The Terry County Herald

Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

The Herald has grown with this section from strictly a ranch country. This area now consists of thriving towns and cities, supported by scientific farming and stock farming, augmented by huge oil fields, with the nation's largest known oil reserves.

AP PHOTOGRAPHERS FOLLOW "STORM PATH" ACROSS THE STATE

Picturing millions in dollar losses and untold human misery and suffering—and many deaths—the Associated Press has furnished The Terry County Herald, a member paper, with scenes from the terrible "storm path across Texas." As the flood waters (upper photo) creep into their front yards, these Fort Worth people load their household possessions on to trucks. Boats, rubber rafts and crude makeshift rafts were also used. (Lower picture): This section of Amarillo shows homes that were either damaged or destroyed when a tornado struck Sunday night, May 15. More human bodies were found yesterday in debris of the Fort Worth flood, but count could not be relied upon for completeness until waters recede.

Meadow Teacher Dies of Crash Injuries

Mrs. Troy Wright Dies Wednesday; Funeral Thursday

Mrs. Troy E. Wright, 46, died at 3:30 P. M., Wednesday in the Treadaway-Daniell Hospital as a result of injuries she received in an accident Monday afternoon.

Mrs. Wright was a resident of Terry County for 20 years. She was teaching in the Meadow school system at the time of the accident. Mrs. Wright was a member of the Baptist church, and held a membership in the Order of the Eastern Star.

Funeral services were conducted Thursday afternoon at the First Baptist church in Brownfield, with Rev. B. B. Huckabay, pastor of the Meadow Baptist church officiating, assisted by Rev. Jack Pierce, of the Southside Baptist church.

Interment was in the Terry County Memorial Cemetery, under the direction of the Brownfield Funeral Home.

Survivors include her husband; her parents, Mr. and Mrs. D. J. Franks; four sisters, Mrs. C. W. Phillips, Mrs. D. V. Travis, Mrs. T. H. Burnett, all of Brownfield, and Mrs. J. B. Jeffrey of Lovington, N. M.; six brothers, Rev. A. J. Franks, F. C. Franks, and R. E. Franks, all of Brownfield, and S. C. Franks, J. B. Franks, and E. R. Franks, all of Lovington, N. M.

Two Home Town Boys Who Have "Made Good At Home"

This week, we are giving a story in brief form of our two home town physicians, who returned home and made good. We have a two column picture of Dr. Treadaway, not that we are showing partiality in the two doctors. It was just that the photographer, Johnny Brooks, had to invade Dr. Lester's office and get a shot. Dr. Alfred's wife swiped one of his pictures that would look well one-column. Here goes the sketches:

Dr. Thomas Lester Treadaway
Subject was born July 30, 1904 in Milan county. Spent his early childhood at Miles, Texas, and moved with his parents to Brownfield in 1913. Graduating from high school in 1921, he attended Simmons College at Abilene, taking a pre-medical requirements. He entered the U. of T. Medical college at Galveston and graduated with honors in 1927, spending his senior year as intern in John Sealey Hospital. The next year was spent in a San Antonio hospital.

He returned to Brownfield in 1928, and entered a partnership with his father, the late Dr. T. I. Treadaway. Later he entered a partnership with the late Dr. W. H. Dunn, at Lamesa, in order to engage in hospital and surgical practice. After the death of his father, he returned to Brownfield, and opened practice with a hospital over Kyle Grocery in 1932. He was joined in 1934 by his present partner, Dr. Alfred Daniel, and the hospital became the Treadaway-Daniell Hospital.

He has already started practice in his own second generation, as he has recently delivered babies for two young mothers whose births he attended several years ago. He has two sons, Roland Turner (Sonny), a student in the University of Texas, and Thalmann Lester (Roscoe), an eighth grade student in the local schools.

Member Five County Medical Society, composed of Dawson, Lynn, Terry, Gaines and Yoakum counties. Also State Medical Association, and a charter member of the Terry County Society, and has served as its secretary-treasurer for several years and later as president.

Dr. Lester has taken post-graduate work at both Dallas and San Antonio. Served as physician for the Selective Service Board during the war, and has been joint County Health Officer for several years.

Member Chamber of Commerce, Methodist church and a former Rotarian, withdrawing because of heavy practice. Chief hobby: Hunting. A sport fan, especially football.

Dr. Alfred Harris Daniel
The subject was born May 23, 1904 at Paducah, Texas, and moved with his parents in 1917 to Brownfield. Graduated from Brownfield High School in 1922, and attended Simmons College.

Plans Shaping Up For Brownfield's Approaching Rodeo

With the completion of the new rodeo arena, plans for the Jaycee Rodeo to be held June 23 through 25 are almost complete. Frank Szydoski, chairman of the general rodeo committee, stated that 2,000 spectators can be accommodated at each of the three nightly events since the new bleachers and box seats have been constructed.

The Jaycees are working hard to complete plans to make this second annual Jaycee rodeo the best rodeo Terry County has ever seen.

Howard Brown of Dublin is furnishing his world renowned rodeo stock for the shows. Cash prizes of \$1500.00 have been added to swell the purse awards for five divisions of the rodeo.

The main attraction of the rodeo this year will be Monte Hale one of the newer western stars in Hollywood, who is a top-notch entertainer. Also, one of the attractions will be the Moore family and their Taximeter Mule.

George Fairchild of Miami, Okla., a well known figure in his field, will be the rodeo clown and bull fighter.

A huge parade is planned to start off the celebrations, and a dance will be held at Veterans Hall on Wednesday night before the rodeo begins, then a dance each night after the rodeo performance.

OPTOMETRISTS HEAR PSYCHOLOGIST LECTURE

The South Plains Optometric Society, of which Dr. Gordon E. Richardson is a member, held a meeting in Lubbock Thursday, May 12, at 8 P. M.

Dr. Agnes True, professor of Psychology at Texas Tech, was guest speaker of the evening. She told of an experiment, made by Dr. Myrtle B. McGraw of the Neurological Department of Columbia Medical School, in which identical twins were the subjects. One twin had visual training, and the other had no training. A film, "Johnny and Jimmy," showed the actual experiment and the results.

Jester Signs Soil Conservation Emphasis Week

The Herald is indebted to Farm and Ranch for the cut below. This splendid farm paper has always taken a leading part in soil conservation for Texas. The dates are May 22-29th.

Watching the governor are, left to right: Paul Walser, state conservationist, Soil Conservation Service; Dr. R. D. Lewis, director Texas Agricultural Experiment Station; J. D. Prewitt, acting director, Texas Extension Service; A. B. Ennerly, editor Farm and Ranch Magazine; D. W. Williams, Vice-chancellor, Texas A. & M. College; V. C. Marshall, executive secretary, State Soil Conservation Board; and R. A. Manire, director vocational agriculture, State Board of Education.

Local Negro Takes Valuable Watch

Sheriff Ocie Murry had become rather suspicious of a negro man here this week, as he had heard that there was some pilfering in stores by some one when the backs of the employees were turned.

He followed the negro into an alley, and finally stopped him. The black wanted to know if any of the other negroes were reporting on him, when the Sheriff told him to keep his shirt on. But the negro said he could lick any negro that was storing on him.

