

An Appeal For Rooms For Veterans

The acute and well known housing shortage, here and throughout the nation, is becoming serious. There is a patriotic privilege, if not an almost moral duty of the many who have extra rooms or apartments, to rearrange and let some veteran, or even others, have a place to live for a while.

C. L. Lincoln of the Veterans Service office, and T. O. Harrell of the U. S. Employment service, who office in the building just west of the Brownfield Coffee Shop, are extending their good offices to further this effort. If anyone who can spare a room, or apartment, will drop by to see them, or phone them, they will send them a tenant. Of course reasonable rents are expected to be paid. This service on the part of these men is free to both.

Many towns are making such appeals with effect, and it is thought there are many homes in Brownfield, who can easily arrange to rent out one or more rooms.

Local Basketeers Take Doubleheader From Lamesa

In a hotly contested tussle in which the outcome was in doubt until the last few minutes, the Brownfield Cubs emerged final victors over their ancient rivals, the Lamesa Tornados last Tuesday night at the local gym. The score was 43 to 38 and at no time was either the spectators or the players able to relax. Moore for the locals and Clark for the Tornados, were high point scorers.

It was a slightly different story in the B game, however, and even though the visitors jumped off to an early lead, there was no question at all as to who was the superior team. The Cub B stringers made few mistakes, and in the closing minutes of the game, when the locals had the contest safely salted away, they pulled one of the most prolonged stalls the writer has ever seen on any court. It is no doubt, however, that the visitors afterwards wished that the stall had been prolonged for even a longer period of time, because when they became too enthusiastic in their attempts to break it up, the Cubs rang up another score.

Local fans, who have not been attending many games in recent years, are missing some bang-up good games, for both teams boast several boys who can really hit the basket when the opportunity presents itself. We promise you, that win or lose, the Cubs will give you a good show and merit your support.

NEAR FIRE AT THE SCHOOL HOUSE

A small but exciting fire, of unknown origin, sent the students of a class scurrying out, at the high school building Wednesday afternoon. Quick response of the fire department prevented its spread. Only slight damage to the floor. It was thought someone had dropped a match through a hole in the floor, igniting some waste paper beneath, though there was no basement.

VICTORY LOAN SALES ALMOST DOUBLE QUOTA

Washington, Jan. 5—Bond sales in the Victory Loan campaign almost doubled the quota.

The treasury's final figures for this last war loan showed sales reached \$21,144,000,000, or 192 per cent of the \$11,000,000,000 goal.

Individual purchases totaled \$6,776,000,000 quota, and E-bond purchases \$2,204,000,000, or 110 per cent of the \$2,000,000,000 sought.

Mrs. C. L. Sutton received a severe burn on her left hand Tuesday while lighting a Butane hot water heater that had gone out. She received treatment at the local hospital.

Former Brownfield Man Passes On

The many friends of N. B. "Ben" Hilyard, about 45, were shocked Tuesday morning when they learned that he had died following an emergency operation, from which he never pulled out of the shock. For the past several years, Ben has been with Texas Liquor Enforcement setup as auditor, and during that time has made his home in Lubbock, Wichita Falls, Dallas, and this is the second time he has lived in San Antonio.

Ben came here back in the twenties and began work for the State Bank as bookkeeper and later as assistant cashier. He held this job until he was employed by the State. Some 15 years ago, he was married to Miss Belle Williamson, to which couple three children have been born, his wife and two children surviving. Her parents, Mr. and Mrs. J. M. Williamson, still reside here. Mrs. Hilyard was employed by the Herald some ten years, beginning in 1924.

The funeral arrangements were set tentatively for Thursday the 10th, at a San Antonio Funeral Home, with burial in that city. Our remembrance is that he was born and partly reared around around Bowie, where he met and grew up with the Allred boys, and it was Gov. Jimmie that gave him the State job.

The sympathy of the entire community goes out to Mrs. Hilyard and children in this their hour of trial.

