LAST RITES FOR PERSHING

The body of General of the Armies, John J. Pershing, rests on the historic catafalque before the Tomb of the Unknown Soldier in Arlington Cemetery in Washington. Family and friends mourners are at upper left; Army band and caisson are at lower right as final rites were given to the great American Soldier. (NEA Telephoto).

Local Bank Gives Calf to Be Used In Calf Scramble

The First National Bank has donated a calf to be used in the calf scramble at the Ranger Jaycee Rodeo to be held on July 28-31. The Cisco bank's calf will enable two boys from the Cisco FFA chapter to participate in the scramble. The calf scramble will be held only at the July 29 and 30 performances.

Final Rites Are Conducted Here For Mrs. Gregg

Funeral services were held 3 p.m. Tuesday afternoon at Thomas Funeral chapel for Mrs. Ethel Gregg, wife of Mathis Gregg, a former resident of Cisco, who died after a long illness in Ranger General Hospital, at 7:10 p.m. Monday. Rev. Smith, Church of Christ minister of Eastland, conducted the services. Interment was in Oakwood cemetery with Thomas Funeral Home in charge of the arrangements.

Mrs. Gregg was born in Gorman, Texas, November 5, 1901. She was married March 5, 1921, to Mathis Gregg, also of Gorman. In 1937, Mr. and Mrs. Gregg moved to Cisco and had moved to Abilene at the time of her death. She was a member of the Church of Christ.

Survivors were her husband, three sons, Merlie L. Gregg, of Brownwood; Chester G. Gregg, Rising Star and Winston W. Gregg of San Angelo. Other survivors include her parents, Mr. and Mrs. W. E. Lucas, Cisco; four sisters, Mrs. Jack Hill, Ozona; Mrs. Otis Guy, Gorman; Mrs. E. T. Hudnall, Rising Star; Mrs. Odell Hogan, Cisco; and three brothers, Tommie Lucas, Cisco; H. E. Lucas, Sundown; Jack Lucas, San Angelo and six grandchildren.

SHE'S SORRY NOW

Mrs. Marie Abbott, right, sobs as she appears in a Hamilton, Ohio, court with her attorneys. She is on trial on a charge of murdering her husband. Her attorneys are, W. F. Hopkins, left and G. E. Condo. (NEA Telephoto).

Area Boxing Tournament to Be Held at ABC Park on July 28

Coach G. P. (Geep) Mitcham and his "Running M Boys" will entertain boxers from this area at bouts to be held at ABC park July 28 at 8:00 p.m. Boxers from Stephenville, Breckenridge, Eastland and possibly Mineral Wells will enter the bouts in an inter-city tournament and customers have been assured a good card. Mr. Mitcham announced plans for a full summer of boxing.

Bransford Well Opens New Field Southeast of Cisco --- Leasing Active

The Bransford well located approximately seven miles southwest of Cisco was completed and flowed 40 barrels into storage tanks in the first hour, according to local oil men who were there to witness the completion of the well. This well opens up a new area of production in Eastland county and the Cisco area and is highly important as a semi-wildcat. The well flowed naturally and when acidized operators expect an increase in the flow. Roy King of Wichita Falls holds leases in the area and plans to drill additional wells as soon as location can be made. The leases were assembled by Charlie Cox of Wichita Falls.

The Gay Philosopher

(Copyright New York Graphic Society) By J. W. S.

ENJOYED A VISIT out at the home of Mr. and Mrs. Ray Judia at Lake Cisco the other day. To look at Ray, you would say to yourself: "Now here's a good fisherman." You wouldn't say: "This fellow looks like a musician of the first order."

IN ADDITION TO being a good fisherman, Ray is definitely a polished musician. He has a solovox—a miniature Hammond organ—attached to his piano. And he can play anything from difficult classics to ranch-style tunes. In addition, he can handle a few other instruments with the same ease.

RAY HAS SEVERAL jobs. He's game warden for this area. He looks after the cabins for the city and operates a fishing supply depot. The Judias have a lovely garden—both vegetables and flowers.