Finally as the negro did not appear to have anything on him, Mr. Murry left. A white man later saw the negro go back to the alley and pick up something, and a valuable watch was reported to have been taken at the Wilgus Drug Store.

Deputy Buel Powell pick up the man, Dilly Fletcher, 44, just a little while later wearing the watch in the negro section. He had a record, having served two years in the New Mexico pen for theft of a diamond.

John C. Bass Buried Here Thursday

Last rites were conducted Tuesday, May 17, for John C. Bass, who died at his home, following an illness of several months. Mr. Bass, a retired farmer, had lived in Terry County for 25 years.

Funeral services were held at 3 P. M. in the First Baptist Church, with Rev. L. C. Sparkman conducting, assisted by Rev. W. T. Sparkman. The funeral was under the direction of Brownfield Funeral Home, with burial in Terry County Memorial Cemetery.

Pall bearers were Bill Schultz, Oliver Miller, T. O. Miller, Raleigh Luker, Jessie Bryant, and Cletus Floyd.

Mr. Bass is survived by his wife; two daughters, Mrs. John Hill and Mrs. Perry Bryant; three sons, Curtis of Andrews and J. L. and Otis Lee; three brothers, J. A., L. G., and A. B., all of Spur, and two sisters, Mrs. G. W. Acham of Alabama and Mrs. R. C. Warren of Roswell, N. M.

DELUXE CLEANERS TO BE OPEN SOON

The Deluxe Cleaners, under the management of J. B. Huckabee, owner, will soon be open for business. The tailor shop is located in the former Foy Mackey School of Dance building at 304 Lubbock Road. An opening date has not been set.

LOCAL MAN OPENING JEWELRY STORE

Jack Shirley, who sold the Laundera to Jesse McMillan two weeks ago announces the opening of the Shirley Jewelry Store in Lamesa Saturday, May 21.

George Warner, formerly with the Bayless Jewelry store in Brownfield, will be the manager of the store. He and his family have already moved to Lamesa.

The new store, which is located at the northeast corner of the square in Lamesa, will sell good lines of watches and other jewelry. They are equipped with the latest watch repair equipment.

A door prize of a ladies or gentlemen's watch will be given at the opening Saturday. Every one is cordially invited to attend.

Abe Lincoln was in Lubbock on business Monday.

The Bargain Center Has New Manager

J. F. Diekhaus, formerly of St. Louis, Mo., has been employed as manager of the Brownfield Bargain Center. Mr. Diekhaus has had 20 years of experience in merchandising, having worked for the Consolidated Retail Co. for eight years and for Famous-Barr Company for eight years.

PARENTS URGED TO PREPARE PRESCHOOL CHILDREN

Mrs. Irene Griffith, county health nurse, urges that all parents of pre-school children have their children inoculated against smallpox, diphtheria, and whooping cough this summer. She stated that it would make the child, beginning school for the first time, much happier in his school work if he has already received his immunization before school starts.

It has been impossible to hold the preschool roundup clinics this year to inoculate all the pre-school children, so it is hoped that the parents of these children will consult their own private physicians or personnel at the county health unit concerning immunization requirements for beginning school.

Meet Termed 'Urgent'

There will be a mass meeting of every civic organization in Brownfield Tuesday, May 24, at 8 P. M. at Veterans Hall. Barbecue will be served for the same price of a meal at the regular meetings of each club.

Stuffy Moorhead, chairman, urges every member to attend this meeting as it is of great importance and concern to the entire community.

TEXANS IN WASHINGTON

By TEX EASLEY

Special Washington Service of Associated Press
WASHINGTON—Tourists often are surprised to learn that the president has no office at the Capitol and, in fact, seldom visits there.

His close contact with the lawmakers is through their personal visits to the White House, nearly two miles distant from the Capitol.

Congressmen sometimes go to the White House singly, particularly if it's about a matter of interest only to their district, but often they go in groups.

Rep. Ed Gossett of Wichita Falls, in a news letter to constituents, tells the how and why of one such meeting.

"At the behest of Congressman Emanuel Celler of New York, Chairman of the House Judiciary Committee, the President called to the White House all of us Democratic members of such committee," wrote Gossett.

"His object was to sell us on his proposal to bring 400,000 so-called DP's from the DP camps of Europe. He was partially successful since the Judiciary Committee this morning (May 5) reported out a bill to bring in 339,900 of such individuals.

"There were nine of us in the Committee who voted against the bill. This whole plan has been promoted and sponsored primarily by the Zionist organizations of America. They have succeeded in getting a great many prominent churchmen and organizations to join in these demands to bring these people to our shores.

"I shall oppose this bill as effectively as possible. However, proponents of this dangerous and unfair legislation have tremendous organization, money, and propaganda behind them."

AROUND THE CAPITAL: Twenty years ago May 9 the Texas congressional wives organized as a social group for monthly luncheons at which no subject more serious than hats and children could be discussed.

Politics and legislative matters were taboo, likewise speeches. That's still the policy, and it must be a good one because the group is considered the outstanding woman's organization of its kind in Washington.

The Anniversary Luncheon was called in honor of Mrs. Tom Connally, wife of the senior Texas Senator, who founded the club. She then was the wife of Texas

Senator Morris Sheppard, who died in 1941. Mrs. Frances Cotton Poage, wife of Rep. Bob Poage of Waco, was chosen to serve as toastmistress. Mrs. Lady Bird Johnson, wife of Texas' junior Senator Lyndon B. Johnson, was chosen to present a silver gift to Mrs. Connally.

Only Texas congressional wives, or women whose husbands have served in Congress from Texas, are club members. This latter category includes Mrs. Luther A. Johnson, wife of the former Corsicana congressman who now is a judge on the U. S. Tax court; Mrs. Jack Beall, widow of the one-time Dallas congressman; Mrs. Fritz Lanham, wife of the former Fort Worth representative; Mrs. Eugene O. Black, whose husband represented an East Texas congressional district before assuming a federal judgeship here.

Only Texas women can be invited to the monthly luncheons as guests. The affairs usually are held at various small but well-known inns.

MEATS FINE FOR BABIES AT EARLY AGE; COOK GETS TIPS ON FOOD PREPARATION

BABIES have been taking the spotlight during the month of May, since the first week in the month is set aside as National Baby Week.

Perhaps few people realize it, says Reba Staggs, a well known food authority, but in considering the proper nutrition of babies, it is a fact that they need more than three times as much protein per pound of body weight as do adults. The protein is necessary for growth and the repair of body tissues.

Meat is an important source of high quality protein. Miss Staggs points out. Contrary to the popular belief, studies have proved that babies can easily digest properly prepared meat.

These studies showed that the meat-fed babies had good red blood and no tendency toward anemia as did babies not receiving meat. In addition, the meat-fed babies seemed to be more satisfied and slept better.

Miss Staggs goes on to explain that mothers can feed meat to their babies as early as 4 to 6 weeks. Baby's first meat comes in a strained form followed very shortly by crisp bacon. Year-old children can easily eat plainly prepared ground meat.

Liver is especially valuable for growing children because of its high quality protein and iron for blood building. This food authority says that as a child becomes better able to chew, he can be served liver as well as other bite-sized pieces of tender meat simply prepared by broiling, simmering or roasting.

