

## Football Field To Be Improved

A meeting of the Football Council was held at the court house Monday night, with T. E. McCollum, Chairman, Stuff Moorhead, of the Jaycees, as Secretary, H. R. Winston of the Rotary Club, E. D. Jones from the Lions, Kyle Graves of the Board of Development, O. R. Stice and Toby Greer of the school, being present.

The council will have one thousand seats ready on the south side of the field by Saturday, and are

### ADDITIONAL BLEACHERS FOR TONIGHT'S GAME

According to Kyle Graves of the Athletic Council, bleachers on the south side of the field will be ready for tonight's game with Levelland. Plans call for more than doubling the seating capacity of the south side. This should be an incentive for those to attend who might have been staying away because of an insufficiency of bleacher space.

Additions to the north side of the field are rapidly being rushed to completion.

rushing completion of 1300 more on the north side, for next week.

They fixed entrance fees for reserved seats at \$1.20, and adults at 90c. Students, 30c, all including taxes. Ushers will be provided for reserve seats. They will also construct a press box on top equipped with a loud speaker.

Patrolmen will aid in parking cars orderly. A walk will be made around the west end of the field. Parking space on west and south. The school has decided not to sell the block between the field and the highway until other parking land can be procured.

It was pointed out that Midland offered to buy 500 seats for their game here two weeks ago, and Lubbock desires 500 seats for their coming game. That this money will soon pay for the seats, and hereafter swell the athletic fund.

The council has heretofore put a ban on drinking liquors on or within the grounds. Officers have been requested, and will readily respond to stop it.

Next game is with Levelland on this field tonight.

## More Employment Opportunities For Disabled Veterans

It is good business for employers to utilize the abilities, skills and experience of handicapped persons and the entire community benefits when it is done. Tommy Harrell, Manager of the local United States Employment Service said today in calling attention to the objectives of National Employ the Physically Handicapped Week.

"For many years we have heard about the employment problems of the handicapped person and too many people have grown accustomed to believing that these constitute a community problem that cannot be solved," Mr. Harrell said. "During the war years we learned that handicapped workers make efficient workers when they are placed in jobs for which they are qualified."

"Now is the time to recognize the qualifications of handicapped veterans and other persons who are able and willing to take their place in industry or commerce," he stated. "When they are placed in the right jobs, handicapped persons are able to do as good or better work than able-bodied persons."

The local USES office this month is stressing the need for employers to hire a greater number of handicapped workers, Mr. Harrell said. "While many employers have done a splendid job in hiring handicapped persons," Mr. Harrell explained, "We still need more employment opportunities for disabled veterans who have returned from service."

In keeping with the nation-wide proclamation issued by President Truman, Mayor Frank Jordan also issued a proclamation setting aside the week of October 6th to October 12th as "Employ the Physically Handicapped Week," in Brownfield.

Graham Smith has been appointed to assist in securing jobs for disabled veterans and anyone having an opening in their business is urged to contact he or Mr. Harrell.

## October 9 Brownfield Day At Fair

According to A. B. Davis, manager of the Panhandle South Plains Fair, at Lubbock, Wednesday, October 9, has been designated as Brownfield Day at the fair, and he states that he as well as the balance of the board are desirous that Brownfield and Terry county will turn out in great numbers on that day.

In this connection, we wish to state we have received a letter or two from Mr. Davis urging that Terry county have an exhibit at the fair. We finally took the matter up with County Agent McClain, and he stated to us that if some one could show him where to find enough stuff to fill the score card this year on exhibits, he would gladly get out and get up one.

Mack was and is right. This is just one of the years when there simply is not 36 different varieties of stuff growing in Terry county, and you as well as Mack know why.

Another thing, Mr. Davis wants to know if any sizable group will be there, and if they intend to bring a band. If so, he wants a picture of the band at once.

He says the glad hand will be out and looking for Brownies and Terryites on that day, or any other day they wish to come.

## Lubbock Holds Beer Election Tomorrow

Lubbock county voters go to the polls tomorrow to vote on whether to permit sale of beer in that county. But little interest has been shown, and we hear of but little campaigning. There is but little doubt of it remaining dry by a large majority.

On the same day, Gaines county voters will settle the same issue.

## Henry Chisholm Buys Highway Grocery

Henry Chisholm has purchased the Highway Grocery from Drew Hobby this week, having taken charge Tuesday the 1st. Note that we call both these boys by their first name. We do this for a reason. If we were snooty enough to call them Mister, we couldn't get a drop of credit at their store.

Anyway, we all know that Henry has had a vast lot of experience in the grocery business, and we are glad he is entering business here again, and feel sure he will make a go as usual, of any undertaking.

And Drew, we are glad to say, says he and the madam are sticking around Brownfield for the time being at least. Says he, "I just don't know where you would go to find a better town and people than there is right here in Brownfield."

## Twelve Nazi Big-Wigs Sentenced To Death

After almost twelve months were consumed in the trial of Nazi war criminals by an International Court, composed of Judges from the United States, Russia, Britain and France, twelve of the high ranking leaders of the Hitler war gang, were sentenced to death by hanging, on Oct. 18th, seven to long terms in prison and three acquitted.

Herman Goering, Von Ribbentrop, the foreign minister, were given death sentences, as was Martin Borman, who was never caught nor death proven. Rudolph Hess got a life sentence. Franz von Papen, the diplomat who was here during World War I, Hjalmar Schacht, the finance wizzard, and Hans Fritche, deputy propagandist were acquitted. Russia's judge dissented to the acquittal.

