The Terry County Herald

The truth about Terry County is good enough. An appreciated weekly that covers the territory thoroughly.

Printed in Terry County, on the South Plains, the last stand of the Cattleman and the future home of the most prosperous Farmers in the United States

VOLUME THIRTY-ONE

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, OCTOBER 4, 1935

NUMBER 8

PROGRESS NOTES

By J. E. Shelton, Secretary Chamber of Commerce

We desire to thank the many farmers who allowed us to enter their fields for the purpose of securing products for our exhibit at the South Plains Fair and also those who delivered stuff to our office for the same purpose. Had it not been for the several who brought in stuff, we would have had a difficult time in assembling our showing, as rains received during the first several days of September caused us to get a late start on the work. Final results however, were very pleasing as we drew 3rd place out of a showing of 15 counties and that was something worth trying for.

We have made mention several times, that we were undertaking to secure a CCC camp for Terry county to be used in contouring and terracing, and below is information that has to be assembled before our application can be considered.

Total acres in farm land.
Acres in cultivation.
Acres of cultivated land, if any, to be taken out of cultivation and set to grass.
Acres of pasture land from which noxious weeds can be eliminated by hand labor.
Acres of land to be terraced or contoured if lines were surveyed.
Acres of cultivated land which will need dragging down before regular farming methods can be used.
Miles of tree rows, as roadside planting or farm shelterbelt for which you have favorable moisture conditions and which will be fenced from livestock.
Miles of fence rows which need to be cleared because of drifted sand.

WELL this is a pretty large order, but we have called county agent McClain to our aid and by reason of his records and his organization among the farmers over the county, we believe that we will be able to get the job done, but it would not be possible otherwise. Of course after all of this information is compiled, we will only be up for consideration, which may or may not be favorable. Anyway we hope for final approval.

All of the engineering work in the way of maps, plats and specifications, including photographs have been finished on our Park project and the purchase of the land has been completed by the county, and we will just assume a "watchful waiting" attitude until we hear from Washington. The project has received the unanimous approval of the District Board and the State Administrator and the completed application together with the necessary maps and plats is either in Washington or well on its way.

Of course there are a few difficulties that are going to have to be ironed out, but they will not face us for several months and it is believed that amicable agreements can be had when the time comes for securing them.

It is the desire of the writer to assemble an exhibit of matured crops for the purpose of showing at the Centennial next year. Of course it will not be a purely county exhibit but will form a part of a regional showing that will probably be sponsored by the West Texas Chamber of Commerce. We haven't had any advice on it, but believe that arrangements will be made for staging an exhibit before the opening of the State show.

We are receiving all the way from six to ten letters a day from people who are asking about the cotton and other crops, and we are of the opinion that we have enough labor of our own to take care of the situation, but we might be mistaken, and would appreciate it very much if farmers would call at the office and let us have their viewpoint. We don't want to run short of labor, but we don't want a surplus either, and develop a lot of people for the county to take care of during the coming winter.

The West Texas Chamber of Commerce, assisted by local organizations over West Texas, is undertaking to get Secretary Wallace to remove the restrictions that are imposed on us by the Bankhead Law, and let us gin all of our cotton tax free. We have a

G. H. Nelson Wins in State Senate Race

Jumping into an early lead that lengthened as tabulations wore on, G. H. Nelson, of Tahoka, Lynn county, Saturday defeated four opponents in a special 30th Senatorial district election called by Governor James V. Allred to provide a successor to the late Arthur P. Duggan, of Littlefield.

Early Sunday morning, when the West Texas Election Service, composed of the Plainview Evening Herald, the Big Spring Daily Herald, the Lubbock Morning Avalanche and the

MAKES STATEMENT

"I didn't win the race—my friends won it—and to them goes all the credit."

That was the statement made to The Avalanche-Journal over long-distance telephone at midnight Saturday by G. H. Nelson, top man in the special senatorial election.

"I appreciate the opportunity to be of greater service to this section," Mr. Nelson said, "and I will do everything in my power to serve well every part of the district. To my opponents I offer thanks for their clean races, and for their good sportsmanship."

Lubbock Evening Journal, made its last total, Nelson had a commanding lead. The last count made by the newspapers—only daily publications in the 24-county district—were:

Nelson: 3,342.
Parrish: 2,614.
Mitchell: 1,592.
Reagan: 1,270.
Evans: 1,085.

Only one of the 24 counties failed to report its vote, that being inland Borden county. Balloting probably less than 100 votes, Borden county's

action was left in doubt, due to the failure of its one telephone line to function.

Herbert S. Hilburn, editor of the Plainview Herald, Joe Galbraith, of Big Spring Herald, and Chas. A. Guy, of the Avalanche-Journal, agreed that at least 85 to 90 percent of the total vote over the district has been reported and tabulated. Total vote of the three largest counties—has been reported, as have complete totals for three others, Floyd, Lamb and Garza.

Vote Surprisingly Small

While close observers predicted a small vote, the total number of ballots cast was even lower than anyone expected. This morning's final tabulation was 9,903 and the unreported total may not reach the 500 mark. The district's normal voting strength is between 50,000 and 55,000.

Nelson, 106th district attorney, led in eleven counties, taking top place in Cochran, Dawson, Dickens, Floyd, Garza, Hale, Hockley, Lynn, Stone-wall, Terry and Yoakum. Gaines was the only county in his judicial district where he failed to lead, others being Lynn, Garza, Terry, Yoakum and Dawson.

Runnerup to Nelson was Pink L. Parrish, of Lubbock, former senator from this district who dropped out of the state legislative race three years ago to run for Congress-at-large.

Yoakum Co. Receives Its Corn-Hog Money

The Herald had a communication this week from A. E. McGinty, Secretary of the Yoakum County Corn-Hog Association, stating that county had received 189 of the 1935 Corn-Hog checks, a total amount of \$8,423.70.

Considering the small number of farms in that county, this is a splendid showing, and shows that old Yoakum will be in a class with Terry as a Corn-Hog producer when it becomes as well developed.

A Chance to Hear A Methodist Bishop

The highest officer in the Methodist church is to be in Brownfield Sunday night, according to Rev. Ed Sharp, pastor of the local congregation, at which time, their church will be dedicated. The Herald joins with the rest of our townsmen in congratulating them on having paid for their property, and being debt free on their church building.

Bishop H. A. Boaz, of Dallas, will deliver the dedicatory address at the evening service. He will be assisted by Prsiding Elder W. M. Pearce, of the Lubbock district. Bishop Boaz presides over the North and Northwest Texas conferences. It is seldom that small towns ever see a Methodist Bishop, much less hear one, and it will be a great treat to the people of Brownfield to attend this service.

We understand that most churches of the city are dismissing their services for the night in order to let all who can, attend and hear this distinguished visitor.

A Good Crowd is Expected Here Mon.

The big monthly Tradesday will be here again Monday, and a large crowd from throughout the trade territory is expected to be on hand, as the farmers are not extra busy at the present time. While feed cutting is well under way, with pretty weather the rest of this week will put the binders well up with the old feed, and it is believed that farmers will let the young feed stand a while longer.

Most of the leading merchants are preparing to run their specials from Saturday to and include Monday, and this will apply to groceries as well as dry goods, drugs, hardware, and what have you. So call the dogs and let's all attend the First Monday Tradesday of October, 1935.

The usual program will be carried out on the east side of the square at 4 o'clock in the afternoon. Be on hand with your tickets in the Brownfield "share-the-wealth" program.

Lieska & Son Open Automobile Agency

Ed Lieska and son have opened an automobile agency here in the old brick garage building, using the show room of the Fitzgerald Service Station. They will handle the Willys 77 throughout this section, making Brownfield permanent distributing center. They will also sell Hupmobiles and Packards.

Mr. Lieska stated that he had come to Brownfield to make this his permanent home, although he is unable to get a house or apartment just now, and will have to leave his wife in Lubbock for the time being.

He has had some 24 years experience in the automobile business on the Plains, most of the time at Crosbyton, where he owned the Chevrolet agency until a year or two ago. Note his opening ad in this issue.

Truett Smith Named District Attorney

Truett Smith, of Tahoka, has been named District Attorney of the 106th district by Gov. James V. Allred, to fill out the unexpired term of G. H. Nelson, who was elected last Saturday to fill out the term of Hon. Arthur P. Duggan, State Senator of this district.

Mr. Smith has been serving Lynn county the past three years as county attorney, and is a law partner of Mr. Nelson. One reason, it is supposed, that the governor hastened the appointment was that Nelson will want to leave immediately for Austin, and the further fact that district court is now in session at Tahoka.

Smith is a very popular young man at home and has many friends over the district who congratulate him.

Methodist Church Issues an Invitation

You are cordially invited to attend our Dedicatory Service Sunday night at our church building, and hear Bishop H. A. Boaz in a sermon, as well as other numbers on the program that will be rendered. A hearty welcome awaits you.

Cordially,
ED THARP, Pastor.

South Plains Editors Hear Com. Hines

South Plains editors, some with their wives, were doubly treated by the Lubbock Board of City Development last Friday at the noon hour at the Hotel Lubbock, when they not only received a fine feed, but were privileged to hear Hon. Harry Hines, chairman of the State Highway Commission in a fine address, in which he stressed the fact Texas had many miles of disconnected highways, but that it was his intention to do all in his power during his years of service to the state to connect up every highway in the state.

Mr. Hines is of the opinion that the present system of building heavy caliche bases and triple asphalt top in this section, is not only a better road but far less expensive for this section at least where temperature varies so much. His address was well received by all present, and ended with a hearty burst of applause.

Chas. A. Guy, publisher of the Avalanche-Journal was toastmaster, and the preliminaries included an address by A. B. Davis, manager of the Board of City Development, in which he stressed the fact that Lubbock was not working for self alone, but always had in mind the fine section which surrounds it, and felt like our growth means the growth of Lubbock. Editor E. I. Hill of Tahoka fittingly responded to the address of welcome in behalf of visiting editors.

Mr. Hines was introduced by his old school mate, Hon. Clifford B. Jones of Spur. It seems to, that at one time Mr. Hines had been an able assistant to the father of Mr. Jones, who passed away recently, in one of the great packing plants in Kansas City.

During the welcoming address by Editor Guy, he broached the subject of a South Plains Press Association, which he talked about again when the writer called on him in his office later in the afternoon. We heard but few of the editors express themselves, as most of them were in a hurry after the banquet to get to the fair grounds or circus but those who did were impressed favorably.

Since Editor Guy initiated the subject, the Herald hereby nominates him to feel out the editors of the South Plains in the matter, and call a meeting for organization later if the response justifies. We have been able to count at least 32 papers that should join in the territory from Muleshoe to Spur, from Lamesa to Floydada, and from Plainview to Post.

