

The Terry County Herald

Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

The Herald has grown with this section from strictly a ranch country. This area now consists of thriving towns and cities, supported by scientific farming and stock raising, augmented by huge oil fields, with the nation's largest known oil reserves.

Best Advertising Medium
The Herald has the largest paid in advance circulation of any weekly newspaper on the South Plains.

VOLUME 45

BROWNFIELD, TERRY, COUNTY, TEXAS, FRIDAY OCTOBER 7, 1949

NUMBER 11

E. C. House To Address Lions Club

E. C. House, noted psychologist and lecturer, will address members of the Lions club, the Rotary club, the Jaycees and the Brownfield chamber of commerce at an inter-club meeting Wednesday, October 12, sponsored by the Lions. W. T. (Bill) McKinney is chairman of the inter-club relations committee.

An international lecturer and author, House has been speaking to Rotary clubs, Lions clubs, Kiwanis clubs, and many other organizations for the past 30 years. His subject will be "This Complicated Age."

Rotarians Attend Inter-City Meeting

Approximately 800 men attended the annual inter-city Rotary meeting and barbecue which was held at Lubbock September 29.

Those from the Brownfield club attending were Clarence Griffith, Clovis Kendrick, Kyle Graves, J. W. Fitzgerald, Clyde Green, Johnny Kendrick, Homer Winston, Paul Campbell, James H. Dallas, Tommy Hicks, Roy Collier and Glen Akers, all of whom went in the Rotary school bus, and Doug Jones, Skeet Robinson, Lal Copeland and J. O. Gillham.

Legislative Committee Write The People

Texas newspapers are being snowed under with propaganda from this, that and the other committee anent the raise in pay for the dear old Texas legislature. Their pay was raised a few years ago to \$10 per day for the regular 120-day session, and many said then that they were already over-paid. Be that as it may, some of them want the raise, while others lead by a man in north Texas, says scratch that amendment.

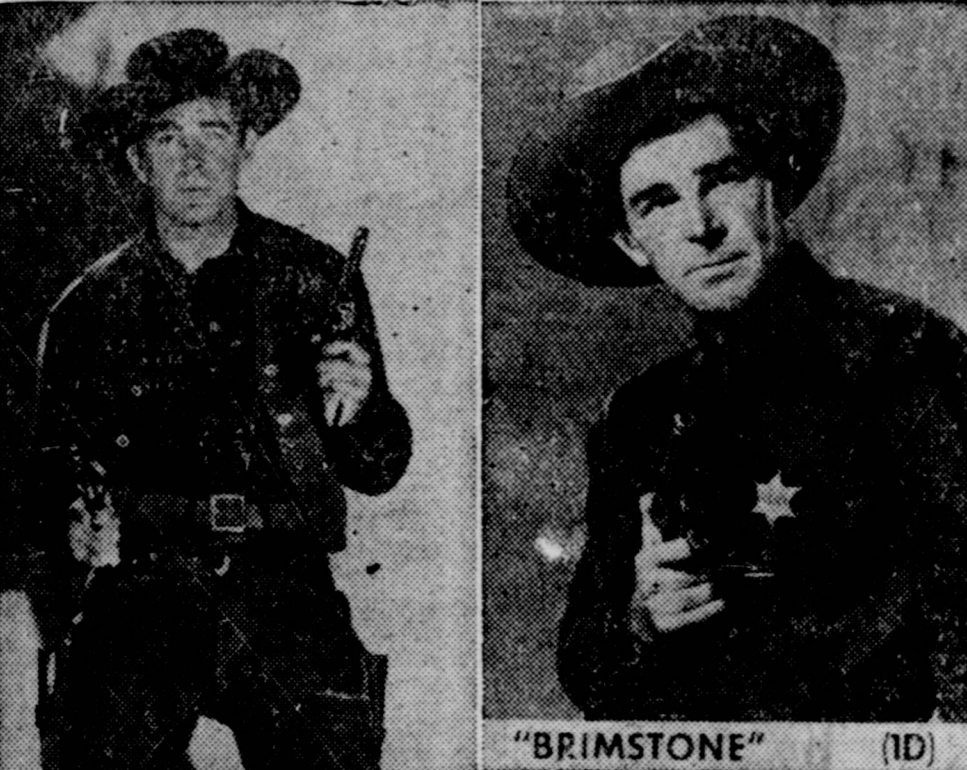

Well, the pros talk as if they are obliged to let the lobbyists pick up the check when they eat, or maybe let 'em pay the room rent, as the legislature pay isn't sufficient to meet expenses. So far as we know, no one made them run for the offices.

Of course, the lobbyists spin of are the big oil, gas sulphur, railroads, liquor and other special interests. These are always handy for the alibis. Now, these legislators think if they can just rake down \$3600 per year, with a session each year, they can get by and pick up their own checks, as well as some for the home folks visiting them.

A lot of folks believe that if the size of the legislature was cut to some ten senators and 30 representatives for the entire state, then good men could be persuaded to seek the offices at say five grand per year. But each of the 30-odd senators and 125 or 130 representatives want to hold on to their end of the feed trough.

What we think is that we leave it up to the voters of Texas and see what they want come November 8th.

However, the main thing with us editors who have to open and perhaps read all this propaganda, one way or the other, is that we would like to hear something that rattles like a check for printing the ideas of the Saviors of the State.

ROD CAMERON, MOVIE STAR, TO CROWN QUEEN

Rod Cameron motion picture star, will appear in Brownfield October 19 for the annual harvest festival and merchant's jubilee.

Cameron will take an active part in this day's program celebration and will climax the occasion by crowning the harvest queen.

Cameron, one of Hollywood's most recently popular actors, has appeared in such pictures as "Strike It Rich," "Massacre River," and "Stampede."

Oh, That Football Game Here Friday!

We have seen the Cub fans let down several times in the past, but nothing like last Friday night when that team from out El Paso way took the locals to the tune of 53 to 0. After the whaling Pecora, a class A, gave them, nothing much was said. And after the round with the Big Spring Steers, hopes were raised that perhaps the Cubs were making a comeback.

Not many were expecting to win the game with Ysleta, but were not expecting such a one-sided affair. Those who saw the game would hardly discuss it, if so, it was with a slight chuckle. It was not in them to blame anyone, the coaches or the players.

But the football season is not over. And until the last kick is made, the last line plunge is over, let's keep faith with the Cubs. They may deliver a comeback that will surprise you some of these days. And then we may be embarrassed about what we have said about them, or have failed to say about them.

Tonight they play Littlefield there, so let all the football fans go along and encourage by word and deed that we are still for them, win or lose. Just one game, two or a half dozen is not all there is to a football season.

Soon now, the Cubs will go into the conference games, and they will need all the encouragement and pep talk the fans can muster. Don't sell the Cubs short—yet.

Mrs. Kenneth Purlert is in Abilene with her mother who was injured in a fall recently.

DISTRICT AMERICAN LEGION CONVENTION WELL ATTENDED

Deep Test Oil Well Is Smelling Good

The last we had on the deep test in south Terry was that it was "smelling good." Fine. We suppose from that statement that there is an acid odor coming from some unknown (to us) depth, that indicates oil or gas or both. We hope the well will make something better than a smellier. We are not from Missouri but we like to be shown.

We might add that a brand new test to find pay in the San Andres formation is now in progress five miles south of town, and the lit up derrick may be seen by night. Really we have had the snuffles for the past several days, and haven't stuck our head out of the door after night. We understand that the second or offset well in the Hinson pool has been completed, and that is now officially declared producing territory also. We might add that this new field is going to be a great help to Brownfield in developing into a bigger and better city.

PRIMM DRUG HAS NEW PHARMACIST

O. D. Henderson, formerly of Levelland, has been employed as pharmacist at Primm Drug store. Henderson attended Oklahoma A&M, and graduated from Southwestern Institute of Technology at Weatherford in 1943. He served in the navy for 29 months during the war.

DR. TURNER ORDERED TO BED

We learned this week that Dr. John R. Turner, who lives at the Oakhill farm in the Pleasant Valley community, has been ordered to bed until Christmas, at least. He is not seriously ill, just a trouble that requires some rest in bed. So, we feel sure that he would appreciate short calls from his many friends in the area.

Three hundred members of the American Legion and the American Legion auxiliary registered for the 19th district American Legion fall convention which was held here October 1 and 2. Principal speaker was Bill Cummings, Texas American Legion departmental youth director, who outlined the youth program within the American Legion for the coming year.

Also present at the convention were Bill Sohl, commander of the fifth division, and George Berry, past departmental commander.

Mrs. Lyle of Cisco, president of the fifth division auxiliary, addressed the members of the 19th district auxiliary, laying plans for an expanded membership in the auxiliary for the coming year.

The president of the 19th district auxiliary, Mrs. L. B. Elliott, of Colorado City, presided at the auxiliary meeting.

Convention city for the spring meeting of the 19th district will be Big Spring.

Two Men Slightly Injured In Wreck

Two Mexican men were hospitalized Sunday afternoon as a result of an accident involving two automobiles one half mile north of the cotton oil mill on the Lubbock highway.

Both cars were traveling north at about 3:45 p.m. Sunday when the 1940 Ford occupied by the Mexicans crashed into the back of the 1949 Ford driven by a Lubbock man, according to Vic Atwood and Amos Eagan, Texas highway patrolmen who investigated the accident.

A Brownfield Funeral home ambulance carried the Mexican men to Treadaway-Daniell hospital, where they were treated and hospitalized overnight. The Lubbock man was not injured.

A DWI charge was filed against the Mexican driver.

Commissioners Court Name Election Judges

Election judges appointed by the commissioner's court in February, 1949, are as follows:

Southeast Brownfield, voting box No. 1: presiding judge, J. D. Miller; other judges, H. M. Belk, Jr., Darrell P. Moorhead. Northwest Brownfield, voting box No. 2: presiding judge, Clyde Bond; other judges, D. A. Lowe, L. C. Heath and T. A. Wartes. North-west Brownfield, voting box No. 3: presiding judge, E. B. McBurnett; other judges, Earl Brown and Mrs. Archie Chapman. South-west Brownfield, voting box No. 4: presiding judge, R. B. Perry; other judges, G. C. Aschenbeck and Earl Cook.

Union, voting box No. 5: presiding judge, H. G. Garner; other judges, Raleigh Luker and Frank Sargent.

Meadow, voting box No. 6: presiding judge, John A. Roberts;

other judges, Mrs. Bill Williams, Rev. Cecil Tune, and Rev. B. B. Huckabay.

Johnson, voting box No. 7: presiding judge, Keith Gore; other judges, J. A. McGraw and B. M. Tuttle.

Tokio, voting box No. 8: presiding judge, George Alexander; other judges, Mrs. G. C. Perry and Mrs. George Alexander.

Pool, voting box No. 9: presiding judge, Roy Barrier; other judges, Thurman Salsbury and Curtis Hulse.

Wellman, voting box No. 11: presiding judge, L. D. Hamm; other judges, Sewell Dean, J. R. Thomas and Clarence Welcher.

Gomez, voting box No. 11: presiding judge, B. Stice; other judges, A. J. Loyd and Mrs. Richard Wheatley.

The first election will be held November 8, voting on constitutional amendments.

Rankin Candidate On Board Of Education

J. M. Rankin of Crosby county, who terms himself an educator, a civic worker and a dirt farmer, was here over the week end attending the 19th district American Legion convention. While here he called on the writer at his home Sunday morning. He is a candidate for a position on the board of education, recently created by the legislature.

It will be remembered that the new Gilmer-Aiken bills make a radical change in the setup of the board of education. Instead of the old method of appointing, the new law allows the people in each of the 21 congressional districts of Texas to elect a member of the board. The election will be held Tuesday, November 8. At the same time the voters will pass on ten proposed constitutional amendments.

