NUMBER 121

PEOPLE and THINGS

By J. W. S.

SPENT AN INTERESTING hour at Cisco Junior College last night, looking in on the veterans night school. Did you realize that by virtue of having the junior college here, some \$250,000 per year is put into circulation in our town? The over-all enrollment now is above 300. And the school is growing.

SCHOOL LEADERS are taking advantage of equipment offered schools by the War Assets Administration. Much of the vocational equipment, buildings and other materials came via WAA. They expect soon to have a radio and electronics course de luxe, thanks to the WAA. Much equipment has been sent us. And it's valuable. For example, one truck load was valued at \$131,000.

ENJOYED LISTENING to Mr. A. R. Collier's salesmanship class, to Mr. E. L. Kent's economics class and looking in on Mrs. Minnie Hills business administration class.

OVER IN THE SHOP, it wasn't class night. But Mr. Al Collier was working on a boat. His day off. They have big doors and Al won't have any trouble getting the finished boat out. But we once knew a fellow who built himself a fancy boat in his basement. It took 3 months to build. When he finished, he discovered his great error. The only way the boat would come out intact would be to tear out a side of the basement.

SPEAKING OF boating reminds us of fishing. And that reminds us of the big crapple that got away from Mrs. Punk Thornton. The big boy took her stringer with him. So if you catch a fish wearing a stringer, you'll do Mrs. Thornton a favor by returning her stringer. The Thorntons, by the way, are putting the finishing touches on their new home and hope to move in before too long.

HAD AN INTERESTING chat yesterday with Mr. C. J. (Mack) Stephens. He has been here 33 years and came here at the age of one, so you can figure his age pretty easy. His father and grandfather were prominent in the early life of this good community. He works for the Magnolia here and is enthusiastic indeed concerning our town's outlook.

BUT AREN'T we all. Our proof reading department made an error yesterday. Talking about Mr. J. B. F. Wright's young brother, the line read "who is only 5 years old." It should have read "58 years old, and his sister is 63 and not 65 as we stated."

MANY OF YOU will be interested to know that two men convicted on robbery charges at Paducah have been charged with burglarizing the Norvell and Miller Grocery here on December 13, 1947. They got 12 years for the Paducah job, and we understand they'll probably be tried in this county for the \$1,200 robbery in Cisco.

WHAT'S DOING

FRIDAY NIGHT.
Twentieth Century Club Golden anniversary celebration, reception at Library building, 3 p. m. to 6 p. m. Public invited.

Miss Gloria Graham, violinist, recital at First Baptist church, 8:15 p. m., auspices Twentieth Century Club.

Friday & Saturday
Co-Vet's Carnival, April 30 and May 1.

MONDAY, May 3.
Jaycee Luncheon, College Cafeteria, noon.
Jayettes meeting, 7:30 p. m., Chamber of Commerce.

TUESDAY, MAY 4.
Board of directors of Chamber of Commerce, regular meeting at Chamber of Commerce building, 8 p. m.

WEDNESDAY, MAY 5.
Lions Club luncheon, College Cafeteria, noon.

Ciscoans Attend Feed Experiments At San Angelo

Twelve Cisco area residents attended a Purina Ralston Company feeding experiment field day Wednesday near San Angelo, according to C. W. Henry, local Purina dealer. Making the trip were Mr. and Mrs. M. E. Fry, Mr. and Mrs. Edd Huestis, Douglas Fry, R. D. Williams, G. P. Mitcham, Jr., Sam Kimmel, Sutton Crofts Mr. and Mrs. Jack Hailey and Mr. Henry.

More than 500 West Texans attended the meeting to note results of a feeding experiment begun on Dec. 1, 1946, with 100 head of cows. The project demonstrated results from use of high protein feeds and from use of highly fortified feed with vitamin A and carotene.

Texas A&M College and New Mexico A&M College sent faculty and student representatives.

TWC Homecoming To Honor Classes Of Former Years

FORT WORTH, April 29.—May 29 has been set for the annual Homecoming and Spring Festival at Texas Wesleyan College, Fort Worth, it was announced today by President Law Sone.

Three former classes will be honored at the celebration. They are the classes of 1943, 1938 and 1928. This year marks the beginning of a new plan for honoring classes of five, 10 and 20 years previous at the Homecoming.

Plans for the May date includes an annual business meeting of the Alumni and Ex-Students Association, 10th anniversary breakfast of the Guardians of the Golden Shears and traditional reunion of the Class of '39 Club.

All former students of TWC automatically become members of the Alumni and Ex-Students Association with the recent abolition of membership dues. Election of officers will be held May 29.

Workshop Enters Higher Education In Summer School

AUSTIN, April 29.—(UP)—A workshop in intergroup relations designed to improve human relations in Texas, will be offered in summer school at the University of Texas, according to announcement.

The workshop, first in the history of education in Texas, will be offered as the result of a grant from the National Conference of Christians and Jews.

Dates of the workshop are June 2 to July 13.

Purpose of the course, according to Dr. L. D. Haske, dean of the university's College of Education, will be to prepare Texas school teachers to carry into their classrooms the methods of teaching together in the midst of cultural and religious differences.

Ciscoans Have Fourth Interest In F. R. Raymond Oil Well Near Moran

Mrs. Earl Edwards of the Edwards cafe is not unduly concerned, apparently, over the news that the F. R. Raymond oil well which came in for 166 barrels in a six hour test about 13 miles north of Cisco last week—she and her husband own a one-fourth interest in the well—but says she it will pay out.

