Santa Fe Paintings Will Be Exhibited

There will be an exhibit of realistic western and southwestern landscape paintings from the Lewis Studio-Gallery, Santa Fe, at Seleta Jane Brownfield Club House, 702 E. Broadway on Tuesday and Wednesday, April 24 and 25 from 7 to 9 p. m., Tuesday and 10 a. m. to 12, 2 to 5 p. m. and 7 to 9 p. m., Wednesday.

These oil paintings by the outstanding Santa Fe artist, William Lee Lewis, consists of mountain ranges, colorful aspens, desert formations and cattle scenes of the West Plains. Lewis, who uses realism in his art, features a strong, bold line and insight into western landscapes, reflecting his love and strong feeling for his native west. All his work is in oil, most of it featuring the technique of the palette knife which aids in combining strength with subject beauty. His ability to portray the rugged majesty of craggy mountain peaks, the flaming beauty of a colorful stand of autumn aspens or the calm serenity of desert and plains has earned him the "western painter for westerners." Critics have stated that the stark sincerity in Lewis' highly-keyed landscapes, combined with his skill and mastery of technique, makes his paintings valuable assets of interest and illumination in the home.

This exhibition is being sponsored by Alpha Omega Study Club, and the public is invited to see these inspiring canvases at no admission charge.

THEREFORE I, C. C. Primm, MAYOR OF THE CITY OF BROWNFIELD, do hereby designate April 20th., as official opening day of the CLEAN UP - PAINT UP - FIX UP PROGRAM, sponsored by the City of Brownfield, and call upon all departments of the city, its commercial organizations, civic clubs, schools, churches, boys and girls' clubs, and all other associations, and our people in general to take an active part in this constructive program for community improvement to insure its success.

LOCAL GROUPS ORGANIZE FOR CLEAN UP CAMPAIGN

Mayor C. C. Primm, Frank P. Miller, M. D., director of the South Plains Health Unit and Inspector A. V. Bollinger attended two meetings as group leaders in the Clean-up, Fix-up, Paint-up, project in the newly annexed city area north of the Western Stockyard. Enthusiasm was high with the serious attitude of "getting the job well done."

At the meeting in the Jessie Wheatley colored school were Jack Carter, Principal Curtis Tucker, Ella Williams, Bernice Phiney, Emé F. Hendricks, B. B. Wallace, Rev. McCullough, Rev. S. S. Smith, Frank Moseley, Fred Car-

ter, Dyke Hardin, Deacon Bell, Lawrence Foster, Rev. Fly, and a number of other local citizens. After a briefing on sanitation requirements by Inspector Bollinger, Mayor C. C. Primm spoke on behalf of the city council and future plans for the area, stressing that this area would make the best showing in the city-wide project.

Those present at the meeting then chose L. H. Hubbard as chairman to take active charge of the work in that area.

A second meeting was held with the Spanish people. At this meeting the same aims were

stressed with "Tino" Castillo who does the Spanish broadcasting over the local radio leading the discussion. Chairman for the group is Pedro S. Villareal. Active group leaders are Lino B. Flores, Pablo Longoria, Seffrina Salaz, Emencio Garcia and Moses Garcia. Special literature was printed by the local Health unit in cooperation with Tino giving instructions in Spanish for items that require the most work to make our city attractive and prevent the spread of disease.

Both meetings were conducted in a period of two hours.

Mr. and Mrs. C. E. Motley of Monahans visited the week end in the Lee Lyons home.

Pueblo is a Spanish word meaning "town" or "village."

City Wide Clean Up Drive Starts Today

BROWNFIELD IS YOUR CITY. Let's not only make it yours in the cleanest sense of the word, but in the prettiest sense of the word.

Mayor C. C. Primm has designated April 20-30 as official Clean-Up Week in Brownfield, and he urges every citizen to cooperate in making this year's campaign the greatest.

