## PIG IRON AND WATCH SPRINGS

By T. C. Richardson, Secretary Feeders-Breeders Ass'n

There is a classic illustration of the value of skill which tells us that a ton of watch springs is worth several thousand times the value of the pig iron or steel from which they are made. The same kind of a transformation though not in such spectacular proportions, occurs every day on the farm. A ton of hay is a truck load, worth a few dollars, and if it travels far the ride will cost more than the hay. Feed the hay to a cow, the butterfat it produces is worth several times as much as the ton of hay and will go to town in a can.

A dollar a bushel would be a high price for barley, but Greer Creager of Wilbarger county sold 100 bushels of barley for \$300. It wasn't a rare and valuable variety for seed—just ordinary barley, worth on the grain market at that time some where around 60 to 75 cents. It is no mystery and no fable. Mr. Creager had some pigs which had grown up on sudan grass pasture and skim milk. He ground the barley and fed it to the pigs; it sold for \$300 in the form of pork. Just another case of the bar steel and the watch springs.

Ten acres of "carless" weeds in Willacy county, Texas, sold for about \$300 cash in 1919. A bunch of cows grazed it for three months, produced brought the owner of the cows \$100 a month, better than \$3 a day. The transformation did the trick. That weed-grown ten acres of oil field paid the owner more than any ten acres he had in cotton, and cotton was worth 35 cents a pound that year. If he had not had the cows if the cows had not that miraculously alchemy, the ten acres would not have paid no rent, he would have been short \$300 for three months milking chores, and the whole community would have been \$300 less off at the end of the year.

These are extreme cases, but facts nevertheless. Why sell pig iron when you can make watch springs of it? Eggs and milk, meat and wool, are but refined forms of grain and forage. Several acres of crops can be wrapped in a steer's hide; a good cow well fed will produce butter or milk or butterfat equal to her own value every year, and raise a calf besides; a ewe will raise a lamb besides worth as much on the market as his dam in a half year, and pay for the privilege with the wool.

Feed crops, whether grain or roughage, are worth no more for productive purposes after a long ride by truck or train than they are on the farm where they grew. Clearly the farmer who turns them into finished products right on the grounds has a distinct advantage in the economy of production; and economy of production is the first step toward profitable sale.

It is never true economy to stint the feed of growing animals and fowls which are to be sold. Rather the farmer, thinking in the terms of selling his feed to the best advantage tries to get as much out of it as possible into meat or milk or eggs. It is also sometimes good economy to buy whatever necessary to build up a good balanced ration if the farm does not supply it. In other words, corn alone will fatten hogs, but with a protein supplement it will go farther and fatten better.

Young fowls and animals make most rapid gains in weight, and weight is most primarily what we sell, but the young need more highly concentrated feeds than the old. It is not true economy to try to make baby beef with hay or fit turkeys for market without grain. Both, weight and quality decide the price and both must be kept in mind, especially in the latter part of the finishing period. The rule among successful feeders is to "keep 'em growing fast when young and crowd 'em with everything they need and will take before you go to town with 'em."

## Highway Development In Terry County

With the letting of a contract this week to pave 12 miles west from Brownfield on our state highway No. 84. We will have a little more than 60 miles of paved highways in Terry County. This has been accomplished in the past three years for it was some time in June 1935 our first contract was let to pave a road in this country, while of course the actual construction of road bed and drainage structures were completed before that date; on highway No. 51.

It is very gratifying to me to know that we have had such a fine group of highway officials, in the personnel of G. M. Garrett, Division Engineer who has planned so well our highway system along with his engineers and our three highway commissioners the Honorable John Wood, Harry Hines and R. L. Bobbett. These three for the paving of our highways in Terry County, \$227,782.82.

I am sure with the splendid cooperation we have had with the State Highway Department and the nice friendly spirit prevailing we can look forward and expect a continuation of our highway program.

## Candidate For Lieu't Gov. Visits B'field

Hon. Coke Stevenson, candidate for Lieutenant Governor of Texas, was in our city an hour or two last Friday, and paid the Herald a short call. Mr. Stevenson was accompanied by Mitchell McLendon, editor and publisher of the Junction, Texas Eagle. Stevenson stated he was still just shaking hands and talking personally, mostly, that he believed he could meet more people than to try to speak to a handfull of busy people.

Mr. Stevenson is one of the about three or four state candidates who have not depended on press agents. Said his home editor had advised against it, saying that it usually rubbed the fur the wrong way on newspaper men. Briefly, we'll state:

He served his county (Kimble) six years as county judge, ten years in the legislature, and was elected speaker of the house twice which is a Texas record. He states that during his two terms as speaker, the cost of government was cut 25 per cent, saving the people \$26,000,000 in four years. He is against abolishing the two house legislature.

## Sims Brings in Giant And Midget Eggs

J. L. Sims, the one-eyed farmer of the Loop section, was up the week with the big and the little of the egg family. J. L. will not swear that both eggs are from the same hen, but the color is similar, and a hen that did the big egg, surely ought to have been let off with a small one the second time at the bat. Anyway, the large one was 6 3/4 inches around the middle, and 8 1/2 inches the long way. The small egg measured 3 inches around the middle and 3 3/4 inches the long way. In other words, was about the size of a quail egg. He was asked if he was going to begin raising ostriches.

## Box 2 Changed From Courthouse to City Hall

J. L. Millsap, of Meadow, precinct chairman of No. 2, was in last week and informed us that voting box No. 2, which has in former years been located in the Tax-Collector, Assessor's office in the northeast corner of the courthouse, has been moved to the city hall.

This was done for lack of room to hold the election in that department of the courthouse, whereas, there is oodles of room in the rear of the city hall. As we understand it, the other boxes in that precinct will remain as is.

The Milburn Drilling crew has been transferred to Levelland and Whiteface.

## West Texas Gas Co. Cooking School Pleased

The cooking school, sponsored by the West Texas Gas Co., featuring the Magic Chef gas range and Electrolux, on last Friday was ably put over by Miss Mary Alice Crosson, home service demonstrator for the company. These schools are put on that you may learn how to get the most out of your gas range and Electrolux.

Oven menu prepared by Miss Crosson and cooked one hour was: meat loaf, steamed carrots, mashed potatoes and peach polly; also she broiled a large steak, and cooked peas and corn in the broiler at the same heat and time.

In her lecture, Miss Crosson said at our high altitude we have to use less sugar, shortening and baking powder and more liquid. She has worked out numbers of recipes for this altitude and these are yours for the asking at the West Texas Gas Co. office and there will be four new recipes each month, nicely printed on cards just to fit your filing cabinet. They also have home service bulletins that have much helpful information about controlled cooking for speedier, tastier dishes with on hundred and one recipes and speed menus.

Cards were passed out and at the conclusion of the school names were drawn for the prepared foods. The capitol prize, a Cary Coffee Maker, went to Mrs. W. B. Downing. Mrs. L. Nicholson, broiler meal; Mrs. C. J. Smith, oven meal; Mrs. A. J. Stricklin, ice cream; Mrs. Dell Smith gold cake; Mrs. Arch Fowler polly peaches.

Mr. Heath is to be congratulated on this school and with his permission we will give some of the recipes:

### Birthday Cake

3 c Cake Flour, 1/2 t salt, Baking Powder, 3 t Tartarate or Phosphate, 2 t Double action 1 1/2 c Sugar, 3/4 c Butter, 6 Egg Whites, 1 c Milk, 1 t Vanilla.

Sift flour, once, measure, add baking powder, and sift together three times. Cream butter thoroughly; add sugar gradually. Cream together until light and fluffy. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla, or it may be added with the milk. Fold in egg whites, which have been stiffly beaten, but not dry.

Preheat oven to 375 degrees F. Bake 25 or 30 minutes in two greased 9-inch layer pans.—Complimentary West Texas Gas Co.

## Much Cotton to Be Bought By WPA

WASHINGTON, June 21.—WPA officials said today they expected the government to distribute a "large" quantity of cotton to the needy soon in the form of mattresses and other bedding.

The purpose is two-fold: to afford relief and to bolster the price of cotton.

### Buy \$4,000,000 Worth

Representative Johnson (D-Tex.), who has been urging government agencies to take such a step, said the department of agriculture had promised to advise the Federal Surplus Commodities corporation to buy up approximately \$4,000,000 worth of cotton.