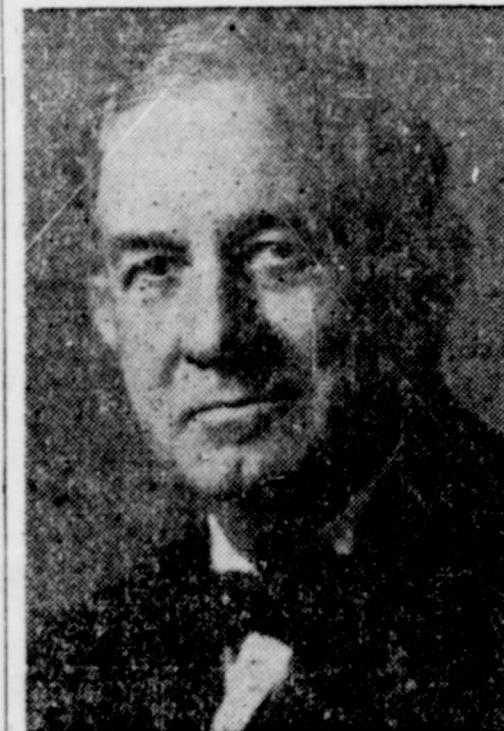

Mrs. Rankin has been a citizen of Crosby county for 37 years, is a Ralls Rotarian, a Scouter, past president of the Legion at both Ralls and Crosbyton and past president of the 19th district Le-

Ann Snedeker Leading In Race For Festival Queen

What Our Solons Think Of The Newspapers

We don't like to toot our own horn too much. We had an item about National Newspaper Week in the last issue. Newspaper week runs from October 1 to 8. So we are going to let U.S. Senator Tom Connally of Texas and U.S. Representative George Mahon of this district, Gov. Allan Shivers and State Senator Kilmer Corbin write what they think of a free press in this issue. So here goes:

"Our free press is one of the most cherished democratic rights we enjoy, and its value has never been more evident than now. I believe that our small newspapers in Texas render an especially vital service about local issues and viewpoints, thereby supplementing the wider coverage and elaborate facilities of our splendid city dailies.

"Again and again we observe that the first act of any totalitarian regime is to throttle free speech and control the press. They will know that oppression cannot long survive when free, unbiased news and knowledge are disseminated to the people."—U.S. Senator Tom Connally of Marlin.

OFFICIAL MEMORANDUM BY ALLAN SHIVERS

The observance of National Newspaper Week during October 1 to 8 focuses public attention on one of the outstanding services to mankind. This service manifests itself in exercising one of the freedoms so characteristic of our nation—freedom of the press.

The slogan for the week "Freedom Goes Where the Newspaper Goes" is indeed timely. All classes, sects, races, and creeds are served by this group of people, who are stationed throughout the world affairs. These newspapers keep our nation well-informed on state, national and world events, in a world where many are deprived of the opportunity to read objective reports.

Therefore I, as Governor of the State of Texas, do hereby request the observance of National Newspaper Week October 1 to 8, inclusive, and I urge that in this way emphasis be placed on the great significance of the newspapers in our daily lives. In official recognition whereof, I hereby affix my signature this 13th day of September, 1949. (Sig.) ALLAN SHIVERS, Governor of Texas.

"I believe it was Dickens who wrote that 'of all inventions, the only one absolutely necessary to free men is the printing press.' 'A free press has always been one of the basic fundamentals of our American freedom. Throughout the years of our progress, the people, large and small, who have followed the journalism profession have felt deeply their responsibility to that freedom. The instances where it was abused have been rare.

"The newspapers of this country have proved worthy of the trust which has been placed in them. I believe that National Newspaper Week should be an occasion for every true American not only to pay tribute to our newspapers, but to renew our trust in them. They have earned it."—State Senator Kilmer E. Corbin of Lamesa.

"The newspapers of Texas and of the nation are making a tremendous contribution to the cause of democracy. May they grow in strength and usefulness, and may they find a way to weed out bad journalism practices which exist here and there to the end that even higher standards may be reached."—Congressman George Mahon of Colorado City.

Please Give Old As Well As New Address

Most of the readers have learned that when they change their address to give us the old as well as the new address. But every few days we get one that gives only the new address.

They probably think we have only a few hundred subscribers and it will take just a minute to find the name. As a matter of fact, it takes a long search through the card index to find a name that is not familiar.

And we don't know whether the old address is Podunk or Potlicker. So, please give both the old as well as the new address if you want us to give you quick service.

NOTICE

Anyone wishing to donate rummage to the Girl Scouts are asked to take it to the Girl Scout Little House between the hours of 9 a.m. and 11 a.m. Saturday, October 8, or call Mrs. Dennis Lilly or Mrs. Johnny Criswell to have it picked up.

Rod Cameron, one of Monogram Studio's top western stars, will be in Brownfield to crown the queen of the harvest holiday Wednesday, October 19, it was announced this week. The coronation will climax the day-long festivities.

Leading the race this week is Ann Snedeker, sponsored by the Brownfield Lions club. Elizabeth Jo Anthony, sponsored by the local American Legion post, is in second place, while Margaret Gozo, who

WHO'S AHEAD???

Standings in the race for Brownfield harvest queen Wednesday morning were as follows:	
Ann Snedeker	39,400
Elizabeth Jo Anthony	33,500
Margaret Gozo	10,700

was entered last week by the Epsilon Sigma Alpha, is third.

This year's queen will have a choice of four trips that she may take. First, she may have a ten-day trip to southern Florida, with a cruise to Cuba; or she may go to Hollywood for ten days, meeting some of the top stars and seeing how movies are made; or as a third choice, she may go to New York for ten days, seeing the famous museums, etc. And last, she may choose to go to Honolulu for ten days, either flying or going by ship.

Along with the honor of being crowned queen of the Brownfield harvest festival, the winner will also receive a wardrobe. All three contestants will receive engraved wrist watches. Second place winner will represent Brownfield at the Sun Carnival in El Paso on New Year's day, and both the second and third place winners will receive cash awards.

Meanwhile, plans for the parade which will launch the day's activities are nearing completion. Heading the parade will be Rod Cameron, the Brownfield sheriff's posse and the Lubbock sheriff's posse. Doug Jones, chairman of the parade committee, said Wednesday that so far 14 floats have been entered, and 12 bands from surrounding towns have accepted invitations to march in the parade.

A complete list of the more than \$10,000 in gifts to be given to guests attending the holiday will be found in this issue of The Herald.

The Passing of Dr. Thena Robinson

The many friends of Dr. Thena Robinson will regret to learn of her passing, September 29, at Bethany, La. She was laid to rest in that city following funeral services. This information was sent in by a sister of Dr. Robinson, Mrs. Henry L. Slover, of Witharrel.

Among other relatives, she was also survived by a son and daughter living in Brownfield, C. C. Robinson and Mrs. M. O. Simpson. Dr. Robinson received her M.D. degree from Baylor university medical department in 1905. She practiced medicine for 45 years, three of them in Brownfield.

Mrs. Ida Bruton of this city informed us that Dr. Robinson helped Mrs. Griffith, health nurse, to institute the first pre-school clinic roundup in Brownfield for the South Plains health unit. Mrs. Bruton also stated she liked to think that Dr. Robinson's health and civic work here is still growing steadily.

She was an active civic worker a member of Eastern Star.

OFFICE SUPPLIES IN NEW BUILDING

We learned on what we consider fair authority this week that the building under construction on South Fifth street is to be rented or leased to a Lubbock printing concern.

As we understand it, their printing division will still be confined to Lubbock. This will be a branch of their office supply business for the present at least.

Mrs. Carnelia Moore District President Of Woodman Circle

Three local ladies, Mrs. Charles Moore, Mrs. Charles Didway, and Mrs. Irene Wheat, were elected president, vice president and auditor, respectively, Thursday, when Brownfield was host to the annual district convention of the Woodman circle.

Convention delegates assembled at 10 with Rev. A.A. Brian, pastor of the First Baptist church, giving the invocation. The welcome address was given by Mayor C. C. Primm and the response by Mrs. Lula Taylor of Littlefield.

Honored guests at the convention were Doris Mullins, Muleshoe, past president; Vera Lake, Springlake, district manager; Jennie Lindbloom, Amarillo, district welfare worker, and Mrs. Laura Krebs, district state manager.

The Woodmans circle team of Earth conferred degrees on Odesa Bowen, Varlie Turner and Irene Wheat.

Some 50 delegates from Earth, Muleshoe, Slaton, Amarillo, and Littlefield were in attendance. Earth was selected as the next host to the convention to be held in March, 1950.

J. M. Rankin —

(Continued from Page One) gion. He holds both a B.A. and a M.A. degree from Tech college.

He married Miss Maude Benton, daughter of a pioneer of the Plains country, and a sister of Mrs. R. H. Banowsky, who will be remembered by many of the old-timers in Terry county, as Miss Maude used to visit her sister here quite frequently. Mr. Rankin has had 25 years' experience in school-room instruction.

He once owned a newspaper in Slaton and has been a more or less regular contributor in the Rall Banner in a column termed "Week at a Time."

WELLMAN 4-H CLUB MET

The Wellman 4-H club met in the club room October 3. Miss Helen Dunlap gave a demonstration on barbecued chicken.

Mrs. Roy E. Moore showed the members of the club some of the county 4-H exhibits which were exhibited at the Lubbock fair, among them being a poultry scrap book made by Donna Weldon that won first place.

BIRDS MEET HURRICANES

MIAMI, Fla. — (AP)—Flamingos, famed pink birds of Florida, know how to take care of themselves in a hurricane.

When the great winds come, the birds take to dry land, form themselves into a wedge, with the V pointing into the wind. The point shifts as the direction of the wind changes.

The Flies Are At Their Worst

We have talked with several this week, and one and all agree that the flies are the worst they have been this year. Indeed, part of the time this year, we have had very little flies. Most people fought them pretty hard with dope and swatters earlier. Also, the city sprayed pretty often in the streets and alleys in both the residential and the business sections. The business section was sprayed more than other parts of the city.

Could be that with the approach of cold weather, the flies are just leaving the outside to try to find a warmer place within the houses, both business and residence. But we saw more flies on the outside than at any other time this year. Dozens of them were perched on the mail box at the corner of Broadway and Sixth, Thursday morning.

Mayor Primm stated that he had also noted the increase the past few days, and that the city had used \$500 worth of spray in the past week. Of course when frost hits, the flies will be blinked out until next year.

DRY TO UNDERTAKE IMPROVEMENT OF GOLIAD

AUSTIN, Oct. — Daughters of the Republic of Texas launched a statewide campaign this week to improve and beautify Goliad state park and gained an immediate endorsement from the state parks board.

"This is a most worthwhile project," Gordon K. Shearer, executive secretary of the board, said. "The state board is in a position to maintain this historic site once Texans have restored it to full beauty."

The group is asking all civic and patriotic organizations, as well as all Texans, to join them in the drive to raise \$200,000 for the restoration project.

"We have remembered the Alamo and have restored it," said Mrs. Henry R. Wofford, Sr., San Antonio, state president of the association. "Now we must remember Goliad and the brave men who died there."

"We invite Texans young and old, both in clubs and privately, to donate funds so that we might make Goliad state park a shrine which Texans and our out-of-state visitors would want to visit in memory of those early heroes."

I wish to thank the doctors and nurses at Treadaway-Daniell hospital for their kindnesses, and all my friends for their flowers, gifts, cards, and words of comfort and prayer during my illness and stay in the hospital.

Craig Lewis

MURRY'S JUNIOR DEPUTIES ORGANIZING

Organization was completed in a Junior Deputy Sheriff's League at Meadow Monday and units at Brownfield and Wellman will be perfected within a few days.

Meadow organized with 41 boys with Ben McCarty chief of boys 10 to 12 years of age; Ray Gogor, boys 12 to 14; Gary Valentine, 14 to 16.

The district court room was the scene of tentative plans for a sheriff's posse to be organized in Brownfield last Friday with 57 boys ranging in age from 10 to 16 years of age to set plans in motion for the organization of a league.

Sheriff Murry expects to have some 150 boys in the league when plans are completed.

AMERICAN LEGION AUXILIARY MEETS

Members and prospective members of the American Legion auxiliary are requested to meet at the Legion hall Thursday night, October 13, for regular monthly meeting.

The auxiliary needs all the eligible women in Terry county as members. Go out and give your ideas on a bigger and better auxiliary.

JACK BROWN'S HOME DESTROYED SEPT. 27

Jack Brown's home was totally destroyed Tuesday, September 27, by fire. The flames, believed to have started in the closet, raged through the house unchecked. Only Mrs. Brown and her two small children were at home during the time.

Many of the neighbors and friends have helped them by showering them with good clothing and other necessities.

LAS AMIGAS CLUB MET WITH MRS. COPELAND

Mrs. Lal Copeland was hostess to Las Amigas Bridge club at 7:30 p.m. Wednesday, October 5, at the Esquire cafe.

A Mexican dinner was served to Mesdames Jack Cleveland, O. L. Stice, Frank Ballard, J.T. Hoy, Tom Harris, Ike Bailey, Burton Hackney, Tommy Zorns, Clovis Kendrick, Gordon Richardson and Misses Sue and Gertrude Jones.

High scorer was Mrs. Ballard, and Miss Sue Jones was second high. Mrs. Zorns and Mrs. Kendrick won bingo prizes.

