VOLUME THIRTY-TWO

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, FEBRUARY 26, 1937

NUMBER 29

"LISTEN FOLKS"

By Jim Ferguson.

(Editor's note: This article is published as a news item and represents the personal views of Mr. Ferguson only)

While the legislature of Texas goes round and round over taxes on oil, sulphur, incomes, utilities and other issues, including horse racing and dog racing, and last but not least how and where to get the money to pay liberal pensions to the old people, there seems to be a big row going on at Washington over the President's proposal to reorganize the Federal Courts.

On account of there being so many old Judges now sitting on the benches of the various Federal Courts of the country, the President has sent a special message and bill to Congress providing for the retirement of all Judges at the age of 70 years and in case any member of the Court reaches the age of 70 and does not resign, then the President shall appoint an additional Judge to sit with the present 9 members as a full term Judge for life, the same as all Federal Judges.

This proposal of the President has caused a storm of protest both in Congress and among the lawyers and bar associations throughout the States. The President is being roundly criticised and accused of improper motives and openly charged with seeking to pack the Supreme Court with partizan and political Judges who will decide against the majority of the present Court who have held the laws unconstitutional passed by Congress at his request.

The President has strong defenders in and out of Congress and the contest bids for a time at least to violently disturb the entire nation. It looks to me like if the President is willing to retire the Judges at 70 on full pay for life they should be satisfied and willing to step out of the way with the honor and the salary.

Any Judge that wants to continue under this condition may be impelled by some reason not disclosed by the record. Such desire to continue certainly does not promote judicial efficiency.

Under the President's plan six of the nine Judges which now constitute the Supreme Court would be retired with all the honor and salary which the office can bestow. Because President Roosevelt would appoint these six new Judges ought not make any difference because he will have the right under the Constitution to appoint the successors to these old Judges now passed 75 during his present term of office, as in natural order of life they can not expect to live much longer or render much additional service.

There certainly is no merit in the contention that the President might appoint partizan or political friends, because if he did, then the Senate could refuse to confirm the President's appointments until he did appoint somebody who was known to be competent and worthy. This fact seems to be overlooked by the various lawyers and bar associations who seem too eager to charge the President with insincerity. This wise provision written by the pioneer statesmen has since the formation of our government amply protected the people from the possibility of a corrupt appointment to this sacred position.

In my opinion Federal Judges should not be appointed under the age of 50 and should be retired on full pay for life at 70. If any Judge is not satisfied with this arrangement then he really needs another Judge to either hold him down or help him out. The people need both. The President scores again.

Now Ready to Make Emergency Crop Loans

Applications for emergency crop and feed loans for 1937 are now being received at Brownfield by L. B. Wright field supervisor of the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

These loans will be made only to farmers who cannot obtain credit from any other source as provided by regulations issued by the Governor of the Farm Credit Administration. The money loaned will be limited to the farmer's immediate and actual cash needs for growing his 1937 crops or for the purchase of feed for livestock and in no instance may exceed \$400.

Farmers are not eligible for these loans if they can borrow from an individual, production credit association, bank, or other concern. Emergency crop and feed loans will not be made by the Farm Credit Administration to standard rehabilitation clients of the Resettlement Administration whose current needs are provided for by Resettlement.

As in the past, the security for these loans will consist of a first lien on the crop financed if the loan is for the production of crops, and if for the purchase of feed for livestock then a first lien on the livestock to be fed. Landlords, or others having an interest in the crops or the livestock to be fed, will be required to waive their claims in favor of the lien to the Governor of the Farm Credit Administration until the loan is repaid.

Checks in payment of the approved loans will be issued by the Regional Emergency Crop and Feed Loan Office at Dallas.

A Chance to Win A Trip to Centennial

DALLAS, Feb. 22.—Forty-eight Texas boys and girls will get free, all-expenses-paid trips to the Greater Texas and Pan American Exposition in Dallas this summer.

Three hundred and thirty-six others will receive cash prizes. The free trips and cash prizes will be awarded for the best 500-word essays on "Why I Want to See the Greater Texas and Pan American Exposition at Dallas."

This opportunity for 48 Texas boys and girls to "go abroad at home" by visiting the vast exposition, where North and South America will shake hands and join in having a good time, is being made possible by the Greater Texas Committee in cooperation with the State Department of Education.

News about the big new exposition, which will open in Dallas June 12th, is given to the school pupils in an attractive illustrated book, "The Tale of a City and Two Expositions". Copies of the book were mailed last week to county school superintendents and principals of the independent school districts. Principals of the common school districts may obtain copies of the book through their county superintendents.

Dr. L. A. Woods, state superintendent of public instruction, is chairman of the advisory board of the Greater Texas Committee and Governor James V. Allred is honorary chairman. Dr. Woods' 24 deputy state superintendents are members of the advisory committee.

Remodeling Rialto To Start March 16

Mr. Earl Jones will start having the Rialto Theatre completely remodeled March 16. A Mr. Walter B. King of Dallas who specializes in Theatre building and remodeling will have charge of the work. The interior will be done over in the newest and most up-to-date manner.

