Local National Guard Unit Await Formal Inspection

The inspection officer from the Inspector General's office of the Fourth Army at Fort Sam Houston, was to arrive in Cisco by plane at 4:30 Wednesday to give final inspection to the Cisco National Guard unit, according to word received by Capt. O. O. Odom Tuesday.

Encouragement for Housewives Given By Dairy Council

CHICAGO, Aug. 4.—Encouragement for housewives who are plagued by rising food costs was held out today by the National Dairy Council.

Organized Unit Affiliates Formed

AUSTIN, Aug. 4.—Engineer construction foundry and heavy shop concerns appear in the latest list of organizations signing agreements with the Army for establishment of Organized Reserve Units under the Affiliation Program.

WHAT'S DOING

Rotary Club meets at College cafeteria at noon Thursday. Merchants Credit Association will have its regular monthly meeting at the Chamber of Commerce building Thursday at 7:30 p. m.

The Gay Philosopher

(Copyright New York Graphic Society) By J. W. S.

DO YOU READ the ads? Did you notice the one in yesterday's paper for the West Texas Utilities Company? It was pretty impressive.

WHAT IMPRESSED us most was the fact that you can burn a light for three hours for a penny. We remember sometimes our days as a farm boy in the Panhandle.

WE'LL NEVER FORGET the first electric lights. It was revolutionary. We never cease to be awed at the things electricity can do.

MRS. SUTTON Crofts, who won a free subscription as a contest winner the other day, was the winner in another contest, we're informed. She won a bus ride to any place in the United States she wants to go. It was in a regional contest.

WAS OUT TO THE Country Club for an outing the other night. Cisco has every right to be very proud indeed of the fine club house and the golf course. Improvements are constantly being made. But the membership rolls will be full one of these days.

A FELLOW stopped by our office late yesterday. "I just wanted to tell you," he said, "that I enjoy the Gay Philosopher and that I appreciate the new aviation column you're running once a week."

AS TIME MARCHES on we hope that you will notice many improvements in Your Home Paper.

Highway Workers Hurt in Mishaps

Since V. J. Day 99 Texas Highway Department employees have been injured by drivers who failed to slow down when approaching work areas.

In view of the many accidents, D. T. Harkrider of the Highway Department, past president of the Texas Public Employees Association, has called on the public to observe the "Drive Slow" signs that warn of men working on the highways.

The Texas Public Employees Association, an organization of state and county employees, is aiding in this campaign to encourage cautious highway driving on the part of the Texas public.

HEAR REGULAR REPORTS. Members of the board of directors of the Cisco Chamber of Commerce heard regular reports of activities at their meeting Tuesday night. President W. P. Guinn presided.

U. S. GALS WIN OLYMPIC DIVING EVENTS

The three U. S. stars who placed 1-2-3 in the Olympic women's springboard diving event in London. From left to right, are: Zoe Ann Olsen, who won second; Vicki Manalo Draves, first, and Patricia Elsenker, third. All three girls are from California. (N.A. Telephoto).

Plant Disease Program Begins

COLLEGE STATION, Aug. 4.—Texas A&M College today laid the groundwork in further curbing and preventing agricultural losses due to plant disease.

The resident instruction work in plant physiology and pathology will be transferred from the Department of Biology in the School of Arts and Sciences to the Department of Plant Physiology and Pathology in the School of Agriculture, C. N. Shepardson, dean, agricultural department, announces. The transfer is effective September 1.

Dr. A. A. Dunlap, formerly chief of the division of plant physiology and pathology in the Experiment Station, will head the new department. Dr. V. A. Grelach and Dr. E. M. Hildebrand who have been handling instruction in these fields will be transferred to the new department, Dean Shepardson says.

"This organization of the work in plant physiology and pathology opens up a real opportunity for greater progress in curbing or preventing agricultural losses due to plant diseases," Shepardson points out. "Through the closer coordination of teaching and research in this field, we will be able to strengthen our training program and interest more students in the possibilities of a career in plant disease control."

"Present losses, due to disease in field crop alone, run into millions of dollars. The same may be said of our great fruit and vegetable industry and the floral and nursery business. The rapid growth of these industries in Texas has far out ran the supply of men trained in this field who are needed not only in actual production work but also in further research to find the means of combating the long list of pathological and physiological problems confronting these industries."

Field Supervisor To Meet Veterans Wednesday Night

D. G. Ammons, field supervisor for the Veterans Administration with headquarters in Mineral Wells will be at the Cisco Junior College Wednesday at 6 p. m. to talk with all "part seven" veterans.

Part seven veterans are those receiving veterans training under the disability clause of the National Service Act. A. R. Collier, veterans counselor at the school, urged all trainees to be at the college at that time, and also invited all veterans who have a problem to discuss, to attend the meeting.

