Seaman Reed and Dad Visit the Herald

Will H. Reed BM 2-C is here on a 30 day furlough visiting his parents, Mr and Mrs. J. F. Reed, who live on a farm 6 miles east of town. He has spent 42 months of continuous duty in the Pacific, aboard the USS Sunnadin ATO No. 28. Reed said no one could realize how proud he was to set his feet on US soil again. A battlewagon had brought him to the coast, along with about 1600 other men, mostly Marine casualties.

His ship went to Pearl Harbor about 1922, and had been making trips in and out of PH since. Its job for about 9 months after the blitz was towing in mine sweepers and helping other ships in and out of the harbor. They also had helped to tow in the three battleships to the docks, raised after the Dec. 7, 1941 sneak attack. During 1943-44, they towed cargoes in barges, to outlying islands, laying within 1500 miles of Hawaii.

Seaman Reed stated that it got to be a bit jittery out there at time when they would contact a sub that couldn't properly identify itself. He stated that he had been away so long that he might accidentally pass some one on the streets that he knew, and if he failed to speak, make themselves known, as he wanted to see as many of his old friends as possible. He expects his discharge in about three months.

Neill Burnett and Bride Visit Here

Neill Burnett, who two and three years ago, played center on the Cub football team, surprised his grandparents, the Geo. W. Neills, and other friends Wednesday afternoon by dropping in for a short visit, and with a new bride, of whom a Phoenix, Ariz., paper had this to say:

"Facing a 21' day separation by furlough, was just too much for a pair of Glendale-sweethearts, so when Miss Alice White, daughter of Colonel and Mrs. Newman White, accompanied Cadet Neill Burnett to the train, for his visit to Texas, they decided to elope, in true story book style, so driving the old family car allotted to her to attend Junior college this fall, they just drove on to Mesa, and found a willing J. P., then after wiring back to Colonel what happened, drove on to Texas, receiving forgiveness enroute.

They visited his parents, Mr. and Mrs. C. T. Burnett in Abilene. Neill is a cadet in the Luke Air Corp, near Phoenix.

Sonny Walls and Swadniak Box For Sailors Aboard Ship

On September 11th on the quarterdeck of the U. S. S. Tennessee at a smoker given for those on the Tennessee and the U. S. S. New Jersey S1/c R. B. Walls of Brownfield, who is on the Tennessee and Swadniak, who is on the U. S. S. New Jersey, put on one of the numbers of the boxing matches. Swadniak was knocked out in the second round.

Here is what the navy says about Sonny Walls: "The very popular bulldog of the ship is that human dynamo, R. B. Walls, S1/c, 135 lbs., the pride of the 11th division. A tough puncher with either hand, he hooks or jabs with the best of them. Without question he is the hardest working little man we have seen in the ring in a long time."

Seaman Walls is now in Okinawa but will take a cruise around the world on the U. S. S. Tennessee in the near future, and is expected to land in Boston sometime between Dec. 1st and 15th.

AAA CLOSING ON SATURDAYS

Beginning this week the AAA will be closed all day Saturday, but will be open the other five days of the week instead of closing Wednesday afternoons as it had previously been doing.

What Holiday Will Be Used For World War II?

There is no question whatever that November 11th will always be called Armistice Day. World War I, veterans will always see to that, and after they have passed on and gone, their offspring and friends will keep it going. So far as we can see, there will always be a holiday each November 11th.

But what is to become of V-E and V-J Days? As most all know, the V-E day came on May 8th this year, but our war was then said to be just half over. So, President Truman declared V-J, or victory over Japan to be Sept. 1. Will there be two celebrations of that, or will there be a compromise? The shooting war was officially over Sept. 1, but if we have another next May 8, we are soon going to have as many holidays as the Spaniards and Mexicans.

Of course there is not much to do about the matter until those days arrive again next year, and in the meantime enough of the old World War I holidays are home to form an organization, and set up a day to be observed as the official War End day. It can hardly be called an armistice this time, as both the Germans and Japs surrendered unconditionally.

We have just been wondering, but it remains for those who have actually participated to say what day or days will be celebrated.

DISTRICT COURT HAS BUSY SESSION

District Court which recessed a week ago, resumed work here Tuesday, by finishing the trial of R. C. Kennedy versus Mr. Little, as result of crop payment plan contract. The jury found on special issues for the defendant. Wednesday began the trial of a group of west side residents, against a local slaughter pen operator, object to have the institution removed. A large number of witnesses was summoned for both sides, and the trial attracted considerable attention. The jury had not returned a verdict late Thursday afternoon.

ARCHIE KARR RM 2/C

The above cut was expected in plenty time for last week's Herald but of course made it in Friday instead of press day. Good looking Gob, ain't he?—Ask Helen.

Ceyton Crow, Jr., enjoyed a picnic in McKenzie Park in Lubbock, Monday evening. Pvt. He left Monday from Lubbock to report to St. Louis, where he will get his overseas assignment.

Mrs. C. C. Primm and Shelia Kay, spent last week visiting her parents, Mr. and Mrs. J. C. Hunter, in Roswell. Mr. and Mrs. Hunter returned home with her to visit here for several days.