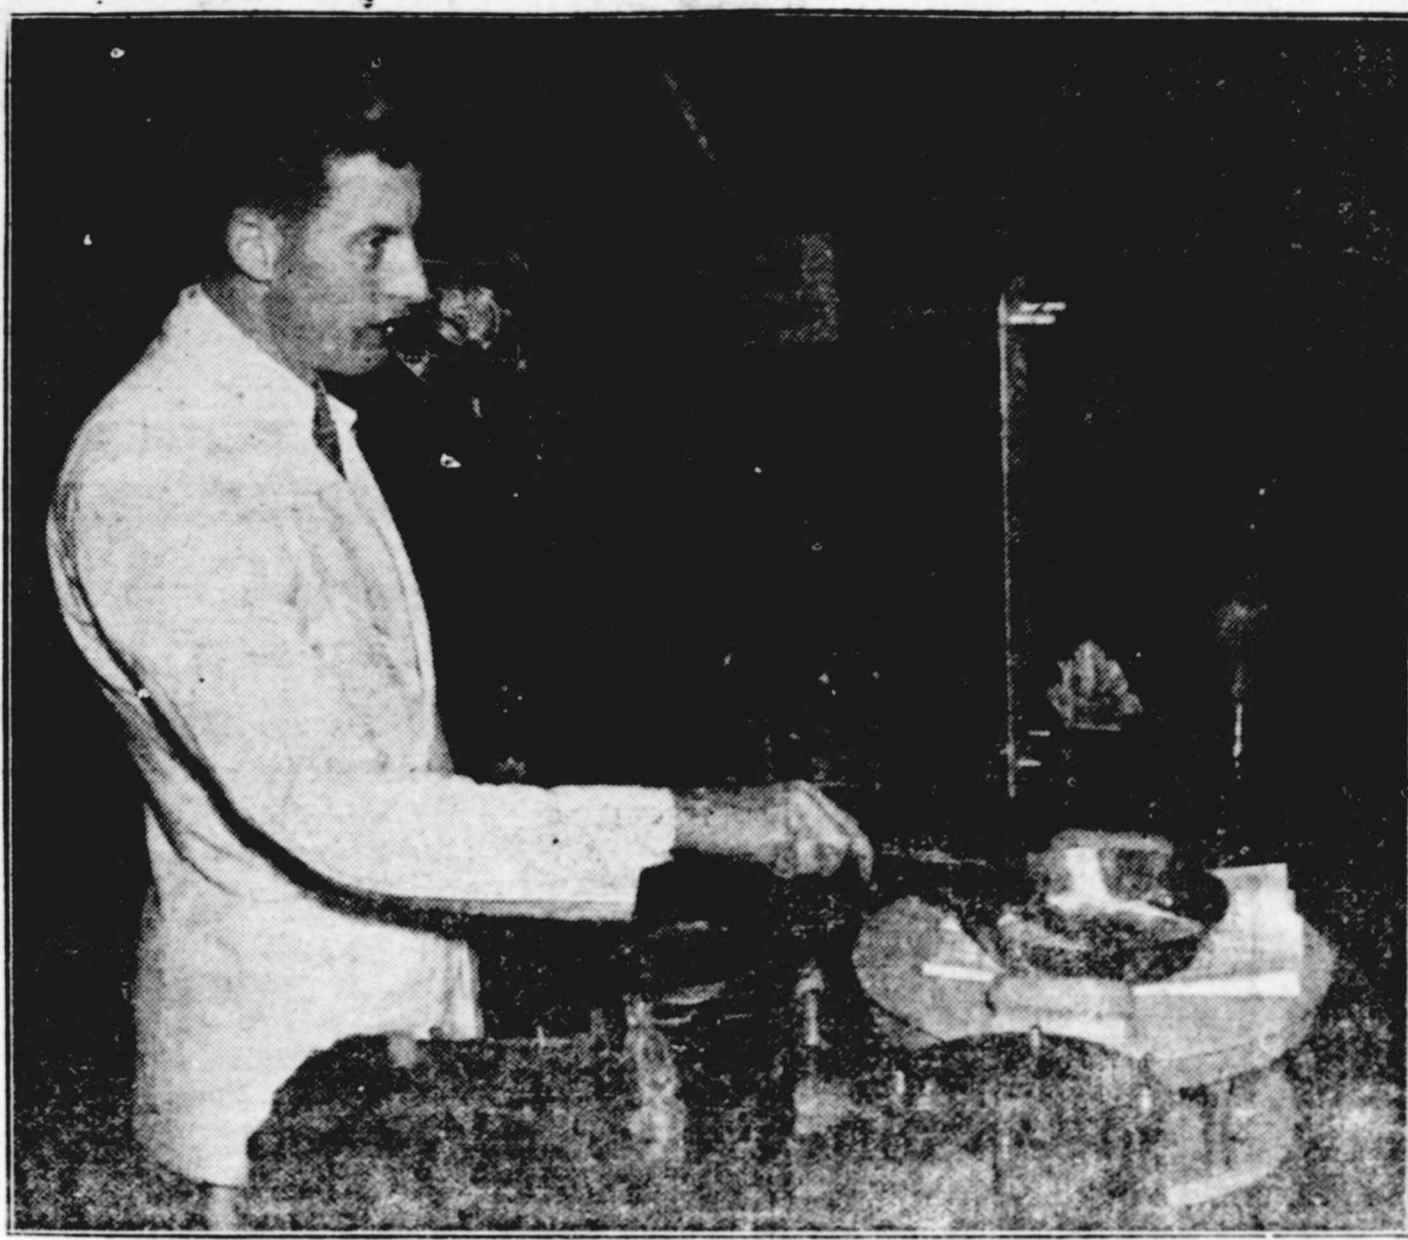

A ladies lounge will be added, the aisles newly carpeted and a new incandescent lighting system installed.

The theatre when completed will be a credit to a town many times the size of Brownfield.

Bus to Carlsbad and Return Same Day

Grover McMakin informs us starting March 1st he will begin a bus service that will take patrons to Carlsbad to visit the famous caverns and return them the same day. Heretofore it has required three days to make the trip by bus.

Prisoner Jumps From Jail Window and Is Killed

J. N. Loyd, 37, held in jail here on a charge of rape, following his examining trial today (Thursday) leaped from a third floor of the courthouse shortly before 2 o'clock this afternoon and was almost instantly killed. A brief examination showed he suffered a broken neck, a fractured skull and other injuries.

Loyd was accused of attacking his 14-year old daughter last fall, said County Attorney Burton G. Hackney. He was arrested last week in Brown county and brought here by Sheriff Ches Gore.

At his examining trial this morning (Thursday) he was ordered held without bond. He was taken to jail on the third floor. In some manner he managed to get out of his cell into the run-around.

Loyd is survived by his wife, who was separated from him and was living with a married daughter in Garza county, and a 13-year old son, besides the girl.

Hudgens & Knight Big Friendship Contest

The Hudgens & Knight Hardware and Furniture Co. are giving many valuable prizes to the people of this community through the Free Friendship Contest which they are having staged.

This is one of the most novel of all contests ever attempted in this section of the country and is causing much excitement and enthusiasm to be shown in the store.

The Hudgens & Knight Hardware and Furniture has been here in Brownfield serving the people of this community and surrounding territory for over 13 years and there are now over 300 women in Brownfield and the nearby towns and communities entered to win one of the beautiful prizes which will be given free to the persons having the highest number of votes.

The clever system under which votes may be obtained has been something of wonder and interest as everyone who has voted enjoys it. Example: Monday is Weighing Day. Each person 16 years and older comes into the store and steps on the scales and receives 30 Free Votes for each pound that they weigh. Each Tuesday of the Contest is Free Vote Day; Wednesday is Triple Vote Day; Thursday is Registration Day; Friday is Recipe Day and Saturday is Big Vote Day. Votes are also given on all purchases and payments on accounts.

Mr. Knight and Mr. Hudgens states that this is one of the greatest merchandising and advertising programs that they have ever staged and say also that from the thousands of people that have been in and voted so far in this contest that they feel sure that everyone is enjoying it.

The contest will close March 6 at which time the following prizes will be awarded to the winners:

- 1st Prize: A beautiful 9 piece Walnut Dining Room Suite.
- 2nd Prize: A lovely 4 piece Bed Room Suite.
- 3rd Prize: A handsome R. C. A. All-Wave Console Radio.
- 4th Prize: A very attractive Walnut Occasional Table.
- 5th Prize: A nicely upholstered Occasional Chair. One that will please you immensely.

Lubbock Colored Team Wins From Brownfield

Last Friday afternoon a colored basketball team of girls from Lubbock met a local team in the High School gym. At the end of the game the score was tied, 11 to 11, therefore an extra period was played. In this extra time the Lubbock team picked up 6 points, so the game ended, Lubbock 17, Brownfield 11.

The Lubbock team consisted of a much older bunch of girls than Brownfield. In fact, the visiting team was made up of High School girls against the locals Grammar School. In conversation with the teacher of the local school, she said another game might be arranged with Lubbock, if and when they can send a smaller bunch of girls, as she does not want to match her small girls against such a large team any more.

As far as we know this was the first colored basketball game ever played in Brownfield. Those who saw the game said it was a well fought game from the start until the final whistle.

The Brownfield team goes to Slaton tonight for a game. We hope the Lions have better luck against Slaton than they did against Lubbock.

Meadow Boys Win Dist. Championship

Last Friday and Saturday week the Meadow Boy's Basketball team won the district championship. They now go to Canyon to play for the regional honors, Friday and Saturday of this week.

If the Brownfield boys can't win, we are glad another Terry county team can.

please you immensely.

6th Prize: A very clever glass top Coffee Table.

7th Prize: A very good Floor Lamp.

8th Prize: A 32 piece Set of Dishes.

9th Prize: A modern Walnut Finish Magazine Rack.

10th Prize: A Walnut Finish End Table.

Around the Capitol

By J. Doyle Settle

To explain fully to the people of the western part of Texas my reason for writing this column, I wish to say that I feel that the people I represent have a right to know what is going on in the Legislature and what my position in these matters is. Therefore, I shall attempt to give as concrete and condensed reports of the happenings here in Austin as is possible under the circumstances.

At this writing the House of Representatives is considering the adoption of a Uniform Drivers' License law. I have always favored and shall continue to favor a workable drivers' license law. The present law, although presenting a start in the right direction, has been unenforceable because of weak features which prohibited its enforcement. If a law of this kind is to prevent the destruction of lives and property on our highways it must have provisions in same for the examinations of applicants. The present law up for consideration at this time does have this provision, and in my opinion should be passed. The chances for its passage appear good at this time.

It is my intention to attempt to create a cotton research laboratory, the purpose of which will be to discover new uses for cotton and it's by-products. My intentions in this regard are contingent upon the federal government's assurance that it will maintain such, and operate it for the benefit of the cotton farmer.

Due to the fact that the American grown cotton is rapidly being replaced on the foreign market by South American and cotton grown in India, said crop being produced at a much smaller cost because of cheap labor, it is incumbent upon us to find other uses for American-produced cotton to meet this competition. Texas now exports about 85 per cent of its yield, and unless we take steps to meet this condition, we shall soon be faced with a calamity of no mean proportions.

