

The Terry County Herald

Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

The Herald has grown with this section from strictly a ranch country. This area now consists of thriving towns and cities, supported by scientific farming and stock farming, augmented by huge oil fields, with the nation's largest known oil reserves.

BROWNFIELD, TERRY COUNTY, TEXAS, APRIL 22, 1949

2 SECTIONS

NUMBER 39

Officers of Area Hold Meet Here

A good attendance from West Texas and eastern New Mexico, were here for the convention Wednesday. All sessions, as well as the barbecue at noon, were held at the Veteran's Hall. The district is supposed to extend from about Lamb, Hale and Floyd county on the north to Big Spring, Midland and Odessa on the south. Also taking in Lea county, New Mexico, and as far east as Spur. But it looked to us like peace officers were here from all over west Texas.

Sheriff Osie Murry, his deputies, city and precinct officers, backed up by the commissioners court certainly did themselves proud in caring for visiting sheriffs, highway patrolmen, constables, etc., in the way of entertainment. The writer attended nothing but the barbecue at noon. We considered that the business sessions were matters for the officers to thresh out. But the Sr. and Jr. editors of this sheet thank Osie for the invitation to that part of the affair. One hundred ten were served.

There was potato chips, beans, the best ever, plenty barbecue and son-of-gun stew, onions, pickles, bread, doughnuts and coffee, or pop if you rather have it. The folks did a very fine job on the whole bill fare. We heard many expressions of supreme satisfaction from the diners. We met some we had not seen in some time. Included was Sheriff Ernest Broughton and his deputy from Odessa. Ernest is a native.

Funeral Services Held For Local Man

Funeral services were held Saturday, April 16 at the First Baptist Church for Troy "Boots" Walker, 43 who died unexpectedly Friday morning at 10:30 at his home.

Walker, a retired grocer, had lived most of his life in Terry county. He was a veteran of World War II and a member of the local post of the American Legion.

Rev. A. A. Brian, pastor of the First Baptist Church, officiated at the funeral services. Burial followed in the Meadow Cemetery under the direction of the Brownfield Funeral Home. Pall-bearers were: Bob Simmons, Bernard Dickson, Gordon Flowers, A. C. Pace, Robert Smith, and Leonard Chesshir.

Survivors include three sisters, Mrs. L. H. Plains of Hot Springs, N. Mex., Mrs. Ches Gore of Brownfield, Mrs. Dewey Gildon of Lubbock, and two brothers, Scott of Hot Springs N. Mex., and Lee of Meadow.

Rifle Club Granted National Charter

WASHINGTON, D. C., April 18—The Terry County Rifle and Pistol Club of Brownfield, has been granted a National Rifle Association charter it was announced here today. Made up of rifle and pistol enthusiasts the club will be headed by Fred T. Adams, president.

The new club which will conduct registered NRA tournaments on its range has dedicated itself to teach safety with firearms to all members of the community.

Officers of the club are: R. C. Zant, vice-president; A. A. Eggen, executive officer; Ernest F. Latham, chief instructor; and Luther L. Malcolm, secretary-treasurer.

SNITKER TO DO RURAL EVANGELISM

Jack Snitker, son of Mr. and Mrs. W. F. Snitker, Plains, Texas, and student at Moody Bible Institute, has recently been elected as a member of the men's Student Council at the school. Mr. Snitker plans to do rural evangelism upon completing his course at the Institute.

The Institute is in its 63rd year of training young men and women for religious service.

'People's Car' Finally Arrives in Germany

A dozen years ago, Adolf Hitler promised a shiny new Volkswagen (People's Car) to any German with 1000 marks to pay for it. The war intervened, and not a People's Car reached the people. But now the Volkswagen plant at Wolfsburg, Germany, is rolling the cars out for civilians at the rate of 40,000 a year. The rear-engine autos seat four or five, are economical on fuel, and hit a top speed of about 62 mph. Above, completed cars line up in a parking lot behind the Volkswagen factory.

C.C. Tallies 'Public's Work Vote'

Yandell-Harvey Partnership Formed

Mr. Fred Yandell, owner and operator of The Food Mart, located at 705 Lubbock Road, announced in this issue that he has taken a partner, and co-owner, Mr. E. S. Harvey, Mr. Harvey, formerly of Haskell, is a brother-in-law of Mr. Yandell.

Mr. Harvey was formerly employed by the West Texas Utilities Co. in Haskell. He is a newcomer in the grocery business as well as to Brownfield. He and his wife are residing at 405 East Hill.

He was a member of the 501 Paratroopers, part of the 101 Air Borne Division, during the war, and served in the European Theater. He was in the Armed Forces for three years and eight months.

We wish to take this means of welcoming Mr. Harvey and his wife to Brownfield. We hope he will enjoy both his new home and his new business.

Firemen Plan Lamesa Meet

LAMESA, April 19—The semi-annual convention of the Permian Basin District Firemen's association will be held here Saturday. Lamesa volunteer fire chief John Hildreth says the local department will play host to approximately 400 visitors from 30 or more West Texas towns.

Visitors for the one-day affair are expected from O'Donnell, Tahoka, Brownfield, Denver City, Seagraves, Pecos, Midland, Odessa, Pyote, Monahans, Seminole, McCamey, Fort Stockton, Alpine, Big Springs, Andrews, Levelland, Littlefield, Snyder, Grand Falls, Kermit, Wink, Marfa, Crane and Jal, Emicue, and Hobbs, New Mexico.

Program Is Outlined
The day's program will include election of officers, choice of a meeting place for next convention in October, staging of pump-and-hose races, a barbecue at the city park and a dance at Barrow's club in the evening.

PEOPLE MAKE GOOD USE OF OUR PARK

Sunday being the first really outdoor Sunday in some time, those who were in the vicinity of the city's Coleman Park, noted that a large crowd was there, and that all tables were taken, and many had spread their lunches out on the grass. It looked like a real concerted action picnic, but we rather think that most of them at least, were there just for the outing.

While lunch was being spread by the ladies, the men lounged around, and the children played with balls or used one of the several swings, seesaws, etc., to amuse themselves until mama announced, "come and get it."

David Nicholson, secretary of the chamber of Commerce reports that the suggestion sheets mailed out to members are now all in and have been sorted and tallied. These sheets asked for suggestions for projects to be carried out by the Chamber of Commerce in their work program for the coming year. Suggestions were to be listed as first, second, and third in importance. Three points were given for first choice two for second and one for third.

The results are as listed below. Education and schools, 32 points; Industry, 23 points; Recreation or parks, 21 points; Hotel, 19 points; Agriculture (including soil and irrigation), 17 points; Housing, 17 points; Oil, 13 points; Office buildings, 11 points; Commercial buildings and lots, 11 points. Telephone, 9 points; Air port and or airline, 7 points; Parking and or traffic, 5 points. Other projects suggested were: Clean-up, holidays, publicity, auditorium, taxation, tourist, newcomers, and legislation.

The Chamber of Commerce will use the findings of these suggestion sheets in planning their work program, and will try to deal with them in accordance with the number of points they received in the tally.

Rev. Annis Paid Herald a Short Call

Recently Rev. O. B. Annis of Westbrook, sent us an ad and inquired in the cost. In answering we asked if he were not once the pastor of the Seagraves Methodist church. At that time Rev. Annis and family as well as the Stricklins were mutual friends of the Hargett family of Seagraves, and saw much of each other.

Rev. Annis dropped in Monday, and announced he was one and the same man that was at Seagraves some 20 odd years ago, and that he still owned property there, and really called Seagraves his home. But, he had no idea that we'd remember him, he said.

Mr. and Mrs. Bill Benton and daughter, Billie, and Mr. and Mrs. Gene Walker visited relatives in Seminole Sunday.

Good Showers Visit Area Monday

Light showers fell here just before sundown Monday afternoon, with heavier ones around nine that night. A light rain was falling Tuesday morning that continued until near noon. The fall amounted to near a half inch.

This rain fell slowly and will all sink into the ground where it fell. With a day or two of cloudy weather, this rain, though light, will be very beneficial.

Twisters Near Lubbock
North and northwest the rain was reported much heavier, with some three inches at Sudan, Littlefield 1 1/2 inches, and Lubbock about the same.

Allight twister wrecked some homes in the Shallowater area of Lubbock county, and slightly injured one person. The top was blown from a barn near Slaton.

CONGRESS OF PARENT-TEACHERS TO MEET IN LUBBOCK

The Herald has seen a full program of the Congress of Parent-Teachers Association to be held in Lubbock April 27-29th inclusive. It is a well rounded program, and educators of State and National fame are to be on hand to address the delegates.

This is the 14th District of that organization, and covers the south Plains and much of the adjoining area. Meetings of the delegates will be held in the O. L. Slaton Junior High school auditorium.

The Lubbock PTA is making extensive plans to care for the association while the sessions are being held in that city.

Mr. and Mrs. Guy Walker, and children Billy and Onogene, and Miss Jessie Harris spent the Easter holidays in Altus, Oklahoma in the home of Mr. and Mrs. W. L. Harris.

Mr. and Mrs. Sid Machen and daughter, JoAnne spent the weekend in Seymour with relatives and friends.

IOOF CONVENES IN CITY TODAY

'Chain Gang' Coming; First Session In Terry Since 1921

The welcome sign as well as the glad hand will be out on every corner and in between here Friday, when Odd Fellows and Rebekahs from all over the South Plains gather here for their annual convention. It has been many years since Brownfield has had the convention, in 1921 we believe. Lynn Nelson, Noble Grand of the local lodge as well as the leaders of the Rebekahs are making preparation to give the visiting delegation the best of entertainment, as well as well arranged business sessions. L. R. Riney and R. A. Simms are helping much with arrangements.

The Herald is this week getting out the programs, containing some eight or ten 5x8 pages. This is a far cry from the little 3 1/2x6, eight page minutes of the Association held in Tahoka in 1910. At that time, the Association was called the Plains I. O. O. F. Association, and consisted of Brownfield Odd Fellows and Rebekahs, Lubbock Odd Fellows and Rebekahs, Tahoka Odd Fellows and the admission of the Tahoka Rebekah lodge, and the admission of Post Odd Fellows. Levelland, Littlefield, Morton and such towns were then just open prairie, and Plainview, Lockney and Floydada were "fur, fur, away."

The Herald still has a copy of these minutes, which were hand set, hand folded and stapled. Most of the delegates from Brownfield are gone from this old world. In fact, just one is still living, Judge Geo. W. Neill, present county attorney. Those who have crossed the river are J. L. Randal, Dr. J. W. Ellis, W. J. Byrd, Judge W. N.

Experimental Station Uses Deep Breaking Methods

Mr. Porterfield, of the Soil Conservation Service reports that deep breaking methods are being used on some of the acreage at the Experimental Station. A disk plow and caterpillar tractor are used and breaking measures from 20 to 24 inches.

Crops raised on this acreage will be compared with those raised on land plowed with a farm tractor, 12 to 14 inches deep, land that has been listed, and land on which a Hoeme has been used. The results should prove something of the value of deep breaking methods.

This project is being carried out by the Soil Conservation Service, on the Federal and State Experimental farm. Roy Wicker Jr. of Lubbock and Brownfield is owner and operator of the cat and deep breaking plow. Mr. Wicker is one of the first to use this equipment in deep breaking.

Sheriff's Office Picks Up Bootlegger

A local man was picked up this week by the sheriff's department on charges of illegal possession of liquor. 120 pints of liquor were found in his possession. The men pled guilty and paid the fine.

Pleas of guilty will be heard in district court by Judge Lewis B. Reed on Friday. Six cases are scheduled, including forgery, theft and burglary.

District court will be in session on Wednesday, the 27 of April. Several civil cases will be tried.

PART OF CALF SHOW LEFT OUT

It was not the intention of the Herald to leave out part of the Calf and Pig Show last week. It was the showmanship part of the program, and if you ask us, that is a pretty important part. No one to blame but the writer. The notes were handed in but mislaid till this week.

Anyway, those winning first, second and third prizes in showmanship were 1st, J. W. Richardson; second, Wendel Mason, and third, Max Miller. Congratulations, boys, from us to you.

Gets Nomination

Former White House Secretary Stephen T. Early, above, has been nominated by President Truman for the post of under-secretary of defense. Subject to Senate approval, his appointment would put the 60-year-old Virginian second in command to Secretary of Defense Louis A. Johnson.

Terry Sheriff Named Association Prexy

Before the conclusion of their session here Wednesday, the South Plains Peace Officer Association, decided to meet twice annually. The next meeting will be at Hobbs, N. M., in October. The following officers were elected for the term.

O. C. Murry, President, Sheriff Terry county.

L. V. Edding, Kermit, 1st Vice-President, Sheriff Winkler Co.

Chas. Tremble, Hobbs, N. M., 2nd Vice-President, under sheriff Lea county.

Hoyt Curry, Plainview Police Chief, Secretary-Treasurer.