Applicants For Jobs Increasing

A check-up with Tommy Harrell, local man in charge of the U. S. Employment Service, shows quite an increase of registrants for jobs in December, over previous months. 310 veterans visited the office the past month, 114 registered for jobs of which 62 were farmers who were not looking for jobs, but eligible for unemployment pay, till crops are harvested. Many veterans on farms are entitled to compensation through the GI Bill of Rights.

Mr. Harrell stated he has 100 applications on file for jobs and while he has placed many heretofore, employer applications are slowing down. He urges all who desire help to register with him at once, that he may render this mutual service to both.

This service is also extended to small business men and farmers, and those self-employed on small returns.

Coy Thomas Terry Now A Civilian

The Herald is pleased to announce that Coy Thomas Terry, SAO 3/c, received his discharge from the Navy at Camp Wallace, Texas October 10 and has taken over the operation of his parents' farm, located 16 miles west of Meadow in the Pool community.

COY THOMAS TERRY

While his family has lived here since 1943, young Terry is a brand-new citizen, his family having moved here after he entered the Navy. Coy received most of his schooling in the Roscoe schools.

Entering the Navy April 10, 1942 and receiving his "Boot" training in San Diego, Calif., Terry had 18 months' duty in New Hebrides with a ship repair unit. He also had four months' schooling at Mare Island, Calif., and four months' schooling at the Portsmouth, Va. Navy Yard. Trained in the repair and adjustment of highly precision optical instruments, practically the whole of Coy's Naval career has been spent in this field of endeavor.

According to his mother, Mrs. W. F. Terry, Coy is really thrilled with his new farm and thinks Terry county is about "tops."

Eight More Readers Renew For Five Years

Talking about runs on banks "in the good old days" before the new banking laws, the Herald has had a run of renewals since Jan. 1, and in fact all through December, as most of our readers' papers expire around the first of the year. Since last Friday, 42 have renewed for from one to five years in advance, nine of the number for a period of five years, and many of them from two to three years.

Among those since last week's report that have renewed for five years are Bayne Price, Plains, Texas; R. D. Jones, Rt. 2, city; Gibbs Phillips, Rt. 1, Seagraves; J.T. Jones, Wellman; Paul Young, Rt. 4, city; Mrs. J. W. Laster, Rt. 2, city, and Homer Slaughter, Rt. 1, Seagraves; Burton G. Hackney, city. Many are up to 1948 and 1949, Money Price among the latter.

March 1 has been tentatively set as the date the Herald will be advanced to \$2.00 in the area and \$3.00 outside the trade territory. We want to be absolutely fair to all, and leave it to their own discretion whether or not they want to renew for one or more years.

The Herald welcomes any new subscription or renewal whether it is for six months or ten years. And by the way, we are adding many new ones. Our single wrap list is dwindling, for which we have no regrets as most of them were service men that have come home. Therefore our home list is growing fast, for which we are thankful.

There will be someone at the desk this weekend to take your renewal, and if you wish a receipt, don't hesitate to ask for it. You can use it as a reduction to your income. This goes for advertising too.

Mrs. Archie Dungan spent Sunday in Lubbock visiting her sister.

McKinney To Lead March of Dimes Drive

Dallas, Dec. 29—W. T. McKinney of Brownfield, Texas, has been appointed Terry County director for the 1946 March of Dimes campaign to carry on the work of the National Foundation For Infantile Paralysis in its battle against the dread crippler.

George Waverley Briggs, chairman of the Texas State Committee for the fund-raising celebrations in January, announced the appointment of the local director who, in turn, will organize a full committee of local civic leaders immediately.

Entertainments of all kinds and cash collections for the March of Dimes are being planned to raise funds for combating the disease which cripples thousands of America's children each year. The local campaign will tie in with activities in all Texas counties, now being intensively organized.

Last year 253 Texas counties participated in the campaign, raising \$611,192, of which Terry County raised \$976.37. Citing the severe polio epidemic of summer, 1945, the director expressed hope that the 1946 contributions would be materially increased.