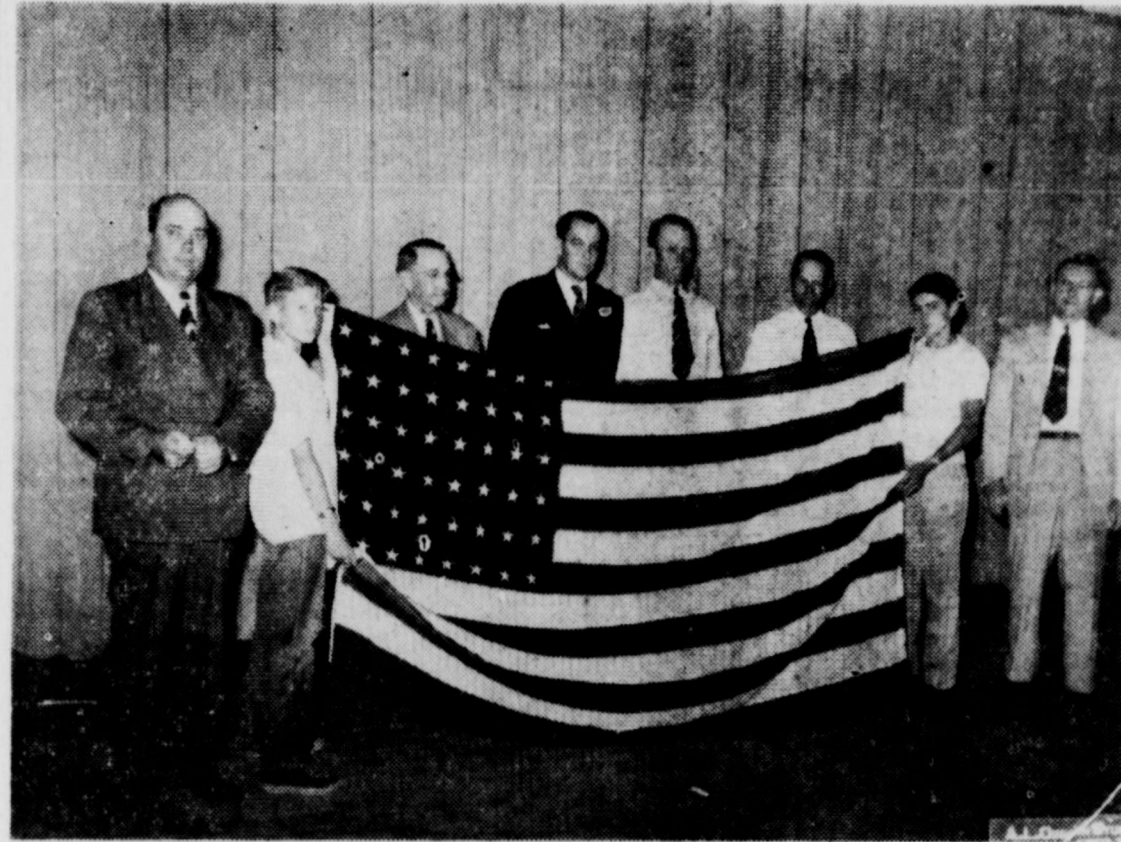

The official report was as follows:

Completing for an official stage of 166 1/2 barrels of oil in six hours has been made by B O Tubells on the No. 1 F. R. Raymond, north extension to recent-ly opened Stephens County Cad- do production eight miles south- west of Moran.

The production was through 24 1/2 choke with 820 pounds on casing and 250 on tubing from 41 casing perforations in the Cad- do at 3,352-60 feet. Top of the for- mation was 3,322 and total depth 3,430. Location is 330 feet from the south and east lines of the west 120 acres of section 1, bloc- C SP survey.

In Comanche County, 4 miles east of Gorman, location for a test well between the new Kirk pool and the old Desdemona field has been filed by J. W. Baldwin as the No. 1 J. A. Watson et al, 330 feet from the south and west lines of the J. A. Watson tract in Wm. DeMoss survey. Permit is for 2,900 feet with rotary, which would check the Marble Falls section.

FLAG PRESENTATION AT HIGH SCHOOL

This 5 by 8-foot flag was presented to the high school April 21 by the local Woodmen of the World lodge No. 500. The presentation was made by District Manager Nathan Theoford in behalf of the lodge.

Reading from left to right: Nathan Theoford, Mack Stephens, Frank Curry, Joe Sublett, D. R. Harper and Carlos J. Turner, high school principal.

Boy Scouts are L. E. Sublett, Jr., and Frank Smith.

Tom Breneman Radio Artist Died Wednesday

HOLLYWOOD, April 29.—Tom Breneman, jovial mastermind of one of radio's most popular shows, died suddenly Wednesday of a heart attack while guests were gathered for his broadcast.

The baby-faced, grey-haired master of ceremonies of "Breakfast in Hollywood"—who sold soap and cereal and brought laughs to an estimated 10,000,000 (M) persons daily—succumbed at his Encino home a few minutes after breakfast. He was 47.

He retired Tuesday night, apparently in the best of health, although a few weeks ago he took a month's rest on doctor's orders.

Breneman was a showman unique in radio. He had been on the air off and on for more than 20 years, had virtually grown up with the industry, knew it from a standpoint of a performer, announcer, station manager.

He had a neat way of making his audience love his jokes, sometimes almost insulting. He kissed old ladies, and they ate it up. Bald men happily accepted pink plastic combs. He ridiculed women's hats, donned the more extravagant chapeau himself to the shrieks of delight from his audience.

The line was already forming for Wednesday's broadcast when Breneman's wife, the former actress, Billie Dunn, heard a thud in the bedroom. She called a doctor, but Breneman was dead.

The program was transcribed a day in advance, and officials of the American Broadcasting Co. said Tuesday's will never be heard.

A native of Waynesboro, Pa., he attended Columbia for a time. He presented his "breakfast" shows at Sardi's Restaurant in 1945 and a still larger one this year.

Mr. and Mrs. J. R. Carlisle Celebrate Golden Wedding Anniversary April 10

Mr. and Mrs. J. R. Carlisle of Bedford community, celebrated their golden wedding anniversary at their home on April 10, together with five of their six children, and other friends of the family.

Mr. and Mrs. Carlisle were married in Dublin, April 10, 1893. They have lived in Cisco since 1912. Mr. Carlisle will be 82 on June 12, and Mrs. Carlisle will be 70 on August 7.

Children with them on the oc-

MR. AND MRS. J. R. CARLISLE.

4-H's To Help Keep U. S. "Bread Basket" Filled

With domestic food consumption increasing yearly, together with continued demands for foreign aid, 4-H club members are determined to help keep America's "bread basket" filled.

For this specific purpose, roundly 200 thousand farm youths are taking part in the 1948 National 4-H Club Field Crops awards program. The program is designed to help 4-Hers acquire a better knowledge and develop skills in approved farming practices that will serve to increase production of food, feed and fiber crops. The farming practices include careful selection of seed and most proficient use of land and available farm machinery.

Awards for superior 4-H crop production records provided a grand prize this year by International Harvester Company are county medals a Chicago 4-H Club Congress trip for the state winner, and \$200.00 Fowler McCormick scholarships for national champions.

Last year's state winner in Texas was Alvin C. Davis of Post.

There were 77 county medal winners in Texas last year.

This is the fourth consecutive year of the program, which is supervised by the Extension Service. County extension agents will furnish complete information.

Lucile Harris of Hendricks Memorial Heads Texas Society

Lucile Harris, head technician at Hendrick Memorial Hospital, was elected president of the Texas Society of Medical Technologists at an annual convention Saturday in Dallas.

She was also named delegate for her third year to attend a convention of the American Society of Medical Technologists June 7-8-9 in St. Paul, Minn. At the national meet, she will visit one day at Mayo Clinic laboratories, and will attend haematology seminar two days at the University of Minnesota.

Miss Harris is a medical technician at Hendrick hospital. She has been a member of the staff nine years.

Armed Forces To Have Leeway In Surplus Property

The army, navy and air force will be able to exercise top priority in the purchase of war surplus at a "fair value" fixed by War Assets Administration, according to a new ruling being put into effect today by WAA's Grand Prairie regional office.