RAY TOLD AN interesting story about Battle Creek going dry last year. He went up and got the fish in the last stages of the drought and transferred them to Lake Cisco. While he was putting 25-pound catfish in the lake, a fellow fishing nearby couldn't understand. "Here I'm trying to catch a fish," he told Ray, "and you're turning them loose."

MORE EVIDENCE that Cisco is in the white spot of the nation's business map is the fact that the First National Bank was one of the few in this section that showed a gain in deposits during the second quarter of the year just ended. The Gorman bank was the only other one in this section to show a gain.

THERE WAS AN ad in the Press the other day in which every attorney in the county endorsed Judge Hickman for re-election to the high state court. They tell us that so far as anybody knows this was the first time in history where an entire profession endorsed the same man for office.

Body of Scranton Soldier Is Coming Home for Reburial

The body of Jackson T. Shrader, formerly of Scranton, killed in Italy while serving with the Headquarters Company, Medical Battalion, of the 36th Division is enroute to Baird, the present home of his parents, Mr. and Mrs. John H. Shrader, it was announced today.

Born at Scranton on December 31, 1916, the deceased soldier lived there until 1938 when he moved to Fort Worth where he was employed until his induction into the services. He trained with the 36th Division at Camp Bowie and later finished the army specialists school in Denver, Colorado.

The body is being returned to the United States on the army transport Carrol Victory. Funeral arrangements will be announced when the date of arrival is known.

New Well Seen For Leeray Pool North Of Cisco

Another Mississippi lime producer loomed today for the Leeray Field—the S. E. Hittson Ranch pool four miles north of Cisco—as Cities Service Oil Company had gas and oil shows in tests of their No. 1 S. E. Hittson.

A test late Monday showed 2,850,000 cubic feet of gas with some oil under 350 pounds back pressure on the formation. The No. 4 well is a direct offset to Cities Service Oil Co.'s No. 2 Hittson, completed last year as a 512-barrel producer.

Oil men said the Hittson wells are producing from the Mississippi in approximately the same quantity and depth as the new Kleiner wells just outside the city. Although the two pools are almost identical, there are some three miles apart and were not expected to connect.

W. S. Johnson is superintendent for Cities Service with headquarters here. D. A. Deckman, another official of the company who has been here several months, was reported to be in Houston this week seeking pipe for additional drilling. The Leeray pool, which has not as yet had a dry hole, is regarded as one of the region's best sectors.

Attendance Good At Fike Revival

Rev. Cecil Stowe, pastor of the local Nazarene Church, announced that the revival being conducted by Rev. Fred Fike is drawing good crowds. The services will continue through July 25.

Tuesday night was designated as Grandparents' night and all grandparents will occupy choir seats and will sing a special number. Wednesday night will be children's night and Rev. Fike will give a special illustrated message. The children will sing several numbers. Friday night has been set aside as a special musical night and the public was invited to attend this service and all services throughout the meeting.

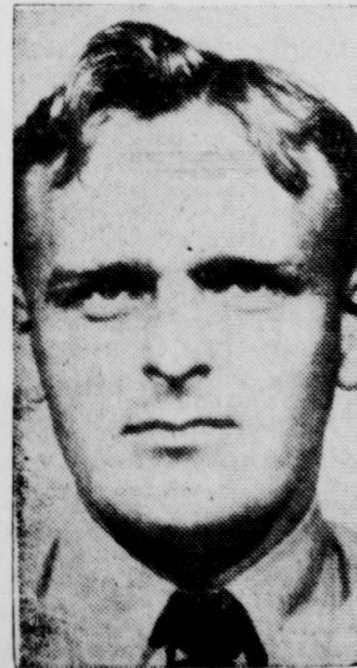

Rev. Stowe urged all members and their friends to attend Sunday school on July 25. An effort will be made to break all attendance records on that day.

