

Brownfield Grid Season Opens Friday With Local Team Host To Pecos Eagles

Brownfield Cubs will open their 1952 football season Friday night when they meet the Pecos Eagles at Cub Field. Kick-off time will be 8 p. m.

The Eagles are highly favored in District 8-AA, which is composed of Seminole, Kermit, Monahans and other strong teams. Pecos boasts an all returning letterman squad this year, except for two reserve halfbacks and an end. Because of losing only three players from last season, they are rated as the number two team in the state for AA football.

Although the Cubs have 17 returning lettermen, they suffered a heavy loss of eleven men off of last year's squad. The 1951 Cubs won eight games, lost one, tied one, and were co-champions of the district with Littlefield.

800,000 Bales Cut From Cotton Crop

The U. S. Ag. Dept. trimmed 800,000 bales of cotton from the Texas cotton estimate, as of August 8 and September 8th. The August estimate gave Texas a crop of 4,200,000 bales, compared with the September estimate of 3,500,000 bales.

Many people believe that the October estimate will be even lower. Of the amount, it is believed that the 20 South Plains counties will account for some over 1,600,000 bales of the amount.

MILNER OPENS NEW SWEET SHOP ON MAIN

Brownfield now has a sweet shop with J. H. Milner as owner. The shop opened Monday, at 418 West Main, in the building formerly occupied by The Wilson Agency.

The shop will feature home made pies, cookies, French doughnuts and will take special orders for wedding and birthday cakes, and party cookies.

Mr. Milner needs no introduction as to his ability to put out first class products, as he has made cooking his profession here in Brownfield.

Gillhams Entertain For R. E. Senterfitts

Speaker of the House of Representatives Reuben E. Senterfitt and Mrs. Senterfitt of San Saba were weekend guests in the home of Representative-elect J. O. Gillham and Mrs. Gillham. The Senterfitts were honored with a barbecue dinner and reception in the back yard of the Gillham home Saturday night.

Other Representatives in the Legislature who attended were: Rep. L. L. Armour of Sweetwater; Rep. and Mrs. C. F. Senter of Snyder; Rep. and Mrs. Elbert Reeves of Matador; Rep. and Mrs. Sam E. Wholford of Stratford; Rep. and Mrs. Jesse Osborn of Muleshoe; Rep. and Mrs. George S. Berry of Lubbock; and Rep. and Mrs. John Kimbrough of Haskell.

Other out-of-town guests included Mr. and Mrs. Willard Cox of Morton and Mr. and Mrs. Kenneth May of Lubbock. Mrs. Cox is a sister of Speaker Senterfitt, and May is on the editorial staff of the Lubbock Avalanche-Journal.

Guests from Brownfield were: Dr. and Mrs. A. H. Daniell, Rev. and Mrs. Dallas D. Denison, Miss Betty Holmes and Messrs and Mesdames A. M. Muldrow, C. C. Primm, J. M. Teague, Jr., J. B. Knight, Bill McGowan, Ned Self, R. L. Bowers, Leo Holmes, Bruce Zorns, J. E. Gillham, Robert Lee Craig, Curtis Sterling and J. C. Powell, Jr.

Coach Toby Greer says he and his boys realize they are facing heavy odds this year, after losing so many experienced men, but that whatever they lack in power they hope to make up for in enthusiasm.

Probable starters for Pecos will be: Center, Tenny, 175 pounds; Guards, McNally, 170 pounds; Northcutt, 165 pounds; Tackles, Cubow, 195 pounds; Camp, 165 pounds; Ends, Eisenwine, 165 pounds; Hess, 165 pounds; Halfbacks, Cook, 145 pounds, R. Gutierrez, 150 pounds; Fullback, Langhorn, 185 pounds; and Quarterback, Orlando Gutierrez, a 145-pounder, who is described as an excellent ball handler and passer.

The probable starting line-up of the Cubs, position, weight and numbers are: left end, Jerry Bailey, 155, No. 26; left tackle, Adrian Hinson, 172, No. 48; left guard, Claude Cypert, 165, No. 34; Center, Jack Lucas, 160, No. 31; right guard, Joe Sharp, 170, No. 32; right tackle, Roscoe Treadaway, 210, No. 50; right end, Loman Jones, 160, No. 28; Quarterback, Max Black, (Capt.), 180, No. 44; Left Halfback, Joe Swan, (Capt.), No. 25; fullback, Billy Thomason, 165, No. 30; right halfback, Jerry Anderson, (Capt.), 160, No. 46.

Reserves likely to see a lot of action are: Johnny Cloud, Royce Kelly, Jackie Stockton, Jerry Don Brown, Olen Chambliss, and Brian Brady.

In preparation for meeting the Pecos crew, the Cubs have been having workouts twice daily since Sept. 1, beginning in the morning at 6:30 o'clock and continuing until 8 a. m. and in the afternoons from 3:30 until 6:30 o'clock.

First scrimmage of the season for the Cubs was with Tahoka last Thursday afternoon. Each team was allowed possession of the ball eight minutes at a time, and scrimmage rules were, of course, very different from real game conditions. The Cubs still rolled up six touchdowns to Tahoka's one. The local team was slow in getting started, but "looked fair" from the sidelines considering they had only three days workout.

The Cubs and the Tahoka boys scrimmaged again Saturday morning, with the Brownfield team racking up another six touchdowns to Tahoka's zero. The Cub's defense was fair, but the offense still needed a lot of polishing. Several things were evident which needed to be corrected before the Pecos tilt.

Coming through in good shape is Max Black, 175 pound tackle, who has just been moved to quarter back. Jackie Stockton, playing end until this year, went to left halfback, where he is also making a good showing.

Affair Advertised By Bearded Men

Attracting quite a lot of attention here last week, were two heavily bearded men from McAllen, Texas. That city is preparing to put the little pot in the big one next Saturday, the 20th. They are asking the mayors, particularly from all over Texas, New Mexico, and perhaps other adjoining states to attend.

The older man had a long white beard all over his face, and seemed to be an invalid, as the other man conveyed him in a wheelchair. The other man also had long beard, but still black. They looked like kin folks, maybe brothers.

