

RED DENHAM HURLS NO HIT GAME FOR PRIMMS

Tuesday night, the league-leading Teague-Bailey Chevrolet Co. protected that lead by winning, 9-0, from airmen of Reese Air Force Base.

G. W. Warden was the winning pitcher. He also had two home runs. R. C. Morton also homered for the winners. Billy Goodwin

took the loss for the Ramblers. The good crowd that turned out to see the Airmen saw Warden limit them to five hits while his mates were getting 15. He fanned eight.

Primms Drug of Brownfield won from Floydada as Red Denham hurled a no-hit game, 8-0. The strikeout artist fanned 19 to increase his season's total to 132. He didn't walk a batter and hit but one. The base-runner was the only one of the Builder's Mart got. He advanced to second before the side was retired.

John Thompson's homer with two men on was the big blow for the Druggists. He also singled two more runs home.

They Chopped Down The Old Elm Tree

A few times, beginning around 1911, the Herald has shown an old photo of a bunch of cotton wagons on their way from the Gomez Gin, to Tahoka, to be marketed. The scene was taken from about the Alexander building, looking southeast with the old windmill that stood at the northeast corner of the square forming the center of the cut of the photo.

At that time, the old American elm tree stood just outside the county property, was a small sapling about as big as your wrist. It was put out by the late Geo. E. Tiernan, then serving as Terry's second sheriff, who intended to remove the tree to his residence, when he built a permanent one. At that time George lived, like most of us, in a two-room boxed and stripped home a block north of Co-op Gin No. 2.

But it was way up about 1910 when George finally got around to building a nice home where the McNutt Courts now stand on the Lubbock Road. And of course the tree was too large to move. But for lack of water, as paving surrounds the old tree, it petered out last summer. This spring it was cut down—with a saw—and the old stump still stands.

At that time, all the trees in the court yard except this old American elm, were black locust. But borers got into them so badly that they began to die, and were replaced by the Chinese elm.

Modern Progress Moves a Landmark

Workmen are busy this week jacking up the old M. B. Sawyer residence at the corner of Broadway and First Street. First Street is also highways 51 to Odessa and El Paso, and 137 to Lamesa and Big Spring, and one of the busiest highways in the area. The old residence, still in fine shape, will be moved to lots on east Lake street, in the newer part of north-east Brownfield.

As we understand the matter, Dewey Rogers, of Brownfield Floral, purchased the old residence and lot, and has leased the lot at Broadway and First to Humble Oil and Refining Co., for a period of ten years. Thus another old landmark residence makes way for modern business.

As valuable as is the property in the area of the old residence property, we are presuming that soon, the Humble company will build thoroughly modern plant there. Presently, this new company in our city has no downtown service station. Two are located on the Lubbock road, and one on the Seagraves highway, along with the wholesale station.

Presumably all those big old elm trees will have to come down on this property, except perhaps in the back of the station. That remains to be seen.

ATTEND SPECIAL COURSE IN LUBBOCK

Mrs. Jess Warren and Mrs. Kenneth Watkins attended a special instruction course on Duberry Cosmetology in Lubbock last week. The course was under the direction of a specialist from the Duberry Beauty Salon in New York City.

Candidate Sues to Get Name On Ballot

County Chairman Burton G. Hackney, of the County Democratic Committee, informed a Herald reporter this week that his committee was up against a mandamus suit. It seems to have been brought by a gentleman named Hal Houston, of Amarillo, who is a candidate for the Court of Civil Appeals, 7th district, located in Amarillo. Terry county is a part of that district.

A local committee held that Mr. Houston was not qualified under an act of the State Constitution for the reason the applicant has not been a practicing attorney or held any kind of judgeship office in the past ten years.

From what we can gather about the matter, Houston came to Texas from Oklahoma, and has never practiced law since he came to the state, or before as far as we can learn.

But he says he'll carry the matter to the Texas Supreme Court. Maybe he thinks his surname will put him over in Texas.

State Candidates Getting Thicker

Judge Ralph Yarborough and his sound truck were here Tuesday, pitching hay while the sun shines. We did not hear his speech, but have read numerous extracts from his speeches. The burden of most of them, it seems, are blasts at the administration of Gov. Shivers. In other words, most people like Judge Yarborough are lined up with the so-called "loyal to Truman" bunch.

We don't know what kind of hearing he received here, but no one we have met seems to be very much interested in politics, aside perhaps from county and precinct, and not too much that way. Rather talk about the dry weather, and the prospects of the crops holding out until more rain comes.

Then we had a candidate Wednesday for US Senate. Frankly, though we did not mention the matter to the man, we had forgotten that other than Daniel and Beckworth were running. This man's name is E. W. Napier (to rhyme with appear) he said.

Admittedly he had some good platform material on the large card he handed us, much of which we agree with. But we just can't figure that Mr. Napier has any more chance for the US Senate than the Old He—presently, at least.

Kiwanis to Meet At Esquire Today

Regular Thursday luncheon for members of the Kiwanis Club will be held at the Esquire Restaurant, starting today at 12:05 noon, according to announcement made Monday.

At last Thursday's meeting at LaMecca, members of the Hub City Kiwanis Club of Lubbock presented a program, under the direction of Holmut Klaus. Bill Hess, Tech student, gave a series of comical imitations. Others attending from Lubbock were George Wilson, ex-president of the Hub City club, Ollie Lanham, secretary, R. N. Brown, board member, Mr. Gumm, and John Ross Jr.

The local club reported 95 per cent attendance.

BOLL WORMS HERE

According to Jim Foy, county agent, boll worms have been found in the county on Jimmy Mackeys farm east of town. They were in April cotton. Farmers are warned to keep a close watch for both the boll worm and the flea hopper, Foy said.

Uruguay has been at peace since the turn of the century.

Cong. Mahon Asks For Re-Election

CONG. GEORGE MAHON

Representative George Mahon this week requested the Terry County Herald to formally announce his candidacy for re-election to Congress. He had earlier filed for a place on the Democratic ticket. Mahon is unopposed in the forthcoming primary.

In announcing his candidacy, Mahon said, "I will deeply appreciate the continued support and confidence of the people in the coming primary. These are difficult and frustrating days for private citizens and public officials alike. Congress is still in session, and in all probability I will have little opportunity to visit about the District prior to the primary date.

"As the bird hand of the people of our District, I shall continue to do everything in my power to do a good job here. I welcome advice and counsel at all times, and I am constantly mindful of the debt of gratitude I owe to the people of West Texas. Please thank them for me through the columns of your paper."

Bolt of Lightning Knocks Us Out

Our readers may wonder why a day late this week. Those in and around this burg may easily have guessed, as we, like a lot of others had damage from a bolt of lightning, Tuesday afternoon. While there was not enough rain here in town to wet a man's shirt, we had perhaps the worst electrical storm in the history of the city.

