

Announcement By Four-County Health Unit

Tuberculosis patch testing in schools is planned to begin early in the month of November. The patch tests are furnished this year by the Terry County Tuberculosis Association. Some of the association workers are helping with the program in the schools. We want as many parents as possible in General Assembly with us to discuss programs as we feel that we should have more discussion on the subject. More education is one of our chief hopes of finding cases in the early stages when it can be cured more easily.

All children over twelve years old will be tested, all who show positive re-action are to have x-rays of chest, record to be kept by the Health Department, source of x-ray by private physician, Mobile x-ray unit which will be here about the middle of January, 46 Certain wher deemed necessary may be taken care of by T. B. Association. Only a very small percent of them show positive reaction and of those only a small percent of those will show any thing significant in the x-ray.

Children of the first grade will also be tested—positive reactors to have adults in home checked to find probable source of infection—which would be broken and special care given.

Families who know they have had contact with T. B., or for other reasons would like to be checked by patch testing may meet the nurse at School clinic or on Wednesday or Saturday, a. m.'s at the office in Court House.

Commissioners Court Invest Road Bonds

County Judge Homer R. Winston was in to see us Wednesday and stated that at a recent meeting of the Commissioner's Court, they decided to invest \$350,000 of the \$375,000 road bonds voted in August, in US government bonds, that can be cashed when needed. The reason for this is that road building program will of necessity be spread over 1946-47 at least, and the bonds as well be drawing back part of the interest the taxpayers will have to meet.

Twenty-five thousand dollars was kept on deposit to meet expenses in surveying and possible pay for some right - of - ways; \$150,000 was put into government bonds to draw 7-8th percent interest, and \$200,000 into government bonds that will draw 1-1-4 percent interest, saving the county some \$5,000 a year in interest.

Judge Winston believes that work can be started on our roads some time soon after the coming year.

West Texas Crops Are Very Spotted

The past weekend, the Old He and wife made a call on the kids, Mr. and Mrs. Herman Trigg, at Brownwood. And they had two very fine channel cat fish staked out in the lake, ready and waiting our arrival. They were the chief part of our meal Saturday, and when they got to making better fish than old blue channel cat, we want to know it.

Starting out from home, crops are spotted from here to Brownwood, even to Goldwithe, for we made a short drive into that section Saturday afternoon. Maybe for ten miles there will be fair crops, and then the next ten as poor as you ever say. Went through Post, Snyder, Anson and Abilene. Between a juncture on the San Angelo road south of Abilene and Coleman, we were informed that the road was torn up, being rebuilt and straightened in sections, so we went to Baird, thence south to Cross Plains, Rising Star and to Brownwood.

Returning we came north to Cisco, Albany, Stamford, Aspermont, Jayton, and Clairmont. Ran through Cisco around noon, and we felt a bit hungry and would have looked up Ed Shelton if we'd known where to find him, and we'll bet he did not have English peas for dinner. They were Ed's pet peve at banquets in the days past and gone.

One of the redeeming features of the whole section we covered, is that grass is as fine as we ever saw in fall, and will carry lots of cattle and sheep through the winter. In fact, cattle now look as if they had been pen fed, and a month on grain will put them in top order.

Well, they got the Old He to get into the house boat, but we did not take a ride. You can have the air and water if you like, but good old terra firma for us.

Lloyd T. Pickett Gets Honorable Discharge

He maintained an interesting place in the north part of town, kept a large number of hogs, and is reported to have considerable property elsewhere in Texas. His demise was result of natural causes.

THE BARBER DOES NOT DO ALL THE TALKING

Recently, we had a little something we thought was funny to tell our barber, and we opened our big mouth too wide and got a nip on the chin. We remarked that talking was not always done by the barber, as the comics go.

No, says he, we have one customer that we have to caution two or three times during a shave about talking and laughing, and he hardly ever gets out of the chair without a nick or two.

R. W. Tunnell of Meadow and Sewell Dean both happened in Wednesday afternoon and forced a dollar on us for another year of the Herald. And now we've got to work 52 more weeks for them there farmers.

Ford To Go On Display Here Today

Mr. Basket announced that the Ford company was much ahead of any other automobile company in reconversion and production, is the reason they are able to show the new Ford today.

Don't fail to call at their show room in rear of Fitzgerald Service Station, where the Portwood Motor Co. is temporarily located until their new building is finished, to see this new car.