Mrs. W. R. Wilson of Knox City is visiting Mrs. M. G. Tarpley.

Sometimes The Hitch Hiker Gets Assaulted

A rather peculiar case came to notice here this week when a 38-year-old man, said to be driving from Artesia, N.M., to east Texas, was picked up in Lubbock and brought back here for trial. It appears that he and a young man had a "few drinks" at a bar at Bronco and somewhere around 12 miles west of Brownfield a fight took place between them.

The younger man about 23, was left badly beaten, and found by a passer beside the road. But what really got the older man in a jam with the law was that he had 'er filled up at a local filling station and pulled out without paying. Evidently the filling station man got the car license.

As the older man did not have the wherewithal to pay a fine for aggravated assault and theft, he is now a boarder at the Murry hotel, third floor back.

AKRON, O.—(AP)—Dr. and Mrs. Walter Cook have a heavy hobby. They collect rocks. They started it several years ago, now they have tons of rocks from many parts of the country. He is chairman of the chemistry department at the University of Akron.

SAFETY COUNCIL ISSUES "ACCIDENT FACTS"

CHICAGO — Elbow bending often leads straight to traffic accidents, according to the 1949 edition of the national safety council's statistical yearbook, "Accident Facts."

One out of every six drivers involved in fatal motor vehicle accidents during 1948 had been drinking, accident reports showed. One out of every four adult pedestrians killed in last year's motor vehicle accidents had been drinking, too.

The yearbook also shows that one out of every eight drivers violating traffic laws was driving while under the influence of alcohol.

JEWS GO TO ISRAEL

SINGAPORE — (AP)—Many in Singapore's Jewish community of 1,200 believe the time has come to emigrate to "The Promised Land." Since April, about 65 Jewish young men, women and children have left Singapore for Israel.

Singapore Jews have been told that living in Israel for the new immigrant is hard, but that the infant country welcomes young men and women who could face the hardships.

TERRY COUNTY FARMER GROWS ALMONDS

Last week one day, a local farmer told a bunch of us coffeeites up at the cafe that he had an almond tree or trees on his place that had considerable fruit this year. Someone remarked that they did not know they would grow this far north.

But when we got ready to put it into print, neither the Sr. nor the Jr. editor could remember the name of the grower. Pat Fatterson, who happened to be present, and knows nearly everyone, was appealed to but he couldn't think who it was, although he knew at the time.

Anyway, we believe almonds are growing in old Terry.

MEADOW HD CLUB MEETS

The Meadow Home Demonstration club met with Mrs. W. J. Bell Tuesday afternoon, with ten members and one visitor, Mrs. Gregg, present. Mrs. Lillian Doak gave a report on the state meeting that was held in Mineral Wells September 23 and 24. She stated that there were 13 outstanding clubs in the state, two being in Terry county—Pool and Meadow.

Reports of the year's work were filled out and handed to Mrs. W. J. Moss. New officers were also elected.

For the program, each member gave tips or demonstrations on things learned this year in club work.—Reporter.

Freedom Goes Where The Newspaper Goes

Is it merely an accident that those countries that have a free press, also have a free people? Most Americans realize it is more than coincidence. They have learned that the right of newspapers to seek out and publish the truth without fear of reprisal is their only opportunity to know the facts on which they may exercise their freedom of choice. This is the essence of true Democracy.

Freedom of voice starts where people live and work. There have been vast changes this past decade. . . not only in the world and nation, but also in our hometown. And . . . more are on the way. Read your hometown newspaper with care—the advertising as well as the news columns—to discover the freedom of choices that promises you a happier, more abundant life, right here in your own hometown.

SCOUT TROOP 74 HAS NATIONAL ROLL CALL

Troop 74 of the Boy Scouts of America, sponsored by the Brownfield American Legion, had national roll call at a meeting held Tuesday night at Veterans hall. National roll call is an annual affair held by Boy Scout troops throughout the United States for the purpose of investigating and examining scouts on all points of their training. Russell Nelson was investigating counsellor.
Virgil Crawford addressed the scouts on "Cooperation," with each letter of the word brought in a good scout.
Twenty-two scouts received explorers cards in an investiture out to stress certain phases of the candle ceremony.

TEXAS AUTHOR — Wayne Gard, editorial writer for the Dallas Morning News, is the author of a new book, "Frontier Justice," which offers a fresh and sometimes startling view of the taming of the West. While Gard sticks to facts, he tells many stirring episodes. (AP Photo)

LIQUOR CONTROL CHIEF—Coke Stevenson, Jr., son of the former governor, assumed new duties as administrator of the Texas state liquor control board. He succeeded John Y. Lawhen of Tyler, who resigned to enter private law practice. (AP Photo)

FEDERAL INTERNAL REVENUE COLLECTIONS

AUSTIN, Tex., Sept. — Federal internal revenue collections in Texas totaled \$93,412,506 in the month of August, a 12-per-cent increase from August, 1948, collections, the University of Texas bureau of business research has reported.

Employment taxes (other than withholding) fell nine per cent during the 12-month period, while income taxes stepped up 31 per cent and withholding taxes gained 12 per cent.

CASHES IN ON DEVALUATION

Chatham, England — (AP) — A 12-year-old boy was the first customer to capitalize on the devaluation of the pound at the National Provincial bank here.
David Campbell reached two quarters, a dime and a nickel through the teller's cage and asked for shillings and pence in exchange.
"I took the coins from my collection," he said. "I want to buy a bicycle pump."

Jodie Arthur of Stephenville was a guest of Betty Jackson over the week end.

SHORT WAVES ON BEAM

NEW YORK — (AP) — Unusually short waves of 4,000 megacycles are used for radio relay of television signals largely because they apply themselves easily to beaming from point to point.

Mr. and Mrs. Ellis Hill, who recently moved to Levelland, visited the W. F. McCrackens last week.

U.N. Staff Helps Victims of Earthquake

As soon as news of the earthquake which destroyed several towns in Ecuador reached United Nations Headquarters, members of U.N.'s International staff began a collection to help the victims of the disaster. Here, U.N. Secretary-General Trygve Lie, presents a check for \$2500 to Guy V. Partridge, of the American Red Cross, as part of the U.N.'s Secretariat aid to the stricken country.

'Suicide' Simon To Blow Self Up With Dynamite 22 Times At Fair

A man who says he enjoys living will "blow himself up" with dynamite 22 times during the 1949 State Fair of Texas Oct. 8-23.
He is Capt. Leo (Suicide) Simon of El Jobean, Fla., world-famous daredevil who developed his dynamite stunt because he got tired of getting his neck broken in the fire-diving act he did up until about two years ago.
Simon's current act is simplicity itself. He climbs into a wooden coffin-sized structure with three sticks of dynamite and a lit cigar. The box is surrounded by wire to protect the spectators from flying pieces of wood.
The force of the dynamite blast disintegrates the box, but Simon gets up and slowly walks away — if he's lucky.
"A Slight Thud"
"If everything goes off all right," Simon says, "I just feel a slight thud. If everything doesn't go right, I don't feel anything; I just wake up in the ambulance on the way to the hospital."
Simon explains that sometimes he miscalculates and uses too much dynamite. Even so, it's not the dynamite that knocks him cold, but usually pieces of the box hitting him in the head.
The noise of the explosion does not bother Simon. He has been virtually deaf for years. However,
Simon has an act he performed for 17 years. He drenched his clothing with flaming gasoline and leaped from a 100-foot tower into a five-foot pool of water with more flaming gasoline on top.
"Every Bone Broken"
He claims to have broken every bone in his body doing this stunt and as a wing-walker in the old-time barnstorming aerial cruises. Three times in one year, he broke his neck.
"That's when dynamiting himself began to look easy to him, he says. Simon says the secret of his act is to keep his head within six inches of the dynamite.
"There is a vacuum formed by the blast like the eye of a hurricane," he explains. "Three feet away and I'd be blown to bits."
He uses no protection except an inch-thick steel plate between his head and the dynamite.
The 44-year-old stunt man hopes to retire to his 28-room hunting lodge on the Florida coast if he lives long enough. This he plans to do.
"With dynamite I am very careful," he says. "People don't realize how careful, because I love living and want to keep on living."
Simon says a sponsor up East wanted to bill him as "Simple Simon."
"Imagine that," Simon snorts, indignantly. "People might think I was crazy."

"SUICIDE" SIMON
He Blows Himself Up

WHERE HURRICANE STRUCK TEXAS COAST — The shaded arrow indicates the area on the Texas coast where a hurricane swept inland after making initial contact in the area between Freeport and Matagorda. The hurricane smashed Houston, Texas' biggest city, fore more than an hour with winds between 80 and 90 miles an hour, but no major damage was reported. The open arrow indicates the Lufkin-Palestine area (underlined) which the hurricane is expected to reach early this afternoon, October 4. The New Orleans, La., weather bureau said that the hurricane should diminish as it moves inland. (AP Wirephoto)

Water won't stop it!
The beautiful Chrysler New Yorker with Prestomatic Fluid Drive . . . the simplest of all automatic transmissions.
When others cough and quit . . . Chrysler doesn't even splutter. Storm—damp—high-water—can't faze it! Throw a bucket of water over the engine and you can't stop it. Once again Chrysler brings you the year's most needed engineering feat. The first and only completely waterproof ignition system on any passenger car in America—and it's standard on all Chrysler models! Coil—distributor—wiring harness—spark plugs—everything sheds water like a duck! And mind you . . . this is only one of 50 stand-out advances this year on the beautiful Chrysler. Better see how they add up to the sweetest driving, best riding Chrysler ever built for you. Visit your nearby Chrysler dealer for an eye-opening demonstration today.
The Beautiful CHRYSLER M. J. CRAIG MOTOR CO.
719 West Broadway Brownfield, Texas

GHOST GALLOPS AGAIN—Harold "Red" Grange, the former University of Illinois and pro football great, here demonstrates the art of stuff-arming to Raymond Freeman, 12, a pupil in one of the eight junior football schools conducted by the Chicago park district. Grange, the "Gallop Ghost" of the '20s, is roaming the gridiron again as supervisory coach of the program.

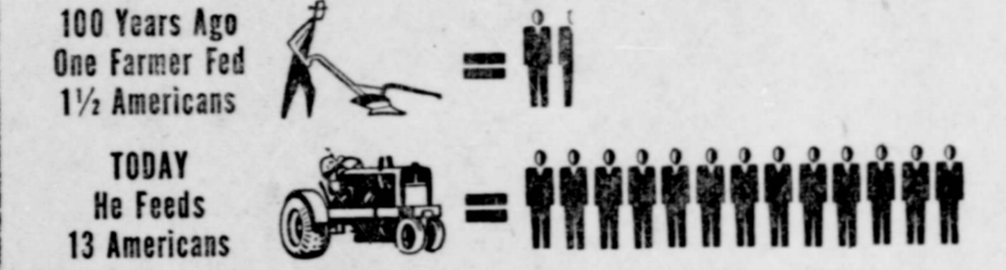

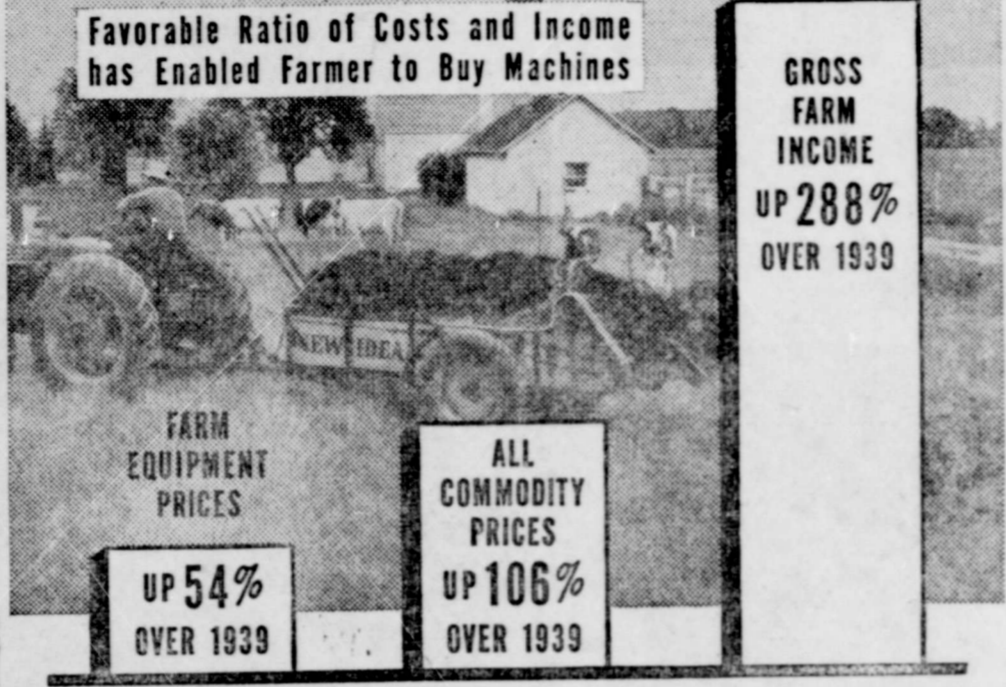

"NOSIEST MUTT I EVER SAW"—Somebody better explain to Lobo, the German Shepherd, that this is no ordinary sniff—it is an aptitude sniff which is being executed by Princey, one of those New York canines with a nose for learning. The miniature pinscher is being tested for reaction to stranger Lobo as part of the entrance exam to Dr. Frederick Reiter's Canine University. Princey's proud mistress, Claudette Sorel, looks hopeful as Princey comes through with flying colors.

