

Mrs. Terry Redford New Sandra Sue Owner

Completing arrangements Monday, Mrs. Terry Redford has purchased the Sandra Sue Beauty Shop from Fay Williams and now has complete charge of the establishment.

Assisting Mrs. Redford are Mrs. Reba Zorns and Miss Helen Hunter. Mrs. Redford solicits the patronage of her friends as well as the regular customers of the Sandra Sue Beauty Shop.

Lubbock Road Is On A Boom

The Herald wishes the City Council would give Lubbock Highway, Road, Ave. or Street an official name where it gently turns off First Street at the Sinclair station to say, the Magnolia Production centre. It is called so many things that it is hard to understand it enough to make it clear to others than long time citizens what you are talking about.

To say the least, that thoroughfare is making rapid progress, and unless you see it every few days, you just lose track of it. S. Yandell has lately opened a nice little grocery and market on the road, street or avenue, and seemed to be doing a landoffice business. While the store is small, it is well built inside and out, and he has nice fixtures and furnishings inside.

Look either way as you go north, and there is a pile of lumber, tile, sand, etc., or there is a foundation, or a building under way. What would they do if building material could be had like before the war? One of the larger buildings now under construction is a tourist court, and we have an idea the owner already has every stall spoken for.

In another article the Herald is telling you of the greatly enlarging of the Rogers greenhouse, and soon, very soon, they will be able on short notice to supply any flower you wish.

We don't mean by the above that no other part of Brownfield is growing. It is everywhere. Brownfield is ideally situated to make a real little city. It has a trade territory second to none, and people are beginning to see the future of the city.

Every day that the Herald is open, we have inquiries not only for rooms, apartments and houses to live in, but business property, and some of them will buy lots in the business district if they can get building material.

If and when Uncle Chester Bowles gives the green light, and our building material men can get what they order, the very face of the earth hereabouts will be changed.

High School Band To Give Concerts

The High School Band is doing good work now and expects to be ready for the concert which is to be given for the Junior high assembly on February 21. The attendance to daily rehearsals has been better since the program has been outlined. Several members are working on solos which they will give from time to time.

The band as well as all music fans have been invited to a series of Sunday concerts to be started by the Lubbock high school band. Plans are being made to "swap" concerts with the neighboring towns, including Lubbock, Sundown and Levelland.

Plans are under way to begin a school orchestra in the near future. This organization will use the more experienced band members and those using certain necessary instruments. This will be more or less an outlet for those who want to play more difficult music than we are now playing in band. It will number about fifteen members, most of whom have already been selected. It is hoped that this organization will add much to the school's activities.

FCA To Make Loans To Terry Farmers

Loans are now being made to finance 1946 crop production in Terry County, according to L. B. Wright, local Field Supervisor for the Dallas Emergency Crop Loan Office of the Farm Credit Administration.

Applications for these loans are being taken in Brownfield Base-ment, Postoffice, Thursday of each week. The security required is a first lien on the crops to be financed. The loans are available only to those farmers unable to secure loans from banks or other sources.

These loans, generally known as "The Seed Loans," have been made in Texas since 1931 and have proven of great benefit to farmers whose cash requirements are small. Repayment of the loans has been high. Borrowers are required to plant large gardens for home use and a balanced program of feed, food and cash crops is encouraged.

A loan to finance the purchase or production of feed is also made in livestock by this agency.

The maximum loan to an individual is \$400.00.

The seed and feed loans are administered in Texas under the direction of W. E. Farwell, manager of the Emergency Crop and Feed Loan office, 405 U. S. Terminal Annex Building, Dallas 2, Texas.

Cubs Split Double Bill With Plainview Bulldogs

Two hotly contested ball games were served up as the bill of fare for a house of interested spectators last Tuesday night when the Brownfield Cubs were hosts to the Plainview Bulldogs.

In the curtain raiser, Bob Samson paced the locals in a 28 to 27 win over the visitors' "B" team.

The Cub "A"-stringers ran into considerably more difficulty, however, and had to content themselves with the little end of a 41 to 30 score with the visiting "A"-team. High-scorer for the locals was Joe Wheatly. Runner-up among his team mates was Billy Winn.

Nephew Of Local Men Dies Of Heart Attack

A. P. Moore, aged 45, a nephew of J. W. and Charlie Moore of this city, died of heart attack near Ft. Smith, Ark., last Saturday, while enroute to visit a married daughter. He was buried at Lamesa, Monday afternoon.

He left a wife and two children. He was son of Walter Moore of this city. Mr. and Mrs. Early Key, and Mr. and Mrs. Robert Webb of Hobbs, relatives and former residents here, with Mr. and Mrs. Charlie Moore and Mr. and Mrs. Brannan, attended the funeral.

If You Move Away You Pay More

We have received two or three letters recently, generally containing a renewal, that think their papers should not be out. Fact is, most of these persons have moved out of the trade area after their subscription started, and if they had ten months coming here, for instance, their paper time was cut to five months.

We have in the past agreed only to send the paper in the trade area one year for one dollar. Elsewhere it has been \$2, with \$1.50 rate to service men anywhere. But after March the first the Herald will be advanced to \$2 here at home and \$3 elsewhere. Service men will continue to get the Herald at \$1.50 for the time being, no matter where they are.

Mrs. Don Peache and daughter, Donna Kaye of Lubbock, spent Thursday in the home of her parents, Mr. and Mrs. Hayden Griffin.

Zorns Replaces Hackney As Legion Commander

Members of the local Legion Post at its meeting Thursday night, January 21, appointed Bruce Zorns as Post Commander to fill the unexpired term of Burton Hackney, who handed in his resignation at the meeting.

Present at the meeting was R. L. Price of Lamesa, Vice Commander of the 19th District, American Legion and Chairman of the Membership Committee. Price complimented the local post very highly, both on its size and spirit.

Seventy-two Veterans, a WAVE and a WAC went through the initiation ceremonies. With 647 members, the Howard - Henson Post is now 22nd in size in the state and is likely to go well over the 700 mark by next meeting night. Coffee and doughnuts were served.

John A. Dumas Dies Suddenly

John A. Dumas, aged 41, lifetime resident here, died suddenly early Friday morning of a blood clot, at his home. Funeral services were held at the Church of Christ, Cline Paden officiating, at 3:30 Saturday afternoon, followed by interment in Terry County Memorial Cemetery.

He was survived by a former wife, Mrs. Edna Dumas and three children, Mrs. Valdene Delevan, of Lubbock; Vela May, and Donald Lee, of Brownfield, and by his second wife whom he married about one year ago. One brother M. E. (Ed) Dumas of Plains, and three sisters, Mrs. Brit Clare of Brownfield, Mrs. J. C. Patterson of Seagraves, and Miss Lizzie Dumas, well known teacher here. His parents passed on several years ago. He also lost a brother in World War I.

John was discharged from military service only a few months ago, after 42 months, most of which was spent in North Africa. His parents were pioneer settlers in the southwest part of this county.

Seaman Blevins Getting Discharge

Pearl Harbor, T. H. — M. L. Blevins, Y3/c, husband of Lillian L. Blevins, of 401 S. 5th St., Brownfield, Texas, is one of 3,141 high-point veterans whom the Navy is returning to the States for discharge aboard the USS Ticonderoga, a large carrier of the "Magic Carpet" fleet. This ship left Okinawa, January 6, and is scheduled to arrive in San Francisco about January 21.

The USS Ticonderoga is one of more than 225 ships of the "Magic Carpet" which is rapidly returning to the States the 1,452,000 soldiers, sailors and Marines remaining in the Pacific on January 1, 1946. Before the Japanese surrender this ship operated with fast-striking Task Force 58, providing fighter and bomber offensive power in the U. S. island-to-island campaign and participating in the final air, surface and undersea blockade of Japan which led to final surrender although enemy armies were largely intact and a large air force remained.

Longbrake Watches Test of New City Well

H. H. Longbrake was in recently to get his Herald up several years in advance, and stated that he watched the test of the new city well, which is near his place in northeast Brownfield.

He figured that the test covered some 36 hours at a rate of around 1000 gallons per minute, or a 7 inch lead pipe full, and if the test fazed the well he couldn't tell it.

By the way "Brakey" says that his old black walnut died a few years ago. He don't think they have much of a long life here, or pecans and grapes for that matter.

Keith Mason Returns To Civilian Life

It's off with the "Staff Sergeant" and on with the "Mister" for Keith Mason, who arrived Tuesday from Fort Bliss, where he received his discharge from the army. Mason is the son of Mrs. Grace Mason.

