The Herald has grown with this section from strictly a ranch country. This area now consists of thriving towns and cities, supported by scientific farming and stock farming, augmented by huge oil fields, with the nation's largest known oil reserves.

## Texas Farm Accidents Increase

AUSTIN, July 29—The fifth observance of Farm Safety Week, July 25-31, finds the Texas farm accident picture growing increasingly darker, according to George Clarke, managing director of the Texas Safety Association.

Most of the gloom is the result of an upsurge in the number of farm residents killed or injured in motor vehicle accidents, Clarke said. The motor vehicle accident total for rural areas for the first five months of this year was 6634, as compared with 3852 for 1947, which showed a six per cent increase over the previous year.

"This indicates that farm people must be more careful on their way to and from markets, while pleasure riding, or while crossing the highways," said Clarke. "It is true that more farmers are driving cars than ever before, but that only emphasizes the need for greater caution, courtesy and common sense. Farm Safety Week should encourage farm people to brush up on their driving habits, as well as to check up on their own working and living habits and hazards around their farms."

## Craig Building Going Up Nicely

The M. J. Craig & Son building at the Corner of Eighth and Broadway, is rapidly going up. In fact the walls are about finished and we presume the roofing and floor will be next in order. When completed this will add greatly to "Auto Row" along the length of Broadway.

Quizzing M. J. Sr., about the building recently, he grinned and says: "I don't know what I am going to do with the building. I can't seem to get any cars—Chrysler and Plymouths. Was supposed to have some several weeks ago, but they have not appeared." Might be like the auto trucker that came in empty. His excuse was that he found buyers before he got in with his load and sold them.

A relative in Tennessee told us of a friend of his who works in one of the big Detroit plants. He wrote that not just car loads but literally trainloads were being shipped abroad and to South America, every day. That was a year ago. Perhaps they are still going there as they could be sold higher.

Others who have traveled down in Mexico tell us that it is no trouble down there to get most any make of American car you want—if you don't mind the price.

## Broughton Elected Sheriff of Ector

Earnest Broughton, 47, who was practically reared in Terry county, was nominated sheriff of Ector county, over two opponents Saturday. He is also an ex-commissioner of Ector county. Broughton, who married Margaret Heartsill, also of the Gomez community, have been residents of Odessa for 21 years, he going there as an employee of an oil concern.

Earnest is the son of the late Mr. and Mrs. Ben Broughton, and Mrs. Broughton was the daughter of the late Mr. and Mrs. R. S. Heartsill, both early day residents of the Gomez community. They have had two children, one of which is still living.

## County Convention At Courthouse Saturday

J. O. Gillham, County Chairman, has issued a call for the County Democratic Convention to convene at the county district courtroom, Saturday afternoon, at 3 P. M.

Mr. Gillham is very anxious for all delegates to be on hand, as well as other interested parties who wish to attend, as some very important things are to come before the body.

This will be your opportunity to express yourself about things of national or state nature that is now prominently before the public.

Mr. and Mrs. M. H. Hughes spent the weekend in Chickasha, Okla., Mrs. M. G. Tarpley went to Wichita Falls with them and visited with her sister.

## Last Day To Reinstate GI Insurance Tomorrow

Tomorrow, Saturday July 31, is the last opportunity for World War II veterans to reinstate lapsed National Service Life Insurance on a "comparative health" basis, VA has announced.

All V9 offices in the Dallas Branch Area of Texas, Louisiana and Mississippi will remain open Saturday so that veterans may reinstate under present liberal regulations.

After Saturday, veterans whose insurance has been lapsed more than three months must take physical examinations to qualify as insurable risks.

To reinstate on a comparative health basis, veterans need only fill out a simple application form, in which they certify that their health is as good as when the policy lapsed, and pay premiums for two months to reinstate their NSLI policies.

Eligible veterans may reinstate any amount of term insurance—from \$1,000 to \$10,000 in multiples of \$500—regardless of the length of time it has been lapsed under present liberal regulations.

## Not Much Crop Views The Past Week

Went out to the Ed Thompson farm in the Harmony community Sunday, but just saw the crops up the Levelland highway, and to Thompson's place three miles west. Some pretty nice crops in that area, and they have had fine rains of late and they are growing, even the young stuff. Some mighty pretty cotton in places.

After quite a talkfest, mostly about crops but some about our wives' kinkfoks, perhaps, before we got started home. Ed had a good rain the night before, and another Sunday night. So you see they are kinder wanting some dry weather out that way.

We returned by taking the south route to the Plains highway, stopped a few minutes with Carl Mitty and wife. They have a very pretty crop on the draw some two miles north of the highway, as well as the neighbors in that area.

Monday we drove out to the Lay farm four miles southeast of town, and found some real good crops, both feed and cotton. Lay was really tickled with his cotton crop especially. Plenty moisture to keep it going.

Returned north to Plains highway, and found that R. L. Cornelius and other along that two mile stretch have good crops.

Yep, things are beginning to look prosperous in old Terry.

## Panhandle Contribute Food To Train

CHICAGO — (SpL) July 29—Including the Texas Panhandle's contribution to the Will Rogers Memorial foodwill train, America's rural folks will contribute up to 1000 carloads of foodstuffs for overseas relief during the month of July.

That prediction was made here today by John D. Metzler, director of the Christian Rural Overseas program (CROP), sponsor of the local train.

CROP is now conducting state-wide campaigns in Colorado, Kansas, North Dakota, Ohio, Oklahoma, and the Texas Panhandle. Campaigns in many other states will be launched this fall. Fourteen Southern states are now in the process of being organized.

## MR. CLARK TO DEMONSTRATE HIS MACHINE

W. C. Clark, the inventor, was in this week and announced that he would demonstrate his "Marvelous Machine" to the public on his 88th birthday, which comes on August 11.

The public is invited and Mr. Clark announced that he expects some government officials. The demonstration will take place at the band stand on the court house lawn.

Mr. and Mrs. Tommie Hicks and children, Tommie and Linda, returned Wednesday from Texoma, Oklahoma, where they attended the wedding of a cousin.

## Baptist Revival Starts Next Sunday

The summer revival of the First Baptist church, Main street and Third will begin Sunday August 1st and continue over Sunday 8th. The Sunday services and week day night services will be held at the regular hours, while the week day morning services will be at 10 A. M.

Rev. J. R. Hickerson of Brownwood, one of the most noted pastor-evangelists of West Texas, will do the preaching. His discourses, while sincere and solemn are said to be highly interesting. He captivates his audiences wherever he holds a meeting.