One bolt entered the Herald office and burned out a wiring on the metal pot crucible the one that heats the throat and mouthpiece. Even though metal in the crucible is hot, if the throat and mouthpiece are cold, you can't get a line of type (from the word linotype) out of the thing. Took all day Wednesday to get the thing running again. In the meantime, the Gaines County News, Seagraves, came to our rescue with several galleys of type, for which we are thankful.

First National Bank Increases Capital To \$250,000

W. R. McDuffie, president of the First National Bank, announced this week that the bank had increased its common capital stock from \$200,000 to \$250,000. At the same time, Mr. McDuffie announced the election of a new director, W. B. (Red) Tudor, of Tudor Sales Co.

Other members of the Board of Directors are Frank Ballard, Lal Copeland, Bobbie Field, C. K. Kendrick, W. R. McDuffie, J. H. McWhorter and C. E. Ross. These men are all fine, level headed business men of the city and section.

Brownfield Lions Install Officers

Rev. Jones Weathers of the First Baptist Church was the principal speaker at a Lions Club banquet last Thursday night at the Esquire restaurant. Highlight of the banquet was installation of officers.

O. R. Douglas, superintendent of schools, was installed as new Lions Club president, and installing officer was Charles Dean, International counselor of Plainview. Wayne Smith, retiring president, was master of ceremonies.

Other officers include Jake Geron, first vice president; Harry Goble, second vice president; J. E. Smith, third vice president; Sid Lowery, secretary; O. B. Larner, treasurer; W. N. Lewis, Lion Tamer, and Sid McIntosh, tall twister. New directors are Ted Odum and C. W. Denison. Holdover directors are Vernon Townes and James Warren.

Rev. Weathers touched on the subject "I Am An American" as his theme. He told the group, "America will continue to be great, due to the freedom spirit of its Christ-loving forefathers."

"The price of freedom is the blood of those many soldiers shed on foreign battlefields," he said. Kay Szydlowski sang two numbers, "The Man I Love" and "Embraceable You."

Mrs. Dean accompanied her husband from Plainview, and other guests were Mr. and Mrs. Lee Nowlin of Plainview, Mr. and Mrs. Al Muldrow, representing the Rotary Club, and Mr. and Mrs. Curtis Sterling, representing Brownfield Jaycees.

Bob Tobey, who has been secretary of the club the past year, reported that the club sponsored 25 activities last year, including the purchasing of glasses for many needy children, purchasing of hearing aids, and came for blind people, support of needy families at Christmas time with the purchasing of toys, food and clothing, and the sponsoring of a Boy Scout troop.

Sixty-five persons attended the banquet, including wives of the members.

Mr. and Mrs. Jerry Wessels and daughter, Mary Jane, from Rockford, Ill., visited in the Lal Copeland home Wednesday through Monday.

Miss Donnalita Cooksey of Seagraves is employed as secretary in the office of the Continental Oil Production department, 404 West Broadway.

'Forget-Me-Not' Day By DAV Saturday

The Disabled American Veterans Terry-Young Chapter 131 will sponsor a "Forget-Me-Not Day" on June 21.

Urging that everyone in Brownfield wear a blue flower of remembrance on that date, National Adjutant Vivian D. Corby, of the Disabled American Veterans, sent the following message to Commander John H. Aschenbeck, "We have now reached a period when the public is apt to take the disabled veteran for granted. Many persons mistakenly believe that the disabled veteran is well cared for and can forget him."

The message further stated, "But it must always be kept uppermost in the mind of the public that as time goes on the ills of the disabled veterans increase. The number of disabled veterans increase. Korea has added a large number to our ranks. At the same time the facilities to properly care for disabled veterans are likely to decrease and concern for the disabled veteran is likely to fade from the public mind."

"That is why it is important that everyone purchase and wear in his buttonhole the little flower of remembrance on 'Forget-Me-Not Day.'"

In designating June 21 as the date for the sale of the flowers of forget-me-nots, Commander Aschenbeck said all funds from the sale of the flowers will be used locally to aid disabled veterans in need, or dependents of disabled veterans.

Grain Storage Is Farmer's Problem

"We have had a quiet revolution in the harvesting of our grain crops in recent years and it is forcing changes in many other farm operations," according to B. F. Vance, State PMA Committee Chairman.

Vance says, "cutting and threshing is all done at one time now—only a few years ago binding, shocking, stacking and threshing extended through most of the summer. Now the whole job is done in a few days. It has brought transportation and storage problems that were unthought of a few years ago. The new problems of grain storage to a large extent will have to be taken care of by the farmer himself. He cannot assume that there will be enough local elevator space nor transportation to take care of the grain now that harvesting and threshing are squeezed into such a short time."

The winter wheat crop has been estimated at 986 million bushels. Add spring wheat to that and it looks like we will have a big wheat crop this year. That means greater glut at country points than usual and probably lower prices to the growers. With a big wheat crop coming on, farm storage will be more important than ever. CCC loans for the purchase of farm storage facilities are still available to farmers. These loans are for 5 years and bear 4 per cent interest. The local county PMA office is the best place to get the local details."

Vance points out that the farmer with approved storage space can get a price support loan on his wheat. That means he will not have to sell his wheat below the price support level. Almost 30,000 loans have been made to farmers to build storage facilities since the law passed in 1949. These loans came to a total of about 33.5 million dollars and provided farm storage capacity of nearly 119 billion bushels.

50 Pints of Blood Guaranteed For Blood Bank By National Guard

Pledge cards arrived and plans are being completed for the arrival of the Blood Bank in Brownfield on July 17, with 50 pints of blood guaranteed by the Howitzer company, 112th Armored Cavalry Regiment of the National Guard, according to announcement this week from the Terry County Chapter of the American Red Cross.

Capt. Sam Privitt of the National Guard told Red Cross workers the unit would also be responsible for assistance with handling of equipment when the Blood Bank arrives at the South Plains Health Unit.

Pledge cards will be available at J. B. Knight Hardware, Hackney & Crawford law firm, Terry

Collins, and those wishing to donate blood may also get cards from any Red Cross worker, members of the American Legion or members of the Hand Brothers Post No. 6794, Veterans of Foreign Wars.

The blood will be used exclusively for the Korean War front. In order to have the Blood Bank include Brownfield on its itinerary, it was necessary to guarantee 150 pints of blood. However, 250 pledge cards were ordered, as some blood donors will be rejected.

H. B. Virgil Crawford, member of the VFW, will be chairman of the local project, and William C. Brown, member of the American Legion, will be assistant chairman.

Twenty workers will be furnished the Blood Bank for the one day stop in Brownfield. This number will include four secretaries, who will be furnished by the Brownfield State Bank & Trust Co., and First National Bank; registered nurses, including Mrs. Jim Griffith, Mrs. Viola Simmonds, and Mrs. J. T. Ellis; canteen helpers, with Mrs. Whitney Lowe and Mrs. James Finley.