The ruling, as directed by the Washington, D. C., War Assets office, gives the services additional leeway in acquiring surplus personal property regardless of the source of the property or whether it is residual goods put up for a non-priority sale by competitive bidding. It is an additional interpretation of the "withdrawal" rights recently granted federal purchasers procuring items for national defense in which they may now claim surplus goods any time prior to an actual commitment for sale.

The procedure will be applied to all disposals in the five state area controlled by the Grand Prairie region scheduled to be held on or after May 7. Sales now planned include a quarter million dollar inventory at San Antonio Warehouse No. 1 and Kelly Field, and smaller clearances at WAA's North American B plant warehouse, the McAlester, Okla., Naval Depot, and at Camp Gruber, near Muskogee, Oklahoma.

Coleman Celebrates Dam Opening Today

B. A. Butler, secretary-manager of the local chamber of commerce and several citizens including Mayor Lee, S. H. Nance, city water commissioner, and Olin O. Odom, city finance commissioner, were scheduled to attend the celebration of the opening of the Hords Creek dam and reservoir at Coleman this afternoon.

A Coleman date line story has this to say of the event:

Several thousand persons, including envoys from many neighboring towns, are expected to gather in Coleman Thursday to celebrate the opening of Hords Creek dam and reservoir.

Ceremonies formally opening the new lake, with Former Gov. Coke Stevenson as principal speaker, will begin at 2:30 p. m. at the dam site.

The project is about eight miles west of Coleman on F-M Highway 53.

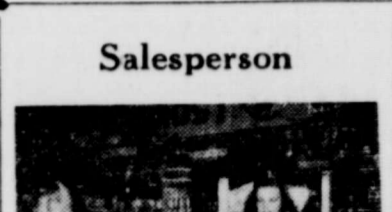

The Hardin-Simmons Cowboy Band from Abilene, with its specially acts, and the Coleman Bluecat Band will furnish music for the program.

N. T. Underwood, Coleman Chamber of Commerce manager, will be the master of ceremonies, and Mayor R. E. Murphey will give the welcome address. Sam W. Cooper will introduce Col. H. B. Robinson of Galveston, district Army engineer, and Lee R. Wilson, resident engineer, will give general information concerning the project. Cecil Gray will introduce Stevenson.

The program is expected to last about two hours.

Coleman will be celebrating the completion of the huge project and the prospect that its critical water problem will be solved. The city now is shipping all its water by rail from Brownwood. The dam and reservoir will be financed with \$200,000 of the city funds and \$1,800,000 in federal funds. Work on it began early in 1947.

Expecting the largest crowd ever to gather here for a civic affair, the whole town is joining in the celebration. Business firms will close at 1:30 p. m. and schools will be dismissed at noon.

JANE ANN RICKER

Jane Ann Ricker, daughter of Mr. and Mrs. J. L. Ricker, 1411 Avenue D, Cisco, started her first year as a member of the Diversified Occupation class of Cisco High School, during the 1947-48 school term. Jane Ann's original plan was to train as a salesperson; however, she has decided that she was fitted for, or her greatest interest was to be a housewife.

She was receiving training in the occupation of salesperson at Yardley's Grocery, under Messrs. J. D. and Paul Yardley. Jane showed a natural aptitude and great interest in her work as a salesperson; this, along with the training she has had will provide an excellent foundation for her, for future needs.

Jane Ann has taken an active part in the D. O. class and was joke editor of the "D. O. Co-Op," high school paper published by the D. O. class.

The Future Homemakers will have their annual picnic at Lake Cisco Saturday, May 1.

Honor guests will be Mr. and Mrs. Sutton Crofts, Mr. and Mrs. Arlin Birt, Mr. and Mrs. C. J. Turner, Mr. and Mrs. R. E. Bradshaw, and Mr. and Mrs. T. G. Caudle.

We are planning to have about 110 boys, girls and guests.

Fiftieth Anniversary of Twentieth Century Club Emphasizes Library; Reception From 3 to 5 P. M. Friday

Men and women are invited to the reception at the Public Library building Friday evening from 3 to 6 when the Twentieth Century club will be host to the public during the celebration of the fiftieth anniversary of the founding of the club. A special invitation is being extended new citizens of Cisco who will be given opportunity to inspect the library, which the club founded and has developed into an institution with more than 7,000 volumes, including classics, reference works and current books.

The building in which the club has its headquarters and where the reception will be held, was built especially for the library and is one of the most beautiful public structures in Cisco. The library stacks and reading room occupy about half of it, and the rest is devoted to the club meeting rooms.

The library is open to the public, any of whom may have the benefit of its services for a very small

fee. The funds derived from this source do not meet the expenses of maintaining the library and contributions are made to this maintenance and to the constant purchasing of new books out of the club treasury.

The club is justly proud of its success in building and maintaining one of the finest small city libraries in the state, and its members are eager for the public to become better acquainted with the institution. For that reason the library is being emphasized during the fiftieth anniversary celebration.

The concluding feature of the program will be the violin recital of Miss Gloria Graham at the First Baptist church auditorium Friday night beginning at 8:15, to which the public is also invited. No invitations are being sent. The recital will be a memorial to Miss Wilda Drago, Miss Graham's first teacher who died this year.

Chemical Dyes May Be Cancer Cures

PHILADELPHIA (UP)—Chemical dyestuffs, similar to the ones used in coloring Easter eggs and textiles, may prove eventually to be a powerful weapon in the warfare against cancer.

Doctors on the cancer commission of the University of Pennsylvania are studying the use of certain dyes as therapeutic agents aimed directly at the possible destruction of cancerous tissues.

The commission says that in animal experiments, selected dyestuffs not only retard certain malignant growths, but actually caused a marked shrinkage of the malignant tissues.

Woman Leads Research.
This new phase of research in the fight against cancer has been

conducted for some time by Dr. Margaret Reed Lewis, of the Wistar Institute of Anatomy and Biology, the oldest research institution in America. She was aided in the experiments by Drs. Henry A. Sloviter and Philip P. Goland, university scientists.

Knowing that cancer cells break off and spread to other tissues, Dr. Lewis set out to find a colored substance selective for cancer tissue, so that its course could be traced through the body.

Previously, it had been observed that dyes would surround, but not penetrate, malignant tissues. After numerous experiments, Dr. Lewis and her associates found that a dye, cataloged in the color index as Nile blue sulfate, is absorbed directly into the cancerous tissues.

Safety Education Going to College Through Teachers

AUSTIN, April 29.—Safety education in Texas is going to college next month under a seminar for college professors of teacher-preparing institutions.

The seminar will be held May 17-21 at the Crozier Technical High School of Dallas, under the auspices of the Association of Texas Colleges and the State Department of Education.

Cooperating organizations will be the New York University Center for Safety Education, the National Commission on Safety Education of the National Education Association, the Texas Department of Public Safety, the Texas Safety Association, and the National Safety Council.

