

Mahon Trying To Get Water Report

Last week in the Herald there was a statement from Congressman Mahon in which he states that he is endeavoring to get a U S Geological Survey made of the underground water supply of the Plains, which has been under discussion so much pro and con of late.

Anyway, Mahon says that man by the name of William Wrather, who has already made some surveys of the water situation on the plains, states that our water falls here, and does not come in from some other section, perhaps the Rocky Mountains.

OK, we feel sure that Mr. Wrather knows more about that before breakfast than we know all day, but we would like for him and others taking the same position, to explain why we have wells here that pump 1000 or more gallons per minute, with an average of 18 inch rainfall per year. And on the other hand, back in east Texas and some of the old states, where they have an average of 45 to 60 inches per year, their underground supply will hardly answer for household needs?

The Herald awaits Mr. Wrather's explanation, and it better be good.

Report on Vital Local Statistics For 1946

Births and deaths (1945 and 1946) in Terry County as reported by the South Plains Health Unit.

Total Births: 1945, 343; 1946, 397.
Total deaths: 1945, 105; 1946, 81
More than 3 births to each death in 1945. Almost 5 births to each death in 1946.

The five highest cause of death in 1945:

Heart disease 18, Premature birth 10, Cancer 8, Brain hemorrhage 5, Accidents 5.

In 1946:

Heart disease 20, Accidents 11, Cancer 8, Still birth 4, and Pneumonia 4.

Heart diseases and cancer are still predominating as to the highest cause of death in Terry county.

It is urged that an early physical examination be made of an obscure ailment that may be present, as the early detection of a defect will afford a more adequate treatment in prolonging

Likes The Herald, But Sometimes Disagrees

Had a letter and remittance for another year of the Herald going to the Travis Bynums at Marin City, Calif. Mrs. B. writes that they sure do enjoy the old home town paper, including the editorials, but sometimes disagree with us, especially on unions. Well if everyone saw alike they'd wanted to marry Sallie, so the story goes.

Anyway, we are sometimes misunderstood in our attitude toward unions. We have always tried to make it clear that unions have their rights, including collective bargaining and to even strike and peacefully picket, if they wish. But, we no more think unions have a right to break a contract than their employers.

And there are some bad features about workmen who do not even belong to unions. Some of them we would not like to have any dealings with, and this includes some employers we have known.

Contract Let For North Side Roads

Contract was let last week, by the State Highway Department for construction and paving of the road from Needmore schoolhouse, west and north to near Sundown and from Meadow east to County line, a total of 19 miles. The bid of \$118,000.00 by Earnest Lloyd Construction Company of Fort Worth was accepted. The surveys has been completed, and actual work to begin in three weeks. It is expected to be finished during the summer and be ready for use by crop harvesting time this fall.

Johnny Catron And Vets To Play At Legion Hall

Johnny Catron who brings his orchestra to Brownfield on Thursday February 6, is the boy who just wouldn't quit. His fight—uphill all the way—has resulted in success. He beat his own tortured, agonized despair—fought his way into an optimistic, determined mental spirit—tackled his service inflicted disability—and came out on top with a permanent grin infectious smile, and an inspiring leadership borne of new found abilities.

Not satisfied with winning his own personal battles, Johnny has

given a moral uplift and a new spirit to many of his comrades—and is showing the way to all.

In appreciation of his remarkable victory, the Beverly Hills Post No. 253 of the American Legion is sponsoring his splendid Orchestra. They knew what he stands for and what his success means to other disabled veterans. They offered material help, money, instruments, music, equipment, uniforms—but he would accept no financial nor material aid. He was going to form his band strictly on his own—and present it to the public on its' merits alone. He did it the hard way.

Disabled veterans get first preference, provided they are good enough musically to meet his strict requirements. Having played in America's best bands, he knew what he wanted—and he has succeeded in forming one of the very best bands in the business—just how good this band really is will be proved to local music and dance patrons during Johnny's appearance here.

The Johnny Catron Orchestra will make its local appearance at the American Legion Hall Thursday night, February 6, from 8 to 11. Those desiring table reservations may contact Troy Noel or J. B. Huckabee. Admission is \$3.60, couple or stag, including tax.

Attend Wedding Celebrations At Roby

Mr. and Mrs. H. M. Brock and Mrs. Wayland Parker of this city and Mr. and Mrs. L. L. Brock of Roy, N. M., and Mr. and Mrs. I. O. Brock of Silver City, N. M. attended the Golden Wedding celebration of Mr. and Mrs. R. M. Hollabaugh, at Roby, Sunday.

L. L. Brock stated this week that Mrs. Hollabaugh was the sister of the Brock boys, and he could just remember when she and husband married. He came to see his sister on a pacing mule. L. L. was then just large enough to deal his sister a lot of kid tricks that were very embarrassing.

L. L. returned this week to the ranch at Roby, but Mrs. Brock will visit the children here longer.

Holy Cow-- Bowman's Plate Glass Arrives

Well, it was a long, long wait, but we guess it will be the more appreciated. The plate glass for the front and show rooms of the new Bowman Motor Co., agents for Oldsmobiles, has finally arrived, and has been put in place. As luck would have it, the repair section has been available to workmen for some time, and like other agencies, while they have received very few new cars, their workmen have done a jam up good job keeping the old cars on the road.

West Broadway Developing Fast

One has to make frequent visits to West Broadway to keep on touch with developments there. And we mean specifically that portion of it laying on the south side of block seven. Wednesday was a pretty day and we made it.

Logan Redford and Sammy Teague now occupy the corner at Broadway and 7th, and as both handle Walter Chrysler cars there is no mixup in their business, and both these ex-servicemen have access to a well arranged and equipped shop. They expect to be getting more cars soon. Logan handles Dodge and Plymouths, and Sammy, the De Soto, and all dealers handle the Plymouth, we understand.

Terry Redford is now well established just a bit further or with his Kaiser-Frazier agency. Not many cars coming in now Terry reports, but expects more later on in the year. He has a well equipped workshop, and is getting plenty parts, although they are not greatly needed now, as both these cars are new on the market.

On the corner Broadway and Eighth, C. E. Ross is now located with his Pontiac agency, as well as farm machinery. He is rather crowded just now, but a new building back to the alley just east of his work shop and display room, will take care of his farm machinery business as soon as the building is completed.

A Patient Old Pioneer Is Gone

Her death coming as it did right at press time of the week, we did not say very much about Mrs. L. C. Wines, who has lived among us and benefitted all who knew her through the many years she has lived here.

But one of the greatest traits of this fine lady, was that she lay an almost helpless invalid for five long years without a murmur of resentment. She was always cheerful though in great pain some of the time.

On several occasions we have visited her, and invariably a bright smile lit up her pleasant face. She was always glad to see her friends. And right here let us add that many times we do not exert the effort we should in visiting those who cannot visit us.