Brownfield State Bank Celebrated Its Fortieth Birthday, September 26th

Forty years ago on Wednesday the 26th of Sept., a brand new institution opened for business in the little pioneer town of Brownfield, 100 miles from the nearest railroad point at Big Spring, and by wagon freight at that. A. M. (Dick) Brownfield was the cashier. It came very near being the newest institution of the kind in the entire state, as the State Bank

J. O. GILLHAM

law had just been passed, and the Brownfield State had the first application in as No. 1. But there was just enough wrong with the application for a charter that it had to be sent back here for correction of error, and it had to be No. 27 instead. There are several hundred state banks now.

Looking back to the issue of the Herald of October 20, 1905, we found what appears to be the first official statement of the little bank. And it was small comparatively speaking to the present institution. It was located in a small building perhaps 24x30 feet on the southwest corner of the square, but not the two-story later put up across the street where Piggly Wiggly is now located. The later building is now known as Commerce Hotel.

Extracts from the first statement was as follows:

Resources	\$13,560.10
Surplus	10,000.00
Deposits	3,560.10

Most of the resources was cash, as they had more cash than deposits. The late pioneer, M. V. Brownfield was the president, and as noted above, Dick was the cashier. W. J. A. Parker, J. R.

Coble and Dick were listed as directors. At the present time the bank has more than five million dollars on deposit.

The present setup of the bank consists of Will P. Edwards, as chairman of the board; J. O. Gillham, President; Leo Holmes, Active Vice-President; Jno. S. Powell, Vice-President; Bruce Zorns, Cashier; J. E. Gillham (in the service) Assistant Cashier; Elizabeth Upton, Assistant Cashier and Secretary.

Other personnel, are, Tellers: Daurene Hoover, Melba Adamson and Jaqualine Thompson, Bookkeepers: Oleta Leach, Myrtle McGee, Etta Lou Miller. Darlene Turner, Secretary; Wanda Hendricks, general books; Ova Hendricks, proof clerk and Dora White, file clerk.

When the writer landed in this city 36 years ago last January, W.

LEO HOLMES

A. Bell was the cashier, and the little bank had grown in the four years that its total deposits had reached around \$60,000. For several years, or until War I closed, the deposits were rather stable, but began to shoot up in the twenties, and have consistently climbed since that time. The bank has always been headed by men with a forward outlook.

As one of the two oldest business institutions in our city and county, the Herald takes this opportunity to congratulate its old pal and personnel, the Brownfield State Bank, on its 40th birthday.

Lions Club to Sponsor Annual Carnival

Plans are in the making for a bigger and better Lions Club Carnival to be held here Oct. 11th, 12th, and 13th. This very worthy organization for the past several years has sponsored a carnival and the proceeds all go for benevolent and useful civic improvement — many children are yearly fitted for glasses and have other work done that the parents are unable to have done.

Give them your support, make this one of your banner years in total proceeds. Its worthy of your support.

Co-Ops to Stage Big Barbecue Dinner

The Herald has been requested to publish the following notice: To customers who are interested in the Co-operative movement: You are invited to attend a noon day barbecue dinner, given jointly by your local Co-operatives and the Purina Feed Mills, at the Co-Operative Feed store, in Brownfield, Texas, on Tuesday, October 2, 1945. We are expecting you.

SHERIFF HAS WOMAN IN JAIL HERE

Cubs Turn Back Lamesa By A Close Score Of 12-9

In their second start this season the Brownfield Cubs turned back the Lamesa Tornadoes by a close score of 12-9.

This game similar to the first was slow with many substitutions and many penalties being called, mostly on Brownfield, however, the Cubs out played the Tornadoes all through the first half, the score being 12-0 at the end of the half. But the last half was mostly Lamesa as they scored all nine points in the last half, a touchdown, and a safety, final score 12-9 in favor of the Cubs. Both the Cubs and Tornadoes are AA class teams.

Today the Cubs are playing their third game of the season in Roswell, N. M. against the High School Div. of the Military Institute there. This game will really try the metal of the Cubs as Roswell is said to have a very good team. The Cubs starting lineup last Friday was: Ends, Bond and Bailey; Tackles, Jerrel Price, and Donald Price; Guards, Pharr and Adams; Backs, Franks, Tailback, Chambliss Blocking back, Martin, Full back, and Eicke, Quarter back with Dalton at Center.

Many substitutions were made from the following roster: White, Hamilton, Doss, McDuffie, Jones, Harris, Vernon, Quante, Thompson, Erwin, Ellis, Jackie and Jerry Worsham, Key, Black, Tankersley, Burk, Wheatley, Ray, Johnson, King and Lewis.