In the Army three years, Keith has been in the Asiatic-Pacific Theater the past twelve months, having duty in New Guinea, the Philippines and Japan. Prior to going overseas, Mason had duty at A. & M. College, Kelly and Randolph Fields in Texas and at bases in Colorado and Florida.

BAND NEWS

Since the return of C. L. Horn from the armed forces the Brownfield High School band has been steadily progressing. Under his direction it has reached a total of thirty-eight members. The band uniforms were issued the 30th of January. The band's officers are: Odell Quant, president; Mary Tankersley, vice president; Cherry White, secretary, and Robert Montgomery, reporter.

Let's all respond to the band's first concert the 21st of February.

The Junior High Band

The Junior High band is showing much interest and is gaining new members every week. Two new members came in this week. The instruments they play are snare drum and trombone. We believe we have the material to make a real band and with some hard work and time we hope to prove it.

Lanny Webb—Reporter

R. H. McCormack was in last week to renew and we found that he is strong against socialized medicine. And you can hardly class him as a capitalist. He is or was a member of the Brotherhood of Railroad Trainmen, and we believe Carpenter's Union, AFL.

Collier And Hicks New Owners Of Gulf Station

Pate Collier and Tommy Hicks, both World War II veterans, have recently acquired the Gulf Service Station on West Main Street, where they invite you to call on them when in need of anything in their line.

By no means a newcomer to the service station business, Collier has operated several other stations as well as being the former owner of the Gulf Station, which he sold shortly before entering the army several years ago. Before entering the Army, Hicks was employed at Cobb's Department Store.

The Herald takes this opportunity to wish these two young men the very best of luck in their new venture.

President Ball Well Attended

The annual President ball was held at the Legion Hall, Wednesday night, and was well attended by a large crowd. The proceeds of which goes to the March of Dimes, to combat Infantile Paralysis. Exact amount was not learned but estimated to reach several hundred dollars.

The Lions club will gather up the reception boxes, placed in local business houses, some time ago, for the purpose.

A full financial report will be given next week.

School Bonds May Be Refinanced

Supt. McCollum and some of the other school officials are to go to Austin in the near future, we understand, to have a talk with State Supt. L. A. Woods and the Board of Education, about getting the older bonds of the Brownfield district at a lower interest rate.

If this can be done, arrangements will be made to make some needed repairs on the school property, and perhaps another school building erected. The school has already become crowded again.

Former Resident Killed In Car Wreck

T. D. (Buck) Lewis, aged 64, a brother to Grover C. and Moury Lewis, well known residents here, was killed last week in a four car wreck near Portales, N. M.

Lewis had resided here several years before moving to Portales, four years ago. The brothers here attended the funeral at Portales.

City "Sitting For Portrait"

Surveys are already underway, which when completed, will give data for the most complete set of maps the city of Brownfield has ever had. Giving elevation and location of sewer and water lines, the set of maps will make up a large bound volume when completed as they are to be drawn on such a scale that the most minute details of the city's street, water and sewer system are shown.

According to Tommy Zorns, it will be about a month before the maps are finished and formally turned over to the city. The maps are expected to be a great help to the city in locating the existing service lines as well as an aid in the planning of future extensions.

Staff Sgt. John Cruce On Way Home

Pearl Harbor, T. H.—Sgt. John L. Cruce, of Brownfield, Texas, is one of 1,065 Army veterans returning to the States for discharge and reassignment aboard the Army transport Mexico, which left Pearl Harbor, January 16, and is scheduled to arrive in San Pedro about January 22.

J. A. Benson is a new reader of the Herald.

Five Join Five Year Club Past Week

Since our last issue, five readers have renewed for a five year period, and one new reader for five years. The five year subscriptions were as follows: Clay Henson, Tokio; Elizabeth Duman, city; G. D. Wade, Rt. 5, C. D. Parker, Rt. 2, and J. M. Telford.

The three year renewals were, Lee Hulse, Rt. 2; J. W. Ball, city; A. B. Buchanan, Rt. 4, and W. E. Stone, Rt. 5. The two year renewals were Mrs. M. G. Phillips, Rt. 3, B. M. Little, Rt. 1; A. A. Sawyer, city; Vance W. Brown, Rt. 1, Seagraves; W. J. Jowers, city.

The trade area renewals for one year were, Mrs. O. E. Johnson, city; Jim Lindley, city; J. L. Langford, Rt. 1; H. B. Thompson, city; M. R. Watkins, Meadow; Alton Spraberry, Rt. 2; J. L. Newberry, city; Mrs. Jesse Ferguson, city.

Remember that the price of the Herald in the trade area will cost you \$2 per year after March 1, and \$3 elsewhere. You can renew for as many years as you like at the old rate before that date.

Subscriptions to service men will remain at \$1.50 per year until all the boys get home, no matter where they are located.

Akers Quizzes Rotarians On Hunting, Fishing

Local Rotarians enjoyed a very original program last Friday noon at the Wines Hotel when Glen Akers subjected the group to a "Sports Quiz." The questions dealt with hunting, fishing, small boats and life and habits of game animals. As a whole, the group seemed fairly well up on the subject.

New members present were, John Kendrick, who has been appointed Scoutmaster of Troop 49, the Boy Scout Troop which is sponsored by the Rotary Club, Paul Campbell and Kenneth Hill.

Johnnie Haynes Buys Site For Bakery

Johnnie Haynes, who got out of the navy a few weeks ago, has purchased a site at the corner of Hill and Second Street for a bakery. The old residence that occupied the site has been moved further back into the residential district, remodeled and made into a home.

We have no figures or description on the type of building Johnnie aims for the bakery building. That can come later. Johnnie was owner of the Dixo-Star Bakery before entering the service.

Raymond Reynolds On Way Home

Pearl Harbor, T. H.—T/3 Raymond Reynolds of Brownfield, Texas is one of 916 high-point service veterans whom the Navy is returning to the States for discharge aboard the USS Windham Bay, an escort carrier of the "Magic Carpet" fleet. This ship left Pearl Harbor, January 15, and is scheduled to arrive in San Pedro about January 21.

The USS Windham Bay transported planes and pilots to be based on Iwo Jima for air strikes on Japan and operated with Task Force 58 during the Okinawa campaign providing fighter and bomber support in the capture of this last U. S. assault before the occupation of Japan.

Noel, Primm Placed On City Ballot

A group of citizens have requested that the names of C. C. Primm, local druggist and Troy Noel, local tailor be placed on the ballot for the office of City Councilmen, subject to the action of the city elections to be held in April. Their names will appear in the political announcement column of next week's issue of the Herald.

Clothing Drive Proclaimed A Huge Success

According to Slim Schellinger, in charge of the local campaign, collections for this year's Victory Clothing Drive are expected to greatly surpass last year's total of more than six thousand pounds. The various schools have not as yet turned in their final totals, but preliminary reports indicate the collection will be a success in every respect.

Packing and assorting of the clothing will take place at Sid's Cleaners next Monday night and the Lions Club solicits the presence of all interested persons who care to assist in the undertaking.

Buddy Gillham Here On Furlough

Corporal Buddy Gillham arrived Saturday to spend a 30-day furlough after which time he will report to Fort Sam Houston for discharge. Buddy spent twenty months overseas in England, France and Germany.

Prior to his entering service, Gillham was employed at the Brownfield State Bank and was actively engaged in civic affairs. Buddy has been missed by all and we are glad to have him back with us again.

Local Florists To Hold Open House

Mr. and Mrs. L. M. Rogers, owners of the Brownfield Floral Shop, cordially invites the public to attend their open house Sunday afternoon from 2 to 6 p. m. The occasion is to show their greenhouse, which was completed in September, and their display room that has just been completed.

All who enjoy the beauty of flowers should make a point to go as the greenhouse is a verdant paradise, with snapdragons, colendulas, garza mums, marigolds and carnations blooming profusely. Pot plants of jonquils, tulips, azaleas and many others add color to the variety. The Rogers are finding the raising of flowers under scientific conditions very interesting, also profitable.

An attractive arrangement of pot plants in full bloom makes the entrance to the display room very enticing. A large array of vases, bowls, etc., in every shape and size also lends beauty to the room.

Mrs. Rogers is very adept at making flower arrangements for all types of occasions, and is among the few who give delivery service. They also wire flowers anywhere in the United States.

Notice To Terry County Farmers

Farmers who are selling cream or milk who have not made application for their subsidy payment for the months of October, November and December should do so at once, as payment cannot be made for these months after the last of February. The records in our office show that many farmers who received payments for previous periods have not received payment for the current period.

All Applications for Pay for carrying out 1945 conservation practices are now ready for farmers' signatures. Any farmer who has not signed his application should do so as soon as possible.

