

STRICKLINLY SPEAKING...

By OLD HE

The "makeruppers" slipped one by us last week in using the little old scene wherein the Old He, or rather Young He as he was at that time, was standing there washing dishes—all alone, all alone! That was a snapshot of our bachelor days, either in Johnson or Jones counties, when we thought how funny it would be to have a comic picture made with our own head and a borrowed pigmy body under it, doing the dishes. But by heck, there never was a bachelor that looked that happy, even if the neighbors had brought in some fresh meat, milk and butter.

Anyway, if the little dinky picture suits the crew, it don't bother us in the least. But that table don't look like it would hold up much grub.

Sometimes this old area can pull the queerest stunts imaginable. Now take Monday night for instance. It was just about as hot as we could bear without the fan that Sally left us, when up recently, and all of a sudden the wind and dust hit like a ton of brick. And it was out of the east—not the west as per usual.

We got up and limped to the front door and peered out, and there looked like a cloud in the east, but there was so much dust coming down Broadway that we were not certain, but imagined we saw a flash of lightning. Anyway we went back to our reading, and soon we smelt rain or water hitting the dry earth, and by heck if it didn't rain .15 of an inch.

Makes us think of old Uncle Bryant Foster back in our childhood days. He always wanted his stories to carry some surprise. So, he kinder excitedly would announce, "I was going along the creek bank, not expecting a snake, when choog went a frog." Never can tell what it do in this man's country. But most of us like it or we'd leave.

Hot as it is, we have another month before us of Shivercrat and Yarbocrat yowling. We shall have it spread over the front pages of our dailies and that's what we'll hear when our radio and TV comes on. Pity but Holmes and the Cyclone had stayed out of the race, and had it all decided at the first rattle out of the box.

We sometimes wonder if Davis and Holmes really thought they were going to cut any mustard in the first place, except to make a runoff necessary?

We thank Mrs. Peebler up there at Omaha, Neb., for the nice compliment she paid us on our editorial productions, but for the past two weeks we have been so busy rounding up other matters of the anniversary edition, together with a lot of month-end book-keeping and week-end visiting, we have neglected our editorials. Of course we could have used the old scissors, like a lot of our exchanges do, selecting them from the dailies from here to Boston, and had a bit better stuff. At least they would have been down the line of Noah Webster, correct as to the King's English, "sintax" etc.

But if people understand what you're driving at, what the heck's the use of bearing down like you wanted each reader to know you were a Harvard or Yale professor? Down here in the South, and Mrs. Peebler understands it as well as the next person, when we say "you'all come," we mean the whole doggone family. May not be up to Hoyle, but we people under-

School Board Will Support An Adult Education Program

The Brownfield School Board voted Monday night, August 2, to sponsor the Adult Education Program for Brownfield and Terry County. Plans call for organizing an Adult Education Council of interested citizens, who will have the chief responsibility for planning, developing, and coordinating the program.

Brownfield is slated to receive a small grant from the Ford Foundation Fund for Adult Education to assist the program during the first year. Other West Texas communities slated to receive grants are Amarillo, Lubbock, Levelland, Lamesa, and Midland.

It was pointed out that the program does not require large funds as most of the expense of reading materials, etc., is born by participants in the program. As the sponsoring agent the school will furnish facilities, teaching aids, and administrative expenses in operating the program.

In discussing the program, the school board president, C. G. Griffith, said, "We feel that the adult citizens of Brownfield will welcome the opportunity to broaden their knowledge through the program of Adult Education."

Mr. and Mrs. C. Farrar, of Kilgore, visited last week in the homes of Paul Farrar and Jim Farrar.

are Ted Hardy, Jerry Kirschner, Paul Woods, Jack Shirley, and Joe Lopez.

Meeting Called To Discuss Classing Office For B'field

A meeting of persons interested in placement of a cotton classing office in Brownfield will be held at 8 p.m., tonight, Friday, in the District Courtroom. Agriculture workers, farmers, and ginners are urged to attend, and interested persons from Yoakum, Gaines, Dawson, and Lynn counties are expected, according to Grady Elder, manager of the Brownfield Chamber of Commerce.

According to a recent bill passed in Washington, consideration will be given only to those locations where the local people request it. Upon request, the department will take steps to determine the wishes of the eligible farmers in the proposed office territory, as to where they want their cotton classed.

A prospect of not less than 50,000 bales must be had by the classing office, which will determine its scope after it is established.

The Department of Agriculture will make a survey, and if sufficient interest is found among the farmers, the citizens of Brownfield will then be asked to furnish office space and facilities in accordance with the department's specifications.

An application has been made to the USDA by Hale and Swisher counties for a classing office at Plainview.

First National Bank Will Celebrate 35th Anniversary

The First National Bank of this city, may now regard itself as one of the older business institutions of the town, when they celebrate their 35th anniversary, and that folks was just 15 years after Terry County set up itself to housekeeping in 1904, or on August 9, 1919. The bank started in a very modest little building across the street from its present location, in the Dick Brownfield building. And the late R. M. Kendrick was the whole works at that time, including bookkeeper and cashier.

We were in hopes that we would be able to get a picture of the newly remodeled building for this issue, but there is some finishing to be done before that time, on the outside. Among the improvements will be a remodeling of the sidewalks around the building, some lettering on the exterior of the building, and a large clock with an 18-inch diameter face, installed in front and the west side.

