

The Terry County Herald

Not Neutral—Not On The Fence—A Paper With An Opinion And A Purpose

Best Advertising Medium

The Herald subscription list is a splendid blend of town and rural readers, folks who can and do pay for their papers—they do not ask or want it donated to them. Many 30 and 40 year continuous subscriptions.

The Herald has grown with this section from strictly a ranch country. This area now consists of thriving towns and cities, supported by scientific farming and stock farming, augmented by huge oil fields, with the nation's largest known oil reserves.

Five More Candidates Announce For Office

Lang Get In Race For County Judge

County Judge Leonard Lang authorized the Herald this week to announce his candidacy for County Judge, subject to action in the forthcoming Democratic primary.

In announcing his candidacy, Judge Lang said, "I have served in the capacity of County Judge for about a month since my appointment and have satisfied myself that I can adequately handle the office. Because of this and numerous requests from friends that I do so, I have decided to announce myself as a candidate.

"My policy will be to be fair and honest, and I will attempt to equal or surpass the high standards of county administration former Terry county judges have set.

"Your vote and influence will be appreciated."

Frank Jordan For County Judge

Frank Jordan announced Monday that he would be a candidate for the County Judge's office, subject to the Democratic Primary in July.

Mr. Jordan stated he would make an active campaign and try to personally see each voter in Terry County.

"In asking for the office, I am not unmindful of the responsibilities entailed, and if elected, I shall put forth every effort to handle your affairs in a fair and impartial manner, and to give you a good sound business administration, and will endeavor at all times to conduct myself and the affairs of the office in such manner that the credit will be reflected to you the voters to whom the office belongs.

"I will appreciate your support."

FRANK JORDAN

Morton Seeks Job As Commissioner Prec. 4

Charles H. Morton Wednesday authorized the Herald to announce his candidacy for County Commissioner of Precinct 4, subject to action in the Democratic Primary.

In announcing himself as a candidate, Morton said: "I've lived in this precinct for 24 years and feel like I pretty well know what needs to be done as well as capable of doing it.

"I'll try to treat everybody alike and get the job done. Your vote and influence will be appreciated."

R. G. Nutt Suddenly Dies of Heart Attack

As we prepare to go to press, we learn with regret that R. G. Nutt Sr. died suddenly of a heart attack at 5 a. m. Thursday. Mr. Nutt, 63, lived in south Terry, and was regarded as one of our best citizens.

Funeral arrangements have been set for 2 p. m., Saturday, at the First Christian Church, with the Pastor, Rev. Homer Haislip, officiating. Brownfield Funeral Home in charge of arrangements. Masonic services at the graveside.

Survivors are his wife, two sons, R. G. Jr., Rt. 3, city, and James L. of Lincoln, Neb. Three daughters, Mrs. Homer T. Sudderth, Tokio; Mrs. Willard Townsend, Ukiah, Calif.; and Miss Wanda Jean, at home.

Educational Director Calls on Herald

Mr. Thomas C. Handley, with the title of Distributive Education, Teacher Coordinator, was a pleasant visitor in this office Monday. He has been working with the local schools for some time in the high school department.

Beginning this week, Mr. Handley will have a series of three articles about our high school, running over the next three weeks. We ask the readers who are interested in better schools, to read these articles.

Public Weigher's Pay More Than Governor's

Down in a little village of O'Brien in the northwest part of Haskell county, there is a public office that five are seeking this year, and others thinking of tossing in their fedoras. It is the office of Public Weigher of that precinct, and it paid around \$20,000 last year, despite a short cotton crop.

Yeah, the job, that requires about four or five months of a man's time, along with some help, paid more than Governor Shivers' office. You see he gets 60 cents per bale for each bale he weighs. Outside of that, he gets all the loose cotton, which amounted to 100 bales last year, and that's not chicken feed.

Presently a man by the name of Cox is the weigher, and he is quitting. So, two of his sons-in-law, plus a nephew, as well as two other men, are after the job.

Respectfully,
DOYLE UPTON.

Advertise in the Herald.

Settle Announces For Com. Prec. 3

I would like to take this means of announcing as a candidate for Commissioner of Precinct 3.

I feel I am qualified to fill this job, and if you see fit to elect me, I will do my best to serve you in an efficient manner.

I will strive to see each voter between now and election time.

Your vote and influence will sincerely be appreciated.

DOCK SETTLE

Upton Gets in Race For Commissioner

I wish to take this means of announcing as a candidate for the office of County Commissioner of Precinct No. 2, of Terry County.

I have lived in Terry County for the past 30 years. I have had about 2 1/2 years experience in building roads in Precinct 2. I would like for the people who do not personally know me to check my record as a citizen of Terry County. I feel qualified to make you a good Commissioner.

Will see as many of you as possible before election time. Your vote and influence will be greatly appreciated.

Respectfully,
DOYLE UPTON.

WANT MORE RAIN? MASS MEET TO DISCLOSE PLANS

One of the outgrowths of this atom-juggling, rocket-driven age is the attempts of man to exert varying amounts of influence upon, if not outright control, of the weather. At least two methods now being used in trying to increase the amount of rainfall in a given area will be discussed at a mass meeting to be held at the district courtroom on Tuesday night, February 19, at 7:30 o'clock. The meeting is being called by the Terry County Farm Bureau.

Sam Allen, Lamesa, Farm Bureau President of Dawson County, and R. J. Purtell, local farmer-business man, will discuss the methods being used by the Krick Weather Service of Denver, Colo., with apparently gratifying results in many instances in many sections of the west.

Jake Fulford, who with Purtell, C. H. Johnson and Herman Wheatley, attended a similar meeting at Lamesa Monday night, stated that the purpose of the Tuesday night

meeting would be to determine the attitude of Terry County farmers and all other interested citizens toward the project and to elect two representatives from the gathering, who in turn will report their findings at an area meeting to be held in Lamesa on Thursday night, February 22.

In announcing the meeting, Fulford emphasized the fact that the Farm Bureau, as an organization, would take no further steps in the movement other than the calling of the meeting, and that contracting for the service would be carried out through the organization of an entirely independent non-profit association which will deal with the Denver company.

Mr. Fulford also pointed out that the Krick Weather Service did not make any claims of making rainfall from out of a clear, blue sky, but rather, to increase the amount of precipitation when conditions are favorable for receiving rainfall. In this connection it should be remembered that this project was carried on in several North Panhandle counties last year, and these counties—whether by coincidence or otherwise—received more moisture than did the great majority of South Plains counties and the two sections ordinarily receive about the same amount of moisture in the summer months.

This meeting, while primarily of interest to farmers, it is hardly necessary to point out that every Terry County resident, whether he numbers his holding by the section or if he doesn't even own the sand that gathers on his window sill, depends directly upon agriculture for his livelihood and every adult person in this county is urged to be present at the district court room Tuesday night.

'52 De Sotos Displayed At Jay Jones Motor Co.

Currently on display at Jay Jones Motor Company, 1019 Lubbock Road, is the sensational new De Soto for 1952. Showing is to continue through Saturday and on Sunday from 1 until 5 p. m.

Outstanding among the numerous new features for the new De Soto is the top-performing 160 horsepower Fire Dome V-8 engine, a power plant developed as the result of more than seven years of intensive research.

Heart of the engine is its hemispherical combustion chamber. The dome-like shape of the chamber gives the new engine its name of Fire Dome V-8.

Long life and great durability of engine parts are assured in the De Soto Fire Dome V-8. Low piston speeds, resulting from the short stroke, greatly reduce cylinder bore and piston ring wear. Controlled distribution of the cooling water results in uniform operating temperatures throughout the engine.

Other noteworthy features of the new line include Power Steering, Power Brakes and Electric Window Lifts. The Air-Vent Hood directs air to the carburetor, resulting in increased engine power.

A conventional three-speed transmission is standard equipment on the new Fire Dome Eight models. Available as special equipment are the Tip-Toe Shift with Fluid Drive, which for many years have made De Soto "the car that lets you drive without shifting," and a new Tip-Toe Shift with Fluid Torque Drive, a combination of the automatic transmission with a new hydraulic torque converter.

The personnel of the Jay Jones Motor Company extends a cordial invitation to the people of the area to call by and see the beautiful, revolutionary new line of De Sotos.

Deputy Collector to Come to Brownfield

We have been notified by the Internal Revenue Department at Dallas, that Ray W. Allen and J. J. Sloan will be at the Terry county courthouse on the second floor, on Monday, Feb. 25, from 8:30 a. m. to 5 p. m., to assist those who wish such assistance, in making up their income tax reports.

The law does not require this aid to be rendered, but the Revenue Department wishes to be of whatever assistance they can. So, if you need such assistance, it would be a practical idea to meet these men on the day they are to be here.

Delegates Named to State Education Meet

Brownfield delegates to the statewide Distributive Education Convention in El Paso, February 22-23, were named by the Brownfield Distributive Education Club, Mr. Thomas Handley, teacher-coordinator announced.

The delegates are Dorothy Albert, Sidney Allen and Jerrel Rowden. Mr. and Mrs. Handley will accompany the group to El Paso.

One hundred twenty-six clubs from over the state will be represented by delegates at the two-day meeting at the Cortez Hotel, Mr. Handley said.

Featured attractions for the convention are bus tours of greater El Paso and Juarez, Mexico, with a luncheon in Juarez. Tours of El Paso business firms will be made during the afternoon of February 22. The evenings entertainment includes a banquet, coronation of the state sweetheart, floor show and dance. Dr. Walter R. Willis, who toured Europe last summer, will be banquet speaker.

Delegates will be named at the state convention to the national convention, which will be held at Wichita, Kans., in April, Mr. Handley said.

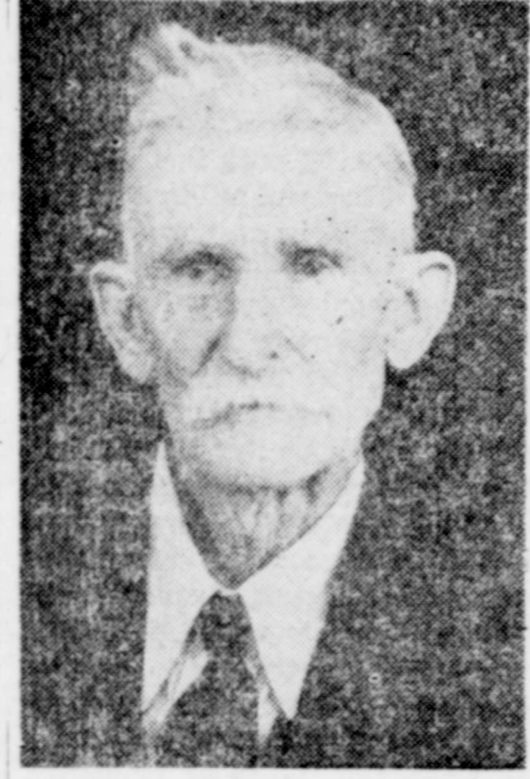

Dust Storms Bad Again Tues.-Wed.

Dust storms were again bad this week over west Texas. It is becoming so dry that the least wind will stir up a fog of dust, and when winds get up to 40 or 50 miles per hour, it really gets blinding. While the storms of early this week were bad here, we believe Wednesday was worse than Tuesday, here.

But from newspaper reports, as well as private ones, Tuesday was a humdinger from Midland east to Abilene, especially. One fellow stated that highway 80 had drifts 3 or 4 feet deep in places, and that he decided to leave the road at Stanton and turn north.

Reports were that great piles of sand and dirt obtained on that road as far east as Abilene.

Uncle Jimmie Reaches His 96th Year

Uncle Jimmie O'Connor

That grand old man, Uncle Jimmie O'Connor, who probably has more friends than most any one, celebrated his 96th birthday February 6th. The Herald wants to be among the hundreds of others who wish for Uncle Jimmie many happy returns of the day. Uncle Jimmie as well as his late wife, originated up in middle Tennessee, at a little town called Sparta, and he is a true Spartan.

This couple reared a mighty fine family of boys and girls. But they set an example before their children as they grew to maturity. They did not just send their children to church and Bible school; they went along with them. And in the home, examples of righteous living was practiced. God was always glorified.

Therefore, their children were brought up in the way they should go, and they will not depart from it, according to the old Testament. Mr. and Mrs. O'Connor brought their children into this world, and they always felt that they were responsible for their upbringing. That the public school and the Bible school were just secondary helps.

Anyway, three of the children were able to attend, being Mrs. Nannie Hamilton with whom Uncle Jimmie now lives, J. L. O'Connor of Moberly, Mo., Mrs. S. L. Rogers of Amarillo. Also a sister, in-law, Mrs. Jim Camp of Pecos. And there was a party too. Not only because the honoree is well liked, but also because few people become nonagenarian.

This was what is called a come and go party, and the short callers were served coffee. Mrs. Roy Collier helped with the serving. Uncle Jimmie received cards from Tennessee to California. Old friend, may your good example of Godly living go on and on.