The singer, Sam Allen, of Plainview, is said to fit handsomely into his part of the program. Not only is he a good leader of congregational singing, but a fine choir director. The local church is fortunate in securing his services.

You are cordially invited to all services, or as many as you possibly can.

## The Launderall Is Becoming A Favorite

After a few weeks operation, we called at the Jack Shirley Launderall this week to see how he was progressing. "Doing ok," says Jack. Well he just is not the kind of guy that puts out a lot of hot air, and we know that he was pleased with everything so far. He was however, hot as a firecracker, as he had been down in the basement looking after the heating apparatus.

But every one of the 20 machines were in use, and some ladies were waiting. These newest washing machines not only do the washing but also the rinsing as well. Then there is the automatic rinsing or extractor that is well near fool proof. As long as the lid of the machine is open, while you are putting in clothes, or taking them out, this extractor is still. But as soon as the lid is closed, it starts.

The dryer is a huge affair, and makes one think of a bank money safe. The gas jets are in the top, but when clothes are put in and it begins to circulate, the flames are sucked all around the cylinder, and the heat becomes even in all places. The heat is sufficient to dry hurriedly, but not to scorch.

Last, but not least there is not a spot of water, suds or grease on the floor. It is spotless, and the entire building is air conditioned. Not having to take the clothes out and rinse them, the ladies have plenty time to sit and chat, or there is a library of books, and magazines and daily papers can be found about the building.

What a wash day! What a wash day!

## Dawson Always Butchers Terry County Candidates

For some reason unknown to the thinking capacity of voters in Terry county, this county has never had a candidate that suited Dawson county. Apparently they think every person that runs for office in Terry county is an outlaw or communist.

In the past we must recall three, Judge Homer Winston, seeking the office of State Representative; Judge W. W. Price for District Judge; Burton G. Hackney for District Attorney, and recently Virgil Crawford for district attorney.

As there was only one competitive county race in Terry, only about 50 per cent of the qualified voters took the trouble to vote, but out of that a larger number votes for the Dawson county man than they gave the Terry county man with near 90 per cent of their qualified votes cast.

This shows that the Terry county voter is a square shooter, and will vote according to his own ideas. On the other hand Dawson county voters think every Terry county candidate in a wolf in sheep's clothing.

Take for instance the State Senate vote. Terryites gave the Lamesa man a big lead over the three, Lubbock men. Wait a minute, that gives us an idea. Could old Terry stand for a little vengeance?

The Dawson county man is up against S. Parrish of Lubbock for State Senate. Parrish has had the office but one term. It is an old Democratic custom to give an incumbent the office for two terms.

Put that between your teeth and smoke it. Remember at least some of the leading business men of Lamesa stand privately that it looked like Dawson county was trying to "hog" all the offices, with the district judge and the state senator, and they'd try to keep anyone out of the DA race?

Now what can Dawson county expect of Terry county voters? Just the same as they always have expected—a square deal. Terry county voters will vote as always—independently.

Mr. and Mrs. W. M. Vernon and children, Joe and Hazel will move to Abilene next week. Mr. Vernon will teach mathematics and science in the North Junior high school and Joe and Hazel will enter Hardin-Simmons University this fall.

## Oklahoma Man To Head Lions Clubs

Eugene B. Briggs, Enid, Oklahoma, is the new president of the International Association of Lions Clubs. He was elected by unanimous vote at the 31st annual convention of the Association which closed in New York July 29. Briggs succeeds Fred W. Smith of Ventura, Calif.

The convention concluded one of the most successful years in the history of Lions International, according to the report made by the Secretary-General and founder of the Association, Melvin Jones, of Chicago, Illinois. He reported the formation of 819 new Lions Clubs and the addition of 31,696 men to the roster of the Association in the twelve-month period ended June 30, 1948, for a total of 6,808 clubs and 358,144 members.

## The Man Who Will Spread The Bull

We had a sneaking suspicion that we knew the farmer who is spreading the steerine, manure to most of us, about four miles west of Gomez. The fellow in question is Bill Carter to most of his friends. They know that better than his initials. Anyway, we have been going by his farm some of late and have noted about a half section covered with even rows of pen manure and just wondered about it.

It is a fine body of land, but Bill wants it to get a real wiggle on itself as he has three or four irrigation wells out there. Our informant, Judge Winston, sorter roared about the matter, as he stated Bill bought all the manure Coy Maroney had at his feed place, when he, Homer was also wanted some manure. But Homer got a few loads, he stated. Homer didn't know whether or not Bill aimed to do any deep breaking or not.

Going back to the bad depression years of 1930-34, we hear that Bill really had his tail fastened in the screen door. Oh, he probably knew where his next meal would come from OK, but like millions of other farmers Bill was in real trouble, but did not give up.

Now Bill owns a fine body of land out there; has spent thousands of dollars improving it, including three or four irrigation wells, and so far as we know is nearly if not entirely out of debt. He also has some land in the Morton section.

There used to be an old saw that said a farmer could go broke every year and be right back in business at the same old place the next year. While a business man that went broke forgot that he ever had a store, shop, or what have you.

Well, maybe a farmer is not, as Andrew H. Brown would say, as easily "disenfranchised" as an ordinary business man. That is the reason the farmer often makes a hasty comeback.

We glory in his spunk.

## Stolen Car Recovered At Clovis, N. M.

A passenger automobile stolen from J. E. Woodall, an oil field worker living at the Brownfield Hotel last week was found last Thursday at Clovis, N. M.

Two youths, one 13 and one 16, former residents of this county are in custody and one was to be tried in Juvenile court here yesterday. The other is being held for the Army, as a suspected deserter. The car was considerably torn up.

## Why Not A Beer Election With Each Primary?

Usually Editor Joiner of the Ralls Banner, like this writer, is just a bit radical sometimes on some subjects, but once in a while he hits the nail square on the head the first lick, and sinks it to a dead level with the surface. In his "It Sez Here" column, written of course before the primary last Saturday, so applies to Terry county people we are reproducing it herewith.

Last Saturday, mainly because there was no competition in some of the major county offices, or because of indifference or laziness, only about 50 per cent of the qualified voters went to the polls to vote. Many of them sat around in the shade here all day. As a consequence, they wound up letting a good Terry county man be defeated. The home county of his opponent voted almost 95 per cent of their strength. Terry only about 50 per cent.

So, why not call a beer election each year along with the primary? It would get the people out in droves. But read what Editor Joiner says:

Each two years at this time we are confronted with the hopeless task of asking people, on bended knees, to cast a ballot. Not because we give two whoops which way the ballot is cast. Only because we have seen how many millions of people in other lands are enslaved today because they neglected the ballot—just as about 50 per cent of the qualified electorate in Crosby county will do tomorrow in the primary election.

