

Terry County Boy Awarded At FFA Victory Convention

Kansas City, Mo., Oct. 21 — Nineteen young farmers from Texas were selected from among more than 200,000 students of vocational agriculture in the United States to receive outstanding awards at the Future Farmers of America National Victory Convention here today.

The award, known as the "American Farmer Degree" for the year 1946, was made to 178 farm boys who represent the best in the young farmer group throughout the entire nation.

With the Degree each boy receives a cash award of \$25.00 to go toward the Future Farmers of America Foundation.

Among Texas boys receiving the honor was Charles W. Upton, Tokio.

Tremendous Tubers Termed Typical Of Terry's Fertility

Thursday morning, we were greeted with a hail from John King to "open the gate." We happened to be on the outside at the time, shooting the breeze with a visitor and turned around to see John loaded down with an arm load of the dense, biggest yams we ever hope to see.

After he sat down to rest after bringing in another load, he told us the Brownfield Nursery had twenty acres in sweet potatoes and the yield would be 300 bushels per acre. With the market running from \$1.00 to \$2.50 per bushel, depending on grade, it looks like pretty good farming from where we sit.

Mr. King stated that of the expected 6,000 bushel crop, 2,000 bushels would be sold now and 4,000 bushels would be stored.

Mr. King said this would be his last crop of sweet potatoes as the land is needed for nursery stock, but he is very anxious for yams to be grown commercially in Terry. He is hoping that several farmers will pool some land, equipment and work and give the tubers a trial. He also stated that he would be glad to give anybody all the advice or suggestions they may require to raise them in this section.

Over a period of years, we have seen peppers, dahlias, turnips and other vegetables and flowers raised by Mr. King, all of which surpass the pictures on the seed catalogues. And we believe his success can be attributed to plenty of "know how," hard work and good Terry county earth rather than to the possession of what is superstitiously known as a "green finger."

We would suggest that anyone planning to grow this crop should first consult Mr. King. His advice is well worth taking.

Pioneer Tatum Postmaster Passes

James B. Martin, 80 years of age, a retired Postmaster, and father of Mrs. Marion J. Craig of this city, died at 3 A. M. Thursday at his home in Tatum, where he lived for over thirty years. He had been ill for several weeks.

Funeral services were conducted at the Tatum Methodist church, Thursday afternoon at 2 P. M., by the Rev. R. T. Cribb, and interment was made in the Tatum cemetery, under direction of the Brownfield Funeral home.

He left surviving his aged wife, and five daughters: Mesdames Beatrice Green, of Tatum, M. J. Craig of Brownfield, Blanche Nichols of Venice California, Lena Bonine of Ralls, and Roy B. Ezell of Farwell; and a brother, Tom Martin of Ralls.

A large group of Brownfield friends of Mrs. Craig attended the funeral.

Reserved Seat Tickets On Sale For Big Spring Game

Reserved seat tickets for the Cub-Steer game tonight at Cub Field, will be on sale until five o'clock this afternoon in the lobby of the Courthouse. Reserved sections are midfield in the old stands on both the north and south sides.

Reserved seats are \$1.20, including tax. Those holding season tickets may obtain reserved seats by presenting the ticket plus 30c. It is planned for the next season to combine the reserved seats and season tickets. This plan would have been carried out this year but for the fact that the additions to the stands were not completed at the start of the season.

Tonight's game may well be the turning point of the Cub fortunes. After the excellent showing they made last week in playing the vaunted Amarillo Sandies to a standstill, all Brownfield is hoping the Cubs will break over into the win column for keeps tonight.

Local Boys Win Awards At State Fair

Leo Wenzell, who resides north of town, won first place at the State Fair with his Berkshire Heavys. He won two first prizes and won numerous awards with their hogs since coming to this county several years ago.

Roscoe Treadaway won 19th place with a calf. This was a remarkably good showing in view of the fact that it was a "dry lot" calf and not a so-called "nurse-cow" animal as the others were. Roscoe won a \$25 prize and sold his calf for 48c per lb., so he didn't do so badly after all.

K. W. Howell In Car Howel, Woman Injured

Mrs. Irma Westhoff, wife of L. T. C. J. Westhoff of the Roswell Army air base, sustained head lacerations and a broken knee cap, when the car she was driving collided into the rear of the car driven by K. W. Howell, a moment after he had driven onto the Tahoka highway at his home one mile east of town, Monday morning.

Neither Howell nor Westhoff, who was asleep, nor his 4-year-old son were injured. Mrs. Westhoff received treatment at Treadaway-Daniell Hospital, but was released Tuesday. They were enroute to his post at Roswell.

Howell's car was damaged approximately \$200.00 and the Westhoff car, about \$400.00. No charges were filed.

Draft Calls Off For Balance of '46

Washington — Because voluntary recruiting has surpassed all official expectations the War Department today cancelled all draft calls for the balance of 1946 — cancellation starting from Oct. 15.

Official figures show that voluntary enlistments reached 992,648 on October 6 opening the way for the Army to reach its announced million mark around Nov. 1.

The suspension will affect about 35,000 men earmarked for call in October and November.

Texas was second from the top of the list in Army recruiting with a total of 54,217. Pennsylvania leading with enlistments of 58,849.

Lions Vote To Run Carnival Again Saturday

Due to weather conditions last week, which hampered the successful operation of the Lions carnival on Thursday and Friday nights, it was voted in their meeting Wednesday to open again on Saturday afternoon and Saturday evening. It was felt that a great number of people would have attended had the weather not been so cold and disagreeable.

Although the boxing teams did not perform as scheduled last weekend they expect to have them on hand Saturday night for the bouts. All the rides and games will be running and the hamburger stand will be open.

Father Of Brownfield Teachers Dies Here

W. H. Morgan, aged 82, succumbed Tuesday morning to an illness of several months, at the home of his daughters, Misses Ludie and Mattie Morgan, at 619 East Hill street. The daughters are teachers in the Brownfield schools.

Funeral services were conducted at the home at 4:00 P. M. Wednesday, by Rev. Levi Price, pastor of the Tahoka Baptist church. Interment followed in the Terry County Memorial cemetery.

He is survived by his aged wife, who is critically ill, the two daughters, and a sister, Mrs. Della Caraway of Gorman, Texas.

Stocking pastures conservatively leaves enough grass to hold fall rains and allow for storage of plant food in grass roots.

Dr. P. C. McCord New Minister For First Christian Church

Dr. P. C. McCord, of Georgetown, Kentucky, will arrive the latter part of next week with his wife and three sons and will assume the ministry of the First Christian church. He will preach his first sermon on Sunday morning, Oct. 27th.