Small Liquor Bill Seems Senate Choice

AUSTIN, Texas, Sept. 27.—The Small liquor bill was put to a test in the Senate Thursday. The result was a further assurance that it will pass and be sent to the House.

The test came on a motion by W. K. Hopkins on behalf of the wets, made immediately after the bill was called up, to send it back to the State Affairs Committee for further consideration. That motion was defeated, 17 to 9, after the motion and the bill had been debated nearly two hours. Then on a motion to adjourn, four or five who had voted against the motion joined its opponents to discontinue the consideration of the measure by adjourning until Friday.

Those voting aye on the motion to send the bill back to the committee were Blackert, Holbrook, Hopkins, Rawlings, Regan, Sanderford, Shivers, Stone and Sulak. Those voting no were Beck, Burns, Collier, Cotter, DeBerry, Hill, Hornsby, Isbell, Martin, Neal, Oneal, Pace, Poage, Redditt, Small, Westerfeld and Woodruff. There were two pair, Davis, present, who would have voted no, with Moore, absent, who would have voted aye, and Van Zandt, present, no, with Fellbaum, absent, aye.

A lively debate preceded the vote, participated in by Hopkins, Small, Holbrook and Rawlings. But much of that contributed by Hopkins, Holbrook and Rawlings was somewhat irrelevant, in that they concentrated their fire on a section of the bill for which Small announced he would offer a substitute, which he read.

Church some time in the near future.

Elder Morgan has announced his subject sermons to change if need be for the entire meeting as follows:

Monday night: "God, Christ and the Bible."
Tuesday night: "The Kingdom of Heaven in Prophecy and Fact."
Wednesday night: "Making Christians." (Using chart.)
Thursday night: "Bible Baptism." (chart.)
Friday night: "The New Birth." (chart.)
Saturday night: "Linked Truth." (chart.)
Sunday A. M.: "Lights of the Kingdom."
Sunday Night: "Echoes from the Cross, and the Lessons they Teach."

P. T. A. PROGRAM

October 8—Fire Prevention Week Program Honoring the Fire Boys

Song—Assembly; Texas Our Texas Business Meeting—15 minutes.
Address—The P. T. A. and Visual Education—Supt. Baze.

Round Table Discussion on the Need of Visual Education in the Brownfield School; led by Supt. Baze.

Song—Junior High School.
Skit on our State Birthday.
Fire Hazards and their Prevention—Fire Chief, Eunice Jones.
Instrumental Music—Mr. Trigg.
Dismissal and Opportunity to pay Membership Dues—Mrs. C. F. Hamilton, Membership Chairman.

The new front of the Arryan store has been completed, and they now have one of the prettiest display windows in the city.

Quite a Bit of Oil Excitement in Yoakum

Hundreds of people from here and other places have flocked out to the Bennett ranch in Yoakum county the past few days to view the new oil well that has more or less come out there. Some estimated that as many as 1000 people were there during some time of the day Sunday.

The well is about 35 miles southwest of Brownfield, some 12 miles southeast of Plains, the county seat of Yoakum county.

It seems that the drillers are resting on their oars awaiting some 1000 feet of 6-inch casing that has to come from Memphis, Tenn. But there is, we understand, plenty of oil in the slush pit, and many sample bottles are on display in Brownfield, one of which is at the First National Bank. Some estimate the gas at from 50 to 250 million feet, and say it can be plainly heard coming out. Of course a lot of top strata will be cased off when the casing arrives, and then the drillers can really see what they have.

The samples of oil that we have seen seems to be a good grade, and people who have lived in various fields confirm this. Most people believe that another oil field will be opened up as soon as this well is finished.

We understand that leasing in that section has taken a decided move upward. A local man who has some 4 sections near the well has refused \$7.50 per acre yearly lease. Well, a little oil field in this section would not hurt any of us just at present.

This well is being drilled by the Honolulu Oil Co., and is their No. 1 in Yoakum county.

Subjects to Be Discussed Next Week

Elder Clarence C. Morgan, minister of the church of Christ at Lamesa, will be here Monday night for an exchange meeting, which will go over Sunday 13th. The short meeting is to be held in the local church of Christ building, as the weather is too cool now for out-door meetings. The meeting will be started Sunday by the local minister, Jas. A. Fry, who will hold a meeting for the Lamesa

Value of the Trench Silo Demonstrated

Fifteen farmers and twenty-five Vocational Agriculture Students attended a Trench Silo Filling Demonstration conducted by E. R. Eudaley and O. G. Tomlinson of the Extension Service at the Caviness farm in the Meadow community, Friday, September 27th.

Mr. Eudaley said "One acre of feed put in the silo is worth two acres fed as dry forage." He stressed the importance of cutting the feed at the right stage and putting it in the trench silo right. He said "It is better to let the feed get too ripe even let the frost get it, than to cut it too green." If cut too green it does not have the feeding value of mature forage and too much acid, resulting in some bloat. However, feed when cut mature requires more water than feed cut too green.

Mr. Eudaley stressed the fact that it was not necessary to put the forage through a cutter as this would prevent the little man from digging one. He showed the proper way to "shingle in" the forage so that a balance silage would result.

Silage is one of the best if not the best and cheapest ways of conserving feed on the farm. It can be put in the silo at the cost of about 50 cents per ton.

Six farmers in the Meadow community have trench silos to date, and other farmers have shown an interest in them.

Cubs March On For Their Third Victory

For the third consecutive week the Cubs of Brownfield high school have found themselves on the heavy side of the score with formidable opponents. This past week the victim was Littlefield's Wildcats. The score was 27-0. This score in a large measure avenged the 19-0 defeat received at the hands of the Wildcats last year.

Many of the local drugstore coaches feel that the Cubs have a better balanced ball club than that of 1932 which won the district. The boys have plenty of confidence and it is felt that they will need to be considered in the district race this year.

The Cubs do not have a game this week. On the 11th of this month they will journey to Hobbs, for a tussle with the heavy New Mexicans. On the 18th comes their first conference tilt with the Slaton Tigers. The game will be played in the Tiger Lair on Friday night. The Cubs are looking forward to a lively tussle with plenty of fur flying ere the lights dim over the well sodded den of the bengals.

Coaches Bost and Miller are well pleased with the showing their charges are making, and with the support that fans are giving.

Kings Represented At the Floral School

Mr. and Mrs. John King and son, Don, attended the Floral School last week, held at the Hilton Hotel, in Lubbock. They estimate the attendance at above 100 florists from West Texas, New Mexico and Oklahoma, including 10 instructors, some of National prominence, among them the best designers of Fort Worth, Dallas and Houston. Five or six large wholesale dealers were on hand with nice displays of their wares. They were much impressed with the vast array of beautiful flowers, from the simple corn flower to the expensive orchid used, in the instruction work. Many designs of sprays, wreaths, gates ajar, bridal bouquets, basket arrangement, corsage work and novelties were made by the instructors and pupils. The purpose of these schools is to train florists so that they may give better service to their customers.

Among the lovely pieces made was a \$50 bridal bouquet, of orchids, lily of the valley and lovely ribbons.

AGED WOMAN DIES NEGRO MAID JAILED

Mrs. S. W. Bailey, 65, died Monday at Marshall, Texas of injuries received Saturday when she was severely beaten and then robbed at her home. A negro woman, Annie Lee Green was charged with robbery and assault in connection with the attack and the robbery. The negro woman worked for Mrs. Bailey.

Mrs. Bailey was one of one of our townsmen.

Mr. and Mrs. W. Bailey have returned from a visit to Hamlin and Mineral Wells.

Sadler Issues Statement to His Friends

For seventeen years I have been trying to be of service to the Amusement Loving Public of Texas. I have endeavored to merit the good will of the substantial citizenship in the territory in which we played by presenting a clean, wholesome family entertainment at popular prices.

Recently, I had the opportunity to acquire the entire equipment of the Bailey Brothers' Big Three Ring Circus, which bears an enviable reputation in the circus world, and known to circus fans in Texas as presenting a high class, clean, wholesome worthwhile circus performance.

Believing there was an opportunity and a need for such an entertainment in this section, I have added many features and will bring to you, I believe, the biggest and best entertainment of its kind ever offered at popular prices.

One of the oldest and most cherished traditions of the circus world was the old-time street parade that every man, woman and child looked forward to seeing, how they would pack the sidewalks, anxiously waiting to hear the blare of the trumpets, the martial music of its bands, and the highly colored parade wagons, animal cages, beautiful horses, funny clowns, and a thousand and one thrills that the old-time circus parade offered.

The first thing I did upon purchasing the Bailey Brothers' Big Three Ring Circus equipment was to augment its rolling stock, buying parade wagons, miniature animal cages, to be drawn by Shetland ponies, and many other features in an earnest endeavor to revive the old-time circus parade.

This beautiful parade will be given each day at noon, preceding the afternoon performance. Don't miss the old-time circus parade.

Hoping that you will bring your family and enjoy an afternoon or an evening at Bailey Brothers' Big Three Ring Circus, and remember, I promise you we will endeavor to make it the biggest attraction of its kind ever offered at these prices. Thanking you for your past support, and hoping that we may continue to have your good will.

Yours for a good entertainment.
HARLEY SADLER.

Snyder to Feed 5000 Steers This Season

Fred Snyder, large cattle rancher of Cochran County, is making active preparations to feed 5,000 steers and calves at Whiteface and Levelland during the present season.

About 1,000 head are now on feed at Whiteface and this number will be increased to 3,000 within the next two weeks. He plans to have 2,000 head in the pens just west of Levelland about November 1st.

An office will be opened here about October 15th in charge of G. H. Tubb for the purpose of buying feed. The grinding will be done at Levelland by the Major H. Rodgers mills under contract, while a feed mill will be put in operation at Whiteface for the purpose of supplying the herd at that place.—Levelland Herald.

Terry Co. May Get 21,000 Tax Free Bales

Terry County to date has received from the State Allotment Board, 7,654,699 pounds or 16,014 Bales of Exemption Certificates which as compared with 7,307,530 pounds or 15,287 bales in 1934, is an increase of 72 bales. These figures are based on 478 pounds per bale. 16,014 bales plus 4,000 bales that were held from last year and exchanged for 1935 Certificates plus 1,000 bales which we hope to get from the States 10% Reserve will give approximately 21,000 Bales to be ginned Tax-free in Terry County this year.

STEALS JUDGE'S WATCH

Austin, Minn.—Judge Henry Weber, interested in reforming an eleven year old boy who has been involved in many thefts, invited him to dinner. The lad went away with the judge's watch.

