## BARGAINS HERE on TRADESDAY

### Now is the Time to Make Those Dreams Come True

#### HIGHWAY AND STREET PAVING TO BE GIVEN PREFERENCE ON WPA PROJECT

##### Rodent Control Crew to be in Operation in Near Future. A Crew of Ladies to Instruct in Sanitation and Foods. Sewing Room to Employ Many Local Women.

The members of the Board of local and county WPA works projects met last Thursday in the office of County Judge R. A. Simms to get some of the projects started as soon as possible, to choose out the ones that can be started soonest with the spare labor now available. It seems that farm work has absorbed most of the available men in this county, especially for rural jobs, there being a few around town having part time work that can be used. So streets and road work will likely be given preference over the park project.

of the labor of some 30 women. As we understand it, the garments they make will be from cloth made for relief purposes, and the garments will be so used. While Terry county is supposed to be off relief, there are still several aged and disabled people to be fed and clothed. Terry still have a nice supply of flour and some canned stuff on hand, much of which was canned here.

#### Boy Scout Council to Be Rehabilitated

##### Sam Miller Is To Stack His Feed Away

Boy Scout officials of the South Plains are busy rehabilitating the South Plains Area Council which has been dormant for the last eighteen months due to the financial conditions. Under the leadership of Dr. F. B. Malone, President of the South Plains Area Council and with the assistance of B. W. Draper of the Regional Scout Office in Dallas, many committees are working on the program. At a recent meeting of the Executive Board a financial policy was adopted which called for setting up a membership in the South Plains Boy Scout Sustaining Club similar to membership in the West Texas Chamber of Commerce.

#### Terry Has Much to Be Thankful For

##### THE HERALD BIG "WEEKLY PAYROLL" CLOSSES 4 P.M. TUESDAY DECEMBER 3

In 1934, when most of the counties in this section were making from one-third to one-tenth of a crop, old Terry had a fairly normal corn and feed crop, and nearly half cotton crop. Thousands of tons of feed was not only sold locally to feeders and shippers, but went off the caprock by the truck after truck load. Indeed one began to meet trucks down about Snyder from Terry as one come this way from Fort Worth and Dallas.

#### Honor Among Thieves? Emerson Thinks So

##### To Bring in Some Lincoln-Zephyr Cars

N. F. Emerson informs us he has changed his opinion about thieves. He used to think all thieves, was a dog, but a few days ago, he had a whole beef hanging in a windmill tower near Wellman, when some old boy took a hindquarter, and very graciously left the rest, for which he is very thankful. He says he figures the person must have been a pretty good kind of fellow after all, and hopes he enjoyed it.

#### Not One Minute Must Be Lost By Candidates Who Hope to Win a Big Prize. Readers Who Have a Favorite in This Exciting Race Must Hurry With Their Subscriptions. Don't Turn Your Back on a Friend!

And now the time has come to make those dreams come true. For the past seven weeks a group of workers have been exerting efforts to widen the list of readers of the Terry County Herald and to collect renewals from present subscribers. We are now almost ready to close the books and Tuesday, December 3, at 4 p. m. o'clock will witness the consummation of their efforts and the awarding of the prizes.

#### Business Men Preparing For Tradesday

Business men in general here are preparing not only for a good day Saturday, but a repeat for next Monday, when our regular Tradesday shall have rolled around. Some of them already have storewide sales on, and others are preparing specials. Many of the grocery men will extend their specials for the week end to cover Monday.

#### Cubs Take a Game From Post by 43-6

Whoever said that the home team could not win its own homecoming game? The Cubs really went to town last Friday when they took the Post Antelopes in camp to the tune of 43-6. However the game was interesting from the first whistle—Post scoring first on about a 60 yard return of a punt. It looked as if each of the Cubs was waiting for the other to make the tackle. The score was an incentive for the Cubs however and they soon began to go places. Taking the kickoff after Post had failed to convert, the Cubs with Tankersley, Thalman, Burnett, and Stewart taking turns, ripped off yard after yard. There was hardly a pause until Brownfield had chalked up a counter. Burnett converted and from then on the Cubs were not to be denied.

#### NAMES OF JUDGES

The following well known citizens will act as judges in counting the final votes of the "Payrollers" in the Herald's Subscription Campaign, next Tuesday, at 4:00 p. m.

#### An Inch of Rain Falls Over Terry County

A steady downpour of rain fell here all night Monday, following an all day drizzle. The clouds broke about daylight Tuesday morning, and it has been more or less clear since. At this time (late Wed. afternoon) we have a fresh norther, with some snow like clouds.

#### Meadow FFA Chapter Split With Seagraves

Two teams from the Meadow High Chapter of the F. F. A. played two good games of basketball in Seagraves last Saturday night. The Juniors (weighing under 125) of the Meadow F. F. A. were composed of Clyde Gamble, George Gatewood, Charles and Lenior Easterwood, and Charles Poole, who won their game 16 to 24.

#### Philco Radio Expert Here Last Saturday

Mr. Meyers, radio expert from the State Distributing house at Fort Worth for Philco radios, was here last Saturday all day, and had at his disposal practically a full line of these popular radios, which he took pleasure in demonstrating to anyone interested, at the local distribution store, the Brownfield Hardware Co.

ing a blank as we have had here since early in the history of the First Monday Tradesday, before the event had much advertising. But last Friday our farmers were way behind with gathering; Saturday before had been bad, and Monday had opened nice, bright and dry. The farm population therefore deserted the day for their fields.

#### BRIT CLARE WAS IN FROM THE RANCH NEAR HARRIS, WED.

The gins were all slowed up the first of the week on account of the weather.

#### CARD OF THANKS

We take this means of thanking our many good friends in Terry county for their help, sweet words of sympathy, and beautiful floral offerings made at the funeral of our beloved wife and mother. May God graciously bless each of you is our prayer.

#### A REAL TESTIMONIAL

Customer—You say this hair-restorer is good, do you? Druggist—Yes, sir; I knew a man who took the cork out of his bottle of this stuff with his teeth, and he had a mustache next day.

#### DUMB-BELL

"I want a book, please." "Yes, madame. Something light?" "It really doesn't matter. I have a car."

Dewey Murphy and Family are entitled to a pass to the—**Rialto Theatre**—to see—**"Accent On Youth"** Be sure to present this clipping at the box office at the Rialto Theatre. Compliment: Rialto-Herald

IT'S WHERE YOU FINISH THAT COUNTS IT IS NOW OR NEVER WHO WILL WIN? It is not so important where you stand in the published vote today. It's important where you stand when the ballot box is opened and the judges make the count. Four o'clock Tuesday afternoon is the final hour. If you lack 1000 votes of being ahead, it cannot be helped then. So it behooves you to work hard and stop for nothing now. For it's where you finish that counts. Now all of you gamblers, here's the lineup! You know them better than we. WHO WILL WIN?

J. C. Green (Uncle Jimmie) Brownfield	1,569,200
Mrs. Jack Tiernan, Brownfield	1,551,800
Mrs. Troy (Fannie) Neal, Brownfield	1,550,100
Mrs. D. J. Harris, Meadow	1,501,900
Boyd Moore, Brownfield	601,900
Miss Margaret Christie, Brownfield, Rt. 5	600,900
Mrs. Bettie Criswell, Plains	600,100
Mrs. M. D. Smith, Seagraves, Rt. 1	202,700

THE LAST CALL Let's Go over the top big. Let's tell the world we did it. Let's be a winner—not a loser. Every subscription counts until the last minute!

The Official Paper of Terry County and the City of Brownfield.

Eddie Warren of the Post, Texas, Dispatch complains that his commissioners court is not satisfied with printed letter heads, but has recently had some lithographed by an out-of-town firm that pays taxes and boosts the bank deposits of a Texas city...

With Our Exchanges

In the last few weeks we have been privileged to read some of the many different definitions of the small town. The Hale Center American says it is a place where the "Trade at Home Merchant" is that way to save some money for his wife to spend in the big town...

"What is a huzzamaguzza?" It seems that everybody is asking this. And very few seem to have the right answer. Some have said that it's what a boondoggler makes in his spare time. But that isn't it. Others have ventured that it might be an Ethiopian dish, a Hawaiian (?) instrument, one of those knit dresses, an auto speeder who dashes by you, or a Mid-West politician hesitating to decide which side of the fence he will be on...