One of the interesting events of this past week's legislation was the adoption by the House of Representatives of the bill repealing legalized betting on horse racing in Texas by a vote of 107 to 24. This puts the question squarely up to the Senate of Texas as to whether they shall allow this disgraceful condition to exist wherein the people are being fleeced by the unscrupulous hangers-on at the race tracks of Texas, or whether they will follow the example of the House and stamp out this evil which has existed in Texas the past few years. My position in voting for the outlawing of betting in Texas borne out by my position on all moral matters confronting the Legislature. I shall never be a party to turning over to the gamblers and criminals of this great state. Further consideration of this matter by the Senate has been tentatively set for March 9th. Consensus of opinion is, however, that the bill will fail in passage in that body.

Mr. and Mrs. Lee O. Allen visited her mother, Mrs. Robertson at Lorenzo, Texas.

What About a Soft Ball Team in B'field?

Well don't blame me, for after all the question was merely put to me, "What about a Soft Ball team in Brownfield this year?" So here we are testing it's strength. After all, it takes ten players and at least two substitutes, and in most cases one or two men interested in these 10 or 12 players with at least 27c between them in cash.

But really, it's that time of the year when base ball begins to pop out on every corner, the big leaguers go south to lumber up those old joints and get in shape for a hard season of ball playing. But we are not trying to create interest in regular baseball because that's just out of our line and besides it takes too much "filthy lucre" But the expense of a soft ball team is about one tenth as heavy as base ball. First because the equipment is much cheaper and second there is no reason whatsoever of having any salaried players on a soft ball team, which is almost essential in base ball.

Personally, we see no reason at all why Brownfield shouldn't be able to work out some plan of backing and producing one of the best soft ball teams in this section. Other towns in this section have them, and most of them even go so far as staging a two to three days tournament in their city, and what's more make them pay. One town not far from here even went so far as installing lights so as to enable night games. If these towns can do this much for a soft ball team, surely Brownfield can rake up at least an old peach limb, and an old sock stuffed with cotton, for a few of us—middle age—youngsters to show them how the old game is played.

Of course we don't know. We are only playing the sap's part and suggesting it. Now some of you soft ball fans come forward and expound your thoughts, or should I have said expand. Anyway, ideas or disideas will be gladly received, and if you wish these columns or open for your thoughts.

Judge Simms Reports On Trip to Austin

Being busy in County Court for the past two weeks, I have not had the time to report on the trip which was made the first part of February to Austin, in company with Mr. M. L. H. Baze, Lee Fulton and Lee Lyon, seeking aid from the state to help raise funds with which to rebuild the Gomez School House recently lost by fire.

I am pleased to report, our state Senator, G. H. Nelson received us very kindly. Gave us some two hours of his time in order to hear our claims for aid, giving us every assurance that he would do all he could to get a bill through the Senate which would include an appropriation to help in this emergency.

Our visit with our Representative J. Doyle Settle was very enjoyable. He too, gave us every assurance he would do his very best for the Gomez School District. Asked us back at 2: p. m. to meet with him and the committee on appropriations of which he is vice chairman and at which meeting he placed the bill we were asking for as an amendment to the general appropriation bill which was accepted without any complaint except by one member which asked that the grant be reduced a little which was done and the same passed the committee by a unanimous vote.

We left Austin feeling our claim would be well handled and protected by our State Senator, G. H. Nelson and State Representative, J. Doyle Settle. The success of which we will have to wait until the legislature is over. For we know when the appropriation Bill comes out on the floor of either house, Senators and Representatives who are not interested in this part of Texas will vote to cut such appropriations out of the bill, which might be done with our parties doing their best to hold them in the bill. At any rate we feel our claim is just in that the state has made it a policy to help out schools in past years when such calamity strikes, and we are hoping for the best to come.

Chamber of Commerce

The Annual Banquet of the Chamber of Commerce, is definitely dated for Tuesday, March 9th, 8 p. m. at the High School Gym., and the meal will be served under the direction of Mrs. W. W. Terry. Tickets which will be placed on sale at 60 cents each, which is the same as last year. An interesting program will be offered and an effort is being made to secure the attendance of Hon. Harry Hines, Highway Commissioner for the principal address. The secretary will also have a place on the program for a report of the work that has been done by the organization during the past year and outline some of the proposed activities that will be attempted during the coming year. However short and snappy is what we propose to make of the program, with every minute of interest and entertainment.

Complying with the request of a number of people who are located in the west portion of the county, the County Judge and Commissioners, have recently completed an inspection of a proposed county road, running north of Tokio, connecting at the Cochran county line with a road that has been surveyed and proposed by the Commissioners of that county. The proposed road will be entirely in Terry county and about one mile east of the Terry and Yoakum line, but is expected to be of benefit to people who reside in the northwestern portion of Yoakum as well as the northwestern portion of Terry. If people of that section of the county desire the road, let the court, and especially, Mr. Malcolm, Commissioner of that precinct, know.

The court also has under consideration, the opening and construction of a road running north and west from the Pool School House, to a connection at the Hockley county line. This road is already opened as far as the Pool School House, but there is about five miles upon which right-of-way and opening is to be procured.

The court and Mr. Malcolm, would also like to know whether the people along this route would like to have this connection.

It is also of general interest to note that a survey of Highway No. 84 from Brownfield to the Yoakum county line has been commenced and as soon as it is completed, the commissioners will proceed to procure the additional 20 feet of right-of-way and it is expected, or at least hoped, that grading and drainage, followed by a hard surfacing program will be approved by the highway commission. Which will include Yoakum county to the New Mexico line.

The PM Force and The Smith Families

According to a circular letter received this week from the local post-office, that bunch is very desirable of getting the correct spelling as well as the correct initial of every patron of the office, as well as the number who are getting mail in each box.

It seems like Postmaster James Harley Dallas and his force are letting the Smith family deal them more misery than anyone else. For instance, this letter to us says that they have 25 Smith families on the routes, not to mention those who get their mail in the city. And, admits this circular, what is really great grief, a lot of them not only have the same surname, but in many instances have the same given name or even initials.

What they want you to do is to come in and tell them just who and the number gets mail in your box, their initials, etc. We know that the same name will sometimes make it difficult to deliver mail promptly. Just last week a man has been getting the Herald in his wife's name had it changed to his name. There was another lady in the town with the same given and surname, but none with his given name.

Therefore mails were often mixed. It is the greatest wonder to us that any of the Smith families are ever able to get their right mail. If they make a mistake, and get the other Smith's dun, check or love letter, they have a mutual understanding between "us Smith's" that it goes no further, and is returned to the real owner as soon as possible.

We have reprinted what some of the neighboring exchanges have to say about the proposed change in the Supreme Court lineup, both pro and con. We also give you a little feeler from one of the highups who is opposed to any change, as well as what Farmer Jim Ferguson has to say. Read 'em all and reach your own conclusion. Let's get all sides.

An editor receives enough dope and statistics through the mails to run a professor mad, not to mention a poor editor. The past week we got a bunch of stuff from Austin or Bryan, we don't remember which telling us how many quail and squirrel there were to the acre or several acres in the cut-over pine lands of east Texas. It stated that the CCC boys had made the count. Personally we don't believe we have a reader that would be interested about the matter, and in the second place it appears to us that the CCC boys could be doing something better than counting quail and squirrel.

SAVE THE COURT!

"A mild sensation was caused in Congress when . . . the President presented to the bodies a history making proposal to inject 'new blood' in to the Supreme Court," observes the Honey Grove Signal-Citizen. "Should his proposal be put into effect, six Supreme Court judges would be given the choice of retiring, or leaving six new judges of the President's choice take places as their peers on the Supreme bench. Such action would either displace the oldest judges, or else place them in the minority, which would then allow the President greater privileges." Thus the Signal-Citizen states an issue that is causing great concern to Texas newspapers.

The Dallas News believes it is "a reasonable assumption" that the President "expects the legislation which he requests to become the force of public opinion which would compel the Judges to vacate. The Nation has a little more than a suspicion, too, that what the President really has in mind is to overcome the scruples of the present highest court in regard to the constitutionality of Roosevelt laws by providing it with jurists who may be expected to think along his own lines."

But the News thinks that "Only by altering the independence of the

Federal bench, not by increasing or changing its personnel, can anyone expect its opinions to follow blindly the views of any executive or any Congress or even that frequently misguided public clamor which would put self interest above right."

No Pre-Election Warning Given
And the Dallas Times Herald declares that it is possible for the President to prove the sincerity of his statement "that there was no constitutional issue involved in his judiciary proposal."