The most welcome relief provided thus far by the New Deal was the adjournment of Congress.—Houston Post.

Yasage—They say poor Bilgewater has been sent to the insane asylum. Yznaga—is that so? What subject was he off on?

Yasge—He didn't have a single plan for putting an end to depression.

The Official Paper of Terry County and the City of Brownfield.

You south plains pencil pushers write in to Charley Guy and tell him what you think of a South Plains Press Association. It will suit us just fine if some one else will do all the work. Old Charley is a working old pill—just loves it, so why not make him president. Then there is a fair young lady among us, who just craves that work-stuff—Miss Jean Suits. She would make a whale of a secretary, not in avoirdupois, no not that way, but a great one. We also have our men picked to do the rest of the work, but they'll be broached at the permanent organization. On with the fight for a SPPA.

Race riots in the north, between negro and white school children since the fight between Baer and Louis, causes one in the south to be glad that the two races do not intermingle in a social way, and have separate schools here. The two races are on better terms generally speaking, in the south than the north for that reason, we believe. While there was plenty money here on the brown boy, most southerners don't believe in interracial frays, and would raise the color line. On the other hand, if the northern white people wish to do so, and enter such contests, we have no more sympathy for one than the other, and let the best man win.

Old Sharley Shurnal Guy just can't get over that thrippe lacing that Col. Smith, Major Price and the Old Lone Wolf gave him week before last. He is like a kid that was thrashed just half enough, and wants to "snub" around and sass his elders. He tries to console himself this week by telling us that Nelson got more votes in Lubbock county than one of its own candidates. That was a fine spirit, Sharley, and figured to help a poor kentry edjutor, as we needed a new Stetson badly. Perhaps you noted how run down it was last Friday, and felt like giving us one of your old ones. Now, understand, we are a church member and don't gamble, but a fellow here says we used better judgement than he in selecting the leader in the race last Saturday, and he selected a Lubbock man too. We hope the new district attorney does not see this, but if that man brings us a new top piece and he says he will, then we stand to be up before the next grand jury. So you see Sharley, those votes in Lubbock county for Nelson, helped us get our new fall millinery that otherwise would have had to pass, by having the old head piece recleaned and blocked for the—well a good many times. Forget the election, Sharley; you'll live over it.

WHO OWES YOU A LIVING

Millions of people are being educated in our country today to believe that someone owes them a living. The laws of nature do not seem to recognize this doctrine.

Just go out into primitive country and see who owes who a living—you will soon find that your existence depends on your ingenuity and initiative.

Governments were organized to go nature one better and make it a little easier to live and to take care of the helpless whom nature would

otherwise unceremoniously remove.

But today millions of perfectly healthy, able-bodied people are being taught to loaf at the expense of the savings of others, instead of to rustle for themselves.

Such a system can endure only so long as there are stored-up savings to confiscate, then the inexorable laws of nature will prevail.

An epidemic of pests completely devours a tree or a field of grain, and then the pests die. Nature does not owe them a living.

The same thing can happen to governments and to the human beings who make the governments—if they eat up their capital to maintain idleness, they will eventually find that nature refuses to hear their demands that "someone owes them a living."

This may not be a pleasant-sounding philosophy, but it is a fact which honey-coated, political cure-alls try to hide.

Meadow Briefs

Bro. W. K. Horn, pastor of the Baptist church here, was away Sunday; therefore there was no preaching services.

Mrs. B. G. Chaney has relatives from Oklahoma visiting her this week. Mrs. J. M. Burleson was ill Sunday but was able to teach Monday.

Mrs. D. Johnson visited Mrs. Maurice Fox Sunday.

Jewell Tuckness was carried to the hospital at Brownfield, Sunday. Elwood Pendergrass visited his sister, Mrs. Malcolm Timmons, Sunday afternoon.

As school turned out, many attended the fair at Lubbock, last Wednesday.

Misses Marcell Burleson, Armie Loue Toombs, and Myrna Hester attended a District League Rally at Slaton, Saturday and Sunday.

Mr. Jim Hester of Corsicana and Mr. Howard Hester of Marshall visited their brother, Rev. J. N. Hester of this town, last week.

The Meadow Bronchos played a football game with the Tahoka players last Friday. They were defeated, the score being 19-0.

HARMONY NEWS

Sunday school was well attended and nice crowd attended the singing in the afternoon.

Mr. and Mrs. Norris Phillips visited his sister at Lamesa this week end.

Mr. and Mrs. L. Hobbs spent Sunday with Mr. and Mrs. Walter Jones.

Miss Lennie Francis Hobbs and Claudia Belle Whitefield and Ruby Aldman were dinner guest in the Lee home Sunday.

John Garner and family visited their daughter at Plainview lately.

Mr. and Mrs. Gibbs Phillips were dinner guest in the Whitefield home

Sunday.

Messrs Joe Merrit and Robert Garner spent Sunday noon with L. T. Brenson.

All farmers are busy harvesting their crops.

Mr. and Mrs. Walter Jones visited his sister in the Union community Friday.

Wellman News

The Wellman P. T. A. met Friday night for the first time this school year. After some plans were given for the coming year a short program, prepared by Miss Kerby, was given.

Among the Lubbock fair visitors from Wellman were, Mrs. R. A. Crews and Wanda, Mr. and Mrs. J. J. Woodard and family, and Mr. and Mrs. C. A. Wilhite.

Mr. and Mrs. I. L. Self and family have returned from Roswell, N. M.

Mr. and Mrs. W. N. Grigg spent Sunday with Mr. and Mrs. J. M. Matthews of Seagraves.

Mr. A. C. Pace was a visitor in the Oliver home Sunday.

Mr. and Mrs. C. A. Wilhite spent the week end in Lubbock where they visited her sister.

Two negro men were talking, one said: "Did you hear about Captain Jones shooting Rastus last night for being in his chicken coop?"

The other one replied, "Yes I heard about it—mighty bad, mighty bad, but it could have been worse, it could have been worse."

"I don't see how it could have been worse when he killed him."

"Yes, but if it had been the night before it would have been me."

Gertie: "Well, I found out where my hubby has been spending his evenings."

Marie: "Blonde or brunette?"

Gertie: "No, I simply stayed home last night, and there he was."

A message was received this week that K. B. McWilliams of Hillsboro, would be up in a few days, presumably to buy cotton.

NOTICE TO BIDDERS

Sealed proposals, addressed to the Mayor and City Council of the City of Meadow, Texas, for the construction of a waterworks system in accordance with the plans, specifications and instructions to bidder, prepared by H. N. Roberts, Engineer, will be received

NOTICE

We wish to announce that our bakery no longer goes under the name "Bon Ton," but has been changed to Burnett's Bakery. We have one of the best bakers in Texas now with us. Give his products a trial and be convinced that we make as good Bread, Cakes, Pies, etc. as anybody. Remember

Burnett's Bakery

Phone 185

at the office of the City Secretary, Meadow, Texas, until 2:00 P. M. Oct. 23, 1935, and then publicly opened and read.

The successful bidder will be required to enter into a contract with the City of Meadow, Texas, which will contain provisions conforming with the requirements of the Federal Emergency Administration of Public Works, as set out in PWA Form No. 166, issued July 22, 1935, and revisions thereof and the special requirements of the State Director, PWA.

A Cashier's or Certified Check, payable without recourse to the order of Robert Welch, Mayor, or an acceptable Bidder's Bond, in an amount not less than five per cent (5%) of the largest possible total bid, including consideration of alternates, must accompany each bid as a guarantee that if awarded the contract, the bidder will promptly enter into a contract and execute a bond on the forms provided, as outlined in the specifications and contract documents.

A performance bond, in an amount not less than one hundred percent (100%) of the contract price, conditioned upon the faithful perform-

ance of the contract and upon the payment of all persons supplying labor or furnishing materials, will be required.

Attention is called to the fact that not less than the prevailing rates of wages as established by the City of Meadow, Texas, (Owner), approved by the State Director, PWA, and as herein set forth must be paid on this project.

Labor Classification and Minimum Wage Scale

The Labor Classification and Minimum Wage Scale below have been pre-determined by the owner in accordance with the statutory and PWA requirements and the prevailing local wages, and shall govern on all work performed by the contractor in connection with the construction of the project covered by these specifications. The bids submitted are based on not less than the rates of pay indicated in this pre-determined Labor Classification and Minimum Wage Scale. In no event shall rates of pay be lower than those established by recognized unions operating in the community at the time of the bid opening.

Skilled Mechanics, whose minimum rate shall be \$1.00 per hour:

- Acetylene Cutter; Welder
Arc Welder
Blacksmith
Boilermaker
Bricklayer-Building
Carpenter-Finish

Teamster-More than three up 50c
Waterproof Mop Man 60c
Yarner 60c
Serving Laborer:

Laborer who delivered material to a mechanic as the last operation prior to installation or assists the mechanics without using tools on Union Projects 50c
Well Driller Helper 60c

Unskilled Workers:
Camp Assistant, Etc. under 30 hrs. per week 40c
30 to 40 hrs. per week, \$12.00 per week.

Common Laborer 40c
Pipe Handler (water-gas) 40c
Teamsters-Less than four up 40c
Watchman (under 30 hrs. per week) 40c
Waterboy, Messenger, Cook, 30 to 40 hrs. per week, \$12.00 per week, over 40 hrs. per week 30c

Clerical Force
Clerical Force-Under 30 hours per hour 40c
30 to 40 hrs.-weekly \$12.00

The award of the contract shall be conditioned upon funds being made available, and the City of Meadow, Texas, shall have the right to hold the bids for a period of (60) days from the date of the bid opening.

Contract will be awarded subject to the approval of the State Director, PWA.

The contract price will be paid by the City in cash, but to provide the City with part of the funds necessary, the City Council (Commission) will on the 23rd day of October, 1935, pass an ordinance authorizing the issuance of revenue bonds, secured by a pledge of the revenues of its waterworks system, provided the holder or holders of said obligations shall never have the right to demand their payment out of the funds raised, or to be raised by taxation; in accordance with Articles 1111-1118, both inclusive, 1925 Revised Statutes of Texas, as amended, to be issued in the maximum amount of \$20,000.00, bearing 4% interest, maturing serially, having a maximum maturity date of Sept. 1, 1935.

The Owner reserves the right to reject any and, or all bids and to waive any and, or all formalities.

Plans and specifications may be procured from H. N. Roberts, Engineer, Lubbock, Texas, upon a deposit of \$10.00 of which \$5.00 will be returned upon submission of a bona fide bid, or the return of the plans and specifications intact within 5 days of the date of opening bids.