City County Sell Part Of Airport Ground

The city and county who own jointly a section of land on which the airport east of town is maintained, will sell the west half of the section, 320 acres, as soon as legal proceedings can be had. Brownfield Wins From Hobbs 12-6

In what is said to be their best played game of the season so far, the Brownfield Cubs chalked up another victory last Friday night at Hobbs, N. M., by eeking out a hard earned win by a score of 12 to 6.

Defeated only by the strong Amarillo Sandies the Cubs have four wins under their belt and today finds them in Pampa, Texas pitted against another unbeaten and untied eleven. This is the Cubs' second AA conference game of the season and no doubt will find them in there fighting for a win over the strong Pampa aggregation.

Tahoka's Regrettable School Row Settled

Brownfield was interested in more ways than one in the Tahoka school flare up last week. In the first place, our citizenship would have regretted the unfortunate affair if they had known none of the parties involved. But having intimately known both the superintendent and principal for the past years, it developed a pungent interest here.

Supt. Hancock was head of the schools here for two years, and quit on his own accord to enter private business. Altogether he and family lived here about three years. Principal Vernon Brewer had been with the Brownfield schools about ten years, is a very modest fellow and well liked by all. Both families have a host of close friends here.

Tahoka is our close neighbor, and we certainly are glad that this trouble that seemed to brew so suddenly, has gone with the same speed. Tahoka people are the equal of any, and we are glad that their seeming serious trouble has blown over, and their school is back to work.

OLD JACK FROST EARLY THIS YEAR

Old Jack Frost, unheralded, even slipped up on the weather man, laid a chilling blanket over the south Plains early Monday morning. It got the late cotton, and will make the scant yield scantly. Also the foliage on the late feed, though many think a goodly crop of grain will mature.

The frost came about two weeks earlier than average. Tech. Sgt. Bill Suggs is here on furlough visiting his parents, Mr. and Mrs. E. S. Suggs, of the Welch community.

Elderly Woman Found Dead Here

Mrs. Rosie Skeen, aged 65, wife of Jake R. Skeen, was found dead about 7:30 a. m. Thursday 200 yards north of their home, west of the Legion Hall. Her husband, sleeping in a separate room, did not miss her until he arose shortly after sun-up, when he went to awaken her. The bed covers, with pillows, were so arranged to resemble a body. When he discovered the ruse, he called for relatives and notified officers. Uyless and Arthur Sawyer, nephews of the husband, with Clarence Lewis quickly responded, and found the body fully clothed, lying beneath a large fruit tree in an old abandoned orchard.

Justice Dallas and Deputy Mon Telford went to the scene, conducted an inquest, and found evidence of a struggle, her hand badly lacerated by bottom strand of wire fence near which the body lay. Tracks indicated she walked the distance through plowed land, over a sand dune, to her rendezvous with death. Dr. Daniell examined the body on the scene and found cause of death to be exposure and weakness. She has been despondent and in ill health since the death of her only son, Elmo, some few years ago. The Skeens lived here a few years, about 30 years ago, and at Lamesa since, until they moved to present place about a month ago.

Mr. Skeen is a brother to Mrs. M. B. Sawyer. She is survived by two sisters and the husband. Funeral services will be conducted today and burial will be in Lamesa cemetery.

A note was later found, with her burial insurance policy on the Bible in her room, addressed to her husband, asking him to not worry, that "no one knew how she had suffered."

Local Woman On H-S U. General Committee

In a move to meet the growing demands for university training brought on by the ending of the war, the board of trustees of Hardin-Simmons university of Abilene has named a general committee which includes Mrs. Homer W. Nelson of Brownfield to study and present the school's building and rehabilitation need.

Scope of the effort, labeled as the Greater Hardin-Simmons university development program, is indicated in that representative men and women from 60 towns and communities of Texas and a number living in other states are on the enlarged committee of 130 persons. Goal of the drive is completion of a million dollar fund to be used in erecting the Sandefer Memorial building, badly needed dormitories and a student center. With a record fall enrollment since the peak year of 1929 overflowing the dormitories and taxing other facilities of the university, the need for the planned new buildings and other improvements is concretely emphasized.

"Considerable preliminary work has already been done that was very effective and we are optimistic as to the outcome," said President Rupert N. Richardson. "We are happy that such large numbers of friends have consented to help in the effort designed to keep Hardin-Simmons abreast of the enlarged opportunities for service presented by post-war conditions," he said.

