

## Visited In New Mexico Sunday

Some four hundred miles of Texas and New Mexico roads were traveled Sunday by the writer and his wife accompanied by Mr. and Mrs. Herman E. Trigg and Miss Virginia Davis. There was a large section of Northeast New Mexico that the writer had not been over, which was interesting indeed. The large cotton fields of the valley, the alfalfa, apple orchards and cattle ranches all within close distance of each other, make New Mexico very interesting to the tourist.

Roswell is by far the most interesting city in Eastern New Mexico. It is made up mostly of Texas and Oklahoma people and their ideals, political and religious belief are very similar to the people in Texas. In fact if one did not know he was in another state, until of course when he reached the irrigated section of the Pecos Valley. Many of the famous shade trees that once constituted what was known as Lovers Lane, that once was both the pride and envy of the natives and visitors has almost been obliterated in sections as the large cottonwood trees were dying and became dangerous to traffic. But many of the large trees are still to be found along the highways and streets.

Another interesting feature of the visitor is the Bottomless Lakes many of which are to be found next to the bluffs of the Pecos River. As far as we know they may possibly have a bottom but it seems that no one has ever discovered a bottom. Some of them are quite large and the CCC has built good roads to most of them.

Whether these lakes have any connection with the Carlsbad Cavern further South, we do not know, but at least they are as mysterious as the Caverns themselves. But the earth around them seems to be unstable and gives off a hollow sound when hit by a heavy instrument. The water seems to be impregnated with salt, possibly alkali and other chemicals. However fish should be able to live in there.

Lunch was had at Roswell and we left soon after for Clovis following the general course of the Pecos valley railroad. About half way between the two cities there is another mysterious formation which at a distance appears not unlike a huge railway grade thrown up across the prairie that extends for many miles taking a general East and West course, in it are ledges of rocks unlike any that are found on the prairie surrounding it. Just what caused this giant upheaval probably the scientists do not know, but investigation may bring to light some day.

Clovis was reached about dark and Lubbock some two hours later and Brownfield some three hours later. So ended another Sunday outing.

## Babicora Development Co. Brings In Cattle

A train load of cattle was shipped in here Tuesday night by the Babicora Development Company from points in Kansas where they had been on grass all Summer.

It has not been stated to us whether grass played out in Kansas or whether they were just ready to bring them here. There were some 38 or 39 cars of these cattle. We have not been told whether the feeding operations will be as extensive as in 1934 or whether just a few thousand like in 1935.

## B. H. S. EXES MAKING TEAM AT JOHN TARLETON

Two of the last years Seniors of the Brownfield High School will appear in the game Turkey Day against N. T. A. C. being Robert Pharr and Guy Tankersley.

Coach Choc Sanders indicated that two Brownfield boys, Pharr at right guard and Tankersley speedy safe back will both be in the starting line up.

Mr. Will Fitzgerald was rushed to the Lubbock Hospital Thursday night and was operated on Friday for appendicitis.

Ray McNeill and family are entitled to a pass to the—

Be sure to present this clipping at the box office at the Rialto Theatre.  
Compliment: Rialto & Herald

## Election Carried By A Majority of 30 to 1

The Meadow Rural High School District No. 1 became a reality when the Terry County Board met Monday afternoon in Judge Simms office and officially declared the results of the elections which were held in Meadow and Needmore respectively on last Saturday. Each district had to vote on the proposition in order to determine whether or not that the two districts would group for High School Purposes. The votes on the Meadow District were 44 for and 1 against grouping. In the Needmore District the results were 16 for and 1 against. Thus only two voters opposed the grouping and we think that perhaps they did not really intend to vote against it but made a mistake on marking their ballots.

This splendid vote is indeed commendable for the good citizenship of the two districts. It shows that they are interested in better schools. The major advantage of the grouping is to double the amount of bus aid that the districts will get from the State. Other advantages are that this makes Needmore school a member of a fully accredited High School, and does not raise their taxes nor they lose their identity as a school. A ward school will be maintained there and it will be built up to the standards (if not already up) to the standards of the Meadow Ward School next to the High School Building.

Other advantages of the grouping is that the entire new district will be operated by one board which will enable things to be bought cheaper. Of course last but not least the 23 High School students who come into the High School strengthens that body.

The growth of the school began in the summer of 1935 when Prairie View district consolidated with Meadow. With the original 50 sections that were in the Meadow district, the 31 derived from Prairie View and the 39 in Needmore Meadow Rural High School District is one of the largest districts in the county. The new district has a scholastic enrollment of 454 and are employing 17 teachers, and operates 5 buses.

Members of the new Board appointed are: B. F. Finley, F. C. Copeland, E. L. Tilger, D. J. Gowell; William McDonald, T. C. Garner and Johnnie Bingham.

## Editors To Be Guests Of Tech College

The Lubbock Chamber of Commerce through its manager A. B. Davis, joined by Dr. Bradford Knapp and Cecil Horn of Texas Technological College have invited one hundred newspaper men and women to be their guests Saturday at one o'clock at the Hotel Lubbock at a banquet, the editors will be shown the college plant and will be handed tickets entitling them to see Centenary-Tech football game that night.

It was stated by the management of the Chamber of Commerce as well as by Dr. Knapp that the editors of West Texas and Eastern New Mexico had been greatly instrumental of building up a great college plant at Lubbock by giving of their space freely to advertise the institution, and that they believe one good turn deserved another.

## Brownfield Cubs To Invade Lamesa Tonight

The band, pep squad, faculty, and a large portion of the student body will journey to Lamesa to meet their traditional foes Friday night.

All of the boys are ready for action except Shepherd, for the first time since the first game of the season. Coach Bost says that he believes that they will bring back the bacon. They are full of steam and are ready to win a game at any cost. Brownfield has not beaten the Tornados since 1932.

The dope is slightly in favor of the Tornados but dope cannot register the improvement that our boys have made in the last two weeks. This game will be the first conference game of the season.

Next Friday the Cubs will play Post on our home field. This should be a good game since Post has been showing up pretty well. They have been playing some good defensive games. The Freshmen have decided to boost the school with the spirit by having a shirt tail parade the night before the Post game. Any other boosters of the Cubs who feel the urge are invited to bring their night shirts and join the charge.

## Coach Cawthon, Co-Captains Cannon and Jones and Coach Smith

Seem To Be Getting Ready for the Gents From Centenary For Tomorrow Nights Game

## Exercise to and from Work

Reporting each day for work at the Texas Centennial Exposition affords the two girls pictured here an opportunity to follow a hobby, solve the parking problem and obtain healthful exercise to and from work. At the left is Myronna Buckingham, an employee of the Firestone Tire and Rubber Company exhibit. The other girl is Elizabeth Manning, who works in the spinning and weaving exhibit, also in the Ford exhibit building.

## Largest Crowd In History Here Last Sat.

What was believed to be the largest crowd in the history of the town was on hand last Saturday. Which, of course, was caused by the summer like weather that prevailed all last week, enabling farmers and pickers to get in a full weeks run on the cotton patches. In walking down some of the off streets, one could hardly tell whether he was in Brownfield or in some border town, for our brown neighbors to our south, were so thick you couldn't stir them with a stick. There is also a large number of strange colored folks here to snatch the bolls while they last. And after spending most of the day in our fair city, a majority of them were not satisfied with the looks of the town under the light of old Sol, so they stayed to see it under the bright lights, and some of our night hawks tell us there was a large crowd on the streets until way after midnight. Some must have spent the night, for early Sunday morning there were more people on the streets than there is on most week days.

And maybe you think the wheels of Industry weren't turning during this gathering of humanity. Business men of every profession report the biggest days' run since the never-to-be forgotten fall of '29. But give the average American citizen a few sheekles, whether he or she be white, black brown or indifferent, and they are going to throw old man Depression for a loss on every corner.

## LYNN COUNTY ROAD BIDS TABULATED

AUSTIN, Oct. 20.—The state highway department today tabulated low bids totalling \$966,670 on improvement projects in 14 counties.

Projects by counties, with low bidder in each instance, included:

Lynn, 7.9 miles caliche base course and triple asphalt surfacing on highway 9 from 3.7 miles north of Tahoka, north, Morgan Construction Co., Dallas, \$51,111.

## Three Thousand Ballots Prepared For Election

The job department of the Terry County Herald was busy most of the first part of last week preparing three thousand ballots in order that our citizens may cast their votes November third in the general election. The first ones were printed before the twenty day limit for absentee voters.

These ballots were seven columns wide and almost as big as a saddle blanket, as they contain columns for each party followed up by six constitutional amendments.

While this large amount of ballots was prepared as the law requires one third more ballots than there are qualified voters it will surprise everyone, if more than fifteen hundred votes are cast in Terry County at the general election.

## Post Office To Be In New Location Jan. 1st.

We have it on official authority from James H. Dallas, Postmaster that the Brownfield Post Office will be removed for its present location in the A. M. Brownfield block of buildings just East of the Murphy Bros. Store, to the Mrs. J. L. Randal building on the West side of the Square.

The Post Office is being moved for two purposes, the first and main reason being that they are seeking larger quarters and that the Post Office may be more centrally located in the business section.

It is our understanding that absolutely new fixtures will be placed in the new building. The Post Office department has a full year lease on the building with option for a four year lease.

Measurements have been taken of the building in order to place the new fixtures when they arrive. We understand that there will be a radical change in the lobby arrangements in the new building.

## O'Donnell Man Fires On Peace Officers

Unexpectedly and without warning, Deputy Sheriff John Johnson and Night-watchman Brown at O'Donnell suddenly found themselves the target of some man's bullets about seven o'clock Saturday evening. Not knowing who their assailant was, they returned the fire, and one of the shots fired by Mr. Johnson took effect in the neck of their murderous antagonist. It entered on one side and passed out at the other, barley missing the vertebra.

After the man had shot six times, emptying his pistol, and after the officers had also fired several shots, they approached his car and found the occupant to be H. H. Walker, a citizen of Dawson county residing a few miles south or southeast of O'Donnell. Though severely wounded, he was in the act of reloading his pistol. The officers over-powered and disarmed him and he was immediately taken to a sanitarium in Lubbock to have his wound treated. Later he was taken from the sanitarium to jail and on Wednesday was brought to the jail here.

Walker, a farmer, 64 years of age, had once been an inmate of an asylum, and it is believed by many that he was insane when he made the murderous assault upon the officers. The Lynn County grand jury in session here Wednesday returned two bills of indictment against Walker, charging assault with intent to murder the two officers.—Tahoka News.

## Big Rally For Democratic Funds Saturday

We have been requested by Burton G. Hackney, chairman of the Committee of Terry county to raise Terry County's portion of the fund to carry on the campaign in doubtful states. We must complete our campaign as soon as possible in order that these funds be in the hands of those who need it worse as soon as possible.

Therefore seeking the need to hasten, Mr. Hackney and his co-workers have seen fit to throw everything in their power in one drive beginning Saturday morning and ending Saturday night of this week, in order to try to complete Terry County's quota of more than four hundred dollars that has been allotted to us.

A booth at a convenient corner downtown and a bevy of young ladies will be put out to solicit funds in this drive, and it is hoped that when Saturday night tolls around, Terry county will have its quota and some to go on. Let every man and woman do their duty, as not a family in Terry county has failed to receive many benefits from the Roosevelt Administration. Every nickel, dime, quarter, half-dollar, and dollar will help out in the totals. There are none so poor but that can help some.

See one of these girls or a member of the committee and be sure that your donation, whatever it is, is in by Saturday night.

## Highway Safety Patrol Here Last Monday

The Texas Highway Safety Patrol headed by Captain Legge, was in Brownfield last Monday. They set up their Safety Lane on the block east of the square.

The purpose of the Safety Patrol is not to prosecute owners of defective vehicles, but merely to help the owners of such, by telling them in what way they are violating the traffic laws of the State of Texas, by operating defective vehicles. In doing this, and with the cooperation of all citizens, there is a great possibility that newspapers can change their ever growing popularity of head lines such as, "Nine Killed In Highway Mishap." Cars with defective lights, brakes, horns, steering and etc., but with a cruising speed of 70 miles per hour are as dangerous on the highways as a mad dog roaming over the country.

Captain Legge expressed his appreciation and thanks to the citizens of Terry county for their cooperation. He said there was a total of 836 cars that passed through the Safety Lane for inspection. Out of this number a total of 451 cars passed the inspection as being good; 385 were defective, out of this number a total of 146 came back through the Lane after all adjustments had been made and were passed as being in good shape.