So Right! Mint and chocolate are so right together. Next time you make your favorite chocolate pie, add finely crushed peppermint stick candy to the meringue topping.

Olive Tops Dress up a cooked pork loin roast by topping the rib ends with stuffed green olives from which the pimiento has been removed. They add color and taste good, too.

Drippings Added Strained meat drippings not only enhance the flavor of cabbage, beans and other vegetables, but they can be used in quick bread batter, chocolate or spice cakes or cookies—to mention only a few.

Rolled Biscuits Attractive biscuit "whirls" are made with little effort. Spread regular baking powder dough with butter, then a coating of honey and grated orange rind. Roll the dough up like a jelly roll and cut it into 1 inch pieces. The dough bakes in a hot oven in about 15 minutes.

Chipped Cheese 'n Beef Drop biscuits covered with hot creamed chipped beef are on the tasty list. And, for a varied luncheon treat, add grated cheese to the creamed chipped beef just long enough before serving time so the cheese will be melted.

accompaniment? Plentiful cucumbers can be your answer. Chop the cucumbers into small pieces, add minced onion and season with salt, cayenne, vinegar and celery seed. Chill the sauce before serving.

Picnic Salad Leftover pork roast comes in handy for picnics. For a hearty salad, cut the cooked pork into small pieces, add diced celery, salt and paprika and toss with French dressing. Chill the salad before serving it on crisp lettuce.

Two In One For extra good corn bread eating, add diced cooked ham to the batter. The squares are delicious served with ham gravy or spread with butter for a "bread" accompaniment.

Hated To Give Up Joan, But Like Gee Gee With other things to occupy the space in our anatomy we refer to as our mind, we had nothing to say about Mrs. Joan Price, who was society editor here for some time, leaving us. The Prices moved to Lovington, N. M., where her husband, Buel, is opening an implement store.

But Joan is a swell lady, even if she was a dandy, as she sometimes admitted, being reared at Spokane, Washington. She was always pleasant when perhaps we sometimes acted peevish. We are glad that Joan worked with us even for a short time.

But her successor is of the same material. Nothing seems to disturb the good nature and patience of Mrs. Sam Privitt, better known as Gee Gee to friends. No matter who calls on her for help, young or man, woman or child, they get her undivided attention.

Is it then any wonder that her husband won out as the most outstanding young man here last year. He has a real understanding helpmate.

One of Every Two Bales Classed Free For The Farmers

ONE out of every two bales of cotton ginned in Texas as the past season was classed without cost for nearly 97,000 farmers in Smith-Doxey improvement groups.

This same service will be available again this year, John L. McCollum, southwest area manager, Production and Marketing Administration's cotton branch, U. S. Department of Agriculture, Dallas, announced.

Participation in Texas was higher last year than at any time since the program went into operation 11 years ago and prospects indicate it will be even higher this season, McCollum pointed out.

Latest count shows farmers ginned over one and a half million bales on which they received classification and the market news service, both without cost. Total ginnings for the state amounted to more than 3 million bales.

Any organized improvement group which adopts a variety of cotton, files application, arranges for sampling and meets certain other requirements is eligible for this service on the coming crop.

Applications should be filed as soon as members have planted their cotton, but not later than July 1 for all counties lying entirely or for the most part east of the 100th meridian, and July 15 for those lying entirely or for the most part west of the 100th meridian. Latest date which applications may be received is August 1 for the eastern block of counties and August 15 for the western block.

Instructions and application blanks may be obtained from the county agricultural agents, offices of Production and Marketing Administration, the area cotton branch office, or cotton classing offices in Austin, Dallas, Galveston, Lubbock and Abilene, McCollum explained.

Rev. and Mrs. A. A. Brian, Mrs. L. J. Dunn, Mrs. Jess Smith, and Mrs. Harvey Lee left after church services Sunday night to attend the Southern Baptist Convention in Oklahoma City. They plan to return Friday.

Doing Something About the Weather

Far out in the stormy North Atlantic Ocean seamen (1) aboard the Canadian weather ship H.M.C.S. St. Stephen, prepare to release a radio-equipped balloon which will radio back reports on weather conditions in the upper atmosphere. The St. Stephen (2) is one of 13 weather ships, supplied by eight countries and financed by 10, which make up a network arranged by the International Civil Aviation Organization (ICAO), a specialized agency of the United Nations. The ICAO weather ships are on constant duty, ready to radio passing aircraft late weather information, and to participate in search and rescue operations. A specialist (3) maps weather data coming from a weather balloon and prepares it for broadcast to passing planes and shore-stations.

FIELD POULTRY SHORT COURSES SLATED IN AREA

TWO field poultry short courses will be held in this area during May, according to an announcement from the Texas A. & M. College Extension Service.

The first will be held in Lubbock May 24 and 25, with county agricultural agent D. W. Sherrill as general chairman. The second will be in Abilene May 26 and 27, with Taylor County Agricultural Agent H. C. Stanley, Jr., as general chairman.

The first day's program of each course has been designed for anyone interested in learning the latest practical information dealing with poultry production in Texas. W. J. Moore, associate extension poultry husbandman of Texas A. & M. College, says, while the second day will be for

flock selectors and pullorum testers.

Experts who will appear on the programs include T. A. Hensler, executive secretary, of Texas Poultry Improvement Association; Bernie B. Bailey, and James R. Grubbs, poultry supervisors, National Poultry Improvement Plan; F. Z. Beanblossom, extension poultry marketing specialist; Dr. W. C. Banks, extension veterinarian; W. L. Bradley, assistant poultry marketing specialist; J. C. Williams, assistant poultry husbandman, and Mr. Moore.

Texas A. & M. College sponsored, in 1948, the first poultry short course ever held out of a college campus. It was held in Tyler and was such a success that similar short courses will be held wherever and whenever the need arises, Mr. Moore says.

Mr. and Mrs. Prentice Walker and Mr. and Mrs. Jack Bailey spent last weekend in Ruidoso.

Mr. and Mrs. W. G. McDonald visited Mr. and Mrs. Ralph Harvey in Rogers, N. M., last Sunday.

MORMON IRRIGATION OVER 100 YEARS OLD

WASHINGTON (AP)—Modern irrigation as practiced by the Mormon pioneers in Utah began two years before the establishment in 1849 of the U. S. Interior Department. On July 24, 1847, the followers of Brigham Young established an agricultural pattern in the arid west which was to be repeated and improved through the next one hundred years of conservation development.

Many of the century-old Mormon canals or ditches are still used by the prosperous farming communities and suburban areas to the south and southeast of Salt Lake City. The "Big Ditch," for example, was begun during 1848, the "Big Cottonwood Tanager Ditch" and the "Green Ditch" that same year, the "Walker Ditch" during 1849, and the "Hill Ditch" in 1851.

When fat in the pan gets on fire, smother it with wet towels. Never pour water on it because it makes the fat spatter and may spread the blaze.

Texans Honor Farm Bureau Hero

Some 1500 persons at the Texas Farm Bureau Federation's 1948 convention paid tribute to Sam Wohlford of Sherman County, cited by the Carnegie Hero Fund Commission.