Thus ends the first Court of its kind, trying the leaders who bring on a war. If some similar court was existing, composed of nations not even at war, whereby those who start a war could be tried with the death penalty possible, it might do more to stop future wars than all diplomacy and peace conferences.

We are sorry to learn that Les Newberry is back in the local hospital with a very serious heart attack.

Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

VOLUME 42

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, OCTOBER 4, 1946

NUMBER 10

## Housing Agent Meets Committee Here

Earl Kerr of Lubbock, with the NHA, met with the Mayor and a group of business men at the City Hall Monday night. Main purpose of the meeting was to learn, through the Mayor's committee appointed in each town, just how many houses Brownfield needed, which was tentatively fixed at 300. Mr. Kerr advised that Brownfield should strenuously press its demands and claims for more houses. He pointed out the government is laboring under pressure from all groups of every kind, and if we don't join in the clamour we will be left out of doors. He further stated, his information gained through the Lumberman's Association, that building material was easing up some, and because building in the north usually ceases through the winter, we can hope for more soon. He further stated a new order was in effect extending GI priority certificates, direct to the mills, with a virtual command to them to fill them first, and 'if it works' will largely head off truck black markets and channel it through regular courses. However, material and its disposition is yet largely in the hands of private industry.

Others at the meeting, who have had recent experience, state that large contractors seem to hog most of it, from its source, and hence a few larger cities are getting a lion's share. This is especially true of plumbing, electrical, finishings, and doors and windows.

The group also discussed the need for smaller and cheaper houses. While the six thousand dollar houses are nice and desirable, it is beyond all reasonable reach of many GIs as well as others, who would be glad to get a two or three room dwelling.

## First Aid Class For Ladies Starts Oct. 8

A standard American Red Cross First Aid class will have their first meeting in the county court room in Brownfield next Tuesday night, October 8, at 8 P. M.

There is not any charge for this course, but students will be expected to purchase a text book which will sell for sixty cents. This course is sponsored by the Terry County Chapter of the Red Cross.

All women interested are asked to attend the first meeting so as to receive credit for full time. For any other information contact Miss Hardin or Lewis Simmonds, First Air Chairman at Phone 185.

## BAND NEWS

The band is doing some splendid work this week. We went to Lamesa Friday night and put on a new drill. We are learning a new drill this week for the game here Friday night with Levelland.

The band may go to a marching clinic the 26th day of October in Canyon, Texas, and the 9th of October we may go to Lubbock to the fair and spend the day. The band is going to make all the playing and marching clinics they can this year.

The band had a concert in assembly Tuesday and was in every way a success. We are doing some of the best work in marching and playing as any one year band. We gave our last Saturday afternoon concert on the bandstand. We hope you people enjoyed hearing them as we enjoyed playing them for you.

The orchestra got a new set of trap drums, which will help the orchestra very much. The orchestra is getting ready to do playing in and out of the school. You will see some good work from the orchestra. —Reporter.

## GI Vocational Training Official To Be Here Saturday

Mr. Brewer, District G. I. Vocational Supervisor, will be at the District courtroom Saturday at 2:30 p. m., and urges all Veterans who are interested in taking a course in Vocational Agriculture to be present at this time.

This plan has received a considerable amount of publicity and discussion and those interested no doubt have familiarized themselves with it. Mr. Brewer, however, will no doubt go over the plan in detail with those who are not familiar with it.

## Yowell To Head Terry County USO Drive

John D. Yowell will head the next and final USO campaign in Terry County, Governor Coke R. Stevenson, General Chairman, announced today.

"With the capable leadership of Mr. Yowell, I am sure Terry County will succeed in raising its quota in the state drive for \$800,000," Governor Stevenson said.

Headed by Colonel Carl L. Phinney of Dalas, president of the 36th Division Association and State Campaign Chairman, Texas' 254 counties have been divided into six regions made up of 66 districts.

Mr. Robert B. Anderson of Vernon, Texas is chairman of the Northwest Texas region, and Mr. W. M. Thomason, Brownfield, Texas, is district chairman. These chairmen will work together in organizing and conducting the local campaign.

"There are about 125,000 Texas men still in the service, overseas, in hospitals or beginning training," said Colonel Phinney. "The combat phase of the war is finished, but the transition period presents fully as many morale problems.

"We must see to it that USO services are continued for those men who need and deserve a 'home away from home' now more than ever," the State Campaign Chairman said.

"I am sure that Terry County, headed by Mr. Yowell, will fulfill its quota and help Texas 'See-It-Through' 1947 with the National USO Campaign."

## AGED LADY PASSES, THREE SURVIVORS HERE

Roe of Azle; W. Roe of Ft. Worth and D. M. Roe, Brownfield. Also a brother, William Fletcher, of Ft. Worth. ## Cubs Lose To Lamesa By Narrow Margin

Playing the entire game in mid-field, before a record crowd of 3,500 thrilled spectators, the BHS Cubs met their most rivalrous adversary, the Golden Tornadoes, on the Lamesa field, last Friday night and while reducing the "Tornadoes" down to a zephyr, lost to them by a score of 6 to 0.

The only score was accomplished in the last few seconds of the game, when a Lamesa boy took a Brownfield punt and dashed some 65 yards through the field to a touchdown, failing for the extra point. Fans state it was one of the closest games ever witnessed, and but for this belated break it would have been a scoreless tie. There were many fumbles on both sides. "Holding the line" on both sides, far exceeded the OPA's sweetest dreams.