It is designed to provide basic materials and methods in general education, driver education and behind the wheel driver training. Its purpose is to prepare college instructors in the teaching of these courses to high school and elementary teachers.

Expenses of the five-day seminar, including those of the college representatives, will be underwritten by the Texas Safety Association.

The project is part of the Action Program for Traffic Control adopted at the Governor's Highway Safety Conference last March which emphasized the need for qualified teachers in safety education.

"The demand for trained safety education teachers in Texas is fast exceeding the supply," said R. B. Rooper, Houston, Vice President for School Safety, Texas Safety Association.

"This year more than 400 high schools are teaching safety and driver education courses to some 40,000 Texas youth. A considerable increase is expected next September particularly in the field of behind-the-wheel instruction."

It comes in handy there, too. McClain, now an ordained Episcopal minister at Eastland, Tex., returned to his former role recently on a program sponsored by the Brownwood Rotary Club. He gave away \$400 to the lucky audience, but the take at the entrance was much more—and for a good cause.

Rev. McClain gave up his job as Dr. I. Q. to enter the ministry after "thinking it over" several years. Even while he was in school at a Chicago seminary, he continued to direct the program, computing by plane.

He is in charge of Episcopal churches at Eastland and Breckenridge.

Dr. I. Q. Gets Money To Build Churches at Eastland, Breck

BROWNWOOD, April 29. (UP)—Father James W. McClain, whose "cash for the correct answers" gained him a wide radio following from coast to coast as Dr. I. Q., has taken his nimble wit and glib talk into the ministry.

MAN WANTED — For Rawleigh business in Eastland county, 800 families. Products sold for 40 years. No experience or capital necessary. Sales easy to make and profits large. Nearby dealer making sales \$100 and more weekly. Start immediately. Write Rawleigh's, Dept. TXD-1021-190, Memphis, Tenn.

THE CISCO DAILY PRESS

Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 8, 1879.

J. W. SITTON and TED READ, Publishers.

Published Daily except Saturday and Monday at Cisco, Eastland county, Texas, by Free Press Publishing Corporation, incorporated under the laws of Texas. Editorial and publication offices at 304-306 D Avenue, Cisco, Texas.

National advertising representative: Texas Daily Press League, Dallas, Texas.

SUBSCRIPTION RATES: \$3.00 per year by mail (outside Cisco) In Eastland, Stephens and Callahan counties, Texas. In other Texas counties \$5.00.

Per year in advance (Cisco, by mail) \$5.50 Per week (by carrier) .15c No discount on carrier-delivered yearly subscriptions when paid in advance.

Community Concerts Names Numbers Scheduled For Eastland County

Officials of the Community Concerts association have received confirmation of the group of artists selected for next year's concerts in Eastland County.

Attractions for the fall and winter season will include: The Telschnicks, a two piano team. These gifted brothers take their own pianos with them on concert tours.

John Sebastian—For more than three years concert audiences from coast to coast have been discovering and acclaiming a personable artist who has proved that the harmonica is potentially a musical instrument of unsuspected range and charm. John Sebastian, with his musical artistry, as carved an important niche in the world of serious music.

The Bary Ensemble, composed of five beautiful and talented girls. The offerings of these instrumentalists include individual solos, trios, piano quartets and brilliant admission is limited to holders of membership in the Community Concert Organization, but newcomers who have moved to Cisco since the membership drive may still purchase memberships from Mrs. E. L. Graham, chairman for Cisco.

WAA to Sell Nine Automotive Vehicles At Love Field

Nine automotive vehicles, including six to be offered exclusively to World War II veterans, are being added to a War Assets Administration sale to be held at Lockheed Hangar Number One Thursday and Friday, WAA's Grand Prairie office said Saturday.

The vehicle offering, reminiscent of days when WAA had hundreds of surplus machines on sale at various locations throughout the southwest, was included in the general merchandise sale when it was found the Veterans Administration had put the vehicles on surplus in a recent declaration.

On the set-aside list for veterans only will be two six cylinder Ford sedans, a Plymouth sedan an International K-6 truck tractor, and a Dodge weapons carrier. The three other vehicles will be subject to purchase in the regular priority sequence, including federal agencies. They will include a 29 passenger bus, a combination stake and platform trailer and a large van semi-trailer.

All are in good to excellent condition with the exception of

Organize Texas State Council For Better Teachers

AUSTIN, April 27.—With the aim of getting better teachers for Texas schools, the Texas State Council on Teachers Education has been organized. Dr. L. D. Haskew, University of Texas Education dean, announced. The Council will serve as an advisory group to the State Department of Education, will promote coordination and collaboration between public schools and colleges, and will foster studies designed to give Texas schools better teachers.

In forming the Council, Texas joined 20 other states that use that method of getting teachers.

The State Congress, of Parents and Teachers, the Texas State Teachers Association, the State Department of Education, and individual colleges educating teachers in the state cooperated in the Council's organization. Personnel of the Council include:

ADVERTISEMENT FOR BIDDERS.

Sealed proposals will be received by The City of Cisco, Texas, at the office of the City Secretary, until 2 o'clock, p. m., (Central Standard time) of May 11th, 1948, for the construction of Water Distribution Improvements, City of Cisco, Texas:

- Schedule No. 1—1,000,000 gallon reservoir. Schedule No. 2— Pump and chlorinator house. Schedule No. 3—Piping between reservoir, pump house and 16 in. main. Schedule No. 4—Install pumps and chlorinator. Schedule No. 5— Salvage and stockpile appr. 1571 L. F. in. Universal pipe. Schedule No. 6—Install Approx. 1571 L. F. 10 in. Bell and Spigot pipe. Schedule No. 7—Install Approx. 1500 L. F. 8 in. Universal pipe. Schedule No. 8—Install 2 altitude valves. Schedule No. 9—Furnish to owner 10 in. Class "D" B. & S. pipe—1600 L. F.

Proposals will be publicly opened and read aloud at the above time and place.

Any bid received after closing time will be returned unopened. Copies of the plans, specifications and other proposed Contract Documents are on file in the office of the City Secretary at Cisco, Texas, and are open for public inspection.

Plans and specifications may be examined without charge in the office of the City Secretary or the Engineers, and may be secured from the Engineers, Hugh E. Box, Civil Engineer, 405 Flatiron Building, Fort Worth, Texas, upon a deposit of \$10.00 as a guarantee of the safe return of the plans and specifications. The full amount of this deposit will be returned to each bidder immediately upon the return of the plans and specifications in good condition. No refund on contract documents and plans returned later than ten days after the award of the contract will be obligatory. Additional sets of plans and specifications may be procured from the above upon a deposit of \$10.00, each, as a guarantee of their safe return within ten (10) days from date of opening bids, in which event \$5.00 of the deposit will be returned.