There will also be some interior decorations in the front lobby. So, we have just decided to wait for a picture until its all done up in apple pie order. In the meantime, our congratulations are extended on your 35th anniversary.

MANY COMPLIMENTS RECEIVED ON OUR 50TH ANNIVERSARY EDITION

By word of mouth, telephone, etc., we have received too many compliments on the old 50th anniversary edition to try to remember or mention. And this went for the new comer as well as the old timer. All got a kick out of the old paper's half century of endeavor to help build old Terry and area. One of the business men here in town informed us that all the objection he found was that he had to work next day. Well, that was his bad luck.

One of the most interesting comments so far, was received from Mrs. Mayme Robinson Peebler of Omaha, Neb., as follows: "Dear Mr. Stricklin: The Anniversary edition of your paper is wonderful, and I sure enjoy every line to the fullest extent. You may not remember, but the Longbrake Hardware was sold to two of the Robinson boys about 1904. So you see I was a pioneer, too. I do not know how long it is going to take me to devour every section of the edition, but I do not want to miss a line."

I am glad to have a picture of my good friend, Judge Geo. W. Neill, and when I say friend, I mean just that. He looked fine, and I hope he is well. It is too bad we did not get a picture of you. How come? This is the only fault I have to find. I do enjoy the heavy paper very much. Indeed I anxiously await its arrival each week. I trust that you are well and will continue to edit the Terry County Herald for years to come. Your editorial page is priceless. Long may you live and prosper.

Very sincerely,
Mayme Robinson Peebler.
Evidently Mrs. Peebler failed to get Section 7, of the Herald of the 23rd of July, as there we "set" right on the first page of that section. But the "making-up" of the page failed to tell whose likeness it was, underneath. We are mailing another Section 7 for fear you failed to receive the other.

Also some of the exchanges gave us some very nice editorial praise, as follows:

50th Anniversary Edition
Published by The Herald
Congratulations are in order to A. J. Stricklin, editor and publisher of the Terry County Herald in Brownfield, and Mrs. Stricklin, Jack Jr., and wife, for the 60-page edition of that paper celebrating the 50th year of publication of The Herald, and commemorating 50 years of growth and development of Terry County.
Many articles written by pioneers of this country were interesting as well as those by the editor himself, who has been steering the Herald through 45 of the 50 years of publication.

The Herald was started as the Terry County Voice in Gomez, five miles west of Brownfield, in 1904. It was moved to Brownfield following the town's founding and after Brownfield became the county seat of Terry County.

"The Old He" became owner and editor of the paper in 1909.—Yoakum County Review, Plains.

Congratulations to Stricklins!
Congratulations to the A. J. Stricklins, Sr. and Jr., of Brownfield on their Golden Anniversary edition of the Terry County Herald, a copy of which has just reached our desk. The special edition is No. 1, Volume 50, of the Brownfield paper, which was first published at Gomez, west of Brownfield, on Dec. 7, 1903. The anniversary edition contains approximately 60 pages filled with interesting historical articles and congratulatory advertisements.

Andy Jack Stricklin, one of West Texas' best-known newspaper publishers, has been at the helm of the paper 45 of its 50 years.—Charles Didway's Thursday to Thursday in Post Dispatch.

Congratulations from Jayton
"The Old He"—Editor and Publisher Jack Stricklin—and his staff over at the Terry County Herald in Brownfield, busted loose last week with a whopping big 50th Anniversary edition of that newspaper. "The Oldest Business Institution in Terry County" as Editor Stricklin labels the Herald in its Golden Anniversary edition, carries a wealth of historical information that held our interest for an entire afternoon. Congratulations to "The Old He" and his competent staff on a big job well done.—Jayton Chronicle.

The American Creed

We believe in the United States of America as a government of the people, by the people, for the people, whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many states; a perfect union, one and inseparable established upon these principles of freedom—equality, justice and humanity, for which American patriots have sacrificed their lives and fortunes.

Advices Use of Salt Tablets When Hot

AUSTIN.—There is little doubt that summer is here. If you don't think so, take a quick look at your thermometer or feel your shirt or blouse—chances are that it will be wet and salty with sweat.

Excessive sweating means the loss of body salt, and Dr. Henry A. Holle, State Health Officer, advises the use of salt in drinking water as a means of avoiding heat cramps.

"Salt is a prominent constituent of sweat," says Dr. Holle. "On days when the thermometer goes to 90 degrees or above, as it has recently, the body may lose as much as fifty grams of salt. Laborers, farmers, and even white-collar workers should be especially watchful of heat cramps."

Heat cramps are characterized by pains in the stomach, headaches, and sometimes nausea and vomiting. The danger comes because the loss of salt may occur without the knowledge of the individual until the deficiency causes cramps or heat fag.

Salt tablets may be purchased commercially. If they are not available, a pinch of table salt will serve the same purpose. "Since milk contains more salt than water, drinking milk is an excellent method of replacing body salt lost through perspiration," Dr. Holle says.

Mr. and Mrs. Bernarr Smith and daughter, Peggy, of Brownfield, are in Albuquerque this week.