The National Red Cross announced a few general requirements: A normal healthy person between 18 and 60 years of age may safely give blood. All donors are given physical examinations. No chances are taken with the health of donors, and a physician is on hand at all times.

Donors who are minors, 18 to 20 years; inclusive, must have written permission from a parent or legal guardian; if married the consent of mate.

Must not weigh less than 110 pounds.

Two months must have elapsed since last blood donation.

Must not have diabetes or pulmonary tuberculosis.

Must not have jaundice or yellow discoloration of the skin within the past six months.

The Red Cross, being the only agency with experience in the blood bank field, was asked by the Department of Defense to recruit donors and to supervise the national blood program. Civic organizations and individuals are volunteering assistance for the project in Brownfield.

Films showing the use of blood received through Blood Banks have arrived here, and will be shown by Jones Theatres, and at civic meetings. South Plains Health Unit will furnish the projector for the films.

Anyone who will volunteer to assist with the canteen work is urged to contact Mrs. Mary D. Mason at the Terry County Herald.

Light Showers; Lot of Lightning Damage

Heavy showers fell north and northwest of the city a few miles out of town, Tuesday afternoon up to a half inch or better. But farmers say they never saw such an electrical display, and some admitted they were scared.

Here in town, it was mostly an electrical display, but did a lot of damage. J. B. Worsham had two houses to get on fire, one on the Tahoka highway, and the other on east Hill. Harlan Mason had a mattress to take fire at his residence.

The fire department was called to the Wines Hotel apartment; where an upstairs room took fire. The loss of a refrigerator seemed to be the biggest loss. The hospital lost one of its largest refrigerators.

At the municipal light plant the coils on one of the generator was badly scorched. A number of telephones were knocked out.

ITS ENGINE ADDS MUSCLE TO EVERY DROP OF GAS!

To many owners, the mighty 180 H.P. V-8 engine that powers the Chrysler New Yorker is the most remarkable feature of this remarkable car. It is certainly the most discussed automobile engine in many, many years.

This is the engine with hemispherical combustion chambers... the engine that gets more power out of every drop of gas. And non-premium gas at that!

Actually, it puts you in control of more power than you'll probably ever need use. You'll sense this... together with its unequalled response... the very first yards you drive. It runs smoother, more

quietly, and with less wear than any other engine ever built into an American automobile.

... and it makes driving (both cruising and the short runs) more fun than you have ever known it to be!

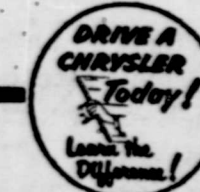

But that's not all. Along with this engine there are scores of other reasons, too, for driving a New Yorker before resolving on any new car. Like Full-time Power Steering that makes steering five times easier... and your control five times greater... than in ordinary cars. Like Power Brakes that cut needed pedal pressure by as much as two-thirds.

Like Oriflow shock absorbers that make even bad roads feel "newly paved"... restful chair-high seats... big, wide-opening doors... big windows that let you see more.

It's true... until you drive a Chrysler New Yorker you won't know what you're missing. Why not stop in today?

New and Easier Way of Farming

This is the new way of farming—the farmer uses his tractor to lift and transport mounted implements, and operates them without having to leave his tractor seat to attach or detach them. Tractors with built-in simplified Case Eagle hitch which makes this possible are made in three power classes for farms of all sizes.

RACINE, WIS.—A major step forward in mechanized farming is announced by J. I. Case Company—production of a line of tractors which, with mounted implements, can handle farm jobs without the operator having to leave the tractor seat to attach or detach implements.

Case officials expect the development to bring about "a new way of farming."
Carroll G. Pearse, vice-president, says it offers farmers, for the first time, "a simplified quick-coupling hitch, as built-in standard equipment, in three power classes of tractors, for use on the smallest to the largest farms."

A score of types of mounted implements can be used with tractors employing the simplified Case hitch, at a substantial saving in cost, time and labor.

Hitch Grabs Implements
Farmers "no longer will have to spend considerable time attaching a drawbar frame to the larger two and three-pow tractor," according to Mr. Pearse. "By using the simplified 'Eagle' hitch, it is now possible for the tractor operator to attach or detach farm implements as easily as a man puts on or takes off his coat."

The Case "Eagle" hitch gets its name from the manner in which it grasps the farm implement as an eagle clutches its prey. It has been proven in field operations of thousands of tractors since it was introduced on the Case small-farm tractor in 1949.

"Ever since the introduction of general-purpose tractors for row crop work, farmers have sought a tractor which could handle the various types of jobs to be done

on the farm without loss of time in changing implements and in getting from one job to another," Mr. Pearse says. "With the Case 'Eagle' hitch applicable to three sizes of tractors, this has become an actuality."

Use Less-Costly Implements
"Having the simplified hitch on the larger tractors will extend the benefits of using mounted implements, with their lower initial cost and simplified construction, to all sizes of general-purpose tractors. Mounted tools, some as much as 50 per cent smaller than similar pull-type implements, may be stored in less space and can be gotten into and out of storage much more easily. They can also be moved at top tractor speeds on the highway, instead of at the slow rate of pull-behind implements."

The hydraulic-control tractor with the "Eagle" hitch can pick up its own mounted plow; its operator can pick up his own tillage tools, or a clod crusher for compacting soil; he can pick up his planter and drop the seeds; he can pick up a cultivator and, after using it, detach it quickly and ride his tractor over to the mower and pick it up for immediate use.

"Later on, if he wants to grind some feed, he can by means of the 'Eagle' hitch, transport his hammer mill anywhere in the barnyard and operate it from the power take-off. The farmer can hook on to a utility carrier and do any of the innumerable lifting and hauling chores around the farm."

"Large tractors have now been developed to the point where they are instantly available for any job the farmer wants to do."

Mr. and Mrs. Roy Heartsill, 1102 East Broadway, returned home last Thursday after a two weeks vacation. They visited relatives in Marshall and other East Texas towns, before going to Ardmore, Okla., for a visit with Mrs. Heartsill's sisters, Mrs. Jessie Mason and Mrs. Virgil Smith. Mr. Heartsill fished some while there. They visited an aunt, Mrs. Lula Henry, and family at Ada, Okla., and in Paris, Texas, they visited their cousins, Mr. and Mrs. Fannie Bryant.

SUNLOVER

Five gay cotton bags that once contained feedstuffs for the chickens now double as a becoming changeabout costume for a sunlover's lass. It's another pretty print from the feed store fashion salon. Worn with the skirt, this outfit could be worn as casual daytime garb almost anywhere, the National Cotton Council says.

GOOD HEALTH

1. IS STOMACH CANCER CURABLE?
2. WHAT IS GOUT?

Answer to Question No. 1:
Stomach cancer is curable if diagnosed and treated early. Improved surgical methods, aided by transfusion of blood, better anesthesia and antibiotics, have helped in curing the disease. These improvements have come about in the last twenty years, especially in the last ten. With recurring abdominal symptoms, see your doctor.

