

# Washington Day By Day

*Terse Commentaries on People and Places . . .  
Gentle Iconoclasm with Politics Eschewed*  
BY DR. JAMES E. POPE  
Special Washington Correspondent

EDITOR'S NOTE—Dr. Pope's opinions are his own, and his articles do not necessarily always reflect the editorial policies of this paper.

### ANOTHER NUMBERS RACKET

Tragic news pours out of Europe like a string of refugees. The latest is, Hitler fires 8,000 Austrian government workers, while others are lodged in jail or resign by suicide. To swing this new Hitler purge against the patronage industry in the United States would ruin the country. There are approximately 850,000 Federal pay-rollers over here—some 113,000 in Washington alone. Indubitably, the spenders of our money and givers of our jobs are promoting another numbers racket, or they believe that the greater number of salaried workers can do the job better—or, if one man can thread a needle in ten seconds, ten men can thread the same needle in one second.

### FIRING SQUADS IN REVERSE

So much unofficial talk in Washington about a second world war, and speculative thoughts on what tomorrow holds for ruthless dictators. I heard somewhere that the chick swallows the worm, man eats the chick and, in the last roundup, worms devour the man—which reminds us that wars bring dictators, dictators make wars, and wars destroy dictators. Civilization is waiting for the chariot wheels of inevitable destiny to start making station stops on the return track—for picking up egomaniacal war-makers who perish not so much by act of God as by their own hands. Every hand that waves a swastika has at least one trigger finger, and soon or late, but implacably firing

### BALD-HEADED STATESMEN

Becoming reminiscent as I contemplate the Senate from the gallery, the scene below grotesquely takes on an illusory mirage and becomes the old fishing hole where, as a lad, I sat and—just fished. In those days my favorite equipment, in addition to a liberal supply of worms, included a round bob or float, white on top. The elder statesmen in the Senate, being bareheaded on top, always remind me of the bright round bob on my old fishing line, as it dived and wiggled over the cooling eddies where the goggle-eyed perch and catfish used to bite.

### APES AND ADULTS

In the House we are privileged to contact picayunish priority in piffles as its source of origin, to hear and see political bufoonery in full crescendo—due to the fact that congressional elections come more often. In the jittery minds of some candidates, election day is almost as ominous in portent as hangman's day. This article does not refer to any House member, specifically, nor to any specific group, but is applicable in a general way only to that lunatic fringe of demagogues of the dim past and flaming now.

If hot air was music, some of the boys on Capitol Hill would rate a brass band each. I spent yesterday afternoon in the House gallery, and this morning visited the Washington zoo. The antics and gestures of caged simians in the monkey house were so striking in realistic mimicry of yesterday's congressional show that one could almost identify some of the actors by Congressional Districts.

Moreover, there were a few familiar faces!

The Creator's most lamentable error is the law-making politician. Some of these anthropoid accidents are as compatible with economic serenity as a bushel of Bromo-Seltzer in a bath. Yet we endure them, and pay them fat salaries as law-makers, while they, in turn, pile on more taxes. Each year we let them take our skins that we may keep our bones. We already have a plethora of idiotic laws, yet the mill never stops.

We have laws for keeping harm-

less loons in jail, and writes for freeing rich crooks when jailed for the wrong offense.

### THE DEVIL LOOKED AHEAD

Paradise marched on without a murmur or a disquieting ripple until Satan became inspired with personal political aspirations, and started his publicity build-up by organizing sit-down strikes and manufacturers' associations. After being duly dropped from membership by the Unions and Businessmen's Clubs, the Devil was called up for deportation. Before being sent away as ambassador to Hades he was told that in consideration for past services one last favor of his asking would be granted.

He asked that man be allowed to make his own laws! In support of the charge Old Nick knew what he was about, we now have forty-nine mournful exhibits—Congress and forty-eight state legislatures—where programs of vital public interest go in on the hoof and come out hash!

## Freedom of Religion

NEW YORK—This chaste figure of a young girl lifting her face to the skies will be dedicated to freedom of religion in the "Four Freedom" statutory group on the Central Mall of the New York World's Fair 1939.

