TRAFFIC LIGHTS NOW WORK—SOMETIMES

When we got home from Brownwood, we thought by heck, they had the traffic lights going good at last. But next morning we drove down, that plagued light at 6th and Broadway was working only on the north-south side.

We stood there for several minutes waiting for a change, and catching traffic pretty clean, we ventured to turn south to the office. Since then we have noted they work sometimes, and then go on a sidown strike.

We hope the city gets them going before the fall rush.

According to Mayor C. C. Primm the caterpillar will be used to maintain a covered land fill at the City dump grounds. This was one of the measures adopted in the spring along with the clean-up campaign, in order to insure better health for the citizens of Brownfield.

MEXICAN PRACTICES GOOD NEIGHBOR POLICY

MEXICO CITY, Aug. 17.—(AP) A 19-year-old Mexico youth has taken the "good neighbor" problem into his own hands.

Texas tourists who happen to cross paths with him are learning about a brand of super hospitality that even the Texas Good Neighbor Commission would hardly dream about.

He is Carlos Huesca, citizen of Mexico but football player-graduate of Huntington, Ind., high school. His studies in the United States for the past four years have been by special arrangement of the governments of the two countries. This fall he plans to return to enter college to study international trade.

I first met Carlos at breakfast in the dining room of a small hotel off the beaten tourist path. He was visiting, I learned later, with his brothers and sisters who lived in a nearby apartment. His parents are dead.

With the politeness of an old-time southern colonel, he approached our table and inquired if my wife and I were planning to go to Xochimilco. It was Sunday and all tourists go to Xochimilco on Sunday to ride flower-decked canoes through garden-like lagoons.

Suspicious, like most Americans we assumed he had an "angle."

We told him we thought we would go later in the morning but thought we know the way and wouldn't need any help.

"You do not understand," he broke in. "I am not a guide. Mexico City is my home but I have been going to school in the United States for the past four years. The people there have been so wonderful to me, I made up my mind that I would help American tourists here whenever I could. I want no payment. It will be my pleasure to be whatever help I can."

If such were truly his pleasure, he was undoubtedly supremely happy for the next two days. He showed every sign of being so.

From early in the morning until late at night and even into small morning hours, Carlos wrote out Mexico holiday into capital letters.

He had his own yellow convertible and insisted on using it, chauffeuring us with ease through the belching traffic to the pyramids, to shrines, markets, restaurants, night clubs.

At every turn he made it more impossible ever to pay or repay him. A corsage for my wife, a bright table cloth for our dining table, a shiny flint image souvenir of the pyramids—all were his "pleasure."

He translated for us, bargained in the markets to get our purchases for half the tourist price, steered us to the best of Mexico City and away from the tourist traps. Early one morning he rounded up a troop of "maria-chis" to serenade us with familiar Mexican ballads.

"De Nada," he would say—"it is nothing."

As we started to leave, he presented us with an autographed print of high school graduation picture.

"I hope I have helped you a little to have a more enjoyable visit," he told us. "I only wish I could help more tourists."

We could not help but ponder such good neighborliness. It was the sort of thing that has been urged consistently during the ten-year existence of the Texas Good Neighbor Commission—but in reverse!

What In Heck Did Editor Hale Mean?

Mystery Queen Candidate Is????

Carlton Brady, first candidate for Queen of the annual Harvest Festival, has an opponent, known as the "Mystery Candidate," and only those on the committee know who the charming young lady is that has been selected, according to Harmon Howze, chairman of the Queen committee.

The "Mystery Girl" was chosen by group 1 of the Rotary Club sponsors of the Harvest Festival. J. O. Gillham is chairman of group 1, and about their candidate he said, "She is on the prettiest girls in Brownfield." Lots of tickets have been sold supporting their candidate, Gillham said.

Miss Brady was selected last week by group 2. Burton Hackney is committee chairman.

Group 3, headed by Clovis Kendrick, will announce next week the name of their candidate, who will be a member of one of the Terry County 4-H Clubs.

All members of home demonstration clubs in the county have been invited to attend a meeting at the home demonstration agent's office this afternoon at 2 o'clock, and the 4-H club girl to be named candidate will be selected at that time.

Truman Commends Sgt. Riley Johnson

Tinker Air Force Base, Okla.—Sgt. Riley W. Johnson of 117 North 5th St., Brownfield, Tex., is a member of the 2060th Mobile Weather Squadron, Tinker Air Force Base, Okla., U. S. Air Force—receiving commendation from President Truman for his participation in the Atomic Energy Commission's Project Greenhouse.

Sergeant Johnson was among personnel of the 2060th selected to provide weather service for the project which was conducted in the Pacific area the first part of this year. The President's expressions of appreciation "for the contribution to the national defense" made by those who took part, were relayed by Lieutenant General E. R. Quesada, USAF, commander of Joint Task Force Three which carried out the project.

Lieutenant Colonel E. R. Miller, Squadron Commander, and Lieutenant Colonel August W. Throgmorton, who headed the 2060th Greenhouse unit, extended their personal congratulations to Sergeant Johnson after the presidential commendation was received with indorsements of similar praise by General Quesada, Dr. Alvin C. Graves, who directed the Scientific Task Group and Major General Robert M. Lee, USAF, commander of another segment of the Joint Task Force.

He translated for us, bargained in the markets to get our purchases for half the tourist price, steered us to the best of Mexico City and away from the tourist traps. Early one morning he rounded up a troop of "maria-chis" to serenade us with familiar Mexican ballads.

Miss Gertrude Rasco Writes The Herald

Many here will remember Miss Gertrude Rasco, who taught piano from 1930 to 1943, a period of 13 years. She has been making her home with her mother at Memphis, Texas, since that time. A year ago, Mrs. E. C. Davis attended the Federation of Women's Clubs over there, and spent the time in the Rasco home. So delighted was Miss Rasco to hear of the people in Brownfield, and its growth, that upon return, Miss Davis had the Herald sent to her friend for one year.

The Herald had a long letter from Miss Rasco this week, enclosing the money for another year of the Herald. She has seen so many mentions of people dear to her, such as former pupils, and their progress. Also, the wonderful changes and growth that has taken place here since she left, with fine churches and school, business buildings and beautiful residences. Also, the addition of oil to add to the expansion and prosperity.

We hope that it may be possible for Miss Gertrude to make us a visit sometime, and witness the growth that has taken place since she left Brownfield only eight years ago. In the meantime, she wants her old friends to know she still remembers them with fond memories, and hopes for them all the good things in this life.

Only recently she and her mother and a niece made a long train journey to the northwest, seeing the beautiful scenery in Colorado, Utah, Oregon and Washington and perhaps others. She states that it was well worth the expense of the trip, which was taken in easy stages, and not tiring.

Needless to state that Miss Gertrude renewed for her Herald for another year, and we hope she enjoys every issue, just as we shall enjoy sending them to her. She spoke of one authority on six names, perhaps during her college days that was telling the class what each name meant, and from what it was derived, which when Rasco was reached, the professor stated that likely it came from the word "rascal."

We remember that a man named Rasco was closely connected with Al Smith when Miss Rasco first arrived here, and some of us kidded her by calling her Rasco. She took it all in fun.