TESTIFY BEFORE SENATE COMMITTEE

Appearing before a Senate Committee investigating Communist in government jobs, Whittaker Chambers, left, a senior editor of Time magazine, told the committee that Alger Hiss, former State Department official who helped organize the United Nations, was a member of the Communist underground in Washington before 1937.

Insect Eradication Program Begun By City Health Department Officials

City health department employees, under the direction of Commissioner H. C. Brown, are engaged in the spraying of all alleys and likely breeding places for winged insects, it was announced Wednesday.

The spraying was begun at two p. m. Tuesday in the alley between Seventh and Eighth streets as a trial, and the equipment proved to be sufficient to handle the job. Workmen planned to finish the alleys from Seventh Street north to First Street Wednesday, and the equipment is to be moved to the college Wednesday night for spraying around the apartments and buildings.

The new spray equipment is mounted on a city pick-up truck for easy transportation. It has a 100-gallon storage tank and is powered by a gasoline motor. The pump is capable of building up a pressure of 350 pounds and shoots a spray in the form of a heavy mist over a wide area.

FEE WELL COMES IN TO EXTEND FIELD

The Kleiner oil field had a new producer today as the Sam Killingsworth No. 1 George P. Fee was brought in as a flowing well with a potential capacity estimated at 300 barrels per day or more. Acidized with 2,000 gallons through perforations at 3,838 to 3,848 feet and closed over night, the well flowed a steady stream of oil in a test early today. When the pipe was opened, gas flowed immediately. In less than two minutes, a steady stream of oil was flowing.

Boyd, Eastland Win Tournament Opening Games

Crippled with incomplete "A" line-up, Royce L. Boyd claimed a 4-0 shutout over the Ranger All-Stars in the initial game of the first round of play here last night in Cisco's amateur softball tournament, now underway at ABC Park. Eastland, who is being represented by King Tractor Co., edged the Moran Reds out of the qualifying rounds by a 3-1 margin.

Winning the toss as the out-of-town team, the All-Stars chose to take their turn at bat first, only to be whipped down by the crafty fingers of sparsman Cled Heathington in three successive twists.

Earl Cumba, stationed behind the platter in the absence of Duck Parks, drove in the first runs off F. Jerry Littlefield, Ranger hurler, by lofting a single into shallow left field, running Cozart and Heathington, who got on via the base-on-ball route, to the platter. Infield miscues permitted Cumba to scoot home when Southpaw Don Johnson got aboard on an error.

Heathington gave up his no-hit record in the second stanza when D. C. Arterburn connected for a single. With two away, Bradshaw struck out, thus folding up the tentative rally. Arterburn was left stranded on first at the climax.

A brief argument arose in the fourth when Ranger manager, Arterburn protested the balls being used by Boyd. Head umpire, Glen Boyd of Eastland decided the matter and ruled that any official softball could be used as long as both teams were hurling the same kind, Littlefield yielded his fourth hit to cleanup man Earl Cumba, who got on with a double. He was rushed home by Heathington's line drive through short.

With Boyd fielders using the same defensive strategy against the All-Stars as they used in the Stamford tournament, turned back a sixth stanza counter-punch when J. Arterburn and W. Seymour grounded to third and Heathington struck out. Poyner with two on base.

Brilliant All-Star hustling perverted Heathington's circuit clout slam from tallying, when center-fielder Arterburn armed the fence bouncing ball to catcher Poyner who tagged the moundsman as he galloped homeward. Approximately 1500 fans saw the opener.

The score by innings: King Tractor 000 102 x-3 1 0 Moran 100 000 0-1 3 2 Boyd 301 000 x-4 6 2 Ranger 000 000 0-0 2 3

August 17 Set As Closing Date For Fair Entries

Approximately two weeks remain in which to make entries in classes open for competition in the Textile, Culinary and Antiques Show at the State Fair of Texas, Oct. 9-24. Mrs. O. D. Stallard, superintendent of the State Fairs women's department, has announced. Entries close August 17.

Classes in the textile division include embroidery, lace work, knitting and crocheting, quilts, rugs, plain sewing, fancy handwork, layettes, elderly ladies work and antiques. In the culinary division classes include jellies, canned fruits, vegetables and pickles.

WATER OFFICIALS ACT TO AID IN CITY WATER SUPPLY

Lions Club Hears Convention Report

Delegates O. L. Stamey and Carlos Turner gave reports on the recent convention of Lions International at the weekly luncheon meeting at noon Wednesday at the college cafeteria. The official report will be made next week by Club President Roy Westfall.

Lion Ray Judia played several piano numbers as an entertainment feature. Ralph Glenn, former president, presided in the absence of officials.