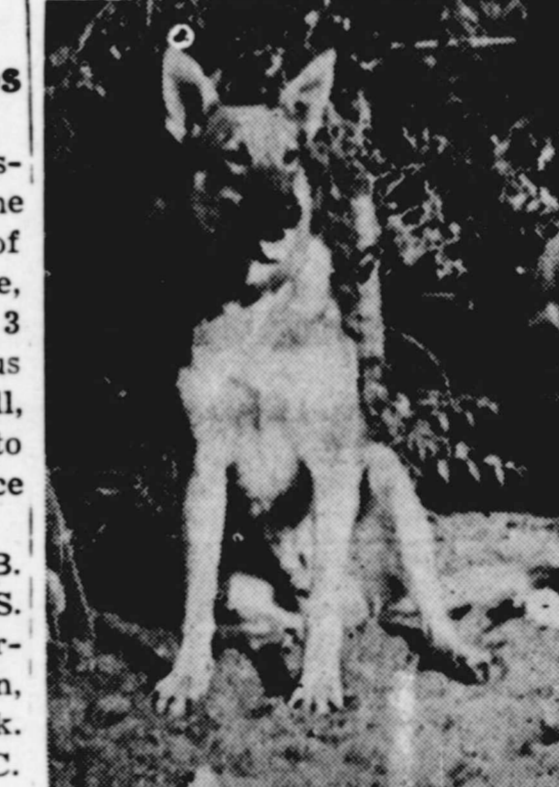

The next home game will be October 12th when the Amarillo Sandies come here.

War Fund Drive Begins Monday

Local War Dog Had To Be Killed

Mrs. H. M. Brock was in this week and showed us a letter from Major John J. Grimes of the War Dog Reception Center of Cats Is-

land, near Gulf Port, Miss. It was an explanation of what became of Ranger, a police dog given the War Dept. by the Brock family about three years ago.

Major Grimes stated that Ranger became seriously ill of cholera, and to prevent further suffering was humanely destroyed. The letter stated that the dog was hospitalized soon after his arrival there, and he knew no reason why the war department had not notified them.

MRS. BOUCHER DIED WED.

Mrs. Ray Boucher, 34, who has lived here since 1937, died Wed. She is survived by her husband and two children.

Funeral services were conducted at the First Baptist church, with Rev. A. A. Brian, pastor, officiating. Burial in Terry County Memorial Cemetery. She died following a sudden illness.

Dr. Daniell to Be Home Today

As the news spread around that Dr. A. H. Daniell, partner of Dr. T. L. Treadaway in the local hospital, was to be home today, it put a smile in the faces of many. Not that we don't have any good doctors—we have. But three are simply run ragged, and as Dr. Daniell is a big husky, he sure will come in handy for us old and aging, as well as others.

And right here is the whole story. Instead of three doctors with regular practice, we had six prior to the war, with some 4000 less people. He served as army doctor for about two years in the southwest Pacific, and has been located in San Antonio and South Dakota since coming back to the states.

H. D. Kalvenborn, radio commentator stated last week that the powers that be in Washington were hot after army and navy to release a lot of doctors. It was stated that while the fighting was going on, there was one doctor to every 1600 civilians, while there was one for every 100 fighting men.

In Terry county there was one doctor to approximately every 5,333 civilians. Most people can understand that needs of a doctor in peace time is not as great for young, husky service men as for the aged and children. Nurses were just about as badly out of proportion.

Cattlemen's Official Visits Here

Henry Bell, of Fort Worth, secretary and general manager of the Cattle Raisers Association of Texas, was a visitor in Brownfield last Friday. He stated livestock conditions over the state was spotted, and we faced a feed shortage especially in cotton seed cake. However he pointed out, the Department of agriculture had allocated and will send to Texas, several million tons of Soy beans, which can be processed through the cotton oil mills. That the beans netted about 16.50 pounds of cake to the ton, while cottonseed only about 955 pounds of cake per ton, and that it contained the same if not better protein content.

He observed that apparently there were plenty of beef in cold storage and going to market, but the per capita number of cattle to the human population is not as great as a few years back.

He was accompanied by B. L. Parker, Association Inspector from Tahoka.

CALLED TO THE BEDSIDE OF THEIR FATHER

As stated elsewhere in this issue, Aut Graham is seriously ill in a Lubbock hospital, and all his children with the exception of Lt. Sawyer Graham, stationed in France, are here, being: Mrs. Bill Amo and two children, Orange; Tight and wife, Texas City. His other son, Blue and family, also Miss Twilla, resides here.

A cable from Lt. Graham this week stated that he would be home within two weeks. His wife and small son are here from Glendale, Ariz.

Cattlemen are reminded that their cattle brands must be registered by OCTOBER 1st, in the office of the County Clerk. The law is if a brand is not recorded it is subject to use by other persons. The fee for registering is 50 cents per brand.

County Judges Change Offices

Next Monday, Judge C. L. Lincoln, after serving five years as County Judge, resigns and opens up the new County Service Office, and H. R. Winston a former County Judge, takes over the County Judge's office, by recent appointment by Commissioners Court.

Mr. Lincoln's new duties will be to aid all service men, in their settlements with the Government, such as compensations, pensions, and benefits of the GI bill of rights, as also their dependents. This service is free to veterans. He requests them to bring all their service papers, and documents when coming to his office, to expediate adjustments. He will, for a time, office with the T. O. Harrell, Employment office 2 doors west of Brownfield hotel. For the present he will be there on Monday, Wednesday, Thursdays and Saturday of each week and in Yoakum county on Tuesdays and Fridays.