Two New Producers, Three New Locations

Nothing exciting in the oil business in Terry and other nearby counties the past week. However, three new locations, two of which can easily be termed wildcats, have been made in the last week, as follows:

A Midland drilling concern will try a location to be known as No. 1 Laura Cotten, 3 miles southwest of Wellman, a 10,500-foot test, at once. Wildcat.

York & Harper, Inc., will make a test on the C. B. Townes holdings, 7 miles north of Tokio, at once. Depth not stated. Wildcat.

In the Adair field, some 12 miles south of Brownfield, a rotary rig will be put down a well to the Wolfcamp formation, on the R. W. Carter holdings known as Carter No. 4. This cannot be termed as a wildcat, as several other wells are in that vicinity.

New Producers

In the Adair field, the Amerada Co. has finished the 4-A Carl Golden, at 8,535 feet. The well tested 509 barrels of 41 gravity oil, plus 3 per cent water daily.

And in the Wellman field, the Magnolia Petroleum Co. No. 7, Harmon Scales, finished this well at a total depth of 9,841 feet. The well flowed 313 barrels of 41 gravity oil on a 24 hour test.

Second completion for this week in the Wolfcamp-Adair field 12 miles south of town, was the Amerada Petroleum Co. No. 3 Elmer Miller. This well flowed 484 barrels of 42 gravity oil in a 24 hour period.

Looks like the Anderson-Prichard Oil Corp., has another good one in the Gladys Scales No. 6, north edge of the Wellman pool. A test at total depth of 9,890, flowed 81 barrels of oil in the one hour test. Should be finished as a good well.

Advertise in the Herald.

Deputy Collector to Come to Brownfield

Dust Storms Bad Again Tues.-Wed.

Social Security Man Coming February 20

Please Call and Get Your Nameplates

The following name plates were received this week from the manufacturer: H. M. Neely, H. H. Harris, A. A. Slaughter, Ben Floyd Kennedy, Leon Saffell, J. D. Howard and C. D. Caswell.

Also being held, and the names published several weeks ago, are: D. A. Lowe, W. P. Forbes, L. R. Riney, Bob Simmons, Jack Browder.

ONLY 2 STATES EXCEED SOUTH PLAINS IN COTTON

Only two states other than Texas, exceed the cotton production of 20 South Plains counties. They are California with 1,660,999; Mississippi with 1,576,069, ginned up to January 16. At the same time, the 20 South Plains counties had ginned 1,230,253 bales. Texas

had ginned 3,961,412 bales, far in advance of the 2,841,439 produced from the 1950 crop.

The value of the cotton ginned from the 1951 crop on the South Plains was estimated at over \$221,000,000. Thirteen of the cotton producing states ginned less cotton than these South Plains counties. Five of these counties ginned more than 100,000 bales. Two highly irrigated counties in south Texas produced more than 200,000 bales, being Hidalgo and Cameron.

Chesshir Is New Head of C. of C.

At the annual banquet of the Brownfield Chamber of Commerce held at the Esquire Restaurant last Tuesday night, it was announced that Herbert Chesshir, local automobile dealer, had been named to head the organization during the coming year. Chesshir succeeds Harmon Howze, outgoing president. Other new officers are James Harley Dallas, first vice president, and Ernest Latham, second vice president.

An estimated crowd of over 200, including many out of town visitors, heard Secretary of State John Ben Shepperd decry the present waste, inefficiency, corruption and socialistic tendencies in government and attribute these conditions to the apathy of the voters.

New directors, in addition to Chesshir and Dallas, are Harry Cornelius, Kenneth Purtell, W. R. McDuffie, Curtis Sterling, Vernon Townes Jr., and Wayland (Monk) Parker. Hold-over directors are John J. Kendrick, Joe Shelton, Bruce Zorns, Murphy May, Howze, Latham and Virgil Travis, outgoing vice president.

After the invocation by Rev. Homer Haislip, pastor of the First Christian Church, dinner music was provided by Mrs. Ruth Ramseur. Special music was offered by a trio composed of Mrs. Grady Goodpasture, Mrs. Newell Reed and Mrs. Bill Cope.

Ginnings for the area were announced as follows:

County	1951-52
Bailey	41,877
Briscoe	12,496
Castro	14,836
Cochran	48,741
Crosby	103,513
Dawson	58,428
Dickens	36,419
Floyd	38,700
Gaines	11,708
Garza	9,913
Hale	143,474
Hockley	137,450
Kent	7,966
King	4,639
Lamb	119,200
Lubbock	193,455
Lynn	93,874
Motley	22,457
Swisher	14,430
Terry	66,627

Totals 1,230,253
Total ginnings for these same counties for 1950 crop was 712,961.

Kendrick and Wife Vacation in Mexico

Over at the First National Bank, last week, we were told that Vice-President Johnny Kendrick and wife were down in Old Mexico on a winter vacation. He was expected home next week.

President Dick McDuffie stated that Johnny had a hard fall's work, while the cotton and grain crop was being gathered. Mack advised Johnny to take his wife for a vacation, and get some needed rest.

Mr. and Mrs. Kendrick, we learn, have been spending the greater part of their time at Vera Cruz, which has a great bathing beach and resort center. Most of this week will be spent in Mexico City and environs, before they start home about Saturday.

ACCEPTS POSITION AT NELSON JEWELRY

Fred R. Nicholson, son of Mr. and Mrs. George W. Nicholson, is a new employee of the Nelson Jewelry.

Nicholson is a graduate of the Midwestern University of Horology, the largest school of watch-making in the southwest. He is married and has one daughter, Judy, age 5. His wife, Margie, is employed at Jewel's Beauty Shop.

With the addition of Nicholson, the Nelson Jewelry is now in a position to give three-day service on all watch repairing.

Reef Hit In The Lee Lyon Well

H. L. Holleman, a neighbor of Lee Lyon, was in Wednesday and was asked what had happened, if anything, in the oil well on the Lee Lyon farm. This is southeast offset of the Wellman pool, and not very far from some of the Scales wells.

Mr. Holleman stated that he understood the drillers had hit the reef a bit low, and he understood a test was being made that day. No lower, he stated, than some of the Scales Wells. So, maybe some kind of producer, we hope.

Coal deposits are generally found in mountainous and upland regions.

 - For Commissioner, Precinct 3: LEE BARTLETT, DOCK SETTLE
 - For Commissioner Precinct 4: H. R. (Horace) FOX, ALFRED L. TITTLE

Sawdust can be used as an effective mulch around shrubs or can be worked into the soil for flowers.

An Editorial
 By O. H.

We believe we stated in an editorial last week that we would give our outlook among the Democratic presidential hopefuls this week. We spent some time and space on the GOPers last week, and it is our opinion that Taft will have a tight squeeze if he gets by at all, but we believe that Gen. Ike can trim most anyone the Trumanists offer. First off, we admit that our opinion may not be worth a plugged dime, but we like to surmise. Personally, as regrettably as we make the statement, Harry S. has the inside lane as the nominee, and a full length ahead. And he is running, no matter what you hear to the contrary—has been running ever since his inauguration three years ago. Harry is not half done spending money and busting the nation. And all and sundry that call themselves Democrats north of the Mason-Dixon line are for him. Many of their jobs depend on him, and his policies suit a lot of others—elect and spend, spend and elect. So, we'll just put HST in the saddle and let it go at that. Then there is Kefauver of Tennessee, the con-skin candidate. This gentleman is a good man, we believe. The only question is, does he go along with most part of the Truman administration, or will he stir a different course? Many, many honest people believe he will tract the main ideas of HST if it were possible to elect him. As for Vinson, Douglas and Stevenson, they are hardly known outside their own states,

and really they would not have a good chance of winning as Taft. No one knows this better than Truman and his cronies. As for Byrd and Russell, they are fine men, and we could vote for either with a clear conscience. We believe they not only represent the best traditions of the true Democracy of the South, as it has existed since Jefferson, but that either would set their feet firmly down on any kind of people the leftists, pinkies and others in the Northern party would support. They don't want a straight out honest administration. Most of them want to get the boodle while the getting's good. The writer smelled a mouse pretty strong four years ago. We remembered where and how the leader of the ticket originated and got in power. That he came from the most corrupt district and city in the USA. As a citizen with a distaste of corruption, we could not stomach Mr. Truman, and our aversion is even worse the further he goes. Many good people voted in 1948 for HST, with their fingers crossed. They and millions of others are disillusioned now.

Many people, even those who have no connection with the Price Stabilization setup, are fast becoming convinced that the bureau is even worse than the old NRA of the War II era. It appears that none of them really know what it is all about, and if unfortunate guys trying to comply don't understand, and guess wrong, it is just too bad. They have to take a chunk of cussing, and like it or go to grass and eat mullen. Down at Andrews, the News printed a mess of the trouble the service station men are having with the setup. In the first place, according to the News, one guy came down from the Lubbock office, and met with the service station operators, and after a brief talk, bawled them out, and left, stating that another man would come and explain matters. This bureaucrat himself had to hike out for the north Plains. They now only draw a salary, but get a good wholesome mileage fee; the more the travel, the better the pay. So, in a few days, another man came, bawled the operators out, and said the first man should have explained the matter to them in the first place. Then he too, left. Well, if

these smart fellows do not understand the business they are supposed to run, how do they expect others whose business is not in that line, to understand them? Every few days a revision of the one that came out a week or so before. But the bosses that go out on the road like to show their spread eagle authority. If you ask us, we are getting more and more in the Bolshevik furrow every day of our lives, and only a change up at Washington will prove any relief. A clean sweep of the whole setup is needed.

The powers that be up on the Potomac are following the precept of their hero, Karl Marx, who way back adopted that ten-plank platform to rid the world of free enterprise and capitalism. Of course, in the long run, there will be no incentive to create any wealth, or to have anything above a bare living, but that is what the Communists are working for. People with nothing but their brown hands are easy to control. They are slaves to start with. But the No. 1 item read: "A heavy progressive or graduated income tax," and No. 2: "Abolition of all rights of inheritance—that is, a 100 per cent inheritance tax." There you have the opinion of the Commie discoverer on the line. In the higher income brackets, 92 per cent of the income is already taken, and still climbing. An 22 per cent of the incomes of \$2,000 or over is taken by Uncle Santa to distribute to the world. When they get nearly all the income, it is nicely designated as "excess profit." But such taxes are becoming burdensome, and for that reason people are demanding that a constitutional amendment be submitted to the people limiting the income tax take to 25 per cent. John Marshall was a wise and true American, and he said a mouthful when he stated, "the power to tax is the power to destroy."

A great change has come about since the writer and many others our age went to school. If one had mentioned educational co-ordination back in the gay nineties, if you wish to call them gay, no one would have understood what you were talking about, unless it be the teacher, and perhaps not even that person. You just went to school, and you took chances maybe among some 75 or 80 other youngsters between the ages of 7 and 20. There was no such thing as grades. If someone asked you about your studies, you told them

you was in the second or third reader, as the case might be. You might, after reaching the fourth grade or reader, be pretty efficient in reading, spelling, and perhaps arithmetic. But maybe you would be as ignorant of history, geography or language as a cow. Some of us that age were still very efficient in "Harry's Grammar." Let us state for your benefit that Harry was an ancient but highly respected Negro citizen. His only failing, if he had one, was the use of big words, many of which he himself did not understand. But he would use them in preference to smaller words that both he and his audience could understand. So, when a man used a big word, if the other party knew him, would refer to it as "Harry's Grammar." This was a gentleman called on us who stated that he was the "Distributive Education and Teacher-Coordinator. Of course we understood just what all those words mean. But we could not help but hark back just a bit more than a half century ago to that haphazard process in teaching then in vogue. Just what this additional adjunct to the teaching profession helps, we are not prepared to state. But aside from a little three months summer term, after the crops were laidby, and maybe a short two months "subscription" term in the winter, that was the duration of the year's schooling. Of course, if the crops were poor in the community, that winked the winter "subscription" term out, as there was no tax money. In the same community where the writer read, rited and rithmeticked, the kids now go to the 9 months term by bus in town, that carries them to a full, graduating senior student. The world do move.

Oil Industry Spends \$15 Billion on Expansion
 The U. S. oil industry has spent over \$15 billion since World War II for new facilities and development of existing ones, making it possible to meet the growing needs of our civilian and defense economy. This has meant an expansion of from 30 to 50 per cent in all phases of the industry. Most of the capital expenditures came from earnings which were plowed back into the industry.

Keep a small first-aid kit and sewing kit in the glove compartment of your car when you start on a vacation motor trip. A supply of cleansing tissues and a thermos for cold drinks also will be useful.

G. I. QUESTIONS and ANSWERS

Q. I am taking a correspondence course under the GI Bill, which I hope to finish soon. Would I be permitted to sign up for an advanced phase of the same course, also under the GI Bill, even though the 1951 cut-off date has passed?
 A. Yes. But you must submit your application to VA for the advanced course before you complete your present course.