Mrs. Ollie Bruton and children, of Lubbock, were here Thursday visiting her parents, Mr. and Mrs. G. G. Gore.

We are sorry to report that our popular Santa Fe agent, Bob Harris has been quite ill, but is now up.

Lt. E. T. Allen, Jr., who has been stationed at Great Falls, Mont., stopped here Tuesday to visit his aunt and uncle, Mr. and Mrs. Hayden Griffin. He was enroute to San Antonio to get his discharge papers.

The Herald would be the last institution in these parts to say that "line holding" during the war was not desirable. It was, but it seems that nearly every one in Washington now except Chester Bowles believes there should be some slackening. Of course all believe that if turned wild loose, there would be inflation that would make that of 1919 and 1929 look puny. On the other hand, if these lines are held too rigid, deflation might set in that would make the early thirties look sickly. If you ask us, we believe that prolonged strikes in essential industries like steel, could and will be the starter of a deflation, which added to our big national debt, may sink the nation to such a low tide that it would cause not only a depression, but a revolution. Congress has a job of quick and sane thinking on its hands.

Sometimes a city can get a hot potato along with a state or a private college. Just recently the Attorney General of Texas has held that the city of Denton, must, as in the past 47 years keep supplying the North Texas College with free water, and it makes no difference how large the college grows, or how much more difficult the supplying of water becomes to Denton. The same might be true of any state eleemosynary institution. We for one, are not overly anxious to load up on institutions that do not pay their way.

Here of late a hundred or more of our farmers have dropped in to renew, but very few of them will take a chair when offered one, but pay up and skid. Why? About the only thing we can do out is that once again they have a season in the ground and they are afraid it will sneak out on them if they stay in town too long.

Much is to be desired in the movement to improve the health of the nation. Particularly in the south, including Texas, we had too many 4-F's, and the average was none too good for the entire nation. But much of this can be charged to the way some live, particularly the eating and sleeping habits, and not to ignorance. But we want a federal dole and be tied to the apron strings of bureaucracy and regimentation? Or do we want to live like we have lived since the establishment of our republic? If we want a physician, get him, and get the one we want when we want him. The Herald believes that most people are not pretty well fed up on controls in the last four years.

The Gaines County News in its last issue, stated the Herald has lost more money on subscriptions at \$1.00 each than we would have gained if all country weeklies would quit carrying "patient insides" or words to that effect. Editor Watson has a perfect right to his own opinion—so have we. We don't think we have lost a penny by selling the Herald in the trade area for \$1.00 or \$2.00 elsewhere, but admittedly we have made no money; just broke even. In other words, what we have collected on subscriptions have taken care of that department, and the advertising has cared for the rest. On the other hand, we saw a "ready print" exchange this week that was carrying, free, three ads on just one page that pay us more than \$30.00 per month. There were oodles of other ads on this syndicated sheet that would be real revenue to country weeklies if all of them would cut the syndicate. However, we thank Editor Watson for saying the Herald was one of the best weeklies in West Texas, and other complimentary terms.

The more we hear of ceiling prices on raw cotton, the more we are led to conclude that all the fuss is coming from the big boys in the synthetic industries, who are closely organized. On the other hand, the friends of cotton are every man for himself and may the devil take the hindmost.

Well, the boys over in old Lamb are getting ready for their bi-annual election row over the county seat. Littlefield is by far the largest city, but is in the southeast corner, and it takes two-thirds majority to get the county hospital. On the other hand, one of the smaller sisters, near the center of the county, Miss Amberst, also wants the county boys to headquarter there. A majority would do the job. Usually, the present county seat, Olton, in the northeast corner, also, wants to retain the capitol. So, a big campaign to pay poll tax is on, and an election is called for early March. Watch the fur fly.

And while they are pulling for full poll tax payments in Lamb mainly for a county seat election, over in "Hubbock" county they are getting ready for a beer election. One group in Lubbock county is headed by the Ministerial Alliance, and the other a new and heretofore unheard of combination "villain-returnee organization, the ministers for no guzzling, the latter for more guzzling. The side with the most poll tax payees will likely win, and if it happens to be the wets, we have made an agreement to look for the sun to rise next morning in the general direction of Plains, instead of Tahoe.

L. B. Duncan of the Olton Rt. out of Plainview, sent in his renewal this week.

Mrs. Ruth Huckabee and Grace Tarpley of Abilene, and M. H. Hughes, also of Abilene, were weekend guests in the home of Mr. and Mrs. M. G. Tarpley.

Mr. and Mrs. M. J. Craig visited in Hobbs, Sunday.

Miss Terry Lou Moorhead, of Perryton, spent the weekend in the home of her parents, Mr. and Mrs. R. M. Moorhead.

Mrs. J. C. Bevers left Tuesday for California to visit her daughters in Los Angeles and Tulare and her son in Burbank.

Two Good Old Farm Suppers In A Week

We have been unusually lucky this week, beginning Sunday night. We have had two good old farm suppers—the just after dark kind—and were they fine. We say lucky, for the suppers were not really intended for us. They were complimentary of our sister-in-law, Mrs. Sallie Limer of Compton, Calif., and we just tagged along.

The first was at the farm home of Mr. and Mrs. Money Price in the Challis community, northeast of the city, Sunday night. For the piece de resistance, a young tom turkey, with all the trimmings and washed down with some fine ruckie. Shore fine folks!

Then Tuesday night, we were invited out to the home of Mesames Limer and Stricklin's niece, Mr. and Mrs. Bernard Lay three miles southwest of the city. Their bill-of-fare was a sitting of good old beef and steak and liver—you had your choice or both if you wished, not to mention all the other good eatings. Larapping!

Mrs. Limer left for home Wednesday, stating that she always got too fat in Texas. She goes back to California to diet awhile.

Frank Jordan Came Over To Thank Us

Frank Jordan, the get up and go guy of our city, came in to see us one day last week in his usual bustling style, but we soon saw he had not come to horsewhip the editor. There was a gleam of good nature in those sparkling eyes of his.

Says he: "I came all the way over here to thank you for that fine article you wrote about the Lions Club this week. I just wanted to tell you that all the Lions appreciated that boost, and that the Lions are going to do just what they said they'd do or know the reason why."

Well, sir, every editor is so used to being told about mistakes, or saying the wrong thing at the right time, that we almost swooned. If we had had on bobby-sox, we guess we would have passed out. That was just such a jar as Frank and Van give the teen age gals.

You can say something mean about a guy in a two line local and place it between two of the biggest ads, and the guy or his friends, whether they take and pay for the paper or not, will see it, and either swell up and half speak to you or write you a "secret" letter blasting you to hell and high waters.

We told Frank that we could not do a great deal, but would like to donate something toward the effort. "No, we are not taking public subscriptions—the Lions are going to do this building themselves," he informed us, but any publication or boosts will be appreciated from the Herald.

Mrs. Bud Allmon, Mrs. L. M. Lang and Faye Marie attended the bridal shower for Mr. and Mrs. C. L. Tomlinson in the home of Mrs. S. M. Minton, on O'Donnell Monday afternoon. Mrs. Tomlinson is the former Miss La Verne Garnett.

Leads Legion in Fifteen Departments

SAM L. LATIMER, JR.
National Vice-Commander Sam L. Latimer, Jr. of The American Legion for 1946. His home is at Columbia, S. C. The area assigned to him embraces 15 American Legion departments. They are Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mexico, Mississippi, North Carolina, Panama, Puerto Rico, South Carolina, Tennessee, Texas and Virginia, with a total of 2,462 posts.

Our Old Bachelor Robin Came Home

For the last dozen years a lone-some—or is he?—robin has spent the winters in our back yard with the sparrows. Our remembrance was that when he first came to spend his winters with us that there were two of them, but for many years now, it has been alone. Not being a birdologist, we would not swear that he is a him or she is a her. But we call it our bachelor Robin.

We keep plenty feed out there, as well as water handy for the old gentleman, and he is pretty gentle with any of the family about, but gets a bit restless if strangers are about. And he seems to be well satisfied and gets a kick in locating a bunch of sparrows feeding on the ground and dash down among them. They get from here when he pulls that stunt.

We will never know whether some one killed its mate, or it just likes to Live the Life of Riley. But birds have always been interesting to us. As a boy we used to lean on the hoe handle with our bare footed leg wrapped around it, and watch birds until some of the oldsters discovered us and ordered us to get busy.

But no one has any right that we know of to order us to stop watching old Bachelor Robin.