Members of the city council and other city departments, the South Plains Health Unit, the senior and junior Chambers of Commerce, the American Legion, Veterans of Foreign Wars, Rotary Club, Lions

Club, Alpha Omega Study Club, Maids and Matron Study Club, Altruist Study Club, Delphian Study Club, Brownfield High School, and Phyllis G. Wheatley school are participating in the drive.

The city has been broken up into districts, with each organization taking a district and being responsible for its being cleaned up.

The Brownfield State Bank and Trust Company and the First National Bank, as well as the senior Chamber of Commerce, are offering cash prizes to the school for the highest and biggest mound of

trash collected for the drive. The Brownfield high school class amassing the largest collection of trash on the west side of the high school will receive \$50.00 in cash. The Phyllis G. Wheatley class amassing the largest collection of trash across the street will be awarded \$25.00 in cash.

Awards will also be made to the service and federated clubs achieving the most cleanliness in their individual district, it has been announced.

Judges for the awards and school prizes will be appointed by city officials.

At a meeting of all the participating organizations held at the city hall last Friday night, proposal to put three covered trash receptacles on each block surrounding the square was made by Dr. W. A. Roberson.

Mayor Primm announced this week that extra trucks will be used during this 10 day period to pick up all trash, junk, and garbage. Homeowners are asked to stack the trash in their alleys for pick up by city trucks.

Citizens are also asked to scrape sand into one pile in the street before their homes and a truck

will also pick the sand up for disposal.

Owners of vacant lots are asked to clean the lots during this campaign by burning or scraping or both. Vacant lots owned by persons out of town will be cleaned and the volunteer firemen.

The city owned DDT sprayer will begin operations as soon as possible, Primm said, and will thoroughly cover the city during the campaign and at intervals during the hot season.

Covered garbage cans are particularly recommended by the health unit in cutting out breed-

ing places for flies, mosquitoes, and rats. Purchase of the covered containers will be made by the city and price lists are being considered now by the council, Primm said.

Clean up checks are being stressed on vacant lots, front yards, back yards, stock pens and chicken pens, outdoor privies, garbage containers, and the business area.

Make a check of your premises during this clean up period. Let's make Brownfield the nation's cleanest and most attractive city this year . . . and every year.

G. I. QUESTIONS and ANSWERS

Q—Could I get a GI business loan to help out my brother, who is having a hard time making a go of his restaurant? I am not connected in any way with the restaurant?

A—You may not obtain a GI business loan for such a purpose. One of the provisions of the law is that you must play an active part in the business for which you need the loan.

Q—I dropped my National Service Life Insurance as a civilian, and now that I am returning to active military duty, I would like to reinstate my policy. Will the

armed forces do this automatically for me, or are there any steps that I have to take?

A—The armed forces will not renew your policy automatically. You either must apply to reinstate your old policy, or apply for a new one.

Q—As a member of the National Guard, I received drill pay for short periods of training each week. I intend to enroll in school under the GI Bill. When I do so, must I report my drill pay as income, in order for VA to determine the amount of subsistence allowance I will get?

A—No. Remuneration for such National Guard Training is not considered as income from productive labor and need not be reported, for it has no bearing on

the amount of subsistence you will receive.

Q—I am a veteran paralyzed from the waist down, and on my own I bought a home a few years ago. May I obtain a housing grant to be used to remodel my home with ramps and other special adaptations, so that I can get around more easily in my wheelchair?

A—Yes, if you meet the eligibility requirements of the law. Application may be made at any VA office.

Fiesta San Jacinto Set For April 21

Downtown San Antonio will turn into a city of a million lights April 21, the Saturday of Fiesta week as the fabulous Fiesta Flambeau, one of the great illuminated night parades of the country, snakes brilliantly through fiesta crowds to light up the Texas skies and climax the city's 56th Fiesta San Jacinto.

Last year 300,000 came out to see the parade, revived three years ago after a quarter century absence from the historic Fiesta Week. Now one of the major events of Fiesta, visitors from everywhere come to see the giant

production.