Q. I am a truck driver, and I lost my leg in the Korean fighting. When I apply for disability compensation, will my payments be higher than they'd be if I'd have been an office worker, for example, who could go back to his job even though he had a leg missing?
 A. No. Generally, disabilities are rated on the basis of average impairment of earning capacity resulting from such injuries in civil occupations. The rating schedule does not take individual occupations into consideration.

Q. I am a paralyzed veteran, entitled to \$120 a month pension because I need constant aid and attendance of another person, in order to get about. Must that other person be a nurse, or could it be someone in my own family?
 A. That person need not be a nurse. It may be any person, including a member of your own family.

Q. I'm a Korean veteran, hospitalized for service-connected disability, and I'm now awaiting my final discharge. May I apply for vocational training available to Korean veterans?
 A. Yes. Members of the armed forces hospitalized while awaiting final discharge may qualify for the training provided they meet all requirements. They may not receive subsistence payments, however, prior to actual discharge or separation.

Q. May I obtain a GI business loan to expand a business in which I am already engaged? Or must the business loan be used to enter a new business only?
 A. The loan may be used in either way—to expand an existing legitimate business venture, or to start a new enterprise.

Mold fresh pear halves in a gelatin base made from fresh lime juice for a fresh-tasting salad. Serve on salad greens with a dressing made from half mayonnaise and half sour cream. Be sure to color the gelatin with a few drops of green food coloring.

You need more than elbow grease!

It takes a lot of elbow grease to be a successful farmer. But that's not the only kind of grease you need! Recommendations for lubricating tractors and equipment specify a lot of "greasing"—every day in many cases, sometimes twice a day. It's a good idea to follow these recommendations to the letter; they save break-downs, keep your equipment in the field. And it's a better idea to use Humble greases; they're farm-tested in Texas—they meet Texas conditions. I'll welcome an opportunity to make specific recommendations for every piece of equipment on your place. Stop by to see me in Brownfield next time you're in town and talk it over with me.

It looks like a "POWER YEAR"
 New Horsepower—new Brake Power—and new Power Steering blossom on Buick's ROADMASTER for 1952

MAYBE you've heard—horsepower has hit a new high on the ROADMASTER. Brake power has done the same. But today, we'd like to concentrate on the third member of the power trio—Buick's own version of *Power Steering*, available on ROADMASTERS at a moderate extra cost. What is this Power Steering like? It's something like a helping hand, something like a "hydraulic slave"—that relieves you of all steering strain, but lets you keep command. What we mean is this: Power Steering is handled by a special hydraulic unit—and engineers can design this unit to take over any amount of steering effort—even to a point where the wheel seems to float in your hand. But in that case, you'd surrender all control to that hydraulic unit—get no steering "feel" from the wheel. Now suppose you're telling two agile tons of automobile what to do in traffic. We think you'd like to have it know that you're in command. And—out on the straightaway—we believe that a part of the joy you get from owning a Buick is the sensation of having something alive and eagerly willing beneath your hands. So we're glad to announce that Buick engineers didn't spoil this thrill. They've kept the fun of driving, and simply eased the effort. When you're rolling along smooth and straight, it takes almost no effort to keep any Buick on course. It almost steers itself, as every Buick owner knows. But—when you want to get away from a curb

—back into a parking spot—make a turn—Buick's Power Steering comes into action, saves four-fifths of the effort required with ordinary steering. Power Steering does the extra work. And—in case you wonder what happens if Power Steering gets out of kilter, the answer is *nothing*. Your Buick steers just as it always has. That's why we've been saying, "This is Power Steering as it ought to be." Come in. Try it out. We think you'll agree. Equipment, accessories, trim and models are subject to change without notice.

Sure is true for '52
 When better automobiles are built

**Fire Prevention and Civil
 Defense Go Hand in Hand**

Fire prevention is an important part of civil defense. If an enemy attacks this country, his bombs, whether they be atomic, high explosive, or incendiary, will cause more damage by fire than they will by blast. Hence, anything done to make it hard for fires to start is a step towards preparing your community to protect itself if war comes.

The majority of all fires start in chimneys. Others are caused by rusted or cracked pipes and fittings. Look over your heating system now. If your chimney needs it, clean it out. If the furnace pipes and connections are cracked and rusted, replace them.

Teach your family not to put magazines, papers, or clothing on radiators or near open flames. Don't hang flimsy curtains near your kitchen stove. Don't allow lamp shades to come in contact with light bulbs. Remember that such things don't have to touch flame to burn. They will catch fire simply because they are too close to the heat for too long.

Gasoline, benzine, naphtha, and similar fluids should never be used indoors. When mixed with air, their vapors can be ignited by the spark of a light switch or an electric fan, or the tiny flame of a pilot light. Keep such fluids in tightly closed metal containers outside your home.

And remember: oil-soaked rags, especially rags that have been used to spread quick-drying liquids such as turpentine, paint thinners, and some furniture polishes, can catch fire by themselves. Oily rags should be stored in air-tight metal containers. It is best to keep them outside the house.

Every winter costly fires are started by faulty furnaces, stoves, and other heating plants. Some result from too much soot in

"Clean Buildings Seldom Burn"

Chimney and roof in good condition?
 Attic a junk pile?
 Stairs or halls cluttered?
 Wash and rubbish near your house?
 Electrical circuits and fixtures OK?
 Is your basement a fire hazard? Open paint or oil cans?
 Paint rags? Shavings near work bench? Fuel within 3 ft. of furnace? Piled up paper and rubbish?

**Make A Splash
 With Petunias**

COLLEGE STATION.—Petunias are high-fashion this spring with their wide, frilly skirts and vivid colors. Beds of petunias brighten the outdoor living rooms. Flower boxes and borders can be colorful all summer by planting one or two packets of seed. If the flowers are gathered regularly they will continue to bloom in spite of heat and moderate drought.

Sadie Hatfield, homestead improvement specialist with the Texas Agricultural Extension Service, suggests that the plants be started in flats in which there is a mixture of equal parts of compost and loam soil. This will save 30 to 40 days growing season. When the plants are two to three inches high they may be transplanted into other flats with a spacing of four inches, or they may be put into small pots. After the danger of heavy frost is over the plants will be ready to put into flower beds. If it is not practical to grow the plants it is likely that the local florist will have them.

The color range of petunias is from white through rose into deep purple. When you buy seeds or plants be sure to get the colors you want.

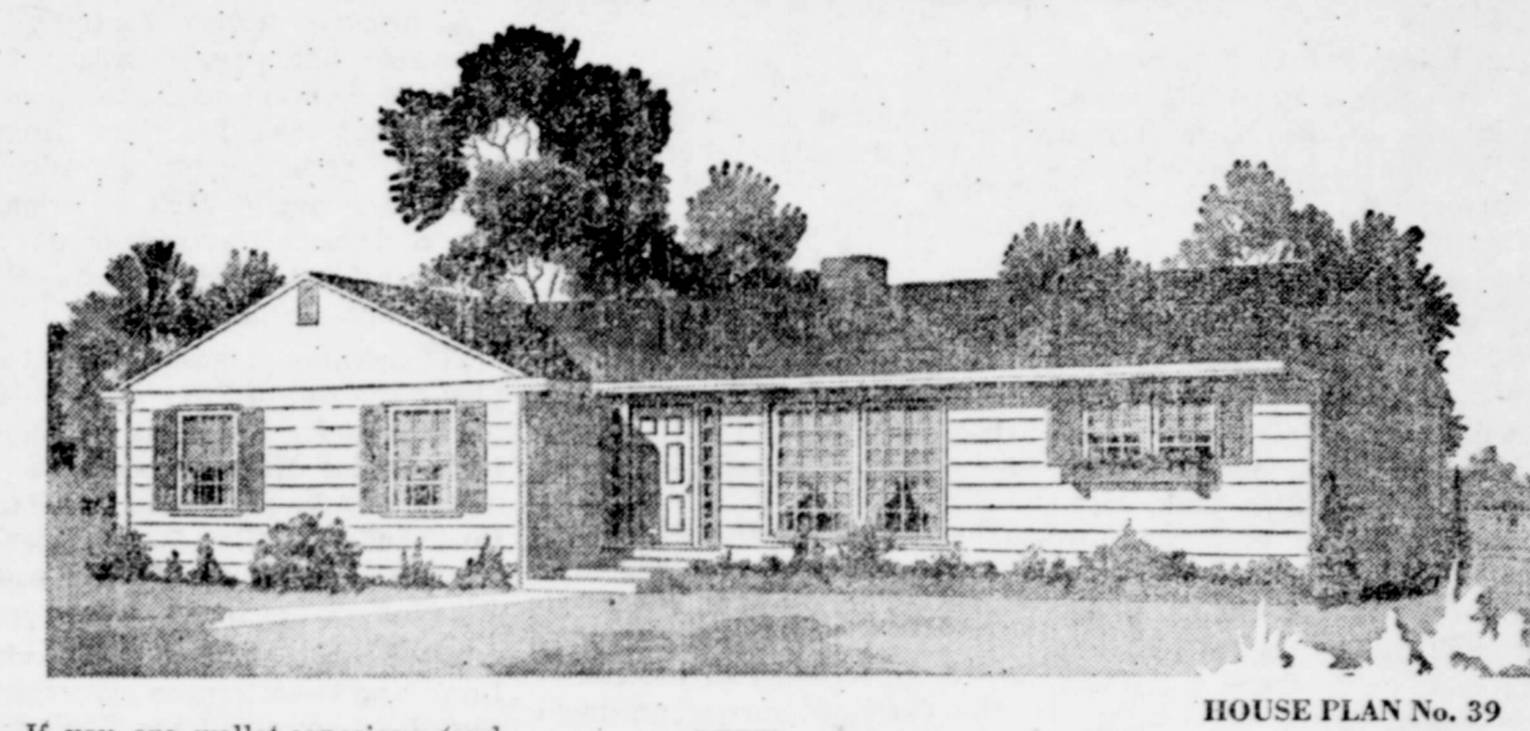

The new varieties are easy to grow. Miss Hatfield recommends the new large red single petunia for window boxes or hanging baskets. The double hybrids with ruffled petals are especially showy for flower arrangements.

HOUSE OF THE WEEK

In this space, you'll find "The House of the Week" with full descriptions. This series is made possible by area firms listed here... See them to help you with your Home Furnishing Problems.

INTERESTING MODERN

HOUSE PLAN No. 39

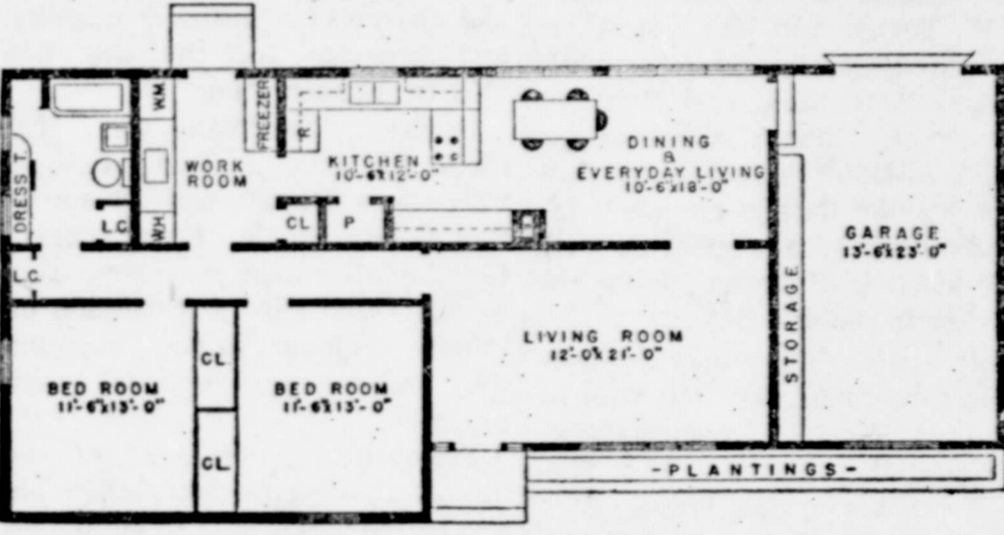

If you are wallet-conscious (and who isn't, in these days of high taxes and higher prices?), now more than ever you will insist on getting the most space and comfort for money you invest in a new house. And we have something that may appeal to you.

The workroom—kitchen—everyday living room arrangement in Farm & Ranch House Plan No. 5139 is the result of suggestions made by homemakers who sent us ideas for dream houses. They wanted space where they could serve meals and where the family could relax without cluttering up the kitchen. This area will be easily warmed, and it is an excellent "study hall" for the school children. Mother can keep a watchful eye on the little children playing in this area without stopping her work.

The bedrooms appear spacious because of the usable wall space, obtained by placing large windows in the front wall. By placing the doors opposite the windows, plenty of cross ventilation is possible.

There is an unusually large amount of closet space because the closets serve as the partition wall between the bedrooms. These can be built either with 3-inch walls or by simple use of 3/4-inch plywood cabinet construction and sliding doors.

One chimney can be made to serve both the living room and kitchen area by the use of two flues.

Not many houses have the plumbing in such a compact area as does this one. The simple lines will make framing unusually easy and will hold cost to a minimum.