The world is a better place that Mrs. Wines lived in it, and we feel that heaven welcomed this weary, worn traveler.

Shoe Shop Undergoes Extensive Remodeling

The Loyd Shoe Shop was closed the first of last week, and was being given a real remodeling, which will be a great help not alone to the workmen, but for the convenience and comfort of their customers.

All the machinery is being partitioned off in the rear, which will eliminate noise and dust created by the machinery. And at the same time give them a much neater place in the front for display of their varied leather stock.

Congratulations to Marshall Loyd and his efficient personnel

New Readers Still Coming In Nicely

Since our report last week, we are glad to report the following new readers added to our list:

T. A. Wartes, R. L. Burnett, Mrs. Oliver Wheat, C. P. Griffith, Thad Rinsinger and Virgil Crawford, city and routes.

The following are renewals: Lee O. Allen, 2 years, A. W. Fore, J. J. Whitley, Mrs. W. H. Hill and R. H. Crocker, city and routes. Clyde Dallas, Los Angeles; L. L. Brock, Roy, N. M., Gene Johnson, Ajo, Ariz.; Travis Bynum, Marin City, Calif.

A Clinic For Crippled Children Feb. 8

On Saturday, February 8th a Clinic for crippled children will be held at the Plainview Sanitarium and Clinic.

Dr. Sim Driver and Dr. Eugene P. Legg of Dallas was formerly of the Carroll-Driver Clinic in Dallas, and is reputed to be one of the most prominent orthopaedic surgeons in the State. He is a Professor at Southwestern Medical Foundation, and is Chief of the Orthopaedic Division of Baylor hospital. Dr. Legg, also a staff member at Southwestern Medical Foundation is associated with Dr. Driver there. Both of these men have been designated to carry on follow-up work as it relates to orthopaedic care of Polio patients at the West Texas center at Plainview.

The Clinic is not intended solely for Polio patients, but is intended for anyone who may have problems of an orthopaedic nature. It is suggested that those wishing to take advantage of the opportunity should write to Mr. Edmund R. Mattos, Superintendent at the Plainview Sanitarium, in order that an appointment may be made.

We hope that it will be possible for everyone to be cared for on Feb. 8, but should appointments be of such volume as to make it impossible for all to be seen Sunday, February 9 may also be designated for this work.

Congratulations To:

Mr. and Mrs. W. A. Freeman, of Loop on birth of a son Jan. 16 weighing 7 lbs. and 7 ozs. The baby is named Jimmie Dalton.

Mr. and Mrs. Jake Gore on birth of a son Jan 16 in the Rogers hospital in Decatur. The baby weighed 8 lbs and is named Herbert Lee.

Mr. and Mrs. C. W. Freeman of Rt. 2 on birth of a daughter Jan 17 weighing 5 pounds and 4 ozs. The baby is named Patricia Eileen.

Mr. and Mrs. T. C. William, Jr. on birth of a son Jan. 18 weighing 7 pounds and 9 ounces. The baby is named Thomas Coleman III.

Mr. and Mrs. J. E. Hall on birth of a daughter Jan 19 weighing 7 pounds and 1 ounce. The baby is named Mary Lee.

Mr. and Mrs. Walter Morris on birth of a daughter Jan 21 weighing 7 pounds and 9 ounces.

Radio Story Brought Our Doctor To Mind

One night last week we heard a story over the radio, perhaps others heard it, of an old doctor, no names or dates being called. But the old family physician in the story, went through those trying days of 1918-19 when real influenza in its worst epidemic form scourged our land. The old physician, so the story went, sometimes went for a week to ten days without laying down in a bed.

No doubt there were many old family physicians, for that was really what they were then, to help combat the plague, and they were successful too. With name and place used in the story, it would have been a dead ringer for the late Dr. T. L. Treadaway Sr., during the same epidemic. With a huge territory here to cover at that time, all of Terry and Yoakum, and parts of Hockley and Gaines, our remembrance was that he lost only two patients. One of them had a heart complication and the other was in child birth.

We shall never forget the entire night he spent at our home on Sunday the 14th of January, 1919. Mrs. S. had taken the flu that afternoon. Sallie T. was born just before midnight. We tried to get Dr. Treadaway to lay down in a bed in another room with Jack Jr., then about 5 years of age. No, said the doctor, he is liable to come down with the flu at any moment, and I must stay up. He dozed in a chair by the coal stove, at times. He remarked that he had not lay down in a bed in eight days at that time.

Sure enough, Jack Jr. came down with it by 9 the next day, and the Old He followed suit at about 11. There we were all with flu and a few hours old baby. Those were trying days. But they could have been worse with a less faithful old family physician. Such men were truly a blessing to their community.

And while you are about it, why not visit Tommy Zorns at the city hall and Elmer Brownlee in the Odd Fellow building and pay your city and school taxes. The city needs every dollar due it and our school needs more than they will ever be able to get, perhaps.

Marshall Takes A Flier To Austin

R. M. Kendrick, who came to this country in a covered wagon desiring to go to Austin, to help Beauford crank up the old ship of state, was inveigled by his folks early last week to go to Lubbock where they put a blind bridle on him and backed him into an airplane. He noticed the take off but as the plane levelled off, he hardly got good seated, rolled a couple of Bull Durhams, and ventured a peep out at the passing landscape when he was let down in Austin. Hardly had he recovered some missing breaths till he was whisked in an elevator in high gear up to the tenth floor of a hotel, after which being near night anyway, he hit the hay without further persuasion. The next day, he came back to his old tricks again, though he could not see the crowd for the people, witnessed the inauguration and huge parade.

While there he attended the meeting of the State Democratic Executive Committee, of which he is a member and in a few days, being satisfied that both the party and state will now get along, he returned by the same mode of travel. Mrs. Kendrick chaperoned him on the round trip.

MARCH OF DIMES drive is coming along nicely, workers report, but as the windup came after press time, we decided to make a full report next week.

Citizens Are Urged To Pay Their Taxes

Before you can pay your property taxes, you will also have to haul out \$1.75 for a poll tax for yourself and wife, providing she and you are 21 years of age or not more than 60. You may think there will not be many interesting and crucial elections this year, but you could be mistaken. We have seen people in the last several years who openly stated they would not begrudge \$10 if they had paid their poll tax.

One such election is coming up next Tuesday, and while only property taxpaying citizens can vote in it, it will mean much to Brownfield and its future growth. Our sincere advise is that if you are not in shape right now financially to take care of your property tax, do pay your poll tax and be prepared to vote next Tuesday.

The time has come when and if Brownfield is to continue its growth and development, we must provide the newcomers with all the lights and power they wish. And let us not kid ourselves that they will not come, or that the peak loads with the present power arrangements will not have to be met and soon. By the time we get the new engine, it will not be a minute too soon, and in the meantime lets hit wood with our knuckles and hope that it will not be too late.