Twenty years ago today, Major General Leonard Wood was telling the Senate Committee on Military Affairs that America should have two million soldiers in France by the end of the year. This week Congress has been asked for a billion dollars to build an army. We believe a formidable army in America is good politics, good diplomacy, and good economics. Nobody walks up to Jack Dempsey and goes pushing him around just because he doesn't like Jack's face. And they do say Jack is a friendly kind of fellow, but we all know that he has what it takes to settle ordinary arguments. Next, there is too much land merely to produce the crops we need and there are too many workers on the farms now for all to be employed; industry has the same problem; too many people for the jobs there are. A large army would not take needed labor from industry and it does take men from the ranks of the unemployed, and it would make the whole world feel a lot safer from the threats of war if Uncle Sam had a big raft of men who knew how to cut and shoot and do the other things civilization has learned will kill men.—Ralls Banner.

Bovine: That new farm hand is terribly dumb.  
Equine: How's that?  
Bovine: He found some milk bottles in the grass and insisted he had found a cow's nest.

## Nine Million Acres in Texas Game Preserves

COLLEGE STATION—Almost nine million acres of Texas farms and ranches are included in the 262 game management demonstration preserves which have been established during 1937 in cooperation with the Extension Service of Texas A. and M. College, the annual report of R. E. Callender, game management specialist, shows.

Farmers, ranchmen, and 4-H club boys to the number of 7,324 banded together into cooperative game management associations in 54 counties. The associations run in size from two or three farms to more than fifty parcels of land. In some instances these areas involve an entire community and are composed of individual holdings ranging from 8 to 40,000 acres per owner.

Each association make its own rules, Callender said. The first step is to make an inventory of the various species of game and their abundance, and to take steps to increase the game. This is accomplished to some extent through artificial restocking, but the main improvement follows the provision of food and shelter, and protection from natural enemies, and by restricted hunting.

Game management research has established the fact that game will not increase beyond a point determined by the available amount of food, shelter, and range, and a regulated harvest is recommended when wildlife becomes abundant.

The rules of the associations usually provide that, when game is plentiful enough to permit hunting, permits or leases may be issued through the secretary of the group. Such hunting is strictly regulated.

Ever since hunting permits is divided among the members on a predetermined basis and a reserve is accumulated for the introduction of new game and for further protection measures.

In addition to the establishment of the preserve for game management demonstration purposes, 1,089 farm ponds or lakes with a total area of 5,642 acres were constructed in 1937 and stocked with more than a million fish.

Callender gave credit for much of the success of the plan in its initial year of operation to sportsmen groups and civic organizations which recognized the possibilities of the game preserve.

## New Comer Leaves in A Huff—Sorry(?)

Much has been said and a right smart has been written of late about how new comers are received in this city, some writers avering that not much ado was made over them when they arrived. But we are glad to say that most of the new comers are just like us old comers when we arrived here—did not expect a delegation to meet them with a brass band.

Perhaps some of us have not acted just as friendly toward the new-comer as we should, but some new-comers have made it hard on all new-comers, as well as the old comers, by expecting too much. When you have been here a few months and proved your worth, both the old comers as well as the new comers will accept you with open arms. After all, most of us are just old west Texans and Oklahomans, or from some of the old states, after all.

We have in mind one particular new comer that came about a month ago, and a little experience we had with him. He blew in one day and told us how he was going to wake up this old sleeping burg by opening a big paint and fender "plant." He was perfectly frank with us, and acknowledged he had rather have a nice writeup on the front page than a page ad, but failed to say whether he aimed to have any paid advertising or not. Like other humans, we just naturally "forgot" the front page free ad.

He was over after the paper came out, and acted very ugly about the matter. Next week we gave him a short story, and believe the other local paper did the same. He gave us a small ad then the following week. Investigation proved that his "plant" was not as up-to-date as that maintained by two or three local sales and service garages. He claimed to be from a big town, but facts proved that he was from a small north Texas town. The big town stuff was for effect, we suppose.