Headed Right

INCREASED MECHANIZATION INCREASES FARM PRODUCTIVITY

ALCOHOLICS CONSPICUOUS
PRAGUE—(AP)—Alcoholics will not remain anonymous at Brno, capital of Moravia. The council of the Communist-controlled national committee there has announced it will post publicly the names of "notorious alcoholics," especially if they are also work shirkers.

Santa Fe system carloadings for the week ending October 1, were 25,273 compared with 26,685 for the same week in 1948. Total cars received from connections were 11,738 compared with 13,412 for the same week last year. Total cars moved were 37,011 compared with 40,097 for the same week in 1948.

Santa Fe handled a total of 35,34 cars during the preceding week of this year.

GETS TRUMAN NOD—Former Texas Gov. James V. Altred has been nominated by President Truman as federal judge for South Texas. It was for a new judgeship created by congress. Altred formerly was a United States judge in the same district. (AP Photo)

NOMINATED FOR JUDGE—Ben C. Connally, above, has been nominated by President Truman to be a federal judge for southern Texas. He would fill a new post created by congress. Connally, a Houston resident, is the 39-year-old son of Sen. Tom Connally and is a native of Marlin. (AP Photo)

GOMEZ GOSSIP

Mr. and Mrs. Odie Line and daughter, Carrie, of O'Donnell were week-end visitors in the home of her father, T. S. Doss.

C. H. Britton of Union was a visitor Sunday in the home of Mr. and Mrs. V. B. Britton.

Miss Nell McLeroy of Dallas, state training union worker, was a visitor Friday and Saturday with her mother, Mrs. C. J. McLeroy.

Mr. and Mrs. W. G. Carter were Sunday visitors in Seminole with Mr. and Mrs. J. L. Berryhill.

Mr. and Mrs. A. V. Britton and family visited Thursday in Lubbock with Mr. and Mrs. Dick Mickinnon and Thursday night in the home of Mr. and Mrs. F. L. Curry at Wolforth.

Miss Dorth Albert of Brownfield spent the week end as a guest of Miss Nelva Wiggins.

Mr. and Mrs. J. S. Stephens of New Mexico are here visiting in the home of their son, Lowell Stephens, and family.

Mrs. Lowell Stephens honored her daughter, Senith, on her fifth birthday Saturday afternoon with a party at Coleman park. Refreshments of cup cakes and cold drinks were served to Michael and Dennis Duncan, Loree Key, Mickey Webb and Linda Nevgin and the honoree.

Mr. and Mrs. Aaron Fox and daughter visited relatives at Lubbock Sunday.

Mr. and Mrs. Landress and son, Elbert Lee, visited in the home of Mr. and Mrs. Hughlan McMillan at Brownfield Sunday.

Pat Franklin of El Paso spent the week end in the home of his parents, Mr. and Mrs. R.H. Franklin.

Rev. J. C. Johnson of Roswell, N.M., brother of Mrs. M. C. Wade, was a week-end guest in the Wade

home. Mr. and Mrs. Tobe Hatch and Mr. and Mrs. L. Truman, all of Ralls, were also guests.

Mr. and Mrs. L. H. Key and children of Denver City were visitors in the Tress Key home Sunday.

Mr. and Mrs. James Brown are the parents of a baby boy born October 1 weighing eight pounds ten ounces.

A. C. Sedgwick is a patient in the Brownfield hospital.

Tress Key went to Clovis, N.M., Monday to attend a cattle sale.

Mr. and Mrs. Earl Sears of Lamesa, Ernest Sears of Lubbock, and Mrs. C. Sears of Brownfield were visitors Sunday in the K. Sears home.

Mr. and Mrs. Bill Swain visited in the home of their son-in-law and daughter, Mr. and Mrs. Fayne Clark, at Lubbock Sunday.

Janette Ruth Berryhill of Seminole is visiting this week in the home of her grandparents, Mr. and Mrs. Gordon Carter.

Miss Ramona Snyder and Lester Doss of Snyder were visitors in the T. S. Doss home Sunday.

Rev. and Mrs. J. W. Stone, Mrs. C. J. McLeroy, Mrs. Kelle Sears and Miss Nell McLeroy visited Saturday afternoon at Springlake in the home of Mr. and Mrs. Frank Bozmann.

The Texas Help Yourself Policy

In the first six months of 1949, the federal power commission authorized construction of natural gas pipe-lines which will deliver 2,000,000,000 cubic feet of the fuel daily to 72 cities of 50,000 or more population in 17 states.

Most of the gas will come from Texas, Washington, Des Moines, Cleveland, Pittsburg, Salt Lake City, Louisville and several scores other cities in widely scattered parts of the country will use Texas natural gas when the lines are built. In all, they will use two billion cubic feet every 24 hours.

It is cheap fuel and convenient fuel, and there is a nice profit in the piping of it. One can't blame the cities for wanting it, or the pipeline builders for delivering it to them at a profit. If Texas

NEWS TRAVELS SLOWLY
WASHINGTON — (AP) — Fred Bailey, an official of the National Grange, went to see an agriculture department official. While waiting, he casually asked a stenographer what he thought of the Brannan plan of farm price supports.

"Who's Brannan?" asked the stenographer.

"Why," replied Bailey, "he is secretary of agriculture!"

"He is?" Then what became of Clinton Anderson?"

awakes one day to find itself required to burn coal, the fault will be that of Texas itself and of a legislature which didn't even make it possible for this state to raise its voice in protest.

Texas has said to the nation, in effect, help yourself. There need not be any mistake about where the blame will rest when the consummate folly of Texas' attitude is realized.—Wichita Falls Times.

VOTERS TO DECIDE ON POL LTAX PAYMENT

By Mac Roy Rasor
Associated Press Staff
AUSTIN, Tex. — (AP)—Should there be a tax on the right to vote?

That 50-year-old question will be decided at the polls November 8. It will be No. 4 among ten proposed constitutional amendments on the ballot.

This is the way the proposal will read on your ballot:

"FOR (AGAINST) the amendment to the Constitution of the State of Texas eliminating the provisions in said Constitution making the payment of poll tax a requirement for voting, and providing a general registration law."

Note especially that it calls for eliminating the poll tax requirement for voting—not the poll tax itself. If the amendment is adopted, the poll tax will still be due. But you would be able to vote

whether you paid it or not.

The poll tax voting requirement has been at question ever since it was written into the Constitution at the turn of the century. It has become a real political issue only in relatively recent years. Particularly as one of the civil rights planks that splintered the national Democratic party in the last election. The state Democratic convention at Fort Worth

last year went on record favoring submission of the issue to the people.

Proponents argue that federal law will eventually guarantee a free voting privilege, that it is better for the state to handle the matter now than have the federal government do it later. They say that a citizen's vote in a Democracy as a matter of principle,

should have no tax strings.

Opponents contend that any change now amounts to throwing in the towel to federal government dictates. They argue that the \$1.75 tax doesn't deprive anyone of the right to vote in these lush times. They say few will voluntarily pay the poll tax when the voting requirement is gone, cutting off more than a million dollars a year the tax now spills

into the state school fund.

If voters abolish the requirement, a new law to register voters annually has been readied to take effect automatically next year.

Columbus did more than discover America. It was because of him that a raw wilderness flowered into a populous new world. His faith and determination laid the foundation for the victorious army that rose from the half-starved, half clothed Continental at Valley Forge and his faith and determination enabled us to create our democratic Constitution. The greatest success of our free enterprise system is its continued ability to produce a new Columbus for our every need.

Clyde Harris, Amarillo, Texas, interior decorator, greets his bride, the former Princess Cella Hohenzollern, granddaughter of the late Kaiser Wilhelm, as she arrives in New York on the liner Queen Elizabeth. They were married in Hechtigen, Germany, June 21, after a three year romance. Harris returned before his bride to prepare a home for her. (AP Wirephoto)

Rackley-Finley Wed In Friday Ceremony

The marriage of Miss Alma Rackley, daughter of Mr. and Mrs. Lee Walker of Meadow, and Fred Finley, son of Mr. and Mrs. B. F. Finley, also of Meadow, was performed at 7:30 p.m. Friday night in the home of Mr. and Mrs. Joe Hefner at 1519 Eighteenth street in Lubbock. Ernest E. West of Tahoka officiated at the double ring ceremony.

The bride wore a royal blue wool gabardine suit with a matching hat and grey accessories. Her corsage was American Beauty roses.

Mrs. Stuffy Moorhead, a cousin of the bride, was matron of honor. She wore a white wool suit with a matching hat and green accessories.

Nathan Chesshir of Brownfield was best man.

A reception was held immediately following the ceremony. The bride's table was laid with a lace cloth and was centered with the wedding cake flanked with tapers. A color scheme of pink and white was carried out in the decorations.

After a wedding trip to Dallas, the couple will be at home in Meadow. The bride is a graduate of Meadow high school and was employed with the Veterans Administration in Lubbock prior to her marriage. He is a graduate of Meadow high school and attended West Texas State Teachers college in Canyon and Texas university. He served four years in the army air force.

Guests attending the wedding included J. T. Morgan and Tom Hizey, both of Lubbock, and Stuffy Moorhead of Brownfield.

DAUGHTER HONORED ON FIFTH BIRTHDAY

Mrs. Lowell Stephens, assisted by Mrs. J. H. Roach, entertained her daughter, Semith, with a party on her fifth birthday Saturday in Coleman park.

Cup cakes decorated with the numeral "5" and grape sodas were served and favors of poppers and balloons were given to Loree Key, Michael and Dennis Dunagan, Mickie Webb, Linda Nugent, Theresa and Rowe Stephens and the honoree.

RETURN FROM TRIP

Mr. and Mrs. Hubert Heath and son, Norwood, returned Friday from a week's vacation in New Mexico, Colorado, Kansas and Oklahoma.

While in Colorado, the Heaths visited Pike's Peak, and at Holly with Mr. Heath's brother, H. D. Heath, Jr., and family.

Parents To Entertain Band Group Monday

The members of the Brownfield Band Parents club will entertain their sons and daughters with a picnic and weiner roast at 7:30 p.m. Monday, October 10, in Coleman park.

The Brownfield high school band will participate in a joint concert with the Sundown band Thursday, October 13, under the auspices of the Sundown Lions club, at their annual carnival.

Proceeds from the concert will go toward setting up a recreation center for young people in Sundown. The Brownfield band will represent the local Lions club at the concert.

TO HAVE BAKE SALE

Members of the Cen-Tex Harmony club will have a bake sale Saturday, October 8, in the lobby of the Brownfield State Bank and Trust company, beginning at 9:30 a.m.

MARRIED RECENTLY IN SAN ANGELO — Mrs. Norval Ted White, the former Mary Beth Baker of San Angelo, who was married in San Angelo Sept. 24.

Mrs. White is the daughter of Mr. and Mrs. J. L. Baker of San Angelo. Mr. White is the son of Mrs. Eldora White of Brownfield.

MRS. CARR AUSTIN HOSTESS TO MAIDS AND MATRONS CLUB

The Maids and Matrons Study club met Tuesday, October 4, in the Seleta Jane Brownfield clubhouse with Mrs. Carr Austin as hostess.

Roll call was answered with responses from subjects previously assigned to the members.

"How Psychiatry Helps" was presented by Mmes. E. C. Davis, Mon Telford, Evans, Looe Miller and J. R. Turner. Mrs. Davis was program chairman.