The FSCC set up to take surpluses off the markets, would purchase the cotton from the Commodity Credit corporation, which holds it as security for loans made to farmers. WPA workshops would make it into bedding.

Johnson also said he had received word that \$1,500,000 worth of cotton ticking would be bought.

## Pen and Pencil Sets Are Going Fast—Get Yours

Not only are the local people paying up for the Herald and receiving pen and pencil sets free, but they are now coming in fast from our readers in other counties and states. One day this week we received four renewals, one in a neighboring county, one each from Long Beach, Calif.; Longdale, Okla.; and Farmdale, Ohio.

Mr. Dennis Lilly was in this week and reported his set obtained last fall was still doing good service, but he wanted a new set before they were all gone. Of the more than 500 sets we put out last fall, we had less than a half dozen complaints, all of which were promptly adjusted.

So far as we know right now, these sets will not be given away after next Tuesday, which is Tradesday. So better use the time allotted to renew, or if you do not get the Herald, come in as a new subscriber—it's all the same to us.

It has now rained, and we are going forward toward another crop, not a bumper perhaps so far as cotton is concerned, but we could make a bumper corn and feed crop. So far lower if you owe us. We need it for bacon and biscuits.

## Ohio People Appreciate Herald's Weekly Visits

The Terry County Herald, Brownfield, Texas.

Dear Mr. Stricklin:

Find enclosed our check for renewal to the Herald. We always look forth for the paper just as one looks for a letter from home. We are so glad to see the town growing and the great progress you are making. We feel we are a part of Terry county.

Wheat is being cut here, and a very good crop. While it has been quite dry we were given a good shower yesterday, followed by real cool weather, down to 60. Yet we are not fearing frost.

Mr. Gaymon and I are expecting to visit Terry county this fall again. Election is beginning to show its effect as politicians are beginning to visit our office. We are not expecting a change this fall as we think Ohio will remain a Democrat state. With best wishes to you and Mrs. Stricklin.

Sincerely,

Mr. and Mrs. Gaymon June 25, 1938.

## Hunter Endorsed By Texas Pension Bloc

AUSTIN, Texas, June 28.—The Texas Pension association has endorsed Tom F. Hunter for governor of Texas.

The association, in session at Austin Sunday afternoon, formally took this action. President Ayers K. Ross wired Tom Hunter at the latter's home in Wichita Falls Sunday night that the group has endorsed the Wichita to carry their banner.

In his platform Hunter says, "Old age assistance is a constitutional mandate and must be paid. Many should be added to the rolls and many on the rolls should have their payments increased. This should be done as a duty to the pioneers of the state. I would liberalize the administration of our law for payments within the requirements of federal law. The federal appropriation must be pretion we can never approach GKHServed. Without the federal appropriation we can never approach the \$30 per month."

Frank Kemp visited his parents at McCamey last week.

## They Did Not Bing Home the Bacon, But Fish

The above represents part of the results of the fishing trip to old Mexico made by some of our piscatorial artists earlier in the spring. The men in the picture are Sheriff Ches

Gore, Frank Ballard, Frank Wier and Pete Tiernan. Lee O. Allen took the picture. They brought back some 800 pounds and distributed them to their friends in and around Brownfield.

## Popular Candidate For Atty. Gen. Here Wed.

Gerald C. Mann, candidate for Attorney General of Texas, accompanied by Gordon Pulliam, one of his workers, were here Wednesday afternoon. Mr. Mann made no speech, but spent

the time here visiting the business houses and getting acquainted. There was to be a big rally for Mr. Mann Wednesday night at Lubbock.

Briefly, he was born in Sulphur Springs, Texas, making his first money on his grandfather's farm. Got a great kick out of attending old time political rallies. Starred as SMU quarterback, and was on Grantland Rice's All-American team of 1927. Worked in factory to support wife and attend law school at Harvard. Opened law office with a brother in Dallas.

Appointed Secretary of State during Alfred's first term, and was author of the Securities Act that drove investment racketeers from the state. Secured millions in Washington representing the Texas planning board. His motto: "Mann is the man for attorney general."

## Florence to Speak Here Saturday Afternoon

W. P. FLORENCE of Slaton, Candidate for Representative of this 119th District, wishes to talk to the people of Terry county on the court house lawn, Saturday 4:00 p. m.

There may be some "Sacred Harp" singing for entertainment.

Mr. Florence was Terry's first school teacher.

## Harp Singers Coming To Brownfield Sunday

C. Sears was in this week and informed us that the old Sacred Harp singers are expected here Saturday and Sunday, from all over west Texas and possibly some from central and east Texas.

The Methodist church has been secured for Saturday and Sunday night. An effort is being made to get the Gym here for the Sunday session. It is proposed to seat it, and make it comfortable for the visitors, many of whom will be past 70 or 80 years of age.

Terry county people are of course invited, but be very sure you carry sufficient lunch for yourself and family, and plenty to help provide for the visitors.

W. T. Ince (Baby Face) employee of Piggly Wiggly, left Saturday for Mineral Wells, Texas where he will visit relatives, and perhaps drink some mineral water during his vacation.

## Places Drawn For the County-Precinct Ballot

In conversation this week with County Chairman, R. M. Kendrick of the County Democratic Executive Committee, he informed us that the state ticket had just been certified to him, and he had not received the District Ticket, therefore they had drawn places for only the county and precinct ticket of Terry county. Below we give you the lineup of how they placed only where there is an opponent in the race:

County Judge: R. A. Simms, P. R. Cates and E. H. Jones, same as they appear in our announcement column.

For County Clerk: Ed Evans, H. M. Pyeatt, W. H. Dallas.

For County Superintendent: Lee Fulton, Mrs. Ruth Moore, and W. B. Toone.

For Commissioner Pre. No. 1: R. E. McNeil, T. D. Warren, G. W. Luiker, Ed Stevens, W. P. Montgomery.

For Com. Pre. No. 2: Geo W. Henson, Jay Barret, Hershell Timmons, J. L. Porter, C. P. Hamilton.

For Com. Pre. No. 4: J. L. Lyon, W. B. Martin.

For J. P. Pre. No. 1: G. C. Aschenbeck, J. W. Oliver, F. M. Burnett.

For Constable Pre. No. 1: Luther Jones, J. D. Stafford.

The following is the assessment made against each candidate to care for expenses of the two primaries: County officers, \$25.00; County Commissioners, \$12.50; Justice of Peace, \$10.00; Constable, \$5.00.

## Gray Veterans Depart Today For Reunion

Half a dozen Confederate veterans entertained from Lubbock this afternoon from the Santa Fe station for Gettysburg, Penn., where they will help observe the 75th anniversary of the Battle of Gettysburg, June 29 to July 6.

The men, all of whom have passed their 90th birthdays, are to be guests of the United States government and a Pennsylvania commission for observance of the battle anniversary. Each man was accompanied by an attendant.—From Monday's Lubbock Evening Journal.

Only one ex-soldier of the Civil War from Brownfield attended, being A. L. Turner. He was attended by Hugh Franklin. Mr. Turner is 88 years of age, and enlisted toward the close of the conflict in the Confederate cause.

Mr. Turner had an infection in one leg a few years ago, and had to have it removed, and while he has to have an attendant at all times, to help him dress and get about, he is in good health otherwise.

## Grasshoppers Making Appearance in Terry

Up to the present, perhaps on account of dry weather, there had been very little emergence of grasshoppers, but some of the farmers are reporting their appearance in threatening numbers. Terry county was not given on the map from the agricultural department early in the spring as a heavily infested section.

However, Jess Smith as well as R. N. McClain, County Agent, are our authorities for the statement that they are congregating on the Smith farm in sufficient numbers to cause alarm, and put poison bran in demand.

Mr. McClain stated Monday that there would be some poison here Tuesday of this week, and wherever hoppers become thick enough to become alarming, he would recommend prompt poisoning.

## Cochran County Voted In Liquor and Beer.

The voters of Cochran county apparently voted for everything from beer to hard liquor in an election held Tuesday in that county. Morton threw up a huge wet majority; Lehman showed a 9 to 8 wet vote, while Whiteface was dry 45 to 48. Total vote was wet, 220; dry, 113.

There are two other small voting boxes out, Bledsoe expected to go wet and Neeley Ward dry, but their vote is not expected to change the results of the election.