"If the chief executive is not particularly interested in changing the attitude of the judiciary he can reveal this," the Times Herald points out, "by asking that living judges and justices be exempted from the proposed law."

Another Dallas newspaper, the Dispatch, notes that "This radical suggestion of the President is offered instead of a constitutional amendment curbing the power of the Supreme Court . . . and it would be immediately effective." And a prediction of the Dispatch has been borne out: "It will probably create a greater controversial reaction than would be produced by the offering of a constitutional amendment."

No pre-election warning of the proposal was given, reminds the Dallas Journal, which says, "It is possible that the President's huge November majority would have been just as huge had he warned the country in October that in February he would attempt to supply the Supreme Court of the United States with six new Justices chosen to meet the 'modern necessities' of a New Deal program which, in some particulars, the present Supreme Court has found to be unconstitutional. It is possible—but debatable."—Texas Weekly.

We still have a definite sense of personal injury every time we go to Lubbock and find all the parking spaces taken. We had two perfectly happy visits over there while the meters were still in operation. We drove right down in the middle of the city, parked right where we were going, got out and sauntered around, bought a slug of chewing gum for the boys, spoke to a few friends we met, got back in the car and drove away feeling that all was practically well with the world. But Charley Guy and a lot of other kill-joys over there raised the dickens and poked a chunk under it, so now we have to drive off the town section to park. Well, mates it is an imperfect world anyway. But how is the law suit coming along?—Ralls Banner.

That was what we thought too, but it just cost old Sharley too much to park his old car right in front of his office where he would not have to wiggle his old fat sides too much to get to his car. But, then we don't go to Lubbock over twice a year, and so it don't make much difference.

THE STATE OF TEXAS

To the Sheriff or any Constable of Terry County, Texas, Greetings:

You are hereby commanded to cause to be published for ten day exclusive of the return day hereof in a newspaper of general circulation which has been regularly published in Terry County, Texas, for more than twelve months before this date, the following notice:

THE STATE OF TEXAS
To all persons interested in the estate of Levi M. Kauffman, deceased, W. E. Snyder has filed in the County Court of Terry County, Texas an application for the probate of the last will and testament of Levi M. Kauffman, deceased, and for letters testamentary, which said application will be heard at the next term of said County Court commencing on the first day of March, the same being the first Monday of March 1937, at the Court House thereof in Brownfield, Texas, at which time all persons interested in said estate may appear and contest said application should they desire to do so.

Herein Fail Not, but have you before said Court on the first day of the next term thereof this writ with your return thereon showing how you have executed the same.

Given under my hand and seal of said Court this 10th day of February, A. D. 1937.

(SEAL) W. A. Tittle,
County Clerk, Terry County, Texas.

PLAINS COMPETITOR

Who is the competitor to the merchants in Plains. Probably the local man is ready to say it is the man across the street. But not a bit of it. He should be your friend in helping to bring business here. If the reader will watch the cars leaving here and going to other towns every day in the week we believe he will realize who is the real competitor.

No, the man doing business here is not the competitor of the Plains business man, but the merchants in Brownfield and Lubbock are the men Plains has to contend with. They are constantly sending page advertisements into the town asking for the trade of the people here. These are

the men Plains has to fight. There is but one way to combat this out-of-town advertising and that is to meet it with similar ads. Of course the people know the business is here, but that is not enough, for they know more about the man in other places—they know he is there and they know his prices, too.

Well, people are going where they are invited. —Plains Review.

The same can be said of every place. Those at Lubbock go to Dallas; Dallas folks go to New York. And so here they go, Bro., you know not where.

IN THE UNITED STATE DISTRICT COURT IN AND FOR THE WESTERN DISTRICT OF TEXAS, WACO DIVISION

J. M. HUBBERT vs TEMPLE TRUST COMPANY NO. 236—IN EQUITY

NOTICE IS HEREBY given that the undersigned has filed his application with the Clerk of the United States District Court in and for the Western District of Texas, Waco Division, for an order authorizing him to enter into an oil and gas lease with Joe J. McGowan covering all the South one-third (S. 1-3) of Section 25, Block D-11, S. K & K Survey, Terry County, Texas, and said tract of land being more particularly described by metes and bounds as follows:

BEGINNING at a point in the East line of said Section 25, 1266 2-3 vrs South of the N. E. Corner of said Section for the N. E. Corner of this tract;

TENCE West parallel with the North and South lines of said Section 25, 1900 vrs to a point in the West line of said section for the N. W. Corner of this tract;

TENCE South along the West line of said Section 25, 633 1-3 vrs to the S. W. Corner of said Section for the S. W. Corner of this tract;

TENCE East with the South line of said Section 25, 1900 vrs to the S. E. Corner of same for the S. E. Corner of this tract;

TENCE North with the East line of said Section 633 1-3 vrs to the place of beginning, and containing 213 1-3 acres of land;

that said Lessee has proposed to pay a cash bonus of \$533.33 for an oil and gas lease on said tract of land for a term of ten years, with an annual rental of \$106.66 for the privilege of deferring the commencement of drilling operations for a period of one year from and after the date of said lease.

Said application will be heard by the Honorable Charles A. Boynton, Judge of said court after this notice shall have been published for a period of ten days, and any person interested in said Receivership Estate may contest this application.

WITNESS my hand at Temple, Texas, this 5 day of February A. D. 1937.

H. C. Glenn, as Receiver for Temple Trust Company, Temple, Texas.

Red Cross Relief Forces Active in 10 States

Left: Red Cross Chairman, Cary T. Grayson, leaves White House after conferring with President Roosevelt on flood relief. Right: Red Cross supply station at Cincinnati rushes blankets and bedding to flood sufferers.

WITH 800 nurses and 300 trained disaster workers in the field the American Red Cross is easing the plight of flood sufferers in 10 inundated states in the Ohio and Mississippi Valleys. The Red Cross reports that 625,000 persons have been driven from their homes and need urgent assistance. Admiral Grayson, chairman of the Red Cross, has been

appointed by President Roosevelt to coordinate all relief effort and has instructed Red Cross Chapters and personnel to spare no expense in meeting needs. Contributing \$1,000,000 from its disaster reserve and asking the public to contribute without delay to a \$11,000,000 relief fund, the Red Cross is concentrating on allaying the acute health situation. Red Cross nurses and doctors

work feverishly, immunization centers have been set up, refugee camps established to minimize the dangers of exposure, food, clothing and bedding rushed to key points. More than 39 Red Cross emergency hospitals have been established to prevent epidemic and treat sickness, and serums and antitoxins have been sped to points where the situation is grave.

Building New Dining Room at Wines Hotel

By making the vacant space between the Wines Hotel and the Wines rooming house, which is some 16x60 feet, workmen are making available a large dining room to care for most any occasion at this popular eating place, which is conducted by Mrs. W. W. Terry. Just whether the old dining department will be run in with this or some other use made of it, we did not learn.

While inspecting the progress of the work, Mayor Wines took the trouble as he usually does to compliment the Herald. He stated that he had heard some remark that the paper was not any "count." But, said he, I notice they are always borrowing my paper and I sometimes have to wait till they get through reading it. His policy is "if it isn't worth paying for, it isn't worth reading."

Real Oil News in This Section is Scarce

We like to give our readers a little dope each week about the oil news, if any, in the section, but there just don't seem to be any this week worth printing. We have heard little or nothing about the well south of town lately. Some say they are changing from rotary to standard rigging, but it seems that it takes them a long time.

It was reported that the Ruth Bennett in Yoakum county tried to deepen and struck salt water. They seem to have backed up and bottomed at about 5236 feet, and pronounced about a 570 barrel per day producer.

New Way to Extract Potash From Rock

AUSTIN, Tex., Feb. 21—Dr. E. P. Schoch, director of the Bureau of Industrial Chemistry at The University of Texas, has discovered a practical process for refining a new species of polyhalite ore which contains potash. Test holes have proved that an enormous deposit, estimated at 57,000,000 tons of this particular kind of polyhalite ore, is located near Midland, Texas. The discovery of this potash bed was made by Max Agrest of Dallas. Dr. Schoch's discovery has enabled the Texas Potash Company of Dallas, which owns the deposit, to take further steps towards producing potash in large quantities, it was stated.

By Dr. Schoch's process not only sulphate of potash is produced from the polyhalite, but also magnesium carbonate, desirable for insulating, and a very superior hard plaster, it is stated in a report which has been made of the results of Dr. Schoch's experiments.