We used to call them "Milormore" birds down here on the south Plains, especially if we expected a game warden to come along. Also, the antepele's name was simply "goat." But we understand that boondoggler is the new name the Republican standpatters have fixed up for the new deal.

J. C. Estlack observes better times in Clarendon because the cigarette butts on the streets are more numerous and are longer. Estlack joins Roger Babson in predicting that the depression is about over.—Canyon News.

That is true, Jay See, as regards both cigarette and cigar butts, but we don't believe you'll find many pint bottles that are not drained "to the last drop."

"And now comes the experts telling us that the oil reserves of the good old USA are sufficient for another hundred years or so," says old Andy Jack Stricklin, the lone wolf worrier of the Herald at Brown-

"So we are fixed up for awhile at least to go ahead with our fast car and huge truck making to maim and mash thousands of our citizens each year." (Jack—with a couple or three oil fields over in the pastures near door, why continue to worry?)—Lubbock Journal.

That well was in a cow pasture next door, or almost so, Sharley but Willard Bright of the Seagraves News says that Editor Stockton Henry over at Lorenzo has moved the well down near Seminole. We have given up

hopes of an oil field near us now. Sharley Shurnal Guy had an off-stage whisper to us last week in an article in which he was advising us "kentry" editors, among which was Bro. Richards of Anton News to lay off the propaganda sent out by Industrial News Review. Well, our reply is no "aside" whisper but goes out to Sharley like the rolling thunder from the "lone wolf's" den. While most of the propaganda in the News Review is intended as props for the big manufacturers, utilities and railroads, there is occasionally some good articles in the mess if shifted out. But why should Sharley be bringing this advice? Didn't he recently oppose a bond issue in his city for a cheaper gas rate personally and editorially? And didn't the local gas people throw page after page of advertising his way, while they "sometimes" ran a small one with our small town weeklies? With that in mind, we think Sharley has mighty little room to advise the small papers of the section about what or what not to run in our columns.

SHOULD PHYSICIANS HAVE RIGHT TO END SUFFERING? One of the most heated discussions now going on in England is over the question of whether a physician is justified in painlessly putting to death a human being, at the sufferer's own request, when the patient has no possible chance for recovery or other relief from mortal agony. Legislation is proposed giving that right to physicians, under definite restrictions, which include: Request by the patient; approval by the nearest relative or guardian; approval by two physicians specially licensed to give opinions in such cases, and finally,

approval by a "referee" appointed by the minister of health.

The bill is sponsored by leading medical men, including the King's physician, Sir Humphrey Bolleston. Opposition is naturally strong, especially on moral and religious grounds. It is a grave question, and one which admits of much argument on both sides. When discussed by those in good health and consequently free from pain of any kind, it is a somewhat academic matter, and the average person would perhaps look upon "mercy killings" with horror.

On the other hand, if these same persons were suffering the unspeakable tortures of the last stages of cancer, spinal meningitis, hydrophobia, general peritonitis, or any of the many other afflictions known to be incurable, they might take a different view.

While not prepared to express a positive opinion on the subject, we have often wondered why a human being could not properly be permitted release from such suffering, when no possible benefit to anyone could result from its prolongation.

The ultra-orthodox may contend that this relief should be denied, because it is God's will that the victim should so suffer. But somehow, we can't quite believe that the Almighty gets any especial gratification from witnessing human agony either in this world or in the world to come.—Que-mado Valley Sun.

THANKSGIVING

Lord, I give thanks For the green gospel of the grass, And the white billowy clouds that pass; For the world's great loveliness, And the rain's healing hands that bless. The fevered meadow and the road Whereon is set my still abode. I thank Thee for the quiet moon Long shadows in the afternoon; For the great peace the blue sky knows, And the red raiment of the rose; For the soft tumult of the leaves, In autumn, on my haunted eaves, For the clear sky on wind-blown nights, And all the little village lights, That smile at me through winter's dark. Each on a human, tender spark. For apple orchards, while with May, For many a far sequestered way; For the deep patience of the pool Within a forest beautiful. I thank Thee for the simple things, Beyond the glory of the kinks; For goodly books to read at night In the sweet peace of candle light; For break to break, a child to kiss And O, Dear Lord, for this and that; The love of woman that shall last 'Til time itself, and life, have passed, And as the long bright journey ends, Lord, I give thanks for many friends. —Charles Hanson Towne.

UNION X-RAYS

Your correspondent has been mighty busy the last few weeks trying to turn a big crop into a little money. This accounts for the poor showing we have made lately in getting up news items from this locality. We promise a better report in the future.

We are proud to report a new store and service station in 'our little city.' Mrs. Julia Briscoe is the proprietor. She has a nice new stock of good standard merchandise and her prices are in line with the best of them anywhere. We welcome this new business.

Oil leases have been obtained on a large block of land in this community and a five thousand foot well is to be drilled in the very near future—Sounds good!

A pie supper at the school house recently was well attended and added considerable to the school athletic fund. Some of the gallant young bloods of the community are sour on Elzy Groves because he out bid them on the pies of most of the best looking ladies. Atta boy, Elzy.

A traveling motion picture tent show has just moved on after a very successful run of about ten days in 'our city.'

Mrs. Ruth Bryant of the Johnson community has returned home after spending a week with her parents, Mr. and Mrs. Elzy Groves.

Mr. and Mrs. J. C. Johnson visited Sunday with Mr. and Mrs. Bert Inman.

Mrs. John Bass entertained a number of her friends, with Mrs. Ruth Bryant as guest of honor, Wednesday of last week. A very enjoyable afternoon was spent in quilting and other interesting features.

We'll have the biggest oil well—Come to Union!

**THANKSGIVING**

Again the last Thursday of November has rolled around, and again the student body of the Brownfield Public Schools are eagerly accepting the holiday offered them.

But do we fully appreciate the meaning of Thanksgiving? Let us briefly review the history and think more seriously of the true significance of this National Holiday.

When our Pilgrim Fathers settled at Plymouth, Americanism awakened

within them. In gratefulness these early pioneers bowed their heads in humble submission and thanked the Great Jehovah for his goodness. Years later a lovable character Mrs. Sarah Josepha Hale strived to have a day set aside for expressing gratitude for favors, mercies, and divine goodness. At this worthy task she labored for twenty years and in 1864 President Lincoln rewarded her efforts and named her "Mother of Thanksgiving." Thus the last Thursday of November was set aside for thanksgiving to God for National mercies.

Surely every American will pause in his mercy-making and thank the Creator for the pleasures, joys, and happiness of life—and home, and loved ones and friends.

**BROWNFIELD WINS**

As a special climax to a rather successful season the Brownfield Cubs really put on the steam last Friday to smother the Post Antelopes to the tune of 43-6. The game was a thriller from the first whistle and the loyal fans who came out to witness the fracas went home well satisfied. It was Brownfield's first homecoming, too. Let's express the hope that there will be many others like it.

Some twenty-seven of the old letter-men came out as our guests. A dissenting vote was not cast for the showing that the Cubs of this year have made. All are of the opinion that those who were playing their last contest for the Cubs deserve a seat in the hall of fame along with the other immortals who have set and kept our traditions.

The crowd was about half as large as it should be. Still there was a

showing of fine sportsmanship and most everyone of the home fans expressed a desire for another homecoming next year. We were happy to have the old grads with us, and we're glad for the showing made. As the future unfolds and others come along to carry on our traditions let them rise with the hope that they will not be forgotten; that they will have a vital part in continuing to uphold all that is dear to our school and community.

**EX-LETTER MEN**

At the homecoming of the Brownfield Cubs there were 27 ex-letter men. Some of these played on the very first team that Brownfield ever had. This was when they had to pay all their own expenses and had to buy their own suits in order to play. Others wore those heavy winter sweaters which represented the fact they had played for dear old B. H. S. about eight years ago. Then there were those that wore the bright red, so well known to Brownfield's opponents. All these boys displayed loyalty and honor among themselves.

Those attending were:

- Clyde Bond (on the first team of Cubs)
- Joe Price
- Clovis Kendrick
- Doc Scudday
- James Harley Dallas (the only one out with two stars)
- James King
- Lee Orval Lewis
- Ralph Bynum
- David Perry
- J. B. Huckabee
- Terry Redford
- Jim Cousineau
- Jack Jr. Stricklin
- Jim Neil
- Vernon Bell
- James Warren
- R. L. Lewis
- Lolan Flippin
- Tight Graham
- Eddie Ballard
- Weldon Moore
- R. L. Bandy
- Bill Brown
- Logan Redford
- Roy Chambless
- Curtis Bass.