Anyway, he left last week, after failing to make a killing, and from what we gathered from his conversation with his apartment owner, he literally shook the dust of Brownfield from his feet, "and if he ever sees anyone headed this way, he will discourage their coming to the full extent of his ability."

According to this dissatisfied individual, every person living in Brownfield and surrounding territory

has their property mortgaged from two to four times. We have heard of second mortgages all our lives, but never heard of third or fourth mortgages. However, they may exist.

So, Mr. Newcomer, if you feel that you have been treated the least cool, consider that a few like the above that probably preceded you has made your row a little difficult to hoe. Just hang and rattle, as the old saying goes, and the oldsters as well as the newsters will soon discover your worth to the community, and express themselves in many ways.

## PLAINS—

Mrs. E. S. Raymond of Roswell, N. M. visited her parents Mr. and Mrs. J. H. Morris over the week end.

The Interscholastic League track meet met in the Plains school Friday. A large crowd attended.

Mr. and Mrs. C. I. Bedford is visiting relatives in Abilene.

Mrs. Joe Ellison and Mrs. J. H. Morris were Brownfield shoppers, Thursday.

Mrs. Anderson of Abilene is here staying with her daughter, Miss Ora Anderson, who is recovering from an operation.

Mrs. E. S. Raymond, Mrs. John Camp and son, Mrs. J. H. Morris and Aaron Morris were shopping in Brownfield, Saturday.

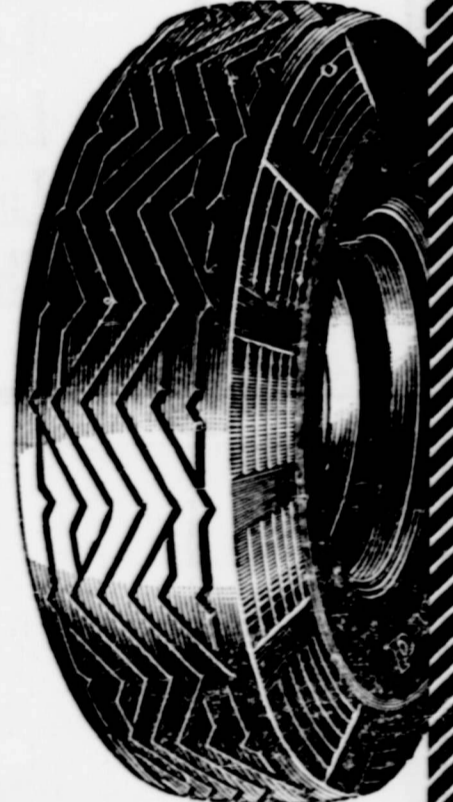

Mrs. V. L. Wheeler and children of Odessa visited her parents Mr. and Mrs. J. H. Morris over the week end.

Mesdames Ray Christopher, M. E. Brown, R. N. McLain and Garrett Daugherty were Lubbock visitors, Wednesday.

Dr. and Mrs. John Bubany of O'Donnell, were guests of Dr. and Mrs. E. C. Davis, Saturday.

# COLLINS DRY GOODS CO.

"The Friendly Store"

County Attorney Burton G. Hackney and George Henson attended the Judge and Commissioners convention in Brownwood Friday and returned via Lamesa where they attended the opening of the new Federal building.

### Community and Cooperative Service of FAS

The F. S. A. now has available funds for cooperative loans. This type of loan offers the same service to the small income farmer as the larger farmer. It is intended to help groups of small farmers finance the purchase of machinery, livestock and equipment which none of them could afford alone.

Some such service for which loans may be made are: Ensilage cutters, silo filling devices, dusting and spraying rigs, community canning service, pure-bred breeding stock, and veterinary services.

The loan is made to an individual who will own and operate the service for the benefit of the group, or it may be made jointly by two or more members, or the group as a whole (unincorporated association) may participate in the loan. Loans of this type are made only to rural rehabili-

tation clients and other low-income farmers.