Storage Building Leased by Boss

Boss Manufacturing Company makers of work gloves, has leased the second story of the Lee Super Service Station for use as a warehouse. Manager Anton White reported today. The storage space amounts to some 6,000 square feet. Mr. White said Boss would use the space to store materials that are becoming more plentiful and to facilitate the handling of finished products. The local plant is running at capacity.

The building is owned by Mayor Edward Lee, and the lease was for a period of one year, effective July 10.

Dies in Palestine

Ole Helge Bakke, a Norwegian subject who joined the United Nations staff in 1946, was killed on a road to Mt. Scopus in Palestine, according to word received by United Nations Secretary Trygve Lie. He will be buried in a temporary grave on Mt. Scopus and the UN flag at Lake Success will be flown at half mast. (NEA Telephoto).

Boyd Drops Game To Moran Club To Break Win Streak

A ninth inning rally enabled the Moran Reds to shatter Royce L. Boyd's ten-game winning streak in home territory, 3-to-1, here last night at ABC park. Approximately 750 fans witnessed the game.

Unable to challenge the Boyd Constructioners in a scheduled return engagement, the Comanche team gave the league titlers a "rain check" until a more convenient time. In a last minute security, softball officials invited Moran over to settle the differences (West Texas was toppled by the Reds in a tilt there).

Boyd Scores in the First Second lead off man Mac Harralson, Boyd platerman, clattered the bases with a triple, and then came in to score off a catcher's muff. And it was Harralson in the second who repulsed a likely Moran plate set up—getting a double play off Red teamsmen Cottle and Newton and th assisting in forcing Hudman off second.

Rounding into the fourth, an infield muff assisted Booth, the Moran catcher, to clear first and then to score when Hudman slammed one into left field for a two bases. At a stalemate in the fifth, both teams clambered for the lead, but in vain. And with both hurlers breezing home plate with flashers, the draw toppled into the seventh.

A single crack by Cottle and another by Bennett sent the fans to their feet in the ninth, as the teamsters on base were now in position to score. With Newton on third, a pitch was muffed by the catcher, chalking up the second score. Manager White, sensing trouble, shifted Heathington from first to pitcher. A second catcher's bungle enabled Bennett to slide in home—safely.

In the bottom of the ninth, Moran leading 3-1, was poised for the coming attack; Boyd's last desperate try for the win. Harralson took first on an error and then stole second and third. Swift and shifty field performance by Moran ended the threat.

Truett Little Elected Coach at Seymour For 1948-49 Season

Truett Little of Putnam has been elected coach in the Seymour school for the 1948-49 term. He was coach at Throckmorton for the past two years. The announcement was made by the Throckmorton school. He will replace O. B. Wilbanks who has coached in the Seymour system for five years.

Coach Little graduated from Howard Payne College in Brownwood where he was one of the few who held letters in football, basketball, track, tennis and golf. He has coached 11 years in class A football and served as backfield coach at Odessa for one season.

Funeral Service for George R. Gordon Held Here Sunday

Funeral services for George R. Gordon were held at 2:00 p. m. Sunday in the chapel of Thomas Funeral Home. Services were in charge of Rev. Clifford Williams of Fort Worth. Burial was in Oakwood cemetery. Pallbearers were L. B. Norvell, Jesse Reynolds, H. A. Bible, James Haynie, Sterling Drumwright, Judge E. E. Lankford, Joe Clements and Luther McCrea.

Early in the year, the Norvell and Miller Grocery of Cisco took part in a nation-wide meat sale in cooperation with the Hormel Meat Packing Co. And the success of the local store's sale as compared with others was revealed this week in a magazine published by the company. The Cisco firm placed fourth in the national event, competing for this honor with companies operating as many as 20 stores. Norvell and Miller used a full page '4 in The Daily Press in connection with their meat sale. The magazine reproduced the ad, which contained a picture of Norvell and Miller's meat counter, and listed their sale results, as follows: 264 2-lb. sacks of sausage, 816 hams, 240 pounds of sliced bacon, 350 pounds of slab bacon, 60 pounds of frankfurters, and 75 pounds of assorted meats—a total of 1,805 pounds. And this did not include other meat items not on sale.

