immediately move their machinery to the new job. It was not stated whether they would start at the Wellman or Seagraves end.

Local relief workers are in the meantime slowly coming on from Wellman to Brownfield with the second coat of caliche, and are now in the vicinity of Lahey, six miles out. It is believed that the section from here to Wellman will be ready to let to a surfacing contractor by the middle of August or the first of September.

When the road from here to the Gaines county line is completed, Terry county can boast of some 38 miles of all weather road.

## Fry Completes First Year With Church

Jas. A. Fry, minister of the church of Christ has completed his first year in Brownfield, during which, the work of the church has gone forward with rapid strides. Not only has the membership greatly increased, with both morning and evening services better attended, but the Sunday Bible School has shown almost a 75 percent gain in attendance.

From what we can gather from the expression of the membership in general, they are asking, practically unanimously, that he be retained for another year's work here, providing of course he wishes to stay with the church. Not only is he popular with his church membership, but he has the good will and friendship of everyone in the city who is acquainted with him.

He soon goes into his summer meetings and revivals at other places, but will very likely return here in late summer for another year's work.

Warren Dodson, is the new postmaster at Snyder. He succeeds Mrs. Gladys M. Anderson who has been postmaster for five years.

H. R. Winston and family are entitled to a pass to the—

## A Real Systematic Clean-up Campaign

The curse of flies has to a great extent awakened the people of this city to the fact that it is far from a sanitary place in which to live and rear a family. We do not mean that Brownfield is any worse morally than any other town of this section, but that more filth is permitted in the alleys than any other place perhaps. The time was when Brownfield was considered one of the cleanest little cities in west Texas. Well, we did make our main streets shine like new money, but we permitted our alleys to become foul places in which flies delight to breed.

But there has been a decided change. The city fathers gave the city marshal free reign to clean up places and keep them clean that had been neglected by owners and leasees. All such fly breeding places have been cleaned up, and the owners and renters warned to keep them that way from now on or suffer fines. Weeds, tin cans and other refuse have been cut, piled and all burned that were burnable and the rest carted away to the dumping grounds.

The local relief office has shown a good spirit of cooperation. They promised the city administration 40 men if necessary, and as long as needed in the work of making the town more sanitary, and since the work started but just a little more than a week ago, there has been a noticeable decrease in the fly population each day. In the meantime, many of the business men have purchased fly traps, many of the large ones, and millions of flies have been trapped and destroyed since then.

T. I. Brown, buyer for the Babicora Development Co., has men over at the stock pens plowing up the manure, and harrowing it as soon as dry, and we have been informed that this will be carted out, piled and crude oiled in such a way as to keep any more flies breeding therein. The company has also promised that from now on these feed pens will be kept in a sanitary condition.

The only suggestion the Herald wishes to offer at this time, and that is that as long as they can get relief labor, which is free to the city, and costs the taxpayers nothing, why not have the back alleys built up with caliche to where they will drain, keep water from standing, and eliminate mud? It seems to us that this would be a fine plan, and we know that in the future it would be much easier to clean them and keep them clean.

The Herald wishes to commend the quick action of the city authorities in ridding the city of the breeding places of flies. They as well as we, know that some one is going to get miffed before this campaign is over, but the fellow who will subject 2500 people to disease and probably death in order to make a little more money for himself, is not worth much consideration, and not a tinker's dam to the town.

## Fauley Leases Land to Honolulu Oil Corp.

We had a letter the past week from Willbur F. Fauley, on the editorial staff of the New York Times, stating that he had recently leased his section of land 12 miles north of Brownfield and four west of Meadow, to the Honolulu Oil Corporation of Midland, Texas. He failed to state what he got an acre.

Editor Fauley stated that he stood ready at all times to help in the development of Terry county. This is a very fine farming section, and has been in the Fauley family for years, probably being purchased at the time Texas was giving land for railroad building in east Texas. He has made two or three trips here.

## Reed Leaves Lamb Co. For Conservation Post

R. C. Reed, for three months assistant county agent of Lamb County, left Saturday for Temple to join the Soil Conservation Service.

Reed, a 1928 graduate of the division of agriculture of Texas Tech, Lubbock, received his masters degree in 1933. He was salesman for a Fort Worth milling company for four years and acted as county agent of Terry county in 1933 before he took the Lamb county post.—Littlefield Leader.

Lawrence Stewart is visiting relatives at Cisco, Texas, this week.

## Swimming Classes Big Success, More to Start

Swimming classes that have been going for some eight days under the direction of M. L. Penn have progressed beyond the fondest expectations of the instructors. To date some sixty people have taken advantage of the opportunity to learn to swim or to improve upon what they already knew. So far the classes have been a huge success. Practically every person who has entered a class has learned something about swimming. In spite of the cool weather during the first few days of classes there has been almost one hundred percent attendance from the beginning. Almost everyone feels that his money has been well spent.

Due to demand from those who did not get to get in on the first classes and those who feel that they could learn a lot more in another series of classes, another series is planned to begin Monday, July 15th. This will be the last series for the summer. It is hoped that enough people will come to make this an interesting group as the one now working. Prices and time for the new class will be the same as for the old one; one dollar for eight lessons. The class will assemble at the swimming pool at seven A. M. If it is desirable the class will be at eight. Please get in touch with Mr. Penn if you contemplate entering this class. Visitors are welcome at all times.

## "Mississippi" Tuneful Film of Old Dixie

Bing Crosby, as Dixie's fiercest fighter and sweetest singer, heads the comedy, singing and romantic cast of Paramount's "Mississippi", which comes Sunday to the Rialto theatre. "Mississippi", a story of the old South, stars Crosby with W. C. Fields and Joan Bennett, while Queenie Smith, John Miljan, Gail Patrick and the Cabin Kids are prominently featured in the supporting cast.

The plot of "Mississippi" revolves about a Yankee youth, unfamiliar with the ways of the Old South, who declines to duel for his sweetheart's hand.

Branded as a coward, he finds refuge with old Commodore Jackson's troupe of actors as a singing attraction. Under the Commodore's tutelage, he becomes the most feared gunfighter on the river, and, just as he is about to return to the girl, he finds that he is in love with another lady who detests duelling.

Richard Rodgers and Lorenz Hart composed the four new tunes sung by Crosby in "Mississippi." They include "Soon", "Down by the River" and "It's Easy to Remember."

"Mississippi", adapted from the play by Booth Tarkington, was directed by Edward Sutherland.

## Big Beer Fight Was On Here Saturday

Ten cents a bottle and two mugs or scooters for 15c was the price of sodas here all day Saturday and Sunday. It was real hot and did they sell it. One dealer, Smokey Taylor informed us that he sold 135 cases of 24 bottles each.

Just what started the fight, we are not able to say, but understand that one dealer decided to clean up his stock of an unpopular brand by offering it at 10c per bottle. Other dealers seemed to have gotten the word that all brands were going at that figure.

By Monday the fight spirit seemed to have waxed old, and cooler heads got together for better prices.

## Cloud & Pace Buy West Side Cafe

A deal was consummated this week whereby Floyd Cloud and "Lucky" Pace became owners of the West Side Cafe, having purchased same from John Milner. Mr. Cloud is said to be one of the best cooks in the city.