An odd pre-game anxiety was that the Lamesa Coach, Jim Neill, born and reared here, played with the Cubs four years in the early thirties, and while old friends wished him personal success elsewhere, they were loyal to their home team.

The two Price boys, Vernon, and Jerry Worsham were outstanding payers on the Brownfield team.

## Former Resident Here Killed In Oregon

J. H. (Houston) Hamilton, employee of the Tudor Sales Co. here, received a message late Tuesday, that his brother, O. A. Hamilton, 38, who a short time ago operated a laundry here, had met death in an automobile mishap in Oregon. His only child, nine years of age, was also killed and his wife was critically injured. Details of the accident were not learned.

The victim's father resides here, and went to Quannah Wednesday when the deceased and child will be buried. Houston and family left Thursday for that city for the funeral, the exact date not yet being determined.

## Lion's Carnival Here Next Week

The Carnival, sponsored by the Lions Club, is scheduled for next Thursday, Friday and Saturday. The Rainey equipment, with rides and a Ferris wheel, will be used. The Lions operate all concessions.

A free-for-all boxing match, by five colored boys, will be staged on the grounds. Prizes will be paid the winner, under direction of K. P. Chartist, who requests that anyone owning boxing gloves contact him for a loan or hire of them.

## Gen. Bradley Visits Texas

Dallas — Four Star General Omar N. Bradley, director of the Veterans Administration, on an inspection tour of VA offices and hospitals in Texas this week, urged continuation of USO shows for veterans in hospitals and outlined current plans to establish a single standard for real estate appraisals for loans to veterans.

"Morale is as important as medicine to the 90,000 veterans in VA hospitals. USO shows definitely help morale," General Bradley told J. O. Newberry, director of the current Texas USO campaign to raise the state quota of \$800,000.

The appraisal problem now facing veterans seeking GI loans is being worked out with Housing Expediter Wilson Wyatt, General Bradley said. At present appraisals by FHA and VA are not necessarily the same. It is proposed that the first approval by either agency will stand as the final government appraisal.

General Bradley is expected to continue his tour to San Francisco where he will address the American Legion convention.

## Fire Prevention Week Oct. 6-12

Fire losses are reported to have reached a sixteen year high. This in itself would make Fire Prevention Week of 1946 of more than ordinary importance. But of additional significance this year is the obvious fact that fire not only causes losses but fire losses feed the flames of inflation. The urge is to stamp out all fire hazards, to increase fire insurance coverage in keeping with rising values.

## Jaycee Meeting Night Changed

In order not to conflict with the Lions Club Carnival, the Jaycee meeting will be held Wednesday night, October 9 at the Wines Hotel, instead of the usual Thursday night meeting date. A good program has been arranged with Roy Forkner, Regional Vice President, as featured speaker, and everyone is urged to attend. Important business will also be discussed at this meeting.

## This Is Newspaper Week

October 1 to 8th has been set aside as National Newspaper week, so that all newspapers, with modesty, can remind the public of the continuous service it renders the public, even boast a little. It is observed that nearly all other civil institutions have their days and weeks.

Newspapers followed soon after invention of printing presses 500 years ago, and faithfully kept its rank in the progress of the country. Enjoying the Freedom of the

Press, it naturally fitted in with Freedom of Speech, and the universal freedoms and liberties of our people, which it always champions.

Newspapers are quasi-public institutions. While it must charge a price and earns its keep, it isn't as commercialized as most businesses. In recent years, it has come to realize its non-partisan position. Its duty is to furnish the news, whether or not its editors endorse the trend. It is the public road of public opinion and sentiment, which must be kept open to liberties and freedom. The editors long since know, they have no more right to obstruct this road with their personal notions than one has to obstruct any other highway.

It not only is the carrier of ideas, that moulds public opinion but the carrier of prices and markets, acquaints the seller with the buyer, makes known to consumers, where he can get the goods. It spreads information and news through the towns and countryside, whether it's sunshine or shadows. The truth and correctness of which it takes great pains and expense to confirm.

While its "space" is its stock in trade, and worth so much per inch, yet it donates much of its stock gratis to civic efforts and public causes.

Its owners are proud of the leading and honorable role it has played in the progress of the country, and enlightenment of its people.

## JUDGE SAYS —

If the Medicos were as alert as some of our business men, they would already have serum shots against Radioactivity.

Maybe we have General Tito's name spelled wrong. As of Russian influence, it is General Dittso.

If those Hollywood fighting strikers don't let up, Britain may send troops in there, "to preserve order."

It looks like Greece and China think the Atlantic Charter meant "self extermination."

During all this meat shortage, our county continues paying a bounty on rabbit scalps.

It's an ill wind that blows no good. Maybe the paper shortage will become so acute they can't get paper to print the income tax forms. Better still, the big dailies having to reduce, may be forced to cut out some of those columnists, and uninteresting bunk, clean out and print only the real news.

Kent county had a beer election recently, and voted almost four to one to exclude the legal sale of the suds. Sometimes people from other sections of the country wonder why the people of this area vote so strongly against legal sale of alcoholics, when at the same time they are average drinkers, either at home, or when away in wet areas. Here is the truth of the matter as we get it by interviewing both radical dries and liberal wets. Both point out the fact that surrounded as we are with many dry counties, with the exception of New Mexico, if we had legal beer, people would flock here for miles each night to put on a hot time in the old town. Not all of them would get stewed, of course, but enough that we would have to have many more officers than now, and hard boiled ones at that, to keep the down town section a safe place for our women and children to visit, as many get mighty nasty mouthed when drinking. Therefore the safest course is to be like the area surrounding—remain dry.

