

Well We Failed To Bring The Rain In

We have on some occasions boasted that every time we made a trip to Tennessee heretofore, that rain beat us on our return to Terry by a night or two. That was on dry years, such as 1934 and 1936. Also in 1941, but no one was wishing for more rain that year, as anyone here at that time can remember. We came in home and found 7 motor boats were running on the lake over in the north part of the city. But this time, all we brought was a threat and a promise. So much for the weather.

We believe the last space filler we had mentioned the fact that the Old He expected to see Li'l Abner Yokum and Snuffy Smith up in the mountain region of east Tennessee and North Carolina. Must say that if we saw either, we failed to recognize them in their native habitat, but we believe we saw some of their relatives. One of them was in Uncle Jimmie O'Connor's home town, Sparta, Tennessee. We had made up our minds to fill a cabin or two in that pretty little city of some 3000 people, but there was no such place in that town. So a drive for 38 miles further or until near dark brought us to Crossville, which sported cabins, but no fire, and it was cool. Miners were on strike, and they use coal as natural gas is a "furnin' fuel" to them. So, to bed early to get warm. Plenty wood there abouts, but no one seems to want to cut it. Same thing happened the next night at Ashville, N. C.

The Big Smokies are really a great sight, and should be a must with those who want to see old Mother Nature at her very best. But May is most too soon to see them. A month or two later the weather would be more favorable. As we saw cabins in a number of places east of the Mississippi under construction, we figure that those who wish them will find them in plenty in the near future, as the cabin idea seems to be spreading east from the west instead of the reverse. Hotel rooms are also hard to get now, and they are not really convenient for those who just wish to stay in a place overnight, and traveling "in the rough." There are a lot of places called "tourists homes." That is, a private home of a total stranger. We never did fancy that

Loyd's Shoe Shop Has Large Selection Of Leather Goods

Those who like to give gifts that have a touch of the Old West are sure to find what they are looking for when they visit Loyd's Shoe Shop. In addition to billfolds, watchbands, belts and other leather items, the shopper may also find gold and silver buckle sets and Indian Jewelry.

LeJune Lincoln, since his release from the Navy, has been very busy at Loyd's, turning out made-to-measure sandals in various colors and leathers. Those who like to "turn their feet out" during the summer should take a look at the sandals.

Judge Louis B. Reed Makes A Call

Judge Louis B. Reed, of Lamesa, District Judge of this district, who is here holding a short term of court, was a pleasant caller at the Herald office, this week. This was about the first visit with us since his return from the US army.

To say the least, Judge Reed was not spoiled by the army. He has the same old smile and glad hand for his friends, and we are always glad for him to call. Usually has a good story for us, but rush of legal business excluded that this time.

NEW IMPLEMENT WAREHOUSE BEING ERECTED

Johnson Implement Co., distributors of the John Deere line of tractors and farming machinery, have under construction an all-steel warehouse, 50 by 100, on North First Street. They expect completion soon, in time to house their large stock when production reaches its peak. Joe Johnson, manager, also has the store at 207 South Sixth street.

The Band Would Appreciate Cheers

Summer Band got off to a good start despite the fact that many were on vacation and other activities conflicted. It is hoped that these things can be arranged and we again have 100% attendance. In the Senior band there are new places to be filled and it is imperative that all are working hard for those posts. It is purely competitive, those showing the most promise will get the new places. Band uniforms will not be handed out to the old members because they earned them last year. They must earn them again this year. Some of the Junior band members look good, in fact they may beat out some of the old members.

The Junior High Band will play a concert Saturday afternoon at the courthouse square, starting at 3 p. m. It is the fourth in the current Summer Series and we urge everyone who can be present and give these youngsters the support they deserve. A round of applause would not be amiss if you enjoy their playing and those in cars might let themselves be heard too. Heretofore, most of our crowds have been out-of-town shoppers who stop as a matter of curiosity. What we need is a crowd who will cheer us!

Christian Church Building Being Moved

The First Christian church building at the corner of Broadway and Fourth, was removed this week to their new location on East Hill street, where it will be used until a new and more commodious structure, plans for which are now being drawn, can be erected.

Rev. Patrick Henry of Ft. Worth, State missionary, preached here last Sunday. Regular services, with a pastor, has been arranged for, from now on. This church promises more activity in religious circles in the city, according to Dr. W. A. Roberson, chairman of the Board.

Chas. Bandy Assigned To Construction Btn.

Leghorn, Italy — Pvt. Charles W. Bandy, husband of Mrs. Mary H. Bandy, of Brownfield, Texas, and son of Mr. and Mrs. William L. Bandy, of 302 East Cardwell, Brownfield, Texas, has been assigned to the 30th Signal Heavy Construction Bn., a unit of the Peninsular Base Section, the Army Service Force in Italy.

PBS served and supplied Fifth Army and the ground crews of the U. S. Air Force and Navy during the entire Italian campaign. The Base is commanded by Brigadier General Francis H. Oxx.

Scout Troops Enjoy Outing At Post

Troops 49, 74 and 45 and Johnny Kendrick, Ralph Bailey and K. P. Chariar, Scoutmasters of the respective troops, leave Sunday for a six-day outing at the Boy Scout camp near Post.

Camping, swimming, hiking and various other activities will be enjoyed by the boys. They will return Saturday.

Mr. and Mrs. J. M. Teague and children and Mrs. Teague's mother, Mrs. T. E. Patterson, left Tuesday for Hot Springs, New Mexico.

Messrs Prentice Walkers, of the Farmers Implement Co.; C. V. Ball, of the Ball Implement Co.; Ike Bailey, of the Brownfield Tractor Co.; Money Price, of the Price Implement Co.; C. E. Ross, of the Ross Motor Co.; M. G. Tarpley, of the Knight Implement Co. and J. W. Johnson, of the Johnson Implement Co., attended a meeting of implement dealers from the Panhandle and South Plains area at the Herring Hotel in Amarillo Wednesday of last week.

Disabled Vets Can Take Wheel Again

Stating that "no man who lost a limb in World War II is going to have to pay anything extra to drive a Ford automobile," Henry Ford has made available to disabled veterans of World War II, at no cost to them whatever, equipment that will enable them to take the wheel again on an equal basis with those who came back without major disabilities.

This equipment can be installed on any 1940 or later model Ford or Mercury. In other words, the equipment can be placed on any Ford or Mercury with a steering column gearshift.

Aparatus can be installed that will permit drivers with almost any number of disabilities to operate their cars, including loss of either or both arms or either or both legs and combinations of both.

Eligible Veterans may obtain complete information on this equipment and make application for it at Portwood Motor Company. Remember—the installation of necessary equipment costs the veteran absolutely nothing and is available only to veterans of World War II, disabled in the line of duty.

Lions Banquet Ladies—Address By Mahon

Ladies Night, an annual fete of the Lions Club, was staged at the Legion Hall, Wednesday night. Visitors from neighboring clubs, including the Mayor of Seminole, attended. Music by local orchestra featured the entertainment, including a break down by J. E. Young, a farmer-fiddler. Jack Shirley and wife, a local singer who is gaining wide repute, rendered three popular numbers. Congressman George Mahon, who was in the city, and himself a Lion, told the audience "we have tried ruling mankind and the world by hate, and it won't work. We need to indulge more love, humanity Christianity."

