AN EVER PRESENT HELP

By Dr. Norman Vincent Peale Editor's note: Dr. Peale is minister of historic Marble Collegiate Church on Fifth Avenue, New York City; and author of the current best seller, "A Guide to Confident Living."

At a meeting one evening, a that Almighty God could solve any problem no matter how difsaid, "I have a woman in my study who heard you last night. She says you are wrong, that her problem cannot be solved."

When my friend met this woman, she said, "My husband is a scientist, 33 years old. He committed a bad moral crime and is now in the State penitentiary. Psychologists and others pronounce him hopeless. The judge refuses to parole, stating he must serve his full term of 20 years. You said God could solve every problem; let us see Him solve that one."

As God's ambassador, my friend accepted the challenge. He went to the penitentiary where he immediately recognized the prisoner as a former professor, a man of distinction.

The prisoner said, "You have driven a long way to see me, haven't you? That was nice of you, but I have no use for ministers and I have no use for God. You might as well turn around and go back. You cannot do any- abound,' and balance the one theory."

Thanksgiving is more than mere feasting and reunion. Thanksgiving is a time for renewing our faith in God and the spiritual values of life which are essential to these times.

The Pilgrims who founded our nation worshipped in the wilderness on that first Thanksgiving, giving thanks to

God for His blessings. Meager blessings they were, but still plenty for which to be thankful. Today we must live up to the faith of our forefathers. We give thanks for material things, for freedom, but above all, for the privilege of worship.

CHICAGO (AP)- Chicago will have a population of 20 million people and will be the world center of all television broadcasting in the year 2048, claim Chicago news experts and city planners. Their prediction was sealed in an atom-bomb-proof "time capsule" buried here at the site of Chicago's first depot by the Chicago and North Western Railway.

Burial of the capsule- which contains more than 500 photographs of railroading as it is today-marked the end of the first century of railroading in Chicago.

One radio commentator said he believed the Chicago of 2048 would be vastly cleaner than it lege. is now. Electrification through nuclear energy will reduce the use of coal mainly to the production of steel," he wrote. "With soot virtually eradicated, the city will move toward washed buildings, swept streets, better garbage removal and more efficient street lighting."

The secret of cancer will, by 2048, "be definitely simple to comprehend," according to another forecaster, and the only real threat to human life will be the "incurable bends suffered when

Noe! Joy Can Go Up In Smoke

By DAVID TAYLER MARKE AP Newsfeatures

Each year fire turns Christmas, the most joyful time of the year, into tragedy in hundreds of American homes. But if parents knew the hazards surrounding a Christmas tree, and learned how to prevent tragic fires, says the National Safety Council, they could help keep Christmas as

joyful as it should be. How can you prevent accidents from ruining your holiday? All you have to do, says the Council,

First, buy a fresh, green tree. Put it in water outside of the house as soon as you get it home. If you live in an apartment, place it in the coolest spot in the apartment and turn off the radents, E. B. McBurnett, jr., Boyd | diator nearest it. Then, cut off the Pierce, and Oscar Tyler will spend | bottom of the trunk on a slantat an angle with the line of the trunk-and stand it in one of the special tree holders with a water cup and fill it daily.

Plain water is best, says the Council. Chemicals to be added to the water, supposedly to fireproof the tree, have not proved Light around the house may to be satisfactory. Some have made trees even more flammable. No fire proofing done at home can

> Don't attach too many light strings to one outlet. A blown fuse is the signal of a dangerous overload. Be sure fuses are the right size and never use a penny in a fuse socket.

> Don't use lighted candles on the Christmas tree or with other decorations. Place tree well away from fireplace or any other location where it is exposed to sparks or strong heat. Also keep tissue wrappings away from heat.

On Christmas morning, provide a large basket, box, or carton for the gift wrapping removed from the presents. Remove the wrappings from the room as soon as possible after the gifts have been

Other prevention hints are provided by the National Board of Fire Underwriters. They add that it is a good idea to provide a switch some distance from the tree rather than a plug, for turning the electric lights off and on; not to leave tree lights burning when no one is home; inspect the tree to see whether any of the needles near the lights have started to turn brown. If so, change the location of the lights. When the needles start falling, it is a good idea to take the tree down and discard it.

Hang the cup towels, pillow cases, and towels one-third over the line so you won't get dogeared corners. The same goes for sheets and table cloths, except that should be doubled with the hems together.

By grouping the napkins and handkerchiefs together and hanging them over the line like other flat pieces, quite a bit of space can be saved. But don't hang them by one corner. They'll get dog-eared that way. Pin the shirts up by the tails, and hang the dresses, gowns, and pajama tops by their shoulder seams. Trousers, shorts, and pajama bottoms should be hung by the waist . . . and to make ironing easier, try using pants stretchers.

Hang the slips by the underarm section and fold all the flat clothes as they are taken from the line to reduce wrinkles as they are put in the child's wagon or the laundry cart, says Miss Darden.

Mrs. Estelle Smith of Valley Mills is visiting relatives here and at Plains this week.