Anyway, they got a promise from Mayor Homer Nelson that he would be on hand if possible, and also a cut of him to run in the special edition of the McAllen papers.

Inside Decoration At Coffee Shop Is Colorful, Bright

Redecoration at the Brownfield Coffee Shop has been completed, and a bright new interior provides a colorful and pleasant background for patrons of the establishment.

The high ceiling has been lowered and lined with neutral toned pumice board, and woodwork and wall plaster features a soft shade of marine blue. Modernistic farm and ranch scenes are pictured in the wall paper, which is in tones of rose, aqua, and cinnamon, with touches of black and off-white.

New counters are done in a muted tan, and a special trophy case has been installed behind the cashier's counter for displaying Terry County Sheriff's Posse trophies.

Recorded music is played over a special speaker system.

POSSE, FAMILIES ON SUNDAY EXCURSION

Approximately 60 persons participated in a ride Sunday from the Terry County Sheriff's Posse hut out to the Money Price farm. Posse members, their wives and families rode horseback on the excursion and a meal was served on their arrival.

Hams, bread and beverages were furnished by the posse, and salads, desserts and vegetables were brought as covered dish contributions to the meal by posse members' wives.

The group left the Price farm about 3 p. m. on their return ride to Brownfield.

Teachers Entertained By Three Civic Clubs

Approximately 175 persons attended a regular dinner and joint meeting of the Rotary, Lions and Kiwanis clubs Monday night in the Jessie G. Randal school cafeteria honoring teachers of the Brownfield Independent School district.

Husbands or wives of faculty members and wives of civic club members were special guests. A cafeteria style meal was served.

Hollis Allen, a member of the Kiwanis club, presided as master of ceremonies. Invocation was asked by Virgil Crawford of the Lions Club, and John M. Hill, Rotary club president, gave the address of welcome.

Ray Elliott, professor at the Texas Tech Music Department, was the principal speaker. His topic was "Folk Music."

O. R. Douglas, superintendent of schools, introduced all faculty members present.

Terry Is Way Shy Of Normal Rainfall

The first eight months of 1952 shows only 7.79 inches of rainfall way shy of what should have fallen up to that time. And if we get anything like the 18.50 normal for the year, it will have to pour it down for the next four months.

Anyway, the long distance forecasters have maintained that this would be a dry year, but the last one, and beginning with 1953 there would be a swing back to a wet cycle of years. We hope so. Here's the pitch to now:

January	.76
February	.31
March	.02
April	1.34
May	2.41
June	.82
July	1.86
August	.27

HAROLD PADEN

Pictured above is Harold Paden, missionary to Italy, who has recently returned to the States to make an up-to-the-minute report on the progress of the church in Italy. Brother Paden has been invited to speak at the Crescent Hill Church of Christ on Sunday evening, September 14th at 7:30. Though spending some of his time in other places, the greater part of his time has been spent establishing the church in Milan, one of the larger cities of northern Italy. This is the first time home since sailing in January of 1949. His report will consist of facts concerning the progress of the church and explaining their present needs. All who come will profit from this discussion.

Scouts To Place Door Knob Reminders

We are calling on every Cub Pack, Scout Troop and Explorer Post in the South Plains Council to make your plans now so that you can adequately handle the job of placing the Liberty Bell Vote Reminder on every Door Knob within your particular area of the Council on Saturday, November 1st. We in the South Plains are joining with all of the Scouts in the Nation in this National "Good Turn" to remind everybody to vote in the coming election.

Each Unit should make their plans immediately and set them up thoroughly so that we can do a creditable job with this task which we have undertaken.—The Smoke Signal.

Local Men Attend Radio-TV School

F. N. Martin, Jack Griggs and Charlie Price attended a radio and television sales and service school in Fort Worth at the Worth hotel, this week. The school was directed by Western Auto Co. for associated store managers and service men.

The men received information they will need when television gets here, which they report should be by next spring. The meeting was attended by about 400 Western Auto dealers and personnel, and all agreed that the future of radio and television was very bright and that warehouses are now stocking TV set for shipment to the south plains dealers on short notice.

Rotarians Announce Three Queens For 1952 Harvest Festival Jubilee

BROWNFIELDITES TO DRINK CANADIAN RIVER WATER

Mayor Homer Nelson and Herman Chesshir, Jake Geron, Bill McGowan and E. D. Jones returned from Amarillo Wednesday where they attended a conference with big dam brass assembled in that city anent the participation with several other South Plains cities in the Canadian River Dam Project. Brownfield groups and individuals had done considerable spadework on the project at Washington and other places when the project was in its premature stage, while several other cities played pat hands.

For some as yet unexplained reason, Brownfield got "included out" further on down the line, while some of the wait-and-see communities were welcomed into the fold.

So, Mayor Nelson and party were very happy to report back that Brownfield had again been "included in," and Brownfieldites can rest assured that they will keep an eye out to see that we stay "included in."

NEW C. OF C. MANAGER CALLS ON HERALD

The Herald was pleased last week to have a get-acquainted call from the new Chamber of Commerce manager, Mr. Grady L. Elder. As most already know, Mr. Elder hails from Spur, where he served in a like capacity.

We believe that Mr. Elder is going to make us a worthy successor of Red Smith, who has assumed the C. of C. management at Plainview. We welcome Mr. Elder's calls at any time.

Special Notice To Boy Scouts And Leaders

The Council-Wide Rally for all Cub Scouts, Boy Scouts, Explorer Scouts and their leaders will be held in Lubbock, on Saturday, October 11, starting at 1:00 p. m., at the Arnett-Benson theatre on North College Ave.

There will be a football game that night and leaders are urged to send 60¢ per head as soon as possible to handle the crowd that will be there.

County To Allow Usual Tax Discounts

Mrs. Florene Webb, assessor and collector of taxes for Terry county, stated this week that the usual discount for early payment of taxes would be in effect, as follows:

If paid during October, 3 percent; in November, 2 percent; December, 1 percent. If paid in January, you get the flat rate, with a penalty added after February 1st.

The state rate is 42¢ and the county \$1.35, making a total of \$1.77 on the \$100 valuation.