Paging Doc Townsend!

The Newsmen sends out an emergency call for that disillusioned Californian, and hereby declares that he is ready to join forces to demand that \$200 per month, here and now.

Since the Newsmen reached the necessary age of 60 years on Monday, we now declare that we are ready to spend that 200 per just as fast as Doc can get it to us.

Yep, we reached the age of retirement, when us old folks should retire and take things easy.

But we wonder who in heck would get out the Canyon News and do a lot of necessary printing around Canyon if it were not for old men down here at the News office.

We have found since Oct. 15 that most of this demand for 200 per is based on pure prejudice, in which most of us old timers join under the false misapprehension that the government is going to take care of us.

When do we get our check, Doc?

—Canyon News

When did you take up California residence, Bro. Warwick?

You've got to be a residence of the Golden State, if we understand aright, to get that "thirty every Thursday."

Better put in your time the next five years in squaring yourself with local social security management in working up to "fifteen every First." Doc Townsend isn't about to give you a check, Clyde.

—Ohio draft board, according to the dailies, has flatly refused to send any more of their 18 year old youths off to training camps until the government does something about strikes all over the United States, by grown men, many with families. Instead, they recommend that all eligible strikers be put in the army immediately. Something like that might put the bite on some of those boys.

—Ohio draft board, according to the dailies, has flatly refused to send any more of their 18 year old youths off to training camps until the government does something about strikes all over the United States, by grown men, many with families. Instead, they recommend that all eligible strikers be put in the army immediately. Something like that might put the bite on some of those boys.

At least some of the service men have gotten an inflated idea about how much money those in civilian and defense works made during the war. We had a statement recently from one big concern that the average wage was around \$40 per week. That is a long way shy of the \$15 to \$20 per day some have been hearing about. Wages have not been too high in most plants after lay offs, stoppages and short hours were considered. We heard of one vet-

eran who stopped painting at \$1.25 per hour, and wanted \$2.00 per hour and an easier job. The citizen of that town that told us of the incident said that the wage for painters had never been more than \$1.25 per hour in that town. Somebody gave the boys an exaggerated report on wage conditions while they were in fox holes. Such reports should never have been circulated.

The Big Spring News says that Americans are poor haters. Well, most of us have more or less Irish in our veins. We fight one minute, take a drink, laugh and joke each other the next. A year ago, if some one had told us that our GI's would be dancing with, and taking their tea and beer from Jap gals, we would have been tempted to tell the guy that he belonged to the Annanias Club, if he had not been a lot bigger than we. But the mags are full of such, and some of our boys are actually engaged to marry the Nazi hussies when and if they can. But the GI's are still just boys. They fought and hated like blazes while the shooting was going on, but their hearts being young and tender, and being thousands of miles from home and our sweet American lassies, they forget their late enemies and enter into whatever fun they can get. And doggone it, we don't blame them much.

Interior Secretary Harold L. Ickes told a conference of the British press that the American oil industry would fight an attempt to put any controls on them. He is right. With a competitive industry such as we have in America, we have the cheapest oil and gas of any place in the world. Not only that, but we have the best. Why hogtie an industry that pulled our chestnuts out of the fire when we were caught in a jamb, December 7, 1941? We have become the greatest nation on earth with the least government interference. Let's keep it that way.

The service boys are returning home fast these days, and they will take the place of many old cats and cars that the public has had to endure in places of business the past four years. Many employers have had to keep these sassboxes because they couldn't do any better. Now they can fire them and take on the boys who have learned to say sir. Some of the war time employees thought they owned the place whether working for private individuals or in some of the government alphabet offices. It will be fun to watch some of these snapping turtles hunt another job. The American way of doing business is still the courtesy way. Let's have it again, by all means.

HE DID JUST WHAT UNCLE SAM WISHED

We had a letter the past week from Vance W. Brown who has been stationed at the Lubbock Army Air Base almost since it has been there. Vance said he was to get his discharge Sunday, Oct. 21, and that his address henceforth would be Seagraves, route one. He added: "Our work had to be done, so I guess I had to be among those who didn't go across."

Vance spoke a truth if truth was ever spoken. Some folks right here have an idea that they can work up a little politics and get just about what they want in the army, navy, air corps, and what have you. Your US senator and congressman has just about as much

influence with the brass hats in the service as a monkey's uncle. Even the Red Cross had little or no influence on them. We can count on the fingers of one hand all that the Red Cross got out of the service. Families of such men had to be both sick and destitute.