**EX-STUDENTS**

Friday, as everyone knows, was

homecoming day. Not only the ex-letters attended but many of the old students. At 11:34, the beginning of the regular activity period all students were assembled and, with Mr. Penn as Master of Ceremonies, each ex-student was called on to say a word or two. Those responding were:

- Mrs. A. J. Stricklin—1910
- Mrs. Roy Winger—1916
- Mr. Terry Redford—1924
- Miss Vivian Winston—1928
- Mr. Eddie Ballard—1929
- Mr. Lolani Flippin—1929
- Miss Velma McClish—1931
- Miss Merle Moore—1931
- M. Jim Neil—1933.
- Miss Louise White—1933
- Miss Christine Thurman—1933
- Mr. Logan Redford—1935
- Miss Ima George Warren—1935
- Miss Marjeanne Griffin—1935.
- Miss Lu'a Maude Gore—1935.

**CUB CHATTER**

Friday, Nov. 22 was a happy day in B. H. S. It was Homecoming Day. Do we appreciate our ex-students? You bet, ask any Cub.

Let us hope the basketball season will be as successful as the football season.

Miss Maize is wondering if Santa will bring her something nice—a reliable Economics class for instance. We wonder too.

Why were so many girls interested in the W. T. S. T. C. Band Friday at noon? Ask Miss Wilson.

Is Brooks Bentley the best-looking boy in B. H. S. Ask a certain Soph.

We are always glad to know what ex-students think about our school, and our paper. We were especially glad to hear from O. D. Thomas and learn that he is still proud he wore the "Red and White" colors for dear old B. H. S. We also appreciated the word of encouragement from Ruby Nell Smith.

**CUB COMMENT**

Junior Baze, son of Supt. and Mrs. M. L. H. Baze stopped in Brownfield for a short while on his way with W. T. S. T. C. to Sul Ross, Friday.

Miss Mildred Wilson and Miss Lucile Maize were in Lubbock Saturday. Coach Bost attended the Homecoming of Sul Ross in Alpine, Texas last week-end.

Sallie Truman Stricklin was in Lubbock, Sunday.

Charles and Maxine Hill from Wichita Falls were Brownfield visitors, Sunday.

Mrs. Teague was also a Lubbock visitor Saturday.

Martha Teague and Opal Coor spent the week-end with their parents at Mid-Way.

What is the big attraction in Brownfield? There are just too many Tech boys coming home these week-ends. Good work girls.

Everyone in B. H. S. is satisfied with the outcome of the Post-Brownfield game. And who wouldn't be?? We have had a grand football year, with fighting football boys and a swell coach, and we are proud of them!!!

Most of the students are planning big things for the Turkey Day holidays. We hope they have a well-elegant time and do not indulge in too much turkey.

We are just curious, but who is the cutest little Freshman boy?

Who are the three most likeable Sophomores?

Who are the four peppiest Juniors?

Who are the two most likeable Seniors?

The Press Club wishes to announce that we are starting a scandal sheet next week. This, however, will be written by no certain one—each week by a different person. So beware! Don't do anything you wouldn't want in print! And please do not bother the Press Club members by trying to find out who the writer may be.

Thanks,  
—The Blanks.

**GOING ON IN CLASS**

We understand the English Literature Class is struggling under the pressure of memory work—the works of John Milton, Izaak Walton and

John Bunyan. The Bookkeeping Class would like to abolish work-books, practice sets, and everything connected with book-keeping. More especially the little "surprise quizzes."

The Civics Class is trying to be wise and learned in the ways of conducting the government. Why some of them know the different departments, and the powers of the executives.

All Typing Classes are trying to "get ahead." Get ahead of the class in typed correct exercises, accuracy and speed in speed tests.

Part of us don't know what the Chemistry Classes are doing but we do know that some of the time they can compound some terrible odors.

And what are the Freshman Algebra Classes doing? Poor Mr. Baze and Mr. Scott. (We can sympathize with the teachers because we were once Freshmen Algebra students ourselves.

Just what does go on in Study Halls? We know that in 2nd period study hall, paper doesn't go on the floor because they leave notices on the boards that they have kept the floors clean. Why can't the others do the same thing?

The English III Class is practically driving everybody "nuts" with their questions. Why can't they work up their projects without making everyone else help?

**JOKES**

Does anybody remember way back when the word "neck" was a noun?

And there was the high school boy who sowed his wild oats and prayed for a crop failure.

Mrs. Smith: Dear, can you pass the cake.  
Mr. Smith: I suppose so, I used to move pianos.

James: Where are all the nice girls this evening?  
Robert: Out with the handsome men.

Miss Wilson: Listen here, young man, are you the teacher of this class?  
Clifton: "No'm".

Miss Wilson: Then don't talk like an idiot.  
Bert: Say, boys, I was with a real girl last night. She had hazel eyes, chestnut hair, almond skin. . . .  
Marner: I'd call that a nut.

**MISS WINSTON LEAVES**

B. H. S. regrets very much the loss of their Home Economics teacher, however, they are glad that she has secured a better position. She will teach foods in the high school at Vernon, Texas.

Miss Winston graduated from B. H. S. in 1928. In 1932 she graduated from C. I. A. The following year she was back in the old school again teaching Home Economics. This was the third year of her work in B. H. S.

**MAKIN' SNOOPEE**

A little birdie tells us that a certain teacher is really planning on a big time Thanksgiving. We wonder what?

Say! Just imagine some of the teachers not assigning lessons over the week-end. Yeah! Just imagine!

Who is the cause of so much rare tattling around these parts lately? What's the matter can't you take it?

It must be great to be a football boy and be so important as to be rushed for both dates and autographs, especially the same week.

Why is it, that some people can't refrain from trying to pry into everybody's business? We wonder!

We are just about to believe the old adage "Absence makes the heart grow fonder" because we notice that "she" is usually seen on Sundays riding around in company of her girl friend. "She" still remains true, boys.

What senior boy is so sour that it would break his face, if he broke over and smiled?

What senior girl thinks she's Venus in person.

Why don't some of the students of B. H. S. refrain from repeating things they know aren't true.

What certain sumpin, has a certain football boy lost since he started going with—? Come on break over and shine your shoes.

What inspires so much talking between classes among certain couples?

Who are the two most noted blondes in B. H. S. No, not "platinum"!

We hear a certain B. H. S. girl has a boy friend in Tech but we haven't seen any evidence of this fact.

Why don't we talk up our school, and our faculty, instead of running them down. Let's strive to make things easier for them, and it will be easier for us. Come on, let's try it.

What teacher stopped the rumors of a girl's football game, and who started these rumors, anyway?

**BANQUET TO BE**

The pep squad girls are preparing for a banquet to be given in honor of the football boys. Plans and arrangements are being made for December 7, in the lower hall of the high school building.

Committees have been appointed and are working to make the banquet

# HUDGENS GROCERY COMPANY

Saturday and Monday Specials

- STEAK, 7-Cuts, lb. 18c
- Fresh Fish, Oysters — Dressed Hens

a success as it is the first banquet of its kind to be given in B. H. S. They hope this banquet will be in some degree show Coach Bost and his football boys the high school's appreciation and pride in them and their success the past season.

The faculty and student body of B. H. S. were most fortunate indeed last Wednesday morning at Assembly Period, in having with us Dr. E. C. Goodwin, Head of the Chemistry Department of Texas Technological College. Dr. Goodwin was at one time Instructor of Chemistry at Harvard University; following that he was head of the Chemistry department at the University of Florida. Dr. Goodwin gave us a most interesting discussion on the Past and the Future of Chemistry, also the progress that has been made by chemists. We are sure that everyone enjoyed his talk and visit with us very much. Continued on Back Page.

### DETAILS OF THE FINAL COUNT

In order to maintain the strictest secrecy as to the business turned in during the final week of the big circulation drive the campaign is being brought to a close with a sealed ballot box which has been in the vault of the Brownfield State Bank and will remain there until taken in charge by the judges at 4 o'clock Tuesday afternoon.

The candidates themselves will be the only persons having knowledge of the amount of business they are depositing, as it will be contained in sealed envelopes, with their names written on the cover.

The door of the bank will be opened a short time prior to beginning of the count in order to permit workers to deposit all last minute business.