Loans for these services are repaid within a period ranging from one to five years, depending on the amount, the type, and the life of the service.

Mr. Dennis Q. Lilly, County RR Supervisor of the F. S. A. will be glad to discuss this type of loan with individuals or groups of farmers interested in having some community service plan worked out in any part of Terry or Yoakum counties.

The Junior Class is putting on a popular play, entitled "Bashful Bobby" at the high school auditorium, April 1, which is today. This is a comedy in three acts, and promises to be somewhat worth going to see.

Mrs. Tillman Stitt and little Elizabeth, of Brownsville, Texas, are spending this week with her parents, Mr. and Mrs. M. B. Sawyer.

### Terry Dining Room Had Auspicious Opening

Literally hundreds of people called last Saturday afternoon or sent flowers to Mr. and Mrs. Terry at the formal opening of their splendid dining room, which formerly opened in the new Downing building next to the Rialto Theatre.

They not only have one of the largest dining rooms we have ever seen in a city the size of Brownfield, but one of the best furnished as well. Some 80 people can be accommodated in the balcony alone.

Mr. Terry informed the writer that as soon as he could get to the matter, a platform would be built over the cook and wash rooms to accommodate a fair sized band or orchestra, should any club or society desire such music.

Back of the cook room, will be found the rest room for ladies as well as gents, the former having a full sized bath tub, as well as other accessories found in the most modern rest rooms.

The whole region hereabouts are proud that Brownfield possesses such a place as the Terry Dining Room.

### PUBLISHER BUYS TEXAS TECH BARROW

LUBBOCK, Texas, March 28.—Ninety cents per pound, highest price of 42 annual stock shows was paid for the Grand Champion Hampshire barrow exhibited by Texas Technological College at the Fort Worth Fat Stock show last week. Sold to Amon G. Carter, editor-publisher of the Fort Worth Star-Telegram, the animal brought \$301.13.

This is the second grand champion Tech has produced in eleven years competition, the other being a Duroc barrow in 1935.

The Townsend plan people are to meet next Wednesday and Thursday at the courthouse, at which time they promise to have some able speakers on hand to explain the merits of the plan. Each and everyone are cordially invited to attend these meetings.

Brownfield people attending the concert given by Douglas Beattie Basso, graduate of University of California, at the Methodist church in Lubbock, March 29th were Mesdames W. B. Toone, W. H. Dallas, M. G.

Tarpley, M. J. Akers, Eleanor Gillham, Gertrude Rasco, Mary Jean Lees, Twilla Graham and Von Dee Lewis.

The Dawson County Courier and Lamesa Reporter got out interesting editions last week on the opening of their new \$85,000 Federal building. They contained pictures of early day as well as later day postmasters.

Mrs. Beebe, wife of Rev. David Beebe, pastor of the First Christian church, has returned after quite a visit with her mother at McCreagor, Texas. Mrs. Beebe reports that section flooded recently during heavy rains, but says the whole countryside is aglow with bluebonnets.

Jess Ross and wife of the Wellman community were pleasant callers at the Herald office this week. He made known to us that he was the son of Mr. and Mrs. N. N. Ross, who lived here in the early days, he being a child at that time. His father and family now reside at Muleshoe, Tex.

A farm committeeman down at Hashknife when he discovered that Hastoon Yazzie's cow had had two calves, when he was allowed only one under the new farm set-up, wired Washington: "If a cow brings twin calves when we are allowed only one, should we shoot the extra calf, the cow, the farmer or the bull?" The reply came back: "Shoot your congressman!"—Clarendon Leader.

Easter without Flowers would be like Christmas without gifts.

We have a choice collection.

### Junk: A Thriving Industry

The mighty Leviathan, once queen of the seas, is now being dismantled in an English shipyard, its iron and steel destined to work not for peace, but for war. Attention is again focused on the trade in old iron, a booming industry since Europe and Asia contracted war fever. The Leviathan, which covered itself with glory as a troop transport during the World war, brought \$900,000 as scrap, and will play an important part in Britain's rearmament program. But bullets and bombs just as deadly are being fashioned from pieces of old stoves, kitchen utensils and old automobiles. Pulleys, auto wheels, gears and gear housings form the conglomeration above awaiting shipment on New York's waterfront.