"Fortunately, through funds from last year's March of Dimes campaign, we were prepared to meet the 1945 epidemic," Mr. McKinney reported. "More than \$6,500,000—or 65 million dimes—was spent by the National Foundation and its chapters over the country for transportation, hospitalization, services of doctors and nurses, and special equipment such as hot pack machines, iron lungs, braces, crutches and wheelchairs. Treatment of a polio patient costs an average of \$2,500 a year and must be continued for years to effect recovery. Since no one knows where or how hard polio may strike in 1946, we must again be ready to meet the attack wherever it may come, as well as continue treatment still necessary for patients of previous years. Contributions to the March of Dimes is our assurance that no victim of infantile paralysis will be uncared for, regardless of age, race or creed."

Half the contributions raised will remain in the county chapter for care and treatment of local patients, while the other half goes to the National Foundation for epidemic aid, education and research to find a means of preventing the disease.

The purpose of this show is for the teaching of future commercial feeders.

At the present 25 boys have 29 registered sow or gilts of the following breeds: Duroc, Poland Chia, Berkshire and Spotted Poland China. They are helping improve the swine in the county by selling pigs to other future farmers boys and farmers in the county.

Many of the boys plan to show their hogs at the Junior Chamber of Commerce Hog Show in March.

CITY OFFICIALS
Election, April 2, 1946

For City Secretary:
Tommy Zorns

There is a bunch of senators here in Texas that sure want to get to drawing some pay down there at Austin. They have called themselves in session, are looking wise and waiting for Gov. Coke Stevenson to submit names for confirmation for appointive office, which have been named since the regular session. But Coke don't seem to be ready to "submit" anything. That man has a head of his

own. Since he has been governor he has pulled Texas out of a \$35,000,000 deficit by eliminating a lot of just such buncko as these senators want to start up to draw \$10 per day for a lot of days of milling and mouthing around the capitol.

The brass hats in both Europe and Japan have found that it is hard to keep the GI's from fraternizing with former enemy femmes. Anything that wears skirts seems to attract the boys, and in a way who can blame them. They don't get to see any women and girls from the home country except actresses and singers, and little mixing with them, as the brass keeps them horned off. But we'll bet a gill of buttermilk to a doughnut that few of them have or will have any sympathy with Nazism or Shintoism, when they come home.

We have had occasion once or twice to wonder just where the Lubbock dailies place El Paso, Texas. Once a few months ago in discussing the population of cities in west Texas, it mentioned a few but ignored El Paso. This week, in discussing the amount of money on deposit at banks in Amarillo, Lubbock, Abilene and San Angelo, the border city was left out in the cold. Now, according to the maps we study, El Paso is just as far west in west Texas as is possible to place a city. And while that old North Pass city is probably nearer the capitol of New Mexico and Arizona than Austin, we understand that they still pay state taxes down in Austin, and place the word, "Texas" after the word "El Paso." We have no idea what the deposits of El Paso banks are, but we feel sure they are in keeping with the four cities the Lubbock paper mentioned.

Now is comes to us that there is a great dispute over what to do with Nazi films, some claiming we should deprive our people of nothing in the way of amusement or educational films, meaning academic freedom, we guess, even though they have some very vile hidden nazi prapaganda therein. Others, just as firm think they should be destroyed. Probably there will be a committee appointed. If you ask us, they tell us films, and there are several hundred rolls of them, make a fine fire, and in some sections of the country, they tell us fuel is scarce. Put 'em to good use.

We had a fine article this week from some person we believe is a newcomer, but he or she failed to sign the letter. Now, as some of the matter therein is controversial in a way, some person might call on the Herald to know who wrote the letter. For that very reason we don't print unsigned articles. We don't necessarily have to print the person's name. They can sign as "A Reader," or similar nom de plume, but we want to know the name of persons who write for our own protection. The reader mentioned above mentions many good things for the town, especially more playgrounds and amusement for young people. Come in, tell us who you are, and we'll run the article next week.