Blood and Thunder.

An increase of violence in juvenile delinquency has gone hand in hand with the increased distribution of comic books featuring murder, torture and other violent crimes, declares Dr. Frederic Wertham in The Reader's Digest for August. Dr. Wertham is director of the Psychiatric Service of Queens General Hospital and of the Lafargue Clinic, New York. His article is condensed from The Saturday Review of Literature.

From his own clinical studies and those of his associates, Dr. Wertham cites the case histories of several crimes of violence recently committed by 'teen-age youths. Ranging from the beating and hand-cuffing of a four-year-old girl to the stabbing of a boy, each of these acts is traced by Wertham directly to the child criminal's addiction to comic books.

Many other juvenile crimes point to the comic-book influence, Wertham insists. A 17-year-old killer left a note signed "The Devil," three 16-year-old boys killed a 14-year-old "for revenge," a 13-year-old Chicago boy who murdered a playmate told his lawyer he read all the comic books he could get. Typical was the recent killing of a policeman by a New York youth. "Is that crime so astonishing," Wertham asks, "in view of the comic-book cover showing a man and woman shooting it out with the police, to the accompaniment of 'We'll give those flatfeet a bellyful of lead?'"

Refuting the arguments in behalf of the comics, Wertham contends that they do not represent the natural choice of children, as their defenders say, for no other books are on sale at 10 cents in candy stores and at newsstands. That they are not educational is evident by their distortion of the classics. Yet many school children have confided to Wertham that the book reports they write as homework are based on the comic-book version of a classic, "so they won't have to read the original."

The author sees the mass production of comics seriously threatening the publication of good, inexpensive children's books. He estimates that 75 per cent of parents are opposed to comic books, and charges that the "experts" who approve of them are in the employ of the comic-book business.

Three U. S. cities — Indianapolis, Detroit and Hillsdale, Mich. —

have acted against the sale of comic books deemed harmful to youth, according to the American Municipal Association. In Chicago, school children recently burned all the comic books they could collect and persuaded neighborhood dealers to discontinue their sale.

IMPORTANT

L. R. PEARSON

One of the most IMPORTANT offices to be filled in next Saturday's election is State Representative. The Legislature constitutes one-third of our State Government—a big one-third. The Texas Legislature is now a billion dollar institution. Our economic system and general welfare are closely tied in to the legislative branch of our Government. It has truthfully been said, "As the Legislature goes, so goes the State."

Our present Representatives are T. M. Collie (District 106) and L. R. Pearson (District 107). They have served us faithfully and have made us able and dependable Representatives.

In the 50th Legislature Collie was a member of the Revenue and Taxation Committee, one of the most important committees in the House of Representatives. All tax bills and revenue measures must clear this Committee before reaching the floor of the House. Although some twenty new tax bills were introduced in the 50th Legislature, this Committee held the line and refused to vote out a single new tax measure. As a result, no new taxes were levied on the people of Texas by the last Legislature. If re-elected, Collie, due to his seniority, will probably be advanced to Chairman or Vice-Chairman of this important Committee in the 51st Leg-

islature. This is important to every citizen of Eastland County.

With sixty-five million dollars cash now in the General Fund—the largest in the history of Texas—and with an estimated eighty-five million dollars in this Fund by next January, when the 51st Legislature convenes, apparently there is no necessity for any new taxes to be levied by the next Legislature. Both of our present Representatives are committed to this program.

In the 49th Legislature Pearson was a member of the committee on Oil, Gas and Mining, one of the major Committees in the House. In the 50th Legislature he was advanced to Chairman of this important Committee. All bills pertaining to oil, gas, and mining must secure the approval of this Committee before being considered by the House. More constructive oil and gas legislation and less punitive legislation, was enacted by the Texas Legislature in the last two sessions than in any like period in Texas history. Pearson was author and sponsor of a bill which makes it possible to lease land, through a receiver, when part of the royalty or mineral rights are owned by non-resident or unknown owners. This new law has been used frequently in Eastland and adjoining counties, and some 6 or 8 wells are now be-

ing drilled in the Gorman and Cisco area which could not have been drilled had it not been for the Pearson Act. This has not only helped the oil men, but has helped the land owners, royalty owners, businessmen, and laborers alike.