Mrs. Joe Bailey and children of Lubbock, were guests of relatives here over the week end.

Mr. and Mrs. Roy Herod are taking in the Centennial this week.

## Here's Hollywood

By Jack Hardy

Gene Autry, Republic's singing cowboy star, returned from Dallas this week with an amusing story connected with shooting of his latest picture, "THE BIG SHOW" which has a Centennial background.

"The cow ponies," Autry related, "made so much noise on the Centennial's paved streets we tried to get some rubber-shoes. Nobody in Texas ever hear of such a thing. So we wired Hollywood and got one hundred pair of rubber horse-shoes by plane. That's just one of the countless little problems met in making a picture off the home lot."

Mary Astor's limousine, seen on Hollywood Boulevard at the preview of "THE PRESIDENT'S MYSTERY" was noted to still carry the medical profession's red-cross plates put there by her ex-husband, Dr. Franklyn Thorpe!

James Cagney announces that, after finishing his next picture, he plans to barnstorm with Bill Gargan, Bob Montgomery, and Pat O'Brien through Arizona, New Mexico, and Texas with a play. While its title is not yet announced, Cagney indicated it would be a comedy chiefly to feature the four screen stars, with local talent being in various towns as the supporting cast.

Olsen and Johnson, noted vaudeville team who have just finished making their first comedy picture, "COUNTRY GENTLEMEN," held up production one afternoon with a "jamboree." "That's the pinnacle of inconsideration and the apex of ingratitude," Johnson tried to say to Olsen. In fact he tried to say it seven times without getting it all off his tongue.

"Put it on a blackboard where I can read it," finally demanded Johnson angrily. So the line was chalked up off-stage, and the scene was finished.

Reports flow freely around Hollywood that Simone Simon, little French girl heralded as a great screen "find" is displaying so much "temperament" that her studio executives are rating her a "headache." Irving Cummings, her director on "Girls Dormitory," partly confirmed the report.

"It's a fact," he is quoted as saying, "that I was such a physical wreck after finishing that picture that my doctor ordered me to take a rest."

Smiley Burnette, cowboy comedian featured in many Republic western pictures, is daily anticipating a large check from an insurance company. While making "RIDERANGER, RIDE," a large bus overturned, Smiley was tossed against his \$400 silver-mounted accordion and his 190 pounds ended the life of that. Smiley and the accordion are well-known to patrons of Republic's musical western pictures.

Heather Angel, making her first all color picture, "THE BELOVED ROUGE," was visited on the set by her husband, Ralph Forbes. When she started into a love scene with Bob Livingston, hubby walked off, saying, "I have a suspicion I forgot to lock my car."

## Chevrolet Still Depends On Newspaper Ads

DETROIT — Chevrolet's achievement of all-time sales records in 1936, under a policy which made newspapers the front line of the company's advertising offensive, has dictated continuance of that policy in 1937, and especially in the announcement of the forthcoming new models. This statement by C. P. Finken, advertising manager, was a feature of an all-day party which Chevrolet held for 300 newspapermen this week.

"The 1937 models are the finest Chevrolet has ever built," said Mr. Finken. "And the advertising behind them measures up to the product itself. Last year and for several years back, we have relied primarily upon newspaper space to get our message across to the public. In light of the amazing sales achievements of 1936, it is hardly necessary to justify to you our intention of continuing that policy this year. The newspaper will be the foundation of our advertising effort."

The whitest object in the thick-fallen snow and the blackest chalk, but scientists declare that the perfect white is unattainable ideal.

A Harvard university traffic expert finds that the best driver is twice as quick, and twice the ease, in steering as the average driver.

## Chamber of Commerce

After an absence from the columns of the Herald for several weeks the writer has decided that, before people forgets that there ever was such a column as ours, that it would be a good idea to renew our acquaintance with such readers as we may have had in the past.

To begin with, the last several weeks has been the best cotton picking weather that we remember ever seeing on the plains, and from the way the gins are running, it begins to look like that we will get the crop harvested much earlier than usual, as all gins seem to be running to capacity and the fields are full of pickers. As is usual, pickers were very scarce at the beginning and the chamber of commerce was called upon for assistance in securing them, which we proceeded to do, by publicity in the daily newspapers and by numerous telephone messages to other sections of the state and either as a natural result or thru our efforts, we got them turned in this direction and at this time, there appears to be more pickers than there are fields within which to place them. We had a telegram from New Mexico, asking us to send pickers into the Pecos Valley, but at the time we were not fully supplied and so advised growers of the section. Now I am afraid that we have more than we are able to take care of and don't know what to do about it.

Work on Highway No. 84 between Brownfield and Tahoka is still progressing but with a reduced force of men, as several have been transferred to the city in order that the streets may receive final touches prior to hot topping which is slated to commence Thursday this week. Mr. Louis Howard of Lubbock has the contract for the hot topping job, but has been delayed in getting on the job for the reason that he was finishing a gap in highway No. 51, that had been left by Fields Bros., the contractors who had to commence work on a job in another portion of the state. Mr. Howard expects to complete the highway today (Wednesday) and it will probably be open for traffic the next day following.

Hon. Gib Gilchrist, State Engineer of the Highway Department inspected highway No. 84 between Brownfield and the Texas-Mexico state line a few weeks ago and within the next few days the commissioners court of Yoakum county received a letter from the department asking them to arrange for securing the right of way between Plains and Bronco. However, up to this date the district engineers office at Lubbock has not received any instructions concerning it. However, two different preliminary surveys were made a few years ago and it may be that no others will be made within the present year.

For the last several weeks we have been undertaking to secure a private conference with the Hon. Harry Hines, Chairman of the State Highway Department, for the purpose of discussing our situation with him, and have at last arranged a date with him to be had within the next few days. Of course No. 84 is the one that we are interested in and we hope to secure some results from the meeting with Mr. Hines. We impressed it upon his mind that we did not desire a meeting with the commission as a whole, but only he, as chairman.

In the event that we can secure a promise for improvement and final hard surfacing 84, it will not be long until we have a paved road to Roswell and in fact into Arizona. A short time ago we had a conference with the Chairman of the New Mexico Highway Commission and were informed by them that any time that Texas showed New Mexico that they were willing to meet us with a hot top at the state line.

Our exhibit at the South Plains Fair was almost as good as any shown and better than others, but it certainly was a job to assemble and prepare it, upon account of continuous rains. As a matter of fact, some of our best stuff was spoiled in storage and we had to substitute with low scoring products, some of which were not able to get until just before loading out for Lubbock. The writer believes that if we could have saved our best stuff from spoilage, that we would have received the First Premium, as it was, we rated third out of 12 counties, which is better than we expected to do.

G. D. Thatcher, Chicago, special representative of Lions International, met with the Brownfield club, Wednesday. He is making Lubbock his headquarters while visiting clubs in this section. Yesterday noon he visited the Lubbock club and last night the Plainview club.

Ernesting Alexander, a Junior in B. H. S. last year was through here Monday.

The Official Paper of Terry County and the City of Brownfield.

The South Plains seems to have two Republican papers, the Lamesa Reporter and the Yoakum County Review. Both are good representative papers of their respective towns, but we believe that both will be gloriously disappointed by the way brother Landon ran on the morning after November 3rd.

One of the best patronized papers that comes to our exchange table is the Snyder Times. In a recent issue forty-three local firms were represented in their advertising columns many with quarter pages or more. And the strange part about the matter is that the Snyder firms do not seem to get scared when the weather gets dry and the rain fails to come but keep everlastingly at it when it is cold or hot, dry or wet. That is the main reason that Snyder is regarded as one of the best if not the best trading points in west Texas.

**EDS EDS**  
Taking your home right along with you behind the car is becoming quite the thing in the United States. It has been said by some screwy tabulator that within ten years half of the population will be living in house cars because they are so much more economical and convenient. It is generally known that the idea is gaining momentum every month but it is doubtful whether half of the people will ever take to the road for a life of Gypsy roving. For one thing there aren't enough American people who can play the violin or foretell the future. What is Gypsy life without the seriocomic strains of an old fiddle and the power to tell Madam her past, present, and future for only one dollar.—Jeane Suits Chattergrams in Lockney Beacon.

It may suit some people to live in cars and trailers even if they know how to fiddle and tell fortunes but personally we had rather take our meal in one room and sit and do our reading in another. We do not think a roving Gypsy life would suit us, especially at our age.

**RAGING AGAINST ROOSEVELT**

It is easy to understand why many voters oppose Roosevelt's re-election, but the extreme bitterness with which many favor their opposition is harder to explain. Their rage exceeds defeat four years ago. Men and women who had lost jobs, homes and savings were inclined to hold the President personally responsible. Yet the bitterness against Roosevelt comes largely from the rich—from men who are richer now than when Roosevelt came into office.

In the autumn issue of the Southern Review, Herbert Agar quotes some of the Federalist invectives against Jefferson and expresses the opinion that it was "this implacable and half witted hatred which drove the Federalist party into oblivion. When Jefferson tried to run the Government in the interest of the plain man, "the Federalists were so angry that they lost their heads and in the end removed themselves from public life. One of the recurring miracles of history is the way at which rich men fly into the most inexpedient rages at the suggestion that society might benefit if they were slightly less rich."

Hatred against Roosevelt already has made Al Smith a sour old man, deserted by most of his former poli-

tical following. Many Republicans and some of those who erroneously style themselves Jeffersonian Democrats are working themselves into a similar pathological lather. If this bitterness grows, it may take more than the sugar-coated pills of Dr. Hearst to restore lost vigor to the G. O. P.—Dallas News.

**A QUEEN FOLLOWS A TRAIL OF BLOOD**

A queen of sorrows landed in this country the other day to show that mother love is stronger than royal ambitions.

Victoria, one-time queen of Spain, followed a trail of blood to reach these shores—a trail that began on her wedding day in 1906, when a bomb hidden in a bouquet of flowers exploded and killed 26 people near her bridal procession, spashing her wedding gown with blood.

In 1934 she saw her youngest son bleed to death after minor injuries in a car accident.

The same strange hereditary disease, haemophilia, which is characterized by inability of the blood to clot, has stricken another son, the young man who renounced his rights to the throne of Spain to marry a Cuban commoner and later asked for an annulment of the marriage.

It is to be with this son in his illness that the former queen, now estranged from her husband, has come to America.

Somewhere in Europe the young man's father is feverishly watching the fortunes of the rebel army with some vague hope that its success may mean restoration of his throne.

Victoria, once an English princess, has good reasons to know that thrones mean nothing but trouble.—Cleburne Times.

**"AGINNERS"**

Our fair city is no exception to the rule regarding the supply of natural born "Aginners" living in our midst who are especially adept in the ancient art of being "agin" everything that comes up in a progressive community. It is a sad fact that humanity has had to fight every inch of its long progress down through the ages with this special breed of ancient and accepted order of knockers hanging on with loud protestations to its flapping coat tails. These gentlemen are well known and prevalent in every

community in the nation. They are especially well known for their curbside sitting, tobacco spitting, government cussing ability.

The only quality they can honestly boast of is their extreme antiquity. The great grand pappy and sire of this breed of "aginners" lived and chewed and spat and sat on a well worn rock in front of a cave some where in the dim past and objected with great gusto and much sound logic to the bow and arrow as over against the "proven, true and tried elm club our pappies used." He was against the very first elected chief of the tribe because, as he said, "He is too young and has too many new fangled ideas, and besides, the election of a chief will be the entering wedge for the destruction of personal liberty and will definitely place rugged individualism in the scrap heap."

A loyal descendant of this original "Aginner" likewise spat and sat and gloated, at a safe distance, over the crucifixion of Christ because he, like his knocking sire, was "agin" any such new fangled ideas running the country. The "Aginner" clan agitated and participated in the execution of many great ancient thinkers who dared to advance an untried thought suggesting humanities deviation from the good old methods of our fathers.

The "Aginner" age of glory is known in history under the title of "The Dark Ages" because during this period the "Aginners" were in power and succeeded for more than a thousand years in holding Western Europe in a state of lethargy by stamping out all ruinous experiments, "new fangled ideas and thus conducted the affairs of humanity in the "tried and true and fundamental methods of our fathers." They fought the Renaissance movement with blood and iron. The industrial revolution, religious reforms and development of constitutional government in England was valiantly opposed by the ancient "Aginner tribe" at every fresh turn of events.