You can obtain blueprints for this TERRY COUNTY HERALD Farm & Ranch House Plan No. 5139 and a handy list of materials by which you can figure your construction cost accurately. Send \$1 to Building Editor, Farm & Ranch—Southern Agriculturist, Dept. L193, Nashville, Tenn. Order by number—Plan No. 5139. Blueprints are adequate for any farm carpenter or for any farmer handy with tools.

Use fresh plums in salads and fruit cups. Or lay them atop quick coffee-cake dough and sprinkle with cinnamon and sugar for a delicious dessert.

Your United States
 By FLOYD CRAMER
 President of the National Association for the Preservation of Free Enterprise, Inc.

We ought to be the best informed people in the world. No where else is there such a flood of information as we receive from our newspapers, magazines, radio and television. But the fact is, all of us are falling down on the job of keeping abreast of events.

Every time some one asks me whether I have heard of some interesting and important matter, and I have to confess that it's still "news to me," I feel that I have failed to do my full duty as an American.

The people who live on the wrong side of the Iron Curtain

**Grain Sorghum Tests
 At Lubbock 1947-50**

COLLEGE STATION.—Caprock milo produced the highest average yields in the grain sorghum variety tests conducted at Lubbock on dryland, 1947-50.

These tests, conducted at the Lubbock unit of the Texas Agricultural Experiment Station, included 21 commercial varieties and experimental strains of grain sorghum.

Caprock was out-yielded on dryland by an experimental selection of Plainsman, which ranked fourth in the irrigated tests. An experimental strain of Combine kafir produced the second highest average yield under irrigation, followed by Combine kafir-60.

On the average, irrigation increases yields by approximately 110 per cent, according to E. L. Thaxton Jr., agronomist with the Lubbock substitution.

Thaxton reports that, when normal seeding rates are used, the late maturing varieties have a higher average yield than those of medium or early maturity.

A summary of these variety tests is given in Progress Report 1422, available from the Publications Office, College Station, Tex.

This report gives separately the results of grain sorghum variety tests conducted at Lubbock in 1950, along with the characteristics of each variety and strain such as days to bloom (percentage lodging, height, threshing percentage, test weight and moisture percentage).

Advertise in the Herald.

Don't have any such problem. They don't have any trouble keeping up with the news, for the simple reason that they never hear any. They hear only what the men in power want them to hear. And if they are caught reading something smuggled into the country, or if the are caught listening to a foreign radio broadcast, they are likely to go to jail for it.

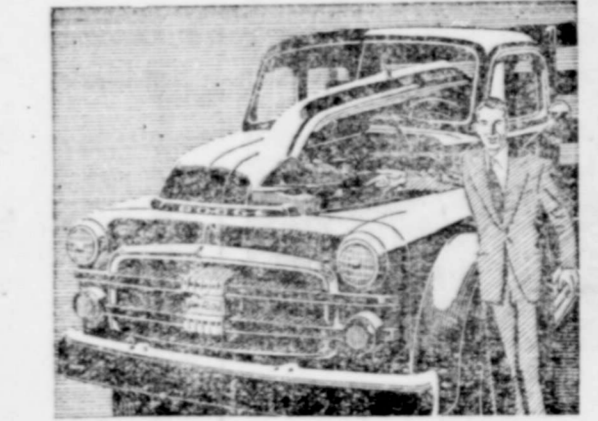

How you, too, can reduce hauling costs on your job

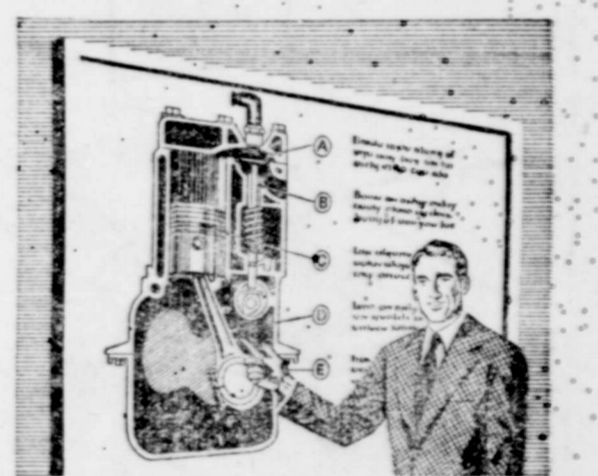

Here's a sure way to cut hauling costs on your job. Get a truck that gives you more mileage on gas and oil... that costs less for upkeep... that carries more payload. A truck like that will really save you money!

Owners of Dodge "Job-Rated" trucks enjoy the outstanding economy of trucks that are "Job-Rated"—engineered at the Dodge factory to fit a specific job. Because they're "Job-Rated," these trucks stand up better, save money.

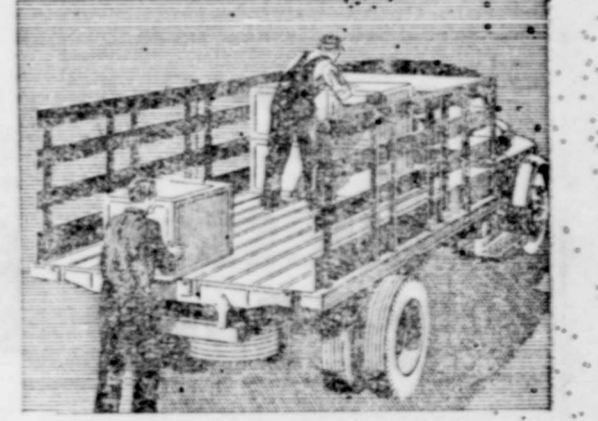

Come in today and let us show you how a Dodge "Job-Rated" truck will cut your hauling costs.

Reduce costs with economical power—Dodge truck engines have four rings per piston, lightweight aluminum pistons, compression ratios as high as 7.0 to 1, and other economy values.

Reduce costs with low upkeep—You get such money-saving advantages as chrome-plated top piston rings, exhaust valve seat inserts, positive-pressure lubrication, and many others.

Reduce costs with bigger payloads—Because a Dodge "Job-Rated" truck has better weight distribution, it carries more load on the front axle. As a result, you can haul bigger payloads.

"We've saved a lot of money with Dodge 'Job-Rated' Trucks".

Francis Heidrich, fruit packer, says: "We're really sold on Dodge for all-round economy and dependability. Every one of our trucks has been replaced by a Dodge and the whole fleet is standing up in a way that sure saves us money. "Dodge trucks certainly fit our job—and keep costs down."

See us today for the best buy in low-cost transportation...

MARGARET BANDY COWARD, SOCIETY EDITOR

Mrs. Richard Krampert Is Honored With Ten-Hostess Affair February 7

The home of Dr. and Mrs. A. H. Daniels was the scene of a bridal tea show Thursday afternoon, Feb. 7, honoring Mrs. Richard Krampert, who before her recent

marriage was Miss Katherine Marchbanks.

The bride was most attractive in a gown of pale green taffeta and the interior of the house carried out the pink and green colors in its decorations. These were the bride's chosen colors.

On the buffet, a large white heart outlined in moline was centered between a cluster of five pink tapers and a doll bride surrounded by pink and white carnations. The table was laid with lace cloth over pale pink snapdragons flanked by pink tapers in double candle holders formed a centerpiece. Green punch, green and pink rolled sandwiches and pink and green candied walnuts were served to the guests. Mrs. A. W. Turner and Mrs. Jot Akers alternated in the pouring while Misses Patsy Stice and Rita Joe Hopper of Lubbock, niece of the bride, assisted with the serving. Miss Maude Bailey attended the registrar where a white ship with pink roses was placed beside the pink satin bride's book.

Soft appropriate music was rendered throughout the afternoon by Mrs. J. E. Smith and Miss Parlee Nelson at the organ and Mrs. Walter Breedlove at the piano. Mrs. W. F. McCracken greeted the guests at the door and presented them to the receiving line made up of Mrs. A. H. Daniels, Mrs. Richard Krampert, and Mrs. Lester Treadaway.

OES HAS BANQUET AND MEETING

The Representative Eastern Star Banquet was held Tuesday evening at 6 o'clock at the Methodist Fellowship hall.

Mrs. J. W. Nelson, Worthy Matron, greeted the members and introduced the Grand Officers, as follows: Mrs. Mary Sales, Deputy Grand Matron, District 2 Section 4; Mrs. Loraine Hopping, Grand Organist, and Mr. Pat Boone, Past Grand Patron, of Littlefield; Mrs. Ruth Blanche, Grand Representative from Puerto Rico to Texas, and Mrs. Bertie Lee Broome, a member of the Dialogue Committee, Amarillo; Mrs. Grady Goodpasture, District Deputy Grand Matron of District 2 of the Grand Chapter of Texas OES, Brownfield.

The head table was decorated with a large white heart wrapped with red ribbon with the letters O. E. S. across the center. Next to the place cards were white hearts with red cards attached by red ribbon giving the menu which was as follows: Baked ham, green beans, creamed potatoes, pineapple salad, hot rolls, cherry pie, and coffee. The Methodist ladies served.

After eating, group singing was led by Mrs. Wayland Parker, accompanied on the piano by Mrs. Ray Lackey. Mrs. J. W. Lucas and Mrs. W. T. McCracken gave a skit and Mrs. Newell Reed, Mrs. Grady Goodpasture and Mrs. William B. Cope sang three numbers.

After the banquet, the group adjourned and reassembled at the Masonic Hall where the regular business meeting was held. After the meeting, Mrs. Mary Sales greeted each one and gave a talk and instructions on work for the year. This was Mrs. Sales' first visit for the year.

There were 54 members, 11 visitors, and six Grand Officers present.

At the close of the meeting, light refreshments were served by Mrs. J. W. Lucas, Fred Arnold, Clemmie Hamilton and Mrs. Lily McPherson.

MRS. WARREN HOSTESS TO LOVE CIRCLE

The Love Circle of the First Methodist Church met Tuesday, February 11, at 3 p. m. with Mrs. James Warren acting as hostess. Mrs. Warren called the meeting to order, and Mrs. Wayland Parker offered the opening prayer.

"I Will Give You Rest" was given in four parts by Mrs. James Warren, Mrs. R. J. Purtell, Mrs. E. W. Butler and Mrs. Roy Herod.

Mrs. C. W. Denison discussed "Troubled Stotze Around the World."

The program ended with Mrs. Warren presiding over a short business meeting.

Cherry pie and ice cream was served to Mesdames Leonard Ches-shir, Roy Herod, R. J. Purtell, D. C. Bartley, Wayland Parker, J. B. Knight, Leo Holmes, James Thurmond, Ernest Latham, E. W. Butler, J. L. Newsom, James Underwood, and James Warren.

DISCUSSES ARTICLE ON "TEENAGE DOPE"

The regular meeting of the Delphian Study Club was held Wednesday, February 6, in the Seleta Jane Brownfield Clubhouse, with Mrs. J. D. Mitchell as hostess.

Mrs. Crawford Burrow, president, had charge of a business meeting, and program for the day was "Youth Conservation."

Program chairman was Mrs. Claud Buchanan, and an article on "Teen-Age Dope" was given by Mrs. George Steele. Guest speaker for the afternoon was Mrs. Tom Keenan, who gave a discussion on "Youth Problems in Our Community," and a report on local youth projects.

Following adjournment of the meeting, pineapple cake, mince pie and coffee was served to Mesdames C. L. Aven, W. H. Moore, H. B. Parks, W. T. Pickett, K. D. Sadleir, Jerry Stoltz, R. W. Baumgardner, Wayne Brown, J. O. Burnett Jr., Otto Butler, Tim Faulkenberry, Martin Line, W. F. Tipton, James Underwood, Johnnie Venable, Fred Yandell, Mitchell, Steele, Buchanan and Burrow.

MISS FORBUS' PICTURE MAKES MAGAZINE COVER

Ray Manley, a photographer for Western News Feature Service, recently took several color shots of Miss Von Forbus, head majorette with the Texas Western College band. It is very likely that her picture will make up the cover of the publication, "People and Places," which is the house magazine of the Chrysler Corporation.

Mr. and Mrs. Ollie Bruton, daughter and son, of Snyder, were up over the past weekend visiting in the G. G. Gore home. Mrs. Gore has been quite ill of late.

TO SEE MISS JUDY TO PERFORM AS QUEEN

Mr. and Mrs. J. Hayden Griffin left this week to attend the Fiesta at San Antonio, and enjoy the festivities. Mrs. H. had been almost ill, but was much better.

Their daughter will be one of the Queens of the annual affair that attracts thousands of visitors to San Antonio. She will represent Trinity University, of which she is a Senior.

TEENAGE LIBRARY CONFERENCE HELD

A teen-age library conference was held Saturday, February 2, at Texas Tech in Lubbock, with approximately 300 librarians from West Texas attending, according to R. C. January, Tech librarian. The conference was sponsored by the Tech Library and the Lubbock Public School Libraries.