When the hour arrives the competition will be declared closed, and immediately thereafter, or as soon as the judges can canvass the contents of the box, the winners will be determined, the results announced and the prizes awarded. The count will not be complicated and will be made in a short time.

### RESOLUTION ON UNICAMERAL LEGISLATION OFFERED BY SENATOR G. H. NELSON

WHEREAS, the present system of two-house Legislature originated in England in 1642 as a result of the oppressive rule of the King in connection with his non-taxed Lords and Peers, for the purpose of giving to the people their just voice in governmental affairs; and

WHEREAS, under any government which refuses to sanction and permit discrimination as to class and permit certain ones by reason of birth, wealth and position to be free of taxation in the support of their government, such as was tolerated in the countries of the world prior to the birth of democracy, it is unnecessary to provide a legislative assembly for the best interests of such classes; and

WHEREAS, England, the originator of the dual system, at the present time has practically abandoned same, having shorn the House of Lords of its authority in government; and

WHEREAS, the Dominion of Canada and all its provinces, with the exception of two, have abandoned the dual system for the unicameral; and

WHEREAS, the reason for the formation of the dual legislative system no longer exists in Texas, in that, the members of each house are elected from Representative and Senatorial districts by a direct vote of the people, for the same purpose, with the same compensation, purporting to represent the same interests; and

WHEREAS, we, the people of Texas, in one hundred years have not been able to so perfect the bicameral system in this State as to preclude the passage of crude and ill-digested laws, which often puzzle learned jurists who cannot solve them with anything like satisfaction to themselves or to the public; and

WHEREAS, by reason of our legislative system the major part of our laws are written by free conference committees which result many times in the passage of or defeat of laws contrary to the direct will of the people; and

WHEREAS, the major portion of our laws are passed hurriedly in the closing hours of each session, resulting in ill-advised, faulty and oppressive laws contrary to the will of the people; and

WHEREAS, our system permits of days and weeks of filibustering by members of the legislature who desire to defeat just and righteous legislation by crowding same down the calendar to the closing hours of each session; and

WHEREAS, the bicameral system permits of the shifting and dodging of responsibility and accountability to the people, such as would be impossible under the unicameral system and the check of the recall; and

WHEREAS, the compensation of the legislator is now wholly inadequate to justify his giving of his full time to the best interests of his constituency instead of taking employment from private interests which will and do conflict with the best interests of the people;

BE IT THEREFORE RESOLVED by the Senate of Texas, the House concurring that this body go on record as favoring, at the regular session of the Legislature in 1937, the submission of a constitutional amendment to the people of Texas which

will give them the right to vote upon the question as to whether or not the people of Texas will adopt the unicameral Legislative system; that we propose the adoption of One House composed of two members from each Congressional district in the State of Texas, elected for four year terms, one to be elected from each such district every two years, with compensation at a salary of Five Thousand (\$5,000.00) Dollars per annum, and with the provision that such elector shall be precluded from taking or receiving any compensation from any individual, firm or corporation during the tenure of such office and that he shall give his full and undivided time to the best interests of the people of this State; such constitutional amendment shall provide for one continuous term for each two year period, and providing that the legislature may recess or adjourn from time to time at their will and convene without the call of the Governor should more than fifty (50%) per cent of such body so desire to the end that the problems of the people of this State may be adjudicated as such problems arise, and to the further end that delay and filibustering will be to no avail in the prevention of the passage of laws in accordance with the dictates of the people; that we further favor the embodiment in such constitutional amendment a provision whereby the people may recall at any time their representative who fails or refuses to obey the command of his constituency; and providing further that the veto of the Governor of this State as a check upon the Legislature shall be in no manner changed or abridged.

Wife—"If this boat were to sink, which would you save first, the children or me?"  
 Husband—"Me."

Guppy—"What do you mean by going all around telling people I'm a first class idiot?"  
 Blowtoad—"I didn't say first class."

**Now Is The To Make Those Dreams Come True**

**HITCHHIKER GOING—AND COMING.**

According to the American Musical Association and the United States Conference of Mayors, who maintain a research bureau to check up on such matters, the hitch-hiker is on the way out. Fifteen States and the District of Columbia have passed laws prohibiting solicitation of rides on the highways. Penalties range from a \$2 fine or a day in jail to \$300 and 10 days.

Numerous cities also have ordinances prohibiting the practice of "bumming" rides. Arrests of thumb tourists have been ordered in Kansas City which also has an ordinance aimed at truck-hopping and streetcar-hopping. At Wichita, Kan., where hitch-hikers were picked up by the police and brought in for fingerprinting, it was found that two out of every five had criminal records.

Let us imagine, with all this activity against them, that the hitch-hikers will not be with us long, it may be pointed out that there is a slight difference between enacting laws and enforcing them. Fort Worth, for example, has an ordinance against

hitch-hiking, enacted some years ago, and still the motorist observes no dearth of upraised thumbs in his jaunts about town.—Star Telegram.

**ANNUAL TURKEY SHOW AT PLAINVIEW, DEC. 4-6**

December 4, 5, and 6 are the dates for the second annual Southwestern Dressed Turkey Show at the City Auditorium at Plainview. More than \$400 in premiums are offered, including a cash prize of five dollars for the heaviest dressed bird in the show.

The only show of its kind in the Southwest, the Plainview event is sponsored by the Hi-Plains Turkey Improvement Association and the Plainview Board of City Development. Last year more than 1,000 entries were made by exhibitors throughout the Southwest.

A feature of the show is the annual sale, which will be held this year on Friday afternoon, December 6th. Governor James V. Alfred is being invited to act as auctioneer. Last year the average price at the sale was 29 1/2 cents per pound and the Grand Champion of the show brought sixty-five dollars. It is expected that the price will be much better this year. Buyers throughout the Panhandle are looking forward to the event with great interest.

**TEXAS PECAN HISTORY CENTENNIAL FEATURE**

San Saba, Texas will be the scene of the 1936 Texas Pecan Growers Association, and as a special feature a history of the pecan industry in Texas is being prepared, which will later be sent to the Central Exposition at Dallas along with prize-winning

pecans.

Mrs. Neta Cantrell, of Bend, natural historian, has been appointed to compile the information. Her appointment was announced recently by W. A. Smith, the association's president and editor of the San Saba News.

Mrs. Cantrell is seeking the cooperation of Texas pecan growers in the contribution of all available data on this interesting subject.

**TEXAS COLLEGE LINKS ART WITH CENTENNIAL**

Canyon, Texas. —A series of art exhibits is being held in the new and modern gallery of the West Texas State Teachers College here as a Pre-Centennial activity.

Miss Isabel Robinson, art instructor, has been swarmed with requests from artists for the use of their works in the Canyon exhibits, following the success of the first exhibition.

The second display is scheduled for December and will show up the water color collection of the late Boyar Gonzales, native of Houston.

**PART TIME JOBS READY FOR YOUTH**

AUSTIN, Texas.—Ten thousand part-time jobs are ready for Texas boys and girls, J. C. Kellam, assistant director of the National Youth Administration, announced today.

In order to be eligible for these jobs on WPA and NYA projects, Kellam said, boys and girls must be between 16 and 25 years old, must come from families certified as eligible for work on WPA projects, and must register with the National Re-employment Service. This registration is required solely because all assignments for work are made by the NRS.

**Supreme Court sets Dec. 9 for hearing in test of 3 A's tax.**

Johnson attacks the New Deal, but urges President's reelection.

Japan insists on full rights in mandates, she tells the League.

Borrowing money to spend today may sound easy, if you can find a lender, but when the payments fall due the job assumes proportions.

**AUTO ENGINEERS TO INCREASE ECONOMY RATHER THAN SPEED**

Automobile engines will continue to improve in efficiency year after year, but future gains will be utilized to increase economy, rather than to add to the horsepower and speed of cars, according to James M. Crawford, chief engineer of the Chevrolet Motor Company.

"From the early days of the automobile," said Mr. Crawford in a recent address at Detroit, "the demand has been for more power per pound of car weight. As the industry progressed, we learned how to get more power out of an engine of given size, and how to reduce car weight too, until today it is a simple matter to give a car all the acceleration and all the road speed that can be desired.

"From now on, engineering for economy will gain in importance. As the efficiency of engines increases, we can reduce their size without reducing power, thus bettering the ratio of power to weight. As fuels improve, we will use less gasoline to develop any given horsepower."