Warning Issued On Livestock Disease

Don't be too quick to blame the lightning if a farm animal is found suddenly dead the morning after an electrical storm.

Actually, according to a special summer report issued today by the American Foundation for Animal Health, death may have been caused by any of a half dozen different diseases easily confused with lightning stroke.

"Nowadays, most farmers know that animals killed by lightning do not always show external burns," the American Foundation explained. "As a result, there have been many cases where lightning got the blame when the real villain was some such disease as blackleg, blood, malignant edema, plant poisoning, organic poisoning, or photosensitization."

Livestockraisers were advised to obtain a thorough postmortem of animals believed to have been killed by lightning. Such an examination may reveal the presence of a disease, calling for immediate precautions to protect the rest of the herd.

"Differential diagnosis" between lightning stroke and certain diseases is so difficult, the American Foundation pointed out, that insurance companies now require professional diagnosis on claims for lightning losses of livestock.

Local Girl Named On Honor Roll at NTSTC in Denton

Billie Hall of Cisco is among 1176 students at North Texas State College who are on the dean's honor list for the first six weeks of the summer session.

To be eligible for the dean's list, a student must be at least of junior standing and have a "B" average with no grade less than "C" on at least 12 hours work during the last semester. Students on the list are exempt from usual class absence penalties.

A senior music major, Miss Hall is the daughter of W. H. Hall, 1309 W. 15th street.

OCTOBER 14 DECLARED AS U & C DAY AT STATE FAIR

Oct. 14 will be United Daughters of Confederacy Day at the State Fair of Texas, Mrs. C. T. Adams, United Daughters arrangements chairman, announced Friday after a conference with State Fair officials.

A luncheon, at which a prominent guest speaker will be presented, will be the principal feature of the day, Mrs. Adams said.

Diver Employed To Make Repairs On Sluice Gate

Does your water taste different lately? If it does you can blame it on a defective sluice gate at Lake Cisco which forces the water department to take the water from the bottom outlet, a water department spokesman stated. Officials of the department have taken steps to repair the valve and furnish customers with a better tasting drink.

After a lengthy study of the outlets it was found that the middle valve was stuck and engineers recommended repair work on the water side of the dam. A diver was contacted and agreed to go down twelve feet to see what could be done to replace the stuck valve.

The diver, James F. Harper who served as a naval diver during World War II, and his assistant, Miss Dixie Barry, began work Wednesday at 9 a. m. Initial investigation showed that the valve had slipped past the guard and was wedged at that place.

Utilizing a jack, the valve was moved into place and the gate was placed in working order. Water department officials said that water from the upper level would begin flowing into the mains by Thursday and it should no longer have the taste of creek water.

The repair work on the sluice gate will not relieve the pressure problem, it was pointed out. It will serve only to give a better taste to the water used by the consumers. The problems effecting the pressure system are being worked on and the reservoir on college hill is nearing completion.

Meanwhile, officials issued a plea to local citizens to continue using the stagger system in watering trees, flowers and lawns. They said that many were watering every day without regard to neighbors.

One woman was told that her watering days were Monday, Wednesday and Friday. She said that she always started her watering early, in order to bother no one. Officials pointed out that the water she used early was water that had been stored in reservoirs over night for the use of people who were supposed to use it the next day.

Parts of town continue to report low pressure in the evenings and citizens were urged to abide with the watering regulations so that all users could be served alike.

Daily Press Boys Sport New Shirts

Daily Press carriers are a proud lot, sporting the new style in looks.

The carriers, ten to be exact, have completed a six week's "Most Ambitious Carrier" contest, originated by the circulation department of "Your Home Paper," and each was awarded a new T-shirt bearing the paper's name in striking red letters.

The contest was based on the number of new subscribers the carrier obtained for the paper; the carrier's attitude toward his customers—stressing courtesy, trustworthiness and promptness in delivery. More than 150 new subscribers were solicited by the boys.

It was decided by the department to present each carrier with a shirt, rather than award a separate prize to the leading contestant. So everybody's happy.

GOLD STAR MOTHER'S DAY SET AT STATE FAIR

A reception and luncheon will be the feature of Gold Star Mother's Day, Oct. 23, at the State Fair of Texas, Mrs. Jennie June Jackson, local president of the American Gold Star Mothers, announced Saturday.

The reception will be held by the Dallas chapter at the John Lowe - Joe Smart Legion Post 53 on the State Fair grounds. All Gold Star mothers will be invited to inscribe their names in the chapter's register in the General Exhibits Building.

completed as a good well in the Mississippi.

Hickok Oil Company had moved in machinery today to begin completion work on their No. 3 Kleiner. It will probably be ready for pipe perforations Thursday. Oil men expected that it would have to be acidized to make it kick off.