Frank Jordan, president of the club, presided. Badges were worn by all, boosting him for District Governor of West Texas district, to be determined at the mid-June district convention at Big Spring. Doc McIlroy and force served the meals.

JUDGE SAYS —

An optimist is the fellow, who thinks 1947 will be a wet year.

Maybe we better send Jno. L. Lewis, as emissary to deal with Uncle Joe Stalin. He seems to have good luck with Uncles.

There is lots of Southerners that don't draw the color line on black markets.

No, the shootin' isn't all over yet. The Army invents the "shooting star," a war plane that goes 500 mph, and Congress is still shooting the usual stuff, only they haven't improved in speed.

We fancy the reason the Old "He" made his recent trip to Tennessee was to see how it felt to tread his childhood hills, with shoes on.

Miss Beverly Stockard, of Santa Anna, Tex., arrived Friday for a visit with Miss Nancy Morgan.

Mrs. Irene Griffith, Miss Kathleen Hardin and Mrs. Lillie Mae Whitney were in Lubbock Friday to attend the graduate nurses alumni homecoming.

Sawyer Graham met his son, Mumford Austin, of Glendale, Ariz., in El Paso, Saturday and brought him here where he will spend the summer in the home of his grandmother, Mrs. Aut Graham.

Memorial Day Observed With Sunset Ceremonies

An estimated crowd of five hundred people gathered Thursday, May 30 to observe Memorial Day and pay tribute to Terry County's dead of two World Wars.

For the ceremony, the Colors were raised and then lowered to half mast. A prayer by Raymond Simms was followed by a memorial address by Burton Hackney. The honor guard, in charge of E. G. Akers, fired the traditional three volleys. The Colors were again raised to full mast and lowered, marking the end of the ceremonies.

Larry Miller, acting as bugler, sounded "To the Colors," "Taps," and "Retreat."

Jeff Farley Opens New Funeral Home

Jeff Farley, owner, announced Wednesday that painters, carpenters, electricians and other workmen will this week finish remodeling and redecorating operations at the former Downing residence, corner Main and Second Streets, location of the new Farley Funeral Home. The home will be open Saturday for service to the public. Formal opening will be at a later date.

JEFF FARLEY

Thoroughly remodeled throughout, an air-conditioned chapel, office, preparation room and powder room, have been provided. Office and chapel are fully carpeted. Seating accommodations are provided for about fifty people in the chapel. The Farleys will maintain living quarters in the home, and either he or Mrs. Farley, who is also a licensed funeral director, will be on duty at all times.

In addition, both private and emergency ambulance service will be available at all times.

Coming to Brownfield in 1943, Farley resided here until his induction into the Army in March, 1944, serving two years with the Army Medical Corps. He has had 16 years experience at his profession.

Mr. Farley states that it is his aim to give to the people of Brownfield and Terry county the very best service possible, and will take the fullest advantage of every opportunity to improve his service.

Mary Lena Winston left Monday for Denton to enter TSCW.

County Judge Homer Winston and Dr. Frank Miller attended a Meeting in Plainview Thursday. Purpose of the meeting was to try to establish an infantile paralysis treatment center where those stricken with the malady in this section may receive immediate treatment and thereby lessen the danger of death or of being permanently crippled.

Mr. and Mrs. C. E. Ross and Glynn Faye, Frances Rambo, Mr. and Mrs. R. M. Moorhead and Mrs. Gladys Moorhead attended the commencement exercises in Lubbock for the graduating class of Texas Tech, Monday evening. La Rue Ross and Terry Lou Moorhead were among the graduates.

Local Boy Observes Memorial Day In Germany

A press release from the Occupational Army Air force, near Munich, Germany, to the Herald, states that Pfc. Raymond L. Anderson, son of Mr. and Mrs. A. A. Anderson of Brownfield, took part in the Memorial Day observances at this great air base field, which had been taken from the fleeing Nazis, just one year ago. The field had been used by the powerful Luftwaffe planes, and being completed to launch their long range rocket planes.

Special thought was given to his buddies, who died in the intrepid bombing, parachute and airborne operation, whose skill, courage and daring had been so instrumental in taking this important field.

American People Responding To Food Collection

New York — The American people are responding with their traditional generosity to the nationwide Emergency Food Collection for the hungry and starving millions overseas, Secretary of Commerce Henry A. Wallace, national chairman of the drive, announced today.

The appeal for money to buy food and for gifts of food canned in tin for shipment to famine areas is now under way in more than 6,500 cities, towns and villages, of which 500 have been organized since the campaign officially opened May 12. Additional local chairmen are being enlisted daily, he stated.

Mr. Wallace said that every mail is bringing checks and money orders made payable to Lee Marshall, executive director, at national headquarters of the Emergency Food collection, 100 Maiden Lane, New York City. The contributions received, he declared, indicate that the average American is willing to make more than an average effort to give direct and personal help to some desperately hungry human being overseas.

The contributions include money saved in many communities by boys and girls who are giving up between-meal snacks, ice cream and sodas.

Many local groups and organizations, Mr. Wallace reported, are arranging "famine" luncheons and dinners, with menus typical of the meager fare on which hunger victims overseas are trying to subsist. The proceeds are being turned over to the Emergency Food Collection. Adults who are skipping meals are also giving the price of those meals.

Checks covering costs saved at breadless, cakeless and pieless meals now being instituted at many public restaurants, college and university dining halls have also been pledged to the Food Collection, Mr. Wallace added.

Local chairmen of the appeal include leaders from every walk of American life, with the collection in big cities under the chairmanship of Newbold Morris, New York City; Mayor Edward J. Kelly, Chicago; former Supreme Court Justice Owen J. Roberts and Mrs. William H. Biester, Jr., Philadelphia; Mayor James G. Stewart, Cincinnati; Mayor William F. Devlin, Seattle, Washington; Postmaster Bernard F. Dickman, St. Louis; and District Commissioner J. Russell Young, Washington, D. C.; and Mayor Fletcher Bowran, Los Angeles.

Mrs. W. N. Hardman, of Rush, Texas, is here visiting in the home of her daughter, Mrs. Elco Evans.

Sandra Bailey returned Friday from an eight day vacation in a girl's camp at Happy, Texas.

Mr. and Mrs. J. E. Shropshire, of Plainview, were weekend guests of their daughter and family, Mr. and Mrs. J. C. Lewis.

Local Boy Killed In Automobile Wreck

For the fourth time in six months, death, using the automobile as a weapon, has taken the life of a young man near Brownfield. The latest being Robert Howard Johnson, 15-year-old son of Mr. and Mrs. Wiley Johnson, who reside five miles north of town. The accident occurred about midnight last Saturday, two miles south on Lamesa highway, when the small coupe he was driving swerved and turned over several times. Two other companions, Joe E. Mason and Luther Brown, Jr., escaped with minor injuries. Young Johnson died a few minutes after being rushed to a local hospital.

Funeral services were conducted by Rev. W. Edwards, assisted by Rev. Sam Brian, at the Baptist Church, at 5 P. M., Monday. Interment was made in Terry County Memorial Cemetery under direction of Brownfield Funeral Home.

He was survived by his parents, the father being a well known brick mason here, his mother being a daughter of Mrs. L. P. Price, one brother, Wiley, Jr, now in Naval service and two sisters, Mrs. Helen Henley of Brownfield, and Mrs. Jean Hamm of Los Angeles.