The Texas Potash Company has spent three hundred thousand dollars in its investigations, preliminary to starting mining operations and construction of a potash refinery, it was stated. It is a close corporation with no stock for sale, it was also announced.

Rev. R. T. Breedlove and Rev. Jack Thompson, Circuit Pastor, attended the Bible Institute, held the first of the week at the First Methodist Church in Lubbock.

Dr. R. W. Goodloe, Professor of Church History at the Southern Methodist University was in charge.

Mr. and Mrs. Dewey Sullivan of Vera, were week end visitors in the Lee O. Allen home.

T. M. Sparkman, employee of the Texas Compress spent the week end with his parents at Littlefield.

D. B. Gordon is building a modern five room house on Fifth street.

FDR Supreme Court Fight Stated Briefly

President Roosevelt proposes to Congress a plan to inject new blood into Supreme Court and lower Federal Courts and to change procedure. For each Federal Judge past 70 who refused to retire, an additional Justice would be appointed. If the six Justices of the Supreme Court now over 70 stayed on the bench, six more

would be appointed, raising the tribunal's membership from nine to fifteen. No Federal Court could make a decision on constitutional questions without hearing the Attorney General's arguments. Questions of constitutionality could be appealed direct from the lowest Federal Court to the Supreme Court. A new official, the Supreme Courts proctor, would be named to assist the Chief Justice in relieving court congestion. Congress split on the plan. Admin-

istration men rallied to it and predicted quick passage. Some Republicans and Democrats opposed it.—Associated Press.

Oil Field Road Panned For West Terry

Terry county commissioners last week advised T. B. Duggan, sr., that they would see that an oil field road on the Terry-Yoakum county line would be completed, the later said Saturday.

Completion of this sector will finish a road from Seagraves to Whiteface. It follows the county line from a short distance east of Seagraves north to the Santa Fe's Bledsoe branch and saves considerable distance for those who have to go from Cochran county towns to Seagraves and Seminole.

The new road will have eventually a 100 foot right-of-way, although a country road. It will connect state highways 51, 24 and 84.—Lubbock Avalanche.

BROWNFIELD PRESBYTERIANS ASK FOR MEMBERSHIP IN PRESBYTERY

The Brownfield Presbyterian church, U. S. A., has asked that El Paso presbytery of the U. S. (Southern) church, consider its application for membership. It has been sent here and will be acted on at the next meeting, said Rev. W. K. Johnston, mission superintendent, Saturday.

Next meeting of El Paso presbytery is scheduled for the second week in April, probably at Colorado. Dean James M. Gordon of Texas Technological college, is moderator.

El Paso Presbytery is the largest in the denomination. It extends from Lubbock to Colorado and west to El Paso. There are about 26 churches with 14 pastors.—Lubbock Avalanche.

Mrs. W. H. Collins is home from the Lubbock sanitarium, where she had a major operation and is fast on the road to normal health.

DEATHS

Herbert L. Younge age 41 years died Monday, February 22, at his home in the Pool community. Funeral services and burial were held at Meadow with the Rev. Thompson in

charge at the Meadow Methodist Church.

Mrs. Nancy Irene Thomason, wife of Charley Thompson died Tuesday morning in a Lubbock hospital, at the age of 34 years.

Funeral services were held at the Brownfield Baptist Church, Tuesday afternoon at four o'clock, with Rev. Phillips in charge.

Sheriff Gore Hurt—Another Badly Injured

While returning from central Texas, Monday night, Sheriff Ches Gore's car left the highway the other side of Snyder, Texas, and while the car never turned over the landscape was rough in the vicinity, and the three occupants of the car got a bad shaking.

A federal man that was with Ches got a fractured skull, and he was left at the Snyder Hospital. Ches had two ribs fractured, perhaps on the steering wheel, but after being patched up was able to come home. The third occupant of the car, Luke Huckabee was in the rear seat, and while not seriously hurt, was badly shaken up. The worst hurt man of course was the Federal officer.

Ches was going about his duties Tuesday as usual, and while rather patched up, looked like, and acted like he was not suffering much, and would be his usual self in a few weeks.

We didn't learn, nor ask how badly his car was banged up as we were more particular about finding out about those hurt.

Over 1500 Qualified Voters in Terry Co.

According to Sam White over at the County Tax-Collector's office, 1534 people paid poll taxes before February 1, this year.

This of course does not include the exemptions, overs and unders.

Wild horses died out in America at the end of the Ice Age, and there were no horses here until Cortez, the Spaniard, brought some in 1519.

RACING CAR DESIGNER JOINS GULF RESEARCH STAFF

Looking toward the further development of its already vast research work on petroleum products, the Gulf Oil Corporation has added to its research staff a famous automotive engineer and designer whose name is synonymous with automobile racing in this country.

Harry A. Miller, whose racing cars

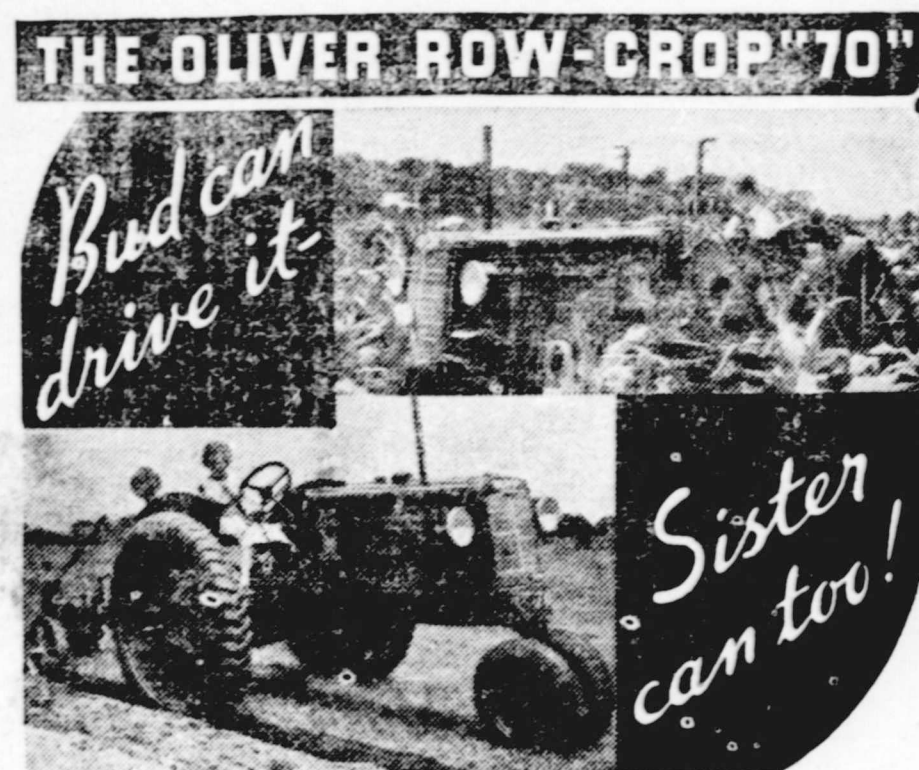

have been winning championship cups on American tracks since 1911 and whose engines have won every Indianapolis Speedway Memorial Day classic during the last nine years has accepted an appointment to the Gulf staff and will begin a series of practical experiments in the use of gasoline and other petroleum products.

Just a light touch on the steering wheel turns the new Row Crop "70" completely around. It's the easiest tractor to operate you ever saw. Every control's right at your finger tips—and you have steering and gear shifting like an automobile.

This is Oliver's new 6-cylinder Tractor that has caused so much talk. There are two "70's"—one designed solely for regular gasoline—and the other to get the utmost fuel economy out of kerosene or distillate.

With either one you'll get unusually great power with light weight—and great speed. Under ordinary soil conditions, you can plow with two 14-inch bases at over 4 miles an hour! That gets the work done quicker and gives more spare time for other things.

The Row Crop "70" comes from the tractor factory of the founders of the tractor industry. You'll want to see this latest, modern tractor at once—with its complete line of mounted listing, busting, planting and cultivating equipment.

HERE'S HOLLYWOOD

By Jack Hardy

Lanky James Stewart this week coined this gem about romantic actresses. "It is when they have their arms around your neck and begin to MURMUR that the Hollywood bachelor has to watch out."

