The Gay Philosopher

Copyright New York Graphic Society. By J. W. S.

THE COOLER weather today is having a favorable reaction around town. To some of us, it prompts a desire to sleep just after lunch. We're checking a report that if you will sleep 15 minutes after lunch each day you'll live 10 years longer.

THE ROHRE family is home again and happy to be. Mrs. Rohre and the children are back from a vacation in the east. And Rev. Stuart Rohre, more formally known as Col. Rohre, is home from Camp Hood where he was on active duty for a month. He looks very trim after the month.

HAD A VERY interesting tour of this area yesterday with Mr. W. P. Guinn, division superintendent for Humble Pipe Line Co. He took us along on a regular inspection tour, which included a stop at the big Comyne station.

THE HUMBLE Pipe Line Co. was virtually born in this area. The big district office, of which Mr. W. C. Hogue is boss, plus the division office gives Cisco a very large payroll. Some 100 Humble employees live in Cisco.

TO GIVE YOU an idea of how big an operation the Humble has here, consider this fact: Humble uses more electricity than the balance of all Cisco. In addition to their own payroll, Humble is responsible for considerable other activity here. For instance, the Royce L. Boyd Co. does an enormous amount of work yearly for the company.

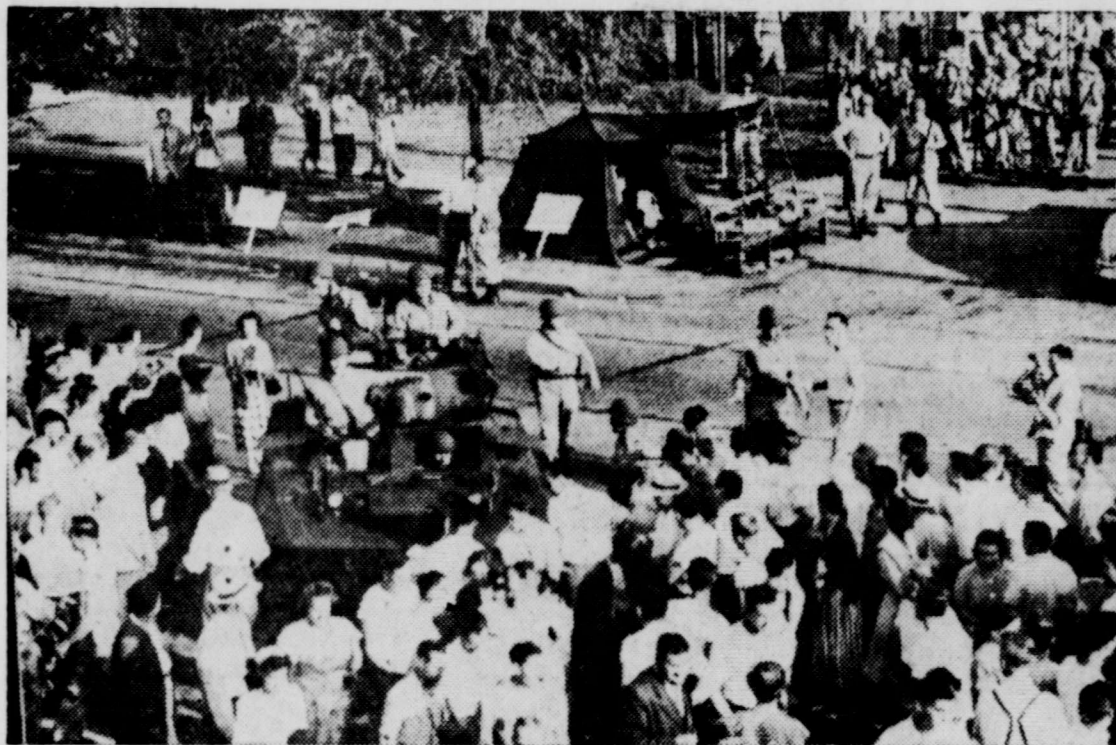

AT THE COMYNE station, everything was very spotty and clean — no small feat when you have scores of large engines and machinery of all kinds. If you're going into the pipe line business you're going to need a lot of oil. An 8-inch pipe line, for example holds 320 barrels per mile.