The seldom-granted silver medal was awarded to Mr. Wohlford who risked his life during a blinding blizzard February 11, 1948 in an effort to rescue a family trapped in a snowbound truck.

Mr. Wohlford was introduced to the Convention by R. C. Buckles, president of the Sherman County Farm Bureau, of which Wohlford is a charter member, who told how the 57-year-old Texas rancher battled a zero, 35-mile-an-hour wind for five hours in attempting to save the lives of Kenneth H. Reynolds, 15 months, and four other members of the Reynolds family, who were trapped in a truck on the highway near the Wohlford ranch.

Mr. Wohlford was summoned by the father of the Reynolds children. He built a makeshift platform on his tractor and drove through snowbound fields to the stalled truck in which he found two of the Reynolds children and their grandmother unconscious. The rancher placed the three children and the grandmother on its tractor and drove to a nearby ranch. However, the nearest doctor was 10 miles away.

Mr. Wohlford went out into the blizzard again, reached the physician, and brought him back to the ranch house. Two of the children and the grandmother were dead, but Kenneth Reynolds and the father survived.

Mr. Wohlford had been in poor health for some time and was under the care of a physician. By the time he returned to the farm home with the doctor, he was nearing exhaustion itself.

"I don't want you folks to think of me as a hero," Mr. Wohlford told the convention crowd. "I did only what any other Texas rancher would have done under similar circumstances. But if you stop by my place and I tell you a Panhandle blizzard is blowing up, and ask you to stay the night, you'd better stay."—National Agriculture.

Annual 4-H Club Round-Up Dates Set For June 14, 15; Livestock Judging Resumed

An announcement coming from College Station to the Herald informs that the dates for the annual 4-H Club Round-Up on the campus of Texas A. & M. College have been set for June 14 and 15, acting Extension Director J. D. Prewitt of Texas A. & M. College announced recently.

The Round-Up is the big event of the 4-H club year in Texas, and Terry clubs help boost the occasion.

For the first time since 1940 the boys' livestock judging contests and the girls' dairy foods demonstrations will be held in conjunction with the Round-Up, Mr. Prewitt said. Contests will be held June 13.

County quotas have been set at two boys, two girls and two adult leaders, with contestants in the dairy foods demonstrations and the state 4-H dress revue over and above the quotas.

The annual conference of Texas county agricultural and home demonstration agents will follow the Round-Up on June 16 and 17.

Dysentery Increases In Summer Months

The summer season always brings an increase in the incidence of dysentery, diarrhea and enteritis, all of which are major menaces to the lives of small children, annually causing the deaths of hundreds of Texas youngsters.

The State Health Officer, Dr. Geo. W. Cox, declares that the chief cause of these intestinal diseases are contaminated milk, water or food; allowing the child to get overheated or exhausted; excessive sugar in the infant's formula, and foods that have been improperly refrigerated.

"All foods should be clean and fresh and all left-overs should be refrigerated so as to avoid spoilage. The utmost care should be used in preparing the infant's formula which should, of course, be prescribed by a physician, and his recommendations as to sanitation precautions and correct refrigeration should be implicitly followed."

The State Health Officer warned parents especially of the danger of disease transmission by flies. Children in any home that is not free from flies, are in danger of contracting dysentery or other intestinal diseases which may be fatal.

"If dysentery or diarrhea symptoms appear in your child, call your doctor immediately," Dr. Cox advises. "His treatment of the disease is your best insurance against fatal results, since such diseases are really a very serious threat to the child's life. Don't depend on home remedies for diarrhea or dysentery; consult a competent physician and let him institute the safest and best treatment which medical science has available, for combating these wasting diseases."

LOVE STILL HAS A DARK SIDE

CROYDON, England-(AP)—members were of two minds when the Croydon Council debated whether to put more lights in side streets.

Mrs. Ethel Cook said, "if we don't improve our street lighting, are argo going to have an influx of young lovers from other adjoining areas which are well lit."

But A. L. Boddington said, "Some of us in our younger days liked shady spots." The council voted against more lights.

Not so long ago, Editor Charles A. Guy of the Lubbock Avalanche-Journal kindly kidded some of the newscasts made by the three Lubbock radio stations one of which belongs to A-J Publications. In the ribbing, Charles mentioned that he could almost hear the rustle of the sheets of one of the publications over the

radio, as the newscaster turned the pages. And this reminds us of some of the Mexican Border stations that never have any musical or other talent, local or otherwise, but play records exclusively. The writer has just enough of the hillbilly in him that he likes to listen to the good old mountain music usually dispensed by these stations. But what tickles us is to hear the announcer bawl out, "now the people are waiting to hear Roy Acuff play, come to the mike, Roy." And the truth of the matter is that all but a moron knows that at that very minute, Roy Acuff, Tex Ritter, Ernest Tubb or any and all of the rest of the hillbilly players are a thousand miles away from that broadcasting station. But if they are having fun over the matter between the harangues of a slobbering, yelling preacher, OK by us. We get our kick, and are satisfied.

Next week, the local schools, and presumably all schools in the area will be closing; some perhaps this week. Then starts the long vacation till about the first Monday in September. We hope the teachers have been as patient and obliging as usual, as it is their ambition to make their work as outstanding as possible, especially if they intend to make teaching their career. It is therefore up to the student to cooperate with the teachers and school officials to get as much out of the nine months school term as possible. There are a couple of old sayings that we like, author or authors unknown to us: "We pass this way but once," and "Improve each shining moment." Of course, most of us adults could see but little need of an education when we were growing up. Now we miss the advantages of an education that we should have

Otherwise He'll Be as Free as the Air

gotten in our childhood, and we know that we should have diligently applied ourselves while the opportunity was ours in our childhood and teenage days. Lots of times it is a bit of a sacrifice for our parents' friends and neighbors to dig up the money in taxes for better schools, buildings and equipment, and in our turn we should waste neither time nor money.

If it were not so tragic, it would be a bit amusing to watch the antics of the boys up a Washington, when one of the "experts" puts out the dope that a deficit is looking us square in the face. They begin to jump sideways, up and down and generally winding up by demanding more taxes. Ah! How convenient is more taxes with these boys. Too much trouble, and too much of a liability of losing some votes to cut expenses, and let a lot of surplus help go. Just a few days ago, a lady, long a friend of the family, who worked in some of the many offices up at Washington during the war, informed us that many of the government employees at that time were wholly inexperienced and more in the way than they were worth. And, she added, they sometimes so messed up stuff, some of the experienced personnel usually had to spend extra time unravelling their errors. Private business, on the other hand, when they run up against the possibility of a deficit, have to cut corners, hedge here and there. There is no way on earth to make some one else pay. For the past 16 years, our government seems to have totally forgotten the word, "economy."

Members of the Texas Press have an invitation to come to Dallas Tuesday, May 24, to witness the dedication of the new five million dollar plant of the Dallas Morning News. This entertainment for Texas editors will include an inspection of the plant from top to bottom. The affair also includes lunch at the Baker Hotel, with President Ted Dealy of the News, as host. Wish we could attend, as we certainly like to see and be conducted through that most modern of newspaper plants. This affair will come just two days after the issuing of the jumbo 400 page edition.