Soft Ball Games Attracting Large Crowds

Large crowds continue attendance at the Soft Ball games being rotated between eight teams, Monday, Tuesday and Friday nights at the Cub field. The girls teams play on Thursday nights.

Tuesday night, Primm's Drug store team, trounced Herman's Gin 13 to 3, and in second games, the Jaycees defeated Hamilton Tire 14 to 4.

Thursday night the Brownettes were to play Al's Taxi girls and tonight, first game, Sinclair Service vs Gene Gunn's Tire and second game, Mack's Oil Well vs Furr-Newsom Gin, are scheduled to play.

At Least It Once Rained Here

An old gentleman, whose name is withheld, told us the other day, that from old family documents one of his great, great, great grandfathers lived in Terry county during Noah's flood, and that Brownfield only got two inches of rain then.

Bechtel Tells Of Hunting Trip

Local Rotarians were filled with the ambition to make Nimrod and other great hunters of history and legend look like the little boy trying to sprinkle salt on the sparrow's tail when L. L. Bechtel, local oil man, told them of his hunting trip in the Rocky Mountains of Alberta, Canada. Moose, wild goat, grizzly bear and other game was taken by Mr. Bechtel. He also distributed several excellent photos of his hunting trophies and gave a list of the equipment he took on the trip.

Also present at last Friday's meeting was Dr. T. C. Gardner, working with the local Baptist church in the interest of the BTU, and Rotarians O. H. Hearne and E. C. Roberts of Seagraves.

Mrs. Mary Ann Quinlan, of Robstown, is here this week visiting her parents, the W. A. Bells.

Tom Neely and some twenty or twenty-five of his Vocational Agriculture boys are enjoying an outing at Christoval this week. They are to return home Sunday.

Census of the City of Brownfield, being taken by Scout Troop 49 and sponsored by the Board of Development, will be completed when members of the troop return from their camping trip near Post.

With The Softball Girls

By Babe Anderson

The Athletic Club swings into its fifth week of play with two classy games this past week. The Brownettes, with Buna Jenkins on the mound and Geraldine Pyeatt catching, won over the Al's Taxi team in a practice game and the first league game with the Portwood Motor Slick Chicks and White Bears of the Athletic Club was a tie of 17 to 17, with the Portwood girls coming from behind in the sixth inning by scoring seven runs.

The next league game will be at 8:00 P. M. Thursday night with Al's Taxi and the Brownettes. In the future the Girls League games will be played at the Football Field, starting at 6:30 P. M. Two girls' games will be played and followed by an out-of-town boy's game.

Here's your schedule for the remainder of the season. There are six Girl's teams in the League and if you miss a single game, you'll be sorry, because they are something to see.

Well folks, we sorter wished to show home folks what a Tennessee editor had to say about the Herald and its senior editor while back there recently—he occasionally gets a copy of the Herald—but the junior editor vetoed it, stating it kinder had an off note. We acknowledge the junior member of this great religious weekly is a lot more modest than the Old He. We still sorter cleave to that old saying that goes something like this: "He that tooteth not his own trombone, the same is not slid."

While away one of our more or less regular readers, the Hon. Jacob Sandage, took us to a cleaning, which was OK by us. But Jacob seemed to get a misconception of some of our theories or his theories. For instance, he takes up the REA with the conclusion that we are "agin" it. Nothing could be further. And we have

always had the idea that Rural Electrification was strictly a business deal and not a Santa Claus program. Of course the government puts up the money, just as it does in the Federal Land Bank program, but this money is supposed to be paid back in time, with interest. Neither are we opposed to old age pensions if the really needy get it. But we acknowledge that we are not particularly pleased with the easy livers who sign over their property to their children to get a pension. What we don't like is for the government to take the tax money of all the people and pay other people to destroy something or other to make it scarce. We hope Jacob gets our trend.

And getting on the subject of pitching the bull, a Georgia man threw one down at Fort Worth this week to the tune of \$52,000. That was some bull, and he really went high, to our notion. So, a Georgian can pitch the bull as well as Texans.

The only difference in Hardeman county Tennessee roads and Terry county, Texas roads is that the road hands sand them back there to keep them from getting muddy and stick the cars. Here the wind sands them to stick the cars—sometimes.

And taking up the subject of perverication, possibly better expressed by "stretching the blanket" to most of us, but to be real plain, downright lying to some of us, we have about reached the conclusion that someone is lying about their cigarettes, or else the doctors are being bought off. Now there could not be "proof positive" that one brand had been declared the best and freest from nicotine by the medical profession, and then the big majority of the same profession turn right around and more of them use another brand than "all other leading brands." Now the majority of the doctors may be too dignified to listen to the "raydio" programs, and the intermission of commercials, but if they do, then they cannot help seeing or rather hearing that the big cigarette companies are putting the MD's on the spot.

Our humble opinion may not be worth a tinker's dam, but we believe that union strikers are actually killing the goose that layed the golden egg, especially fuel production strikers. As a consequence of the public fear of cold and misery, many people in the east are preparing to use fuel oil instead of coal, and when it happens that a big majority of householders switch to oil, somebody is going to run up against the fact that they just have a part time job if any. The Herald believes that the laboring man has a perfect right to organize and bargain. We believe that the working man's condition has been greatly improved since the unions became strong, but the men in the ranks are letting some racketeers tear the very foundation from their gains. The American public is getting fed up on one strike right after another.

Many citizens in the year that President Truman has held the office, feared that he was a little man physically, and some begin to draw the conclusion that he was too modest for the office. Last week, however, he showed the

ROXAS VISITS THE UNITED STATES . . . Philippines president-elect, Manuel Roxas, left, is shown at breakfast with (left to right) Col. A. C. Strickland, commanding officer of McChord field, Seattle; Paul McNutt, U. S. high commissioner to the Philippines, and his military air aide, Col. M. A. Libby. Roxas and McNutt later visited President Truman and other government officials.

A farmer asked the other day: "What would happen to the nation if the farmers would strike for just three months during the summer?" Naturally all of America and a greater part of the world would starve if the farmers refused to raise a single crop. This might be a pretty good way to get back at the industrial workers who are striking for higher wages and spending their earnings in riotous living. Of course the farmers are not going to strike. They know too well the consequences of a prolonged strike, and what it would mean to them and to the nation. But the farmer is over the barrel: When he sells his produce, he gets what the gamblers on the city stock markets offer for his products; when he buys, he pays according to prices as handed out between management and labor. It would be a disastrous thing for the world if a farmer strike was called; but it might teach some folks a needed lesson.—Canyon News.

Mr. W. L. Speer, father of Mrs. Harmon Scales, passed away in Amarillo Tuesday of last week. Funeral services were held there Thursday. Those attending from Brownfield were Mr. and Mrs. Harmon Scales and family, Malcolm and Gladys Scales, and Mrs. Elmer Edwards.

people that he can and will swing the big stick when it is necessary to the welfare of the people, same as the famous Teddy Roosevelt.

Once again in a generation, the KKK has raised its head in some sections, particularly Georgia, where it originated before. And as before, the Herald opposes it, as it is based on prejudices and racial hatreds. However, we will have to disagree with some of our contemporaries that it was not needed in the late 1860ties. At that time a Yankee soldier stood with a bayonet in the back of southemners, and a negro, thrilled with his late freedom, held a butcher-knife to his throat or belly. But as soon as Yankee troops and carpet-baggers were gone, the old Klan had filled its mission, and was promptly disbanded. In the 1920ties, some told us they were after the Jews, Negroes and Catholics. There were no Jews or Negroes here then, and but one Catholic family that we knew of, a fine old bootmaker and his wife. Now as then, some just want to make some easy money.