Don't Pack Trouble In The "Old Kit Bag"

Are you planning to "Pack up your troubles in your old kit bag" and take a vacation? Be wise, do not pack "troubles" by packing carelessly, advises Gladys Darden, home management specialist for the Agricultural Extension Service of the Texas A. & M. College. A few rules or hints can spare you wrinkles, stains and other such troubles on your arrival.

First of all, "travel light," suggests Miss Darden. You can do this if you are selective in what you take. Takes clothes that will serve more than one purpose; accessories that will combine well with several costumes, stress crease-resistant fabrics, quick washing and drying blouses and lingerie. Think of needs—summer days are hot but resort nights can be cool as are air-conditioned modes of transportation. Nor is it always sunny weather.

Make a list before you start your actual packing, says Miss Darden. High on the list should be cosmetics, plastic cases and unbreakable plastic bottles for them, clothes brush, shoe brush, needles and basic colored threads, your favorite soap or detergent for washing hose and lingerie. Add a travel iron, extra hangers, and tissue paper.

Here are a few tricks a seasoned traveler gets to know — stuff shoes and purses with tissue paper and crumple tissue in every dress fold. Fold a jacket with the lining outward, sleeves straight down—it will hang out in a short time. Fold skirt back over a roll of tissue paper. Put shoes, heavy or bulky articles on the bottom layer of your suitcase. Pack articles in the order needed—aspajamas on the top for an overnight trip. Unpack as soon as possible after your arrival, concludes Miss Darden.

"WATER" PREDICAMENT—What is so rare as a regatta without one mishap? The victim of a race on Berlin's Wannsee Lake was this young chap, who spent an unhappy 15 minutes in the "drink" before rescuers reached him. Later they towed his ill-fated craft ashore.

HUMAN MALE THINKS HE'S HENPECKED

Then hen-pecked husband of a human female should just be thankful he isn't a spider.

Or at least that he isn't an ordinary garden spider of the family Agriopida, warns Professor Bryce C. Brown of the Baylor University biology department.

Mr. Argiopida, the unfortunate fellow, is about three-fourths of an inch long. Mrs. Argiopida is a full inch in size and she takes advantage of that difference.

Her use for her husband is very brief and specific, Brown explains.

There is, of course, the honeymoon.

But then Mrs. Argiopida starts raising her family. It gives her a tremendous appetite and she eats everything she can find.

Yes, says Brown, that is her secondary and final use of Mr. Argiopida. She eats him up.

Behind The Scenes

By Reynolds Knight

NEW YORK, Aug. 17.—In the six years since V-J Day, American genius has produced a truly impressive array of mechanical and scientific products that have made life more enjoyable—and in some respects longer—and have meant more and better business.

In medicine and food, astounding new developments every couple of months are taken almost for granted. Textile makers have brought out new synthetics to enhance the quality, appearance and utility of clothing, draperies, upholstery and other fabrics. New appliances and devices are making the home more comfortable than before.

In the air, engineers have developed the reversible-pitch propeller, which virtually guarantees greater plane safety, while on the ground automotive engineers have taken the most practical car of all, the station wagon,

IMPORTANT NOTICE

At a regular meeting of the County Commissioner's court in the Court House next Monday, August 20th, the Terry county budget for the fiscal year 1951-52 will be presented for adoption and the tax rate for the 1951 tax, according to County Judge Herbert Chesshir.

Any property tax paying citizen of the county is cordially invited to the hearing to offer any objection or approval as the case may be, Judge Chesshir said.

and brought it within reach of the average man's pocketbook. This came about when an unsung inventor at Willys-Overland got the bright idea of making station wagons with all-steel bodies, instead of expensive wood.

Ultimately, of course, we can expect that Joe Stalin will claim these and numerous other developments and inventions as his very own; but meanwhile it's the Americans who are using and enjoying them.

Changes In 1951 Dove Season Announced

Changes in the proposed 1951 dove seasons in Texas are foreseen by the executive secretary of the Game, Fish & Oyster Commission following a conference with Clarence Cottam, assistant director of the Federal Fish & Wildlife Service.

The Fish & Wildlife Service and the state jointly set seasons on both mourning doves and white wing doves because they are migratory birds.

The executive secretary said it seems unlikely that Texas will be zoned for waterfowl hunting as recommended by the Commission.

The Commission, at its last regular meeting, recommended that the mourning dove season open in the North Zone September 1, and open in the South Zone on

November 15 to run 45 days. The executive secretary understood from the conference with Cottam that the opening dates may stand but that the season would run 40 instead of 45 days. The bag limits of ten per day and ten in possession seemingly will continue. Shooting hours would be from noon to sunset instead of all day.

Texans in Washington Choose Inspected Eating Places

By Tex Easley (AP Special Washington Service)

WASHINGTON. — (AP) — Texas' freshman congressman, Rep. Walter Rogers of Pampa, isn't shy when it comes to talking about the Texas Panhandle.

He got in some real plugs for his wind-swept district when speaking during House debate on the bill to extend the Defense Production Act. Under discussion was the Rains (D-Ala.) amendment to disperse defense industries.

Rep. Moranó (R-Conn.) referring to the shifting of an aircraft plant from Stratford, Conn., to Grand Prairie, Texas, said:

"It is true that all skilled workers who left Stratford, Conn., which is the district that I have the honor to represent, came back from Texas, and went back to their own jobs and families because they did not like the food, they did not like the climate, and they did not have adequate housing in Texas."

Half an hour later Rogers got to speak. After reminding his colleagues that the purpose of the amendment was to disperse industries as a protection against atomic bombing, Rogers added:

"We are not asking for a government plant, but we are offering the Panhandle of Texas if you need it for that purpose."

"And I want to say to you that we will cooperate fully. We will even have the weather cooperate fully with you. I would not be a true Texan if I did not stand up to answer the remarks of the gentleman from Connecticut when he told you that those people that worked in those plants came back to Connecticut because they did not like the people of Texas."

Moranó interrupted here to say: "If the gentleman will yield, I did say that they did not like the people of Texas."

Rogers offered his pardon for the misinterpretation. Then he continued:

"I am sorry that those people in New England have such jaded appetites that they cannot appreciate good Texas food. If they would stay out there just a few months they would have an appetite and get rid of their ulcers and be able to eat anything that did not bite them first."

When the fight for control of offshore submerged oil lands gets on the Senate floor you can look for Texas' Senator Tom Connally to burst forth oratorically as he has not done for years.

In fact, he couldn't wait for tidelands legislation to reach the floor to sound forth on the subject.

With the measure still tied up in committee on his side of the Capitol, and just before the House went into action, he gave a fine preview of what to expect when that issue comes before the Senate.

It was reminiscent of old times, when the silver-haired Texan led filibusters against anti-lynch law bills. There were only a half dozen colleagues on the floor when he obtained recognition to speak, but that didn't dampen his enthusiasm.

He soon digressed from a prepared text to get into the stride that has earned him acclaim as one of the most eloquent members of the Senate. Although he will be 74 on Aug. 19, and his movements aren't quite so fast as they used to be, his tongue is as sharp as ever.

Looking about the chamber as if daring someone to dispute his contention that the federal government is trying to steal Texas' coastal domain, he voiced regret that Senator O'Mahoney (D-Wyo.) wasn't there to hear him. The Wyoming senator is author of legislation to give the federal government control of the submerged lands.

Dwelling on Texas' distinctive claim to the area, Connally's voice rang with pride as he recounted the history of his state as an independent republic.