Murry Expresses Thanks
Sheriff Osie Murry asked us to express thanks for him to all the merchants who offered donations, and special thanks to Norville Redwine, of Tahoka for cooking the barbecue.

Also to J. B. and Luke Huckabee, R. N. Lowe, George Wade, Bob and Nellie Roberts for cooking and serving the meal.

Census Bureau Sees 150 Million Total

WASHINGTON—The Census Bureau expects to find about 150,000,000 persons living in the United States when it makes a new population count between April 1 and June 30 next year.

J. C. Capt, director of the Cen-

sus Bureau, made the estimate in testimony before a House Appropriations subcommittee. The testimony was made public today.

The last census in 1940 showed 131,699,275 persons residing in the U. S.

MEMORIAL TO DISASTER VICTIMS

The family of M. D. Westmoreland, a volunteer fireman who died in the Texas City, Texas, disaster two years ago, kneels before the Serene Angel statue in Memorial Cemetery, Texas City. The statue was erected this week by members of the volunteer fire department in tribute to the firemen who lost their lives in the disaster. It was two years ago on April 16, as the SS Grandcamp, loaded with ammonium nitrate, exploded at the docks in Texas City and set off fires and other blasts that took a toll of 576 dead, 4,000 injured and \$50,000,000 (M) property loss. With Mrs. Westmoreland are her three sons (left to right), David, Don and Richard. (AP Wirephoto).

Full Program Slated; Opens At 9 a.m.

Today the members of the South Plains Association of Odd Fellows and Rebekahs are convening in Brownfield for an all day meet. Association officers will be on hand for the business and social sessions. They are: Delma Benedict, Plainview, Tex., president; Frank Jordan, Brownfield, vice president; Chester Anderson, Muleshoe, Tex., secretary treasurer; R. A. Simms, Brownfield, chaplain.

The program will open with registration at the American Legion Hall at 9:00 a. m. At 9:30 a morning program will start which will be open to the public. J. Floyd Richardson will act as master of ceremonies. The program will be as follows: Presentation of United States and Texas Flags by the Canton and Ladies Auxiliary under the direction of W. A. Holleman of Lubbock, Tex.; Invocation by Association Chaplain, Raymond Simms; Song by Audience, "America"; Introduction of the Grand Lodge and Assembly officers, past association officers, district and lodge deputies; Welcome address by the mayor of Brownfield, C. C. Primm; Response to Welcome Address by Grand Master C. M. McLaughlin of Tyler, Tex.; Greeting by Mrs. Vada Lewis of Brownfield; Response by Alma Powell of Levelland; Talks by Grand Lodge officers. Announcements; Song by Brownfield Male Choir.

Medical Association Issues Handbook

The new edition of the Handbook and Directory of the State Medical Association was released at Austin, Texas today. Prepared by the Committee on Public Relations, headed by Dr. George A. Schenewerk of Dallas, this 476 page blue book is a collection of pertinent information relative to doctors, dentists, nurses and hospitals.

The 1948-49 Handbook and Directory, the first of this type to be published in Texas, fills a need long recognized by the physicians and allied groups of the State.

In addition the extensive information on medical economics by counties, the cloth-bound volume lists the membership of the Texas Graduate Nurses Association; membership of the Texas Dental Society; names, locations, and data on recognized hospitals; and a cross-section membership of the State Medical Association of Texas.

Give Us Your Old Address, Also

We have had several write in lately to get a change of address. Most of them gave their old as well as the new address. Some did not. This makes a lot of work for the one who keeps the mailing list straight.

Be SURE to give the OLD address as well as the NEW one. It will save a lot of work. Thanks!

May 1st To Be Parent Day At Tech College

LUBBOCK. — Parent's Day at Texas Technological college is planned for May 1.

Highlight of the special day will be a recognition service for all students who have attained scholastic achievement during the last two college semesters. Also holders and winners of scholarships and organizations with outstanding academic records will be recognized. Dr. D. M. Wiggins, president of Texas Tech, will be the principal speaker.

A reception for visiting parents is to be held in the recreation hall at 4 p. m. following the recognition service at 2:30 p. m.

Student Council President, Clint Formby, has appointed Ted Forsythe, a council member from Lubbock, general chairman of arrangements.

Several thousand guests are expected.

Just what happened may be a dark secret. Then it may be as clear as crystal. It is a well known fact that the two elder Curtis Publications, the Saturday Evening Post, and the Ladies Home Journal refused all liquor advertising. But the junior member of the company, Holiday, has its big page ads in colors of prominent people indulging in "Old Carban Reserve." Just why the junior member was allowed to indulge in liquor and beer advertising has not been explained. Or if so, we have missed the explanation. But we have our own idea about the matter. The older members are established. The new member had to take its chance with a lot of other new mags that were carrying liquor ads. And that 10 to 25 grand per page was sugar in anyone's bowl.

Bishop G. Bromley Oxman, in accepting the Churchman's Award, recently, after receiving threats not to do so, remarked that we cannot fight any kind of totalitarianism by becoming hysterical. As we understand it, the Bishop happens to be just as opposed to Nazism and Facism as he is Communism. On that occasion, he stated that "religious freedom does not mean that the church that is overwhelmingly in the majority should fight to exclude others." In other words, what would people here in Brownfield think if the Protestant

faiths, which are in the vast majority, should try to keep Catholics from building churches, or Jews from erecting synagogues? This same thing would apply to Catholics in Italy and Spain, or Protestants and Catholics in Tel Aviv. Yet word comes pretty straight that Catholics in Italy are hindering Protestant movement in every direction and in every way possible short of actual attack. For that very reason, the citizens of the United States, who came from religious infested governments in Europe, wrote into our constitution a law separating church and state. Let's keep it that way.

Since Kansas went wet, the Masonic Grand Lodge of that state, has already taken action against any member of that fraternity, who engages in the sale or manufacture of intoxicants. The Odd Fellow lodge is just as determined that its members do not engage in the sale or promotion of sale of intoxicants. Since the writer came to Brownfield he remembers one case back in pre-Volstead days of a member going to El Paso and was employed as a bartender. He was given warning, but stuck to his trade, and was dismissed from the lodge here. While many consider that dispensation of intoxicants is legitimate in many places, these two older and more influential lodges still forbid members to engage in the liquor traffic. While they allow those who wish to drink in reason, even this is discouraged.

It seems that a buyers market is fast developing and merchants everywhere are finding that price concession of much staple merchandise is having to be made. But modern merchandising is built upon the premise that allows for a flexible rise or fall in prices. Unlike their counterparts of generations ago, who allowed many items to become shop worn or out of date, now use advertising run as specials, and much below original sale prices. Some are even hot specials and near wholesale cost, but the advertising usually moves the goods, as a plentiful supply is reached. Modern merchandising methods are far removed from what it was two or three generations ago. It is not alone better for the merchant, but his customers as well. The customer does not have to take shop worn and often deteriorated goods.

There are still a lot of guys that want to run to the government for this and that, "as it will not cost anything." Contrary to this view taken by many people, we have already piled up a debt against every man, woman and child in the United States of nearly \$2,000. On the other hand, we often imagine that the states are poor and far in debt. But in comparison to the figures above, it is said

Happy Homecoming

that Louisiana has the largest state debt in the United States, being only \$80 per capita. Every time we run to Washington for more money to build something we do not particularly need, the government has to reach into the pockets of some tax payers to get the cash—to dump into a rat hole, perhaps. No one has ever been made rich by spending more than they make.

Is free medicine really free? Those who have made a close study of the matter tell us that the government will have to take 9 billion dollars out of the pay checks of working people every year to carry on this socialist measure. Yet, we still have some pretty intelligent folks who imagine you can get something for nothing. This is an impossibility. The great trouble with the whole scheme is that doctors who are put on a quota basis (in England it is 100 per day) will naturally pick those with hysterics, or at least little the matter with them, physically. On the other hand, those really needing medical service will be neglected, and will have to get medical service the best way they can.

If cottonseed oil, principally from which oleomargarine is manufactured, was from some foreign country, there would be some reason for Congress to slap an almost prohibitive, if not an unfair tax on it. But the principal ingredient is from the cotton fields of some 13 southern states. It is a domestic derivative from which oleo is made. Just why the American people have permitted this unjust tax to stand on a portion of their food for almost 70 years without a stiff protest, is a wonder. Congress is always talking about the "common" man. Oleo is the spread that the poor family can afford to use. Had it not been for oleo, butter would have gone to \$2 a pound a few months ago. It went above a dollar as it was. Since Texas and most American states make and eat both butter and oleo, why not let each stand on its own merit? If the people prefer butter, good and well. If they as soon have the cheaper spread in their home, that too, is their business.

Labor bosses keep harping on the old chestnut that everyone who voted for President Truman last fall, fully understood that they were voting for the repeal of the Taft-Hartley act. Nothing could be further from the truth. In fact, it is believed that the rank and file of labor, union and nonunion can see no harm, but much good in the T-H act with a few amendments, perhaps. They can see nothing bad about the law, and especially that it is a "slave labor" law. While Texas voted overwhelmingly for Truman, all polls that have been taken by regular pollsters, as well as some of the congressmen in their districts, have shown conclusively that Texans by the large, don't think the T-H law bad. And in Texas, we have a state law the CIO leaders term "hostile to labor." Despite all threats, the legislature has refused to repeal that law. Also, Gov. Jester appointed a man for labor official that was repugnant to the CIO, but the State Senate OKed the man for the place in short order. The CIO palaver just does not jibe with facts.

The term "midshipman" was first applied to boys who carried orders between officers in the after castle and sailors in the fore-castle and hence were often amidships. It is now applied to U. S. Naval Academy students. Sunspots which become more frequent and less frequent in 11 years cycles started a declining cycle in 1947.

The "Warm War" In The South

Recently Governor William M. Tuck of Virginia challenged Governor W. Kerr Scott of North Carolina to a corn-growing contest, inaugurating a friendly "corn war" between these two Southern States.

If Old Dominion and Tar Heel farmers heed the words of their agriculturally minded governors, striving to help their respective States produce bigger harvests, each State may well be on its way to its largest per-acre corn yield in history. At the same time, each farmer will be contributing to his own welfare and that of the land, since, to increase his production, he will of course need to use the most progressive corn-raising methods.

The National Fertilizer Association, believing that contests such as this are bound to further trophy farming, has donated a trophy cup to be presented to the winning State by the Virginia and North Carolina corn committees. Once more, industry is working hand-in-hand with agriculture for a better future.

TEST YOUR I. Q.

1. What famous empress was born on the island of Martinique?
2. What two countries are the main beneficiaries of the program known as the "Truman Doctrine"?
3. For how long does a U. S. patent give an inventor "exclusive right to make, use and sell" his invention?
4. Does the Declaration of Independence declare the right to own property?
5. What state is known as the Panhandle State?

Answers to TEST YOUR I. Q.
1. Empress Josephine.
2. Turkey and Greece.
3. 17 years.
4. No, the document is silent on the right to own property.
5. West Virginia.
6. West Virginia were men of considerable wealth.

TEST YOUR I. Q.

Ticklers

By George

"This must be a special occasion, the chief is wearing his collar and tie."

Texans in Washington

By Tex Easley

AP Special Washington Service WASHINGTON.—(AP) — The new Congressional Directory, with its biographical sketches of the 435 representatives and 96 senators, shows that the farther west you go the less it matters whether the legislator is a native of the state he represents.

Being a bit of the old South in the newer West, Texas is neither as narrow nor as broad minded as some other states—if those descriptive words can be used—when it comes to considering a man's place of birth as a qualification for office.

A glance at the sketches of members of the 81st Congress shows that virtually all of the lawmakers from east of the Mississippi River were born in the states they represent.

In New York and Philadelphia many of them point out they are natives of the very city or borough they represent. A Pennsylvania congressman recently said in private he owed his victory at the polls to the fact his opponent was not a native of the county.

Only one member of the Pennsylvania 35-man delegation is not a native of the Keystone state, but in the California group 10 are not natives of their state.

Those who moved to Texas, most of them in infancy, are Speaker Sam Rayburn, Bonham, (Tennessee); Olin Teague, College Station (Oklahoma); Clark Thompson, Galveston, (Wisconsin); Ed Gossett, Wichita Falls (Louisiana); Ken Regan, Midland (Illinois); Gene Worley, Shamrock (Oklahoma); George Mahon, Lubbock and Colorado City, (Louisiana).

Two California congressmen, incidentally, are native Texans. They are Reps. Cecil F. White of Fresno, born Oct. 12, 1900, in Temple, and Clinton D. McKinnon of San Diego, born Feb. 5, 1906, in Dallas.

The biographical sketches in the directory are supposed to be prepared personally by the senators and representatives. The longest sketch among the Texans is that of Senator Tom Connally. It is 30 lines long, approximately 300 words. The shortest is that of Rep. Albert Thomas of Houston, three lines in length. Connally's is taken up largely with the names of various national and international conventions to which he has been a delegate.