Many of our exchanges published their sworn statements last week, which we think was jumping the guns. The statement says that it has to be in the hands of the postmaster before Oct. 1, but the publication comes in October. And we noted that at least one failed to give his circulation, which is now required of weekly as well as daily papers. The Herald circulation, and we mean paid for subscriptions, remain fairly stable, perhaps dropping off about 100 in summer, but climb back to and way past the average in fall and winter.

According to a recent Belden poll, Texas people don't want our troops withdrawn from Europe and Japan just yet. In fact, 70 percent say keep the troops in those places, while only 8 percent think we will be in a war within the next 25 years, while only 8 percent think we have a good chance to get along with Russia, with a fair chance given as 32 percent; not so good outlook 50 percent, while a ten percent hazarded no opinion.

There is only 287,000 houses completed the first seven months of the bureaucratic GI Housing Authority, against a goal of 1,200,000. So, you can see for yourself just how far behind schedule GI home building really is. Fact is only 70,000 have been completed since Mr. Wyatt took over. If you ask us, there is no such thing as a priority for GI's either for building, automobiles, appliances or any kind of machinery. The whole thing is a bunch of hoey nested at Washington to make jobs for the easy street boys, who can't make a living at home. The Herald has a young GI working for us that has been trying for five months to get the \$65 supposed to be put out by our government to help sustain him while he is learning the printer's trade.

vets. If they would spend half the time trying to do the job that they are spending on this propaganda, most of which goes in the waste basket, they would really be getting somewhere.

Well at least there is going to be some real good fall grazing for the dumb brutes. Crab grass on some of the untilled fields is now ankle high and green as a wheat field after the big rains. Pitty crab grass won't stay green all winter. But many have wheat up to a nice stand that will make oodles of winter grazing.

In getting rid of Henry Wallace, President Truman let out the last of the cabinet member who helped FDR set the domestic policies of the new deal, which is now as dead as Hector's pup. "Hanray" also tried to set the foreign policy, by hugging the neck of Uncle Joe Stalin and his crowd of cut-throats, but was blocked by Republicans and conservative southern Democrats. Most of these cabinet men were never Democrats, but just personal followers of Franklin D. Roosevelt.

We believe the Texas State Fair is doing more advertising than ever before, and is being assisted by some of the big railroad and utility companies. This is just as well, as they are getting plenty of the adverse kind, such for instance as "the Pertrillo Fair," and "Chicagoian Runs State Fair," etc.

Gen. Douglas MacArthur is being mentioned much as a candidate for president on the Republican ticket in 1948. And what millions of Americans are now wishing for is someone with a big stick like Teddy Roosevelt, to tell some of the dictator boys where to head in. And they say Mack is the man to wield the big stick. That man don't think any man or set of men is bigger than the US government.

With some speculation of the government taking over the mines permanently from the owners, Dictator John L. Lewis is in a dilemma. While the navy, now in charge, want the owners to take back their property and let the navy retire from the headache, the owners don't seem to be in any hurry. In the meantime, in England, where the State took over the mines, it is understood that miners are quitting the unions in droves, figuring that a paternalistic government will feed, clothe and hospitalize them when down and out, without the formality of having to pay dues to a union, as they are working for a socialized government. This is just what is bothering John L. He don't want those dues of his members to stop. He wants to handle the swag. Therefore boss Lewis, while not too forward about the matter, is secretly wishing the owners would take the mines back.

## The New Dust Bowl Is In Bloom

A carpet of green is spread over the Plains; what a pretty pastoral scene, for that "Dusty" prophet of the soil conservation corps, to view. "If he could only see us now."

Following our month ago rains, the thousands of acres planted to wheat are up and doing fine. Several farms that were not planted are now haired over with crab grass, and a few majestic tumbling weeds, land caped among it, presents a pretty picture. This of course means that farmers should low this under before going to seed, as many are now doing.

While it is unseasonable work, some say it will add to the fertility. While the wheat isn't ready for pasturage now, if it keeps going as well as so far, there will be pasturage this winter for thousands of head of stock.

Do you know what a little Nip did? That's right, he killed a lot of Americans. But we're not talking about the Nip from Tokyo now—we're referring to those short nips that some motorists take. The Texas Safety Association reports that one out of every seven drivers involved in accidents had been drinking. When the wassail's flowing free, leave your car at home—park it—do anything with it—but DON'T DRIVE IT!

## We Make Trip To Break In New Motor

Along back in the spring, we had those old GI boys, Smith & Bryan do the old Chivvy over with a new paint job. It looked so doggone nice we just forgot about a new car, but we found the old motor that had made more than 80,000 miles was getting a bit decrepid. We then let Teague-Bailey Chivvy Co. persuade us that if we had a new engine in the thing, we would be hunkadora for the next two or three years at least.

So, we just had to take a trip to break-it-in, as the Old He and the better half are leaving this week—if a trace don't break—for Calimifonica, to see the wife's kin folks. If all reports we have been getting about the food situation out there is true, it is really bad, and a mighty worst time to make a trip out there, but we aim to carry a sack of meal and some two or three gallons of sorghum molasses. So we'll get by. Mrs. S. has a whole string of kin, including her mother, and numerous brothers and sisters, nieces and what have you out there, so we'll just carry our lasses and cornpone makings along with us from one ballwick to the other.