The parade as a whole is conceived in huge proportions, and the individual exhibits are marvels of mechanical skill.

Reflecting the stirring life of the times, Fiesta Flambeau this year is offered as a tribute to the members of the armed forces and the theme will be "The Blessings of Liberty."

Great floats and a fine show of military strength will lend dash and drama. Civil organizations, commerce and industry vie with one another to produce spectacles of brilliance.

From over the state, cities send their ambassadors of good will with outstanding exhibits. Colleges and high school bands contrive ingenious electrical effects.

For the first time a new section (also revived from a parade of years ago) will compose a "Parade of Nations." Natives or descendants of natives of the countries represented will man the floats which will represent the scenes and costumes of foreign lands.

Starring in Fiesta Flambeau will be "Miss Fiesta," lovely Ann McCrory Moursund, atop a float that will outline the San Antonio skyline with glittering lights. "Miss Fiesta" will be seated atop a replica of one of the famous bridges of the San Antonio river. Beside her float, four satellite floats, honoring the four branches of the armed forces will bear her four maids of honor.

Break-up of the parade is a signal for the street dance to begin—one of the largest square dances in this square-dancing stage, with all the dancers in costume and bands blaring out music.

Chairman of Fiesta Flambeau is

Gee Gee's Chit Chat

Congratulations to the Terry County club boys, both 4-H and Future Farmers of America, and to their sponsors and the members of the Brownfield Junior Chamber of Commerce, who make their show possible every year. Tomorrow (Saturday) marks the 8th annual stock show in this county, and this one shows all the ear marks of being the greatest one. Let's all support the club boys by attending their show tomorrow at the Jaycee show barn.

Don't forget that tonight the Seniors of Brownfield High School present their annual play. This year's production is "Bargain Bride," with an all-star senior cast. Curtain goes up at 8 p. m., tonight in the new high school auditorium. Don't miss it.

Speaking of productions, tickets are now on sale for the Follies of '51, which will be presented by the Brownfield Country Club May 4 and 5. This show will be open to non-members, so if you want to spend an hilarious evening, contact me or any other club member for tickets.

How do you like the new Bargain Center sign on the east side of their new quarters? Pretty nifty, huh?

One of the sharpest little advertising gimmicks I've seen lately is the two sets of footprints going into and coming out of Western Boot & Shoe Shop. The prints going in have a large mark, evidently left by a good sized hole in the shoe sole, while those marks walking out of the shop have a neat, solid sole. Clever?

Congratulations go to Gerald Price, son of Mr. and Mrs. Joe Price of Lovington, N. M., and former Brownfield resident, upon being elected captain of the 1951-52 Texas Tech e-Raiders football team. Gerald as a former Brownfield High School Cub, and has made quite a name for himself, not only in West Texas, but throughout Texas and Oklahoma for being as rough as the back end of a shooting gallery on the gridiron. Incidentally, he's one of my favorite people.

While strolling through the square the other day, I was "shop-lifting" while M. D. was doing her dirty work in J. B. Knight Hardware store, and I discovered a cute little gadget. Of course, you may not be interested in such things, but I think it has millions of possibilities. This one is called a Springlerie rolling pin. Just an ordinary rolling pin with the exception of a bunch of hetrogliphic looking things on it for making "purty" pictures on cookies, such as pineapples, trees, etc. I think it would make cute little party biscuits, too, as well as having its uses, no doubt, to you people who make your own mints. If you're stumped on a wedding present, give the bride one of these and let her be stumped for a while.

I'm always roaming around the schools, for some reason or other, and this week I roamed up to the Junior High School, alias West Ward. I walked into Vivian (Mrs.

Shorty) Forbus' Physical Education class and got quite an education, myself. PE these days ain't like they were in my day. We used to play jacks, sit on the school house steps or maybe occasionally indulge in a gingerly slide down the old schoolground slide for our PE class. Not so now.