Miss Mozelle Treadaway is guest of her brother and family at Abilene.

B. Martin was in Saturday trading and handing out cards in his race for Commissioner Precinct No. 4.

## Hope You Got Your Set Promptly, Frank!

Hon. A. J. Stricklin, Sr. Founder of the GOOD Terry County Herald. Brownfield, Texas.

Dear Jack:

Your issue of June 24th (75 per cent of 24th and 25 per cent of 17th) according to date lines at tops of pages, therefore I presume that it IS the 24th, as we adhere to the rule of majority, leastwise are supposed to, in our Nation, is as usual right here for Saturday evening, and on first reading the news, then the advertising (including the legalis); I next turned to the squibs and squab(le)s of YE EDITOR; then to the 5 column spread of the PEN AND PENCIL set FREE OFFER, and, on checking with the wrapper, I find that it states—"Frank Givan 4 June 38, Box 425, Hereford, Texas." And as I do not doubt your records, as I believe what I read in the Herald (excepting the National political opinions). I offer no resistance to sending my \$2.00 herewith, and also the 5c additional for postage, as the "madam" is forced to warn me to NOT go down to Brownfield tonight for it, as the dirt roads are very slick and muddy (which is an "unusual" condition of the roads, as they so often say in California).

Seriously, Jack, your paper is eagerly read, and other than the Shelly County Herald (Mo.) Mrs. Givan's home paper, none is more eagerly "grabbed for" and read, in our hut, and I trust that the future brings it larger in size, as it cannot be improved on in quality (just plain straight news for us plain people of the Plains), we think.

As B—4,

Frank E. Givan

PS. Please excuse the printed envelope, as it is turned out by a plant owned by both you and I, together with several millions more, and is the only printing plant in which I own a share in that prints envelopes, otherwise, I would use Herald envelopes.

As stated briefly in these columns last week, most of the business houses of the city will be closed next Monday on account of it being a national holiday, and will go to some of the several places in the area, where celebrations are being put on, particularly Slaton, Post, Stamford, Big Spring.

So, it was agreed among the merchants to have the monthly Tradesday on Tuesday following instead of First Monday in July. All specials will apply on that day instead of Monday as is usual. So come in prepared to reap some of the special prices, as well as have a chunk of fun.

And be sure to bring in the trading nags, the kine, porkers or what have you, to either sell or trade with some one who needs them. And remember the program that takes place on the east side of the square at 4 P. M., and come prepared to try to get in on something.

## Herald Want Ads Makes Hit Again

Last Thursday a lady put an ad in the Herald to rent her entire home furnished. Two hours after the paper came out, she had the house rented, and phoned us not to repeat the ad as she had already rented her home.

Speaking of classified ads, or want ads reminds us of a Tucumcari, N. M., lady, whose husband was attending the Shrine convention at Los Angeles, recently. She did not wish to bother her husband by long letters, so put in a brief ad each day telling how the family was getting along.

The papers went each day to the New Mexico delegation headquarters and the husband heard from his family, and at the same time got all the news from home. Some service, we call it.

Try an ad in the want section.

Mr. and Mrs. A. M. Brownfield, Laddie Lynn and Jane Brownfield, with their guests Mary Nell Adams, and Earlene Jones returned recently from a vacation spent in Corpus Christi.

Mr. and Mrs. Earl Alexander of Plainview were greeting old friends in town Monday afternoon.

Stocks and Bonds, not to mention cotton and woolen goods, wheat, corn and cotton, and other commodities moved up nicely on the market the past week. Most financial writers are of the opinion that the bottom has been reached, and that there will be a general upturn in business this month, by August surely, and the recession forgotten by fall. This prediction is in agreement with the opinion of most of the nation's so-called big business men.

The Herald extends thanks to Hon. George Mahon, our very efficient young congressman for an autographed copy of "Your National Capital." This is a large edition, printed on fine book paper, the size of Life Magazine, but more pages, giving hundreds of pictures of the supreme court, the President and Vice-President, and members of the Senate and House. Journal edition of Congressional Record, and a list of the House Members. It will take us weeks yet to get tired of the first named book, and then all will be a constant source of information about our national government.

One of the greatest consolidations of large city papers that has taken place in Texas in recent years, happened last week when the Dallas Dispatch and Dallas Journal were purchased and consolidated under the name Dispatch-Journal. Both were purchased by Karl Kobitzelle, theatre magnate, and leaves only one other evening paper in the city of Dallas, The Herald. This will mean better revenue for both evening papers, just as good coverage, and less expense to the advertisers. However, some employees will likely find themselves without a job.

Col. "Jawn" Price of the County-Wide News, Littlefield, informed us

last week that McCraw was reared on a farm. Something must be out of "jint" somewhere Johnny, as that big, healthy looking state official and candidate for governor told a Terry county audience that he was born under the bright lights, and was brought up in a country print shop. But he announced that he could meet a farmer face to face and tell whether or not the seat of his britches were worn out. Will state that he was wiser than most country printers in that he got into something that would make him a good living, if not some money.

The manager of the Dallas Journal and the Dallas Dispatch, arranged through purchase of both papers by a group headed by Karl Kobitzelle and Alfred O. Anderson, is an event of more than local importance. Reflecting as it does the modern tendency to eliminate the waste of overcrowding in the newspaper field, it fortunately assures to Dallas continuation of the vital factor of home ownership of a community's newspapers which is not always present in such mergers. Both Mr. Kobitzelle and Mr. Anderson have long been identified with community advancement in Dallas. The community may confidently expect the Dispatch-Journal to serve the community interests as actively and thoroughly as did its two forefathers. The retirement of the Scripps League of Newspapers, following the sale of the Dispatch to the Kobitzelle-Anderson group, makes all Dallas newspapers home-owned, a fact from which the community will derive profit in many ways.

For some years the afternoon newspaper field in Dallas has been over-

**The Whole O'Daniel Family Campaigns**

Three enthusiastic youngsters, Pat, Mike and Molly O'Daniel, of Fort Worth, are campaigning with their father, W. Lee O'Daniel, who is seeking the office of Governor of Texas. Their mother, Mrs. Merle O'Daniel, stays at home and handles headquarters. Pat and Mike are musicians with the Hill Billy Boys' orchestra which accompanies their father. Molly distributes handbills. In the picture are, front row: Pat O'Daniel, 19; Mrs. O'Daniel and W. Lee O'Daniel; back row, Mike, 18, and Molly, 16. This may be the official family in the Governor's mansion at Austin next year.

crowded, and it may be doubted that any city of 300,000 will ever be big enough to justify three afternoon newspapers. The consolidation of two of these, therefore, is a development of essential economy which can not help pay dividends to all, and not least to the public. The news Dispatch-Journal, which will be able to command the strength of both while eliminating their weaknesses, begins its publishing life under favorable auspices.—Star Telegram.

Jim Ferguson, in his Forum, is bemoaning the fact that none of the candidates will carry his sales tax banner in the race for Governor. Though the candidates be many the laborers be few, if any, for the sales tax. These boys read the papers and know what has been the general dissatisfaction in the state that have tried the sales tax. In a boxed advertisement Jim is trying to do a little rabble rousing by saying that if the sales tax is not paid to the government, that the merchant is getting it—that the merchant is making a profit from 20 to 80 per cent. Every merchant we know is having to do some hard struggling to keep their head above the water, Jim's statement to the contrary, and is satisfied with a small profit in order to meet competition. The sales tax would be added to purchases made in Texas just as it is added to purchases in states where it is in effect.—Knox County Herald.

The Old Age Pension proposition is getting to be the greatest of all time. It is fast working into a gigantic political graft for wardhealers (the boys that get out the vote and promise everything). They make the old people believe if their candidate is elected their checks will be enlarged and those that are not on the pensions roll will be placed there immediately. Those old people have a vote and so do their relatives, and that is what they are after. Some promise a sales tax to raise the money so everyone 65 years of age will receive a check. It all sounds good and has an appeal from Santa Clause angle, but it is hard to do. It takes a lot of money, and it should be done where the case is worthy. We believe every old person who has no income upon which to live should receive a pension, but the rules are so strict many old people are in want and do not receive one penny. If they have a relative that is getting along fairly well financially, they tell you that relatives should support you. There is no law that compels

**The SNAPSHOT GUILD**

PICTURES ON THE FARM

Everywhere on a farm there are pictures—simple, pleasing snapshots that will give your albums new appeal.