We aim to carry the old Remington portable, so you may be hearing wild stories about the sunshine (?) state, plus frequent fogs, before you know it, if you happen to be reading this cran. But we are getting off the subject. We aimed to kill another cat in this story.

As stated above, we were advised that the new motor should have some hundreds of miles out on it to make it act up naturally, and as slick as owl grease. Suspecting that the kids, Herman, Sallie and Buddie might have a bit of surplus food saved up, we hit the ball for Brownwood the 20th, after canvassing the local gasoline wholesalers for credit cards, as we wanted to come back sometime.

Nothing untoward happened on the highway, but had before us, as a few dead polecat, 'possum, rabbits, snakes and armadillo or two in the road evidenced. But we passed them too fast to get much of the perfume. Saturday was spent mostly in palaver, and just bruising about. The kids acted real glad to see us, and Buddy, the dog was so glad to see us that he liked to have taken us apart. That dog would make a wonderful glad-hander for some city that had a standing, welcoming committee. But would he like all folks as well as he does us?

Sunday after noon a visit was made out near the little town of May, where two of Herman's aunts live on farms. There was a nice, soft bed on the gallery, a fine cool breeze was blowing, and immediately a pall of sleepiness fell over us. We were soon in the land of Nod. Made a trip to the lake late afternoon. Up betimes to make a trip over to north Texas points next day, via Waco. Stopped just a bit in Hillsboro to chat with the Knox McWilliams, and on to Grandview, where after supper, and a few of the kin had gathered at brother Meeks Stricklin's farm, he dusted off his old fiddle—never owned a violin, he stated—and with his son, Alton at the piano, we had a round of music. Others played some, including Will Benton, who is Methodist church pianist at Grandview, and especially good on sacred music.

Meeks is not enjoying the best of health, but expects to feel better when all the old teeth are out and new ones inserted. Our son-in-law, who with his wife and dog were along, says that what Meeks needs more than medicine is for a bunch to gather in once or twice a week, and call for the Fiddlers Three, with the bowl left off. Well he did get in a weaving way that night, and seemed to be helped up some. Maybe Herman has something there.

Called by Fort Worth next day for a short visit with brother Tom and wife. They are doing nicely, and to hear Tom tell it, he could take on Joe Louis after a bit of practice. He is still catching fish, too, but not as confirmed as when his pal, Mr. Worley was living. Tom's wife says he catches some fish as long as your index finger, and a lot of small ones. Anyway, the welcome mat was out, and we had a nice chat and saw his fine lot of white Leghorn hens and vegetable garden. He also had a pretty fair crop of fruit this year.

## REV. WAYLAND EDWARDS NEW MINISTER AT WELLMAN

Rev. Wayland Edwards, of Plainview, is now holding services at the Wellman Baptist church on the first and third Sundays of each month at 11:00 A. M. and 7:30 P. M.

Can you imagine a football game played without signals? That idea is no more ridiculous than the motorist driving without signals, says the Texas Safety Association. Failure to give proper signals is taking a short-cut to death! Remember, driving is no guessing game—and the fellow behind you can't read your mind!

Mr. and Mrs. John Fitzgerald, of Plains, were visitors in our city last week.

## 275 Turn Out For Scout Picnic And Campfire

Thursday evening of last week the Scouts and Brownies held a joint picnic and campfire at Coleman Park. Brownie and Scout uniforms were seen everywhere, also a large number of parents, as 275 turned out for the affair.

Mayor Frank Jordan gave a brief address before the "nose bag" supper was served, which consisted of chicken salad sandwiches, potato chips and doughnuts, served in paper bags. The Girl Scout Council furnished and prepared the food, also furnished soda pop for all.

The lighting of the campfire was preceded by a short play in pantomime, entitled, "The Blessing of the Fire," which was given by members of troop 2 under the leadership of Mrs. Vivian Forbus. While the campfire was burning, Mrs. Walter Breedlove led the group in singing.

The spot on which the campfire was built was given to the Scout organization for a permanent campfire site. The Scouts have circled it with rocks and it has now become a sacred spot to all Scouts. The organization wishes to express its gratitude for the gift.

Mr. and Mrs. P. N. Figley and daughter, Becky, left Tuesday for a two weeks vacation in Oklahoma City. They will visit their parents while there.

Miss Jimmy Jackson, of Roswell, spent the weekend in the home of her parents, Mr. and Mrs. Jim Jackson.

Pvt. Bob Allmon is here visiting his parents, Mr. and Mrs. D. W. Allmon. He is being transferred from Denver, Colo., to an air field in Mississippi.

## Mark Twain Right About The Weather

In one of his many books calculated to tickle the reader, Mark Twain gave the human race one of its deepest belly laughs about New England weather, but he could have been just as well describing the weather in any section. In his preliminary remarks, the humorist tells us that "there is nothing we can do about the weather."

Despite the truth of that remark, most of us have a yearning to learn about the peculiarities of the weather, and what makes it tick. During the long hot summer, most of us would scan the brassy skies for a cloud no larger than your hand, and we at least secretly prayed that perchance we might have another miracle not unlike the one that old Elijah witnessed back in the days of the great drouth in the holy land (so called) as recorded in Kings or Chronicles.