When a lad took the oath, the army and navy placed them just where they wanted them and no questions asked or requested. If it was on a battleship, OK. If in the foxholes, that's where the lad found himself. If the brass hats thought he would serve his country better in some civil occupation, one he had at home, sometimes, that is where they placed him, and he had no comeback.

If the draft board thought his bit would better serve the nation in a factory or on the farm, during the war, that's where he found himself, if in the draft age. In fact, those between 18 and 35 had little say so in the ways he would be directed by the higher ups. Yet some will say mean things and others will write dirty, cowardly unsigned letters as if they had conquered the Japs and Germans singled handed. When as a matter of fact maybe they had not been in a thousands of miles of the front.

Vance, you did your turn. You did exactly what Uncle Sam wished you to do. So, don't have any regrets about the matter. You were not the master of your own life and movements during the time you took all your orders from the powers that be. And a dirty rat that will dispute that matter is not worth the powder and lead it would take to blow his cowardly frame into hell.

Charles Thomas Gives Low Down On Japs

For half hour or more, recently we got to chat with Chas. E. Thomas, petty officer first class, of Wellman, and a brother of Commissioner Duggan Thomas of Precinct 4. Thomas was on the USS Stewart and in the same company of the old Houston off Java, when Japan came near sinking all the rest of the Pacific fleet in March 1942. They were grim days for Uncle Sam and his fighters.

Charles was held a prisoner by the Japs until August 29th, this year, when they were released by the army air force, in what we know as Siam when we studied geography—over three long, long years of mistreatment, overwork and sloppy food, feed that Duggan Thomas would hardly give his hogs.

The worst of it was that Charles came down with tropical ulcers on his legs, and there is still a sore as big as your hand, and he says it is small to what it was for a long time. All the medicine the Jap doctors used was hot salt water, and they scraped out the putrid flesh from around the bone with a spoon. Think of that folks? It makes one have feeling toward the Japs that could not be safely published in this paper.

Soon after his liberation, he and

The Low Down From Hickory Grove

I just been reading some more about Japan—found out why we had to lick the outfit. I think it must be authentic—or ought to be—our U. S. State Dept. says so.

The State Dept. says that Japan has gotta be rebuilt so as to insure collective bargaining for labor there. Pardner—and ladies and gentlemen—I calls that the last word and cap-sheaf in demands or conditions for callin' off a war. Here we are in our home of collective bargaining and the land of the free—and nobody is free to work except he kicks in with dues—or like in New York if you want to be a brick-layer, your father before you must be a brick layer. Here we are tied in a knot half the time—us champions of bargaining.

Of all the things that have not worked, next to a perpetual motion machine, I would say it is the way labor lost completely, control of itself. It is now in the same kind of hands—and as profitable—as was beer, in production days to Mr. Capone.

Labor's right to organize, and bargain, is no longer in the palm of the worker. The person in the saddle now is the 2-fisted Big Boys down at the union office.

Yours with the low down
JOE SERRA

Others were taken in a plane at Bangkok, Siam, and flown to Calcutta, India, where he received some more medical attention by American doctors, and finally arrived in Washington, D. C., Sept. 11th, this year. The Stewart was scuttled to keep the Japs from getting it. Charles is a native of Terry county, and entered the service March 25, 1941.

If we did not misunderstand him, Charles said he had a leave of 120 days, and then must go to a naval hospital and undergo about three operations, to try to remove all traces of this ulcer, which at present seems to be under control. He uses no crutch or cane, but has a slight limp, favoring the injured leg. We got so interested in his story that we forgot to ask him about his ribbons and medals. But will state that to our notion, he and all other POW's of Jap or Nazi, are entitled to all they have at Washington, and a long sight more.

Mr. and Mrs. Joe McGowan spent the weekend with their son, Lt. William J. McGowan, who was in the separation center at El Paso. He received his discharge Saturday and went to San Antonio to be with his wife and baby.

SIDELIGHTS From Washington

LITTLE WHITE CROSSES

In military cemeteries here and there around the world little white crosses mark the graves of our men who made the supreme sacrifice in the war. The names are stenciled in black on the crosses of white.