The character and amount of security to be furnished by each bidder are stated in the Information to Bidders and the Contract Documents.

No bids may be withdrawn, after the scheduled closing time for receipt of bids, for at least thirty calendar days.

The City of Cisco reserves the right to reject any or all bids and to waive informalities. EDWARD LEE, Mayor. By HAL LAVERY, City Secretary.

VIOLENCE IN BOGOTA

Rioters in Bogota wave machetes and garrotes during the recent revolt in the South American capital. The rioters had previously set fire to the government building in the background which was completely destroyed. (NEA Telephoto).

Mrs. L. E. Dudley of Abilene Named Local American Cancer Society Field Army Head

ABILENE.—Mrs. L. E. Dudley of Abilene, chairman of the fine arts department of the Texas Federation of Women's Clubs, has been named Field Army commander for District 13 of the American Cancer Society, Texas Division.

Announcement of Mrs. Dudley's selection was made by Mrs. Joseph M. Perkins of Eastland, commander of the Field Army for Texas. Mrs. Dudley will direct activities of the ACS Field Army in 21 counties. The Field Army is a layman's group, composed of men and women who actively undertake to participate in the three-pronged attack on cancer—through education, service, and research.

Mrs. Dudley was for four years president of the Abilene City Federation of Women's Clubs encompassing 25 clubs. She organized and directed numerous war program activities and relief measures. From 1945 to 1947 she was president of the Sixth District, Texas Federation of Women's Clubs. President of the Abilene Good Government Association, she has held offices in the Abilene Study Club, the Abilene Women's Club, and the Abilene Garden Club. She is vice president of the Taylor County Heart Association. District 13 of the Cancer So-

Health Officer Advises Do Not Panic Over Polio

AUSTIN, April 28.—The danger of crippling and death from poliomyelitis is very real and should not be minimized, but according to Dr. Geo. W. Cox, state health officer, a knowledge of the facts about this disease will help fight the fear of it, and aid

elementary education professor, University of Texas; Miss Ruth Huey, State Board for Vocational Education, Austin, and Gordon Worley, State Department of Education, division of supervision.

Office for Food and Feed Conservation Suggests:

A "PEACE PLATE" FOR TODAY Save Wheat! Save Meat! Save the Peace!

FRIDAY PEACE PLATE Codfish cakes were a favorite breakfast dish in colonial days when the morning meal was almost as hearty as the main meal of the day. Now we use this typical thrifty New England dish for a Friday Peace Plate, bringing a seafaring touch to the menu of "inlanders." Or you may get the same flavor of the sea by using flinnan haddock fillets which are lightly smoked haddock.

Our Peace Plate recipe provides the economy of potatoes as an extender of the fish flavor. And if you live near a good fish market, you will be able to get fresh cod which is cheaper than canned, shredded salt cod. Cod fish cakes from cooked fresh cod are especially good too.

In at least one eastern city, fresh cod steaks are less than half as much per pound as the shredded canned fish. The waste from bone and skin in the fresh fish makes up only a small part of this difference for the bones of codfish are only about 10 percent of its weight.

For instance, if you pay 30 cents a pound for cod steak with bones and skin, the edible fish still only costs you 33 cents a pound. Compare the 33 with something like 68 cents a pound for the shredded salt cod.

COODFISH CAKES 2 cups shredded codfish 3 cups hot, well seasoned, mashed potatoes 2 eggs 2 tablespoons dripping Cover codfish with 1 quart water and let soak for 2 hours. Drain, add an-

other quart of water and let simmer for 30 minutes. Drain and press out the liquid—shred the fish and remove the bones. Mix the fish, hot mashed potatoes and well beaten eggs. Beat until light—add salt if needed and pepper if desired. Shape into cakes and pan fry in drippings. Wipe brown, drain on absorbent paper. Serve with tomato sauce. Serves 4.

MENU SUGGESTIONS: Quite a variety of sauces may be served on today's codfish cakes. Instead of plain tomato sauce, you may prefer egg sauce, creole sauce, homemade chili sauce or horseradish sauce. Your vegetable for the day should be new green cabbage, cooked for just five minutes. Julienne or shredded raw carrots with whole pitted prunes is an interesting salad combination and try an orange sponge dessert with a soft custard sauce.

FOOD TIPS: When you go shopping for cured salt codfish, you will find the new vacuum packed variety superior to the salt cod sold in grandmother's day. The old-fashioned cod was often sold from a packing box, and therefore dry and yellowish in color, with much of its delicate flavor gone. But today, vacuum packing retains the flavor, color, texture and moisture content of the freshly cured fish.

If you live in a community where there's a Scandinavian population fond of its native dishes, you may be able to buy brine-cured cod which is usually sold in bulk.

If you're a working homemaker who has to prepare meals in a jiffy after work, you may want to buy the canned codfish cakes, ready to pop into the frying pan. But these are not as economical as the ones you make yourself.

Keen Competition Expected For Warrant Offices

FT. SAM HOUSTON, April 29.—Officials at Fourth Army Headquarters estimated today there would be approximately 5000 applicants in the Fourth Army Area who will compete for the 6500 Regular Army warrant officer appointments now authorized for the Air Force and Army. A total of approximately 80,000 officers and enlisted men throughout the Army and Air Force are expected to compete for these appointments. Screening points have been established in the states of Texas, Oklahoma, Arkansas, Louisiana and New Mexico. Screening of applicants will start on May 3.

Applications dated prior to May 1 will be accepted. All processing is expected to be completed and the applications sent to the Department of the Army and Air Force in Washington on or about July 15. If the deadline is met, the first appointments should be announced during the months of August and September.

Selection of the 6500 warrant officers will be done much in the same manner as the recent Regular Army Officers Integration Program, the main difference being that applicants for appointments as Warrant Officer, Regular Army or Air Force, must take a technical proficiency test in each career field chosen. Each career field will be tested and applicant will select one to three to determine the degree of his technical knowledge in each.

The entire screening process of an applicant at each screening point will take about three days. The screening process consists of a general qualification test, a self-evaluating biographical blank and a proficiency test in each of five career fields chosen.

Members of the Reserve Corps eligible officer and enlisted members of the Reserve Corps who are now on active duty training may make application for appointment on the same basis as other eligibles and will be considered for screening even though they have reverted to an inactive status. If accepted for appointment, they will be recalled to active duty as Regular Army Warrant Officers.

All appointments under this program will be made later. Adjustments will be made later to spread the 6500 successful applicants over the four warrant officer grades expected to be authorized. Provided legislation is enacted, the four warrant officer grades

Marshall Cnfers With Truman.

Secretary of State George Marshall steps from his car as he arrived at the White House to confer with President Truman for the first time since his return from the Inter-American Conference at Bogota. (NEA Telephoto).

will be Chief Warrant Officer and Warrant Officers First, Second and Third Class.