There is a bill in congress upping postal rates, especially on newspapers and magazines. The Postal Department claims that they are going in the red to the tune of more than \$2,000,000 annually. If they get out of the printing business, and quit selling envelopes below cost, and making up the deficit out of the taxpayers pockets, they might not be in the red. I have never understood how the post office department can sell a one cent postal card for a penny, with a one cent stamp already on the card, not counting the cost of the post card stock. The government sells No. 10 envelopes for \$3.30 per thousand with your name or firm imprinted stamped with a three cent stamp. We cannot buy a No. 10 envelope for \$3.30 per thousand and wholesale. Neither can they. The tax payers make up the difference.—Andrews News.

We can never tell just how long a wave of conveniences to the human race will stand. A few years ago, people thought that the broadcasting stations had the world by the tail and a down hill pull. Now there are dire predictions about them. And scientists in newspaper articles as well as magazine stories are freely predicting the demise of the radio stations, other than those equipped with television. And the little record playing, commercial announcing stations with no visible talent, are said to be doomed. These writers are freely suggesting that you buy a television set as soon as possible and then begin to demand television. You'll get it, they say, and that not into the too distant future. On the other hand, these men of science, while not interested financially in either newspaper, magazines or radios, state that advertising will always have its value in newspapers and magazines, as a black and white message can be referred to later, when sound and vision messages have been forgotten.

BROTHER, JAPANESE OCCUPATION IS GOOD
 TOKYO-(AP)—Of the 400,000 fan letters received by Gen. Douglas MacArthur from the Japanese, one stands out.

It is from Masahige Takahashi. He approved of the Allied occupation commander's work so enthusiastically that he wound up asking MacArthur to become his brother.

There is no record of MacArthur's reply.

STRICKLINLY SPEAKING

Well, here we go, as Red Skelton would say, but we hope not to be quite as reckless as Red.

Funny how some folks get a bigger kick out of grinding their axe than in burying the hatchet.

In writing up the big Demo blowout at Lubbock on the 6th, the Ralls Banner mentioned that 3 1/2 congressmen were present. We just wonder who Editor Joiner designated as the fraction.

A local barber shop recently showed us jillions of what they said were termites, still with their wings on, and evidently just hatched out. A few more could almost carry off a building before eating it.

Up until a few years ago, most of us thought there were no termites here, and would have said so just as emphatically as we used to state there were no cyclones in this area. We even laughed at FHA before the war, because they insisted on building houses termite proof.

The worst thing we can see about success is that it is switching around so much it's hard to locate.

Man, the highways and some of the pastures between here and Brownwood are a riot of colors. With the abundant spring rains, wild flowers are certainly doing their stuff.

However, they tell us that Texas' state flower, the blue bonnet, was little seen this year, even in its usual habitat. Too dry to seed well last year, is the explanation.

Reminds us of a question Chipper, little son of Mr. and Mrs. Skeezix Wallet put out recently. He wanted to know what made wild flowers wild.

Anyway, they are very pretty, and in some places there were so many hues that it looked like a patch work quilt.

Some one has suggested that the movie cowboys would catch more "rustlers" if they didn't have to stop so often to strum their guitars. Yeah, but they never have to stop to load their guns.

Most all of us have the habit of packing our carryover winter duds in moth balls. You know what they are, and can tell when spring comes by just passing in front of the dry goods stores. You get the telltale odor.

But had you heard that the zo-

ologist down at Texas University was packing his stuffed fowls in moth balls for the same reason?

Some one has said that it is easier to find a better half than better quarters. That is debatable.

The High School Interscholastic League has already chosen the debating subject for the 1949-50 season. Here 'tis: "Resolved that the president of the USA should be elected by popular vote. We vote yea."

Most caricatures look more like the subject than the subject looks like himself.

The prospective bumper wheat crop is in a very critical stage. The biggest yield in the history of West Texas wheat counties are right where rust or hail could play whack with it.

Snyder is sure showing signs of growing pains as the result of abundant oil fields nearby. Lots of new building.

Anson, too, is showing some growth not apparent in the past 20 years as a result of a new oil field just west of town.

The old liquid measure table in Ray's Arithmetic said 2 pints make a quart. We might add that two pints usually sprout a barbershop quartette.

Speaking of liquid measure, over in Lamb County, two separate arrests of whiskey peddlers were made recently. Each had exactly 69 pints. Now, the County-Wide News is wondering if the number has any significance to the "legging fraternity." Reminds us of the kid that had heard of bootleggers but never saw anyone

wear boots. When he did, he exclaimed: "Mama, there goes a bootlegger."

Well, Friday, the 13th proved a Jonah to the Old He, wife and grandson, Jack Taylor. On our way to Brownwood, we used more water in the radiator than oil, gas and grease in the rest of the car. Had to water up at

every stop. Radiator no percolate.

Several hours and \$7.50 later, a Brownwood garage fixed the dagnabbed thing so we got home on the same water we started out from there in the car.

Texas business activity, as measured by the University of Texas Bureau of Business Research composite index, continued its downward trend from February to March. Except for small business increases in November and December, the Bureau's index has been declining since August when it reached a postwar peak of 233 percent of the 1935-1939 base period. The March index stood at 218, the lowest point reached since June of 1948. (AP Chart)

Dairy Farmers 'Dare And Do' As Others Do

AUSTIN — Belief is running high in rural America that "we farmers have to keep up with the times or lose out."

Dr. A. V. Moore, State ADA President, reports they are backing this belief by enthusiastic endorsement of their own product promotion program to bolster sagging dairy markets.

Everywhere in this state, the farmers are joining their neighbors across the nation in the June ADA drive to set aside the funds for 30 days to provide for 365 days of advertising activities on dairy products.

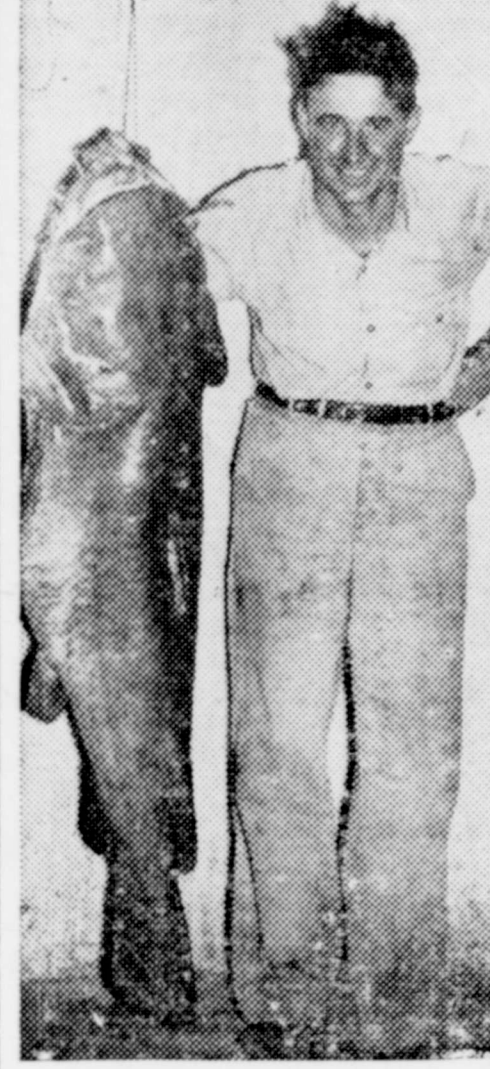

Rallying to their own cause, dairy farmers point out that "advertising and merchandising work for others in building sales, and they'll work for us" through the business action program of the American Dairy Association.