THE man who says "nothing ever happens on a farm" certainly isn't talking about pictures. On almost any farm, if you keep your eyes open, you will find enough snapshot material to keep the camera busy from early morning to late at night—and still not exhaust the supply.

Farm animals offer scores of picture chances—woolly lambs in the sun, a hen fussing over her brood of chicks, cows being driven in for milking, pigs at the trough (or their owner summoning them with a lusty shout), horses drinking, ducks waddling in a line about the yard or taking an afternoon "cruise" in the pond.

Work scenes in the field make excellent pictures, and fresh-plowed land with long deep furrows is good for pattern snapshots. The orchard in bloom is a scene of beauty, and all

around the house and barn lot there are details which make pictures.

Get a snap of Grandfather whittling, mending a single-tree, or busy at a whirling grindstone. Picture shady fence corners, old-time zigzag fences of laid rails, the battered wooden bucket at the well and the worn saw-horse or chopping block in the woodlot. Look for snaps down by the shady spring-house and brook. And watch the special seasons—such as hog-killing time later on—when there is some unusual activity to picture.

Yes, there are plenty of farm snapshots—everything from a calf being fed from a bottle to corn-husking shots at harvest time and footprints in the snow in winter. You can point your camera in almost any direction, and find something. Try it, every chance you get, and watch your picture albums grow!

John van Guilder.

one relative to support another, but they are making those old people believe there is, and thereby keep them off the pension rolls, which is all wrong.—Lockney Beacon

**"BEAR DOG" SKELETON FOUND IN DONLEY CO.**

One of the most ferocious of carnivorous animals which inhabited this section more than a million years ago was the "bear dog," an animal as large as the Alaskan brown bear. The Great Dane and St. Bernard

are large, but they are puny creatures compared with the Amphicyon Gidleyi, or bear dog. One of the finest specimens of these dogs was found by a WPA party recently in Donley county. It consists of a complete skull with the lower jaws and teeth in place, excepting a few incisors. It will be placed in an exhibit case in the museum of the Panhandle-Plains Historical Society at Canyon.

Well, if the pump needs priming, prime it. Don't fool around and die of thirst because the pump needs priming. If your nose needs blowing, blow it, even if it want stay "blowed." You ought to know that a pump will not stay "blowed." Some smarty politician thought up that pump priming" gag to put the wet blanket on the scheme to help the "forgotten man."—"Uncle Bill" in Sterling News-Record.

Prof. H. C. Zorns was down from the Meadow section Saturday and reported that Meadow and Needmore communities had received one and one-half inches of rain Friday.

## THE CAGE—

Introducing "The Cage" as a new column, reporting meetings, activities, etc., of the Lions Club of Brownfield. This column, as you will readily discover, is reported by both: a nonexperienced writer, as well as a Lion. But nevertheless we were asked to make such report each week of meetings, so bear with us—if you can.

The regular meeting was called to order by President Lion Smith promptly at 12:00 o'clock, Wednesday. Due to the absence of the entertainment committee, the hour was spent in a business meeting; disposing of all business matters and the appointment of new committees.

The club was glad to have with them Lion Rodgers of Amarillo, Texas, as guest. Lion Rodgers gave a short talk that was very interesting and appreciated very much.

Just a little warning:—In case we were to take change from Tail Twister Lion "Grade A Blue John" Pittman, we would give each coin the "old biting test" before it was accepted.

It seemed to have been quite a joke to all the older Lions to learn that the local Lions softball team defeated Gomez, in Tuesday night's game. They were wondering just how bad Gomez really did feel—as it seems to have been the Lions No. 1.

A complete list of names of the various committees will be published in this column next week, as time forbids us of doing so this week.

Lion members; How could you spend a better vacation than that of attending the Lions International Convention to be held in Oakland, Calif., July 19-22?

## Wants Help to Combat Traffic Accidents

Austin, Texas, June 21—Lowry Martin president of the Texas Good Roads Association, today issued an appeal for an adequately financed movement to combat traffic accidents in Texas. He suggested that one or more civic minded Texans with means endow a "safety institute" or similar organization.

"There should be some wealthy big-hearted Texan who wants to do something for himself, his community and his state, willing to make an endeavor that would help provide for this work," Mr. Martin said. "Thru the benevolence of public spirited citizens many hospitals, schools, scientific expositions and like have received bountiful gifts they are all worthy. Today, however, we are faced with possible the greatest emergency this country has ever known and one which needs financial assistance in order to alleviate the rampant suffering and economic waste that is raging in Texas day after day."

Mr. Martin suggested that such gifts might be set up in the form of a fellowship bearing the donor's name, to be used either for an annual training school for traffic officers, a bureau of traffic research, or some worth-while project.

"I pray that someone will lend his name and financial support in answer to this appeal," he said. "The gravity of the situation demands our attention. Highway slaughter has gone far enough. We must act."

The Corsicana publisher's proposal followed the state-wide safety rally held in Fort Worth earlier this week, out of which came the newly organized Texas Traffic Safety Council, composed of officials and laymen from all parts of the state.

Mr. Martin is second vice-president of the safety council.

## SMALL TWISTER DIPS AT ANTON

ANTON, June 25.—Mrs. B. Forman, about 40, of three miles east of here suffered injuries, serious but not critical, when a "small tornado" struck near her farm home about 7:30 o'clock tonight.

Mrs. Forman had gone to a chicken house near her residence when what eye-witnesses described as "a big whirlwind" dipped down out of the sky and struck the small building. It was demolished and Mrs. Forman was injured. Her residence, a short distance away, was undamaged.

Rushed to Littlefield hospital at Littlefield, late tonight authorities there said her condition was not critical. She suffered a severe scalp wound and a serious accleration of an arm.

## KIRKLAND SCHOOL SUPT. MARRIED HERE MONDAY

Mr. W. H. Wilson, superintendent of the high school at Kirkland, Texas, and Miss Marie Sparks also of that city, were married at the residence of Elder J. H. Killion, minister of the local church of Christ, Monday afternoon about 5 o'clock. They were accompanied by Mr. and Mrs. Williams, teachers in that school.

We asked why the couple drove such a distance to get married. His prompt reply was, "that they wanted a good job."

### Post Celebration Delegation Here Thursday

Headed by Col. Jay B. Slaughter, Garza county rancher, more than 50 Post business men and almost as many ladies arrived in Brownfield Thursday morning with invitations to the July Fourth celebration at beautiful Two Draw lake.

The group was making a swing through the South Plains by automobiles and will visit all towns

within a radius of one hundred miles of Post. The trip was sponsored by the Post Chamber of Commerce. The Post High School band, composed of more than 35 boys and girls and directed by Chas. Kiker, accompanied the trippers and gave a fifteen minute concert.

The invitation to visit our neighboring town was extended by Joe S. Moss, county attorney of Garza. In a brief statement over a loud-speaking system Moss said: "Post is fortunate in having at her disposal the

beautiful Two Draw lake and takes great pleasure in extending to all South Plains citizens an invitation to be present on July 4th and enjoy a full day of free entertainment. There is ample camping grounds for all who care to come the day before and spend the night. Bring the family," Moss added.

Entertainment will include mile-long street parade, program in auditorium, saddle pony races, mammoth fireworks display, and baseball games. Three dances, one Saturday night, July 2, a German dance Monday morning and another the night of the Fourth, will be sponsored by James C. Cole American Legion post of Post.

While in Brownfield, Glenn Leonard, president of the Post Chamber of Commerce visited the Herald office.

friends to get together and spread their tables with what it takes to make everybody remember the good old days and be sure they weren't any better than today. Mother and father and the little juniors and juniorettes will enjoy the meal, and the fine cooks, for which this country is famed, will doubly enjoy the appreciative attention that will be paid to the victuals there devored.

### Historical Pageant to be Held

At 8:30 in the evening the Historical Pageant, treating with the history, development, and resources of the South Plains will begin at the High School Stadium. Mrs. Lee Green and her Program Committee promise a program worthy of the attention of the huge gathering that is expected for the occasion.

