## Cpl. Buster Beck Reported Missing

Mr. and Mrs. J. M. Beck received a telegram Friday afternoon from the War Department, stating that since February 4, their son, Corporal Buster Beck, had been missing in flight. He was in the India Territory.

Corporal Beck was with the Anti-Air-Craft Machine Gun Co., and had been stationed in China about 30 months. He enlisted in the services of Uncle Sam December 5, 1940.

Mr. and Mrs. Beck have three other sons in the services, one stationed in Hawaii, one in San Diego, and one in Fort Bliss, El Paso.

## Sgt. Eulice Farrar in Hot Springs, Ark.

Reporting to the Army Ground and Service Forces Redistribution Station in Hot Springs, Arkansas, Sgt. Eulice H. Farrar is now living in one of the four major Hot Springs hotels acquired by the Army to house the new installation.

Sgt. Farrar, of Brownfield, returned to the United States recently after serving 30 months overseas in the Southwest Pacific. His wife, Marie, is staying with him in Hot Springs.

The couple is taking advantage program whereby wives of returnees may share hotel rooms at small cost.

He will be in Hot Springs for less than two weeks, waiting reassignment to active duty.

## Cpl. Tarzan Crossland Home on Leave

Atlanta, Ga., Feb. 26.—Marine Corporal Tarzan (Cq) N. Crossland, 23, son of Mr. and Mrs. Ed Crossland, Box 305, Brownfield, is home on furlough after 23 months in the Pacific as a member of the Third Marine Division.

He is a veteran of the fierce fight to retake Guam.

A graduate of Brownfield High School, Crossland left a job as a clerk to enlist in August, 1942.

His wife Mrs. LaFrazee Crossland, resides in Brownfield.

Mr. and Mrs. E. A. Graham and Twilla visited Mr. and Mrs. Seth Campbell on the Rafter S ranch near Kermit, last weekend.

## Twenty-five Men Inducted Last Week

## S/SGT CLETUS FLOYD RECEIVES PRESIDENTIAL CITATION

Mrs. Cletus Floyd received word that her husband, S/Sgt. Cletus Floyd had been presented the Presidential Citation in the European area.

Sgt. Floyd has been in that area the past 14 months. He is in the Ninth Air Corps, and is a mechanic on a Thunderbolt. Before going in the service he was employed at the Gulf station on the highway.

## Lt.-Col. Banks New Sr. Pilot World Famous "Jolly Rogers."

FIFTH AIR FORCE, SOUTHWEST PACIFIC.—New senior pilot of world's most famous heavy bombardment outfit, the colorful Jolly Rogers, is Lieutenant Colonel Wilson H. Banks,

of Brownfield, Texas. A veteran of seven years Army Air Force flying and administrative experience, Colonel Banks is now charged with the responsibility for the operation of this Liberator flying unit of the Fifth Air Force.

Recently assigned to the Southwest Pacific area after extensive service in the United States and South and Central America, his new outfit is known from Suez to Singapore as the most colorful Air Force unit in history. Not since the days of the Flying Tigers of China has such wide acclaim been given a single organization.

Sloganed "The Best Damn Heavy Bomb Outfit in the World," the Jolly Rogers record in more than two years of combat makes that claim substantial. Holding the world's record for enemy aircraft shot from the sky by heavy bombers, the Jolly Rogers have bagged more than 400 Nip planes definitely, 169 probably and 156 badly damaged. Their toll of Jap planes caught on the ground brings their total to more than 1,000 enemy planes accounted for.

In addition, the men Col. Banks is leading in combat have sunk or damaged half a million tons of enemy shipping in attacks from Rabaul to Borneo. First American heavies over the Philippines by day, the Jolly Rogers have paced every major aerial thrust in the theatre of operations.

Colonel Banks won his wings at Kelley Field, Tex., in 1939, and after serving at Langley Field, Va., went to the West Indies and South and Central America, where his duties included extensive submarine patrol action.

Returning to the United States in 1942, Colonel Banks served as officer-in-charge of heavy combat replacement training units. His most recent air base before arriving in the Southwest Pacific was Westover Field, Mass., where he served as deputy base commander and was in charge of that First Air Force Field's Liberator training program.

The husband of Mrs. Jacqueline Marsha Banks, 878 41st Ave., San Francisco, Calif., Colonel Banks is the son of Mr. and Mrs. W. F. Banks, Brownfield. He attended Texas Tech and later was employed by Ford Motor Co., in Dallas before entering the service.