DR. P. C. McCORD

Many Brownfieldites will welcome this great evangelist here in their city. Dr. McCord holds BA, and MA degrees as well as Ph D, BD and Th. D and has often been classed with such world famous evangelists as Moody, Sunday, Gypsy Smith and others. He was formerly pastor of the Christian Churches in Madison, Wisconsin, Minneapolis, Minn., and West Frankfort, Illinois. Mrs. McCord is noted for her work with the young people.

Singing At Wellman

There will be a singing convention Sunday, October 20 at Wellman. Everybody is invited to come. We are expecting a big crowd and lots of good singers.

Recreation Training School Here Oct. 24

A county recreation training school will be held for home demonstration club women in the American Legion Hall in Brownfield, Thursday, October 24, from 1:30 to 4:30 P. M. Mrs. W. R. Gandy, Mrs. Thurman Salsbury, and Mrs. E. V. Riley will give special training in a district trained school at Plainview in September will have charge of the meeting and will train delegates from home demonstration and 4-H clubs. They urge as many of the members as possible to come to get this material to help them with club recreation plans.

Rev. Aldridge In Week of Services At Presbyterian Church

Beginning Sunday morning, Oct. 20th, the Presbyterian Church will have a week of services conducted by Rev. Joel L. Aldridge, pastor of the First Presbyterian Church, of Tullia, Texas. Rev. Aldridge is a graduate of McCormick Theological Seminary in Chicago, and is one of West Texas' outstanding young men of the pulpit.

The series of sermons will be upon "The Seven Centralities of Christianity" and will be an explanation of the central doctrines of the historic Christian Faith. The titles of the sermons will be: "The Creator," "The Captive," "The Cradle," "The Christ," "The Church" and "The Crown." These sermons will be calm, reasonable discourses, addressed to the mind and heart, and will be of benefit to all who want a broader knowledge of the Christian Faith. Not only Presbyterians, but members of all churches and those not affiliated with any of the denominations are invited to attend.

The Sunday evening service will start at 7:30 P. M. and week day services at 7:45 P. M. Wednesday evening a covered dish supper in the church recreation room at 7:00 o'clock, will precede the service.

Member Of Pioneer Family Buried Here

Mrs. Eula Eastman-Durham, age 57, a daughter of the late Mr. and Mrs. John C. Scudday Sr., pioneer settlers of southeast Terry, died last Monday at her home in Wichita Falls, following failing health of several months. After funeral services were held in the First Baptist church in that city, the remains were brought here for burial in the Brownfield cemetery, where he parents rest. Brief graveside rights were conducted by Rev. A. A. Brian, at 4 o'clock Thursday. Burial directed by the Brownfield Funeral Home.

She was reared in the south part of the county, marrying Alvin Eastman, also of a then pioneer family, but who died several years ago. She is survived by two sons, one who was a Japanese prisoner for three years, but had been home for a year and now back in the service in Kentucky, and two daughters, all of the vicinity of Wichita Falls. Also three sisters; Mrs. S. F. Lane of Lubbock road, here; Mrs. Smith of Corpus Christi; and four brothers, Walter Scudday of Ft. Stockton, Fred of Monahan, Earl of Lubbock, and Rev. Arthur Scudday of this city, all of whom were former residents here.

Born of October 5 to Mr. and Mrs. Raymond Johnson, Warren, Ohio, a baby boy, weight 7 lb. 6 oz. The young lad bears the name of Richard, the grandparents, the O. E. Johnsons, reside here.

An electric cooperative organization at Tahoka, Texas, has received a loan of \$415,000 for system improvements and for 431 miles of line serving 751 rural consumers.

SALT RIVER VALLEY A RICH AREA

Of course you have heard the old expression, "going down the Salt River" usually referring to those defeated in election. Evidently that expression was in vogue before Salt River in Arizona was unknown or little known. In fact, like too many places in the west, the name is a misnomer. If the river was a bit salt, irrigation from its waters would be out, as salt ruins land for agriculture.

Left Coolidge before too many Indians arrived, as we wanted to keep our old scalp and what little hair it has left for a winter in Terry, and after two hours' leisurely travel, with many interesting things to be seen, passed through the capitol, Phoenix, and arrived at Glendale at that very genial home of Mr. and Mrs. Mumford M. Smith, with whom live their daughter, Mrs. Margaret Graham and grandson, Mumford Austin. While Mrs. Smith and Mrs. Stricklin are only step sisters, it would be hard for anyone to note the matter if they ever see those two girls together.

Most of the Sunday was spent in driving over large sections of this irrigated valley, including some nearby towns and areas, and particularly noting the radical changes for the better that has taken place since our last visit twelve years ago. Since War II started, a large naval bomber plant has been erected in the vicinity, which still seems to be standing ready, and at least keeping a large number of bombers,

now nearing obsolescence in repair. No doubt it will some day be converted over to the newer type of bombers that carry loads of destruction equal to a cruiser, now talked of for the near future. Then there is a large aluminum plant that covers acres and acres of ground, being converted to some other industry.

Meat is scarce anywhere out in this section, both beef and pork, but they are good rustlers and we had all the good fresh meat we wanted while there. Wonder why it is that people in Arizona and California get the idea that a Texan must have meat at every meal? That may have been the idea at one time or another, but Texans can do without meat as well as other people, and it seems to help. Some meat is good; too much bad. Well, we had a genuinely good time with this family of kin folks, remaining there until Monday.

Mrs. S. has a brother, Walter Holden, living there with his daughter, Miss Janie, in high school, but who begged out of school Monday to be with her aunt Texie and uncle Jack. So we took in those portions of the valley we had not gone over the day before, even including an alligator farm. We found a very nice place to that time we had seen some of the laziest humans and animals in existence, but a full grown alligator caps them all. His or her idea of continual bliss is to lay in the water or a bit of grass and sleep,

and if punched with a stick, which the lady did who has charge, and lectured about them, is to give off a loud goosey hiss and wiggle about a bit. It is a supreme mystery to us that they ever get up enough energy and sex ambition to breed their kind.

While Walter has more recently been in the grocery business, having just sold out to his partner, he is primarily a gin man, having followed that most of his adult life. He even carries the familiar mark of the ginnee, about half of one hand gone. We stopped at one place to see some long staple ginners, an operation we had never seen, but it was not to run till next day. They are gradually quitting long staple there in favor of short staple, as it is hard to get people to pick long staple, the bolls are so small and tedious to pick. And they really pick cotton out there. This one had 12 stands. We had lunch at Tempe, pronounced Tem-pea.

Walter decided on a real old fashioned Texas dinner (supper) and he has a housekeeper that is a Texan and knows her fried chicken. Two large fryers at two bucks each were prepared and we together with the Smiths had a real old Texas supper. But the talk of keeping down inflation is just so much bunk. It is already here.