The other half will be plowing, telling their neighbors that politics are dirty and they won't soil their hands with them, cleaning house, visiting friends, vacationing or taking a nap. But if tomorrow's election were to determine whether or not beer would be legally sold in the county, I rate and patriotic and God-fearing citizens would be beating on the doors of the polling place before sunrise tomorrow. Businesses would close and employees would be herded to the polls; churches would call extraordinary sessions and members exhorted to protect our homes and children by voting against the diabolic brew; caucuses would be held in private homes and in back rooms; the opposing legions would produce general equals in prowess to Napoleon and Eisenhower. But tomorrow the question is NOT beer.

The question IS war or peace, life or death, low taxes or high taxes, prosperity or poverty; old age pensions, price control, honest government, public housing, soil conservation and social security. For these issues, the people won't vote! Only beer is that important; and Communism don't threaten our homes and children like a cold can of beer! The public sense of values is indeed low when they choose beer to squander their oratory upon in the face of vital issues in this election. We offer this remedy; at each primary and general election Crosby county should be called upon to vote for or against beer. The stream of good Americans swarming to the polls would resemble a flight of hunger crazed locusts descending upon a ripening field of grain. Wiping the beer-produced froth from their mouths they might take time out to mark a ballot for good state and national government as long as they're there! —Ralls Banner.

Very likely Mr. Joiner was spoofing about the beer election business, and so are we. The burden of our article is just to show what it takes to get some people stirred up enough to cast a vote.

Remember lots of bad men are elected o by good people—who refuse to vote.

## Showers Fall In Area Monday Night

Refreshing showers fell south and west of Wellman Monday night, according to reports, but no rain to amount to anything fell in Wellman or between there and Brownfield.

Poy Fitzgerald was over from Plains Tuesday and reported that rain began about three miles this side of Plains, and was pretty good to a point between Tokio and Gomez.

## More Polio Reported To SPHU

Three new cases, which makes the total of six cases up to the week ending 24 July, one in Hockley, two in Gaines. There were only nine cases reported in 1946-47. We have several more weeks of summer weather, and may expect more cases of polio before the peak is reached.

A few simple rules to follow as an aid in guarding against polio. Practice cleanliness, avoid new contacts, don't get overtired, avoid chilling, call your doctor at the first suspicious signs, slight nausea, moderate increase in temperature, tired out feeling, sore throat, and irritability or a more serious type may appear with a sudden stiff neck, difficult breathing, weak and paralyzed arms or legs. It is more important to see your doctor early.

The SPHU begs continuous cooperation of cities, and individuals throughout urban and rural areas in the combat of flies and other insects.

## Whitley Attends Feed Council In Ft. Worth

Larance Whitley of Sonny's Feed & Supply recently returned from Fort Worth where he attended a two-day Feeding Advisory Council sponsored by the Ralston Purina Company and held at the Blackstone Hotel. Whitley was one of 22 men elected from Purina dealers' stores in Texas for this intensive training course.

Whitley was given instruction in the feeding, management and sanitation of livestock and poultry. Members attending this Council visited farms near Fort Worth where they could study actual poultry and livestock operations. They were given training in recognition and treatment of disease problems.

This Council at Fort Worth was the second in a series of five. Up to the successful completion of the course, Whitley will be presented a diploma as a graduate Feeding Advisor and will also receive a solid gold ring from the Ralston Purina Company in recognition of his work.

## Wholesale Forgers Arrested, To Be Tried Locally

Sheriff's office was notified Tuesday, that two men, were held at Andrews, wanted for forging a series of checks on printed forms stolen from an Oil company at Levelland early last spring.

One of the checks were cashed in a local store here. Several thousand dollars were cashed at Levelland. Sheriff Murry and Deputy Powell, brought the men here Wednesday. They likely will be tried here first, then turned over to Levelland officers.

## BOYS ENTER ARMY

Larry Tarpley, Logan Herron and Robert Bowers all of Brownfield volunteered for the United States Army last week. Tarpley will be in the U. S. Army Band and is stationed at San Antonio. Bowers will be stationed at Camp Hood.

James C. Rambo, son of Mr. and Mrs. J. H. Rambo, left last week for San Antonio where he entered the U. S. Air Force.

## Crawford Lost By Indifference; Enough To Elect Stayed Out In His Own Box

In the College Amendment election last August, enough voters in Lubbock and four adjoining counties layed out to have defeated the amendment. It carried in the state by only 5000 votes. Some three hundred voters in Virgil Crawford's own box, Brownfield No. 1 remained at home Saturday to have put him over handsomely. Too late these people, who could not get off their sofas and away from their cool lemonade for a half hour are regretting their laziness or indifference.

According to latest official tabulations, Virgil was defeated by 10 out of 13,638 votes counted. Terry county had some 3600 qualified voters; about 2200 of them took the trouble to vote. We have been firing defiance at other counties for defeat of Terry county candidates. But when we had a chance to elect a man—we failed to vote. No candidate from Terry county, no matter how efficient, can ever hope to be anything except a county official until we have a change here in the people—by death or removal to other climes, and their places filled by alert, energetic people.

We friends of Virgil want to sincerely thank the voters of Lynn Garza and old Yoakum for the nice vote they gave him. Vote by counties follow:

## 50 Feet of Oil Pay In Terry Wildcat

Fifty-feet of pay section in the Pennsylvanian has been penetrated at the Seaboard Oil Company No. 1 E. M. Hinson, section 91, block 4-X, psl survey, Terry County discovery ten miles northeast of Brownfield.

Pay thickness was increased to 50 feet when operator deepened to 9,455 feet and recovered oil on a drillstem test. The Pennsylvanian was topped at 9,405 feet, corrected from 9,402 feet.

On a two-hour drillstem test from 9,439 to 9,455 feet, there was gas at the surface in six minutes, but no flow of oil. Recovery was 6,080 feet of oil and 450 feet of heavily oil and gas cut mud. Open flowing bottom-hole pressure was 1,300 pounds and shut-in pressure, after 15 minutes was 2,000 pounds. Oil tested 41.3 gravity.

The test has been shut-in for orders, with the possibility operator will run casing for completion at the present depth.

The drillstem test was the third run on the Pennsylvanian, with the well flowing oil on the previous two tests. The first was from 9,450 to 9,428 feet, resulting in gas to the surface in six minutes and oil in 85 minutes. The well was flowed to pits for five minutes at an estimated rate of 40 barrels per hour. Recovery was 5,650 feet of oil and 450 feet of heavily oil and gas cut mud.