**NEW CENTENNIAL BUILDINGS SPRING UP**

Texas' greatest building project for 1935 and 1936 is now well under way at Centennial Exposition Park with half a dozen major Exposition buildings under construction.

Giant steam shovels are ripping up earth, towering pile drivers smash concrete plugs deep into the soil, rumbling tractors, speeding trucks and immense swinging cranes all add their mechanical drive toward the speedy building of the exposition.

The grounds formerly occupied by the State Fair of Texas are no longer recognizable as the old exhibition site. Every roadway and sidewalk has been torn up. Most of the old buildings have been utterly demolished. New steel and concrete structures are rising in their place amid the din of machinery and the rattle of riveting air hammers.

Where 1,200 men are working now, there will be 5,000 by January 1, according to William A. Webb, Exposition Manager. Soaring bank statements reflect the pressure of this additional employment. The boom is expected to extend through the state with the influx of millions of visitors next year who will visit historic shrines and places of interest throughout Texas.

Building in progress on the Exposition grounds at present totals \$3,000,000. Contracts for \$1,500,000 worth of additional structures will be awarded before the middle of December. Construction work is on schedule and the Texas Centennial Exposition will be ready to open its gates June 6.

**PERMANENT AAA IS FORECAST BY DAVIS**

WASHINGTON, Nov. 19.—A "grass revolution" in the form of a permanent AAA intended to promote to an era of sound farming practices was forecast tonight by AAA Administrator Chester C. Davis.

"We have turned too far from grass and good farming," Davis told delegates to the convention of the Association of Land Grant Colleges and Universities. "Now we are turning back."

At the same meeting, Governor William I. Myers of the Farm Credit administration predicted that federal land banks would shift from federal to private sources for funds within a few months.

Discussing a permanent AAA, Davis said: "Some effective economic mainpring, such as the processing tax and rental and benefit payments now afford, must be maintained. All transition steps must be based on education and understanding support, not only on the part of farmers, but the general citizenry."

Through benefit payments, Davis said, farmers were able to set aside a few acres for soil-conserving and erosion-preventing crops. Now, he added, farmers are beginning to renew and repair improvements and machinery on the farms.

**TEXAS FARMERS ARE REALLY THANKFUL**

Thanksgiving Day will be thanksgiving in Texas in a way not witnessed since the Pilgrim's offered their first thanks for plenty, safety, and a promising future. More than twenty thousand farm "rehabilitation" families in this state are facing 1936 with the same Pilgrim's faith; and this after similar years of drearing the winter and finding no promise in the spring.

These families are thankful for the plenty of cupboards, pantries and cellars overflowing with food. They are thankful for the average of 250 quarts of canned foods in each family's store-house. They are thankful for bushels of potatoes and many pounds of dried fruits and vegetables and popcorn filling large lard cans. They are thankful for the hundreds of pounds of canned and cured meats, and animals yet to be butchered. They are thankful for grain and roughage to carry the stock through until another crop is made.

These families have lived on their own this year. For this and the re-

**THERE'S A BIG STORM COMING!**

Weather reports and Market reports via radio frequently prove invaluable, making RCA Victor Farm Radios pay for themselves. They are unfailing sources of entertainment, bringing foreign and domestic programs. Police calls will prove fascinating. Get an RCA Victor and get the best entertainment the world affords. We'll demonstrate—gladly!

**RCA VICTOR RADIO**

sources to repay money borrowed for food they are grateful. In many instances they are doubly grateful because they have been able to repay the cost of equipment, livestock, and feed and seed secured through a Resettlement Administration loan, and many are now debt-free as well as self-sustaining.

**TEXANS HEALTHIER DESPITE THE DEPRESSION**

The first Thanksgiving Day was proclaimed for the purpose of giving thanks for the colonists' health that had allowed them to survive the first rigorous year in America. Dr. John W. Brown, State Health Officer, asks that citizens of Texas give thought to their own health at this season of the year.

Although we have experienced one of the longest depressions in history, the people have retained their health to a remarkable degree. Last year Texas was one of the few states to show a further decline in deaths among infants.

During the last fifty years health departments have been established for the purpose of preventing disease. While their activities have been hampered by a lack of funds, a great improvement in the general health has resulted. During this period the life of the average person has been increased by fifteen years. In other

words a baby born now is expected to live fifteen years longer than if he had been born in 1885.

So let each give thanks for the methods that have helped in the conservation of life and, also, pledge to assist in furthering the work being done to improve health conditions throughout the nation.

**LEASES**

S. T. Murphy to Claude Hudgens, N-200 A, Section 22, Block K, Terry County.

Rudolph Moorhead informs us that his dad Dr. J. D. is now outing at the home of his children at El Moro, N. M. He put on a two-wheel trailer to his new V-8, and stated that he was going to bring back enough beans to run the plantation this winter.

Some of the boys have been shipping in from the big bend country with some venison, but we have seen none in our frigidaire.

**THANK YOU, AMERICA,**  
*for more than a Million cars in 1935*

This year Chevrolet has two very good reasons for saying, "Thank you, America."

One reason is that people have bought so many Chevrolet cars that production for the year will reach 1,040,000.

And the other reason is that they have placed a record number of orders for new

1936 Chevrolets during the first few weeks they have been on display.

Chevrolet is indeed happy to say, "Thank you, America," and to pledge continued adherence to the manufacturing and service policies which have won and held the friendship of the nation.

### Challis Chats

Well it looks like winter has set in and cotton pickers are drifting back east and to Oklahoma where wood fires are plentiful.

Mrs. W. J. George who was in the Lubbock Sanitarium for treatment of the head and a tonsil operation is at home improving.

School reopened Monday but turned out again Wed. for Thanksgiving. Miss Jewel Jones who is attending school at Plainview is home this week for the holiday.

Mrs. Austin Noel is home after attending the funeral of her brother in Oklahoma last week.

Mr. Drew Winfrey who has been visiting for some time with his sister, Mrs. W. J. George, left Monday for his home in Cooper, Texas.

Mr. Leady Fry left Tuesday with his two brothers for a visit with their homefolks at Boswell, Okla.

### HARMONY NEWS

Nice crowd at Sunday School Sunday and singing in the afternoon.

Mrs. A. W. Fore left Monday to visit relatives in Arkansas.

Mr. Roy Campbell went to Morton Monday on business.

There will be a pie and box supper at the Harmony school Friday night. Be glad to have all you folks out and especially do we invite the neighboring communities. The proceeds will be used for a worthy cause. Our ball teams are in need of supplies and the school can use the excess to

better prepare the children in putting on plays and too with the new curtains and other improvement Harmony school should be able to give the folks an evening of real entertainment occasionally.

Mr. Rudolph Gracey spent Saturday night with Phillip and Jack Thompson.

We were glad to see J. D. and sister, Hazel at singing Sunday eve.

The young people of this community were royally entertained Sunday at a birthday dinner given by Mrs. L. Hobbs in honor of her son, Joe Merritt and J. B. Jefferies. Those present were:

Claudia Belle Whitefield, Opal D. Murry, Ruby Aldman, Willie Fae Jones, Francis Hobbs, Robert and John Garner, Wade Larner and the honorees.

Mr. and Mrs. John Garner spent Sunday in the Joe Davis home.

Mr. and Mrs. Whitefield were dinner guests of Mr. and Mrs. Hobbs, Sunday.

Several from here were at singing at Needmore Sunday night.

Mr. and Mrs. Corley entertained the following guests at games of 42 Friday night: Mr. and Mrs. Ocie Murray, Garner, and Whitefield.

The school has resumed their study and a good attendance is reported.

Joe Holt was in from the farm

Wed. and says he is getting along fairly well gathering considering the weather.

Mrs. Mattie Holden and daughter, Miss Osa from Lubbock, spent the past Sunday with their daughter and sister, Mrs. Stricklin, Sr.

# COLLINS

BROWNFIELD, TEXAS

### OUR 23 YEAR COLUMN

From our issue of Nov. 29, 1912: Two big threshing outfits were at work in the county, threshing thousands of bushels of maize and corn. One was Mr. Red from Lamesa to the Groves community, and the other had moved in from the O'Donnell section, and was at work at the Hargett farm near town. The Thanksgiving program at the school building was fine, having been rendered by pupils in all grades. In an ad on the first page put up in "typewriter type" the Herald was asking that its delinquent readers put up the kale, and that we would be found at all times preaching the pure gospel of the great old Terry section. Rev. and Mrs. A. D. Jameson had moved from Gomez to the Methodist parsonage here. Mrs. J. W. French and daughter from south Terry were visiting their son and brother, Bert and family. Mrs. Bud Singleton of the Singleton ranch in Dawson county, was visiting Miss Dora Daugherty. Mr. Redd of New Mexico had purchased several hundred head of cattle from Harry Braidfoot.