James Cagney's whole year off the screen apparently did not dim his popularity one bit. His first picture in that time, "GREAT GUY," was booked into New York's Criterion theatre for a week's run. It proved so popular that it was extended from week to week until it chalked up the unusual total of a five weeks.

Incidentally Cagney's leading lady in that picture is Mae Clarke, the girl who made screen history five years ago by letting Jimmy smack her in the face with half a grapefruit while dining. It was the first time on the screen that an actor had struck an actress and created a furore. However, the idea has been successfully repeated often since.

Arthur Treacher, that excessively tall and suave Englishman starred in "THANK YOU, JEEVES," is becoming a landmark at Hollywood parties. At one of these last week he found himself being followed by various stray ladies. They would come and stand alongside him for a time, and then disappear. A bit bewildered he asked a friend what was going on. "They're just using you for a location post," the friend said. "I heard one of them telling her boy friend: 'I'll meet you near Treacher—you can see him over everyone's head.'"

Photographing Home Made Hollywood Miniature 'Sets'

This was not photographed in the wilderness but on a table top in the home of an amateur photographer. The "lake" is a mirror.

AS ALMOST every motion picture goes for knows, the Hollywood studios are continually fooling us these days with scenes photographed in miniature, such as a village street, a castle in Spain, a rural winter snow scene, a ship at sea, an airplane wreck and what not else. So cleverly are these miniature "sets" designed and photographed that in the picture their lack of reality defies detection, and when we are let in on the secret, we do not mind at all. Indeed we admire the achievement.

Have you ever tried creating miniature scenes yourself and photographing them with your own camera? It's fun. Dependents upon your skill, artistic ability and the materials you employ, you may construct and photograph miniature sets in your own home that will rival the semblance of reality achieved in Hollywood. If, if you prefer, you may create scenes of fantasy, comedy or burlesque to compare with a "shot" in an animated cartoon.

For a "still" camera, this is really nothing else than table-top photography, such as has long been practiced by amateurs, but which now is photographically much easier for the amateur than it used to be, because of the recent introduction for home use of more powerful artificial lighting. At least for table-top photography you can very cheaply with two or three of these brighter home flood light bulbs rival the lighting equipment of Hollywood studios, and, what is more, do good work with an inexpensive fixed-focus camera, provided you use a portrait attachment to secure the necessary close-up focus.

Constructing one of these sets requires, of course, a certain amount of time and patience, with the expense depending upon the materials you put into it. Very amusing scenes may be created, however, without introducing elaborate details. Here are a few suggestions for the materials:

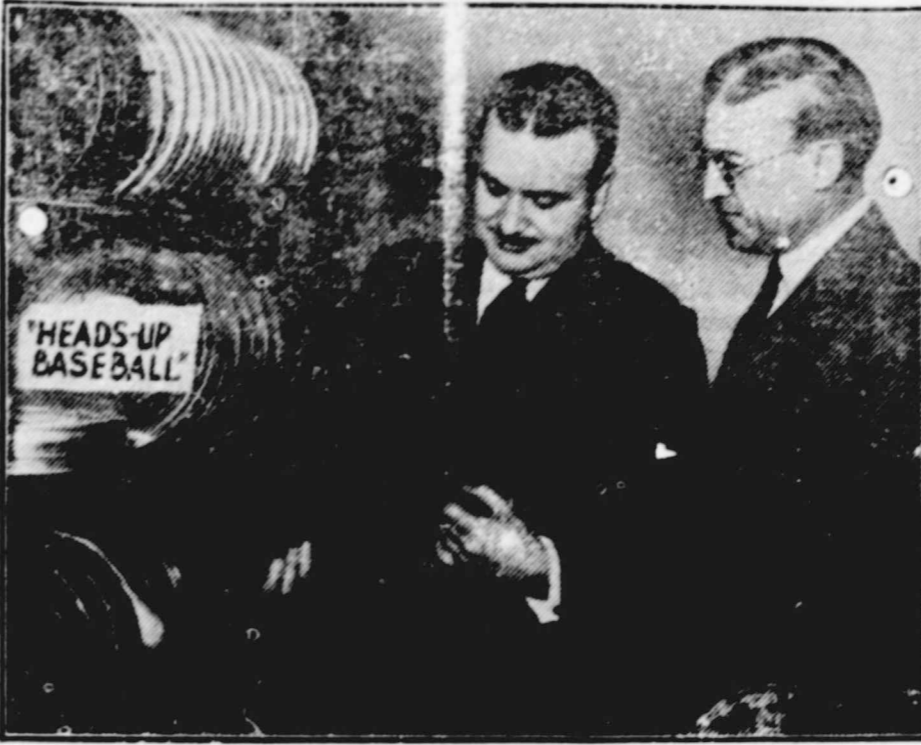

White or light gray cardboard makes "sky"; a mirror makes a lake; twigs and small plants make trees and hedges; moss serves for grass; chalk, salt or flour for snow; toy automobiles, trains, boats, airplanes, houses, human and animal figures may be obtained at the five-and-dime store. If you are handy with tools, you can fashion various "props" yourself, using soft wood, or you can use plastic modeling material.

A few points relative to the photography: Working at close range, the depth of field of the lens is not likely to be great, so, in building your set, keep the elements within as short a distance from the lens as possible. You get the best effects by using the lens at a small opening. Better make about three "shots" of a setting, varying the exposure time, to be sure of obtaining a perfect negative. Focus carefully.

You will have a lot of fun playing with the light. Sometimes a single strong flood light will give you what you want. Again, you may want one figure to stand out brilliantly with everything else subdued. For this a large piece of cardboard with a hole in it will provide a spotlight. Panchromatic film gives the best rendering.

Movies to Teach Kids Baseball

YOUNG America will learn the fine points of the national game through moving pictures this year, for the new official American League baseball film "Heads Up Baseball," is ready for distribution to schools and scout-leaders. Here William S. McLean, director of advertising for the Fisher Body division, General Motors, and William Harridge, League

president, examine the first reel. McLean's organization will distribute scores of copies of the film to schools, clubs, social and fraternal organizations for free study. MORE WORKERS, MORE PAY THAN IN 1936

AUSTIN, Tex., Feb. 21.—Approximately 1,600 Texas establishments have reported 77,000 workers employed in January, an increase of 8.8 per cent over the year before, but 3.3 per cent under the preceding month, it was stated by the University of Texas Bureau of Business Research. Aggregate weekly pay rolls of these establishments were \$1,791,682, an increase of 14.9 per cent over January last year, but 2.6 per cent below December, 1936.

Cities in which the increase in employment and pay rolls in January equaled or exceeded the average increase for the State were: Amarillo, Denison, El Paso, Houston, Laredo, San Antonio, and Sherman.

The following industries showed records superior to the State average: Building materials, clothing and textiles, food products, and furniture manufactures.

CANCER STILL DANGEROUS

AUSTIN, Tex., Feb. 21.—While the span of human life has been lengthened fifteen years during the last decade, thanks to science, the disturbing fact remains that there has been a marked rise in death from cancer during the same period, declared Dr. Geo. W. Cox, State Health Officer, and urged that the public be on the alert to detect this disease.

"Cancer is not a hopeless, incurable disease. It is not contagious or in itself hereditary. There are thousands of men and women in this country who have been successfully treated for cancer. The great hope of cancer patients lies in their having treatment during the first stages of the disease. Cancer announces itself by symptoms that are frequently painless and apparently trivial, thus giving the disease an unseemly advantage. Early diagnosis is the one powerful antagonist.

"The danger signals can be classified as follows: Any lump in the breast or other part of the body; any persistent sore, particularly on the face or mouth; any unusual discharge or bleeding from any part of the body, such as vomiting blood, passage of blood from the bowels, or unusual bleeding or any bodily passage, especially after middle-age. These symptoms may be from some other cause but should be diagnosed by a physician.

"Two main rules should be followed in cancer treatment. First, have an annual physical examination by a

FINANCE YOUR AUTOMOBILE THROUGH YOUR BANK

This bank provides a complete automobile financing service. Those who plan to buy cars, borrow on their present cars, or refinance their present notes, are invited to discuss their needs with us. The advantages we offer include the following:

1. A low rate of interest.
2. You deal with local people—people you know.
3. You pay the dealer cash for your new car and establish yourself as a cash customer.
4. You build with your own bank a bank credit and maintain a reputation for paying ability.
5. You may place your automobile insurance with your own insurance agency.
6. You may refinance your present note on a more favorable basis.