Among the recent visitors in the G. M. Thomason home was, her sister, niece, cousin and baby over the weekend from Rochester. They were Mesdames L. S. Wreyford, Robert Sadler and Lewis Hester and baby. They returned to their home Sunday afternoon.

S. N. Riley of south Terry said he liked our article about old papers last week. Among his possessions is Farm and Ranch, with dates back in the gay nineties, and some in the early part of this century. He also has other old editions of papers. The Herald has some first issues, one being Life Magazine, as well as the last issue of the old Semi-Weekly Farm News, in our vault.

THAT'S FOR ME!

"That's one of the reasons I'm saving every drop of used cooking fat," says Mrs. Harry Weir who is dreaming of a home like this when her husband returns from overseas. Unless kitchen fat salvage continues to account for 10% of our production of inedible tallow and grease, as it did during war years, laundry soap, packaged soaps, floating soaps, plus building materials will be even more scarce than they are now.

Terry Farmers Taking Inventory

Farmers are taking inventory of the changes which the war brought about on their individual farms and in agriculture as a whole. They are particularly interested in what those changes mean for the future. While the impact of the war upon farming has been far-reaching, action has been taken to make the situation less serious than 25 years ago. For one thing, Congress has provided floors under the prices of most farm products, which will ease the shock of war-to-peace conversion. Farm legislation now on the books and action programs now in operation give farmers the tools they need to continue to provide ample supplies of farm products at prices which are fair to consumers and themselves.

These national laws, built upon the Agricultural Adjustment Act of 1938 and the Soil Conservation and Domestic Allotment Act, provide the machinery to make farm production responsive to market demands, to conserve land and water resources, to insure crops against natural hazards, and to assist farmers in obtaining their fair share of the national income.

The farmer-committeemen organization, which operates this machinery, handled its assignment smoothly during the past 12 months. State, county, and local committees helped farmers to:

- Carry out more soil and water conservation practices than ever before under the Agricultural Conservation Program.
- Protect more crops and more farmers than ever before under the Federal Crop Insurance Program.

gram. Produce, guided by goals, the volume and the kinds of food needed to finish the war and help feed hungry people abroad.

Increase, through special payments, flaxseed production 59 percent above 1944, and to maintain the harvest of hay seeds above normal.

Stimulate the output of badly needed dairy, beef, and lamb products through special production payments from commodity credit corporation funds.

Obtain surplus war trucks and other scarce equipment.

In August, the AAA organization was consolidated into a newly established Production and Marketing Administration. The new AAA setup, known as the Field Service Branch, gives AAA committeemen additional responsibilities for administration of the program and for working with farmers in applying AAA assistance to the farms where it will do the most good.

Armed with the tools of committee experience and tested programs, farmers face 1946 with hope and confidence.

There Was No Seagraves 30 Years Ago

We noted in an exchange recently about the death of John Hudson, a prominent citizen of Seagraves, that John moved from Plains to Seagraves 30 years ago. What was meant was that John moved to the Blythe Postoffice community in Gaines county 30 years ago. The Seagraves school district is still the Blythe County Line District. But there was no Seagraves until the fall of 1917 really and truly.

The railroad arrived in Brownfield in the summer of 1917, but did not reach Seagraves till the next year. The writer accompanied a Methodist minister and friends to Seminole in the fall of 1917, and the town had just started. In fact there was one big warehouse to be used as a wholesale grocery. There was a many tents as houses. Indeed we ate dinner, family style in a tent, and the good lady served a real good meal.

Just so, 30 years is accurate enough, but even 29 years ago it was mostly prairie. We also remember well John's dad when he was serving his first term as sheriff of Yoakum county. A better hearted man never lived. By the way, we got to thinking how few sheriffs Yoakum has had in the 37 years we have known it. All we can remember now is Hudson, Keller, Moreman and the present Joe Ellison.

On the other hand, Terry which was organized just two years earlier, 1904, has had nine that we can remember: Bess, Tiernan, Lewis, Johnson, Gore, Smith, Ellington, Telford and Price, but not just exactly in the order named.

Chaplain and Mrs. Sam E. Brian left Wednesday for New Orleans, where Chaplain Brian reports for assignment.

Don't Sell Your Home Town Paper Short

Every week this newspaper gets reams of publicity from the labor unions and their employers. They both want us to present their side of the case FREE. Have you seen any of it here?

A good many years ago the doctors, lawyers and dentists enacted ruler in their associations prohibiting their members to use newspaper advertising. Now, that socialized medicine is being advocated, the medical profession is sending the newspapers they refuse to patronize bales of propaganda against socialized medicine and they want the newspapers to print it free of charge.

Our all goes to the waste paper basket. It seems that other newspapers give it the same consideration since we haven't seen it nowhere.

It isn't that the editors dislike the docs, most of them have warm personal friends among the medics just as does this writer. But they feel that if their space is of no value to the doctor they would merely be wasting it in printing the medical profession's pleas against socialized medicine.

Never sell your little old home newspaper short—it might be a lot of help to you some time.—Gaines County News.

I GIVE YOU TEXAS

By Boyce House

The philosophy of this letter, written by Abraham Lincoln to a kinsman, is still timely:

"Your request for \$80 I do not think it best to comply with now. At the various times when I have helped you a little, you have said to me, 'We can get along very well now,' but in a short time I find you in the same difficulty again. Now this can only happen by some defect in your conduct. What that defect is, I think I know. You are not lazy, still you are an idler. I doubt whether, since I saw you, you have done a good whole day's work in any one day.

"You do not very much dislike work and still you do not work much, merely because it does not seem to you that you could get much for it. This habit of uselessly wasting time is the whole difficulty; it is vastly important to you, and still more so to your children, that you should break the habit. It is more important to them because they have longer to live, and can keep out of an idle habit before they are in it, easier than they can get out after they are in.

"You are now in need of some money; and what I propose is that you shall go to work, 'tooth and nail,' for somebody who will give you money for it. Let father and your boys take charge of your things at home, prepare for a crop, and make a crop, and you go to work for the best money wages, or in discharge of any debt you owe, that you can get; and, to secure you a fair reward for your labor, I now promise you, that for every dollar you will, between this and the first of May, get for your own labor, either in money or as your own indebtedness, I will then give you one other dollar.

"By this, if you hire yourself at \$10 a month, you will get 10 more, making \$20 a month for your work. In this I do not mean you shall go off to St. Louis, or the lead mines, or the gold mines in California, but I mean for you to go at it for the best wages you can get close to home in Coles county. Now, if you will do this, you will soon be out of debt, and, what is better, you will have a habit that will keep you from getting in debt again. But if I should now clear

You out of debt, next year you would be just as deep in as ever.

"You say you would almost give your place in heaven for \$70 or \$80. Then you value your place in heaven very cheap, for I am sure you can, with the offer I make, get the \$70 or \$80 for four or five months' work. You say if I will furnish you the money, you will deed me the land and, if you don't pay the money back, you will deliver possession. Nonsense! If you can't now live with the land, how will you then live without it?"

"You have always been kind to me and I do not mean to be unkind to you. On the contrary, if you will but follow my advice, you will find it worth more than 80 times \$80 to you."

I GIVE YOU TEXAS

By Boyce House

It was Mark Twain's "Puddinghead Wilson" who remarked, after listening 15 minutes to a dog howling under the floor of the village grocery store porch:

"I wish I owned half of that dog."

"What would you do? someone asked."

Puddinghead replied, "I'd kill my half."

Like the fellow who bought a half interest in a cow. In fact, he bought half of the cow, the front half, and his partner owned the rear half. This fellow said:

"All I did was feed my half and the other man milked his half."

"What did you do about it?" somebody inquired.

"Oh, I quit feeding my half—and his half died."

Some years ago, Dr. A. C. Scott, Jr., noted Temple surgeon, was appointed to represent the United States when the Pan-American medical society was having its first meeting in Mexico City. He wanted to convey a greeting to the delegates in their native Spanish—but there was one drawback: he didn't speak Spanish!

But he wrote out his speech in English, had a teacher translate it into Spanish, then he had these words written out phonetically so he could pronounce them correctly as, of course, letters have different sounds in a foreign language to what they have in English.

He then memorized the speech. But, unfortunately, he didn't know which words were important and which were not, so he pronounced them all with the same emphasis. If you will think back to the days when you were in the first grade and slowly read, "Does—baby—love—Rover—yes—baby—loves—Rover," you'll have the general idea of what I mean.

But the Texan could not be discouraged. He had the teacher mark

Looking Ahead In Dairying

Good management takes top rank in making a profitable dairy herd, says R. N. McClain, County Agricultural Agent. And every cow in a herd returning a profit to the producer is a highlight of good management.