The interior is being remodeled, and will be fitted up within a few days with a new stove, at which time regular meals will be served. Hereafter, only short orders have been served. When remodeling and redecorating is completed, it will be one of the nicest places in the city.

Bob Locker, who owns the building, is having the exterior repainted, which will also add much to its appearance.

## Cochran Farm Home Scene of Tragedy

LEVELLAND, July 8.—Two children, 9-months-old Geraldine Lyons and her 4-year-old sister Norma Ruth, were burned fatally when the home of their parents was consumed by flames about 6:30 o'clock this morning.

Their father, Berry Lyons, suffered burns of the arms and the head and face in rescuing the infant. His condition was believed to be not serious. The mother was suffering of emotional shock.

**One Dies in Bed**  
The younger child died soon after being brought by automobile to a physician's office here. The other child died in her bed.

The Lyonses lived 8 miles north of Whiteface in the eastern edge of Cochran county. They had only the two children.

**Saw Explosion**  
The father was preparing to milk cows near the house. He called to his wife, who was cooking on an oil stove, to bring some hot water to him to wash a separator. She took the water to him. They saw their house burst into flames, evidently as a result of an explosion.

Neighbors saw the house afire. They went to it and prevented the father from entering it again in an effort to rescue the other child. Neighbors later recovered the dismembered body of the child.

The injured father was brought here with his dying baby.

Mrs. Lyons was at a home here this morning.

## C. F. Andrews to Hold Baptist Revival

Rev. J. M. Hale, pastor of the First Baptist church in this city informed us this week that Rev. C. F. Andrews would hold their revival here this year, which will start in the city tabernacle if poachers can be ejected the latter part of this month to run two weeks.

Rev. Hale advised us that Evangelist Crimm, one of the most noted of Baptist revivalists, and an ex-cowboy, will hold the Baptist meeting here in 1936. Those who have heard him say he is one of the most interesting talkers they ever heard, and it is not hard to understand what he is driving at as he does not mince words.

Incidentally, we recently learned that Rev. Hale is giving up the work with the Baptist church in Brownfield, to become effective September 10th. Rev. Hale has been pastor there past four years, during which there has been a big increase in membership, and the Sunday School is now Class A, according to Southern Baptist Sunday School examinations and standards.

Just who is to succeed him, or where Rev. Hale and his excellent family aim to cast their lot, has not at this time been announced.

## All Relief Offices Under Federal Setup

AUSTIN, July 8.—Complete severance of rural rehabilitation work as a function of the Texas Relief Commission was effective as of June 30, it has been announced by Adam R. Johnson, state relief director.

On July 1, work of the rural rehabilitation department was taken over by the Resettlement Administration, and all employees from the rural department of the Texas Commission became federal employees, Johnson said.

Instructions from Harry L. Hopkins, federal emergency relief administrator, directed Johnson to transfer all funds and inventories of goods and chattels to Texas Rural Communities, holding corporation for the rural department, together with all books of account, files and records pertaining to the rural program.

Responsibility for all rural relief cases not accepted for rural rehabilitation prior to May 31, however, will remain with the Texas Relief Commission until they are dropped from the rolls or accepted on new works projects.

## MURRY THANKS PEOPLE

We wish to express our appreciation to the people who gathered at our farm and worked out the crop. We hope some day we may in some way repay such kindness shown us in our recent trouble.

S. J. Murry and family.

## Municipalities League To Meet in Austin

Texas' part in the Federal Four Billion Dollar Works Program will be one of the major topics for discussion at the 23rd Annual Convention of the League of Texas Municipalities at Austin, July 18 and 19, according to the convention program release today.

Convention sessions have been planned to acquaint city officials with recent developments in the Works Program and Municipal Financing, Mayor Max Starcke of Seguin, President of the League, announced. Representatives of approximately 600 incorporated towns and cities in Texas have been urged to attend.

The asserted purpose of the League of Texas Municipalities and its Annual Convention is "to make the government of the cities and towns of Texas a credit to the State and Nation."

The national Four Billion Dollar Works Program and its effect on Texas Municipalities will be discussed by Mr. H. P. Drought of San Antonio, state administrator for the Works Progress Administration, on the Convention's second day.

P. W. A.'s program in Texas will be detailed by Mr. Julian Montgomery of Fort Worth, State Administrator. The proposed \$30,000,000 highway building and grade separation program in Texas will also be discussed. The Convention's first day will be devoted largely to financial and tax relief problems of Texas cities and towns. City Manager R. G. Williams of Bryan, a vice-president of the League, will preside over a general session to such topics.

## Local Post Office Makes Healthy Gains

The local postal force inform us that the Brownfield post office made the highest or about the highest percentage of gain of any in this section, which includes the oil towns, in the past six months. While the local office was making a gain of approximately 20 percent in the past six months, most offices were barely holding their own, some losing, but a few of them making around 10 to 15 percent gains.

According to the figures given us, the Brownfield office made a gain of \$1092.89 in the first two quarters of 1935, a gain of approximately 20 percent over the same period last year. A substantial gain was registered the last two quarters of 1934, as compared with the same period in 1933.

Incidentally, we understand that quite a few—some 30 people—have made application to stand examination for the Brownfield office, but as usual, many of these may drop out of the race before the examination starts.

## Flagman's Condition Reported Favorable

C. M. Greenway, 57, flagman at a crossing on highway 51 near Wellman, who was struck by an automobile late Friday afternoon, was reported as "resting well and getting along nicely at the Treadaway-Daniel hospital this morning."

Mr. Greenway suffered broken bones in both legs below the knee, a broken left arm and many bruises on the arms, body and head.

A car driven by Ike Chaffin, son of Sheriff W. L. Chaffin of Crane county, struck Mr. Greenway who was attempting to flag them down. They brought the injured man here in their car. Sheriff Chaffin was in the car.

Greenway stepped into the highway near Wellman as the car approached the barricade, to wave them onto a detour. The driver said he did not see the man in time to stop.

## DRILLING BEING RESUMED ON OIL TEST IN PLAINS SECTION

PLAINS, June 29.—Drilling has been resumed on the oil test on the Bennett ranch, near here, after several delays.

Latest depth reported was 2,150 feet Thursday morning.

It is planned to change a rotary to a standard rig within a short time.

A group of musicians have gone on strike down in Mexico. It's just another instance going to show that while America is a mighty good country, we really don't have all the advantages.

## Most Car Buyers Prefer Knee-Action

Conclusive proof of the motoring public's demand for knee-action, demonstrating that buyers not only want it but are willing to pay the small extra charge for it, is presented in the Chevrolet Motor Company's announcement that only three per cent of the purchasers of its Master de luxe models, which may be had either with knees or with a conventional front axle, order the conventional type suspension.

William E. Holler, vice president and general sales manager, who announced the comparative figures, declared that the proof of the knee action acceptance is all the more positive because knee action requires an outlay of \$20 additional.

"When we announced, last January said Mr. Holler, "that knee-action would be optional equipment at a small extra charge, I underestimated the hold that the improved suspension had already taken on the motoring public. I gave out a statement estimating that 90 per cent of the purchasers of the Master de luxe models would order knee action. Instead, it is 97 per cent."