Around the Capital: An American flag which has been flying over the Capital was obtained by Rep. Tom Pickett of Palestine and presented to the Henderson County Memorial Hospital in Athens.

Rep. Olin (Tiger) Teague got a surprise on his 39th birthday, April 6. He went to a Texas delegation luncheon and found a birthday cake, with all the trimmings.

Incidentally, Mexican canned beef was the main dish.

Rep. Gene Worley, a leader in the fight against the foot and mouth cattle disease, arranged for the beef to prove that \$28,000,000 worth of the foodstuff stacked in warehouses is good and should be disposed of under the ECA foreign aid bill.

It was only after the Texas congressmen and their guests, including Amarillo cattleman Jay Taylor, had finished eating that Worley told them they had been served Mexican canned beef.

Then he asked their support for his proposal that the ECA bill provide that none of the funds it carries could be used by a foreign country to buy meat from another foreign nation until all the 101,000,000 (m) pounds of

Mexican beef is sold.

He said the beef, much of it held in Texas warehouses, was processed from cattle killed in connection with the joint P. S.-Mexican foot-and-mouth disease drive. It can not be sold legally in the United States because it was not processed under certain sanitary inspection regulations.

A recent visitor to the Capital Imperial Shrine Potentate of North America. He was a luncheon guest of Speaker Sam Rayburn and then was welcomed to the Senate side by Senator Connally.

The Interior Department reports that pumping of ground water for irrigation in the southern High Plains of Texas is still increasing rapidly, and water levels are declining. It is estimated that about 10,000 wells were used in 1948 to irrigate more than 1,000,000 (m) acres of cropland.

Everybody Wants the Biggest Share

COLLEGE STATION.—Everybody wants the biggest share of the consumer dollar. Whether it's a business or an individual doesn't matter. The fellow that runs his business the best is the one who will come out on top.

All the commodities that are for sale are in competition with each other—every one trying to outdo the other fellow. It's the same thing with the poultry industry, too, says F. Z. Beansblossom, extension poultry marketing specialist of Texas A. & M. College. Only in this case, there's competition among the poultrymen—the egg, fryer and turkey producers.

Not many poultrymen stop to think about all the things that have to be done to get their products on the market. It's because the bigger part of them are thinking only about the production end of the situation. Most poultry raisers turn the selling end of the job over to another fellow. But in quite a few cases with the poultry and poultry products business this is necessary.

These people that do the selling also have a finger in the financial pie. They, too, are looking for a part of the consumer dollar. In order to compete with other items for this consumer dollar, a product has to have eye appeal, high quality and uniformity of quality. The salesman has to reduce the loss of the product through selling, and reduce the loss of quality in a product. Honesty is important in a business transaction, and there has to be an ample supply to be an economical venture.

According to records in areas of Texas where graded programs operate, many producers are not selling on grade. The most common reason for this is low quality, says Beansblossom. The egg producer is not willing to maintain the quality of eggs when they are laid. As a result, he says, the flock owner doesn't profit when selling eggs on a graded basis.

Price of House Regulators is up 55%

A West Texas Gas Company service man completes a new meter and house regulator installation.

Yet Natural Gas Service Remains At the Same Low Pre-War Prices

Regulators are but one item. Everything behind your natural gas service has increased in price.

Like everything else, gas is more expensive to produce, more expensive to deliver to your home and business, but not one cent of this increased cost has been passed on to you.

The price of the meter, to which the house regulator is attached, is 105% higher than the meters purchased by West Texas Gas Company in 1940.

In face of the increased costs of regulators, meters, steel pipe, wages and other items... natural gas service for your home and business is still furnished you at 1940 prices!

West Texas Gas Company
HELPING BUILD WEST TEXAS SINCE 1927

Make Studebaker your '49 buy word ...AND CUT COSTS EVERY MILE YOU DRIVE

Studebaker's sum total of value is "some total"
New decorator-fabric upholstery • New body colors • Self-adjusting brakes • Variable ratio "extra-leverage" steering • Panoramic vision • Seats centered between the axles • Low center of gravity • Glare-proof "black light" instrument dials • Automatic hill holder—available on Champions at slight added cost, but standard on other models. • Automatic overdrive, Climate heater and ventilator, white sidewall tires and wheel trim rings or discs are optional at extra cost on all models.

OPERATING economy speaks out to everyone from every graceful, low-slung line of every new 1949 Studebaker. You don't see a trace of gas-wasting excess poundage in a new Studebaker's flight-streamed structure. Studebaker's an all-out thriller of a car in sparkling performance, too—a marvel in restful ride—easy to park—easy to maneuver in tight traffic. No other automobile dollar buys you what a Studebaker dollar does today. Studebaker's out ahead in dreamlined modern style—in timely new thrift—in wear-resisting craftsmanship!

Submits A Sample Of High School Spelling

Dere Editor—
 I am a high school graduate, enny town on the south Planes. I see by the Papers 31.5 pErcent of jobhunters in the Lubbock region make D in spellin. 1.4 pErcent maik A on the other hand the nashional average is 7 pErcent. I kaint understand why this should be so. we take spellin in school and could spell mississippi before we wuz old nuff to vote someHow didn't git round to spellin things like kat and stuff likt that but i wuz goin To rase hawgs anyhow, so whaT difference did it maik since hawgs got nuthin to do wit katz. Give us gude old prakctikal spellin like hawg and dawg which we kin euse to eat and coonhunt with. my spellin teacher was fine she didn't raise no Kane when we didn't get lessons butt passed us anyhow. this wuz grate on account it lets studeents have more time for footballe, Baskitbawl, trakk, workin after school, goin ridin and keepin ourselves ginerally heaLthy as sikerlogists say a wellrounded yung life.

pleeze investegate an find out if or not these lousy kummunists is behind this unAmerikan hollerin about no spellin in school. im proud of amerikan schules and a chance to do gude sa whats all the yapin about i say—Ralls Banner.

Destroying The Highways

Every motorist has personally seen the damage done to our highways by heavy commercial vehicles. He has also personally paid part of the bill for maintenance and repairs through higher taxes than would have otherwise been necessary.

Thomas H. MacDonald, Commissioner of Public Roads, recently said, "If we accept the principle that highways are provided to serve the public's interest as a whole, it reasonably follows that the cost of building and maintaining them must be held at the level of true economy. This involves the limitation of axle and wheel loads to those for which the highways are designed. The highway user . . . does not wish to pay for new highways to replace those destroyed by excessively heavy loads. . . The heavy truck operator is, or should be, concerned because most certainly he will be held accountable for whatever damage these trucks do. . ."

What makes this particularly important is the tendency of states to legalize heavier and heavier axle loads. Mr. MacDonald, who is one of the foremost experts on the subject, is convinced that axle loads in excess of 18,000 pounds should never be authorized. Yet there has been an alarming increase in the number of vehicles in use with heavier loads, ranging up to the terrific figure of 29,000 pounds. You don't need an engineer to explain to you what carriers of that weight do when they pound over our roads.

There has been a remarkable growth in the numbers and size of commercial trucks using public highways. Measures which will protect the roads from excessive deterioration under such traffic must be adopted to protect all taxpayers from even heavier levies for the highway funds.

The miscellaneous causes of farm fires are explosions, sparks from passing locomotives, trash fires, ignition of grease and oil, hot irons left on, gas, fireworks, and defective chimney flues.

The Lubbock Country Club site of the Women's West Texas Golf tournament, top, as seen from the southeast. A beautiful swimming pool, just east of the building, is cut out of the photograph. Center view is a photograph of one corner of the second floor lounge while below, President Cliff Dean presents Mrs. T. E. Patterson and Mrs. Fenner Tubbs, co-chairman of the tournament, with a trophy.

West Texas Meet Should Draw Big Field, June 14-19

LUBBOCK (Special) — This community's beautiful new Lubbock Country Club building will be the center of women's golf activity for the Women's West Texas Golf association when that group gathers for its annual tournament, June 14 through June 19. Completed only last October the Lubbock Country clubhouse is a golfer's dream, designed for pleasure and convenience. Here a colorful field of women golfers representing cities west of Wichita Falls, Fort Worth, Brady, San Angelo and Del Rio will assemble to compete for the title won last year by Mrs. Sam O'Neal, of Odessa at the San Angelo Country Club.

The play will include a mixed foursome of 18 holes the first day. Qualifying will be the next day with flights for 9-hole players, 18 holes for the tournament participants. The tournament proper begins the next day with first round matches and 18 holes will be played the four remaining days, with the finals June 19th over the same route.

A whirlwind program is being planned for the event. The Women's West Texas meet originated here in Lubbock in 1935. This spring's tourney marks its return for the first time to the original course. Co-chairmen Mrs. Fenner Tubbs and Mrs. T. E. Patterson, head a group of women here who expect to make the 1949 meet a memorable one.

The course itself, is much improved and the greens are outstanding. June should find it in tip-top shape, said Schroeder, golf professional, Herd.

Things To Remember

I once saw a little boy putting stones on the rails of a street car truck. He wanted to see what would happen. Before anyone could correct him, the car came along. He took the little boy home to his mother, across the street. No harm was done, and the boy learned a good lesson.

Grown men in our government are today using a more deadly kind of stone to throw the United States we have known off the track. Republican and Democratic political leaders are using socialistic and communistic booby traps such as public ownership of power, medicine, housing, etc. to build a super-state that will destroy individual opportunity and liberty itself, unless they are stopped and sent home, as the little boy was.

Can they plead ignorance, as did the little boy? Do they not realize that a socialized state will crush free enterprise, thereby destroying our American form of government and personal liberty?

There can be no free men and free opportunity when the individual has to turn to the state for subsistence. We are being fooled with false promises of "plenty" at the government trough, filled with will paid for with the people's savings taken as taxes.

Will the people be as smart as the motorman?—R. M. Hofer in The Railroad Journal.

NAVAHOS AREN'T 'JOES' ANYMORE

GALLUP, N. M. — Hereafter, please call 'em the "Navaho" Indians—not Navajos.

Supt. James M. Stewart of the Navaho Indian Agency relayed that plea Thursday from tribal council's advisory committee. "Members of the committee said they were sick of the Navajos being called 'Joes,'" Stewart explained. "They want to be called 'Navahos' and they want it spelled like an American would spell it, not the Spaniard's spelled it."

One theory as to why engagement and wedding rings are worn on the third finger of the left hand is that the Egyptians believed a vein ran from that finger directly to the heart.

From the Grandstand

By Wilbur Martin
 Associated Press Staff

Texas baseball, as much fun as the circus and at times unbelievable as a sideshow, is here. The Texas League opened this week, jumping the gun on the state's six other leagues.

But by April 27, the Big State, Longhorn, East Texas, West Texas-New Mexico, Arizona-Texas, and Rio Grande leagues will have started or will start, April-to-September seasons.

Last year Texas teams set a new attendance record. Most League presidents are optimistic about this season, the third in the state's postwar diamond boom.

The only new circuit this year is the Class D Rio Grande. There are changes in the makeup of others.

Temple has replaced Paris in the Big State and Paris has joined the East Texas, replacing Lufkin.

Roswell, N. M., took the spot vacated by Del Rio in the class D Longhorn league. The Cowboys joined the Rio Grande loop.

Texas has 41 teams in the seven leagues. One, El Paso, is the state's only member of the Arizona-Texas league.

As usual, there has been a big turnover of managers. If the trend of the past two years is continued, there will be more changes made during the April-to-September season.

The brand of baseball in Texas has ranged from good to bad in the past. But it is always entertaining.

And the Class C Lone Star League (now the East Texas) last year produced the minor league

batting champion, Joe Kracher of Kilgore.

The Big State drew more fans than any other class B league in the nation.

Here's the lineup of the Leagues:

Texas—Dallas, Fort Worth, San Antonio, Houston, Oklahoma City, Tulsa, Shreveport, Beaumont.

Big State—Austin, Waco, Temple, Texarkana, Greenville, Gainesville, Wichita Falls, Sherman-Denison.

East Texas—Longview, Tyler, Kilgore, Gladewater, Paris, Bryan, Marshall, Henderson.

West Texas-New Mexico—Lubbock, Amarillo, Clovis, Albuquerque, Pampa, Lamesa, Borger, Abilene.

Longhorn — Roswell, Vernon, Sweetwater, Odessa, Ballinger, Midland, Big Spring, San Angelo.

Rio Grande — Corpus Christi, Laredo, McAllen, Del Rio, Brownsville, Donna.

Arizona-Texas—El Paso (only Texas member).

Preparations for the opening of the second season of the Chicago Railroad Fair on June 25 are well under way, and closing Oct. 2.

The Santa Fe Railroad has announced many improvements in its replica of a southwestern Indian Village which last year featured its exhibit.

Again native Indians from the Santa Fe Southwest will live on the fair grounds in the pueblos, hogans and wikipuis which the railroad has constructed.