Cows which are not producing at a profitable level are a further loss to owners. They have to be fed and handled about the same as if they were high producers. In times of shortage and high prices for feed the good milkers have to foot this bill. The quickest remedy for this condition is to get rid of the drones. McClain suggests that there is no better time of year than now to do this. Also, in view of the demand for slaughter cattle these animals should sell well for that purpose.

In checking a herd before culling, McClain believes it to be a good practice to look over the breeding of the cattle and see which families within the herd offer the most promise as dairy cattle. But here again the ones which are not measuring up to the required standard of production should go to the packing house.

Looking ahead, McClain says it is important that dairymen should plan their farming operations carefully this year. About sixty per cent of the cost of producing milk is feed, and home-grown feeds usually are the best. An average dairy cow requires yearly one ton of hay, or two tons if no silage is fed; three tons of silage, and one ton of concentrates, five hundred pounds of which is protein supplement.

Ample pasture should be provided for grazing for as much of the year as possible. One acre of sudan grass per cow for summer is recommended along with permanent pasture.

For immediate attention, McClain urges treating cattle again for grubs, and reminds dairymen that warm water for cows in cold weather is a paying practice.

A Letter to the President of the United States

January 18, 1946

Hon. Harry S. Truman
President of the United States
The White House
Washington, D. C.

Dear Mr. President:

Your proposal to me in Washington last evening that the wage demand of the United Steelworkers of America-CIO be settled on the basis of a wage increase of 18½ cents an hour, retroactive to January 1, 1946, cannot, I regret to say, be accepted by the United States Steel Corporation for the reasons set forth below.

As you must be aware, your proposal is almost equivalent to granting in full the Union's revised demand of a wage increase of 19½ cents an hour, which was advanced by Philip Murray, the President of the Union, at our collective bargaining conference with the Union in New York a week ago today. In our opinion, there is no just basis from any point of view for a wage increase to our steel workers of the large size you have proposed, which, if put into effect, is certain to result in great financial harm not only to this Corporation but also to users of steel in general.

As I have tried to make clear to you and other Government officials during our conferences in Washington over the past few days, there is a limit in the extent to which the Union wage demands can be met by us. We reached that limit when we raised our offer to the Union last Friday from a wage increase of 12½ cents an hour to one of 15 cents an hour. This would constitute the highest single wage increase ever made by our steel-making subsidiaries. Our offer of 15 cents was equivalent to meeting 60% of the Union's original excessive demand of a \$2 a day general wage increase. Our offer met 75% of the Union's final proposal of a wage increase of 19½ cents an hour. A wage increase of 15 cents an hour, such as we offered, would increase the direct labor costs of our manufacturing subsidiaries by approximately \$60,000,000 a year. That is a most substantial sum, and does not take into account the higher costs we shall have to pay for purchased goods and services, when large wage increases generally become effective throughout American industry, as is inevitable after a substantial increase in steel wages.

As you know, collective bargaining negotiations with the Union broke down at the White House yesterday afternoon, because Mr. Murray then refused to budge from his position that a country-wide steel strike must take place, unless steel workers are granted a general wage increase of 19½ cents an hour. Our offer of a wage increase of 15 cents an hour was again rejected by the Union.

The Union threatened to go ahead with its program for a national steel strike at midnight next Sunday, although such a strike will be a clear violation of the no-strike provision contained in our labor contracts with the Union, which continue by their terms until October 15, 1946.

From the outset, we have recognized how injurious a steel strike will be to reconversion and to the economy of this whole country. Most industries are dependent upon a supply of steel for their continued operations. We have done everything reasonably within our power to avert such a strike. If a strike occurs, the responsibility rests with the Union.

When the Government at the eleventh hour informed us about a week ago of its willingness to sanction an increase in steel ceiling prices, we at once resumed collective bargaining negotiations with the Union. Such price action by the Government was a recognition by it of the right of the steel industry to receive price relief because of past heavy increases in costs, something which the steel industry for many months has unsuccessfully sought to establish with OPA.

I should like again to point out some pertinent facts relative to the wages of our steel workers.

Since January, 1941, the average straight-time hourly pay, without overtime, of our steel workers has increased more than the 33% increase in the cost of living during that period, recently computed by Government authorities. Steel workers' wages have kept pace with increased living costs. Such average straight-time pay in our steel-producing subsidiaries was \$1.14 an hour in each of the months of September, October and November 1945, excluding any overtime premium and any amount for correction of possible wage inequities. An increase of 15 cents, in accordance with our offer, would

raise such average straight-time pay to \$1.29 an hour, placing such pay among the highest today in all of American industry.

Under our offer of a 15 cent increase, the average weekly take-home pay of our steel workers for a forty-hour week would amount to \$51.60, assuming that no overtime is involved. This figure is only \$4.54 less than the actual average weekly earnings of these employees, including overtime, in the last full war year of 1944, when the average work week was 46.1 hours. The difference is really less, because we will undoubtedly continue to have overtime in the future, just as we have at the present time. In November, 1945, overtime premiums to our steel workers aggregated more than \$1,300,000. Such reduction of \$4.54 in weekly take-home pay is the natural consequence of a shorter work week of forty hours, and therefore one of lower production.

Much as we desire to avoid a steel strike, we cannot overlook the effect both on this Corporation and on our customers and American business in general, of the 18½ cent an hour wage increase, which you have proposed. Such a wage increase must result in higher prices for steel than have previously been proposed to us by the Government. Great financial harm would soon follow for all users of steel who would be obliged to pay higher prices for their steel, higher wages to their employees, and still have the prices for their own products subject to OPA control. Such a high and unjustified wage scale might well spell financial disaster for many of the smaller steel companies and for a large number of steel fabricators and processors. The nation needs the output of these companies. Increased wages and increased prices which force companies out of business can only result in irreparable damage to the American people.

In our judgment, it is distinctly in the public interest to take into account the injurious effect upon American industry of an unjustified wage increase in the steel industry.

After a full and careful consideration of your proposal, we have reached the conclusion above stated.

Respectfully yours,
Benjamin F. Fairless,
President, United States Steel Corporation

The durability of cotton as a textile fiber is easy to believe after looking at this bale, which was produced in the Mississippi Delta by slave labor in 1860. Shown as a relic at the Chicago World's Fair in 1893, it still is in good condition except for the jute bagging. The bale recently was given to the New Orleans Cotton Exchange by Lesser-Goldman Cotton Company.

KEEPING OUR AMERICA GREEN

Keeping America green is an industrial and civic objective that is sweeping through the forest states of the nation. Thirteen states are now enlisted in a "keep green" movement, designed to keep fire out of the woods and off the ranges. Ten of these states joined the program during 1945 and eight more are expected to initiate similar plans early in 1946.
Starting in Washington state a few years ago under the slogan "Keep Washington Green", the program is based upon recognition that fire is forest enemy No. 1, and that the chief cause of forest fires is man's carelessness. A quarter of them are started by careless cigarette smokers alone.
Today, Oregon, Montana, Minnesota, Virginia, North Carolina, Mississippi, Maine, New Hampshire, Vermont, Massachusetts, Connecticut and Rhode Island have similar programs in effect, enlisting the joint efforts of state forestry departments, industry, farmers, labor, women's clubs and other civic groups who understand the fact that efforts of owners of forest lands to produce trees for future supplies can be nullified by fire.

GOMEZ HD CLUB NOTES

The Gomez home demonstration club met Thursday, January 24, 1946 at 2:00 p. m. in the home of Mrs. A. B. Buchanan, with the president in chair.

The program was on "Planning Your Work." Our program was carried out in the form of each lady telling how she had learned to get her own work done better and to manage to include extra activities.

To help with clothing drive we planned a "42" party to be held at the Gomez school house, Tuesday night, January 29. Admission is to be used clothing.

The club voted to order a new game book to help with club and council recreation.

A delightful refreshment course was served to Mesdames Kelly Sears, Jack Mason, Wes Key, Bill Swain, Tyler Martin, Bernard Lay, Kenneth Hodges and the hostess.

Our next meeting will be February 14, in the home of Mrs. Carter. A welcome is extended to new members. —Reporter.

Texas Jersey National Champion

College Station—A Jersey cow owned by Chester Elliff of Tullia—a former 4-H Club member—has been announced by the American Jersey Cattle Club as the national senior three-year old milk and butterfat champion, according to G.G. Gibson, dairyman of the Texas A. and M. College Extension Service.
The cow, Welcome Volunteer Tiff, produced 19,416 pounds of milk and 1,077 pounds of butterfat in her third lactation period. Her previous records are 586 pounds of butterfat in 305 days as a two-year old and 752 pounds in 305 days at the age of two years and 11 months.