Lone Star Producing Co.'s No. A-2 C. J. Kleiner expected to top the pay horizon some time today. The formation is expected to be encountered below 3,700 feet.

formation just on top of the Mississippi, from which neighboring wells are flowing.

Killingsworth said he was confident that the Fee well could have been completed in the Lake sand, as considerable gas and an oil show was found.

Elsewhere in the area, the field western outpost, the H. W. Skelly No. 1 Thomas was cemented Tuesday and will have to set for three days before perforation and completion efforts. On the basis of core tests, it is expected to be

built and lines were being laid today.

The Fee well, as the eastern outpost in the new Cisco field, adds considerable proven territory to the area, oil men said. Added importance of the well was seen in the act that it is producing from the Chappel lime, a

Heart of Flood Control.

Early in July, in the state of Oklahoma, a ceremony of great significance took place. The Governor of the state and other notables dedicated the Number 1 Detention Dam on the Cloud Creek Watershed, and so put into practical application a program of flood control which may set a precedent for the country as a whole.

The program marks the first attempt by the government to help solve the problem of flood damage to small areas on the headwater tributaries of streams — the areas where actual water destruction is often greatest. Efforts to start it began as long ago as 1930, and were advanced by Congressional action in 1936. Surveys indicate that the program can provide a return of \$3.85 in benefits for each dollar invested.

The program has various phases. First of all, it is confined to flood control, and flood control alone. The measures taken include small detention reservoirs, major gully control structures, flood-water diversions, special silt traps, erosion prevention, and so on. Heavy emphasis is placed on holding water on the land. Farmers are voluntarily cooperating by pursuing scientific means of soil utilization. A marked reduction in the extent of flood damage in the region is confidently anticipated. On top of that, it is expected that irreplaceable wild life resources will be protected and increased.

More and more experts who have studied the problem of water damage have come to the belief that this program is representative of the right approach. Despite political propaganda, it is evident that great power dams, which must be kept nearly full of water to produce sufficient fall, are virtually useless for controlling floods. Oklahoma is to be congratulated on putting through a project whose significance is at last appreciated.

Courtesy For Drivers.

What can drivers do to reduce their chances of collision on the highway?

In a single word the answer would be, COURTESY. That's the belief of George Clarke, managing director of the Texas Safety Association.

"All rules of the road boil down to this fundamental concept — courtesy," said Mr. Clarke.

"The biggest collision-maker we have on the highway today is the fellow who refuses to yield right-of-way," he declared. "Yet the simple exercise of courtesy could prevent most mishaps."

The Association is cooperating with the National Safety Council's safety education program for August, emphasizing courtesy and defensive driving. These rules were offered for life-saving on the highway:

- Consider carefully the rights of others.
- Offer hand signals before stopping or turning.
- Understand both local and state traffic laws.
- Rely — not on HIS brakes, but on your own.
- Take time to reach your destination safely.
- Exercise reasonable judgment and common sense.
- Stay within your own lane, except for passing.
- Your courtesies will reflect in the attitude of others.

State Aid For More Districts Urged By Leader

AUSTIN, Texas, Aug. 4. — If comparable educational facilities are to be made available throughout Texas, state equalization aid must be extended to more districts. Miss Emma Mae Brotze, president of the Texas State Teachers Association, declared here today.

Higher costs of operating schools made it imperative that some of the poorer districts be given even more aid than they are receiving, she said.

Twenty-seven school districts were unable to pay the minimum salaries for teachers as prescribed

by law last year, Miss Brotze said. "These districts all had a high rate of taxation and most of them had a high valuation on property for assessment purposes," the State Teachers' president said. "They were, however, unable to meet expenses."

"With costs rising almost constantly, I fear that even more districts will be unable to meet the minimum teacher salary requirements and keep their doors open for nine months during the next school year."

The state is now spending \$18,000,000 annually for equalization aid. It is a fund intended to help districts which cannot obtain sufficient money from local taxation, plus the usual state per capita apportionment, to bring their schools up to standard.

This aid is now limited to school districts with not more than 1,500 pupils and large consolidated districts. Miss Brotze listed the

Oklahoma 4-H Girl Gets Screen Test

Patsy Ann Meyer, 11, Canton, Oklahoma, 4-H Club girl, is Hollywood bound for a screen test.

Patsy Ann was selected as one of four girls, out of more than 8,000 entered, to try for a part in "The Green Promise," film story to be produced in Hollywood. She is shown above as she was interviewed recently in Oklahoma City by Robert Paige, co-producer of the film, who will play the role of a county agent.