In America they were "agin" the revolution, the forming of the free public schools, organized labor, the eight hour day, the automobile and has good reasons to know that thrones the areoplane. In short these calamity howlers have been "agin" every progressive move that humanity has made since the beginning of time.

In our own little city today these same gentlemen have fought every school bond issue, and all other community and civic improvement. We have ever modern improvement we enjoy in spite of their objection. They were "agin" it yesterday, today and will be "agin" it tomorrow. It is almost a pity that we cannot gather up this tribe of perpetual "Aginners" from over the nation and ship them to some lonely island in the balmy tropics where they could sit and chaw and spit and cuss the government to their hearts content and thus save humanity from having to carry them along in its slow enough move forward without the extra dead weight.

Since we cannot do this we should put up with their "aginning" as patiently as possible remembering all the while that their clan is as ancient as man and that they are "aginners" by nature and birth. Humanity has moved slowly upward since the first pappy of the tribe fought the bow and arrow and humanity will continue to move forward in spite of all the efforts of the "Aginners" in the world.—Spur Times.

**PIANO BARGAIN** in this territory can be had for balance due. Box 1542, Lubbock, Texas. 13p.

personal friend of Gov. Alf M. Landon, owner of one of the largest farms in Kansas and prominent G O P member of the Sunflower State Senate, said as he arrived in Illinois to make speeches for President Roosevelt's re-election:

"I stumped for our governor in both of his campaigns and he turned out to be a Jekyll-Hyde when the presidential bee hit him. He is calling our President a dictator but at Ellsworth, Kans., Sept. 18, 1934, he said: 'From the very first I advocated the granting of unusual powers to the President.' That doesn't go so well with us in Kansas, even when we are reminded of 'state pride' and 'favorite son.'

**WILL BUY CATTLE and HOGS** on Saturday. Market price paid. Hawkins & Gore. 4tfc

**SEE Jess Kinney's used Furniture and stoves** for used Furniture and re-conditioned Stoves. We sell on easy payments or for cash. Located west Main St. in old Bakery Bldg. 11tc

"Gov. Landon was probably the most enthusiastic New Dealer in the State. He was also in favor of inflation of the currency, the licensing of agricultural producers, processors and dealers and an ardent advocate of price fixing. Of course, he talks very different now.

"It was Roosevelt who saved Kansas. The Government put \$462,000,000 into our state and now Landon counters with promises of a 'new' farm program that would cost three times as much as the Roosevelt farm program which worked so successfully and the Landon so-called program obviously could not work at all, because while encouraging overproduction it makes the sale of surplus

"THE FRIENDLY STORE"

TEXAS MAN'S YEARS-OF-MISERY QUICKLY STOPPED BY GREAT GAS-TONS TABLETS

Mr. E. S. Nelson of Shallowater, Texas, says that he spent eight long years a sufferer of stomach disorders. He states that during this eight years of suffering he went to any number of doctors and that three of them told him he had gastric ulcers. A short time ago Gas-Tons Tablets were recommended to him and after taking them for two months he gained 15 pounds and for the first time in 15 years is able to do his regular farm work and is back to normal weight again and for the good of humanity wants to unconditionally recommend these tablets to any one suffering with severe stomach pains, gas or colitis, indigestion and other stomach disorders. Gas-Tons tablets are on sale in Brownfield by Corner Drug. 25 tablets \$1, 100 tablets \$3. Ask Corner Drug to explain to you what this remarkable compound is doing for others and also ask about the iron-clad guarantee which says you must be satisfied or your money back.

Meadow News

Meadow football team went to Seminole, Friday afternoon for a game. The score was 18-6 in favor of Meadow. There was a mistake last week and week before too about the new church house in Meadow and they are very eager to have me correct it. It is the Pre-des-torian Baptist (I suppose it is). They say if anyone cares to know what they teach, come out to preaching. Mrs. Jas. McAteer was sick last week, but is reported to be better. Miss Tomby, teacher in the High School, resigned last week for better salary, in Kermit school, we have heard. Mrs. A. L. Walker, Miss Renfro and Mrs. P. T. Deckard visited the grade school, Monday morning. Mrs. C. T. Pendergrass is in the sanitarium at Lubbock. Mr. and Mrs. Fred Crabtree, together with Mrs. D. J. Harris were shopping in Lubbock, Friday after-

noon. Bro. Shropshire went to Ropes Sunday morning to make necessary arrangements for the church of Christ people to have meeting every First Day of the week.

LONG LIFE ON THE FARM

If you would live to a ripe old age go to or remain on the farm. This is one of the interesting findings made by the public health service in a study covering 10 states. Agricultural workers in the states studied were shown to have a much lower death rate than successful business and professional men. The mortality rate of agricultural workers per 1,000 population, between the ages of 15 and 64, was 6.2 per cent. That of professional men was 7 per cent. The highest rate, 13.1 per cent was for unskilled workers, while the rate for all classes was 8.7 per cent. Contributing factors to the high death rate in the unskilled class included diet, housing, amount of medical care, contact with infected persons and low income. Tuberculosis and pneumonia were the two most out standing, with accidents ranking third.—Lubbock Avalanche.

STATE SALARIES

"West Virginia pays its Governor a salary of \$10,000 a year," points out the Martinsburg Journal in that State, "which is just two and a half times as much as the State of Texas pays its chief executive. The constitution of the latter States fixes the compensation of its Governor at \$4,000 a year. That figure was established in 1876 . . .

"One reads in the Texas Weekly that there is a strong sentiment in the Lone Star State in favor of increasing the salary to a more reasonable figure. Only one State in the Union—South Dakota—pays its chief executive less—\$3,000 a year. . . . "New York pays the largest—\$25,000 a year; and Pennsylvania pays \$18,000. Ohio pays \$8,400.

"To the person who is struggling to make ends meet the figures probably all seem high. However, the salary is properly to be considered in the light of the required standard of living. Naturally, certain appearances must be maintained by a State's chief executive. . . .

It is a generally accepted doctrine that a State should pay its officials sufficient that they will not be tempted to look to other sources for supplementary assistance or favors. . . . Citizens of a State assume that their head will meet corresponding executives from other commonwealths on an even footing socially. That requires money."

Texas has a chance to do something about this matter, discovers the Lexington (Ky.) Leader: "The Texas Weekly calls attention to a State constitutional amendment upon which the people will vote in November, providing for an increase in the salaries of public officials, raising the compensation of the Governor to \$12,000, that of the Attorney General to \$10,000, and salaries of other officials of high rank in like proportion.

"It points out that the present salary limitations were adopted back in 1876, and that the salaries then fixed no doubt were adequate for that period. Today they are wholly inadequate. . . .

And a Texas newspaper, the Alice Echo, agrees saying specifically that the present Texas Governor is certainly worth more than \$4,000 annually: "A recent article in The Texas Weekly, edited so ably by Peter Molyneux, presents the information that whereas only 10 States stand above Texas in total wealth, only four States pay as small salaries to their Governors. Rhode Island, smallest of all States pays its Governor just twice as much as the largest of all States. "Texas is fortunate to have a Gov-

AND THAT'S THAT!

NEWS ITEM: "Maine voters have overwhelmingly approved a referendum measure prohibiting the diversion of gasoline sales tax revenues to purposes other than highway financing. Missouri, Minnesota and Colorado already have adopted constitutional amendments preventing such misuse of highway funds, and Massachusetts taxpayers are petitioning for an anti-diversion amendment referendum."

ernor of Alred's ability at the helm. But what we can't . . . visualize is how the Lone Star State can expect to continue to attract men of his caliber to the Governor's chair with the pitiful salary that it carries. Most any man who would qualify for the governorship could earn at least twice the present salary in some private occupation.

"Next November a constitutional amendment will be voted on seeking to raise the amount from \$4,000 to \$12,000 a year, which . . . seems to us to be entirely within reason in view of the population and wealth of this State."—Texas Weekly.

FROM SAUK CENTER TO LONDON

A great security exchange is a truly international market place.

Recently a well known financial expert took a group of orders handled through the New York Stock Exchange and traced them to their source. Less than one half of them came from residents of New York. Some of them came from the Pacific Coast, some from the South—and a number came from foreign countries. The more or less common misapprehension that the stock exchange serves only an ominous group known as "Wall Streeters" should be exploded. The exchange serves people in Sauk Center and San Francisco, Homeville and London. No one can control the prices at which securities are traded—the law of supply and demand does that. And the exchange management has established inflexible rules demanding the highest standards of integrity on the part of traders.

The value of such an institution is inestimable. It is a vital element in our vast industrial organism. Without such a market place modern business would stop.

WILDLIFE IN TEXAS

"The Texas Weekly is concerned," notes the Waterloo (Ia.) Courier, "with the alarming manner in which the wildlife resources of Texas are dwindling."

"A member of the United States Bureau of Biological Survey has reported that whereas a few years ago 75,000 canvasback ducks were shipped in one season from Rockport, in Aransas County, Texas, there are not that many canvasbacks in the entire State at present.

"Peter Molyneux's publication says that 'It appears that the State's wild ducks, with the exception of two or three species, are threatened with complete extinction. And it is also unhappily noted that Texas's game and fish resources are not so large by far as they once were.'

"This dwindling of wildlife resources is not peculiar to Texas. The same thing is happening throughout the country. Unfortunately, we are doing little to remedy the situation."

And the Courier quotes from Executive Director John H. Baker of the National Association of Audubon Societies this significant statement: "Disregard of future consequences has marked our treatment of America's natural resources from inception of white man's expansion across the continent."

The Spartanburg (S. C.) Herald also has something to say on this subject: "Texas, a much younger State than South Carolina, has made the discovery that wildlife is rapidly decreasing in that State. . . . The Texas Weekly says of the raids that have been and are being made on the State's natural resources: 'The alarming manner in which the wildlife resources are dwindling has been causing concern for some time to those who have studied the matter.'

After quoting further from The Weekly, the Herald concludes: "The carelessness and vandalism that are robbing Texas of its fish and game and also of its forests have been do-

ing the same thing for South Carolina for many more years. Texas may awake to the danger of the loss it is sustaining. South Carolina should do so but we fear it will not. It has endured its losses so long that it has become a habit."—Texas Weekly.

THE ANSWER

A New Yorker was touring through New England. He noticed a man in overalls with long white whiskers sitting on the fence and out of curiosity stopped the car to talk.

"Fine corn," said the traveler, using a hillside filled with straggling stalks as a means of starting the conversation.

"Best in Massachusetts," said the sifter.

"How do you plow that field?" asked the New Yorker. "It looks so very steep."

"Don't plow it," returned the sifter. "When the spring thaws come the rocks rolling down hill tear it up so that we can plant corn."

"And how do you plant it?" "Don't plant it, really. Just stand in my back door and shoot the seed in with a shotgun."

"Is that the truth?" asked the New Yorker.

"No," said the sifter, "but it answers a lot of darn foolish questions."

FALL STYLE TRENDS

"Coats in general are shorter. Ensemble coats are good. Flare back swagger's will continue. Small neck bands and collars will take the place of large collars," said Mrs. Cheek, at the Home Demonstration meeting at Mrs. N. S. Ballards, Wednesday evening, September 28. Members present were:

Miss Marie Cheek, Mrs. Hugh Snodgrass, Mrs. J. H. Snodgrass, Mrs. Amos Smith, Mrs. J. M. Cheek, Mrs. J. R. Trout, Mrs. N. S. Ballard, Mrs. Keith Kates, Mrs. T. E. Coke, Mrs. E. A. Ballard, and Mrs. R. T. Duke.

Cake and hot chocolate with marshmallows was enjoyed by all.

—Reporter

THE MOTORIST'S PRAYER

"Grant me a steady hand and watchful eye, that no man shall be hurt when I pass by," starts The Motorist's Prayer. The prayer first appeared in the London Church Times.

The prayer is a reminder that good driving is a Christian obligation. It follows:

Grant me a steady hand and watchful eye, That no man shall be hurt when I pass by.

Thou gavest life, and I pray no act of mine May take away or mar that gift of thine.

From evils of fire and all calamity, Shelter those, dear Lord, who bear me company.

Teach me to use my car for others' need, Nor miss through love of speed The beauties of thy world; that thus I may,

With joy and courtesy go my way.

—Exchange

SAYS SMITH'S AID TO HINDER LANDON

BOSTON, Oct. 2. — Governor James M. Curley, democratic candidate for United States senate, declared tonight Al Smith's endorsement of the candidacy of Governor Alf M. Landon for president should "strengthen" the democratic cause.