### GRANDMOTHER ROSS PASSES

Mrs. Maggie Ross, 66, who was making her home with her daughter, Mrs. G. H. Holmes, of this city passed away last Saturday at 8:40 A. M., after an illness and poor health extended over a number of years.

The body was prepared by the Brownfield Funeral Home, and shipped Saturday to Mineola, Texas for burial. Besides Mrs. Holmes, Mrs. Ross had a son, C. E. and another daughter Mrs. G. L. McCollough residing in this city, and we understand some other children residing at Mineola.

### CANDIDATE FOR R. R. COM. ADDRESSES TERRY VOTERS

Robert A. (Bob) Stuart of Fort Worth, candidate for railroad commissioner, spoke in Brownfield Friday in interest of his race, denouncing the professional politician and the chronic office-holder as being a

menace to the state. He was concluding a week's schedule of 50 addresses in West Texas during the week.

It was declared by Stuart that by conserving oil and gas which are now being burned in the oil fields, Texas can raise enough capital to permit the abolishment of the ad valorem tax and to have enough left to pay the old age assistance in full. He said Texas' freight and gas rates are too high and as railroad commissioner he will fight to lower them.

Railroad Commission orders are holding Texas back industrially, Stuart said. He stated that if the oil allowance was raised to compete with other states, Texas would have a revival of business in the oil fields that would be felt state-wide.

### Big Spring Gets Meeting Of Legion-Auxiliary

BIG SPRING, Texas. — Plans are shaping up for a varied program of fun and business when American Legion and Auxiliary members gather in Big Spring on July 9 and 10 for a two-day regional convention. Local committeemen are making arrangements for an attendance of 1000 to make the conclave here one of the largest of the organizations with the exception of the state department convention.

Entertainment will be stressed, and the convention will offer banquets, dances, junior baseball games, teas, golf, swimming, and barbecues.

Outstanding figures in Legion activities will appear at the business sessions. These will include Dr. W. J. Danforth, Ft. Worth, state department commander. Drury Phillips, national vice-commander, and Dr. William F. Murphy, former national committeeman. At the Auxiliary sessions, Mrs. Pearl Ezell, department commander of the unit will appear.

Local Legionnaires are planning to have several state officials here during the convention.

The meeting will open Saturday, with entertainment features on the calendar for the afternoon and night. Business meetings are scheduled for Sunday.

The region to be represented at the meeting extends from Mineral Wells to El Paso, and from the Oklahoma Panhandle line to Del Rio.

Posts throughout the area are being urged to send a big representation.

### W. J. BALDWIN PASSES

William J. Baldwin, 66, passed away at the local hospital last Friday at 11:40, of serious kidney infection, which has kept him in poor health for the past several years. Mr. Baldwin was considered to be one of the best citizens in the county.

The Baldwin family, including his father, came here some 20 years ago from Missouri and settled in the Forrester Community, when that part of the county first began to settle up, and they have helped make it one of the most progressive communities in the county.

Funeral services were conducted at the Forester church Saturday afternoon at 2:00 o'clock by his pastor, Rev. David Beebe, after which the body was laid to rest in the Forrester cemetery. He leaves his wife and five children and his aged father to mourn his going.

### And Still the Straw Votes Keep on Comin'

Frank Shannon and Carl S. Shannon, publishers of the Whorton Spectator, has a tabulation on how Texas will vote, basing their totals from replies received from 167 daily and weekly newspapers, which pans out about as follows:

Governors Standing: McCraw, Thompson, Tom Hunter and Lee O'Daniel.

Lieutenant Governor: Coke Stevenson, G. H. Nelson, Pierce Brooks and John Lee Smith.

Attorney General: Walter Woodul, Gerald C. Mann, Ralph Yarbrough and Bob Calvert.

Probably if some of these editors if called on again, would revise their figures in several of the races.

### The New City Directory Has 4860 Names

L. D. Neal, of Seagraves, who worked up a new city directory earlier in the spring, was up last week delivering the new directory, which has a total of 4860 names. It was a good job of printing and illustrating.

Owing to the fact that the Herald had a telephone directory, and a Chamber of Commerce Oil Directory following, we were unable to get out the book in specified time, and it was printed at Taylor, Texas, where he is putting on a special edition for a newspaper.

### KOLONIAL KARD KLUB

Mrs. Lester Treadaway was hostess to a lovely bridge breakfast on Friday morning when she entertained members of the Kolonial Kard Klub.

Mesdames Jay King and Rance King, out-of-town guests were presented with dainty Ivy Bubble Vases as guests prizes. Mrs. Clyde Cave scored high and received as prize, a miniature cactus garden. Mrs. Rance King scored second high and was presented a kitchen ivy pot.

A delicious breakfast plate consisting of Canadian bacon, eggs, hot biscuits, cherry jelly and coffee imperial was served the following guests: Mesdames Money Price, Garrett Daugherty, Roy Wingerd, Clyde Cave, Ned Self, Raymond Taylor, Arthur Sawyer, E. C. Davis, Herman Heath, W. R. McDuffie, Rance King and Jay King.

### ACE-HIGH BRIDGE CLUB

Mrs. Everett Latham was the gracious hostess to members of the Ace-High Bridge club last Friday. Five games of bridge were played, at the end of which Mrs. Ray Christopher was announced winner and Mrs. J. C. J. Powell scored second high. Both ladies were favored with lovely bath sets, one received a green set and the other received a pink set.

A dainty salad plate was enjoyed by the following ladies: Mesdames John Turner, R. M. Kendrick, M. E. Brown, W. C. Smith, Clovis Kendrick, J. C. Powell, Orb Stice, Arthur Sawyer, Roy Wingerd, Raymond Taylor, Ray Christopher and Ned Self.

### "WHITE CLOUD" ALLRED

In a colorful ceremony which was only somewhat dimmed by a down-pour of rain, Governor James V. Allred was baptized and ceremoniously "scrapped" into the Alabama-Coushatti Indian tribe this week. So was his young son, David, who was made the recipient of a real Indian bow and arrows and christened "White Cloud" Allred.

The ceremonies took place at the green corn festival held annually by the Indians at Livingston. Making medicine over the Governor, Chief Tai-Cai-Shek sprinkled him with water, indulged in the ceremony of scraping the candidate with a knife, then presented him with full Turtle clan regalia, including headdress and tomahawk.

The festival is the traditional festival of thanksgiving of the tribes, whose reservation is located near Livingston. The membership of the tribe numbers 321.

W. P. Florence of Slaton, candidate for Representative of the 119th district, was here this week in the interest of his candidacy. Mr. Florence taught the first school at Gomez before there was an organization of the county or a Brownfield, and is remembered by many of the old timers. He wrote a very interesting history of this section, including Terry county.

Mr. and Mrs. J. F. Winston and Johnnie Winston are vacationing in the Middle Western states and may go on to Canada.

### THE GLORIOUS FOURTH WITH NO ACCIDENTS

AUSTIN, Texas.—It would be a glorious Fourth of July if no accidents occurred to mar the joy of celebrating our one hundred and sixty-second anniversary of independence, declared Dr. Geo. W. Cox, State Health officer. It is most unfortunate that a day of joy and celebration leaves in its wake of sadness and sorrows in many homes.

It is not alone the wounds received from explosives that increase our death toll. Injuries from automobile accidents, splinters, nails, and other penetrating wounds in which dirt may be carried into the skin, heighten the hazard of tetanus, or lockjaw as the disease is commonly called.

Tetanus is fatal in a large proportion of cases. Fortunately we have tetanus antitoxin as a means of preventing the disease. Antitoxin must be administered promptly following the accident. Treatment after the disease develops is rarely successful. Preventive measures include: the avoidance of such wounds and proper medical attention.

A few don'ts for the 4th of July celebration would not be amiss.

1. Don't be careless in the handling of explosives.
2. Don't look into firecrackers which have failed to explode.
3. Don't drive recklessly and at an excess speed.
4. Don't over do swimming, especially in water of unknown depth.
5. Last and most important: Don't fail to get prompt and good medical attention if a wound is suffered.