Brahoney — Skelly Oil Co. 5, Webb, 660 from north and west lines of Section 514, Block D, John H. Gibson Survey, pumped 166.8 barrels of 30.5 gravity oil plus 31 per cent water daily. Gas-oil ratio was 38-1. Perforations from 5,198-5,256 feet were fractured with 9,500 gallons.

Brahoney—Skelly Oil Co. 4, Alton Webb, 660 from south and west lines of Section 475, Block D, John H. Gibson Survey, pumped 171.06 barrels of 30.9 gravity oil plus 40 per cent water daily. Gas-oil ratio was 485-1. Perforations from 5,186-5,246 feet were fractured with 7,500 gallons.

GULF OIL CORPORATION PIONEERED IN TERRY COUNTY—T. A. HICKS SUCCEEDS R. L. BOWERS AS AGENT

At the time of the death of R. L. Bowers, on July 4, 1953, he had the longest time in length of service with Gulf Oil Corporation than any other consignee on the South Plains. He had completed 30 years as being the Gulf Oil Consignee here in Brownfield. Starting, of course, with carrying drums of kerosene out in the country in wagons. As the petroleum products developed and new fields were entered with petroleum progression, Mr. Bowers kept pace with the industry. Always keeping good trucks and equipment to keep giving the best of service to his customers.

On July 7, 1953, immediately following the death of Mr. Bowers, his son-in-law, T. A. Hicks, was checked in as consignee. Starting in 1946, as a truck driver for Mr. Bowers, he had worked in all phases of the oil industry as far as wholesaling oil and gasoline at a wholesale agency. Of course he is maintaining the teaching of Mr. Bowers, in trying to build his business on good service and the best

product on the market.

Mr. Hicks was born in Munday Texas, on November 12, 1922. He was raised by an aunt and uncle, Mr. and Mrs. L. R. Pounds, moving to their farm west of Brownfield at the early age of eight months. Having completed high school at the Brownfield High School, Mr. Hicks attended Texas Tech two years before he was called into the armed forces. He spent nearly three years in the Air Corps, coming out as a Tech-Sergeant in glider engineering. While stationed at Sedalia Air Base, at Warrenburg, Mo., he was married to Miss Bobbie Virginia Bowers, of Brownfield, Texas. He spent 19 months in the ETO.

Mr. Hicks is a member of the Chamber of Commerce, Rotary Club, and a member of Crescent Hill Church of Christ, where he leads the singing and teaches a Sunday School class. He and Mrs. Hicks have two children, Tommy III, ten years old, and Linda Bess, six years old.

Due to an oversight of the floorman, identification of the above picture was left off in the edition and many people asked concerning the editor's picture. Stricklin purchased the Herald in 1909 and has watched West Texas change from the open range into a popular farm, ranch, and industrial area, rich in oil and minerals, and has recorded each week his observation of the phenomena.

RICOCHET ROMANCE

Three girls had grown up together. Two of them married, and thereafter continually annoyed their spinster friend with tactless remarks about her unhappy condition.

She laughed off their comments goodnaturedly until one day they went a bit too far.

"Now tell us truthfully," they twitted her, "have you ever really had a chance to marry?"

With a withering glance, she retorted: "Suppose you ask your husbands."—Santa Fe Magazine.

Monday through Saturday the services will be at 10:00 each morning and 8:00 each evening. A cordial invitation is extended to the friends and neighbors of the Tokio Church to attend the services.

Then there was Richard Chisholm, who dropped in to get on the list. Hadn't taken the time to do so since he and the good lady moved back from old "Californiah." Dick always had a grin on his face that anyone can tell is not assumed. It is a perfectly frank grin.

Bechtel Tells Us A Bit About Alaska

Friend L. L. Bechtel was in one day this week with some other matters to discuss, and got to telling us about their side trip to Alaska this summer, after attending the International Rotary Convention at Seattle. He stated that you really got a change in scenery up there.

Said the sun circled around north of you, and you really got tired waiting for it to "set." And of course in the winter, the sun is out of sight most of the time. The north star is right overhead. He got a lot of good shots with his movie camera, and wants us to see them as soon as the weather gets a bit cooler.

Mr. and Mrs. Sammy Jones and son, Tommy, and Mr. and Mrs. A. F. Dungan returned this week from a vacation in California. They visited Las Vegas, Lake Tahoe, and San Francisco, and with former Brownfield residents, Mr. and Mrs. Mon Telford, Jr., in Fresno. They returned home via the Grand Canyon.

Returning here Sunday from a ten-day vacation at Niagara Falls, Canada, Michigan, and Illinois were Misses Mildred Cox, Terry Lou Moorhead, Janie Miles, Avenol King, and Mrs. Era Moorhead. TRUCK DRIVERS MOVE 'WORK STOPPAGE' CAMP

Truck owners and drivers in the work stoppage of the \$200,000 Reese Air Force Base expansion program moved their trucks Wednesday of last week from near the caliche pits south of Meadow, to the Reese Air Force Base. The workers say they are not striking as there are no pickets, as yet, but are exercising their right of work or not work.

The dump trucks were for-lined up on the base, were formerly hauling crushed rock from

near Rich Lake to Reese Air Force Base as a part of the building program there. About 35 trucks are involved in the stoppage and Terry County deputies were called early this week to the scene near Meadow where a driver of a van truck from Illinois had thrown a cherry bomb, or enormous firecracker, into the midst of the truckers, injuring one driver in the leg and another on the neck. The Illinois man was held in jail over night and fined \$46.70.