Junk dealers do not lead healthy lives. Day after day they handle weather-beaten, rusted pieces of scrap iron, heavy and cumbersome material that is often jagged or sharp. Torn gloves and torn hands are commonplace, often followed by infection.

My name is \_\_\_\_\_ Address \_\_\_\_\_  
Town \_\_\_\_\_ State \_\_\_\_\_

Above: From small beginnings to big money. Kids who yesterday sold magazines and newspapers to earn spending money, have found there's more to be made by collecting scrap iron. Youngsters now comb dumps for scrap which they will sell to a junk dealer, who in turn will sell it to an exporter, who will sell it to an importer abroad, who finally disposes of it to munition factories. All profit except to the ultimate recipient, who receives it in the form of a bullet or bayonet through his vitals.

Right: Car track rails that have carried thousands, millions, to work, home, pleasure, are being cut up for shipment abroad. They may yet serve to carry many to the hereafter as they are transformed into instruments of murder in the hands of Mars.

In England and other European countries (as in America) it has been a popular custom to mount decrepit cannon in parks and civic centers, there to stand as testimonials against war. Today the war-makers are tearing down these memorials and turning them into modern cannon.

# NOBODY'S BUSINESS

By Julian Capers, Jr.

AUSTIN—Serious dispute of the State's highway building program is threatened by the growing "license plate racket" which is being practiced in several small counties, according to Highway Commission Chairman R. L. Bobbitt, and the legislature is expected to be asked to take steps to correct the situation which makes the "racket" possible.

The background for the "racket" is the law which permits counties to keep all of the first \$50,000 of license fees they collect, half of all collected between \$50,000 and \$175,000, and remit to the State all above \$175,000. Some of the smaller counties issue script in payment for various supplies, and this script sells at a discount. Then, when license time approaches, racketeers buy up the script at a discount, and swap it to the small counties issuing it for full value in return for license plates, and sell the license plates to

persons living in other counties at less than listed price. The discount to the owner of a large fleet of trucks, for instance, represents a substantial saving to the car owner, as well as a large profit to the racketeer. The practice of licensing cars or trucks in a county in which the owner is not an actual resident is a criminal offense, but the Highway Department apparently has had little success in obtaining prosecution of the violators, since county officials are usually party to the scheme. The practice, Bobbitt has estimated, cost the Highway Department \$700,000 last year, and the loss this year may exceed \$1,000,000. He declared the State cannot go through with its planned highway maintenance and improvement programs unless it obtains the full sums to which it is legally entitled, and upon which its budget is made, from the license source. Officials of San Jacinto county recently went so far as to obtain in their local courts, a temporary injunction against the Highway Commission, forbidding them to interfere with the license racket there. The Department retaliated by refusing to ship any more license plates into that county.

### Governor's Race

Developments in the Governor's race were few this week, as Bill McCraw and Ernest Thompson reported they were drafting their platforms and three possible second string candidates—Harry Hines, highway commissioner; James E. Ferguson, mouthpiece for "Ma" and Karl Crowley, the Washington prospect—indicated they will decide soon whether to get in or out. Hines, appointee of Gov. Allred, is said by his close friends as pretty sure to enter. Ferguson has said his wife is not yet to be counted out, but his carefully

guarded statements leave most observers here with the impression she will not run. Crowley, after a visit to Austin where he conferred with Allred and then with Ferguson, and is reported to have received only polite advice that the postmaster vote doesn't amount to much in Texas, went into seclusion again to try to make up his mind about his candidacy. He has made three spectacular trips to Texas by plane from his official desk as solicitor of the Post-office Department in Washington, within recent months, each time with the announced intention of making up his mind whether to run.