So, as you read this weak effort of a well wisher of our community, go right over to Herbert Chesshir's office at the court house and tell him how many poll taxes you are paying. He'll do his part and gladly, or assign the job to one of his smiling, efficient helpers.

And while you are about it, why not visit Tommy Zorns at the city hall and Elmer Brownlee in the Odd Fellow building and pay your city and school taxes. The city needs every dollar due it and our school needs more than they will ever be able to get, perhaps.

Post Office Receives A Face Lifting

Workmen have been busy with the hammer and saw, paint brushes and other implements in touching up the post office building, both exterior and interior the past week or so, and they are doing a fine job. Some of us less polished individuals have been letting on that someone or something over there had BO. But the odor is paint and polish and not profuse perspiration.

All the doors and windows needing it, were repaired, and the whole building in and outside painted, and all the mail boxes, which are metal, were polished and shine like new money. The building had been a bit neglected during the war, when materials and men to do the work was at a premium.

Now, Postmaster Dallas and his crew can, when paint odors get a bit fainter, thoroughly enjoy their quarters. And it looks better to those who have business at the Post office building.

Yep, We Still Have Sand Storms, That Is

Wednesday, the old timers hereabout scratched their heads to remember some date back in the dim past in which a duster of the intensity of the one that raged all day, could be compared favorably.

Anyway, it was a howling success, and that's no joke, son. It moved everything that was not nailed down, and some things that was. Our real estate moved on down to Lamesa and in turn we will cultivate land that was at home in Cochran county last year.

And while we are about the matter, we have had several pretty nice little sandies of late.

Texas Press Urged To Stress Highway Murders

Mr. Editor: There were 2,000 murders on Texas streets and highways in 1946. 60,000 other injured persons might have been killed. The economic cost to Texas—100 million dollars!

News? Hell yes, it's news! It's the biggest murder trial in the history of Texas. And the local news coverage in each community should tell what is being done to solve it!

What are your district, county and city attorneys doing to prosecute the trial? Is your county convicting drunk drivers? . . . is it reporting to the Texas Department of Public Safety, as required by law, drunk driving convictions so that driver licenses can be revoked? More than one-third of the counties are not! Why?

What kind of a job is your traffic court doing? These are major courts in that they are the only courts visited by a majority of the people who form their conception of American justice from them. Is the Traffic Bureau of the court merely a revenue producing device or an effective arm of the court?

What is the traffic enforcement index of your police department? Is there any "ticket-fixing"? Do the city fathers render only lip service to traffic control or are they doing something constructive about it? How about pedestrian enforcement? . . . traffic engineering?

What is the ratio of traffic enforcement to criminal work in your Texas Highway Patrol district? . . . in the Sheriff's department?

From the state angle—what is the stand of your legislators on the six-point traffic safety legislative program of the Texas Safety Association and 58 state-wide groups? It's passage is essential to murder-control!

Brother, it's a story worthy of your best reporter! It's the story of 1947!

Gratefully, Yours
George Clarke, Managing Director.

Herald To Sponsor Local Contest

The Herald has been asked to sponsor a contest for the Tom Brennenman show, "Breakfast in Hollywood" to be held at the Legion Hall Feb. 28 from 7:30 to 9:30 p. m. The show is being sponsored by the First Christian church of Brownfield and admission will be \$1.00 per person.

The contest is for the purpose of selecting the happiest couple in Brownfield. If you know a married couple, or several couples who seem to be unusually happy, you may enter the contest by sending their names and addresses, together with five reasons for each couple entered, why you think they are the happiest couple. Be sure and give five specific reasons why you think they are the happiest couple. Your entries will be judged by the City Hall force, including Mayor Frank Jordan, Fire Chief Eunice Jones, and City Secy., Tommy Zorns. Do not mail your letters to any one certain judge but to Happiest Couple, City Hall, box 31, City.

If your entrant wins, the couple will receive nice gifts, donated by the local firms and you will also receive a gift. Be on hand to see who will win. Do not delay, send yours today. All letters must be in by Feb. 26.

Mayor Frank Jordan will act as Tom Brennenman, master of ceremonies, Jeff Farley will play the part of "Uncle Corny" and Mike McCord will be Bobbie Filipino. The announcer, John Nelson will be enacted by John Butler.

Don't miss the fun, remember the date, Friday, February 28.

Press reports come to us that Lamar Fleming, Jr., Houston, and president of Anderson-Clayton Co., has been appointed as Texas leader of United Service to China drive. There will be many people in Texas and throughout the USA, who have heretofore donated liberally to this fund, who will likely turn a deaf ear to the proposition, despite the fact that there are probably a lot of poor and deserving Chinese who register a lift from all of us. But it seems that every time those yellow mugs get their stomachs full of food from America, and a bit of education via American schools in China, they get cocky and insultingly ask all Americans to leave, as "they don't want us there." However, some reports are drifting in from officials of the China area that tell us that these insults are instigated and carried out at the behest of Communists, either Chinese or other nationals, to try to embarrass American military and civil authorities. Whoever, or whatever they are they show little manners or appreciation for the many things Americans have done for them down through the ages.

The Donley County News, Clarendon, asks us and other readers a very fair question: "Do you know whether or not the country would be better off with more people looking for jobs or merely looking for unemployment compensation?" First off, Mr. Estlack we would say without equivocation, whatever that means, that we are in favor of more job seek-

ers. Then we happened to remember that there must be a lot of people ready at all times to man the picket lines.

There has been a lot of news and pictures of late, showing this and that one talking via telephones, using high tension electric lines, rural and otherwise as the circuit. Personally, we are going to be one of the last to try the stunt, as we don't fancy having our good ear boxed with a 23,000 volt of electricity. Like the Marines, the electricians may have everything under control, but we are still satisfied to use ordinary telephone wires for our little conversations.

And now along with the alarms coming that we are to be destroyed lock, stock and barrel by atomic bombs in the not too dizzy future, from some place around the Arctic circle, right on the heels of that one comes another that we are short one million tons of sugar for this year and if controls are lifted, the stuff will spurt up to 40c per lb. as per following War I. Why can't the alarmers let us rest? We hope we spelt Arctic right, Editor Hill.