## Jordan Motor Co. Changes Hands

Les Short of Eastland, and R. C. Osborn of Handley, have purchased the Dodge and Plymouth Agency, which is known as the Jordan Motor Company.

The two men took over the business yesterday, March 1st.

Mr. Short will be active manager, and will appreciate the continued cooperation of the public. He will move his family here as soon as a house is available.

Mr. Jordan has been the Dodge and Plymouth dealer here the past seven years. He bought an additional 1/2 section of land to add to his section east of Johnson, and will be busy there for a while.

## Judge Lincoln Tries A "Solomon" Case

County Judge C. L. Lincoln and other officials, tried a "Solomon" case last Thursday. A young Negro reported that her mother-in-law had snatched her baby from her arms, took it from her house and wouldn't return it. She was notified to come and see about the baby, and both women with the child and others, came to the courthouse.

The woman claiming the child was her's, and wanted it so she could go back to middle Texas. The grandmother claimed it because she had kept it most of its two years life, and it's father, now in the army, wanted her to keep it, making his allotment to her. That keen and everlasting mother's love, is not, by any means, limited to the white race alone. There was pathos behind their simple worded arguments.

The Judge, having no legal authority to dispose of the pickaninny, and the officers not desiring to file criminal charges, they were ordered to go home, and try to settle the case among themselves, and return to the courthouse Saturday. No further reports were received, and it is presumed they did just that.

## Mrs. Doris Turner Received Word from her Husband, Sgt. J. A. Turner, who is with General Patton's Third Army in the Medical Division of the Tank Battalion, saying he had recently received the Bronze Star.

Mrs. Doris Turner received word from her husband, Sgt. J. A. Turner, who is with General Patton's Third Army in the Medical Division of the Tank Battalion, saying he had recently received the Bronze Star. Sgt. Turner has been across since September. He is the son of Mr. and Mrs. J. L. Turner of Meadow. Mrs. Turner is employed with the Soil Conservation office here.

## School Census to Be Taken in March

During the month of March the school census for the Brownfield Consolidated Independent School District will be taken. It is very urgent that every child between the ages of 6 and 17, inclusive be enumerated. The school will receive about \$29 for each child enumerated, plus certain extra allowances for school expenses. It will probably cost the school about \$40 for each child living in the district who is not enumerated.

We will do our best to see that your child is enumerated, but in case your child is missed, please send to the Superintendent's office for a census enumeration slip and we will see that one is sent to your home. Call 157-J and give us the names of children of school age that might have been missed because they do not go to school.

We will especially appreciate the cooperation of parents who have children who will start to school for the first time this fall. We have other records that help us get the names of children who have been in school, but it is very hard to get all the 6 year olds.

T. E. McCollum, Supt.

## Purse Snatcher Held For Investigation

A Mexican was held for investigation this week for purse-snatching, at the Gulf Wholesale Corp., Saturday afternoon.

A customer was paying a bill and turned around, a Mexican had disappeared and so did the man's purse. Later he was apprehended and brought in to officials by Lee Espiros.

## Meadow Boy Helps Keep Roads Open

Pfc. Kenneth W. Wright of Meadow, a bridge builder, with the Fifth Army in Italy, is a member of the 39th Engineer Combat regiment. His unit is currently holding open route 65, main supply route for the Fifth Army. Col. Thomas E. Green, of Austin is their commander.

Besides building bridges and repairing roads, the 39th has three amphibious operations to its credit and has often functioned as infantry.

Its 1st Battalion landed on D Day at Gela, Sicily, with ranger units and was soon afterwards joined by the rest of the regiment. The 1st Battalion again went ashore with spearhead units that established the beachhead in Italy at Salerno. The entire Engineer regiment was employed as infantry on the Anzio beachhead, where it was landed January 24, 1944, two days after D Day, and held the right flank, along the Mussolini Canal, until relieved by Special Service forces.

The 39th has, in Italy alone, built 129 bridges, 77 bypasses, 123 culverts, 24 major road blocks, seven airstrips and a floating footbridge.

The engineer built 97 bypasses and shoveled rubble in seven cities during the 38-day Sicilian campaign.

## Judge Louis B. Reed Back On Bench

District Judge, Louis B. Reed, who has been serving as Lt. Colonel in the army at Ft. Sill, Okla. for the past three years, has been released from further military duty, and re-assumed the bench in district court here Thursday.