Mrs. Webb also stated that the total valuations this year ran to \$20,584,699 compared to \$15,074,516 last year, or an increase of \$5,510,183 over the 1951 valuation.

Much of the increase in valuations was attributed to a number of oil wells brought in last year in Terry county.

Mrs. Thelma Heartsill, in charge of the nursery at the local hospital, was called to Casa Grande, Ariz., to attend the funeral of her brother-in-law, Roy S. Park. She returned Thursday of last week.

Three Queens were announced Wednesday at the Brownfield Coffee Shop when the Rotary Festival committee met for a business meeting. Those meeting were: Paul Campbell, Tommie Hicks, Graham Smith, John M. Hill, Geo. Wells and Lee Brownfield.

The three queens are: Freda Anthony, Jo Ann Shelton and Betty Cabiness. They will be given evening gowns and their float on which all three will ride will be furnished by the club as well as all advertising.

In the past Harvest Festivals, any club or business house could sponsor a queen, but this year she is selected by committee.

The girls will be awarded \$500, \$400, and \$200 college or business college scholarships for first, second and third places, and will be awarded on the night of the festival. Upon finishing high school, should any of the girls chose to do so she will be permitted to convert her scholarship into cash at \$100 reduction.

Two of the girls, Freda Anthony, daughter of Mr. and Mrs. Earl Anthony, Jr., and Jo Ann Shelton, daughter of Mr. and Mrs. Joe Shelton, are seniors in high school. Betty Cabiness, daughter of Mr. and Mrs. Byron Cabiness, is a sophomore.

New Date For Festival Set

Due to the fact that the High School band will be playing at the State Fair in Dallas, during the date previously set, it has been voted to reschedule the Festival for October 23.

The four street scenes were borrowed for the display from her sister, Mrs. Jack Bailey, and Mrs. Walter Haynes of Plainview. Her art training was received while she was a student at Hardin-Simmons university in Abilene.

Lincoln, age 30, says his art career began when he was in the fourth grade and won a state prize on a fire poster. This caused him to want to paint, he explains, and adds that he has drawn and painted every since he could hold a pencil or crayons. He and his wife have been married for five years and have a three-year-old son. Lincoln's best painting is done between 6 p. m. and midnight or later. His only training was under Mrs. Baze and Mrs. Renfro while in grade school.

His favorite work being exhibited is "Trial by Jury," an original abstract painting of a courtroom scene.

Down at Huntsville at the Texas Penitentiary, Gov. Allan Shivers will officially open the Texas Prison Rodeo for the fourth straight year, October 5th. The Rodeo is to run on Sundays only through October 5th, 12th, 19th and 26th. In addition to the governor, a lot of the State dignitaries will be on hand, and perhaps prison officials representing other state prisons. Also, the 130-piece University of Texas band will be on hand to play, and put on marching stunts between rodeo events on the opening day. In addition, there will be an aggregation of twirlers and majorettes to perform between events. Now there may be those that say this is all a waste of time and money in order to entertain, and give criminals some recreation. Perhaps this is a logical conclusion, but it is a well known fact that since such entertainment started down there years ago, there has been far less prison break attempts, and the inmates seem to be better contented. It could be possible that too much confinement and punishment might cause desperation of those we might seek to reform, and make better citizens of them. First farmers, for instance. At least, those who have made a long range study of prisons and prison reform, are of the opinion that some amusement and relaxation is a morale builder. It may give the inmate a bit of something to think about instead of using all his thinking about how to escape. It is a well known fact that the Texas Prison Board went to no little expense, time and money to select a man to take charge of matters at Huntsville a few years ago, when there was a change. They had heard that a Mr. Ellis had made a great manager of the Shelby County (Memphis) Tennessee prison farm. Ellis had secured the best

breeding stock that money could buy, to head the prison herds, and he taught the men confined in that prison the value of good stock. He got them interested in better farming methods, instead of best how to break into a store. His reputation spread abroad. Texas prison needed just such a man, and they offered Ellis a much larger salary to take charge of the series of Texas prisons. But back to rodeos, all the old timers here know the facts, but perhaps there are some newcomers who don't know that it was a Terry county inmate of the Texas prison who started the rodeo down there. It was a very modest affair at the start, and occupied one day each year. But it spread and increased in importance as the years went by since the start in the twenties. People from all over Texas and adjoining states now attend the Texas Prison Rodeo.

It seems that Gov. Allan Shivers lost his nerve in defying the Trumancrats, and has decided on a program of appeasement at Amarillo. This in spite of the fact that the anti-administration forces are in a vast majority. Anyway, all the office holding boys seem to be falling over each other to get lined up with the bosses who have charge of the public teat. But there is a possibility that the real people of Texas are thinking in different terms, and it may just be possible that one of these days, the boys will find themselves hustling back on the other side of the chalk line. Then there is Congressman George Mahon of this district. George has been so long at the lick-log up on the Potomac, that he is losing contact with the thinking of the people of his district, especially if they vote like they talk. The Hon. George goes on to explain at some length that he does not

agree with the present occupant of the White House, or his would be successor, about the tidelands, states rights or national FEPC. Now Gen Eisenhower, on the other hand, has made it quite plain that he believes in the several states holding their own property in fee simple, without any grabbing by the federal government. He strictly believes in states rights, and more government at the state level and less of it transferred to Washington. As to FEPC, he goes along with Truman and Stevenson, except that he believes each should be enacted as state, not federal meddling. As to other domestic and foreign matters, there is little difference in the platforms of the two major parties. So, a fellow who just believes in going along, just because he has a brass collar, and a pretty little chain to lead to the lick-log, just doesn't appear to this writer as having enough guts to cut loose from tradition, and vote for the love of his state instead of some party name. This old stuff about "having things so good," simply means that you believe in taking it away from the willing workers, and the guy who has worked so hard to get ahead, to give it to the drones and nogoods, the Worry Willies, in other words. It is about time the people all over the South waked up out of their 1880-70 dream, and begin to vote for men and measures instead of a party name that has no resemblance to the party of even 30 years ago, than a tumble-bug favors a bull pup. What we have nationally now, going under the name of the grand old party of Jefferson, Jackson and Wilson, is a counterfeit of the plainest hue—a dyed in the wool socialist setup.