"This percentage is based on figures for sales beginning with March. Before that, we were not in heavy production on conventional axle Master models. In March, 97.2 per cent; and in June, 97.5 per cent."

## Local Banks Show A Healthy Condition

According to the call issued by the Comptroller of Currency at Washington, and the Banking Commission at Austin, dated June 29th, the two banks at Brownfield show an unusually healthy condition for the time of year. Indeed, the statements would answer as a very good mid-fall harvest statement two and three years ago.

We are printing the full statements in this issue, but the figures we are using are taken from their condensed statements. In the condensed statements, the cotton loans are really cash or quickly available cash assets, as it is government cotton contracts. But this item has to show as loans in the regular printed statements, when as a matter of fact they are cash items.

Below, we give you the totals of Resources, Cash, Loans and Deposits of the two banks:

Resources	\$ 797,318.76
Cash & Available Funds	476,480.42
Loans	269,130.12
Deposits	671,309.29

## Hearst Cattle Shipped Out of Here Recently

Eighty-eight cars of cattle were shipped from the feeding pens of the Babicora Development Co. here to markets of the mid-west, the southwest and California, during June, a check of reports shows. There were 2,901 head shipped out.

Shipments included: 13 cars, 408 head to Fort Worth; 10 cars, 321 head, to Kansas City, Mo.; 20 cars, 611 head, to Fort Worth; seven cars, 247 head, to Fort Worth; 10 cars, 335 head, to Los Angeles; 11 cars, 366 head, to Fort Worth; five cars, 170 head, to Fort Worth.

Animals weighed between 800 and 900 pounds, although there were several shipments of steers that ranged between 1,000 and 1,100 pounds.

Prices, according to brief reports here, averaged around \$9 per hundred. Top price reported was \$10, with most of them ranging \$8.50 to \$9.75.

## BASEBALL GAME SUNDAY

There was a close baseball game here Sunday, between Brownfield and Ropes. The game went 10 innings, being tied 8 and 8 at the close of the 9th. Brownfield succeeded in making a run in the 10th, making the score 9 and 8, Brownfield.

The local boys have won several games already, and with a little more practice, they should develop a first team. We understand it was the first defeat of the season for the Brownfield team.

Tahoka will be here Sunday noon to meet the locals.

Tom Glover and family of Texas, were here last week relatives. Tom is working in a store in that city.

## FLIES and FEVER

We wish to announce that we have on hand a supply of typhoid serum from the State Board of Health, which will be given free to indigents (needy people) only. Any person in the state of Texas runs a risk of typhoid fever if not inoculated every two years.

The sources of typhoid infection are human carriers, milk, other foods, contacts with sick patients, and flies. About one person in a thousand is a carrier and may be so for years. 25% of carriers have never had the disease. About 80% of carriers are females. Water is the commonest source. We have proved here in Brownfield that a tank without a cover is a dangerous thing, no matter how high above the ground. Live-stock near a well constitutes a danger. Likewise waterholes around a well, or an out-door toilet may have an under-ground passage into the well.

As to milk borne infections, one has to consider not only milk but also butter, cream and buttermilk; all of which may contain large numbers of bacteria. Vegetables such as celery, lettuce radishes account for only an occasional case of typhoid. Contact infection with patients occurs. However, in any case the infection has to be swallowed.

In order to exterminate the fly; the most successful way is to exterminate the breeding places, rather than work on the mature fly, since the life cycle is only three weeks. We are taking steps here in Brownfield to clean up the worst places. Some of the smaller breeding places, i. e., small cow lots, etc. are too numerous and scattered for the city department to contact every one. However we appeal to the people to clean these or report them to us. The most successful way is to clean out the lots, turn the dirt over for drying, and place lime on top.

CITY HEALTH DEPT.

## Second Payment Checks Being Received

The county agents office has received all the second payment on the Certificates that were pooled. They are anxious for the producers to call for them. If the producers wish to pool the unsold portions of Certificates he may do so by signing Form No. B. A. 201 B which transfers the certificates to a Special Pool. This Special Pool stays open for 120 days and the certificates will be sold for 5c (five cents) per pound. The producer has fifteen days from the 9th of this month to pool the certificates, or until the 24th. The producer may also pool what surplus certificates that he might have on hand now.

The number of checks and the total amount of this second payment is as follows:

No. of checks	649
Total amount	\$9,814.08

## Holiday Fatalities Reach Total of 316

CHICAGO, Ill., July 5.—The lives lost as a result of the Nation's celebration of the 159th independence anniversary stood at 216 Friday night. Fireworks killed seven at various points, there were still critical cases of fireworks injuries which might raise the death list.

Drowning totaled ninety, the heaviest from a single cause. Automobile deaths totaled eighty-three.

The Midwest led in the number of holiday fatalities with ninety-four, of which fifty-four were drownings. The New England and Mountain States reported ten deaths each, the Mid-Atlantic group thirty-one, the South twenty-eight, the Southwest twenty-nine and the Pacific Coast fourteen.

## HOT WEATHER HINTS

Don't eat anything.  
Chew your food thoroughly.  
Don't drink any ice water.  
Boil all water before putting ice in it.  
Let your wife have her way.  
Give your thermometer to your worst enemy.  
Avoid excursions, vacations picnics and parties.  
Avoid strange dogs and your wife's relatives.  
Don't discuss any of the following subjects: heat records, the humidity average, the NRA, the AAA, our foreign trade, crop curtailment etc.—Exchange.

The Official Paper of Terry County and the City of Brownfield.

The old saying that an idle brain is the devil's workshop still holds good. The busy man has no time to plan or think of meanness or to propagate little old mean, undermining tricks on their neighbors.

A few weeks ago, the Clarendon Leader got on our neck for what they termed an ad in these columns for a mail order concern.

The big subject of conversation these days is the heat and flies. Of course everyone wants to ask you if it is hot enough for you, but the biggest bellyachers of the lot is the town folks who sit or stand all day in the range of electric fans and the "sweaters" who "run the government" over at the courthouse park benches.

We had many, many compliments on our fly articles last week, and they were not confined to any walk of life. Those words of commendation came from those who have spotless premises. They came from those who are generally accused of being responsible for the fly epidemic.

Taint often that we elucidate any sympathy toward Sharley Shurnal Guy, but when some Lubbockite jumped on him recently because he gave the Lubbock banks a little send off, our old heart went out to Sharley in a big way.

The things that one man can accomplish depend on the man himself, not on the job he holds or the spot he occupies. There died in Arizona the other day a man named Anson Hubert Smith who had spent 53 years as an editor of a small-town news paper in the far southwest.

Many years ago Smith saw the tremendous possibilities of harnessing the waters of the Colorado river. He began to agitate for it. He talked it up in season. He saw his ideas take hold of other men's minds—and at last, before he died, he saw it take actual shape in the form of one of the world's greatest engineering works.

A LONE MAN AND HIS IDEA

The things that one man can accomplish depend on the man himself, not on the job he holds or the spot he occupies.

There died in Arizona the other day a man named Anson Hubert Smith who had spent 53 years as an editor of a small-town news paper in the far southwest.