We had a delightful time, and hit the road Tuesday for Redlands, Calif., where we found the people all ok, and seemed real glad to see us. —The Old He.

NAZI LEADERS EXECUTED AS SCHEDULED

The Eleven high Nazi leaders, who next to Hitler fomented World War II, and who, after a ten month trial by an International Court of Justice at Nuremberg, Germany, were recently sentenced to death, were hanged before dawn last Wednesday. Goering, the No. 2 Nazi, however, beat the Hangman by a few minutes, taking a capsule of cyanide, but his body was carried through with the others to an unannounced disposition. Von Ribbentrop, the foreign Minister, was first to go. It was by hanging with rope, through a scaffold, and yes, it was a Texan that did the job. Master Sgt. John C. Wood, of San Antonio, supervised all details. It seems that because of his cool, calculating, timing he had been called to perform similar acts before, in army discipline, and did this world famous job unflinching. Thus for the first time in history the big men at the top, in bringing about a war, have plunged through the gallows to the bottom, at its end, and deservedly theirs.

But few witnesses were present. An official photographer took various pictures, not likely to be published, but it is hoped copies can be very diplomatically laid on every ruler's desk, and a blue penciled one, especially of an en-

Subversion
 However successful America's system of free enterprise has been, faith in planned economy has spread rapidly over this nation's political thinking in the last 25 years. It is strange that the world's most prosperous and influential people should forget how its power was built, and think about imitating a plan that fails every time it is tried, but that's the picture.

How did planned economy get into the picture in the United States? This is the country with no peasant class! It is here that laborers drive their own motor cars. This is the land where farmers live like lords in older countries. It must have been a strange set of circumstances that turned the eyes of a favored people to look with envy at under-fed and over-worked races beyond the seas.

They Only Heard
 The facts were not all known. If farmers and craftsmen of America could see how men of similar skills elsewhere must live, they would thank God for giving their forefathers wisdom to safeguard in our Constitution the right of ownership. Americans who lean toward socialism have seen very little of it and heard only one side. Planned economy invaded America thus: After Liberty Bell had been silent 150 years, the Statue of Liberty grew green with tarnish and people began taking freedom for granted. Carefree descendants of men who endured Valley Forge ceased to appreciate their costly birthright; simply had no idea how it would seem to be without freedom. Sly digs at America and her people were swallowed down by an open-minded generation.

Poisonous Teaching
 Protected by the free-speech clause in our Constitution, soap-box orators started braying against invested capital. Crafty minds coined such lurs as "entrenched greed" and "economic royalists" to stir up envy and make success in business seem dishonorable. Wordy wars against "coupon clippers" frightened investors, large and small, and choked the flow of capital into business.

It is not possible in any country to provide abundant lives for the masses by raiding the rich, but the idea was hatched and spread around in America. Armies of idle people were trained to rely on government instead of on themselves. Even in schools supported by the state, boys and girls learned to question the value of individual opportunity, a cardinal liability.

Government Control
 War came, and it was two years old before victory was even reasonably certain. Government rightly seized the nation's resources and manufacturing plants, and (presto) a lion's share of America's bread winners were in war work drawing the highest pay they ever heard of; Uncle Sam going in debt 150 million dollars a day. Things to buy became scarce, and loose money rattled in every pocket.

Quite naturally people gave government the credit when, after four years of government management, they had more money than they could spend. Actually the facts are not related. When a public debt, that approximates the country's worth, keeps growing, people are not prosperous even if their wallets do bulge with "lettuce" because there are not enough things to buy.

Mr. and Mrs. Bunk Proctor and son, of Carlsbad, were weekend guests of her parents, Mr. and Mrs. J. C. Gregory.

HORSES ARE HER PLAYMATES . . . Most four-year-olds are content to "play house" with their dolls and toys, but not Shirley Adams. She is happiest when she can drive the horses about the farm of Andy Walker, Nottingham Hill, Australia, where she is staying. Here Shirley drives two draft horses so that they can be hitched to the plow for the day's work. A real farmer's daughter, the tiny tot loves horses and is not in the least frightened by them.

Parental Supervision Urged On All Phases Of Child Health

Austin — Emphasizing the ur-

gent need for parental supervision of all phases of child health, Dr. Geo. W. Cox, State Health Officer said today, "Much of the impaired eyesight of advanced years could be prevented if sufficient interest in early life were applied and a correction by means of temporary glasses made when required."

Parents, Dr. Cox asserted, should be watchful for danger signals in the child such as frowning, squinting, persistent headache, eyeache, and watery eyes. If the youngster reads too closely or too far away from the face, that situation may also be significant of trouble.

"No child likes wearing glasses, nevertheless, it is the obligation of those responsible for the future of young folks to have their eyes examined by a reputable specialist if there is a suspicion that normal vision does not exist. It is much better for a child to wear glasses for a few years during early school life than to have permanently defective vision in later life," he declared.

Dr. Cox said that neglect of the eyes is by no means limited to children. Many older persons, some through vanity, indifference, or carelessness, fail to give proper attention to the care of their eyes. Penalties, he warned are bound to occur for such inexcusable negligence.

"The eyes of any person, whether young, middle-aged, or older represent one of the most priceless of bodily possessions," the State Health Officer asserted. "To take care of them promptly and properly is a responsibility which never should be sidestepped."

WINNING PEN OF HOGS . . . Leo Hulbey, 18, of Chatsworth, Ill., exhibits his winning pen of three Chester Whites at the Chicago Junior market hog show and sale. In addition to first ribbons, young Hulbey received the Pillsbury award. With more than 1,000 hogs exhibited from four states, winners faced stiff competition. Hulbey and hundreds of other 4-H club boys and girls have made a paying business out of their various farm enterprises.

Buick Output On Upswing

FLINT, Mich. — Buick Motor Division produced 23,272 automobiles during September, averaging nearly 1,200 cars daily for its biggest monthly output since the war, H. H. Curtice, Buick general manager and vice president of General Motors, announced today.

Although volume is still restricted by continuing shortages

of parts and materials and other factors, Buick exceeded its August output by 3,174 units, or nearly 16 per cent. September production raised Buick's total output for domestic and export users to 88,037 cars.

Before the war, Buick's record month was March, 1941, when production reached 38,913 units.

Buick's biggest weekly volume last month was recorded during the week ended September 28 when 6,366 automobiles were produced in five working days.

Curtice said Buick's working

force, largest of peacetime record, continued to increase during September. New hirings last month brought total employment to 22,038, of whom 19,520 are hourly-rated personnel. Buick requires an additional 2,000 workers in skilled and unskilled classifications, Curtice said.

There are 42,000 more honey-bee colonies in Texas this year than last year.