Christmas Seal

Eleanor Gillham, daughter of Mr. and Mrs. J. O. Gillham and senior student at Southern Methodist University, has been made vice president of the Chi Omega sorority.

Mr. Joe Price is a patient in the Veterans Hospital in Amarillo, where he underwent surgery the latter part of the week. Mrs. Price was with him for a few days, but he will remain for three weeks.

Mrs. Stella Graham entertained a group of friends with "42" Friday evening of last week. Those enjoying her hospitality were: Mr. and Mrs. W. G. McDonald, Mr. Bill Settles and Mr. and Mrs. L. M. Lang.

Gene Green, who has just received his discharge papers in California from the Marines, stopped in Brownfield, Saturday to visit his grandmother, Mrs. J. C. Green. He was enroute to Crosbyton, the home of his parents.

Mrs. J. C. Green's granddaughter, Betty Savage, of Lubbock, who was a Captain in the WAC's, has gotten her discharge papers and is at home in Lubbock.

Johnny Davidson, who has recently been discharged from the army, left Monday for Corpus, where he will be manager of the Colonial Baking Company. His wife and daughter will join him as soon as living arrangements can be made.

Word spread around Sunday that Mon Telford had made a big pan of "Son of a Gun" and the following came out to enjoy it: Mr. and Mrs. Bill McKinney, Mr. and Mrs. D. F. Day, of Lamesa, Mrs. Bit Copeland and Miss Elizabeth Upton and Mr. and Mrs. Dick Fallis.

Major and Mrs. D. A. Thompson and baby are here visiting in the B. L. Thompson home and also relatives in Lubbock. Major Thompson has just received the promotion from Capt. to Major and is in the engineers with the 75th division. He has been in service four years and was overseas in the ETO.

Mrs. M. V. Brownfield, of Lubbock, spent the weekend in the home of Mr. and Mrs. J. J. Youngblood.

R. Y. Mobley, of Haskell, spent two days last week visiting Mr. and Mrs. J. J. Youngblood.

Mr. and Mrs. C. C. Goodwin and son of Earth, Texas, spent the weekend with Mr. and Mrs. W. G. Swain.

Mr. and Mrs. Roy Winger spent Sunday in Ruidoso and Mr. Winger went on to Almagorda on business Monday. They report that snow was deep enough at Ruidoso to stall several cars along the highway.

Capt. Sam E. Brian, who has been stationed in Calcutta, India, and Tokio, Japan was granted a furlough that he might come home to visit his father, who has been seriously ill for some time. As he had to stay in San Antonio for a few days to obtain his furlough his wife met him there.

Babson Discusses Market Breaks

By Roger W. Babson

New York City, Jan. 11—Is another severe break in stock market prices necessary? Perhaps someday, but not just now. Need the market go up to a peak, as in 1929, and then come down with a crash? Certainly not. It is possible the "top" of the market could be a level plateau extending over months or perhaps years instead of a "peak."

Reuther Not Too Bad
Heretofore bull markets have culminated in peaks. Due to this fact, my friends here in Wall Street think this must always be true. But because of cheap money and the excellent work that the Securities & Exchange Commission is doing for small investors, my Wall Street friends may be mistaken. The top of the present bull market may consist of levelling off process whereby stocks could continue to sell at their highs for some time.

Most of the business leaders are sore at Walter Reuther and the C. I. O. crowd in his attempt to

mix up wages with profits. I grant this is an entirely new departure. The typical capitalist doesn't like anything new,—unless it changes the rules in his favor. But may not Reuther be a friend of the small investor by his prevention of abnormal profits and the sustaining of purchasing power?

Market Breaks Are Possible

This is not saying that a severe break in the stock market cannot come. It is very possible that the United States may get into a jam with Russia or some other country which could bring about World War III. Then there could be a collapse in city real estate and many industries, especially those in vulnerable cities near the sea coast. But with this there should be a scramble for self-sustaining small farms away from the evil effects of atomic bombs. Why people do not give more thought to the future is beyond me. Surely, the only truly safe "life insurance" is good mother earth. I have some for each of my grandchildren.