Many years ago Smith saw the tremendous possibilities of harnessing the waters of the Colorado river. He began to agitate for it. He talked it up in season. He saw his ideas take hold of other men's minds—and at last, before he died, he saw it take actual shape in the form of one of the world's greatest engineering works.

Mr. and Mrs. Pope Pool spent the 4th in Big Spring visiting relatives.

I see a young couple sprawled on a lawn. He is coatless, tieless, sockless and shirtless and his sandals are untied. He never wears a hat. Why dang him, he is getting real enjoyment out of life. The girl is almost undressed as compared with 30 years ago.

We used to believe that it was right and proper for the government to tax any citizen in proportion to his ability to pay during his life, but should allow him to die in peace. After watching the antics of heirs of the extremely wealthy, we are about to join the forces of those who would practically tax out of existence the large fortunes when the owner dies.

Special privileges to none, equal privileges to all—that's sound doctrine. And yet, because some men have the ability to use all their privileges, they pass to another. There can be no waste in this realm.

As the program for the paving of state and federal highways advances more and more attention must be given to lateral roads. There are many, many thousands of miles of local and county roads in Texas that need to be lifted out of the mud or out of drifting sands.

SHERIFF'S SALE

The State of Texas County of Terry. Notice is hereby given that by virtue of a certain judgment issued out of the Honorable Justice Court of McLennan County, on the 24th day of February 1935, by H. B. Jones received judgment of said Wm. E. Peters for the sum of Seventy-five (\$75.00) Dollars and costs of suit, under a judgment, in favor of H. B. Jones in a certain cause in said Court No. 30222 and styled H. B. Jones vs. Wm. E. Peters, placed in my hands for service, I, J. S. Smith as Sheriff of Terry County, Texas, did, on the 10th day of July 1935, levy on certain Real Estate, situated in Terry County, Texas described as follows, to-wit:

ence being made to said deed records for better description of said property. SECOND Tract, being 75 acres of land in a square block located and being at the Southwest corner of Section 127 in block "T" lying and being in the County of Terry, Texas and being the same property sold by D. Y. McDaniels as trustee to E. L. Torrance, said trustee deed being recorded in the deed records of Terry County, Texas, for better description of said property reference being made to said deed.

And levied upon as the property of Wm. E. Peters and that on the first Tuesday in August 1935, the same being the 6th day of said month, at the Courthouse door of Terry County, in the State of Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said judgment and order of sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Wm. E. Peters.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Terry County Herald, a newspaper published in Terry County.

Witness my hand, this 10th day of July, 1935. J. S. Smith, Sheriff, Terry County, Texas.

SHERIFF'S SALE

The State of Texas County of Terry.

Notice is hereby given that by virtue of a certain judgment issued out of the Honorable Justice Court of McLennan County, on the 29th day of July 1931, by J. S. Dansby received judgment of said Wm. E. Peters for the sum of One Hundred and Seventy (\$170.00) Dollars and costs of suit under a judgment in favor of J. S. Dansby in a certain cause in said Court, No. 29991 and styled J. S. Dansby vs. Wm. E. Peters, placed in my hands for service, I, J. S. Smith as Sheriff of Terry County, Texas, did, on the 10th day of July 1935, levy on certain Real Estate, situated in Terry County, Texas, described as follows, to-wit:

Being 295 acres of land, more or less, out of Survey 127, Block T, of the D. W. RR company Surveys, Certificate No. 73, in Terry County, Texas, and being all of said survey lying N. or N. W. of the right of way of the South Plains and Santa Fe Railroad Company, except 75 acres in the N. W. corner of Survey No. 127, heretofore purchased by E. L. Torrance, and except 75 acres of the N. E. corner of said survey No. 127, heretofore sold by Wm. E. Peters to Jas. R. Jenkins, I. Mack Wood and N. B. Brown by two separate deeds, one being recorded in Vol. 39, page 222, and the other in Vol. 44, page 416, both of record in the Terry County Deed Records, the land here levied on being described by metes and bounds as follows, to-wit:

BEGINNING in the North line of survey No. 127, and 2025.18 feet West of the N. E. corner of said Survey; Thence South 1807.5 feet along the S. W. line of the land owned by said Jenkins, Wood, and Brown to their S. W. corner; Thence East along their South line 1430.18 feet, more or less, to the North or N. W. line of the right of way of said railroad; Thence in a southwesterly direction along the N. or N. W. line of the right of way of said railroad to where same crosses the South line of said Survey No. 127; Thence West 1660.6 feet along the South line of said survey No. 127 to the S. W. corner of said Survey; Thence North 3472.5 feet, more or less, along the west line of said survey to the S. W. corner of the 75 acres owned by E. L. Torrance for the N. W. corner of this; Thence East along the South line of said Torrance tract 1807.5 feet, more or less, to his S. E. corner; Thence North along the east line of said Torrance

BROWNFIELD STATE BANK Brownfield, Texas Conservative-Accommodative-Appreciative

Rev. and Mrs. Tharp and Lawrence Stewart visited in Post the 4th of July.

Mrs. Voria Myatt and children went to their home in Lubbock Wednesday after spending three weeks here with her parents, Mr. and Mrs. R. L. Pounds.

E. B. McBurnett came in Monday from Mangum, Okla., to join his wife and son in visiting their parents, the A. M. McBurnett's and R. L. Pounds.

Mr. and Mrs. Wayne Brown are spending a three weeks vacation in Mississippi with his parents.

Nelda Jim and Ina Bea Hicks of Tahoka spent this week with their parents, Mesdames R. L. Pounds and L. J. Dunn.

Mesdames W. H. Collins and J. L. Cruce were Lubbock visitors Wednesday.

Mr. and Mrs. Tom Price are visiting his brother, Dr. Price at Graham.

Mr. and Mrs. J. D. Webb of Post visited their son and family, Mr. and Mrs. Alton Webb, Tuesday.

Rev. W. M. Pearce, presiding Elder of the Lubbock District of the Methodist church conducted the third quarterly conference at the Brownfield Methodist church Sunday night.

Everett Latham and family of the Stephens-Latham Dry Goods Co., returned from Bowie, Texas this week, where they spent several days visiting relatives. He reports a nice time, but a rather warm one.

Mary Frank Davis of El Paso is visiting Mary Dee Price this week.

Mr. and Mrs. Jay Barrett are spending their vacation at Galveston and in Louisiana.

DRIVERS' LICENSE LAW URGED BY EXPERTS

In 1934, there were 36,000 fatalities and almost a million injuries from automobile accidents in the United States. This human slaughter, according to Roy F. Britton and Sydney J. Williams, safety experts writing in the current Rotarian magazine, can be materially reduced with the further adoption of a standard driver's license law.

"Fully three-fourths of all highway fatalities and injuries are due to the heedlessness, recklessness, or criminal behavior of the driver," says Mr. Britton who is director of the National Highway Users Conference. "A variety of other factors are involved in accidents. But the driver is the key to the solution."

"In a state without a driver's license law, it is perfectly possible for a man convicted of manslaughter today to be operating an automobile on

the highway tomorrow. Manifestly then, the power to suspend and revoke a driving license is a potential weapon for the protection of the people and the promotion of safer conditions."