Dr. Moore says the per capita advertising expenditure every year for beer is 10 cents, soft drinks invest 7 cents per person, cigarettes spend 24 cents per person for advertising. Soap leads them all with 39 cents per capita invested in the power of advertising.

Most striking, he says, is the sharp contrast in advertising expenditures between butter and its competition, oleomargarine. Last year margarine interests spent 4 cents per capita for advertising while butter's total promotion bill amounted to less than one-fifth of a cent per person. In other words, he said, margarine spent 20 times as much for advertising as did butter.

Dairy farmers, determined to "do something about it," have set the state goal at \$60,000.00 and the national at \$1,500,000.00 in the June ADA set-aside drive.

Clarence Shropshire of San Angelo, Texas, proudly shows the 80-pound catfish he caught just below the dam at Lake Nasworthy, San Angelo. Shropshire caught the big fish with his last two minnows after a day without any luck. He landed the big fellow after 45 minutes and three times getting the fish near the shore. It is believed to be the largest catfish ever caught with rod and reel and with 25 pound test line in the San Angelo area.

A bucket spray pump, equipped with a four-foot extension rod and at least 15 feet of hose, is satisfactory for a few fruit trees around the home, but for spraying orchards up to 300 trees a barrel spray pump which develops from 125 to 1550 pounds of pressure is more practical.

Lone Star Tomatoes Given Better Chance On National Market

NEWER tomato container regulations recently issued will give the Texas tomato industry a broader market outlet and larger consumption of Texas tomatoes," declared Commissioner of Agriculture J. E. McDonald.

"In recent years," McDonald explained, "practically all Texas tomatoes were shipped green wrapped in the standard 30-pound lug which did not lend itself well to grower packing, thereby channeling the tomato crop through dealer shipping establishments."

"The revised regulations," McDonald continued, "permit the shipment of tomatoes wrapped or unwrapped in single-section closed containers with net weight of not more than 60 pounds or in two-section closed containers with the net weight not to exceed 75 pounds. These containers lend themselves well to grower packaging."

Thus the grower is given a marked advantage in marketing his tomato crop.

"The tomato industry is well protected," McDonald showed in terms of approval for the help to tomato growers, "under the new regulations because all tomatoes packed and offered for sale with grade below U. S. No. 2 must have marked on the containers the word 'culls'."

McDonald predicted that the new regulations would bring increased competition in buy-

ing Texas tomatoes and should give the grower a larger per cent of the consumer's dollar with the overall result of maximum consumption of Lone Star tomatoes.

"Many times in the past," McDonald stated, "the price of Texas tomatoes to the grower was so low that the farmer could hardly afford to harvest the tomatoes he had grown while half-way across the State tomatoes were selling so high in the stores that the consumer could hardly afford to buy them. The new tomato container regulation will benefit each branch of the tomato industry as well as the consumer."

Specialist Tells How Coccidiosis May Be Held Under Control

THE parasite causing coccidiosis is too small to see, but the symptoms it causes in poultry, sheep and cattle are easy to spot.

The disease affects the intestinal tract of many animals as well as chickens, says Dr. W. C. Banks, extension veterinarian of Texas A. & M. College. The passage of thin droppings sometimes mixed with blood is one of the first symptoms noted in coccidiosis. The animals are listless and eat very little, becoming lean and weak in a few days.

The disease is common to most parts of Texas, and it is commonly believed that most cases occur in animals confined in unsanitary pens or lots. However, it may show up in animals on pasture, too. Generally, a contaminated water hole is responsible for such attacks.

Sometimes called red dysentery, this disease is best handled through prevention, Dr. Banks says. When large herds of cattle are fed outdoors, muddy, wet ground around haystacks, feed troughs and watering places becomes a problem. Fill in the low spots and provide sufficient drainage so the ground will dry out from time to time. Remove barnyard fertilizer to the fields. This helps prevent coccidiosis, and builds the crop and pasture yields at the same time. A change in the feeding place sometimes is a good idea.

Since this disease hits the younger animals — from four months to two years of age — it is advisable to separate this age group from the older animals. This is especially true for the calves under four months of age. Infected animals should be penned off to themselves and left alone as much as possible.

Treatment of diseased animals is best accomplished with drugs, mainly sulfaguanidine, says Dr. Banks. This drug is more effective if given four times a day. For example, a 500 pound calf might need 500 grains a day, or roughly one ounce.

The treatment should be divided into four doses, so one-quarter ounce at a time is recommended.

It isn't difficult to treat coccidiosis in animals, Dr. Banks concludes.

Texas Still Short On Cancer Drive

DALLAS—Cancer control work in Texas during 1949-'50 may be sharply curtailed and cancer education, service, and research in the state seriously retarded unless more Texans are given an opportunity to contribute to the 1949 drive for funds of the Texas Division, American Cancer Society.

This statement was made yesterday by Karl Hobbeltzelle, of Dallas, state campaign chairman for the American Cancer Society, when announcing the extension of the Society's April membership drive into May.

"We are still far short of our \$450,000 goal," Hobbeltzelle said, "and, unless our campaign workers are allowed more time to seek contributions, the cancer control work in Texas will be sharply curtailed."

"Our carefully-budgeted program indicates that \$450,000 is the minimum needed to advance the Texas fight against the nation's No. 2 killer, which this year probably will claim the lives of more than 7,000 Texans."

"Our cancer fight calls for funds to support research, professional education for doctors and nurses, information centers, and many other phases of cancer control, and funds are sorely needed to continue the work."

Lubbock Air Force Base Is to Re-Open

ROSWELL—The United States Air Force will place Lubbock Air Force Base, Lubbock, Texas, on the active status basis as soon as possible and move the advanced twin-engine school of Air Training Command there in November from Barksdale Air Force Base, Shreveport, Louisiana.

Approximately 2700 officers, airmen, and aviation cadets will be involved in the move. In addition, approximately 650 civilians will be employed at Lubbock Air Force Base.

Air Training Command Headquarters and the 47th Light Bomb Group will remain at Barksdale Air Force Base. The base will be further utilized by the Strategic Air Command, although the SAC units to be moved there have not been announced.

Local authorities have assured the Air Force that families of veterans now housed at Lubbock Air Force Base will be moved by August 1 to other housing.

of the Western Division and manager of the Fort Worth house, who will head the newly created consolidated Procurement Division.

the state campaign chairman declared. "For this reason I am asking all of our workers to continue their campaigns."

Hobbeltzelle urged all Texans who have not yet contributed to do so by sending their donations to: "Cancer, Care of Postmaster, in their own city or town, or by sending them to their own county unit."

During the official cherry blossom festival in Washington this spring, the famous Oriental cherry trees were sprayed with a hormone spray that caused the petals to "stick tight" on the trees. Blossoms usually stay on about five to seven days. The spray caused petals to stick on about twice as long as usual.