Some time ago when I was on Tarawa in the Pacific, I heard the Commanding Officer say as he pointed first to the beaches and then to the cemetery: "There is where our boys stormed the beaches and that is what it cost us."

I think the loved ones of these men who sleep beneath the white crosses would like to know that the graves are being well kept. I saw many of these cemeteries and all that I saw are well kept and attractively laid out. The one on Tarawa was especially well kept and the chapel of native construction was very beautiful.

The principal cemetery on Guadalcanal was similar in appearance and had an equally beautiful chapel. There is a little office adjacent to the cemetery where a soldier keeps the register of the men buried there. Some fresh graves were being dug in the Guadalcanal cemetery. It was explained that during the thick of the fighting a few of our men were buried at isolated places on the island and that their remains were being brought to the main cemetery. It was also explained that the remains of a number of the men who had been buried in the New Hebrides Islands were being brought to Guadalcanal for re-interment.

Our plane did not stop at Iwo Jima but circled the tiny island at low altitude a couple of times. The island was rimmed with war installations, but the cemetery with its many white crosses was about as obvious from the air as Mount Suribachi where the flag was raised and the memorable photograph taken.

I saw three of the seven cemeteries on Okinawa. In the center of one of them was the grave of Lt. General Simon Bolivar Buckner, who led our forces there, and all about him were graves of heroes of the Okinawa campaign. There were no chapels at the Okinawa cemeteries but they were well kept. At one of them I observed a little shelter which protected a register of the names of those buried there.

The largest cemetery in the Pacific area is at Finschhafen, New Guinea, where about seven thousand of our men are interred. The remains of our men in many of the smaller cemeteries throughout the Pacific are being removed to the larger cemeteries where they can be better cared for about fifty cemeteries thereby being abandoned.

In the European theatre, the remains of our men who lost their lives on German soil are now being removed to semi-permanent cemeteries in France, Belgium, and Holland. Our cemetery at Henri-Chappelle, Belgium, not far from Aachen and Liege, is the resting place of 17,323 American dead. This is our largest cemetery in Europe.

About two hundred thousand of our brave fighting men of World War II, who gave their lives for this country, rest beneath white crosses overseas. One-fourth of them are in the Pacific area and most of the others are in Europe. Congress plans to provide at a later date for the return to the United States of the remains of these men for re-interment in national or local cemeteries, in accordance with the wishes of the next of kin.

Mr. and Mrs. Cletus Floyd left Tuesday for Liberal, Kansas where they will make their home.

Senator Urges Single Control Of U.S. Overseas Air Lines

If the United States is to compete successfully with Great Britain in developing foreign markets, American transoceanic air lines should be consolidated under one company control, Senator Thomas C. Hart (D.) of Connecticut declared recently in an address before the New Haven Junior Chamber of Commerce.

Senator Hart, a former Rear Admiral in the United States Navy said Great Britain has already adopted the one-company method and asserted that the British are backing the one-company idea with the support of government subsidies and the consolidation of surface transportation in a trade-getting drive against which, he said, we have no ground for objection—"there is nothing unfair about it."

"During the heyday of what we know as the British Empire, there grew up what amounted to a full national organization to foster and promote the Empire's foreign trade from every conceivable angle. That extensive and intricate machine was built around British shipping in the first instance and as the United Kingdom became so highly industrialized, the machine was simply extended into the selling field.

parts of the world which will be of commercial importance. The British are not the only ones. There will be other nations which will do the same thing. We have no ground for objection—there is nothing unfair about it."

Sweetwaater Man Gets French Medal

Lubbock, Oct., 17.—Assisting five prominent Frenchmen escape from a Nazi box car while enroute with them to execution in a gas chamber has won for Flight Officer Joel Stevenson of Sweetwater, and student of Texas Technological College, the Croix de Guerre. He has just been notified of the honor.

The young former officer in the Royal Canadian Air Force had been a Nazi prisoner for 34 days at the time of the escape. He was condemned to death for being caught behind enemy lines in civilian clothes without military identification and had been in a 90-man group in a box car for three days when he gained freedom. He and the Frenchmen, walked 150 miles in 10 days to Allied territory.

Stevenson was shot down July 4th, 1944, on his 30th mission when a wing of his plane was shot off by anti-aircraft guns manne by German women. He bailed out at 600 feet.