OIL MOVES through the pipe line at about three or four miles per hour. The Humble Co. has more than 8,000 miles of trunk and gathering lines, handling over 700,000 barrels daily. Most of this activity is located in Texas.

THE BIG 400 horsepower engines at Comyne are work-horses in every sense of the word. Sometimes, they'll run three months or more without stopping for repairs. Some of the engines have been in service 25 years or more. Something new there is floating roofs on the 55,000-barrel storage tanks. They float on top of the oil and keep out the rain and cut evaporation sharply.

MR. GUINN IS a very popular man with Humble employees. Starting with the company as a diesel engineer in 1919 — the year the company was founded — he was worked up to one of the top positions. He has been in Cisco since 1943 as division superintendent. In addition to his duties, which include looking after things from the Panhandle to West Texas, he has time to be a good citizen of Cisco. He's president of the Chamber of Commerce, active in church work and other matters.

ARMORED CARS ON PICKET LINES

Ohio National Guardsmen, called out by the Governor to suppress rioting at the Univis Lens, Co. plant in Dayton, use an armored car and rifles to disperse spectators and pickets at the plant. (NEA Telephoto).

Second Round of Softball Tourney Set at 7:45 P. M.

Going into the second round of the City's amateur softball tournament, the O'Reser Pendleton-Gorman elimination test and the Cisco Junior College-Daniel Baker College club will headline the evening's hair-raising action at ABC Park. The play-offs will get underway at 7:45 p. m. with the second game starting at 9 p. m.

The CJC-Daniel Baker skirmish will conclude the second night of the tourney's play-offs before the surviving teams enter the semi-final stage, set for Friday night. The winners of tonight's fray will be thrown into tight conflict with the contenders for the crown — Eastland's King Tractor Co. and Royce L. Boyd's district 10 ASA champs.

Judging from the Wranglers' fielding play, the local collegians should be able to throw up stiff resistance against the out-of-towners and cop the win, however, the Daniel Baker squad is the winner of Brownwood's city league and is highly favored to carry the banner into the finals itself. Both teams will probably throw in crack and polished diamond "professionals" and should afford much in entertainment, it was reported.

Scouts from Albany report the Roeser Pendleton nine in good shape. The Pendleton team is the leading contender for Albany's commercial league title.

Gorman, it is known, will be on hand to upset the evening's tournament roster by using their top-seeded staff for the engagement.

American Legion Auxiliary Elects Officers Monday

The American Legion Auxiliary elected officers for the coming year at their regular meeting Monday night at the Laguna Hotel. Delegates to the State convention, being held this year in Corpus Christi, were also named.

In the absence of Mrs. H. N. Lyle, Auxiliary president, Mrs. Charles Cofer presided at the meeting which was highlighted by a report on this year's Girl's State by Miss Coystal Smith and Miss Betty Brogdon. The two girls were sent to the State by the Cisco body.

Officers elected were Mrs. H. N. Lyle, president; Mrs. Mary King, first vice president; Mrs. Truly Carter, second vice president; Mrs. Beatrice Guthrie, secretary; Mrs. Gorum Pollard, treasurer; Mrs. Victor Lawson, historian; Mrs. Jim Flournoy, Chaplain; Miss Mamie Estes and Mrs. B. S. Wagley, Sgts. at arms.

Delegates named to the state convention were, Mrs. H. N. Lyle, Mrs. Charles Cofer, Mrs. Ethel Berry, Mrs. Mary King and Mrs. Grace Haley.