Authentic Indian sandpaintings will be made daily in a glass enclosure permitting them to be viewed by fair visitors without interruption of the medicine men who make the paintings.

Indian arts and crafts workers plying the trades of silversmithing, weaving and basketry will be housed in an open shelter permitting Indian Village visitors to watch their handicrafts. Also in the shelter will be two looms on which Spanish-American weavers will make the famous Chiriquito blankets.

The Indian Trading Post which last year attracted many visitors will be enlarged for the 1949 Fair. Added to the Santa Fe exhibit will be an arcade located near the north entrance of the Village showing a section of all the states through which the railroad passes in large photographic murals.

A large quonset hut seating about 250 people will also be added to the Village and continuous motion pictures from 2 p. m. to 10 p. m. typical of the scenic southwest will be exhibited free.

The Santa Fe also will participate in the equipment exhibit at the Chicago Railroad Fair by having on display the latest in passenger equipment.

OIL BASIN EXTENDED

The famed Anadarko Oil Basin of Oklahoma sloshed over into Texas with the bringing in of the Sinclair-Prairie No. 1 (above), 23 miles south of Perryton, and about 40 miles below the Texas-Oklahoma line. The well is in Roberts County. It flowed 517 barrels in a 24-hour test. It is 8,900-8,970 feet deep. Casing perforated in the Mississippi lime with 420 shots. (AP Photo) (4-16-49).

U. S. Air Force Sets Health Record In '48

The U. S. Air Force had its "healthiest" year in 1948, according to a preliminary report made by Major General Malcolm C. Grow, Air Surgeon, to the Secretary of the Air Force.

Advances in health education of personnel and in preventive medicines, combined with the full efforts of every medical officer, were credited by the Air Surgeon

in achieving a five-year record low in hospitalization for all causes within the continental United States.

General Grow pointed out in his report, however, that adequate numbers of medical officers must be available to maintain this low record of hospitalization.

The common respiratory diseases, usually a major cause of hospitalization, accounted for less than one-third of the total admissions at the peak of the respiratory disease season during January and February. Less than

Low Down From Hickory Grove

Dear Congress: Well boys, you have been doing fairly good recent-like—most of you. I am optimistic you will come out of the kinks yet and start working for the good of the quiet citizen versus listening with both ears to the noisy few with an axe to grind. The Labor Temple has muscled in. Mr. Quiet Citizen if he did not choose to join-up and limit his brick laying to 500 per day versus 1000 which he could do easy, if he was an average brick-layer—he has been picketed out of a job.

This tip to you boys there in congress is for your own good. Don't be a sucker for noise—be rugged—be like Daniel Boone—shiver at no threat. Old Bazoo-town is oozing with selfish and ism peddlers. The Govt. payroll is bogged-down with a half million smart-alec Thinkers at 5 thousand per annum per thinker. But us folks out here, expect you boys there to be equal to the occasion.

As a sample of just one group to match, take this Reclamation Bureau. It is all steamed up to build electric lines galore—and unneeded—here, there and yonder. So, you fellows there, get hold of yourself. When 1950 rolls around and you choose to run again and on your record, see to it that you have one—a record, I mean. You all have common gumption—dust it off, and use it. Yours with the low-down,

Joe Serra.

20 per cent of those hospitalized during the rest of the year were in that category.

The venereal disease rate continued a decline begun in 1947 and reached a new low in 1948. Less than nine man days per 1,000 troops per month were lost during 1948 for hospitalization for venereal disease. This is a marked decrease from 102 man days per 1,000 troops per month in 1939.

Weeding Out Malayan Communists

A patrol of the Malay Regiment makes its way along a jungle trail in Pahang in search of Communist bandits in hiding. Security forces, including the police, army, auxiliaries, navy and air force, are slowly weeding out the 5000 remaining Communists in Malaya, most of whom are Chinese. No holds are barred in the drive, since it is expected that Chinese Communist forces will move into Southeast Asia, rich in natural resources, when their hold on China is consolidated.

Texas Has A Needless Death Toll By Fire

AUSTIN. — Eighteen Texans were burned to death in June, reported Marvin Hall, State Fire Insurance Commissioner.

Ten of the 18 were men and 5 were children. Three women died as a result of fires.

Explosions and resulting fire killed five. One young man, 18, died of burns when an oil tank he was working on exploded, and a man of 31 died of burns received in a flash fire at an oil derrick.

Two women died of burns from gas explosions in their homes, one explosion involving natural gas and the other butane gas. A young mother burned to death when kerosene she was pouring in a wood stove ignited from live coals.

Four men died in a hotel fire which started from an unknown cause.

Three children died in gasoline accidents. The clothes of one little 3 year old girl ignited while she and her brother played with gasoline. A boy, 7, died of burns received when a glass jar of gasoline became ignited while a group of children were playing with it. A 17 month old girl died of burns when her clothes caught fire from an exploding can of gasoline being used to burn out an ant bed.

Two small children died of burns when they pulled boiling coffee off stoves over themselves. One was a girl, one, and the other a baby boy, 8 months old.

Two young men burned to death when their airplane caught fire after failing to make a take-off, and a man of 67 burned to death in a home fire which started from careless smoking. Another man died of burns received on a fishing trip when his bedding ignited from a camp fire.

UNITED STATES AFRAID?

If the American Reds intend to give aid to the enemies of America in case war comes, it is time something is being done about such declarations as is reported they made. Is not giving aid to the enemies of our country treason? Then it would seem that Foster and others in the Communist ring should be prosecuted. Calling names will not save our country from the determined people who are directed by that small group of men in Russia who create all orders behind closed doors. Death is meted out to individuals who refuses to obey orders of the

Farm Business Good In 1948

COLLEGE STATION. — Last year farm business was good as far as the farm cooperatives were concerned. So good, in fact, that 51 Texas farm cooperatives paid back their loans in full to the Houston Bank for Cooperatives.

Many others made pretty good-sized payments to reduce their debts to the bank, says M. C. Jaynes, extension specialist in organization and marketing of Texas A. & M. College.

During 1948, the Houston Bank for Cooperatives lent more than 28 million dollars to 173 farmers cooperatives serving 114 thousand farm and ranch families. These associations are set up to perform a variety of off-the-farm services which only a few farmers can provide for themselves.

For example, says Jaynes, farmers use their cooperatives to gin their cotton, handle and market grain, rice, fruit, vegetables, livestock, poultry and dairy products, to crush and market cottonseed, manufacture feed and buy supplies needed on the modern mechanized farm.

Eighty-nine new cooperatives were chartered last year. More than 95 per cent of the 1,100 active cooperatives in the state serve local groups of around 200 farmers each.

FOUR APPRENTICE SEAMEN AT HOME ON LEAVE

Four local boys, all graduates of Brownfield High School and all apprentice seamen in the Navy are at home on leave from San Diego, Calif., where they have completed their boot training together.

They are Ross Ellis, Dickie Lees, Allen Thomason, and Billy Hamilton. They are to report back to San Diego April 24.

Call No. 1 and turn your news items in to the Herald.

TEST YOUR I. Q.

1. A founding child of unknown parentage is found in an outlying possession of the United States. Is the child considered a citizen of this country?

2. When and where was African slavery begun in the United States?

3. Does a so-called "sonic barrier" exist as a danger to planes flying faster than sound?

4. What is the official, modern name for the state of Persia?

5. Does Iceland have a military establishment?

Answers to TEST YOUR I. Q. 1. Yes, the child is considered a citizen of the United States until found not to have been born in territory owned by this country. 2. At Jamestown, Va. in A.D. 1619, 20 African Negroes were landed from a Dutch ship. 3. No, planes have now safely flown faster than sound many times. 4. No, Persia has been known since 1935 as Iran. 5. No, Iceland has no army.

John L. Lewis Bobs Up Again With Two Weeks "Mourning"

John L. Lewis has done it again. His miners are out on a two weeks "of mourning." Just when Congress was trying to pass legislation to curb such unauthorized "strikes," old John pulls one. Congressmen say that the Taft-Hartley law can take care of the situation, but that the proposed labor law of the administration has no provision to curb such unauthorized strikes. John L. has no little sense as to propose the repeal of all labor regulatory laws and allow such labor leaders as himself to continue running the show.

Until Lewis ran into Judge Goldsborough a few months ago, he was running things pretty much as he pleased.

Mine operators say that the two weeks layoff will not hurt the coal situation in view of the fact that there is a two month's supply of coal on hand. The miners will pay the penalty for John L. Lewis' whims.—Canyon News.

Kremlin authority, but our government too often has refused to crack down on these enemies and because we have been slow to punish them, they think we are afraid.—Yoakum County Review.

County Agent Can Aid In Farm Plans

Extension Service Features Catalogue As Aid To Farmers

COLLEGE STATION.—Do you need any farm building or equipment plans? Are you looking for ideas on how to build a cattle feeder or a barbecue furnace? If so, check with the county agent or home demonstration agent.

They have a 1949 model catalogue chock full of all kinds of plans for anything from houses to homemade machines. This new catalogue was compiled by W. S. Allen, extension agriculture buildings engineer of Texas A. & M. College. It also contains a listing of many supporting publications on any subject dealing with or about the farm.

First thing in the catalogue is a list of plans for houses of two to nine rooms. Next are plans for barns—general purpose, beef cattle, horse and mule or dairy barns. No fewer than 19 different 5-room house plans are listed. Also there are 10 different plans for 6-room houses, twenty-one different general-purpose barns and seven horse and mule barns are among those plans in the list.

But that's not all. There are plans for hog houses and equipment, poultry houses, cattle feeders, sheep barns, grain and hay storage, implement sheds, garages and shops, and other farm buildings and equipment that may be of interest to the Texas farmer.

These plans and publications listed in the new catalogue are

Preparing for Planting

Two of the 13 young farmers at Boys' Village in Smithville, Ohio, spread fertilizer over part of their 127-acre farm in preparation for spring planting. Boys' Village is a community for homeless youths founded three years ago by the Rev. Clarence E. Kerr. Still in the process of building, Dr. Kerr visualizes an eventual village of some 200 youngsters.

available to the farm and ranch people of Texas. They may be obtained free of charge by asking for them at the office of the county agent or county home demonstration agent, or by writing to the Texas Extension Service at College Station.

Other plans for certain specific jobs are available, Allen says, but the ones listed in this catalogue are the ones in biggest demand. If the one desired is not included, write to the Extension Service.

What Is A Home Garden Without Beans

COLLEGE STATION.—What is a home garden without beans, asks J. F. Rosborough, extension horticulturist of Texas A. & M. College.

It isn't too late to plant the green bush beans. The Giant Stringless Green Pod variety is standard among home gardeners. A new kind called Logan is the latest model in beans. This variety is outstanding in quality, and is recommended for use as a fresh vegetable, or for freezing or canning, Rosborough says.

It's a little early for the pole bean varieties right now. And a point to remember about the pole beans is that these plants must be set out further apart in the row because they grow larger than the bush types. Kentucky Wonder is standard in the pole varieties, but the Blue Lake is higher in quality and yields as well as the Kentucky Wonder.

As for the lima beans, the Henderson Bush or Fordhook are good bush types, says Rosborough. The Silva and Florida Speckled are excellent pole types. The Silva is a white bean, while the Florida Speckled is a brown mottled type.

In East Texas, the Florida Speckled seems to do best, while in the damp Gulf Coastal area the Silva is preferred, he concludes.

Watch Water You Drink On Vacation

AUSTIN, Texas. — The month of April usually brings the first days of near-summer weather to Texas, and literally thousands of Texans commence to make serious and detailed plans for their annual vacation which is of great importance to the health and well being of every man and child.

A vacation can relax nervous tension, bring renewed vigor, and usually supply an opportunity for more sunlight and outdoor activities than is customary for office workers and those of sedentary occupations. But traveling to vacation spots for the purpose of "roughing it" can also bring a serious health menace in the form of typhoid germs from impure water supplies, and for this reason, Dr. Geo. W. Cox, State Health Officer, advises all persons contemplating such a vacation to first be inoculated against typhoid.

"Persons planning a vacation where sanitation standards may not be carefully observed, should protect their health by typhoid inoculation, and thus avoid the risk of serious illness from this debilitating and sometimes fatal disease," Dr. Cox said. "An individual not previously rendered immune, can establish immunity by having one typhoid vaccine injection administered each week for three weeks; if he has kept his immunity from a previous inoculation, one 'booster' shot each year will keep him protected from typhoid."

Dr. Cox warned that impure water is not the only means of spreading typhoid, and cautioned against the careless exposure of food and milk to flies, roaches, rodents, and other germ-spreading pests.

Pvt. Chas. T. Brumley To Participate In Training Program

WITH THE EIGHTH U. S. ARMY AT CAMP DRAKE, TOKYO, JAPAN.—Pvt. Charles T. Brumley, son of Mr. and Mrs. John F. Brumley, Route No. 3, Brownfield, Texas, has completed an examination to see if he is eligible to receive more advanced training.