Mr. Lincoln was profuse in his thanks to the voters of Terry county for their past support, and kindness and co-operation, and resigns only to take up this new service, which is dear to him, being a War I, veteran, feeling he can be of greater service to them.

Judge Homer R. Winston, a pioneer teacher, and erstwhile citizen of Terry county, served as County Clerk and County Judge in the late twenties, and a successful business man and farmer since. He is well versed in law and county business, which has recently become no small matter. He invites the cooperation and support of the citizenship.

Judge Winston is also a World War I veteran.

The young widows and children do not live here. He has another son, Thurman in the navy, but who is here this week on leave. Another son, Garnett J., now in army hospital in California recovering from battle wounds. Mr. Hand who lost his wife some ten years ago, has resided here, several years.

Woodson Bros. Buy Both Lamesa Papers

We understand that the Lamesa Reporter will be published as a weekly each Tuesday, until times are normal, and then made a daily. Joe is looking for another paper, but says he's in no hurry.

The Woodson Bros., are also publishers of the daily paper at Gladewater, the Cleburne Times-Review and Brownwood Bulletin, all dailies.

W. H. Culver, of Monahans, and Billy Jo Culver, Texas Tech student, spent the week end here.

Hockley county will likely vote again on their 500 thousand dollar road bonds. Road bonds must carry by two-thirds majority or more, and they lacked just 49 votes carrying, with a light vote in August.

We have been hearing that some of the sailor lads with no other job in view talking of going into the laundry business when they get their discharges. They state they have had plenty experience keeping their clothes and the decks scrubbed.

The OPA has lifted all building bans as of October 15, but it appears that it will do no one very much good, as all the timber workers in the northwest, where much of our building material now comes from, are out on a strike for higher wages. And, it appears that you'll have to do on your old gas wagon for some time yet, and it perhaps sans oil and gas.

The Scurry County Times at Snyder, is nosing around in statis-

tics lately, states that a crime board up in Massachusetts has come forward with figures that liquor directly responsible for crimes and illness such as mental cases, cost that state sixty-one million dollars. On the other hand, they received in liquor taxes only thirteen million dollars. Many are wondering just how much such an inquiry would pan out in Texas.

All of us believe more or less in religious freedom, but Editors E. I. Hill of Tahoka and W. J. Hale, of Plains point out that such can be carried too far, as in the case of the Mikado. In fact, the history of the world, almost since the time of the Apostles, has been written in blood of the martyrs of religious minorities. Right here in the United States, we limit by law a religious sect that believes, or used to believe in a plurality of wives. Yet, we claim to believe in religious freedom. And we do, but there is a limit to all things. When one sect makes their religion a cruel burden to others, they should be called to law.

While the Japs are being punished for their perfidy, let's see who at Washington or elsewhere was responsible for our soldiers and sailors not being on the alert at Pearl Harbor. If all this is brought to light now where the people can see and read; where the high army and navy men can behold just what the public expects of them, perhaps there will be no repetition of the stunt some generation in the future, and cost the blood of countless American youths to stop. Give us the facts, and let the chips fall where they will.

President Truman has given MacArthur the go ahead sign, and we can depend on general "Dug" to do the job up in a rag. During the recent fuss when some thought there was to be a let down of 200,000 regular soldiers in Japan in six months; some thought we ought to have a million or two left over there to guard a disarmed, docile race of people living on an island no larger than Texas, and after all their war lords are shot, hung or imprisoned. One Texas guy with somewhat of a banter, asked if the brass hats in Washington asked if they thought

it would take all of 200,000 Rangers to keep the peace in Texas, where every boy learns to shoot by the time he is ten years old, and practically all homes have firearms. Reminds us of the time one lone Ranger was sent to a certain town to quell a riot. The townsmen who met him at the rain wished to know if he was the only man the governor sent. "Yep," replied the big, raw-boned, square jaw man of the law. "How many riots have you?"

T. B. Increase Shown After Each War

One of the tragedies of war is the havoc it plays with the health of people of countries engaged in armed conflict. Mental strain and physical privations, such as inadequate supplies of food and crowded living conditions, leave children an easy prey to the ravages of disease.

Tuberculosis has followed in the wake of past wars, taking a tremendous toll among weakened populations.

Reports from Europe and Asia reveal that in the present war tuberculosis is already on the rampage in countries overrun by the enemy. Each French authority recently stated that in 1943 tuberculosis had increased 48 per cent in Paris as compared with 1939.

The United States is apparently holding its own against tuberculosis in the face of four years war.

The 1944 tuberculosis death rate—the latest available—showed continued decline for the nation as a whole, though preliminary figures indicate an increase in certain states.

But the danger in a war time and post-war rise in tuberculosis is not passed. Because of the long duration of the disease, the real effect of the war on tuberculosis will not be known for several years.

Expansion and intensification of the work of the National Tuberculosis Association and its affiliates, in cooperation with the U. S. Public Health Service, are necessary to hold the gains already made.

There is no place for complacency regarding tuberculosis in this country. It is still a grave public health problem—killing approximately 57,000 Americans a year, or one person every nine minutes.