"At the present time in the United States," he continues, "thirty-two states and the District of Columbia have driver's license laws. On the basis of population, registration, and more important still, the consumption of gasoline, the record of these states over a period of years is substantially better than the record of non-licensing states. The experience data are in favor of a driver's license law."

Mr. Williams who is director of the Public Safety Division of the National Safety Council holds that examination should be the prime requisite of licensing. Scientific studies show, he states, there are three especially dangerous types of drivers, many of whom should be eliminated by examination. They are:

"First, those who are seriously sub-normal in mind or body—the feeble minded, the epileptic, the nearly blind and so on. These should be kept off the highway before they kill someone. Second, a large number who just don't know how to drive, even though they think they do. Third, the accident-prone drivers—roughly equal in numbers to the other two groups combined—who are sound in mind and body, who know how to drive but don't care enough."

Miss Ruth Jones of Dallas is visiting Mr. and Mrs. Harvey Gage.

Flies Spread Disease Says Health Department

AUSTIN, Texas July 9.—Flies spread disease. They are reared in filth and through life make frequent trips from filth to food. Germs causing dysentery and other intestinal disorders are transported on the hairy feet of flies. These insect pests are regarded as having played a leading part in causing food-borne epidemics of typhoid fever, stated Dr. John W. Brown, State Health Officer.

Flies multiply rapidly as soon as warm weather comes to stay. A female deposits more than a hundred eggs at a time in organic material such as manure or in insanitary outdoor toilet. The life cycle from egg to larva (maggot), to pupa, to adult male or female fly requires but ten days. A week later, fifty females, under favorable conditions are ready to deposit a total of 50,000 eggs. During the summer season, nine generations of flies may result from one female that laid the first batch of eggs in the spring. It is estimated that if the offspring of a single overwintering female were to survive through nine generations, descendants in the fall would number over five and a half trillion.

Fortunately, modern sanitation and knowledge regarding the life history and habits of the house fly render possible complete control over the fly nuisance. Proper disposal of human and animal waste in urban areas and on the farms will prevent the breeding and multiplication of flies. Practical suggestions relative to methods of fly control may be obtained from the State Department of Health and U. S. Department of Agriculture.

IT'S NONE OF OUR BUSINESS

Pleas of Emperor Haile Selassie, of Ethiopia, that United States take a hand in his difficulties with Italy were met as they should have been met by our State department—with a firm, but polite "No."

Reason: The trouble is none of our affair as a nation. The Avalanche-Journal hasn't a doubt that the majority of American citizens sympathize with Ethiopia, as if Duca grasps with a mailed fist at the African nation. But most of us likewise sympathize with China as she is being gobbled little by little by Japan, yet we have not yet seen fit to officially intervene.

A glance at a terrestrial globe shows that Ethiopia is more than a third of the way around the world from us.

Further, we have no possessions likely to become involved in the Italo-Ethiopian mess and no great Ethiopian business interests which might be used as an excuse for mixing us up in the affair.

Where, then could we have gained by taking a hand?

No one thought the assassination of an obscure and already forgotten archduke on June 28, 1914, would ever involve this nation into a great conflict. But it did.

Most people today can see no reason why American interference in the trouble in Africa will lead us into

war—but it might.

So why take a chance?

It appears to us that the United States has enough trouble here at home without stepping across the world to dig up more.

It further occurs that we will do better to bend our talents toward the solution of our internal economic problems, rather than to dissipate official strength and thought on something which affects us but remotely, if at all.

Secretary Hull has marked himself not as a "statesman" in the generally accepted term, but as an official empowered to speak for his people who, through him, are expressing their opinion.

He is right in saying "let's clean up our back yard before starting out on other people's property!"—Lubbock Avalanche.

Gomez News

There was a good crowd at Sunday School and preaching Sunday morning. We are very glad that a number of our old members are coming back in our midst.

Rev. Shepard, of Brownfield, delivered an inspiring message at the Baptist church Sunday morning. We were indeed grateful to Rev. Shepard for bringing his father, who conducted the song service.

The Gomez community celebrated the 4th of July with a picnic at the H. R. Franklin home. Everyone reported an enjoyable day.

Misses Edna Belle Earnest and Iva Lee McLeroy visited Miss Edna Odum Sunday.

Mr. and Mrs. V. V. Brown and family visited in the J. T. Trolinger home Sunday.

Mr. and Mrs. R. Decker and family visited in the J. E. Lee home, Sunday.

Mr. and Mrs. Leonard King and family visited in the C. J. McLeroy home, Sunday.

Miss Orlena Ball spent Saturday night with Miss Winna McDaniel of Seagraves.

Mr. and Mrs. Newsome and little son, of Stanton, were guests of Mr. and Mrs. W. J. Carter Saturday night.

Rev. W. L. Wright and wife, Mr. and Mrs. Lester Saswell, of Loop, and Mrs. W. P. Montgomery and children spent Saturday night with Mr. and Mrs. J. W. Ball.

Mrs. Isaac Lloyd, Mr. A. J. Lloyd and daughter, Maurice, were dinner guests in the McCoy home Sunday.

Mr. and Mrs. D. A. Key and family visited in the W. M. Goldston home Sunday.

Mr. and Mrs. G. G. Graham and Mrs. M. V. Brownfield, who are vacationing in northern states, spent the last week-end camping at Starved Rock state park, near Ottawa, Ill., where recreation may be had in a territory covering nearly 1,000 acres, scene of dramatic events in early American history.—Ottawa Republican-Times.

Mrs. Brock Gist and son, and Mrs. J. O. Marvin (nee Zilpha Gist) and daughter, left last week for their home in Anaheim and Ramona, Calif., respectively. They had visited in the home of Mrs. Gist's parents, Mr. and Mrs. Noah Bell of the Needmore section, as well as other Texas and east New Mexico friends.

Mrs. Stricklin and son, Jack Jr. and wife, and Mrs. Stricklin's sister, Miss Ruth Holden of Redlands, Calif., and Adolphus Smith of Glendale, Ariz., saw the Carlsbad Caverns Monday.

Mr. and Mrs. Clarence Hudgens and the two boys left Sunday on their vacation to San Diego, Calif., and up the coast to San Francisco, and home via Salt Lake City and Denver.

Miss Lela Duke, assistant cashier of the State Bank, is vacationing with her sister at Dallas, who is the mother of a new niece of Miss Lela.

Joe McGowan, county attorney and wife and son, Billie Joe, are expected in most any day now from a vacation spent principally on the coast of California.

Mr. and Mrs. Roy Wingerd and Marion are vacationing along the coast of California.

The Collins D. G., and Palace Drug Store sure shine up since their new coat of paint, and other decorations.

A new residence, seemingly a five or six room affair from the outside appearance, is about complete in the Santa Fe addition. We failed to learn who was building it.

Fred Hinson underwent an operation for the removal of his appendix at the local hospital, Monday. While inflamed, the organ did not appear to be in any immediate danger of eruption.