And we had another rather alarming letter from a gentleman up at little old New York, who poses as Information Director of Fat Salvage. After crying on our shoulder about the great falling off of fat or grease collection, the gentleman rather hints that we might spot him with the reason. So, not averse to being neighborly, and helping someone out of a tight we might hand Mr. Info this much. A year or so ago, the Fat Salvage outfit saw proper to run a bit of advertising in the weekly press, and they really went to town, according to Mr. Info's own words. But the big boys who run things saw fit to cut the rural press; give its advertising to big city dailies, mags, soap operas, and what have you. Well, the weekly press just tossed all the propaganda they sent out into a large and convenient waste basket. And these papers now ask: Did you fat salvage folks ever collect very much fat in the big cities? And since the soap opera comedians usually follow a long palaver on how they think rural people talk, with a plea to these same ruralists to "bring in the grease," it falls on deaf ears. We hope we have made ourselves clear. We read a lot of rural exchanges, and we know what we are talking about.

of his mother the past week. His mother, while up in years, had been active until lately, and like her husband and two sons, the late Nyles Morris of Tatum, N. Texas American Legion as an organization, has joined with Texas Safety Association, to urge all Texas editors to stress and condemn the mounting deaths and accidents on our highways, by careless, indifferent or drunken drivers. It doesn't appear that this condition needs any stressing. Frankly, it looks to us like people would have gumption enough to be careful without incessant preaching. But they just don't. Not many days ago, the writer started to cross Broadway at Sixth when a huge truck loaded with dirt whizzed by at 60 miles per hour. Had a small child darted out from behind a parked car, in front of that fast moving, heavily loaded truck, it would have been just too bad.

Texas Historical Assn. Sponsoring Contest

AUSTIN, Jan. 13—The Texas State Historical Association has announced a first prize of \$100.00 for the winner of the 1946-1947 Junior Historian Writing Contest. Eighteen papers will receive awards totaling \$345.00.

Contest entries may deal with any topic in Texas history, but contestants are urged to work on some subject related to their community or local history. Some suggestions for topics are:

Cattle, trails, saddles, Indian depredations, transportation, natural history, exploration, oil, economic political, or biographical subjects.

"Any boy or girl in Texas under twenty one years of age may become eligible for competition," stated H. Bailey Carroll, Editor of the Junior Historian, the magazine of the Association which is written almost exclusively by young Texans.

April 1, 1947, is announced as the closing date of the contest. All interested are invited to write for further information to the Junior Historian, Box 2131, University Station, Austin 12, Texas.

Liquor Dealers Should Care for Alcoholics

Representative F. Edward Herbert of Louisiana has proposed a law which will impose a tax on liquor dealers for the specific purpose of financing the relief and rehabilitation of alcoholics.

The plan proposed calls for a one to three per cent tax on gross liquor sales and applies to the District of Columbia.

The proposal is eminently wise and just. Alcoholics are suffering from chronic sickness induced by the long continued use of alcoholic beverages. Their condition is due largely in part to the accessibility of alcohol and the promotion of its use by display, advertising and all of the devices available to other business enterprises which are helpful rather than harmful to the community. The Government derives a revenue from the sale for beverage purposes of the drug responsible for their sad condition.

It is illogical, cruel and futile to treat these poor unfortunates as criminals. They should be given compulsory aid sufficiently protracted to result in probable cure and the expense of this treatment should be borne by the traffic responsible for their condition.

Mr. Herbert's proposed legislation, however, does not go far enough. The liquor traffic should be specifically taxed for the dependents of those committed for treatment of alcoholism. These dependents have been deprived of support by the liquor traffic, which has recently been recording almost unprecedented profits. They have a legitimate claim upon the traffic for relief.—Ex.

What Sin Causes Most Sadness in Brownfield

"What sin causes the most sadness in Brownfield?" If you can answer this question correctly and get your answer first to Dr. P. C. McCord, minister of the First Christian church, Ballard and Hill streets, you will receive a beautiful white Bible at the service Sunday night, February 2, 7:30 o'clock when Dr. McCord will answer this question in a unique sermon.

His message, "The Most Horrible Sins," will be the first in a series of special messages that are to be given by the minister in a ten weeks pre-Easter Crusade from February 2nd to April 6th. Many answers have already been submitted, such as: war, murder, adultery, divorce, lying, stealing, dishonesty, unbelief in the Holy Ghost, rejecting Christ, hatred, etc., but Dr. McCord stated that no one has yet turned in the correct answer. There is plenty of time for all to send in answers but do so now and be the first to present the correct answer and be the recipient of the lovely Bible. Send answers to 716 East Hill St.

The First Christian Church extends a cordial invitation and assures a Christian welcome to all who will come and hear the minister, Dr. McCord, in this series of unusual but Biblical sermons. The kind of service in the kind of church you will enjoy to attend with your family or friends.

TO: William G. Tubbs

GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 10 day of March, A. D., 1947, at or before 10 o'clock A. M., before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said plaintiff's petition was filed on the 21 day of January, 1947. The file number of said suit being No. 3298.

The names of the parties in said suit are:

Pearl Tubbs, as plaintiff, and William G. Tubbs, as defendant

The nature of said suit being substantially as follows, to-wit:

Plaintiff alleges 12 months residence in the State, and six months residence in the County of Terry, of the State of Texas. Plaintiff alleges abuses, cruel treatment, incompatibility, a grounds for divorce.

Issued this 21, day of January, 1947.

Given under by hand and seal of said Court at office in Brownfield, Texas, this 21 day of January, A. D., 1947.

Eldora A. White, Clerk, District Court, Terry County, Texas. (seal) 29c

Cottonseed Production Up, Receipts Fall

Cottonseed crushed in Texas during November rose to 122,861 tons, an increase of 19 per cent, while cottonseed received at the mills fell 38 per cent, leaving stocks at the end of the month 3 per cent less than October, according to Bureau of the Census figures analyzed by The University of Texas Bureau of Business Research.

Activity in cottonseed production declined from November of 1945. Cottonseed received that the mills showed a 35 per cent loss; cottonseed crushed fell off 4 per cent; and stocks at the end of the month reflected a 13 per cent decrease.

The recent great hotel tragedy in Atlanta, Ga., should cause authorities in Texas to look around to see that we don't have any 10 or 15 story hotels without fire escapes. Proper safety measures taken now will prevent such disasters.

Mrs. R. P. Moreland, of Plains was in town Tuesday shopping.

1947 is a PIGGLY WIGGLY year!

JAN. FEB. MAR. APR. MAY JUNE JULY AUG. SEPT. OCT. NOV. DEC.

GI Question And Answer Department

Q. Since my discharge from the armed services, I find that I am suffering from a chronic ailment. Am I entitled to anything in the way of compensation or pension because of my disability?

A. Chronic disease causing 10 per cent or more disability within one year from separation from active military service is presumed to have been incurred in, or aggravated by military service. Your service must have been for a period of 90 days or more, part of which was war time service. However, a finding of service con-

nection may be rebutted by evidence showing previous existence of presence of a new ailment which affects the chronic disease.

Q. I was wounded in action in World War I and have a service connected disability. Can Veterans Administration change my rating from service-connected 20 per cent to nonservice connected total disability at age 65?

A. A World War I veterans receiving compensation for partial disability due to disease or injury incurred in service who's rated permanently and totally disabled for pension purposes, is awarded the greater monetary benefit, if his claim is otherwise appropriate. If the service-connected disability

subsequently becomes even more disabling and represents an additional benefit, the payments can be made on that basis.

Q. I have two dependent children. I am a World War I veteran and would like to know if I can get a nonservice-connected pension?