During his absence, Judge J. E. Garland, of Lamesa, has been serving as special judge.

The grand jury was also in special session, Thursday. Several uncontested cases were disposed of.

Lal Copeland was a business visitor in Amarillo, the first of the week.

Christene McDuffie of Texas Tech, visited last weekend in the home of her parents, Mr. and Mrs. Dick McDuffie.

## Weatherman Used All Trick in His Bag

Well, some of the old timers that laid themselves liable to be classed with the fool crowd, and predicted that the spring like weather we were having all through February, when some nights there was no need for a fire, were right again. Remember, they told you, if you would listen, after you got through telling them what a fine day it was, "Oh yeah! You just wait brother, and one of these days it will break loose with something that will remind you of the Baffin Bay area."

And it did. The Weatherman began to get set Sunday for a knockout punch. The air was heavy and cooler, clouds began to thicken, and during the night there was—here's the list: Rain hail and some sleet, and two big pops of thunder. Kinder misted around all day Monday, and there was talk of an ice storm with broken limbs on our shade trees to cut off and let 'em start again.

But about nine Monday night, snow began to come down like the old woman picking her geese in the air, and continued until around midnight, and stopped. West Texas Gas Co. station reported a low of Tuesday A. M.

We calculate there was about an inch of snowfall. But what about that thunder in February? We got this idea back in Tennessee instead of in west Texas, and by the way it thundered not once, not twice, but dozens of times on two or three occasions when we were back there last February. "A freeze in May follows thunder in February," was the old saying back there. But that younger generation back there now, didn't seem to pay much attention to that old prediction, and frankly, if they had a very bad freeze in May last year, they failed to write about it.

We have known it to thunder many times in February, here, but by May we have forgotten all about the matter. However, we have seen several freezes, not to mention heavy killing frosts here in May. So, better be prepared to cover your frame garden some night in May, we can't say just which one, as we have no; consulted our Ladies Birthday Almanac.

## War Fund Chairman of the American Red Cross, C. L. Lincoln, announced the drive for Red Cross funds in Terry county, will officially begin next Tuesday.

A meeting of all workers is to be held Tuesday at 10 A. M., at the court house, this includes volunteers and everyone who will aid in this drive. Committee have not been announced, but expected to use the same who so successfully put last years drive over the top. Judge Lincoln and Leo Holmes are working on plans to be announced at the meeting.

The step-up on the battlefronts the past two months, with heavy casualties, and the likelihood of considerable more in the immediate future, requires increased activity on the part of the Red Cross to keep up its part of this gigantic war.

The makers of guns, ships and planes don't make bandages. The seamen can't furnish them, only carry them over. The boys at the front can rescue, but not heal the wounded. There is a great mission for the Red Cross, it increases with the severity of battle. There is greater need now for Red Cross funds to carry on its increased mission.

The quota for Terry county is \$9,900.00. Let us be among the first to meet the quota—and more.

## Course in Evangelism At Baptist Church

The special course in Evangelism is off to a good start this week. Enrollment will exceed 100, and excellent interest is being evidenced. March has been set in the church for Church-Wide enlistment and cooperation. Good progress in this respect is already noted and much better progress is anticipated. March will culminate in a revival in the church, March 25 to April 1st, which will be held in cooperation with the community-wide week of religious emphasis and revivals to be held in the churches of the city, the majority of whom have indicated they will cooperate in this movement.

The pastor will leave Monday for Lawton, Okla., for a revival meeting in that city. In his absence, Rev. George Dale, of Lubbock, will serve in the church as supply pastor. Rev. Dale is well known to the church and in this section, having served in the Brownfield Association for some 9 years as pastor, formerly at Tahoka.

Baptismal services will be held at the evening hour, Sunday. All candidates awaiting baptism are urged to be present for this important ordinance.

Go to church Sunday—attend the services where your responsibilities call you—casualties are mounting on all battle fronts of the world, and the price of war pyramiding with the advance of time. The providence of the Eternal can alone bring peace and rectify the mistakes of men—why not prove your loyalty to your professed faith through your church attendance, Sunday.

## Levelland Refinery Sold to Cooperatives

Purchase of the Motor Fuel Corporation of Levelland, including its refining plant and facilities by the farmers and cooperative Association of Texas, Oklahoma and New Mexico, was announced this past Saturday by Leonard F. Cowden, general manager of Consumers Co-operative Association.