Private Brumley is now participating in a training program designed to teach him the technicalities of infantry weapons, fundamentals of map-reading, care and maintenance of clothing and the numerous pieces of equipment used by an infantry unit.

Private Brumley entered the service June 30, 1948 and received his basic training with the 4th Infantry Division at Fort Ord, California prior to sailing to the Far East for assignment to the 1st Cavalry.

Don't Like It!

"Have a drink?"
"No thanks! I don't like it!"
"Whadda y'mean, you don't like it?"
"Well in 20 years of liking it, I lost 15 jobs, two good wives, got held up and robbed once, got in jail five times, spent \$250 for a 'cure', lost hundreds and hundreds of dollars from time out from work with hangovers — couldn't work—too sick, and a judge let me know through my present wife that the next drunk will get me six months straight time—so buying out. I just don't like it anymore. Some fun wasn't it."
"Yeah, some fun. Give the guy a coke."—Walt K. in St. Petersburg, Fla., Grapevine.

FARM QUESTION BOX

by
ED W. MITCHELL
Farm Advisor
General Electric Station WGY

- Q. Some of our maples were badly damaged in a recent ice storm. Have been told to saw the broken branches off and paint the places. What kind of paint should we use? When is the best time of year to do this?
- A. Cut all dead, diseased and broken branches off as close to the remaining limb as you can. Use asphalt roof paint over the cuts. Apply it about July when cuts are dry, otherwise flow of sap pushes paint off.
- Q. My garden soil is heavy and black. Everything grows well except potatoes. They are scabby and not fit to eat. I use plenty of commercial fertilizer. Please advise.
- A. I advise you to buy your potatoes from a reliable hatchery, from which you are determined to grow potatoes, take a small patch and make the soil acid by working in about ten pounds of sulfur dust and two pounds of acid phosphate per 100 square feet because the potato scab fungus does not thrive on an acid soil and potatoes may. Do not use manure or lime on potatoes.
- Q. I have ordered 2000 baby chicks from a reliable hatchery, from which I have bought chicks for the last seven years. Last November, I am told this hatchery's flocks were affected with New Castle and bronchitis diseases. Would you advise cancelling my order or accept the chicks? I want them for egg production.
- A. If they had New Castle and bronchitis they are either dead or recovered and the disease is not carried over in the egg. From what you say this appears to be a reliable hatchery that guarantees its chicks and I would let the order stand.
- Q. We were given some Northern Spy apples at Xmas and wrapped each one with newspaper so they would keep well. At first the flavor was good, both raw and cooked—but now they have a musty flavor. Could they be tainted from the newspaper?
- A. Apples absorb odors easily and yours may have absorbed a musty odor from the paper or the storage room. It just goes to show how true the old Indian adage is, "Never save for tomorrow what you can possibly eat today." Eat apples up right away and get some more.
- Q. We have a beautiful Colorado Blue Spruce tree about fifteen feet tall. Can we do anything to stop it from growing? It is crowding the driveway and surrounding area, but we do not want to hurt the tree. We were told to cut off the top candle. If this will do the trick, when should we cut it off?
- A. You can prune back your Spruce with top and sides and keep it under fair control. Do this Spring and Fall, or whenever you have spare time, but never more than one time—say two or three feet at a time and evenly all around. Cut back to a branch that may soon turn to fill the space made vacant. In that top "candle" "short" cut back to a single limb coming up at a slight angle so it may gradually replace the lost top. Make all cuts clean and close.

DDT NOT FOR DAIRY COWS

COLLEGE STATION. — Texas dairymen are warned not to use DDT for insect control. The warning comes from G. G. Gibson, extension dairy husbandman of Texas A. & M. College, who adds that small amounts of DDT in a food such as milk might prove harmful to infants.

And the presence of DDT in milk goes strictly against the grain with the Food, Drug, and Cosmetic Act. So, it's best to use another chemical in the control of dairy cattle insects.

Entomologists recommend methoxychlor or pyrethrum in place of the DDT for dairy cows, and go on to say that DDT is still good for insect control on other livestock, including beef cattle. Dairy animals or livestock being finished for slaughter should not be fed forage treated with DDT or other chemicals in the same class, cautioned the Bureau of Entomology and Plant Quarantine.

It's a different matter when it comes to fly control in and around farm buildings. DDT is all right for this. So is chlordane and BHC. But methoxychlor is the one recommended for use around dairy barns where milk is being processed.

Even better than the chemical sprays, Gibson suggests that dairymen get to the bottom of the fly situation with proper clean-up and other sanitation measures.

With a clean dairy, only a small amount of chemicals may be needed, he concluded.

Norwegian shipbuilders are again putting figureheads on their ships, even though the ships are now driven by engines.

Flying Saucer Possibility Admitted By the Air Force

WASHINGTON, April 7 (AP). —The Air Force said Thursday there has been no tangible evidence up to now that a foreign power has been sending "flying saucers" over the United States. But, it added:

"On the other hand, there is now such a possibility." The Air Force has been investigating reports of strange, luminous objects shooting through the skies at intervals during the past several months.

"Many of the reported incidents have been definitely determined to be meteorological balloons or natural celestial phenomena," the State Department said.

"However," it added, "there

are some instances reported by reliable and competent observers which are still unexplained."

Why are more and more families choosing the Servel *GAS* Refrigerator?

IT'S GUARANTEED FOR TEN YEARS!

Only Servel STAYS SILENT, LASTS LONGER

Talk to folks who've had experience. They'll tell you, "The Gas Refrigerator is your big refrigerator value! It guarantees silent, dependable performance for ten full years!"

How can this be? Servel is different. There's not a single moving part in its freezing system to cause noise or wear. A tiny gas flame does the work. So Servel stays silent, lasts longer. Thousands of Servel's over 2,500,000 owners report theirs still on the job after 15, 18 and 20 years.

See the new Gas Refrigerator models today. You'll find every new convenience. And remember—you're sure of long-lasting noise-free, trouble-free performance with Servel!

You enjoy all these modern features

- Big frozen food compartment
- Plenty of ice cubes—trigger release trays
- Moist and dry cold for fresh foods
- Flexible interior—plastic-coated shelves
- Large dew-action vegetable fresheners

Train Arabs In Methods Used In 4-H Crops Program

King Ibn Saud of Arabia has hired American county agents to show his people how to grow more and better crops. Gradually the Arabs are replacing 4,000 year-old farming methods with modern American ways. Their goal is to raise all the food they can eat instead of importing 80 per cent. Toward this end, these county agents hope to organize Arab-style 4-H Clubs which may one day conduct a field crops program just as Texas is doing now.

Good farm practices and expert use of farm machinery are part of the 1949 National 4-H Crops program, declared Guy L. Noble, director, National Committee on Boys and Girls Club Work. The project—which stresses increased production of certified seed, food, feed and fibre crops—is off to a good start in the Lone Star state.

With the help of county extension agents and local club leaders, 4-H boys and girls learn to use scientific farming methods. Included are seed bed preparation, plant parasite and disease control, soil analysis and contour farming.

Besides gaining useful knowledge, 4-H Club members enrolled in the project are eligible for merit awards amounting to nearly \$8,000 given by International Harvester company. The four national scholarships will be \$300 each this year instead of \$200. State winners will attend the National 4-H Club Congress in Chicago next November with all expenses paid. For county

Acres of Wool on the Hoof

Studding the rolling landscape of the 8,000-foot-high alpine pastures of British Columbia, thousands of sheep of the Hayward Ranch near Kamloops, B. C., are being fattened and sheared on their 1800-acre spring range. The lambs are destined to provide next fall's lamb chops, and their wool may become the yarn for their new suit for Easter, 1950. From this spring range, the sheep will be moved to a summer pasture 150 miles away.

March Retail Sales Climbed 21 Percent

AUSTIN, Texas.—Texas retail sales for March climbed 21 per cent above February to an estimated \$434 million, preliminary winners there will be a gold filled medal of honor.

Texas named 116 county medal winners last year. Edward Hill of Garland qualified for the state award as well as Dallas county. The Cooperative Extension Service supervises the program.

tabulations made by the University of Texas Bureau of Business Research showed.

Shoe stores, increasing 39 per cent, and lumber and building material dealers, 35 per cent, headed the list for larger advances over the previous month.

Monthly increases over February were men's and boys' clothing stores, 23 per cent, department stores, 23 per cent, and filling stations, 20 per cent.

Rising 24 per cent over February, March sales of durable goods stores out ranked nondurable goods stores which registered an 18-per-cent increase.

Retail sales throughout Texas fell 2 per cent in March below March 1948. Durable goods store sales presented a healthier business picture, with a 7-per-cent advance over the 12-month period than nondurable goods store sales, which slid 10 per cent in March below a year ago.

Motor vehicles and farm implement dealers turned in increases of 21 and 10 per cent, respectively, over March a year ago, while sales of other durable goods stores decreased. Jewelry store and lumber and building material dealers' sales dropped 15 per cent; hardware stores, 8 per cent; and furniture stores, 7 per cent.

March sales were from 1 to 25 per cent under a year earlier in all types of nondurable goods stores. Florists' sales declined 25 per cent; family clothing stores, 22 per cent; shoe stores and men's and boys' clothing stores, 19 per cent; and department stores, 14 per cent.

Christians In Japan Since 283 A. D.,
TOKYO — (AP) — Research by Dr. Sakae Ikeda, former law professor at Kyoto University, has led to conclude that Christianity came to Japan in 283 A. D., 1,266 years earlier than the generally accepted date.

Dr. Ikeda, as quoted by the newspaper Jiji Shimpo, believes that a Persian, called Kung Yuehwang in the Chinese language of the period, led a group of Chinese Christians to Japan. He says that the Nestorian Christian sect persisted in Japan for many generations.

The report has caused some stir in Japanese Christian circles, which credit the introduction of Christianity to St. Francis Xavier in 1549.

The preserved right arm of the Saint is due to be brought from Rome for a fourth centennial celebration starting May 29 at Nagasaki and ending June 12 at Tokyo. A Japanese monument to the Saint was erected in 1925.

DDT for bedbug control may be used in the form of a dust, as an emulsion, as a solution dissolved in a light oil or as a suspension in water. A dust containing 10 percent DDT is fully effective. It should be dusted well into cracks and crevices of walls and baseboards of infected rooms, and over the surfaces of bedsteads and mattresses.

Set a ladder firmly at a safe angle; the base should be one-fourth of the ladder's height away from the wall. Use a ladder for climbing. Boxes, tables, chairs and machinery make poor ladders and often cause injuries.

Cash Help For Oldsters Boosted By Millions

By The Associated Press (ADVANCE) — Thousands of old folks are going to get more cash from the public purse.

Old age assistance funds or payments have been increased in 11 states so far in the 1949 legislative season.

Thirteen other states are studying proposals to give more money to needy citizens who are 65 or older.

North Dakota increased the minimum payments from \$40 to \$60 a month in cases where there is only one recipient in a family, and from \$30 to \$45 when there is more than one. The minimum was set at \$50 in New Mexico.

Maximum benefits were hiked from \$40 to \$50 a month in Maine. Nebraska raised the ceiling from \$50 to \$55. Montana provided for a hike of \$7 in monthly grants that had averaged \$45.

The Illinois legislature decided to boost the ceiling from \$50 to \$65 a month with the provision that it would be adjusted up or down as the cost of living rose or fell in the future.

Higher appropriations were voted in North Carolina, Idaho, Arkansas, West Virginia, and South Dakota. As a result, the average monthly awards can be increased from about \$21 to \$25 in North Carolina and about 30 per cent over the current \$20.89 in West Virginia. The average in South Dakota can be boosted about \$5 to around \$38.50, with a top of \$50.

But, the traffic wasn't all one way in the 14 capitals where decisions already have been made. Indiana, Utah and Wyoming made no changes.

None of the measures adopted thus far this year has hit the high target raised in California. The voters there last fall approved a proposition to hike benefits for senior citizens from \$60 to \$75 a month. To meet the added costs, for the rest of the fiscal year ending June 30 and for the next fiscal year, the governor has asked an extra \$118,235,000 (M).

Cash help for the aged runs into millions. Before the 1949 legislative session began, about 2,500,000 men and women were getting such aid. The average payment for the U. S. as a whole

Easy to Make SEED FRAME

Anyone handy with a hammer and saw can construct this sturdy seed frame. It is made up of four sides and a hinged top glazed with Vimlite*, flexible plastic glazing. Vimlite is used because it is shatterproof, lightweight, has good insulation qualities and is easy to install. No grooving of the frame, or putting is necessary. Vimlite is merely tacked in place like fly screen.

The standard size for seed frames is 3 feet x 6 feet. To protect it against rot and decay, the lumber used should be treated with Dow's pentachlorophenol. This chemical and Vimlite can be obtained at hardware, lumber and supply stores.