Behind The Scenes In American Business

NEW YORK, June 3 — American wheat promises to help relieve the world's food shortage sooner and more generously than had been expected even a month ago. Weather in Texas and Oklahoma has been ideal since the government issued its May 1 crop estimate and as a result the Texas yield is now expected to be 25 per cent larger and the Oklahoma yield 34 per cent greater. Early harvesting is running two weeks to 20 days ahead of normal and the Texas-Oklahoma area should reach a harvest peak by the middle of June instead of early in July. Labor shortages which plagued harvesters and elevator storage during the war years apparently have been eliminated, but the shortage of railroad cars and in some sections of trucks will delay shipment. Ordinarily, railroads keep a bank of 25,000 to 30,000 box cars in readiness for the wheat movement, but less than 10,000 are reported available now. However, storage elevators are not crowded with carryover wheat as they are in normal years and this should lighten the traffic problem somewhat. The important fact is that the crop will be greater than anticipated at a time when world demand for food is unusually heavy.

Advice To Vacationists By Dr. Cox

Austin, Texas—Some timely advice to vacationists concerning the proper precautions to be used in water sports during summer months was released from the State Health Department today by Dr. Geo. W. Cox, State Health officer.

It was pointed out that in view of prevailing travel difficulties, vacation pleasures are apt to be limited to excursions and picnics at nearby lakes, rivers, and ponds of unfamiliar depths and currents, and without the usual lifeguard supervision associated with bathing beaches and commercial swimming pools.

"Swimming and water sports are beneficial to good health provided one's physical condition justifies this type of exercise," Dr. Cox asserted; "nevertheless, they possess dangerous possibilities if the rules of safety, through carelessness or thoughtlessness, are disregarded."

The State Health Officer outlined the following simple rules for bathing and swimming in safety: when swimming, be alert and careful of unknown depths and currents; at least one hour should

AIR BASE OPERATIONS INVITED TO LUBBOCK

Lubbock Texas — Fixed Base Operators of the Lubbock district will meet June 12 at the Lubbock Hotel in Lubbock to form an organization which will look after the orderly development of aeronautics in Texas. All operators, airport managers and factory representatives are urged to attend.

A. W. Meadows, director of the Texas Aeronautics Commission, will be in Lubbock June 11 to handle any last minute arrangements.

elapse after a meal before entering the water; upon the first indication of fatigue, come ashore and call it a day; if you become chilled, leave the water immediately; do not enter the water when overheated; learn to float, this is most important; never attempt to rock a boat in a spirit of fun; never swim in water that may be polluted. Swimming close to or even a few miles below sewage outlets is inviting the possibility of acquiring disease.

"Excursions, picnics, and swimming parties contribute much to a healthy, happy, normal life, which is always desirable," Dr. Cox said. "It is by no means advisable to eliminate these excursions from our summer program, but it is important that they prove beneficial and not disastrous."

QUEEN OF BRITAIN'S MERCHANT NAVY . . . Wearing her royal robes, Patricia Purser is presented to her admiring subjects after she had been crowned "Queen of the Merchant Navy," as the high spot of merchant navy week in London. The mayor of Westminster is presenting her majesty. Prior to the war the British merchant navy was the largest afloat. War production of ships now has placed the U. S. A. in first place.

Where A Little Is A Lot

Hard work is no stanger to the farmer. He knows that what you get out of a job is based generally upon what you put into it. Most farmers, knowing the amount of effort it takes to have a successful farm, buy insurance against rain, hail or tornado damage to their buildings and their crops.

But the farmer like the city resident, cannot protect himself or his family by any known means against a disease, infantile paralysis, which again is on the march in the United States.

However, while no means of prevention or cure of polio have been discovered, much can be done in the way of treatment, the National Foundation for Infantile Paralysis points out.

Treatment of infantile paralysis is expensive. Should someone in your family be stricken, the cost of prolonged treatment might sweep away your life savings were it not for the fact millions of farmers and city dwellers voluntarily support the annual March of Dimes—sole source of National Foundation funds.

Through such contributions multiple services await whenever polio may strike in any county of the nation, for National Foundation chapters stand ready to aid infantile paralysis victims regardless of age, race, creed or color.

There is no insurance against polio; but there is assurance that no infantile paralysis victim need go without aid because of lack of funds.

That indeed proves a little can mean a lot.

16,000 Attend Rotary Convention In Atlantic City

Atlantic City, N. J., June 2— With an attendance of 16,000 Rotarians and members of their families from 50 different countries, the 37th annual convention of Rotary International convened here this evening. Opening the convention program, Dr. Walter H. Judd, member of Congress from Minnesota and former medical missionary in China, declared that if an enduring world peace is to be achieved, ethical and moral progress must keep pace with economic and scientific development.

Highlight of the convention entertainment program this evening with the performance by the Phil Spitalny All-Girl Orchestra and Choir which broadcast its regular Sunday night NBC "Hour of Charm" program from the convention stage.

Keynote of this 5-day gathering of business and professional executives, representing 5,800 Rotary Clubs in 72 countries, will be the internationality of the Rotary organization. Emphasis will be given throughout the convention to the opportunities which Rotarians have in all parts of the world to assist in the achievement of the goals of the United Nations, which are strikingly similar to one of the principal objectives of Rotary International—the advancement of international understanding, good will, and peace.

Opportunity To See Jet Propelled Plane

Lubbock, Texas — South Plains residents will have the opportunity to get a close-up view of the Army Air Forces jet-propelled Lockheed P-80 "Shooting Star" June 23 at the Lubbock National Aeronautics Association air show which will be held at the Lubbock Municipal Airport commencing at 10:00 a. m.

Major Victor G. Modena, assistant recruiting officer at Goodfellow Field, San Angelo, has assured NAA officials that at least two of the 9-mile a minute P-80's will be at the field for the show. Other air force planes which will go through maneuvers during the show are an A-26, B-25, P-51, AT-6, and AT-7. There is a possibility that these models will be supplemented by others.

In addition to the Army Air Forces show, the program will feature a display of new models of private aircraft and a model airplane show, the latter event carrying a \$25.00 cash prize.

The Army flying exhibition is scheduled for 2:00 p. m.

SWIMMERS, BEWARE!

Take it easy at the beginning of the swimming season, the National Safety Council warned swimmers today. The Council pointed out that a large number of drownings occur at the beginning of the season because swimmers overestimate their physical condition.

An average of 1000 persons are drowned each month from May through August, according to Council statistics.

Drownings lead all types of public accidents.

Mr. and Mrs. Roy Wingerd and Marion, Mrs. Bit Copeland, Mrs. Mon Telford and Layton Webb, of Lubbock, spent several days in Ruidoso.

The Low Down From Hickory Grove

Not running for the school board, or Congress, or for any kind of uplift job, I can pop off and not be fearful of somebody's vote. My subject is "business." And I am going to say a good word for same versus pointing a finger. Anybody in business, if they should run across this writing, they will most likely pass out from the shock.

We been listening in our land of the free, to the wrong people. And to get one sample, take labor. Labor has been a sucker for the organizer. Lots of folks who work have been "pickings" for the out-of-town or out-of-state organizer and getting themselves nicked for dues versus listening to the boss right there in their own plant and town—the boss who writes the paycheck.