A. L. Stephens was down from Lubbock over the week-end looking after the store during the absence of Mr. Latham.

Move to Save Money For Motorists Spons'd 15 Ways To Cut Gasoline Waste Offered by Dr. Paul D. Foote, of the Gulf Refining Co. "It has been my contention for years that car owners spend too much money for gasoline," stated Dr. Paul Foote, executive vice-president of the Gulf Research and Development Corporation, today. "So we decided to do something about it. "The result is the booklet, '15 Ways To Save Gasoline Money'. It might seem a simple matter to prepare the data. It wasn't. I had six of my officials in the research division of the Gulf Refining Company scratching their pens and their heads for day and weeks. Probably 40 or 50 various ways of saving gasoline were proffered and discussed. Some of the methods depended on isolated conditions. Some of the methods were eligible to question. All these were eliminated. "In the form in which it is being offered to motorists at Gulf service stations today, the booklet is really fool-proof. It contains 15 simple yet effective ways to save gasoline money. A number of them, such as the parking hint are logical little tricks which the motorist can observe by himself. Others such as the proper inflation of tires, can be secured at Gulf service stations free of charge And the rest, such as the part played by carburetion, depend upon competent attention by expert mechanics. "It may seem amazing that a refiner of petroleum products should assume the responsibility of advising motorists how to save gasoline, and consequently buy less gasoline. Yet Gulf's reasoning is, or should be, obvious. Motorists will buy less gasoline, if they observe the hints given in the booklet, '15 Ways To Save Gasoline'. But they will appreciate the service rendered by the Gulf Refining Company, and more of them will drive into our stations under the Sign of the Orange Disc. "Frankly, I am rather proud of the part played by the Gulf Research and Development Corporation in preparing and publishing this long-needed booklet." Ned Self has been appointed by the school board to fill out the unexpired term of E. L. Redford, who has been on the board and made a mighty fine member for some three or four years. Mr. Redford's son, Terry, has recently been elected as principal of the junior high school, and for that reason, Mr. Redford had to resign. Mrs. L. L. Brock of the Union community, underwent a minor operation at the local hospital Wednesday.

2:30 Classes as the day before.

3:30 Adult Bible Class.

4:30 Business Session.

5:30—Dismissal.

McGraw Announces

FOR SECOND TERM

DALLAS, June 24. — Attorney General Wm. McGraw today announced for re-election, second term thus dispelling the belief that he would run for the U. S. Senate against Morris Sheppard.

**COURAGE IN ADVERTISING IS NEED OF RETAILING**

The only shackles retailers wear today are the ones they have fastened on themselves—shackles of fear, of inertia, and of mental laziness executive and assistant to the president of Gimble Brothers, in the current Rotarian Magazine.

"I can name only one daring move in the whole field of retail advertising this year. One single interesting, exciting experiment," he says in an analysis of what's wrong with retailing. "Advertising, the normal motive power in business, has become all clogged up with doubts and fears. It's pretty nearly ready for Dr. Freud and his psycho-analytic brethren. I can name only two or three really outstanding sales-producing campaigns in national advertising. A few years back almost anybody could name hundreds.

"Did these exciting, interesting, daring efforts pay? Of course they did. So has practically every effort with any sparkle in it, no matter how small, that I have seen. For now, especially when the competition of exciting advertising is so negative, the advertising campaign with anything 'on the ball' stands a huge chance for success. And what I said about the advertising campaign with sparkle, I say of any business plan with punch, with courage. It will have less competition today than in many years. This is the time for the business man with vision, with ideas to make a cleanup.

"Pretty nearly every manufacturer and retailer with whom I have talked of late," he continues, "had as his 'alibi' for all business lethargy the government." He overlooks the fact that practically every index for retail business has shown an upward trend for two years. Instead of accepting the challenge of the new conditions whatever they may be, as did our fathers—we retailers of the '30's have taken them as an excuse for a do-nothing attitude and a conservatism which smack of complete inertia. Too

many of us have been waiting, like Micawber, for something to turn up. "We are paying the same so de-fensively that we are doing almost nothing to help in the great work of business recovery. We are afraid to speak out a good ring. 'Yes, let's try it!' to anything different or novel or unusual experiment. The only thing that is hindering us is lack of courage."

**MRS. MOON PASSES**

Mrs. W. D. Moon who had apparently recovered from an operation she had in March, took sick Friday June 28 and passed away June 30th at 3:07 a. m. She was laid to rest at San Angelo, June 30 The pastor of Loraine Baptist Church conducted the services.

Those of the family attending were her husband, W. D. Moon; a daughter Mr. and Mrs. S. C. Odom of San Angelo and her son Leon; a step daughter and family Mr. and Mrs. T. J. Fuller of Lorraine. Among others to mourn her going are: A daughter Mrs. C. C. Fish of Clarendon; a step daughter and step son, Mrs. C. L. Cook of Lelia Lake and Mr. O. Moon of Mineral Wells, a sister and brother Mrs. John Bowers of Bledsoe and Mr. Jack Hickey of Dallas, also a number of grand children and great grand children, and a host of friends.

She would like for us to say with James Whitcomb Riley—

"You cannot say—You must not say

That she is dead. She is just away!"

With cheery smile and a wave of the hand

She has wandered into an unknown land;

And left us dreaming how very fair It must needs be—since she lingers there;

So think of her as faring on—as dear

In the love of there as the love of here;

Think of her still as the same and say

She is not dead—She is just away. — Her Granddaughter

**ELIMINATING THE FIRE-BUG**

One of the more encouraging phases of fire prevention work is the decline in arson. According to a committee report from the National Board of Fire Underwriters, covering the fiscal year that closed on April 30, 1935, conditions now are better than at any time since the committee was started. Incendiarism is at a relatively low ebb and is further declining. Investigations and prosecutions are being made more efficiently, and with better results. Weak and ineffectual arson laws have been corrected and strengthened. Public officials, especially prosecuting attorneys are showing themselves to be much more determined than in the past to stamp out the fire-bug.

The statistics tell the story. During the year, arrests for arson were the lowest in any year since 1928, while the rate of conviction was high. Convictions were obtained in 77 per cent of the cases tried, as against 70 per cent in the year before. A num-

ber of these convictions were of members of organized arson gangs which had caused hundreds of thousands of dollars of property loss throughout the country.

Much of the credit must go to the fire insurance industry which has worked unceasingly against the incendiary. It has prepared moral laws, which have been widely adopted. It has sent out trained investigators to aid local officials. And it has carried questionable fire-loss cases to court, and helped to uncover evidence of arson that might otherwise have never been unearthed.

The arsonist, who works in the dark, has been called, with justice, the most despicable of criminals. He deserves no mercy.

When Aimee Semple McPherson left a line recently in New York after an extended trip to Europe, reporters noted her toe nails were painted a pretty pink. You know

she had on these kind of shoes that only have straps across the toe of the foot and a thin sole on the bottom, and the rest of the feet are bare. Her sheer thin silk hose revealed the pretty toe nails.

Of course if Aimee wants to paint her toe nails pink, that is alright and none of our business. Far be it from us to offer any criticism just because she is a preacher. We think a lady minister has just as much right to paint her toe nails as anybody, but we just wonder what the Lord thinks about it. We wonder if the pretty toe nails have some kind of effect on sinners when the lady minister is in the pulpit preaching. Feminine beauty makes a hit with a lot of people, and maybe the pretty toe nails helps the occasion a great deal.—Amherst Argus.