"It won its independence from Mexico with arms, with swords in the hands of its men," he cried, "and with long rifles which the men knew how to shoot."

"Finally Texas joined the Union, and at that time it was specifically provided that it should retain all its public lands. So those lands were still the property of the State of Texas and its people."

Looking up toward the galleries, where he had an attentive audience even if that on the floor was sparse, the senator asked the

The Texas State Department of Health cannot maintain daily inspection of all eating places and the public is urged by Dr. Geo. W. Cox, State Health Officer to insist on the proper sanitation of the establishment where they eat. If the public is careless in this respect the incentive to maintain clean food service will be lessened and operators will only maintain the level the public is willing to accept. He urged that the public patronize "eating establishments which measure up to a high standard of cleanliness."

The State Health Department is making every effort to improve sanitation of eating places, Dr. Cox said, and there is "no excuse for cafe owners not taking advantage of the food handlers schools which are being offered all over the state." He added that there are laws, rules and regulations which require the use of approved equipment and methods in such establishments.

"The public should be aware of these sanitary rules and regulations, and insist that restaurants observe them. Patrons should realize that tables and counters will be many times cleaner than the kitchen and other places out of sight," he warned.

He urged milk appraisal by the patrons also. Texas law requires that a milk bottle cap taste the grade of milk, and whether it is raw or pasteurized. "Insist on having the milk served in its original container, with a covered cap and a legal label," Dr. Cox advised.

"Obviously," he said, "the best in sanitation can be had only by close co-operation between the public and the investigators of the State Health Department."

rhetorical question as to when those lands went to the federal government.

Then, raising both his arms in an outstretched, grasping motion, he answered himself:

"They never went to the federal government until the Supreme Court, with its long, bony fingers, reached out an aid (here his voice assumed the role of a villain): 'We will take that land. We will make it federal property by decision of four judges to three.'"

Reverting to tones of a man who has logic on his side, he added:

"It was not a decision by a majority of the Supreme Court. Four judges against three held that that property could be appropriated by the federal government and that the state could be deprived thereof. Is that justice? Is that fairness?"

Connally's speech provoked considerable comment, particularly in light of the fact that he is up for reelection next year if he is to stay on in the Senate, where he has served since 1929.

They Like it a Million!

Last week Buick set a proud record.

The millionth Dynaflo Drive* was delivered to a happy owner.

That's a new peak in popularity for modern drives which take you from a standing start to any cruising speed desired with a smooth, unfaltering swoop of power.

"The biggest advance since the self-starter" is what the motor-press called this Buick development back in 1948 — and now a million owners can tell you

how right that proved to be.

Here, they found, was a basically different way of delivering power.

It was the first drive to get completely away from any gears which function in a series of fixed stages — the first to apply supercharging principles that did new tricks with spinning oil.

And how folks loved it!

They loved the freedom from strain in traffic. And the new "sweetness" of ride which every passenger could enjoy.

They loved the command it gives them of every traffic situation—and the relaxation it contributes to a long day's drive.

They loved its extra safety in slippery going, and the improved control in mud and snow.

As they had a chance to pile up experience, they loved the unexpected savings of rear tire wear and reduced strain on all driving parts, from engine to differential.

And finally — they loved what it does for the value of a Buick, as

reflected in the extra dollars that Dynaflo* adds to the resale price of a car.

Have you sampled this driving sensation?

There's no time like the present for discovering the thrills that more than a million Buick owners already know.

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.

Stricklinly Speaking

By Old He

Much of our column endeavor will likely be taken up this week in a report of our trip down to Lake Brownwood. But first off, we note that the officers of a number of towns have taken to the fist route to settle their grievances with each other.

To start the ball to rolling, the mayor, a councilman or two and some of the police officers down at Seminole pulled a full rehearsal knock-down and drag-out affair about a month ago. Some of the officers quit, probably because they were asked to do so. And this is not confined to hick towns. Dallas has had its share lately.

Then there was quite an affray among officers down Snyder way. Some were fired, and some quit in sympathy. Don't believe we ever heard of as many flare-ups among the law enforcement officials. Could it be the heat?

Well, we made it all the way and back from Lake Brownwood the past weekend without mishap. The old 40ty made it down there in just five hours, 268 miles in exactly five hours. Left home at 6:15, arrived at the lake at 11:15 a. m. There were two stops; Snyder to get a fill for the 40ty and cokes for the Old He and wife. Then we stopped dead still at that crossing of highway 183 and 36 on that lone prairie, 12 miles south of Baird where we have seen, within the lapse of a few minutes, a near wreck, badly bent fenders, etc., three years

ago, and in July this year two killed in another collision with two seriously injured.

Yes, we came to a full and complete stop. And another fellow on 183, headed toward Coleman from Baird, also came to a full and complete stop. Evidently he had heard of the wrecks, too. So there the two cars stood like old "Alfonzo and my dear Gaston," each expecting the other to proceed. As we stopped first, we ventured to start up in slow, low gears.

An aged service station man between Abilene and that point, said there had been another wreck at the same place since the July affair, with fatalities, but as we saw nothing of it in the papers, we decided the pioneer must have dreamed up that wreck. But it could have happened.

Dropped off the bluff at the lake down to old Brownwood once or twice for a few minutes. We'll bet the temperature runs 15 degrees hotter down in town than out at the lake. Anyway feels that way. Those unaligned wheels in front of that wheel alignment shop are still turning, and wobbling just as bad as ever. But sad to relate, the Snipes Used Car lot across the street from the Graves apartment house bears another name now.

There was an old two story home wrecked north of the Graves apartment house where Bluford Adams intended putting a nice grocery, but Bluford became gravely ill, and still is, so the lots were converted into an-

other used car lot. But better explain some things for the reader. The Graves apartment house belongs to our son-in-law's mother, Mrs. Graves, and Bluford Adams is our own Will Adams' brother.

Speaking of Brownwood, last week we had quite some writeup of Mrs. Een Hilyard, the former Belle Williamson, who worked some ten years altogether for the Herald, but is presently employed on the Brownwood Banner. We had it that she did a "stink" instead of a "stint" with the Herald, and the proof reader failed to get the error.

Well, most printing offices do have a peculiar odor that once thoroughly inhaled, is hard to rid oneself of. Even so, a printing office, nor for that matter, Mrs. Hilyard stink. As 'tis may get a licking next time she comes to Brownfield.

Crops are poor most of the way down there, especially after one leaves the caprock, and in some places on the cap. About the best crops under the cap are just west of Roby, where they had good rains in May and some since. There are scattering spots in Jones that have fair crops, small scopes west of Anson, and in the Hawley section in south Jones county.

The peanut acreage in the Cross Plains area is very small this year, and poor in quality. Somebody else will have to furnish the peanut butter and the roasted peanut at the fairs and carnivals this fall. There are, however, some good irrigated

The lake was way down to about normal. In July just following the floods, the lake was flowing high over the spillway, and was muddy as heck. Don't blame a fish for refusing to open his mouth and get a gob of mud even to get a tempting morsel like a minnow or worm.

Our main amusement was to set out under the big oaks and watch the antics of the birds. And as no one molests the birds around the lake, they are almost as gentle as chickens. Some young redbirds had left the nest a bit too early, but Ma and Pa birds still fed them on the ground or the rock fences thereabout.