### May Affect Runoff

Chief effect of the entrance of one or more of this group of candidates probably will be upon the possibility of a runoff between McCraw and Thompson. If none of the trio enters, many doubt whether the present field of second string candidates, including Clarence Farmer of Fort Worth, the pensions-for-everybody candidate, can muster sufficient votes to block a majority for McCraw or Thompson in the first primary. The statisticians believe there will be in excess of 850,000 votes cast for Governor, and they estimate Farmer's maximum vote at 70,000 to 100,000. Thus, if no further candidates with substantial followings are entered, it is quite possible McCraw or Thompson could win without a runoff—which would be a distinct novelty in Texas for a Governor running for a first term.

### Notes

Walter Woodul, lieutenant governor, made formal announcement for Attorney General this week, and continued the vigorous campaign he has been making for many weeks. . . . Bob Calvert, speaker of the House, and opponent of Woodul, visited West Texas counties and was cordially received. . . . Judge C. V. Terrell, Railroad Commission chairman opened a North Texas headquarters in Dallas, from whence Marion S. Church, Dallas attorney will direct Terrell's campaign against seven opponents, mostly from North and East Texas. . . . Judge E. M. Grimes of Taylor was named organization Chairman for the campaign of W. E. James, former assistant superintendent, who seeks to unhorse State Superintendent of Education Woods, who "fired" James and is asking voters for a fourth term. . . . Secretary of State Clark garnered many nice press clippings with a flying trip to Washington to tell the Senate Judiciary sub-committee Texans oppose the O'Mahoney bill to require a Federal license of corporations doing interstate business. . . . Announcement of Senator Morris Sheppard, of Texas, in Washington, that he will seek re-election in 1942, sets some kind of a record for early tossing of the hat into the ring. . . . Politicians here interpreted it as an answer to some of the rumors that have been going around that the group of younger statesmen, including Allred, McCraw, Thompson and others, might have a try at the seats of Sheppard and Tom Connally later on. . . . Another term in the Senate would give Sheppard an all-time record of 46 years continuous service in Congress.

### NOW RECRUITING MARINES AT DALLAS OFFICE

Examinations for entrance in the United States Marine Corps are now being held at 822 Allen Building, Dallas, Texas, it was announced here by the Officer in Charge.

Young men between the ages of 18 and 25, white, un-married and without dependants, of good moral character, not less than 64 inches nor more than 74 inches tall and with a fair education are eligible to take the examinations. Those under 21 years of age must have written consent of parents or guardian, sworn to before a Notary Public, or your local Postmaster.

On completion of the initial recruit training at San Diego, California many men are selected for technical schooling in aviation, radio, motor mechanics, etc. All men in the Corps have an opportunity to enroll in the Marine Corps Institute where they may learn free of charge some trade, art, or science. Those seeking travel and adventure may request duty on board ship or in some foreign land where Marines are stationed, it was stated.

Further information about the U. S. Marines will be furnished on request by your local Postmaster or by applying direct to the U. S. Marine Corps Recruiting Office, Dallas, Texas.

### TAX FIGURES

Sixteen Texas counties have a rate of over \$1.50, the others running down the scale to \$0.25, which is the rate in Roberts and Ector counties. Dallas county has the highest assessed tax valuation in the state, \$273,742,923, being followed by Harris, Bexar, Tarrant, Jefferson and Gregg counties, all above the hundred million mark.

M. B. Sawyer is having his yard leveled and resodded.

Mr. and Mrs. Clyde Washington and Mrs. Clyde McFarland and son of Idalou were Brownfield visitors Sunday.