VETERANS ASKED TO PROTEST CONGRESS ON APPROPRIATIONS In protestation of the action taken in voting down the appropriation for operating the Veterans Affairs Commission for the next two years, Abe Lincoln, Terry County Service Officer, asks that every veteran write or telegraph his congressmen and demand that he exert every effort to see that funds be appropriated to carry on this very necessary commission.

Mr. Lincoln states that unless proper funds are set aside for the commission, it will be such a drain on the various veterans organizations in the communities that they will either have to cease functioning at all or will have to only help a very few veterans.

Mr. and Mrs. E. A. Neal and Dan and her father, H. T. Branman, visited Mr. and Mrs. John Franklin in Andrews Sunday. Mr. and Mrs. Boyd Franklin and boys were also visitors in the Franklin home. A fried chicken dinner was enjoyed, and in mid-afternoon, ice cream and cake were served.

Sundown Sends Thanks On behalf of the citizens of Sundown, Texas, I wish to express our gratitude to all persons and organizations who gave aid to us during our recent storm. I wish to especially thank the American Red Cross, the Salvation Army, the National Guard units who helped patrol our stricken area, and all individuals who worked with these organizations during the period of our distress. I also want to extend our thanks to the Western Union operators, the Southwestern Associated Telephone operators, employees of Lynetgar, and others who worked so diligently and without rest in restoring our communications in order that the families of all concerned could be notified of the health and welfare of their friends and relatives located in the stricken area. Many individuals and organizations offered aid to us which was not needed. However, I want all to know that the offers were appreciated. LESTER S. DUDLEY, Mayor.

FREE STENCILS TO ADVERTISE RODEO ARE OFFERED At their regular meeting Monday at noon at the Esquire Cafe, the Jaycees decided to organize a series of booster trips in order to advertise their rodeo, which will be held June 23 through June 25. No definite plans have been made as yet, but the trips will probably begin and continue through the week preceding the rodeo.

Fred Baldwin announced that he was equipped to stencil rodeo signs on automobiles, and this service will be free to every one who wishes to take advantage of the opportunity. The paint used for the stencil is washable and will not harm the finish of the car. He stated that rain will not wash off the paint, but it can be easily removed by rubbing with a

Ethel Fuller and Runez Patton, Meadow; Betty Jo Cornett, Union; Patsie Scales, Patsy Ann Moore and Donna Weldon, Wellman.

The camp to be held in McKenzie Park at Lubbock, will be supervised by the Extension Service personnel. These girls will take training at the camp to enable them to help conduct a county camp in Terry county during the summer.

Each county will also have one adult local leader, be sides the County Home Demonstration Agent to accompany these girls. Mrs. W. E. Patton, adult leader for the Meadow 4-H club will accompany the group.

MRS. FROLICK HONORED WITH DESSERT BRIDGE

Mrs. Don Frolick, who is leaving soon to make her home in Tulsa, Oklahoma, was named guest of honor when Mrs. Harvey Lee entertained in her home on Wednesday, May 11, at 1:30 p.m., with a dessert-bridge party.

The guest list included Mesdames M. B. Dismukes of Dallas, J. T. Rosenberger of Seminole, T. O. Rodgers, L. L. Bechtol, L. A. Woollett, Harlan Glenn, M. E. Bay, Frolick, and the hostess.

Mrs. Glenn won high score prize, and Mrs. Bay took second high. The hostess presented her guest of honor with two lovely handkerchiefs.

Creamed cottage cheese makes a savory spread for crisp crackers or melba toast when it is mixed with drained, shredded anchovies and a little finely minced chives. If chives are not available add a little onion juice.

Turn the spread into an attractive small serving bowl, dust with paprika, and garnish with parsley if you like.

Johnson HD Club Meets Tuesday

The Johnson Home Demonstration Club met Tuesday, May 17, with Mrs. Holloway. Mrs. Joyce, council delegate, gave a report on the council meeting, where each club was given \$5.00 on a certain length of time to see how much they could increase the amount. Club members discussed various ways to increase their \$5.00. Refreshments of punch and cookies were served to Mesdames Frank Tuttle, B. M. Tuttle, J. A. Bench, George Lasiter, T. F. Winn, C. D. Parker, Jerry Jones, W. E. Parker, R. D. Jones, Sr., Hardin Joyce, B. R. Lay, Miss Wanda Winn, and the hostess.

For springtime dessert serve Rhubarb Betty with lemon hard sauce. To make the hard sauce, cream butter or margarine with confectioners' sugar and a dash of salt; beat in a tablespoon of cream and a little lemon flavoring. If desired the grated rind of a fresh lemon may be added instead of the flavoring.

MRS. COLEMAN WILLIAMS HONORED WITH TEA

Mrs. Coleman Williams was honored at a pink and blue tea Wednesday, May 18, from 4 to 5 P. M., in the home of Mrs. Tommy Hicks. Mrs. George O'Neal and Mrs. Sam Teague assisted as hostesses.

The table was covered with a blue cloth and a blue net skirt, and formed a bassinet. Pink roses, pink tapers and a pink cradle set on a reflector mirror, centered the table.

Pink and blue ice floated in the lemonade, and frosted pink and blue cakes and mints were served.

Guests attending the tea were: Mesdames Bill McGowan, Phil Gaasch, Joe P. Murphy, Dick Chambers, Clyde Truly, Bob Clements, Truett Flache, Ray Swanke, Keith Snedeker, W. A. Roberson, Bruce Zorns, Bob Evans, Tiny Nelson, and the honor-

Prunes have extra good flavor if they are cooked with an orange that has been quartered or cut into eighths. Serve the orange wedges with the prunes.

The Town Builders

Mrs. Frank Ballard has been a resident of Brownfield for five years. She is co-owner of the Gore Fashion Shop, which was purchased from Mrs. J. T. Bowman April 14, 1948.

Mrs. Ballard is a member of the Order of the Eastern Star, and belongs to various social clubs in Brownfield.

POOL NEWS

Those who attended the ice cream supper at the Huddlestons were Mr. and Mrs. F. A. Rogers and daughters, Helen and Beverly and son, Jimmy, and Mr. and Mrs. A. L. Martin and daughters, some of the young people's class at her house after church Sunday.

The Pool baseball game was called off due to bad weather. Mr. and Mrs. Howard had dinner with their daughter and son-in-law, the James Gunns, Sunday.

There were 61 people attending Sunday school and church May 15.

Union Girl Chosen 4-H Talent Club Alternate at Meet

Word has just been received by Miss Helen Dunlap, county home demonstration agent, that Betty Jo Cornett, vice president of the Union 4-H club is alternate in the district 4-H talent club. This district comprises counties in the South Plains and Panhandle districts. The counties in these two districts are again divided into eight districts. One boy and one girl from each of these eight districts will take an educational trip, starting at Amarillo, and extending through Austin, Corpus Christi, San Antonio. The trip will end for the boys and girls in the South Plains district at Lubbock. It will be made June 4 to 10 in a chartered bus. These sixteen young people will be the guests of the Producers Grain Corporation of Amarillo. Members of the Extension Service will

accompany these young people on the extensive trip to visit cooperatives and places of historical interest. Jeanneane Kiker, of Post is the girl Betty Jo is alternate for on this trip. In case Jeanneane is, for any reason, unable to make the trip, Betty Jo will take her place. Betty Jo has completed her third year of 4-H club work and is now in her fourth. In qualifying for the trip, she wrote a narrative, summarizing her accomplishments. During the time she has been a club member, Betty Jo has made one hundred and four articles of clothing and household articles. She made one woven rug. She has helped her mother care for one thousand two hundred fifty chicks. Together, they have canned five hundred fifteen quarts of fruits, vegetables and meats. Betty Jo prepares meals alone in the summer, when her mother is busy with other work. She is learning to bake and has already made twenty-three cakes, twenty-eight dozen cookies and fifty-two pies.