They, as well as mocking birds, and scissortails, would lite right close to you in the trees, and if you sat still, they would size you up as a friend and remain as long as they wished. Then there was the dove that gave us several notes of the sad, lonesome coo on a nearby telephone or light wire.

There are always some game wardens around the lake, and evidently they keep the small boy with the niggershooter and airgun shooed away. Anyway, we saw no small fry, sneaking up on birds.

The editor tried in many ways to impress upon his reporters that brevity was the thing to be desired. One young fellow became a convert of the idea and turned in the following:

"James C. Humphries looked up the elevator shaft at the Union Hotel to see if the elevator was on its way down. It was. Age 24."

Then there was another guy whose hound dog strayed off. He inserted the following ad in the paper: "Lost, or run away, one liver colored dog called Bill. Will show signs of hydrofoby in about three days." Bill was at home the following day.

And right here we take our fadeout pill.

TEXAS HOME DEMONSTRATION ASS'N. WILL CELEBRATE 25th ANNIVERSARY

The Texas Home Demonstration Association will celebrate its 25th anniversary on the campus of Texas A. & M. College, August 29-30-31.

Maurine Hearn, state home demonstration leader, says more than 200 club members are expected to attend this annual convention, the first on the campus since 1940.

Mrs. R. M. Almanrode, of Monday, Knox county, is president of the Texas Home Demonstration Association, consisting of nearly 42,000 membership. "The members are pleased to return to the place where they were organized 25 years ago."

"United We Stand" is the theme of the 1951 convention. The 3-day program consists of committee workshops on legislation, recreation, education, marketing and 4-H, and special workshops on county T.H.D.A. organization and "The Messenger" — official publication.

Mrs. R. J. Turreline, Denton and Dr. T. O. Walton, former president of A. & M. College, will be featured speakers for the general sessions. "The Wheel of Progress" will show in pageant form the 25 year's growth in the Texas Home Demonstration Association. Mrs. G. W. Ferguson, Bell county, editor of "The Messenger" has written the pageant for 374 participants.

Mrs. Zach Norton, Smith county, and Mrs. Fred Hopkins, Denton county, are editing the history of the Texas Home Demonstration Association for the convention.

Well, we got a puzzler this week. It was in the form of a post card from Church Street in New York, with only the wording, "COMING SOON . . . 'S-O' OBRO!" in the reverse side. If you are a good guesser, take a turn and tell us what it is all about.

Gilt Show To Be Planned Monday

Next Monday morning at 9:30 o'clock vocational agriculture teachers in Terry county will meet in the office of Jim Foy, county agent, for an important meeting, according to Lester Buford, vocational agriculture teacher in the Brownfield high school.

With Buford and Foy, Ray Hensley, assistant agriculture teacher in the local school, Tru Jones, FFA advisor and teacher at Meadow, and Homer Jones, agriculture teacher at Wellman, will discuss plans for the show.

Mrs. A. C. Moore returned home Tuesday after several days visit with her sister, Mrs. Wayne Smith and family.

Watermelon Rind Preserves Delicious

Watermelons are in plentiful supply in most parts of Texas. They are so luscious looking and so good when they are red ripe and cold. Since watermelon cannot be frozen very satisfactorily, Louise Mason, Extension Foods and Nutrition Specialist, says if you want to preserve some for future use, it may be done by making watermelon rind preserves.

She says, select melons which have a thick rind. Trim off the outer green skin and the pink flesh, and use only the greenish white parts of the rind. Cut the rind into one-half or one-inch cubes and weigh. Then soak the cubes for three and one-half hours in lime water (2 quarts water and 2 tablespoons lime-calcium oxide.) Next, drain and place the cubes in clear water for one hour. Again, drain off the water and boil for one and one-half hours after fresh water has been added. Then drain.

For each pound of watermelon rind (weigh before soaking), Miss Mason says use one pound of sugar (2 cups) and one quart water. Make a syrup, then add the rind and boil one hour. As the syrup thickens add one-half lemon thinly sliced for each pound of fruit.

When the syrup begins to thicken and when the melon is clear, she says, the preserves are ready

Had Another Long Letter From Harve

Friend Harve Harris was still out in California, Oregon and Washington as of August 3rd, seeing the sights and looking for kin folks, some that he had not seen for 60 years. Truth of the matter is, we bet Harve was about to run shy of money, and wanted some food and a place to sleep.

Anyway, one of them had the same given name, Harvey, over at Sacramento. Some of them had gone to California during the gold rush, and had decided to make it their permanent home. Harve had to do some detective work, something of which he prides himself, to find some of them, but he succeeded.

Some of them had never heard of him, but like the old characters of Bible times, when they did meet, they fell on each other's necks. One of the most appreciated sights to Harve and perhaps Mrs. Harris was the wonderful redwood forests.

Says Harve in conclusion, "I could fill a book with the things I've seen and heard." We are truly glad this great old couple are having a great time on this their first really big vacation trip.

for the jars. Pack the preserves into hot sterilized jars, add enough syrup to cover the preserves and seal.

Texans Like Their Jersey Cattle

If there's any doubt how Texans feel about Jersey cattle, the figures released by the American Jersey Cattle Club for the year ending March 1, 1951 should clear up the picture.

According to A. & M. Meekma, associate extension dairy husbandman of Texas A. & M. College, Texas Jersey breeders ranked at the top or very near there in at least eight different categories. They led the nation in total registrations with a total of 6,440 head or almost 10 percent of the nation's total of 70,110 head. Jim Wells county ranked second in the nation in the number of registrations with 869 and Hopkins county seventh with 423 head registered last year.

Texas ranked first in the total number of transfers by states and also in the total number of new buyers of registered Jersey cattle. Johnson county ranked third in the nation in the number of new buyers with a total of 59.

In the matter of herd and individual animal classifications, Texas topped the nation with 1,212 cows classified and ranked fifth in the number of herds classified with 59.

In the section dealing with the club's herd improvement registry, Texas ranked third in the number of cows on test and fifth in the number of herds on HIR test.

One Texas cow, Volunteer Winsome Victory, owned by J. Chester Eliff, Victory Jersey Farm, Tulsa, was one of seven in the nation to become a member of the Club's Register of Merit Thousand Pound Club during the year. Victory, as she is known to her bovine friends, at five years and one month of age produced 18,362 pounds of milk and 1,174 of butterfat in 365 days on a twice-a-day milking schedule. She holds the type classification of Excellent, the highest of the breed; also the distinction of being the highest living butterfat producer of the breed among cows with the Excellent classification. Meekma adds that only three other states provided new members for the Thousand Pound Club during the past year.

HE WALKED THE LAST MILE

Concerning Herbert Noble, who was blown to bits at his mail box on his ranch in Denton county last week, it can be said "he that liveth by the sword shall die by the sword." He went the way of all flesh, and his last days were filled with dread and terror. "Be sure your sins will find you out" is as true today as the day that passage was written into the New Testament.