ROBERT WELCH, Mayor.

as to assist you as arbitrators or conciliators, call on them for advice and help.

In Terry County they are as follows: C. L. Lincoln, Chairman; W. A. Bell, and R. H. McCormack, members.

Their office will be with the Rural County Supervisor, W. H. Gore of Tahoka, Texas.

If your case assumes the seriousness of foreclosure and all efforts to settle through the Committee fail, then you should meet this legal action by filing your case with the Conciliation Commissioner, appointed by the Federal Judge for your County.

The Conciliation Commissioner of your County is E. G. Akers.

The objective of the whole procedure is to stop wholesale foreclosure of farm homes and to help worthy debt-distressed farmers. Many hundreds of cases have been settled by the procuring of extension of time and composition agreements, and

many worthy farmers now in need of this service do not know how to obtain it or do not know that such service is available.

TELEVISION AT TEXAS' 1936 CENTENNIAL FAIR

Plans for a \$100,000 television display have been submitted to the Texas Centennial Exposition by U. A. Sanabria, television engineer of Chicago. Interests represented by the Chicagoan have recently purchased television rights to Station KFJZ at Fort Worth, and have announced that a television laboratory will be established before the opening of the Texas Centennial year.

Mr. Berry and wife of Hubbard, Texas, are now making Brownfield their home. He was sent here by the Texas Cotton Cooperative Association. Mr. and Mrs. Berry seem to like here fine.

McCraw to Address Public Health Ass'n

William McCraw, Attorney General, will be one of the speakers at the annual meeting of the Texas Public Health Association to be held in Waco, October 16-18. Other speakers of state-wide and national reputations in their respective fields will also be present, according to the president, Dr. B. E. Pickett.

Each year the Texas Public Health Association holds a meeting or short school that is attended by all who are interested in health work in Texas. Its membership is composed of doctors, nurses, sanitarians, and others. Many towns and counties send their representatives in order that they may become familiar with the trends in public health as it affects their communities and the State.

Some of the subjects that will be discussed during the meeting are mental hygiene, nursing service to schools and communities, immunization of children, control of communicable diseases, laboratory tests for disease as well as testing of water and milk, sanitation and sewage supplies.

The meeting this year is of great importance as many health features enter into the Social Security Bill; these will affect the entire State when money with which to carry it out is appropriated. State-wide malaria and sanitation program will be described and other subjects of time-interest will be given.

STATEMENT

Farm debt adjustment work throughout the nation has been reorganized and taken over by the Re-settlement Administration and greatly strengthened by recent legislative enactment providing an effective legal procedure to meet foreclosure on farms in the recent Amendment to the Bankruptcy law taking the place of the Frazier-Lemke Act ruled unconstitutional.

To Distressed Farm Home Owners in Terry County: This is to advise you if you are in debt distress, a committee of three men, with whom you are personally acquainted, have been carefully selected because of their known public spirit and worthiness, and appointed by the Governor of the state of Tex-

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed. How do Calotabs help Nature throw off a cold? First, Calotabs are one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxins.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds. Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

CCC Enrollee Age Reduced to Seventeen

AUSTIN, Oct. 1. (Special).—Minimum age limit for CCC enrollees has been lowered from 18 to 17, State Enrollment Supervisor Neal E. Guy announced Saturday.

The ruling will apply for the October enrollment, when every eligible person in the state is expected to be given a chance to enlist in the CCC.

Enrollment will be open for all unmarried men between 17 and 28 whose families are on relief rolls. The dates are inclusive, and a person who has passed his seventeenth birthday is eligible, as is one who has not reached his twenty-ninth.

Mandatory discharges have been discontinued, and enrollees may stay in camps indefinitely. Also, persons honorably discharged may re-enlist, provided their previous service was not less than four months. Eligible enrollees, however, honorably discharged prior to October 21, 1933, may be re-selected without regard to length of previous service.

Guy advised persons in the lower age brackets, particularly the 17-year olds who are in school, to continue their schooling as long as possible, with the hope of enlisting later. For those who cannot continue in school, the CCC conducts an educational program in each camp, he pointed out.

The Herald has on display at the office, a cowbell said to be 114 years old, which J. T. O'Conner and family brought to Texas from Tennessee. The old relic is hand made, but still gives off a pleasing sound which made it easy to find old Lill and Pide in the woodlands of the old state. It has been handed down from generation to generation of Uncle Jimmie's forefathers.

Hunter News

Cotton picking is late in this community. But feed cutting and heading maize will keep the farmers busy for awhile.

Mr. and Mrs. Lindsay and children and Mr. and Mrs. Bockman and baby were dinner guests of Mr. and Mrs. Pylant Sunday.

Several from this community attended the singing at Forrester Sunday night. They report a large crowd and a real good singing.

Mr. Homer Sudderth joined the U. S. army last week. He is at Lubbock at present, but we understand will be stationed at El Paso soon.

Our school is progressing nicely. Mrs. Lyons teaches the primary grades; Miss Ford the intermediates; and Mr. Sudderth the high school. We hope this is to be one of the very best school years that Hunter has ever had and we feel that it is going to be.

Mr. and Mrs. Frank Drury, from Gomez visited in the Johnston home last Wednesday.

Mrs. Beauchamp has a sister, Mrs. White visiting her. Mrs. White is from somewhere back east, but we didn't learn just where.

Messrs. Goza and Hodge from Durant, Okla., visited Mr. and Mrs. Lee Lyon last week. Mr. Goza, a minister, is a brother of Mrs. Lyon. He preached at Hunter Sunday.

Mr. and Mrs. Andrew Scott and baby visited Mr. and Mrs. W. E. Breazeale and children, Sunday.

Next Sunday there will be preaching at the school house. Everyone is invited to come.

Messrs. Leland and Gresham Hollaman from Brown county, and Mr. and Mrs. G. C. Turpin from Ropesville were visiting their uncle and cousin, Mr. L. O. Sudderth and family last week.

Mr. and Mrs. L. B. Johnston and two children visited Mrs. Johnston's aunt, Mrs. Albert Bass of Wellman, Sunday.

Mr. and Mrs. Vernal Simmons returned home last week from an extended visit with home folks at Olton, Texas.

Mr. and Mrs. E. P. Smith and family spent the week end with friends and relatives at Ralls, Texas.

Mr. Albert Smith spent a few days last week with his parents at Lubbock.

We are having some nice sunshine now, and if this kind of weather continues, cotton will soon be opening fast.

AND NOW I'LL TELL ONE

It was an old, old riddle, but old Bill Thompson, now retired, had been so busy making money that he hadn't time to listen to riddles and jokes and so missed a lot of ancient ones like that one, about why a husband is like dough, to which the answer is (if you're another old Bill Thompson and never heard it) "because his wife needs (kneads) him." Bill thought it would be a great joke to ask his wife the riddle. She had always tried to boss him and here was a chance to get even with her. He chuckled when he thought how crestfallen she'd look when he told her the answer. And even if she had heard the riddle before, and gave him the right answer, it would be something of a pleasure to hear her say, "because his wife needs him." They were at the second course of dinner that night when Bill thought it a good time to put over his little joke. Maria looked at her husband's cheerful face quizzically. "Sure I do," she snapped. "Because he's so hard to get off your hands!"

Mr. J. H. Jennings and family have moved here from Lockney, Mr. Jennings now being connected with the Brownfield Laundry. He is said to know the laundry work from A to Z, and seems to be well pleased with Brownfield.

Otto Estes has accepted a position with the Brownfield Hardware Co. His business will be to push the sale of Philco radios. Otto is a hard worker, and undertakes the business.

Mr. and Mrs. Donald Hill and little daughter, of Corpus Christi, are visiting Mrs. Hill's parents, Mr. and Mrs. E. Brown. It is their intention to carry Miss Ola Belle back with them to spend the winter if she is able to travel. She has been ill for the last few days.

Mrs. A. J. Stricklin went up to Sudan Wed. afternoon to meet her mother who visited here in August, and her sister, Miss Osa Holden. Mrs. Holden and daughter of Redlands, Calif., will make their home in Lubbock, where Miss Holden will open an art shop, handling mostly oriental line of novelties. She will buy her stock from a Los Angeles importer.

Mr. D. P. Carter, father of Ralph, of this city, has started a real estate business. He may be seen at the Carter Chevrolet Co.

Vernon Lundstrum left this week for Colorado state, where he has accepted a position as chemist for a large sugar beet concern. He wasn't sure whether he would be at Greeley or Fort Collins when he left. His sister, Mrs. Dr. Jacobson, accompanied him on the trip.

PUZZLING ORDERS

It has been something of a puzzle why so many Federal judges issued injunctions against the collection of processing taxes in view of Federal statutes plainly providing that payment of taxes may not be restrained, but that taxes should be paid and actions brought in the courts for refund.

"I don't work when it's hot," was the reply made by a man who was recently offered a job to fix a leaky roof. How well this typifies the modern spirit which is seeking to remake the world!

"We were slowly starving to death said the great explorer, at the boarding-house table, "but we cut up our boots and made soup of them."

"Sh-h-h! Not so loud," exclaimed a fellow-boarder. "The landlady might hear you."

Fast driving is said to be the cause of most automobile accidents, but you can hardly get a fast driver to admit it.

Flow From Dole To Creative Labor

SAN ANTONIO, Oct. 1.—With several thousand Texans already transferred from the dole to creative labor, Works Progress Administration officials today were preparing to cut still deeper into the diminishing relief rolls of the state with the release of work authorizations for thousands more during the coming week.

Although 5,530 former relief clients have been assigned to projects by WPA, officials stated that other work orders have been mailed to the districts and estimated that many more will be at work by the end of this week.

Cheered by President F. D. Roosevelt's approval of \$3,990,134 for expenditures in Texas, state WPA officials were confident that many millions more will be flowing into the state to provide more jobs soon. To these federal allocations local sponsors will add \$1,135,309 for completion of the work.

Flood damage repair jobs, recipient of first federal approvals for Texas, have been started in more than a score of localities and allotment of the final portion of this \$300,000 allocation will be made shortly. It was on work of this nature that the first group of laborers last week were automatically removed from the dole by receipt of their first checks in Sweetwater.

News of federal approval of the \$30,500,000 Brazos River flood control and water conservation project, which contemplates the construction of thirteen flood control dams and reservoirs on the 900-mile long river, had prompted sponsors to seek land for initiation of the job which proposes to provide jobs for thousands of laborers in several Texas WPA districts.