Here we go again. This time an "Eating Club," to get as near as possible without giving them free publicity, has invited the Old He to become a "check giving member." That is, providing we sign a card and put out so much in dues, per ever so often. And the accompanying letter goes on to tell us with much gusto, that we would be able to eat at the finest and the most fashionable at Los Angeles, Hollywood, Chicago, New York and Miami, and just simply give a check on our home bank for the meal—just like at home—if the home cafes would take our check. The letter does not go on to explain how the heck we would get to these cities in the first place, or what business we'd have after we arrived. In the first place, if we happen to be in California, and that is the

country editor is not running things up at Washington. If we were, we'd recall every ambassador and other government representatives from behind the iron curtain, and tell all the Russians and their satellites to get their dirty settlers out of the USA. The Russians are no more our friends than a coyote is a friend to a helpless lamb. Of course the apologists for the administration will say we'd have no way to watch what the Russians are up to, if we withdrew from that benighted country. We don't anyway. Every

step they take away from the embassy grounds is dogged by secret police. Besides, those who return from over there have just as many different stories to tell. None of them jamb with the other. For instance, one came out recently with the statement that Russia has no atomic bombs. How did he know? What does any of them know? To our notion the less we mess with those dirty curs, the better off we'll be.

Just to be plain with you brother, we don't like to read statistics. However, sometimes one of the statistical minded folks are so persistent that we haul off and consume some of the stuff. The latest insister we call to mind is the Institute of Life Insurance. And they tell us right off the reel that here in Texas, property owners had just under two billion dollars of their financing extended to them by the life insurance companies of the country this year, and that it represented quite an increase over the same period last year. All of which reminds us, that after all, this 2 billion had a purchasing power of only about half that figure. And that the big saving and loan association that "commercials" over our radio at ten p. m. some nights during the news broadcast, pays 2 1/2 percent interest, they state. So, that is only about 1 1/4 percent of the amount of interest if money was computed at 100 cents on the dollar, as it once was. And this article goes on to say that life insurance companies of the USA now hold more than 19 billion dollars worth of mortgages on property. Sounds big, but when we take into consideration that the dear old USA itself now holds more than 275 billion dollars of mortgages on the people of the country, the 19 billion looks like chicken money. And if that crowd up at Washington that advocates the idea of electing and electing, taxing and taxing, spending and spending, gets in again, in the next few years, it will be more than 300 billion. Our great-great-great grand children will not live to see the day when this enormous debt is wiped out. And in the meantime, if you think taxes are presently high, just you wait, Bud, and see what they are a few years in the future.

Yeah, a great cry has gone up among the high brass of the Pentagon about the shortage of man power. And they threat to dip into the unders as well as the fathers to fill the quotas. In the meantime, there is no shortage of those employed by the government, and all over the USA as for that matter. Nor is there a shortage of manpower throughout Europe and other places with large armies occupying countries with which we are supposed to be friendly. Some two million of them. In the meantime, the brass and the administration for some unknown reason, and some unexplained quirk, does not choose to send only enough men to Korea to half way hold more than a million Reds, Chinese and North Koreans. United Nations forces are estimated at less than 300,000 men, and the equipment for them is limited. This last mess is probably caused by too many strikes in defense plants. In the meantime, the brass and administration seem to want the war to go on and on, and up to now, have refused the aid of Nationalist China to send some 100,000 men to help the so-called UN, of which Russia is a member. A man has to be almost a middle aged fellow to remember when we really had peace. Somebody remarked recently about periods of war and peace in the past 30 years. And yet we have either been in a war or preparing for one. Mr. Truman's "police action" over in Korea has now been going on for some three years. Mr. Arthur wanted men and material to end the war, but he was fired for his presumption. Mr. Truman wants "war prosperity" for political purposes. If not that, why the continuation of war in Korea? It's a good thing this old

What's the MOST SURPRISING THING about this BUICK?

2-door, 6-passenger Special Sedan.

WE'll tell you the answer to that one — it's the figures on the price tag.

For some reason, lots of people just can't believe they can buy a Buick at a price so close to "the low-priced three."

Maybe it's because a Buick seems so much better and bigger.

Maybe it's because they think Buick has so much more power and room—which is true.

Maybe it is because so many distinguished people own Buicks—which is also a fact.

But the fact remains—if you can afford a new car, you can own a Buick—so let's see what you get.

You get the thrilling power of a Fireball 8 Engine, that's a gas-saving high-compression valve-in-head—as much power as you can get in cars costing \$300 to \$400 more.

You get as much room as you'll get in cars costing hundreds of dollars more.

You get a ride that cost an honest-to-goodness million dollars to develop.

You get the silken smoothness of Dynaflow Drive.*

You get big-car comfort, styling, durability.

Don't take our word for it. Come in and see for yourself why so many folks are stepping up to this great car this year.

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series.

Stricklinly Speaking

By OLD HE

Had a heck of a letter from an old friend, Rev. O. B. Annis, who at one time had the pastorate of the Seagraves Methodist Church, and along about that time came in possession of some Terry county soil. Presently that Annis boy is visitation pastor of the Tenth Ave. Methodist Church, Amarillo. Now Annis is threatening to resign as a subscriber to this great weekly just because we have not brought in an oil well on his holdings.

But these oil boys just won't be hurried. So, friend Annis suggests that we at least produce some castor oil. Now come to think of it, there are some castor bean patches down that way, and a lot of them scattered over Texas. But they produce surface oil and not from the bowels of the earth. Tastes and smells different, too, not to mention a decidedly different effect on the human being.

Passing up the praise Rev. Annis showers upon the Old He as a man and citizen, and our mutual love and respect for a former citizen of both Brownfield and Seagraves, the late V. E. Hargett, the writer mentions a meal that he once took at our house in the early days when we lived over in the First Addition to this city. The occasion was a district conference, back in the good old days when all the people were expected to pitch in, regardless of religious affiliation. But he still remembers what a good meal he got. Well, we could feed a half dozen in those good old days for the present price of a hamburger.