Mrs. Marquardt Gives Strawberry Preserve Recipe

This is the season for using our most delicious berries, the strawberries, and there are many uses to be made of them according to Mrs. Helen C. Marquardt, county Home Demonstration agent, Eastland.

The following are standard recipes:

A standard strawberry preserve recipe: 1. Boil 2 cups sugar and 1 cup water together until it begins to form a thread. 2. Add 1 pint of strawberries and cook 10 minutes. 3. Add another pint of strawberries and 1 cup of sugar sprinkle over the top. 4. One tablespoon lemon juice added at this time helps retain color. 5. Boil continuously about 10

minutes, or until it reaches jelly stage. 6. Remove them from the fire and shake the kettle gently until the foam collects in the center and can be easily removed. 7. Then pour into a flat container and let cool before putting into hot sterilized containers. 8. Cover with wax and seal at once.

Strawberry Jam—Allow 1 cup of sugar to each quart of berries. Wash and hull the berries. Mash some or all of the berries to start the juice, and add some of the sugar. Cook quickly until quite thick, then add the remaining sugar and cook for 10 to 15 minutes longer. Pack in containers while hot and seal at once.

Eastland Leases City Land For Oil Exploration

EASTLAND, April 29.—The Eastland City Commission at a special meeting entered into an oil lease contract with Arthur Harvey of the Tex-Harvey Oil Company of Dallas on 700 acres of land owned by the City known as the Brelford Estate property. Harvey, an independent operator has holdings in Illinois, Texas and other states. He is the owner of the East Long Lake field in Anderson County and recently opened a new field in Callahan County.

Among other provisions of the contract Harvey is to pay the city \$250 rental and is to drill a test to a depth of 4,000 feet unless pay is found at a lesser depth. Drilling operations are to be started within a short time.

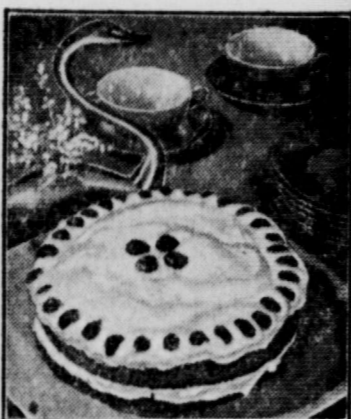

Gordon Brelford, former Eastland boy and now practicing law at Tyler, represented Harvey in the Eastland deal. F. E. Day of Eastland had a part in promoting the deal between the City and Harvey.

Portions of the land on which Harvey is taking a lease has been drilled for oil in the past, but no tests were made in the lower pay levels.

Geologists for Harvey have been over the newly acquired lease and locations for new tests under the recent contract may be marked immediately in which case a drilling rig may be moved in and operations started within a few days.

Ipsa Facto, a Latin expression, means "by the very fact itself."

Black Magic Chocolate Cake

A FINE, even grain and a light, tender texture assured by cake flour, and a luscious, rich chocolate flavor, make this Black Magic Chocolate Cake a triumph. It is downy-light when you first cut it, but it mellows deliciously, so that the last crumb is as good as the first.

Black Magic Chocolate Cake
2 cups sifted cake flour
3/4 teaspoon salt
4 squares unsweetened chocolate
4 tablespoons butter or other shortening
2 cups sugar
2 egg yolks, unbeaten
1-3/4 cups milk
1 teaspoon vanilla
1 teaspoon soda

Sift flour once, measure into sifter, add salt, and set sifter aside. Melt chocolate and shortening over hot water. Turn into mixing bowl or electric mixer bowl. Cool to room temperature. (This is important.) Then add sugar and mix well. Mix together egg yolks and 1 cup of the milk; add to chocolate mixture and blend. Sift in flour, mix until all flour is dampened, then beat 1 minute at low speed of electric mixer or about 150 strokes by hand. Add vanilla and 1/2 cup more of the milk; stir until smooth. Dissolve soda in the remaining 1/4 cup milk. Stir into the batter quickly and thoroughly. (Batter is thin.) Turn into two 9-inch layer pans which have been lined on bottoms with paper, then greased. Bake in moderate oven (350°F.) 30 minutes, or until done. Or bake in 13x2-inch pan 45 minutes, or until done. Frost as desired.

Henry, Warden talk to Rotarians on Feeds and Hobbies

A classification talk by C. W. Henry, local feed dealer, and a talk on hobbies by Rev. Chief A. Warden, pastor of the Wesleyan Methodist church, featured the

program at the weekly luncheon meeting of the Cisco Rotary Club at noon Thursday.

Mr. Henry noted the increasing interest of stockmen and ranchers in the proper feeding of livestock and told of the results they are obtaining with the use of modern methods in feeding. He discussed the feed dealer's problems, pointing out that it is gratifying to be able to be helpful, regardless of whether there is a financial reward.

Rev. Warden defined a hobby as "something you do to keep from going nuts for lack of something to do." He emphasized the important part that hobbies can play in the development of character in young people, in providing worthwhile occupations, and in helping anyone to realize to most from idle hours.

Several items made in the home workshop were displayed by Rev. Warden.

Rotarians began making plans for their regular "Ladies Night" on May 20, and President Charles Graham appointed two committees to plan the menu and decorations. Jess Proctor and L. A. Hooker were named on the food committee, while decorations will be planned by Bob Elliott and C. A. Deuschle.

The Man's Store

Of This and That at CHS

As Written by Jim Ewell

Inside chatter from a roving "columnist"—"Old Glory," proud and gracious as a "Southern Belle," was unfurled once again over the realm of Cisco-Hi, here, last Thursday, for the first time since the semester's beginning . . . In a patriotic ceremony presented in the auditorium, the new flag, 5x8, was presented to Principal C. J. Turner, representing 365 students and the faculty, voiced his appreciation in their behalf . . . The flag was given to the high school as a gift from the W.O.W. (Woodmen of the World) Post 500. Simultaneously, just as colorful—were also presented to the students of Junior Hi and the Ward schools . . . Immediately after assembly was dismissed, two scouts from Troop 101, raised the Stars and Stripes once again over CHS . . . "Old Glory" ascended the newly painted silver flag staff, presented to CHS by the Class of '41, as a memorial to their honor . . . once "Old Glory" had reached the tip-top, she flew briskly and undaunted in the morning's breeze, even more enchanting the campus already gifted by Mother Nature's beautifying and comely spring atmosphere . . .

So proudly we hail: The Lobo their feats—recently displayed at the colorful and immortal "Battle of the Flowers" held annually in the Alamo Bowl at San Antonio. The band, fifty-five strong, won that "battle" and came home victorious after attaining first place. The band departed early last Wednesday in chartered buses, arriving that afternoon in order to participate in the exotic and striking three day festival. Such an invitation, it is said, is only extended to selected bands qualified to meet the stiff requirements. It is the second invitation the band has received since Mr. Baumgardner's administration as band conductor, inviting them, along with other hi-school bands, to attend the "Battle of the Flowers." (Quite an honor for the Lobo Band, we'd say) Congrats! We're most proud of your unflinching determination and triumphant return . . .