Answer to Question No. 2:
Gout is a disease resulting from disorders in metabolism that produce swelling and pain in any joint of the body, particularly the big toe. Your doctor can give you great relief from the pain and he will be able to shorten the attack. Colchicin and proper diet lessen the likelihood of a recurrence.

Answer to Question No. 3:
Skimmed milk has all the properties of regular milk except milk fat and is therefore a valuable food. It is especially useful in reducing diets. Whole milk is preferable for children and adults who are underweight, but if skimmed milk is used the milk fat can be replaced in the diet by butter, oleomargarine, or other fats if desired. Big Spring Area Is Still Dry as Sahara

(Delayed)

The wife and Old He drove down to Coahoma last Saturday afternoon late, and received a royal welcome at the home of the sister, Mrs. Rosetta Roberts, and daughter, Leatha Nell. Will say with regret that little of Howard County has had enough rain to plant, and the grass still looks like the dead of winter.

From Brownfield to Ackerly, practically all the crops have been planted. Ackerly is on the lines of Martin, Dawson and Howard counties. In fact the four counties of Dawson, Broden, Howard and Martin all corner near that little town, which is just over in Dawson. From there on, it is pitiful. One spot around Knott seems to have had enough rain to plant.

Mrs. Roberts' farm two miles north of Coahoma has not been planted. One man, Jake Wolf, who has a farm some five miles north, thought he had sufficient rain to plant, but stated that if the cotton came up, he didn't believe it would live unless he had more rain soon.

Some of the kin, Cleve Holden

and wife of Coolidge, Ariz., who are there helping to straighten up the Wolf estate, along with his wife's brother, Jake Wolf, and the Stricklands, had a picnic lunch at the Big Spring park, Sunday. It was awfully dry and dusty, and the little creek that runs through the park don't seem to have had any water in it for years.

But Big Spring, despite its dearth of water, just keeps on getting just about everything the state and federal government have to hand out. As you probably know, they have a large insane hospital; a six million dollar veterans hospital, and now they are reactivating the airbase there. Yet they do not even have water enough to sprinkle their yards or wash cars—prohibited.

Guess they have a good pull with the political fraternity at Washington in exchange for a big supply of votes. Anyway, the town keeps growing, with a lot of new residences under construction or just built. We enjoyed our visit despite the heat and drought.

Mrs. Frank Weir and daughter, Nancy, and Miss Gracie Jordan of Waxahachie recently visited Mrs. Weir's and Miss Jordan's brother, Jackson C. Jordan, in Los Alamos, N. M.

Cox Says Venereal Diseases Show Drop

AUSTIN.—Public health workers are encouraged by the drop in venereal disease, but are wary of future developments should persons feel that the danger is past, said Dr. G. W. Cox, State Health Officer.

As long as the infections remain among a relatively small segment of the population the danger of spread to non-infected persons exists. Dr. Cox declares that everyone should avail himself of the free information concerning the nature, cause and spread of venereal diseases.

There is little reason for a person who becomes infected with a venereal disease today to suffer without treatment. Modern "wonder drugs," principally penicillin, have made possible the rapid treatment and cure of most cases. Just a few years ago treatment required one and a half to two years care by a specialist.

Despite the encouraging progress against venereal diseases it must be recognized that many undetected cases still exist. Our over crowded mental institutions are populated with thousands of patients with syphilitic mental

disorders. Last year 431 persons died of syphilis.

Dr. Cox states that this personal and public health problem is still with us and everyone should join in the fight against the venereal diseases.

The training given reserves closely parallels that given the regular recruit. Certain subjects are stressed and others are eliminated from the training due to the shortness of the course as compared to the 11 weeks afforded the regular Navy recruit.

Stricklinly Speaking

By OLD HE

To say the least, the family and others were very good to the Old He last Sunday, "Dad's Day." We go a lot more than we deserved or expected. In fact, some sox, a tie or a hanky was about the height of our ambition. Frankly, if we had not seen so many guys, joshings, comics as well as some on the level stuff so many days prior to the event, we might have never even thought of the day when it roled around. It has not been too many years when the Fathers Day idea was unknown, out here on the Plains at least.

But, we got a suit of cloths, a real nice suit—with two pair of britches. Just a bit fancy in coloring for a man on the shadv

side of three score and ten, but pretty, and when we put on a white shirt, polished our tan shoes, draped a freshly cleaned and pressed tie about our neck, we might have passed for a Beau Bommell—or however you spell it—in this neck of the woods. They'd even taken an old pair of our trousers to fit the two pair of new pants by, but lacked about an inch of accounting for all that paunch we have, even though that is down several inches and poundage from a few years ago.

We are just a nice 163 average duipoiser now, compared with some 196 a brief three years ago. Well, sir, we can thank the wife and the Juniors and the Triggs for the nice present. And if you think our little girl friends, Jonelda and Becky forgot Daddy Jack, you have another think coming. They

slipped in early Sunday morning with a package. It was a hand carved pepper and salt shaker set, some 6 inches high, and carved out of very pretty wood, with the grain showing just right. Had that suit all packed to show off back in Tennessee, but you may see what happened to that voyage elsewhere.

Well, the State candidates have begun to bile in and bilow all over the area. Each of them have two or three Boys Fridays that berge in to each and every place of business, while the state and nation saver is putting the final butter coating on their messages to the "deer peepul". These wise young Fridays especially like to drop by the newspaper offices and leave a stack of stuff that would fill the Congressional Record, with a nice supply of mats of pictures of the statesman in the ad of officially "setting" the old blue hen on the Smith farm down in the piney woods.

One such youngster with a grin from ear to ear and very pleased to meet you sir, air, dropped in this week, and began to unload his stuff on us. It is just a bit painful to disclusion a smiling young squirt, who thinks the man he is promoting is the acme of perfection. But sometimes you have to bear down a bit, and we did. We don't mean we tried to insult the young man or disparage his candidate. Far from that.

But we did try to make it plain to the youngster that newspapers, particularly small town and city weeklies, are getting well fed up by candidates writing in to ask them to announce when they are going to use one of the State Radio networks, (at so many thousand bucks per half hour). So, we just dropped a gentle hint how the little "kentry editors" felt about the matter. He saw the point at once, and promised us a "gom" of advertising before the campaign is over. We can probably hold all the ads we get in our eye.

Speaking of radios, however

HOME FROM KOREA

R. D. S. V. Joe Buri-Line, son of Mr. and Mrs. Martin Line, will return to Long Beach, Calif., after visiting in Brownfield for the past several days. Jody has been in Korea for the past six months and returned to the states June 9. He arrived in Brownfield the 10th to visit his wife, the former Jo Ann Machien, and his parents and other relatives. Jo Ann is going to Long Beach with him where he will be stationed for awhile.

Mr. and Mrs. Slim Schillinger will return tomorrow from Anacillo where they are visiting her aunt, Mrs. Vernal Renfro, and family since Monday afternoon.