B'field Garden Club Will Meet August 11

The Brownfield Garden Club will meet at 4 p.m., August 11 at the Seleta Jane Brownfield Clubhouse, with Mrs. Farrell Daniell acting as program chairman.

Hostesses will be Mesdames Bill Neel, Virgil Bynum, and L. M. Rogers.

After a talk on "Landscaping with Iris," by Mrs. A. J. Ball, "Flower Show Plans" will be discussed by Mrs. L. M. Rogers.

Hints for August listed in the yearbook are: Plant three or five iris rhizomes in a clump; sun iris rhizomes three days before planting. This allows scars to heal. And plant pansy, snapdragon and columbine seed.

Then there was H. L. Gage, who dropped in to plank down for two more years of the paper that pre-dates the country. And that is a good idea, too, for if we have a good harvest, the Herald will go back to the old rate. Just have to, as any newspaperman will tell you, you can't make both ends meet selling a paper for \$1.50 these days. Even at \$3, you just about break even.

Then there was Mozelle (Treadaway) Fitzgerald in to get their paper up two more years while the getting's good. Mozelle is a daughter of the late Dr. T. L. Treadaway, Sr., and a real pioneer, as well as her husband.

Mrs. W. D. Mav was in this week from out on Route 4, to renew for their paper. Invited us out to get a mess of speckled-eyed peas. Be out this weekend, Mrs. May.

Misses Creola Moore, Edith Creighton, and Marie Gracey, of Brownfield, and Ruby Kempson, of Meadow, are on a West Texas Teachers' College month's tour through the Eastern Coast and through Canada, and will return about Tuesday. Two buses are on the trip, and in the group is an 81-year-old man, who is really enjoying the trip.

Mrs. W. M. Adams informed us this week that her daughter, Nell, who lives in Dallas, has one of the 50 year editions, and is surely enjoying it. Also the lady over at Post, who ordered one for her dad, Mr. Satterwhite, an early day settler, wrote in that her dad was sure enjoying the paper.

The curfew tolls the knell of parting day
A line of cars winds slowly o'er the lea;
The pedestrian plods his absent-minded way.
And leaves the world quite unexpectedly.

Derrington-Simmons Vows Exchanged

Miss Joyce Simmons, of Brownfield, and Billy Derrington, of Plainview, were married in a double ring ceremony read recently in the home of John McCoy, minister of the Crescent Hill Church of Christ, by Mr. McCoy. The bridegroom is the son of Mr. and Mrs. D. V. Derrington, formerly of Brownfield and now of Stamford. Mother of the bride is Mrs. W. F. Jones of Brownfield.

The bride wore an eggshell colored suit of summer faille with navy blue accessories and carried an arrangement of blue carnations atop a white Bible. Attending her as maid of honor was the bridegroom's sister, Mrs. Wanda Derrington of Stamford, who chose a sheer pink frock with white shoes. Her bouquet was also of blue carnations.

Skeet Whitley served the bridegroom as best man.

Immediately following the ceremony the couple was honored with a wedding reception in the home of the bride's mother. The lace-laid bride's table was topped by a crystal punch service and lighted by white tapers burning in crystal candelabra. The three-tiered wedding cake was iced in white confection and ornamented with a miniature bridal couple. An arrangement of white gladioli was used in the living room.

After the reception the bride and bridegroom left for a wedding trip to Ruidoso. On their return they will be at home in Plainview, where he is assistant manager of Martin Dry Goods.

The bridegroom graduated from Stamford High School, and the bride was a student at Brownfield High School.

There is quite a difference between being present and doing the work.

Financial Advice for Uncertain Economic Weather: Buy what you must have but otherwise save your money.

Mr. and Mrs. Robert Lee Craig and Bobby, and Mr. and Mrs. J. O. Gillham, all of Brownfield, are touring the West Coast this week and will return home in about two more weeks.

George Lane of Lubbock writes in enclosing check for six of the 50th anniversary Herald, and six of the last week's issue, that kinder finishes up about the old timers and old times in Terry and area. If you wish to know about the matter, will say that by the time this issue is out, perhaps all of the 50th anniversary editions will have been sold.

Ruidoso visitors this week included Mr. and Mrs. Grady Elder and son, Mrs. Leonard Lang and Mrs. Hub King and children, of Brownfield.

We note that Joe Stevens of this city, has been down to Big D taking instructions on writing insurance, along with several others from this area. This is kind of a school of instruction.

Beverly Wartes, of Brownfield, is recovering from a bad sun burn she received while vacationing at Colorado City.

How many good books are written these days?

Dr. Davis Treated For Knee Ailment

Dr. E. C. Davis, of Brownfield, is undergoing treatment for a blood clot and infection of muscles around his knee in Union City, Pa., and is reported doing alright.

He and his wife and son, Earl Jr., were vacationing with relatives in Pennsylvania when he began suffering quite a bit from the ailment that had bothered him for the past several months.

The Davises plan to return home about August 10, according to friends here.

FACTS TO REMEMBER!
The simplest and yet one of the important lessons all Americans should learn about our way of life is its economic advantages. Our school children especially need to know just how much better off they are materially than the children in the nations of Europe and Asia. Knowing the facts of our advantages over people who live under other systems gives us good reason to resist the expansion of Socialism in any form, and it builds up our immunity to the left wing propaganda which seeks slyly to undermine confidence in the American system.