The people of the town and community were very busy with their several occupations. A Mr. Roe of south Texas, was here buying horses and mules. E. Spurgeon and wife had left for their new home in Collin county. Commissioners Court had finished approving bonds of the new

officers. Boone Hunter had brought in a buggy load of Terry county cabbage raised on his dad's ranch. Uncle Jack Coble, J. R. Hill and the editor were appointed to collect the bonus money promised the one killing the most rabbits. Chock Hamilt n won as he had the most scalps to show. A county court jury had reached a verdict in the famous Newsom-Sawyer case. Sawyer was to pay \$50 damages, take the stag, and plaintiff and defendant were to equally pay cost of court. J. E. Woodard of southwest Terry was in and announced that he would have several nice porkers to sell later.

Harris News: While visiting her sister in Mangum, Okla., Miss Mattie Spear had married a Mr. Ad Cox. McPhaul Bros., were leaving for Carlsbad, N. M., to receive 1000 head of cattle. Roy Harris was working for McPhaul Bros. Jim Wright of Okla. son-in-law of J. W. Spear was moving to Terry.

Gomez Items: The church had given Rev. Jameson a pouncing before he moved to Brownfield. W. E. Cherry took a load of turkeys to Lubbock. Bob Snodgrass was attending court. Large crowd at the singing at the Baptist church. Hilliard Blanton took a load of cotton to the railroad. Mr. Kelly had taken out all the phones and moved them to Plains, together with the switchboard. All this week.

C. G. Hudson was in from his farm north of Plains, Wed.

### State Auditor to Be Pension Director

AUSTIN.—"We are going to be fair to the old people of Texas," said the new pension chief this week.

Orville S. Carpenter, 36-year-old State Auditor, was named executive director of the old-age assistance board, November 20, by the new three-member commission. He will resign as Auditor and take up his new duties when the pension law becomes effective February 1.

"We are going into the matter carefully. I am studying the pension systems of other states that have pension laws," he said.

Mr. Carpenter probably knows more about pensions than any other man in the State. At request of Governor Allred, Mr. Carpenter made a survey in September on the "Cost and General Plan for Old-age Pensions." This was prepared for the Legislature, and the new law reflects his survey in many ways.

The Dallas business man was appointed last August by the Governor to reorganize the Office of the State Auditor. To the Legislature, he made reports on pensions, liquor, and fees. Other surveys were on taxation, bank deposit insurance, and a number of lesser subjects. He is now conducting audits of the Treasury and Banking Departments.

He estimated that there were 283,199 people in this State 65 years of age or older. Considering the experience of other states, he calculated that there would probably qualify for old-age assistance in Texas 62,933 people.

"As there are 41,787 persons 65 years of age and over on the Texas relief rolls, this apparently is the minimum number able to qualify for old-age pensions," Mr. Carpenter stated.

"I am not sure about the reducing effect of the regulations passed by the 4th Legislature. My calculations were made in September before the new law had been passed," he said.

### Gomez Gossip

FUN! FOOD! FOOTWEAR! Hear Ye! Hear Ye! Men, Boys, from Everywhere! There will be a Sock Supper at the Gomez School Auditorium tonight, Friday, November 29.

Ladies and girls are requested to bring a well filled pair of men's socks. Remember your pocketbooks men. In addition to the sale of the socks, there will be an interesting program, enough fun for everyone, and many valuable prizes. This supper is being sponsored by the local P. T. A., and the proceeds will be used in financing the local community Christmas tree. Come One and All!

Mr. and Mrs. L. F. Locke and family visited relatives at Seagraves during the week-end.

Mr. and Mrs. Elmer Sears and little son were guests in the Kellie Sears home Sunday.

Mr. and Mrs. H. H. Fore and family visited in the W. E. Dorman home Sunday.

Mr. and Mrs. Kenneth Furr and children visited relatives at Post during the week-end.

We are sorry to report Mrs. N. A. Newberry and son, Oran, on the sick list with pneumonia this week.

Mesdames Henry Cargill of Brownfield and Wesley Shiron were the recipients of a surprise shower on Thursday afternoon of last week given at the home of Mr. and Mrs. E. Lee. Many pretty and useful gifts were brought or sent by some thirty women.

Mr. and Mrs. H. N. Key and family visited relatives at Brownfield, Sunday.

Mr. and Mrs. Elmer Lee had as their guests Monday, Mr. and Mrs. George Jenkins and children of Lahey.

Mr. and Mrs. Loyd Moore and family visited relatives at Brownfield, Sunday.

Several from this community attended the open-house reception given by Rev. and Mrs. Rodgers at the parsonage of the Baptist church at Brownfield last Friday evening.

Mr. and Mrs. A. B. Landess and children visited with friends in the Happy community Sunday afternoon.

Messrs. and Mesdames J. B. Draper, D. E. Roach, and Lee DuBose and families were guests in the W. M. DuBose home Sunday.

Mr. and Mrs. E. E. Trolinder and family visited in the Joel Trolinder home Sunday afternoon.

Don't forget the date, time, place and attraction of the Sock Supper. Come!

### REV. L. N. HESTER GOES TO SOUTHLAND

Reports from the Annual Conference of the Methodist Episcopal church South which met in Plainview, November 13 to 18 are that Rev. L. N. Hester of the local church will be stationed in Southland for the coming year. Rev. Garner of the Petersburg charge will assume the Meadow and Ropesville work.

Rev. Hester has been pastor of the local church for the past two conference years, and his removal will be witnessed with regret by many of the members of the church over which he has presided during his stay in Meadow.

The change in appointments are to take place immediately, both pastors going to their new works this week.

Rev. Garner will make his first appearance in the Meadow pulpit Sunday, Nov. 24.—Meadow School paper.

### MEADOW H. E. DEPT.

The Home Economics girls have been having very interesting lessons in both foods and clothing classes.

Along with the study of breakfast dishes, serving, etc., the foods classes have prepared various dishes in the laboratory. They have also planned, prepared and served a few breakfasts. These meals are especially enjoyed about 12:00 even if they are breakfasts.

Occasionally a meal is figured as to cost, and substitutions are made in the menu to make the meal cost less, but retain the same food value.

School lunches, lunches, and suppers are to be studied next. Sandwiches have been prepared in connection with school lunches.

The clothing class has been applying facings, making buttonholes, etc. This class will soon have garments ready for display.

The girls are also carrying on home projects outside of their class work. Some of these projects are proving very practical, such as food preparation, health improvement, construction of garments and household liners, room improvement, personality development, and improving personal appearance. Miss Stuart has already visited several of these projects. She visited Jewell Tuckness last week.—Meadow School paper.

### Wellman News

The Wellman school is to reopen December 2, after a dismissal of seven weeks for cotton picking.

The Campbell Gin has been running both day and night for the past several weeks. The bulk of the cotton crop is out and most of the people would have caught up this week had the weather permitted.

The ladies of the Wellman community met at the church of Christ during the past week and quilted two quilts for Mrs. Luther Baker, who has been on the sick list for some time.

Mr. Leonard Campbell, who was hurt while working at the gin last week, is getting along nicely.

### Santa Fe Train in Race With Time

KANSAS CITY, Mo., Nov. 20.—The Santa Fe Railroad's new super-chief train was speeding through Kansas today in a race with time from Chicago to Los Angeles.

It made the Chicago-Kansas City leg in seven hours flat, forty minutes less than the schedule called for. The average speed was about 65 miles per hour, with the train at times traveling 95 miles per hour.

The train made a four-minute stop here early today. The run is a preliminary feature to a proposed 43-hour schedule between Chicago and Los Angeles, some 11 hours faster than the speediest existing train schedule.

On the straight, level stretches through Kansas, officials on the train said, a speed of approximately 115 miles per hour was expected. The next scheduled stop was Newton, Kansas.

The train, drawn by a 3,600-horsepower Diesel electric locomotive, left Chicago at 7 p. m. C. S. T. Nov. 19.