Rev. and Mrs. J. S. Norton and children are moving to Post, Thursday of next week. Rev. Norton will be pastor of the Nazarene church there.

Freedom

Individual liberty is one of the teachings of Jesus. It goes hand-in-hand with personal responsibility. How can a man be held responsible for his acts unless he is free to determine how he shall act? The understanding that certain rights are everybody's rights, and that no man can rightly deprive another man of them, is an idea for which the world is indebted to Christianity.

Compulsion in religion is older than history. Every nation's lore is colored with tales of forced worship. In fact, the history of Christianity is marred with a shameful record of coercion. Just the same, obedience to Christ is voluntary or it is not obedience at all, and (being an every-day thing) Christianity lives and grows best in surroundings of personal liberty.

A Moral Duty

Opposing dictatorship, resisting infringement by a few upon the liberties of many, is a reverent act of fidelity to the source of all freedom. No government is perfect; no economic system is perfect. For that matter, no church is perfect. All are subject, more or less, to leadership by imperfect people. Nevertheless some principles are right and worthy of vigorous defense.

Harry Emerson Fosdick said, "One of the great hours in history struck when mankind ran into the idea that all the people should unite in making laws, which then all the people should obey. Behind our pitifully fallible experiments with representative government stands the Ideal, worth everything our fathers gave for it and all that we can give—the democratic state."

Godless Laws

One-man governments traditionally become jealous of their subjects' loyalty to God; covetous too, perhaps, of their free-will offerings, large or small. Rarely do totalitarian states begin at the church when they start cutting off people's liberties. They get around to it in the long-run, however. There are about enough exceptions on record to prove the rule.

Dictators usually start their trespasses on freedom by presuming to say who shall engage in trade. It is the natural way to commence. Never do they find a large class in commercial pursuits, so they can begin grabbing power without antagonizing a majority. The next big strategy is to dominate the news. By this method a dictator can make his people think what he pleases.

Step at a Time

With buying and selling pinched under government's heel, one emergency follows another, accidentally or by design; either way serves the purpose. Consumers, the class most hurt by government in business, never learn the truth if press and radio are under control. Selfish rulers snatch away comforts and dole out confusion and suspicion, the chains of serfdom.

Traditionally tyrants work this way; it has happened all along through history. After business is confiscated and the news agencies seized, the people are poisoned with malice, and malice destroys living souls. Americans who value their religious liberty have no choice but to defend representative government, free enterprise, free speech and free press. They can fight on the front line and win, or wait to fight in the last trench and lose.

"MACADAMIZED" ROADS GETS NAME FROM SCOT

Austin, Texas, Sept.—"Macadamized"—the word used to describe highways of broken stone—came from a Scot, John Loudon McAdams, a University of Texas engineer says.

Back in 1816, says John A. Focht, professor of highway engineering, John Loudon McAdams worked out problems of drainage and safety, and methods of construction for roadways.

McAdams hired men and their entire families to break rock on a piece-work basis. Roads built in such a manner gradually were associated with his name — and "Macadamized" was the result.

Mr. Focht describes highway construction in a recent issue of The Library Chronicle, published by the University.

Glenna Faye Ross, Jean Knight, Janelle Turner and Margaret Glandon, were among Tech students spending the weekend here with their parents.

Sleep A Necessity Of Life

Austin, Texas, Sept. 24.—Sleep is a necessity of life and health, according to Dr. Geo. W. Cox, State Health Officer, and habitual loss of sleep will tend to retard the body's recovery from the fatigue of the day's activities.

"We may be able to go without sleep for a night or two, but too sleep for a prolonged length of time will undermine the health of a rugged person and turn a cheerful individual into a cross, irritable one," Dr. Cox said. "When good health can be protected to such a large extent merely by sleeping, and thus allowing over-taxed bodies and minds to secure the proper rest, it is hard to understand why so many persons are heedless of this important health measure."

Some individuals require more sleep than others. How well we sleep is as important as how long we sleep. A "good night's rest" means a sufficient number of hours spent in sleep to enable each individual to feel well, do efficient work, and to keep in a cheerful humor the next day.

"Some outdoor exercise each day, a comfortable bed, and fresh air in our sleeping quarters," Dr. Cox said, "will help us sleep soundly at night. Do not mull over your problems and ideas after you have gone to bed. make your plans early in the evening for a good night's rest by slowing down from the physical and mental

Howard, son of Mrs. Liddia B Howard, Rt. 1, Brownfield, Texas, has been promoted from the rank of Technical Sergeant to that of Master Sergeant, according to a recent announcement of the commanding officer of the 954th Air Engineering Squadron, 528 Air Service Group, stationed near Foggia, Italy.

Sgt. Howard entered the service in July 1941, at Lubbock, Texas, and was sent overseas in August, 1943, arriving at Bizerte, Tunisia. Prior to entering the service he was employed as a filling station attendant by C. C. Ochenrider, of Brownfield, Texas.

"Hurry, Beth... let's see the NEW QUALITY OF LIVING that makes your house cozy in winter...cool in summer!"