While imprisoned, he says, he was given a bowl of soup a day and many types of torture. He walked in darkness in a chamber with a revolving door of cobblestones. He looked at a check-board wall for 18 hours while lights flashed on it every 20 seconds. He was dunked up and down in ice water until he nearly drowned, after which an electric charge was applied beneath his arms for five minutes.

He is the son of T. H. Stevenson, 404 East Arkansas, Sweetwater.

Mr. and Mrs. Bryan Cabbinns and Miss Grace Lindsey spent the weekend in El Paso, Texas.

From "V" to "E"

The indicator that points to primary objectives on Uncle Sam's dial moved, August 12, from Victory to Employment. Correctly this nation's first aim from December 7, 1941, to V-J Day was to win the war and save the world's free peoples from despotic rule; worth all it cost in blood, sweat and tears. Now that's finished, and the new primary objective is to hold what's been gained.

Damages have been fearful. Some never can be repaired; some can. There are twisted minds and broken hearts, wounds to heal and debts to pay. Those losses that can be won back will demand much time and patience. By their very nature, they are deferred. But unemployment is another aggressive enemy, not to be put off. We provide work now or lose what our young men bought with their lives.

Something to Avoid

Mass unemployment in this country might easily start a revolution among industrial workers that would overthrow the republic and destroy our very American way of life. It is the one catastrophe to be feared by the whole people of America. War's end touched off much talk about post-war legislation but all of it is relatively unimportant except what has to do with gainful employment.

Legislative acts that merely promise work to service men are nothing but emotional brainstorms. Jobs have to pay their own way to be worth having. Since 15,000 men will lay down arms every day for 14 months, one of three things must happen: (1) Private industry must expand and make room for them, (2) Government will make a big WPA for them or (3) Want will bring desperation.

Good Tax Laws First

A hungry and outraged people rush mob-like to dictatorship. An army-size WPA marches with slave-like steps to the same destination. Well paid jobs in private industry with opportunity for improvement and advancement constitute the only work fit for a free people. It is the only solution worthy of America's clean record. Industry must expand and make jobs. It is the only way to remain free.

Only one thing stands in the way—taxes! Expanding industry, enough to make the needed jobs, calls for investments which (same as jobs) have to pay. Today's taxes, however, make it impossible to find a paying investment that will make jobs. The tax laws were all right in 1940 when they were passed to take the profit out of war. Now they threaten to ruin our future by taking the prosperity out of peace.

A Simple Tax Plan

It is my conviction that corporation taxes and standard individual taxes should be levied at the same rate. I think the structure should be high enough to meet the requirements of the proposed budget without having any surtaxes higher than 50%. For an investor to pay out more than half his income in taxes will discourage large investments—the very kind needed.

With a few specific exceptions I oppose excise taxes and consider it wrong in principle to tax distributed income of corporations more than once. Excess profits taxes should be eliminated immediately. A fair tax policy, and certainly an expedient one, will encourage capital investments for profit in going concerns rather than in government bonds. We want the right taxes for the most jobs.

I Give You Texas

By Boyce House

No doubt some of the older readers heard Bob Taylor of Tennessee deliver his famous lecture, "The Fiddle and the Bow." He told of listening to a great master play on his wondrous violin and of how the music conjured up a dream:

I saw a cottage among the elms and oaks and a little curly head at the door. He toddled under the trees, prattling to the birds and playing with the ripening apples that fell upon the ground. He toddled among the roses, and plucked their leaves, strewing their glory upon the green grass at his feet. He chased the butterflies from flower to flower and shouted with glee as they eluded his grasp and sailed away upon the summer air. Here I thought his childish fancy had built a paradise and peopled it with dainty seraphim and made himself its Adam.

He saw the sunlight of Eden glint on every leaf and beam in every petal. The flitting honey bee, the whirling June bug, the fluttering breeze, the silvery pulse-beat of the dashing brook sounded in his ears notes of its swelling music. The iris-winged humming bird, darting like a sunbeam to kiss the pouting lips of the upturned flowers, was to him the impersonation of its beauty. And I said, "Truly, childhood is the nearest approach in this world to the paradise of long ago."

Then I saw him slip on his tiptoes into the pantry; and there was the clink of glassware, as though a mouse were playing among the jam pots and preserves. There two little dimpled hands made trip after trip to a rose-colored mouth, bearing burdens of mingling sweets that dripped from cheek to chin and shirt and shoes, subduing the snowy white with the amber of the peach and the purple of the raspberry as he ate of the forbidden fruit.