The left wing propagandists and their dupes are constantly attacking the profit motive, which provides the impulse in our system. They seek to undermine our respect for it, in subtle and indirect ways. They try to persuade people that it doesn't operate in the best interest of all the people. Yet the facts are that the average American workman produces two times as much per man-hour as a man in a similar job in Switzerland or Sweden or Belgium, the most prosperous countries in Europe today.

High Living Standard
The American workman produces three times as much per man-hour as a workman in a similar job in England after nine years under Socialism. He produces at least five times as much per man-hour as a workman at a similar job in Russia which for 35 years has boasted that it is the "workers' paradise." This unmatched productivity, spurred on by the profit motive and free market competition, gives Americans the higher living standard. As a matter of fact, our advantages in living standards exactly match our advantages in productivity.

The average American lives twice as well as the average citizen of the best countries of Europe, three times as well as the Englishman, and at least 5 times as well as the Russian. Our national income is equal to the national income of the next highest six countries in the world combined; and yet, we have only a small percentage of the combined populations of those six countries, and only a small percentage of their combined natural resources.

America has more youngsters in high school and college than do all the other nations of the world combined, solely because it's in America alone that the average daddy can earn enough money to put food on the table, clothing on the backs of his children, and allow youngsters of high school age the freedom to go to school; and later give them financial help through college. This is an important fact for children to know, and it is the main reason our economy is advancing, constantly making life better for all.

It certainly is advancing. Today there are three and one-half persons in America for each automobile. In 1900 there were 9,500 people for each car. There are now 4.7 persons per one washing machine. Just 30 years ago the ratio was one washing machine for every 115 persons. Today there is a telephone for every three persons. In 1900 there was one for every 56 persons. In America today there is a radio for every two persons. Twenty-five years ago there was one for every 13 persons. Savings accounts in America in 1920 averaged \$220 per person. Today they average \$1,437.

Central Factor
Our private enterprise economy, with its profit motive and competitive market, is the central factor in our prosperity. It operates on the fundamental idea of private ownership of the production and distribution facilities. The only other kind of economy provides for government ownership or rigid government control of these facilities. This latter kind has been operating in varying degrees, in the European countries whose living standards are so far below our own, and in Russia under Communism.

The American way of life and the great prosperity and freedom it has provided for generations of citizens, stand in jeopardy today for two fundamental reasons: (1) downright human legerity, and (2) the propaganda program of the Communists. The legerity can be reformed into active strength for our American system only through an awareness of the system's priceless value, in dollars and cents as well as in freedom for every citizen. And it is only with knowledge—facts and truths—that our citizens can be prepared to withstand the propaganda.

The serving table was covered with a white cutwork cloth and centered with a bouquet of white flowers, fronted with a miniature bride and groom. A large blue net table, covered with small white flowers, was placed behind a bouquet of white asters on the buffet.

Miss Parilee Nelson, Mrs. Henry Cargill, and Miss June Lewis alternated at pouring pineapple sherbet punch from a crystal service. Blue and white pinwheel sandwiches were served.

Hostesses displayed gifts in the three bedrooms and presented Miss Wheatley with a George Washington bedspread.

Approximately 50 guests called. A pretty thing's smile usually means something; seldom is it unreturned.

Marketing Quota Controls Carry In Wheat Referendum

Out of 200 eligible voters in Terry County, only 35 cast ballots Friday, but all voted in favor of marketing quota controls in the wheat referendum, according to Looe Miller, office manager of the local ASCS.

In Friday's referendum, the US Agriculture Department reported farmers voted 195,801 to 71,303 for controls on next year's crop. The majority for controls was 73.3 per cent. Though above the required two thirds, the percentage was a record low. The total vote also was light compared to former referendum years.

Secretary of Agriculture Benson said the vote shows farmers recognize the serious problems posed by great wheat surpluses. Rigid price supports now in effect have helped pile up the surplus by encouraging unneeded production, and farmers are in a mood to make adjustments. The vote also helps set the stage for the flexible system of price supports favored by the present administration. Under this system supports would go up in times of scarcity to encourage production, and decline in times of surpluses to spur consumption.

There will be a district meeting at Lubbock, August 3, to discuss the 1955 ASCS program. Attending from Brownfield will be County Committeemen and Miller, Co. Agent Jim Foy, and Henry Williamson.

Mrs. H. B. Thompson, Mrs. Virgil Travis, and Mrs. Herman Chesher, all of Brownfield, recently attended a gladioli show in Lubbock.

Mr. and Mrs. Herman Chessir, 1008 East Tate, and son, Glenn, returned Sunday from a three-day fishing trip at Possum Kingdom.

WE FINALLY GET A CHANCE TO SLIP AWAY

Sorter like the old attempt at poetry writing we once beheld, for the past several weeks we had fit and fought to clear the decks of the old 50th edition, and we were worn, tired and you might say hungry. And like the two little animals described in the said poetry, "they fit and fought 'till their heads touched the ground, then histed up their tails and fit another round." Well, that was sorter like the Old He felt when we got the old 40th in tune and took off for scenes below the cap last Saturday A. M.