But nothing happened. The skies remained as brass. There was not even a dew of mornings. Then one day late in August, a change came about; the skies were overcast, and a deluge came. Since that date most any little cloud will give any where from a shower to floods in some sections.

It is just as well that the weather was arranged by a power higher than humans, so that no mere person will expect the average rainfall here to equal the Mississippi valley. Otherwise we might wish or pray for rain on our crop when neighbor Brown was trying to save his hay.

The Texas Tech Red Raiders upset the dopsters, by scoring 7 to 0 over the A. & M.'s famous football squad, last Saturday night in their game played at San Antonio.

Green means "go" to the motorists—but NOT if a pedestrian is in front of you. The Texas Safety Association reminds you that there

THE GLAMOROUS Gypsy Rose Lee, actress and authoress, is bringing her own company of girls to the State Fair of Texas Auditorium Oct. 5-20 and will be a feature of a Big Name Show during the State Fair, announced Julius Schepps, chairman of the Entertainment Committee of the State Fair Association.

Mrs. C. F. Hamilton and Mrs. Terrill Isbell were in Lubbock shopping Friday of last week.

Miss Rachael Perez, of San Juan, Puerto Rico, is here visiting her sister, Mrs. Marner Price. Mrs. Price met her in New York City where they visited relatives for several days before returning here.

are many more pedestrians now than ever, so watch them carefully—and don't try to nudge them aside with your fender or bumper.

## School Bus Drivers Have Safety Meeting

Twenty-six drivers of school buses in the county attended a safety meeting in the court room last Saturday morning. Lee Fulton, County Superintendent, presided. Superintendents J. T. Jones of Wellman; F. A. Wilson of Meadow, and Dee Hancock of Union, attended. Lewis Simmonds, chairman of first aid work of the Red Cross, addressed them.

Patrolman M. G. Cole addressed the meeting, pointing out and explaining traffic signals and caution, and requesting report of any other motorist passing a bus, when it is stopped.

On Oct. 12th another meeting is to be held, at which Capt. Hoesy of the State Highway Patrol, will address them.

The Panhandle and South Plains Fair, for the first time since war began, starts next week at Lubbock. Though Terry county folks at the time assisted in organizing this Fair, and was one of the three first counties exhibiting there, and continuously had exhibits until this year. "These winter diseases are particularly dangerous to babies and young children," Dr. Cox stated. "Nearly all of them are spread through the secretions from the nose and mouth. Children not in vigorous health are naturally more susceptible to these complaints and

the first line of defense," Dr. Cox cautioned, "is to strengthen the powers of resistance against disease; the second is to keep them under medical supervision and the third is to make sure they avoid contact with others who have coughs, colds, or fevers."

**Winter Complaints Are As Bad As Summer**

Austin — Young children may suffer as much from winter illnesses as they do from those commonly known as "summer complaints," in the opinion of Dr. Geo. W. Cox, State Health Officer, and his advice to parents as the winter season approaches is to guard babies and young children against these winter health hazards.

Influenza, tonsillitis, pneumonia,

bronchitis, and athma are included among those disease which may be dangerous winter illnesses among young children since they affect the respiratory or breathing system. Such diseases as pneumonia may develop from a neglected cold, they may follow as an after-effect of measles or whooping cough, or they may occur suddenly and with very little warning. These diseases of the respiratory system are more prevalent in winter than in summer and are much more difficult to combat than digestive ailments

Though paved roads, automobiles and consolidation of schools have about destroyed the community spirit, so prevalent a few years back, Wellman is making an effort to restore it.

**"Nuts" To State Department Propaganda**

The State Department is sending out puny excuses of why food is still being shipped out of the United States, to red Yugoslavia while Tito shoots down unarmed American planes and we settle for a mess of reparations which also will come out of the pocket of the American people.

The statement goes on at length to say that Yugoslavia has agreed to reparations, and it details how the supplies from us are being shipped by UNRRA, which is an organization financed by many nations, the United States footing 72 per cent of the total bill, but it makes the point that UNRRA is governed by a board representing the various nations and has contracted to ship these supplies to Yugoslavia.

The claim is made that if we stopped these gift shipments we would be violating our international contract.

Well, it's about time the American people put a stop to any such pussyfooting.

After all, the American people grow the food, foot 72 per cent of the World UNRRA bills, and we haven't shot down any unarmed foreign planes.

Reparations won't restore the lives of those dead American boys, killed because the Slavs were acting on orders from Moscow to test us out with an "incident."

We were able to cut off shipments to China at a moment's notice, and China hasn't committed such a flagrant official act of cowardice. To say then that we can't halt shipments to the reds is like saying that white is yellow.

TEXAS STATEHOOD to commemorate 100 years of Texas statehood in a long-time program designed to revitalize rural life; to rebuild the land; and with the land, the man; and through the man, the state.

Under four flags, our pioneer forefathers established their humble homes in the wilderness of the Southwest to lay the foundation of a new empire. These heroic men and women came to Texas with high courage to endure bitter hardships and desperate adventures.

To these immortal men and women we owe the greatness of our state, its unique culture, its distinctive institutions, its great communities, large and small. From the broad expanses of wilderness—the forests, prairies, ranges and mountains—the hardy pioneers of all races and creeds welded a state mighty in the councils of the nations. Through valor the state was born. Valor has ever remained its protecting shield on the battlefields of the world.