Cake and coffee were served to

the following members and guests: Mmes. W.M. Adams, W.B. Brown, E.F. Latham, Forest McCracken, Mary Ruth Nelson, Money Price, J. G. Randal, Redford Smith, W. J. Speen, M.G. Tarpley, Telford, White, Davis, Miller, Turner, Austin, and W. R. Wilson of Knox City, who is a house guest of Mrs. Tarpley.

Mr. and Mrs. A. A. Sawyer attended the Rose Festival in Tyler last week.

Gee Gee's Chit Chat

It has just been called to my attention that I have neglected saying anything about the town's youth organizations in several issues. Don't know how that happened. Anyway, this new one really sounds fine (and fun, too), so I will just have to mention it. At 8:30 every Sunday evening, the Adult Westminster Fellowship meets at the Presbyterian church for a social hour after church. It is not for Presbyterian youth alone — all high school young people and those out of high school are invited to attend. Mrs. Lee Allen and Mrs. Frank Wier are sponsors of the group, and they would like to have all young people between the ages of 15 and 23 years with them Sunday night. This certainly carries our seal of approval.

And speaking of youth, the kids who come out of Brownfield high school may not learn everything that their books have to offer, but they sure know how to lead the cheering sections in colleges. Miss Norma Jo Boyd, a freshman this year, and Arnold Dalton are both cheer leaders at West Texas State Teachers college at Canyon this year. Glenn Winston is head cheer leader at Tech this year, while Yvonne Forbus is head majorette of the band at Sul Ross State Teachers college at Alpine.

A fellow said to me the other day, "It sure would be nice if we could sell 50,000 tickets for the harvest holiday so that Ann and Elizabeth and Margaret could all be queens!" It couldn't happen to three nicer girls, do you think? The "niece and nephew" stork flew over little sister's and brother-in-law's house the other day and dropped Christopher James Roberts. Such a pretentious name to tack on such a tiny fellow, but he'll be called Chris until he can live up to it.

As many of you may know, after the Big Spring-Brownfield football game a couple of weeks ago, the Big Spring band had a reception for members of the Brownfield band. Which was a very nice gesture. What wasn't so nice was the beating that one of the local band members got just as he was boarding the bus to return to Brownfield. Sometimes those things happen, though. But it seems to be a habit with someone down there, because last week, after the Lamesa-Big Spring

WELLMAN HD CLUB ELECTS OFFICERS

Mrs. Miller Rich was hostess to the Wellman Home Demonstration club Friday, September 30.

The demonstration was on the making of lampshades.

It was decided that the Wellman club will exhibit trays in the county exhibit.

The following officers were elected for the coming year: Mrs. Horace Fox, president; Mrs. A. R. Baldwin, vice president; Mrs. Miller Rich, secretary-treasurer; Mrs. Harmon Seales, council delegate; Mrs. Elmer Edwards, reporter, and Mrs. T. C. Weldon, parliamentarian.

Nine members attended the meeting.

CUB SCOUT PACK TO MEET MONDAY

The program for the coming year will be planned and outlined at a pack meeting of the Cub Scouts of Brownfield Monday, October 10, at 7:30 p.m. at the First Presbyterian church. Awards will also be presented.

All Cub Scouts and their parents are urged to attend.

Coffee Honors North Carolina Visitor

A coffee introducing their sister-in-law, Mrs. Bert Elliott, was given at 9:30 a.m. Saturday at the Esquire restaurant by Mrs. Madeline Holder and Mrs. Jay King.

Those present were Mesdames Doug Lowe, Clyde Bond, Guffie Stinnett, Ed Swartz, Lee O. Allen, Jack Cleveland, Clovis Kendrick, O. L. Stice, Sammy Jones, W. T. Howze, Bobby Jones, Gay Price, Harmon Howze, Graham Smith, Ken Sadler, and the Misses Sue and Gertrude Jones.

Sgt. and Mrs. Elliott live at Camp LeJeune, N.C., where he is on duty with the marine corps. They are visiting here with friends and relatives.

Breath-taking new 1950 Studebaker!

IT'S THE "NEXT LOOK" IN CARS

All over America, all eyes are on this dramatically different 1950 Studebaker. It's the most sensational advance in car styling since Studebaker introduced the "new look" in cars three years ago.

This 1950 Studebaker is long, low, luxurious—and it's trim, sleek and flight-streamed—no bulging excess bulk to squander gasoline.

Stop in and get a close-up eyeful of this breath-taking new Studebaker. It's the "next look" in cars

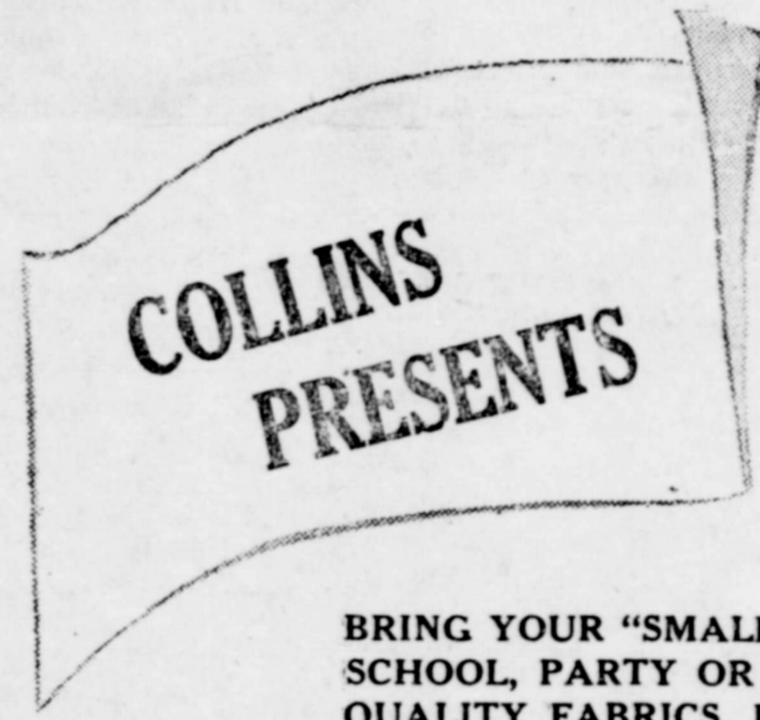

Stand-out advancements mark this 1950 Studebaker! Higher compression Champion and Commander engines of increased horsepower - Self-stabilizing coil spring front wheel suspension - Wide-rim wheels and extra-low-pressure tires - Self-adjusting brakes - Oversize windows and windshield - Glare-proof "black light" instrument dials - Wear-resisting Studebaker craftsmanship.

Texas Families Carry Much Life Insurance

Texas families owned \$3,600 of life insurance per family, on the average, at the start of this year, a new high of such protection, the institute of life insurance has reported.

On January 1, the total life insurance owned in this state was \$7,480,200,000. Of this amount, \$4,763,900,000 was in 2,251,800 ordinary life insurance policies, the larger unit type of individual policies, usually in amounts of \$1,000 or more each and paid for annually, semi-annually, quarterly or monthly. An additional sum of \$1,257,100,000 was in 4,350,900 industrial insurance policies, the small unit, weekly or monthly premium type collected at the door. And \$1,459,200,000 was in group life insurance made available to employees through 2,300 contracts of employers.

"This record bulwark of protection built up voluntarily by the families of this state represents one of the great strengths of our

JOINS TECH STAFF ON COTTON RESEARCH

LUBBOCK, Sept.—Dr. Lyle E. Hessler, former United States department of agriculture cotton expert, has joined the Texas Technological college staff to aid the cotton research committee with its program.

Dr. Hessler says one of his biggest jobs will be the promotion of cotton as a competitor of synthetic materials.

"Cotton if properly handled and grown can successfully compete with synthetics," he said.

Dr. Hessler will study the maturity, length, strength and performance of cotton fibers. He says the research program also will include a study of the effects of chemical treatments on cotton fibers.

HOME FROM TRIP

Mr. and Mrs. Fred Smith are home from a trip that took them to Chicago, where they visited Mrs. Smith's daughter for several days. They then went to Charleston, S.C., where they visited Mrs. Smith's sons, Lt. Jess Collins, USN, and Roy Collins, who is a textile engineer at a cotton mill in that state.

people and is proof of the fact that Americans generally believe in the "do-it-yourself" philosophy," Holgar J. Johnson, institute president, said in announcing the results of a state-by-state analysis of the last annual report figures.

BIG SPRING FLOWS AGAIN— Water flowed again in the spring which gave Big Spring its name but it was an artificial trickle worked up as part of the

city's centennial celebration. The flow of water was caused by a plumber's craft. The spring, as shown above, has been dry for many years. It was a favorite Comanche watering place and

later was a big factor in the development of a Texas and Pacific railway division point at Big Spring and the subsequent growth of the city. (AP Photo)

1948 COTTON DEFOLIATION TESTS ARE ANNOUNCED

COLLEGE STATION, Sept.—The use of the power-driven cotton harvester stripper-type as an efficient method for harvesting cotton on the Texas high plains has been increasing, but to insure best harvest results, and a consistently good grade, growers must either use a chemical defoliant to drop the leaves from the cotton plant or wait for "mother nature" to take them off with frost, says D. L. Jones, superintendent, Lubbock experiment station.

Jones and E. L. Thaxton, Jr., junior agronomist at the Lubbock station, report that normally, the more mature a plant is, the easier it is to defoliate if it is still active. The Texas high plains has an extremely short growing season, consequently plant maturity at the time of defoliation is one of the limiting factors.

They have found that plant activity is of equal importance. They say the plants, by fall, in a sub-humid area, often have used up the available soil moisture and are under great stress. This affects the time required for a complete leaf drop. In the more humid area, six to ten days are usually required, while on the high plains two to three weeks should be allowed. This inactivity on the part of the plant makes defoliation difficult.

The tough, leathery leaf developed by the cotton plants on the high plains is another factor to be considered. This type of leaf develops as a result of the late summer droughts and hot, dry winds. Low humidity and dewless nights are often encountered at the time the cotton plants should be defoliated and since moisture is required to activate many of the dusts used, satisfactory results are not obtained.

In 1948, the best defoliation was obtained from the use of monosodium cyanamid. It was used as a spray at the rate of 20 pounds

per acre in 12.5 gallons of water. This type of defoliation was not entirely satisfactory because the leaves became dry and brittle before dropping, and a large percentage of the growing plant tips were damaged by the caustic solution.

Jones and Thaxton say the most encouraging test was with the use of wetting agents in the spray solution. On one-acre test blocks, mono-sodium cyanamid, sprayed at 15 pounds per acre with one per cent Vatsol, gave almost as good defoliation as the same material sprayed at the rate of 20 pounds per acre with no wetting agent. The defoliation was 70 and 80 per cent respectively.

Results from the 1948 tests indicate that in drouthy years when no dew is present good defoliation requires the use of a spray material. The experimental monosodium cyanamid compound gave the best results.

The use of a wetting agent in the spray material to improve the coverage and penetration showed good results in 1948.

Previous work done at the Lubbock station has shown that excellent defoliation is possible with the use of aero cyanamid dust, special grade, when applied at the rate of 30-35 pounds per acre when persistent dews occur and the cotton plant is still active.

The defoliation materials used in the 1948 tests were applied to the cotton September 18, October 1 and October 27.

CALIFORNIAN HERE MONDAY

Mr. Chester Osgood of Long Beach, Calif., was a visitor here for the afternoon Monday. He had attended the funeral of the wife of his brother, Arthur Osgood, at Amarillo. Mrs. Osgood died quite suddenly.

As the California brother has land in southeast Terry, he decided to drop by and see how things were progressing, especially the oil game. He renewed for his Herald while here.

Mr. and Mrs. Lee Lyons spent the week end in Monahans with her sister, Mrs. C. E. Motley, and family.

Mrs. Cliff Johnson returned last Monday from San Angelo where she had visited her daughter, Mrs. A. M. Turnipseed, and husband.

STRIVING FOR PEACE—Brig. Gen. Carlos P. Romulo of the Philippines sits at his desk after being elected president of the fourth General Assembly of the United Nations at its opening session at Flushing, N. Y. He took over the duties from former President Herbert V. Evatt of Australia.

Extensionist Advises Rest For Dairy Cows

COLLEGE STATION, Sept.—A dairy cow needs a six to eight weeks rest and a good ration during the dry period to produce well during the next lactation and to produce a strong healthy calf.

The dry cow has three important jobs to do, says A. M. Meekma, assistant extension dairy husbandman of Texas A&M college. She must recover from a heavy milk-producing period, build a calf and store up reserves for the next milking period. How well she does these jobs depends upon how long a dry period she gets and how well she is fed during the dry period.