A. If you believe you are permanently and totally disabled you should communicate with the Veterans Administration regional office having jurisdiction over your address and forward to that office VA form 8-526b, together with evidence of your condition.

Q. My son was killed in World War II. He had designated his two sisters as beneficiaries of his G. I. insurance. One of the sisters passed away recently and I would like to know if I have any rights to her insurance benefits?

A. If his sisters were jointly designated beneficiaries or if each sister was specifically designated contingent beneficiary of the other, then upon the death of one sister the other sister would get the share of the one who died. However, if the designation is not jointly or each sister was not designated contingent beneficiary of the other, then upon the death of one of the sisters the remaining installments would be paid according to law, National Service Life Insurance Act of 1940, and you may have some rights.

Brownie Hamilton Back In Roofing Business At Lubbock

C. H. (Brownie) Hamilton, well known in South Plains building circles, recently opened the Hamilton Roofing company at 2430 Avenue H in Lubbock after a year's retirement from the roofing business.

Mr. Hamilton came from Fort Worth to Lubbock in 1932 as manager of the Lydick-Hamilton company, a position which he held for six years. In 1938 he purchased the Lydick-Hamilton Roofing company, later selling it in 1945.

The Hamilton Roofing company is equipped to do all types of roofing, siding, sheet metal work, heating, venting and air-conditioning.

Kendrick Appointed Chairman of R. O. A.

The Brownfield Chapter of the Reserve Officers Association met Monday night, Jan. 27 at which time John Kendrick was appointed temporary chairman of the organization committee.

A nomination committee was appointed to nominate candidates for the offices of president, vice-president, and secretary and treasurer, to be elected at the next meeting which will be held in the lounge of the Legion hall, Tuesday, February 4th.

All reserve officers in all branches of the armed services are urged to attend.

Dyar Oakley, Ethelda Edwards and Becky were in Seminole on business Friday.

NO RAISE IN CHEVROLET PRICES

Nicholas Dreystadt, general manager of Chevrolet Motor Division, General Motors Corporation, flatly denied today the statement appearing in a Detroit afternoon newspaper that Chevrolet prices are to be increased.

"There is to be no increase in the 1947 model Chevrolets soon to be introduced to the motoring public," Mr. Dreystadt said.

Mrs. Nellie Frahs and Mrs. Irene Wheat attended a meeting of Luziers representatives in Clovis, N. M., Monday. A luncheon and business meeting was held at which time several gave reports on their visit to the Luziers factory in Kansas City. All Star Girls Win In Game At Post

The Brownfield All Star Girls chalked up another victory for themselves Tuesday night, Jan. 28, in a game played at Post.

It was a nip and tuck game from the very beginning to the end, won by a final score of 20 to 18.

High point girl from Brownfield was Colleen Howell with 13 points.

The Brownfield All Star team has lost only one game this season and that was to Wellman. Coaches for the team are Eldon Baggett and Mrs. V. O. Jobe.

On, What to do to Get a Lunch Room. Miss Howell, third grade teacher, took charge of the children and presented an impromptu program which consisted of songs, piano selections, readings, scripture reading and story telling.

Of the 700 men students at Swarthmore college, 475 are returned servicemen.

WELLMAN HD CLUB HAS CALL MEETING

The Wellman H. D. Club had a call meeting in the school cafeteria January 24 at 2 p. m.

The house was called to order in the usual way by our new president, Mrs. Roy Moore.

Roll called and the reading of the minutes by the secretary.

Recreation was singing one verse of America and our "Days of the Week Song."

Discussion: on who was to go for the Demonstrations which were to be given at Brownfield Saturday afternoon.

A report of the County Council meeting was given by council delegate. One of the main features of the meeting was the introduction of the new officers—Mrs. Heafner was the new chairman.

A report was also given on our expenses for the past year and what we have remaining.

A very interesting and helpful demonstration was given by Mrs. Moore and Mrs. Gibbs Phillips on rug and sequin making.

Our next regular meeting will be February 7 on home cleaning. I'm sure this will be helpful, will you be with us? We were proud of the four visitors we had with us Friday. Come back and join our club.

NOTICE FOR COUNTY DEPOSITORY

Notice is hereby given that the Commissioners' Court of Terry County will enter into a contract with a bank for the deposit of county funds for the years of 1947 and 1948. Applications from banks desiring to be designated as county depository will be received until 10:00 a. m. February 24, 1947. Such applications shall state the amount of paid up capital stock and permanent surplus of said bank, and a statement showing the financial condition of said bank at date of application which will be delivered to the county judge on or before above date. Such application shall also be accompanied by a certified check for not less than one-half of one per cent of the county's revenue for the year 1946, and agree to enter into bond as required by law if selected as county depository.

HOT WHOLE CEREALS IMPORTANT TO DIET

Hot whole grain cereals are important in the diet, not only because they are appetizing on frosty mornings, but also because they provide an economical method of getting additional proteins and minerals into the daily fare.

Miss Margaret W. Weeks, dean of Home Economics at Texas Technological College, points out that cereals are an easy means of including additional milk in the diet. She emphasized that consumers should check cereal labels and make sure they are buying whole grain cereals, to insure obtaining valuable minerals.

Mrs. Orb Stice and daughter, Barbara took Mrs. E. L. Sturges and children, Lynn and Richard to Lubbock where they entrained for Hamilton, Ohio. Mr. Sturges has been there for the past several months.

Redistricting

With Texas less than half a decade away from another decennial census, legislative redistricting as required by the State Constitution should be high on the calendar for action by the Fiftieth Legislature convening Tuesday. The state was last redistricted in 1921 on the basis of the 1920 census. Every Legislature that has met since publication of the federal census of 1930 (the Forty-Second through the Forty-Ninth so far) has been in default of its duty.

The constitutional mandate is unequivocal. Unfortunately it fails in two things: First to provide a penalty for failure to act; second, to furnish an automatic means to correct legislative inertia or unwillingness. Senator George Moffett of Chillicothe proposes a sensible means of remedying the second lapse. He will introduce a constitutional amendment which, if adopted, would place redistricting in the hands of a responsible board of state officials in case the Legislature itself fails to act.

Beauford Jester, who is about to be sworn in as Governor of Texas, endorsed redistricting during his campaign, as did every other major candidate. Most of the men and women who offered for the Legislature said that it ought to be done. It is easy for legislators to render lip service to principle as it can always be pointed out that agreement failed

Chevrolet Has Orders For Million Cars

With more than one million unfilled orders for cars and trucks, a production potential that will increase as new manufacturing units are completed in 1947, and business prospects that permit of "sober optimism" for the new year, Chevrolet rounds out another year of volume leadership in the industry recognized as the nation's pacemaker.