Guy Hubbard, son of Mr. and Mrs. W. O. Hubbard of San Angelo, arrived Monday for a visit with his uncle and aunt, Mr. and Mrs. Bill Williams.

We are going to give the old reliable, WFAA of Dallas Morning News a small plug. Probably radio listeners of the southwest, and particularly Texans, have listened in on this station more than any other. One thing, it is the oldest "high powered" station, and has always had some good clean programs. They are throwing their 30th anniversary June 23rd through the 29th, and they have invited 50,000 people to be their guests during those days.

There will be three daily door prize drawings, many of them very valuable. The station where the audiences will be seated, is air-conditioned, and the entertainment will be of such a nature that the youngest to oldest will enjoy it. Sorry we can't make it.

We know there will be a lot of disappointed people this week (in a goat's eye) that there are no editorials, but Monday is generally our editorial writing day while we are fresh from a weekend rest. But Monday, we were on our way to Tennessee—we thought. So, don't weep too much, and we'll try to have a few hair-raisers next week.

IT'S A HIT!

So says television actress Cynthia Stone in a heated discussion with her real life husband and co-star in "The Couple Next Door," Jack Lemmon. Though their tempers may rise, the National Cotton Council points out, both will agree that Cynthia's Alberic Original sweater knit of Durane mercerized cotton yarn is a hit!

Missionary Speaks At WMU Meeting

The Janelle Doyle Circle gave the Royal Service Program. Mrs. A. W. Turner gave a talk on "Ministerial Relief" and the needs for retired ministers and minister's widows. An offering was taken for the ministerial relief.

Mrs. Lucy Cowan gave the devotional and Mrs. Kelton Bonham, a home missionary to the Japanese in California, gave a talk to point out the need for missionaries to the foreign speaking people in California.

She said, "Southern Baptists have been in missionary work in California for ten years and have 300 churches. They have an average of establishing one church a week. Seventy-two percent of the people in California have no church preference and 95% of the foreign speaking people are unsaved."

She also pointed out that 21 converts among the Japanese people have been made this past year. In San Francisco there are 30,000 Chinese and only one missionary.

Mrs. Bonham is the daughter of Mr. and Mrs. L. C. Heath. Both she and her husband are in missionary work.

Murphy Casserole

Whether you celebrate St. Patrick's Day or not, you'll want to add a good potato dish to your menu. For the Irish—a day without potatoes is a day without nourishment. We serve them often, and add extra flavor and Vitamin A with thrifty Blue Bonnet Margarine. For a good Sunday night supper, or for any night, we suggest a Murphy Casserole, thinly sliced potatoes gently baked with onion, cheese and margarine. Alongside it, maybe a platter of cold cuts and a green salad. Top off your menu with dessert—perhaps ice cream and coffee—and that's all you need for a delicious, easy to prepare meal.

Murphy Casserole
 4 cups thinly sliced potatoes (about 6 medium) 2 tablespoons chopped onion
 1 teaspoon salt
 2 tablespoons Blue Bonnet Margarine 1/2 cup grated sharp cheese
 Soak sliced potatoes in cold water for 15 minutes. Drain and dry well, between towels. Grease 1 1/2 quart casserole. Line with half of sliced potatoes. Sprinkle with 1 tablespoon chopped onion and 1/2 teaspoon salt. Dot with 1 tablespoon Blue Bonnet Margarine. Top with remainder of sliced potatoes, chopped onion, salt and margarine. Top with grated cheese. Cover. Bake in moderate oven (375° F.) about 50 minutes. Remove cover. Bake an additional 5 minutes or until lightly browned. Makes 6-8 servings. (fns)

In the good old summertime, a fella can just kind of take it easy, especially when he's all zipped up in his seapaneler Sleepy Eye. Mother puts this made-to-fit cover over his other clothes, so cool breezes can't get to him while he's sleeping. When Fuzzy starts to tiddle, Sleepy Eye won't be in his way, because he can walk or crawl in his sleeping bag!

SHRIMP RAREBIT MAKES A FINE MEAL

Depend on tangy cheese rarebit combined with the heartiness and flavor of fresh or quick-frozen shrimp for welcome mealtime variety. Ladle the rarebit hot and bubbling over toast triangles and serve with crisp salad, bread or rolls and tall glasses of sparkling beer for a satisfying meal.

A delicious rarebit which will never curdle or separate and doesn't require constant watching can be made with processed cheese. This rarebit will melt to a smooth, golden mixture with but an occasional stir of the spoon and the cheese can be added in one whole piece, instead of being chopped or grated first. Select the very sharpest processed cheese, and of course, use only beer in any rarebit recipe because this is the ingredient which gives that flavor and tang so typical of genuine Welsh rarebit.

"Fool-Proof" Welsh Rarebit
 1/2 lb. sharp processed cheese,
 1/4 cup beer
 1/2 teaspoon Worcestershire Sauce
 Dash tabasco sauce
 Few grains paprika
 Put whole piece of cheese and beer in top of double boiler over boiling water. Cover and let cheese melt, stirring occasionally, until thickened and smooth—about 10 to 15 minutes. Add seasonings. Serve hot on toast. Serves 4. (Note: If thinner rarebit is desired, add a little more beer after the cheese has melted.)

METHODIST WOMEN TO MEET IN MORNINGS

In a meeting of all members of circles of the Women's Society of Christian Service Monday at 3 p. m., at First Methodist Church, the group voted to meet at nine o'clock on Monday mornings through the summer, instead of the afternoons.

Mrs. Ernest Latham, president, presided during a business meeting, and she announced the sub-district WSCS meeting held in Seagraves Tuesday.

Mrs. W. B. Downing gave the opening prayer. Mrs. Geo. Weiss was program chairman, and a devotional from Deuteronomy 12:6 was led by Mrs. Wayland Parker. The song, "Something For Jesus" was sung, the program was presented by Mrs. Weiss, Mrs. J. H. Carpenter, Mrs. Coke Toliver, and Mrs. Jim Griffith.

We Make Quick Trip to Tennessee

We have never made many outstanding records in our life, either on the good or bad side. But Monday, we tell our friends who will listen, that we made a round trip to Tennessee in record time—some seven and one-half hours—flat. It all came about when we had a phone

call Monday from Daniel Rogers, for us to get word out to his brother, Phillip in the Harmony community, that their dad, Will Rogers was very, very low.

As there are no rural telephones, the Mrs. drove out to the Rogers farm, and he sent word in by her he would be in soon, and expected us to make the trip back there with his in his practically new car, 1951 model. His niece, Miss Carolyn Pippin, of Paris, who had been visiting him, was also going

perhaps on to Tennessee, as the elder Rogers is her grand-dad. Our wife made some sham-handwiches for a quick getaway lunch at 11 a. m., and we were off. The only catch is that Phillip was still trying to use winter weight oil in his engine. Everything seemed to be going OK, and the plan was to drive all night, unless he became sleepy. In that case we would bed down for the rest of the night, and take off for Tennessee from our beds somewhere in Arkansas.