As Vivian told me, "PE is not a single subject, but is an area of the recreational field made up of various divisions of sports, rhythmic activities, physical examinations and health work, playground and co-recreational activities." An o'se sure was right about that. I only wish I'd had a PE course when I was a bumble-footed adolescent like the ones these days have. And don't tell me that 12, 13, and 14 year old adolescents are not bumble-footed.

They're at an extremely awkward age and certainly need some help in getting their arms, legs, and heads going in the same direction at the same time.

As PE goes these days, I see a marvelous chance for youngsters to develop poise, self-confidence, and grace that will stay with them all their lives and help them to slip right into their places in a grown up world with little or no trouble. To say nothing of the exercise it gives their bodies. Exercise which they need and which they don't get much of by sitting around and reading funny books.

In my visit to the gym, I saw the various groups playing folk games in their rhythm work to music. Not only does this form of PE give them proper exercise, but it gives them a greater understanding of music itself. I also saw creative exercises, and the group of girls I saw doing their tumbling stunts were getting a terrific bang out of their PE.

And of course, their PE course also gives them tennis, volley ball, and softball, all of which

the gals and boys are boning up on in preparation for the Inter-scholastic League district contests here May 5.

Well, it's clean up time in the old town this week end and next week, so get out you working clothes, kids, and tear out. I've seen a mighty messy looking bunch of back doors (including the one at my lovely country estate), so let's begin there and work out and around.

Drag all of that old trash and junk out into your alley and stack it neatly in one was so that the special trucks put on for this campaign can cart it away. Get all those old tumbled weeds, papers, etc., out of the corner of the fence and the flower beds and cart them out to the alley.

Get out your spray gun and get to work with the DDT on all the bushes, puddles (just in case it should rain between now and next week), etc., and stamp out the fly and mosquito breeding places. Haul Fido's bones out to the trash can and give them a good burning. Incidentally, don't forget to give the trash can a careful going over with the DDT.

And on and on. But once you get started, you'll find that one thing leads to another and you'll soon get into all the nooks and crannies.

Let's get busy and not let Brownfield have a single case of polio this year. Let's make Brownfield not only the cleanest town in Terry county and Texas, but in the whole nation.

COUNTY HOME DEMONSTRATION CLUBS PLAN PARTY FOR MAY 5

A county-wide party will be held in Coleman Park for all the home demonstration club families on Saturday night, May 5. This was the decision of the county home demonstration council in its meeting held in the agent's office Saturday afternoon. Various club women will have charge of the group recreation, under the direction of Mrs. Thurman Solsbury of Pool, who is the county chairman of recreation.

The education-expansion committee gave each club, papers from the United States Post Office, explaining the correct placing of rural mail boxes. This is an effort to get mail boxes all over the county to conform to the government regulations.

The women made plans to entertain the commissioners court at the womens club house on the night of May 4. The annual report of Miss Helen Dunlap, the county home demonstration agent will be given at that time.

Mrs. Lee Bartlett, County Chairman for the Texas State Home Demonstration Association, gave credentials to the three delegates to the district convention.

The three delegates who will represent the county in this meeting are: Mrs. Alton Webb, Gomez; Mrs. Ralph Murry, Harmony; and Mrs. L. V. Alexander, Johnson. These women will take part in the business meeting at Tulla on April 28. Other women are planning to make up delegations from their clubs.

Plans for attending a Crafts Design Work Shop at Texas Technological College, designed for women from the South Plains and the Panhandle districts in July, were discussed. This course will be taught by Miss Marty Pindexter, head of the Applied Arts Department. The county home demonstration council will vote, at the May meeting, on whether to send a person to take

the course. During the program, two dairy demonstration teams gave the demonstrations they will enter in the district elimination contest April 30. Ruzek Patton and Laverne Joplin of Pool, showed the making of cottage cheese loaf. Donna Weldon of Wellman made sandwiches for various occasions with Neufchatel cheese.