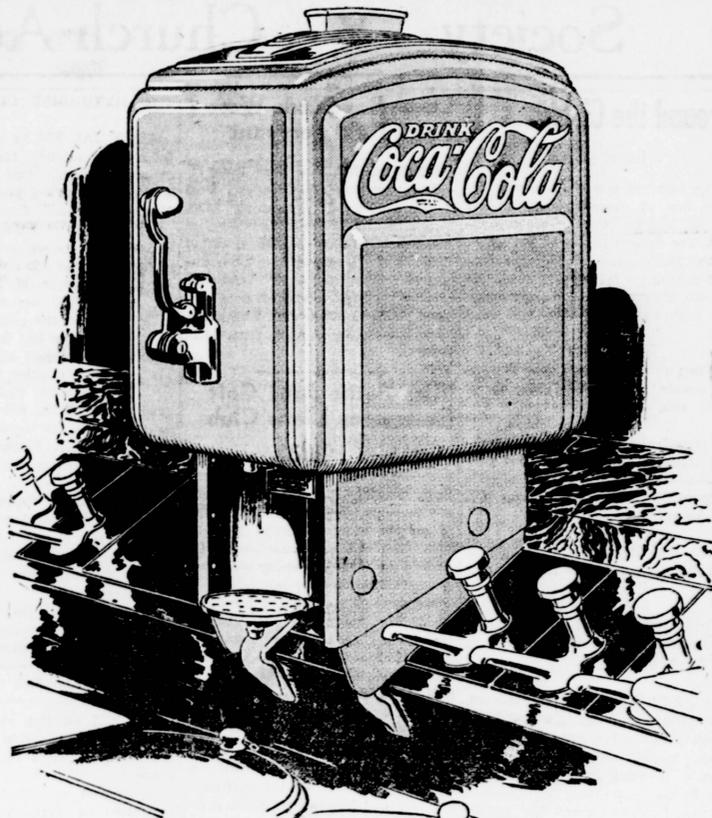

### SMALL SCHOOLS MAY HAVE 6 MEN TEAMS

AUSTIN, Texas, June 27.—Proposal of the Texas Interscholastic League to organize 6-man football districts is meeting with approval among smaller schools of the State, according to R. J. Kidd, athletic director of the University of Texas League office.

Demonstrations in 6-man football are being given in the summer physical education courses of the following institutions: North Texas State Teachers College, Stephen F. Austin State Teachers College, Texas Technological College, and at The University of Texas, Kidd said.

"We are confident that at least one hundred small high schools will experiment with this game as a fall sport this year," Mr. Kidd predicted. "It is hoped that the sport will prove worthwhile for schools that do not have enough boys to play 11-man football, and still have a sufficient number of boys of the football type to make up a six-man squad. It has the additional advantage of being a relatively inexpensive sport."

Marry Ann, 7 pounds and six ounce young lady, was born to Mr. and Mrs. Leo Holmes Monday at 11 a. m. Mother and baby doing nicely at the local hospital.

### WATCH CZECHOSLAVAKIA

"Twenty years after the war 'to make the world safe for democracy'" wrote Leland Stowe, a New York Herald Tribune foreign correspondent, recently "3540,000,000 out of European 550,000,000 people are living under dictatorship in 12 European countries, and democracy is banished for four-fifths of continental Europe."

Sir Philip Gibbs, the well known English novelist and journalist, has said, "The nations are arming again. Men who remember the last war seem to be preparing for the next. Nothing was learned, nothing was settled, by that monstrous struggle."

For the past few weeks, since the German-Czech border crisis was averted, there has been quite a lull. But it has been exceedingly ominous quiet. The problems that confront Europe grow steadily worse, not better. The armament race, which has been going on for a year or two, has been speeded up. And while the governments concerned at several major powers, that almost secret that mobilization is underway tempted to keep it hidden, it is an open all of the powers have perfected plans which make it possible to put the countries on a war basis in a few hours, and that there are more men and more munitions at the various frontiers in Europe than any time in the past.

The place to watch is still Czechoslovakia. It is true that Hitler backed down a few weeks ago, at a time when it seemed German invasion of the Sudeten territory was assured. It is not true, according to experts in touch with affairs, that Hitler has at all changed his views or desire. He felt then that the time was not ripe and that the risk was too great—largely, it is believed because he has not been given satisfactory assurance that Italy will fight with him if a general war breaks out, in spite of the Rome-Berlin axis. Mussolini is apparently still pursuing a fence-sitting policy. He wants to back a winner. That fact alone may be all that is holding the Reich in check.

Some two weeks ago we stated that Geo. W. Neill was having one of his rent houses worked over, remodeling and rebuilding with stucco finish. We have since learned that the house belongs to Cleve Williams, and we understand that he and wife will move into it when completed, renting their old place.

Mr. and Mrs. H. D. Heath Sr., and daughter-in-law, Mrs. Hubert Heath from their large farm in the Stanford valley of Yoakum county, were in Saturday shopping. They informed us that they had about 1 1/2 inches of rain, Friday.

The hundred and sixty second anniversary of freedom and liberty for all will be observed next Monday. The serious intent of the signer of the Declaration has become dimmed during the intervening years and the 4th of July has become synonymous with Fun, Fireworks, and Fanfare.

When an upside down cake is turned upside, is it down side up or right side down?

Domestically and politically speaking, June has been rife with perfection—July results will be a little different, however, some terms will last longer than others.

Rain and fifty or sixty new people will stimulate business in our home town.

Fishin' for business today requires the skillful use of all the gear in the tackle box of sellin'.

In a quiet little town of Freedom, New Hampshire, hugging a road down which stagecoaches once rolled, reposes, beneath a canopy of giant elms, a charming and historic dwelling. Formerly an inn, this ancient structure today shelters the family of John Holmgren, artist.

To persons familiar with the Bible, the vine and fig tree have become and remain, symbols of national safety, domestic peace, and personal contentment. "They shall sit every man under his own vine and fig tree and none shall make him afraid." A vine and a fig tree are a vision of home. The fig tree shall wait but I invite you this month of July to sit under your vine, to plant vines, and to think about planting still other vines when the seasons turn again.

STAFFORD MAKING RACE FOR CONSTABLE PRECINCT 1

We are authorized to announce that J. D. (Dewitt) Stafford of this city is making the race for Constable of Precinct No. 1, which includes the city of Brownfield and considerable of the surrounding territory, subject to the Democratic primary.

He stated that it was so close to primary time that he would be unable to see all the voters, and by this means is soliciting their vote and influence. He promises that if elected, he will discharge the duties of the office to the very best of his ability.

He has been a citizen of the county off and on all his life, the last 12 years permanently.

Oh, if your Engine only could

OF COURSE, you can't leave your engine standing on its head every time you park, but you can have it OIL-PLATED. And OIL-PLATING not only goes clear up inside your engine, but stays there — for hours — weeks — months — even while the engine is right-side up at a standstill! Now why is that better?

Well, this exclusive OIL-PLATING — formed in your engine solely by patented Conoco Germ Processed oil — is always up there ready to lubricate before other oils could even begin to circulate. Therefore, every start you make finds cylinders,

rings, bearings and other parts self-lubricated in advance. The action of the patented Germ Process has kept them continuously charged with oil, or OIL-PLATED.

They cannot "start dry," and thus you are rid of engine enemy No. 1. Good platings don't evaporate either, or lose their grip during Summer spurts. You can tell that about OIL-PLATING by noting how Conoco Germ Processed oil maintains the oil-level. Head in at Your Mileage Merchant's. Continental Oil Company

## Oakland, Calif., Expects 8,000 Lion Delegates

OAKLAND, California. — Eight thousand Lion delegates and their families will be guests of the Oakland Lions Club at the twenty-second annual Convention of the International Association of Lions Clubs, which will convene here on July 19 for a four day session.

Once before, back in 1921, Oakland was host to the Lions Convention. Since that time, the Association has grown from 229 Clubs with 13,789 members, to over three thousand clubs with 105,000 members, in eight countries of the world.

From war-torn China will come delegates from Tientsin and Tsingtao. Colorful delegations, some in native costume, will come from Mexico, Cuba, Costa Rica, Panama and Colombia. And of course from all parts of the United States and Canada special trains and caravans will converge in Oakland.

For ten months, the Oakland Lions Club, assisted by other California Lions, have worked and planned to make this the most colorful convention of the year, and one long to be remembered by the visiting Lions.

### CHAIN STORES NOT SO BAD MAYBE, AS PICTURED

We do not hold that chain stores are not without their faults, but we can't subscribe to that doctrine which would tax them out of the community under the guise of protecting the "little merchant."