Her 1,077 pounds of butterfat produced in 1945 is the equivalent of 1,390 pounds of commercial butter.
The American Jersey Cattle Club also lists Welcome Volunteer Tiff as the all-age milk and butterfat champion for Texas, Gibson said.
Tiff's sire is Welcome Volunteer, the youngest Medal of Merit sire of the breed. His first nine tested daughters averaged over 725 pounds of butterfat on 305-day lactations. Her dam, Agatha Christel Esther, has a tested dam rating of 693 pounds of butterfat on three daughters—the ninth highest record for the breed.

Raymond Reynolds, who served in the army as Staff Sgt. and was stationed in the Hawaiian islands for two and one half years, arrived here Sunday from El Paso, where he received his discharge papers.

2/3 cup brown sugar
1 egg yolk
1 cup flour
1/8 teaspoon cream of tartar
1/2 cup chopped pecans
Pecan halves

Cream the margarine and sugar together. Add the egg yolk and mix well. Add the dry ingredients which have been sifted together. Add the chopped pecans. Form teaspoons of the dough into balls and place on baking sheets. Top each cookie with a pecan-half, and bake in a very moderate oven, 325 degrees, 12 to 15 minutes. Remove immediately from the baking sheets. Yield, 1 1/2 dozen.

Increase In Venereal Diseases Expected

Austin—Strong warning that venereal diseases may increase far beyond wartime levels during the next few years has re-emphasized the need for immediate control action. Highlighting the state-wide control campaign is the observance throughout the State of National Social Hygiene Day on Wednesday, February 6.

Cooperation from every social level has led local leaders in civic groups, social agencies, youth organizations, churches, parent-teacher associations, labor, management and health officials to participate in the observance of this day. Interest in the campaign against syphilis and gonorrhea has risen to new heights during the past few years. Venereal disease control was an urgent and vital factor in fighting power and working ability. The observance of National Social Hygiene Day is part of a program including general education to arouse the interest and concern of communities in stamping out the venereal diseases which kill 100,000 Americans annually.

The national observance is sponsored each year by the American Social Hygiene Association, a voluntary health organization which works in close cooperation with the Army, Navy, U. S. Public Health Service, Office of Education and other units of the Federal Government, and with similar State and local agencies in promoting the control and prevention of venereal diseases.

Coronet Salutes Tom Connally

Chairman of the Senate Foreign Relations Committee Tom Connally holds a position in foreign affairs second only to the Secretary of State. As cited in an article, "Texas Peacemaker" in the February CORONET, it will be his job to steer the Senate through the treaties and agreements of enduring peace.

Because of all this, what "Tawm" Connally says carries weight. But that's not the only reason the visitor's gallery is packed when he speaks. Many people come to hear how he says it. For Big Tom is a magnificent orator of the Old School. But although he gives the appearance of an old time Shakespearean showman, Tom's booming voice is pure Texas-American. It says what Tom thinks in the vernacular of a shrewd but simple country boy.

For Thomas Terry Connally is a country boy CORONET tells us—born and bred in McLennan county, where his ready tongue and thin legs earned him the nicknames of "Talking Tom" and "Double Barrel-Shotgun." His father often said: "Tom, I never had much education. If I'da had

your chance, I'da run for Congress.

So, in 1916 Connally ran for Congress . . . and he's been in Washington ever since. But he brought a bit of Texas with him to the Capitol, where the senator and his wife are famous for their Sunday breakfasts of sausage, pink grapefruit, peach preserves, and smoked ham—all from Texas.

After World War I, Connally was an advocate of the League and the World Court. Washingtonians remember that when Senator Nye charged President Wilson with duping the country into war, Connally challenged Nye to a fist fight.

The years haven't dimished that spirit, and the galleries soon will be crowded again to hear Big Tom orate for a new world organization to keep the peace. It's not every man—or every country, concludes Coronet—that gets such a second chance.

Texas and Annexation

TEXAS INSISTS ON PROTECTION

(Thirteen in the series of articles on Annexation by Dr. Eugene C. Barker, Professor of American History, The University of Texas).

Before signing the annexation treaty, the Texan representatives, Van Zandt and Henderson, received from Calhoun President Tyler's pledge that he would order a strong naval force to the Gulf of Mexico and strengthen the military forces on the Texas frontier. President Houston did not consider this guarantee of protection altogether adequate, but it went as far as Tyler's constitutional authority permitted. Tyler thought that the army and navy dispositions might deter Mexico from attempting an invasion of Texas.

In the same letter that expressed his dissatisfaction to Van Zandt and Henderson, Houston declared: "If from any cause we should be rejected, we must redouble our energies . . . Texas can be sovereign and independent, founded upon her own incalculable advantages of situation, and sustained by European influences without the slightest compromittal of her nationality . . . I again declare to you that every day which passes only convinces me more clearly that it is the last effort at annexation that Texas will ever make." After rejection by the Senate, the Texas government directed a continuous correspondence to its agents in Washington and to the American representatives in Texas demanding fulfillment of the pledge of protection. At the same time, Houston redoubled his efforts to convince the British agent in Texas, by suggestion and implication, that he was done with annexation; and in that endeavor he succeeded, thereby increasing the anxiety of friends of annexation in the United States. In effect the American government reiterated many times its more or less guarded promise of protection.

Toward the end of September, 1844, Houston wrote a short memorandum to Anson Jones, who was then Secretary of State and president-elect of Texas. It instructed Jones to order Ashbel Smith, minister of Texas to London and Paris, to conclude certain commercial arrangements with England and France. There can be little doubt that Houston expected these instructions to leak out, but Jones took them seriously and declined to forward them to Ashbel Smith. He wrote on the back of Houston's note to him: "The within order cannot be obeyed for it would either defeat annexation altogether, or lead to a war between Europe and America. Besides, it would directly complicate our relations and entangle us with France and England, produce disturbances and revolution at home and probably render it very difficult if not impossible for me to administer the government of Texas successfully. General Houston has furnished no explanation of his motives for this course of policy. If they be to defeat annexation, produce a war, or break down my administration (about to

SIDELIGHTS From Washington

By George Mahon

I think the following note regarding the chances for heavy export of surplus American cotton will interest West Texans:

Last September, during a conversation with Lt. General Lucius Clay, U. S. Deputy Military Governor of Germany, I learned to my surprise that plans were being considered to permit a revival of the synthetic textile industry in Germany but that no definite plans were under way to permit a revival of the Germany cotton textile industry.

I urged upon General Clay that this plan be reversed and that the utilization of American cotton by Germany be encouraged and that the synthetic industry—capable of quick conversion to war—be discouraged. General Clay was not unfriendly to the idea.

Later in Washington I went to the White House and presented the matter to President Truman, and thereafter to Secretary of State Byrnes and Secretary of Agriculture Anderson. Other members of Congress joined in the effort.

My point was that we should encourage the purchase and use of surplus American cotton not only by Germany but also by Japan, and in fact, all nations that might afford a market for American cotton.

The President and Secretary of Agriculture Anderson and their assistants have worked diligently on the idea and as this is being written the chances are that an early announcement of considerable success will be made.

If these plans for the disposition of surplus cotton abroad work out in part, it will mean millions of dollars to the cotton growing South, particularly to West Texas where shorter staples are grown and a large part of the surplus exists.

It is too bad that American textiles mills are not doing a better job of providing badly needed cotton fabrics. But there is no danger of a shortage of raw cotton for American Mills.

Tex Easley of the Associated Press asked me the other day what I thought of the proposal of OPA for a ceiling price on the 1946 cotton crop. I branded the proposal as an unwarranted and unjust attack on the cotton grower and told him of my efforts in opposition to the plan.

There is no possible justification for ceiling prices on commodities of which we have vast surpluses, such as is the case with raw cotton. We may have as of August 1st a carry over of American cotton of as much as 9 million bales. We need to bend every effort toward holding up the price of cotton, not beating the price down by OPA threats. Fortunately, we have provided by law for a floor

(commence), I cannot favor any of these objects and can conceive of no other."

Later Jones himself was charged with desiring to prevent annexation. This endorsement on Houston's note became an alibi.

or support price on cotton of 92 1/2 percent of parity for the next two years. But the support price is not adequate because in determining parity the tremendous increase in farm labor costs are not fully considered.

The OPA threat of a ceiling of 24 cents per pound is misleading because the 24 cents is for 15/16 middling at the mills. The ceiling on some of the shorter staples and lower grades at points remote from the mills would be little more than one-half the top ceiling price announced.