Mr. and Mrs. C. E. Motley of Monahans, W. B. Goza and Mr. and Mrs. Lee Lyons were in Lubbock Saturday to attend the funeral of Mrs. Lyons' uncle, J. P. Hollingsworth.

Mrs. Lewis Hostess To Delphian Club

Mrs. W. N. Lewis was hostess when the Delphian Study Club met at 4 p. m., Monday at the Seleta Jane Brownfield club house.

Mrs. Leonard Chesshir, president, called the meeting to order and introduced Mrs. Lewis Simmonds, program chairman. Mrs. Simmonds introduced State Highway Patrolmen Vic Atwood and Ames Eggen. Atwood spoke on "Public Safety" and the two men conducted an open forum on that subject.

Members voted to support the city clean up campaign, which begins today (Friday).

Mrs. W. T. Pickett and Mrs. Crawford Burrow, club delegate and alternate, reported on the 7th District Federated Womens Clubs convention, which was held in Amarillo last week.

Refreshments were served to Mesdames Wayne Brown, J. O. Burnett, Jr., Burrow Chesshir, Pickett, Simmonds, Lewis, Martin Line, K. B. Sadler, L. D. Spradling, George Steele, Fred Yandell, and Willard Adams.

LOW-COST SILK TRESSES NEED LITTLE CARE

BY EDNA MILES

If you fear current fashion will outgrow the long-haired look before you can coax your short, shorn locks to grow out, then your best solution is probably a matching hairpiece.

These are available this season in a variety of styles—and, surprisingly—a new material. In addition to the braids and switches of imported hair with which most women are familiar, there are this year pin-on tresses of silk.

These hair accessories are spun into long, fine strands which are almost indistinguishable from real hair.

Advantages include low cost and manageability. These tresses are already dressed in permanent form when purchased, so you need not fear your unskilled hands will have difficulty coiling them into the arrangement of your choice.

Another point in favor of these man-made rather than woman-grown tresses is the uniform length of the silk.

Because there are no varying lengths, the problem of combing untidy strays is eliminated, according to makers. Disarranged strands can usually be worked back into place beneath the protective net with your fingers, they claim.

Despite the brevity of her own locks, this young woman achieves a fashionable long-haired look with the aid of pin-on tresses of silk.

The Low Down From Hickory Grove

Knowing a smattering about kilowatts — having dumb poles, fixed wires, and read meters from Galveston to Fort Wayne to Grand Canyon and Puget Sound—I venture to tell you folks who have never hung around a powerhouse that funny things are going on in the electricity business. And in due course—if the fumididdles keep on—you will run a confused hand across a dubious brow, a few years hence, and wonder how it all happened. And then, I will say, don't look at me folks, don't blame me, I told you back there in 1951 that a camouflaged socialism was hidden behind the switchboard. You thought it was just your friend turning on the lights.

Now give heed, your very own cash mazuma is building these Govt. dams and powerhouses in all necks of the woods. The gov't. says these dams are to prevent

floods—it don't say how a steam electric station and of which the Gov't. has built many, will stop a flood.

There is no hint of a good reason for the Gov't. to barge in on power—build a 400,000 horsepower plant 'way out at Hungry Horse, Montana or a 1,200,000 horsepower station at Chief Joseph in eastern Washington. If you live in Indiana, or Rhode Island, or Kansas, or where, you should be irritated—it is your dinero they are playing with—but you get none of the kilowatts. Time to get on your car, folks, I say.

Yours with the low down,
 JO SERRA.

Why not give your Bride a Break?

LET'S see what it means to own a ROADMASTER.

It means, first of all, that you're a shrewd judge of fine manufacture. Nowhere will you find a mechanism more skilfully fitted part to part with scrupulous precision—engineered to stricter standards of fine-car quality—than the deep-framed and durable ROADMASTER chassis.

It means, also, that you possess keen appreciation of everything that makes for unsurpassed performance.

For there's more to this dazzling beauty than its thrilling take-off. There's the surplus of power that you need to make you the master of busy traffic or open road—plus the velvet

magic of Dynaflo Drive (at no extra cost, mind you).