What is the cure, says Henry. Quite easy, I says. With labor now in the role of chronic sucker, business should now start showing the men how not to be such. On each pay day, in each envelope, I would print up and put in one fable by Mr. AEsop. And in due course, I could sit back and wait for an organizer to show up on the premises, and watch him get the hot-foot versus like now, which is a good cut from each worker's pay check.

Yours with the low down,
JO SERRA

GOMEZ HD CLUB MET WITH MRS. BLACKSTOCK

The Gomez home demonstration club met Thursday, May 23, in the home of Mrs. Bill Blackstock.

Twelve members answered the roll call with "What annoys me most when I'm ill."

Members brought their blocks for the quilt to be quilted soon and sold after our window exhibit.

Mrs. Jack Mason gave her report on last council meeting.

Mrs. Kelly Sears had charge of the program, and made an important talk on Hygiene, which should mean so much in these months of so many diseases.

We should keep our privvies and all other out buildings very clean and free from rats and flies, which are the most common carriers of disease. DDT is available in different forms and is successful.

With polio scattering throughout Texas today we ask every one to do everything possible to keep this dreaded disease from spreading.

Mesdames Key and Sears gave a demonstration on making the sick bed and caring for the sick patient.

The next meeting will be Wednesday, June 12 at 2:00 o'clock in the home of Mrs. R. J. Rowden, with Miss Dunlap in charge of the Pressure Cooker Clinic. If your cooker needs testing bring it that day. This is the first of these meetings in the county.

After refreshments of sandwiches, cookies and punch were served to 12 members and one visitor the hostess displayed her gifts each one brought her. "Secret Pal" gifts were also exchanged. —Reporter.

MEMO TO MR. BOWLES

The price of natural gas to industrial users is determined by "the best regulatory body you can put in," says N. C. McGowen, gas company executive. "That regulatory body is competition."

During the war, passenger car consumption of motor fuel, declined approximately 40 per cent and that of trucks 23 per cent.

Manufacture of gasoline from natural gas will be tried out on a large scale in a new Texas plant to be erected at a cost of 14 million dollars. The process already has been perfected and the only question is one of competitive cost.

The wartime Burma pipeline over the high passages of the Himalaya mountains from India to China has been sold as scrap for a little over \$100,000.

SURPLUS OF PROTEIN

There is a big surplus of protein in Texas this spring in spite of the shortage of protein concentrates on the market, according to E. A. Miller, agronomist, Texas A. and M. College Extension Service.

A recent USDA Bureau of Agricultural Economics study on sources and uses of protein, he says, show that 60 percent of all protein used by livestock in the United States comes from pasture, hay and silage. Grain supplies only 25 percent of the total protein livestock eat.

Commercial concentrates such as cottonseed meal and soybean meal account for less than 8 percent of the nation's protein. Skim milk, buttermilk, fish meal, brewers' meal and legume seeds including peanuts, cowpeas and velvet beans are some of the many sources which make up the other 7 percent.

There has been plenty of rain over most of the hay and pasture belt, Miller points out, and right now there is probably as much protein in Texas as at any time in the past 10 years. The problem is to put it where it can be used by livestock. Much can be saved if it is cut for hay while the grass is young and green, for that is when the protein content is highest. The same is true of crops such as sudan and johnson grass, whether stored as hay or as silage.

When cattle and sheep are on legume hay less protein is needed to balance their ration, and Miller says it is easy to get an extra supply of digestible protein in the hay by harvesting legumes when they are at their best.

The more hay and silage that

Unsafe practices in handling tools, machinery and objects are the chief causes, according to the Council.

The Woman Listener

JACK BAILEY has done a lot of unusual things since he started emceeing MBS's "Queen For A Day" program: he's found elephants for ladies to ride, set other ladies to directing traffic, and started

aspirants in the chorus. On a recent broadcast, however, he found himself actually helping "Girl to meet Boy". Miss Patty Dietz of Indianapolis was the lucky queen, and her pet wish was to go out with a Navy dischargee who lived on her same street, but whose name she

didn't know. That was a new one for Mr. Bailey, but he proved equal to the task. Patty got her crown . . . and her date.

Tom Breneman, emcee of ABC's "Breakfast In Hollywood", has a young brother destined to follow in his famous footsteps. Carl Breneman, recently discharged from the Navy, is on hand daily as emcee at the Hollywood Restaurant to introduce the new Queen of the "Queen For A Day" program when she has lunch at Breneman's.

Alice Reinheart, who plays the role of "Chichi", heroine of "Life Can Be Beautiful" heard over CBS, tries to make reality out of the title of her program. Several times a week Alice and her husband, Les Tremayne, hero of "The Thin Man", go to neighboring military hospitals to entertain wounded veterans.

John Griggs, Irwin Edward Daley on "Road Of Life" has a background ranging from pedagogue to recipient of a special commendation letter from General Dwight Eisenhower. As a boy he told stories to children in public libraries. He had his own marionette show and played mood music in a local movie. College included dramatic training, and, finally, turning to radio, Griggs, during the war, increased the Bond Sales on the Treasury broadcasts to such a degree that General Dwight Eisenhower took note of him in the letter which is now Griggs' most precious possession.

OBITUARY

John C. Walser was born in Eastland County, Texas, on April 9, 1894, and passed away at the Treadaway-Daniell Hospital in Brownfield, Texas, on May 22, 1946.

He moved to Jones county, Texas, with his parents while still a small boy. It was here that he married Miss Bertie Ellen Carter, on Nov. 8, 1914. His wife preceeded him in death in June, 1936. Nine children were born to this union. All of them remain to mourn his passing. They are, Mrs. G. I. Sims of Brownfield, Mrs. Vance Brown of Seagraves, Mrs. James Foy of Clovis, N. M., and Miss Joy, also of Clovis, C. C. of Benicia, Calif., J. C., Jr., of Borger, J. B., U. S. Army, Harlon of Seagraves, and Arvil Lee at home. Besides his children he also leaves three brothers and four sisters, and a number of nephews and nieces.

Mr. Walser had lived in Terry and Gaines counties since 1928, except for 2 years when he again moved to Jones county. Funeral services were conducted at the Forrester Baptist church by Rev. Curtis Jackson. His body was laid to rest by the side of his wife in the Forrester cemetery.

REGISTERS HAPPINESS . . . John L. Lewis seems to be well pleased with the results of the coal strike. He beams happily on leaving the meeting of his policy committee during negotiations.

AGAINST FRANCO . . . Dr. Jose Girai, premier of the exiled Spanish government, who arrived in New York City to testify before United Nations against Franco Spain. Says he has true picture of situation.

MEADOW HD CLUB NOTES

The Meadow home demonstration club met in the home of Mrs. C. E. Hicks Tuesday, June 4th. There were nine members and two visitors present. After the business session some lovely pieces of handwork were displayed.

The next meeting will be June 26 at the school lunch room. The gauges on pressure cookers will be tested. Everybody is urged to bring their cookers so that we can eliminate food spoilage at this critical time. Miss Dunlap will be present to oversee the work.

TOP PRICE IN ANGELO ANGUS SALE IS \$750

San Angelo, June 6 — Top price of \$750 was paid here yesterday by H. E. McCulloch, San Angelo, for a registered bull, Blackmere "6" of Sunbeam, in the second annual distribution auction sponsored by the Texas Aberdeen Angus association.