Anyway, the wife and Old He talked about the occasion, and remembered that one time we had four Methodist preachers at a meal during their gathering here, and among them was the Presiding Elder, as they were then called, Rev. Lyon. A pastor from

some place, perhaps Sparenburg, named Lamb, also attended, and the pastor here was James A. Fryer. So we had a lion, a lamb and a fryer. To add to the variety, a man of Polish descent, Mr. Bartowsky, of Sparenburg, was also present at the dinner. Lamb and Bartowsky were night guests as well as meal guests. They was the good old days. But the sad part, Annis is not going to renew until there is an oil well on his place, and then he'll become a lifetime reader. Whew!

Anyway, we are in a doggone good notion to send the Herald gratis to this preacher another year, just to report all the dry holes to him.

Why does a guy, especially after he has reached his 3-score-and-ten mark, try to forget his birthday? They become too frequent. But others will remember in spite of heck and high waters. Last week we even forgot to mention the many nice things in the way of shirts, socks, ties, hankies, etc., that we received.

First off was a telegram from two dear girl friends, Jonelda and Becky over at Lamesa. It was not the singing kind. Leastwise, the gal at WU did not sing it—just read it.

Then sister Jimmie Smith and daughter Edith Stricklin spent most of the morning and P. M. of the 23rd in building a huge cake that was as tasty as it was big. Not enough candles in town to supply the 72 supposed to be on top. Oh, yes, about to forget the box of cigars Mumford Smith gave us. Been too doggone hard up to afford cigars for some time, so we have smoked like a tar kiln of late. And that feed out in Fred Smith's back yard was "Woit de money." Even received presents and cards from Calimifornah, and old 10-he-see.

But that was about the time that dagnabed place on our little tootsie was hurting the hound out of us. However, we made a stab

It All Happened Too Long Ago, Folks

We admit that as we grow older, we become more forgetful. But sometimes we think we should remember what we don't. For instance the other day, Clyde Lewis dropped in with a document that really astonished us. Clyde was going through some old papers of his, and ran across a receipt from the local Odd Fellows lodge that was issued to him by the Old He, as secretary of the lodge, in October, 1917.

You could almost have knocked us over with a feather. We didn't have the faintest memory that we was ever the IOOF secretary. But there was our signature to the receipt as plain as the nose on your face. We do remember that we went through the chairs and attended the Grand Lodge at Mineral Wells in 1916. Must have run fresh out of a secretary, and we happened to be the best they could find with a hasty looksee.

Anyway, that, like this year, was as dry as Sahara, and maybe the regular elected secretary had beat a hasty retreat to "ol eas' Texas." Anyway, Clyde remembers that he had thought of dropping out as it was so dry and gloomy, but a good rain had fallen just before that time, and he decided to renew his membership.

We had forgotten that people back then sometimes ran fresh out of money. Even under a Democratic administration, Woodrow Wilson) to be perfectly frank.

Mrs. Jeffie Thompson of Fort Worth, and Mrs. Clara Belle Thompson of Dallas, are visitors in the home of their late husbands' brother, Ed Thompson, and Mrs. Thompson. They came home with Phillip Thompson and family, who went down there for the Labor Day holiday.

at being as pleasant as possible. But was hurting too bad to enjoy too many of the "many happy returns of the day."

Being one of the large number of "volunteer weathermen" of Texas, we have a lot to learn, and we see a whale of a lot from time to time that reminds us that we are behind the times. Maybe some of the scientific, paid observers, at the big stations, should put us wise. But recently there was a hurricane over on the Atlantic coast that was referred to in the dailies in both headlines and text matter as the "Able" hurricane.

Now this past week we had another one brewing over there that was designated as the "Baker" hurricane. Hope none ever get the name "Old He," and try to get to familiar with us on short acquaintance. But who names them in the first place? And why?

Read a story recently in Readers Digest that told how one native, inclined to overdo the "Texes Brags" was closed up like a clam. It seems a newcomer had been ribbed not a little because he was not a native. Finally, one day a native Texan asked him where he was born? Says the newcomer, "I was born in Tennessee, the state that civilized Texas."

"If it had not been for such men as David Crockett, you wouldn't even have an Alamo to sing about. And then there was Sam Houston that was the Governor of Tennessee before he came to Texas, and freed the Texans at the battle of San Jacinto. Otherwise, you would have been born a Mexican. It is said the Texan gave the newcomer the silent stare."

The vast majority of the business and professional men of Brownfield are the salt of the earth. But a small minority are of the small fry of such small bore that they should be in a village instead of a growing city, as they just can't stomach competition.

We think some of these days we'll just haul off and call some names, and let the people who trade here size up the little calibre business and professional men of our town.

Miss Elva Gillham Weds Eugene Nixon In Double Ring Vows At Cary Residence

In a double ring ceremony read recently in the Tracy Cary home, 921 East Tate, Miss Elva Gillham, daughter of Mrs. Elta Gillham, became the bride of Eugene M. Nixon of Albuquerque, N. M., son of Mrs. Estelle Nixon of Albuquerque. Mrs. Cary is the bride's sister.

Vows were read before a background of greenery, white gladioli and mums by Rev. T. M. Gillham of Tucson, Ariz., brother of the bride. Glenn Cary, nephew of the bride, lighted white tapers held by branched candelabra.

Miss Lynn Cary, niece of the bride, played traditional wedding music, and also accompanied soloist, Jack Norman of Albuquerque, who sang "Because," "Indian Love Call" and the Lord's Prayer.

Given in marriage by her brother, V. N. Gillham of Amarillo, the bride chose a suit of eggshell needle cloth with turquoise accessories. She wore a corsage of orchids to compliment her ensemble.

Matron of honor, Mrs. Bill Aldrich of Littlefield, wore a brown suit with beige accessories. Attending the bridegroom as best man was J. E. (Buddy) Gillham of Brownfield.

Immediately after the ceremony, a reception was held at the Cary home with members of the wedding party assisting the couple in receiving. The bride's table was laid with white lace over white satin and centered by a large three-tiered wedding cake iced with pastel-toned confection and topped by a miniature bride and bridegroom. Arrangements of yellow gladioli were used in decorating.