There's the level-going luxury of ample roadweight buoyantly balanced on coil springs on every wheel—and the security of brakes specifically engineered for firm control of this great-powered beauty.

But there's still another distinction to being a ROADMASTER owner.

It marks you as one who buys wisely and well. Size for size, pound for pound, feature for feature, few cars can even approach what your dollars will buy in this finest of Buicks.

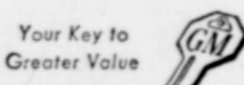

There's much more to be discovered by a

visit to any Buick dealer's showroom.

There's the sumptuous softness of cushions, the custom excellence of fabrics and interior trim, the grace and charm of every line and contour.

So if you've dreamed of sometime owning a car superbly fine, there's no time like the present—and no car like ROADMASTER for making dreams come true.

Equipment, accessories, trim and models are subject to change without notice.

Men Being Held On Theft Counts

Two local men have been arrested on charges of theft of 11 cases of whiskey and one case of gin from a Bronco, N. M., business Sunday night.

The two men gave their names as Junior Brown and Bill Brouse. They were arrested here Wednesday night by city policemen and placed in the county jail.

Brown confessed to the theft and was released to Lovington, N. M. authorities, and Brouse is being held here.

Officers said that four cases of whiskey were found in possession of the men and that six cases had been sold.

Further investigation is being made by city and county authorities.

Area Club Boys Attend School

Two area 4-H club members, J. W. Hubbard of Wellman, and Jimmy Benton of Union, are attending a tractor maintenance school at Texas Technological college in Lubbock this week.

The school is being sponsored by Stanolind Gas & Oil Company and the Extension Service of counties in districts 2 and 6.

Purpose of the school is to acquaint those who attend with new methods of maintaining and protecting farm tractors. The two area members attending the school are junior 4-H club leaders, and will conduct similar schools in county clubs at a later date, according to Jim Foy, county agent.

Foy and Otis Lerner, manager of the J. B. Knight Farm Machinery company here, attended a banquet at Lubbock Tuesday night for the group of students and county agents. Lerner spoke on the farm implement dealer's views on the school.

The school began Wednesday and will end today.

Fabulous Car to Aid Cancer Fight

Buick's fabulous "Old Vienna" sedan, upholstered in needle point and equipped with gold-plated interior fittings, will go to some lucky person for \$1. Buick has donated the Roadmaster Riviera Sedan, along with \$1,000 toward taxes, to the Damon Runyon Memorial Fund. It will be awarded to the person submitting \$1 and the best safety slogan of 10 words or less. The exquisite beauty of the car is illustrated in this photo showing the needle-point panels designed and executed by Mme. Ida Jolles, one of the world's foremost creators of needle point.

Awards Offered 4-H Members

One of the oldest and one of the newest sponsors of national 4-H programs will continue to offer awards for outstanding work in the 1951 projects, according to G. L. Noble, director, National Committee on Boys and Girls Club Work.

They are Spool Cotton Co. of New York, which is beginning its 11th year as sponsor of the 4-H Clothing Achievement program, and Kelvinator Division of Nash-Kelvinator Corp., Detroit, which offered awards in the 4-H Food Preparation program for the first time last year.

The projects are well underway in Texas. At the end of the 4-H

Club year, members' records will be judged on county, state and national basis. The county and state awards are the same in both programs: A gold-filled medal for each county winner, and an all-expense trip to the National 4-H Club Congress in Chicago for the state champion. In the clothing project, 12 national champions are selected and each receives a \$300 college scholarship. Six national food preparation experts are chosen who also are given \$300 scholarships.

By making their own clothes and utilizing home grown foods in planning family meals, Texas' young homemakers are saving valuable time and materials. As they "learn by doing," the 4-H'ers are helping themselves as well as their country in the present defense mobilization program.