Mrs. Pete Meyer, Patsy Ann's mother, and Miss Maudie Thompson, home demonstration leader from Wautonga, Oklahoma, will accompany the 4-H girl to Hollywood. She will vie with Judy Stewart and Marian Freed, both

from Wisconsin, and Jeanne LaDuke from Indiana, for the part in the film. "The Green Promise" relates the story of a farm family which by adopting measures recommended by the county agent and through examples set by 4-H Club members, is able to raise itself to higher living standards. It will be produced by McCarthy Productions, independent film company formed by Glenn McCarthy, Houston businessman, Paige and Monty Collins, well-known screen writer. Paige and Collins are co-producers and Collins wrote the original screen story.

Production of the film is scheduled to start in mid-August.

Anderson county, has a tax rate of \$1.45, just five cents under the maximum allowed by law. The "Palestine, the county seat of

low as compared with many districts. The property value totals \$8,654,371.

"The Palestine district has seventy-three teachers and paid them \$206,659, yet fell \$28,000 short of meeting the requirements of the minimum salary law. There are 2,794 pupils in the Palestine schools."

Cuero, a district with 1,555 students, just 55 too many to be eligible for equalization aid, levies the full \$1.50 tax. It was another of the districts unable to comply with the salary law, Miss Brotze said. Cleburne, with a \$1.25 tax rate, and Waxahachie, which has a \$1.22 tax rate, are other typical examples, she declared.

"It is certain that with our present reach of values we cannot ever reach equality of educational opportunities throughout the state unless equalization aid is extended," Miss Brotze declared.

"Where there are many populous counties which have many children and land values are low, the state is paying 60 to 75 per cent of the total cost of the schools, although these cases are rare. Yet we find in those sections of the state poor buildings and poorer equipment."

"On the other hand there are many counties with sparse population in which the state is paying as little as 25 per cent of the cost. But because of oil discoveries there are modern buildings, splendid equipment, which are badly in need

of more pupils to be able to carry on a varied program."

"A re-allocation and extension of equalization aid funds appears to be the only answer," she concluded.

Naval Depot to Sell War Surplus

The Naval Ammunition Depot, near Camden, Arkansas, will be cleared of \$125,000 worth of war surplus miscellany by a spot bid sale August 10, according to an announcement today by the regional War Assets Administration office.

Materials are in process of being lotted for an offering to buyers, including veterans, other priority groups and the general public. Included will be chain hooks, water main fittings, gate valves, air pressure hose, pipe hooks and tongs, urinals, space heaters, pipe laying and shovel attachments.

All the property is located in the depot's Schumaker area, some distance from the main gate where directions will be supplied to prospective purchasers, August 6 has been designated by WAA as time for federal agencies to claim selections for their use.

General inspection of the goods has been scheduled for Monday.

"BUT WHERE'D YOU GET THE \$400?"

ASKED BILL COLIHAN

WE WERE sitting in my office last Monday talking about a small piece of property I'm thinking of buying as protection.

You know, a little strip of land, so that I'll have something between me and the next guy's garage. It will set me back about \$400.

And it was around this four hundred dollar mark that Bill Colihan piped up and said:

"There must be something wrong with me. I'm sure I make as much money as most other people do, and yet I never have any money left over for extras. I don't see how you do it. Just where did you get that \$400?"

"I saved it up the automatic way," I answered. "Guess that's the only way people like us can ever save up any money."

"Not this person," grunted Bill. "Come the end of the month I just don't have anything left to save."

"Don't give me that routine," I snapped. "Now that factories and offices have the automatic Payroll Savings Plan, a guy can't help saving. Why, it's as painless as cutting off your toe nails."

"You don't even know you're saving—except for the fact that the U. S. Savings Bonds begin piling up. And for every \$3 you sock away in these Savings Bonds, you get back \$4."

"Go on, beat it out of here. Telling me you can't save money. Anyone can do it with the automatic Payroll Savings Plan lying around. Anyone!"

P. S. There's also an automatic Bond A-Month Plan for those who aren't on a payroll. Your local bank would like to tell you about it.

Automatic saving is sure saving—

COUNCIL GROUP MET WITH MRS. REX MOORE.
Mrs. Rex Moore was hostess when Group Three of Women's Council of First Christian church met Tuesday afternoon in her home for regular meeting.

The hostess called the meeting to order with prayer by Mrs. G. W. Troxell after which the devotional leader, Mrs. James Flournoy brought a splendid devotion, giving a discussion of interesting prophecies written four hundred years before the coming of Christ.

During the business session at which Mrs. Moore presided minutes of the last meeting were read by Mrs. J. F. Benedict who also gave the treasurer's report. Routine business was transacted and for closing the meeting all members repeated the missionary benediction.