"I just flick my finger," Beth explained when we got to her house, "and presto!—in winter, it's comfortably warm, humidified—whether it's cool or below zero out. Yes, we've a NEW QUALITY OF LIVING . . ."

"On hot summer days, it's never hot or steamy indoors. In fact, I hardly mind doing dishes! The house is cooled delightfully and has humidity taken out. Oh, we're lucky to have a Servel All-Year Gas Air Conditioner."

"Never a draft either. There's live clean air circulating gently, all the time. We all sleep better, too, because street noises are shut out. With our Servel All-Year Gas Air Conditioner, we needn't open windows. And . . ."

"Feel No dust! Dirt and soot and even pollen (remember my hay fever?) are filtered out. Our Servel All-Year Gas Air Conditioner saves me hours of cleaning time—makes drapes and furniture last longer, too."

"This simple unit does it all," Beth told me. "We've had it four years and wouldn't be without it!" Was I envious! "Beth," I said, "soon's the war's over, I want to have a Servel All-Year Gas Air Conditioning!"

"It's a MUST FOR MY NEW HOME!"

Like Beth, the hundreds of home owners who installed Servel All-Year Gas Air Conditioners before the war are enthusiastic. After four years' use, they say, "We wouldn't be without it. It's wonderful!"

You can plan on it—post-war . . . Imagine! Blustery winters, blistering summers, you'll choose your own indoor climate with Servel All-Year Gas Air Conditioning. Come in and let us tell you more about it.

'I GIVE YOU TEXAS'

By Boyce House

Have you got a sailor boy in the family? Then you'll be amused by these verses from the Malakoff News, entitled "A Brother's Complaint" and composed by David Dodd and his fellow sailors aboard one of Uncle Sam's fighting vessels:

Sis is going with a sailor;
At first it didn't faze us;
But now the family talk is full
Of sailor's salty phrases.
We found it rather hard at first
To follow all his speech
Since talk is different on board
ship.
Then it is "On the beach."

For when the time to eat comes
'round,
He sings out 'chow' for 'food,'
And always 'stows it down the hatch,"

Which Grandma says is rude.
When talking during dinner.
He taks like other boys,
Except he calls the lettuce 'grass'
And celery just plain 'noise'.

His salty talk is slangy
And hard to understand;
He calls the canned milk "iron
cow"

And sugar he calls "sand."
The chicken he calls "sea gull,"
The ketchup is "red lead,"
The waffles are "collision mats"
While "punk" is just light bread.

We finally caught on, though,
And now are doing fine;
We say 'six bells' for 3 o'clock
When we are telling time.
When ma goes to the city
Or runs down to the store,
And someone asks us where she is,
We say she's "gone ashore."

The place has sure gone salty,
Which makes me lots of trouble:
For when Ma says, "Come here
Chop-Chop,"
I go there "on the double,"
I wish that "tar" would "weigh"
his anchor"
And do what I often think;

"Point his bow" and "Trim his jib"
And go jump in the "drink."

"Have you been here a long time?" a visitor asked a gray-haired settler in the Panhandle. He replied, "A right smart while; when I first come here, the moon was no bigger than a half dollar and there was only six stars."

Similar is the declaration of a Central Texas pioneer, "When I settled in this country, there was only one other man livin' in 60 miles and that big hill over yonder was a buffalo wallow."

And speaking of elevations, have you ever seen Santa Anna Mountain? It was a landmark of early days. Really, it is two mountains, there being a gap. Citizens explain that the town's original settler hauled in the dirt to build the mountain and he would have connected it up but his wagon broke down.

These are from a new book, "Texas—Proud and Loud," by your columnist.

A few more samples from the book:
Of a ranchman whose holdings spread over half a dozen counties, it was said, "He's no land hog; all the land he wants is just what joins his."

An old-timer burned whole mesquite trees in the big fireplace and, as the ends burned off, he kept moving the trees on into the flames. He explained, "It saves the old woman a lot o' choppin'."

Texas is so vast that, in early days when travel was primitive, there was one instance of a baby that was born in Texarkana and, by the time the covered wagon reached El Paso, he was rolling his own cigarets.

And the famous description of the gigantic Texas steer caused a Missourian to declare, "If all our Missouri mules were made into one, he could rub his ears against the North Pole, with his forefeet on the Aleutians and Iceland, one hind foot on Havana and the other on Panama; and, if he got

riled, he could kick South American 73 miles beyond the South Pole; his hee-haw would make a California earthquake sound like the rumble of one of Henry Ford's old puddle-jumpers; and, if he was properly hitched, he could pull Texas into the Republican Party!"

Mrs. Claudine Young and Mrs. Edith Ader spent Friday in Seminole visiting friends.

The most bankrupt man in the world is he who has lost his enthusiasm.

BROWNFIELD STATE BANK

We Might Copy From Rotan

Several Rotan business men are getting interested in the collection of delinquent taxes—school, city and county. There is a rebellious attitude on the part of some who have paid their taxes in full year after year and find there are many others who have not paid taxes in years.