WASHINGTON, D.C. — Disclosures of Communist activity in intellectual sabotage of government through infiltration in the nation's capital have brought more publicity to the state of Wisconsin than the dairy industry. When Wisconsin sent young, dynamic Irish Senator Joseph R. RICHARD RIDGEWAY

CONGRATULATIONS To The 4-H and F.F.A. Boys On Your 8th Annual Stock Show

During our years of service, we have given aid to thousands of farmers in the Brownfield territory. We have watched the old 4-H and FFA members rise to prominence in this community. It is a pleasure to welcome the present Future Farmers and Stockmen to the 8th Annual Calf Show and to wish each member the best of luck in their undertaking.

Sparks From Capitol

The Texas Constitution limits members of the Legislature to an expense allowance of \$10 per day for 120 days, and \$5 per day for every day thereafter that the Legislature is in session. No member is paid while the

Legislature is not in session, not even the Lieutenant Governor or Speaker.

The Legislature convenes only once every two years regularly, and therefore must legislate two years in advance.

Several attempts have been made to lengthen the session and raise the pay, but each try has

temporary omnibus levy of the last session. Its sponsor, Rep. Jim Lindsey, Texarkana, estimate it will bring in at least Forty Million Dollars (\$40,000,000) for the two years. Twenty-one items will be taxed by this bill, and more could be added by amendment.

The other bill is a tax on natural gas. Its sponsor, Rep. Jim Sewell, says it will bring in Sixty Million Dollars (\$60,000,000) for the two years necessary.

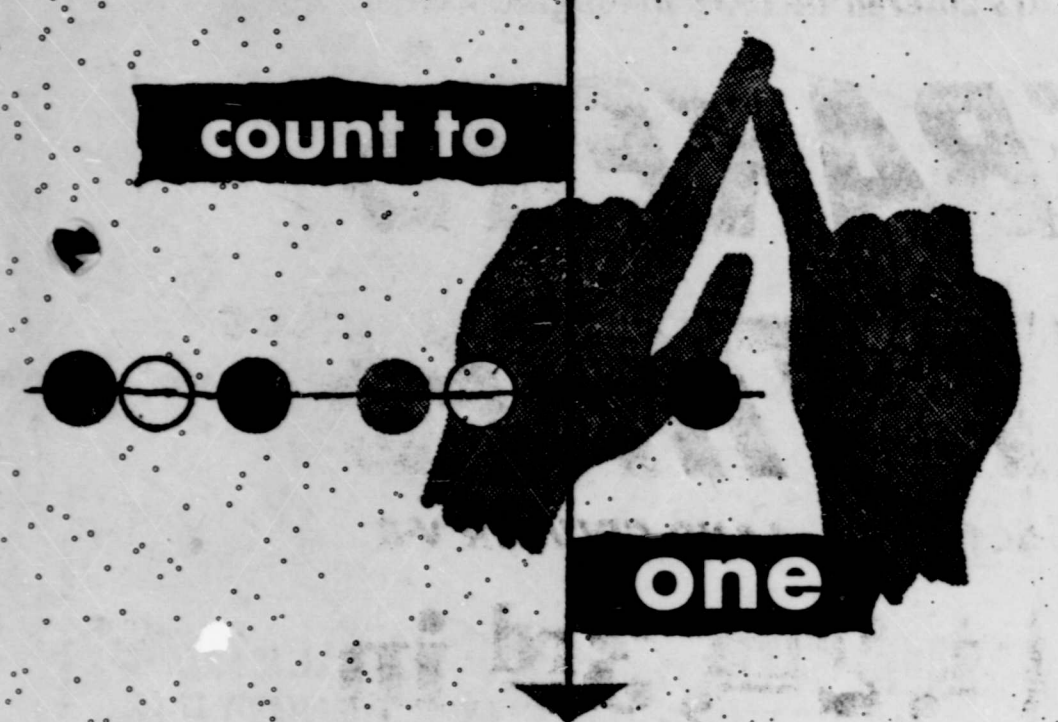

A new estimate of needed revenue is expected from the Comptroller soon. Regardless of his

figures, many members believe more than one type tax bill will be needed. If not, the fight will then be over which type of tax.