### State Senator Tells of Legislative Work

(Lynn County News—Tahoka)

Senator and Mrs. G. H. Nelson and children, Willella and Bert, returned Monday from Austin, where the Senator has been attending the two recent special sessions of the Legislature.

Senator Nelson says that he has enjoyed the work very much, though many things did not go just his way. He declares that this idea that some people have that legislators make good money on the \$10 per day they are allowed is all a myth. Living expenses, he says, are extraordinarily high. For instance, he and family were compelled to pay \$65 rent per month for two little rooms, and other expenses are high accordingly.

Senator Nelson gained much publicity by reason of his proposal for a unicameral legislature and he is much elated at the favorable response that

has been given the proposal. He has received hundreds of letters, he says, from men in all walks of life and from all parts of the state, endorsing the idea. Likewise the newspapers and magazines generally have favored it. While his resolution received only six favorable votes in the senate he says that it was defeated by only one vote in the lower house, and he thinks sentiment in its favor is growing in both branches of the legislature.

Senator Nelson is just as deeply interested, however, in other matters that demanded the attention of the legislature as he is in the unicameral-legislature proposal. He has given much thought to the matter of old-age pensions, taxation, the liquor problem, and other matters, and he discusses them with much intelligence and forcefulness.

It must have become very obvious to all who heard Senator Nelson at the Business Men's luncheon Tuesday that he is capable of giving a convincing reason for every position he has taken, and that this district has an unusually strong man in the state senate. Better keep your eye on Nelson; he is going places.

### PIONEER WOMAN PASSES

Mrs. Mattie Carruth, 68, wife of W. R. (Uncle Dick) Carruth, passed to the great beyond last Sunday afternoon at 3:30, at the family residence 1802, Ave. O., Lubbock. She had been ailing for some time. The funeral was held at the residence Monday conducted by Rev. Campbell of Lubbock First Baptist church, to which she was a member, although had never moved her membership from Stephenville. An undertaker of Stephenville, who had buried many of the Carruth and Moorheads in the past, came up with his hearse and a casket for the funeral. The body was laid to rest in the Meadow cemetery Monday afternoon.

Deceased was one of the pioneers of West Texas, who with her husband settled near Desdemonia then known as Hog Creek. When the oil boom came on there Uncle Dick sold out and moved to Stephenville, but invested his lease and royalty money in several sections of Terry county land around Challis, Meadow and Brownfield. They moved to Lubbock in 1930, where they purchased a home. Hundreds of Terry county people have known and loved this fine pioneer woman.

Besides her husband, deceased is survived by five children; two boys and three girls: Pierce and Mesdames J. R. and R. M. Moorhead of this county, and Mrs. R. S. Nabors and Richard of Lubbock. Also a brother Jordan Kennedy of Pittsburg, Texas, who was unable to attend the funeral. It is said that people from all over West Texas and New Mexico were at her funeral.

### Mrs. F. Klattenhoff of Slaton, extensive land owner in Terry county, spent some days last week looking after his property here. He was greatly pleased with crop prospects and with the general prosperity of the county.

### PLANNED REVIVALS AT CENTENNIAL EXPOSITION

The Northwest Texas Conference, Methodist Church, South, in convention at Plainview, Texas, voted to participate in interdenominational revival services to be conducted in Dallas during the Texas Centennial by church groups of the state.

Murphy May spent Thanksgiving with home folks. Murphy is taking a pre-med course at Sate University at Austin. While at home he will attend the homecoming of the New Mexico Military Institute at Roswell, from which school he graduated last year.

Roy Ballard visited his wife, baby and parents first of the week. Roy is working on a highway out of San Antonio.

show season, says the announcement. The total of 32,657 not only exceeds the record of any previous corresponding period, but sets a new high mark for 10-days' sales following the introduction date of any previous new models, it was said.

M. F. Klattenhoff of Slaton, extensive land owner in Terry county, spent some days last week looking after his property here. He was greatly pleased with crop prospects and with the general prosperity of the county.

Dr. and Mrs. M. C. Bell are here from New Mexico Mrs Bell stated that she guessed she would have to move back here, as it was too high for her where she lived.

Roy Ballard visited his wife, baby and parents first of the week. Roy is working on a highway out of San Antonio.

Mr. and Mrs. Simon Holgate and family spent Thanksgiving at Colorado, Texas with Mrs. Holgate's sister and family, Mr. and Mrs. Tom Glover.

Mr. and Mrs. Burton G. Hackney spent from Wednesday 'till Sunday with Mrs. Hackney's parents at Lubbock.

Mr. and Mrs. Madison Weaver spent Thanksgiving at Slaton with her parents.

### A. C. C. HONOR ROLL

It is interesting to know that among the three hundred twenty-eight who made Honor Roll at Abilene Christian College Abilene, Texas, for the first six weeks are the names of Elizabeth Nelson and Otis Gatewood.—Meadow School paper.

Dr. and Mrs. M. C. Bell are here from New Mexico Mrs Bell stated that she guessed she would have to move back here, as it was too high for her where she lived.

Weekly Church and Social Happenings

The Baptist W. M. U. met Monday afternoon at the church and heard a Mr. Rex Roy, a returned missionary from China, lecture and illustrate with moving pictures the work and conditions there.

Next week these ladies will have a week of prayer program, meeting every afternoon at 3:00 p. m. at the church, until Friday on which day they will have an all day meeting, serving a covered dish luncheon at the noon hour.

The Methodist ladies studied chapter four of "That Other America" Monday afternoon at the church, with Mrs. Carpenter leading. Nine were present.

DISTRICT LEAGUE GROUP MEETS

Tuesday night of last week the Methodist District League Group met in Brownfield in their regular social get-together. Miss Velma O'Neal of Meadow, Dist. President, was elected to go to Memphis, Tenn. to the Young People's Conference that will convene there Dec. 26-30, at which five thousand and young people are expected to attend.

Ladies of the First Christian church met at Mrs. Simon Holgate's home and packed a Thanksgiving box of cookies and a box of clothing and quilts for Juliette Fowler's home at Dallas.

Mrs. R. L. Bowers led a Bible lesson from the 1st chapter Isaiah Monday at 3:00 p. m. when ten ladies met at the church of Christ.

Rev. and Mrs. C. E. Fike and Mr. John S. Powell attended a district Stewards all day meeting at Lubbock First Church, Tuesday.

REV. AND MRS. RODGERS HOLD OPEN HOUSE

Some two hundred guests called last Friday evening at the Baptist parsonage when Rev. and Mrs. F. G. Rodgers entertained with open house. Guests were met at the door by the pastor and wife and were shown through the home that has been recently repapered and painted.

PRISCILLA NEEDLE CLUB

Mrs. Walter Gracey was hostess to the Priscilla Needle Club Wednesday afternoon of last week. A sandwich course, fruit cake and tea was served to Mesdames Griffin, McClish, Fowler, Dunn, Rickles, Wall, Fowler, Kendrick, Reeves and Robb. The latter lady was a visitor.

STITCH & CHATTER CLUB

Thursday afternoon of last week Mrs. J. L. Cruce was hostess to the Stitch & Chatter Club. Attending were Mesdames Stricklin, May, Collins, Knight, Herod, McDuffie, Self, Huggens, Griffin, McGowan and Downing. A chicken salad course and cocoa was served.

J. D. Roberts was in from the farm in the Wellman section, Monday.

Experienced Frigidaire Service call at Huggens & Knight also for service on all other Electric Refrigerators.

Cub's Den Con't

THE LIFE HISTORY OF OUR FOOTBALL BOYS (Con't.)

Z. O. Faughn was born at Karens, Texas on June 22, 1916. Z. O. has moved around a lot but from all we can gather he came to dear old B. H. S. from Arkansas. For awhile everyone laughed at Z. O. because of his very correct English but at last he has caught on to the slang of Texans and can use just as much as any of the rest of these people around here.

Charles Thalmann was born in Bandera, Texas, January 1, 1918. Since Charley was a quiet stay-at-home boy he lived there until the fall of '33 when he moved to Brownfield. (We heard he moved because he wanted to be on an all-district team, one of which we had the fall before.) Ever since Brownfield has had the honor of Charlie's presence in the school system. Every summer he goes back to his old home town, but just can't resist something (or somebody) about Bfid. Apparently a woman hater, Charley has prospered both in football and in school, thus making many friends among the A. O. B.