"I am sorry for Smith," Curley said. "He is really a victim of circumstances."

Grain seed will germinate when 25 years old.

WHY TEACHERS GET MARRIED

What are glaciers? Guys who fix windows when they are broken.

What is a volcano? A mountain with a hole in the top. If you look down in it you can see the creator smoking.

Why does a dog hang his tongue out when he is running? To balance his tail.

What are christian nations? Those that use cass words.

What is etiquette? Saying "No thank you" When you mean "Gimme."

FAIR LIGHTS DIM COMET

DALLAS, Texas—Dallas residents were aggrieved the other night when they failed to get a glimpse of the recently discovered comet. The lights of the Texas Centennial Exposition so emblazoned the skies the comet was not visible.

THE SHEEP WHO LEADS THE WOLFPACK

Some people don't like the New Deal; they say they want a change.

What would they accomplish by turning to Landon?

They would substitute for the Roosevelt New Deal a program to be administered by the Hearsts and the duPonts.

The sheep who leads the wolfpack becomes smaller as we see more plainly the red tongues, the white teeth of those who follow.—Cleburne Times.

Troubled Motorist—You sold me a car two weeks ago.

Agent—Yes sir, and how is it running?

Troubled Motorist—Tell me again all of the things you said about it. I'm getting discouraged.

committee by Speaker Coke Stevenson. Settle succeeds W. L. Clayton, El Paso, who resigned from the legislature.

A rich dead man is as poor as the rest of us.

FARMER PLOWS DEEP AND BEATS DROUGHT

AUGUSTA, Ga.—Plow deep and beat the drought, is Cotton Farmer S. O'Connor's formula for successful planting of the staple.

He forecasts a bale-an-acre yield from his 14 acres despite the drought year.

"I plowed as deeply as possible," he said, "and, as a result, when my cotton began to grow the roots penetrated into moisture storages."

A PICTURE OF PROSPERITY

Here is the over-all picture of the life insurance situation at the present time in October, 1936.

In 1928, 331 life insurance companies had total assets of about \$15,900,000,000. Today these same companies have assets of more than \$23,000,000,000.

In 1928, approximately 70 life insurance companies had failed. In 1936 only one small company in Colorado failed.

From 1928 to 1935 the surplus to policyholders had increased approximately \$100,000,000.

SEEKING ROAD FROM PLAINS TO SEAGRAVES

A Delegation representing the Plains Chamber of Commerce came over to Seagraves last Friday afternoon to meet with members of the local Chamber of Commerce to discuss the acquisition of the right-of-way for the long proposed Seagraves to Plains highway. It seems that the right to cut through only two pieces of land are the only remaining obstructions to the start of work on the new route. Members of the Plains group were Editor W. J. Hale of the Yoakum County Review, Supt. of Schools Hayhurst, W. D. Light and D. B. McGinty.—Seagraves News.

Twenty-two per cent of Oregon's area is national forest land.

Milk of cows that are pastured in regions where the soil contains iodine is helpful in preventing goiter.

**WONDER WHO EXPECTED LEMKE'S ELECTION**  
 New York, N. Y. Oct. 19.—Franklin D. Roosevelt will most likely be re-elected to the Presidency, according to results of the third annual political poll taken among 5,145 newspaper editors by Liberty Magazine.  
 Liberty asked each editor who he thought would be elected President. About 400 editors turned this question down leaving some 4,600 lined

up as follows:  
 Franklin D. Roosevelt ..... 2,875  
 Alfred M. Landon ..... 1,814  
 WILLIAM LEMKE ..... 18  
 NORMAN THOMAS ..... 0  
 EARL BROWDER ..... 0  
 The editors predicted as follows:  
 1. Mr. Roosevelt will receive a minimum of 269 electoral votes—three more than he needs to win, and a number that may be increased by Roosevelt victories in any one of four doubtful states.  
 2. The Democrats will win 266 seats in the House of Representatives to 159 for the Republicans, 7 for the Progressives, and 3 for the Farmer-Laborites.  
 3. The Democrats will win 20 of the fall's 36 senatorial elections—giving them 67 seats in the Senate to 27 for the Republicans and 1 each for the Progressive and Farmer-Labor parties.

Mr. and Mrs. J. H. Lynn visited in Guthrie, Texas the past week.  
 Miss Winnie Mary McLaren was in Lubbock, Monday.  
 Deward McGinty is adding another room to his resident.  
 S. Pride and family have moved to the old hotel.  
 Marion McGinty is also building a new resident. We just wonder if it is the weaning pen.  
 Miss Juanita Hackett of Morton, Texas was down Saturday to judge the Fair products of the Home Demonstration Clubs. Miss Hackett also visited her aunt Mrs. J. L. Cleveland.  
 Mr. and Mrs. Donald Shoemaker were in Brownfield, Saturday night.  
 Mrs. M. W. Luna and daughter, Mary Joe, were home for the week end. Mary Joe is in school at Lubbock.

**FILTHY FLOUR IS CONDEMNED**  
 AUSTIN, October 19.—A warning to consumers that low standard flour is being offered for sale in Texas was issued today by the State Department of Health's Division of Food and Drugs. At the same time, Mr. F. D. Brock, Director of this Division, sent notices to millers and dealers in flour calling their attention to the law prohibiting the sale of adulterated food. He based his notice to the dealers and manufacturers on Article 707, Section 6 of the Texas Food and Drug Law which provides that, in the case of food:  
 "An article shall be deemed to be adulterated if it consists in whole or in part of a filthy, decomposed or putrid animal or vegetable substance, or any portion of an animal or vegetable unfit for human consumption, whether manufactured or not. The penalty for violating this law is a fine of from twenty-five to two hundred dollars."  
 "It has long been the custom of certain dealers and manufacturers of flour and other cereals," Mr. Brock said, "to resort to the practice of sifting out worms from flour which has thus become contaminated and again offering this flour for sale to the consuming public who are ignorant of the fact that the flour has been infested by worms in great numbers, in many cases. Dealers and manufacturers seem to labor under the impression this practice is legitimate, though in our opinion, this is deceptive and in violation of the above State law. Our conclusions are based upon the results of laboratory examinations of many samples of so-called 'reconditioned flour,' in which was found segments of worms, insects and their excreta, rat hairs, rat excreta, grit and dirt.  
 "In the case of flour being sifted and resacked, it is often mixed as to brands. This is in violation of a law recently passed by the Texas Legislature, which provided that each package of wheat flour, other cereal flour and corn meal shall have the net weight and name of manufacturer.

 Mr. and Mrs. June Smith, Dixie Hague and Ralph McClellan attended the show in Brownfield, Sunday.  
 Miss Wolf spent last week end in Roswell, New Mexico.  
 Jim O'Neal of Lubbock was down visiting home folks last week end.  
 Mrs. Donald Shoemaker and children and Mrs. Stella Shoemaker were in Brownfield, Monday.  
 Joe Ellison, M. W. Luna, John Marshall and George Hooks were in Lubbock, Tuesday.  
 Mrs. Bearden of Abernathy is visiting her sister, Mrs. S. McDonald this week.  
 Mrs. Mary Lackey visited in Canyon last week.  
 Mrs. Jim Graves of Brownfield visited her brother and wife, Mr. and Mrs. Warner Hayhurst, Thursday.  
 A large crowd of ladies enjoyed a shower honoring Mrs. Warner Hayhurst, Thursday afternoon at the home of Mrs. Melvin Huffines.

**ON THE STUMP**  
 The political campaign has reached a high pitch with both major candidates making stumping tours that are taking them across many States. The 1936 political tour is much different, however, from that of an earlier day in which the aspirant for office stood upon a convenient stump to enable the few score of local voters see and hear him more clearly.  
 Today's campaigners have the advantage of sound amplifiers, radio broadcasts and telegraphic news service that spread their words upon the Nation's newspapers. If the principles and policies for which they stand are not made known to the voters, they have only themselves to blame. Yet personal crowds than in the period of torchlight parades and flamboyant banners.  
 Roosevelt continues to gain advantages from the net effects of the current campaign swings. While Landon was talking about the Constitution in Detroit, the President was telling an immense Kansas City audience what his administration had done for America's youth by means of the Civilian Conservation Corps and other agencies. Important as the Constitution is, voters do not warm to a theoretical issue as they do to such a concrete one as the popular CCC.  
 Meanwhile, optimistic business reports and prospects add to the Democratic advantage. Stock and bond quotations speak so loudly that they may largely offset Republican attempts to reclaim the votes of small businessmen and corporation stockholders. The argument that Repub-

tion brings to the voting booths more than fifty per cent of enfranchised citizens.  
 One result is that public officials are elected by minorities—the vote of the majority is silent. Another, and worse result, is a flagging of interest by the people in a thing which vitally affects us all—our government.  
 This year, there are great issues before us. No matter where we may stand, it is our duty as well as our privilege to mark an X opposite names of our choice on the ballot. Only by doing that, can we have popular government.  
 In Germany the right to vote has been virtually abrogated—at the last election citizens had a choice of endorsing Hitler or leaving the ballot blank, there being no opponent. That is true of Italy, Russia, of Greece, of a dozen other powers. And here in America, where we still have that right which preserves our freedom, half of us don't trouble to exercise it.  
 So—vote on November 3. Vote for Roosevelt, Landon, Lemke, Thomas—whichever you believe is the best man for President. Do the same for other offices. It is your inalienable right to vote for whomever you please. And only by voting on the men and issues of the time, can that right be preserved.

**GRAPEFRUIT IN TEXAS**  
 Texas is far behind most states of the Union in the production of fruits in proportion to her size, seven states leading her in acres planted to fruit in 1935, according to government figures. But Texas' status as a grapefruit center is reflected in these figures: Trees not of bearing age—Florida 493,438, California 431,277, Texas 1,856,735. Yet Florida, with more mature trees, harvested almost four times as much grapefruit in 1934 as Texas harvested.

**SORGHUMS INCREASE IN BLACKLAND AREA**  
 TEMPLE, Oct. 17.—High yielding grain sorghums are challenging corn as the leading feed grain in the Blackland region of central Texas says H. E. Rea, acting director of the Blackland experiment station.  
 Comparative tests of yields by yellow dent corn and grain sorghums at the station the past six years show that Darso sorghum outyielded Mosshart yellow dent by six tenths of a bushel, Rea says. During the period this variety of corn was one of the highest yielding for the region.  
 In addition to the grain, he says, Darso produced a yearly average of 3.46 tons of cured forage per acre. "From this performance it is easy to see that the high-yielding grain sorghums offer serious competition to corn," Rea says.  
 He pointed out, however, that good corn years usually are mediocre grain sorghum years. "Corn produces most in years of high rain fall," he says, "while grain sorghums outyield corn during dry years."  
 "During the six year period of the test corn outyielded grain sorghums in which rainfall was heaviest, but during the years of lower rainfall the grain sorghums outyielded corn."

**VOTE !!!**  
 The greatest possession of a free people is the ballot—the right to vote. It is a defender of our liberties and a weapon against injustice.  
 Yet that invaluable heritage is not prized by millions of otherwise good citizens. Proof of this statement can be found in undeniable statistics. In most elections, less than half of the persons who are entitled to vote do so. It is exceptional when an elec-

**Still Coughing?**  
 No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.  
 Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

**FIGHTING CRIME IN THE HOME**  
 Crime costs the American people 14 billion dollars a year, says J. Edgar Hoover, director of the Federal Bureau of Investigation. He points out that 3,500,000 persons annually roll up a total of 1,500,000 major crimes and says that an army of 200,000 persons now roam the country and will before they die or are electrocuted, send 300,000 other persons to death by slaying. Every forty-five minutes that passes marks the death of some man or woman in the United States from violence.  
 Mr. Hoover says that this crime army includes "more than 700,000 boys and girls of less than voting age." These youngsters are the recruits and if the criminal army is lessened the place to stop the recruiting is in the homes of the United

HONESTY WITH SELF

All of our lives we have been taught that "Honesty is the Best Policy." Generally we think of this only as dealing with our fellow man.

WHO'S WHO IN THE SENIOR CLASS

MILDRED ADAMS Mildred was born January 1, 1920—a New Year's gift. She attended Brownfield schools ever since she started getting her education.

BURDETT AUBURG

Burdett Auburg was born in Lovington, New Mexico on July 22, 1920. He attended the Brownfield schools until he was in the sixth grade.