One hundred years ago our pioneer forefathers wisely sought and were granted admittance into the United States of America. The Republic of Texas proudly merged its destiny with the great Commonwealth of Peoples under the Stars and Stripes.

throughout time to keep alive those heroic virtues and sterling precepts of our forefathers—we are dedicated to commemorate one hundred years of statehood.

The culture and tradition of the state, deeply rooted in the soil and its products, shall be preserved. It is to continue those basic principles, and the courage, enthusiasm and independence of the pioneers who laid the sturdy foundation of Texas, that this commemorative program is submitted.

Our agriculture and rural life, the mainspring of the culture of Texas, shall seek new horizons. Through science and research, agriculture and industry and rural life are destined to reach new heights.

The attainment of such a destiny will constitute a continuing living monument in which all the people share.

**An Honest Confession Is Good For The Soul!**

According to street corner gossip, things are getting in such a mess that Pres. Truman may have to either give the country back to the Indians or to the Republicans. We prefer to give it back to the Indians, as they might scalp some of our professional politicians, or they might even get John L's scalp, and that would really be something. We are convinced that we still have Democracy, as W. J. Bryan—who for three different times received more votes for president than Wilson received in 1912—often said that under a Democracy, the people have a right to make their own mistakes—and does any one deny that we have exercised that right? Our idea of a good foreign policy is to have an International Constitution which would prohibit any country from waging a war on credit, or on lend-lease and that would stop all wars before they get started.

We had forgotten that it is treason to differ with our State Department on the "furrin" policy issue. We may differ with Henry Wallace in everything he

has to say but we should be willing to defend with our very lives his right to say it. That is the American way of life. Right or wrong Truman went into office obligated to carry out the FDR policy and the foreign policy of Morgenthau and Roosevelt called for the dis-arming pastoralizing and policing Germany. Byrnes has scrapped what was left of the Morgenthau plan in favor of a program promising the German nation a chance for its own re-establishment as a world power, or a soft peace. If press reports are true, some 200 reporters wrote down, some in short hand, Mr. Truman's okay of the Wallace speech, but when the President realized what he got into, he said he was merely upholding Wallace in his right to make the speech, and then later fired him because he had made the speech. If our president can be truthfully accused of inconsistency, then here's hoping some worthy Republican like Harold Stassen will be elected president in '48.

History may say that Truman fired Wallace and the voters fired Truman. Some say Truman has never done anything. One thing he has done—he has guaranteed the election of a Republican Congress this fall, and a Republican president in '48. Mark my prediction.—A Citizen.

**Farm Bureau Meets At Lubbock Oct. 9**

A series of 13 district Farm Bureau meetings will be conducted throughout the state of Texas during the month of October, it has been announced by J. Walter Hammond, state Farm Bureau president.

One of the meetings will be held in the Lubbock Hotel at Lubbock on Wednesday, October 9. W. R. Tilson of Meadow, state director, will preside. The meeting, which will begin at 10:00 A. M., will be attended by Hammond and State Organization Director Marvin Carter.

"The chief job of organized agriculture is to maintain farm prices at a fair exchange level," Hammond said. This was not done following World War I and the result was depression. After the other war farm prices dropped 53 percent. By 1935 two million farmers were foreclosed."

## METHODIST LADIES HOSTESSES TO FEDERATED MISSIONARY SOCIETY

The Federated Missionary Society met at the Methodist Church Monday afternoon for a program on Fellowship and to elect officers for the new year. The next meeting will be in December at the Baptist church, at which time the new officers will be installed.

The meeting opened with the group singing, "Sweet Hour of Prayer." Mrs. J. H. Carpenter led in prayer and Mrs. N. T. House gave the devotional, taking her scripture from the 14th chapter of 1st John. Mrs. John Butler, as program chairman, gave a talk on Fellowship With God. Mrs. John King talked of Fellowship With the Church and Mrs. R. N. Huckabee, Human Fellowship. Mrs. Roy Herod accompanied her son, Billy Mack, as he sang, "Tell Me The Old Old Story." The program was closed with the group singing, "Blest Be The Tie That Binds" and a prayer by Mrs. A. A. Brian.

During the business meeting, reports from the standing committees were heard and the following officers were elected: Mrs. Joe P. Murphy, president; Mrs. H. B. Grant, vice-pres.; Mrs. C. L. White, secretary and Mrs. Glen Harris, treasurer.

A social hour followed in Fellowship Hall, which was decorated in a Spanish motif. Mesdames W. H. Culver, Cleve Williams and Huckabee presided at the refreshment table. They were assisted by Norma Jo Boyd, dressed in Spanish costume. Music of that country was played throughout the social hour by Mrs. Herod. Fifty-five were present.

Mr. and Mrs. R. W. Turner of the Needmore community, purchased the H. W. Benson home and are moving into town this week.

Mrs. E. A. Neal entertained for her daughter, Mrs. Philip Thompson, with a dinner, Sunday, in honor of her birthday. Guests were Mr. and Mrs. Major Howard and family.

Liars sometimes figure — but figures don't lie—and the figures say the first few steps are the worst: three-fourths of all casualties occur on the near side of the street. The Texas Safety Association reminds you to look left for the traffic nearest you, right for approaching traffic, left again to check. It takes only a second—and it may add years to your life.