There are some, of course, who cannot pay all their delinquent taxes now, but nearly everyone could pay something on back taxes. And the worst part is the many vacant lots in Rotan, and probably in other towns on which no taxes have been paid in years. Probably most of these are owned by non-residents who have no interest in supporting the schools and other local governmental agencies.

This seems to be the best time to insist on collection of delinquent taxes. Most people have more money than usual. Any kind of real estate brings a high price now. Neither of these conditions will likely prevail five or 10 years from now. If foreclosure is necessary, the property will bring a

larger part of the delinquent tax, and foreclosure will put the property in the hands of those who will pay taxes on it.

There is no demand that foreclosure be made against those who are honestly trying to pay up back taxes, but these men seem to believe that foreclosure is the only recourse against those who do not make any effort to pay.

Taxation can only be fair if everyone pays, and it does not seem fair for some to furnish tax money to run the schools, city and county while others enjoy the same benefits and pay nothing.

Indications are that more will be heard about the matter in the near future.—The Rotan Advance.

A checkup with the three tax collection officers here, county-state, school and city, reveals that there are few taxpayers delinquent here.

JOHN KENDRICK SUBMITS TO INTERVIEW

Capt. John J. Kendrick, better known to friends here as just "Johnny," came by last week for a call. He said that he was enjoying being with his wife and baby, as we as their friends, and that Brownfield would always be home to them, even though he did not know just where they would settle.

Johnny wants to be where he can keep his wife and baby with him, and still be able to fly, as that seems to be the thing best suited to him. He went through the war on the most dangerous of missions and came through without a scratch. He remarked that he did not have anything to tell of interest, but after two reporters got through with him, we had enough information to write a short article.

He was a pilot of a P-51 in the 20 Tactical Reconnaissance squadron, flying combat missions over Burma and China, giving direct support to the ground crew, flying ahead of the front lines to destroy enemy troops and supply lines.

Aerial photographs were also taken and troops to blast them.

TEXAS TECH COTTON RESEARCH TO EXPAND

For the biennium beginning September 1, 1945, the Cotton Research Committee has approved plans for expanding both the facilities and the research activity at the Lubbock laboratories. These plans for expanding both the expenditures of the order of \$100,000 a year, a considerable portion of which is anticipated from industrial cooperation. The cooperative undertakings by the College and the Cotton Research Committee have for their principal purpose the evolution of a cotton fiber products laboratory which, from the standpoint of facilities, is unexcelled anywhere. This is a basic part of the creation of a dynamic cotton fiber research program designed to favorably influence the economic situation of the entire cotton community of Texas.

Early Texan Would Drink—Also Fight

By Mrs. Marcelle Hamer, Librarian, Texas Collection The University of Texas

Pioneers of Texas did their own fighting, their own legislating, and they had a strength and honesty of purpose necessary to build a commonwealth.

As to their ability to do their own fighting, Capt. George Erath, one of San Jacinto's heroes, condensed the Texans' whole code of military tactics into one word when, asked what military training he had, he replied "None." He said he knew but one word of command, and that was "Charge, boys, charge."

One of the salty characters, Henry Smith, Provisional Governor of Texas 1835, flatly refused to surrender his chair when the Executive Council tried to depose him. The political opposition described him as being too illiterate, poorly informed, and not of big enough calibre for the office. But stay he did.

Illustrative of the character of men and events in Texas at that time is the story about Thomas Jefferson Rusk, Secretary of War, who was energetic in thought and action for Texas during the dark days of the revolution. On the night of the organization of the Government ad interim, President Burnet had called a council, asking each member in turn for an opinion. As is usual in Texas politics no two opinions concurred. Secretary Rusk, weary from working night and day with no rest for three days while helping to frame the Constitution of the new Republic, had dropped his head in his hands and, leaning his elbows on his knees as if meditating, was actually sound asleep. When his name was called and no answer, he was punched in the ribs by the man who sat next to him. Rusk sat upright out of a fog of sleep and said, "Gentlemen, my opinion is that we are in a hell of a fix. We're all worked down. Let's go to the saloon; get a drink; then get on our horses and go fight like the devil to get out of this mess." Needless to say, they went.

Sam Houston's name and Texas history are inseparable. No story of Texas politics is complete without him. As a public figure he appealed to the imagination. Representative of erring humanity, every facet of his nature had the spark that makes the whole world kin. His sympathy for men gave him power over them. His friends were loyal; his enemies bitter; but nobody neglected to talk about him.

The disorganization and discontent of the Texas army is a well established fact in Texas history. A man with less sympathy than Houston might have failed in command of such an army. But when that army was retreating in haste before Santa Anna's rapid advance toward what was to be the battle ground of San Jacinto and the artillery and baggage wagons mired down continually, no man was more willing to put his shoulder to the wheel than Sam Houston himself. And his "Come on boys, let's help the poor critters," became a byword among the men.

And once when the soldiers over whom his authority was not disputed objected because they had not received a cent of pay for months, had no shoes, and no soap to wash their clothes, Sam Houston gave them each \$5.00 of his own money and refused to take a voucher for the amount.