The 5,500-barrel-a-day refinery, including a modern topping plant, a cracking unit, Ethyl blending plant, Perco diesel desulfurization unit, 150,000 barrels of storage, 120 acres of real-estate, and all the rolling stock, office facilities and buildings incorporated into the physical equipment at the Levelland location. The plant is served by the Slaughter oil pool, 14 miles southwest of the refinery through a direct gathering system.

Officers of the new concern include Wood E. Johnson of Brownfield, Joe Denton Jr., of Levelland, who has been manager for the past five years, will continue in that position.

## Dewey Drennan Gets Sergeants Rank

An Eighth Air Force Bomber Station, England: Dewey R. Drennan, the 21 year old son of Mrs. R. M. Coor, of Brownfield has recently been promoted from the rank of corporal to sergeant.

Since his arrival in the European Theatre of Operations on January 17, 1945, Sgt. Drennan has been serving with the veteran 305th Bombardment Group as an engineer on a B-17 Flying Fortress heavy bomber.

He participated in the February 3 Eighth Air Force bombing attack on Berlin, in which the German capitol received its heaviest pounding of the war. Over 1000 Flying Fortresses dropped 2500 tons of bombs on government buildings and rail centers, starting fires in the city.

Prior to his entrance in the AAF on September 15, 1943, Sgt. Drennan was employed by the Southern Aircraft Corporation.

## DO EAST TEXAS POLITICIANS BELIEVE IN THE AMERICAN WAY OF LIFE?

(An Editorial)

Representative Preston E. Smith, of the 19th was at home at Lubbock over the week end, and from his conversation with reporter of the Avalanche, Smith has little faith in either representative, senatorial or even judicial redistricting. Reason: Being blocked by representatives and senators from north and east Texas. After waiting more than 25 years, following the census of 1920 for redistricting, those east Texas gumps offered some very lame excuses. One of them, "let's wait now until after the 1950 census"—and then, we suppose another ten years. Still another, "let's wait until after the war, and everyone goes back to their permanent homes, including the ex-service men." But, who'll know how many went to this or that town or county?

If we recall history aright, way back in 1775, our people, mostly living along the Atlantic coast, became tired of paying high taxes on this and that, when they had no representation in the English parliament in which to air their grievances. They quit paying taxes. It took eight years of war to convince the British that they could not collect unjust taxes, and besides, lost a valuable colony by their covetousness. Ever since that time our nation, with few exceptions, has always had equal representation for their people. All states that we know of, promptly equalizes congressional, state and district representation. But, as we said above, there are a few exceptions—here in Texas, for instance.

Just last Monday night, our time, Gen. Douglas McArthur promptly turned back the civil government of the Philippines, back to the people of those islands, after freeing most of them from Jap slavery. Western Okla. nor any part of New Mexico have any trouble in getting, just and proportionate representation from their governments. Most states have congressmen-at-large only until their legislature meets; the same redistricting occurs for the state representatives. Here in Texas it usually takes from 20 to 30 years for west Texas to get a square deal from their own people.

Some people don't seem to give a darn about the matter. If so, they don't even whisper the fact, much less scream it. Personally, if the Herald had its way and joined by the big majority, all the state taxes from west Texas would stop its flow to Austin till those burrheaded squirrel hunters took a notion to give us equal representation for equal taxation. Well, maybe they would send the "law" out after us. Not if we had the guts and backbone our forefathers had. Just tell those birds down Austin way to come and get it if they feel able.

They wouldn't come, but the lousy rascals would assemble at Austin right quick, when they found we had decided to quit donating. West Texas for years, yea, for too long to remember, has paid more than its just share of the state taxes, including taxes to keep the big university, the

On account of late or uncertain shipments of rationed shoes OPA are allowing dealers until March 10th, to dispose of odd lot shoes unrationed. But they are warned to keep a special account of these sales.

Here is one reason that cigarettes are scarce and may taste differently. American men and women paid more for cigarettes last year than they did for electricity, and the figures to prove it is given. Gross receipts of cigarette manufacturers last year, in round numbers was \$1,500,000,000. Gross receipts for electricity was less than by 3 hundred million.

If the American people soften up again and permit their representatives to hand them another loss at the peace table, our country has no other reason to expect anything but having h-bombing out of us some 20 years hence, after the Japs and Hunns rebuild their war implements. It may take just such a fete as that to remind American people in sections of the country with large foreign born populations, to go to the polls and keep all isolationist, either outspoken or pussy-footing, at home. Send men to Congress who are American and have some intestinal fortitude.