During heavy peak production, a good cow will deplete her body reserves of nutrients and minerals, says Meekma. And unless she is given sufficient rest and proper care to rebuild these body reserves lower production during the next lactation period will result. The health and condition of the calf will also be affected.

The problem of feeding the dry cow is practically solved if she has access to good pasture. If good pasture isn't available, hay and silage should be fed liberally, says Meekma. The amount of grain to feed will depend upon the con-

dition of the cow, but generally it is practical to feed the same grain mix to the dry cows as is fed to the milking herd.

Every dollar that is put into a good, dry cow ration is a wise investment, states Meekma. A cow that is well fed and cared for during the dry period will very often produce as much as 25 per cent more milk during the next lactation.

FIVE BOTTLES COST OF SHOW

PRAGUE—(AP)—You can see a pretty good show here for five old bottles. It's part of the government's campaign to increase industry's raw materials stocks through salvage.

Recently the Prague Karlin Umoni Lidu theater put on a performance with two big dance bands called "entertainment for five bottles."

Texans in Washington

By Tex Easley

(AP) Special Washington Service—WASHINGTON, Sept.—(AP)—A suggestion that the Lubbock air force base be named the Ellis air force base, in honor of a young Texan who gave his life to help win World War II, has come to Sen. Connally (D-Tex.) from W. H. Cooke, Jr., of Clarendon.

In a letter Cooke wrote that Lt. Lewis Calvin Ellis, Jr., formerly a student at Texas Tech in Lubbock, was shot down over Germany in 1942 when his son was only six weeks old.

The Ellis family is one of the real pioneer families of West Texas," said Cooke.

"They have been well known out here for many years and have been among our leading citizens. They are prominent in banking circles. I have known this young man's family for 35 years and there are no finer people, so I think it would be altogether fitting if the Lubbock air force base were named in his honor."

Around the Capitol:

Publisher Charles K. Devall of the Kilgore News-Herald, and Mrs. Devall have been visiting here en route home from New York. They had lunch at the capitol with Sen. Lyndon Johnson.

Publisher Pat Holt of the Gatesville Messenger and Mrs. Holt have been visiting their son, Pat, Jr., and two grandchildren. The son is a Washington correspondent for the semi-monthly news magazine, "The Reporter."

Two Texans were among 80 prominent and industrial leaders participating in the defense department's recent "orientation" tour.

They were Vice Pres. Charles Beard of Braniff Airways, Dallas, and Robert Williford, formerly of Longview and Abilene, now a hotel chain executive residing in Los Angeles. The group visited army, air force and navy installations up and down the eastern seaboard.

Stopping here while on a tour of big packing plants over the country were Frank Roddie of Brady, second vice president of the Texas Sheep and Goat Raisers association, and Robert N. Hunt of College Station.

Legislation formally authorizing agricultural aircraft experimental work, already started at Texas A&M college, has been introduced in the senate by Senator Thomas (D-Okla.) and in the house by Rep. Olin (Tiger) Teague of College Station, a former Aggie.

Resolutions offered by the lawmakers point out that present air-

Disturbing SIGHT—Russia has virtually ringed western Europe with super-secret V-2 rocket launching bases, according to Allied and German sources. Russian bases were reported to be equipped with both fixed units and mobile V-2 launching equipment such as that shown above. Russia's newly-disclosed atomic know-how raised possibilities of missiles with atomic warheads.

craft used in dusting, spraying, seeding and fertilizing farm lands mostly are converted military planes or obsolete biplanes, none originally designed for agricultural use.

The measures then state it to be "the sense" of congress that a project for the development of special aircraft for agricultural purposes be undertaken by the Civil Aeronautics administration and the agriculture department of Texas A&M.

CAA Administrator Del Rentzel, himself a former Texas Aggie, and representatives of the National Flying Farmers association and agriculture department officials recently discussed the pending resolutions.

An official blessing of the work already begun at A&M will place it in a more advantageous position if and when a request is made for appropriations to expand the project.

NAMED DIRECTOR BUREAU OF MINES

LUBBOCK, Sept.—Dr. Clifford W. Seibel, Amarillo, has been named director of the department of the interior's region six for the bureau of mines. Dr. Seibel formerly was supervising engineer of the bureau of mines helium plants.

He is a member of the Texas Technological college petroleum advisory board. The college conferred an honorary ph. d. degree on Dr. Seibel in 1937 in recognition of his services as the world's outstanding authority on helium extraction and helium plant construction.

For example, cites Miss Thames, many can openers, whether cheap or expensive, permit slivers of tinned steel to fall into the can's contents during the opening.

Here is a simple check that you can easily make to see if your can opener is working satisfactorily, says Miss Thames. Empty the contents from a can of food. Then wash and dry the can carefully. Hold the can firmly upon a sheet of white paper with the opened end down, and open the bottom end of the can with the can opener that you are checking.

Any slivers of metal released by the opener this time will fall upon the paper where they can be seen, says Miss Thames. If more than the barest amount of tinned steel shows on the paper, you'll know the can opener is not cutting as it should.

WHAT'S A LEG TO THESE BOYS?—Anything can happen, and usually does, at a Chicago restaurant which is the meeting place for the Chicago Magicians' Round Table. Joe Berg, left, demonstrates his latest invention—a "leg guillotine"—at one of the meetings. Miss Caroline Mayes, giggling over the shenanigans, thrusts out a leg for demonstration. E. C. Jester, left, and Bert Allerton, right, objected to carving up such a curvaceous gam, but that didn't stop the show.

CHECK THE CAN OPENER. SAYS A&M SPECIALIST

COLLEGE STATION, Sept.—One of the "most used" gadgets in the average kitchen is the can opener and it is doubtful, says Gena Thames, assistant extension home management specialist of Texas A&M college, if many homemakers ever check by a simple test the quality of the job that is done by the gadgets they use.

For example, cites Miss Thames, many can openers, whether cheap or expensive, permit slivers of tinned steel to fall into the can's contents during the opening.

Here is a simple check that you can easily make to see if your can opener is working satisfactorily, says Miss Thames. Empty the contents from a can of food. Then wash and dry the can carefully. Hold the can firmly upon a sheet of white paper with the opened end down, and open the bottom end of the can with the can opener that you are checking.

WRITING HIS TICKET—Thirteen-year-old Egon M. von Asow, of Berlin's British sector, works on his second book following the publication of his first, "Goethe for Pupils of the Third Grade in High School." Egon is trying to earn enough money to make a trip to the U. S. A student in Berlin High School, he is literally writing his own way.

Says New School Law Is Read Shot In Arm

LUBBOCK, Oct.—The Gilmer Aiken bills, passed at the last session of the Texas legislature, are praised by Dr. Doyle D. Jackson as "a real shot in the arm" to public education.

Dr. Jackson, acting head of the education department at Texas Technological college, said the bills have created more thought and conversation about public schools than any other public act in Texas history.

The acts establish a central education agency and several additional groups aimed at greater efficiency in public schools. Dr. Jackson said the result will be improved teaching standards in the state.

"Possibly the most noteworthy change under the Gilmer Aiken bills is that allocations are made to schools on the basis of average daily attendance, not on the scholastic census as in the past," Dr. Jackson said.

He also praised the salary increases for teachers. They will range from a few dollars to \$650 per school year, and according to Dr. Jackson, many college trained Texans have already switched to teaching.

A general election will be held in November to elect a 21-member state board of education which will be charged with administering the new measures.

EXES TO CONVERGE ON TECH OCTOBER 14-15

LUBBOCK, Oct.—More than 8,000 former students of Texas Technological college are expected to make their annual pilgrimage to the campus October 14-15 for a homecoming celebration that includes a football game, parade, dance, luncheon and a business meeting.

D. M. McElroy, secretary of the Ex-Student's association, said the registration begins at 5 p. m. on October 14. A pep rally is scheduled for 7:30 p. m. at the Tech gym.

There has been a lot written and said about the "signboard firms" that have been blowing into the smaller towns for the past few years and selling signs up to \$1000 or more. The Abernathy business men have just been taken to a cleaning, according to Buford Davenport of the Review. But it seems that the Anton merchants were a bit too smart for the graft, and the promoters left town under very shady circumstances, avers H. D. Richards of the Anton News. Our advice, if it is worth a penny, is to hire a local carpenter and painter to do the work, with a small per cent of the cost. We never drive our old Chevy more than 30 or 40 miles an hour after we get to the proximity of the signs about Brownfield, and about all we can read is that "Brownfield is a friendly town" or something. To save us, we couldn't tell you the name of the sponsors if we were to be hung for it. Now then fancy if you can a total stranger driving into Brownfield, with the streets and traffic unknown to him. Do you think he'd divert his eyes from the street or highway to try to read signs? But one of these slicked-tongued salesmen can come into a town and almost sell a South Sea slander an Eskimo igloo. Oh yes, they look nice, and if you have the time to pull out on the shoulder you might enjoy reading what the signs have to say. Reminds us of one that another guy and the writer found on a lonesome road in the mountains of northern Alabama many years ago. It was late and dark, and he feared he had gotten off the road. As for us, we didn't know one road from another. We finally saw a road sign back in

Meanwhile the Headache Gets Worse

gather, is to see groceries cheaper to customers. Now, if in restraint of trade, these chains were consorting to raise the price of groceries, then there would appear to be reason for prosecution. And to continue this line of thought, the attorney general's department seems unable to understand why this chain went before the people with paid advertising to explain why they were being prosecuted. And along with the above, it appears that the AMA is to be prosecuted because they don't like "socialized doctoring." If such ideas can be sustained, it would be dangerous for a farmer to find short cuts in raising crops in order to produce and sell cheaper. What are we coming to, anyway?

The Low Down From Hickory Grove

Folks, I gotta have more help. Just me and Senator Byrd and Senator George and Senator Bricker and a half dozen or dozen others are not making too much headway in getting Uncle Samuel down to earth—his spending is not just a fling, it is now chronic. The Old Boy is due to take the "cure."
But the old rascal's case is not completely hopeless yet. I write my man there in Congress often, but I can't do all the writing—help is what I need. Writing your man there—if enough people will write — will work wonders. So, next time any of you see where the Govt. is fixin' to pour in another 100 million on some project like re-claiming a raft of land on which to raise more wheat, etc., by pumping water 1000 feet up, like it is planning in Washington State—and next day they ask for another 100 million bucks for building storage space for crops that are already and now too big, it is time to chime in and lend a hand.
So, all you non-writers, get hold of yourself, sharpen a couple of lead pencils, and write — don't just gripe back and forth with your neighbor. Write big — lay down the law. Don't depend on me and just a few Senators to save your country for you.
Yours with the low down,
JO SERRA

Clyde McLaughlin of Lubbock was a business visitor in Brownfield Wednesday.
Virgil Crawford was in Pecos several days last week on business.

Nominated as a campus fashion favorite again this year is the ever-popular corduroy jumper dress. Here, a campus belle shows one of the new back-to-school jumper styles by Tabak in soft cotton corduroy. The scooped-out neckline and the panelled skirt are important style details, according to National Cotton Council fashionists.

A LETTER FROM A HUNGARIAN MOTHER

The Herald doesn't get too many letters from foreign countries, but did get one last week. Of course, it was on the "begging" order, and it might be interesting to know if this mother really is in need. We once heard a person say it would be better to give to someone unworthy of help than to miss another that really needed it.
In this case a better address was supplied by the New York post-office. In reality, it was addressed to Terry "Country" Herald, "Brownfield," no state given. The greeting started with "Dear Brothers and Sisters in the Lord." She was not sure of the correct address, felt sure the Lord would guide the letter to us. Begged pardon for troubling us, but wanted to get their case of hopelessness and desolation before people who have friends and businesses in happy America. She then refers to Isaiah 41:13, and St. John 15:7.
She stated that she was an unfortunate Hungarian mother of five, one of which had passed on. Their place was right in the middle of fighting, and her husband was killed and lost everything they had in the war. The Herald might add right here that perhaps this lady had nothing whatever to say about te war or who started it. The leaders over there always do that. But it is the common herd

that suffers. She asked that prosperous America look in mercy upon her hungry children. She hopes for enough help to feed her children and keep them in school. As stated above it may be the old favorite line of graft, but the case might be checked through CARE. How she got a hint of The Herald or our address, is just as mysterious to us as to you. Very likely she wrote other papers, but the greeting is more like one church member to another. It was signed "Your Sister in the Lord, Mrs. Tibor Borna, Hevers, Ucca 30, Budapest, Hungary."