WEEKLY THOUGHT

If you are tempted to reveal a tale someone has told you about another, make it pass before you speak, three gates of gold.

SOPHOMORE CLASS MEETING

The Sophomore class met, Thursday, October 15. We are backing Jane Brownfield, who is in the race for "Band Sweetheart."

OUTSTANDING PERSONALITIES

Honesty, loyalty, dependability, cheerfulness, a winning smile, and willingness to work—all of these have proven to be true characteristics of our school superintendent, Mr. Baze.

MONDAY SPECIAL

The students were pleasantly surprised when an assembly was called by Mr. Smith. An added thrill was experienced by students locating their assembly seats for the first time and getting acquainted with their new neighbors.

the mental and manual labor. Achievement is made by these courageous workers.

JUNIOR CLASS

Thursday, October 15, the Junior class met in room 201. Harold Carpenter took charge and announced to us that we were to choose a campaign manager for our candidate for band sweetheart, Mary Evelyn Green.

As haunting as the faded memories of an old annual: The tired, worried look on a pupil's face after a very trying exam.

List of smiles that are quite appropriate at this time: As enthused as a student over a new locker key.

Are the Juniors going to show up in the next assembly when they get seated in their assigned seats. Yes! Juniors!

What girls took Herby Lees and Richard Ferguson places Friday night. Private opinion: Mary Evelyn would be a beautiful band sweetheart.

Pals forever who stick together: Florene Williamson and Geraldine Jones.

Latest adventure: Henry Foster's trek to Abilene. Merry jinglings: New locker keys in class periods.

Dizzy blonde: Kathrine Tapp. Vicarious redhead: Darlene Tankersley. Brilliant burnette: Melba Ferguson.

SAM'S SUNDRY SAYINGS

It gives us great pleasure to introduce several new features in this issue. It shall be our purpose to try to accomplish this in every issue.

A lot of talent used to very good effect: "Cyclone Sally."

Sensational New Discoveries of Talent: New crooner in B. H. S.: Keller Greenfield: Credit goes to the first period study hall in 205.

A Little Theatre Group rehearsing Macbeth: The literature section of Senior English. It's so startling that it will knock your eyeteeth out.

Something to look forward to now that "Cyclone Sally" is past: A big football game with Lamesa tonight.

A snob that can really snob: Miss Wilson (in a play). According to Miss Wilson's interpretation she is a gushing snob.

What's the hardest thing about editing a paper? That's simple. Try to write this column once and you'll see.

What would the students have done on these six weeks exams if the teachers hadn't used the "curve system?" Let's hope that it is used from this time on.

What I like to do: Go field-tripping with the Biology class and observe trees. It's much better than staying in the class room and studying out of books.

What's this I hear about "Intellectual Freedom?" I think that I had better be demoted back to Mr. Smith's English class and get some of that intelligence.

As haunting as the faded memories of an old annual: The tired, worried look on a pupil's face after a very trying exam.

List of smiles that are quite appropriate at this time: As enthused as a student over a new locker key.

Are the Juniors going to show up in the next assembly when they get seated in their assigned seats. Yes! Juniors!

What girls took Herby Lees and Richard Ferguson places Friday night. Private opinion: Mary Evelyn would be a beautiful band sweetheart.

Pals forever who stick together: Florene Williamson and Geraldine Jones.

Latest adventure: Henry Foster's trek to Abilene. Merry jinglings: New locker keys in class periods.

Dizzy blonde: Kathrine Tapp. Vicarious redhead: Darlene Tankersley. Brilliant burnette: Melba Ferguson.

Hollywood, California.—Hal Rosson, divorced husband of Jean Harlow, and Mrs. Yvonne Crellin were married Sunday, October 11, in Goldfield, Nevada.

Lansing, Michigan.—President Roosevelt delayed his greeting to a large crowd around his train here to settle a noisy dispute among a group of children elbowing each other in an attempt to see the president.

Los Angeles, California.—Stan Laurel of the films was pictured by his wife, October 14, as glum, highly nervous, excitable and possessor of a violent temper.

London, England.—Mrs. Ernest Simpson, friend of King Edward, has filed suit for divorce.

Cincinnati, Ohio.—Postal workers eyed with suspicion October 14 a package addressed to "Franklin Roosevelt, Washington, D. C."

Santa Monica, California.—Norma Shearer has just passed the crisis of a serious attack of bronchial pneumonia, her physician said.

KEEPING UP WITH THE BAND Last Thursday the band went to Plainview, in a school bus, to play for the Junior High "Cublets" game.

Mr. Davidson director of the Plainview band, came over and listened to our band for nearly an hour. He complimented the band on their spirits, their playing and their behavior.

The "Band Sweetheart Race" is coming along fine. Each class is certainly behind their candidate.

The tired, worried look on a pupil's face after a very trying exam.

List of smiles that are quite appropriate at this time: As enthused as a student over a new locker key.

Are the Juniors going to show up in the next assembly when they get seated in their assigned seats. Yes! Juniors!

Santa Monica, California.—Norma Shearer has just passed the crisis of a serious attack of bronchial pneumonia, her physician said.

Watch out! Look out for the fire! We'll probably all burn some day if we keep this rapid rate of speed up for fire drills.

Tom, how was the Centennial? Still going good?

These locker keys—will we ever be able to keep up with them?

What two sophomore boys are giving a party for each other soon?

We can hardly tell the Fish apart this year. How about some green skull caps? No hard feelings Fish.

We heard Denzil received a bouquet of flowers Friday night. Good idea Mary.

To bad about Jack's leg. What's Lucille going to do at the dance, Hal-lowe'en?

Whom is Jimmie Dean going to the Centennial with? I think we can guess.

Too bad Darlene has been sick, just when the big game is coming up.

By the way—here's news. Buell Price is reducing. Stay in there Buell.

We wonder which the sophomores will think most of when they are seniors—senior rings or parties?

There is a rumor out at school that Lucian has been keeping too late hours. Too bad he can't find better places to sleep than detention hall.

FRESHMEN ORGANIZE

At the Freshman class meeting, the following officers were elected: Bert Tankersley as president, Claude Hudgens vice-president, and Alvin Smith as reporter.

The Freshman class had a pep rally Thursday, October 8. We didn't have many out, but are expecting the whole class Thursday the 29th.

FOOTBALL GAME

Friday night, October 23, the Brownfield Cubs will play the Lamesa Tornados for their first conference game of the season.

Lamesa for the first time since 1932. The boys have been working hard, and they have a lot of new material that Coach Bost gave them that will work against Lamesa.

ALL R. A. MOVED TO AMARILLO OCTOBER 15

AMARILLO, Texas, Oct. 14.—Effective October 15, Region Twelve of the Resettlement Administration, with headquarters in Amarillo, is taking over eleven additional counties in Texas which were formerly under jurisdiction of the Region Eight office in Dallas.

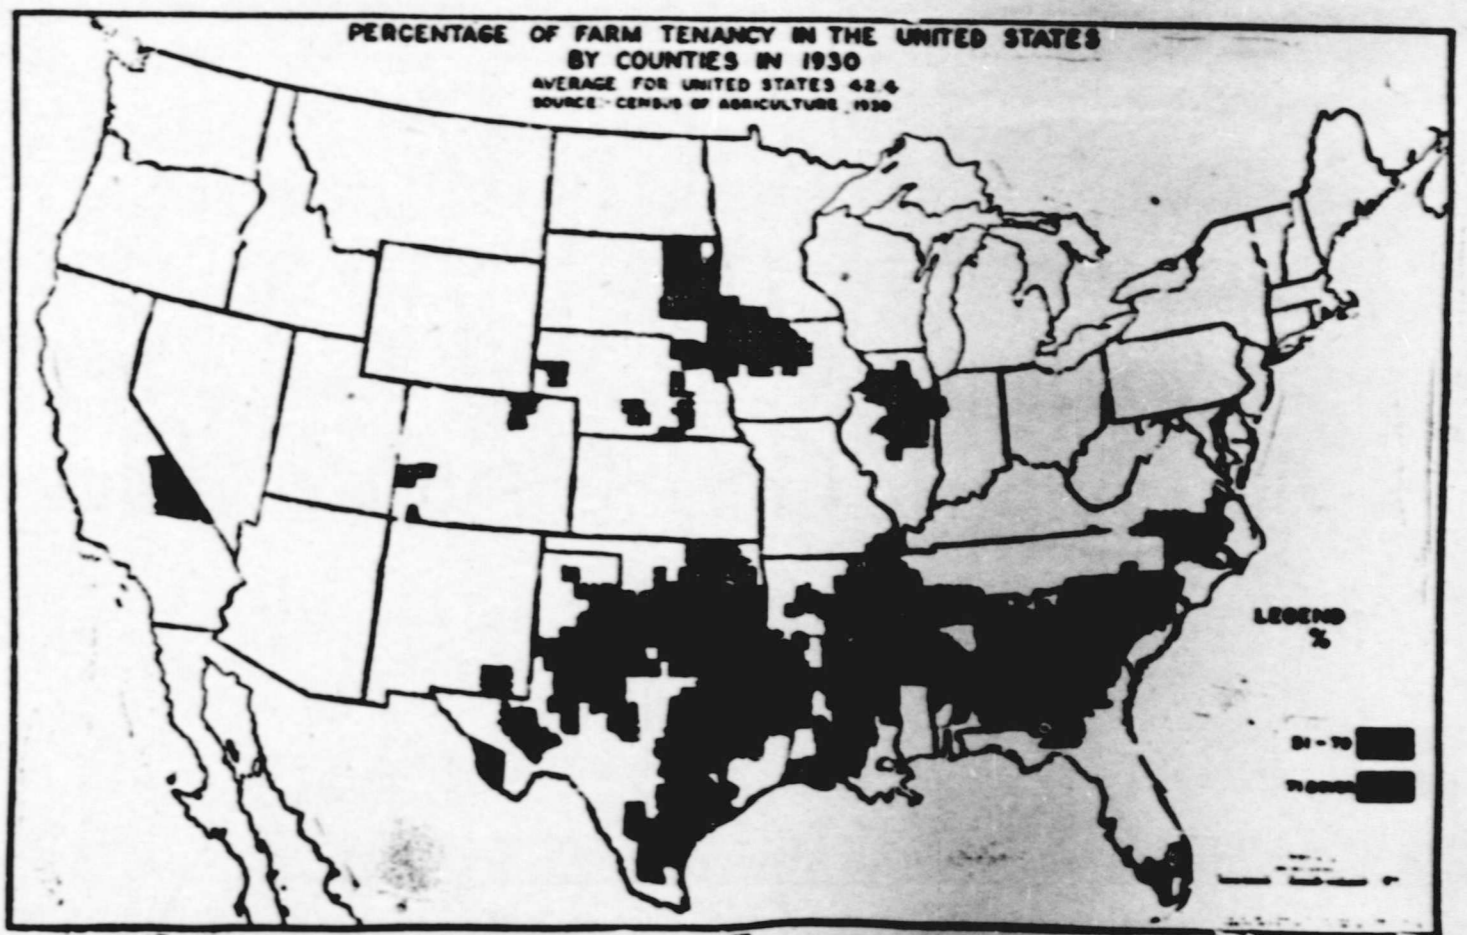

Purpose of this transfer, according to L. H. Hauter, Director of Region Twelve, is to facilitate administration of the program in the counties. Because of the fact that these counties are much closer the regional office in Amarillo than the Dallas regional office, and because the problems are more similar to those of all others in Region Twelve, the transfer was justified, Mr. Hauter explained.

Counties involved are Gray, Armstrong, Donley, Collingsworth, Briscoe, Hall, Childress, Floyd, Motley and Cottle.

In addition to these counties, Region Twelve has charge of the Resettlement Administration's program in all of New Mexico, the Texas Panhandle region, three counties in Oklahoma, twenty-five counties in Kansas and fourteen counties in Colorado. Ector, Midland and Glasscock counties constitute the southern line of Region Twelve in Texas.

Mr. Hauter said the transfer of these counties from Region Eight to Region Twelve would not create any material changes in the personnel of Resettlement Administration employees.

Be careful what you say when you talk to yourself.