Also, the Cisco Public Schools and the Cisco Junior College are beneficiaries of some very constructive legislation sponsored by our present Representatives. In the 50th Legislature the Cisco Public Schools, for the first time, were brought within the terms of the Equalization Bill. The Cisco Schools have already received over \$19,000 in cash from this bill, and will receive several thousand dollars more. Also, from the Apportionment Bill enacted by the 50th Legislature, the Cisco Schools will receive \$55.00 for each scholastic, the largest in the history of Texas. Our two Representatives were very active and instrumental in passing these two bills, and securing this financial aid for our schools. The revenue received from these two bills enabled the Cisco School Board to improve the school facilities and materially increase the salaries of our teachers, which they so rightly deserved.

Probably the most important Local Bill enacted by the 50th Legislature is House Bill 388, generally known as the "Cisco

Bill." Pearson and Collie were co-authors and co-sponsors of this bill, and are directly responsible for its passage. This Bill enabled the Cisco Independent School District to refinance its bonded indebtedness, and reduce the interest on its bonds from 5% to 2½%. Under the old law, the past due interest on these bonds bore 6% interest per annum. Under the terms of H. B. 388 the interest on past due interest was remitted entirely until the year 1971. This legislation will result in a tremendous saving to the taxpayers of the Cisco Independent School District. In brief, Pearson and Collie co-operated with the local School Board 100 per cent in all school legislation. Any member of the Cisco School Board will verify these facts. Mr. Pearson and Mr. Collie, in modesty, have said little about their accomplishments in the last Legislature. However, the citizens are entitled to know these facts.

Mr. Pearson and Mr. Collie have done a good job and they deserve to be re-elected. We will need their experience and good judgment in the 51st Legislature, which convenes next January.

WHITE REUNION HELD SUNDAY AT LAGUNA.

The annual homecoming of the descendants of Dr. J. N. White was enjoyed Sunday, July 18 at the Laguna hotel. Out-of-town relatives arriving Saturday held a get-together in the lobby of the hotel Saturday night. About forty members of the family had breakfast Sunday at the Laguna Coffee Shop.

A luncheon at noon-on the hotel roof garden served by employed helpers, was enjoyed by all. Bounteous food was brought from the homes of the families and a pretty cake, brought from San Antonio by the N. H. Whites, was cut in squares and served at the close of the meal.

Across the white cake in beautiful dainty colored flowers was written in baker's art, the words "Blessed Be the Tie That Binds."

Preceding the luncheon an inspiring address was made by N. H. White of San Antonio and was followed by short talks from other members of the family.

Following luncheon a program of music was presented by a group. Mr. Adams of Abilene was a number of vocal selections, playing guitar accompaniment. Mrs. Joe (Pauline) Williams played accompaniment for several of the young-

er members who sang popular numbers. Lowell Pittman led a sing-song in which the group joined with Mrs. Williams playing accordion accompaniment. It was decided by popular vote to hold the 1949 reunion in San Antonio.

Those present were: Mr. and Mrs. N. H. White, Mr. and Mrs. Bob White and sons, Jimmy and Bobby of San Antonio; Mr. and Mrs. Alfred Penderon and daughters, Estelle and Carole Ann; Mr. and Mrs. Jack Carr, Mary and Suzanne of Dallas; Mrs. Mary

COURTNEY GRAY CANDIDATE FOR ASSOCIATE JUSTICE COURT OF CIVIL APPEALS

- Judge Gray has been a member of the court for the past 3 years and knows appellate procedure.
- His record on the court entitles him to an elective term.
- His continuance on the court maintains a proper geographical distribution of the judges.

• The court has made an enviable record since he has been Associate Justice and there is complete harmony among the judges.