TENSE DRAMA OF LIFE AND DEATH IN OLD SPAIN

The shadow of death or serious injury hovers constantly over the bullring where man pits his skill with cape and sword against the sharp-horned, deadly brutes of the arena. But bullfighters are of a hardy breed and most always come out the winner in their battles with el toro, as shown in this series of pictures. In top photo, the Spanish matador Martorell, performing in the Plaza Del Toros, Madrid, Spain, has his cape torn from his grasp as he is gored and tossed into the air by a wounded and enraged bull. In

center photo, assistants — one of whom has the bull by the horns, another who has the beast by the tail—attempt to distract the raging animal while one of their number drags the wounded bull-fighter from under the animal's massive body. In lower picture, Martorell, moments later, still covered with his own blood, makes a graceful pass at the charging beast which he later dispatched along with others assigned to him for the day. Not until his task was completed would he allow himself to be given medical attention.

Their parents are Mr. and Mrs. Ed Thompson of Brownfield, and Mr. and Mrs. R. L. Yeager of Olney, Ill.

pink formal marquisette over taffeta with shirred skirt. She carried a bouquet of orchid gladioli. Miss Cameron wore an orchid marquisette formal, with a corsage of pink gladioli.

YES — All This Really Happened To Just One Little Brownfield Boy

He was vacationing in Red River, N. M., and Grand Canyon, Colo., with his parents and his three little brothers and sisters.

First, he fell, starting an avalanche down a steep hill. He was found to have a deep cut on his head when he finally stopped rolling. He was rushed to Taos where a doctor sewed up the gash.

Next, he was fooling around the cook stove and took hold of a hot stove lid lifter. His hand was pretty badly seared. His mother — feeling sorry for him, told him he could play with a little pot he had taken a fancy to. He put water in it, and set it on the stove. He picked the

pot up later, and it being hot, he dropped it, scalding the other hand and arm.

While viewing the Grand Canyon, he ran ahead of the guide and climbed out on a steep ridge beyond the protecting wall. The guide had to crawl out and get him.

The family returned home and this alert young lad of seven got himself a job of delivering hand bills. A dog bit him on the leg.

Outside of all this—the James Warrens' and their four small children had a wonderful vacation!

The adventuresome lad? Their oldest son, Jerry Bob, age seven!

FOR WOMEN ONLY

By Margaret Bandy Coward

Saturday morning—we are thankful the hall didn't hit in Terry county—the storm that wiped out thousands of acres of cotton in neighboring counties last Friday night.

My feet sure were dirty Thursday night of last week—the reason—were sandals to the field day at the Buchanan farm at noon that day. If you haven't seen those fine Guersneys out there—worthwhile to make a trip to the dairy. Those Gomez ladies sure are good cooks—they sold pies, cakes and cold drinks at the annual field day.

Enjoyed being with those ladies. . . . The Old He is in the Buchanan doghouse for sending the husband and me to that meeting, instead of going himself to "chew the rag" with A. B.

Friday — To the Methodist Church and met so many nice women. Had a good lunch, too. Did you ever know Methodist ladies who were not good cooks?—all but me—and my family wishes I could learn!

I am not partial to the Methodist news—even though I have written more about their activities than other churches this week. . . . Just happens that more Methodist news was available. . . . also, invitations to any

BETTY LOU HOWARD IS GUEST OF CRESCENT HILL CHURCH MEMBERS

Members of the Crescent Hill Church of Christ have as their guest this week and next week Miss Betty Lou Howard, 14, from the Tipton Orphan's Home, Tipton, Okla.

Jimmy Wood, local minister, met Miss Howard in Wolfarth Saturday, where she accompanied four other young people from the home. Mrs. Sewell Dean at Wellman is entertaining a girl from the home, one stayed in Wolfarth, and two boys went to Lovington, N. M.

Miss Howard visited in Brownfield last year. Young people from the home have two weeks vacation each year, they usually spend with members of sponsoring churches. Crescent Hill Church of Christ 'adopted' Betty Lou, who is in the seventh grade.

church dinner would help the situation along! Need to hear more from all the churches in town, and always glad to write news about "What's Happening."

I am probably in Carlon Brady's doghouse! "Slips that pass in the type" was the reason her name was misspelled last week.

Terry county top winners at the district 4-H camp, held in Lubbock last week, were Jimmie Berto and Jimmie Sargent, who placed first in a washer throwing contest; and Jerry Henson won top honors with a calf show halter in leathercraft. Approximately 233 4-H club boys and about 50 sponsors and county agents attended the annual affair.

Local talent may lead to fame. . . . As the amateur show continues on the local radio station. Last Saturday afternoon Patty Winn won first place, singing, "Ah, You're Adorable," accompanied by her mother at the piano. A duet, with Jean Curtis singing "Mr. Mississippi," accompanied by her brother, Sonny Curtis, placed second. Sonny played a guitar.

We are in the "market" for all club news—will appreciate club reporters for this year calling No. 1 for any notice about the various clubs in Brownfield. A good society editor needs a copy of the clubs' year book, and I will thank you if you will see that one is delivered to the Herald office. Please remember—I am your reporter. . . . whether bridge clubs, or any party. . . . along with reporting general news. Thanks again for helping me the past few weeks—your response has been wonderful—and I know now I can depend on the cooperation of everyone!

Said a farmer in the county agent's office, when asked about his crops, "My grain sorghums are like the President—no head. My cotton is like MacArthur, fading away."

See you next week for more and better news!

Included in those entertaining Betty Lou this week are Mrs. T. A. Key, Mrs. Weldon Latham, Mrs. Johnny Benson, and Mrs. Henry Chisholm.

Mrs. Benson was hostess to a luncheon Wednesday for Betty Lou. Others attending were Mrs. Benson's nieces, Misses Mary and Betty Watson of Denver City, and Miss Donnah Newsom. The group attended a movie in the afternoon, and after prayer services Wednesday night, Mrs. Benson took the girls skating.

Miss Howard will be a guest in other members' homes next week.

During the past week, one suit for divorce was filed and one marriage license issued to J. C. Yeager and Gene Carr.

Mrs. George Nicholson returned home Sunday after being in Weatherford for the past three weeks. Her father, C. A. Ruland, underwent major surgery at Weatherford and is reported to be getting along fine.

Nationally Known Evangelist To Begin Meet Sunday At Crescent Hill Church Of Christ

FANNING YATER TANT

Bro. Fanning Yater Tant, nationally known evangelist of the Church of Christ, will begin a Gospel meeting at the Crescent Hill Church of Christ next Sunday. Bro. Tant held meetings all over the United States, and the Crescent Hill Church of Christ feels that they are indeed fortunate to be able to get him

to Brownfield for a meeting. He holds degrees from three colleges, and has done graduate work in at least three others. Throughout his life he has been a constant student of the Word of God, and for the past 25 years has been a proclaimer of that word. He makes his home in Abilene, Texas, and spends at least 10 months out of the year away in Gospel meetings.

There will be three services daily during the meeting. At 7:00 each morning the men of the congregation and their guests will meet at the La Mecca Cafe for coffee and doughnuts, a short worship service and a practical lesson from Bro. Tant. At 10:00 a. m., each morning at the Crescent Hill church building there will be a service. This service will last for approximately 45 minutes. Then again at 8:00 p. m. each evening there will be an evangelistic service at the church building. The dates of the meeting will be August 19th through the 26th.

Does Con. Beckworth Know 'Em All?

Had a letter not too long ago from Rep. Lindsey Beckworth, of Gladewater, about the newsprint situation, as he is on such a committee. To be perfectly frank, we think the newsprint situation is sorer like Mark Twain was by the weather. Everybody talks about it, and nobody does anything about it.