STATES' RIGHTS MAINTAINED

The battle of Chairman E. O. Thompson and other members of the Texas Railroad Commission for the right of the states to control their own natural resources, without Federal intervention, seems to have been finally crowned with success. In submitting a special message Friday to Congress, asking that body to sanction the proration compact entered into between four big oil producing states, President Roosevelt seems to have placed the seal of the National

I Will Appreciate Your Consulting Me for Life Insurance
W. A. BELL, Agent
Southland Life Ins. Co.

Administration upon the compact entered into at Dallas some months ago and already given official approval of the states of Texas, Oklahoma, New Mexico and California.

It is a distinct tribute to the persistence of Col. Thompson, Governor James V. Allred and other Texas officials, who made numerous trips to Washington to battle Secretary of the Interior Ickes, who fought desperately—and for a considerable time with Presidential approval—to turn over control of oil production in the various states to the Federal Department of the Interior.

Col. Thompson contended not only that Texas could administer its own natural resources, but that the attempted Federal control would constitute an invasion of the rights of the states, which are sovereign, the Federal Government having only such powers as are expressly delegated to it by the states.

Further, Col. Thompson and his assistants managed to fashion a law giving the state of Texas the right to limit production—a law that has survived every test in the courts. When the representatives of the other oil states met with Texas representatives at Dallas, the Texas law was recognized as providing a model and the three other states already signatory have merely adopted the Texas statutes as the oil laws of their own domains.—Greenville Herald.

YOUNG MAN IS VICTIM OF PECULIAR ACCIDENT

Marshall Morgan, young man living southeast of town, accidentally sustained a painful injury Monday while at work in the fields. He was heading maize, using a large pocket knife and put it into his pocket with the cutting blade open. In attempting to get on the wagon, the blade was driven through the flesh into the abdominal cavity.

He was brought here for medical attention and after being given emergency treatment was sent to the West Texas Hospital where he is said to be improving. The extent of his injury could not be learned, but was thought to have not been necessarily serious unless complications arose.—Level-land Herald.

UNION X-RAYS

The first bale of cotton was ginned in this community, Tuesday Sept. 24. This bale was produced by W. H. Hill, and we understand it was the fourth bale ginned in the county for the new season. Cotton picking is now getting well under way and most farmers are wondering what they are going to do with the production above their Bankhead allotments. Practically every farmer will make more cotton than he can sell under the Bankhead law. Oh dear! Oh dear! What next? If we don't make much it is

bad. If we make too much it's too bad.

Most everybody in this community attended the fair at Lubbock this week we were very pleased with the Terry county exhibit, which compared favorably with the best of them.

Mr. and Mrs. Ralph Harvey and Mr. and Mrs. Alvin Wilson had the misfortune of having their car badly damaged, by a truck running into it, as they were returning from the fair, Thursday night. However, there were no serious injuries to the occupants.

Mrs. Elzie Groves sister and brother-in-law Mr. and Mrs. Howell and her niece, Mrs. Webb of Lubbock, visited in the Groves home Monday.

Rev. B. G. Richberg, Baptist minister of Big Spring will preach at the church Sunday at 11 A. M. Everyone cordially invited.

We have the best rural churches.—Come to Union.

Parole Board Certified By Gov. Allred

AUSTIN, Texas, Sept. 24.—Governor James V. Allred announced today that parole boards had been approved in the first eight counties in Texas through the cooperation of district governors and presidents of local service clubs.

These county parole boards are to be charged with the community service responsibility of rehabilitating paroled or pardoned criminals and making periodical reports to the Governor.

In the past, convicts out of the penitentiary on parole or pardon have been "on their own" and the inclination to return to a life of crime has been ever present. Governor Allred believes that with responsible citizens in each community ready to aid these unfortunate men that the constructive and worthwhile purpose of making honest, lawabiding citizens of them can be accomplished.

It is the Governor's hope that service clubs throughout the State of Texas will respond immediately to the call for board nominations.

Governor Allred originated the idea of county parole boards as a means to aid the pardoned or paroled prisoner get a foothold on life again. The idea is completely new and has not been tried out before in any state.

Parole boards already appointed in nearby counties, are:

Crosby County: Edgar Allen, Crosbyton; Frank Proctor, Lorenzo; and Will Richards of Ralls.

Lubbock County: J. O. Jones, Lubbock; George Kuykendall, Lubbock; and W. G. McMillan of Lubbock.

Terry County: R. G. Nutt, Brownfield; Mon Telford, Brownfield; and Jesse D. Cox of Brownfield.

FDR'S LETTERS TO PASTORS

PRESIDENT ROOSEVELT'S letters to representative pastors the nation over have become a topic for speculation everywhere — Lubbock included.

Here, as elsewhere, there are those who impugn the President's announced motive—to get from pastors their opinion concerning the social security plans of his administration, as well as information concerning work-relief in their areas.

And here as elsewhere, there are those who say Mr. Roosevelt knew his motives would be questioned but courageously decided to go ahead with the plan, regardless of criticism.

Astute politician that he is, Mr. Roosevelt no doubt realizes that he needs to strengthen his fences with the nation's preachers, who are vastly influential in the rural sections from a political as well as a religious standpoint.

But wise man that he is, Mr. Roosevelt doubtless knows that the opinions of the preachers concerning social welfare are likely to be better than the opinions of others not so closely connected with social service over the country.

We doubt that Mr. Roosevelt will get much concrete information concerning work-relief via the pastor route.

But we do believe he will get considerable wise counsel from the angle of social security.

Whether his letters were motivated by politics, or not, they are certain to contain information of value.

And that, after all, is what the nation should be most interested in.—Lubbock Avalanche.

KANSAS "WILL LOOK 'EM ALL OVER—ALL OF 'EM"

William Allen White, noted Republican editor and author, who led the movement for "infusing liberalism" in the GOP only to see his carefully coached grass roots conference taken over bodily by the Old Guard, sent a chill down the spines of potential Republican presidential candidates and all present at a parley of Kansas party chieftains in his home town of Emporia.

In introducing Congressman Hamilton Fish of New York, who has made no attempt to conceal his aspiration in a hectic tour of the Midwest, the

Northwest, the Southwest and the South, White said, "As for the presidential candidates, Kansas has an absolutely open mind."

Looking straight into the eye of Governor Alf Landon of the Sunflower State, who is accredited with being the most furtive of those who have been mentioned and who declined an invitation to visit Mr. Hoover at Palo Alto, White said with what the press associations reported was a "certain solemnity":

"We want to look 'em all over—all of 'em. Kansas will listen eagerly to what every candidate has to say and will go into the pre-convention campaign in a friendly attitude toward them all."

His remarks, following his recent predictions that President Roosevelt would be reelected, also followed closely an announcement in behalf of Gov. Landon by former Vice President Charles Curtis and some exceedingly kindly references by such stalwarts of the Old Guard as Charles D. Hilles, Frank O. Lowden and former Senator James E. Watson.

GREEN BOWL

No one looking at Northwest Texas now could believe that it was classed last year as part of the nation's dust bowl, writes Victor H. Schoffelmayer, agricultural editor of The News, from that part of the state. "That is just the way in West Texas," he adds. Old-timers in West Texas know that, but a good many others have not yet learned about the West's recuperative powers.

Some of the experts from Washington who went out to diagnose the West's case during the drought thought that they were looking on permanent ruin. It set Rexford Tugwell to talking about the time when St. Louis will be twisted steel and hattered concrete covered by sand dunes. There were plans for a tree shelterbelt to run from the Canadian border to Northwest Texas. Somehow, not so much has been heard about the shelterbelt recently.

However, it is possible that Mr. Tugwell feinted only half seriously what he said, and possibly Westerners ought to accept his warning after having discounted it approximately that much. If some of the brain trusters have erred in looking too intently at the gloomy side of the picture of Western agriculture, possibly Westerners err in looking too confidently at the bright side. When crops are good in the West, it is hard to believe that they ever will be bad again. But they will, and wise Westerners will do what can humanly be done to prepare against future disaster. That is the kind of work the Spur Agricultural Experiment Station is doing. It is learning its region's weakness as well as strength, studying the problem of eliminating as nearly as possible the one and developing the other. This is the big problem of West Texas, where a Jekyll-Hyde weather man can produce a dustbowl one year and a green bowl the next.—Dallas News.

3 Pear Crops in One Year From One Tree

Three pear crops in one year from one pear tree is the record, believe it or not, that J. E. Shelton, Brownfield, secretary of the Brownfield Chamber of Commerce, reports for W. J. Moss, a farmer living south of town.

The tree is six years old and is a "mail order" tree. The tree had bloomed three times, the first and second crop of pears being as large as a fair sized orange. The third crop is about half as large.

"I have heard of two crops of peaches and pears in one year but this is the first time I have heard of three crops," Mr. Shelton said.

Mr. Moss also has a peach tree that his wife planted as a seed six years ago. It bore fair sized peaches this year.—South Plain Farmer.

Farmers' Income and Factory Payrolls

"Farmers' and factory workers' cash incomes in years past have kept fairly close pace with each other. Factory pay rolls in 1929 were about 1 billion dollars greater than farmers' cash income, but when one began to fall off the other fell too. At the pit of the depression, factory payrolls had dropped a little further than had farm income. In the first half of 1934 they made more of a recovery from 1933 than did farmers' cash income, but in the first half of 1935 farmers' cash income gained over the year before more than did factory pay rolls. In this latest period, factory pay rolls were 66 per cent and farmers' cash income 68 per cent of their 1929-29 average.

"These are important figures to keep in mind. They show how largely the fortunes of farmers and factory workers are bound up in each other. To factory workers they are an indication of how chances for jobs and pay change with farm income.

MRS. J. M. LOVING

Prominent in public affairs and political circles, Mrs. J. M. Loving of Austin, delegate to both the national and state Democratic conventions, is outspoken against continuation of a "pretense of prohibition" in Texas. "It is a question of whether Texas is to be a 'job state' and an unregulated and taxed market for liquor or whether it is to return to the same viewpoint of reaping revenues and controlling the whiskey traffic. Millions of mothers were in a large way responsible for the repeal of the national force of prohibition. Surely they all can't be wrong. It is a time for Texans to think and to vote out the Dean Act which has made Texas a haven for bootleggers and distillers," she said.

To farmers they are a warning that their chances to get more money for food and other crops hang on workers earning more and having to spend less on nonfarm products and services.

Mrs. John C. Scudday Sr., is here visiting her daughter, Mrs. Sig Lane and family. Mrs. Scudday was one of the Terry county pioneers who with her late husband, reared and educated their family here.

The SNAPSHOT GUILD

SHADOW SHOOTING

Experiment a little with shadow effects. You'll enjoy it.

DID you ever snap shadow pictures? If you haven't you have missed a lot of fun and failed to get some grotesque but fascinating pictures to add interest to your snapshot collection.