Assemble the four sides, center partition, and top frames according to the sketch. For permanent construction it is advisable to use gal-

vanzed screws instead of nails. The seed frame is set in place on the ground with the high side to the north, and the top sash slanted toward the sun. The inside should be filled with 3 inches of cinders or gravel and then a layer of top soil. This insulates against cold, and improves drainage. When the seed frame has served its purpose each season, it should be removed and stored until it is time to use it again.

- Lumber List**
- Sides: 9 pcs. 1" x 6" x 6 ft.
15 lineal ft. 1" x 2"
- Sash: 50 lineal ft. 1" x 2"
4 hinges, 1 1/2" x 1 1/2"
2 yds: VIMLITE, 36" wide

Skipper Projects "War" Trip

BERLIN—(AP)— Is war just around the corner? A German skipper in the port city of Bremen believes people think so.

He offers to bring passengers to "some safe place somewhere in the world in case of war"—if

they pay 2,000 Deutsche marks (\$600) fare.

But applicants must hurry to get a reservation. His freighter is rather tiny—450 tons, and can accommodate only 25 passengers.

Swimmers in the 14th Century wore special cramps rings which they thought would ward off stomach cramps.

The NEW **54** COTTON PLANTING SEED NOW AVAILABLE

The NEW Paymaster "54" is now available for the 1949 planting season—ready for farmers who want more profit from Cotton. This quick-maturing, high-yielding, better-staple-producing planting seed answers the demand for a variety that is tested and proved for West Texas growers. It is the result of scientific selection and painstaking experiments to develop a seed that will produce more money per acre planted.

Here's why the NEW Paymaster "54" is a money-making Cotton . . .

- EARLY MATURITY
Of 25 varieties tested recently . . . "54" was first in percentage of crop harvested in a four-month period.
- HIGH YIELD
In this same test, "54" was third among all varieties in yield per acre.
- BETTER STAPLE
"54" ran 15/16" to 1 inch throughout West Texas, assuring a better price.
- TESTED FOR DRY LAND
"54" has been proved successful for dry land farming as well as for irrigated Plains areas.

Be among those profit-minded farmers who demand a money-making Cotton planting seed—the NEW "54"; order your supply of the improved, state-registered "54" NOW.

IT PAYS TO PLANT PAYMASTER "54"
Sold through your ginners, your seed dealer, all branches of the Western Cotton Oil Co., and at Lockview Farm, Plainview, Texas.

The New '49 **PONTIAC**

Pontiac—Division of General Motors

The Most Beautiful Thing on Wheels!

We are, of course, very proud and happy that people everywhere are calling the new Pontiac "the most beautiful thing on wheels." Pontiac is a brilliantly beautiful automobile—as handsome a car as ever rolled over America's streets and highways.

Every line of Pontiac's new Fisher Bodies gives an instant impression of fleet gracefulness. Every inch of this big beauty, inside and out, is in the finest spirit of modern motor car design.

But Pontiac's real beauty cannot be fully appreciated until you drive the car. For the new Pontiac is beautifully engineered, too—to give you a kind of all-around, dependable automobile performance that simply must be experienced in order to be believed.

Pontiac for 1949 offers a totally new kind of ride—a ride as smooth and effortless and comfortable as a car can be. And either of Pontiac's famous engines, six- or eight-cylinder, is a sweetheart for power and for miles and miles of carefree driving. Remember, too, Pontiac is the lowest-priced car in the world offering the ease of Hydra-Matic Drive.*

Take a long look at the next new Pontiac you see—then come in and give the car a really thorough examination. That's the way really to appreciate why people are calling Pontiac "the most beautiful thing on wheels."

A BEAUTIFUL INVITATION to relax! There's no compromise with luxury inside the new Pontiac. Every detail of upholstery, appointments and interior trim is touched with extra beauty, extra quality—for your comfort, pride and convenience.

PONTIAC'S NEW Wide, Easy-Access Doors contribute greatly to the pleasure of owning and driving a Pontiac. The floor is level with all door sills—a safety feature particularly appealing to women.

PLUS ALL THESE FINE NEW FEATURES

- Completely New Bodies by Fisher
- Wider Seats—Added Wind
- New Wide-Horizon Curved Windshield
- Safe-T-New Driver View
- New Dial-Cluster Dash
- Carry-More Luggage Space
- New Low-Pressure Tires, 15" Wheels and Wider Rims
- Exclusive Travelux Ride
- New Finger-tip Starter Button on Instrument Panel
- New Heating and Ventilating System
- Lowest-Priced Car with *Optional GM Hydra-Matic Drive (at extra cost)
- Pontiac Famous Improved Straight Eight and Six Cylinder Engines

Strickingly Speaking

Not to be outdone by its rival, the News, over at Dallas, which recently moved into a brand new 5 million dollar building...

This new press is capable of printing and folding 52,500 80-page papers an hour. Some of our little country weeklies would have to stop the press before it reached full speed...

A lady at church Sunday informed our better-half that she liked to read our column. Like Uncle Raspery Stone down in middle Texas used to say: "No fool, no fun." That's us.

Senator Sorghum is strictly against socialized medicine. So he: "Imagine getting red tape and adhesive tape mixed?"

A neighboring editor allows that maybe attending church one Sunday in the year, at Easter, is better than not attending. Well, we'll admit that it is at least 3-52nd better than no attendance. Admittedly, also, that is poor attendance.

Speaking of Easter, most of us go along with the crowd, even though like Christmas, it has become a bit commercialized, and people like to attend to show off their spring things.

As to Easter itself, the word is not used in any of the revised versions of the New Testament. It is mentioned in the old King James version in Acts 12:4. But a footnote in that version corrects it and states that Passover was the word intended. In other words, it was the time of year for the Jewish Passover.

And while we are talking of the Bible and the scriptures, some one wrote recently that old Pilate was a pretty good guy, but he was afraid of the people, and side-stepped his duty, and thus permitted the crucifixion of Jesus. And that is something else to think about.

Take a peep way back in the Old Testament, and one of the major prophets 800 years before Jesus, tells us the whole story of the trial and crucifixion of Christ.

Now, suppose Christ had been allowed to escape the mob; lived to ripe old age, and finally died of natural causes. Would he have fulfilled his mission for which God sent him to the earth? Would that condition answered the scriptural description of a "Lamb being led to the slaughter?" You answer that one.

Our private notion is that some moron had to betray Christ, and some jackleg official had to consent to His death to fulfill all righteousness.

The Herald is just a bit juber-was about those war crime trials that have been going on since shooting stopped in both Germany and Japan. Just suppose, sometime, the tables were turned, and our high, low and middle officials were put on trial for supposed war crimes?

Don't imagine for a minute such things couldn't happen. It seems to us a better plan would be to let the regime appointed by the

occupation military authorities do the trying. Some such has been permitted in Germany, and in each instance, the war criminal has fared worse by stiff sentences from their home people. And in the long run, we will not have to take the consequences.

One of our great poets has written something like this: "Those who tread upon this earth are just a handful compared to those who sleep beneath its bosom." Another Bible truth teaches us that "a little child shall lead them."

So, perhaps in the death of little Kathy Fiscus, our people have been aroused by the death of this child. We can't recall little Kathy, but in her death perhaps an aroused public will demand that all abandoned wells and other death holes, shall be filled or permanently plugged.

The daily papers tell us that Vice-President Barkley is winning some southern support for Truman's "civil rights" program. Barkley is said to be pointing out that Moscow and satellites is using the southern attitude of segregation for the races for propaganda purposes.

Bro. Alben may have something there. But we have heard of no one leaving the USA to take up their abode in the land of great expectations behind the iron curtain. We might remind the vice-president right here, that of the some 180 million people in Russia, only one million are allowed to vote. One million are the big boys.

And, should we wish, had the time or inclination, we might use the above as propaganda against the Ruskiens.

Personally I doubt that our propaganda beamed to Russia is doing one particle of good, and we do not blame congress for stopping appropriations for these radio programs.

In the first place, the Commies are taught that all propaganda lies out of the whole cloth, no matter who puts it out. For that reason we would be the last person on earth to believe anything coming out of the Kremlin.

Wellman Whisperings

Mrs. Mary McBeth, a teacher in the Wellman Schools is a patient in the Treadaway-Daniel Hospital, after being operated on Monday, April 11.

Clyde H. Heafner has returned to his home in Wellman after being a patient in the Brownfield Hospital, his condition is greatly improved.

The Wellman Baptist congregation attended the last evening services of the Methodist Revival in the new Methodist Church in Wellman Sunday evening. The Methodist congregation had honored the Baptist people with like attendance during their recent revival.

The Wellman Methodist Church is not fully completed but is in use. It will be an attractive addition to Wellman.

Mrs. Miller Rich returned home Wednesday after a two week visit in Duncan, Okla., with her parents.

Mrs. Alma Bruce and daughter Barbara spent the weekend in Midland visiting their husband and father, Mr. Elmer Bruce. He is employed there with the Rowan Drilling Co.

Howard Wayne McIlroy spent the weekend in Lubbock.

EAGLE HUNTER

Game Warden Jess (Shorty) Felts of Dalhart is shown with one of the golden eagles he killed this spring. The gun leaning against the chair is his 30-s 3006 rifle with telescope sight. He usually shoots the eagles from a distance of 125 to 150 yards. He uses binoculars to locate and identify eagles as they fly or sit in trees or on cliff tops. If flying, he uses the binoculars to follow their flight and estimate about where they go so he can find their nesting place and eventually stalk and kill them. (AP Photo) (4-16-49).

Chain Gang

In the South Plains Association, is composed of some 40 lodges, which will give one a graphic idea of how the South Plains, as well as the lodges have grown.

The present officers are, Delma Benedict, of Plainview, President; Frank Jordan of this city, Vice-President; Chester Anderson, Muleshoe, Treasurer; R. A. Simms of this city, Chaplain.

Mayor C. C. Primm will deliver an address of welcome at the morning session, with response by Grand Master C. M. McLaughlin, of Lubbock. A parade will be put on through the downtown area at 1 p. m. Sessions will be held in the Odd Fellows hall on the north side of the square, and the American Legion hall. Lunch will be served at noon at A. L. Hall.

During the day, competitive degree work as well as individual charges will be put on by both the Odd Fellows and Rebekahs. At 6:30 p. m., a memorial service will be held at which the public is invited. This will be conducted by the Sundown Rebekahs.

Officers Terryite, and his deputy lived here for some time.

One of the planned programs of the convention was a district wide short wave system, that will keep the whole district on the same beam at all hours, so that a crime committed in any part of the area can be broadcasted immediately all over the district. This alone will be worth the time the peace officers spent here, if nothing else had been accomplished.

Brownfield and Terry county are glad that these men who often risk their lives to keep the peace, came to our city. Come again.

IOOF Convenes

been organized to take place in the business district starting at 1:00 p. m. Following the parade, members will convene for a business session at 2:00 p. m. The association minutes will be read and association business take care of. New officers will be nominated and installed. The meeting will close with a Benediction by R. A. Simms. Following the business meeting at 3:30 competitive individual charges will be given Odd Fellows at the American Legion Hall, and Rebekahs at the Odd Fellow Hall. Degree Master, Neal Bekey of Muleshoe will be assisted by Mrs. Jewell Reeves of Floydada, Tex. in this work.

Supper will be served at 5:00 p. m. at the American Legion Hall. At 6:00 p. m. the Brownfield Rebekahs will have their presentation service. At 6:30 the Sundown Rebekah Lodge will hold a memorial service at the Legion Hall. The public is invited.

The all day meet will be closed with competitive degree work at 7:00 p. m. for the Rebekahs at the Odd Fellow Hall, and the Odd Fellows at the Legion Hall. After the degree work is finished all will gather at the Legion Hall for the presentation of awards.

Mr. and Mrs. Herman Chesshir and family, and Mrs. Nell Chesshir and daughter left Thursday for Nashville, Arkansas to visit relatives. Mrs. Chesshir and daughter will remain for a longer visit.

Clark's Son Weds

William Ramsey Clark, son of Attorney General and Mrs. Tom Clark of Dallas, and Miss Georgia Welch of Corpus Christi, Texas, were married April 16 at the Church of the Good Shepherd, Corpus Christi. Left to right are the groom, the bride, Attorney General Clark, who was best man, and his daughter, Miss Mimi Clark. Both Mr. and Mrs. William Clark are students at the University of Texas and will receive degrees of Bachelor of Arts in June. (AP Wirephoto).