A social hour was held and refreshments of devil food cake and punch were passed to Mrs. J. F. Benedict, Mrs. A. L. Clark, Mrs. G. W. Troxell, Mrs. Fred Erwin, Mrs. James Flournoy and the hostess, Mrs. Moore.

Next meeting will be held in the home of Mrs. A. L. Clark at 407 west Thirteenth street.

ALLEN FAMILY HELD TWO DAY REUNION.
The family of the late Mr. and Mrs. J. D. Allen held a reunion at Lake Cisco on Saturday and Sunday, July 24-25. Sixty-five descendants of the splendid couple were present. Fine meals were served and the attractions at the lake were enjoyed by younger members of the group.

Those participating included Mr. and Mrs. G. H. Hayward, Mr. and Mrs. W. O. Berry, Harold David Berry, John Berry, Harold Hall, Donnie Hall, all of Big Spring; Mr. and Mrs. J. E. Burnam, Mr. and Mrs. Allen Burnam and children, Necia and Jelene, of Cisco; Mr. and Mrs. Chester Allen, Charlene Allen, Mr. and Mrs. Oliver Allen, Mr. and Mrs. J. C. Hess, Mr. and Mrs. Billy Allen, Mrs. Gene Green, Mr. and Mrs. Ford Green, Robert Charles Green, all of Moran; Mr. and Mrs. Bill Welch, Jimmy Welch, Mrs. Zollars, of Borger; Miss Joyce Welch of Plainview; Mr. and Mrs. Lon Dennis, Charles Dennis, Mr. and Mrs. G. C. Allen of Abilene; Mrs. George Hunnycutt, Mona Carol Bates, Jeanette Hunnycutt of San Antonio; Mr. and Mrs. O. C. Allen, Barbara and Jeanette Allen of Fort Worth; Forestine Short of Phoenix, Arizona; Mr. and Mrs. R. B. Lane of Gorman; Mr. and Mrs. Raymond Mitchell of Fort Worth; Mrs. J. R. Gunn, Mr. and Mrs. Charles Davis, Vernetta Davis, Charley Davis, Mr. and Mrs. Bobby Williams, Mary Jane Williams all of Putnam; Mrs. F. M. Hooks, Mr. and Mrs. Buford Allen, Lou David Allen, Harris Coats of Cisco.

The outcome was that the affiliation would be withheld from our competitors over a period of time until the attorney could contact the proponents here, and suggest the purchase of the files and office of L. Self.

The plan was to have L. Self choose five secretaries over the State, out of which the above two men would choose three to appraise her files and office, then the attorney would make the suggestion of a purchase to the new set-up.

Being unable to arrive at a definite fee for the work that might be involved and being in doubt as to a satisfactory appraisal, L. Self chose to rely on the integrity of the Cisco merchants, and the Laws of our Nation.

Those present were Mr. and Mrs. M. D. Speegle and family; Mr. and Mrs. Len Baird, Mr. and Mrs. L. A. Sublett and son; Mr. and Mrs. Robert Coats, Mr. and Mrs. H. E. Dunaway, Mr. and Mrs. J. W. Speegle and family, John Stute-

TWO WERE HONORED AT DINNER SUNDAY.
An anniversary birthday dinner was given August 1 in the home of Mr. and Mrs. Raymond C. Speegle honoring Mrs. Speegle's mother, Mrs. W. M. Weed in celebration of her eighty-second birthday. It was also the birthday of her son-in-law R. C. Speegle who had reached his fifty-fourth birthday. A group of 59 people were in attendance.

Minutes of previous meeting were read by Mrs. W. F. Walker and assignment for the month, to assist with the Girls Auxiliary, was mentioned. Routine business was looked after following which the meeting was turned to Mrs. O. L. Mason who discussed a chapter from the book, "Missions in the Lives of Women." The meeting closed with sentence prayers and a special prayer for the coming revival meeting.

A social hour was enjoyed and a nice salad plate with dessert and iced drink was passed to the visitors, Rev. and Mrs. Brooks of Moran.

WMS CIRCLE FIVE MET WITH MRS. W. F. MARTIN.
Mrs. W. F. Martin was hostess Tuesday afternoon in her home on west Fourth street when Circle Five of First Baptist Women's Missionary Society met for regular meeting. Mrs. A. R. Day, chairman presided and opened the meeting with prayer by a visitor, Rev. Brooks of Moran, father of the hostess, who also gave a short devotion. Mrs. Brooks was also welcomed as a visitor.

LOVELY DINNER PARTY HONORED MISS EWELL.
Miss Joan Ewell was complimented by her uncle and wife, Mr. and Mrs. J. Warren Babb of Shreveport, Louisiana, who are visiting in Cisco, with a dinner at the Laguna hotel Tuesday evening in celebration of her birthday.