Shadow pictures are easy to make too. The main requisite is a good, strong sun in the late afternoon or early morning. Late afternoon, perhaps fifteen or twenty minutes before the sun starts gradually to disappear below the horizon, is preferable, for your light is usually stronger at this time and casts deeper and sharper shadows.

The two pictures above are only a couple of examples of the many unusual pictures to be taken with the aid of a strong sun. The picture to the right was the result of an alert amateur's "nose for pictures". As he started down the steps of the elevated train platform—with his always ready camera—says he, "Here is a picture", so hurriedly set the diaphragm at f.11 and shutter speed at 1/25 of a second and snap—he had a fine shadow picture. As the man at the bottom of the steps was walking away from the camera a shutter speed of 1/25 of a second was fast enough to stop action and still give the proper exposure.

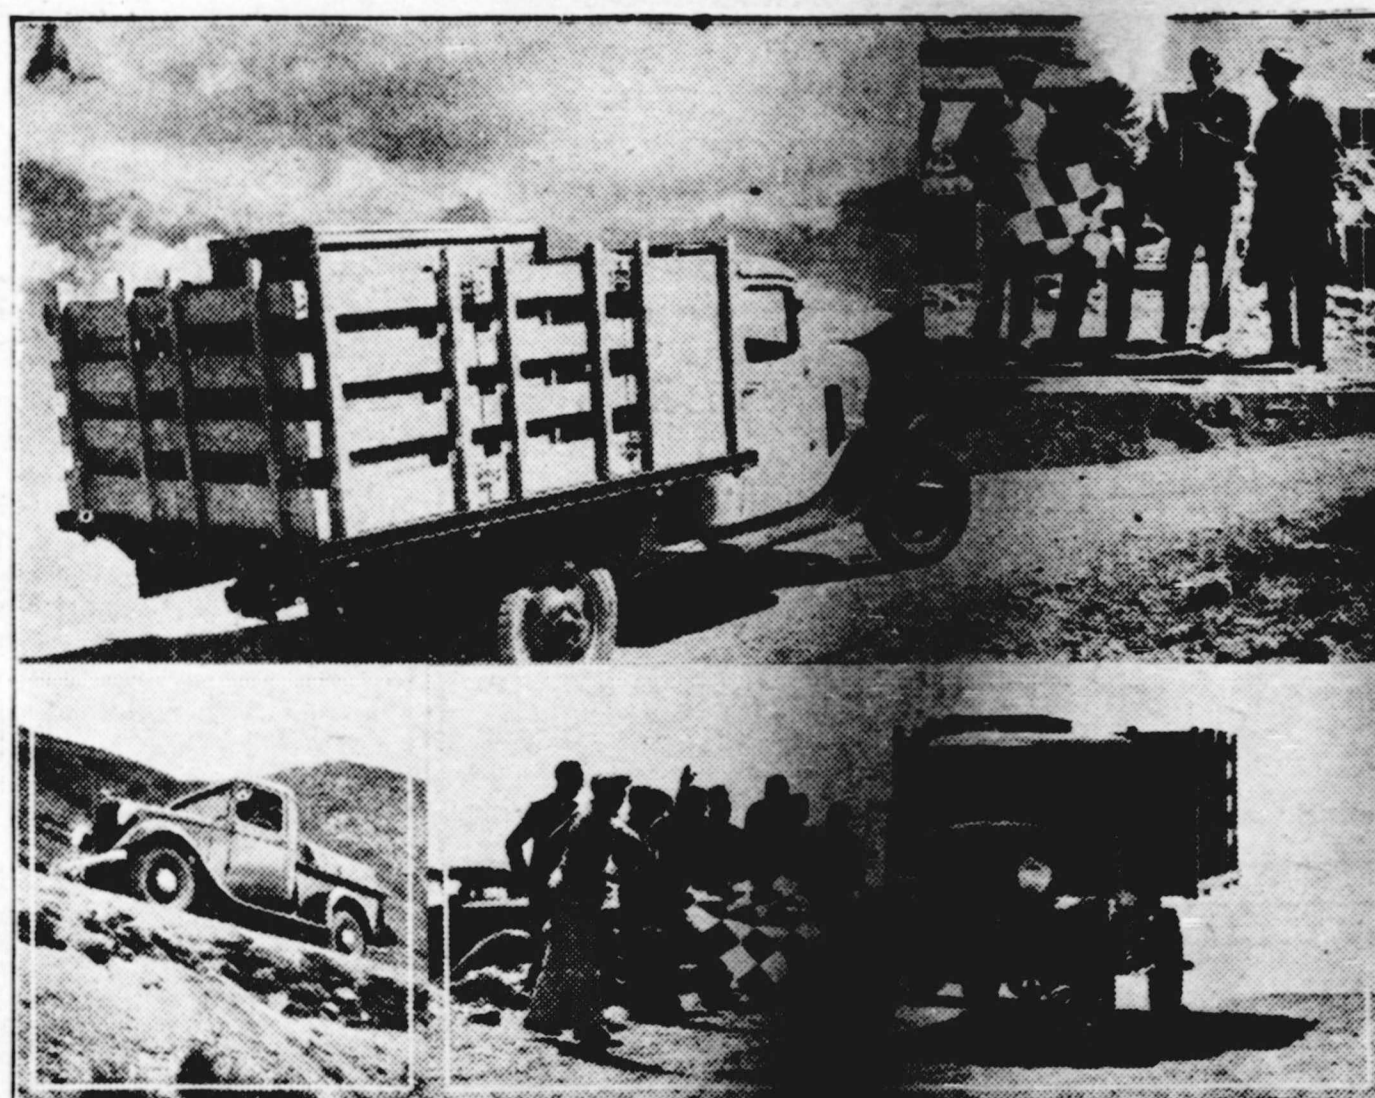

Obviously the picture to the left was posed but it shows further possibilities for taking unusual shadow pictures. An ideal place for taking shadow pictures is on light colored ground; the cement sidewalk, the street or better yet—on beaches where the light sand accentuates the dark body and outline of the shadow. You can also get unusual shadow pictures by standing so that your shadow is cast on the side of a building or a house.

Here's one thing to remember. If you take pictures with the shadow cast on a light colored surface the exposure should not be as long as that used in taking pictures with the shadows cast on a dark background. In other words you make your exposure for shadow pictures but little longer than you would for an ordinary snapshot with the same lighting conditions.

Experiment a little for shadow effects. It's not too late to snap the shadows of your friends playing "leap frog" on the beach or just in the act of throwing or catching a beach ball, or various other stunts too numerous to mention. It's all in fun and it's a safe bet that you will get some unusual pictures and can at least prove to your friends that they are only "shadows of themselves". Try it.

JOHN VAN GUILDER.

Chevrolet Truck in Thrilling Tests Atop Pikes Peak

In the first formally observed and timed tests of motor trucks over the perilous hairpin turns and steep switchbacks of the Pikes Peak auto highway, near Colorado Springs, Chevrolet one and half-ton trucks demonstrated their power, endurance and efficiency over the course of the annual Pikes Peak hill climb contest, a distance of 12 miles, 2200 feet, with a rise of 4959 feet from the start to the summit, 14,115 feet above sea level. The upper illustrations show the 1½-ton truck, driven by W. P. Entrup, on its way up the road of 37 minutes, 52½ seconds, with its full 3000-pound load (it made the run afterward, without load, in 25 minutes, 12 seconds), and the officials at the finish (left to right): Harry Hartz, technical advisor; Robert M. ...; Dan Kennedy, Colorado Springs Gazette and Telegraph; and John L. Jenkins, Chicago Daily News. The lower photos show the Chevrolet half-ton truck, which Harry Hartz drove to the summit in 25 minutes, 12 seconds, and the finish of the run of the 1½-ton truck with full load.

OUR 23 YEAR COLUMN

The Terry County Fair was pronounced one of the best ever held. But like it is now, most farmers were busy harvesting feed, and a time was had getting a creditable exhibit. The best was to be shipped to the State Fair at Dallas. The Brownfield boys played the Gomez boys 12 to 0 in baseball during the fair. East Lynne went over with a bang at the school house. The play was repeated next night to a fair house of those who failed to see it the first night. H. M. Bridges was sending several copies of the Herald weekly to Mississippi. Mrs. Leach had left for her home in Galveston. Early Key was teaching the Winn school (Johnson.) Mrs. Irene Crosby was visiting her brother, Chas. Copeland and family. Mrs. Flora Moody (formerly Miss Flora Robinson) of Sweetwater, was visiting here. L. L. Cobb of Seminole was visiting the fair. The earliest frost known here had fallen the week before, killing potato vines and young feed in low places. Geo. W. Bowman, of Moorsville, Texas, was here attending the fair. He had a fine section of land in the county. Jno. S. Powell had sold 900 lambs to J. J.