After all, we do not hear so much of this kind of stuff until around election time, and the disposition of many people is to believe the worst about organized business, big or little.

Knowing this, some candidates are

quick to take advantage of it and talk long about taking away chances for young men and the danger of driving out the little merchant of the independent kind.

After all is said and done, the little merchant is his own worst enemy. He is little because he chooses to be in many cases. He can sell as cheaply as the big fellow in practicality each case, it is declared, so the war is not for that score.

The simple fact is the people are not against the chain store so much as the politicians would have us believe.

Take our own town as a case in point. How many buildings today are not vacant because some chain store is occupying it? And they remained in many cases, vacant a long time until the "bad" chain store came along.

In rentals alone in this country landlords are paid by the chain stores the sum of \$450,000,000. Their advertising accounts runs to half that amount, while they pay in trucking, fuel and electricity another \$75,000,000. They pay for manufactured articles the sum of six billion per year and in taxes they pay \$225,000,000. In salaries and wages the payroll amounts to \$1,200,000,000.

In addition to this they contribute 9 1/2 billions to the trade of the country, and save many millions of dollars to the consumer.

At that we still are strong for the home store and believe the independent man is more powerful than the chain store. He has plenty of chances for himself and no reason to complain regardless of the disadvantages the politician would have him believe he has resting over him.

If there is something good about mass buying, let the independent fellows find out what it is and work along that line, and try and practice his rugged individualisms so strong-

ly. Peter the Great picked a fight deliberately with other peoples stronger than himself to find out how they fought. Then he adopted their methods that he needed. The independent merchant can do the same with chain stores and get farther than knocking them.—Denison Press.

### SANTA FE INCREASES SHOP WORKERS TO 5 DAY WEEK

Proposal to increase the number of work days of mechanical employees of the Santa Fe Lines was announced today by W. K. Etter, vice president of the System.

Effective July 1, employees of the mechanical department, including all shop forces, having been on a three day week since May 1, are to be placed on a five day week.

The increase will benefit approximately 8,000 employees over the entire System. In the Southwest more than 2,000 workers are involved in the increase.

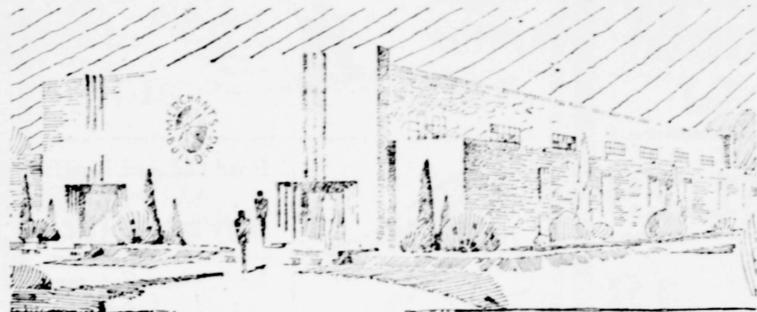

### U OF T TO SELL OIL LASES AT PUBLIC AUCTION

AUSTIN, Texas.—Another sale at public auction of oil and gas leases of tracts of land owned by the University of Texas is scheduled to take place here June 24. The land to be leased is situated in or adjacent to producing areas in Crane, Crockett, Andrews and Reagan counties, all in West Texas. The tracts total 126 acres.

In Andrews County 35 tracts will be offered out of a block of 294,400 acres owned by the University. Production has already been obtained on privately owned land situated within a mile or two of this large acreage.

## Below is a Likeness of the New Merchants Building at S. P. Fair

This is the architect's drawing of the new Merchants Building to be constructed on the Panhandle South Plains Fair grounds at Lubbock. Contract for the spacious building was let Monday of this week. Fifty or more exhibit booths with removable partitions and other attractive facilities will present interesting displays to this year's fair-goers. The new building will contain much wider aisles than the old structure, better lighting and ventilating sys-

tems, and will be one of the outstanding attractions of the 25th annual fair and silver jubilee which will open its gates on Monday, September 26, closing Saturday, October 1, 1938.

## TWO DRAW LAKE SCENE OF CELEBRATION

Above is pictured beautiful Two Draw lake, Post, Texas, where thousands of people of the South Plains will gather July Fourth to celebrate Independence day, and enjoy a full day of free entertainment, climaxed by a glittering fireworks display at night.

The lake, recently filled with fresh water, affords splendid swimming, boating and fishing. Hundreds of beautiful shade trees provide ideal camping grounds. Residents of Terry county are cordially invited to the celebration.

"Trouble Shooter" is an appropriate title for Charles Creighton, one of the directors of the Big Spring Cowboy Reunion and Rodeo Saturday, Sunday and Monday. Creighton, an ex-bronc rider and calf roper, plugs in to keep the show going smoothly.

### PREVENT ACCIDENTS

Stop the appalling loss of life on highways. Stop the loss of life from accidental causes in the home and in industry. That is the program of the Western Safety Conference, to be held in Los Angeles, September 12-16. Represented at the conference will be the 11 western states, and British Columbia, Alaska, Hawaii and Lower California. Uniform legislation will be pro-

posed for the entire territory represented. Safety experts connected with every branch of the industry, along with automobile associations, state traffic bodies, schools, service clubs and similar private and public groups will take part. The purpose of the conference is to bring closer the day when every person in the western state and contiguous territory will be governed by uniform safety regulations.

Other sections of the country will do well to hold similar regional conferences. One of the greatest barriers to the advancement of safety, especially in the highway field, is the diversity of laws, regulations and appliances, such as stop signs and warning signals. What is legal in one state may be illegal in the next. One town may use sidewalk traffic controls and another town 10 miles away overhead controls, or one town may have several styles of controls. The motorist doesn't know what to expect.

Equally important, such conferences as these make it possible for experts in many branches of safety work, and far-scattered places, to come together for a meeting of minds, present opinions, and thrash out problems. This is an important phase of the organized safety work we need so greatly today.—Cleburne Times.

## NOBODY'S BUSINESS

By Julian Capers, Jr.

AUSTIN—Two schools of political thought, each including experienced, thoughtful observers, have sprung up here during the past two weeks regarding the W. Lee O'Daniel boom for governor. One holds the O'Daniel movement to be a "freak" that will die out as rapidly as it sprung up, with O'Daniel's best effort probably landing him in third or fourth place, at best. Its adherents argue the hill-billy band is the big attraction, and that the novelty will wear off before the election. They also argue that "lots of folks go to a medicine show who don't buy any medicine," and contend that past political history has proved that big crowds frequently don't mean big votes, citing the campaign of the elder Joe Bailey for governor, and various campaigns of Jim Ferguson, as examples.

### Some Are Worried

The other school takes the O'Daniel phenomenon very seriously, and openly believes the thing may develop into a runaway movement that might land the Fort Worth radio entertainer in the Governor's chair, or at least in the runoff primary. They point out that a man appearing for years on a radio program builds up a close personal relationship with thousands of voters who may never have seen him, and who know or care very little about what he knows or thinks about the governmental problems. Bill McCraw, for several years when he was District Attorney of Dallas, made a weekly radio talk on legal questions, governmental problems and similar subjects, and smart insiders count this as one of the major factors in the defeat by McCraw, a comparatively unknown politician then, of an experienced State official with a State-wide following, for Attorney General in 1934.

### Austin Excited

They declare the people are disgusted with the conventional politicians, and the O'Daniel boom is a spontaneous protest by the people, with characteristics similar to the uprising of the people in the Roosevelt Democratic victory in 1932. Austin, the hot-bed of politics, talks more about the O'Daniel movement than any other section of Texas, and some of the political experts here are quite hysterical over the situation. Cooler heads point to O'Daniel's essential weakness—a complete lack of governmental experience or knowledge, a silly platform embracing the Ten Commandments, a wild promise to pay all aged a \$30 a month pension, and a lack of serious interest in his State government so complete that he didn't pay his poll tax. As one veteran here put it:

"The boys and girls who paid \$1.75 for their ticket to the show, sure resent seeing a guy come in and sit in a box seat on a free pass."

### Has Hurt McCraw

Whatever else he has done or may do in the campaign, O'Daniel has crippled McCraw's campaign seriously. The attorney general started out as master showman, who capitalized for months on his hearty, hail-fellow-well-met attitude, his funny stories and his wise-cracks. Then O'Daniel came along, and outdid McCraw so thoroughly as a showman and a crowd-getter that the McCraw drive went into the doldrums and has been there for two weeks.