The morning program included a play, "The Hill of Eire," presented by the Junior Phestians of Lubbock Senior High; a vocal solo, "Estrellita" by Emma Hope; "Star Dust" and "The Glow Worm," marimba solos by Mary Schaffer; and a motion picture film.

Lunch was served at the Tech Dorm, and the afternoon events included a tour of all the Lubbock Public School libraries and the Tech library.

Attending from Brownfield were Parilee Nelson, Madeline Thompson, Marilyn Willis, Wanda Black, Kay Hinkle, Betty DuBose, Wynelle Webb, and Mrs. Sammie Miller, local high school librarian.

WMS CIRCLES STUDY HOME MISSIONS BOOK

The various circles of the WMS of the First Baptist Church met last Monday afternoon for study of the book, "Crusades in Home Missions," by Courts Redford. Two circles—Bagby and Lottie Moon—met at the church with 11 in attendance. Mrs. R. D. Shewmake Jr. taught a portion of the book and Mrs. E. E. Preston taught the remainder.

At 3:30, the Lois Glass Circle met with Mrs. I. M. Bailey with four present. Mrs. Bailey taught the lesson.

Eight ladies were present when the Blanche Grove Circle met with Mrs. Bill Cope, 1006 East Oak. Mrs. Jones W. Weathers, wife of the pastor, was a guest.

Meeting with Mrs. M. G. Tarpley, 716 East Broadway, nine ladies of the Janell Doyle Circle were in attendance with Mrs. Gladys Moorhead teaching the lesson.

All circles of the WMS are to meet at the church on Monday, February 18, for a Royal Service program.

Have news? Call the Herald.

MRS. GREEN HOSTESS TO RUTH CLASS

The Ruth Class of the First Baptist Church met Thursday night, February 7, in the home of their teacher, Mrs. C. L. Green, for their monthly party. Mrs. Omer Douglas was hostess for the occasion, assisted by Mrs. Eulice Farrar as co-hostess.

An enjoyable evening was spent playing games under the direction of Mrs. Ted Odum, followed by a short business meeting.

A delicious refreshment plate of mock cherry tarts and coffee was served to the following members present: Mrs. H. H. Sherrod, Mrs. R. E. Thompson Jr., Green, Odum, Mrs. Glyn Bilbrey, Mrs. Harold Mulkey, Mrs. R. D. Shewmake Jr., Mrs. C. W. Denison, Douglas, Farrar, Mrs. Robert Darnell, Mrs. W. D. Pierson, Mrs. Leonard Willis, Mrs. Roy D. Harris, Mrs. L. F. Burford and Mrs. Ruth Leach.

NO DIVORCE SUITS, ONE MARRIAGE LICENSE

According to reports we have from the courthouse the past week, there were no divorce suits filed. That at least is good news. We are glad the boys and girls are getting along better with each other.

Only one marriage license was obtained at the County Clerk's office, that of Elvise Duncan and Miss Laverne Joplin.

MRS. WISE HOSTESS TO HARMONY HDC

Mrs. C. D. Wise was hostess Thursday afternoon of last week when nine members and one visitor were present for the regular meeting of the Harmony Demonstration Club.

Refreshments were served to Mesdames Ralph Murry, E. D. Saunders, Wilbur Wenzel, R. E. Townzen, C. E. Bartley, Lois Floyd, J. E. Gracey, O. W. Turney, and R. Brown a visitor.

During the social hour, Howard Wayne Wise played a number of piano selections.

The next meeting will be February 15, at which time Mrs. O. W. Turney will serve as hostess. The subject for that meeting will be "Laying and Cutting of Patterns."

Tom Doss informed a reporter last week that his sister, Miss Ida Doss, who lives at Mineral Wells, had had a siege of pneumonia recently. He had been down to see her, and reported her recovering. Many of the old timers will remember this kind and gentle lady, who was always ready to go into homes to help out on account of sickness. Many of us whose homes she has come in to help out under such conditions, love Miss Ida, and are glad she is recovering.

Herald Want Ads Get Results!

Fascinating Fashions By Judy Seaton

Spring's fashion headline is color . . . rosy red, frosty blue, bold colors or pastels . . . and what more

feminine or glamorous way to add a touch of color to your wardrobe than with a festive scarf crushed at your throat, encircling your waist or peeking out of a pocket?

You may choose a permanent pleated nylon, a heavy silk in brilliant Roman stripes on a black background, a delicate silk chiffon shaded from dark to pastel, or the latest cylindrical scarf in raw silk: a tiny square, a three-cornered silk, a yard-wide square, an ascot or long, narrow in shape, and any size.

Strawberry blonde Virginia Kaye, star of daytime radio serial, "Rosemary," selected a white silk square flecked with gold and tied it with the four ends coming to points and fastened with a simple gold pin to add glamour to a plain, black dress. Or, a scarlet nylon pleated triangle tucked into the top of your skirt, fluffed out of a pocket on the hip of your suit jacket, lends a dashing and individual note to your outfit.

Scarves are indispensable for a working gal who wants to be business-like from 9 to 5 but "dressed up" at 5:15. Virginia often wears a black faille suit accessorized with a pearl choker or tiny gold pin to the office and transforms the suit into a smart cocktail outfit by adding a stiff taffeta scarf fastened with a pert rose. A wisp of bright material, a scatter pin or fake flower, plus a little ingenuity give your wardrobe double mileage.

The Stabian baths at ancient Pompeii are surfaced with clay tile similar to the product used in modern kitchens and baths.

Summer apples make a good fresh applesauce. Small fry in the family like the applesauce frozen just until firm.

STROKE OF GENIUS

It may be snowing in northern climes, but down in the Southern resortlands it's time for outdoor fun. With old Sol high in the sky, this pretty vacationer is all set for a boat ride. She is as talented with a needle as she is with an oar, for she made her own sun outfit from cotton bags. She used plain white flour bags for the shorts and jacket, with a border print bag for the halter and trim.

Where She Wants Them to Drill

Recently, Mrs. Ruth Davis, a good subscriber out at Santa Monica, Calif., sent in her renewal. She stated that she liked the Herald, and its more or less infrequent oil reports. There is really more oil

reports than we put out, Mrs. Davis, but we figure that the average reader is kinder like ourselves. Some of the stuff is not quite clear to us.

Then she wants the drilling to be moved to northwest Terry, the South Slaughter field. Mrs. Davis, those oil field drillers are as hard-headed as the Old He. But we look for some drilling out that way be-

fore too long. To the best of our memory, there has been no tests in that area deeper than the Permian formation, around 5000 feet. Some of these days some driller with a spare augur may take a notion to look for reef formation, around 10,000 feet in that area. Just owing a lot to what the rock hounds (geologists) decide.

POOL NEWS

Rev. Seuddy preached here Sunday morning and Sunday night. Mr. and Mrs. S. M. Flowers and Mrs. Milburn and boys spent the weekend in Abilene with Mrs. Flowers' sister, who is ill. Evelyn and Vada B. Neighbors of Union spent Sunday with Wanda Terry.

The singing at Pool Sunday was well attended. Mr. and Mrs. Elvise Duncan of Abernathy spent the weekend with his parents, Mr. and Mrs. E. J. Duncan.

Those visiting in the W. M. Joplin home Sunday were Mr. and Mrs. Will Terry, Mr. and Mrs. Elmer Hartgraves of Lubbock, Mr. and Mrs. L. P. Joplin and daughter of Slaton, Mr. and Mrs. Joe Joplin and son of Ropes, Mr. and Mrs. E. E. Bramlet and family of Tokio, Jerry Alexander of Tokio, and Mr. and Mrs. Albert Joplin and family of Meadow.

Mrs. W. E. Patton has returned after several weeks in Mineral Wells, taking treatments.

Miss Frankie Maynard was home over the weekend.

Club News

The club met with Mrs. V. R. Osburn February 6, with eight present, and the program was given by Mrs. Osburn. The subject was, "Fitting Patterns and Stay Stitchings" and "Ease Stitching" and "Stitching Darts." The next meeting will be February 20, in the home of Mrs. W. M. Joplin.

Annual Lectureship Week at ACC

ABILENE.—The first of an estimated 4,000 visitors will begin arriving Sunday for the opening of the 33rd annual Abilene Christian College Bible Lectureship, a five-day assembly, which draws the largest annual gathering of Church of Christ members in the nation.

Glenn Wallace of Abilene, minister of the College Church of Christ, will open the series of lectures at 10:30 a. m. Sunday, speaking on the lectureship theme, "Back to the Old Paths." At the Sunday evening service, James Baird, dean of Central Christian College, Bartlesville, Okla., will speak at 7:30 o'clock on "Authority in Religion."

1952 IFYE Program Includes Five Texans

COLLEGE STATION.—Five Texas youths may participate in the 1952 International Farm Youth Program, announced Floyd Lynch, state 4-H Club leader.

Through this exchange program, "grassroots diplomats" go to foreign countries and live with rural families—studying their farming methods and learning to better understand their ways of life.

For each delegate sent from Texas, two foreign exchangees will come to this state and live in Texas farm and ranch homes.

"Four of the 1952 delegates to foreign countries must be boys," Lynch said. "This number of boys was specified because the 1952 program calls for exchange with undeveloped regions of the world such as the Middle East, Africa, Latin America and Southeast Asia."

The age limit for outgoing delegates has been set at 20 to 28 years. A delegate from Texas must be a former 4-H Club member.

Former 4-H Club members who desire to participate in this program should contact their local county Extension Agents, Lynch said.

Applications for participation in the 1952 phase of the program must be in the state 4-H Club office by February 10. Winter phase applications must be in by May 1.

Farm-Animal Feed Costs Rise More Than Tractor Upkeep

The cost of keeping tractors running haven't gone up as much as costs of maintaining four-footed farm power, the Agriculture Department reports. Since the 1935-1939 period, farmers are paying only 36 per cent more for tractor fuel; 89 per cent more for new tractors; and 65 per cent more for tractor tires. But the cost of feeding farm horses and mules has gone up 170 per cent in the period. At the same time, the number of farm tractors is up 230 per cent, while the number of horses and mules has declined 57 per cent. These are tangible results of the oil-powered revolution that is benefiting the nation's farmers and users of farm products.

Vocational Nurses Hold Meeting

A meeting of Vocational Nurses, District 18, first announced to be held the 21st, was held the 14th instead. Mrs. M. D. Lane of Fort Worth, the State President, was the main speaker for the occasion. The following counties are part of the 18th district:

Bailey, Lamb, Hale, Floyd, Motley, Cottle, King, Dickens, Crosby, Hockley, Yoakum, Cochran, Terry, Lynn, Kent, Stonewall, Garza and Lubbock.

General Reminders For February Yards

COLLEGE STATION.—February is the last month for planting shrubs and trees in most of Texas. Remember this. Plant shrubs for screening outbuildings, barns, work area and for windbreaks.

Sadie Hatfield, homestead improvement specialist with the Texas Agricultural Extension Service, says that the lawn should be leveled and fertilized. Make the grounds easy to mow by taking up scattered shrubs and flower beds. An unbroken lawn makes a good background against which all the landscape is seen. February also is time to plant grass, continues Miss Hatfield. There are several grasses which may be used for Texas lawns. With the wide variety of soils and climate, no one grass is best adapted to all areas. Selection of the grass desired may be based on personal preference. Consult the local county Extension Agents for grasses best suited to particular areas.

Check the dusting and spraying equipment to see whether it is in working condition. If it is not repair or buy new ones. Learn where and when to use insect and disease controls such as sulphur, chlordane and nicotine sulphate (Black Leaf 40).

Mrs. Joe W. Brown was in this week and renewed for their paper, and that going to her brother, Kermit R. Howard at Lemay, Mo., where he works in a defense plant. Mrs. Brown is the daughter of the late John Howard, of Haskell.

The Scouts Took Over Here Last Friday

Last Friday was a day that the careless car driver had to be sure there was no official about when they were about to take a chance on a traffic violation. The Boy Scouts of the city and vicinity were the high and mighty in both county and city offices that day, and there were scads of them. We stayed in close that day, and paid no fine.

But many did, including a lot of jaywalkers. But most paid their fine and went on without too much argument with the boys. On their part, the boys stayed with their ideals as Scouts, and were as usual polite and courteous. This idea of taking over once a year gives the boys some real training in what makes a Republic tick.

Frankly, folks, we have gotten to the point that we no longer like the word, "democracy," meaning a majority rule. Sometimes the minority is right—the majority wrong. Below is a piece of Scout pledge that we like:

On my honor I will do my best—
To do my duty to God and country,
And to obey the Scout law.
To help other people at all times,
To keep myself physically strong,
Mentally awake and morally straight.

Distributive Education Week Coming Up

Governor Allan Shivers has proclaimed the week of the 18th to 24th as Texas Distributive Education Week. This is in connection with the organization and affiliation of the clubs that have been organized or are contemplated.

These young Distributive Education students have a high aim in forming these clubs in Texas, according to Thomas Handley, local Coordinator. These students of today are expected to make the leaders of tomorrow.

When you're making blueberry pie remember that it takes a cup of sugar to sweeten four cups of blueberries for a nine-inch crust.