PEP RALLY

Last Thursday night, Nov. 21, our last pep rally for this season was held. Students, pep squad girls, football boys and parents were present. On the eve of our Homecoming game the old school spirit was really displayed. Several good snappy yells and songs were given by the pep squad. Then Mr. Bost introduced each of the football boys present to the audience. After Coach gave a brief word or two about their work this year, the boys said a few words. It saddened the hearts of all the football boys to know that they only had one more game to play this season and that for fourteen of the boys it was their last game for dear old B. H. S.

All Seniors felt a little downcast to know that it was the last time they would meet in B. H. S. auditorium for a pep rally as a student in B. H. S. And when the school song "The School With the Spirit" was sung it gave one a funny feeling in his heart to know that in a few short months we would be leaving the protecting portals of B. H. S.

But even with these thoughts on our minds the school spirit was well in evidence, and Senior pep squad members just raised their voices a little higher knowing it was their last time.

There were several most interesting 'pep talks' given by different people present, and may we close our

last Pep Rally report of this season with these words:

"The Cubs of '35-'36 were grand and Here's to the Cubs of '36-'37!"

WPA AND NYA WORK PROGRESSING

Most of the inside work on the original WPA project has been completed, and satisfactory headway is being made on sidewalks, curbs, etc. The original project did not call for tennis courts and gym floor but has been substituted for curb on the west side of campus. When completed, the campus will be one of the best in this part of the state. The original project called for expenditure of some \$5,200.00.

Another WPA project got under way a few days ago when three librarians were placed on the local schools, two clerical and one manual. Mrs. Tinkler and Mrs. Stuart are doing the clerical work and Mrs. Roberts is taking care of the manual. The local schools are ahead in this work as to number of employees, most schools being allowed only one or two helpers.

The other government project is the NYA or National Youth Adminis-

tration. Nine boys and girls are employed for a maximum of thirty hours per month. This work consists of clerical work, cleaning library rooms, study halls, auditoriums, etc. Much help is being rendered by the boys in taking care of the gym and the industrial arts building. At present the boys are beginning the excavation of the gym preparatory to running a concrete floor.

PURCHASED CAMERA

The high school classes of 1935-36 have purchased a camera that makes it possible to record, in moving pictures, the important events that happen in our school. They have also installed a moving picture machine so that the pictures taken by the camera can be shown at our school.

This machine will also be used in presenting shows of different types. The films for these shows have already been bought. Their characteristics differ in that some are comical, and some educational. Each student who buys a season ticket which will be fifty cents, shall have the benefit of seeing all the shows that are presented this season. The money that is taken in shall go to pay for the equipment.

The students are vitally interested in this project and they are working for its success. They are also establishing a library for the films of pictures taken by the camera of the football games and other things, and they hope it shall be a valued tradition in the years to come.

CONCERT GIVEN

The B. H. S. student body and faculty enjoyed a real treat last Friday at noon, when the W. T. S. T. C. Band passed through Brownfield on their way to Alpine, Texas. Martin Baze, son of Mr. Baze our supt., is a member of the band and as Martin and several more of the band boys attended our assembly, naturally they were asked to entertain, graciously assented to give us a short concert.

And we mean they really gave us a concert. It was enjoyed by everyone who heard them. They played for some fifteen minutes. The student body, faculty, and visitors gathered on the lawn where the band presented their concert. And again we say it was really enjoyable and added more pep and spirit to our eventful Homecoming Day.

DEATH CLAIMS DAVE NELSON, PRISON MGR.

HUNTSVILLE, Nov. 16. — Dave Nelson, the new prison manager whose theories of handling convicts promised to bring drastic changes in the Texas system, died today without having a chance to put his program into operation.

Double pneumonia brought on the death.

It was barely two weeks ago that the veteran business man took over the prison management job vacated by the resignation of Lee Simmons.

W. W. Newsom left with his wife to seek a new home where he hopes she will have better health. The Herald will follow later.

Rev. and Mrs. Ed Sharp were here Monday from Levelland. They spent that night with their daughter, Mrs. Elmo McClellan at Lubbock, and Tuesday went to Matador to hold the funeral of an old friend "Uncle Billy" W. W. Moore, who died in a sanitarium in Dallas Sunday night.

Mrs. Frank Stark has been quite ill the past several days, and was carried to a hospital in Brownfield Monday for treatment. Reports that her condition is improving and she will be able to be brought home the latter part of the week.—Seminole Sentinel.

There appears to be a disposition to ignore the Parole Board Act, in a number of counties. While this movement to restore the morale of the man who has served sentence for some crime devolves upon the shoulders of busy men and women, none the less it affords an opportunity for service hardly less important than that a great physician exercises in restoring health to a diseased being. Necessarily no glamour attaches to such a service, it is an up-to-date application of the admonition "let not thy right hand know what thy left hand doeth", since such help to be effective must be "done in secret". Governor Allred has asked the cooperation of the Service Clubs in this work and it affords us pleasure to remind our helpful people, that a rare opportunity for worthwhile service beckons them to become interested in that work.—Falfurrias Facts.

WE DRIVERS
A Series of Brief Discussions on Driving, Dedicated to the Safety, Comfort and Pleasure of the Motoring Public. Prepared by General Motors

We've all noticed that whenever a train makes a long enough stop in a station, there's somebody on the job, dodging in and out under the cars making sure that everything is in good shape for the train to continue its trip. One of the things checked at every inspection point is the brakes. For nobody knows better than the railroad how important it is to be able to stop when you have to stop.

Now, if we think of it in a certain light, we people who own automobiles are all running little transportation systems of our own. Just like the railroads and airlines and bus companies. Home is the main terminal and there are lots of stops along the line. Flag stops, you might say, and regular scheduled stops—like the office, the grocery store, the school, the theatre, and our friends' houses.

Just like the railroads, one of the main things we need to look out for is our brakes. Of course, everybody knows this and yet somehow or other we're apt to be a little careless about it. Not that brakes don't give us plenty of notice when they're going to need adjustment. As time goes on we find that we can push the pedal lower and lower, till after a while we can shove it down almost to the floorboards before the brakes take hold. Even then we sometimes wait quite a while before we have them adjusted. It just seems to be human nature to put off things like that. They tell us the result is that one-third of all cars on streets and highways at any given time have something wrong with their brakes.

The trouble is that when we let our brakes go like that, all of a sudden we may have to make an emergency stop, and we may find it rather embarrassing.

Engineers say that if we realized what goes on in brakes we would see why we ought to keep them checked up. As they explain, it's a story of momentum and friction, the same old forces we've talked about before.

They say that when we get going we build up a certain energy in the form of momentum. Now when we want to stop, we can't just destroy that energy, because, scientists tell us, Nature never lets any of its energy be destroyed. We can only convert it into some other form of energy.

What brakes really do is to convert speed-energy into heat-energy. When we push down on the brake pedal we press the brake lining against the brake drums and this creates friction that changes the energy to heat. When we have changed all the speed energy to heat, then we come to a stop.

Now modern brakes are very powerful. In fact, a 100-horsepower car will have about 500-horsepower brakes. They can stop us pretty quickly even from high speeds. But when they do, they simply change those speeds into a great deal of heat, in a very short time. The fact is we sometimes build up temperatures in our brakes as high as 1400 degrees!

It's easy to see that heat like that can cause a lot of trouble. Some of us may think it's fun to rush up to sudden stops, but we might as well realize that we have to pay for that kind of fun in excessive brake wear. It simply doesn't pay to build up brake heat a lot faster than it can be thrown off. And we certainly get hardly anything back in time saved. For instance, if we're going 30 miles an hour, our brakes can stop us in 40 feet if they're all right; but it takes them less than two seconds longer to stop us in twice that distance. How much better it is, under any normal circumstances, to begin to apply the brakes a few seconds earlier and, with gradually increasing pressure, bring our car to an easy stop. As a matter of fact, smooth, gradual stopping wherever the circumstances permit, is generally taken as a sign of a good driver.

Now if we want to keep our brakes safe and sound, it's important to remember what these fast stops do to them. But it's just as important to remember that all stops generate some heat in our brakes. That's what gradually wears down the linings, and sooner or later makes a brake-adjustment necessary. And that's why we must watch them and see that adjustments are made when they're needed.

So maybe it would be a good idea to keep on thinking of our cars as private transportation systems. If we keep them in good running condition, they will serve us with safety and satisfaction.