Not So Very Long Ago - - -

... most abstracters were wondering where the next order would come from. Then came the gradual rise in the price of petroleum products, release of more building materials, and increased inflation which swelled the price of lands out of all reason. These factors and others contributed greatly to the demand for title work. But thru good times and bad—for more than 25 years — we have never thought it wise to sacrifice quality for quantity. And that's our business platform today!

VOTE For WILLIAM J. MURRAY

Let's Keep...
A Qualified Petroleum Engineer on the Railroad Commission of Texas

Bill Murray
is seeking election to the final two years of the Unexpired Term to which he was appointed last year!

RAILROAD COMMISSION (UNEXPIRED TERM)

CISCO IS BILL MURRAY'S HOME TOWN

LET'S GIVE HIM A VOTE OF CONFIDENCE

LET'S REWARD FAITHFUL SERVICE

W. J. (Bill) MURRAY, JR., member of the Railroad Commission of Texas, was born in Coleman, February 17, 1915. He grew up in the oil fields of Texas as his rig building father moved from one new field to another.

Bill started receiving honors the day he graduated from high school and has followed this pattern since that day. Salutatorian of his class, he graduated from Cisco High School and received the Harmon scholarship for Eagle Scouts, which he used in obtaining his Petroleum Engineering degree at the University of Texas. To help his way through school and further his knowledge of the oil industry and how oil was produced, he worked in the field as a roughneck, tool dresser, and rig builder during the summer vacations. Later he was associated with his father as an independent oil producer for two years.

He attended Hardin-Simmons University where he received the Minter medal for highest scholastic average. From 1933-36 he attended the University of Texas, receiving B. S. and M. S. degrees in petroleum engineering. While attending the university, he was President of Tau Beta Pi, (Honorary Engineering Society); President of A. I. M. E. (Petroleum Engineering Society); President of Presbyterian Students Association; member of Friars (Student Leadership Society); Sigma Psi (Scientific Society); and Pi Epsilon; (Honorary Petroleum Engineering Society). At graduation he was credited by Dean T. U. Taylor with the highest scholastic record in the history of the Engineering College.

After graduation, Mr. Murray taught Petroleum Engineering at the university one year. During that time he became vitally interested in the dwindling oil reserves of the state, a condition he recognized while working in various fields. Because of his research and study in conservation he was appointed Senior Engineer, Chief Enforcement Officer, and Chief Examiner of the Railroad Commission.

Mr. Murray long has been active in Boy Scout work, having served as Scout Master at Coleman, and Kilgore, while an employee of the Railroad Commission. He is a member of a troop committee in Austin.

In June of 1939 he married Jo Newton of Burkett, Texas. They have three daughters, Jo Anna, Marsha and Janice.

Mr. Murray recently was elected Ruling Elder of the University Presbyterian Church in Austin.

Early in 1941, before Pearl Harbor, Murray was appointed Conservation Engineer for the Petroleum Administration for War in District Three, which included Texas, New Mexico, Louisiana, Arkansas, Mississippi and Alabama. His first assignment was to report quickly the location and extent of all production suitable for manufacture of aviation gasoline. He was widely commended also for results in production efficiency, curtailment of waste and cataloguing of available reserves. He was particularly active in promotion of exploration and conservation in these fields.

In 1945 he was appointed Chairman of the Gas Conservation Engineering Committee to study wasteful flaring of gas. As a result of his study and findings much valuable gas, formerly flared, has been turned to profitable industrial and domestic use.

January of 1947 saw Murray appointed a member of the Railroad Commission by Gov. Beauford Jester, the first graduate petroleum engineer ever to serve in that capacity.

Murray was paid an unusual tribute recently when he was offered the highest oil position in our federal government. This he declined because he is more interested in conservation of Texas oil than in personal honors.

Let's reward this kind of loyalty and faithfulness at the polls Saturday with a record vote.

(This Political Advertisement Paid For by Cisco Men Who Regard Murray as the Best Man in Texas for the Job).