The second test was from 9,401 to 9,439 feet. There was gas at the surface in six minutes and oil in 69 minutes, the well flowing 12 barrels of oil into tanks in 35 minutes. Operator estimated the well produced 91 barrels of oil during the time the tool was open, which was two hours.

## Lubbock Is Getting Bargain Newsprint

The Lubbock Avalanche of yesterday stated that newsprint such as newspapers are printed on was selling for \$115.20 per ton in Lubbock. If so, they are getting a bargain. Possibly they meant the roll news and by carload lots such as the Avalanche-Journal uses.

Not so with the small weekly that takes what it can get, our last shipment being slightly more than 1 1/2 tons. The best we could figure laid down in Brownfield was \$8.78 1-3 per hundred, or \$182.26 per ton.

## Pair of Swindlers Nabbed Here

Sheriff Murry arrested and holds in jail, two men who came to a local tourist court last week. They are charged with swindling by way of one giving a check on a local bank to his companion who would cash it.

Only one or two got through before they were apprehended, two other checks were in progress. Officers are investigating their background.

## HUGH J. GRAY WANTED BY RED CROSS

Red Cross officials here are searching for Hugh J. Gray whose last address was on Route 3, this county. He is wanted to be advised of shipment of remains of his boy, killed in action on Okinawa.

Anyone knowing his whereabouts please call 457-M, or 185.

Some of the daily editorial writers, as well as some of the "Peoples Column" writers seem to think that the best the South can do is to stay with the party and fight for our rights within it. But if there ever was a clear case of being kicked out of the party, that took place early this month in the city of Philadelphia. How can they fight within the party when they have been kicked out on their ears? To get up and try it all over again would be just as foolish as a hungry doggie calf trying to nurse a strange cow that had already kicked it over in the next county. It appears to us that a better deal would be to join with Mississippi, Alabama and other southern states in support of their ticket. No, it will not win the election, but the move would stop Truman short, give the presidency to the Republicans. Yet, at the same time perhaps the Democratic party, and we mean the real one, would get rid of the blacks and tans, the pinks and reds, the greens and blues and other minority gimme groups, and the old Democratic party could then be turned back to the real people who have always supported it. The off brand "Democrats" could then join Bro. Wallace where they really belong. If this should happen, perhaps the Democratic party could then muster enough votes among liberal Republicans to get back in power again.

Some of the complaint we hear coming in from the "coal miner's social security" setup, is that the union's bosses will have full say so as to who gets the funds when needed and how much. For instance, the miner who applies himself daily to his task, but may not be a pet of the boss, may get less help than the sluggard who works when it pleases him, or shirks altogether. And then, a whale of a good worker may have some grievance or disagreement over principle with the big boss, and then it is too bad for the worker who doesn't obey orders. Looks to us at this distance there is too much lee-way for a dictator.

As this little squib is being written, it doesn't appear that the voters of the 30th Senatorial district favor the idea of eastern and northern or any other manufacturers setting the price on the minimum price their good can be sold in Texas. Of the three candidates in the race opposed to such a law, they received a total of 43,011 at the last count Monday. The lone candidate that failed to make himself clear on the issue, received a vote of 14,741. So, the idea of a "fair trades" law in this district was snowed under by a vote of almost 3 to 1. That ought to settle the matter.

Well, the old girl is 44 years old, but apparently only "Sweet Sixteen." Before you get an idea we are talking about our wife or some lady friend, let us explain that it is the Terry County Herald we're talking about. The Herald has had a more or less rugged struggle since childhood, the predecessor of the Herald, the Terry County Voice was born at Gomez in December 1903 and if no issues had been missed, would be 45 this coming December. But in the early days the paper was sold by the originator, a Mr. Long who renamed it the Herald after moving the plant to Brownfield in 1904, to Neil Bros., George and Edd. They in turn sold it to the late Judge W. R. Spencer, who was a lawyer, and not a printer or editor. Several issues were passed up while looking for a man to "take charge." Finally Spencer sold the paper to the late Neil H. Bigger. In those good old easy going days, the former owners as well as the present owner who came into possession of the little four page, five column paper on June 1, 1909, skipped Christmas week. So that plan lost a number of issues. Then along early in 1919, the flu hit and four numbers in January and February that year were skipped as no one could be secured to keep it going. When the town became large enough, and a publication law was passed forbidding the skipping of issues, the volumes were ending about the middle of August instead of December. But in the past 15 or 20 years, we have gained enough issues to put it back to July as volume ending time. Another struggle came during the late world war, when hands could not be obtained. It was a real struggle to keep the paper alive during that time, but by working some 18 hours of the 24, the Old He and wife somehow kept it out of the graveyard. Now, if we can just keep some paper on hand, we feel we are over the hill.

Winston Churchill, that brave old British warhorse and conservative, is still telling the English Labor government (Socialist) some of its shortcomings. His latest blast aimed at those now trying to govern Britain, was "How the ministers can deride the system of free enterprise and capitalism which makes America great and wealthy and then at the same time eagerly seek the aid which has hitherto been so generously granted from across the Atlantic—that is a grimace which baffles the limitations of our language to explain." And Winston is right in his language. The United States handed out 42 billions of dollars in loans and lease lend during the war. Fought Japan almost single handed and furnished 61 of the 90 divisions in western Europe that drove the Germans out of other countries and made them want to surrender. Since the war we have loaned or gave our friends over the world another 21 billion dollars, and are now prepared to spend 17 billion more to help put the world back on its feet. Not bad for a capitalistic nation, eh, Bud!

Few outside of President Truman's lieutenants profess to see any wisdom in a called session of Congress. About the only thing they can see is that the hard pressed leader of leftist Democratic party, is to start some political broth that in some way will raise up voters in the same way the old witch on Buzzard Roost speak in the Snuffy Smith's country expects to grow beard for the bearded lady who is now beardless. To our notion, not only will HST find a bulldheaded Republican congress, but some really sore Democrats from the south, who have no use for Truman or his radical ideas.

Some of the things the people may expect from Gov. Tom Dewey if he is elected president, and that seems a foregone conclusion. Based on his record as Governor of New York, and as DA of the New York City area, they know his hate of the racketeer and the gangs he busted while district attorney. As governor he has reduced taxes, and at the same time has piled up a big surplus where he found a deficit. He advanced education, which believe it or not, was in pitiable condition in certain sections of the big city, and said to be worse than in any section of the "benighted south." Last, but by no means least, he abolished graft and a lot of worthless job holders the taxpayers were paying to do absolutely nothing. If he will give America a real house cleaning at Washington, it will be worth the money.