Farmers consume approximately one-fifth of the nation's gasoline production.

City Tax Rate Cut

The City dads reduced the tax rate of 50c current for the past few years, to 40c on the one hundred dollar valuation, for the year 1946, in the regular meeting last Friday night. Increased values of old property and accretions of new properties, made this possible.

The total valuation for 1945 was \$2,666,000.00, and the 1946 total is \$3,782,000.00. Last year's value and rate yielded near \$14,000.00 in taxes; 1946 value and rate will bring near \$16,000.00. The past few years expenditures from tax revenue has been around \$14,000. The City's budget this year is about \$15,000. The low in taxes is because of revenues from the municipally owned water and light systems.

It is obvious that if the City is to make the much needed extensions of sewerage system, a bond issue will be required. City authorities are advised that if it has a substantially good valuation, which is its security for the bonds, they will not only be more saleable but at a cheaper rate of interest.

MRS. SCHELLINGER HOSTESS TO LA FIESTA CLUB

Mrs. W. O. Schellinger entertained members of La Fiesta Club with two tables of bridge Thursday evening of last week. This was the club's first meeting of the fall months, having disbanded through the summer. Mrs. Cotton Neely scored high and Mrs. T. H. Harris, second high. Traveling prize was awarded Mrs. Terry Redford and Bingo to Mesdames Geo. Germany and Harris.

A salad plate and cokes were served to Mesdames Terry Redford, Cotton Neely, Kenneth Hill, Jerry Kirschner, T. H. Harris, C. L. Truly and George Germany.

Chaffin-Wilson Vows Read At Borger

Miss Dorothy Chaffin, daughter of Mr. and Mrs. Bill Chaffin, of Shamrock and Jack Wilson, son of Mr. and Mrs. O. B. Wilson, were married at 5:30 P. M. Oct. 12th at Borger, Texas. The double ring ceremony was read by Rev. Paul Cullen, pastor of the First Baptist Church, at the parsonage.

Mr. and Mrs. Claude Wilson served the couple as matron of honor and best man.

The bride wore a blue gabardine suit with a winter white hat and snakeskin accessories. Her corsage was a purple orchid. She carried out the tradition of something old and new, borrowed and blue and wore a penny in her shoe for luck.

Mrs. Wilson is a 1941 graduate of the Brownfield High School and since graduation has been employed at Copeland's Hardware. Mr. Wilson, who was discharged from the army in May, is employed in Lubbock.

The couple are making their home at 410 South Second, in Brownfield.

Guests were: Messers and Mesdames O. L. Beterman, John O'Dell, R. L. Bowers, Joe McGowan, and Reagan Peeler, of Sundown.

MRS. JORDAN HONORED ON BIRTHDAY

Mr. and Mrs. E. A. McCutcheon entertained a number of friends and relatives last Sunday, at their farm home, honoring Mrs. McCutcheon's mother, Mrs. A. J. Jordan, of this city, on her birthday, and also that of a neighbor, Mrs. Jeff Howard.

Among those attending were Mr. and Mrs. J. C. Crownover and daughter, Mrs. Jim Pharr and daughter; Mr. and Mrs. Jeff Howard, and sons; Mr. and Mrs. A. J. Jordan, Bennett Jordan and Sammie Crossland.

The menfolks enjoyed the evening paying dominoes. The Jordans are well known residents here, for several years.

Incidentally, Mr. Jordan is an uncle by marriage, of Bettie Jo Speers, the new radio songstress that Bob Hope recently discovered at Houston, and is now starring her on his broadcast every Tuesday night, taking the place of Frances Langford.

WELLMAN 4-H CLUB NEWS

The Wellman 4-H Club met with Mrs. C. H. Heafner in the gym, Tuesday morning, to elect officers. Those elected were:

President, Linnie D. Hawkins; Vice-President, Juanda Crews; Secretary, Marjorie Scales; Reporter, Juanice McBeth; Recreation Leader, Betty Zo Dean; Garden Demonstrator and Recorder, Anna Jo Dean.

We selected Mrs. Heafner as our sponsor.

Plans were discussed for a Halloween party but before the election the girls walked around the gymnasium for the purpose of improving their posture. They did very well. The Wellman 4-H club is going to go places. "Keep it up girls!"

The members of our club are Betty Zo Dean, Linnie D. Hawkins, Juanice McBeth, Marjorie Scales, and Juanda Crews.

Wellman placed in the Fair at Lubbock. We are very proud of the work the club is doing. Our next meeting will be Oct. 29.—Reporter.

One-man harvest

... with your Own Machine!

TWO SAMPLES OF GRAIN tell a story of interest to every farmer who knows his oats. One is plumper, brighter, weighs more per bushel.

The heavier kernels below illustrate the results of harvesting at the right time with your own All-Crop Harvester . . . the harvester originally designed and still priced to permit individual ownership by every farmer regardless of size.

Instead of cutting on the green side with a binder before the grain is properly filled out . . . instead of waiting indefinitely for a threshing crew or custom combine with your crop exposed to weather and insects . . . you can choose the precise moment when your crop has reached the peak of maturity and quality.

TAILORED TO YOUR FARM

1. Designed for the individual family farm.
2. It's your machine — harvest when you're ready.
3. The original one-man "power take-off" harvester.
4. Low first cost permits independent ownership.

BAND NEWS

The Band has had some prosperous days these last few weeks. The band went to Amarillo Friday and had a very nice trip. They played and marched very good for the crowd there. We played quiet a few numbers there and played almost as good as the Amarillo band, although they were almost twice as large as we were.

The band is also practicing very hard on the marching because we are going to Canyon the twenty-sixth of this month to a marching contest where they expect to do some good marching and playing there. We are going to attend quite a few clinics this year for both marching and playing.

For the game this week with Big Spring the band expects to do a stunt that is not tried by many bands. It is very simple but it looks very good if it is done right. We will try to put the people on

The orchestra gave a program in assembly Tuesday which all the students and teachers enjoyed very much. The orchestra is doing some splendid work. They played about six numbers which were enjoyed by all. They practice quite a lot and expect to give a good show before very long.—Reporter.

The value of refined oil products produced during 1945 was in excess of four billion dollars at the refineries.

Odds Mean Nothing To This Lad

A pig that places eighth in the great State Fair of Texas junior livestock exposition doesn't usually deserve a story all to itself. But in the case of the Poland China barrow of 15-year-old Eugene Duke of Bexar County it is that and more, too. For his story is one that doesn't happen often, a rare combination of drama, tragedy—and courage.