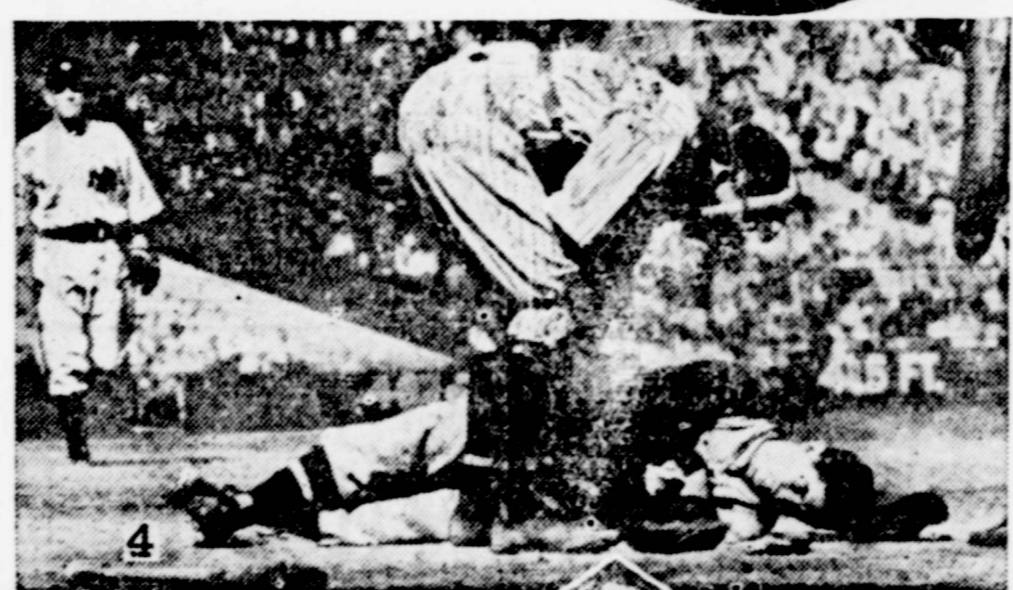

## Conquering "Hazard Zones"

Picture Parade

On a hundred battlefronts, scientists seek ways of combating hidden dangers that menace health and happiness—the unconquered "hazard zones" of everyday life. Prof. John M. Lessells of Massachusetts Institute of Technology (left) and Dr. Miller McClintock of Harvard university's traffic research bureau, declare rainy, slippery pavements are the "hazard zone of motoring." Professor Lessells, authority on friction, believes he can eliminate this evil by—in effect—placing a battery of windshield wipers under the car!

Above photo illustrates the "hazard zone of motoring." But every other phase of everyday life has its "hazard zones," a few of which are illustrated below. How many can you identify? Answers given by number below.

"Hazard zones" explained: (1) the "hazard zone" affecting millions of children improperly reared in metropolitan slum districts; (2) the "hazard zone" of floods, still unconquered despite great engineering progress; (3) the "hazard zone" of medicine, the common cold from which no one is yet immune; (4) baseball's "hazard zone," the pitch that sometimes hits a batter, like it hit Mickey Cochrane last year; and (5) the "hazard zone" of fire fighting, rural areas out of the fire apparatus' range.

Another "hazard zone," undeclared war. Example: "Panay" sinking.

### COUNTY GETS BILL FROM EXECUTIONER

When finis was written to the earthly existence of Leroy Kelly, colored, who was convicted of the slaying of former Sheriff F. A. Loyd and who was electrocuted by Court verdict on March 15th, there remained but one more chapter to be written in the case.

That chapter is the payment of the fee of \$25 to the electrocutioner

at the penitentiary, and the filing on the records of the Court at Olton, the certification of his electrocution. At the next meeting of the Commissioners Court a warrant-check will probably be ordered written, and payment in full made in the specified amount to the executioner. And in the opinion of most of us, he is welcome to the fee, and the job.—Littlefield News.

### CARNEGIE COLLECTION SENT TO TEXAS

DENTON, March 28.—Recognition to the culture of the South was made recently when the Carnegie Corporation of New York allocated a \$5,000 College Art Set to Texas State College for Women.

Consisting of valuable museum materials such as books, photographs and color reproductions of famous works of art, the collection will add greatly to the art treasures of the state. It will be shipped to the college the last of May.

Other institutions who have received this honor are Yale, Washington and Lee, Syracuse and Maine Universities.

The improvement in putting down new side walks, as well as remodeling some of the area around the church of Christ, has added 100 per cent to the looks of their premises.