No frozen vegetables, except corn on the cob, should be completely thawed before cooking. Use the least amount of water needed to cook the vegetables evenly. Warm milk absorbs odd-flavors and odors much more readily than cold milk, so it is important to cool milk to 55 degrees F. within two hours after it comes from the cow.

## Editor A Real Community Builder

Publisher J. Barton Cox, of Syracuse, Indiana, won the gold medal awarded by the National Board of Fire Underwriters for outstanding service in fire prevention. Mr. Cox carried on a three-year campaign for better fire protection for the industries and homes of his community. He did what editors in any community can do to make a safer and more prosperous town in which to live. He saw a million-dollar fire loss in eighteen months in his town of 1,800 population. He saw 200 men thrown out of work when a trailer factory, the town's leading industry, was burned. Through the influence of his paper he helped form a Community Betterment Association. The result was a paid fire department, new equipment, and additions to the water supply. Editors in all part of the country are pointing out the danger of fire and urging local citizens to adopt prevention measures. Most communities can profit by the experience of Syracuse, and before their towns have disastrous losses they can promote fire protection measures which would prevent death and destruction and unemployment caused by burned homes and industries. This is the cheapest insurance they can have. —I. N. R.

## TWELVE BUSINESS FAILURES IN JUNE

Twelve Texas businesses failed in June, reports to the University of Texas Bureau of Business Research from Dun and Bradstreet showed. In the first six months of 1948, 39 business failures were recorded compared to 21 failures in the first half of 1947. Average liabilities were \$36,000 per failure in June, \$52,000 in May and \$67,000 a year earlier.

## CORPORATION CHARTERS 288 IN JUNE

Charters were issued to 288 Texas businesses in June, with the capitalization of \$9,128,000, the University of Texas Bureau of Business Research reported. Merchandising businesses, totaling 86, received the greatest number of charters in June, followed by manufacturing, 55; and real estate building, 36. In the first half of 1948, 2,188 corporations were formed, compared with 1,150 formed in the same period of 1947.

Mr. and Mrs. Grady Dickson are vacationing in Port Arthur.

## G I QUESTIONS AND ANSWERS

Q. Will the Government deduct money it paid on the guaranteed portion of my loan or the payments made for schooling and subsistence allowance from any future bonus that may be authorized by Congress?

A. No. Q. May a veteran, who is receiving disability compensation, receive (at the same time) subsistence allowance under the GI Bill?

A. Yes. Q. I am a World War II veteran and I desire to purchase a car to go to the coast and get a job. Will Veterans Administration guarantee a loan for the purpose?

A. No. VA will guarantee a loan for a car only when the vehicle is to be used for business purposes.

Q. How can I show that my parents are dependent on me for support?

A. Dependency will be held to exist if your parents do not have an income sufficient to provide reasonable maintenance for themselves or members of the family otherwise dependent by reason of mental or physical condition.

Q. I cashed the compensation check that VA sent me. Does that mean that I am satisfied with the rating given me?

A. No. The fact that you cashed the check does not waive any rights you may have in claiming greater compensation or pension than that which was awarded you.

## Prehistoric Animals Found in Lake Bed

Whoever heard of a one-toed horse? There was such a creature back in the Pliocene age, say University of Texas geologists. That was a million years ago, and the strange horse is known as the Pliohippus.

Bones of a Pliohippus, an oreodon (an animal similar to, but larger than a sheep), a mastodon and camel were found by Texas Memorial Museum geologists in a Crosby county lake bed. Dr. E. W. Sellards, Museum director, reports. Geologists Grayson Meade and Albert Potter found the bones, and are preparing them for exhibit in the Museum.

Weekend guests of Mr. and Mrs. Tom May were Mr. and Mrs. Don Monnett of Midland and Mr. and Mrs. M. D. Oakley and family of Colorado City.

Mr. and Mrs. W. B. Downing are in Temple where Mr. Downing underwent an operation last week.

Irene Austin is taking a week vacation from Caves Variety Store. She visited Carlsbad Caverns Tuesday.

Mr. and Mrs. Bill Redford and Mrs. E. L. Redford spent the week end in Dallas. Mrs. E. L. Redford remained for a visit.

Mr. and Mrs. Ray Halley are vacationing in Dallas, Fort Worth, and Seymour.

**Thirty Million Farm Hazards**

"The goal of the 1948 Farm Safety program is the elimination of 30,000,000 farm hazards." Agriculture ranks third among industries in the number of people per thousand workers killed each year by accident.

"Farm people of the 25 to 44 age-group—the most productive group—are most often killed in farm accidents."

"Motor vehicles are the cause of the largest number of accidents on the farm."

These statements were made recently at a meeting of the Texas State Farm Safety Committee when it met on the campus of Texas A. & M. College to make plans for Farm Safety Week, July 25-31, and to formulate a year-round farm safety campaign.

"With a record like this," E. C. Martin, chairman, told the group, "It's imperative that farm safety

**ACC Enrolls Four From Brownfield**

Abilene Christian College, Abilene, Texas, opening the second semester of its 1948 summer school July 21, has enrolled 561 students from 25 states and four foreign countries, South Africa, Australia, Mexico and India. The college's 1948 fall semester will open September 14.

Included among the students are four from Brownfield.

They are Clifton J. Lunceford, son of Mr. and Mrs. D. N. Lunceford of New Boston; Jamie Paden, a junior student majoring in Bible; Robert Grigg, a sophomore student majoring in Bible; and Carol W. Collier, a senior student majoring in Chemistry.

be emphasized 52 weeks of the year. It's not a one-week job." Mr. Martin is assistant state agent of the Texas Extension Service.

**Many "Childhood" Diseases Reported**

With the report of 77 new cases of chicken pox, 11 cases of diphtheria, 320 cases of measles, 75 cases of polio, and 199 cases of whooping cough occurring in the state in the week between July 10-17, Dr. George W. Cox, State Health Officer, has made an appeal to all parents to have their children undergo a thorough physical examination before entering school next month.

The appeal was made to coincide with the announcements of the various opening dates of schools throughout the state.

"It is a medically established fact that a child's health has a direct bearing on his progress in school," the health officer said. "It is no longer sufficient to provide the child with books and new fall clothing. Today we realize the health factor must be considered if the child is to reach his

optimum level."

Dr. Cox said that since the child spends most of his time indoors with large groups of children, it is imperative that he be immunized against communicable disease when such protection is possible. The spread of such disease is facilitated in congested classrooms.

He said the examination should include a dental check-up and inspection of the eyes, ears, nose and throat. The best health insurance for any child is constant supervision by the family physician and dentist.