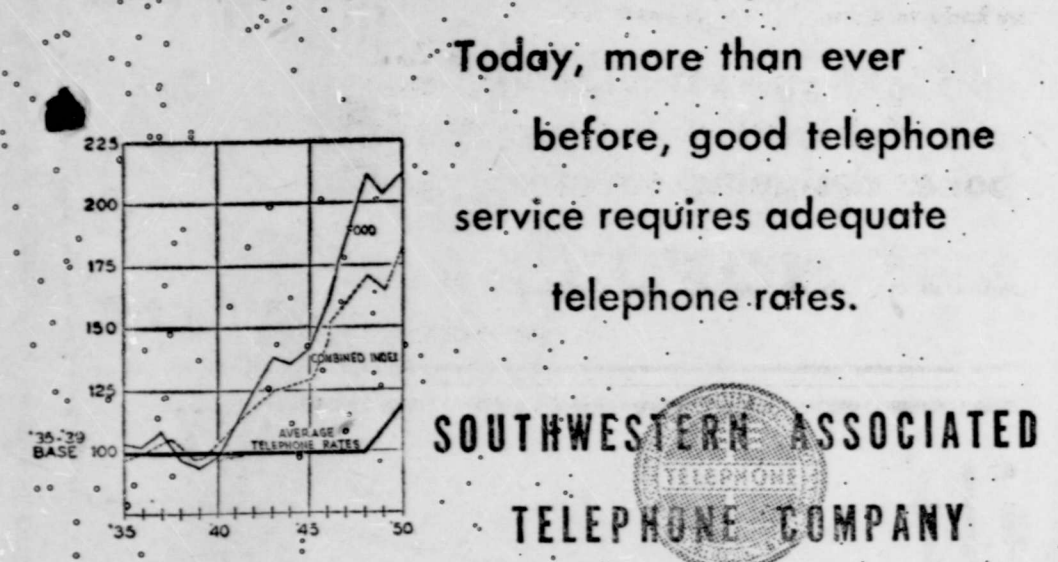

If the Legislature solves this problem before the 120th day, it will have good reason to congratulate itself.

been defeated by the voters by large majority.

Legislators have accepted this to mean that the people want the Legislature to finish its work in 120 days and go home. Therefore, the Legislature is geared to 120-day session.

The present Legislature is now in its last month of the 120 days. Indications are that it will attempt to end the session on or about the 120th day, which is May 8.

There is still a lot of work ahead. A final decision is yet to be made on the amount of new taxes to be voted and on whom they will fall.

Tax bills can originate in the House only. Two tax bills are out of committee and before the House.

G. I. QUESTIONS and ANSWERS

Q—I am about to be discharged from the Navy, and I would like to know what to do in order to keep my National Service Life Insurance in force.

A—These suggestions should be helpful: (1) In order to avoid any chance of lapse, send VA your first remittance within 31 days after discharge; (2) Give your full name, service number, policy number and complete permanent address; (3) Pay by check or money order the same amount of insurance in force and (4) Pay premiums regularly each month. Don't wait for an official receipt, for there may be some delay initially in acknowledging your remittance.

Q—I already have changed GI Bill fields of training twice, and I'd like to make a third change. May I do so?

A—VA will approve a third change of fields of study only if you can establish a need for a short, intensive course which will prepare you for employment in a critical occupation for which there is a shortage of skilled workers.

Q—I am now drawing retirement pay from the armed forces as a retired officer. Do I consider that as income in determining whether I am eligible for a death pension as the result of the death of my son?

A—Yes. Retirement pay received directly from a service department is considered as reportable income.

Q—My wife served in the WAC during the war and recently passed away. Am I entitled to death pension payments from VA?

A—No. Under present laws a widower is not entitled to death pension benefits, but surviving children may be entitled.