Ford Winners Meet Sales Director as Company Guests

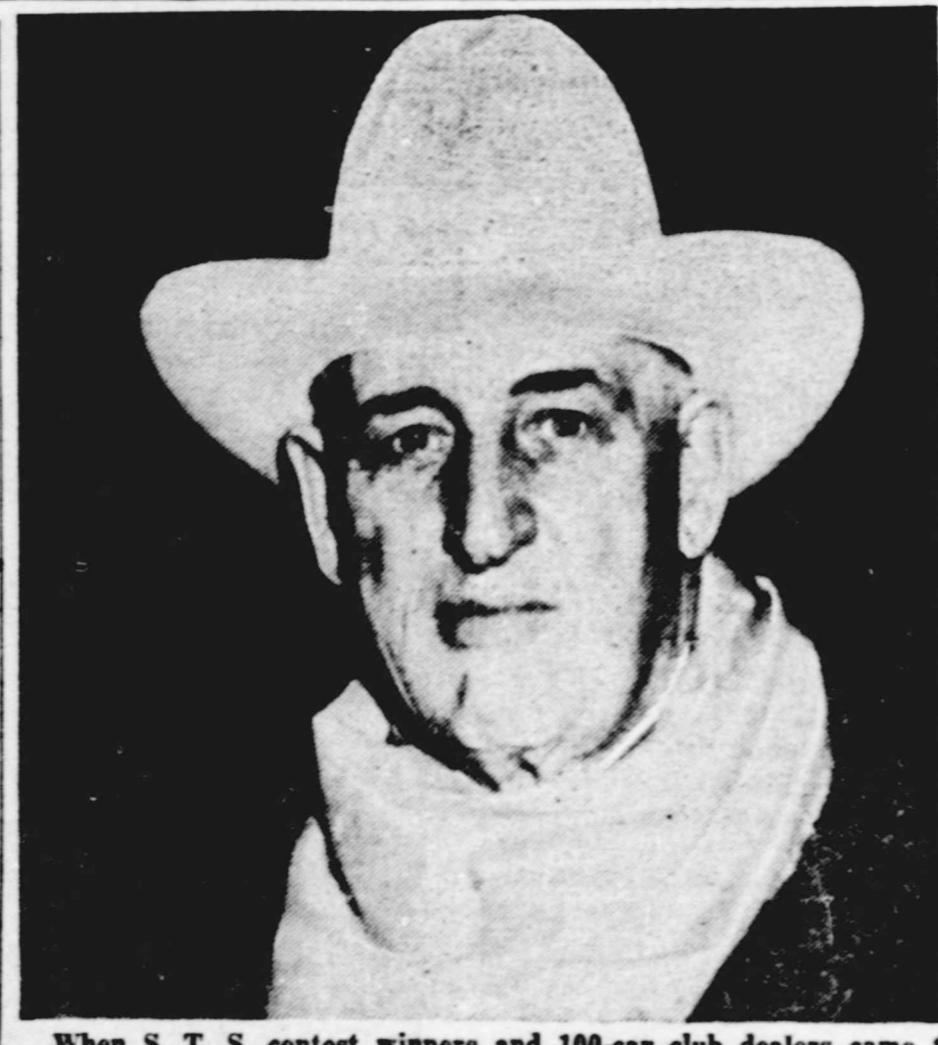

The second and largest delegation of leading Ford dealers in the United States, holding a roundup in Dallas, arrived to be greeted in typical western fashion—a greeting such as was extended to nearly 100 visitors and their wives in an earlier group.

Prize winning Ford dealers who were brought to Dallas as guests of the Ford Motor Company consist of two groups. The first group was made up of members of the 100-car club. These men, about 75 and their wives, were awarded the trip because they had sold at least 100 cars for two consecutive months, July and August.

The second group of visitors is made up of STS Harvest sales winners. In this group are four dealers from each of the company's thirty-six branch territories, a total of 144. They come from virtually every state in the Union.

The big event of the day was the luncheon. The room had been beautifully and appropriately decorated to carry out the round-up idea.

At the speaker's table sat W. C. Cowling, director of sales, present with a group of officials from Dearborn. In addition to Mr. Cowling, who made the principal speech, the following were seated: A. S. Hatch, in charge of Lincoln Motor Company sales; D. J. Hutchins, head of truck and commercial sales; H. C. Butkiewicz, manager of the new business division of the Universal Credit Company; J. P. Hook, in charge of used and retail car sales; C. B. Ostrander, Dallas branch manager; Harry Mack, Dearborn branch manager; B. W. Slagle, Houston branch manager; C. L. Kenney, Oklahoma City branch manager; Harry Murray, Dallas manager, Universal Credit Company; Rex Ryan, Ford exhibit; Verlin E. Doonan, general sales department, and F. L. Black, who acted as master of ceremonies at the luncheon.

When S. T. S. contest winners and 100-car club dealers came to Dallas as guests of the Ford Motor Company, they saw a bit of the old-time west. Ten-gallon hats, flowing handkerchiefs, and a two-team western stage coach met them. Here is W. C. Cowling, director of sales for the Ford Motor Company, garbed in hat and kerchief as he greeted the incomers.

Mr. Cowling devoted most of his talk on success in life and what it means to the average person. He emphasized the importance of truthfulness in the manufacture and selling of a product. At the conclusion of the sales executive's talk he personally presented each 100-car club member with an engraved watch. Each watch was inscribed as a gift from Edsel Ford, president of the Ford Motor Company.

TEXANS TODAY

Advertisement for Jack P. Burrus, featuring a portrait of him and text describing his achievements in the flour mill industry. It includes the slogan 'OUTSTANDING LEADERS ACTIVELY ENGAGED IN THE CONSTRUCTIVE DEVELOPMENT AND BUILDING OF "THE LONE STAR STATE"'

**OUR 23 YEAR COLUMN**

Quoting from our issue of October 24, 1913: On the front page we had a long article by L. N. Dalmont, about fruit trees. We also had two large cuts showing fruit trees loaded with fruit after frost. In this article Mr. Dalmont was predicting the Plains country a bright future of becoming a great fruit country. We had made a visit to Aunt Lou and Uncle Tom DeShazo's to see their garden, and found enough stuff growing at this late date to feed half the people in Terry county at that time. Judge Neill and family visited in the home of Mr. and Mrs. T. J. Price and reported Mrs. Price cooked a portion of a 13 pound cabbage out of her own garden. Will McPhaul and Miss Laura Smith were married on Thursday afternoon. Miss Annie Hamilton entertained the younger set at her home on Saturday night. Grandpa Shrock was able to be up

after a siege of sickness. Mr. D. K. Taylor, Game Warden of Lubbock, was down. Mr. and Mrs. Geo. E. Tiernan and two boys, Jack and Elwood, had a car wreck while on their way to Lubbock. It seems that the car had missed a cattle guard, and threw Mrs. Tiernan and Elwood through the windshield, cutting Mrs. Tiernan's face badly. After arriving in Lubbock it was necessary to take 12 stitches in Mrs. Tiernan's face. Robt. Welch was visiting in Snyder. Ed Moore and Loyd Greathouse were drilling a well for Mr. Lovelace. Curley Gamble came in from Tahoka to build Mr. Lovelace's house. Dist. Court was to convene the following week. Edwin Groves was in town with some apples grown on his place. Pappy John Powell left for Fort Worth with 800 head of spring lambs. Miss Clara Randal was helping her uncle, John Randal, in the drug store. Jack Drinkard and Jimmie Green were papering a house for Mrs. Chas. Copeland. Mrs. Lee Walker and chil-

dren, Myrtis, Marion and Lee Jr., were in town. Beginning January 1st, Miss Myrtis was to join the Herald force. Miss Nettie Sawyer entertained about ten couples at her home on Saturday night. Jno. W. Gordon and Mr. and Mrs. Noah Bell and children were in town. Harris Happenings: J. E. Fitzgerald was bitten by a centipede. Jno. B. Slaughter was here from his ranch near Post, Texas, he delivered a bunch of steers he had sold to the Mallets. A girl was born to Mr. and Mrs. H. E. Hooker. Messrs. King and McDowell were prospecting in New Mexico. Roy Harris was cutting feed for his father. A light frost had fallen here the Sunday before. Gomez Dots; Mr. Sam Key had bought the Adams interest in the gin. W. C. Mathis sold over a 100 head of cows to I. H. Hudson. Orel Adams and Jay McPhaul delivered a bunch of cattle to Lubbock. Messrs. Geo. and Lester McPherson were working at the Rambo place helping harvest the crop. Mrs. Bob Snodgrass was visiting her mother, Mrs. R. W. Glover. Mrs. Alvin Duke and children were here from McAllister, Okla., visiting her parents, Mr. and Mrs. A. P. Moore. Dee Brownfield and family were in town Sunday. Tokio Dots: Several school children were out of school helping gather the crop. Ben Hurst was cutting feed for John Day. Jay McPhaul passed through on his way to his ranch. All for this week.

**ALMOST AN INVALID FROM KIDNEY TROUBLE—S. L. K. BRINGS IMMEDIATE RELIEF**

**"The Pain Is Almost Gone Now, I Sleep Well, Appetite Is Improving and I Feel Fine," Says Mrs. G. M. McMillan, A Sweetwater Housewife.**

When kidneys do not function properly the system becomes laden with poisons. You might just as well be taking poison in daily doses as far as results are concerned. Other organs of the body, striving to combat this situation, are overtaxed and other disorders often develop. Finally, if the condition is not corrected you may reach the stage of actual incalculable. Mrs. G. M. McMillan of Sweetwater, Texas, writes as follows about her experience: "I had been troubled with kidney disorders and backache for the last two years, being almost an invalid for a year until I learned of Williams S. L. K. Formula. After taking it only a short time, the pain has all disappeared. I now sleep and rest well and my appetite has improved. I feel so much better that I cannot praise S. L. K. too highly."

Mrs. G. M. McMillan of Sweetwater, Texas, Says, "I Now Feel So Much Better That I Cannot Praise Williams S. L. K. Formula Too Highly."

Williams S. L. K. Formula, the private prescription of a famous World War doctor and used for years in his private practice is now available to all sufferers. Thousands have found quick relief from sluggish kidneys, stomach, liver and bowels.

It is believed that the people of the state will endorse this amendment by a large majority for the following reasons:

First, a sound teacher retirement law protects school children from teachers rendered less competent by advanced age. Such teachers will be willing to retire if they can see where the next day's living is coming from. This plan relieves school boards from the obligation of continuing to employ teachers formerly satisfactory. School boards are human. They hesitate to dismiss the old teacher who has no other means of support.

Second, a sound teacher retirement law tends to attract people into the profession because it gives a better guarantee of promotion, tenure in service, and security of retirement. It increases the dignity of the teaching profession.

Third, a sound teacher retirement system tends to keep many capable teachers in the classroom, because it is unnecessary for them to seek other employment financially more attractive. Many of our best teachers leave the profession early for better salaries in other lines, thereby leaving the children in the hands of the less efficient teacher.

Fourth, a sound teacher retirement system increases the efficiency of the teacher in the classroom for the following reasons: It lengthens the period of teaching efficiency by relieving the teachers' mind of the fear of a destitute old age; it improves the morals of a teaching force by keeping open the paths of promotion; and it increases the child's respect for the teacher and thereby makes his work more effective.

Another most important reason for favoring this plan is that in the long run a sound teacher retirement system means a substantial saving to the taxpayers because it makes possible the replacement of superannuated teachers, who receive the maximum salaries, by younger teachers who begin at a smaller salary; it protects the public from the waste of an expensive school plant manned by a worn-out teaching staff; and it is cheaper than a pension system. The compound interest feature, and the withdrawal privilege, make it better for the teacher and less expensive for the state. In fact, it is believed by those best informed on the subject that within a few years the state will make little or no contribution to the retirement fund because a revolving fund will accrue due to withdrawals. And since teachers under this system will not draw old-age pensions, the

**"THIS MAD LIFE"**

We are indebted to "The Chaser," that optimistic energy-full publication of "the san" at Carlsbad, Texas, for the following choice bit of philosophy:

Rushing to the office; hushing out to eat; rusing' back, rusing' home, down the rusing' street; rusing' up and rusing' down, rusing' in and out. Sa what's all this rusing' fur? What's it all about?

Rusing' after money, rusing' after fame, climbin', pushin', shovin'. It's a dizzy game. Steppin' on each other's heels—"Let me by!"—"Look out!" Say, what's all this rusing' fur? What's it all about?

What's the use o' rusing'? Let us loaf awhile, watch 'em push, run and grab. We'll jus' set and smile. As they scramble down the road, gaily we will shout: "ay, what's all this rusing' fur? What's it all about.—Snyder Times.