**U of T To Explore Indian Mound**

Archaeological excavation of what may be the third of fourth largest Indian mound in the United States is now under way with Alex D. Krieger, University of Texas archaeologist, as director.

Excavation site is Battle Mound on Red River, near Lewisville, Ark., owned by Mrs. Henry Moore

of Texarkana. Investigation of the mound was made possible by a grant from the Viking Fund, Inc., to Krieger.

Lynn E. Howard, University of Michigan is in charge of actual excavation, with W. W. Newcomb, University of Texas anthropology instructor, as assistant.

### Smith-Collins Vows Read In Big Spring

Mrs. Ida Collins of Big Spring and Fred Smith of Brownfield were married Saturday, July 17, in the First Methodist church in Big Spring. The single ring ceremony was read by Rev. Alsie H. Carlton, pastor of the church.

The bride wore a navy blue dress with navy accessories and a corsage of gardenias.

Miss Lucille Thompson of Big Spring, niece of the bride and maid of honor, wore a dress of black sheer with black accessories. Her corsage was of red camellia.

J. H. Kountz, jr., of Big Spring was best man.

Mrs. Smith was county treasurer of Howard county for ten years.

Mr. Smith is the manager of Cicero Smith Lumber Co., in Brownfield and auditor for several other company lumber yards in this area.

After a wedding trip to Albuquerque, Santa Fe, and Ruidoso, N. M. Mr. and Mrs. Smith are at home in Brownfield.

Out of town guests were: Mr. and Mrs. Wendell Smith and daughters of Plainview, and Mr. and Mrs. Bob Packard of Brownfield.

#### KNOX COUNTY REUNION

The old pioneer settlers of Knox county will meet on August 8, 1948 in the McKenzie State Park at Lubbock, Texas, to celebrate their annual Reunion. All are invited to attend and bring a basket lunch.

### Movie Being Made About Texas Town

Lindale, Tex., July 28 (AP)—Lindale is on a boom even if it is under an assumed name, behind false fronts.

The town had to spread dirt over its newly paved streets and bring out its rickety old model T's and rattling model A's. But the boom was real.

A Texan was making a movie, and Lindale wasn't Lindale anymore for weeks it was the town of Kermits, back in the early 1930's when the hot oil troubles were scorching.

Jack Wrather, an East Texan himself, brought in his movie location company and four stars from Hollywood on a Sunday, June 1. He expected to complete the shooting in two weeks.

The town stopped business as usual and got into the movies. Everybody was asked to join in, act like ordinary townpeople and dress like townpeople. Bobby-soxers who came all dressed up got sent home.

Lindale's population estimated at 1,200, quadrupled overnight. Everybody in the countryside wanted in on the act. Quite a few bleary-eyed drunkards wandered into town and blinked at the signs

proclaiming beer 5 cents. Lindale has been dry for years.

Half of the town closed up behind its false fronts while the shooting went on. Nobody got paid nobody expected it. Wrather set up a hot dog and cold drink stand and fed the population free. In one day 1,500 hot dogs were consumed.

The movie is "Strike It Rich," a story of hot oil. Part of it is being filmed on oil land that Warther owns. It's semi-biographical of Warther's father, who fought for oil proration.

The script calls for a gusher to blow in. Warther's oil production company hopes to provide the real McCoy. But if the well isn't brought in with a spectacular gush there'll be roughnecks on hand to pump it up.

Stars of the Movie are Warther's wife, Bonita Granville, and a current Dobby-soxer favorite, Rod Cameron, with them are Don Castle, a Texan; Staurt Erwins; William Hadde and Lloyd Corrigan from Hollywood.

The film will be released in December, with its first showing at Dallas. Rest assured, Lindale will be there.

Mr. and Mrs. Alonzo Miller and children returned from their vacation in New Mexico and Arizona last week. Mr. Miller is local manager of Furr Food Store.

### More Eaters Than There Are Steaks

Agricultural economists estimate that today there are some four hundred thousand less beef cattle in the United States than on hand at the close of World War I in 1918. Dairy bulls are included in the beef cattle total because the separate figures aren't available, says T. R. Timm, extension economist in farm management of Texas A. & M. College. But when total figures are used in this case, the real story is covered.

Although total beef numbers are lower between the two periods, cow numbers are up. There are nearly 50 thousand more cows of two years and over, and about four hundred thousand more heifers one to two years old. Calves and steers, in about equal numbers account mainly for the general decrease. Estimates are made as of the first of the year, says Timm. "Compared to World War I, we now have in supply fewer beef cattle but we can increase beef production quicker in view of a higher percentage of cows and heifers," Timm points out.

Right after the first World War, there were 400 head of cattle for every 1,000 persons in America. Today this picture is a little different. At the present count

### Heart Disease Still Biggest Killer

Heart disease continued in the top spot as the number one killer of Texans, according to figures released by the Texas State Department of Health.

Mortality rate figures show an increase of 255 deaths from the April, 1946 figure of 1,099, as compared to the April, 1948 total of 1,354. This represents an increase of more than 18.5 per cent there are only 284 head for the same number of people. Even the number of beef cows and heifers, when related to population, lost ground instead of gaining, as did the total number of cows and heifers.

Another interesting fact about beef cattle trends, says Timm, is that the number of pounds of beef hasn't gone down as much as the cattle numbers. All in all, it looks as if the cowmen have a pretty good outlook "price-wise."

for the comparative period. "So-called functional heart disease is usually traceable to nervousness, infections from other parts of the body such as teeth and tonsils, a disturbed function of the thyroid gland, and to influenza." Dr. George W. Cox, State Health Officer, said, "And the excessive use of tobacco, coffee, tea, or other heavy stimulant is often a contributing cause."

Malfunction of the heart is a correctable condition, the health officer said, insofar as the courses of infection may be located and eliminated, as in the case of bad teeth or tonsils. Incurable organic heart ailments exist only too frequent.

Strict adherence to competent medical advice will eliminate much worry about either functional or organic heart conditions, Dr. Cox said. He added that such adherence would unquestionably reduce deaths from heart disease materially.

### THANKS VOTERS

I am very grateful and proud of the nice plurality given me in last Saturday's Primary, for County Attorney.

Having carried nine of the eleven voting boxes, with a lead of 141 votes over nearest opponent, and with well known certainty of receiving 80 per cent of the third man's supporters, I was in hopes you would not have to be bothered with another go round.

But as it has to be, I shall face it to the finish, and again humbly request your confirmation of the first primary. For which I will be doubly thankful.