Some of us in Congress who are interested in this vital matter have met with Administrator Bowles of OPA and the Secretary of Agriculture and requested that they issue a public statement to the effect that no ceiling prices would be fixed on the 1946 cotton crop. To date our request has not been granted. The mere threat of ceiling prices on raw cotton is damaging to the cotton grower.

Those who have had no opportunity to investigate the proposed plan for ceiling prices on raw cotton, perhaps, do not realize the extent of the injury that would be done to the cotton grower should such a plan actually go into effect. Moreover, the red tape and confusion involved in trying to put such a program into operation would be intolerable. We are determined to defeat the proposal.

Guide In Producing Healthy Poults

Schenectady. — To produce healthy poults, turkeys should be fed a protein "of animal origin, such as meat or fish meals, liver meal or milk," E. Y. Smith of Ithaca, N. Y., faculty member of the department of poultry husbandry, New York State College of Agriculture, declared in a General Electric Farm Paper of the Air address here over WGY.

"An inadequacy of protein, carbohydrates, fats, minerals or any one of the vitamins may cause the embryo to die of starvation in the shell," Mr. Smith pointed out. "Therefore, the breeder's ration must contain all the essential nutrients required by the hen and by the embryo, and these nutrients must be in adequate

amounts and of the quality required," he explained. "In addition, the ration must be palatable so she will eat it readily.

Besides the vegetable proteins, the breeder ration should have about 2 1/2 per cent calcium and 1.8 per cent phosphorus; and a good portion of the phosphorus should be of animal origin, according to Mr. Smith.

"Each pound of mash should contain 7500 units of vitamin A, 1350 of vitamin D, and 7500 of riboflavin," he said. "It should contain four ounces of manganese sulfate per ton of mash.

"A mash of this nutritive value should supply an adequate ration when consumed in the proportions of two parts mash to three parts grain."

"Army Life" Magazine Wins Newspaper Award for Outstanding Achievement

Major General H. N. Gilbert, USA, Director, Military Personnel Procurement Service, AGO, was approvingly as Mr. Walter Sanders, Chairman of the Board of Publishers of the American Press Association, presents a certificate on behalf of the Weekly Newspapers of America to Colonel LeRoy W. Yarborough, Chief of the Recruiting Publicity Bureau. Colonel Yarborough accepted the award for the staff of "Army Life" magazine, the Army recruiting publication. Taking part in the ceremony are those who were instrumental in making "Army Life" eligible for the award; (left to right), former Sergeant Lester Byck, General Gilbert, Sergeant Fred Methot, Sergeant Ed Payne, Mr. Sanders, Sergeant Stuart Graves, Colonel Yarborough, and Lieutenant Colonel H. North Callahan.

Texas Mineral Products Over Billion Dollars

Austin, Tex. — Production of minerals and mineral products during 1944 was valued at \$1,338,060,404, according to information released by the University of Texas Bureau of Economic Geology.

Petroleum, natural gas, and sulphur production yielded more than other minerals. The value of petroleum, natural gas and allied products was \$1,203,114,000, and of all other minerals and mineral products, \$134,946,404.

The production of war-vital magnesium compounds amounted to 222,369 tons, valued at \$7,123,721. Sulphur production totaled 2,874,478 long tons, valued at \$45,991,648.

Mrs. Fannie Lee visited Mr. and Mrs. T. A. Lynn in Lubbock over the weekend.

Mesdames T. A. Wartes and W. M. Vernon were in Lubbock, Saturday, shopping.

Mrs. Dick McDuffie and Christine, of Lubbock, were here for the weekend visiting friends.

Savings Bonds To Be Continued

War and Victory Bonds will now be known as United States Savings Bonds, Nathan Adams, Chairman of the Texas Advisory Committee, Savings Bond Division, U. S. Treasury Department, said today in announcing that the program for selling government bonds and stamps will continue.

He added, "We can be sure that these bonds are still the best and safest investment in the world, and if we consider only one benefit derived from the war financing program, this being the habit of saving, it would merit the continuation of the program.

Formation of the committee was decided upon as a result of the thousands of requests from employee groups, industry, and the general public, all asking that the sale of U. S. Savings Bonds be continued following the close of the Victory Loan Drive.

The Chairman added, "The benefits of the war financing program are many, and in addition to creating the habit of systematic saving, it taught many of our citizens the value of personal security, and has helped combat the rising inflation."

Favorable reaction to the continuation of the savings bond program is reflected in letters received by the state headquarters from employers throughout the state of Texas. The same reaction to the program has been found throughout the nation in a survey conducted by the American Institute of Public Opinion (Gallup Poll).

Secretary of the Treasury, Fred M. Vinson, said recently in addressing employers and employees, "I am pleased to tell you that the Treasury will still issue and sell savings bonds. As both management and employees have enthusiastically endorsed the continuation of the Payroll Savings Plan, we are urging all companies

W. T. State To Coordinate Courses To Time Trends

Canyon, Texas—A college course in consumer cooperation is being offered in the new catalog of West Texas State College here, according to an announcement made by Dr. Lee Johnson, head of the department of Business Administration. This is a part of the college's program to coordinate its teaching with the trend of the times and to afford practical business instruction to the students and to the people of the area served by the institution.

The college will offer this course to students once every two years during the long semesters, and oftener if the demand is great enough. The course will also be offered at the West Texas State College center in Amarillo. Plans are being made to include the course in the correspondence curriculum if there is a sufficient demand.

The course will have a junior rating in the college and will bear the number 381 under the department of Business Administration, Dr. Johnson announced.

The course was placed in the college in cooperation with Consumers Cooperatives Associated of Amarillo, regional cooperative wholesale for 140 farm cooperatives in the southwest.

to facilitate the sale of bonds to their employees through this convenient pay-as-you-go method. The bonds and stamps will also continue to be on sale in most schools, banks, postoffices and other issuing agents."

Baylor U. Makes Room For GI Students

Waco, Tex.—Accommodations for approximately 320 single male students, including war veterans, have been obtained by Baylor University at the former National Youth Administration center. Leased by the University from the Waco city council, these dormitories are primarily but not exclusively for veterans. They will be available by the spring term, beginning March 4.

The five dormitories, of modern white tile construction, are equipped with a mess hall, theater, gymnasium and both indoor and outdoor ball courts.

Mr. Gay Price, and Mrs. Joe Price and Jerrell went to Amarillo Sunday to bring Joe Price home. He has been a surgical patient in the Veterans hospital for the past three weeks.

Mrs. Ken Sadler is visiting her mother in Salt Lake City, Utah.

Mr. and Mrs. Vance Sibley and son, Tommie, of Odessa, spent the weekend in Brownfield, visiting friends. Tommie spent Saturday night as a guest of Barry and Crawford Burrows.

Edwin Helms, who was Phm 1/c with the naval medical corps, called from San Diego, Saturday evening, says he had landed in the States and was going on to San Pedro to get his discharge papers. He has been in the service since November, 1942. His wife, Jean, met him in Clovis, Thursday.

Miss Kathryn Marchbanks visited in Albuquerque last week.

The Woman Listener

By Sally Welles

Elaine Vito

"LIKE FATHER LIKE SON" can well be changed to "like father like daughter"—at least in the case of Edward and Elaine Vito, harpists with the musical ensemble on CBS's "Mommie and The Men" show. Edward Vito started teaching his daughter Elaine to play the harp when she was only five years old. At thirteen she was chosen outstanding child musician of the year, and was invited to play on Walter Damrosch's "Music Appreciation Hour". Just four years later she made her professional debut with Toscanini's Orchestra. Her father and she are now well known as 1st and 2nd harpists with this orchestra. Father and daughter alternate playing for "Mommie and The Men" broadcasts, depending upon their other commitments for the evening.

John Moore, who plays the charming and spirited Irishman, Hank O'Hoolihan, on "Life Can Be Beautiful", and who is, as a matter of fact, a charming and spirited Irishman himself, knows what he would do if someone left him a million dollars. He would put on a really good production of Gilbert and Sullivan operettas, and as his career started in musical comedy, it isn't outside the realms of possibility that he might do more than just produce it. Hank is heard on "Life Can Be Beautiful" over CBS.

Radio actor Ira York, who plays Tommy Sinclair on NBC's "Road Of Life", might have kowtowed to Papa York's furniture business ambitions for him, but Ira stuck to his own gifts which brought him into radio and onto the stage. Recently Ira thought he had won father over. Papa, sitting in row one, watched his son's recent stage performance, and Ira detected a look of pride. But when father and son met after the show papa disclosed that he

had been casting an eye in the line of his own peculiar talents. "Son", was papa's only comment, "your pants aren't pressed."