But just as we reached the outskirts of the little city of Jayton, we had to slow down at a stop sign, to turn right to get into 380 that would carry us to Aspermont and Haske'll. When we stopped the engine knocked. "Afraid we have a rod out," says Phillip. The garage mechanic stated when we reached a garage that if it was just a rod, he'd have us rolling in a couple of hours. But when they went into the bowels of the thing, the crank shaft was burned up. "Oil too light for hot weather," was the verdict of the mechanic.

But long before we heard the bad verdict, we had moved in on the Jayton Chronicle and found Eldon, the editor, publisher, linotype operator, pressman and printer's devil, turning out news on the old Merg. But he stopped short, and almost like the old song, Grand-Dad's Clock—"to never go again, when the old man died." But the day was hot as heck, and we got chairs where the air conditioner would be most effective, and when not running, over to the drug store for pops and coffee, we talked shop.

Eldon, it will be remembered, was the man who put in the Brownfield News in 1937, and he was a good, clean competitor, as he, like several of the brothers, had been brought up in a print shop by their dad and uncle. They understood newspaper ethics. We remember that when they first put in here, they stated to us they did not intend to cut prices, and they didn't. But he did bring out a sad story that we had never heard or had forgotten.

He had a partner, who had been innocently recommended by another brother. This partner seemed to be OK, and attended to the advertising and business while Eldon carried on the mechanical part. The first two issues came in the middle of a month, and then a full month, "and the run was pretty good," Eldon stated. The guy, whose name we will not repeat,

The Life Story of Editor Tom Gooch

Aside from informative news items in the Dallas News, Star-Telegram and Lubbock Dailies, we enjoyed the unbiased editorials in these publications about the passing last week, of Tom Gooch, publisher of the Dallas Times Herald. In the case of the Dallas News, that publication is a direct competitor for Dallas advertising business with the Times-Herald. But the editor of the News spoke in glowing terms of the fairness of Gooch. He never took undue advantages.

As for the Star-Telegram, there had always been a lot of good natured rivalry between its publisher, Amon Carter, and Mr. Gooch over the merits of Dallas and Fort Worth. Gooch had always met the rival football teams, especially TCU when it came over to play SMU, with Carter generally along, at the Tarrant-Dallas county line between Arlington and Grand Prairie. He would then escort the Fort Worth players and fans into Dallas with police escort and much fanfare. Of late years, the Mid-Way airport at Arlington has been the media of much editorial discussion of the Fort Worth-Dallas papers.

But Tom Gooch was somewhat of a character to the Herald family aside from the above points of view. He was a kinsman of the Herald family. He was a first cousin of S. R. Taylor, of Denison, and of course a second cousin of Mrs. Jack Stricklin Jr. While never visiting much they always maintained contact, especially at the death and funeral of any of the elderly relation. They highly respected the council of Tom Gooch, who proved his friendship in the settlement of some of the estates.

As many of the news items tell us, Gooch really got his start in the newspaper career 56 years ago on the old Fort Worth Record, a competitor of the Star, later the Star-Telegram under Carter. His mother died in that city a few years ago, at a ripe old age. Gooch's father was an Englishman but married an aunt of Mr. Taylor. The grandfather of the Taylors and Gooch, Bob Taylor was one of the most noted early day lawyers in Texas, and had a partnership with Ex-Gov. Throckmorton of Texas.

And one of the old great aunts was said to be the first white woman to settle in John Neeley's colony, later to become Dallas. So, the Herald is sort of like the fellow that shook the hand that shook the hand of the president. We of the Terry County Herald had a more than passing interest in the life and career of the late Tom Gooch.

A son, weighing 7 pounds ½ ounce, was born to Mr. and Mrs. L. G. Wilson, 507 East Stewart, in a Lubbock hospital on Monday, June 9. The father is a local teacher and football coach.

collected the whole six or seven weeks business, deserted his family here and skipped to Paris, unknown. This threw the business in a bad jam, as many bills around town, as well as machinery and supply payments had to be made. But friends came to his rescue, and saved the day. We believe he was then joined by his brother, Farley Wade, who took over the business end of the paper.

About 2:30 p. m., Phillip and Carolyn got out on a bus to Abilene, to catch one headed for Paris. In the meantime, Mr. Wade had volunteered to see that we got back as far as Post, and we phoned for the Junior's to meet us there. Another one of the Wade boys—there are forty some odd dozen of them—who happens to be the Postmaster at Jayton, along with Eldon and another gentleman, whose name escaped us, decided to take in the ball game at Lamesa, where another one of the Wade boys, Bob, has a job printing plant.

So, the four of us left Jayton somewhere after five p. m., and when we reached the Algerita hotel at Post, there stood the Stricklin Ford, with Jack Jr., wife and the two little twaddlers awaiting us. So, we were back in Brownfield at 7 p. m., following our start to Tennessee.

But we enjoyed the day immensely with Editor Wade.

Teague-Bailey Wins Game at Plainview

Teague-Bailey Chevrolet defeated Murrell Furniture Co. of Plainview, 6-1, Friday night before one of the largest Plainview crowds of the season, even though it was played in a high dusty wind.

The loop leaders, with a record now of 10-1, scored two runs in the second on a single by Rusty Stewart and a double by Frank Barton. Barton's hit was bobbled by the leftfielder and both runs came home.

An error and a single by Dunk Warren got one run in the fourth and the game was put on ice with three in the ninth. An error and

a hit batsman put two men on base, with one coming home on a fly out. Then L. C. Morton homered to left-center to score the final two tallies.

The losers got their only run in the bottom of the last inning on a single by Wally Fowler and a sacrifice and a single by Jack Atkins.

Mutt Ray was the winning pitcher, his seventh of the season. Weldon Hancy took the loss.

GOOD HEALTH

1. HOW COSTLY WERE ACCIDENTS IN 1951?

2. HAS THE LIFE SPAN OF INDUSTRIAL WORKERS INCREASED?

3. WHAT IS BURSTITIS?

Answer to Question No. 1:

Estimated losses from fatal and non-fatal accidents in 1951 were \$3 billion, including wage losses, medical expenses, insurance costs, production delays, damage to equipment and property. Accidents killed 93,000 people in the United States during the year and injured more than 9 million others. One out of every seventeen persons in the country suffered a disabling injury during the year. Automobile accidents killed 27,500, the highest toll in ten years. Home accidents took 27,000 lives and occupational mishaps caused 16,000 deaths. This should be a warning to all of us. Be careful!

Answer to Question No. 2:

The average life expectancy of industrial workers in the United States today is more than 69 years. This represents a sharp increase over the average life span of industrial workers early in this cen-

tury when it was only 47 years. It reflects, among other things, the wide expansion of medical knowledge, the defeat of many diseases, advances in sanitary practices, improved diet, and better working conditions.