Lots of local people may not know it, but letters we receive from servilemen, parts of which we do not print, as well as what other people tell us about letters they get from their sons, husbands, brothers and sweethearts in the service, many of the boys, especially those in the jungles and fox holes, are using the Herald and other papers to make up kind of blacklist of people here at home. The boys may be so glad to get home that they will soon forget. But all of us better be on our guard and watch our steps. Service men devour every word in their home town papers, even the ads. And they read between the lines how you are spending your time.

The "by-passed Japs" on the Islands in the Pacific simply refuse to wither and dry up on the vine. The Aussies are having to root them out pill box by pill box. cave by cave, and they still put up a scrap and kill our men. And lest we forget, the Nazis still hold some important French channel ports and are still shooting across at England with big guns and rockets. But we just don't seem to need these ports bad enough to stop to clear them. However, the Russians seem to have enough men to spare to scrap it out block by block, house by house and often floor by floor with pinned up Hunns.

This week, we had a small announcement, comparatively speaking, about 2 pages, instead of dozens, from the board of regents of the University of Texas, sent out by the acting president, Dr. Painter, who is taking fired Mr. Rainey's place for the present. And the announcement was very different from that we usually get from that noisy minority of ex-students, students, and some of the faculty. This article, at the outset, acknowledges that the University of Texas belongs to the people of Texas, and not to a small number of people centered around Austin. And, reading between the lines, one can see just a gentle hint to outside state colleges and that they can run their own affairs.

**C**otton is many crops, rolled up in one. Cotton Fiber, important as it is, is only one of the products of the Cotton plant—Cottonseed Oil, Meal, Cake and Hulls and Cotton Linters are all valuable, needed products. Because of these varied products, there are always markets for Cotton and Cottonseed—more markets and more dependable markets than for any other crop Cotton Belt farmers grow.

To hold your markets, we've got to supply them—we've got to produce enough Cotton and Cottonseed, and produce the qualities and kinds that buyers want. Enough acreage of good land, good planting seed, conservation farming, prevention of insect and disease losses, and other sound practices that bring you higher yields and more money in your pocket will also help you hold your many markets for Cotton and Cottonseed.

The OPA reminds the public that it takes a person ten times as long to appear before the rationing board in person than it does to mail in requests for gasoline, food and other coupons. And, too, the public should realize that members of the rationing boards, who are perhaps all busy business men, don't like for you to corner them in their places of business to make requests and ask questions. Apply at the board offices, and application blanks will be given you.

Which reminds us too that we are all going to have to be a bit less sweet-toothed than last year. There will be allowed only 20 pounds sugar per capita for canning purposes, and only 160 lbs this year per family, no matter how many over 8 are in the family.

The midnight brownout is being protested in some quarters, we understand, with the lame excuse of entertaining servicemen. Most of servicemen are in their bunks at 9 P. M. And, to be perfectly fair, all working people should follow suit, at least be at home by that hour, or they just are not capable of giving their best to the job next day. Too, it appears that the matter narrows down to people who don't have a job, and with gobs of money to spend. We might also state that our men overseas are wondering about the high heel time some people here at home are having. They tell us that the word "curfew" comes from either two old English or French words, which translated into modern American, simply means, "cover the fire". Well, the boys overseas cannot sometimes ceasing their "firing" at midnight, but they have a right to think we should dim our light, cover the fire, go to bed and behave.

**City Ordinance Number 1188**

THE STATE OF TEXAS  
COUNTY OF TERRY  
CITY OF BROWNFIELD:

An ordinance requiring the owners of dogs in the city of Brownfield to pay a dog tax on such dogs and prescribing a penalty for the failure or refusal so to do after notice.

BE IT ORDAINED by the City Council of the city of Brownfield: SECTION 1: That the owners of dogs in the City of Brownfield shall be and are hereby required to pay a tax annually on each of said dogs.

SECTION 2: That the tax levied against each said dog shall be \$1.00 per year.

SECTION 3: That the City Secretary of the City of Brownfield shall issue to each person a tax receipt or tag for each dog on which a tax is paid; provided however, that before said tax can be paid and receipt and/or dog tag issued said City Secretary shall be furnished by such dog owner with a statement signed by a veterinary surgeon showing that such dog has been vaccinated against rabies within 30 days before application has been made to pay for said dog tax.