The first money that Jack Kirkwood, emcee of the CBS "Jack Kirkwood Show", ever made was earned driving grain to the elevators at harvest time in Canada. The size of the pay check he received has long since been forgotten, but Jack, along with the listeners to his comedy-variety program, is quick to admit that he still deals in corn!

The vital statistics bureau gets the run-around from radio actress Dolores Gillen because Dolores has been born so many times. Whenever a show includes a new born baby, Dolores gets the role. With her inimitable talent for mimicry the "baby specialist" sets to, and in unmistakable baby fashion, howls, yowls and squeals. "The pay-off" says Dolores "is that fans are frequently so convinced of their realism of the radio program that they send presents for 'the new baby'." Currently Dolores plays young Skippy in the popular daytime serial, "Right To Happiness", heard over NBC.

Rolling up a grand total of \$520,480,144, in bond sales during eight tours, Ralph Edwards and his "Truth Or Consequences" program exceeded the half billion dollar quota which Edwards had set for himself at the beginning of the war. For this feat he was awarded the Distinguished Service Citation on Dec. 8th by Secretary of the Treasury Fred M. Vinson. Secretary Vinson presented this award to Edwards as the individual who had sold the most "E" Bonds in the entertainment industry. In all, Edwards and "Truth Or Consequences" have played 267 shows in 167 cities.

PIGGLY WIGGLY

Supt. Fulton Endorses Army Recruiting

The following statement was made by Mr. Lee Fulton, Superintendent of Schools at Terry County, in endorsing the United States Army Recruiting Campaign:

Our law makers have armed United States Regular Army Recruiting Service with the most generous of inducements to young men of our nation, in the passing of the United States Voluntary Recruitment Act of 1945, which was known in Congress as the "Red Apple Bill." This bill provides for the extension of the G. I. Bill of Rights to young men enlisting in the United States Army prior to October of 1946. What better way can a young man earn a college education than by serving his country at a time when his services are most needed?

John Cruce, who has been in the service for 26 months with the Ordnance Department of the army and has been stationed in Hawaii for the past several months, has discarded the stripes of Sgt. and is Mr. Cruce again. His wife Evelyn met him in El Paso and they arrived here the latter part of the week.

Dr. A. J. Spronz and wife are here visiting Gene Green for a few days. They are en route from the West Coast where Dr. Spronz was recently released from the Navy, to their home in Cleveland, Ohio to which place Gene will accompany them to enroll in the Western Reserve Dental School.

Monroe Gilmore, formerly of Terry County, but now of Floyd, New Mexico, passed through here Friday on his way to Snyder to attend to business. While in Brownfield, he subscribed for the Herald in order that he might keep up with the news of the community.

There is a difference between itching for something and scratching for it.

We've been operated on so often that we'll probably have 'em engraved on our tombstone, "Gone to join his appendix, adenoids, and tonsils."

Plural marriages occur so often nowadays that it seems to be a fad to trade one forty-year-old husband for two twenties.

America has no ugly women. However, there are a few who just don't know how to look pretty.

Many a married woman leads a double life—her own and her husband's.

COTTON FORMAL

This cotton formal was selected by Martha O'Driscoll, Universal star. The long, flowing skirt is of navy linen. It is contrasted with a white pique jacket, showing eyelet cut trim outlining the square neck.

Thinks Nips Have Learned A Lesson

With the Sixth Army in Fukuoka, Japan—"I think these Nips have learned a lesson," remarked Private First Class Louie Bishop, whose wife, the former Freda Joplin, and children, Robert and Edith, live in Meadow, Texas. They seem to me like a beaten people."

Bishop's arrival in Japan comes as a climax to many months of fighting overseas with the 32nd (Red Arrow) Infantry Division. For the Red Arrow itself, the Kyushu landing meant the end of a long and bloody road studded with smashing victories at Buna, Saidor, Aitape, Morotai, Leyte, and Luzon.

In the service since October, 1944, Bishop trained at Camp Wolters, Texas, before departing for overseas duty in April, 1945. Veteran of the Luzon campaign, he holds the Combat Infantryman Badge, Philippine Liberation Medal and Asiatic-Pacific Ribbon.

Grandpa says today's dances are not so new. He recalls when the same swings were tried many years ago. Only then the places were raided!

In Memory Of A Good Friend

In the sudden, shocking passing of John A. Dumas, the first World War II veteran of Terry county, mustered out of the service, goes out of our life, and crosses the river to rest until the judgement. Only last Tuesday John visited the Herald office and was very enthusiastic about the future of his business. He had been very busy with his furniture repair and upholstery business, and had ordered a supply of stationery. But the grim reaper was just in the offing.

We don't know why there was so much mutual respect between the writer and John. Even as a lad, he liked to come in and talk with us and after the war came on and he left for duties with the Seabees in the West Indies and north Africa, there was never a month but that we had a letter from John, a few of which we printed, or an extract from them. On occasions we got as high as two a week.

We were no nicer to John than other lads that we know of. He seemed to like us, and we returned the friendliness. In some of his letters he kinder took us to task for something we printed. On the other hand he replied with vigor against a few who had attacked us. We still have one such letter that we never printed, as we wished to keep down as much trouble as possible while we fought a common enemy on two fronts.

But you can see from the above

Mud-Daubers

Down here in the Mississippi Valley we are all acquainted with a species of wasps called mud-daubers. They are relatively harmless, build little adobe huts in high, protected spots and look out for their own interests. By instinct they are engineers and diplomats but, like so many insects, they know very little about modern industry. Some of their mistakes are costly.

An aristocratic family named Sceliphron Cementarius (common mud-daubers) got busy one summer and built a fort inside the vent pipe on top of a big steel tank of heating oil. The tank had been filled in the Spring for Fall marketing and stood quiet for months. Finally came an order for a barge load of heating oil and the plant owner started pumping it out of storage. Suddenly the big tank collapsed.

Too Much Authority
The oil man's motor-powered pump silently pulled out the liquid and built up vacuum inside the tank. Being in a position to plug up a vent-line and call down the forces of nature to destroy property and waste merchandise is too much authority for a mud-dauber. To be perfectly frank, the more I observe the workings of the OPA, the surer I am that such authority is too much for anybody.

Right now our governmental price fixers have the vent-line closed on some exceptionally tight structures and the pump has already started. "People who buy machines shall not pay more for them," says government, but (with government consent) people who manufacture machines must pay more, much more, for every hour of effective labor, and for every pound of processed material.

Strong for Service
I am in favor of workers getting high wages. The more take-home pay America's factory workers earn and get, the more food and feed stuff our farmers will sell. It means prosperity. Just the same, nature's laws are inexorable. If wages keep going up, somebody's better wicket, that price line or business is sure to collapse. Some firms already have folded up and more are in jeopardy.

America's big manufacturing concerns have some strength, of course they have. They need financial strength to navigate economic storms, race with competition and meet payrolls on schedule. The more strength they have the more useful they are. That oil man's tank had a great deal of strength too; was useful because it was strong, but it buckled because a mud-dauber asked it to hold a vacuum.

Sublime Vandainism
Big corporations have to be efficient. If they grow extravagant, a lot of small concerns with lower overhead stand ready to undersell them and take their trade. Accordingly, big firms must operate in thin margins of profit. Figuratively, they are tight. They can be "pumped down" by holding their prices and boosting their costs. Ford declares a \$27 net loss on every new car sold at prices fixed by government.

Nearly everybody knows that America's advantage over foreign lands is based on mass production and volume sales, things we have that they don't have. We have nothing to gain and much to lose by wrecking big industries. Theodore Roosevelt said, "It is ought to be evident to everybody that business

Farmers, Do You Want Electric Lights?

Applications for electric service will be received at any time between now and March first at the office of Lyntegar Electric Cooperative, Tahoka, Texas. Applications will also be taken in the County Agent's office in Brownfield on the following dates: February 5th, 9th, 12th, and 16th and on other Tuesdays and Saturdays, as the interest of the farmers requires.

It will be necessary for each applicant to know his section and block number and put up a five dollar deposit at time of making application.

The applications received at this time will be the E Section, and will be submitted to Rural Electrification Administration for approval as soon after March first as possible. July first begins the new fiscal year for REA, after which time new allotments will be made.

If you wish to be included with our next allotment, please make your application not later than February 28th.

Cacy Day of Slaton, called last week to renew. Cacy has been roaming these Plains just about as long as the oldest of us, yet he is by no means an old man yet. He is a typical looking cowman.

Why we liked John Dumas. We liked his dad and mother, brothers and sisters. All of them were close friends of the Herald family. Peace to his ashes. A. J. S.

A word from the wife is sufficient.