On account of his duties demanding so much of his time, Crawford Bur-

rus has resigned as superintendent of the Christian church Sunday school, and W. B. Stinson elected in his stead.

It is reported that the T. & P. No. 6 in the Bennett pool in Yoakum county, made 1500 barrels of oil on a 24 hour test.

We buy for cash and sell on Credit, used typewriters, adding machines, and office furniture. We sell Remington Portable Typewriters FOR ONLY 10c A DAY. THE BAKER CO. Printing and Office Equipment, 1009, 13th Street, Lubbock, Texas.

### That 2c Cotton Payment Question is Up Again

There is nothing, not anything, in fact, that has as much trouble trying to satisfy his customers as a poor old country newspaper editor. No matter what you print, or how you comment, you are taken to task by one side or the other. We have been several years trying to settle the tractor and anti-tractor argument. The big farmer and the little farmer argument.

We have gotten nowhere with it. So we've decided to let each and everyone farm as he pleases without our guidance or hindrance. But we never have gotten that question of whether or not the government is going to pay 2c per pound on last year's cotton settled to the satisfaction of all our customers. "Jawn" Price of the County-Wide News over at Littlefield seems to be having. Commenting on a recent article in the Herald, he says:

"And the above is exactly the same

thing that happened right here in Littlefield. The editor of the County Wide News got a few cussings for publishing this same story, but we believed and still believe that it was in the best interest of our farmers that it should be published. Farmers have a right to expect their newspapers to give them the facts—newspapers, knowing the good offices and functions of the County Agent's office have every reason to refer our farmers to him—and after that the course of the farmer is entirely up to him. And a lot of Lamb county farmers have profited from our publication of the story above, unless we are mistaken—and we're not."

Yet, another man called our attention to an article in the Star-Telegram last week that seemed to absolutely refute the idea that the farmer was to get 2c a pound on his 1937 crop of cotton. And, as stated by another farmer, the idea was to stop farmers from selling their parity in government loan cotton for 50c and \$1.00 per bale, and he went on to say it had the desired effect.

### The Tahoka Schools Honor Crash Victims

TAHOKA, March 28. — Tahoka schools remained closed today, because of the worst traffic accident in the history of Lynn county, which yesterday cost the lives of four Tahoka High School students.

Six other persons were injured two seriously, in a collision on Highway 9, six miles south of here.

The dead were Dalma Carver, 14; J. F. Reed Jr., 17; Ethelda Schaeffer, 14; and Johnny Lane, 17, all residents in or near Tahoka.

Dorothy Holland, 18, received a crushed right leg and body bruises; Norman Carver, 21, brother of Dalma, suffered a crushed chest and head injuries; Clarence Overman, 18, received a broken left leg, bruises and head injuries; Randall Fuels, 18, and Turner Rogers, 16, had minor bruises. Mrs. L. J. Barrett, 30 of O'Donnell suffered a crushed chest and head injuries.

With the exception of Mrs. Barrett, who was alone in one machine, the injured were residents of the Tahoka section.

State highway patrolmen and Sheriff B. L. Parker said they were told by witnesses the machines struck headon. Mrs. Barrett and Norman Carter were believed the most seriously hurt.

## Closing Notice

The undersigned five Brownfield Helpy-Selfy Laundries agree to close at noon each Saturday, beginning April 9th, thus allowing the owners and employees to clean up their places, and get Sunday off. We thank you for your cooperation.

### Meadow Girls Basketball Team Went to Town

Two weeks ago, the Herald received a writeup of the Meadow girls' basketball team winning the district championship and were preparing then to go to Greenville, Texas, for the state meet. The article came in too late for that paper, and was overlooked last week. However for the benefit of readers who may not have learned otherwise, will state that Meadow stood fourth at the state meet, and Miss Jamie Ruth Deckard was pronounced the outstanding basketball girl. Misses Holland, Bell and Garner also received favorable mention.

As a consequence of their fine playing and sportsmanship, they were selected as one of the teams from the southwest to represent that section at Wichita, Kansas.