ALINE HOBBS AND JAMES DEARMAN EXCHANGE VOWS

Miss Aline Hobbs, daughter of Mr. and Mrs. J. O. Hobbs, of Meadow, and Mr. James Dearman Jr., son of Mr. and Mrs. James Dearman Sr., of Amarillo, were married in Lovington, N. M., Oct. 15th, at 6 P. M. The single ring ceremony was performed in the home of Rev. Arthur Shaw, Methodist minister.

The bride was attractively dressed in a lime green two piece suit with black accessories. Her attendants were Misses Wanda Dearman, sister of the groom, and Faye Marie Lang.

Mrs. Dearman is 1945 graduate of the Brownfield high school, and the groom, formerly of Brownfield, is employed at Hobbs, where the couple will make their home.

Alva L. Morris, after four years hopping islands from Guadalcanal to Luzon, in the Quartermasters Corp of the army, came in Wednesday with a discharge, and will locate here with his parents, Mr. and Mrs. Jas. L. Morris, who is janitor at the court house.

Mr. and Mrs. Roger Curry visited his mother at Rule last week. Mother Curry returned with them as far as Tahoka, where she is visiting this week.

Then I saw him glide into the library and soon there was a crash and a thud in there which brought a frightened mother into the room, only to find the young rascal catching his breath, while streams of cold ink trickled down his drenched bosom; and as he wiped his inky face, which grew blacked with every wipe, the remainder of the ink was poured from the bottle down on the carpet, making a map of darkest Africa. Then the avenging slipper in lightning strokes—and I said "There is paradise lost!"

Texas And Annexation

BY DR. E. C. BARKERD

Professor of American History The University of Texas (The first of a series of articles on the Texas Centennial of Statehood. Next week, the international aspects of the annexation of Texas will be discussed.)

Though the precise date at which the Republic of Texas was merged with the United States is of no practical importance, it is a topic of intermittent popular discussion and antiquarian interest. Puzzlement rises from the fact that the process of annexation is confused with the dramatic ceremony that accompanied the transition of the government from republic to state.

Briefly, the congress of the United States passed the annexation resolution on February 28, 1845. President Tyler approved it the next day and instructed Andrew Jackson Donald on, American minister in Texas, to present it to the Texan authorities and urge its prompt acceptance.

President Anson Jones called a special session of the Texas Congress to meet in June and a convention of duly elected delegates to assemble at Austin on the 4th of July. Both Congress and convention formally accepted the terms offered by the United States, and the convention proceeded to frame the first state constitution.

The constitution was ratified by popular vote in October, and was accepted by the Congress of the United States on December 29, 1845. By this act Texas became the 25th state of the Union.

Following the admission of Texas, it was necessary for the people to elect state officers. This being done, the legislature assembled on February 16, and on February 19, 1846.

President Jones, in an impressive ceremony, delivered the government to Governor J. Pickney Henderson and declared, "Republic of Texas is no more." Calling attention to the happy mer-

4-H CLUB NEWS

In conversation with W. G. McDonald, Acting County Agent, this week he stated that the 4-H club boys in Terry county in spite of the drouth will feed more calves and hogs than last year. The boys that fed calves last year made a very nice profit that created a great deal of interest among other boys this year. They have been handicapped, however, on account of the drouth and have not been able to put on the gain on pasture this year as in normal years.

These boys feel that it is very necessary to have well finished calves for the show next spring, and realize that they will have to do a very good feeding job.

There are several boys that have one or more registered hogs of different breeds. If you want a good pig for breeding purposes they might have what you want.

A Victory Salute To Our Victorious NAVY

On Their
170th. Anniversary

This year more than ever, Navy Day has a much greater significance. For it was this year that our fighting Navy brought the war to Japan and helped expedite a speedier victory over the Rising Sun. On this Navy Day, every American will want to pay tribute and homage to the gallant men of our fleet who fought so hard for the Victory. The American people can best show their gratitude and appreciation to our stalwart men of the sea by making this Navy Day one of remembrance. Remember the many Navy men still in hospitals; those who need rehabilitation; the families of Navy men who need financial aid; the Navy personnel still patrolling the seas of the world—guaranteeing the peace and freedom. Remember these men and help them by buying Victory bonds in the forthcoming Victory Loan. That is your best way to honor the United States Navy.