TERRY COUNTY HOME DEMONSTRATION COUNCIL REPORTS

The Terry County Home Demonstration Council held a regular meeting in the agent's office May 14 at 2:30 P. M. in the presence of the following: Mrs. M. J. Hinson, vice-chairman, presiding; Mrs. W. G. Moss, Exhibit Chairman, reported that the exhibit on ice and butter will be held in the county home Saturday, May 21. Mrs. Dock Settles, Finance Chairman, reported that there would be a bake sale held in conjunction with the cheese and butter exhibit. Mrs. Settles also reported that the Easter egg sale netted \$28.75. Mrs. Mancil Hinson, Marketing Chairman, reported that she had ordered silver ware with the coupons she had collected, and that she had received the down satin, which was ordered for the June 1.

Mrs. Lillian Doak gave a report on the banquet given for the commissioner's court. Mrs. W. F. Jones, who is keeping up with the club reports sent to the county papers, asked that every one carry their report, in order that the records could be kept straight. Mrs. J. T. Eryant, Education Chairman, reported that she was ready to order the books which the clubs had selected from the reading list.

Mrs. R. E. Moore, Mrs. Ralph Spain, and Mrs. Lillian Doak gave reports on the district meeting held in Floydada April 15.

Beginning June 6, Miss Ella Katherine Keith, a student at Tech, will assist Miss Helen Dunlap, Miss Keith is formerly a Cochran county resident.

Representatives from each of the ten clubs, including the new Johnson Club, participated in the meeting. There were 26 people present.

WELLMAN 4-H GIRLS WIN TRIP

The Wellman 4-H girls had their first summer meeting May 16 in their club room.

Our girls are winning trips now! Patsy Seales, Patsy Moore and Donna Weldon will go to district camp at Lubbock.

This summer we will have two agents. Ella Katherine Keith from Lubbock will work with Miss Helen Dunlap this summer, doing some work on her degree at Tech.

Nine members were present at the demonstration, given by Margaret Phillips and Mary Moore, on "Making a Bedspread."

We had a great deal of fun during our recreation period, singing and playing games.

—Reporter, Patsy Moore.

SCOUTERS TO GATHER AT CAMP POST

Dr. F. B. Malone, President of the South Plains Council, Boy Scouts of America, announced today that the Executive Board of the Council is inviting all Scoutmasters, Troop Committeemen, District Committeemen, and all men to meet with the Executive Board at its regular meeting scheduled for Saturday evening May 21 at Camp Post, located 2½ miles southwest of Post, Texas.

Each Scout is invited to bring his bed roll, swim suit, and grub for Saturday evening's meal and if he plans to spend the night, bring food for Sunday morning. The Executive Board will meet at 7 P. M., in the dining hall.

All men in scouting or interested in scouting are cordially invited to attend. The high light of the occasion will be trying out the new swimming pool which has just been completed at the Scout Camp.

It's the Season

Martha Mitchell hefts a beach ball on the white sands of Daytona Beach, Fla., and gives the photographer a preview of what the nation will be doing shortly, as the summer playtime season approaches. Helen Hatfield, in the background, is content to strike a less strenuous pose under the Florida sun.

Standing Guard

Gerard "Smithy" Menuhin, 9-month-old son of Mr. and Mrs. Yehudi Menuhin, seems to enjoy the task of watching his famous violinist-father's priceless Stradivarius and Guarneri violins, in the canvas case, while his parents clear through customs at New York's LaGuardia Field. The family arrived from London en route to its Alma, Calif., home. Smithy, who was born in Scotland, has made three transatlantic crossings.

HOME EC STUDENT APPOINTED ASSISTANT COUNTY HD AGENT

Ella Katherine Keith, Junior student in Home Economics at Texas Technological College, has been appointed Assistant County Home Demonstration Agent in Training for Terry County, effective June 6 to August 30. This announcement is made by Miss Kate Adele Hill, District Agent, Extension Service, A. and M. College.

Miss Keith's home is at Whiteface, Cochran County. She has been one of the most outstanding 4-H club girls of her community and hopes to become a county home demonstration agent after she completes her college work.

This position, recently created and financed by the Extension Service of A. and M. College, at no expense to the county, is for the purpose of training young home economics college students to become agents, under the direction of an experienced agent

already on the job, such as Miss Helen Dunlap, Terry County Home Demonstration Agent. Terry County is one of the three counties in District Two chosen by Miss Hill in which to place an agent in training because of the excellent cooperation of the commissioner's court and the citizens of the county with the Extension Service, and because of Miss Dunlap's experience and a ability as an agent. The other counties where such assistants in training will be placed are Floyd and Lamb.

KITCHEN MENU BY JEAN CLARKE

There's something extra special about strawberry pie that puts a gleam in a man's eye. Strawberry Chiffon Pie mixture is cooked on the top burner, then turned into a pastry shell. Soften 1 envelope unflavored gelatin in ½ cup cold water in saucepan. Blend together ½ cup sugar, 1 tsp. flour, ¼ tsp. salt. Add to softened gelatin. Mix thoroughly. Place over medium flame stirring constantly until gelatin is dissolved and mixture is thickened, then remove from flame. Add 1 cup crushed strawberries, 2 tbsps. lemon juice. Chill until mixture is slightly thicker than consistency of unspiced egg whites. Fold in 1 cup whipped cream or ½ cup soy cold whipped evaporated milk. Turn into 9-inch baked pastry shell and chill until firm. Garnish with additional whipped cream and whole strawberries.

If you like to rent your linens or underwear, put sachet powder in cheesecloth bag and toss in with the drying laundry in your automatic gas dryer. The tumbling action forces the aroma to penetrate evenly through the clothes.

At least 15 gals. of hot water of 140°-150° (F.) are needed to wash and rinse 8 to 9 lbs. of soiled cottons. Using less than this won't get clothes clean. An adequate supply of hot water will always be available where there is a quick recovery automatic gas water heater in the house because the supply more than keeps up with the demand.

To freshen dried lemons, cover with cold water and allow to stand in several hours.

A quickly prepared vegetable dish for luncheon or dinner is made by combining snap beans and whole-grain corn. Use canned vegetables or the cooked quick-frozen ones. Season with salt and freshly ground pepper and a little grated onion, as well as with a tablespoon or so of butter or margarine.

Mrs. Jack Hamilton took her father, S. H. Holgate, to Temple this week to go through Scott-White Clinic. Mr. and Mrs. Richard Kendrick and Mr. and Mrs. J. T. Bowman spent the past week in Aransas Pass.