T. H. Keating, general sales manager of this largest division of General Motors, today disclosed that as of Dec. 20, when the last field report was received, Chevrolet dealers hold orders for more than a million vehicles.

in actual attempt. This is in fact true. Every session has had a redistricting bill before it but the Legislature still stands in sixteen years default. Still the safest wager that could be laid in Texas is that the Moffett amendment is adopted, the Legislature will always do its duty in redistricting. Concerning Senators and Representatives will not leave the task to an outside party. It is only when no one else can act that they remain indifferent.

It is doubtful if the validity of Texas laws could be attacked successfully on the grounds that the last seven Legislatures have been elected unconstitutionally. A good case might be made for the contention, but the doctrine of experience would stand in the way of accepting it. It is nevertheless true. For this cogent reason, it is to be hoped that the Fiftieth Legislature can see its way to make up immediately for the long neglect of duty by its predecessors and that it sees eye to eye with Senator Moffett on forestalling similar inaction in the future.—The Dallas Morning News.

Veterans' News

The Veterans Administration has ruled officially that President Truman's recent proclamation ending hostilities has no effect on most laws administered by VA.

Official termination of the war rather than the end of hostilities establishes the deadline for benefits under both the GI Bill (Public 346) and rehabilitation of disabled veterans (Public 16), VA said.

After the official end of the war, VA may guarantee loans up to ten years from that date, start veterans in education or training up to four years, and pay readjustment allowances up to two years.

Disabled veterans training under Public Law 16 face no specific deadline but they must complete their training within nine years after the end of the war.

Nonservice-connected death and disability rights will be accorded only to those who served between December 7, 1941 and the date of the President's Proclamation, December 31, 1946, VA said.

The VA ruling specified that wartime rates of compensation will continue to apply to service-connected disability and death cases for members of the armed forces until official termination of the war.

Automobiles for amputee veterans of World War II, as provided by Congress, are being delivered in the Dallas Branch area at

Livestock Shipments Slowing Up

Texas livestock shipments took a downward turn in November after soaring in October with the removal of OPA control over meat prices, according to figures released by the Bureau of Business Research of The University of Texas.

The total 10,262 cars shipped were 17 per cent below October's 12,388 and were 13 per cent less than shipments in November '45.

Shipments of hogs showed the only increase over October, 62 per cent, and rose 13 per cent over November 1945. Shipments of cattle fell 15 per cent from October.

an increasing rate, VA reported this week.

Dealers delivered 180 cars to veterans during December, compared to 144 in the three previous months. By month-end 324 veterans had received cars costing the government \$509,321.

Disabled veterans already certified eligible for cars included 554 in Texas, 162 in Louisiana and 122 in Mississippi. More than 100 applications are pending.

Under present regulations, the deadline for reinstating lapsed National Service Life Insurance policies without a physical examination is February 1, 1947, VA reminded veterans this week.

Dr. R. B. Parrish, of Hobbs was in town the first of the week. He left Wednesday for a visit in Minnesota.

Mr. and Mrs. J. C. Meeks, of Tokio were in town shopping Monday.

Locker Plant Versus Farm Freezer

Whether to buy a home freezer or rent space in a community food locker—that's a question that many frozen food conscious farm families are trying to decide now.

A good answer to that riddle for an average family of four is a combination of both sides of the question, says Miss Gwendolyn Jones, food preservation specialist of the Texas A. and M. College Extension Service. Combining rented locker space with a small home freezer of about six cubic feet is a solution that ap-

pears to strike a good balance between cost and convenience.

Here's how she has it figured: a six cubic foot home cabinet with separate freezing compartment will provide enough space for freezing and storing those fruits and vegetables that are brought in each day, until they are ready to be taken to the locker. And when the growing season is over, the cabinet furnishes plenty of storage space for a number of packages of each type of frozen food, as well as space for left over and cooked foods. Assuming that such a home freezer would last ten years, and figuring and orchard to the home freezer,

in the purchase price and operating costs, a six cubic foot box will cost the family about \$73 a year to own and operate.

Then, renting three food lockers at \$12.50 each, and using locker plant facilities for handling meat, the total cost per year of both the lockers and the home freezer amounts to about \$155. This plan costs a family only a little over 80 cents a week more than if they depended entirely upon the community food locker, says Miss Jones. And in return they have a good supply of frozen foods at home, and higher quality fruits and vegetables due to faster handling from garden

Engagement And Approaching Marriage
Of Miss Lackey And M. J. Craig, Jr. Revealed

Announcement of the approaching marriage of Miss Billye Lackey, daughter of Mr. and Mrs. C. R. Lackey, 320 East Tate, to M. J. Craig, Jr., son of Mr. and Mrs. M. J. Craig, Sr., 110 East Tate, was made Saturday morning when Mrs. Lackey entertained with a seated coffee.

The couple are to be married February 6.

News of the engagement was in the form of personal letters inscribed on tiny scrolls, attached to corsages of pink and white sweet peas tied with white maline and white satin ribbon.

Local Boy Honored At ACC Football Banquet Recently

O'Dell B. Quante, freshman student in Abilene Christian College and member of the ACC Wildcat football team, was one of those honored at the college's annual football banquet, held recently at a local hotel.

Principal speaker for the affair was Byron Nelson, one of the world's best known golfers. This paper for reason there was sickness in the family, and none attended church Sunday night, Jan. 19th, failed to mention the first sermon preached by O'Dell. He is a ministerial student at ACC and had his desire realized to preach his first sermon in the home town church.

Since that time we have had time to check up, and people who heard the sermon state that it was real interesting and there is a great future for O'Dell as a minister of the gospel. A large crowd was on hand at the Main and Third Street church of Christ to hear him, including members of the church and many of his former school and playmates.

Judge and Mrs. H. R. Winston, spent last week in Austin, where they witnessed the Governor's inauguration, and the Judge also let the Highway department know that Terry county is still on the map and plugged an opposition with our Legislative representatives to the proposed levy of two cents more on gasoline to build lateral roads, in East Texas pointing out we have voted bonds to build ours, and they can do the same, or pull in low gear. He didn't let them forget we want redistricting.

CARD OF THANKS
We wish to thank all those who sent food and floral offerings and performed the many deeds of kindness at the death of our baby daughter and grand daughter. Mr. and Mrs. Roy L. Rinn and children and Mrs. Martha George.

Mr. and Mrs. A. W. Fore are spending the week at Seagraves with their children.

Says Hybrid Corn Yield Much Higher

LUBBOCK, Jan. 23—If the total acreage ordinarily planted in field corn in Texas were seeded exclusively with hybrid seed corn production in the state would jump approximately 10,000,000 bushels next year, according to Dr. A. W. Young, head of the plant industry department at Texas Technological College and chairman of the State Seed and Plant board.

Texas annually grows three to four million acres of corn. During the past year 6471 acres of hybrid corn seed were certified in Texas, enough to plant about one-fifth of the total acreage which will likely be planted in 1947, Dr. Young said.