Others present were her grandparents, Mr. and Mrs. J. W. Babb of Abilene; Burke Key of Amarillo; Gary Babb of Shreveport; Mr. and Mrs. Hugh Ewell, Jimmy and David Ewell.

Following the nice birthday dinner the group went to the Ewell home and spent a pleasant evening together. The lovely decorated birthday cake was cut ad served with punch to the honoree, the visitors and family at the close of the evening.

Location Made On Wildcat Well Near Rising Star
A wildcat well is to be drilled four miles southwest of Rising Star by the United North and South Development Company of Luling.

The United North and South was organized by Edgar B. Davis who spent fortune in unsuccessful tries for oil in Caldwell County, and, according to tradition, sold his personal effects to complete the final try which struck oil, opening the Luling field. The holdings were sold for millions of dollars.

Davis shared his good fortune with others; all employees were given a large bonus; there was a barbecue to which the world was invited; he offered prizes of thousands of dollars for the best paintings of Texas bluebonnet fields; he donated a country club to the community and to the colored citizens, he gave a community club house.

Davis' greatest benefaction was the establishment of a foundation with a large fund, for the study of agricultural methods to improve the lot of the farmers in that section of Texas.

The wildcat, near Rising Star, is

BRIEFLY TOLD

Mr. and Mrs. L. J. Leech and son, Jackie Leech, are enjoying a vacation trip to points in Colorado and New Mexico. They are accompanied by Mr. Leech's sister and brother-in-law, Mr. and Mrs. L. Johnson of Hamilton.

Mr. and Mrs. R. D. Guthrie visited at Hico the past weekend with Mrs. Guthrie's parents, Mr. and Mrs. J. C. Wright.

Mr. and Mrs. Ira D. Strawn visited relatives at Lubbock over the past weekend.

Don Parks of Milton, Ill., arrived for a weekend visit in the home of Mrs. Parks' parents, Mr. and Mrs. Rex W. Moore. He was accompanied on the return home by Mrs. Parks who had visited the past two weeks in Cisco with her parents.

Mrs. R. H. Dunning was able to be brought to her home in Humbletown Saturday from a Ranger hospital where she underwent surgery about ten days ago. She is reported as getting along nicely.

Mrs. W. D. Hazel is visiting at Mesquite, Texas, with her daughter

and husband Mr. and Mrs. W. A. Rathmel, and while there will attend the wedding of her granddaughter. She will also visit her daughter Miss Sylvia Hazel of Dallas.

Mr. and Mrs. C. E. Moorman spent the weekend at Austin with their daughter and son-in-law, Mr. and Mrs. Longorio.

Miss Katherine Cotten, daughter of Mr. and Mrs. Earl Cotten of Stamford, is visiting here with her grand-mother, Mrs. R. A. Cone and other relatives.

Spurgeon B. Parks and family have recently moved to Cisco from Florida. He is employed by Humble Pipeline Company at Byrds.

Mr. and Mrs. Ted B. James and two sons, Mrs. I. D. and James, have just returned from a visit with Mrs. Kiper's parents, Mr. and Mrs. J. J. Litchfield at Carlsbad, New Mexico.

Word Home Demonstration club will meet Thursday afternoon at 2:30 in the home of Mrs. D. P. King for a social meeting. The new County Demonstration agent will be present and will be introduced. A full attendance is urged, stated Mrs. Ira D. Strawn, president.

J. O. Y. Class of First Baptist Sunday school will have an ice cream supper Thursday night at 7:30 in the home of Mrs. M. P. Farnsworth at 408 Front street. Members of the class will have their families as special guests.

Mr. and Mrs. L. S. Jenkins had as guests in their home over the weekend their friends, Mr. and Mrs. C. C. Cutting of near Abilene.

Segt. M. Earl Strickland, son of Mr. and Mrs. E. N. Strickland of Cisco who has been stationed at Tinker Field, Okla., for some time, has been transferred for foreign service and has now arrived in England.

Mr. and Mrs. H. H. Qualls of McCamey who have been visiting here with relatives, left Friday for Oklahoma City where they will visit in the home of her sister and

husband Mr. and Mrs. Gregg Younts. The Qualls are enroute to Missouri for a visit with their daughter and husband.

Mr. and Mrs. J. E. Rachel have returned from a visit with her mother at Tupelo, Mississippi, and with relatives in Chattanooga, Tenn.

John Wilson and son, Bobby Wilson of Brownwood were visiting here in the home of his father L. D. Wilson the first of the week.

Little Robert Wayne Hennessee of Eastland, grandson of Mr. and Mrs. Roy George of Cisco, has been selected by a Dallas photographer to represent his studio. He is the eight months old son of Mr. and Mrs. Arlie Hennessee of Eastland.