Another thing, we sure did want to see the kids and grandkids, the purp and the parakeets. Of course the Mrs. went along to guide the destinies of the old "Chevy," and Miss Mary Ann went along to keep us company, and to see if she might see some "cantaloupes," as she calls antelopes, went via Tahoka and Post as it had been some time since we made the trip that way, and we just wanted to see how the "craps" looked in that direction. But Miss Ann was very much disappointed that we were not going through Gail. Just why she thinks so much of Gail is a mooted question. But we came back through that fine little burg, and she got to look for some "cantaloupes."

Like most everywhere else we have seen, crops look flourishing between here and Post, all except the older maize, but some of it that was planted real early had headed out before it began to suffer from the extreme heat. And of course the irrigated stuff was OK. Cotton was on a boom everywhere as was late feed, which a rain in the near future will put on a boom. But about the best all round crops not irrigated were found in south and southwest Scurry and Mitchell counties, north of Colorado. We saw southwest Scurry Sunday morning, while out looking at Lake Thomas, during which time we got turned around and lost, which always aggerfrets us.

What we intended to see was the upper reaches of the lake, and on down to the dam, but we ran into trouble as the lake now has so much water in it that many of the draws are lakes, and in one or two instances we had to turn back. Finally had to get way out

from the lake, to get to the dam, and by that time we imagined that we were on the west side of the lake, and would have sworn upon oath that we crossed first from west to east, then from east to west, and would have to get back to Snyder the best way we could. But as we were leaving the lake in which the water was south instead of north of the dam, we started up a hill where the construction crews stayed during the building of the dam, and it all came to us like a flash. The water was on the north side of the dam. Did you ever have anything like that to happen to you? Not pleasant, brother.

But we told you we saw crops in north Mitchell County and in south Scurry. Master Rover, the purp, was under the weather, and Herman wanted a veterinarian at Colorado City to see him, so we drove down with Herman, Sunday P. M. Just getting old and some of the infirmities of age creeping on, brought on sooner by injury when a mere pup down at Brownwood when a car ran over him. He got two shots and some medicine, and we hit the road back to Snyder, as we had to get away around six p.m. Boy, that air was cool Saturday night, right off some rain further east. But one guy got mixed up and gave it out that Sweetwater had an inch and a half rain, and a good one was falling at Colorado City. But the rain was much further away. However, the bunch ate a picnic supper out at the City Park, and it felt sorter chilly to us. But what a night for a good sleep?

Other than Rover, the family was in fine fettle, and the pantry had plenty to eat, and the beds were good and soft. Called up a new reader down there, Miss Viola Smith, who had complained they had not received the paper. But she stated that the old 50 year edition was the first to come in—and did her dad, W. H. Hight, get a kick out of it? The Hights used to live here several years ago, but moved to Snyder during the oil boom.

The best of things must come to an end, so after giving Miss Sara B. four licks and a hard one to grow on, as her 4th birthday was the 5th, we took off for home on the baldies. Of course Miss Ann had to stop for a root beer at Gail, and looked for "cantaloupes," but the sun was in our eyes, and she failed to see any. Came back via O'Donnell, to avoid traffic, and have just as good roads. We met more cars in a five mile length after we hit 137

Look at the 3-way bonus you get in the car that's sweeping the nation!

1. You get the car that's styled for tomorrow —

and for just a few dollars more than the so-called "low-price three"!

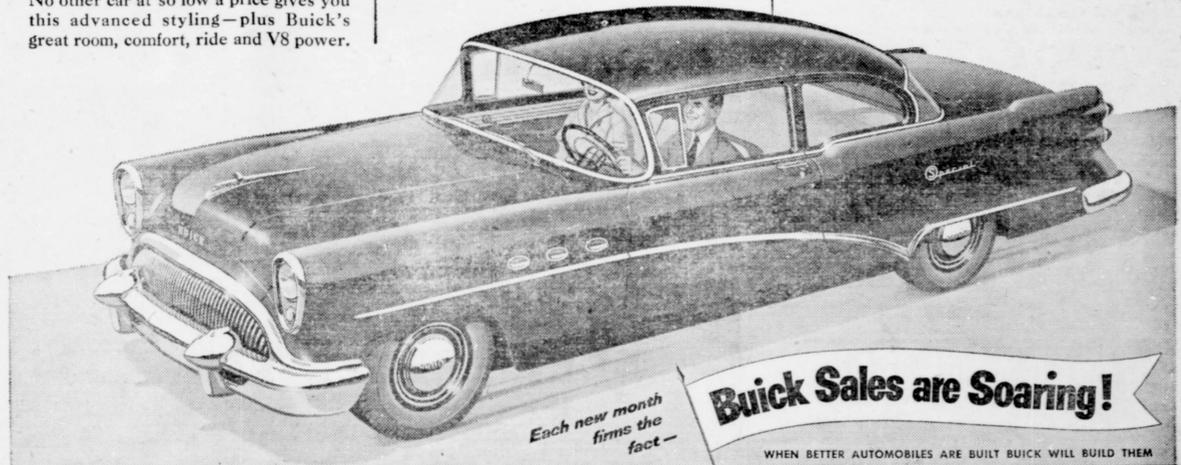

In Buick today you find the fresh modern beauty that will pattern the styling of other cars yet to come. That's a major reason for Buick's soaring success this year. But the clincher is Buick's low delivered price—lower than you think. No other car at so low a price gives you this advanced styling—plus Buick's great room, comfort, ride and V8 power.