Letters from readers are not only welcome, but helpful; and they are especially helpful sometimes when they express disagreement. For example, one reader asks me to say what I mean by socialism, and also to please tell him where on earth the kind of socialism I am talking about can be found. This is a helpful letter, because I had thought I had already made these points quite clear. But, apparently, I hadn't succeeded, and so I welcome the opportunity to try again.

These articles of mine do not discuss socialistic theories; they deal only with the facts of socialism in actual practice.

My correspondent is apparently well informed on the theory of socialism — that is to say, socialism as it is described in books written by people who want us to go along with them. Admittedly, these books paint a very pretty picture. But the picture is completely unreal because it describes a society such as does not exist anywhere.

Let's begin with a dictionary definition: "Socialism is a theory or system which aims at securing better distribution of wealth by vesting ownership and control of the means of production in the community as a whole."

Note that socialism is a "theory or system." Now, I am not writing about theoretical socialism, the pretty picture of a kind of society which some people think might come into existence some where some day. I am concerned with socialism as actually practiced in those areas of the world where ardent socialists took things over.

In theory, socialism puts ownership and control of the means of production "in the community as a whole." But it is obvious, on the clear basis of recent history, that the men and women who make up a nation must turn over their supposed "ownership and control" to the management of some smaller administrative group or agency. And then what happens?

Adolf Hitler was the leader of the National Socialistic Party. How did the Nazis meet the problem of selecting the agency which was to exercise the public's control? They formed a so-called elite which turned out to be the Nazi party itself.

In Russia, the controlling group is supposedly the proletariat. But all the evidence shows that the actual working class in Russia has very little to say about what goes on. Whoever runs the Communist Party runs all of Russia, too.

Even Mussolini's Italy, where control of the means of production was put in the hands of various "corporations," ostensibly made up of the most able people, real control was exercised by the Fascist party alone.

There is very little difference in fact between the so-called Fascist state and the so-called So-

cialist state. Fascism and Communism are only the two sides of the same counterfeit coin. They are alike because control of every source of wealth winds up in the hands of a small self-perpetuating group. Such a group holds not only supreme political power but also supreme economic power as well. And in every instance a "police state" has been created.

When I write the word Socialism I don't mean any set of theories which exist only on the printed pages of books, or in the minds of oppressed people. I mean actual socialism, which has cost millions of people their liberties.

Communicable Disease Control

Home cooperation is necessary to aid in the control of communicable and infectious diseases among school children. Diseases common to children are frequently more contagious "catching" during the early stages than after the rashes or other clinical signs appear and often before the child feels sick enough to go to bed.

Some of the symptoms parents can observe are: flushed cheeks, unusual pallor, inflamed or watery eyes, sneezing, coughing, nausea or vomiting, headache or backache, sore throat, and elevation of temperature. A child with any of these signs or symptoms has no place in school. Keep him at home for his own protection and for the protection of other children.

Section II, Rule 3, of the State Board of Health Rules and Regulations for the Control of Communicable Diseases, specifies that "All children excluded from school for reason of communicable diseases may be readmitted to school only on the certificate of the attending physician attesting to their recovery and non-infectiousness, or a permit by a city or county health officer or by the Director of a Health Unit in areas where such units are established."

Harvest Festival October 16.

It's Easy As Child's Play

Letting a child clean your upholstered furniture sounds ridiculous, but that's how easy it is to clean the new nylon friezes at home. This Candalon Nylon covered davenport can be cleaned thoroughly and easily with just plain water. The tip is to sponge fabrics with cold water and a clean cloth. It will be helpful in cutting down drying time if the fabric is kept as dry as possible—in other words, don't try to soak the upholstery clean. If grease or oil stains are involved, a commercial solvent should be used. The inherent great resistance to soil and friction of nylon fibers makes them ideal in woven fabrics. And they have the extra elegance of texture and style.

Fear Of Cancer Does Not Help Victim

AUSTIN — Fear of cancer cannot help its victim and unreasonable fear should be replaced by intelligent action concerning the disease, is the opinion of Dr. Geo. W. Cox, State Health Officer.

The doctor said in a statement this week that cancer can usually be cured in its earlier stages. This has been demonstrated by the fact that many persons have been treated successfully by surgery, radium, or x-ray and are living now, many years after a definite diagnosis of early cancer was made. Many people postpone diagnosis when they suspect cancer either because they dread to hear the truth or because they believe that cure is impossible.

"In the treatment of cancer, time is the most important factor," Dr. Cox said. "To produce satisfactory results, treatment must begin early in the course of the disease while the cancer is still confined to a small area. Persons suspecting cancer should consult their physician as soon as they notice an unexplained lump, unusual discharge, a persistent sore on any part of the body, or any change in the appearance of a mole or wart. It is often disastrous to wait for pain since this is a late symptom that usually doesn't occur until the malignant growth has made considerable advance."

The value of early diagnosis cannot be stressed too strongly according to Dr. Cox and that is

INSPECTORS CAPTURE 8 ILLICIT STILL

The Texas Liquor Control Board Inspectors in July reported the seizure of 8 illicit stills.

With the stills, which had a cubic capacity of 440 gallons, inable inspectors captured 1,335 gallons of mash and made 8 arrests. Fifty-five gallons of moonshine liquor were destroyed.

Two stills were taken in Harrison County, two were taken in Titus County, and one still each was taken in the Counties of Freestone, Nacogdoches, Red River, and Grayson.

one reason why regular periodic examinations are recommended particularly for those of middle or old age.

Old Rate Extended To October 1

Due to the fact that we have had many requests to extend the old rate on the Herald to October 1. And in view of the fact, as some have suggested, crops will begin to move at that time, and our farm population will have more money, we have decided to extend the old rate to that date. Please try to meet this deadline, as we will have to get more money for the Herald, beginning October 1, 1952.

HERALD ONE YEAR ----- \$2.00

HERALD THREE YEARS -- \$5.00

Or, if you want the Herald at that price for 6, 9, or 12 years, we will take your order and receipt you for any number of years you wish.