Young Duke lives on a farm ten miles southeast of San Antonio. On the night of Thursday, Sept. 26, the worst flood in San Antonio's history overflowed Chipideras Creek near his house. The water swirled against the Duke house, crumpled it. Gene and his sister escaped by clinging to a floating tree. But his mother and brother weren't so lucky. Their bodies were found the next day, unbreathing.

Gene had been grooming three pigs for the State Fair. After the flood one was found dead. Another is still missing. The third was recovered last week at a farm farther down the river, lame, bruised and ill.

Gene had his heart set on exhibiting those pigs. When the water subsided, he worked with his one surviving pig long and hard. He didn't expect to win any prizes. But the pig finished eighth.

For that it brought him \$3, and a strange light to his eyes. It's not what he can buy with the money, he says. It's the thought.

It's the thought of what went into raising that pig and the great determination that carried him through.

And just wait till next year's State Fair, he says. I'll be back.

Nine From Area Enroll At ACC

Abilene, Tex. —Abilene Christian College, opening her forty first session on October 3, had a record enrollment of 1430 students, a 115% increase over last year. Of this number, 585 were veterans. By classes there were 771 freshmen, 320 sophomores, 195 juniors, and 144 seniors.

Included in those enrolling for the 1946-47 fall semester were the following students from Brownfield: Don C. Carter, Josie Chisholm, Larry Chisholm, Carrol W. Collier, Mrs. Barbara Collier, Harold C. Jones, and O'Dell Quante. Also entering were Freda Beth Walker of Meadow and Ole C. Woodard of Seagraves.

Mr. and Mrs. Bill Wauson, of Loop, were in town Wednesday shopping.

Mr. Ross Black and Kenneth Purtell spent the first of the week in Mineral Wells with Mr. R. J. Purtell.

Eddie Goodnight, who sustained painful, though not serious injuries in an oil field near Houston last week, was brought to the local hospital here where he is undergoing treatment. He is the son of Mrs. Beatrice Gardner of this city.

Mr. and Mrs. T. O. Miller visited part of last week in Amarillo with her parents, Mr. and Mrs. O. H. Speed and other relatives. They also attended the Amarillo-Brownfield football game there Friday night.

Lt. and Mrs. Rudolph Gracey are here on a twenty-day furlough visiting their parents, Mr. and Mrs. J. E. Gracey, of Rt. 1 and Mrs. Corine Cranford. At the termination of his leave, Lt. Gracey will be sent overseas for duty.

American Agriculture Worth 101 Billions

College Station —American Agriculture has increased in value practically 90 per cent since 1940, and was worth 101.5 billion dollars at the beginning of 1946.

This dollar valuation of U. S. agriculture is shown in a study recently released by the Bureau of Agricultural Economics in Washington D. C. Indicating that the figure is still on the rise, the Bureau's survey showed a 12 per cent increase since 1945.

Significant point brought out in the study might be that very little of the increase in agriculture's value was the result of improvements of farms and farm property. Very large part of the increase has come from price increases on farm products and from accumulations of money due to large sales. The report indicated that approximately 800 million dollars that were added to farmers' cash holdings during the war will have to be re-invested in improvements of farms and equipment that weren't maintained through the period 1942-45.

Property of farmers' and other owners of farm businesses accounted for 93.2 billion dollars of the total dollar worth of agriculture. The remaining 8.3 billions were taken up by creditor's claims. Although farmers' mortgage debts declined during 1943, they did not decline as much as in previous years, and actually increased in 20 states.

Rain, Cold Weather Cut Attendance At S. P. Fair

Lubbock, October 14 — The 29th Annual Panhandle South Plains Fair closed Saturday with attendance estimated at nearly 85,000 people. Rains, low temperatures and cold winds held crowds down to a much lower figure than had been anticipated, but Fair officials expressed themselves as well-satisfied with the support given the Fair under the circumstances.

At a meeting of the Fair directors Friday, it was decided that whether the Fair made money or not, full premiums would be paid all exhibitors. The directors also voted to hold the rodeo over Sunday.

In the county agricultural exhibits, Floyd County took first place and won the \$100 premium. Parmer County placed second and Scurry third. New Deal won the community exhibit contest limited to the eight school districts in Lubbock County. Lubbock High School won first premium in the vocational agriculture exhibition, followed by Roosevelt School and Plainview High School.

Livestock exhibits were somewhat short because of the torrential rains over the week-end preceding the Fair the time when most exhibitors had planned on bringing their stock to Lubbock. Those on hand were of fine quality and provided Fair visitors a chance to see some of the best stock of the Plains.

Despite mud and threatening clouds a good crowd of 3500 people turned out to hear speeches by Beauford Jester and Col. T. G. Lamphier on Monday. The fireworks display after the address was the most spectacular ever put on at the Fair.

Cold weather held attendance down at the Auto races and the rodeo through most of the Fair. On the one or two days of pleasant weather, the grandstand was filled and there were thousands more milling around on the Midway.

Good Roads Drive Opens At Austin

Austin — An important step toward establishing a sound financial policy to provide for the farm-to-market roads and primary highway needs of Texas was taken here when the State's road leaders launched a campaign on behalf of the Good Roads Amendment to the Constitution.

Approximately 500 advocates of better roads for Texas heard Governor-Nominee Beauford Jester, Lieut. Governor-Nominee Allan Shivers, Congressman O. C. Fisher, San Angelo, State Representative Neveille Colson, Navasota, and John S. Redditt, Chairman of the State Highway Commission address the huge kick-off rally and urge the adoption of the Good Roads measure in the November 5th General Election. Col. Ike Ashburn, Houston, served as master of ceremonies and introduced the speakers and other outstanding personalities present.

Jester, whose campaign platform stressed more and better roads, declared, "We face a critical need for more farm-to-market roads, a need we propose to meet. The roads Texas needs cannot all be built in a day. And if they were all built today it would not be long before the normal growth of Texas and the obsolescence of our road system would require still more roads."

"We must," the Governor-Nominee asserted, "recognize the fact

ON WAR'S WINNING SIDE—BUT THEIR BATTLE IS NOT OVER... Greece, which was on the Allied side in the war, is suffering just as much, if not more, than former enemy countries who were on the losing side. Typical of the little people—the common or average citizen—who are the real sufferers are these citizens at Kanalia, Greece. Starting from the ground up, in a destroyed city, they are building a new home without money and suitable material. Even their livestock went with the Germans.

Mr. and Mrs. Jack McLaughlin, of Lubbock, were in town Tuesday.

Mrs. D. E. Brown, of Silverton, Texas, spent the first of the week visiting her daughter, Mrs. A. B. Buchanan, of Gomez.

that road building is a continuous, never-ending operation which must be planned and financed on a long-range basis if our road system is to approach the minimum needs of a growing Texas."