Anyway, we appreciate any help the congressman can do. But it looks like the Canadian paper trust has US newspaper by the tail and a downhill pull on them. The newspapers pay whatever price the Canadian mills want. Incidentally he mentioned that our mutual friend, Virgil Crawford, local attorney, was a school mate and a dear friend. He also mentions Dewey Bishop, whose name is not really familiar to us, or Virgil.

He then tells us a whole raft of kinfolks that live at or have lived in Dawson, Dickens, Motley, Taylor and Nolan counties. Virgil C. says if Lindsey moves out here and runs for some office, he'll be 100 percent for him.

Terry County Service Officer
More About New NSLI "Service-men's Indemnity" Law

In the case of those servicemen who died as a result of service on or after June 27, 1950—and before the new law went into effect—the next-of-kin will receive \$10,000 in monthly installments—not in a lump sum—but they will receive \$92.90 for 120 months or for 10 years.

Next-of-kin or immediate family are the only one who may be the beneficiaries under this "free insurance"—and by next-of-kin it means paid to the widow, children, parents, brother and sister, in order given.

Any veteran otherwise eligible, who was in active service on or after June 27-50—and was discharged prior to the enactment of this new law—is eligible to apply for this non-participating insurance within 120 days after discharge.

This non-participating insurance may not be converted to any other plan—but may be renewed as term insurance every 5-years after issue—no act of Congress.

Here are a few questions with answers relating to this new insurance plan—Public 28.

Q—What about the serviceman who had (or didn't have) NSLI

ITCHY FEET PRESS DOWN ACCELERATOR

The safest person in the United States has an itchy foot again.

That little girl—the National Safety Council's perennial nominee for the mythical safety title—has moved back to New Jersey after a year's residence in Connecticut.

New Jersey recorded the lowest accident fatality rate in 1950, according to the 1951 edition of "Accident Facts," the National Safety Council's statistical yearbook.

A little girl must be the safest person, the Council thinks, because the safest age group was the 5-14 bracket, and for some reason little girls have fewer accidents than boys.

and was killed on or after June 27, 1950? How much of the free insurance will his next-of-kin get?

A—If he had \$10,000 in NSLI, his survivors will get the full \$10,000—if he had some NSLI—but not the full \$10,000—the government will pay the survivors the difference between his NSLI and the \$10,000 "free insurance."

Q—What about the serviceman who had converted his term insurance to some permanent type of NSLI before he was recalled to active duty?

A—If he has permanent insurance he can keep paying for it while he is in service with much smaller payments (the reserve) then when he gets out he will still have his NSLI permanent policy—but he will have to resume regular payments.

Q—What about men who are now in service, or who will be going into service in the near future, who have no NSLI—but who will be covered by the free insurance. What can they do when they get out about continuing some kind of insurance?

A—These servicemen can apply for NSLI term life insurance up to \$10,000 within 120 days after they get out—they can get this insurance without a medical examination—however, one major distinction between the present regulations and those that existed after World War II is that this term insurance which they can apply for under the provisions of the new law—may not be converted to permanent plan.

Q—What about the servicemen who are totally disabled in service? Are any special provisions made for these servicemen?

A—Certainly. For one thing, a man who is disabled in service to such an extent that he would be ineligible for normal government insurance, he will have one year in which to apply for and get this new term insurance. The law seems to indicate that if the disability would be 10 percent or more that there will be special provisions so that he can get any of the standard policies on a non-participating basis—this may mean permanent plans—no interpretation has yet been released by the VA—it is just a little confusing—however, those servicemen who are totally disabled will get government insurance up to \$10,000 free as long as they remain totally disabled—payments are waived.

EVEN THE SCIENTIFIC DOCTORS DISAGREE

It seems that quite some difference has arisen between a Doctor Aurelio Malaga-Alba of Mexico, and Dr. George W. Cox, Texas State Health officer upon the fact that the former has stated that South Texas faces invasion by rabid vampire bats.

Dr. Cox says there is only one known specie of the blood-sucking vampire bat, and it rarely comes north of the torrid zone. All other bats, he says, are harmless, insect eating winged mammals, and he never heard of one of either specie being infected by rabies.

Well, we hope the Texas doctor is right and the Mexican doctor way off the ball. While Terry is hundreds of miles north of the torrid tropic, we just don't want any of these blood-suckers from Mexico.

Sometimes we think all the racket over the hoof-mouth disease was a means of spreading a lot of Yankee dollars in old Mexico.

DID WORLD WAR II PUT CRIMP IN ARMISTICE?

Growing interest in observing Memorial Day as a holiday instead of Armistice Day, November 11, and the "victory" days is shown by a survey of West Texas cities just completed by the community services department of the West Texas Chamber of Commerce.

Sixty-six local chambers of commerce contributed to the survey.

Twenty-eight reported their towns observe Memorial Day while only twenty "close up" on

"Section 61a. The Legislature shall have the power, by general law to provide, subject to limitations and restrictions herein contained, and such other limitations, restrictions, and regulations as may be provided by the Legislature, to provide for the payment of assistance to, and for the payment of assistance to:
(1) Needy aged persons who are over the age of sixty-five (65) years; provided that no such assistance shall be paid to any inmate of any State-supported institution, while such inmate; and provided that any resident of the State, if otherwise eligible, may not be excluded who has resided in the State for five (5) years during the nine (9) years immediately preceding the filing of the application for such assistance including the one (1) year continuously immediately preceding the filing of such application; provided that the maximum payment per month from State funds shall not be more than Thirty Dollars (\$30) per month.

HEALTH TALKS

Prepared by the Texas Medical Association

It's usually only the first day of a visit from a houseguest with some sort of physical illness that prompts any question as to what to feed the visitor because in the course of a longer visit the guest will certainly outline the types of foods he is permitted to eat.
About the best basic diet when in doubt for the big meal of the day, whether it be at noon or at night, is to make roast beef and gravy, mashed potato and vanilla ice cream the core of the meal. Though there may be some who cannot eat those foods, of course, they would probably tell you so ahead of time.
For guests who may be anemic, suffering from the vomiting of pregnancy, ailing with gallbladder trouble, or known to have a number of allergies, that basic menu is generally considered good; the things that go with it will vary with the ailment, of course.
Anemia, the kind due to an iron deficiency, usually requires some type of extra feeding of concentrated substances to help overcome the deficiency. In addition to that, the food intake is aimed at a diet high in iron; the diet for iron deficiency anemia is not aimed at cutting foods out of the diet, but is aimed at including those special foods which will help overcome the anemia.
Liver and liver sausage, oysters, peanut butter, molasses, nuts, dried fruits, brown sugar, malted milks, dried beans and peas and such greens as beet greens, chard, dandelion greens, kale, spinach and turnip greens are the high-iron foods which are encouraged when you are feeding a person with that type anemia.
The houseguest who may be bothered with persistent nausea and vomiting during pregnancy will surely have received her own eating instructions from her doctor but to help her during the visit the general idea is based on frequent small meals, served without anything to drink. Liquids are usually taken an hour before or an hour after meals. And soda pops or carbonated beverages are sometimes better in this case than plain water.
Though the female guest who is troubled by this vomiting of pregnancy may eat most anything, it is usually best to outline a pro-

COOL SUMMER SALADS ARE MADE WITH CALIFORNIA BARTLETT PEARS

California Bartlett Pears — that versatile fruit that can be used in so many ways to make summer meals a pleasure—are now on the market.