Remember, the Herald will positively be advanced to \$3.00 October 1, or \$4 elsewhere. There will be no reduction of the rate outside the Brownfield trade area.

Soil Testing Lab A Busy Place

College Station — The soil testing laboratory operated by the Agricultural Extension Service of the Texas A. & M. College System has been a busy place during the past year. According to M. K. Thornton, agricultural chemist and in charge of the lab, 9,550 soil samples have been analyzed.

He says the number of samples submitted has steadily increased since the lab was opened on November 1, 1950. Determinations made by the laboratory include the amount of organic matter, nitrogen (computed), soil reaction, available phosphoric acid, available potash, available lime and soluble salts for each sample. Recommendations for best land use based upon the soil analysis are returned to the sender along with the report on the sample.

Thornton reminds farmers that right now is the time to submit samples from the fields on which winter legumes and small grains will be planted this fall. Thornton points out that the samples submitted must be representative of the field if they are to be of value. He encourages farmers to contact their local county agent for detailed information on how to make a representative sample.

Farmers who have submitted soil samples report that the analysis and recommendations have been very useful to them. First, they find that often times different grades and amounts of fertilizer from that normally used are needed to improve their crop yields; that low yields are not always the result of low soil fertility and third that savings can be made on the purchase of fertilizers when only the recommended amounts are used.

Local county agents can supply details on taking, and mailing samples and can give assistance in putting the recommendations into practice, says Thornton.

HOUSE OF The MONTH

In this space, you'll find "The House of the Month" with full descriptions. This series is made possible by area firms listed here . . . See them to help you with your Home Furnishing Problems.

PLANNED TO A FINE POINT

HOUSE PLAN No. 48

We offer a lot in FARM AND RANCH House Plan No. 5248 — three comfortable-size bedrooms with plenty of closet space, a large living room, a separate dining room, a nice kitchen with space for serving the the family meals, a separate workroom, and good looks.

All of these things can be arranged in 1,600 square feet of heated floor area. There is no wasted space, no unnecessary turns or corners in the foundation or roof. By observing such simple economies as arranging all of the plumbing for the kitchen, bath, and workroom in one centralized area, providing a bearing partition down the center of the house to help support the roof, and reducing exterior features you can have a brick veneer home for the price of the ordinary siding. We suggest that you build the garage and workroom with wood siding for added economy—and a very attractive contrast.

The casement windows, long over-

hanging eaves, brick veneers, and concrete slab foundation will be of great value in keeping upkeep costs at a minimum.

Both the garage and workroom could be left off for those of you who do not have large quantities of milk, eggs and other produce that you can handle through the kitchen area and who have a garage already built.

You will like the kitchen. It has 20½ feet of counter space if you use a table-top water heater; otherwise it will have 18½ feet. The small entranceway between the garage and workroom makes it convenient to get in from either side of the house or garage. This area could serve as a trap to keep flies out of the house. Simply close it in with a screen door on each side and use a third screen as you come into the workroom.

You can obtain blueprints for this TERRY COUNTY HERALD FARM AN DRANCH House Plan No. 5248 and a handy list of materials by which you can figure your construction cost accurately.

PMA Committee Elected For County

Returns on the Terry County PMA Committee election held in the PMA office at Brownfield, Texas, show that Riley D. Jones, of 704 East Reppto St., Brownfield, was elected chairman; R. J. Purcell, 705 East Tate St., Brownfield, vice chairman, and Carl Golden of Route 3, Brownfield, member; E. C. Willis of Route 1, Brownfield and James Thurman of Route 5, Brownfield, were elected alternates.

All of the committeemen are farmers. Riley D. Jones, was re-elected, and R. J. Purcell and Carl Golden were elected as new members. Willis was elected as a new alternate and Thurman as second new alternate.

The committeemen assumed office September 1, and will be responsible for the county administration of the Agricultural Conservation Program, price support activities, Federal Crop Insurance and other activities which may be assigned.

In the coming year, they will arrange for the training of community committeemen, direct the farm-by-farm contacts which community committeemen will make, and have responsibility for approval of conservation practices carried out on Terry County farms.

Riley D. Jones, the chairman, owns and operates a farm south of Brownfield. On this farm he produces cotton and grain sorghums. He has been co-operating in the Agricultural Conservation Program. This year he is carrying out the following soil and water conservation practices: Deep Plowing.

The Vice-Chairman's farm is located southeast of Brownfield where he produces Alfalfa, Birds-foot Trefoil, corn, cotton; grain sorghums, and a home garden. He also is carrying out soil and water conservation practices on his farm.

The member's farm is located southwest of Brownfield, where he produces cotton and grain sorghums. He also is carrying out soil and water conservation practices on his farm.

Send \$1 to Building Editor, FARM AND RANCH-SOUTHERN AGRICULTURALIST, Dept. L-193, Nashville, Tenn. Order by number—Plan No. 5248. Blueprints are adequate for any farm carpenter or for any farmer handy with tools.

Forage For Dairy Cows Is Cut

COLLEGE STATION.—The hot, dry weather has upset hay and silage plans on many dairy farms, and dairymen will lose efficiency in production if they fail to supply these basic feeds. According to Richard E. Burleson, dairy husbandman for the Texas Agricultural Extension Service, every effort should be made to obtain one or two tons for each cow in the herd.

He reports that, Texas A. & M. College dairymen got good results from feeding a silo of immature Atlas sorghum which was ensiled last summer before it had headed. Although no preservative was added, the silage proved to be of excellent quality and cows pushed aside good leafy alfalfa hay in the feed troughs to get it.

This appears to be conclusive evidence that there is little to gain by allowing sorghums to make seed before ensiling except to get increased tonnage and grain.

When drought conditions cause the sorghum crop to burn before reaching the soft dough stage, the crop should be ensiled promptly. Much better quality silage is obtained by ensiling green material without adding water than is obtained by ensiling dry material and additional water.

Water should never be added to silage unless the material is too dry to pack without it, Burleson advises.

Palsied Children To Be Examined

A clinic for the examination of cerebral palsied children will be held Monday, September 22, at the Cerebral Palsy Treatment Center, 3502 Avenue N. Lubbock.