About as good a way to study human nature is when you are driving on the public road or highway. If a man is willing to observe the laws and the courtesies of the road, he will duly give his share of it when meeting another, and show he is willing to do the gentlemanly thing about it. But when you meet one who takes every advantage of those he meets and holds the road for his own selfish self, often to the great discomfort and sometimes injury to those he meets, or will not allow them to pass, we are almost sure to think of pork in connection with such drivers.—Rochester Reporter.

**Not to scare you**

**INTO OIL-PLATING YOUR ENGINE FOR WINTER**

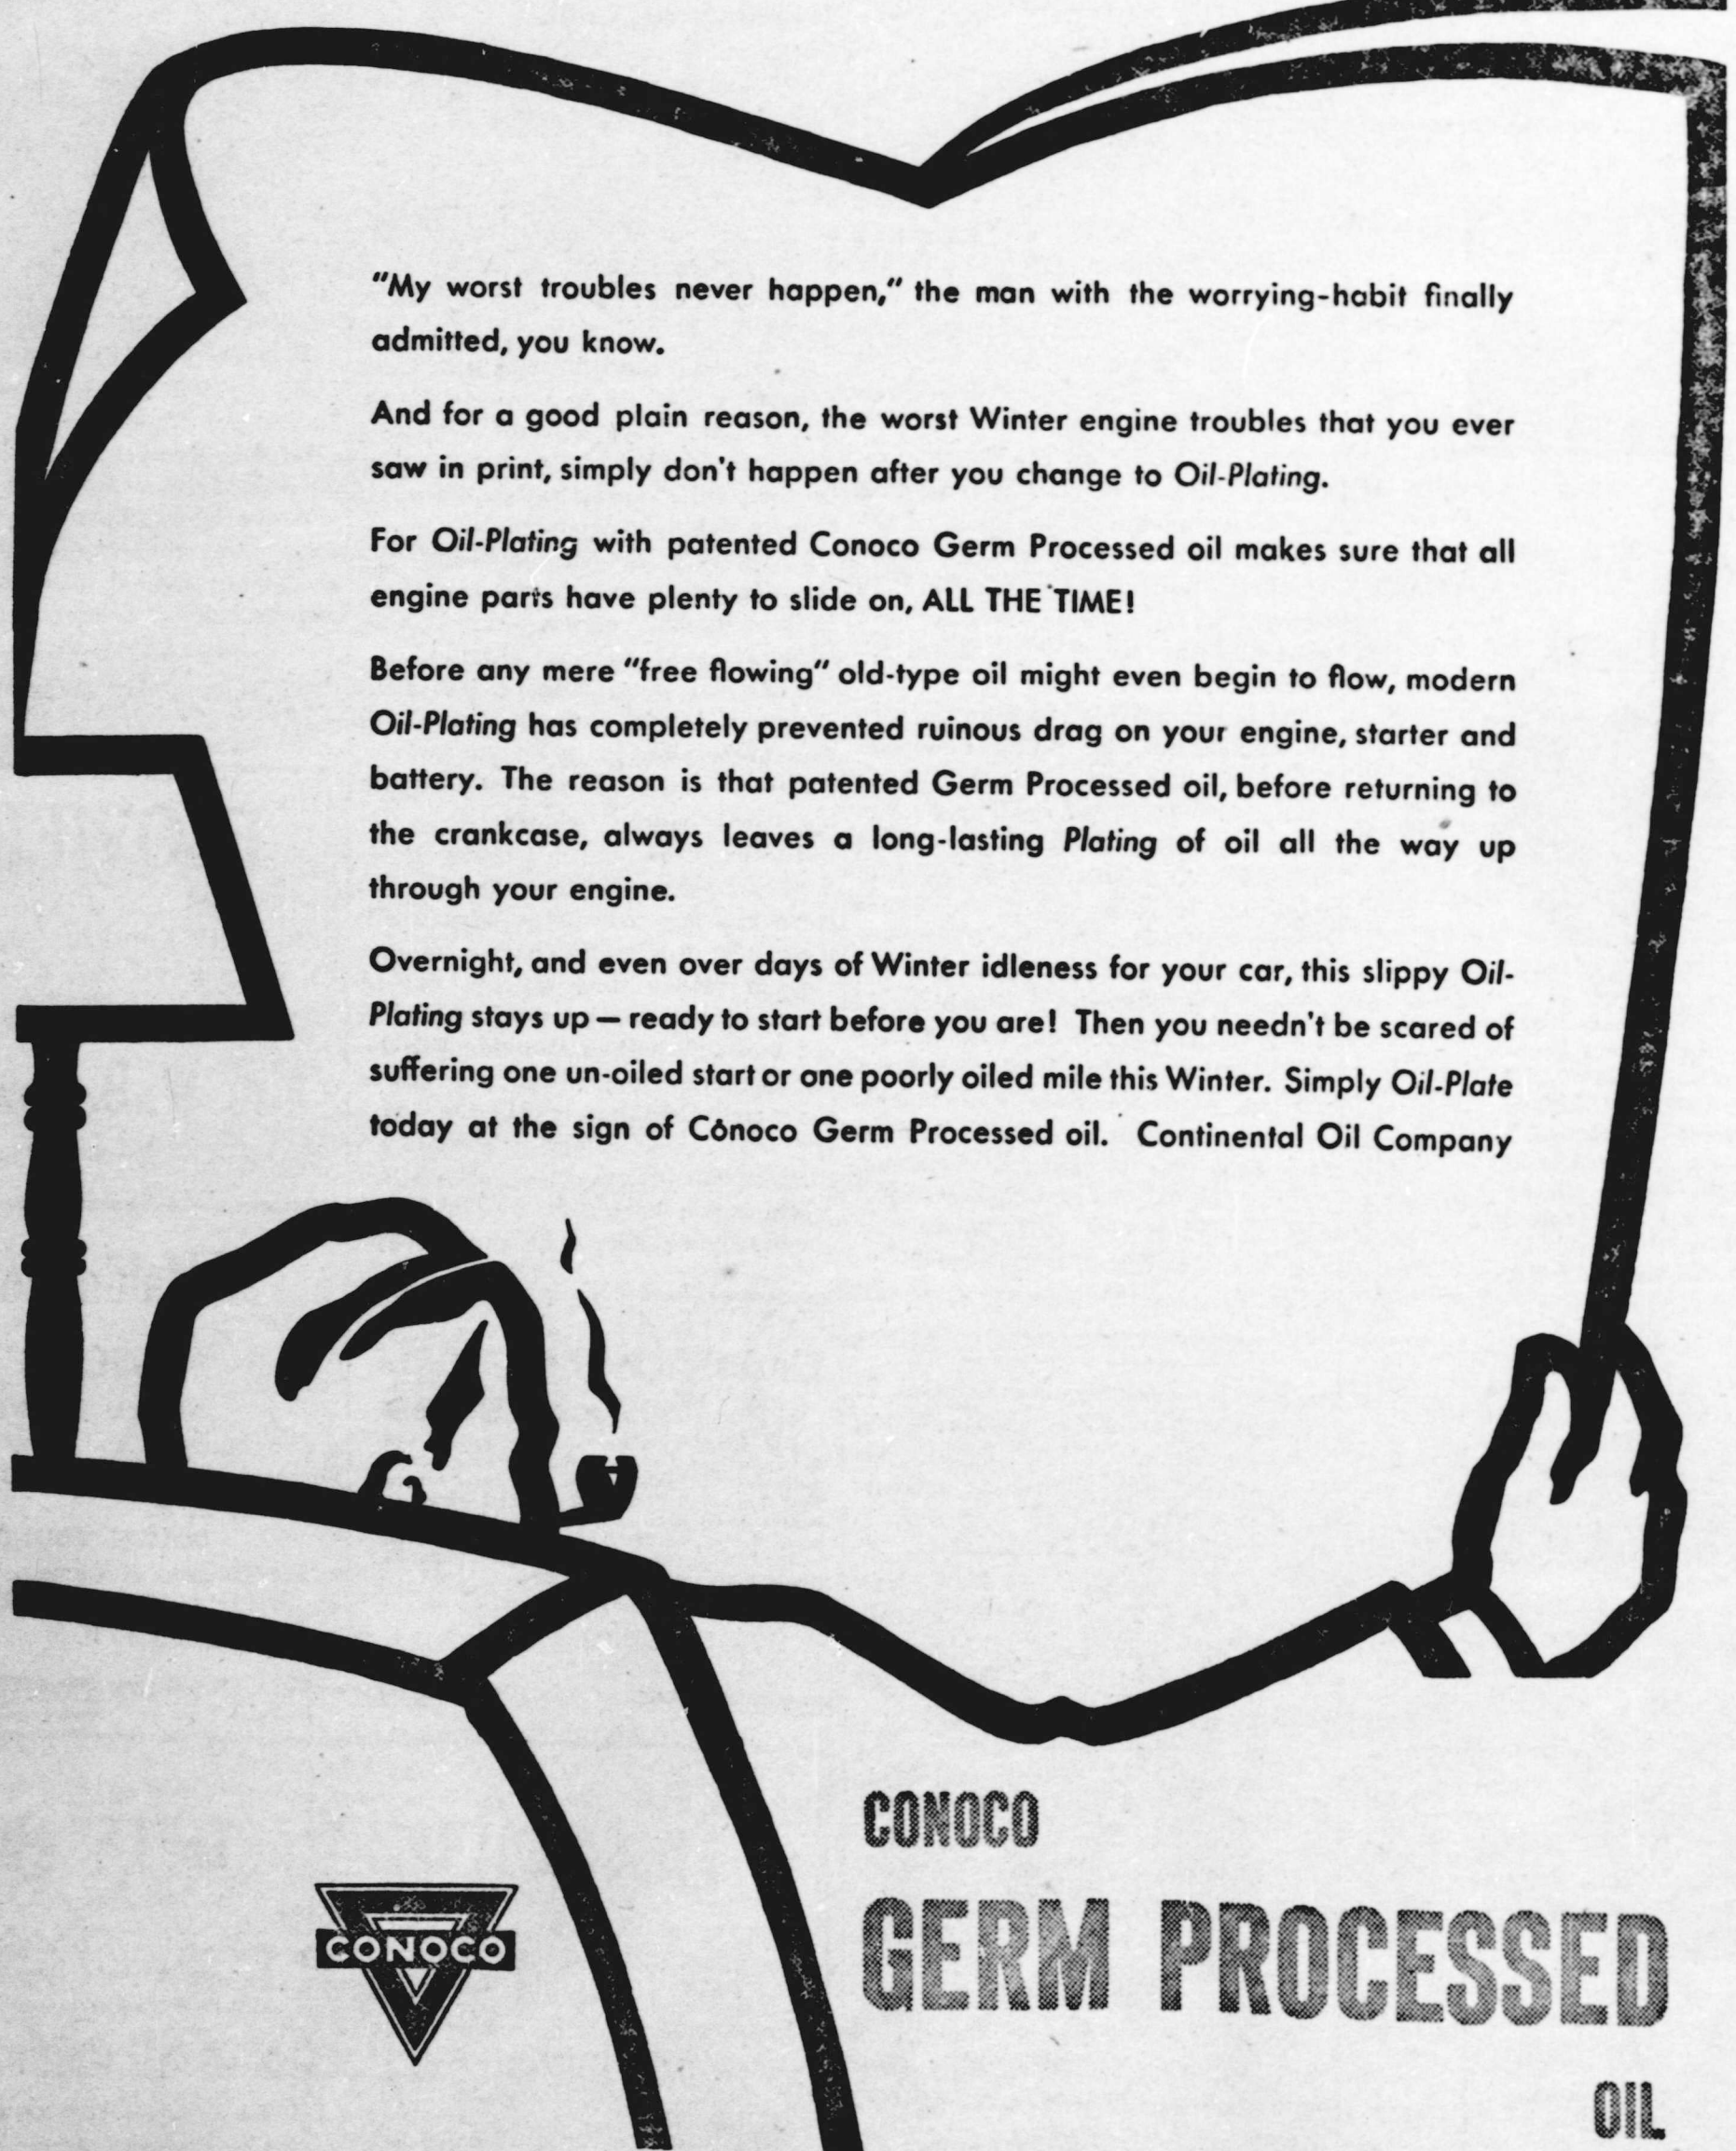

"My worst troubles never happen," the man with the worrying-habit finally admitted, you know.

And for a good plain reason, the worst Winter engine troubles that you ever saw in print, simply don't happen after you change to Oil-Plating.