Every year, homemakers enjoy the period when there is an abundance of this versatile fruit. First, be sure you have plenty of California pears on hand for snack eating. How the family will love them! (If there are youngsters in your home, you'll notice how it helps the cookie jar situation.) How good for them, too! Pears are ideal for snacks because they do not spoil the appetite for the next meal.
And they're so easy to keep on hand. Just store them in your refrigerator, and keep a few as a table centerpiece for between meals. Most of these pears will reach your market in a ripened condition, but if the ones you purchase are not fully ripened, keep them at room temperature for a day or two. You will know when they are ripe by the yellow color of the skin, and the way it yields to the gentle pressure of a finger.
California pears deserve the description "versatile" because they

gram which includes a snack between breakfast and lunch, say something like a bowl of cereal; and a sandwich in the middle of the afternoon; and toast and jelly, or cereal or an egg later in the evening; it adds up to three meals and three snacks a day.
When a guest is having "trouble" with her gallbladder she is usually on a pretty general diet, but fried foods and the foods that produce gassy bloating have been found to be best excluded from her diet. It would be best not to serve her rich desserts and pastries or salad dressing, oil, nuts, pickles, popcorn or gravy; roast beef is fine but when the trouble is in the gallbladder the gravy is out of the diet.
These vegetables that cause the production of gas in the intestines are dried beans, dried peas, broccoli, Brussels sprouts, cabbage, cauliflower, cucumbers, kohlrabi, onions, green pepper, radishes, rutabagas, sauerkraut and turnips.
It is always possible, of course, that there are other foods which a person in the best of health cannot eat and would therefore have to be eliminated also from the diet of that person when he has some ailment. Often such an inability to eat certain foods with comfort stems from an allergy and since allergic people are often dinner guests, too, it may help to know beforehand the types of foods which are considered common irritants.
In the broadest sense such a diet omits eggs, chocolate, nuts, pepper, and those fresh fruits and vegetables which are in season only part of the year. More specifically, the foods excluded in the dietary program for allergy run something like this:
All drinks that have caffeine in them, including coffee, tea, and colas; all breads made with eggs or nuts; all desserts containing chocolate, cocoa, eggs or nuts; salad dressings with eggs or pepper; such fruits as fresh berries or melons, in season only part of the year; fresh pork, fish and sea food; all fresh, except cottage

G. I. QUESTIONS and ANSWERS

Q—I am a regular GI Bill student, now on summer vacation. Will I be able to continue school this fall, even though I wasn't actually in training on the July 25 cut-off date?

A—Yes. A normal interruption for summer vacation would be no bar to continuing your training this fall, after the cut-off date. VA regulations state that generally a veteran must be in training by that date, unless his training is interrupted for reasons beyond his control. Summer vacation is such an interruption.

Q—Is it absolutely necessary to have an honorable discharge in order to get a GI loan?

A—No. A discharge or separation under conditions other than dishonorable is acceptable. This determination is made by VA in each case.

Q—My husband, a World War II veteran, died recently, leaving me to carry on a small retail business. I have a young daughter, and realize that, in order to qualify for a VA pension, my annual income must not exceed \$2,500. How do I compute the income from my business?

A—In computing the income from your business, you are permitted to reduce your gross income by necessary operating expenses, such as the cost of goods sold, or expenditures for rent, taxes, upkeep and the like. The remainder is your net income.

Q—I live in a small town miles away from any VA office or hospital, and I feel that I need treatment for a service-connected in-

Shapely Dorothy Hart, pretty new Warner Bros. star, makes a fetching picture in one of the glamorous new cotton lace swim suits. The Hollywood newcomer currently is being featured in "I Was a Communist for the FBI."

jury. Is there any way that I can get it without traveling to VA?

A—You may be eligible for treatment under VA's "home town" medical program. First, you must obtain VA's approval, and then you may be authorized to receive treatment from a physician in your own community, with VA paying the bill. Write to the nearest VA office for an application.

Sparks From Capitol

By Jim Sparks
P. O. Box 2312, Capitol Station, Austin, Texas

AUSTIN. — Crime news continues to be almost as hot as the weather in Texas.

Herber (The Cat) Noble, 58, self-styled retired gambler who lived through 11 attempts on his life, was blasted to death near Grapevine last week by a hidden land mine.

Earlier this year Noble told the Texas House Crime Investigating Committee that he understood there was a \$50,000 underworld price on his head. Dallas District Attorney Henry Wade told the Attorney General's conference on organized crime last March that the price was \$10,000.

In the anti-crime campaign by Texas governmental agencies, the role of the Texas Rangers, who celebrate their 127th anniversary this month, will assume increasing importance in the months ahead.

The Rangers, who operate as the state police, are engaged chiefly in the investigation of major crimes. Their services are available to local law enforcement officials. In the solving of murders like that of Noble and in raiding many places of vice, the Rangers are slated to take an increasingly active part in the

fight against organized crime.

According to the records, Stephen F. Austin organized the first company of Rangers, which consisted of 10 men and was commissioned in August, 1824. The Republic of Texas had a Ranger force before it had an army and a navy.

Col. Homer Garrison, director of the Texas department of public safety, is the head man in the Ranger force. The tall strapping Garrison has made a nation-wide reputation as an outstanding law enforcement officer.

According to the latest annual report of the Rangers, the force completed investigations in 12,636 cases, most of them involving major crimes. These cases included 327 murders, 1828 burglaries, and 1466 thefts. Gambling violations were the biggest category, however, with 3,786 cases investigated.

Mrs. Roger Hearne of Midland visited last week in the home of her sister, Mrs. Johnny Bowlin.

Mystery Queen Candidate Is ????

Carlton Brady, first candidate for Queen of the annual Harvest Festival, has an opponent, known as the "Mystery Candidate," and only those on the committee know who the charming young lady is that has been selected, according to Harmon Howze, chairman of the Queen committee.

The "Mystery Girl" was chosen by group 1 of the Rotary Club sponsors of the Harvest Festival. J. O. Gillham is chairman of group 1, and about their candidate he said, "She is one of the prettiest girls in Brownfield." Lots of tickets have been sold supporting their candidate, Gillham said.

Miss Brady was selected last week by group 2. Burton Hackney is committee chairman.

Group 3, headed by Clovis Kendrick, will announce next week the name of their candidate, who will be a member of one of the Terry County 4-H Clubs.

All members of home demonstration clubs in the county have been invited to attend a meeting at the home demonstration agent's office this afternoon at 2 o'clock, and the 4-H club girl to be named candidate will be selected at that time.

4-H CLUB GIRLS' RALLY NEXT MONDAY
The Terry 4-H Girls' Rally will be August 20, 1951 at the Pool school house.

The program will begin at 6:30 p. m. The 4-H boys and girls will have parts on the program. Everyone is invited to come.

Miss Gertrude Rasco Writes The Herald

Many here will remember Miss Gertrude Rasco, who taught piano from 1930 to 1943, a period of 13 years. She has been making her home with her mother at Memphis, Texas, since that time. A year ago, Mrs. E. C. Davis attended the Federation of Women's Clubs over there, and spent the time in the Rasco home. So delighted was Miss Rasco to hear of the people in Brownfield, and its growth, that upon return, Miss Davis had the Herald sent to her friend for one year.