Urging seed producers to plant more hybrid seed corn, he stated that Texas should produce enough of the seed to plant at least 90 per cent of the state's corn acreage. Hybrid seed corn will produce 20 to 30 per cent more yield on an average than the non-hybrid varieties, he said.

Mr. and Mrs. Clyde Truly and daughters Patsy, and friends from Lubbock plan to spend the weekend in El Paso.

Mr. Sam Lance and wife, from Odessa, moved here last week to become permanent residents. Mr. Lance, formerly with the Dodge Plumbing Co., of that city, will be foreman of the Gunn Brothers Plumbing and Heating company of this city, and supervise all their installations.

Vet Memorial Fund Sought For Tech

LUBBOCK, Jan. 23 —In a move to establish a veterans' memorial loan fund to be made available to children of veterans of World War II who wish to attend Texas Technological College, the Tech War Veterans Association is conducting a campaign for Tech students to contribute books to be sold for the fund.

Priority on loans will be given to children of men killed in the war who need financial aid to attend Tech.

TWVA officials predicted that more than \$60,000 can be raised for the fund by 1960. It is proposed that as much as \$250 per semester will be made available to students at one per cent interest.

Present plans are that the loan fund will be set up as a corporation, observing state laws, and with a bonded board of directors. Money raised immediately will be turned over to a reliable company at interest until it is needed.

TWVA is awaiting approval of the plan by the Tech board of directors before filing application for a state charter, according to Arnold Maeker, commander.

Pellagra Hard To Cure In Advanced Stages

AUSTIN, Jan. 16, — Pellagra, although not a communicable disease, is one of great concern to public health officials in Texas, for many people die of pellagra in this state every year. The disease is caused by the lack of certain essential foods, and as it comes on slowly may not be recognized until the victim begins to have the more serious symptoms such as sore mouth, stomach trouble, and reddening and scaling of the skin.

"When these symptoms appear, the disease, has been present for some time," states Dr. Geo. W. Cox, State Health Officer. "The longer an individual has pellagra the harder it is to cure. It is advisable, therefore, to watch for the early symptoms such as nervousness, indigestion, and burning of the hands and feet, and if these symptoms appear, treatment should be instituted at once. In its advanced stages pellagra may become so severe as to not only cause physical suffering but seriously affect the mind."

Pellagra is not contagious, Dr. Cox pointed out, and he emphasized that it can be prevented entirely by including the right kinds of foods in the daily diet. These essential foods include milk, fresh meat, whole wheat products, brewer's yeast, salmon, as well as tomatoes and other fresh fruits and vegetables. The inclusion of these foods in the daily diet will prevent pellagra, and as in the case of any disease, it is better to prevent it than to try to cure it.

Subsidized Travel By Air Lines

There has been an increasing amount of comment in the newspapers of the country on the cost of building and maintaining airports and their related facilities. The rapid growth of commercial air transportation has made a great many airports and terminals obsolete—and as a result, communities find themselves faced with the prospect of investing enormous sums in tax dollars in new construction.

Much of the newspaper comment has contrasted the airlines with the railroads. If a railroad, for instance, had the temerity to request a town to build it a station, using the money provided by all the taxpayers, it would be laughed out of existence. But that is precisely what communities do for the airlines in the case of airports, administration buildings and terminals.

The Tucson Star made a typical comment when it said, "Surely the time has come when, just as railroads were compelled to stand on their own feet, so should the aviation industry." The Newark Sunday Call said: "As to new airports, it should be seriously considered whether the public has not gone as far as it should go in providing capital for construction and shouldering losses on operation." And the Commercial West, of Minneapolis, observed: "All transportation systems operate for profit, and we can see no reason why any one system should be benefited by subsidies or special treatment."

The financial problem involved in this is a very real one, and it will grow as time wears on and more and larger planes overcrowd our airports. Every owner of taxable property is directly affected. There must be some equitable means of allocating the costs of airports and terminals between commercial and non-commercial users that will spare the taxpayers part of the heavy burden.

Mr. and Mrs. Gene Gunn and Mr. and Mrs. Jack Griggs were Lubbock visitors Sunday.

Arthur Swan, of Abilene was a weekend guest in the home of Mr and Mrs. Tommy Zorns.

TO THE RESIDENT, QUALIFIED, PROPERTY TAXPAYING VOTERS
OF THE CITY OF BROWNFIELD, TEXAS

This is the record of your Light and Power Plant for 1946.

PRESENT ESTIMATED VALUE OF LIGHT PLANT IS \$350,000.00

	Power & Light	Water	Sewer	Taxes	Rate	Valuation
1945	103,906.95	36,233.50	5,524.06	13,330.00	.50	2,666,000.00
1946	112,898.85	46,707.19	6,546.06	15,753.00	.40	3,900,000.00
Gain	8,981.90	10,473.69	1,022.00	2,424.00	-.10	1,234,000.00

In 1946, Light Plant made 3,120,000 K W of electricity.

In 1946, City sold 1,942,000 K W of electricity to consumers for ----- \$112,898.00

In 1946, City used 1,177,000 K W of electricity at a cost of .011 per K W \$12,947.00

(City used this electricity for all purposes, including pumping water wells, street lighting, line losses and etc.)

Cost of operation of Plant, including depreciation of at 5% and retirement of \$15,000.00 Bonds ----- \$60,893.00

Net profit from operation of Light Plant ----- 52,005.00

Cost of electricity for operation of water system, street lights, and other miscellaneous expenses ----- 12,947.00

Actual gain on profit from Plant ----- \$64,952.00

To raise \$64,952.00 by taxation on present valuation of \$3,900,000.00 would necessitate a raise in tax rate of \$1.66 per \$100.00 valuation, plus 0.40 rate now in effect would make your tax rate \$2.06 per \$100.00 valuation; a raise of over 5 times above present tax rate. This would mean to you that if you now pay \$20.00 City Tax, you would then pay \$103.00 per \$5,000.00 valuation. If you now pay \$100.00 City Tax, you would then pay \$515.00 per \$25,000 valuation.

If all money for operation of your Municipal Government comes from tax sources only your property owners pay the cost of operating your City; yet if the major cost of operating your City comes from income from sale of utilities, everyone in your city pays his share of the total cost.

Your Light and Power Plant is now, and has for the past 20 years, paying the major cost of the operation of your Municipal Government. Your town has grown to the extent that the present plant cannot serve all needs. It must be improved. The cost of this needed improvement is estimated by your engineers at \$150,000.00.

On Tuesday, February 4, 1947, you will go to the polls to vote for or against the issuance of \$150,000.00 in Revenue Bonds to make these necessary improvements.

A vote for the issuance of these Revenue Bonds will be a vote for the continued growth and development of your City and a maintenance of your present low tax rate.

PAY YOUR POLL TAX TODAY AND VOTE TUESDAY, FEBRUARY 4 FOR THE ISSUANCE OF THESE REVENUE BONDS.