THE TWELVE-WEEK "Truth Or Consequences" stunt to "Put Hollywood On The Map" is well under way. The contestant, Mr. William Snyder, a resident of Hollywood, set out across the country after the last "Truth Or Consequences" show of the season on July 14th, supplied with petition blanks. His goal is 1,000,000 signatures. If he can find that

many people who will sign the petition to literally "Put Hollywood On The Map", he will take the petition to Rand McNally, map manufacturers. At present Los Angeles appears on U. S. maps, but the city of Hollywood is not indicated. Snyder will receive a \$2,500 prize from Ralph Edwards if he completes this "summer consequence".

Edwards will report on the contest. "Truth Or Consequences" returns to the NBC airwaves on August 28th.

Ken Carson, who sings the "Breakfast In Hollywood" commercials every day, made his full bow as a vocalist not long ago. Emcee Garry Moore surprised Carson by announcing suddenly that there had been a lot of mail asking why he didn't sing more. Garry then handed Ken the ABC mike, and said, "You're on with your first full song, Ken." He obliged, with "Rancho Grande".

One of the Fastest and most accurate memories in radio or on Broadway is attributed to Paul McGrath, star of the CBS "Big Sister" program. After one hour of rehearsing for "Big Sister" Paul disjuncts with the script; for his leading role opposite Gertrude Lawrence in "Susan and God", Paul was given less than 24 hours' notice.

A Graduate of both the Cincinnati and Philadelphia Conservatories of Music, Louise Barclay, Dr. Carson McVicker in NBC's "Road Of Life", originally wanted to be a concert pianist. However, stage fright at her first concert quickly and conclusively altered her plans.

Versatile Maurice Tarplin, who plays the murderous Judson on the CBS "Young Dr. Malone" show, is also the foremost radio impersonator of Winston Churchill. When the ex-Prime Minister was visiting the U. S. during the war, he requested a recording of the impersonation. In return, Maurice got Churchill's autograph.

Lowell Thomas, CBS newscaster, recently reported an enemy invasion. The name of the invasion was Memetode Phylum Nemathelminthes. Meme for short, which turned out to be a worm. Farmers on Long Island, he said, had discovered this pest destroying the roots of tomato and potato plants. Congress has been asked to see, aside half a million dollars to eradicate Meme, who has never before been known on this side of the Atlantic, and who must not go West.

## The Low Down From Hickory Grove

Just been reading a gas company ad, telling how our gas bill is bucking inflation. And you know, when you look at chocolate bars, shaves and haircuts, white shirts and 1000 others, it is time to stop and sorta wonder if maybe our good friends are not some of the big outfits that we been kinda kickin' around. It has been the fashion to take a poke at the big guy. The big company is a sort of non-personal setup, being more or less polite and not inclined to mixing in a brawl. And the little political guy knowing same, has felt free to throw out his chest and threaten to whip the bigger fellow good and plenty. We been listening to too many of these sassy pint-size persons—and electing them.

I own no big gas companies, or electric stations, or banks, or oil gushers, but sisters and brethren, I am powerful glad that there are such outfits. If it was not for a well managed and big lay-out supplying us with kilowatts, super-duper gasoline, loans at the bank, etc., we most likely would be delving deeper in our jeans, like one buck now for haircuts versus the old 50 cents.

This coming November is going to be a good time to sort out the sheep from the pint-size artists. Pretty snappy epigram, says Henry. Well, I says, my word, I thank you.

**HOUSE JOINT RESOLUTION**  
proposing an amendment to Section 28 of Article III of the Constitution of the State of Texas, so as to provide for a Board for apportioning the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment providing for the issuance of the necessary proclamation by the Governor; and making an appropriation.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
Section 1. That Section 28 of Article III of the Constitution of the State of Texas be amended so as hereafter to read as follows:

"Section 28. The Legislature shall, at its first regular session after the publication of each United States decennial census, apportion the state into senatorial and representative districts, agreeable to the provisions of Sections 25, 26, and 27 of this Article. In the event the Legislature shall at any such first regular session following the publication of a United States decennial census, fail to make such apportionment, same shall be done by the Legislative Redistricting Board of Texas, which is hereby created, and shall be composed of five (5) members, to-wit: The Lieutenant Governor, the Speaker of the House of Representatives, the Attorney General, the Comptroller of Public Accounts and the Commissioner of the General Land Office, a majority of whom shall constitute a quorum. Said Board shall assemble in the City of Austin within ninety (90) days after the final adjournment of the Legislature, and shall, within sixty (60) days thereafter, apportion the state into senatorial and representative districts, and shall make such apportionment shall be in writing and signed by three (3) or more of the members of the Board duly acknowledged as the act and deed of such Board, and when so executed and filed with the Secretary of State, shall have force and effect of law. Such apportionment shall become effective at the next succeeding state-wide general election. The Supreme Court of Texas shall have jurisdiction to compel such Commission to perform its duties in accordance with the provisions of this section by writ of mandamus or other extraordinary writs enforceable to the usages of law. The Legislature shall not be held liable for any clerical and technical aid and for other expenses incidental to the work of the Board, and the Legislature shall provide for the Speaker of the House of Representatives shall be entitled to receive per diem and travel expenses during the time of his or her attendance at any such session in the same manner and amount as they would receive if attending a special session of the Legislature. This amendment shall become effective January 1, 1951."

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of the state at an election to be held throughout the state on the first Tuesday after the first Monday in November, A. D. 1948, at which all ballots shall have printed thereon:

"For the amendment to Section 28, Article III of the Constitution of Texas providing for a Board for apportionment of the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment."

Each voter at such election shall mark out one of such clauses on the ballot, leaving the clause expressing his vote or the proposed amendment.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this state.

Sec. 4. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of this state or otherwise appropriated, to pay the expenses of such publication and election.

**HOUSE JOINT RESOLUTION**  
amending Section 15 of Article XVI of the Constitution of the State of Texas, by adding thereto a new section, to-wit: "AND WIFE FROM TIME TO TIME MAY IN WRITING PARTITION BETWEEN THEMSELVES IN SEVERALTY OR INTO UNDIVIDED INTERESTS ALL OR ANY PART OF THEIR COMMUNITY PROPERTY, WHEREAS WITHOUT PREJUDICE TO THE RIGHTS OF EXISTING CREDITORS THE PORTION OR INTEREST SET ASIDE TO EACH SPOUSE SHALL BE AND CONSTITUTE A PART OF THE SEPARATE PROPERTY OF SUCH SPOUSE; FURTHER PROVIDING THAT SUCH CONSTITUTIONAL AMENDMENT IF ADOPTED SHALL BE SELF-OPERATIVE, BUT PROVIDING FOR THE SUBMISSION OF THIS AMENDMENT TO THE VOTERS OF THIS STATE, PROVIDING FOR THE FORM OF BALLOT PROVIDING FOR THE PROCLAMATION AND PUBLICATION THEREOF."