SECTION 4: That on or after the passage of this ordinance and notice any dog found running at large within the corporate limits of the City of Brownfield, shall be impounded or killed by the City Marshal.

SECTION 5: The fact that the City of Brownfield does not have an adequate dog ordinance; that a great number of dogs are running at large in the corporate limits of the City of Brownfield some of which are reported to be affected with rabies creates an emergency and imperative public necessity requiring the suspension of the rule that ordinances shall be read at three meetings of the City Council suspended and this ordinance is put upon its final reading and passed by a vote of 5 ayes and no nays.

Signed and approved by the Mayor, attested by the City Secretary this 23rd day of February, A. D. 1945.

Jesse D. Cox  
Mayor of City of Brownfield.  
Attest: Herbert Chesshir  
City Secretary 1c

**Pneumonia Death Rate Still Too High**

Austin, Texas, Feb. 14.—According to Geo. W. Cox, State Health Officer, pneumonia caused over 2,800 deaths in Texas last year, a reduction over the previous year but still too high. It is more prevalent in the winter and spring months.

Pneumonia is usually caused by a germ called pneumococcus, which many of us have lurking in our throats ready to start the trouble when our resistance to it is lowered. We can keep up our resistance by avoiding undue fatigue and avoiding unnecessary exposure to extreme weather conditions. When we go out into the cold, additional wraps should be sufficient to protect us. Keeping the temperature of our homes as low as is consistent with comfort will greatly lessen the difficulties encountered in adjusting ourselves to the cold when we go out.

Another method in prevention in pneumonia is not to neglect a cold, for the common cold often results in pneumonia when neglected. A person with a severe cold should stay at home and call his physician as a precautionary measure. Then he should follow his physician's advice until the cold has disappeared.

The successful treatment of a pneumonia case often depends upon beginning treatment very early. That is why a physician should be called at once in such cases. A patient may really have beginning pneumonia when he thinks it is only a cold. If the physician's advice is sought for the cold he will have an opportunity to start treatment early if pneumonia occurs in such cases.

**Do Fruit Tree Blooms Kill When Coated With Ice?**

Some authority gave out his views in Lubbock's Monday dailies, to the effect that when peach and other blooms are covered by ice or snow, they do not get killed. Perhaps that authority knows his okra, but based on facts, his ideas don't always stand up in this man's country. However, we will admit that we have seen ice coated blooms go through 18 to 22 weather, when a dry freeze of 26 degrees would get them.

And we have seen fruit killed in midwinter here, time after time in the 36 years we have been on the Plains. At the right time they would bloom out as nice as you please, no cold weather followed, but there was no fruit. The buds were killed back in December or January.

In view of the fact that lots of trees in the Brownfield and Seminole area have already bloomed this year, it remains to be seen what effect ice covering had this time. We hope it got through, as we need the crop badly. We've seen young peaches as large as the end of your little finger frozen in April several times and in May one year.

So, better not count your chickens now

**Navy Killed 5 Times All Previous Wars**

More than five times as many Navy men have been killed in action during the present war as in all previous wars the United States combined.

Statistics from the Office of Naval Records and Library in the Navy Department show that total Navy losses in all wars involving the United States from the American Revolution through World War I amounted to about 4,232 killed in action. In World War II, 22,481 men of the Navy alone, excluding the Coast Guard and Marine Corps, have been killed in action, the Navy casualty report of February 12 reveals.

Only 412 Navy officers and men were killed in action during World War I.

**Behind the Scenes in American Business**

—BY JOHN CRADDOCK—

New York.—The investment firm of Merrill Lynch, Pierce, Fenner and Beane has made a valiant attempt to calculate all the imponderables which enter into the cost of war and has come up with the estimate that World War II has cost participating nations one and one-quarter trillion dollars to date.

This total includes the destruction as well as the actual cost of the war in production. In round figures, it's estimated the United States has spent \$240 billion, Britain, Russia and China each \$100 billion, and other United Nations together \$300 billion. On the other side, the Axis have poured out over \$300 billion—a figure, it is pointed out, which is out of kilter because of low wages, slave labor and an infinitely lower standard of living.

In order to try to grasp the significance of these tremendous outlays for destruction, we might note that the trillion and a quarter total is more than five times the estimated national income of the U. S., about four times the greatly expanded national debt and 200 times the assets of the world's largest commercial bank. The sum spent by this country alone is so large that it would be sufficient to buy each of America's 35,000,000 families a \$5,000 home, a \$1,200 car, a \$500 piano and a \$150 radio.