Perhaps a more likely reason for a market break would be a fear of Communism or Socialism. When people in this country are finally convinced that Europe is going Socialistic and that the cloud is constantly moving westward, investors will begin to sell. Banks, railroads, utilities, coal and oil stocks, and the stocks of such other large industrials as are now being "nationalized" in England and Europe will be liquidated first. Then there would be "no buyers for these stocks, prices could crumble quickly; and the entire market could severely decline.

Stabilization or Destruction

But eliminating the above scares, it is very possible, with the present money situation, aided by the S. E. C. and the C. I. O., that the stock market may be stabilized at a high level for a few years, as it stabilized at a low level from December, 1938 to December, 1942. Mind you, I am not guaranteeing anything excepting that conditions today are different from ever before. Either we are moving into a more stable world or else a large percentage of our present world is going to be wiped out. With atomic energy facing us, there can be no half-way ground.

But who created this atomic energy? We know that the answer is "God created it"; in fact it may even be a manifestation of God. If so, it has unlimited possibilities for good,—for making a healthier, happier and more prosperous world. Hence, I believe

that atomic energy may bring about the spiritual awakening which this old world so much needs. All Children Should Be Immunized

Austin—All children should be immunized against diphtheria at a very early age, according to a statement on the subject released this week by the Texas State Department of Health, explaining that toxoid which can be administered easily and without danger can safeguard youngsters against this serious and killing disease of childhood.

Dr. Geo. W. Cox, State Health Officer, urges all Texas parents to have their children, who are not already protected, immunized at once.

"The administration of toxoid can save a child from serious illness or even death and those who have not been safeguarded against this danger should be inoculated immediately," Dr. Cox said.

"Babies should be immunized by the age of eight or nine months," Dr. Cox advised. "A first dose of toxoid is recommended by authorities on the care of infants by the age of eight or nine months, and sometimes as early as six months. A second dose is usually given later."

To maintain immunity at a high level, Dr. Cox emphasized that a reinforcing dose of toxoid is advised when a child is old enough to enter school or have a Schick test made. Children who enter school or kindergarten this year without this additional safeguard or without ever having been immunized certainly should be protected without any further delay, the State Health Officer declared.

WEATHER BEWARE

When snow comes, Curlilocks will be ready for it in this pretty and practical reindeer suit with matching hat. A new feature is the gay ski-print lining of napped cotton, which is water repellent like the outer cotton fabric. The suit is lightweight for romp freedom yet warm because the tightly woven cotton outshell keeps out icy winds. The finish still functions after repeated washings or cleanings.

Behind the Scenes in American Business

By John Craddock

New York, Dec. 31—For the first time in five years, America looks forward to a full year of freedom from war. Labor disturbances have marred the first few months of peacetime operation and indications are that they will continue into January, if not longer. To the more pessimistic analysts, these disturbances represent a serious breach between management and labor which is likely to continue for some time. The more optimistic outlook is that they are a corollary of the abrupt switch from war to peace economy and that out of them may come a sounder, better understanding between management and labor.

In either event strikes have delayed conversion to a full peacetime prosperity at a time when all other signs point to a high rate of business activity. Stated simply, people have money, need goods and are ready to buy them. That is a firm basis for business prosperity and a high level of employment. However, this condition could change if many people are out of work for a prolonged period and are forced to spend their savings. Most industrial leaders think that differences will be settled soon and that business is in for at least several years of sustained high rate of production.

Farmers Urged To Grow More Cotton

Dallas—Department of Agriculture warnings that Southwestern and Southern livestock producers can expect no help from other states in the present feed crisis call attention to the need for increased cotton production in 1946. A. L. Ward, Educational Director, National Cottonseed Products Association, points out.