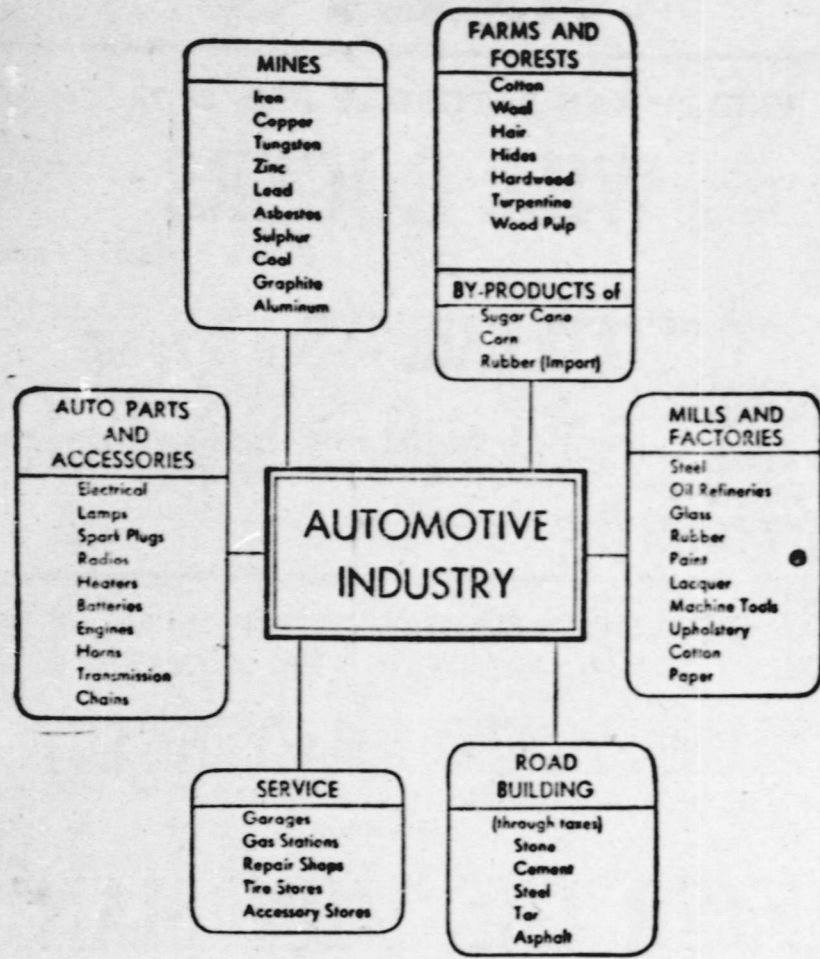

Borrowers are of course required to make the customary down payment unless an old car of sufficient value to take care of the down payment is traded in to the dealer. Loans can be repaid by convenient monthly payments for as long as twelve to eighteen months.

We cordially invite your application for an automobile loan.

TYPICAL PRODUCTS AND SERVICES AFFECTED BY AUTOMOTIVE INDUSTRY

It is estimated that 6,000,000 workers—one out of every seven employed in the United States—owes his job directly or indirectly to the automobile industry. The above chart shows the activities chiefly affected, but does not show how vital a part motor manufacture plays in many of these fields. For example, 10% of all cotton raised

in the south, 22% of all steel manufacture, 28% of nickel, 35% of lead and even 72% of all plate glass manufacture go into automobiles. Railroad carloadings total 3,500,000 in hauling raw materials, parts, etc., for automobiles, of which since 1930 more than 40% have been manufactured by General Motors. Of course railroads also haul finished cars.

The boy was questioned, and it was found that he had expected all day to see wild Indians and cowboys roaming the plains of Missouri, Kansas and Oklahoma. The mother, born in Chicago, had never been farther west, and was equally disappointed. "This is such uninteresting scenery," she sighed.

About this time the engineer pulled his whistle and the boy spotted a small hill in the distance. "The engineer is blowing to call our attention to the scenery," was his deduction.

What Exchanges Say About Supreme Court

The question is now before the people concerning the President's Judiciary proposal and after reading excerpts from our exchanges we found that the opinions of editors of this section are divided. Among the many editorial comments:

The federal judiciary needs the instilling of new blood, and the President's recommendation to put men still in their prime in high office, should be followed as soon as possible.—The Quannah Tribune Chief.

"There is no emergency that demands the establishment of a dictatorship. No doubt President Roosevelt has no such ambition in mind, but if the amendment is passed as he recommends he will equal Hitler, Stalin and Mussolini in power. In 4 years he will retire and others would inherit this dictatorship. This is what it is, call it what you may."—The Amarillo News Globe.

We wonder why some school which teaches law by correspondence don't start a course in New Deal Jurisprudence. They could confine their teachings to Rooseveltian legal theories promising their graduates federal judgeship of one sort or another, and these boys who were brought up on the Blackstone couldn't hold a light to them.—The Shamrock Texan.

President Roosevelt's virtual demand of a servile Congress that it clothe him with power to he vamp the Supreme Court is the most daring and startling proposal ever made by an American President. Roosevelt's motives are bad, but if he wins, he will have set a bad precedent. We are truly sorry that he has made this astounding proposal.—Lynn County News.

Our President is right on this question, and the people of this nation have backed him up while the Supreme Court has been wrong, and will continue wrong until younger men have been appointed—men whose SET OPINIONS do not date back a half of a century. All hail to the President; and we repeat—LET THE PEOPLE KNOW and LET THE PEOPLE RULE.—Claude News.

FASTER TRAINS BUT STILL IGNORANCE ABROAD

Dining cars are now carried on the fast trains. The traveller is amazed when the porter places the menu before him. Breakfast 25c; luncheon, 30c; dinner 35c. Most dining cars charge \$1.00 or more for most any sort of a meal. Not the Santa Fe. In the fight for business, this railroad has cut prices, improved quality, and is getting the business.

New comfortable air-conditioned chair cars have been added, with special attendants, lounging rooms; free pillows; ice water—in fact the same kind of conveniences which

were formerly allotted only to the pullmans.

All of this service is rendered with a smile. The old time grouchy railroad man has gone. The frozen expression of contempt has been replaced with a broad smile and a willingness to be of service to the traveller.

Funny stories used to be circulated about the ignorance of New Yorkers of everything west of the Hudson. Imagine sitting down in the diner with a woman travelling with her son and daughter, to hear the lad pipe out, "Look at the round up." A Oklahoma led on a small paint pony was driving four milk cows toward the barn.

BAPTIST CHURCH

Our meeting closed Sunday night with fifty additions through the two weeks. We believe it was a revival that will go on and on. Those of you who did not attend, certainly missed a blessing. We seriously doubt anyone's religion who does not care about going to the house of the Lord, if we love him we will want to go to his house, better search your heart if you had rather go other places.

Let's all work together and stand by our Pastor, if we will things will go forward in a great way.

If all our members would be honest with their Lord, and give back to Him that which is his, ten cents of every dollar, we could put up our new church building, and pay for it in a very short time. We need more room to take care of the boy's and girl's in our Sunday School, especially, we can't do our best, crowded as we are, why not do our best for our Master while we are here, life is so short, and it is He that gives us life and health and the ability to make money, be honest with Him and use it to His glory.

Remember visitors, your are always welcome at the Baptist church.

MUSIC CLUB PRESENTS PROGRAM

Mesdames M. G. Tarpley and R. T. Breedlove were hostesses to the Cent-Tex Harmony Club on Tuesday afternoon, February 23, at the home of the former. Mascagni, Moszkowski and other Polish musicians occupied the club's interest and attention. Mrs. Grady Wright, leader, presented the following:

Roll Call, Polish Composers. Synopsis of "Cavaleria Rusticana" Opera, Miss Ola Belle Brown, (read by Miss Brown in Braille.) Sketch of Polish Music Men and Women, Mrs. Wright. "A Memory" Vocal Solo, Mrs. A. L. Bruce. Life Story of Paderewski. Miss Truce Belle Barton. Polish History, Mrs. Holgate. "Serena" (Moszkowski) Mrs. Dallas.