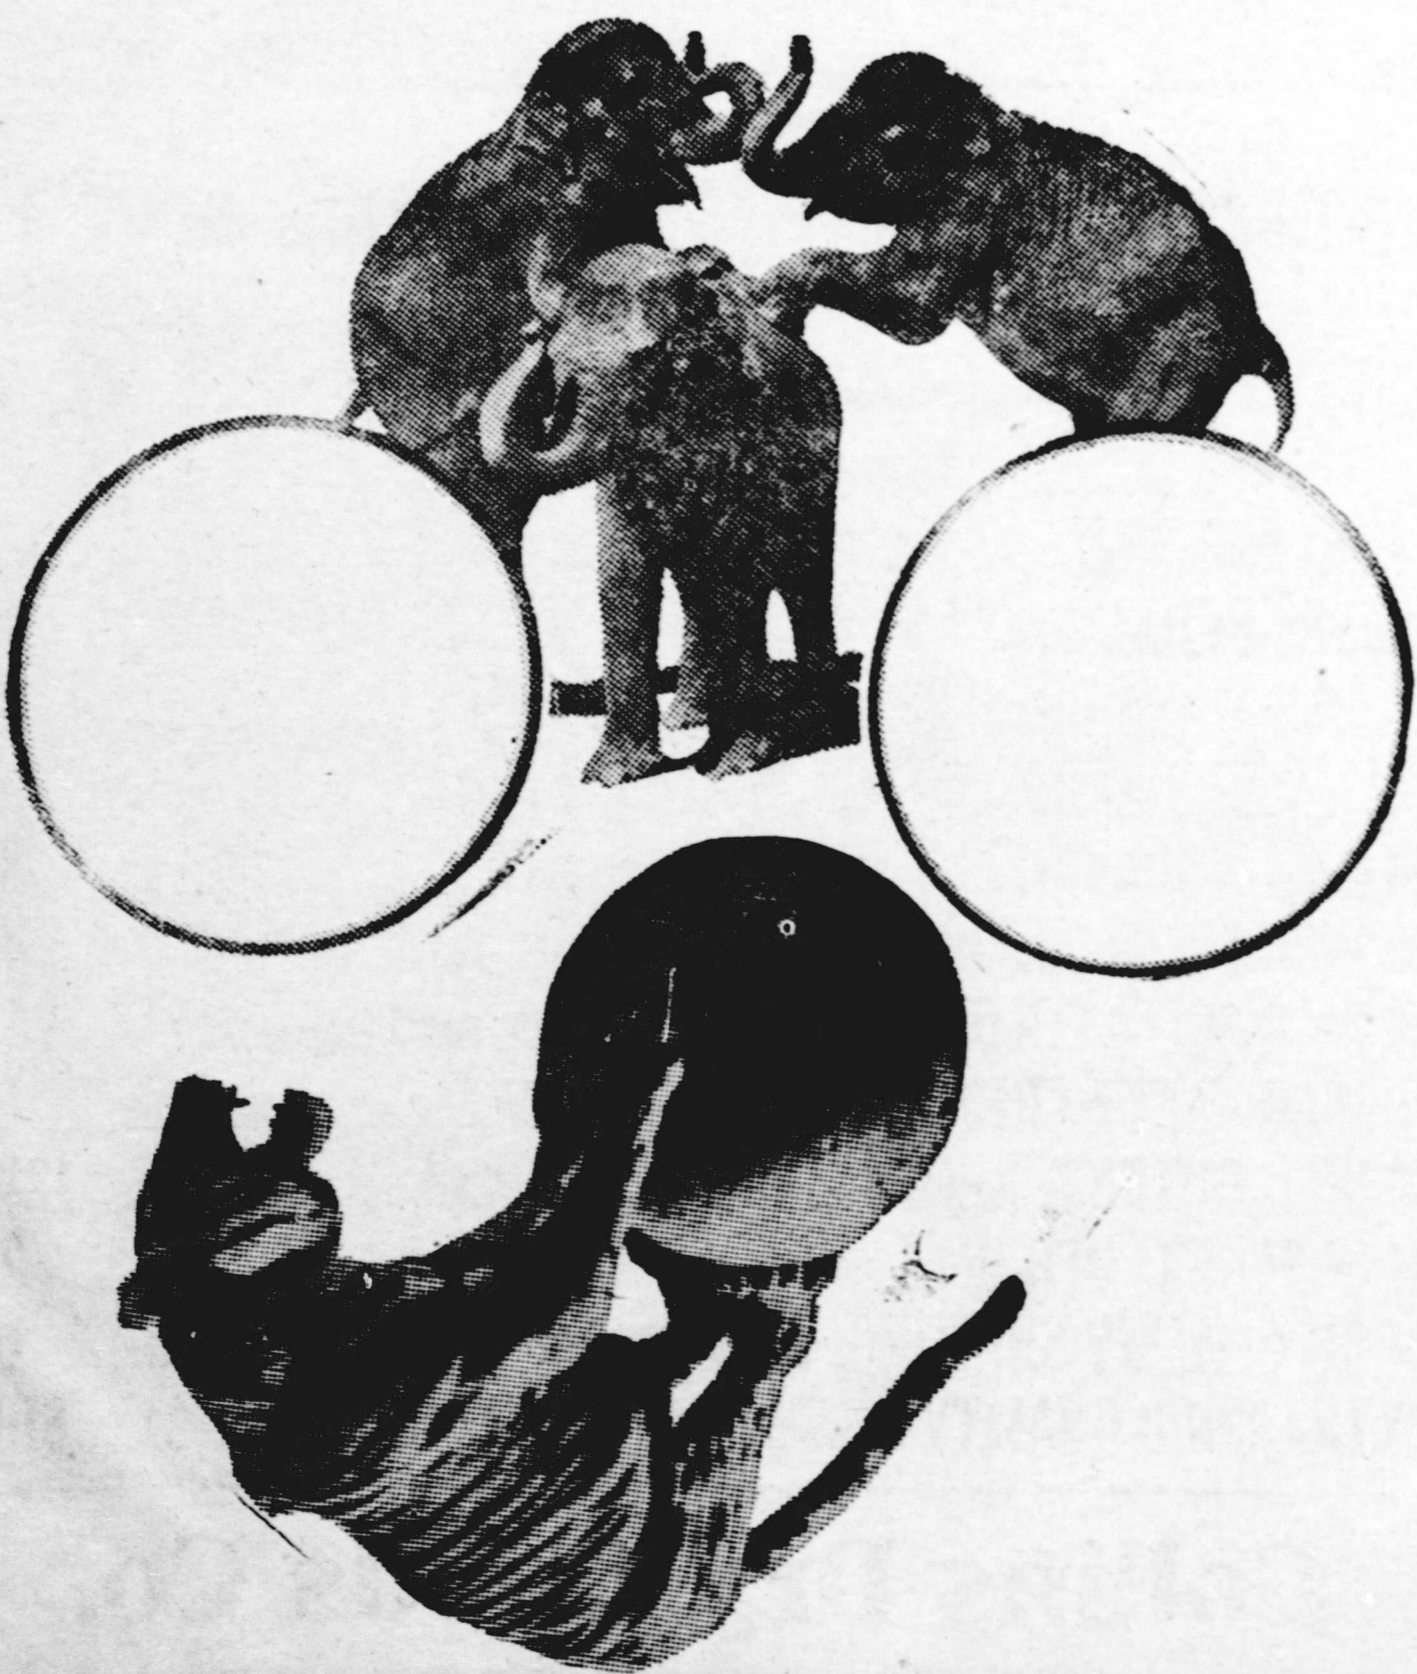

Adams and sons for \$2.40 a round. Dr. Ellis carried Arch McPhaul to Ft. Worth for an operation for appendicitis. Wm. Dennis of Aspermont had rented a farm in Yoakum county, but was stopping here with his family for school purposes. Messrs. Cooper and Gillman of Snyder were here prospecting and taking in the fair. Harris: Farmers were harvesting their crops. Mr. Baker was helping J. T. Conley head maize. Higginbotham ranch interests had bought the McPhaul Bros. steers, paying around \$32 per head for them. Arthur Cotten was vaccinating his yearlings. Mrs. Fitzgerald had tendered Miss Virgie Davis a party and dinner on her 12th birthday. Gomez Dots: Mr. Whitley had returned from Gorman, where he buried his father. Miss Clemmie Chisholm, who had been visiting her sister, Mrs. Kelly, had returned to her home. Geo. Bragg and mother had moved to El Paso. Matt McPherson was breaking some young horses he purchased from A. P. Seitz. Seminole was reported on a boom, as they had signed up for a railroad. Grass fine and stock fat. All for this week. It is reported 49 Terry county boys are enrolled at the CCC camp at Lamesa.

Arthur Brisbane Knows Paper Values

In his column, "Today", appearing in the big dailies Tuesday, Arthur Brisbane, the highest salaried newspaper writer living, paid his respects to the impending war. He expressed a strong desire that America keep out of it. He spoke of the influence of newspapers in forming public opinion. In his closing paragraphs, he said: "The most important and influential newspaper, by far, in proportion to circulation, is the so-called 'country newspaper,' smaller dailies and weeklies. "Their readers know who run them, and those readers, not living in city apartments, with a can opener, buy everything from the paint on the roof to the cement in the cellar floor, from the piano and radio in the sitting room to the car in the garage."

PUBLIC CONFIDENCE CONTINUES TO GAIN

Bankers Report Nation-Wide Improvement in Attitude Toward Banks—Educational Campaigns Play a Part

NEW YORK.—Ninety-six per cent of over 300 reporting clearinghouses throughout the United States find concrete evidence of favorable turns in public opinion regarding banks. It is shown in the results of a survey made by "Banking," the monthly publication of the American Bankers Association. City and country districts in every state are represented. It is pointed out. "The outstanding conclusion is that there has been a genuine nation-wide improvement the last few months in the attitude of the public toward its banking institutions," the publication says. Statistical evidence on which the bankers base their conclusions which warrant this statement is as follows:

The Evidence
"How do bankers know there has been an improvement in the public attitude? They have certain statistical evidence. They have seen their deposits increase substantially in nearly all the cases reported, and tremendously in some cases. Many letters tell of increases of 100 to 300 per cent from the low point of the panic. "For another thing, they know that fewer people are using safe deposit boxes as a repository for their savings, and that, in many instances at least, postal savings are declining. "However, many express the view that they could throw out the statistical evidence and still realize that the public is in a better mood where the banks are concerned than before. The best evidence offered on this point, numerous bankers say, is to be found in the acceptance by the public of the newly instituted service charges and the reduced deposit interest rates."

A Summary of the Returns
The statement presents the following summary of the survey: "We find on breaking up the general classifications of replies to the poll that the 65 per cent of those answering with an unqualified 'yes' represent only a partial measure of the optimistic feeling. Adding the favorable replies included in other groups, (i. e. 'yes' with qualifications, 'no change,' and 'mixed') we find that the vote shows a definitely healthy situation in 84 per cent of the localities reporting; at least some signs of improvement in another 12 per cent; a continuance of unfavorable conditions in 2 per cent, and a change for the worse in another 2 per cent. It is not too much to say that this is 'substantially 96 per cent favorable.'"

Reasons for Changed Public Opinion
As to reasons for the changes in public opinion regarding banks reported by the clearinghouses "more than one organization has a word to say about the American Bankers Association advertising and educational material," the magazine says. It mentions in addition the benefits of the Federal Deposit Insurance Corporation in the emergency, improvement in the general business situation, the weeding out of weak banks and the banking moratorium. "The response to the survey can be put down as encouraging and informative," the magazine concludes. "It holds out the definite hope that with a continuance of a cooperative, educational attitude on the part of the bankers the rest of the journey back to normal may well be completed in the not too distant future."

BANKERS ACTIVE IN SOIL SAVING MOVE

Issue Book Describing Causes, Ravages and Means of Prevention of Erosion

MADISON, Wis.—Under the title "Protecting Investment Values in Land," the American Bankers Association Agricultural Commission has published a booklet dealing with the conservation of soil resources as a pressing national problem. "Careful estimates indicate that 750,000,000 tons of soil, suspended and dissolved, are carried off to the sea each year by running water," the commission's book declares. "An equal amount removed from its source is left on route. This means a total of 1,500,000,000 tons, equal to approximately one ton for each acre of land in this country. The Soil Conservation Service estimates that 35,000,000 acres have been ruined. "There are 125,000,000 more acres that have lost the valuable topsoil, and it is estimated that still another 100 million acres are being converted into marginal or sub-marginal land, bringing disaster to those trying to eek out a living from erosion enfeebled soil, and threatening ruin to the next generation, since these destructive forces are going on at an increasing rate." In a chapter devoted to control and preventive measures for soil losses it describes terracing, strip cropping, wind erosion control, gully control and the control of losses from leaching. Other chapters are devoted to soil resources, the toll exacted by soil erosion, methods for keeping soils productive, state and national uses for non agricultural land, forestry in a soil conservation program and wild life in a land use program. The booklet describes in detail the marshalling of many forces which is being brought about under the leadership of the Soil Erosion Service to meet this national problem.