## Behind the Scenes in American Business

By John Craddock

By Reynolds Knight

NEW YORK, Sept. 30—Business conditions appear to have shown little change in recent weeks in spite of the weakness in the nation's stock exchanges. Commodity prices have held relatively firm, retail sales continue to gain and there has been no indication of an increase in the number of unemployed. However, spot shortages of materials continue to plague manufacturers. Their inventories increased some \$800 million by the end of July, according to a revised estimate of the Department of Commerce, but only about 25 per cent of that rise was in finished goods. A steady increase in what might be called almost-finished goods, which includes those waiting for hard-to-get material, is not a healthy prospect and it means higher manufacturing costs before the product is finally completed. Retail sales continue above last year's level in New York, but in the latest reporting week (September 21) the gain was only 5 percent in contrast to 35 percent for preceding weeks. This year's

higher prices would more than account for the gain, which indicates a smaller volume of unit sales.

**BACK ON THE JOB**—Howard Hughes, the noted aviator, aircraft designer and industrialist, was back on the job last week, discussing with attorneys in New York the censorship difficulties encountered by his daring motion picture "The Outlaw." Hughes was close to death's door early in July after an accident in a newly designed Army photo-reconnaissance plane. Looking lean and tired after flying his plane across the country from California, the tall Texan indicated he can't remain away from work. That has been a characteristic of his ever since he took over the Hughes Tool Company as a youth of 18, and guided it into one of the most important companies in the oil well supply field. It was back in 1923 that Hughes took over the company and the government estimated its value at \$650,000. Today, Hughes' fortune is estimated between \$175 and \$200 million. The Hughes Tool Company has a division which handles motion picture production, one which includes aircraft design and production, others which handle other types of business. The company, which is entirely owned by the 41-year-old Hughes, also owns more than 46% of the stock

## Tech Prof To Teach In Japan

Lubbock — Dr. C. D. Eaves, professor of history at Texas Technological College, has been granted a leave of absence to go to Japan to teach and supervise social science studies at the government college for armed forces personnel in Tokyo.

Dr. Eaves is heading westward as his wife departs for Germany to supervise accounting work in a similar college at Frankfurt.

The Tech professor and his wife had both planned to teach in Tokyo, but a request of Gen. Douglas MacArthur that civilian wives not accompany their husbands to Japan changed the program.

Mr. and Mrs. Bob Janes and family, of Lubbock, moved to Brownfield Monday to make their home. Mr. Janes is field representative for the Goodyear Co. in this district.

of Trans-Continental & Western Airlines, and the largest brewery in Texas.

**THINGS TO COME** — A new synthetic soap which doesn't leave a ring around the tub. It may be used for such household chores as washing dishes, cleaning wood-work, scrubbing floors... A combination towel rack and book holder for people who like to read in the bathtub... A new shorthand typewriter based on the same phonetic principles as Gregg shorthand... A new air-conditioning machine with a small condensing unit... A new metal thermometer which gives maximum and minimum temperatures for processing work... New names for perfumes have a musical twist; one is called "Song," another "Strange Music"... A wider range and better toys for this Christmas. But shopping will have to be done early to get the best selection.

**LOCOMOTIVE AT THE WALDORF** — Last week the Atchison, Topeka & Santa Fe Railroad, which seems to do things in a big way, brought a locomotive to the Waldorf-Astoria Hotel in New City. Newspaper men, bankers, industrialists carefully inspected it on what is called the Presidential siding below the hotel. Later they talked with Fred Gurley, genial, youthful-looking president of the Santa Fe, who describes his railroad as "an institution of public service which should never be permitted to lag in its growth and development." The new locomotive is a giant-sized streamlined, silver and red engine of 6,000 horsepower. It is the 75,000 locomotive built by American Locomotive Company, and climaxes 21 years of manufacturing diesel-electric units, and 33 years of locomotive research by the company. Following the exhibit which lasted several days, the big power plant left for Chicago where it will shortly begin its regular job of hauling the Santa Fe Super Chief between Chicago and Los Angeles.

## GI Question And Answer Department

Q. Since taking out a guaranteed loan, my business has become so successful, I find I can pay off this loan before it comes due. Will I be permitted to do this.

A. Yes, the regulations give the veteran that privilege.

Q. I am a veteran of World War I. Am I eligible for a loan under the "G. I. Bill"?

A. No. The act's benefits are for World War II veterans only.

Q. If I take out a government guaranteed loan for farming purposes must I live on the farm?

A. No, but the act requires that you actually conduct the farming operations.

Q. May a loan to buy an automobile or truck be guaranteed or insured under the G. I. loan set-up?

A. Yes, but only if the automobile or truck is necessary to conduct the veteran's own business or farming operations, or conditions of his employment require that he have such a vehicle to carry out his work. He may not obtain a guaranteed loan if the vehicle is merely for transportation.

Q. What will happen if I fail to make the payments on my government guaranteed loan?

A. That will depend upon the terms of the loan, the attitude of the lender and the laws of the state where you are living.

### OUCH!

Sir Thomas Beecham says that most of our literature isn't literature, even bad literature. He says that the male characters are mostly crooks, drunkards, dopers, inarticulate halfwits or downright morons. The females, he says, display an equal devotion to the consumption of hard liquor, are hysterical imbeciles, conscienceless liars and unblushing cheats.

Will the noble knight please shut up? Saying these things would be bad enough if they were false; saying them when they are true is unforgivable.—Clipsheet.

Mesdames Richard Kendrick, J. T. Bowman, Bill Gore and Mr. and Mrs. Jack Bailey spent Wednesday and Thursday of last week in Ruidoso.