The Herald had a long letter from Miss Rasco this week, enclosing the money for another year of the Herald. She has seen so many mentions of people dear to her, such as former pupils, and their progress. Also, the wonderful changes and growth that has taken place here since she left, with fine churches and school, business buildings and beautiful residences. Also, the addition of oil to add to the expansion and prosperity.

We hope that it may be possible for Miss Gertrude to make us a visit sometime, and witness the growth that has taken place since she left Brownfield only eight years ago. In the meantime, she wants her old friends to know she still remembers them with fond memories, and hopes for them all the good things in this life.

Only recently she and her mother and a niece made a long train journey to the Northwest, seeing the beautiful scenery in Colorado, Utah, Oregon and Washington and perhaps others. She states that it was well worth the expense of the trip, which was taken in easy stages, and not tiring.

Needless to state that Miss

Calves Needed For FFA And 4-H Boys

"We need calves for projects for FFA and 4-H Club boys to have ready for the Junior Chamber of Commerce - Fat Stock Show next spring," Lester Buford, vocational agriculture teacher and FFA advisor, said Wednesday.

The calves should weigh 400 to 600 pounds now. Buford added, and approximately 60 calves are needed, whiteface, angus, or any good breed.

Local banks, Brownfield State Bank & Trust Co., and First National Bank cooperate each year with the club boys in getting their calves, Buford said.

Gertrude renewed for her Herald for another year, and we hope she enjoys every issue, just as we shall enjoy sending them to her. She spoke of one authority on sir names, perhaps during her college days that was telling the class what each name meant, and from what it was derived, which when Rasco was reached, the professor stated that likely it came from the word "rascal."

We remember that a man named Rasco was closely connected with Al Smith when Miss Rasco first arrived here, and some of us kidded her by calling her Rasco. She took it all in fun.

WINS OFFICE ON RECOUNT
CENTRALIA, Ill. — (AP) — An election candidate finally won his office—two months after he apparently tied then lost by a coin toss.

Democrat Paul Drott won the toss for Brushy township highway commissioner in Saline county, Ill. But Republican Oval Hankins' demand for a court recount gave Hankins a one vote victory.

Foundation Chairman Appoint Gov. Shivers

Governor Allan Shivers has accepted the general chairmanship of the Gonzales Warm Springs Foundation committee of Texas for the third successive year, it was announced today, and will spearhead the fall campaign to provide additional facilities for the Gonzales treatment center, dedicated to the welfare of the thousands of physically handicapped children of Texas.

The Gonzales hospital of physical medicine and rehabilitation is state-wide in scope and since its founding in 1937 has treated patients from the majority of Texas counties. "Non-profit and non-sectarian, it accepts any Texas child, regardless of color, creed or financial condition, who can benefit from the treatment program."

In accepting the chairmanship Gov. Shivers pointed out that because of the pressure of his many duties he has been forced to reluctantly decline active participation in many worthy causes, but that the welfare of the crippled children of Texas was most close to his heart.

"The Gonzales Foundation must continue and enlarge its program for the benefit of our physically handicapped little ones," he said, "to the end that they become happy, useful citizens. We must provide a treatment center for our crippled children that is second to none."

ATTEND PARTY IN SEMINOLE

"Why Our Family owns 13 Dodge cars!"

"I was first in our large family to own a Dodge," says Frank Perrotti, Woodbridge, Conn. "But it didn't take long for the rest of the Perrotti family to follow suit. Yes, once they saw my Dodge, rode in it, compared it with the cars they were driving, they all began to swing over to Dodge. Today our family owns 13 Dodge cars and 11 Dodge trucks... and that's saying plenty for Dodge value and dependability."

You could pay up to \$1,000 more and not get all the extra room, riding comfort and famous dependability of Dodge

Once you get a taste of Dodge roominess and comfort... once you see Dodge bigger dollar-for-dollar VALUE... your good judgment tells you that here is the car for you and your family!

New Riding Comfort
Today you want a car that's built to last... one that saves you money mile after mile. And you want comfort, too. You want a car that protects you from bumps and jolts—even over back country roads or detours. With the new Dodge Onflow Ride, bumpy roads, ruts and chuck holes magically melt away. Wheels stay on the ground... no wheel "hep"... no back seat bounce. You literally "float" down roads that stop other cars!

Don't Take Our Word
Get behind the wheel. Feel the relaxing comfort of Dodge knee-level seats. Note the extra head room, elbow room and shoulder room. Sample Dodge easy handling, in traffic and on the open road.

Then judge for yourself. See if you don't agree that you could pay up to \$1,000 more for a car and still not get everything today's big Dodge gives you.

Feeling Is Believing! You sit and ride in comfort in a Dodge. None of that crowding in, cramped up feeling. There's loads of elbow room, plenty of stretch-out leg room and head room.

Spend Five Minutes. Save \$1,000! Come in for a five-minute "Magic-Mile" demonstration ride. Let us prove you could pay up to \$1,000 more and still not get everything Dodge gives you!

Rain Came But Was Rather Spotted

According to the USWB rain gauge, the rain cloud with quite an electrical display, but not much wind, registered 48/100 inch of moisture, Saturday a. m. Being out of town, we have had to make late inquiries, and found that there was practically no rain in south Terry, particularly the Union community. There was about 20/100 in east Terry.

But we understand that some in the west or northwest part of the county got as high as 2 inches. We heard of no hail in Terry, but some in Yoakum county, but we did not hear the extent of the damage. This rain was at the same time of the very destructive hail in east Hockley and west Lubbock counties.

Needless to say that much good will result from the rains where they had as much as a half inch or more. Two local farmers drove over the hail belt in the two counties mentioned Sunday. They reported that it was just as bad as painted by the newspaper and radio accounts.

They stated that the irrigated cotton, up near waist high, seemed to be hurt worse than the dry farming sections. This illusion was probably caused by the amount of stalks and leaves in the middles.

There was some rain, perhaps a half inch altogether that fell in the Lake Brownwood section Saturday afternoon, and again about 4 a. m. Sunday, that made it fine for sleeping. Very little rain after reaching Cross Plains and this side to just east of Roby, where water stood in the middles. No more till near Brownfield.

credit. One was A. D. Wenzel, and we're positive almost he paid in the spring. Also Henry C. Hicks, El Reno, Okla., who we remembered paid when he visited Brownfield in June. Mr. Hicks says that's the only mistake we ever made.

He also admitted that he made ONE mistake, once. Anyway, thanks for the confidence in our integrity, and both Wenzel and Hicks got proper credit.

LATHAM SELLING SOME GOOD PEACHES

Weldon Latham was in Monday with a pickup load of some mighty nice, well flavored peaches, of the Elberta variety, which grew on his farm in the old Lumsden ranch section of Terry county.

We did not ask about the amount of trees he had on the farm, but as he was selling them, evidently he had a lot more than they could make use of on the farm.

John E. Quattlebaum was recently transferred to the local USDA office, located in the basement of the post office building. He came here from Muleshoe, and is a graduate of Texas A. & M. College . . . and girls . . . he is not married!

Mr. and Mrs. Weldon McBrayer returned home Friday night after a two weeks' stay in Kerrville. Mr. Brayer, who will teach in the Lamesa schools this next year, attended a school for co-ordinators in distributive education while in Kerrville and the Mrs. went fishin'!