Plans Proceeding On Kenny Polio Drive

Dallas — Plans for the 1946 Sister Elizabeth Kenny Infantile Paralysis campaign, which will run from November 18 to December 7, are proceeding rapidly, according to George C. Francisco, Jr., Houston, state chairman. The Texas quota is \$150,000.

The state campaign is being conducted by counties, with a separate quota for each county. Chairmen are now being selected for the individual county campaigns.

Funds from this campaign will be used to send nurses to Minneapolis to train as Kenny technicians, and to eventually build a Kenny clinic in Texas, so that Texas victims will have access to the best known treatment of this dread disease.

Anyone wishing to help in this campaign is asked to contact the Texas Headquarters, Driskill Hotel, Austin, Texas.

Mr. and Mrs. K. D. Snedeker and children, Sharon and Keith, returned recently from a week in Oklahoma City. They were called there due to the illness of Mr. Snedeker's mother.

Help Eradicate Diphtheria

The South Plains Health Unit has received reports of sporadic cases of diphtheria since the first of the year. It is a proven fact that 90 to 95 percent of children can be protected by proper immunization at the age of 6 months to five years against this disease.

Diphtheria is caused by a germ which grows in the nose and throat of human beings. It will also grow in milk. Diphtheria carrier is an individual who harbors the germs in the nose or throat without experiencing any discomfort therefrom, and is of danger to the general public.

Most cases of diphtheria occur in the age group under five years. The increase in morbidity and mortality for diphtheria in Texas is actually a shameful state of affairs. It is an uncomfortable thought that so many of our small children suffer and die from this disease which could be eliminated by immunization.

Every parents is urged to have, during the baby's first birth year, complete protection against diphtheria. If this has not been accomplished by all means see that the children are protected against this dreaded disease by immunization.

H. D. Club To Sell Christmas Cards

Members of the Terry County Home Demonstration Council decided to sell Christmas cards and Christmas wrapping, when they met in the district court room last Saturday afternoon. This method was taken to avoid the last minute rush for these things before the Christmas holidays.

Mrs. W. R. Gandy gave a report of the recent recreational school she attended at Plainview, and had each member make a Christmas tree with newspaper. She suggested that it could be made of the Christmas colors in crepe papers. Mrs. Gandy also told the group

TO BE OR NOT TO BE . . . Independent or join the CIO or the AFL. That was the question when A. F. Whitney, president of the Brotherhood of Railroad Trainmen, opened the 28th national convention at Miami Beach, Fla.

that with the help of Mrs. Thurman Salsbury and Mrs. E. V. Riley, she would soon be ready to repeat the training school here in Brownfield. She urged that the home demonstration clubs each send as many delegates as possible to come to take the training.

The 1947 year books as worked out by the committee are to be printed as soon as possible.

Officers for the council for 1947 are to be elected in the meeting November 9.

Veterans' News

Aliens who served in the Armed forces of the United States during World War II have less than three months left to qualify for quick citizenship under the Second War Powers Act of 1942, the Veterans Administration warned this week.

The act expires on December 31, 1946, and affects all aliens who enlisted or were inducted into the

service before December 28, 1945.

Recent reports indicate that approximately 100,000 service-men and veterans have failed to take advantage of the right to obtain American citizenship as provided under the Act.

Those affected are not required to file the customary declaration of intention, need not have lived in the United States for any specified time, are not required to speak the English language or meet educational tests.

Honorably discharged aliens who wish to take advantage of the law should apply to the nearest office of the Immigration and Naturalization Service or inquire at their nearest VA office.

Six thousand books—all brand-new—are on their way to war veterans in the 11 Veterans Administration hospitals of the Southwest.

Roy E. Eury, Special Services for VA's Dallas Branch, said both fiction and non-fiction obtained from the Army are being distributed among VA hospitals in Texas, Louisiana and Mississippi.

These books will boost the number of volumes in patients' libraries to nearly 50,000 Eury said. During September, patients in veterans hospitals in the tri-state area checked out 10,140 books and showed a strong preference for fiction, or 'escape' reading.

One book-loving veteran at the Legion, Texas, hospital set some kind of record, reading 1,500 books during his two-year stay at the tubercular hospital.

Approximately 8,100 children in Texas, Louisiana and Mississippi, whose fathers died as a result of World War II service, are receiving monthly compensation benefits, VA reported this week. Throughout the country, about 90,000 children are receiving these.

GI Question And Answer Department

Q. Does the veteran's right to obtain government guaranty or insurance on loans continue indefinitely?

A. No, but guaranty or insurance may be had when obtaining a loan if within 10 years from the officially declared termination of World War II, so the right will continue for a long time.

Q. What will happen if loan payments are not made?

A. That will depend upon the terms of the loan, the attitude of the lender and the laws of the State where the veteran and security are located. If payments are not made when due the loan is in default and the lender may take such action as is provided in the loan agreement and is permitted by the State Law and by the regulations for guaranty and insurance of loans.

Q. Are there any charges for guaranteeing or insuring loans?

A. No, and commission, brokerage or similar charges may not legally be made against the veteran for securing a guaranteed or insured loan. Of course, customary out-of-pocket fees usually borne by borrower, such as appraisal, title examination fees and other costs and expenses incident thereto may be charged against the veteran by the lender.

Q. Are there any circumstances under which the guaranty may exceed 50 per cent of the loan?

A. Yes. Where a Federal Agency has made, guaranteed or insured, or is to make, guarantee or insure a loan for any of the eligible purposes and the veteran needs a second loan to complete the purchase price, the second loan may be fully guaranteed if,

(a) The amount involved is not in excess of the veteran's guaranty.

(b) The loan is not in excess of 20% of the purchase or cost.

Q. May several veterans use the guaranty to acquire property jointly?

A. Yes, but the total amount guaranteed may not exceed 50% of the loan or the total entitlement for guaranty of the veterans, whichever is lesser. No loan may be guaranteed or insured by a Federal Agency.

Mr. and Mrs. Earl Bradley and daughters, Peggy, Ruedell, and Wynona spent the weekend in Amarillo with Mrs. Bradley's father, Mr. W. J. Bradley, who is ill in the hospital there.

The Low Down From Hickory Grove

I been reading where, on a river bank near San Francisco, they dug up 5 skeletons. They are guessin' there around San Francisco that the skeletons are as much as 70 thousand years old—anyway maybe 10 thousand. But a guy farther south—in Los Angeles—he says they are not more than a couple hundred. He says since the bone making up the skulls is so thick; they gotta be skeletons of Native Sons—and the first known Native Son happened only about 200 years ago—or less. But this is just a reflection of the feudin' that has gone on for years—or since the most of Iowa moved to Los Angeles—and I am not gonna get mixed up in same.

