## Convention Starts.

A three-way fight was expected today at the Brownwood Democratic convention, when pro-Jester and anti-Jester men square off for action and pro-Trumatis get set for control of the convention. Coke Stevenson, convention visitor since 1910, arrived on the ground Monday to get ready for the confab.

Much of the fight centers around the Jester men's support of Tom Tyson for permanent chairman. The governor, himself, arrived early Monday to direct activities.

Albert Sidney Johnson of Dallas seems to be acceptable to those in opposition to Tyson. Fur may fly at today's convention even before the convention proper gets under way.

## Communism in Colleges.

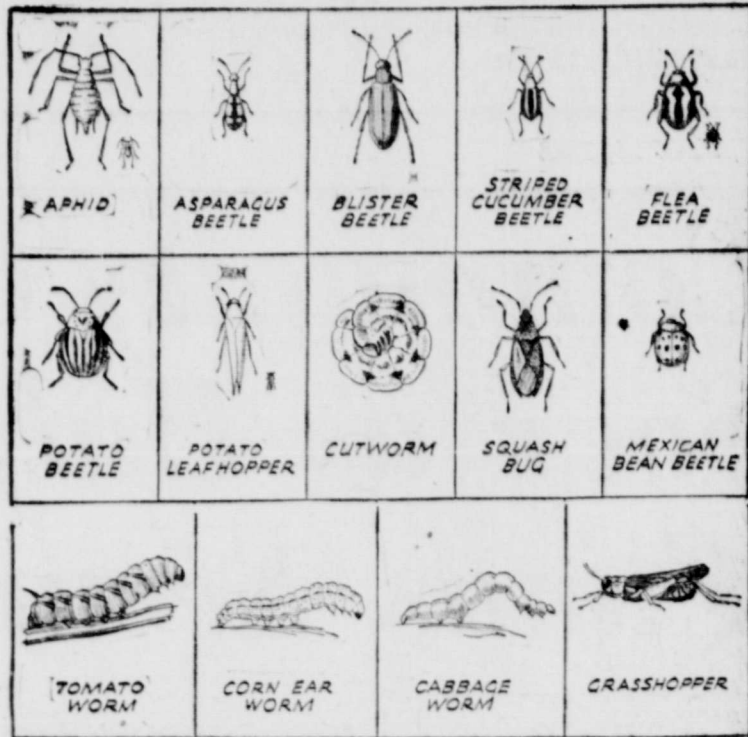

The Saturday Evening Post recently featured an impressive editorial, signed by Frederick Nelson, on the extent to which this country is being softened up by communist influences. One paragraph dealt with the dangers in current American education, and said, "Another point against the survival of our democratic system is the state of mind of an important section of America's intelligentsia. . . . Young people are taught that the achievements of successful men are due solely to 'social conditions,' that there is no law of supply and demand, only the greed of rapacious businessmen; and that the function of taxation is not to raise money for public purposes, but to hamper the successful for the delight of the unsuccessful. College textbooks which reflect this defeatism were not written by Communists, but by depression-bred New Dealers. Nevertheless, their effect in weakening the influence of a capitalist economy has been tremendous."

That is a moderate statement. Some of the textbooks to which young minds are exposed in our leading colleges would shock millions of American citizens if they read them. By-direction and indirection, communism, socialism and the other isms are praised to the skies. The Soviet Union always gets an admiring hand — are the cruelties, injustices and plain viciousness which are the hall-marks of any police state are glossed over. Nationalization of industry is urged for this country, despite the obvious fact that the destruction of free enterprise always results in the destruction of personal and all other liberties. Enormous care is taken in picking out defects in the capitalist system, and in making the inexperienced student believe they are typical.

Not all educators have become dupes of the communists and socialists. Not all textbooks reflect a totalitarian attitude. But enough do to seriously distort the outlook of the young on the world they live in. The seed is planted — and it is from such small starts that the tree of dictatorship is created.

It is one thing to describe and explain communism, fascism, socialism and all other types of government. It is a very different thing to so warp the truth as to make these systems seem superior to the American system that has given our nation unparalleled economic benefits and social freedom at the same time. That issue must be faced by those who are responsible for American education.

# Kill Garden Invaders Before They Do Harm

Spotting Chart of Garden Enemies. Learn to Know Them, So You Can Fight Them.

All except four of the insect enemies of the garden shown in the spotting chart can be killed by D. D. T. dust. These four are the Mexican bean beetle, tomato horn worm, aphid, and cucumber beetle, and all succumb to rotenone.

By spraying or dusting with these two insecticides, either singly or in combination, the amateur gardener can keep his garden free from insects provide that he follows the most important rule of all, which is to spray or dust before any damage is done.