County Treasurer, Mrs. Jones reported this week that during the year 1946, she had paid out near one thousand dollars in bounties for coyotes, rabbits and ravens.

Rev. and Mrs. Marvin McBrayer, of Denver City visited Mr. and Mrs. L. M. Rogers Friday. Rev. Rogers is pastor of the Denver City Methodist church.

Terrible Crime—Too Drastic Punishment

Two 15 year old negro boys have been sentenced to die today in Mississippi for the recent murder of a business man perpetrated while in the act of robbing him. If these boys had been mature men, the punishment would not seem too severe. But there is something in the breast of most of us that causes us to rebel or protest the death penalty for a mere boy. Furthermore, most of us feel that the death penalty would have not been inflicted if the boys had been white instead of colored. But Governor Wright of Mississippi, after making some kind of investigation of the case, has refused to commute the punishment to life imprisonment. The attorney for the defendants has announced that he will appeal the case to the Supreme Court of the United States. We do not know whether he can show good grounds for a reversal of the case or not, nor does anybody know what the Supreme Court will do with the case if it reaches that tribunal, but most people will probably sympathize with the boys solely on account of their youthfulness. Governor Wright will doubtless be berated by many people for not commuting their sentences. We wish that he had done so. But, it must be remembered that it was a terrible crime which they committed, and in these latter days some of our most hardened criminals are mere boys. Some of these are emboldened to commit atrocious crimes by the feeling that the courts will be lenient with them on account of their tender ages. It is high time for our youths, to be convinced that they too will be severely punished for the commission of outrageous crimes. Governor Wright and the jury which assessed the death penalty in the first place may have done a distinct service to the youth of our country who are criminally inclined by the severity of the punishment assessed in this case. Lynn County News, Tahoka.

MOST OF TEXAS COUNTIES PRODUCE OIL

Each of Texas' 254 counties currently is producing or has produced oil or gas, or has land under lease for oil and gas development, a new map prepared Jan. 1 by the Texas Mid-Continent Oil and Gas Association shows. Texas oil and gas counties number 169, while former petroleum counties total 17. The 68 others have land leased for oil and gas exploration and development. Counties added to the oil column include Edwards, Knox and Madison, where recent discoveries were made, and Newton, Nolan and Walker, which how shows earlier, but which reported their first production last year.

Nearly 54,000,000 acres, or virtually one-third the entire land area of Texas, is now under lease for oil and gas development. Texas farmers, ranchers and other land owners receive around \$215,000,000 a year in lease and royalty payments, the Association reported. This extra "cash crop" totals more than two billion dollars for the past twenty-five years, or nearly one-seventh of the value of all Texas agricultural crops during the period.

Turkey Losses Only 2.5 Per Cent

A death loss from all causes of only two and a half per cent on a flock of 200 turkeys is a record turned in by Mr. and Mrs. Don Ladehoff of the Park Community, Randall County.

The Ladehoffs formula for turning out turkeys might be of interest to all West Texas Turkey raisers, reports W. H. Upchurch, Randall County Agricultural Agent.

By full feeding on growing pellets and grain and keeping the birds confined until after "coyote time" in the morning, the Ladehoffs found that their turkeys gain faster than where they depend more on free range for growth.

In areas where coyotes are a serious threat to turkeys, the policy of keeping the birds confined is a big step toward getting more birds to market, County Agent Upchurch says.

The Ladehoffs got their 200 poult in early June. The hatch being late, the birds did not begin to show maturity or fat until around November 1. When marketing time came around in December, the toms averaged about 30 pounds. Only five birds were lost out of the flock of 200.

Made Mistake About Middleton Bank

This week we got a Bolivar Bulletin with the statements of the six Hardeman county, Tennessee banks. Last week in writing up the robbery of the ore at Middleton, we stated it had a few hundred thousand on deposit. We had it fixed at around a half million. Truth of the matter is that the banks has deposits of \$1,109,734.83, as of Dec 31.

And the combined deposits of all six county banks, 2 at Bolivar and one each at Whiteville, Grand Junction, Toone and Middleton, was \$7,591,425.11. We still maintain that there was not more than \$50,000 on deposit in the one bank of the county at Bolivar, 60 years ago. We don't even think that banks had to make a statement at least a published one at that time.

Yet with the 7 1-2 million on deposits, the six banks of Hardeman county, Tennessee lack around 1 1/2 million of having as much on deposit as the two banks of Brownfield.

If you owned a business and were going to hire a man to run it, would you have the outgoing manager make the plans for operating the business for the next two years?

That's the way it is done in Austin. The outgoing governor's... its the budget. Wouldn't it be common sense for this to be done by the man freshly elected by the people and who, moreover, will have the responsibility for the next two years?

In a grocery store in the edge of Mount Pleasant, there is a tiny Mexican dog who at his owner's bidding (and the promise of a marshmallow) will dance, and then buck like a horse. And if you believe that you can't teach an old dog new tricks, Pete was six years old when he was taught his amusing little stunt.

When the famous lawyer, Clarence Darrow, was just beginning his career, an opposing attorney kept referring to him as "that beardless youth." At last Darrow said, "A king once sent a young nobleman to the court of a neighboring king. That monarch, displeased at the youth of the ambassador, said, 'Does your king lack men that he sends a beardless boy?' The ambassador said, 'If my king had supposed that you imputed wisdom to a beard, he would have sent you a goat.'"

Darrow's opponent said no more on the subject.

Mahon Asks Full Facts On Question Of Plains Water Supply

WASHINGTON, Jan. 23 — Congressman George Mahon advises that he has personally appealed to William Wrather, Director of the Geological Survey in Washington, for an intensive study of the underground water supply of the High Plains of Texas. He emphasized that such a study should be made and an authoritative report given the people at the earliest possible date.

This report would be for information purposes only, Mahon stated. It would enable farmers, ranchers and city officials to better plan their water conservation programs. In commenting on the matter, Mahon stated: "I want to emphatically point out that the Federal Government in Washington has no authority to impose any regulation on the use of water in the High Plains of Texas for irrigation or otherwise. I personally feel that Federal interference would be both illegal and improper. Mr. Wrather said that the Government had followed and would continue to follow a strictly hands off policy as to legislation and regulation.

"Many West Texans have sought for years to get the fullest possible information in regard to our High Plains water supply. In 1936 I was able to secure an appropriation of Federal money for a study of these water resources and this study has been carried on more or less continuously since that date, and the study is still in progress. Several preliminary reports have already been made, but the reports are not sufficiently conclusive as to the quantity of water which can safely be withdrawn for irrigation purposes. A more aggressive effort to get the facts must be made.

"Director Wrather of the Geological Survey, the Federal Agency charged with making investigations of our national water and mineral resources, states that present studies indicate conclusively that the High Plains' underground water supply is replenished from rain which falls on the High Plains and not from a water current which flows underground from outside the area."

Mahon stated that steps now being taken in West Texas to get all the facts were in the public interest.