Answer to Question No. 3:

Bursitis is one of the most common, most discomforting and least understood of ordinary human afflictions. It commonly involves the bursa (sac with fluid over a joint) over the shoulder. Bursitis usually comes from an injury or an infection and frequently can be treated by simple means under the direction of your family doctor. If it does not readily yield to this treatment, the physician may withdraw the fluid or give X-ray treatment, or apply a restraining brace. Surgery is rarely needed.

It's the price of the six-passenger, two-door SPECIAL—ready to roll.

When you put this price against the local delivered prices of other cars that folks usually associate with Buick—you'll have a hard time finding a single one as low.

When you put this price against what you'll pay for cars with the reputation of being "lower priced"—you'll find why this Buick gives them such keen competition.

And—if you want to go in for extras—you can still add up what goes on the bill of sale of other cars and a Buick—you'll find out that Buick's an even greater buy.

We know that price is important to a lot of folks, especially with the price of groceries—and even baby shoes—where they are today. But you also want some fun for your money—and that's where a Buick really shines.

Just wait till you give a gentle nudge to the power that's under that big, broad hood and feel your shoulders sink back as this beauty takes off.

Miss Wanda Stafford, Bride-Elect, Is Honored With Gift Party

Miss Wanda Stafford, who is to marry Gerald Miller Price on June 29, is being complimented with a series of pre-bridal parties.

A bridal shower was given on Thursday, June 12, at the home of Mrs. A. H. Daniell, 508 East Cardwell, from 5 until 7 p. m.

Mrs. Harvey Gage greeted guests at the door and presented them to the receiving line composed of Miss Stafford, her mother, Mrs. A. T. Stafford, Miss Flo Stafford, Mrs. Jo Price of Lovington, N.M., mother of the prospective bridegroom, Miss Joan Price and Mrs. Daniell.

Presiding at the bride's register, was Mrs. G. P. Peyton. Mrs. Ervin Rambo assisted.

The serving table was laid with an imported madeira linen cloth centered with a crystal bowl of blue daisies. On either side of the floral arrangement were blue tapers in crystal candelabra. Miss Dorothy Holmes, Norma Jo Boyd, Dorothy Nell Brownlee and Schariya Daniell alternated with the serving. Yellow snapdragons and greenery surrounded the crystal punch service. Iced lemonade, small daisy cakes with yellow centers and shrimp were served.

Decorating the buffet was a miniature football field with blue daisies in the background. The goal posts were wrapped in pale blue and yellow, the bride-elect's chosen colors. On the field were miniature football players, and blue tapers in holders shaped as footballs were on either end of the buffet.

Bouquets of yard flowers were used throughout the house.

Mezaines Frank Weir, Ray Schmidt, Shorty Forbus, T. L. Trzaskaway, Claude Merritt, D. E. Green and Elmer Brownlee alternated in showing the wedding gifts.

Out of town guests in the house party were Misses Katie Williamson, Childrens, Margaret Ann Jones of Gatesville, Rheta McWaters of Abertathy and Marion Holton of Lamesa. All are classmates of Miss Stafford at Tech.

Approximately 200 guests attended or sent gifts.

Have You Heard?

—By Margaret Coward—

The children in our neighborhood played "Harvest Festival" several weeks last fall after the annual event. Small boys and girls found some of the paper used on decorations of floats; and sticks, broom handles, and all kinds of toys were imaginary floats, then they would play "band."

After the Jaycee Rodeo, our broom became the widest broom in the area for the "coming four-year-old" son.

Immediately following Vacation Bible School, the broom spent part of the time as a horse and part-time Christian flag. The "little tykes" have called "Attention!" then said parts of pledges to the American and Christian flags. They have sung songs, and our own little fellow plays "teacher" sometimes!

Dr. Howard Wayne McIlroy is now practicing with his father, Dr. T. H. ... and when the young "Doc" just returned here after finishing school, he would answer the telephone at the office and say, "This is the Young Doc" ... then his Dad's friends started teasing Dr. T. H., asking, "Is this the Old Doc" ... Well, Dr. and Mrs. T. H. are not so old, so although Dr. H. W. is not a Junior, he politely informs those who call, "This is Doc, Junior."

We don't know how old W. B. Downing was last Friday 13th, but

according to his friends he has been a resident of Brownfield since away-back-when!

Mr. and Mrs. Sam White, 117 West Main, entertained members of the "Mr. and Mrs." 42 Club last Friday night, and a backyard supper was enjoyed before the games. Those attending did not know about Mr. Downing's birthday, until they arrived, so all they could do was sing the traditional song.

Enjoying the "42" games with the Downings and the host and hostess were Mrs. R. M. Kendrick, and Messrs. and Mesdames L. J. Dunn, J. H. Griffin, M. J. Craig Sr., and A. A. Sawyer.

"Thanks Again" to Marg Williams, who so efficiently reported the news through the Herald, while we were indisposed! Headaches and the extraction of a wisdom tooth are not worth mentioning, do you think?

MARY ANN STRICKLIN PARTY HONOREE Mrs. Jack Stricklin Jr. complimented her daughter, Mary Ann, with a party on her third birthday June 10 from 4 until 6 o'clock at her residence, 708 East Respto. Pictures were taken and small wheelbarrows filled with candy were given as favors.

Martha Stewart

Martha Stewart, who has just taken the co-starring role with Pinky Lee on NBC-TV's "Those Two," began her professional singing career at the very youthful age of sixteen. The pretty, vivacious blonde had to fit a bit about her age to land that first singing engagement, which

was in a supper club in New York's sophisticated East Fifties, but that engagement was the beginning of a busy period of singing with top name bands.

For several seasons, Martha toured the country as the feminine vocalist with orchestras such as the late Glenn Miller's and Claude Thornhill's. The daughter of a construction engineer whose work took him all over the country, Martha really settled down for the first time when she became the singing star of the radio show, "Your All-Time Hit Parade," and now considers herself a native New Yorker, even though she was born in Kentucky. She left New York for a while to fill a film contract, and has made a variety of successful pictures, including the musical "I Wonder Who's Kissing Her Now," and the straight dramatic "In A Lonely Place," with Humphrey Bogart.

Among her interests outside of singing, Martha numbers one of the most important her deep curiosity about the town she has chosen as her home. She feels that by now she is probably a walking guidebook to all of Manhattan's unusual restaurants, fascinating museums, famous buildings and all of its other places and objects of interest.

HERE'S CINNAMON TOAST AT ITS BEST

Serve cinnamon toast — lots of it — often. It's not too sweet, not too rich — just right for breakfast, with fruit salads or with fruit desserts.

Do you ever wonder what to send a hostess as a "bread and butter" gift — especially the hostess who has just everything? Well, here's something any woman would love to receive — a gay shaker-top jar of cinnamon sugar all mixed and ready to use. And for an extra thoughtful touch type up the instructions for making the best cinnamon toast ever and patte them on the jar — instructions for a refill too.