Mr. and Mrs. Lloyd Ledbetter, who are taking a summer course at Tech, were down Sunday.

## Our 23 Year Column

Good rains fell over most of Terry county on the Fourth of July. The body of Almer Brownfield, who died at Mineral Wells, in a hospital, was carried to Hilton in Nolan county for burial. An explanation was made that voters should note that there was a difference between Allison Mayfield, railroad commissioner, and Earl B. Mayfield of Bell county, a candidate for the same office, but against another one of the commissioners. We were having about as much trouble then telling people the difference between the Mayfields, that we are now about the Terralls. Every one was praising the great Fourth celebration and picnic at Gomez.

Mrs. Percy V. Pennybacker of Austin, Texas, was elected president of the Federation of Women's Clubs at San Francisco.

Joe Whitley had gone to Gorman to visit his father who was very ill. Messames S. H. Holgate and Geo. McPherson, were over from Gomez. Boone Hunter reported good rains in his section. Miss Irene Speagle (Mrs. Arthur Sawyer) was learning to set type at the Herald office. Grandma

Wilson of San Saba, was visiting her daughter, Mrs. C. A. McDaniel. Judge Robinson was through here on his way from Lubbock to Lamesa to attend the barbecue. Billie Wilks of Muleshoe, was down and reported good rains and grass. The Holiness people were holding a camp meeting at Meadow. Uncle Joe Fisher had a brother out from Eastland county, visiting him. Miss Ivey Green was visiting Miss Kennedy in Lubbock. Ray Brownfield was sporting a new Mitchell roadster. C. W. Post was bombarding the elements at Post, Texas for rain. The bombardment could easily be heard in Brownfield, 70 miles away. Lee Allmon had finished the tank tower on the southwest corner of the square. Joe Lane was ill at the home of his brother-in-law, Vernon Seitz. Noah Bell and Jim Smith were in from the north side of the county and reported little rain.

J. L. Randal received the rights to dispense drinks here at the picnic, July 19th. J. W. Gordon, U—owner, was in town. Dr. H. T. Day and A. M. McBurnett were in from the Union community. At the Democratic National convention, on the first ballot, Champ Clark got 440 votes; Woodrow Wilson 324; Harmon

148; Underwood 117; Marshall 31. On the 46th and last ballot, Clark got 84; Wilson 990; Harmon 12, and Wilson declared the Democratic nominee. The Supreme court of Texas had ruled against John R. Ralls et al, in the Crosbyton-Emma county seat fight. John S. Powell carried 9,400 pounds of wool to Tahoka for storage. This clip came from 1000 head of sheep.

Harris: Reed Wolfarth was hurt when a horse ran over him. He was brought to Brownfield for medical attention. Mr. Dooley had the banner garden of the community. Roy Harris was drilling a well for Mr. Blythe at Blythe (now Seagraves) in Gaines county. There was to be dinner on the ground at Harris coming Sunday. Many took in the 4th picnic at Gomez.

Gomez: A great picnic, but a big rain and severe hail storm dampened the ardor in the late afternoon. But a big dance was held that night. Miss Mary Pulliam was visiting in Gomez. Eldridge Maddux had bought some pigs from Mr. Green. Elmo Green was moving to El Paso. Mr. and Mrs. Walter Gainer were visiting her parents in New Mexico. Emmett Green was in New Mexico on busi-

State of Texas, County of Terry. We, W. H. Dallas, as President, and Leo Holmes, as Cashier of said bank, each of us, do solemnly swear that the above statement is true to the best of our knowledge and belief.

W. H. Dallas, President.  
Leo Holmes, Cashier.  
Subscribed and sworn to before me this 9th day of July, A. D. 1935.  
A. J. Stricklin, Notary Public, Terry County, Texas.  
Correct—Attest: Jas. H. Dallas, Jno S. Powell, J. L. Hudson, Directors.

Pride: Box Cathey and H. C. Martin were moving their steers to near Plainview to grass. Clarence Martin

of Pecos had been visiting his brother, Harve. Miss Dottie Martin had returned from school at Stanton. Mrs. P. M. Horn was visiting her mother in Arizona. Rev. Preston died suddenly at the home of his son at Loraine, Texas. He was the father of J. C. Preston. Plains: The postoffice was ordered to start a savings bank department. Rev. B. F. Dixon attended the fifth Sunday meeting at Brownfield. A storm at Bronco blew down several houses. One lady, Mrs. Blalock and child were severely hurt when their home was wrecked. All for this week.

Mr. and Mrs. R. W. Glover, old timers of Terry, but now living at Loraine, were up visiting their daughter and son, Mrs. Dee Hunter and Vance, the past week.

## OFFICE HELP WANTED

The new era business is creating hundreds of calls. Starting as private secretaries, junior accountants, stenographers or bookkeepers—in close touch with leaders in business and industry—young people now have opportunities to advance with prosperity to executive positions paying handsome salaries. Details of a quick and practical plan which will prepare you for these opportunities—and then help you secure a good position—will be fully explained if you will mail the Coupon promptly to nearest DRAUGHON'S COLLEGE—Dallas, Wichita Falls, Abilene, or Lubbock.

## SON DIES IN PANAMA

Mr. and Mrs. W. B. Toone received the sad news of the death of their son, Beverly, last Sunday, whose home is in the Panama Canal Zone. He and wife visited here several weeks about two years ago, and Mrs. Toone became quite well known through her interesting talks at the churches, civic clubs and school, on life in Panama. The body was buried there as Mrs. Toone said she would probably make that her home since she has lived and taught there so long.

The parents did not get to attend the funeral, and the deepest sympathy from a host of friends go out to them in this their hour of sadness.

Mr. Jack Toone of Dallas, son of Mr. and Mrs. W. B. Toone, and Mrs. Burrough, also of Dallas, sister of Mr. Toone, are visiting in the Toone home this week.

Miss Carrie Bell of Marshall is visiting in the home of her Uncle Will Alf Bell and family.

## TO FIX PLAYGROUND

The Senior League of the Methodist church of which Mrs. Ada Wilkins is sponsor, is planning to fix up a tennis court and croquet ground on Mrs. C. R. Rambo's vacant lot just west of the Methodist church. The grounds will be lighted and it is hoped nice, clean amusement will be carried on by the young folks of the town.

Fern Sawyer of Cross Roads, N. E. is visiting relatives in Brownfield this week.

Miss Viola Brown left Tuesday evening for Hobbs to visit a sister there for a few days.

Arnett Bynum, who has been for the past year in Colorado mining gold came in last week, and will probably be here permanently. He stated that during the recent floods in that state, his mine caved in on him, making it very expensive to clear out and re-prop.

## LEND US YOUR gas tank for 3 weeks

**GULF**

**\*750 did it—**  
Not long ago we "borrowed" the gas tanks of 750 motorists for 3 weeks.  
They bought that Good Gulf—compared it with their regular brands for (1) mileage, (2) starting, (3) pick-up, (4) power, (5) all-around performance.