Rosemary Wilgus Married Tuesday Evening, April the Nineteenth, to Warren Dale Snyder

Rosemary Wilgus, daughter of Mr. and Mrs. E. W. Wilgus and Warren Dale Snyder, son of Mr. and Mrs. H. B. Snyder, both of this city, were united in marriage on Tuesday night, April 19 at 9 o'clock. The wedding took place in the Wilgus home with Rev. Herschel L. Thurston, pastor of the First Methodist Church officiating at the single sing ceremony. The couple stood before the fireplace, which was decorated with palms and greenery, and flanked with standing candelabras with white tapers. The bride wore a gray suit with black accessories, and a hair corsage of pink sweet peas. Her only attendant, her sister, Mrs. T. E. Crudup wore a beige dress and corsage of lavender sweet peas. Mr. T. E. Crudup, brother-in-law of the bride acted as best man. A reception followed the ceremony. The guests attending the wedding included the immediate families of both the young people, Mr. and Mrs. Chas. Grise, Mrs. Mary Grise, relatives of the bride and Ross Ellis. The couple left on a wedding trip to Pampa. They will return and make their home in Brownfield.

Miss Mildred DuBose spent the weekend in Lubbock with Mr. and Mrs. Raymond DuBose.

Style Show Slated In Wellman

There will be a Style Show presented in the Wellman High School Gym on Friday night, April 22 by the Wellman H. D. Club. Local men and boys will act as models for one section of the show.

A Simplicity wardrobe, a full line of dresses made from cotton bags, which was sent to the Wellman H. D. club by the National Cotton Council of America will be modeled by the Wellman high school girls. This wardrobe is one of three which is used as a medium of advertising of cotton in America and is made up by the National Cotton Council, which each year sponsors the "Cotton Queen". The wardrobe is made up with eye for the city woman or the country woman who can obtain cotton bags from a retail grocery or feed store.

Mrs. Harmon Scales is president of the Wellman H. D. club. The proceeds from the show will go into the club treasury for use by the club to stimulate interest in 4-H club work through Talent Club awards.

Mrs. Pete Crump and daughter spent the Easter holiday with Mrs. Crump's parents in Estelline.

PICNIC HELD IN COLEMAN PARK FOR COLLEGE STUDENTS

Coleman Park was the scene of a get-together picnic held for all the college students home for the Easter holidays. The students and their friends gathered in the park at 8:00 p. m. on Saturday night.

The group of girls who organized the picnic provided refreshments for the crowd. Over seventy young people attended, some out of town guests attended and some high school students.

Texas HDers Hold Session

The annual meeting of the Texas Home Demonstration association for District 2 was held in Floydada in the High School auditorium, Saturday, April 16. Registration began at 9:00 a. m. Lunch was served in the High School Cafeteria by the Harmony Home Demonstration Club. 238 members and visitors attended the meeting. The association is composed of 4600 members of Home Demonstration Clubs all over the state of Texas.

Judge G. C. Tubbs gave the welcoming address. He said he had never had a case of juvenile delinquency from the home of an H. D. Club-woman. A further welcome was given by Mrs. C. L. King, council chairman of Floyd county. Mrs. Joe Foltyn of Lamb county gave the response.

Mrs. G. T. Maltby, vice president for district 2 introduced the board members present. She also introduced Miss Kate Adel Hill, district 2 agent and Mrs. A. R. Hanna, first vice-chairman for district 2.

Guest speaker of the afternoon was Dr. E. N. Jones, vice president of Texas Tech. Dr. Jones subject was "Better Homes Make a Better World."

A Terry county resolution to issue 4-H club girls reading certificates, the same as H.D. Club women was voted on and passed. Terry County was one of six counties extending invitation for the 1950 district meeting.

Those attending from here were the three delegates, Mmes. R. E. Moore, Ralph Spain, Miss Lillian Doak. Miss Helen Dunlap, H. D. agent, Mrs. Jewell Bell, council chairman, Mrs. Dock Settles, council secretary, and Mmes. W. F. Jones, Carroll Shults, J. D. Howard, W. J. Moss, Jack Gray, and Horace Fox also attended.

Mr. and Mrs. G. W. Henson entertained with a dinner at their home on Easter Sunday.

The following were present: Mr. and Mrs. Edward Smith and family of Hereford, Junior and Glen Washer of Clovis, New Mexico, Jo and Junior Henson of Clovis, New Mexico, Mr. Mrs. R. E. Thompson, and Mr. and Mrs. Loyd Wayne Yowell of Brownfield.

One-Day Lecture Program to Be Presented Church of Christ

Elder J. R. Chisholm

The Crescent Hill Church of Christ has set aside one day lectures to be held next Tuesday, 26th, at which time Elder J. R. Chisholm will deliver a report on the work now going on in Italy. Mr. Chisholm, who is one of the elders here, as well as the business manager of the Frascati Orphan Home near Rome, Italy, has recently returned from there where he helped to set the work in order.

While there he had the privilege of seeing the first converts baptized into Christ, and the work of founding the orphan home really get under way. For the time being, the home is taking boys only. But demand in the future may make it necessary to add a girls' department. All are invited to hear this program. Fol-

lowing is the program as outlined for the day:

Morning Session 10:00 a. m.
 "The Land and the People"
 Noon Meal 12 Noon
 Afternoon Session 2:30 p. m.
 "The Work in General"
 Round table discussion and Questions 3:30 p. m.
 Evening Meal 5:30 p. m.
 "Teaching Program and Its Results"

Moving pictures taken in Italy will be shown at 9:00 p. m.

All in attendance will be guests of the church at both noon and evening meals, and lodging will be found for visitors from a distance.

CENTURY HARMONY CLUB MEETS WITH MRS. DALLAS

The Cen-Tex Harmony Club met in the home of Mrs. W. H. Dallas on Tuesday night, April 19.

Mrs. Grace Wood was special program director. The program opened with a number by the club chorus, "Song of the Home". Next Mrs. R. A. Brown offered a vocal solo, "I've Done My Work". The club chorus returned to sing, "Sundown". The closing number was a duet by Mmes. Herschel Thurston and Fred Bucy. They sang "Old Fashioned Garden".

Refreshments were sold to the following: Mmes. Johnny Benson, R. A. Brown, Fred Bucy, D. P. Carter, W. H. Dallas, Wm. Glick, Wayne C. Hill, N. L. Mason, Billy Moore, Eldora White, Grace Wood, Richard Young, and Misses Edith Creighton, Delia Wall, and Creola Moore.

Annie Bess McGraw United To Jesse Brooks Here April 17

Miss Annie Bess McGraw, daughter of Mr. and Mrs. J. A. McCraw of Johnson and Jesse Brooks, son of L. J. Brooks of Meadow, were united in marriage at 8 o'clock Saturday morning, April 17, at the First Methodist Church. Rev. Herschel L. Thurston performed the double ring ceremony. Only the immediate family were present at the services.

The bride wore a dress of navy blue with pink and white accessories. Her corsage was of orchids. The brides mother, Mrs. J. A. McCraw wore a black and white floral crepe with white accessories and a corsage of white carnations.

The couple left after the cere-

mony on a wedding trip to Denver, Colorado. On their return they will be at home at 902 Tahoka Road.

Mrs. Brooks is employed by H. M. Pyeatt at the Court House. Mr. Brooks will be in business with his father in Meadow.

FOUR NEW MEMBERS IN WELLMAN 4-H CLUB

The Wellman 4-H club met on April 15. The vice-president presided at the meeting. The meeting opened with two songs sung by the group and led by Patsy Moore and Donna Weldon.

The club has added four new members to its circle. The 4-H club girls will assist in the modeling at the Style Show to be given by the Wellman H. D. Club on April 22.

Brownfield Family Attends Reunion At Stamford

Mr. and Mrs. Walter R. Skiles, Clyde, James, and Donald Wayne of Brownfield, attended a family reunion at Stamford, Tex., on Easter Sunday. There were 87 members of the family present. Dinner was served at Buie's Park about four miles south of Stamford.

All of Mrs. Lillie Skiles' children were present. There are five boys and five girls in the immediate family, 31 grandchildren, and 4 great grandchildren. Mrs. Skiles' mother, Mrs. Emeline Justus, who will be 87 the 14th of July was also there.

Besides the Skiles family many friends were also present. It was the first time the entire family had been together in five years. Pictures were taken in the afternoon and the children had an Easter egg hunt.

HOGUE FAMILY HAS REUNION

The Hogue family held a reunion on Easter Sunday in the home of T. C. Hogue, Sr. A buffet style dinner was served.

Those present were: Mr. and Mrs. Dick Heath of Lubbock, Mr. and Mrs. Boyd Hogue and James of Levelland, Mr. and Mrs. Ted Fox, Mr. and Mrs. T. C. Hogue, Jr., and Mr. Carl Hogue, all of Brownfield.

WELLMAN HD CLUB MEETS TO PLAN STYLE SHOW

The Wellman H. D. Club met in their new club room April 15. The new meeting place of the club is located in the Red Brick School.

There were eight members present. Plans were made for the style show to be given by the club. It will be held April 22 in the gym. The modeling will be done by men and boys, and costumes will be provided by the Simplicity Pattern Co. Admission will be 25c for adults and 15c for children. The public is invited.

Mr. and Mrs. R. L. Jones and daughter, Donna Rae of Seagraves visited Mr. and Mrs. H. C. Jones Sunday.

From barn to belle—that's the story of this cute cotton frock. It is made of used cotton lags that once packaged feed. The pretty dress is one of the fashions from the National Cotton Council's new 1949 fashion show of styles created from feed and flour sacks.

PHI BETA CRAESUS CLUB PLANS BAKE SALE

The meeting of the Phi Beta Craesus Club at the home of Mary Chisholm on April 19, opened with a short business meeting. Plans were discussed for a bake sale to be given by the club on Saturday, April 23 at Kyles No. 1 Grocery. Plans were also made for a spring dance to be given by the club in the near future.

Cakes and sandwiches were served to the following members: Onagene Walker, Janelle Thompson, Phyllis Basher, Glenda Blevins, Annie Walker, Janelle Thompson, Phyllis Basher, Glenda Blevins, Annie Nicholson, Nancy Weir, Ann Snedeker, Barbara Stice, Lynne Sturges, Joan Blevins, Nelda Brown, Patsy Black, Wanda Stafford, Nan White, Harlene Glenn, Sandra Bailey, Peggy Black, and the hostess.

Mrs. Lillie J. J. Whitley Honored With Party

Mrs. J. J. Whitley, who is visiting with her husband in California in the home of her daughter, Mrs. Ruby Doss, was honored with a birthday party by her children, grandchildren, and great-grandchildren, Mr. and Mrs. Whitley are staying for several months in Tustin, Calif., because of Mrs. Whitley's health.

The party was a surprise to the honoree. A large decorated cake was baked for Mrs. Whitley by one of her granddaughters, homemade ice was baked for Mrs. Whitley by one of her granddaughters, homemade ice cream one of her granddaughters, homemade ice cream was also served. Two of the great-grandchildren took turns in presenting her with gifts of the family. The evening was spent in conversation and watching the television shows.

Mr. and Mrs. Whitley are the parents of eight children, of whom six and their families live in California. All of these were present at the party. The only children unable to attend were Mr. Richard Whitley and family of Brownfield, and Mrs. Logan (Zella Whitley) Earnest and family of Rotan.

BROWNFIELD GIRL CHOSEN MISS KEY OF THE WEEK

(Taken from the Albuquerque Key)

Miss LaVerne Collier, attractive young manager of Maycrest, adjacent to the University of New Mexico, at 1908 E. Central, is Miss Key for the week.

She only recently finished her work at the University of New Mexico and will receive a fine arts degree this June.

Born at Brownfield, Tex., (Way Down yonder on the Texas plains) she attended the public schools there for 11 years and then matriculated at the Abilene Christian College — where the students sing hymns every morning and wear formal attire for dinner. Male students wear coats and ties.

With the end of the war, Miss Collier, in tune with the times, quit school and went to work in a dentist's office. As she put it, she went from models to molars.

With the end of the war she enrolled in the art classes at the University of New Mexico in Albuquerque, and completed her courses during the summer of 1948.

Her first job was with the Nob Hill firm, where she was a window decorator. From there she came to Maycrest, to sell art supplies, school supplies, a complete line of monogrammed stationery, and NorCross cards.

POOL HD CLUB MET APR. 12 WITH MRS. E. J. DUNCAN

The Pool Home Demonstration organization is to promote Tech Club met April 12 with Mrs. E. J. Duncan. Ten members and A. Intra-squad football game between visitors were present. Mrs. E. J. Duncan, the Ranchers, and the W. F. Terry gave the council re-Farmers is scheduled for Saturday. Mrs. Roy Barrier gave away at Jones Stadium at 8 p. m. talk on "Household Cleaning The pep organization has divided Made Easier." Refreshments were into teams to promote the sale of served to the group. New mem-tickets, Ernest Sears is in charge bers and visitors are welcome. of the sale of tickets for the Mrs. V. R. Osburn, Reporter.farmers.