For Oil-Plating with patented Conoco Germ Processed oil makes sure that all engine parts have plenty to slide on, ALL THE TIME!

Before any mere "free flowing" old-type oil might even begin to flow, modern Oil-Plating has completely prevented ruinous drag on your engine, starter and battery. The reason is that patented Germ Processed oil, before returning to the crankcase, always leaves a long-lasting Plating of oil all the way up through your engine.

Overnight, and even over days of Winter idleness for your car, this slippery Oil-Plating stays up — ready to start before you are! Then you needn't be scared of suffering one un-oiled start or one poorly oiled mile this Winter. Simply Oil-Plate today at the sign of Conoco Germ Processed oil. Continental Oil Company

**BURNETT-DAVIS**

Miss Marguerite Burnett, daughter of Mr. and Mrs. John Burnett, became the bride of James Parker Davis, son of Mrs. Lawrence Davis, at the Baptist church, Sunday morning at 9 o'clock. The Rev. F. G. Rodgers officiated with a ring ceremony.

Guests were Miss Shirley Burnett, sister of the bride, Mr. Richard Kendrick, and Mrs. Davis, mother of the groom.

The couple left for a wedding trip to the Centennial and East Texas, and after about eight days will be at home in Brownfield.

Mrs. Davis was graduated from the local high school last spring. Mr. Davis is a former student of Texas Tech. He is employed at the Help Your Self Grocery.

W. M. S. F.

The W. M. S. F. met at the church Monday afternoon at 3 o'clock. A royal service was presented as follows:

Subject: "Money and Kingdom." Devotional, Bro. Rodgers. Introduction, Mrs. W. W. Price. Blessedness of Tithing, Mary Green. Blessedness of Giving, Mrs. Rodgers. Song, Take My Life and Let It Be. Poems, Pay the Tithes, Mrs. Thames; Give a Gift, Mrs. Rhyne. Prayer, Mrs. Rodgers.

Testimonials by different authors: Mesdames Gay Price, Hollman, Heath, Carter, McBurnett and Auburg.

Next Monday is Industrial Day.

The N. E. circle will meet with Mary Green, the N. W. with Mrs. Bandy, the S. E. with Mrs. Bond and the S. W. with Mrs. Jess Smith.

**BIRTHDAY PARTY**

Mr. and Mrs. L. O. Turner at 1122 east Main St. entertained their daughter, Janelle, with a birthday party, Saturday afternoon, October 17, from 2 until 4 o'clock. It was her 9th birthday. There were 16 present:

Bettie Snodgrass, Ellene Fitzgerald, Lovvenia Fry, Margaret Ann Fry, Glynnia Faye Ross, Gladys LaFaye Green, Mildred Irene Hamilton, Alice Irene Eubank, Dixie Jean Redford, Helen Wright, Faye Louise Sullivan, Glenola Murphy, Nitan Gene Worsham, Dean Murphy, and Gloria Jene Swan.

Dorothy Murphy assisted the hostess in serving refreshment of punch and cookies and candy.

**SHOWER FOR MRS. LOYD**

Mesdames Fike and Winston were joint hostesses to a shower for Mrs. Andrew Loyd, Saturday. Halloween decorations were used. A fruit drink and cakes was served to about 35 ladies. Many lovely gifts were received.

**MRS. ELTON BREWER HONORED**

Mrs. Elton Brewer the former Miss Bertie Lee Daniell, was honored Tuesday night with a shower. Hostesses were Mesdames Downing, Rambo,

Collier, Treadaway and E. L. Martin of Lubbock.

The bride was seated on a throne and as guests came in placed their gifts at her feet.

The Centennial red and blue color scheme was carried out. Spiced tea, hotcakes, sandwiches and red and blue mints were served to fifty guests. About twenty of the guests were nurses from Lubbock. A few came from Seminole, including the brides' mother. The rest were from Brownfield.

**JUNIOR MUSIC CLUB ORGANIZED**

A Junior Music Club was organized last Saturday, with the name of "Mac Dowell Jr. Music Club." It will be federated, and belong to District State and National Music Clubs.

The Counsellors are members of the Cen-Tex Harmony Club and will supervise programs and out-of-door fun.

The membership starts with 20 children, and others who wish to be musically alert, can ask for membership and come in to the club by paying 50c for the year. The money is direct to State Treasurer.

Officers of the club are: President, Twilla Graham; Vice-President, Mary Jean Lees; Secretary-Treasurer, Eleanor Gillham; Reporter, Elouise McSpadden.

Program Committees: Mary Jean Lees, Evelyn Jones, Wanda Joyce Finney and Francis Joyce Rambo.

Object of club, "To grow musical." Motto, "B sharp sometimes, B flat never, B natural always." Club Flower, "Wild Rose." Club Color, "Pink and Green." Club Counsellors, Mesdames Basil Webb, A. L. Bruce, Jot Akers and Miss Viola Brown. Children 14 years and under are eligible to belong to the Juniors.

Membership girls are, Beverly Pittman, Elouise Mcpadden, Evelyn Jenkins, Glynola Akers and Mary Jean Lees.

**CARD OF THANKS**

We wish to thank all of our friends for your many kind words, thoughts, deeds, and the many beautiful flowers, during the short illness and death of our little son, brother, grandson, and nephew.

Mr. and Mrs. George Jenkins; Dorma Nell Jenkins; Mr. and Mrs. John Jenkins and family; and Mr. and Mrs. Hugh Hulse and family.

**CARD OF THANKS**

I wish to express my thanks to all who have been so nice to me during my illness. So many have brought beautiful flowers and others have sent so many nice clean clothes for dressing my sore limb. We don't know how many friends we have until we get sick and need help.

I am praying to God to heal me and if any of you ever need me and I can help you in any way, I'll be glad to do so.

Mrs. C. H. Hester.

*Presenting the phenomenal facts about GULFPRIDE*  
**THE WORLD'S FINEST MOTOR OIL**

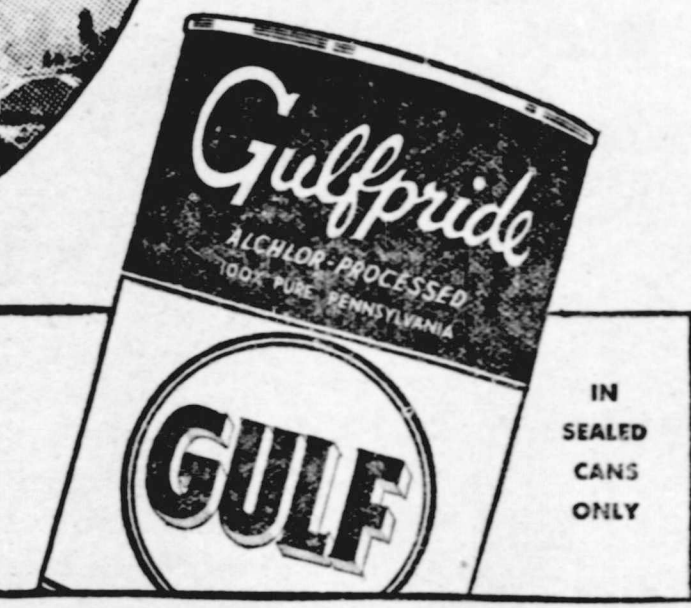

THE facts on this page sound hard to believe. But here is the reason why GULFPRIDE—and only GULFPRIDE—can accomplish such results . . . Gulf begins with selected Pennsylvania crude, refines it to a motor oil that equals the best—then further refines it by the exclusive Alchlor process. Only GULFPRIDE is made by this process—result of 15 years' research—the same scientific research that has made every Gulf product a leader. Read the facts below. Then drain your dirty summer-worn oil and refill with GULFPRIDE now. At all Gulf dealers.

THE U. S. NAVY specifications for motor oil, as well as those of all other government agencies, are bettered on every point by GULFPRIDE. For instance, this oil forms only 1/4 the amount of carbon allowed by Navy specifications. That's why GULFPRIDE almost completely banishes carbon cleaning.

**AN AMAZING TEST.** Bottle No. 1 shows a mixture of 6 famous Pennsylvania motor oils. Bottle No. 2 shows them after being put through Gulf's Alchlor process. Bottle No. 3 shows the 20% waste removed from these already highly-refined oils by Gulf's Alchlor process. This process starts where others stop! That's why GULFPRIDE is the world's finest motor oil.

**TOPS IN THE AIR**—8 out of the 11 winners in last year's National Air Races used GULFPRIDE OIL, the identical oil you can buy for your car at any Gulf dealer. This "aviator's oil" will take you farther before you need to add a quart than any oil you ever used!

**GULFPRIDE**  
THE ONLY ALCHLOR-PROCESSED 100% PURE PENNSYLVANIA OIL

**CARD OF THANKS**  
I take this means of thanking my friends for their deeds of kindness during my illness. The many beautiful flowers I have received, the kind and cheery visits of my friends, has made my stay in the hospital so pleasant. I especially wish to thank the doctors and nurses for their kind and courteous treatment of me, also I owe a debt of gratitude to the firm of Hudgens & Knight for setting up a radio in my room. It has helped me to pass many tedious hours.  
Sincerely,  
D. B. Sims

**TEXAS TIMBER BEING FAST DEPLETED**  
AUSTIN, Texas, Oct. 21.—Instead of the original forest area of some 18,000,000 acres, there now remains less than one-half million acres covered with old growth or virgin timber, Mrs. Clara H. Lewis of the University of Texas Bureau of Business Research points out in a recent article on Texas forest products for the magazine, "East Texas." She calls attention, however, to approximately 3,000,000 acres of second growth of pine and hardwood of merchantable size, and to another 4,000,000 acres covered with timber which has not yet obtained usable growth.

This depletion of the State's resources makes it doubly important that every advantage be taken of the development of new uses for wood products, both from second growth timber and from logging and saw mill waste, as the result of chemical research, she said.

"It is not only in the manufacture of lumber, but also in the new uses which science and technology have found for forest products and from waste materials of sawmills, logging operations and stills that we see possibilities of new wealth in Texas forests," she said.

James A. (Curley) Gamble, old timer of this section but now of Crowell, Texas, was up last week prospecting. Curley says he still has his eye on this country and he may return some day to make it his home. He has some of the best concrete mixing machinery in west Texas now stored at Brady which has been there since 1930, which he may move out here.

Our old molasses making friend, L. E. Bryant, was in Saturday mingling with the big crowd. Mr. Bryant has one of the few broadcast mowers found in this country.

Word was received here Wednesday of the death of W. C. Porter, Terrell, Texas, father of Mrs. Homer Nelson. She had been at the bed side of her father several days.

Mesdames E. A. Graham and Clyde Lewis were Lubbock visitors Tuesday.

Mesdames Kendrick, Thomas, Davis, Jacobson, accompanied by Mrs. Paul Lawlis left Tuesday for the Centennial at Dalas.

Color of honey has nothing to do with its purity, but the lighter-colored honeys are generally milder and the darker kinds are stronger-flavored.

**THOUGHT HE COULD "BEAT THE LAW"**

Pete Smith, 22, confined in the county jail at Haskell on charges of burglary and inett, committed suicide in his cell on Wednesday night two weeks ago by hanging himself with a chain used to suspend the cell bunk report the Rule Review.

The youth had been practically reared in Haskell county. Stories of the "heroic" escapades of criminals no doubt had led him to believe that he too could "beat the law," and so he entered upon a career of crime. He was recently paroled from the Louisiana state prison and had come back to Haskell county, where he was later arrested on new charges.

Then the poor, deluded but disillusioned youth decided that death was preferable to a life in prison. Before taking the fatal step he wrote his mother, who lived near Rule, the following note.

"My Dearest Mother and All—Here are my last words to you all. I guess they have 50 charges against me, so rather than go to trial I choose death, for I know that I will get more time than I could ever do. So Mother, you try and not grieve too much about me. Mother, you know you had rather see me dead than in the pen the rest of my life. Mother, you keep this always to remember your baby boy who thought

he was so smart he could beat the law. Mother, please forgive me and love me like you always did. We always had our ups and downs, but Mother I do love you. Kiss yourself and the others for me. Pete, your baby boy. Aubrey Louis Smith, goodbye forever, I'm going to rest beside my daddy."

Fifer—Do you think a man should confess all his thoughts and actions to his wife?

Groot—Even if he did it would be a waste of time. Don't you know most wives already know all their husband's thoughts and their neighbors always tell them about their husband's actions.

A groan a day helps the pain to stay.