Curtailed production of cotton, leading source of protein feed for the Cotton Belt and Western range areas, is a major cause of the critical scarcity of cottonseed meal and cake facing livestock producers at this time, Ward said. He cited Department of Agriculture reports estimating 1945 cottonseed production at 3,703,000 tons, 24 per cent below last year and 28 per cent below the 10-year average. The indicated crop is the smallest since 1896 with the exception of 1921.

"For three seasons, cotton oil mills have been importing soybeans from the Corn Belt to make up the deficiency of protein resulting from reduced cotton production and increased livestock production and feeding," Ward said. "However, we cannot expect

other regions, also large livestock producers, to grow the feeds our Cotton Belt livestock need.

"Sound livestock production and balanced farming require increased feed production in the Cotton Belt, and cotton, supplying cottonseed meal, cake and hulls, is the key crop in our livestock and balanced farming programs. Livestock producers and businessmen, as well as cotton farmers, have a big stake in seeing that more cotton and cottonseed are produced in 1946."

Should Be More Telephones On Texas Farms

College Station—There are 337,816 farms in Texas which are not reached by telephone service—more than in any other state.

Thus Texas may well be the biggest customer for use of the carrier telephone when the system has proved itself suitable for commercial use, M. C. Jaynes, cooperative organization specialist of the Texas A. and M. College Extension Service, has predicted.

The new equipment, devised by federal and commercial engineers and now being tested in several Arkansas farm homes, may be the means of providing telephone service to thousands of Texas homes now served by rural electric lines but out of reach of telephone lines.

Under the new system, Jaynes explained, speech is transmitted on power lines along with the power supply by means of a carrier wave of radio frequency. Transmitting and receiving equipment is installed at the witch-board of the telephone exchange and at the subscriber's end of the line. The dial telephone is used in the same way as in regular service.

If, as REA Administrator Claude R. Wickard expects, the system will work out under commercial conditions, any home served by electricity could also have telephone service.

Texas' 93 REA cooperatives now have 42,556 miles of rural power lines which service 106,839 consumers. It is believed that many of these consumers are outside areas reached by rural telephone lines.

The Wagner-Murray-Dingell Bills

These identical bills before the Senate and the House will probably be pressed for immediate passage.

These bills in brief would:

1. Levy a compulsory contribution (tax) of 3 percent on the pay checks of 110,000,000 people. Do these 110,000,000 people know this?
2. Of the 3 percent, 4 percent is to be taken from the employee and 4 percent from the employer. Self-employed pay 5 percent up to maximum earnings of 3600. Federal workers pay 2 1/2 percent. Do these people know this?
3. Of the eight or ten billion dollars provided through this tax measure, it is estimated that the compulsory health insurance program will require approximately \$3,142,000,000. Is this known to the public?
4. The bills place the administration of the health insurance plan in the hands of one man, the Surgeon General of the United States Public Health Service, who need not necessarily be a doctor. Does the public know this, and is it good or bad?

Persons requiring medical attention will probably be required to see the doctor allocated to them by the Federal Bureau of Medicine. Does the American Public want this, and is it good or bad?

Judge Says:

They fear the Atom bomb will destroy the world. Well, it is in a helluva mess as it is.

One way they can solve the unemployment situation is to appoint them to Fact-finding boards.

Now they are going to bring headquarters of the United Nations Organization to America, and us with a housing shortage.

It looks like labor and management are not doing either.

Wellman Girls Defeat Meadow

In one of the closest and most thrilling games ever played in the Wellman gymnasium, the Wellman girls came from behind to tie the count at the end of the game 20 to 20 and went ahead to defeat the girls of Meadow in the extra three minutes of play that was necessary to break the count of a deadlock. The field goal of Ne-loveth Slaughter with two guards all but hanging on her neck did the trick after the free shots that were awarded Henson of Meadow for a foul that was committed by Williams of Wellman which was her fifth foul. Meadow led the Wellman girls at the half by a score of 11 to 4, at end of 3rd period by a score of 16 to 11. Then Bradley hit the basket from the field as did Bentley and Slaughter. The second basket from the field by Slaughter and a free toss by Clark tied the count before the final whistle. The largest crowd to attend a game in the Wellman gym since Pearl Harbor thoroughly enjoyed the thrills and spills of this game.