Mack Thomason informed us last week that cotton was opening fast in his section, and that several would go to picking this week. This week has been ideal for cotton opening. The days are clear, and a brisk dry, southwest wind has blown almost every day. Some one remarked that each of such days almost equalled two days so far as cotton opening is concerned.

Turkey Grading School at Plainview

PLAINVIEW, Oct. 1.—Texas' only official turkey grading school will be held in Plainview October 11 and 12, according to J. T. Hoggins, president of the Plains Turkey Inspection Association who is broadcasting an invitation to everyone in this area who is interested to attend. The school will be held in the Hilton Hotel.

Thomas W. Hoyt, marketing specialist of the U. S. Department of Agriculture and R. P. McCarthy, poultry specialist of the Texas A. & M. College will have charge of the school and certificates for turkey graders will be issued those who pass the examination following the school. "It is our hope that at least two or more representatives of the various counties in this territory will attend and be certified as turkey graders", Mr. Hoggins stated. "We feel that this section is very fortunate in securing the only official grading school to be held in Texas this year and we are very anxious for those interested to take advantage of it."

AW SHUCKS

Editor's Note—No finer tribute was paid at the passing of Oklahoma's two noted sons, Wiley Post and Will Rogers, than the following verse by an Oklahoma writer.

Ambling along, his shrewd kindly eyes
Shyly viewing the beauties of a new land—
Sizing the hand of an old crony,
Or of a president, fellow-ambassador, senator
Or prince—
Grimacing wistfully—and humbly before his Creator
Perhaps saying, whimsically:
"Y'know, Lord, all I know is what I've read
In the papers
'N' picked up as I gaddered around
Hither 'n' yon;
But all this stuff that's in the papers
Just now
Page on page—'n' all the pictures
Aw, shucks, Lord,
I wish I coulda earned
A little mite of it.
They mean well, Lord—don't hold it against 'em,
Let's just call it good intentioned exaggeration;
They're just being kind
To an ignorant ol' cowhand
From Oologah,
Y'know Lord, that's a great bunch
You've got down there
Senators 'n' all;
I'm gonna miss 'em for awhile,
But they'll be coming along.
I had no idy
They felt—that way—about—aw, shucks, Lord—
After the way I've kidded 'em,
'N' all—
But I've never hurt 'em till now.
An' I'm just wonderin' Lord
If there ain't some way
You can ease it up for 'em?
Just tell 'em that—shucks—it ain't bad like that a-tall—
An' that this round-up's just fine an' prettier than the song.
Y'see, Lord, that down there gets right next to me, an'
Shucks, there ain't nothin' I c'n do about it;
So do what you can, won't you, Lord?
I've got lots of confidence in your ability
Along that line.
Well, there goes those bells—my time's up,
So I'll be moseyin' along,
Say, Lord! Ain't that ol' boy over there

Properly Stowed Bags Add to Comfort

Comfort, pleasure, and safety on a tour depend largely on the stowage of the luggage, and modern body designs have done much to ease the problem, as these views of Chrysler models reveal. In the upper left view, the suitcases have been fitted in snugly, the adjustable front seat having been moved forward to allow extra legroom, and the driver is now pushing back the seat to clamp the bags in place for the trip. Upper right, the tourist is utilizing the baggage space back of the rear seat. The two lower pictures show the stowage of a coupe compartment and a sedan trunk.

THE WORK OF CREDIT

Bank Shows How It Gives Needed Aid to All Classes of Prudent Borrowers

How a bank loan portfolio presents a graphic cross section picture of the business of its community is disclosed by the description which a midwestern bank recently gave of its loans to customers. It revealed also how closely interwoven with its neighbors' varied lives are the threads of the bank's financial helpfulness.

This description showed that the bank had made a loan of \$100,000 to a local shoe manufacturer to purchase materials, discount bills and meet current requirements.

To a wholesale grocer \$95,000 had been advanced for the purchase of inventory, the loan to be repaid over a period in accordance with specified terms set forth in the loan agreement.

Assistance in Personal Matters

Another loan had been made to a home owner to the amount of \$200 for painting and repairing. This was made in cooperation with the Federal Housing Administration and was being repaid in twenty-four monthly installments of \$5.33 each.

A dentist had been loaned \$300 to purchase new equipment. He was paying off the debt out of his professional earnings as they came in.

To a large domestic refrigerator distributor \$20,000 had been granted on warehouse receipts to finance dealer shipments.

A home owner had been granted a \$3,000 mortgage loan to be repaid in three years.

One thousand dollars had been advanced to an office worker on the cash surrender value of his insurance policy to aid him in meeting an emergency.

The National Total

If each of these various examples were multiplied many times the result would represent the total volume of credit cooperation which the bank was extending to its neighbors in its community, for aggregate loans to all its customers amounted to more than twelve million dollars.

If the typical examples here given were multiplied by many millions of times the result would represent the total economic cooperation which the banking system of the country as a whole is extending to aid the innumerable personal, professional, industrial and commercial activities which make up the whole business life of the nation. The nationwide total of such loans is in excess of 20 billion dollars.

Weekly Church and Social Happenings

Nineteen ladies met at the church of Christ Monday p. m. and finished the book of 2nd Corinthians. Next Monday their study will be 1st chapter of Galatians. Mrs. Fry led the lesson last Monday. Some plans were made for their meeting that is to begin October 6th.

The Baptist ladies quilted three quilts for the orphans home Monday when they met at their church in an all day meeting. A covered dish luncheon was served at noon to twenty ladies.

Mrs. C. H. Hester who has been quite ill at her home two miles north of town is very much improved.

Miss Olga Fitzgerald returned Friday of last week from Phoenix, Ariz., where she visited two weeks. Her brother, Clyde Fitzgerald and family had made a recent visit here and she went home with them.

NEW LEAGUE OFFICERS

New officers were elected at the Methodist young peoples' League last Sunday evening as follows:

President—Mary Louise Tinkler.
Vice Pres.—Lorene White.
Secretary—Shirley Burnett.
Standing Committee—Lynn Nelson and J. D. Stewart.
Reporter—Iris Lewis.

J. D. Stewart has charge of the program for next Sunday evening, and the League hopes that each member and those that should be members will be present. A new program plan will be discussed. The League has pledged \$10.00 on the church debt.

Mr. and Mrs. Geo. Morris of Abilene were guests of Mr. and Mrs. James H. Dallas last Sunday. The ladies were students together in the State University some years back, and are going on from Abilene to visit back at Austin and other places there about.

BANKS PLAN ADVERTISING

Substantial funds have been set aside from reserves of the American Bankers Association to finance the development by its Advertising Department of a service of informative newspaper advertisements setting forth in brief, popular language the methods and policies under which banks operate, their effective practices for protecting their depositors' funds, the services they render and the various ways in which they cooperate with business in their own communities in fostering sound recovery and progress.

Some 350 banks are now using this material and it is available at a moderate price for all of the members in the association who care to use it in bringing about better public understanding in their own communities regarding banking and its services. It has materially stimulated the use of newspaper advertising among banks.

Many favorable comments have been expressed regarding the informative and constructive character of its messages. It is issued in two sizes: the larger size is 3 columns wide by 10 inches deep, but in some instances subscribing banks have expanded this to occupy full pages in their local papers in order to obtain a more emphatic effect. Four pieces of advertising copy are supplied each month in this service.

FEDERATED SOCIETY MEET MONDAY; THIRD PROGRAM OF THE YEAR.

The theme song "I'll Live For Him" was the opening song Monday when 42 members of the Federated Society met at the First Christian church in their third program of the year.

The program was as follows:

Scripture Reading—Mrs. F. Wier.
Prayer—Mrs. J. E. Shelton
Duet—"My Mother's Bible"—Mesdames Word Price and H. O. Longbrake.
Piano Duet—Mesdames W. H. Dallas and Jot Akers.
Mrs. Roy Winger gave a very interesting talk on "The Word" using a number of Bible characters.
Reading—Lenore Brownfield.
A nominating committee was appointed of Mesdames Word Price, H. O. Longbrake, Frank Wier and S. T. Miller and at the close of the program the following names were presented and elected as officers for the coming year:

President—Mrs. J. E. Shelton
Vice Pres.—Mrs. Tarpley
Secretary—Mrs. Jesse D. Cox
Treasurer—Mrs. Voncie Simmons

Plans will be made to have a public installation of these officers the last meeting of the year which will be December the 30th.

Refreshments were served.

J. R. McKinley and family of Lubbock, have located here, as he has accepted a position with the Burnett Bakery. He was with the bakery of Sally Ann bread at Lubbock until he came here, and is said to be one of the best bakers in this section.

BANKERS SUPPORT ACTIVE AGRICULTURAL COMMISSION

The Agricultural Commission of the American Bankers Association is promoting widely among bankers the practice of aiding their farm customers in installing on their farms better financial, accounting and operating methods. It also cooperates in the endeavors of the state bankers' associations along similar lines.

The commission has published a book on "Making Farm Investments Safe," presenting a compendium of helpful material published over a period of years as a reference guide in the daily routine of banking and farming relationships. It has also published "Factors Affecting Farm Credit," discussing in an illustrative way how farm credit can be obtained on a sound basis.

Another publication is the monthly Bulletin of the commission which circulates to about 10,000 persons, among them the county agents throughout the United States, who make frequent use of the material and suggestions prepared by the commission. Likewise, the commission has appointed 2,300 key bankers covering every county in the United States, who act as focal points in their districts in fostering better understanding between bankers and farmers.

A HUGE BANKING SYSTEM

The latest official figures covering all banks in the United States show that there are 16,942 licensed banking institutions of every kind and that over 3,000,000 persons have entrusted them with their deposits to the amount of \$1,500,000,000.

Citronella Taken From Grass
Citronella oil, base of mosquito coils, comes from a grass cultivated in Ceylon and Java.

NEWS NOTE

"I see by the paper that 36,000,000,000 eggs were eaten in the United States last year."
"Yes, and 20,000,000,000 of them should have been eaten the year before."