No man ever loved the American Union more than Sam Houston. In the Civil War area, when feeling and vituperation were most intense against him for his opposition to the secession of Texas, he was invited to assist in the military review of a regiment of over one thousand young Texans being drilled at Galveston for service in the Confederate army. The regiment was drawn up for dress parade. Thousands of citizens were assembled. Sam Houston's own son was in the regiment. In the minds of a majority

Sgt. Charles J. Spoon Gets Discharge

Antonio, Texas—After 10 months' overseas service with the Army Air Forces, Technical Sergeant Charles J. Spoon of Brownfield, Texas, is being honorably separated from the Army of the United States at the San Antonio District installation of the AAF Personnel Distribution Command. Prior to entering the service, he was a cabinet maker. While in the Army he was an aerial engineer and gunner.

Sgt. Spoon is the son of Mr. and Mrs. Thomas C. Spoon, 523 No. Alabama, Okmulgee, Okla.

This facility at San Antonio is another example of the Air Forces policy of "looking after its own", and is speeding the flow of airmen back to civilian status.

Mrs. John Henderson, of Knox City, Texas, visited Mrs. S. L. Dalton the first of last week. Mrs. Dalton has been ill for the past two weeks.

Jim Graves, who has been in Waco meeting with the Veterans Administration, is here visiting his mother, Mrs. G. W. Graves. He and Mrs. Graves will enter a Technical College in Peoria, Ill., next year.

of the Texans present, whether of the military or civil population, were memories of the bitter political fight General Houston had just gone through. Two of his distinguished opponents, Judge Campbell and W. S. Odom, had been following him up and down and across the state tongue-lashing him on every occasion during the canvass on secession. Now, the old "hero of San Jacinto," dressed in his uniform of 1836, at his side a sword, and on his head a weather-beaten light colored, broad-brimmed planter's hat with the left side buttoned up the crown, stood out in front of the regiment, supported by the Colonel in full view of the great gathering of people. All eyes were upon him—some eyes dim with upon him—some eyes dim with tears of memory; more eyes dark with the premonition of the war to come. Then came his order: "Shoulder arms. Right about face."

The regiment, now facing the rear, General Houston cried out on stentorian tones of sarcasm, "Do you see anything of Judge Campbell or W. S. Oldham there?"

"No," roared the troops in reply.

"Well," said the General, "they can not be found at the front, or even at the rear."

"Right about, front face. Eyes right. Do you see anything of Judge Campbell's son here?"

"No, he has gone to Paris to school," responded the regiment.

"Eyes left. Do you see anything of young Sam Houston here?"

"Yes!" roared the regiment in response.

"Eyes front. Do you see anything of old Sam Houston here?"

That was the climax of excitement. Regiment and citizens together cried thunderous "Yes!" with united cheers for their old hero. Houston then turned to the Colonel, and while handing him his sword, said, "There Colonel, that is all; I leave you to manage the rest," and with applause ringing in his ears he retired from dress parade.

Dr. Watt Of T. U. Says Share The Bomb

Austin, Texas, Sept.—Should the United Nations be permitted to know the secret of the atomic bomb?

Yes, says Dr. George W. Watt, University of Texas associate professor of chemistry who has spent two years in work related to the bomb.

"If the United Nations organization is going to be one capable of preserving peace, complete trust must be shown by all the Allied nations," Dr. Watt stated, "and it would certainly be a gesture in the right direction if we make this information available."

"It will only be a few years until the scientists of the other nations develop the bomb for themselves anyway," he continued, "therefore the refusal to disclose its composition now is only a short range gain."

The fact that the discovery has been made means that it will be made again, Dr. Watt pointed out. And scientists will reach the same results in other nations in the future even if we do not give them the secret now.

Why take any chances on not having all your equipment in good running order next season when you can have it all fixed up now. That's our business—expert repairs on any tractor, implement or tool used in farming. We have the mechanics, the special shop equipment and a big stock of genuine IHC parts to do your work right.

The main thing is to give us a little advance notice when you can. Most of the time our shop is swamped but when we know ahead of time we can schedule your jobs and have your machines ready when you want them.

Just give us a ring. Then when you're coming in, load up your tractor or any other piece of equipment and drop it off here. You'll find our service as good as the McCormick-Deering machines we sell. Our prices are reasonable. And we guarantee your satisfaction.

COOL AS A CUCUMBER!

Give your Engine Phillips 66

THE HONEST OIL—FROM DEEP IN THE HEART OF OKLAHOMA!

No sir, a quart of oil won't make your car young again. But the *right* quart of oil can keep it from running hot, smoky, and expensive.

What's the *right* oil? Well, we don't like to boast, but we'll bet you all the tea in China that there isn't a better, more natural oil than Phillips 66!

You see, we're just smart enough to know a good thing when we see it—and just wise enough to leave it alone! We

take that wonderful Phillips 66 from deep down in the earth... give it that special Phillips refining... and bring it to you with all its God-given lubricating qualities unimpaired!

Why not have a smooth, sweet-running "cool-as-a-cucumber" engine? Stop where you see the Orange-and-Black "66" sign and treat your car to a quart. You won't find a more *honest, natural* lubricating oil in America!

"Fill 'er Full o' Phillips!"