Round table discussion of program, led by Mrs. Wingerd. The club expressed regrets of the passing of Honorary member, Mrs. Rubie D. Suddarth, 7th District President of Music Clubs.

Hostesses served a most delicious plate, that included cherry pie and the "hatchet." Present were Mesdames E. Carson, W. H. Dallas, Red-

ford Smith, D. P. Carter, Basil Webb, S. H. Holgate, Grady Wright, A. L. Bruce, Wingerd and Misses Robbie and Toy Belle Barton, Ola Belle Brown, Olga Fitzgerald, and Buggs Tarpley and hostesses.

Club hostesses for March 9th will be Mesdames Mona Telford and E. D. Jones at the home of Mrs. Jones. Mrs. Carter leading "MacDowell Program."

W. M. S.

The Lottie Moon Circle met with Mrs. L. O. Turner with six members and two visitors present. The Lockett Circle met with Mrs. D. P. Carter with nine present. The Rose Walker Circle met with Mrs. B. L. McPherson with eight members and two visitors present. The Annie Long Circle met with Mrs. Daugherty, with six ladies present. Last Monday was Industrial Day. The ladies began Annie W. Armstrong week of prayer for home mission. The ladies will meet next Monday, March 1st, at 3:00. They have programs planned for each afternoon of the week.

The Sunbeams met at the church Saturday p. m. from two till three.

The Junior G. A.'s organized Monday. Mrs. Goodrich is sponsor. Refreshments were served to eight girls. The Intermediate R. A.'s were entertained with a picnic Tuesday afternoon. Seven boys and two sponsors were present.

MRS. JONNIE BENSON HONORED WITH SHOWER

The home of Mrs. Flem McSpadden was the scene of a lovely bridal shower when Mrs. McSpadden, Mrs. Claude Hodgins, and Mrs. Herman Trigg were co-hostesses to Mrs. Jonnie Benson who before her marriage on the fourth of February, was Miss Ethelda May, daughter of Mr. and Mrs. Tom May, one of the most popular sub-debs.

Those in the receiving line were Mesdames Tom May, Jonnie Benson, Flem McSpadden and Herman Trigg. Mrs. Clarence Lewis, the bride's aunt, presided at a lovely hand painted guest register.

The serving table was lovely with a normandy lace cloth and pink candelabra. Two grandmothers, Mesdames Sawyer and Benson poured tea, assisted by Miss Lucile McSpadden and Miss Doris Lee Gore, who served dainty pink and white sandwiches and pretty pink and green decorated angle food squares. Some sixty guests called during the after-

SPECIAL EASTER PERMANENTS

Winter may still be here—but spring is not far behind and Spring is Zotos time you know. You'll want a beautiful Zotos permanent before Easter. Since Easter comes so early this year, why not get your Zotos permanent soon, before the Easter rush starts? Zotos is as gentle with your nerves as with your hair. It requires no heavy machine, no electricity, no wires.

We recommend Zotos because our patrons love its perfect ease and comfort, and because we know it gives an unrivaled wave. We have all the necessary supplies and equipment to recondition dry and injured hair.

noon and many others sent gifts. Mrs. Roy Herod furnished music throughout the afternoon.

CARD OF THANKS

To our neighbors, many friends in Seminole and Gaines County, the friends in Brownfield and to all who so kindly gave assistance and consolation in the death of our beloved son and brother we give our deepest and heartfelt thanks.

The beautiful floral offerings were a source of comfort in this, our greatest sorrow.

Mr. and Mrs. R. B. Holmes.
Mr. and Mrs. Leo Holmes.

LAF-A-LOT CLUB (Delayed)

Mrs. Thomas Cadenhead was hostess to the Laf-a-Lot Club last Thursday. She carried out the thought of George Washington's Birthday in ladies, table covers and refreshments. Each plate bore, besides delicious sandwiches, salad and coffee, a paper mache' mint cup made to represent a section of the ill-fated cherry tree still bearing the ax. High score prize which was a lamp with colonial figures on its base, went to Mrs. Howard Swan.

Those attending were, Mesdames Glenn Webber, Frank Ballard, Earl Anthony, Graham Smith, Ike Bailey, Frankie Szydloskie, Ralph Bynum, Spencer Kendrick, Vance Glover, Jennie Jennings, Howard Swan and Miss Lenore Brownfield and the hostess.

YOUNG PEOPLE OF THE DISTRICT

The Lubbock Young People's District Meeting will be held at the Methodist Church, beginning Saturday evening and continuing through Sunday, February 28. About eighty homes will be required to care for the visiting people on Saturday night. Refreshments will be served at the Methodist church Saturday evening, and lunch will be carried to the church for the noon meal Sunday. An afternoon meeting will adjourn about four o'clock. The local pastor will preach the eleven o'clock sermon. All local people are urged to attend these meetings of the Lubbock District Young People of the Methodist Churches.

THE METHODIST CHURCH

All regular services will be resumed since the closing of the meeting at the Baptist church. Sunday evening preaching services will be held, beginning promptly at seven-thirty. Young People meet at six-thirty, and the morning services will be held at the usual times.

The pastor greatly appreciates the unusual attendance at the last few Sunday morning services and hopes for a continued response on the part

of the membership and friends of the church. No man can do greater service to his community than to be a devoted Christian and regularly attend the church to which he has given his allegiance.

Visitors are particularly welcomed. At no time is any denominational program or interpretation permitted to become offensive or even tiresome to the friends who visit and worship with us. Bring your friends and feel welcome, as you are.

Mrs. Ross Hemphill and Mrs. Bertha Stahler attended a dinner at the Hotel Hilton, Wednesday, given by the Business and Professional Women's Club.

NEW NEON SIGN

Mrs. Reed Smith has had an attractive new Neon Electric sign installed at her place of business, the Snappy Lunch Cafe, this week.

Rev. R. T. Breedlove and family of Brownfield were the guests of Mr. and Mrs. S. E. Reid and other friends Sunday. Rev. Breedlove was pastor of the Methodist Church here for three or four years and he and family have many friends here who are always glad to see them. He is now pastor of the Brownfield Methodist Church. —Lynn County News.

On or about the date that Jack III, arrived in our family which made us a grandpa a card arrived from a hospital at Memphis, Tennessee, telling us that we were also great-great grand uncle.

It is reported that there are 26 co-eds read column by column each day and week, 131 daily papers, 620 weekly papers, and 20 semi-weekly papers. Mrs. Walter E. Suddarth, 47, of here Tuesday. They accompanied O'Donnell who stood high in music circles of the south Plains, passed away last Saturday. Funeral services were held at Tahoka by Rev. R. T. Breedlove of this city, and the body laid to rest in the Tahoka cemetery.

G. W. Alexander was in this week and kinder accused us of having it in for the big farmer. No, we don't have it in for anyone, big or little in any kind of business. Nor, as we explained, if we were a tractor dealer, we'd sell every one we could. And of course G. W. thinks we are wrong about the supreme court.

Mr. and Mrs. Eli Perkins and little daughter, Ocellia Jo, were visitors

here Tuesday. They accompanied Mr. and Mrs. Reece Donald, and little daughter, who were visiting Mrs. Donald's aunt, Mrs. Will Moore. Of course the two men being newspaper folks, spent most of their time hanging out around the Herald office.

Mr. and Mrs. E. G. Alexander of Plainview were down on business Tuesday. Mr. Alexander is interested in the Alexander Drug Store, here.

Lubbock police reported several car thefts over the week end.

Mrs. L. E. McClish has returned from the Lubbock Sanitarium where she spent several days after a minor operation.

Brownfield's WIDEST CHOICE IN LOW-COST CARS RIGHT AT YOUR FORD DEALER'S!

WITH the new Thrifty "60" V-8, your Ford Dealer offers the widest selection of low-cost cars in history. See him before you decide on anything. Perhaps the best buy for you is a new "85"—smart, economical, and one of the best performers on the road. Or—if economy counts most with you—a new Thrifty "60," just as big and roomy as the "85," just as easy-riding, but designed to operate for less than any Ford car ever built. If you want to spend

still less, we have R&G used cars—many makes and models including '35 and '36 V-8's—carefully renewed to specifications laid down by the Ford Motor Company and guaranteed in writing, on a money-back basis. Why settle on anything until you've seen everything at your price? Come in and see several different cars, side by side. Then put your money into the particular kind of value that will mean greatest satisfaction for the months to come.