CINNAMON TOAST

Place day-old slices of enriched yeast-raised bread under broiler until lightly browned on one side. Remove and spread untoasted side with softened margarine or butter. Sprinkle with cinnamon sugar and 1/2 with more margarine or butter. Place under broiler until bubbly all over. Serve immediately.

MY OWN SUPER CINNAMON SUGAR

Combine thoroughly 3/4 cup granulated sugar, 1 tablespoon cinnamon and 1/4 teaspoon ground cloves (optional). Makes almost 1 cup so you'll need an 8-ounce shaker top jar.

Morale Is A Woman's Business

Morale—at the national, community and home levels—is a woman's business, according to Charles Revson who has been studying feminine foibles on five continents over the past 20 years. It isn't only how women feel, talk and act but how other people feel about them that strengthens or weakens the country's morale and Mr. Revson whose Revlon Products Corporation is the world's largest company in the cosmetic field believes that now is the time when it is so important for women to be at their best so their morale-influence is high.

For a woman, beauty products finish the job where nature left off and the final luxurious lift is the aura of fragrance around her. When Mr. Revson decided to add a fragrance mist to the company's line, his research chemists experimented with many scents and then, after long experiments they perfected a bouquet that is like a lovely garden with dew still on the buds. They called it Aquamarine Mist and women everywhere accepted it immediately. Some splash it on after a shower, others spray it over them before they slip on their dresses and there are those who whisk it on with fingertips after they are dressed. While it has the lingering loveliness of a treasured perfume because it is concentrated, it can be used lavishly because of its inexpensiveness.

GOOD HEALTH

Answer to Question No. 1:

In many cases of childless marriage the cause of sterility can be discovered and corrected. See your doctor, tell him your whole story and follow his advice closely.

Answer to Question No. 2:

Some babies are born with a malformation of the heart that prevents it from pumping enough blood into the lungs where the cells receive the oxygen which makes blood red. The baby's bluish blood makes lips and skin take on the same dark hue. There is now hope for children with such a malformation to become normal, healthy adults through a delicate

operation developed as recently as 1944.

Answer to Question No. 3:

Local public health departments are needed to improve sanitary conditions, control communicable diseases, record vital statistics, develop services for the prevention and detection of chronic illness, and provide the public health departments with information. There are 1,228 full-time local public health departments in the United States. However, nearly half the counties in the country are still without such coverage.

When John Ballantyne, of Pueblo, Colorado, returned to civilian status in 1945, he held the Air Medal, Bronze Oak Leaf Cluster, Purple Heart, the Bronze Arrowhead and a firm desire to get into the trucking business for himself.

To this end, he saved every spare dime from his army pay check and when his discharge came the savings enabled him to purchase a second-hand tractor. Within three years he had added two more tractors and then sold one of the tractors to purchase a used Fruehauf livestock trailer to enter into the business of hauling cattle. This made him a full-fledged truck operator and he named his organization the Ballantyne Trucking Company.

ROY COLLIER'S RETURN HOME

Mr. and Mrs. Roy Collier returned home Tuesday afternoon after a month's trip that took them as far north as Kingston, Ontario, Canada. From Canada they went to Syracuse, New York for a visit with their daughter, Mrs. Jimmie Wade, the former Miss Wanda Collier. Her husband is stationed there in the Air Corps.

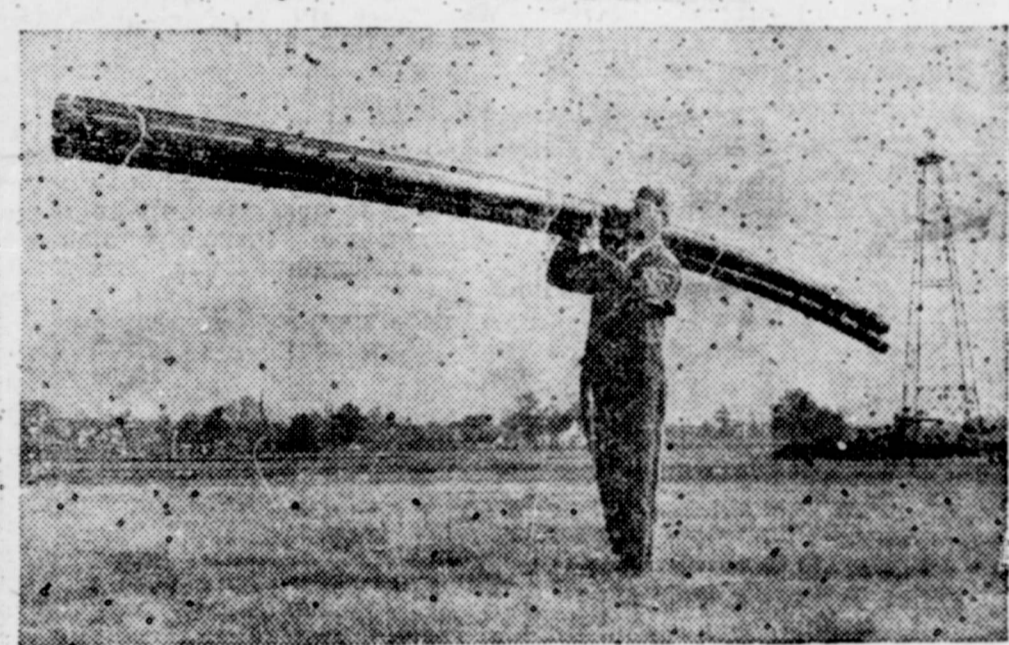

Mr. Collier said he won "two first prizes" while on his trip, at Syracuse he was awarded a prize when he attended Rotary club for having traveled the farthest distance. Then when they stopped "somewhere on the Delta" in the Mississippi for him to attend a Rotary luncheon, he received a bale of cotton for the same... a miniature bale of cotton, that is!

Plastic Pipe Proves Boon to Oil Industry

Light weight of this new butyrate (Tenite) plastic pipe for the oil fields speeds installations, cuts costs. Worker in picture carries three 20-foot lengths—about 60 pounds—with ease. Equivalent in cement lined steel pipe would weigh approximately 720 pounds. The butyrate plastic pipe is corrosion resistant when used for oil gathering, salt water disposal and repressuring lines. Paraffin does not accumulate and obstruct passage of oil through the pipe according to Tennessee Eastman Company, manufacturer of the plastic.

Farmers Are Busy as they have only a short time in which to make a crop but we have had some rain and trust the giver of all good things that more will follow and a bountiful harvest may result. I try to always have good farm land to offer worth the money asked for it. If you have land for sale that is good and worth what you ask for it list with me and I will show it to interested buyers. If you anticipate buying a farm or property to rent or live in, in town, see me as I may have what you want as I have good income properties listed. If you can find a better bargain elsewhere I will expect you to buy it. All I ask is a chance at your business either buyer or seller.