The two warm-up games played by the younger teams of the two schools should have been won by Wellman but each of these teams turned on steam and their rallies nipped the less experienced youngsters of Wellman and victories went to the Meadow junior girls by a score of 14 to 19. Pace of Wellman and Crownover of Meadow shared goal honors with 9 points each. The young boys played on even basis until the last half when Meadow hit the basket at will and pulled away from an even score at the half to a 21 to 9 victory that left Welcher of Wellman and Belew of Meadow tied for scoring honors with seven points each.

The Wellman senior boys were no match for the fast and experienced boys of Meadow. Even though Nettles was off on his usual form the boys from Meadow led the scoring spree by a score of 30 to 6. Locke was high scoring man with 12 points to his credit while all the first string of Wellman failed to make a field goal until 30 minutes of play had passed when Welcher and Clarence Livesay each scored a field goal. Crowder sank one free toss out of eight attempts and Dean failed on about as many.

The senior girls were well matched as to scoring honors with Slaughter of Wellman and Henson of Meadow getting 9 points each.

REPORT OF COUNTY LINE CLUB

County Line club met in the home of Mrs. Meeks Friday, Jan. 4. After the formal opening exercises, our H. D. agent, Miss Scott, gave a demonstration on making foot stools. These stools are surely nice and a number of the club members plan to make them as soon as materials can be assembled.

We also learned some good facts on upholstering that will come in useful on other pieces of furniture.

Miss Scott gave us another lot of those helpful government bulletins. These cover such a variety of subjects that each of us found just what we wanted in our special fields of endeavor.

Mrs. Barker demonstrated the making of a Chenille bedspread. She used square blocks of unbleached sacking with a nice design in rose, white and green.

Refreshments of very delicious cakes, hot chocolate, and coffee were served to the following members: Mesdames Barker, G. W. Henson, Clay Henson, Sudderth, Ellington, Alexander and our hostess, Mrs. Meeks. Club adjourned to meet next in the home of Mrs. Alexander, Friday, Feb. 1st.

—Reporter.

Mr. and Mrs. Bill McGowan and baby son are now calling Brownfield their home town.

BM2/c R. D. Jones, Jr. left Sunday to report to Dallas after spending his leave here with his parents.

Oscar Sawyer, pioneer rancher of this county, who has been in Dallas the past two years, was visiting relatives here, Tuesday. He stated he had recently moved to a farm near Lubbock.

Mr. Fred Wells, of Amarillo, district supervisor of the U. S. Employment Service, was here Wednesday, in interest of that service, of which T. O. Harrell is in local charge.

Mrs. J. C. Powell and Dolores Gillham will spend the weekend in Pampa visiting relatives.

Bentley threw 8 while Stephens threw 7, Fox 4, Clark 3 and Bradley 2. The three guards of Meadow were voted all tournament team in the Wellman tournament but even Renfro of Meadow was not as good in this game as was Williams of Wellman who is the new discovery in guard material for Wellman. Cabe proved about as good as a guard can be and allowed only 2 field goals from her place.

Hawkins and Livesay alternated at left guard and accounted well for themselves.

SPECIAL STEP-UP FEED WITH ULTRA-LIFE

When birds are not laying as they should or are out-of condition, they may need additional vitamins and trace minerals to pep them up.

We have a simple program of feeding that will give beneficial results... and may be continued indefinitely.

First, measure out one quart of heavy oats for each 100 birds, then add enough luke warm water to just cover the oats. Allow this to stand and soak over night or until feeding time. Do not drain off any of the water. To this soaked oats and any remaining water, add one pound of Ultra-Life Poultry Concentrate to each quart of oats and mix well together.

This mixture should be fed once each day about noon, for at least 21 days. Spread it on top of the mash kept in hoppers.