The Thompson forces, meanwhile, were cockily confident, asserting that their following has constituted a serious-minded group of voters who don't "go" for showmanship, and hallyhoo, and that they have suffered but little defection to either McCraw or O'Daniel. "When the bands get through playing and the circus closes up," said one shrewd politician, "The folk will cast their ballots for a candidate with a record, who originated a platform, and has discussed problems and issues of state government throughout the summer."

So the reader can take his choice—and he'll find plenty support for either viewpoint in the hotel lobbies and around the headquarters in Austin.

### Another Race Warms Up

Nobody was paying much attention to other State races, with interest in the gubernatorial situation intensified by the O'Daniel boom. But in the Attorney General's race Judge Ralph Yarborough made slashing attacks at Houston and elsewhere upon the record of Lt. Gov. Walter Woodul, who is admittedly in the top spot for this important race. Woodul declined to answer, but his friends raised the point that Yarborough's candidacy, while holding office as a district judge, is in direct violation of the Texas Bar Association's code of ethics which forbids a judge to run for another office while holding a bench seat. Woodul's backers this week cited an "unprejudiced" newspaper survey of many communities, showing the Houstonian with a wide lead.

### Pensions Possibilities

This column has pointed out on several occasions that voters will do well to remember, in listening to promises of all the candidates, that there are three branches of the State government, and that the greatest of these is the Legislature. Wild pledges or reform and largess to aged or other groups can only be fulfilled if the Legislature says so. The present legislature has demonstrated a conservative attitude toward payment of benefits out of the State treasury, as is shown by defeat of measures to liberalize pensions, and failure to provide funds for aid for blind, dependent children, and to put up the State's share of the school teachers' pension fund.

### Turnover Is Small

There may be considerable turnover in the make-up of the next House, but not as great as in some other recent years. But in the Senate, there will likely be no great change of policy, because only one half of the Senate is up for re-election, and only about half the senators whose terms expire have serious opposition. The successful candidate for Governor may remember what he is now promising, but it is a cinch that \$30-a-month pensions for everybody over 65 are NOT going to be voted by the Legislature. It is likely reasonable grants will be provided for blind, for children, and for teachers, since the people have approved these measures. Some liberalization of pension payments, with reduction of expense of operating the pension bureau, may also be approved. But the Senate has the last word, and the new Senate is not going to differ radically in any of its beliefs from the one now in office.

### SHOW MAN HERE FRIDAY BOOSTING JERRY SADDLER

Harley Saddler, popular west Texas tent theatre man, was here last Friday and spoke to a small crowd in the interest of his cousin, Jerry Saddler, of Longview, who is making the race for Railroad Commissioner. We did not get to hear his speech, but if he can spell up a candidate as well as he can his plays, he's a go-getter. The Longview candidate's motto is: "Put Saddler in the Saddle."

Barney B. Hunter, son of Mrs. S. L. Hunter, left Saturday for Bartlesville, Oklahoma, where he will spend the summer with his uncle, A. M. Williams. While in that section he will also visit his grandmother, Mrs. Alice Williams, at Warrenton, Mo. Mrs. Hunter is dietitian at the Treadway-Daniel hospital.

### MIDLAND COUNTY ENTERS UTILIZATION CONTEST

ABILENE, June 27.—First county to enter the West Texas Chamber of Commerce soil and water utilization contest is Midland. Rules and regulations of the contest were announced recently and scores of other West Texas counties are expected to make entries within the next few weeks.

Midland's entry was sent in by Bill Collins, Chamber of Commerce manager. Other members of his county committee are County Judge E. H. Barron, R. M. Barron, M. C. Ulmer, WTCC director; S. A. Debnam, county agent; Mary Jo Weigers, home demonstration agent, and J. C. Miles. The contest, directed by the WTCC agriculture board with cooperation of state and federal agricultural agencies, offers \$1,000 in cash prizes

annually to counties with best records of accomplishments in soil and water conservation work. The prizes are: First, \$500, second, \$300 and third \$200. Points as outlined in the contest bulletin now being distributed, will be awarded for almost every kind of soil and water conservation work.

Edwin A. Spacek, WTCC director of development, is in charge of the contest.

Little Christine McDuffie is visiting an aunt in Waxahachie.

Mrs. Jess Smith and Mrs. Wayne Brown were in Lubbock shopping Tuesday.

Mr and Mrs. Sherman and Mr. and Mrs. Gay Price visited at Sligo Sunday.

### CHEESE AND ICE CREAM PRODUCTION DECLINE

AUSTIN, Texas, June 27.—According to reports to the University of Texas Bureau of Business Research from representative groups of Texas creameries and cheese factories, creamery butter production increased during May 12.9 per cent over the preceding month and 5.5 per cent over May, 1937; while American cheese production increased 6.7 per cent over April and 25.6 per cent over May last year.

Ice cream manufactured was 35.7 per cent greater than in April but 11.2 per cent below that of May a year ago. This decline from a year ago evidently reflects curtailment of consumer income since ice cream is still regarded as a semi-living product.

### ANIMAL HUSBANDRY GRADUATE EMPLOYED

LUBBOCK, Texas, June 27.—Six June graduates and one August graduate of the animal husbandry department of Texas Technological College have been placed, according to W. L. Stangel, head professor.

Graduates acting as managers of their father's farms or ranches are Merle McMurtry, Tulia; John Jarvis, For Worth; and J. L. McDade, Dumas. Raymond King, Floydada, will teach vocational agriculture at Quitaque; and Leslie Browning, Fluvana, will teach at Tahoka.

Clifton Cole, who completed requirements for his degree in February, is employed by the Farm Security administration at Brownfield. Lewis Dunlap, Spur, a prospective August graduate, is working in Dalhart and completing degree requirements by correspondence.

With the exception of only a few, all alumni of the department are employed either by others or in their own enterprises.

### WTCC LARGEST REGIONAL ORGANIZATION

ABILENE, June 27.—Report just completed on the 2th annual convention of the West Texas Chamber of Commerce held in Wichita Falls, April 25-27 shows the convention, the largest of its kind in the world, was self-sustaining.

Policy of the WTCC is to make the annual convention pay its own way and it is doing that, says Manager D. A. Bandeen.

Minutes of the business meetings, copies of programs, registration cards and badges are contained in the report. The minutes show 121 towns registered delegations, Abilene leading with 600 persons registered. Seventy-six towns were represented by their WTCC directors. Thirty-five bands, 29 town sponsors and 55 home town speakers took part in convention contest.

### STUDY OF ELEMENTARY EDUCATION AT U OF T.

AUSTIN, Texas.—Expanding facilities for studying elementary education problems should have a salutary effect on the whole Texas educational systems, in the opinion of Mrs. Cora M. Martin, associate professor of elementary education at the University of Texas.

"It has been only in recent years that we have devoted any attention at all to elementary education," Mrs. Martin pointed out. "We emphasize the need of college and university training, and then began trying to standardize and improve our high schools—all without seeming to realize that you cannot produce good high school and college students without beginning to lay the foundation in the elementary schools."

Within the last decade, however, the demand for consideration of elementary education problems has grown until the University of Texas now offers a degree in that field. This month, under the sponsorship of the Texas Elementary Principals' Association, the third annual elementary conference was held at the University as a feature of the summer session. Various authorities in this phase of work have been brought to the University to meet with the several hundred teachers of elementary education.

Mrs. Bob Brown and Mrs. Will Wright visited Wednesday in Lubbock.

Eddie Ballard and L. C. Green left Saturday on a two weeks vacation trip in New Mexico.

## What Is The Purpose of a Bank's Statement of Condition?

The purpose of a bank's statement of condition is to give to the proper Federal and State Banking authorities, and to customers and the public a report of the financial condition of the bank.

Our bank statement lists our assets and liabilities, showing what we do with our depositors' and stockholders' money.

Part of the money is set aside to maintain required legal reserves. A reasonable amount of cash is kept on hand to meet the daily business requirements.

Under normal conditions much of our deposits goes into active business use. A part is loaned to individual customers and well-managed business enterprises which help the general business life of this community. A part goes into government bonds and other sound, readily marketable securities.