Mr. and Mrs. L. B. Robinson visited Sunday in the home of Mr. and Mrs. V. A. Bynum.

Mr. and Mrs. Chas Leonard, of Sonoma, Calif., former Terry county residents, are announcing the arrival of a granddaughter, Penelope Ann, born Feb. 2nd, to Sgt. and Mrs. D. M. Urwin. Mrs. Urwin is the former Miss Louise Leonard. The Daddy is somewhere in the Dutch East Indies, doing a good part for Uncle Sam.

Beverley Ann Swim is out of school due to leakage of the heart. She is under medical care in Crosbyton, and would love to hear from her classmates. She is the daughter of Mr. and Mrs. L. E. Swim.

Marchbanks With Armored Division

T/4 M. P. Marchbanks, son of Mrs. W. R. Marchbanks, is fighting with the 12th Armoured Division commanded by General de Lattre de Tassigny. "The Stars and Stripes," daily newspaper of the U. S. armed forces in the European Theatre of operations, carried an interesting article Feb., 6, about how French and American troops met at Rouffach to cut off the last escape route of isolated German elements to the west. The junction was made at 5:30 A. M. by the U. S. 12th Armoured Division, coming up from the north, and the 4th Moroccan Mountain Division of the 1st French Corps, coming up from the south.

W. R. Marchbanks, another son of Mrs. Marchbanks' is a Marine in the Pilau Islands, His brother W. W. (Peanut), is a local farmer.

THINGS TO COME

Sun glasses that also sharpen vision when confronted by dull light conditions. This feature is incorporated in a new lens developed by the American Optical company for the Army Air Corps to enable pilots to detect targets and terrain obscured by haze—Bathrooms equipped with showers in which the temperature of the water is automatically regulated—Television as a substitute for policemen in vehicular tunnels. Cameras placed at strategic points would flash continual pictures of the tunnel to observers at each end, permitting quick action in the event of traffic tie-ups.

Juanda Ruth Turner, student of Baylor University, Waco, arrived yesterday to spend the weekend with her parents, Mr. and Mrs. A. W. Turner.

DEMAND FOR TEACHERS ACUTE, SAYS U OF T

Austin, Texas, Feb. 27.—Even though the University of Texas had 2,866 calls for teachers during 1944, The Teachers Appointment committee placed only 363 teachers, Miss Marian Dozier, secretary of the committee, declared recently.

Registration with the committee totaled only 473, as compared with 1,000 to 1,200 in pre-war years, she said.

Along the "Route to Tokyo"

13,093 miles of track serving the Southwest Santa Fe, as the map above shows, is an important lap on the "Route to Tokyo." That's why, during the past several months, travelers have seen armies of "Men at Work" all along our lines.

Curves have been ironed out so trains may get around them faster.

New Diesel "head ends" are pulling bigger loads up mountain grades.

Ingenious Centralized Traffic Control Systems have been installed at important points so the same rails can carry 50 per cent more traffic.