A cow is able to utilize pure cellulose—cotton, for example—as food.

Why Metals Corrode To Be Explained

AUSTIN.—Basic reasons why metals corrode will be explained by Dr. Norman Hackerman of the University of Texas when he is guest professor February 18-23 at the University of Delaware.

A nationally-recognized corrosion authority, Dr. Hackerman is best known for his studies of corrosion on steel and in natural gas and sulphur production processes.

Study to Produce Bigger, Fightin'er Fish

AUSTIN.—Bigger, fightin'er fish in streams and ranch ponds is the aim of new research at the University of Texas.

Dr. Clark Hubbs, a transplanted Californian who started studying Texas fish "in the first creek I saw after crossing the state border," is directing the zoology project. Assisting him are Graduate Students R. Kirk Strawn of DeLand, Fla., and Billy D. Cooper of Austin.

"We're conducting fundamental experiments too detailed for regular hatcheries," Dr. Hubbs explains. "When we get usable data, we'll pass them on to the Texas Game and Fish Commission for practical application."

"We're comparing species from various parts of Texas and studying the effects of climate and other environmental factors on them. Later we'll see what can be done to improve the fish by varying their living conditions and by selective breeding."

SANTA FE CARLOADINGS

Santa Fe carloadings for week ending February 9, 1952, were 24,619 compared with 21,583 for the same week in 1951. Cars received from connections totaled 12,759 compared with 9,328 for same week in 1951. Total cars moved were 37,278 compared with 30,911 for same week in 1951. Santa Fe handled a total of 37,518 cars in preceding week of this year.

Marinate cooked snapped beans in a tangy French dressing, then serve on salad greens topped with hard-cooked egg for a hot weather luncheon.

Washington's Birthday

FRIDAY, FEB. 22 :- LEGAL HOLIDAY

Our Heritage: FREEDOM
Our Goal: TO MAINTAIN IT!

Our Nation, under the gallant leadership of George Washington, surmounted tremendous odds—paid with hardship, privation and the lives of patriots—that our United States might emerge a free Nation. Now it is our task to maintain that freedom. Let us resolve to work together, determined to preserve Democracy, for ourselves and our children!

We will be closed on this date. Please arrange your business accordingly.

Horton Becomes A Cityite at Meadow

B. C. Horton, long time old timer at the Meadow diggins is down for the last week, most of his time with the Mrs. who has a rather serious case of flu. We believe he said this was the third time in the past three years, flu once before and pneumonia one year. Anyway, B. C. believes that the safest and quickest way out of such things is the hospital.

By the way the Hortons have moved off the farm and built a home in Meadow, and he is now as cityfied as they make 'em. And we predict it will not be too long until he is just as lazy as the rest of us town guys. Got to talking about his late father-in-law, Sam Davidson.

Mr. Davidson, we believe this is the correct spelling, was an old time cow-puncher, and as typical a cowboy as you want to see. He, too, was an early settler in Terry. Knott, a Dallas News cartoonist, often draws pictures of what he calls "Mr. Texas," and we never looked at Sam Davidson while he lived without thinking of Knott's "Mr. Texas."

Canal Not In the Interest of U. S.

Senator Tom Connally last week answered President Truman's request for approval of the St. Lawrence Seaway with a statement reaffirming his long-standing opposition to the project and pointing out that the Senate Foreign Relations Committee, which Connally heads, has had the Seaway under consideration for many years without approving it.

As soon as the President's message to Congress on the Seaway had been read, Connally took the Senate floor to say:

"I am strongly opposed to the proposed spending of approximately \$1,000,000,000 on the St. Lawrence Seaway, a project which would be frozen up for five months of the year, and which would involve the building of a canal through foreign territory. The Committee on Foreign Relations has been considering the subject for a long period. It will consider it again, of course, from time to time. However, I very much hope that the committee will adhere to its position of not reporting the bill favorably at this time or at any other time.

"This is no time to spend another billion dollars on top of what has already been spent. However, that is not the only reason I oppose the project. The facts show that the project is not in the interest of the United States."

New Under the Sun

For many years we have heard of employees striking for higher pay and shorter hours, but it remained for a number of Houston bank guards to strike for longer hours.

Presently they are paid on a 6-hour per-day basis, six days a week. They want a 48-hour week pay, instead of 36.

Editor Watson in to See Us Wednesday

First time we had seen Editor and Publisher D. L. Watson for months, was when he dropped in for a chat last Wed. afternoon. He reports that Denver City and the Press are still going strong.

For some unknown reason, probably a bit of carelessness at both ends of the line in the mailing department, the Herald and Press have a hard time keeping our papers going to each other. We are going to try again.

New Minister Calls On the Herald

Minister T. J. Finley of the Crescent Hill Church of Christ, was a pleasant caller at the Herald office one day recently to get acquainted with the bunch at the plant. As stated last week, he comes to the church here from Loveland, Colo., where he has been working for some time.

He is neither a very young minister just out of school gradually finding his way about. Nor is he getting any ways near the time when he may not be as useful to a congregation as a younger man. We'd say off hand that he just about fits the bill.

From the size of his frame, we'd also say that he has been well fed, both by his parents and his good wife. Not that he is very fleshy, but he has a good frame and build. And perhaps in his college years, he may have been a member of a team that seeks an earthly goal.

Anyway, we join the membership of the church, the citizens of Brownfield and community and welcoming this new family to our city. We hope their stay will be pleasant and profitable.

Cornebise Antes Up For the 26th Time

F. M. Cornebise was in last week to renew, just ahead of a statement we had sent the day before, and which he had not received. F. M. stated that this "donation" was the 26th time. He is one of our progressive irrigation farmers out close to the draw, southeast of town.

By the way, he drew a check on us to cash on the \$2 deal that he had just swapped some of his cotton for. We're not saying how much the check was for, but it was well up into five figures.

As he has a pretty sympathetic eye, we plan to see him later for a loan, if we get real hungry.

More Cars on Road Use Less Gas Per Car

The increase of highway consumption of motor fuel in the last five years is due almost entirely to the increase in number of cars on the road, rather than to higher consumption per vehicle. Registrations of motor vehicles are up 43 per cent since 1946; motor fuel consumption for highway use is up 39 per cent; while consumption per vehicle is down three per cent. As automobiles and gasoline become more efficient, less motor fuel is needed to keep each vehicle operating at its best.

Hey! We're Working This Street, Sir!

A report comes to us that reads as follows: "Transient sellers are taking orders and money for mail box name plates without delivery of plates. They are using dime store receipts with the name 'STICEUM' written in the space provided for salesmen."

Why dadgum their crooked hides. The Herald is supposed to be working that side of the street.

And from the same source we learn that not a few guys are still giving checks on local banks to merchants, using fictitious names. A nearby merchant asked us this week if we knew a certain man at ——— showing us a signed check on the bank of that city.

We did not, but there are lost of people who live right here in Brownfield that we don't know. But—make sure you know the person offering you a check.

Behind The Scenes

By REYNOLDS KNIGHT

NEW YORK.—After months of intense effort to get steel supply up to estimated demands, many officials, both in government and industry, now fear they may have succeeded too well.

Signs point increasingly to weaker demand in relation to supply this year—and yet, even more and more new facilities are still being built.

The developments prompting the new outlook are: the decline of the gray market, a sure sign of adequate supply; the drop in demand for high-priced steel ingots, indicating buyers can get enough of the type of steel they need and at regular prices; the continued record high steel production, and the reduced civilian output at the smaller plants because of increasing defense production.

Some feel the signs are so strong that they are already pushing for de-control so that a more normal pattern of distribution can be set up—free of government interference.

Although the world sulphur shortage will continue in the coming months, the industry feels it can see the light at the end of the tunnel.

Langburne M. Williams Jr. of Freeport Sulphur Company said "We began the new year with a favorable long-term outlook for a substantial increase in the supply of this essential raw material," and noted that more than 50 new projects to increase sources are in various stages of development in this and 18 other countries. These projects may add as much as 3,000,000 long tons of sulphur in one form or another to the overall supply in the next two years.

Development of new brimstone deposits in Louisiana and Texas is one of the brightest aspects of the sulphur picture. For many years no new sulphur deposits were discovered even though the brimstone industry spent millions of dollars on exploration programs. While the odds against finding new deposits are great, the search is a never-ending one.

Harve Harris Stories To Start Feb. 24

Some time ago, the paper informed its readers that it intended to announce the date and time that the Pioneer stories of Harve Harris, of Tatum, N. M., were to start. Last week we had a card from Harve with this information. A lady whose name we do not recall broadcasts from written books of manuscripts, stories about various old pioneer like Mr. Harris in the Panhandle-Plains section of Texas and New Mexico.

These broadcasts will start Sunday morning, Feb. 24th at 7:45, and will last for 15 minutes. These will be repeated each Sunday at the same time and station. The station that will carry the broadcast is KGNC, of Amarillo, the Globe-News station, and 700 on your dial.

These stories will deal with the experiences of Mr. Harris in the early days of Crosby County in particular, and others in general as Mr. Crosby was the first south Plains county to be settled. Other counties were mostly just ranches in those days.

Be sure to tune in, as this lady sure knows how to make pioneering stories sound good.

Large cookie tins, which can be bought at the dime store, make practical and decorative serving trays. You may paint them with enamel or simply place a plastic serving mat in the bottom.

SHE SKIS IN STYLE!
This pretty gal knows how to dress for a ski excursion so she is warm as toast and smart looking, too. She wears a cotton poplin ski jacket in navy blue with an eye-catching white insect. The warm poplin jacket has "stormite" adjustable cuffs, and the fabric is Zelan treated for water repellence. A snappy matching cap tops off the ski outfit.

Stricklinly Speaking

By Old He

Of course it is all just a matter of how and in what country you were reared. All of us are sorrowful when death strikes any home or country, be they neighbors, friends, or those we have heard of through publicity in the papers. But in England, the people are different. The king or queen as the case may be, is regarded over there as next to God Himself.

There is not only a great todo over the fact that "The King is dead; long live the Queen." But there are a lot of preliminaries. The body of the dead monarch must be moved here and there before actual burial. Then there must be a long period of mourning, some six months, before the incoming ruler can be crowned. After all, the English rulers are just that in name—nothing more. Parliament does the real ruling.

On the other hand, in our nation when a President dies, especially if he is assassinated, the whole nation is shocked for a few days or weeks. In the meantime, the president is buried, and the vice-president, generally a pretty wise man, carries on.

We guess every town has them, too many perhaps. We mean so-called business men who are so short that if they sat on a dime, their feet would not touch the floor. They are more interested in a dollar or two ad they happen to carry once in a coon's age, than the average business man is in a half page he carries often.

And so, the North Korean peace negotiators for the past year have admitted that they have been receiving help from Russian, which country is also a member of United Nations. As if the whole world didn't already know the fact.

Well, they caught that Middleton, Tennessee, bank robber. And the description fitted. He was just a farm boy or man, who lived about 12 miles south of Middleton, and over in Mississippi. And from the description of the man when caught, as printed in the papers, a bit moronic. In fact, it was stated that he traveled over his native woods in daylight hours with a hanky tied over the lower part of his face. And the 32 calibre pistol he had, was loaded with 22 cartridge, bushed to fit the cylinders. But the bankers had no way of knowing that the revolver was not loaded with the real McCoy ammunition.

February is a short month, but it gave birth to two of America's greatest, Washington and Lincoln. Also our wife, grandson, son-in-law, daughter-in-law, and lots of other people.

Another freak of the month this year is the fact, that although it has but 29 days, all five Fridays, from the 1st to 29th are publication days. A five week publication month usually has from 30 to 31 days. We recall few Februarys since we took charge of the Herald 42 years ago, that had five publication days.

Sadness struck the whole area. In fact, the whole country this week, when it was learned that

Behind The Scenes

By REYNOLDS KNIGHT

NEW YORK.—Continued heavy expansion of steel capacity is causing increasing apprehension among industry and government leaders. A survey of 200 fabricating plants show 60 per cent or more now have higher metal inventories—particularly in steel—than are allowed under National Production Authority regulations. This abundance has already permitted the removal of chrome steel from the Controlled Materials Plan; and the N. P. A. has approved a plan for a steel committee to study and make recommendations for further decontrol.

The situation has developed mainly as a result of the fine job steel producers have done in keeping up production in the face of severe difficulties. Despite a continued scrap and pig-iron shortage, the industry has lately attained 100 per cent of its recently revised rated capacity.

The apprehension comes from the fact that steel is a bell wether of U. S. business, and many are wondering what will happen to the steel situation if there is an economic cutback in the near future or if there is a general decline in demand over the next few years while even more capacity is being added.

Major George A. Davis, of Lubbock, had been shot down over Korea. Time only will tell whether he went down to his death, or perhaps was lucky enough to bale out. But evidently he was not afraid of the grim reaper. Anyway, he has to his credit the knocking from the skies 21 enemy planes, two in his last battle.