2. You get the car that's a sure high resale value

Of this you can be sure: the new Buick you buy today will look modern next year, too—because that broad panoramic windshield will be appearing on other cars as a 1955 feature. So with the new Buick you buy now, you'll stay right up in the style parade for years to come—and command a higher resale price when you trade it in.

3. You get a bigger allowance from our volume business

Regardless of price class, Buick today is outselling all other cars in America except two of the "low-price three." That's fact. So with this tremendous sales volume, we can offer you a higher trade-in allowance when you buy a new Buick. Come in, see and drive Buick the beautiful buy. Then see for yourself how our volume business means a far bigger allowance for you.

stand what it's all about.

In traveling about over this good land of ours, we find out a lot about the human race, some not so good, but mostly folks are the cream of the earth. For instance, you will meet truckers, who are ready to give you your side of the road, but there are a few that insist on taking a bit of your side of the road, and force you out on the shoulders. These are few, thank goodness. Many truckers will stop and help you if you have a flat or blowout.

Some way with filling station men. Most of them are honest as the day is long when you ask them about your oil. For instance, going down to Snyder, we stopped in Post for a bit of gasoline, and asked them to see about our oil. He stated that it would require two quarts to fill 'er up. So, on so Snyder some 40 miles, and a little driving after we reached that place, as we used the Buick mostly for drives, except short ones around the town. Perhaps ten miles would have covered the extra distance, making 50 in all. But we stopped at a filling station as we left Snyder, Sunday P. M., to make sure. Said the attendant, "It will take two quarts to fill it."

We thought it a bit strange. Where the car had set, there was no oil leakage. So, we thought if oil is going that way, better have it examined at Gail. There is a man there who runs a Texas Co. place where we have stopped many times to tank up on drinks. Not a man of many words, but we have much confidence in him. So we stopped at his place, explained the circumstances, and he examined the oil. He stated that the Snyder man had done a good job of putting in oil as he had overdone the job. It was too full. Most filling station men will come to the car and show you on the road just how your oil looks, or if it needs none, they put down the hood without saying anything. So we gather that the Snyder man either didn't know his okra, or else he wanted to sell 80c worth of oil. We'll keep that station in mind from this on when in Snyder and need car service—and skip it.

Speaking of Snyder, reminds us that they had the reverse of what "hoped" in this burg. Terry County went for Shivers by some 90 votes, but the Yarboroughs controlled the county convention. Searcy County went for Yarborough, but the Shiverscrats controlled the county convention. Maybe it is just another case of the old Confederate General, Nathan Bedford Forest, who stated that battles were won by them that get their fustest with the mostest.

Such is politics, however, and the more we see of them, the more we become "regusted" as Andy would say. Especially if they dig down in the dung hills and mudholes and scatter stinking offing all over the land. And a lot of people when they set out for office have no more regard for the truth and veracity than a skunk—human skunk, that is.

And right here is as good place as any to tell one and all about the Knox-Haskell county reunion at McKenzie State Park at Lubbock, next Sunday, August 8. All former citizens of these counties are requested to be on hand and bring a basket of lunch. Our informant was a fellow by the name of Changman, chairman (surely not a Chang-chung-chinaman) up at

LOCAL MAN IS NABBED BY F-B-I

A local man, Walter Clyde Tolbert, is awaiting transportation to Oklahoma, in a Lubbock jail, after he was arrested Saturday in Brownfield by the FBI on a charge of bank burglary arising from two jobs in Oklahoma.

Tolbert is reported to have not obtained a dime in the burglaries at banks in Gould and Martha, Okla. At the time of his arrest at 11:30 a. m., Tolbert was employed as a cook in a local cafe, according to the Lubbock Avalanche-Journal.

Tolbert and two companions are accused of breaking into the First State Bank at Gould on Nov. 14, 1953, however, they retreated without ever having seen any sign of money. FBI men checked with local authorities before Tolbert was arrested.

The second charge against Tolbert was in connection with a burglary at the Oklahoma State Bank in Martha, along with two other persons, on Nov. 22, 1953. The three left with one man picking up \$2 in stamp money, some ball point pens and five packs of cigarettes. Tolbert says he got none of this.

According to the Lubbock Avalanche-Journal, Tolbert made a written statement concerning the burglaries. He has served time in Santa Fe, Leavenworth, and the Huntsville penitentiaries.

New Downtown Cafe Is Now Open

J. T. Billingsley, manager, announced this week that the Wines Coffee Shop, 113 North Fifth, is now open for business.

Mr. Billingsley, who has been in the cafe business in Brownfield for the past seven years, states he has taken over the management of the hotel proper as well as the coffee shop and the entire establishment has undergone a thorough renovation, and the hotel rooms, though limited in number, are modern in every respect.

Pep, Texas, USA. Welcome to this space Mr. Chung—we mean Jungman.

And another thing, that boy, Lewis Simmonds, the chairman of the local Amateur Radio Club, sends an invite to the Herald bunch to be with them at an open house affair, at their building at the intersection of North Fifth and Sixth streets, all day. We appreciate the invite, and will try to have an interpreter there, but as we get out little nights, we have an idea we'll be looking at Mutt and Jeff.