**555 won to Gulf!**  
More than 7 out of 10 motorists chose Gulf on one or more of the 5 points—and many on all 5.  
Gulf's secret? Controlled refining makes it 5 good gasolines in one! You get not 2 or 3 ideal qualities from Gulf—but five.  
Try Gulf 3 weeks in your car. We're certain you'll stay with us.

**GULF REFINING COMPANY**

**Q. How fast should you drive to get the most gas mileage? You'll find the answer in this Gulf Booklet, plus 14 other valuable economy hints. Free—at the Sign of the Orange Disc.**

Is your tank a stranger to Gulf gas? Then it's time you re-discovered it! Try it for 3 weeks. Let it tell you what a great new gas it is—as it recently told an army of other motorists.\*

**HUDGENS & KNIGHT**

**Weekly Church and Social Happenings**

Elder Fry led the Bible lesson Monday when 15 ladies met at the church of Christ at 4 o'clock. After the lesson Mrs. E. L. Bowers made an interesting talk on religion as she saw it in Mexico City, D. F., while there recently.

The Baptist ladies met Monday for Bible and Royal Service programs. South Circle met with Mrs. Tarpley two miles west of town. Nine were present. Mrs. Will Adams led the Bible lesson. North Circle met with Mrs. Weldon. Mrs. Hale led a Bible lesson. 12 present. Mrs. E. C. Davis was hostess to the Young Matrons. A Royal Service program was had with 13 present.

Mrs. G. S. Webber led the Monthly World Outlook program when 12 members of the Methodist Missionary Society met Monday at 3 P. M. at Mrs. Downing's. Plans for sending a box to Africans and to do some quilting were made. Also to help a member who had lost their home by fire.

Mrs. Simon Holgate led a Bible lesson Monday when five members of the Christian Church Aid met in her home at 4 o'clock.

**FELTY—PETTYJOHN**

Miss Bobbie Jo Felty, daughter of Mr. and Mrs. W. C. Felty of near Lubbock, and Kermit Pettyjohn, son of Mr. and Mrs. R. T. Pettyjohn of Arnett-Benson addition, Lubbock, were married last Saturday evening

at the home of Dr. W. F. Fry, chairman of Biblical Literature at Texas Technological college, who performed a ring ceremony in the presence of a small circle of friends and relatives. After a short wedding trip to New Mexico, the couple will be at home in Brownfield. Mr. Pettyjohn is a State Highway employee.

**MISS RUTH HOLDEN OF REDLANDS, CALIF., HONORED**

One of the most enjoyable and cleverly appointed parties of the summer season was given by Mrs. Jack Stricklin Sr. in her home on Friday of last week honoring her sister Miss Ruth Holden of Redlands, California.

Guests were met at the door by Misses Marguerite Smith and Sallie Stricklin dressed in colorful Japanese costumes, and were given a corsage of everlasting straw flowers and a hat on which were pastel flowers and Japanese figures. The hats also gave table and place numbers.

The rooms where the tables were placed for contract bridge were charmingly decorated with Japanese parasols and dolls, and the soft glow from the Japanese covered lamps gave the correct setting for a most delightful afternoon.

At the close of the games Mesdames Rayburn Knott and R. W. Carter received Japanese lace cloths and the honoree was presented with a lovely peach satin gown.

Congeeled salad on lettuce leaves, stuffed olives, smacks, iced tea, cher-

ry pie in individual shells topped with whipped cream made a delicious plate. Much fun was had as each guest opened a tiny rice cake, used always in Japanese tea rooms, and found her fortune.

The guest list for this lovely party included Misses Holden and Lou Ellen Brown, Mesdames Jno. R. Turner, Collins, Heath, Roy Ballard, C. L. Hudgens, J. K. Graves, Allen, McDuffie, Knott, Pete Tiernan, Telford, E. A. Graham, Bowers, W. C. Smith, C. J. Smith, Sawyer, Earl Jones, R. M. Kendrick, Cobb, Jack Stricklin Jr., Endersen, Regis Quinlan of Slaton, Texas, Davis, Carter, Frank Ballard, Pyeatt, James Dallas, Parrish, Herod and Spencer Kendrick.

**HOSTESS TO NEEDLERS**

Wednesday afternoon of last week Mrs. R. M. Kendrick was hostess to the Priscilla Needle Club from 3 to 6 o'clock. Mrs. E. B. Thomas received a shower of birthday gifts. Pineapple sherbet, gold and angel food cake was served to Mesdames Fowler, Dunn, Rambo, Wall, Holgate, Rickles, Griffin and Thomas. Mrs. McClish will be next hostess.

**MOVE TO BIG SPRING**

Miss Virginia May took her sister, Mrs. Roy Ballard and baby, Murpha Deene, to Big Spring, Wednesday of this week, where Mr. and Mrs. Ballard will make their home. She was accompanied on the trip also by Misses Mattie Jo Gracey, Kathy Hunter, Marguerite Smith and Ruby Nell Smith.

**CLASS PICNIC**

The T. E. L. Bible Class of which Mrs. J. M. Hale is teacher enjoyed a picnic July 4th out at the country home of Mr. and Mrs. W. A. Henson, six miles north of town. Some sixty-five were present. Ice cream, cake and sandwiches were served.

Mesdames Stark and Heath, of Seminole spent the 4th with their sister and aunt, Mrs. Tinkler.

Mrs. Dr. Shi of Okla., is here visiting her sister, Mrs. W. C. Smith and family.

**115,000 CHEVROLETS TURNED OUT IN JUNE**

DETROIT, July 1. — Chevrolet turned out more than 115,000 units in June, a month which ordinarily marks a slowing down of the industry as a whole. Because the demand for new Chevrolets continues to exceed the supply, the company announces a heavy production schedule has been set up for July, and likely will run into August.

M. E. Coyle, president and general manager, declared that July production will be at least as high as June, and may exceed it.

"We are going into July under obligation to keep up production at the maximum," Mr. Coyle said. "The orders we already have, plus those coming in during the month, are enough to assure continued peak activity. In other years we would be expecting a seasonal let-down, but the way I visualize the immediate

future, I would say that our demand will continue well into August.

"Talk of a Chevrolet 'shortage' is to be expected, when the dealers can't get the cars in the quantities they want and need. It's pleasant kind of shortage to face, however. It is a great tribute to our product, that buyers who want new cars are willing to await their arrival from the Chevrolet factories—at a season when motorists most need and enjoy their cars. That means that they didn't merely order a car, but were actually sold, in the full sense of the word, on the merits and value of our product.

"Our present situation is one that spells volume for factory and dealers and indicates a great return of buying power and an improvement in morale among the people. Further, it promises steady employment for thousands throughout a period when, in normal 'no shortage' years, they would be idle.

**MUCH WOOL BEING SOLD FROM LOVINGTON WAREHOUSES**

Much wool has been sold and shipped this week from Lovington warehouses. The price paid has been reasonably good and many of the wool growers of the county are well pleased with the results of the sale.

The highest price recorded for the week has been 20 cents with the bulk of the clip ranging between 19 and 20 cents. Some sales are reported as low as 16 cents but only a very few clips went as low as that price.

Up to the present time fourteen car loads have already been shipped out this week and there are several cars still in storage unsold, probably six or eight cars, with as many more still in storage on the ranches.—Lovington (N. M.) Leader.