A total of 714 Aberdeen Angus cattle sold for more than \$90,000. Included were 689 commercial females. Only 25 registered bulls were offered, selling for an average of \$378.

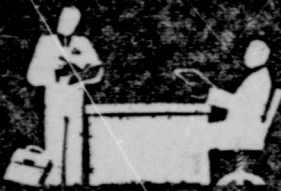

MEXICAN CATTLE ARE HAUNTED AT BORDER

Washington, June 6— Quarantine restrictions on the importation of cattle from Mexico which, an official said, may virtually halt shipments, were imposed today by the Agriculture department.

S. O. Fladness, chief of the field inspection service of the department's Bureau of Animal Husbandry, said the restrictions were imposed to prevent importation of animals infected with the hoof and mouth disease. The action was taken, he added, because Mexico had been importing cattle from South America areas where the disease is prevalent.

Time Flies

Busy in the United States today are two ways of thinking—the high-brows call them "opposing concepts." Orators in both camps sound a lot alike until they get right down to brass tacks, completely away from abstract generalities. Both schools, if you listen with only half an ear to their vocal members, seem to favor advancement of the race and better living conditions.

Most of the people in America are not on either side; not yet. They haven't given the issues enough thought. That's the way with the American people, they keep out of all the arguments they can. They are busy with their own affairs and, if you interrupt them, you must state your business in a few words. Unfortunately it is not possible to state these two creeds briefly and clearly.

Serious Problem

It would not be necessary for a person of average ability to go to college and study a year in order to learn the difference. The problem is not that complicated. On the other hand, I can't cover the case in one newspaper column or in a letter of two or three pages. It's not that simple. Everybody owes it a little serious thought, however, before it is too late.

Nothing was ever more serious to the people of this continent, their children and their grandchildren, than this dispute between "Individualism" and "Collectivism." Those are the names that best describe them. The former may call themselves Democrats or Republicans or Conservatives. The latter may be Nazis, Communists, Fascist or Central Planners. Here, they are revolutionists.

Vital Decisions

Although I imagine somebody is going to call me an alarmist, I'm duty bound as a loyal citizen to say: The American people will know all about this sooner or later. If they give the matter some thought and act quickly, they still may take their choice. Otherwise they will get Collectivism like it came to the unhappy peoples of other lands who are now starving by the hundred every day.

Here is a fair question: How can anybody identify destructive, alien, revolutionist movements at sight? They wear respectable names, shout for praiseworthy aims and have patriotic slogans. How can we pick them out? The best answer I have ever heard came from J. P. Seiberling in an address he delivered in Dallas, Texas, a few months ago. He says observe how they appeal to you!

Catering to What?

When a philosophy appeals to human weaknesses it is plainly earmarked as destructive. Central Planning, for example, charms nobody but people who believe in super-men and recognize themselves as weaklings. The offer of freedom from fear is a vulgar appeal to cowardice. Freedom from want (silly as it is) was never more than a bait to catch lazy people. Collectivism offers these, which mean mediocrity for everybody.

Individualism offers opportunity, a challenge; no soft stuff like security. Its rewards are for the energetic, not the lazy. Individualism offers personal liberty and individual freedom—freedom in expression, freedom in freedom in expression, worship. These appeal to man's noble traits. Individualism offers these, with the highest standards of living for everybody the world has yet known.

Rev. and Mrs. Ray M. Johnson, who have been here conducting revival services at the Methodist church, left Brownfield Monday for a visit in Carlsbad before returning to their home in Abilene.

Miss Angela Peters, of Stanton was Terry Lou Moorhead's guest Saturday night.

Miss Grace Tarpley is teaching in the Abilene High School this summer.

Mr. and Mrs. Vance Weld and children of Warren, Pa., visited Dr. and Mrs. E. C. Davis Sunday while enroute to Carlsbad and El Paso. Mr. and Mrs. Paul Lawliss, of Lubbock were also guests of theirs Sunday.

Mr. and Mrs. John Boren, of Stillwater, Okla., are guests in the home of Mr. and Mrs. Charles Didway.

Mr. and Mrs. Bill Heflin attended the funeral of a very close friend in Dallas over the weekend.

Mesdames L. M. Lang and Bill Settles were in Lubbock, shopping Tuesday.

Mrs. Val Perry and baby daughter were here the first of the week visiting Mrs. Ruth Lowe.

OHIO FARMERS DONATE WHEAT . . . Farmers of Medina county, Ohio, are giving a bushel or more of wheat to aggregate enough to feed an average family for 30 days, with the spirit that a farmer will deprive himself to do a kindness which he will not "sell" for a 30-cent-a-bushel bonus. Norman Morton (in truck) is receiving gift wheat for the farm bureau from Mr. and Mrs. Burt E. Beach, while Mrs. Dorothy Moorhouse, right, the originator of the campaign, checks with Mrs. Beach. Mrs. Moorhouse, a farmer's wife, received the active support of the entire farming region of Medina county.

Wellman 4-H Girls Making Progress

The Wellman 4-H Club girls, sponsors and Miss Helen Dunlap, county demonstration agent, were visiting from house to house Monday to see the work done by each member. Since the enrollment in that community is so great, not all members could be visited in the one days time; another day will be given in an attempt to reach the remaining members. Each girl showed her work and explained to the visitors how she did it.

Betty Lou and Peggy Sue Briscoe prepared fried chicken from their spring flock of 300, now just 7 weeks old, and served the group during the lunch hour at the home of one of the sponsors, Mrs. Clyde Heafner. Besides their work with the poultry, Betty Lou has made a dress; one undergarment and has 3 other dresses to make soon. Betty Sue, the younger of the two has a cup towel, with appliqued work, almost completed.

Catherine Thomason showed the 4-H visitors her printed pique dress she has ready to wear in the dress revue. Besides the dress, her other handwork consists of 5 cup towels, a dresser scarf and one undergarment. Catherine has helped her mother with the care of 96 baby chicks this spring. The older group is now ready for eating purposes, while the last 48 are just a few weeks old.

Patsy Tipton showed the girls her red and white checked gingham dress that can be worn with or without the balero jacket. She has made one undergarment and has helped to raise 338 baby chicks, as well as to care for 250 hens. Since her mother helps to carry the mail, Patsy is left with most of the housework to do.

Juanice McBeth has recently made a red and white checked gingham dress and trimmed it with embroidered pique. She has helped to care for the home flock of chickens all year, besides learning to sew.

Betty Zo and Anna Jo Dean have made their first worked buttonholes in their play dresses made this spring. They each made

dresses of feed sacks and on their return from a visit to Arkansas, their mother says she will have some baby chicks for them to raise.

Peggy Jones, 10 years old, has made a barred dimity dress for herself, a gown for herself and one for her younger sister. One of her duties is to keep her own room and help her mother keep the house.

Jackye Jameson made a pair of shorts from a feed sack and a new white blouse of batiste. Her garden was doing well until the recent sandstorm ruined everything except the onions. She will replant it soon. Ruth, her younger sister, does much of the outside work and she has been busy this spring helping to raise 300 white leghorn baby chicks. She is just 10 years old.

Patsy Ann Moore, 10 years old, has completed a gown and a dress for herself, recently.

Louise Ballard has made a pair of shorts and has a dress partially made. She has hemmed and stamped 7 cup towels for embroidering with appropriate designs for each day of the week. Two of them are completed and she hopes to complete the other five soon. Besides her sewing, Louise helps her mother to care for the garden and chickens.