And while we are thinking about the matter, we noted in Tuesday's Hubcock Evening Shurnal, the Post Dispatch, including friend Eddie Warren and Sharley Didway, had received a Certificate of Appreciation from the Cancer Society for use of their material to promote drives.

So did the Terrie County Herald, but as we thought all and sundry of the good papers of the area had received one, ours went in the waste basket after an admiring glance.

Last, but not least, Uncle John Santa Fe reminds us that all sundry "Injun" tribes will be gathered at Gallup, N. M., August 12-15 for the big ceremonial and war whoop perhaps. And that their streamliner can carry you there and get you back home in one whole piece. Now if Uncle John can meet airline conditions, so much down and so much a month, we'll consider a trip.

Thanks, Friends; Predicts Victory

AUSTIN, Aug. 6.—Democratic gubernatorial candidate Ralph Yarborough said this week he will win the Aug. 28 second primary by a sweeping margin.

Said Yarborough, confidently: "678,000 Texans—a majority of Texans—can't be wrong. '678,000 Texans have hammered home their belief that integrity in their government can be achieved only by a change."

"678,000 Texans have noted their distrust and disapproval of a third term for their governors. '678,000 Texas Democrats have made it crystal-clear they want a leader whose loyalty is unquestioned, who will never betray them."

Yarborough thanked "each and every one of the brave Texans who voted for and with me" in the first primary. He said he was "especially and particularly grateful to the citizens of Terry County who have joined our common fight to restore decency and honor to Texas government."

Yarborough said the campaign issues now are sharply drawn. He said: "Texans can now choose for or against a tradition-breaking third term, for or against straight-forward Democratic leadership in their State Capital."

The Democratic candidate repeated his thanks to "his friends of Terry County and urged their voting support — along with the votes of all other Texans—August 28." (Paid Pol. Adv.)

Thomas Contacting Right-of-Way Owners

Dugan Thomas began Monday formulating a feasibility report for the City Council to find out how much obtaining right-of-way for the four-lane US Highway 62 through this city would cost.

Thomas started contacting property owners on the Lubbock highway north to town and will then work the south part of town. His findings will be subject to a bond issue that must be passed before the highway through Brownfield can become a reality.

BIG DRIVE FOR VOTES OFF TO THE FINISH LINE

At the crack of the signal gun Monday, both candidates for Governor of Texas, were off from the starting line, and headed for the finish. Both in a way promised no mudslinging, Shivers positively, Yarborough with some reservations. It seems that "water" and more water will be the theme song with both the boys. We need water in Texas.

Of course there will be other matters under discussion, if you care to listen or read, such as a bonus for all soldiers, to the tune of a billion dollars or more, and no "mon" to pay with. So it comes down to a matter of sales taxes, and we believe most Texans will not go along for them.

Then there is the matter of segregation in the schools. Shivers has made himself very clear where he stands along this line, but Judge Yarborough seems to have hedged a bit so far, but will have to come out clear one way or another before the August runoff is over.

Anyway you look at it, the race is going to be hot as a poker, and being so few state races in the runoff, Mr. or Mrs. Voter will have a clear air to look, see and listen.

While most of us already have in mind how we will vote come August 28th, there may be some last minute shifts — not many, though—we are predicting.

TWO LOCAL MEN BEATEN & ROBBED

Two local men, R. J. Click and M. A. Thomas, were hospitalized early in the morning of July 30, after they were picked up by city policemen, James Fulford and Edward Brooks.

The two men told police that they had been beaten and robbed by two white men in the vicinity of the 1400 block on West Main. They were released from the hospital later in the day.

Both men suffered lacerations of the head and other minor bruises.

B'field Represented At ASCS Meeting

Looe Miller, local ASCS office manager; Henry Williamson, Paul Golden, R. D. Jones, Sr., and County Agent Jim Foy were among county Agricultural Stabilization and Conservation Service committeemen, and representatives of state and federal agencies attending a district meeting at Lubbock, Tuesday, to commence work on the 1955 Agricultural Conservation program. This meeting was one of four meetings, in a series of 12 district meetings, which were held at Amarillo on Monday, Wichita Falls on Wednesday, and Brownwood on Thursday.

Purpose of the meetings was to get from the county committees suggestions on the practices which should be included and from the district meetings will then come the recommended practices and practice specifications which later in the month will be considered for inclusion in the state program.

Final recommendations from Texas will come jointly from the state ASC committee, state conservationist, SCS and state forester of the US Forest Service. Representatives from the teaching, research and extension parts of Texas A&M College System and many other state and federal agencies will meet with the recommending group while the final plans are being made.

Also discussed at the meeting at Lubbock was the latest information on acreage controls and related subjects connected with ACP and ASC programs. Principal discussion concerned outlining of conservation and soil building practices which producers can carry out on their farms and ranches during 1955, thus earning conservation payments.

To The Exempt Voter

It has been called to my attention that some of the qualified voters of this county, who are over 60 years of age, are confused as to whether or not they can vote.

Any person who is or becomes 60 years old before January 1, 1953, is entitled to vote in any election this year. You do not have to have an exemption certificate to vote. If you are over age, the only thing you have to do is go to the polls and vote.

After all, it would be rather tough to have to live forever.