HAPPY COUPLE

Dr. and Mrs. John Deaver Alexander leave the Church of Spihany, Kingsville, Texas, April 16 after their wedding. Mrs. Alexander is the former Helen King Kleberg, daughter of Mr. and Mrs. R. J. Kleberg, Jr., manager of the King Ranch. Dr. Alexander is the son of Mrs. E. G. Alexander of Philadelphia. (AP Wirephoto)

JESSE G. RANDAL PTA MEETS

Thirteen delegates to the Parent Teacher Convention to be held at Lubbock, April 28th were elected at the regular meeting of the Jesse G. Randal P. T. A. at the school on April 13.

The assembly voted to have their books printed commercially again for next year as this method has proven satisfactory. Principal Woods gave a discussion on parent teacher relationship in helping the primary pupil toward proper learning habits.

Some of the points she brought up such as, the misguided expectation of parents that the child bring home a straight A report card, were timely.

Supt. Cowan complimented the group on being especially active. He mentioned the pressing need for a lunch room at the school, and referred to the need of adequate diets for young children. He also discussed the very real value of education in it's more practical aspects.

Mrs. H. W. Covert's room was first in parent's attendance. Mrs. Covert and Mrs. Shropshire's pupils presented an elaborate and carefully planned program. It opened with a presentation called Easter parade, and included the Dance of the Fairies, and a Virginia Reel. Senior Service scouts, Bernadine Chapman and Laura Mae Odum assisted in presenting the program.

BROWNFIELD BOY ELECTED HEAD OF TECH PEP CLUB

Ernest Sears, son of Mr. and Mrs. Kelly Sears is the newly elected president of the Saddle Tramps, the Texas Tech pep organization. The purpose of this

PRETTY PUCKERETTE

A gay cotton puckerette swim suit makes a sunny beach even brighter. Designed by Catalina in printed seersucker, the ballerina-skirted suit is convertible and can be worn either strapless or with straps. The National Cotton Council reports that cotton is the favorite fabric for swim suits and beach clothes this season.

It's a cotton spring all over this year. The girls are wearing cotton from their colorful printed shoes up to their peep little hats.

Mrs. Maudie Romans went to Temple last week for a check up. Specialists advised a rest which she will take with a sister at Kerrville before returning home.

Mr. and Mrs. Jay King and Mrs. Madeline Holder and daughter Dee Ann spent Sunday in Lamesa visiting relatives.

Ona Faye Thornton of Monahans spent the Easter holidays in the home of her parents, Mr. and Mrs. W. A. Tittle.

MRS. MASSENGILL HOSTESS TO PLEASANT VALLEY CLUB

The Pleasant Valley HD Club met last Friday in the home of Mrs. Eudora Massengill, with the president in the chair. Roll call was answered by eight members, who gave helpful ironing hints.

Mrs. Hubert Henson led the group in playing the game of "Famous Faces", with Mrs. Leonard Willis and Mrs. W. R. Gandy being first to guess the famous faces. Each club member paid 35c to send the council for the sale of their Easter Eggs.

A beautiful Easter plate was served to the members and one visitor, Mrs. W. R. Gandy of Lorenzo.

GOMEZ HD CLUB MEETS
Mrs. John Roach was hostess at the regular meeting of the Gomez H. D. Club held Thursday, April 14th. The hostess received a pitcher and iced tea glasses from the members.

Mrs. Alton Webb was elected by the club to go to a Short Course at Texas Tech in August. Mrs. Lowell Stevens was elected as alternate. All Club members are to be thinking of outstanding things to do during H.D. week, May 1st to May 7th.

Mrs. J. C. Wooley gave a talk on cleaning electric appliances and household cleaning hints.

There were eight members present and one visitor, Mrs. J. H. Blevins of Phoenix, Ariz. The next meeting will be held on April 28th in the home of Mrs. Kellie Sears.

GRAHAM SMITH ELECTED ELDER FROM ABILENE PRESBYTERY

W. Graham Smith, local insurance man has been elected principle elder delegate from the Abilene Presbytery to the general assembly of Presbyterial churches, which meets at Buffalo, N. Y., May 19 to 26.

Smith was elected at a recent meeting of the Abilene Presbytery at Stamford.

Mr. and Mrs. Smith and their daughter Charlotte will all make the trip to Buffalo. They plan to be gone about a month and will visit in Canada, Washington, D. C., and other points of interest along their route.

Mr. and Mrs. Will C. Brown and children, Mrs. Ruth Smith and Delores, Ramsey and daughter visited in Roswell, New Mexico Sunday.

Lubbock Road Brownfield, Texas

How much is it WORTH?

You can't put a real price tag on telephone service. Who can say what it's worth when it brings a doctor quickly? Can you set a price on the pleasure of hearing a loved one's voice from many miles away? How would you value the countless minutes and steps it saves in everyday living? Whatever the telephone is worth, its cost is small for the many services it performs every day for everyone.

ROTARY HOE Controls Weeds in the row

REDUCES HAND HOEING

Quoting Mr. D. L. Jones, superintendent, Texas A & M Experiment Station, Lubbock: "At present, this is practically the only tool that will control weeds in the drill row before close sweep cultivation is possible."

Here are some advantages of the rotary hoe:

1. Uproots weed seedlings in the row; allows topsoil to dry, preventing further weed growth.
2. Works best at high tractor speeds, without damage to cotton or corn plants—up to 60 acres per day.
3. Definitely stimulates young crops.
4. Breaks soil crust, helping crops to come up.

Allis-Chalmers rotary hoes are front-mounted, where you can watch them easily without turning your head. You can keep the teeth exactly on the row, getting rid of the weeds that cause the most trouble. See us right away about an Allis-Chalmers Rotary Hoe for your farm.

Texans Take Lead in Cancer Drive

HOUSTON, (Special) — Texans are taking a leading part in the 1949 educational and fund-raising drive of the American Cancer Society. Clark Sudduth, state campaign director, has announced.

State campaign chairman is Karl Hoblitzelle of Dallas, well-known philanthropist. Frank C. Smith of Houston is president of the Texas Division of the Society, Tom Braniff of Dallas chairman of its board, and Dr. E. W. Berner of Houston executive committee chairman.

National vice-chairman of the 1949 drive is Mrs. Oveta Culp Hobby, wartime WAC commander and wife of Former Gov. W. P. Hobby, who was the 1948 state campaign chairman.

In the nation's capitol, Congressman Lindsey Beckworth, Democrat, Texas, is one of a group of senators and representatives pledging support to the campaign. He is a member of the Congressional Cancer Campaign Committee.

The state advisory committee is composed of R. J. Kroeger of Harlingen, John Ben Sheppard of Gladewater, E. H. Perry of Austin, DeWitt Ray of Dallas, Morris Roberts of Victoria, J. W. Newton of Beaumont, W. L. Stewart of Fort Worth, M. C. Ulmer of Midland, Ted Dealey of Dallas, J. H. Frost of San Antonio, Walter R. Humphrey of Fort Worth, A. D. Simpson of Houston, Former Gov. Hobby of

Perfect Match

Dainty is the word for the delicate young blouse created for actress Dorothy Malone, for early spring wear with skirts and suits. The flowing crepe sleeves are finished with narrow, scallop-edged cuffs and embroidered shamrocks are scattered across bodice and collar.

Houston, Dr. G. V. Brindley of Temple, Dr. Tate Miller of Dallas, Frank W. Mayborn of Temple, John D. Mitchell of Odessa.

Review "City of Flaming Adventure"

Although San Antonio is the most historic city in Texas and one of the four most distinctive cities of the United States, the first full-length history of the "Cradle of Texas Liberty" is just now about to appear. CITY OF FLAMING ADVENTURE—The Chronicle of San Antonio has just been released by the Naylor Company.

To Boyce House, the author, the book is the realization of a dream cherished for years. He accumulated material for a long time and when he settled down to the task of research, he read more than a hundred books, as well as numerous magazine articles and unpublished memoirs.

The result is a volume of 80,000 words, profusely illustrated. The charm and romance of Spanish days, the struggle for the freedom of Texas from Mexico, the stirring days of the Texas Republic, the Civil War, the cattle drives up the trail and thrilling gunfights are related. Such picturesque figures as "Bet-a-Million" Gates, Sidney Lanier, Robert E. Lee, "Big Foot" Wallace, Sam Houston, Judge Roy Bean, "Shanghai" Pierce, Col. Ike Pryor, "Ike" Eisenhower, Douglas MacArthur, Samuel Maverick and many more have a part in the story of the most fought-over city and the greatest military center in the United States.

House is the author of nine other books, of which the best known are I Give You Texas, and Tall Talk from Texas.

NOTICE OF SALE UNDER EXECUTION

THE STATE OF TEXAS
 COUNTY OF TERRY

By virtue of an execution out of the District Court of Terry County, Texas on a Judgment rendered in said Court on the 7th day of February A. D. 1949, in favor of Jim Griffith, as Plaintiff and against J. H. Gouby and others, to-wit: W. R. Bounds, and his wife Mary F. Bounds, H. O. Bounds, E. W. Bounds, Hub, Joe, Aggie Fay Johnson, John Newt, Pete, Coke, Bill, T. M. and Ruth Simms, Elmer, Pauline, Jane, William Edgar, the unknown heirs and legal representatives of the above named persons, who are dead, the females of the above named husbands who are married, the husbands of the above named females who are married, the unknown wives and nephews of the said W. R. Bounds and or Mary F. Bounds, better names not being known, as Defendants.

In the case Styled Jim Griffith vs J. H. Gouby et al, No. 5532, in the District Court of Terry County, Texas, I did on the 28 day of March A. D. 1949, at 9 o'clock A. M. levy upon the undivided interest of the hereinbefore named defendants, and each of them, in and to the following described tract or parcels of land situated in the County of Terry, State of Texas, to-wit:

Tract No. 1, Twenty (20) acres of land, a part of Survey No. 101 of Block T, D&W RY CO surveys, said 20 acres of land described by the following metes and bounds, to-wit:

BEGINS at a point recognized as the Southwest corner of said Survey No. 101; Thence East, with South Survey line of said Survey No. 101 a distance of 440 yards, a stake the Southwest corner and beginning corner of this tract. Thence North a distance of 220 yards, a stake, the Northwest corner of this tract; Thence East, parallel with the South base line of said Tract, a distance of 440 yards a stake, the Northeast corner of this tract. Thence South, parallel with the East base line of said Survey No. 101, 220 yards a stake at the Southeast corner of this tract; Thence West with the South Base line of said Survey No. 101 a distance of 440 yards a stake the Southwest corner and place of beginning.

Tract No. 2; Also 80 acres of land being the East Eighty acres of the Northwest one-fourth of Survey No. 100, Block T, of the D&W RY CO. Surveys, land in Terry County, Texas, Each of said described tracts being in Terry County, Texas.

And on the 3rd day of May A. D. 1949, being the first Tuesday of said month between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the Court house, door of said County, I will offer for sale and sell at Public Auction for cash, all the Undivided interest, rights, titles claims, and interest of the said J. H. Gouby and the others hereinbefore named as Defendants, in and to said property, herein described. In satisfaction of a Judgment lien of \$375.40 with \$54.60 cost of court.

Dated this 29th day of March A. D. 1949.
 OCIE H. MURRY
 Sheriff, Terry County, Texas. 39c

Citation By Publication

AN ORDINANCE REQUIRING THE PARKING OF ALL VEHICLES, OF EVERY KIND AND CHARACTER PARKED WITHIN THE CITY OF BROWNFIELD, TEXAS TO BE PARKED PARALLEL WITH AND NEXT TO THE CURB EXCEPT THE AREA OF SAID CITY OF BROWNFIELD LOCATED WITHIN ONE BLOCK OF THE COURT HOUSE SQUARE AND PRESCRIBING A PENALTY FOR THE FAILURE OR REFUSAL TO SO PARK AFTER NOTICE.

Section 1. That all vehicles of every kind and character which may hereafter be parked within the Corporate Limits of the City of Brownfield, Texas on any street therein shall be parked parallel with and next to the curb on the right hand side of said vehicle except vehicles parked within one block of the Court House Square within said Corporate Limits.

Section 2. Any person, firm or corporation who shall park any vehicle of any kind or character on the streets within the Corporate Limit of the City of Brownfield, Texas in any manner other than parallel with and next to the curb on the right hand side of said vehicle, except the area within one block of the Court House Square, shall constitute a separate offense.

Section 3. The fact that the City of Brownfield has no ordinance regulating the parking of vehicles on the streets within the corporate limits of the city of Brownfield and that vehicles are parked contrary to the manner necessary for the safety of the inhabitants of the city of Brownfield, Texas, causing great danger to the life and limb of the inhabitants of the city and other persons using the streets, creates an emergency and imperative public necessity requiring the suspension of the rule that ordinances shall be read at these meetings of the City Council. Said rule is therefore hereby suspended, and this ordinance is put upon its final

Be it ordained by the City Council of the City of Brownfield, Texas.

OCIE H. MURRY
 Sheriff, Terry County, Texas. 39c