Mr. and Mrs. J. W. Slaughter left Saturday night on a trip to his old home in Mississippi where they will visit relatives while on vacation.

Mrs. Joe O. Harris has returned from Hico where she visited her sister Mrs. C. T. Langston last week.

Mrs. H. B. Buchanan and baby of Eastland spent Tuesday in Cisco visiting in the home of her parents, Mr. and Mrs. Joe O. Harris.

Mrs. J. R. Burnett transacted business in Eastland Monday.

Mrs. Clara Robertson who has been staying with her daughter, Mrs. Blackburn, at Orange, Texas, has returned to Cisco. Visiting with her is her daughter and son-in-law, Mr. and Mrs. Clifford Thomas of College Station.

Mrs. F. T. Reames of Abilene visited here over the weekend with her daughter and son-in-law, Mr. and Mrs. Robert Siddall.

Aquilla Guthrie visited relatives and friends at Walnut Springs the past Sunday.

Office for Food and Feed Conservation Suggests:

A "PEACE PLATE" FOR TODAY

Save Wheat! Save Meat! Save the Peace!

Sometimes when we talk of economical cuts of meat, we forget about the cheaper cuts of ham. Cured ham hocks, cut from the shoulder, cost less than those prized center slices, but can give just as much flavor and protein to a meal. Make the ham hocks you buy do double duty. Stew the hocks, and cut the meat from the bone for today's Peace Plate, Ham Balls on Hot Apples. Use the bone and broth for cooking navy or pinto beans for another day's dinner.

HAM BALLS ON HOT APPLES

1 cup dry bread crumbs
1/2 teaspoon cloves (optional)
1/2 cup milk
1 egg
2 cups ground cured ham
4 apples
Brown sugar
Cinnamon

Mix bread crumbs with cloves, milk, egg and ground ham. Shape into balls. Cut cored, unpeeled apples into rounds about 3/4 inch thick, place in greased baking dish and sprinkle with sugar and cinnamon. Place ham balls on top of rounds and bake uncovered in a moderate oven (350° F) for about 30 minutes. Serves 4.

MENU SUGGESTION: Scalloped potatoes are one of our favorite accompaniments for ham, and broccoli gives the green vegetable the meal needs. For dessert, a peach shortcake made from the dried fruit now plentiful, has the added merit of being a third oven-cooked dish. That's real household efficiency.

FOOD TIPS: In these days of high food prices, it is good to find something which is cheaper than a year ago. Dried fruits have declined in price, due in part to better than average crops, and in part to the fact that they are not shipping as much abroad as formerly. Prices of dried prunes and peaches are about a third less than a year ago in wholesale markets; prices of raisins have fallen even more—about fifty per cent.

In buying prunes, remember that grocers describe size by telling number to a pound. Fairly large ones are 20-30s; medium, 50-60s; small, 80-90s or even 100-110s. The small ones are cheaper and are as good as the large ones in puddings, whips and the like.

Cooked dried peaches and prunes are good in a fruit snow—1 cup fruit pulp added to stiffly beaten whites of two eggs, with sugar and a dash of lemon juice. Or they can be substituted for apples in Brown Betty. A baked prune soufflé (sometimes called baked prune whip) served with custard is one of our best desserts. And dried peaches in it are just as good as prunes.

Johnson Believes Industry Ready For Texas Sites

DALLAS, Aug. 4. — Jittery Eastern industrialists may find Texas a read-made haven from atomic warfare worries.

That was the opinion voiced today by Congressman Lyndon Johnson, candidate for United States

Senator, after studying a report just issued by the National Security Resources Board advocating decentralization of American industry.

The report, Johnson said, points out that there is no known military defense against the atomic bomb except space and "Texas has plenty of space, plus many natural resources needed by industries."

"Industry has been jammed up in crowded big cities of the East and North for too long already," Johnson commented. "It will not only be safer but it will be a lot healthier for the people and the country

if industry moves out to the wide-open spaces."

Johnson said Texas' natural advantages of space and resources "should be pointed up to industrialists who are spending from 12 to 14 billion dollars a year on industrial expansion, and whose tendency always has been to build new plants at the same site, or near other plants of a similar type."

"Texas has a lot to offer," he added.

A member of the nation's Atomic Energy Committee in Congress.

511 Ave. D.
MYERS Water Systems

Johnson explained that "it is uneconomical to use an atomic bomb on an industrial area of less than five square miles, or a city of less than 50,000 population."

"It would be wise and practical to put some of these industries in Texas' small towns," Johnson said. "That would mean jobs and dollars for Texas workers and small businessmen and it would mean greater security for the industrial plant."