Stricklinly Speaking

By Old He

Wasn't it a Chinaman or some other heathen that said a picture was worth a thousand times more than the written word, or something to that effect? Reminds us of a cartoon in the Star-Telegram Monday, only it used both picture and wording.

It showed two old cronies at the crossroads grocery talking and enjoying the heat from a pot-bellied old stove. One of them remarked that it was about time the big boys up at Washington quit swimming around in red ink and begin to lay up something for a rainy day.

The other remarked that the best time to save for days when a person was unable to work, was when one is young and healthy. The only thing the matter with that one is that the government takes from the thrifty and pros-

perous and gives it to the trifling and laggards.

This is Newspaper Week, and while we may have our mind in that connection centered on the men who bring out the sparkling new or the brilliant editorials. Or perhaps the men who handle the big presses and typesetting machines, let us not forget the little newspaper merchant.

And that is exactly what he is. He works for himself. He buys his papers from the publishers at wholesale and retails to his clientele. And he is so accommodating and gentlemanly that his bills are seldom neglected, as he sells mostly by the month. These little men also often prove to be heroes in emergencies.

They are mostly on their own, and learn to think and act quick. Many thrilling rescues have been made by these little tradesmen of people, especially small children and animals on their routes. Then on the other side, there sometimes appears something a bit comical.

Some such stories appeared in the last issue of the Dallas News Sunday magazine. One of them with a laughable side, was a man hiding behind a signboard, stripped of clothing. He had been robbed. He asked the little newsman for help and got it. He was bound up in some of his papers, and he used his belt to hold them on the man until he was led to the nearest police station. Let's not forget the little newspaper merchants along with other newspaper folks.

And speaking of the small fry, the mother of a first-year school

THOUSANDS SHELTERED FROM HURRICANE — The

Houston, Tex., city auditorium was filled to capacity with more than five thousand persons seeking shelter as a hurricane hit the Texas Gulf coast city. (AP Wirephoto)

boy almost collapsed when she let him in the door from stormy weather wearing a dunce cap. The little fellow proudly announced that the teacher loaned him the cap. You be your own judge on whether the incident was supposed to be funny or did the little lad earn the lid?

age caused a decline, replied: "Nice irk if you can get it."

We cannot close this column without a tribute to the three candidates for harvest queen. To use the expression of the modern youth, "they are all whistle bait." Whether or not any one of the

three have ever been whistled at, we wouldn't know. But all of them are girls that will draw an extra look-see in any crowd. Also, they cannot be classed in that saying, "pretty but dumb."

All of them we understand are or were making good grades in school when they attended. If you

Then there is the case of our little grandson. Most all children are mimics, and live in the land of make-believe. Robert, nearly two, had observed the dog, Bill, take a turkey drumstick and march out with his tail proudly, h'isted over his back, flop down on his stomach and begin to gnaw the bone.

Robert begged for one, carried it in a room, crawled under a table and proceeded to do likewise. After somewhat of a fracas, he was persuaded it was not sanitary to eat thus. Of course, he failed to understand set sanitary rules, and squawked.

Almost the entire crew of The Herald office seems to need a shot in the arm, head or chest. One of the crew came in last week with a cold. It has now swept the entire plant. The newer drugs, such as sulphas and penicillin, have been used extensively, and while no one has had to take to bed yet, they haven't been as lively as a bunch of fighting mice.

Speaking of a crewman, Thorn Smith stated this week that he once went to school to Jimmy Rankin of Ralls, now candidate for board of education member from the 19th congressional district. He also attended school under the superintendency of Judge Louis B. Reed of Lamesa, our district judge.

Well, the Old He came very near going to school to the late Dr. Wickliffe Rose, who was once chairman of the board of the lacked was just being old enough Rockefeller foundation. All we to attend the old country school near our old home. Wick, as the mature people called him, boarded at our home and the older children went to school to him at the one-teacher school. That was years before Dr. Wickliffe rose to fame in

this old world. "It irks me to think that I'm only getting \$100.00 per picture," stated an ambitious young movie actress. Her companion, whose

A vest of rainbow colors is designed by Stephanie Koret in cotton corduroy to match trim corduroy slacks for the college girl's play hours. Corduroy is the collegian's favorite fabric this season for both sportswear and dress wear, the National Cotton Council reports.

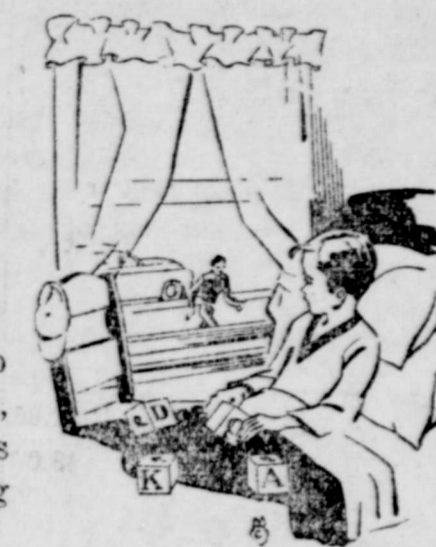

engage them in conversation you soon learn that there is nothing silly about their conversation, and that they are able to carry on an intelligent conversation about almost any matter of current interest.

Supposedly at this late hour, the three entrants, Misses Goza, Snedeker and Anthony, will be all that will enter the contest. Our lid is off to them, and may the best girl win. We wish all of them could win, really.

Health Officer Warns Of Whooping Cough

AUSTIN, Texas — Now is the time to have your baby protected from whooping cough, says Dr. George W. Cox, state health officer. The Texas state department of health recommends that vaccination against this disease be administered at three months of age with a booster dose of vaccine when the baby is two years old. There is many a child whose life

could have been saved if he had been immunized in infancy, said Dr. Cox.

"Whooping cough," said Dr. Cox, "first masquerades as an ordinary cold, with running nose and eyes, followed by a slight cough. These symptoms develop about one to 14 days after exposure. Then in about another week the cough develops into a series of continued attacks, in an effort to expel the troublesome mucus. An attempt to breathe during the choking spell produces the characteristic whooping sound. In mild cases it may be absent. The whooping stage last four to six weeks and may then take another two or three weeks to decline gradually.

"Here are some facts about whooping cough:

- The disease starts like a common cold, one to 14 days after exposure. In about another week the cough develops and the whooping usually begins.
- It is one of the communicable diseases children often catch at school. After a child has reached the age of five, fatalities occur less frequently. Children may carry this disease home to babies.

TEXAS TODAY

By Dave Cheavens
Associated Press Staff
AUSTIN, Tex., Sept.—(AP)—City governments of Texas are very unhappy about the state government, and especially the legislature.

The feeling that was somewhat soft-pedaled during the 51st regular session—while the cities were begging a little financial relief—flared out in black type in the last issue of "Texas Municipalities," official publication of the League of Texas Municipalities.

In an article headed, "Cities Suffered at This Term of Legislature," Mayor George Barber of Mineral Wells let fly with this opening statement:

"The rights of home rule cities were encroached upon still further by the recent session of the legislature. Especially noteworthy was the encroachment by the firemen's and policemen's minimum wage bill passed by both houses and signed by the governor.

"If this type of legislation continues, it is the opinion of many of us that eventually the state will take over the jurisdictional rights of municipalities and one of these days city officials will only be rubber stamps for the centralized government in Austin."

Texas city officials, through their organization, came before the last legislature with several propositions aimed at increasing their revenues. The legislature listened politely, but that's all.

Barber, vice president of the league, had this fact comment:

"But will the members of the legislature, in their wild scramble to tell municipalities what they can and can not do, provide the necessary revenue to meet the requirements of some of these unnecessary, unjust and discriminatory enactments? The answer is no. The boys who supported the firemen's and policemen's minimum wage bill do not care where the money comes from."

Barber said much of the blame rests with the cities themselves.

"Far too many municipal officials assumed the 'Let George do it' attitude and failed to register opposition with their representatives in the legislature, and with the governor. . . It is high time municipal officials throughout Texas combine their efforts (through the league) to make their influence felt in Austin. If not, the appellation of home rule cities will be a misnomer and a joke.

REFINERY FIRE—The gasoline plant at Phillips, Tex., is shown as it blazed following an explosion at the plant. The picture was taken by an amateur photographer who lived near the plant, and he shot it soon after the explosion. By the time news photographers arrived, the flames were too hot for pictures this close to the blaze. Only part of the refinery was damaged. (AP Photo)

the plant, and he shot it soon after the explosion. By the time news photographers arrived, the flames were too hot for pictures this close to the blaze. Only part of the refinery was damaged. (AP Photo)

Big Spring Celebrates Centennial Oct. 2-8

BIG SPRING, Tex., Sept.—(AP)—Big Spring folks are ready for the biggest whing-ding they have ever thrown.

From October 2-8 they'll celebrate what they like to call their centennial.

It was on October 3, 1849, that Capt. Randolph B. Marcy of the United States army officially logged his encounter of the spring from which this city got its name.

The "big spring" now is just a dry hole in the ground. But it will flow again during centennial week thanks to some artful plumbing. Water will be piped to the spot.

The celebration will be featured by the "centurama," a historical pageant which will be presented for three nights, October 3, 4 and 5, at the city's open air amphitheatre which seats 6,000.

The United States has 251,000 miles of natural gas pipelines. Gas travels through natural gas pipelines from ten to 20 miles an hour.

Washington, Oregon, Montana and Idaho have 20 per cent of United States hydroelectric power and half the estimated undeveloped potential.

Should a necessity carry a high federal tax?

Telephone service is generally considered to be a necessity. Yet the Federal tax on long distance and other telephone service goes as high as 25%! The tax on luxuries is only 20%. That means the necessary long distance telephone call you may have to make in an emergency will be taxed higher than luxuries.

And that is only part of the telephone tax picture. Federal tax increases your local service bill by 15%. Long distance calls of 25c or over are taxed 25%. Other forms of telephone service are taxed from 8 to 25%. This excise tax is imposed directly upon you as a telephone user. Your telephone company, at its own expense, acts as a tax collector.

These excise taxes are in addition to the corporation income taxes and other taxes which the company pays to the federal government either directly or indirectly.

We are sure your Senators and Representatives in Congress would welcome your views as a taxpayer and citizen in helping them to guide future action on this peacetime tax of a necessity.

Carrier Planes Make Call at 'The Rock'

The promontory of the historic fortress of Gibraltar serves as a backdrop for planes of the U. S. Navy's Valley Forge during the carrier's visit to the famous British bastion of the Mediterranean. The planes were land-based at the Royal Air Force strip during the ship's stay at Gibraltar. (Official U.S. Navy Photograph)

UT GIVES PHYSICIANS REFRESHER COURSES

GALVESTON, Texas, Sept. — The University of Texas medical branch has the nation's fifth largest post-graduate training program for physicians.

The medical branch enrolled 857 physicians for refresher or continuation courses during the past academic year. Special courses of one week were offered in pediatrics, obstetrics and gynecology, neurology and psychiatry, physical medicine and in cancer diagnosis and treatment, with the cooperation of the state health department and the American Cancer society's Texas division. A similar program, under direction of Dr. Truman G. Blocker, Jr., is being arranged for the coming year.

LENIN WORKS PUBLISHED

MOSCOW—(AP)—Volume 25 of the Works of Lenin — including seven articles which have not appeared before — has been published. Announcing this, "Pravda" said the volume contains the celebrated work, "The State and Revolution."

All the works in the volume relating to the period after the July days of 1917 were written underground when Lenin had to hide from the Provisional Government.

Mrs. W. M. Shroeder of Lubbock visited Mrs. G. A. Wartes Sunday.

Air Force's New Trial Bomber Is Completed

Construction has been completed on the air force's newest experimental jet bomber, the XB-51, built by the Glenn L. Martin company, Baltimore, Md. A three-jet, light bomber, the XB-51 is designed for short range tactical missions in support of ground forces. Taxi tests will begin in October, and the aircraft is

scheduled to make its first flight about October 20.

Both the wings and the tail of the new bomber are swept back at an angle of 35 degrees, and the horizontal tail surfaces are mounted at the top of the vertical stabilizer. The XB-51 is designed to carry a crew of two, and is also equipped with cabin pressurization, air conditioning and pilot ejection seats.

It is powered by three turbo-jet engines, two mounted at the lower sides of the fuselage be-

The Low Down From Hickory Grove

How many people are 202,572 and what would that many look like in one bunch, is my research problem this week. I am on this slant on account the paper says California is the champion on federal civil service job-holders—has more than any other state. Just housing that many outsiders and their families is no small chore. And what that number of Govt. job-holders can do in just one state is a neat question. That many families could just about eat those Native Sons out of house and home—or almost.