Major Davis was supposed to have received his rotation orders a long time ago, to return to the USA and his family. But evidently the high brass thought Davis too useful over there. But the fact that he shot down so many Red planes makes him a national hero. It also puts some to wondering.

For instance this week, some one was heard to remark: "What about his pilot that put him in position to riddle the enemy plane with bullets?" It is the same proposition as the guards and backs in football. They are hardly ever mentioned. It is the carriers and punters that get the praise. If it were not for the guards and backs, the fellows that put over the scores would never reach the goal.

In the case of Major Davis, he was both pilot and gunner, a one-man jet job.

Such, however is life, so we pass to the next item.

Back in Lincoln's day, whose birthday anniversary we remembered Tuesday by putting out flags, and at least the banks closing, once very aptly said: "People have to acquire their own debts." But if Abe was living today he would find that this great nation of ours

provides each infant a huge debt at birth.

Now what has become of that there fellow, Fred Bucy? He came in a week or so ago, and was going to show us some of the aristocrats of the Polled Angus family that he recently purchased at shows in Iowa. At that time we had pretty serious sickness in the family. Did he get the flu, or did the truck that was to bring the bull and heifers to Texas break down?

Three weeks ago, we wrote a piece about the new minister of the Crescent Hill Church of Christ calling. We hope the article gets in this week. Yep, it was on the first run. The makeup boys think everybody's stuff is better than ourn.

Since the wife fell ill with the flu some three weeks ago, the Old He has taken so many of his meals at the son's home, that it will be a wonder when the frau gets up again, we don't just drive by the old shack when we start to lunch, and on over to Rippertoe.

Speaking of sickness, and we have had a mess of it of late, even though Brownfield has become quite a little city, the folks still visit the sick nearly as well as in the early days, when this was a small village. We are glad there are still a lot of good neighbors.

One time Christ wanted to illustrate, "who is your neighbor?" Then he gave the case of the Good Samaritan. Read it. It will be beneficial.

The Bad Storm of February 2 and 3 Didn't Do the Damage We Feared

With sickness in the family as well as the Herald personnel, we had not been out on the farms of Terry county since the howling storm, lasting two days and a night, the 2nd and 3rd of February. We had feared the worst, not only because the storm lasted so long, but because of the high velocity of the wind during the storm.

We had not heard the farmers complain very much; they never do. And we did not ask any of them, as most likely the answer would have been, "it did plenty." We have the sassiest bunch of farmers this side of Podunk, and they like to give us the old hoss laugh after unloading a crack like that on us.

But Sunday afternoon we started

out to kill two birds with one stone, a visit, and to see ourselves what the wind had wrought. No one at home where we went, so the time was spent in just looking. To say we were agreeably surprised is to put the matter mildly. We had expected to see high drifts everywhere, and many sand bars in the roads after we left the highways.

But the fields did not seem to be in any worse condition than when we were last over these roads, and in at least one place where we usually have to take second gear to get over a sandy place in the road, we went over it in high with hardly a slowdown. There were a few spots in some of the fields that showed erosion, but no

worse than usual. In fact, we have seen many of the fields in that area in worse shape in the past several years.

Deep Breaking Going On

This particular section we visited is the Harmony community, and it is on the average, one of the sandier sections of Terry county. We found that those who have deep broken their lands in the past few years are holding their top soil nicely. And there were several fields out in that area where deep breaking is still progressing. We noted that Jack Thompson was deep breaking his farm he rents from Ralph Carter.

Where this deep breaking method is practiced, wind erosion is stopped to a goddly degree, and they seem to make much better crops following it. In fact, one man in the Union community last year, where rain was shy as hen's

EVERYBODY SEEMED TO WANT TO MOVE

There were only two newcomers reported last week. Could have been others that the reporter missed. But we welcome Charles A. Stark, of Seminole, and Ben Cowling of Lubbock.

On the other hand, seven left, Kermit, Littlefield, Brownwood, Plainview, Andrews, Midland and Paducah, getting one each.

teeth, is reported to have made a half bale per acre, while neighbors still looked sorry. We believe that deep breaking in our sandier soils not only stop erosion, but increase the yield to a high extent.

This has been the argument of the pro-deep breakers for years, and their predictions are panning out, especially of dry years. And we have more dry ones than wet years.

Lots of Rain in California, Says Pat

Had a letter of the 4th from Pat Brothers, pioneer groceryman here, but presently a resident of Lawndale, Calif. He states that they have had a lot of rain out there this year, and now have the best season they have had since they moved out there. He and wife are enjoying good health.

He says he likes to hear of more oil wells coming in here occasionally. A card of his statement of expiration had been mailed to Pat, and evidently the statement and his letter, enclosing three bucks, passed each other as our card was also mailed the fourth.

We just wonder how Pat looked when he got our card. Had been handled in the back shop to print some more cards, and was a bit dirty. So we explained that we had a great sandy-andy here the 2nd and 3rd. We bet he grinned.

WELLMAN SCHOOL

Eighth Grade News
The eighth grade is sorry to lose a student, Joe Hubbard. He has moved to Seagraves. This week is the fourth six weeks of school and the eighth grade starts their test Wednesday.

Friday, the 8th grade was defeated in basketball by Union.

First Grade News
The first grade enjoyed two good shows last week: "Every Dog a Gentleman" and "Something to Cheer About."

We are looking forward to Valentine's week. Both first grades received Valentines from Dick, Jane and Baby Sally. They appreciate these very much as they came through the mail in care of their teacher.

The first grade is proud of a new ball and bat. They wish to thank the ones responsible for getting them.

Third Grade News
The third grade once again is having fair attendance after a siege of influenza.

Thursday, Feb. 14, is St. Valentine's Day, and the 3rd grade is in charge of the assembly program which will be at 10:15, Thursday morning. Parents and outsiders are cordially invited to attend the program.

The third grade lost a pupil just this week. The pupil was

Sharon Kay Thomas. We feel that Union gained by receiving her as a pupil and it was our loss; nevertheless we wish for her success in Union School.

The third grade will have a Valentine party Thursday afternoon at 3:00. Parents and school friends of the third grade are invited to attend.

FHA News

The Wellman Future Homemakers held their business meeting last Friday, Feb. 8, in the dining room of the homemaking department. It was decided that the basketball girls would stay here and play in the District Tournament and send the following nine delegates to the Area II meeting in El Paso:

Bernalene Zachary, Donna Welton, Rae Nell Liles, Mary Lou Bass, Nita Chrestman, Louise Ballard, Gloria Ingram, Margaret Ferguson, Tommie Ruth Arp, and their sponsor, Miss Willie Mae Hines.

We expect these girls to come back and give a report of the meeting to the chapter.

The girls have sold most all their cards, so hurry and get yours while they are still on sale.

When you have an egg yolk or two left over use them to thicken a cream or cheese sauce to serve over cooked vegetables or fish. The egg yolks give the sauce a luscious yellow color and a delightfully smooth texture.

Meadow News

Mr. and Mrs. Jesse Brooks spent the weekend in Dallas visiting his aunt, Mrs. Pat Davis, and Mr. Davis. Mrs. Davis came home with them to visit her father, J. A. Maddox, and her sister, Mrs. L. Brooks, and family.

Mr. and Mrs. Cecil Courtney were weekend visitors in Lubbock.

Vitamin A was discovered in 1915.

all visited in the home of their parents, Mr. and Mrs. J. T. Verner, Sunday.

Around the Studios

with Charlie Brooks

Judy Baird, Brooklyn teen-ager who is president of the Gordon MacRae fan club, which she started nearly six years ago for the fans of the baritone star of NBC's "The Railroad Hour," and the movies, says that the club's membership really spans the globe. Members come from as widely separated areas as India, Scotland, Austria, Canada, Hong Kong, Peru and the Western Zone of Germany. Judy, who is 16, and plans to study journalism in college, says that she has found the club not only an outlet for a very real interest in Gordon and his wife and youngsters, but a broadening and stimulating influence on her whole life. She's met a lot of new people, learned a lot — through the Club paper — about journalism — travelled a good deal, and — most surprising of all — found in some phase of the club work a theme for every English composition she's had to write in high school.

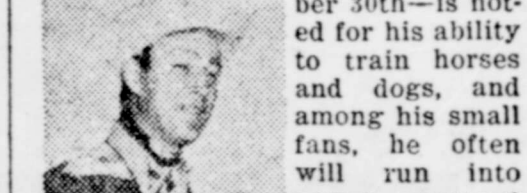

Dinah Shore, lovely co-star on CBS' "Jack Smith-Dinah Shore-Ginny Simms Show," is always so knowledgeable about the programs on which her many friends in show business appear, that someone recently asked her how she was able to find the time to hear all those shows...

Dinah Shore herself, what free time she has can all go to listening to the radio — since Dinah's hobby is painting in oils.

The vivacious songstress just sets up her easel in a good light, turns on the radio, and has a wonderful time combining "shop" and relaxation.

Roy Rogers, whose "Roy Rogers Show" is heard over the NBC network — and whose television program premiered on NBC December 30th — is noted for his ability to train horses and dogs and among his small fans, he often will run into some earnest tyke who wants

Roy to see how well trained his dog is. One such little boy, aged seven, had a small, and excessively friendly black and white dog, whom he proceeded to put through its paces for Roy's benefit. The little dog, however, didn't seem to be able to do the tricks very well — all though he approached them all with great good will. Finally the boy gave up, picked his little dog up in his arms, and said to Roy, "I guess he doesn't do tricks so good — but he thinks I'm awful smart!"

The Low Down From Hickory Grove

Nice and quiet and law abiding citizens, I am going to the mat with you today — so lend an ear — and don't get mad, yet, if I select you as a careless or neglectful culprit.

To be law abiding and quiet is a grand trait — it demonstrates that you are real people. But with the rascous and uncouth and unscrupulous plunderers that are afoot in the land, it is time to become vocal — to unlimber the shootin' irons — to take part in the fray — to mix it with the gentry who are going through your billfold, as the country nears the Falls, like the Roman Empire before us.

Now nice people, you know precisely and exactly what ails us — you know that a full fledge Europe-

type free spending Socialist Govt. hovers over our Nation, made up in welfare regalia and promising security right up and into the undertaker's front door. You savvy all this — 100 per cent. But what do you do? You never take your pen in hand and write your senator. Most senators are pretty good at reading — even between the lines.

And now, sisters and brothers, nice people, it is time to start shootin' — and especially with November in the near offing — and don't blame me if you wake up some A. M. and find a Bureau Boy ensconced on your very own doorstep, and telling you where to get off.

Yours with the low down,
JO SERRA.

Ladino clover was introduced into the United States in 1912.

Basketball Champs Test Comes at Tech

LUBBOCK.—Both boys' and girls' regional high school basketball championships will be determined at Texas Tech.

Tech will be the center for Region I of the Interscholastic League for A and AA tournaments in boys' play February 29 and March 1 and for Region II for the same classifications in girls' competition Mar. 7 and 8. Winners from each classification will be certified to the state meet from the boys' tournament, but in the girls division the A and AA schools will compete together, with one champion being chosen to go to Austin.

Bobby Goard of the Athletic Department is director of the boys' tournament. The girls' tournament

For sweet-tasting corn cook it as soon as possible after it's picked. In hot humid weather sweet corn may lose as much as forty per cent of its sugar in 24 hours.

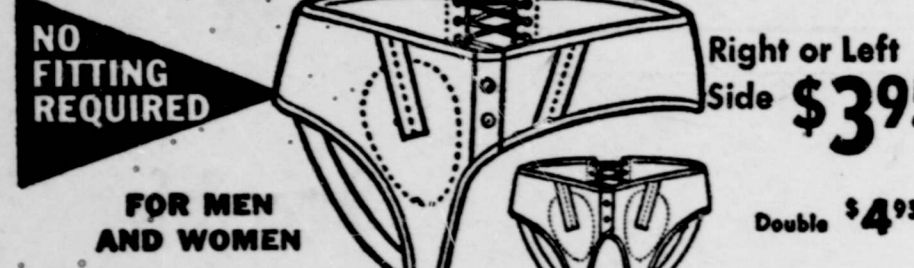

Nowadays you can get dates in vacuum-packed jars so that they retain their original freshness indefinitely; these are sold at many super-markets. The dates in these packs are domestic grown.

ment, under the supervision of Dr. Ramon Kirellis, Physical Education Department chairman, will be directed by Morley Jennings and Mrs. Margaret Richards.

District 1-8 will send their champions to the boys' AA tournament.

District 7 includes Brownfield, Levelland, Littlefield, Morton and Muleshoe. Chairman is Supt. Carl Macon of Morton.

Terry County Herald

Hope Auditions for Roy Rogers Show

Roy Rogers, The King of the Cowboys, doesn't seem to appreciate Bob Hope's talent with the guitar during latter's rehearsal for his guest appearance on the TV premiere of The Roy Rogers Show on NBC-TV, 8:00 to 7:00 P.M. EST, Sunday, December 30. Maybe he's just worried about the guitar — It happens to belong to Roy.