... so appreciative we thank—the '48-'49 annual staff, publishers of this year's 'Lobo,' under the editorship of Kathryn Fenley, Editor-in-Chief, for their superb edition of the 'Lobo,' summarizing the year's events, frills and lasting memories—in one jubilant and alluring annual. Therefore the student body say "thanks" for the untiring efforts and the unbiased attitude exercised by the staff.

Some were redrothers blue: Last week was "blue week" for the students at CHS—report cards were handed out Wednesday.

Wanted: Road maps compasses, and a bus: Already there's talk, chit-chat, and what-have-you, about the approaching day the seniors will leave on the senior trip; traditional, symbolic of senior privileges. Sometime next week, some seventy bright-eyed and eager seniors will depart, early, by chartered bus to enjoy the comforts and hospitalities of a dude ranch, located in New Mexico. Later the adventurous group plans to stop by the National Park to see the wondrous and amazing sights of Carlsbad Caverns spending the day there. Afterwards, preparing the long journey home.

"A little bit of Spain CHS"

Boyd Insurance Agency

SURE - SAFE PROFITABLE

U.S. SAVINGS BONDS

Miss Ella Andre's second year Spanish class presented, in the auditorium before the student body, their version of the play "En el Mercado," dramatization of a day and life of the Spaniards in the market, portraying their habits, their heritage. Each student in the class had a Spanish dialect line, except the two visiting Americans played by Martha Whitaker and Bernie Ann McCrea. One of the interesting highlights of the play was the Spanish song sung by Betty Rowe Wilcox, as she moved about the stage. The skit was very attractive and artistic—performed with the upmost initiative that could be employed.

The D. O. class, Mr. L. B. Luck-singer, teacher, were the hosts to their employers and members of the school board at a good old Southern steak fry at the lake last night. There was no absenteees at this annual custom, held by the D. O. class. (I wonder why?)

Better late than never, we always say: There was excitement, laughter, and plenty of it, in the First Christian Church basement last week as the Juniors observed the annual and traditional staged J. & S. banquet. George Watts, president of the Junior class, acting as toastmaster, welcomed the seniors in whose honor the affair was given. (Incidentally, it was related, the Jr. president hailed much laughter from the guests in his "Stuttering Sam" roll, unintentionally tho', as he attempted to make his welcoming speech before one hundred and forty Juniors and Seniors.) Anyway, stage fright or not, it added entertainment galore to the evening. Later, classmates attended a school dance held on the Laguna Roof Garden.

Europe and Asiatic Russia are separated by the Ural Mountains. Demosthenes was the most famous orator of ancient Greece. Benjamin Franklin founded the Saturday Evening Post.

Dates of the last Crusade were from 1096 to 1099 A. D.

Ted Wins Again.

Ted Horn, Patterson, New Jersey, happily clutches his trophies after winning for the second time the 100-Mile Championship AAA Dirt Track Race at Arlington Downs, Texas. The race is sponsored by Racing International of Texas and was run for the first time last November. The trophies were presented by Mrs. H. H. Whelan of Dallas, as the H. H. Whelan Memorial Trophy. (NEA Telephoto).

The Eisenhower

The most radical change in men's fashions in many a moon is this new custom tailor version of Gen. Eisenhower's famous battle jacket styled as a summer tuxedo. Beautifully tailored jacket shown above was created by Ralph Carver, well-known California designer of clothes for America's men. Jacket is made of zephyr-light doekin wool fabric in white and has contrasting dark blue trousers in new lightweight tropical worsted.

Top 50 Business Leaders Say No Recession This Year; 1949 in Doubt

Last fall, Forbes magazine of business published the results of a nation-wide poll to select the country's fifty foremost Business Leaders. Now it reveals in the first poll ever taken of America's "Fifty Foremost"—their answers to six questions of national importance.

No recession this year, few strikes in major industries, bright presidential prospects for Republicans—that's the considered forecast of a majority of the nation's top-flight business leaders.

Forbes poll of America's "Fifty Foremost" also spotlights the following opinions of the country's executive leaders:

For the most part, the "50" are in favor of the principle behind the Marshall Plan, though some are skeptical of its present form.

They feel that it will be necessary for their organizations to raise prices if unions win wage

increases of 10 to 12 cents an hour.

Though they anticipate no business slump for the balance of 1948, they are somewhat less optimistic concerning 1949, splitting about 50-50 on the question of whether next year will usher in a recession.

On the political front they doubt Truman's chances of reelection in November, provided he is opposed by any of the four leading Republican aspirants. Dewey, they feel, would win by the greatest margin; Vandenberg, surprisingly, by the next greatest; Stassen and Taft could also defeat Truman, they believe, but by successively smaller margins.

As to their own personal preference for our next President, however, the "50" are equally divided between Taft and Vandenberg, Dewey ranks third, with Stassen and MacArthur running fourth and fifth.

Here are the 50 selected: Winthrop Aldrich, Chase Bank;

S. C. Allyn, Natl. Cash Reg.; John Biggers, Libbey-Owens-Ford; Lewis H. Brown, Johns-Manville; W. S. Carpenter, Jr., DuPont; M. W. Clement, Pennsylvania R. R.; J. L. Collyer, B. F. Goodrich; C. D. Dallas, Reverse Copper; R. R. Deupree, Proctor & Gamble; Donald Douglas, Douglas Aircraft; W. H. Dow, Dow Chemical; Benjamin Fairless, U. S. Steel; Harvey Firestone, Jr., Firestone; Henry Ford II, Ford Motor Co.; Clarence Francis, General Foods; L. M. Giannini, Bank of America; Walter S. Gifford, Am. Tel. & Tel.; Bernard F. Gimbel, Gimbel Bros.; Sam Goldwyn, Goldwyn Productions; Eugene Grace, Bethlehem Steel; Paul Hoffman, Studebaker; Eugene Holman, Stand. Oil N. J.; Charles R. Hook, Armco; Eric Johnston, Motion Picture Assn.; W. Alton Jones, Cities Service; Henry J. Kaiser, Kaiser-Frazer; K. T. Keller, Chrysler; James Lincoln, Lincoln Elec.; Leroy A. Lincoln, Met. 205 S. Seaman, Telephone 436
CUSTOM BUILT BLINDS
Steel and Aluminum, 50c; Wood, 60c. Free Pick-up, Delivery and Hanging. Refinishing All Type Blinds. Less than one week service. Thank you.

Thanks to All of You—
... for your continued patience in co-operating with us almost 100% during the present rush in leasing activities. We have been delayed somewhat in getting out your orders but all abstract companies now are taxed to their production capacity. As soon as oil leasing is over, and it won't be long, we will be back again begging for business wondering why the abstract profession must be such an up and down business anyway.