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
Section 1. That Section 15 of Article XVI of the Constitution of the State of Texas be amended so as to read as follows:

"Section 15. All property, both real and personal, of the wife, owned or claimed by her before marriage, and the rights or interests therein, shall be and constitute her separate property as to her husband, whether the same be real or personal, and shall be subject to her sole and exclusive control, management and disposition, as she may see fit, without the consent or interference of her husband; provided, that husband and wife, without prejudice to the rights of existing creditors, may from time to time by written instrument, in which the wife may in severalty or into undivided interests, or any part of their existing community property, or exchange between themselves the community interest of one spouse in any property for the community interest of the other spouse in other community property, or exchange between themselves the community interest of one spouse in any property for the separate property of such spouse; and

"This Amendment is self-operative, but shall not be self-operative until the necessary requirements are met, and providing for their execution, and for such other reasonable requirements not inconsistent herewith as the Legislature may from time to time consider proper with relation to the subject of this Amendment. Should the Legislature pass an Act dealing with the subject of this Amendment and prescribing requirements as to the form and manner of the execution of such instruments and providing for their execution and for such other reasonable requirements not inconsistent herewith and anticipatory hereof, such Act shall not be invalid by reason of its anticipatory character and shall take effect just as though this Constitutional Amendment was in effect when the Act was passed."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas at an election to be held throughout the State on the second day of November, 1948, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words:

"FOR the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severalty or into undivided interests community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution for amendments thereto.

**HOUSE JOINT RESOLUTION**  
proposing an amendment to Article IV of the Constitution of the State of Texas, by adding a new Section to be known as Section 29, so as to provide for accession to the office of Governor in the event the Governor-elect dies, or becomes disabled, or fails to qualify, before taking his oath of office as Governor; and providing for the issuance of the necessary proclamation and publication by the Governor.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
Section 1. That Article IV of the Constitution of the State of Texas, be and the same is hereby amended, by adding another Section to follow Section 2, and be designated Section 29, to read as follows:

Section 29. If, at the time the Legislature shall convene the election returns for the offices of Governor and Lieutenant Governor, the person receiving the highest number of votes for the office of Governor, as declared by the Speaker, has died, then the person having the highest number of votes for the office of Lieutenant Governor shall act as Governor until after the next general election. Any successor to the office of Governor, in the event the person who has the highest number of votes for the office of Governor, shall become disabled, or fail to qualify, shall be qualified as Governor until a person has qualified for the office of Governor, or until after the next general election. Any successor to the office of Governor, not otherwise provided for in this Constitution, may be provided for by law, provided, however, that any person succeeding to the office of Governor shall be qualified as provided in this Constitution, and shall, during the special term to which he may succeed, be under all the restrictions and inhibitions imposed in this Constitution on the Governor."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of the State at a General Election to be held throughout the State on the date provided by law in this Article of the Constitution, A. D. 1948, at which election all ballots shall have printed thereon:

"FOR the Constitutional Amendment providing for gubernatorial succession, in the event the Governor-elect dies, or becomes disabled, before qualifying and for such succession in other contingencies."

"AGAINST the Constitutional Amendment providing for gubernatorial succession, in the event the Governor-elect dies, or becomes disabled, before qualifying and for such succession in other contingencies."

Each voter at such election shall mark out one of such clauses on the ballot, leaving the clause expressing his vote on the proposed amendment.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this State.

## Texans In Washington

By Tex Easley

Washington, July 28 -(AP)-Notin' but gloom on the horizon, moon the good Texan congressman on hand early for the special session.

The south is being shoved around. The Republicans, short of a miracle, will win the presidential election. Turmoil and little else will come of this unusually election-year summer session of Congress. The world situation gets no better.

There may be optimism in the hearts of some of the Lone Star State delegation, but their views are held by most of the Texans around town when President Truman issued a proclamation convening congress July 26.

"The Southerners have been kicked in the teeth by both political parties," declared Rep. Ed Gossett of Wichita Falls.

"They will continue to be kicked in the teeth until we either select independent electors as contemplated by the men who wrote the Constitution, or abolish the electoral college as proposed in amendment sponsored by myself and Senator Lodge (R-Mass)."

"The platforms of both parties are cheap, hypocritical and appeal to minority pressure groups in the big cities. Both parties continue

to sacrifice principle for political expediency."

The Gossett - Lodge resolution approved by both the House and Senate Judiciary committees, proposes a constitutional amendment which would divide the electoral votes of a state strictly in proportion to the popular vote. Under the change, a minority group would no longer have the power to swing an entire state electoral vote to one party or the other.

The Republican advocated the resolution in their platform, but the Democrats rejected Gossett's plea that the Philadelphia convention accept it as one of their planks.

Congressman Gene Worley of Shamrock, who generally supports the Administration, expressed the viewpoint of the average when he said of the forthcoming special session:

"I dont think anybody will be disappointed except the people. Both sides will try to make political capital of the situation."

If any good does come of it the session, he continued, it will be in pointing up the issue so the people may decide whose at fault.

**To The Voters Of  
Terry County:**

I wish to thank each and every one who supported me in the first primary from the depth of my heart. Now the first primary is over and the second round will soon be coming up. I have received some encouragement since the first primary which has caused me to feel that the will of the majority of the people of Terry county has not been yet expressed in this race, and that the small lead over me can be readily overcome from a part of the votes that went to the eliminated candidate and from among some 1800 voters who did not participate in the first primary.

If I had not had solicitation and encouragement to run in the first place I would not have been a candidate. Now I really want to win. If I am the kind of timber you want for your County Attorney, your interest, advice, influence and support is earnestly solicited.

Respectfully,  
L. C. Heath.

**KAISER**

**FRAZER**

Service wherever you go

In just two years we've built and sold more fine cars than any other new manufacturer in automobile history.

Why? Because America fell in love with the KAISER and the FRAZER on sight. Folks are streaming into Kaiser-Frazer showrooms and learning from present owners how dependable these two great cars are. They're learning — from people who drive them — how soundly they are built... how economical they are... how much enjoyment there is in owning one.

THESE ARE THE MOST-COPIED CARS IN AMERICA, road-proved by 250,000 owners in two billion miles of driving. Because plenty of Americans insist on comfort, convenience, style and value, traditional leaders had to "move over" — as Kaiser-Frazer became the fourth largest manufacturer of motor cars in the world in two short years.

Why wait? Enjoy your new car this summer. You'll get fair treatment and highest trade-in allowance.