But I started essaying on California today because of a fine gentleman I know out there—a gentleman and a scholar I call him—Mr. Isadore Dockweiler. He is a believer in state pride. Lots of states have skookum looking state flags—but fly 'em seldom. Mr. Dockweiler is helping put the California Bear Flag on all the flagpoles alongside Old Glory. There may be feudin' between Los Angeles and San Francisco but pardner, you say one word against California in either place, and you are flirting with an argument. Their old Bear Flag seems to make 'em brothers, under the skin.

States Rights will end in the ash-can, permanent, if states don't break out their colors—and show pride and confidence—and soon.

Yours with the low down,
JO SERRA

Behind the Scenes in American Business

— By Reynolds Knight —

NEW YORK, Oct. 14 — There seems to be one simple answer to the recent drop in the value investors put on American industry: things are fundamentally unsound. Approximately half of the family units in the country have an income of \$2,000 or less a year. Those people, over the years, have come to depend on a smooth running mass production machine for the relatively high standard of living they enjoyed, higher than that of any other nation. During the past year they have seen the steady flow of raw materials to manufacturing plants, thence to retail outlets and to the ultimate consumer interrupted time and again by strikes and government

regulation to the point where the whole economy has been dislocated. This has raised the cost of producing goods to such an extent that a great many people no longer are reluctant to buy; they just cannot afford to. The answer seems as simple as the cause: prices must eventually return to a level where more people can afford more things. That will come about as sales contract. Prosperity will resume when the individual worker improves the quality of his output, when the mass production machine once is running smoothly for the benefit of the whole people.

THINGS TO COME — A shop full of tools in one kit for the home handyman. The kit, which has an electric attachment, can be used for wood working, tool making or any other metal, glass or plastic hobby . . . Secretary's delight: a mail opener which will open 700 letters a minute. It is operated electrically, the automatic drive feeding, stacking and opening the mail . . . For fast figuring, a new IBM machine which will multiply six digit numbers by a similar number and punch 12 digit answers on cards at the rate of 100 a minute . . . A new dinette set which includes two upholstered benches and a built-in electric outlet . . . A liquid "soapless soap" which will be sold in cake form because most people prefer a bar to liquid or powder.

BITS O' BUSINESS — It is a big year for the farmers. The cotton crop will bring an estimated \$2 billion, and wheat price has advanced another 15 cents a bushel in the past month . . . The Bureau of Agricultural Economics predicts that the national income will rise to \$175 billion in 1947, which would be \$10 billion higher than the estimate for 1946. That estimate, however, does not take into consideration a possible slump in business which the stock market seems to be indicating. Even now, many industrial expansion plans are being laid aside because of soaring costs and strikes. Bakers are finding it more difficult to get lard and shortening. Lard stocks are about half what they were a year ago and are not likely to increase until hog slaughter rises.

Casa Grande (Great House) National Monument

At first appearance to the visitor to the State of Arizona, it seems almost impossible that primitive man could possibly exist on the deserts, surrounded as they often were by barren mountains. But man, whether civilized or otherwise, has fallen back to the old saying that "necessity is the mother of invention."

Historians, geologists and others who have studied the early inhabitants of our good land, are often puzzled as to the whys and the wherefores of this and that structure, this irrigation ditch, certain shapes of housing, and other matters, but those who study the matter long enough find that ancient man knew the reason for this, that and the other.

Just so with the Casa Grande near Coolidge, Ariz. There on the burning desert stands a monument that really means something to the Indian tribes who lived there 600 years ago, or awhile before Columbus left Spain seeking out a new and shorter way to east India. Not only do modern scholars believe they know the reason for Casa Grande, but other nearby buildings, as well as evidence of more than 20 miles of irrigation ditches, so layed out that they approach the utility and precision of the ones we now enjoy layed out by modern engineers with all their latest instruments.

Taking into consideration the evidence of modern archeologists, it is believed that the tribe known as Hokokans were the original tribe in the vicinity of Coolidge, but that later the Salado tribe joined them, probably peaceably and with mutual consent. It was probably the latter tribe that constructed the Casa Grande, not as living quarters but as a watch tower. No doubt they had some very savage and depredating neighbors back in the mountains that had to be watched.

It is believed that a Catholic Jesuit priest was about the first white man to see the ruins, back about 1694, but excavations did not start until about 1891, when just the top story was sticking out of the desert sands. Since then, many other excavations have been made, including one by Smithsonian Institute. It was made a National Monument by executive order of the president in 1918.

Here seems to be the idea for the building: A watchtower, and as building material was scarce, a limey rock, we in Terry county call caliche, was found some six feet under the earth, and this was ground and mixed by some process. But as there was neither steel nor wood for bracing, four walls were built to ground level, then three rooms with partitions for the second floor, then two rooms for the 3rd floor, topped with the two walled and one room fourth floor. This was probably occupied by the watchmen.

To keep account of the seasons, on the second floor appears some holes about the size of a two inch auger, opposite each other, and looking through the two, when the sun rose so that it could be seen, indicated the shortest days. On the other side of the room were two that depicted the sun rise

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. POLIO VICTIM KEEPS UP WITH CLASS . . . School bells rang for Bill De Smith, 8, Dayton, Ohio, who didn't let a little thing like a wheel chair keep him from starting his third grade classes. Billy was stricken with polio in May, 1944, and has been unable to leave his wheel chair since. He is taken to and from school by his father. With Billy in school, left to right, Janice Sherwood, Louis Malloy, Bill and Janet Scheve.

about June 22. Thus, they had their seasons divided. Many one story buildings with just the walls surround Casa Grande, probably covered with crude cloth of skins. This is where the people lived.

A long drought of some 23 years duration hit them, ending about 1290, which caused a breaking up of the two tribes, one of which was believed to have gone into the mountains near Gallup, N. M., and the other probably across the line into Old Mexico. To stop further erosion, the government has tied the walls together with heavy steel rods, and erected a huge steel tower over the ruins, with a steel top.

The findings of pottery, etc., as well as some cloths, arrows, arrow heads and bows, and other things like implements used by those ancients, are to be found in the museum nearby, some of which are made of copper, of which Arizona is plentifully supplied.

If you are interested in the first people of our America, and pass that way, don't fail to spend an hour or so at Casa Grande.

Fats And Oils Shortage Serious

College Station — Shortages of fats and oils are now more serious than during the war years and little improvement can be expected, according to B. F. Vance, state director of the Production and Marketing Administration.

Per capita consumption of fats and oils in 1942, for both food and non-food uses, was about 71 pounds. That figure has been dropping gradually since then, with preliminary estimates for 1946 placed at 62 pounds, the lowest since the depression year of 1933.