Earl Bender & Company
Eastland, (Abstracting since 1923) Texas.

M.; Sam Ellis, Jr., of Oklahoma City; Mr. and Mrs. Ernest Kimbrough of Cross Plains; Mrs. Onard Kimbrough and Joe Kimbrough, Mrs. Onis Warden of Ranger; Mr. and Mrs. L. H. Scott of Abilene; Mr. and Mrs. Elmer Owens of Olden; Jack Hall of Eastland; Mrs. Floyd Coffey, Miss Missouri Strahan of Cottonwood; Mrs. Wes Everett, Mrs. Ora Strahan of Cross Plains and Mrs. Ima Thompson of Burbank, Calif.

Sodium chloride is the chemical name for salt.

Texas Sheep Too Fat In 1852

An objection raised toward growing sheep in Texas a hundred years ago was that the animals got too fat! A letter dated 1852 commenting about how good the country was for stock raising has been given special attention in a recently published history. The letter, signed by John W. Stephens, said, "My brother-in-law writes from Texas as being the greatest sheep country in the world. The objection is that the sheep of Texas get to be too fat. In portions of that country, sheep do well through the winter without any feed but what they get that he had eaten as lime mutton, there during the winter as he ever saw anywhere in the business, that had not been fed at all."

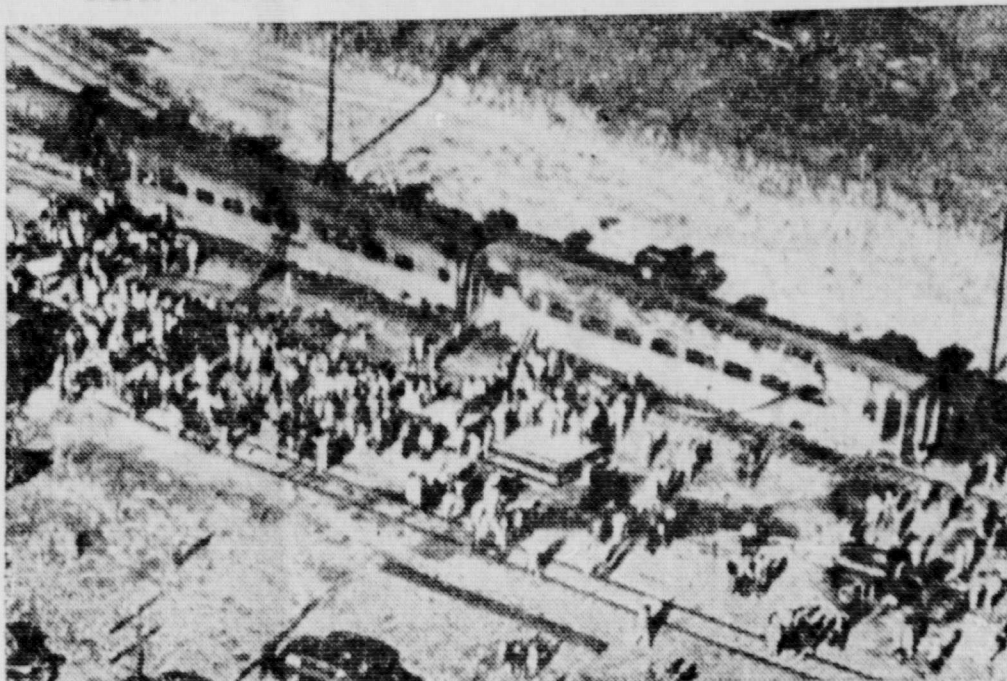

Aged Railroad Man Takes His Ease; Makes Comments

HOUSTON, April 29. (UP)—Charles G. Webb, who has spent the greater part of his 70 years in the service of the Southern Pacific Railroad system, has changed his role in life in relation to his family standing.

For Webb, it's a life of ease now and the task of driving the family automobile for his wife, who once was his secretary. She doesn't drive.

The 70-year-old man, known as dean of railroad freight claims agents in Texas, retired recently. He started work for the Southern Pacific as a car checker at

STREAMLINER CRASHES TRUCK MANY INJURED AS COACHES BURN

Fire hoses snake their way from the fire truck toward the two cars of the Rock Island's Texas Rocket, which crashed near Kremlin, Oklahoma, killing two and injuring at least 29 persons. The crack train smashed into a dump truck, jumped the track and then burned. (NEA Telephoto).

the old Houston and Texas Central freight office back in 1893. By 1919 he had become freight claim agent for the Texas lines, with headquarters at Houston.

Webb makes many observations on the experience he has gained

through his long years of service with the railroad.

Shippers never file claims when a delayed shipment places citrus fruits or vegetables on a higher market," he said. "Only on a sag-

ging market is the railroad called on to make readjustments.

The largest freight claim Webb has had to handle still is pending. The Texas City explosion a year ago destroyed carloads of flour

that have been valued at more than \$95,000. Any future plans, Webb said, depend on his wife. In the meantime, however, he's practicing on his chauffeur. Brass is two thirds copper.

AMERICAN BEAUTY FLOUR THE FLOUR THAT BLOOMS IN YOUR OVEN

Now Procter & Gamble brings you A MIRACLE that will revolutionize washday!

IT'S TIDE

...you've never used anything like it!

TIDE is the postwar miracle you've been waiting for! Developed as a result of wartime research, Tide does what's never been done before—washes clothes cleaner than any soap, yet leaves colors brighter! Expect to see something entirely different when you use Tide. Even the suds look and feel different! And those wonder suds billow up instantly even in hardest water... form none of that disagreeable hard-water scum... leave no cloudy deposits on clothes or round the tub!

ONLY TIDE DOES ALL FOUR!

1. Washes clothes cleaner!

It's a real washday miracle, the way Tide gets the most stubborn dirt out of heavy laundry... even heavily soiled work clothes and greasy overalls! Tide not only leaves clothes free from ordinary dirt, but actually removes dingy soap film as well! That's why Tide washes cleaner!

2. Actually brightens colors!

Tide washes away dulling soap film left from former washings... leaves dainty washable colors so thoroughly clean and fresh-looking that brightness perks up like magic!

3. Never "yellows" white things!

Turn to Tide for dazzling white washes that stay white, week after week! Tide can't turn white things yellow, no matter how often you wash them or how long you store them.

4. Gives more suds—prove it in your dishpan!

Kind-to-hands suds! Faster suds! Longer-lasting suds than any soap in hardest water! Tide cuts grease like magic... washes dishes cleaner than any soap! No scum in the water! No greasy ring round the pan! No cloudy film on dishes and glasses! That's why they rinse and dry so sparkling clear—even without wiping!

GUARANTEE Procter & Gamble guarantees that Tide will do everything claimed for it in this advertisement. If you are not completely satisfied, return the unused portion of your package to dealer, and the purchase price will be refunded.