Amon Gets His Picture in S-T

When the Stock Show started at Fort Worth, and notable personages began to arrive, we decided to keep a count of the number of times Publisher Amon G. Carter's picture appeared in his own paper. But before the last Sunday's issue rolled around, we had absolutely lost all count.

Speaking of pictures, one of our old readers remarked this week: "You don't seem to carry any more pictures than usual in the Herald." That's right. The Herald is just a small city-country weekly, serving farm people mostly. We have never been ambitious to try to replace Pictorial Review, Look or Life.

However, this is just an idea of ours. Some people like creek or well water. And if Amon wants his pic in his own or other paper, that too, is his business.

A Pioneer Lady Calls On the Herald

We do not get to see Mrs. W. S. Crowder too much these days, as she spends most of her time with her daughter up at Memphis, Texas. But being away, she had missed her last copy of the Herald, and came in to read it, and visit some at the same time. She and her late husband, W. S. (Bill) Crowder and family came to Terry many years ago.

They lived down in the Wellman section, where she still retains the old home place, and smilingly stated that she hoped they would find oil on her place some of these days. We join this good lady in her wish. She still has two sons and their families here. And we believe she stated that one was at Memphis, one in New Mexico and another in some of the further western states.

At one time her late husband served his precinct in Terry county as a Commissioner, and he made a good one according to old timers. Call again, Mrs. Crowder, when you come down to visit your folks in Terry.

Earl Sears 'Man of The Year' at Lamesa

The Herald is glad to report that Earl Sears, son of Mr. and Mrs. Kelly Sears, who live four miles southwest of town, was declared the "Man of the Year" at Lamesa. Since graduation at Tech college, Earl has been instructor in the ag. department of the La-

mesa schools, and proved very efficient.

The presentation ceremony was held at Lamesa recently, and Kelly and wife attended. Earl comes by his aggressive attitude and good citizenship naturally, as he is also the grandson of two old pioneer couples, who have been very instrumental in building up the county.

They were the late Cam Sears and wife, and the late C. J. McLeroy and wife.

Keep rolling and saving
with a Studebaker truck

Your best bet for low-cost mileage!

Studebaker truck sizes range from 1/2, 3/4 and 1 ton pickups and stakes to husky 1 1/2 and 2 ton models.

Studebaker frames, springs and axles are super-strong—and this means remarkable on-the-job durability.

The two great Studebaker truck engines—the Power-Plus or the Econ-a-miser—excel in pulling power and staying power—deliver exceptional gasoline mileage.

Get a Studebaker truck and cut your costs. Stop in and examine the designing and construction that keep Studebaker trucks rolling—and saving—for years.

WEST TEXAS MOTORS

220 South 5th

Brownfield, Texas

Another Pioneer Calls to Renew

Another smiling lady, Mrs. S. W. Welcher, called to get her subscription up another year, which expired in January. And she thanked us for not stopping her paper. Always glad to accommodate, and especially those we know want the paper. And as she stated, had been taking the Herald, since they came to Terry county.

The Welcher family settled in the Wellman section many years ago, and like the other pioneers had a hand in shaping the destinies of the county. It was a bit discouraging at times, as we all know. But the harder the pull, the more came and put their shoulders to the wheel, and we kept moving along.

Presently, however, Mrs. Welcher lives on south Powell street here in Brownfield, but we believe she still retains her farm property. She still has a son, W. C. Welcher, and family living in the Wellman community.

Always glad to have these fine old pioneers to call.

Texas Tech Stands High in Enrollment

LUBBOCK.—Texas Tech sits in fifth place in enrollment among Texas colleges, according to a Federal Security Agency bulletin.

Tech's 4,901 students enrolled for the fall semester of 1951 places Tech 84th among the 1,806 colleges and universities in the United States. Colleges leading Texas Tech in enrollment in Texas were Texas University with 12,290; University of Houston with 10,469; Texas A&M College with 6,519; and Baylor University with 4,985.

As a state, Texas was fifth in total college enrollment with 116,904 students. New York, California, Illinois, and Pennsylvania rank ahead of Texas in that order.

Breast, neck and shoulder of veal offer good values for the homemaker who is watching her budget. The breast and neck are good stewed, the shoulder may be roasted.

The largest consumer of nickels for plating purposes is the automotive industry.

FOR THE BEAUTIFUL NEW CHRYSLER AND NEW PLYMOUTH SEE

M. J. CRAIG MOTOR CO.

719 W. Bdwy.

Brownfield, Texas

Round and Around With the Readers

Mrs. R. L. Lewis sent that husband of her's in to get on the subscription list. If we'd a knowed that bird did not already take the paper, we'd a shot him. Among other welcome readers are O. W. Kelly (ain't that Irish?) and W. L. Burkhalter, both, city.

And there was a raft of them that got in under the wire on renewals the past few days, Thad Rinsinger, who has time to run both a hotel and a steam laundry. Then there was Morris Cunningham and W. A. Tittle, John Givens and Ned Self, all who had good appearing dollars.

Olen Evans and H. O. Lonbrake, the latter our official fixit man, followed by W. P. Morris and J. J. Smith. Seems like we have heard that name, "Smith," somewhere else. Then there was that old grass roots boy, Jim Cunningham, of old Yoakum, formerly of Terry, that got in before the gap was closed, followed by the Steele Electric Co. and J. W. Ball.

Then we got some of Elmer Edwards' oil money, as well as S. E. Collier's, but the latter pumps it out at his filling station instead of an oil well. Then there was that soft spoken farmer out in the Johnson community, W. B. Paschal, who renewed for his own and one to his daughter who lives in Fort Worth. Then Dr. Hughes, the dental expert, was fixing to mail his dues in but saw us before he got in the P.O. So we got two bucks, plus salvaging a stamp off him.

Then there was Marvin M. Allen, out on route one, and N. N. Durbin of Rt. 1, Meadow, both wanting a name plate. Talking of name plates, Max Entrekin of Rt. 1, Ropesville, heads the list. Wanted one for each side of his box, but he paid for the second one, cash on the barrel head. Then there was another good lady, Mrs. James H. Dallas, who sent in their renewal. Old James Harley is too stingy to take the paper.

Of course the West Texas Gas Co. renewed for T. F. Cartwright up there at Amarillo. Last, but not east, so far this week, is old C. T. Edwards, secretary of the C. of C. at Dustin, Okla. He wrote that, "I thought I could live without the Herald, but I see I can't." He sends regards to all his old friends.

Simpson in Wed. to Renew 25th Time

M. Simpson and Mrs. Simpson from out on route 5 were in this week, and he called to renew, and decided on the 3 year plan for \$5. Met him on the west side of the square, we going north and he south, to the Herald office.

We gave Mr. Simpson to understand that there would be some one in the office to take his money. This makes his 25th time to renew. In fact, it will cover the 25th, 26th and 27th. Thanks a lot.

ATTEND SCHOOL OF INSTRUCTION

Members of Rebekah Lodge No. 56 attended a school of instruction at Sundown Monday night, February 11, with Mrs. Fay Lambert, District Deputy Supervisor, in charge.

Attending from Brownfield were Messrs. and Mesdames Charlie Moore, L. B. Riney and Marion Stone, Mesdames Claude Buchanan, Minnie Williams, Loretta Preston, Kenneth Moore, Lee Short, Clemmie Hamilton, L. V. Wagner, Lillie McPherson and Chas. Winn, Dr. Argust Curtis and Mr. J. W. Clements.

Shepherd Calls to Thank the Herald

The Old He was not a little surprised Tuesday afternoon about 5 p. m., when Secretary of State John Ben Shepherd of Austin, called and wanted to talk to us. He was located for the night at a popular tourist courts here in town, as he was to deliver the main Chamber of Commerce annual banquet address, that night.

Evidently, we had had something right nice to say about the young upstanding citizen of the state last fall sometime, and either we or someone had sent him a marked copy. He wished to thank us for the article. Would have called, he stated, but the sandstorm had held up his arrival here, and the best he could do was just phone.

Most people believe that John Ben will be a candidate for Attorney General of Texas, and most think he will have no trouble landing the job.

Fifteen New Cars Registered Here

For the week ending February 2, fifteen new cars were registered with Mrs. Florene Webb, assessor-collector of taxes for Terry county. Six of the cars were 1951 models, and are so indicated. The others were all 1952 models, as follows:

Joe E. Taylor, 1951 Plymouth; Jack T. Watkins, Mercury; Charles Jones, 1951 Plymouth; Continental Oil Co., Chevrolet; Edsie L. Chaffin, Mercury; Elsie Kendrick, Cadillac; Dr. Gordon E. Richardson, 1951 Mercury and O. W. McCaughan, Oldsmobile.

Mrs. Lal Copeland, Chrysler; C. E. Ross, Pontiac; Amerada Petroleum Co., 1951 Plymouth; M. H. Ratliff, Chevrolet; G. W. Lightfoot, 1951 Mercury; Evelyn Cruce, Oldsmobile and D. R. Perryman, 1951 Nash.

LaVerne Perry visited Monday in Madland with her niece, Irma Dooley, who underwent surgery on her arm due to injuries received in an automobile accident there on February 3. It is understood the operation went off nicely, and Mrs. Dooley, the daughter of L. B. Brazelton, is expected to return to Brownfield in the near future.

D. P. Carter Hurt One Night Recently

D. P. Carter was in one day this week, and stated that he ran into a pile of caliche out on the Tahoka highway, which is being rebuilt, and was badly hurt one night last week. He stated that he knew the road was under reconstruction, but as there were no danger signal lights, he ran upon the pile of caliche before he saw it.

He hit the steering wheel of his car so hard that it was broken, and his chest and side were very sore from the effects. He also stated that the man that was killed out there a week or so before, had run into a pile of caliche with no lights to warn him.

Anyway, we understand that the contractors have been advised to provide warning lights from this on or perhaps they may face some damage suits.

Some Old Timers Sick at Hospital

We are sorry to report K. W. Howell ill at the local hospital. K. W. has a serious heart ailment, and a sign says no visitors. We hope K. W. is up and about again, soon.

Then there was Paul Gainer, who way back when, lived with his parents as a young squirt at Gomez. However, about 1910, the family moved to Plains, where he was reared. Paul later moved to Tatum, where he is now regarded as an old time New Mexican. He had complications with flu, and was hospitalized several days last week, but was discharged Saturday.

We were also surprised to find J. L. Langford occupying a bed over there one day last week. It was reported to us that the Mayor of Challis got to eating too fast one night at supper, and that his throat started bleeding.

Evidently he ate something sharp pointed or irritating to say the least. At first there was not much blood when he would spit, but it increased so fast that he was brought to the hospital, where the blood was finally stanchied, and he was carried home, last week.

Oscar Jones On Front Line in Korea

With the 2nd Division in Korea. —Pfc. Oscar L. Jones, 311 E. Main street, Brownfield, Texas, is serving on the Korean front with the 2nd Infantry Division, heroes of "Heartbreak" and "Bloody" ridges. The division, a veteran fighting force, recently has engaged in patrol activity in the snow-blanketed Korean Hills.

Jones entered the Army in March 1951, and was stationed at Fort Monmouth, N. J., prior to his transfer to Korea.

STRICKLIN FAMILY TO GO MARCHING ON

Had a wire this week that David Bruce Stricklin, weight 8 pounds and 4 ounces, was born February 11th. His dad and mother are Mr. and Mrs. Alton Stricklin, of Cleburne.

This makes a total of four Stricklin boys unmarried as yet, one Billie Joe, of Tennessee, two sons of Jack J., here and the little fellow down at Cleburne.

However, all of them live in Texas, as Billie Joe took a job with an airplane plant in Dallas, when he got out of the air corps.

Legal Notice

NOTICE OF CITY ELECTION

STATE OF TEXAS
COUNTY OF TERRY
CITY OF BROWNFIELD

Notice is hereby given that an election will be held in the City Hall of the City of Brownfield, Texas, on the first Tuesday in April, A. D. 1952, the same being the 1st day of April, A. D. 1952, for the purpose of:

Electing a Mayor, City Secretary, City Marshal, and two City Aldermen.

Said election shall be held in accordance with the general laws of the State of Texas governing City elections.

None but qualified voters residing within the corporate limits of said City of Brownfield, Texas, shall be allowed to vote at said election.

Anyone desiring to have his or her name appear on the official ballot of said election shall, at least thirty (30) days before the date of said election, file his or her application with the City Secretary of the City of Brownfield, Texas, to have his or her name placed on the official ballot, stating therein the office for which she or he seeks to be elected, subscribing to the oath provided for in such application.

John J. Kendrick is hereby appointed presiding officer of said election, Milton Bell, Jr., is hereby appointed judge of said election, and the presiding officer shall select two clerks to assist him with such election.

This notice is given in compliance with a resolution passed by the City Council of the City of Brownfield, Texas, at its regular meeting held on the 7th day of February, A. D. 1952, at the City Hall.

Witness my hand and seal at Brownfield, Texas, this 13th day of February, A. D. 1952.

J. H. ASCHENBECK,
(Seal) City Secretary,
City of Brownfield, Texas.