Linnie D. Hawkins not only sews and works in the garden, but her mother depends on her to do much of the house work and cooking, as well as to take care of a younger brother and sister while her mother is away from home. Linnie D. has made a dress for herself of feed sacks and a play suit of print material. Although she planted her garden some time ago, she will replant it, since a recent sandstorm ruined it.

Darlene Thornton visits her grandmother often and cares for her flock of 175 hens and all the baby chicks, since her grandmother is blind and not able to do it. Darlene has made a feed sack dress, 2 skirts and 7 undergarments.

Joy and Olive Boyd have made 3 rayon dresses and a blouse. They do much of the house work, baking, cooking, washing and ironing in the summer time when their mother is away.

Mitizie Appleton made a green gaberdine princess dress for her-

self, besides making a gown. She is now completing a dresser scarf. Annie Ruth Livesay has string beans, onion and lettuce from her garden. The radishes are just now past production. She watered her garden and protected it against the sand storms all spring and as a result she has fresh vegetables to eat now. She made two play suits, one of sacks and one of print material.

Delphene Wright and her mother have raised 400 baby chicks this spring. They sold the first 200 as broilers and the last 200 are now a few weeks old. She

made a dress for herself of feed sacks and renovated a batiste gown. Mrs. Wright states that Delphine is so much more interested in helping with the work, since she became a 4-H club member.

Robbie Currie is helping her grandmother with the turkeys and chickens. They now have 40 chickens and 50 turkeys, with others to hatch later. Robbie is busy with the cooking and house work, besides learning to sew. She has a play suit and a cotton dress yet to complete.

Vilda Loyal Foster and her family are eating onions from her garden and their bean vines will soon be in production, since they are in full bloom. Just recently Vilda Loyal completed a green and white checked tissue gingham dress to wear in the dress revue.

CARD OF THANKS

We wish to thank each and every one who rendered help, sympathy and kindness in any way during the recent illness and death of our father, grandfather and brother. May you have just such

friends in your hour of sorrow. Mr. and Mrs. C. C. Walser and daughter, Mr. and Mrs. J. C. Walser, Jr., Mr. and Mrs. G. I. Sims and family, Mr. and Mrs. Vance Brown and family, Mr. and Mrs. James Foy and son, J. B., Harlon, Joy and Arvil Walser, Mr. and Mrs. G. W. Walser, Mr. E. C. Walser.

Culver-Wilson Nuptials Read Sunday

Miss Billie Jo Culver, daughter of Mr. and Mrs. W. H. Culver became the bride of Mr. Howard C. Wilson, son of Mr. and Mrs. A. B. Wilson, of Electra, Sunday, June 2nd at 3 P. M. at the First Methodist church.

Rev. R. N. Huckabee read the double ring ceremony before an altar banked with palms, baskets of pink gladioli and candles in floor candelabra. White satin ribbon with clusters of talisman roses and baby breath, marked the reserved seats.

Mrs. Roy Herod, organist, furnished the wedding music, playing "O Promise Me" as Miss Joline Underwood lighted the candles. Mr. Jack Shirley sang "Because" preceding the ceremony. Mrs. Herod played "Ah Sweet Mystery of Life" during the ceremony and the traditional wedding marches.

The bride, given in marriage by her father, wore a white crepe street length dress and white lace mitts. Her shoulder length illusion veil fell from a halo cap edged with seed pearls. She carried a white Bible topped with an orchid. The Bible, belonging to her sister was something borrowed; a little crepe handkerchief, belonging to Mrs. Moses, was something blue and a lavalier that her mother wore at her wedding was something old.

Bridesmaids were: Misses Virginia Cope, of Bakersfield, Calif., cousin of the bride and Aneglia Peters, of Stanton. Mrs. Wyatt Hanks, of Levelland, was her sister's matron of honor. They were dressed in pastel colors of pink, blue and yellow faille made with tight fitted bodices, and off the face black hats. They carried arm bouquets of pink and white carnations. Miss Underwood wore lime faille of the same style and black hat. She wore a corsage of white carnations.

Joe Wilson, of Iowa Park, friend of the groom, served as best man. Ushers were: Robert Scheer, of Vernon and R. G. Wilson, of Hart.

Mrs. Culver, mother of the bride, wore a black dress with pink accessories and a corsage of

HOMEMAKERS CLASS HAVE LUNCHEON

The Homemakers Sunday School class of the Baptist church held their regular monthly business meeting and covered dish luncheon at the church Tuesday noon. Following the luncheon reports were read.

Those present were Mesdames R. M. Moorhead, Berta Chambliss, Arthur Cobb, Carrol Edward, J. T. Auburg, Nicholson and Miss Rowena Hulse.

Mr. and Mrs. Nathan Evans were in Lubbock on business, Monday.

pink carnations. Mrs. Wilson, mother of the groom, was also dressed in black with white accessories and a corsage of white carnations.

A reception was held immediately following the ceremony at the home of the bride's parents. The table was laid with a white linen cloth and centered with a three tiered wedding cake which was surrounded with roses and sweet peas and flanked with candles in candelabra. Assisting the bridal party in hospitalities were: Mesdames Downing, Power, Loyd, Williams, Huckabee and Johnson.

After a brief wedding trip, the couple will be at home at 2407-14th street, Lubbock. For travel the bride wore a pink suit with white accessories and an orchid corsage.

The bride is a graduate of the Brownfield High School and attended Draughon's Business College. At present she is a junior at Texas Technological College. The groom is a graduate of Harrold High School and served in the U. S. Army for fourteen months. He is now a sophomore at Texas Tech.

Out-of-town guests were: Mr. and Mrs. A. B. Wilson and Dean and Mr. R. Q. Wilson, of Electra; Mr. and Mrs. R. G. Coulter, of Wichita Falls; Mr. and Mrs. R. G. Wilson, Jr., and Mrs. R. G. Wilson, Sr., and Jean, all of Hart; Mr. and Mrs. R. L. Sandlin, Mrs. Ora Sandlin, Mr. Ted Sandlin and Mr. T. A. Black, all of Amarillo; Mrs. Ola Underwood, Mr. and Mrs. Wyatt Hanks, Mr. and Mrs. T. Tech Makes Efforts For New Buildings

Lubbock — Texas Technological College is asking the State Board of Control and the Legislature for funds to raise salaries, enlarge the teaching staff and to erect several new buildings. Pres. W. M. Whyburn disclosed in his address at the Texas Tech Ex-Student association banquet May 30.

He urged support of constitutional amendments which will permit Texas Tech and other state-supported schools to secure part of the unused Confederate pension fund for building purposes. He said Texas Tech would have available \$3,000,000 for construction on final passage of one of the amendments.

President Whyburn said that "through the notable efforts of our own Tech alumnus, Representative Preston Smith, assisted by a group of educationally-minded members of the 49th Legislature, there was built up a great legislative consciousness of the urgent need for substantial building programs on the campuses of most of our state institutions."

Dr. Whyburn declared American colleges are leaders in meeting post-war problems and Texas Tech's record deserves praise. He

HIGH SCHOOL STUDENT TO DEBATE

Texas high school students will have a national controversial issue for the University of Texas Interscholastic League debate competition in 1947, Rodney J. Kidd, acting director, has announced. The question will be: "Resolved: That the Federal Government should provide a system of complete medical care available to all citizens at public expense."