How often the beginner, sadly inspecting a row of cucumber plants which have been decimated by the beetle, asks: "What can I do to protect them?"

"Too late now," must be the answer. "But if you have dusted them with the first beetle, you would still have fine cucumber plants."

This time is, as the lawyers say, of the essence; and that is one reason why dusting is favored by many veteran gardeners rather than spraying. When trouble is spotted, the dust can be at work in a fraction of the

time it would take to mix a spray. The spotting chart will help you identify the pests, though it is no longer necessary to do this, as it was in the day when each type of insect called for a different poison. Just mix your rotenone and D. D. T. and have it ready as soon as the plants in your garden are tall enough to be toothsome.

Lay the dust on the plants lightly about as thickly as a coat of face powder; but be sure to get it into every joint and crevice, and on both sides of the leaves. A duster which blows the dust from near the soil surface upward is most effective. It gets the underside of the leaves as it rises, then falls on the upper portions.

The same kind of dust will dispose of flower garden pests, also; and the rules apply for the protection of flowers, as for vegetables. But while vegetables grown in rows in sunny gardens have relatively little fungus trouble, flowers have a good deal. Dusting sulphur and ferriate are the fungicides which are easiest to use and most effective in the flower garden.

## Presents Pacemaker Trophy

Figuring prominently in annual Race Week festivities at the Indianapolis Speedway: the winner's flag, Dianna Milne, the official "Miss Chevrolet" and a smart new convertible. Miss Milne was selected as hostess for events surrounding the pacing of the 500-mile classic by a Chevrolet passenger car, presenting the winner with the Pacemaker Trophy.

**CHICAGO DECLARES TRAFFIC TRUCE**  
CHICAGO (UP)—Two traditionally hostile camps, motorists and policemen, have buried the hat-het for a while in Chicago. Relations between the two never were so cordial. Policemen are writing tickets

with a smile. Motorists are saying "thank you" and offering a cigar in return.

The explanation for this rare spirit of good will lies in the new type of traffic ticket the Chicago police department is issuing this spring.

There are yellow warning tickets which carry no penalty. The police department is using them to introduce a new traffic enforcement program starting on July 1.

On that day the truce will be

over. Police expect to resume hostilities with a new weapon—"fix-proof" court summonses which will replace the old style tickets.

Wanta toss a BRICKBAT... or BOUQUET? BEING HUMAN, we like to have good things said about our railroad and its men and women... and during the more than 76 years the T. and P. has served the people of the Southwest numerous bouquets have been tossed its way. From every walk of life, during my tenure of three years, have come words of praise (which I have seen and noted) from those who have appreciated some courtesy or service beyond the line of duty rendered by the people who comprise the T. and P. organization. But also, being human, we have been on the receiving end of complaints from customers who have been dissatisfied over some service on our line. It is the sincere desire of the Texas and Pacific Railway to serve every customer in such a manner that he will want to use our line again and again. But sometimes things don't go according to plan. When this happens, we are genuinely sorry... it's not the way we want it. Unless we are told of these things, we have no way to remedy them. And we want to be told... we earnestly solicit your suggestions, complaints or criticisms. Write us a letter—tell us what you do or don't like about Texas and Pacific service and give us any suggestions you may have for improvement. We assure you that we welcome them... whether they are brickbats or bouquets! W. G. VOLLMER President THE TEXAS AND PACIFIC RAILWAY TEXAS AND PACIFIC RY.

# New Ford to Have Premier Showing In N. Y. June 10

DEARBORN, Mich., May 22.—Plans for showing the new and revolutionary 1949 Ford passenger cars were announced today by J. R. Davis, vice president and director of sales and advertising.

The World Premier showing to the public will be held in New York at the Waldorf-Astoria hotel June 10-15, while dealers will display the cars in their showrooms for the first time on June 18, Mr. Davis said.

Dealers in the Northeastern region got their first look at the complete line at a special preview in New York yesterday (May 22). The rest of the company's 6,500 dealers will see the cars at previews to be held in Detroit, Chicago, Oklahoma City, Oakland, Calif., and Atlantic City on Monday and Tuesday (May 24-25), Mr. Davis said.

Mr. Davis also revealed that dealers in Detroit, Chicago, Washington, D. C., Columbus, Cincinnati, Cleveland, Kansas City, Mo., Philadelphia and Los Angeles will hold co-operative community showings beginning June 18 in addition to their showroom displays.

"Curiosity about the new Ford transcends anything in the industry since we introduced the famous Model A," Mr. Davis said. "Word has spread that the 1949 Ford sets a new high for post war cars."

Mr. Davis said that all company employees and their families will have an opportunity to see all of

the company's new cars, trucks and tractors at Family Day celebrations in all plants and parts departments throughout the country on June 18.