But don't go to work folks and figure it is a joke on California or it is just California's baby—these 202,572 — you are paying your share every time you must amble down for a visit with the income tax man, whether you live far away, like in Rhode Island, South Carolina, or where.

And to get the idea on what 202,572 looks like, it is just about two times as many people as now live in Nevada — entire state. Brother that is a lot of people to look after, and boss around, the folks there in old Orange Juice Land—but the paper says it is so. Don't look much like it did in 1776 when Freedom came — and prevailed across the land.

Yours with the low down,
JO SERRA

STATE RANKS HIGH IN POULTRY SALES

By tailoring their products to consumer preferences, poultrymen of Texas produced more than \$130,000,000 in poultry products last year to rank fourth among the 48 states in setting up a record-breaking national total of \$3,071,000,000, it was pointed out today by Howard C. Pierce, national research director of the A & P food stores.

"Whenever a commodity shows a jump in sales, it is always the result of consumer choice, and poultry is no exception to the rule," said Pierce, "as 90 years of food retailing have repeatedly demonstrated in our company."

"The public definitely wants chickens with more meat in proportion to bone," he said. "We relayed this preference to the poultry industry and since 1946, the A&P has backed the chicken-of-tomorrow campaign to produce such chickens."

Now in its fourth year, the drive is producing 12-week-old birds that weigh up to four and five pounds instead of the former two or three—and twenty million of these meatier chickens are going to market this year.

Citing department of agriculture figures, Pierce showed that the fastest growing branch of poultry is commercial broiler production which has leaped upward 41 per cent since the drive began in 1946 to produce better broilers. The extra meat poundage is playing a large part in the growth of over-all poultry income, Pierce added, giving the department of agriculture tabulations on top-ranking states.

In millions of dollars, the poultry earnings of the ten leading

neath the cockpit, and a third in the rear of the fuselage. Lateral control is provided by "spoilers" on the upper surfaces of the wings instead of conventional ailerons. Approximate dimensions of the aircraft are: wingspan, 55 feet; length, 80 feet; and height, 17 feet.

RID THE FARM OF RATS. ADVISES WILDLIFE OFFICIAL

COLLEGE STATION, Sept. — Most farms could use the services of the "Pied Piper" for a few minutes at least, but since this is hardly possible, you had better make plans to collect a few rat scalpels on your own. The best time to get rid of rats is before the barns and bins are filled with this year's grain crops, says James E. Poore, mammal control supervisor of the United States fish and wildlife service.

He says that clean-up work removes hiding places and tends to concentrate scattered rat populations so that they can be poisoned easier. Pole poles and lumber on supports at least two feet above ground. Scrap lumber not worth saving and other junk should be destroyed or removed from the premises. Stack bottoms, other feed wastes and manure piles should be scattered in the field so they will not give rats a good hiding place. Tall weeds also are fine rat hideouts if left standing, says Poore.

Clean up, poison and then rat-proof farm buildings is Poore's advice. Farm buildings in a good state of repair aren't likely to be infested with rats. Check to see that walls are tight and foundations and floors are in good shape.

A strip of galvanized metal, three feet high, placed around the building will keep the rats out, says Poore, provided they can't get in through the floor. If you are building a new granary, set it on piers at least two feet above the ground, and then construct it so rats can't get in. The greatest damage from rats is not the grain they eat but the amount they waste. Both losses can be prevented by getting rid of the rats and rat-proofing all farm buildings, says Poore.

SLIGHT MIXUP IN NAMES!

Our attention was called last week to a grave error on names, and to save us we have not been able to figure out why we made it, knowing both families so well.

We said that Miss Parilee, daughter of Mr. and Mrs. Homer Nelson, was attending Stephens college, Columbia, Mo. Parilee is a freshman in high school here. As far as we can figure out, what we intended to say was that Miss Charlene Daniell, daughter of Dr. and Mrs. Alfred Daniell, was attending Stephens college.

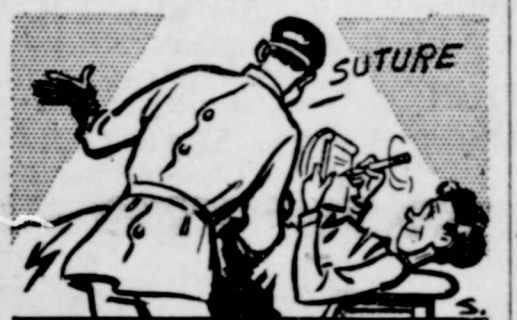

Mr. and Mrs. Harold Jones of Denton are visiting his parents, Mr. and Mrs. Eunice Jones, this week.

states last year were as follows: Pennsylvania, \$202; California, \$196; New York, \$162; Texas, \$131; Illinois, \$130; New Jersey, \$99; Virginia, \$81; Maryland, \$72; Delaware, \$67; and Massachusetts, \$65.

STRICTLY FRESH

COLLEGES aren't so crowded this year as they have been. However, this won't make a noticeable difference in the load carried by the campus jalopies.

Headline: "You Don't Need a Diploma for Intelligent Conversation."

Certainly not; an ordinary operation will do nicely.

Coon hunters met for nine days in Milwaukee. Instead of their dogs, it was the hunters' week to howl.

A fellow announced he had permission to bring the Blarney Stone over for a tour of America. This later turned out to be a lot of blarney.

Mr. and Mrs. Richard Kendrick and Mr. and Mrs. J. T. Bowman will attend the Texas-O-U game in Dallas this week end.

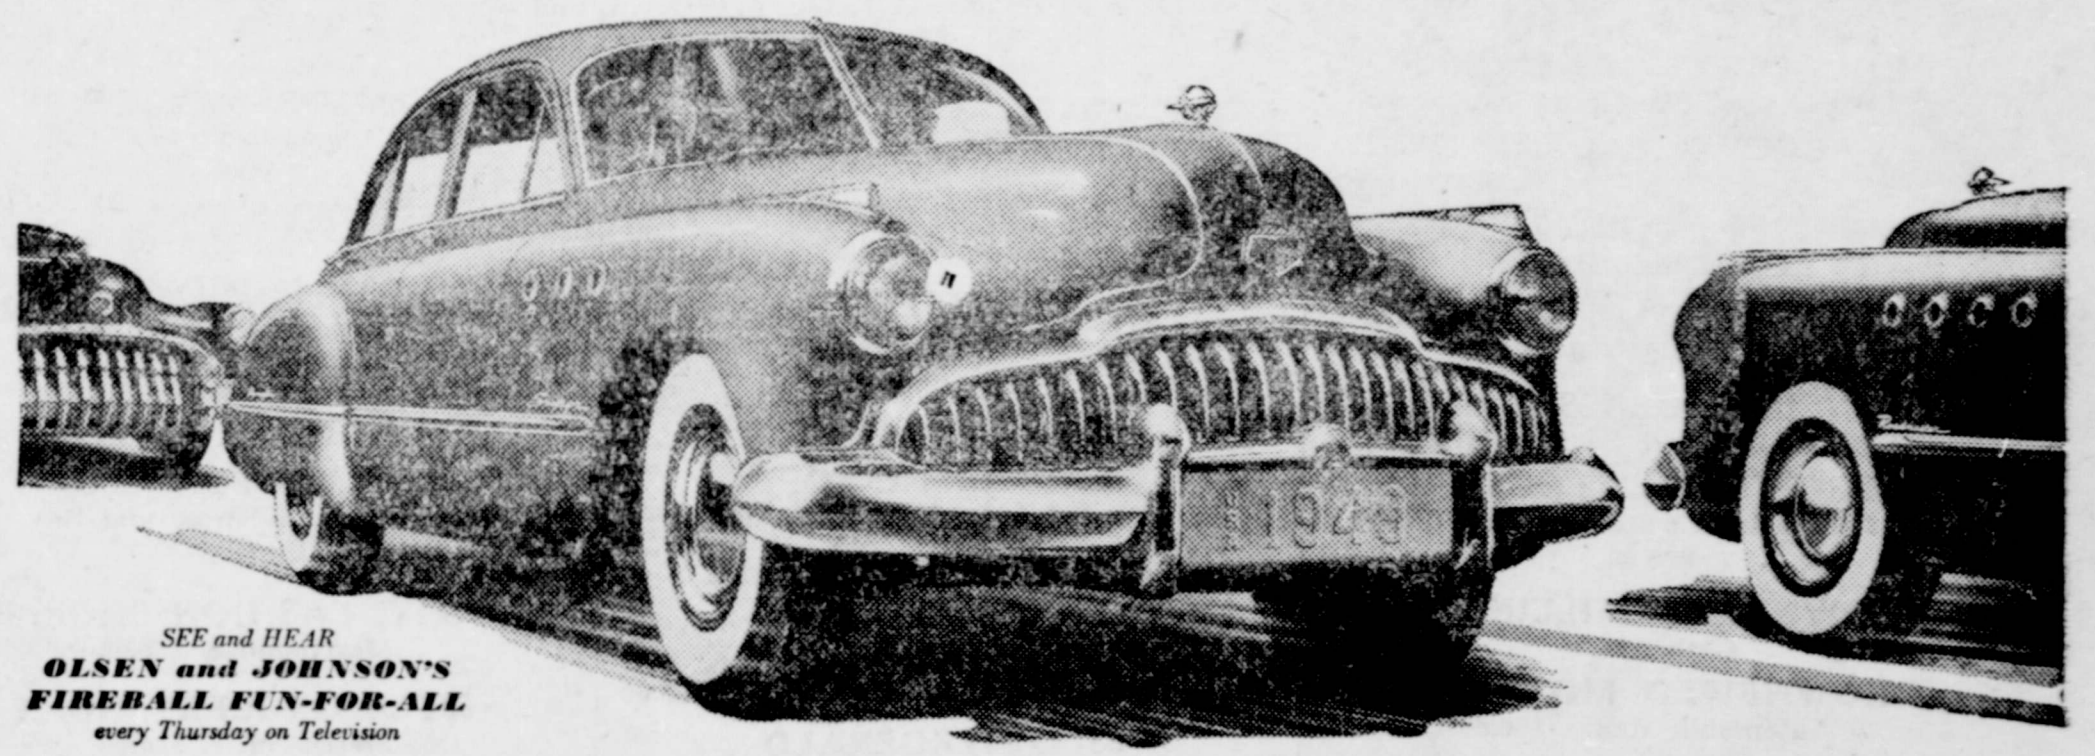

Mr. and Mrs. Earl Chester and Billy and Mrs. S. J. Billings of Sudan visited Mr. and Mrs. Roy Jenkins Sunday.

Whatever the Price Class —

SEE and HEAR OLSEN and JOHNSON'S FIREBALL FUN-FOR-ALL every Thursday on Television

"Buick's the Buy"

It's part of every street scene—something you see every day.

Car owners in three different price classes—all happy about the same thing.

One of them drives a new Buick SPECIAL, which you see poking forth its new, bold-look forefront at the left of our picture.

Another will tell you there's nothing like the SUPER's "happy medium" of size and comfort, power and easy handling, style and standing.

And if you're looking for prestige, where is your money going to buy so much as in that handsome 18-footer, the ROADMASTER, with its 150-hp performance and really royal bearing?

But all these good folks get together on this:

There's no ride quite so soft and cushiony as the Buick ride, whatever the size and series. There's no power quite so satisfyingly lively as Buick's high-compression, high-pressure Fireball power.

Above all, there's no "buy" like a Buick—no car that gives you such a rich dollar's worth of smartness, handling, comfort and liveliness for every dollar you pay.

So why not look the whole line over? Your Buick dealer has these grand travel-mates in a baker's dozen of different body types and sizes. Start your shopping in his showroom—and you'll find that even on delivery he has exactly what you want.

BUICK alone has all these features

- Silk-smooth DYNAFLOW DRIVE
- FULL-VIEW VISION from enlarged glass area
- SWING-EASY DOORS and easy access
- "LIVING SPACE" INTERIORS with Deep-Cradle cushions
- Buoyant-riding QUADRIFLEX COIL SPRINGING
- Lively FIREBALL STRAIGHT-EIGHT POWER with SELF-SETTING VALVE LIFTERS (Dynaflow Models) plus HI-POISED ENGINE MOUNTINGS
- Low-pressure tires on SAFETY-RIDE RIMS
- Double-Duty VENTIPORTS
- DUREX BEARINGS, main and connecting rods
- BODY BY FISHER

When better automobiles are built BUICK will build them