COST OF LIVING UP 30 PERCENT

Cost of living in the large cities of Texas has increased some 30 per cent since the beginning of the war, the University of Texas Bureau of Business Research reports. The Bureau based its report on an index of consumers' prices for moderate-income families in the nation's big cities, compiled by the Bureau of Labor Statistics.

said during the present academic year Tech has instructed 1500 war veterans, that every course requested by students in sufficient numbers to justify offering it is listed for summer school instruction, and the fall enrollment will include all men and women up to maximum capacity who can secure housing in the community.

JAPAN'S WOMEN NOW POLICE TOKYO . . . Not only have the women of Japan been given the right to vote, and many elected to office, under the American army occupation, but they have been placed on the police and other civic departments of government. Photo shows one of the female police force patrolling the streets of Tokyo along the market place in the Konda district of Japan's capitol.

GI Questions And Answers Department

Q. Can an honorably discharged member of the Women's Army Corps obtain hospital treatment in a Veterans Administration hospital?

A. Yes, former female members of the armed forces are entitled to the same treatment as male war veterans.

Q. Does National Service Life insurance contain any restrictive provisions respecting military service, occupation, or travel which might limit the protection under the insurance retained after discharge from service?

A. No.
Q. Under what conditions may National Service life insurance premiums be waived by the government on account of total disability?

A. All National Service life insurance policies contain a provision for the waiver of payment of premiums, upon application by the insured, during the continuous disability of the insured which continue or has continued for 6 or more consecutive months, provided such disability commenced subsequent to the date of his application for insurance, while the insurance was in force under premium-paying conditions and prior to the insured's sixtieth birthday.

Q. How does a noncitizen veteran apply for naturalization?
A. If the veteran has been honorably discharged, he may apply at the nearest office of the Immigration and Naturalization Service or at the nearest post office for complete information.

Q. What are the requirements for a pension payable to World War II veterans for service-connected disabilities?

A. Pension may be paid for disability incurred in, or aggravated by active service in World War II, in line of duty, according to the degree of disability shown. Pension is not payable if the disability is the result of the veteran's own willful misconduct. The veteran

arrangement. What if you happened to drop a few ashes on the mahogany, or got a bit of amber on the carpet. Hell would be to pay, maybe, and they would have the "law and order" on their side. For our part, we had rather have a hotel room than a tourist home, but nothing beats a nice cabin, with the car in easy reach, so you can get to bed when you wish, and get up and drag it the same way.

The people of most of the old states are as congenial as Texans, but we found some old grouches in North Carolina, and one of them was a highway cop, we were trying to get some detour information from. And that state has the poorest detour information on earth. They have one sign where you start in, and you guess at the balance. We found a lot of roads torn up in Georgia, Alabama, Mississippi and Tennessee and under repairs, but no trouble in getting around them, as they were better marked. In one place in N. C. we had to detour, and were told to take the left when we hit the pavement, and that carried us down the side of the French Broad river some ten miles where there was a bridge out. We drove back to town, and that was where we talked to this cop. Fact is we should have been told to take the right when we hit the slab, which would have brought us back into our highway in the eastern part of the town. There was not a marker on the full ten miles we traveled to the bridge that was out.

After the conversation with the turtle snapping highway patrolman, and we started to drive away, guess he noticed our out of state license, and came back with a little more civil conversation. We just thought that he should make a trip to Texas in civilian clothes sometime and get a lesson in courtesy from Texas patrolmen he wished information from.

About the only way we can figure the matter is that section of North Carolina has a lot of other people there who are not natives, and who are not as congenial as southern people. In fact, the cop said he'd lived there 10 years, to emphasize his great knowledge to us. But where had he lived the other 20 or 25 years of his life? Outside the Asheville section of that state, the people were extremely friendly.

Next week, some of the sights of the trip.

OIL NO MONOPLY

Approximately 80 per cent of the fuel oil deliveries on the Atlantic Coast are made by independent oil marketers, a New England oil association was told recently. And yet the uniformed constantly are crying that there is a monopoly in the petroleum industry. Actually, there are about 100,000 companies engaged in the oil business and the largest of them controls only 8 per cent of the industry.

Dr. T. S. Painter, acting president of the University of Texas, was named permanent president of the institution on Friday. The students, or a small faction of the student body, protested. They still wanted Homer P. Rainey back as president. The Board of Regents is to be congratulated in electing a sound, substantial educator like Dr. Painter as head of the biggest and wealthiest university in the south.—Canyon News.

TEA ANNOUNCES MARRIAGE OF SUGAR HAMILTON

A tea was given in the home of Mrs. W. M. Adams, Wednesday afternoon from 5 to 7 o'clock by Mrs. C. F. Hamilton, to announce the marriage of her daughter, Sugar to W. O. Bill Reick, of Enid, Oklahoma.

Receiving the guests were: Mrs. Adams, Mrs. Reick, Mrs. Hamilton, Mrs. Harry Wheeler, of Lubbock, sister of the groom, and Mrs. Rufus Rush, also of Lubbock. Mrs. L. J. Dunn, Sr., presided over the guest book. The announcement of the marriage was on a large silver frosted plaque about the mantel, with Sugar and Bill, June 2nd, '46, engraved in old English lettering. A bowl of pink gladioli decorated the mantel.

The tea table was laid with a floor length cloth of white organdy over white satin, and centered with a crystal basket of white gladioli with silver wedding bells tied to the handle with a white satin bow. White tapers, decorated the buffet. Mesdames A.

W. Turner and A. H. Daniell presided at the tea table.

Mrs. Billy Moore and Marion Winger created a musical background with their many piano selections. Other members of the houseparty were: Mrs. Carrol Collier, Miss Fannie Ruth Vernon and Miss Joyce Horner, of Seagraves. Members of the houseparty wore corsages of white gladioli and the honoree and her mother, white gardenias.

The marriage took place June 2nd in the Lutheran church in Lubbock. Rev. Kail Keller read the double ring ceremony.

The bride is a graduate of the Brownfield schools and attended Texas Tech. W. O. Reick is the son of Mrs. Bertha Reick, of Enid, Okla. He has been in the army for the past five years, spending four and a half years in Hawaii.

The couple will make their home in Ft. Sill, Okla., where W. O. is now stationed.

Sea Scout Looks At An Admiral

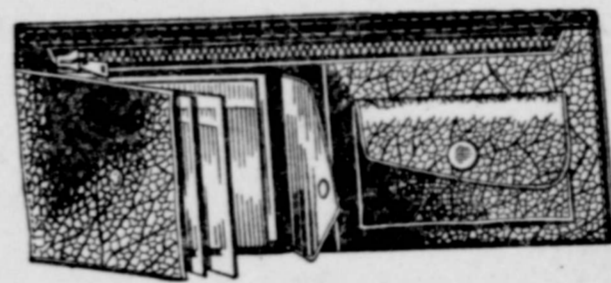

Fleet Admiral Chester W. Nimetz, USN, got the Silver Buffalo (which he wears around his neck) and some off-the-schedule hero worship, as Sea Scout Morton Agatsten, Clayton, St. Louis, Mo., stepped up to congratulate him following the presentation at the national convention of the Boy

Scouts of America in St. Louis. Agatsten is a member of Sea Scout Ship 28, the Polaris. The Silver Buffalo received by the Chief of Naval Operations is Scouting's highest national award for services to boyhood.