An ecru lace cloth over aqua covered the table, which was centered with an arrangement of yellow mums flanked by pink tapers. Thimble cakes iced in rainbow colors, pinwheel sandwiches, nuts and spiced tea were served with Mesdames Tittle and Lowrimore presiding at the tea service.

Flowers of many hues were used to carry out the theme of rainbow colors throughout the entertaining rooms and those in which the many lovely gifts were displayed.

AUTHORIZED FORD DEALER

TEXAS

T, F, B, F, Meeting Scheduled At Lubbock October 8th.

Reconversion and post war problems confronting agriculture will be the principal topics for discussion by producers of this area, at a meeting to be held at Lubbock on Saturday October 27.

The meeting is sponsored by the Texas Farm Bureau Federation and is one of a series of 14 being held throughout the state, J. Walter Hammond, president of the organization, announced.

Purpose of these meetings are to bring farm and ranch people firsthand information on the immediate problem of post war prices.

"There is a growing sentiment to lower agricultural prices," Hammond said. "A collapse of farm prices, such as followed World War I, will lead to a break in the entire price structure of our economy. It will take the combined

thinking of the best minds in agriculture to map a sound and practical farm program that will insure fair prices and prevent endangering the post war economy of our nation."

The farm Bureau tries to represent the true thinking of the producers of this state, and it is therefore necessary to call the farm and ranch people in to district conference to give them an opportunity to express their views on these issues of such paramount importance at this particular time, in order that as an organization the Farm Bureau will know what course of action to pursue, Hammond declared.

All farmers are urged to attend this meeting and have a voice in the formulation of a program which they believe will be sound and constructive.

W. R. Tilson of Meadow, member of the state board of directors from this district, will preside. The meeting will start at 10:00 A. M. in the Lubbock Hotel at Lubbock.

Texas Trails In Production

College Station, Oct. 15—At the end of August, Texas led all of the states in the number of laying hens. This state also carried the flag at the corresponding date in 1944, but this year had about 1,500,000 fewer producing birds than 12 months earlier.

The quarterly report of the U. S. Department of Agriculture's crop reporting board counted Texas' egg-layers at 21,888,000. Iowa was on Texas' heels with 21,478,000 and Minnesota in third place with 18,387,000. Texas' numerical leadership, however, was an empty honor because in production per hen, which means the profit on investment, the birds of this state topped to 39th place among the States. Vermont led with a production of 1.621 eggs per hundred hens during August, while the best the Lone Star fowl could do was 1.153. But that figure was a gain of 124 eggs over August, 1944.

In total production for the first nine months of the year Texas returned to the upper bracket with 2,650,000,000 eggs and third place, while Iowa was far ahead of all states with a total of 3,355,000,000.

S. A. Moore, poultry husbandman for the A. & M. College Extension Service, sees in these figures not only a possible wast of expensive feed, but an urgent need of better producing hens in Texas flocks. He observes that Iowa, with about the same number of layers, was able to produce 700,000,000 more eggs in the nine months. Although this period included the coldest winter months, Iowa produced nearly 6,000,000 more dozens of eggs than Texas poultrymen.

Moore believes that in addition to continuing good management, larger production in this state should be sought through improving the breeding of the laying flocks. This could be promoted by progressive up-breeding commencing with record of production males and selected hens. Males from this mating would rank as "certified". A further cross of this progeny with selected hens would produce "approved" chicks

Mrs. E. W. Liles and her two daughters were visitors in the Herald office Saturday afternoon.

Bland Liles, son of Mr. and Mrs. E. W. Liles, of Route 1, Brownfield, is here visiting and resting up after three years in the Southwest Pacific with the 103rd Infantry division. He has received his discharge and will leave soon for San Bernardino, California, where he will be employed.

which would have the best breeding of their ancestors. This system of breeding would conform to the requirements of the National Poultry Improvement Plan, and bring high quality males into general flocks.

Fourteen Texas breeders are doing trapnet work and their stock is recognized as of R. O. P. quality, Moore says.

Among those attending the Brownfield-Hobbs game in Hobbs, Friday night were Mr. and Mrs. Charley Donley and son, Bobby, Mr. and Mrs. Walter Hord and boys, Mr. and Mrs. Everett Latham, and son, Bobby, Mr. and Mrs. Spencer Kendrick and boys, Mr. and Mrs. Roy Wingerd, and daughter, Marian and Eleanor Miller,