Loss of imports and low output of domestic oils have caused a decline in food use of fats and oils from 45 pounds per person in 1942 to 39 pounds this year. Non-food uses, especially of fats for soap, have remained fairly constant, declining from about 14 pounds in 1942 to only 11 pounds for 1946, Vance explains. This fig-

ure would be even less, he adds, if Texas housewives had not done such an excellent job of saving used fats. But the job is far from complete, he warns, as a slack in the efforts of housewives in saving fats now will mean even less soap.

The present meat shortage places additional responsibilities on every housewife to do a more conscientious job of saving used fats, the PMA director says. Local butchers are still buying used fats at four cents per pound.

Beaurocracy In Texas

—GWN—

Much has been said and read in the last five years about Beaurocracy and regimentation. We all understand, of course, it alludes to Washington as a criticism of the administration. Be it good or bad, right or wrong, it should be thus, wherever the source or situs. While we bear our eyes at Washington, let's take a squint at our own beloved Texas.

Under State laws every incorporated town has three sets of tax agencies. Three times every year a property owner is requested, by three different assessors, to sign three different assessment papers, each with same wordage, listing identically the same property. Three sets of tax rolls are kept at three different places. Three separate receipts for the same property, three assessors paid to do the same thing. One could do it all. Three tons of scarce paper are used where one would suffice.

The County Clerk recently recorded a deed of trust of a Public Service Corporation on a hundred acres of property in nearly every county in Oklahoma, New Mexico and thirty in Texas, all in one instrument. The Clerk must record it verbatim. One hundred sixty-five pages of county-paid-for records were used to record all of this property, though the legal effect applies only to that in this county. This will be repeated in the other 29 counties. Nearly five thousand pages, costing them as many dollars for recording. Each tract in each county and State is recorded thirty times in Texas. Each county's separate part would take about five pages and dollars. How foolish, but this is Private enterprise and Texas laws.

A Constable's annual report, as all county officers, takes six pages with more printing and figures than an income tax return. Must be made in triplicate, one sent to Austin, though the State has no fiduciary connection with a Constable.

We the people have razed the little red school house in the country, regimented the schools in the larger towns. State laws have repealed the chattel mortgage on automobiles, and regimented the title in an appointed bureau at Austin. Same as to drivers' licenses, refund on farmers' tractor gas tax. Mail 'em in and mail 'em back. Commissioners Courts go to Austin to get our highways built by an appointed board. Fire insurance rates and conditions of policies are fixed by an appointed beaurocrat at Austin, paid out of State funds. In writing a policy, local agents send report direct to him. All the company does is draw the premiums. This State beaurocrat recently issued a "directive" for a \$100.00 deductible clause on fire insurance on buildings.

One cannot drill or plug an oil well without a permit. State board dictates how much each well and each field may produce; nor engage in any profession and most trades, business or occupations without a license from the State. You dare not go a huntin' to get a baby buntin', through fear of arrest. Nor build anything, not even move an outdoor toilet, without permit.

Attorneys have to pay annual dues to the State Bar, or have their license cancelled. Clerk of the Supreme Court is the collector. But if labor unions withhold dues—Oh My! The State has a ceiling on School Teacher salaries.

The State Forest Service has 75 patrolmen, costing over \$200,000 annually. The old age pension department has 135 field workers and a dozen "area" superintendents, costing over \$300,000. A State cotton research committee costs \$105,000. The Agriculture department has a moth inspector, fruit fly inspectors, citrus canker inspectors, floral inspector, and a plant pathologist, besides numerous "investigators." The Auditor has an "efficiency expert." Motor fuels division of the Comptroller's department alone has eighty investigators. All told literally hundreds of assistants, ex-

erts, many with salaries over \$5,000.00, stenos, clerks, inspectors, etc., go and come from our States own hive. Most of all this, started under or lived through the administration of the saintly W. Leo, and the astute Coke. Why gag at Washington and swallow Austin. We better sweep before our own doors.

Next week, we will show in detail where your State money goes.

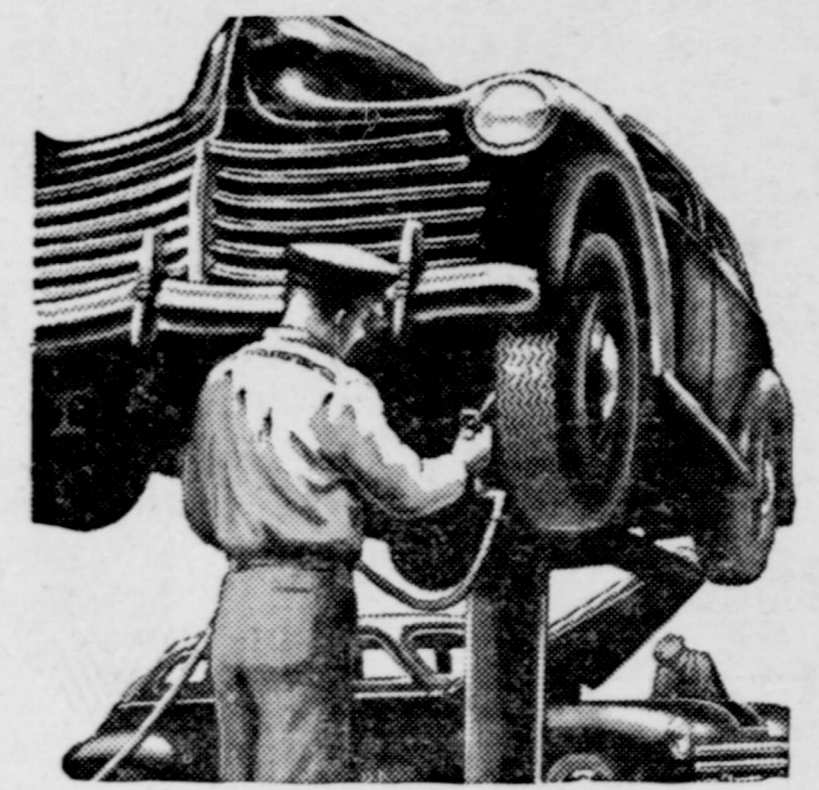

SANTA FE SYSTEM CARLOADINGS

Santa Fe System carloadings for week ending October 12, 1946, were 26,474 compared with 24,199 for same week in 1945. Cars received from connections totaled 13,730 compared with 11,585 for same week in 1945. Total cars moved were 40,204 compared with 35,784 for same week in 1945.

Mrs. Ed Crossland and son, Don spent Monday in Littlefield visiting Mr. and Mrs. Bill Ashenbeck.

Mr. and Mrs. Bunk Proctor and baby son, Douglas, of Carlsbad, were weekend guests of Mrs. Osie Proctor.

Santa Fe handled a total of 38,654 cars in preceding week of this year.