Specialists present to examine children will be: Dr. E. T. Driscoll, Midland; Dr. R. Q. Lewis, Lubbock; and Dr. R. E. Donnell, Plainview, orthopedists; Dr. R. K. O'Leahlin, Lubbock, neuropsychiatrist; Dr. J. M. Reynolds, Lubbock, eye specialist; and Dr. J. D. Donaldson, Lubbock, pediatrician.

Cerebral palsy, sometimes referred to as spastic paralysis or birth injury, is evidenced by the child's inability to sit or stand alone or walk or hold objects at the age these things are accomplished by the average child. Research has shown that treatment is most effective if started within the first few months of the child's life although children respond to treatment begun at a much later age.

Parents who plan to bring children to the clinic are requested to register the children at the center before the date of the clinic. Information regarding the clinic may be obtained by writing Dr. Esther Snell, Director, or calling Lubbock 5-6541.

TRUCK HITS '50 SEDAN CAUSING \$300 DAMAGE

A panel truck driven by R. O. Trundle of Oklahoma City ran into a parked 1950 Mercury sedan belonging to E. J. Angus, 704 East Cardwell, Monday night in front of the Brownfield Coffee shop causing \$300 damage to Angus' vehicle.

The Brownfield man was inside the Coffee shop eating supper when the accident occurred. Trundle was charged with driving without a license, failure to have his car under control and having faulty brakes. His car received approximately \$10 damage.

PMA Official Speaks To Tri-County Group

Approximately 27 persons attended a meeting of the Tri-County Agricultural Workers' Conference held Tuesday at 7 a. m. at La Mecca Cafe. Dale Carter, Production and Marketing Administration field man from Plainview was the principal speaker for the group, composed of residents of Terry, Yoakum and Gaines Counties.

Carter explained the setup of the PMA County Committee and Agricultural Mobilization Committee. He told how the President can provide for aid to drought-stricken areas, when the County Agricultural Mobilization Committee requests aid through the state committee, after the governor has declared the county a disaster area.

The Plainview man reported that hay is being shipped to disaster areas to keep foundation herds and other livestock going. The Federal Government is paying the transportation costs, he said.

Noting that the price support program is a "floor" to be used when needed, Carter said he doubted that the loan program will be needed for cotton this year, considering the present crop reports on cotton. He also reported that the price support program had not lost money on non-perishable commodities, but that the loss on the support program has come from support of perishable commodities.

L. H. McElroy, Gaines County agent, presided at the meeting. Next month's conference was scheduled for Oct. 14, at Joe's Drive-In Cafe in Seminole.

It Was Edwin Instead Of Walter Grove

A lady called us up Friday, who read the article last week about Billie Bryant being here from California, and about the old time dances down in the Groves Chapel neighborhood. She stated that she was the daughter of Elzie Groves, one of the several Groves boys.

However, we made a mistake about being in the home of Walter Groves. It should have been Edwin. Walter was a bachelor, whom, the lady stated, died Aug. 2, at Tucson, Ariz.

Her dad and family live in Fort Worth. Glad to be straightened out.

SANTA FE CARLOADINGS

Santa Fe carloadings for week ending August 30, 1952 were 24,482 compared with 23,218 for the same week in 1951.

Total cars moved were 37,878 compared with 35, 873 for same week in 1951.

Santa Fe handled a total of 37,274 cars in preceding week of this year.

ONLY TWO DELEGATES ATTEND CONVENTION

Burton G. Hackney, Chairman of the County Democratic Executive Committee, stated Tuesday, that so far as he knew, only two delegates attended the State Convention of the party in Amarillo. They were J. O. Gillham and A. M. Muldrow.

So far as we could learn, none of the delegates went with their fighting clothes on, and from what we could gather, everything was so cut and dried that there was little fear of some of the rough tactics that has prevailed in some conventions this year.

Harred In To See About Subscription

H. H. Harred, of south Terry, was in recently to see if he got credit for the five bucks he checked in to get 'er up while the getting was good. He had, but did not show up on the stencil. Conversation, of course, drifted to dry weather and crops. We informed him that Jake Sandage thought he would get a bale on each ten acres.

Hugh didn't think he'd get that much. Then the talk drifted to the projected reunion of ex-Arkansawyers to be held in Lubbock, to which both Harred and Sandage are eligible. And in view of the fact that we have on more than one occasion, ate, drank, slept and filled our gas wagon over in the "Opportunity State," we felt we were entitled to deal in at the reunion. Hugh agreed.

Mayor Homer Nelson and his prescription fillerupper, Bob Wells, are also Arkansawyers by birth and raising. So, there may be a big turnout of us ex-Arkansawyers from old Terry.

Mr. and Mrs. Jean Coward and family moved to Amarillo last week, where Mr. Coward has accepted a position as salesman to represent Russell Morrison Beauty Supply house out of Lubbock. Coward is former owner of the Cinderella Beauty Shop, selling to Mrs. Roy Jenkins, Mrs. Ruth McClain and Ruth Shepherd. Mr. Coward is former society and news reporter for the Herald.

CROWDS INCREASING AT CHURCH OF CHRIST, PLAINS

Since the meeting held at Plains by Ernest West of the Southside Church of Christ, Brownfield, the interest has grown and each Sunday sees more in attendance.

Sunday, Aug. 31st, Bro. Alfred Waller of Denver City, did the preaching with 27 in attendance, and Sept. 7th, Bro. Garnie Atkins, of Lovington, preached, there were 57 in attendance.

A preacher from Southside, either Bro. Ernest West, Bob Lee or Hugh Thomas, will fill the pulpit for them Sunday, Sept. 14th. Services are being held in the district court room of the old courthouse.

The Plains church is anxious to get a local minister and hope to get one in the near future.

ROBERTS SUFFERING WITH A BROKEN HIP

That fine, polite gentleman, Mr. J. D. Roberts, of Wellman, was brought in with a broken hip, last week, and remains in a cast at the local hospital. Mr. Roberts is the janitor of the Wellman Schools, and a good one.

However, he did not get the break at the school buildings, but at home where he accidentally fell over some projecting planks. We hope he is soon out and about again.