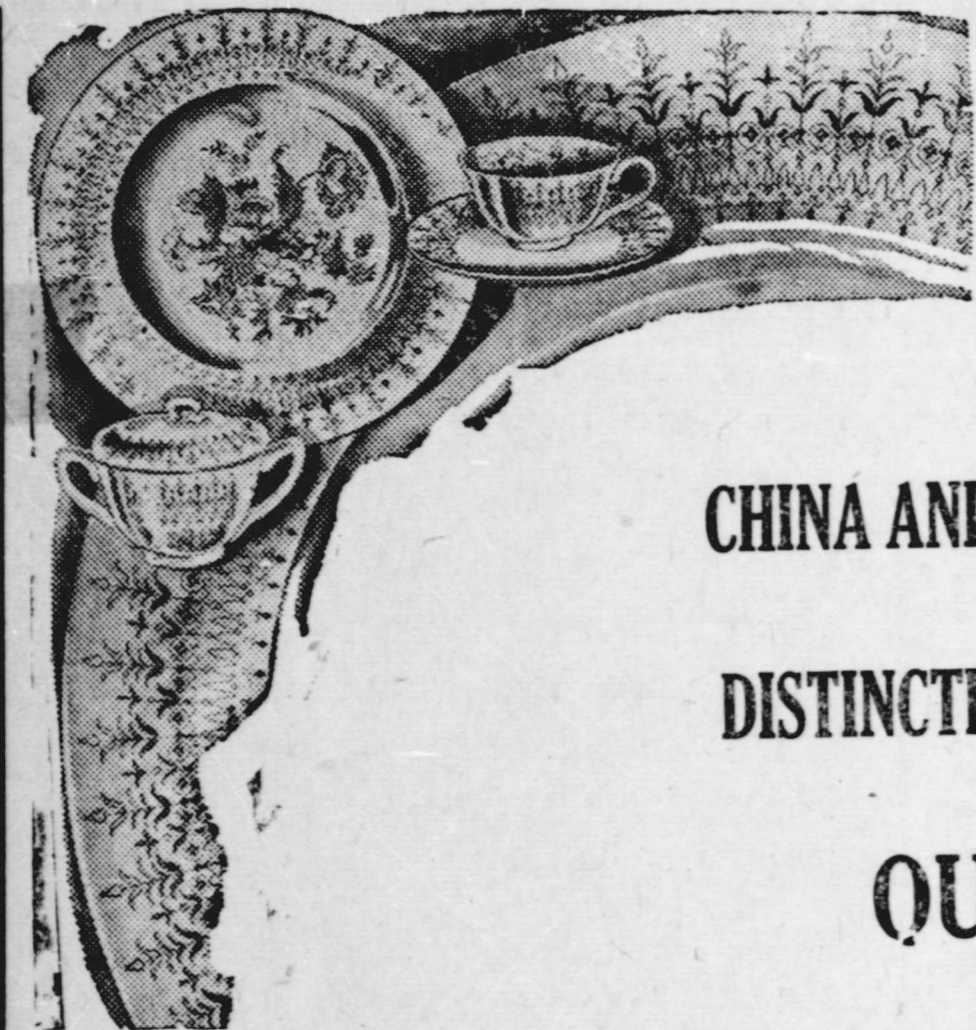

A new Santa Fe bridge is now being built across the Colorado River.

We have enlarged our capacity to meet the increasing loads of war. There will be no slackening of our job until the war is completely won.

Warrant Officer L. A. Bailey, who has been stationed the past year on the Admiralty Islands, surprised his wife and son Jimmy, Sunday afternoon by coming in unexpectedly.

A word to housewives: don't cook vegetables in such large amounts that several servings are left over. Reason, Vitamin content is lost, says the State Nutrition Council, which has headquarters on the University of Texas campus. It is better not to cook a surplus of vegetables, because Vitamin C, especially if lost as vegetables stand and are reheated.

**J. W. BOLLAND DIED LAST FRIDAY**

J. W. Bolland, aged 77, living in the south part of the county, died at his home last Friday. The body was buried in the Brownfield cemetery following funeral at the First Baptist church here, conducted by the pastor, Rev. A. A. Brian.

He is survived by his wife, three sons, including Johnny Bolland, who resides in Brownfield, and two daughters. He lost his vision a few years ago.

Mrs. Myrtle Gerst, mother of Mrs. Ralph Ferguson, is visiting in Fort Worth and Dallas, this week.

**"Compassion Day" at Methodist Church**

The local Methodist church is observing "Compassion Day" Sunday, March 4th, along with all other Methodist churches of the world. By this day, the entire denomination expect to lay \$25,000,000.00 on the altar of the church for human relief in 50 countries of the war devastated world. The quota for the local church is \$1,875.00. But all are to think of the need of the world for Christian charity and give as largely as they are able.

This fund cannot rebuild the destroyed hospitals, schools and churches of China, Korea, Burma, the Philippines and Pearl Harbor. Restoration of building will have to come later. But this will bring home for rest and hospital treatment imprisoned missionaries, and bring together the scattered native church leaders. It will give medicine and relief to thousands who would die without such help.

This relief program is part of the five point Methodist "Crusade for Christ," adopted by the last general conference to run through the present quadrennium. The other points of emphasis have come first in the Brownfield church. They are enlarging the church school and preaching service attendance; having more conversions and additions to the church; cultivating a sense of stewardship and mission, and helping to create a Christian world order where Christ takes his rightful place in the heart and life of the people.

The pastor's subject is, "Try Religion in Running Our World."

Mrs. W. L. Betchel is visiting her daughter, Rose, and new grand-daughter, in Tennessee, this week.

W. E. Brantley of Rt. 1, came in this week to renew and subscribe for other good reading magazines.