Tell It To The Fish Barometer's Up But Some Fish Just Cant Read; Vacationers Are Plentiful

Reports of good catches are still coming in and it is giving us the old fishin' fever. If it continues we will join the boathouse crew and try our luck. Does any one have some good fishing equipment to trade for a set of golf clubs. We are going to have to give up golf anyway, we lost our golf ball.

J. W. Hawkins, affectionately known as "Uncle Joe" to the hangars on at the lake, who resides in Dallas is spending the week at the lake and has set out a few lines. Uncle Joe is 78 years young and is a familiar figure at the camp. He has brought in some nice cats and bass.

Mrs. E. R. Dameron is still the champ among the bathhouse sitters. She and her daughter, Mrs. Stormy Davis are still bringing them in.

Austin Flint of the Penny company is said to be weighing the possibilities of taking up fishing for a living. He and his family were joined this week by Mrs. Flint's mother and father, Mr. and Mrs. T. B. Rutherford of Terrell. Granddad has been catching the fish since Austin has returned to the store.

Mrs. Jerry Locke and Mrs. Dub Triplet went out together several times this week and the sister team was too much for the fish. They brought in some nice ones.

Mrs. Ethel Berry was missed from her usual place the first part of the week but was back Thursday tempting the finny tribe.

Mrs. Ray Judia and Mrs. Lee Mahaney went out with Mrs. Berry early Thursday and caught a nice string before most of us were up.

Mrs. Ben Kay and Geneva Swales were fishing several days this week and took some nice crappie and cat home for their trouble.

Punk Thornton had to miss the softball games Monday night because Melissa brought in a nice mess of crappie and turned them over to him for cleaning. That grumbling you heard was just a bit of noise, he's around boasting a lot on the sly.

Jake Sublett caught a nice catfish up the lake one night this week.

The Farmer family has reserved cabins at the lake for this week end, and are planning a reunion.

J. E. Smith and his family from Houston are at the lake for a few days. So far they haven't done any fishing but are relaxing while he goes about his duties connected with the Fee well. Mr. and Mrs. Killingsworth and their two daughters from Longview are here again this week, and are enjoying the swimming.

The Wallace Johnsons from Crane are spending a month at the lake while Wallace performs his duties in connection with the Elit-

Myrick Speaks At Soil Conservation District Meeting

Group leaders of the Upper Leon Soil Conservation District, who assembled for a field day near Dublin this week, heard A. Z. Myrick of the Cisco No. 1 Conservation group relate how the use of soil-building crops and trashy mulch tillage had increased the grazing capacity of one of his fields to six times the amount secured from an untreated field.

Mr. Myrick explained that he began trying to build up his land several years ago, by making heavy applications of manure, and commercial fertilizer each year. Continued removal of all crops, and turning under all crop residue had kept the soil so low in organic matter, however, that yields had continued to decline, until hardly any crop would grow on the land. At this time he decided to have a chemical analysis made of his soil to determine what was wrong, but to his amazement, the laboratories found no deficiency in his soil, what-so-ever, except for being low in organic matter.

About this time Mr. Myrick organized a soil conservation group, and appealed to the Upper Leon District Supervisor for assistance. This help was granted and upon the advice of soil conservation technicians from the Rising Star Work Unit, he began planting vetch and rye cover crops, and using trashy mulch tillage as part of a coordinated conservation program.

On one twelve acre field, he planted vetch and rye for two years, leaving a trashy mulch on the surface in between crops, by using a chisel-type plow. This year, he followed the vetch with Sudan for grazing. "Twenty-six cows grazed this field two months, from May to July," said Mr. Myrick, "before I removed them to mow down the coarse stubble and allow fresh regrowth, and I had to drive the cows up from the field every night for milking. These same cows were then shifted to an adjoining twelve-acre field, on which no soil-building had been planted. This Sudan only lasted ten days, and the third afternoon the cows came to the barn for feed, and grazed hungrily on some old, tough Bermuda in the barnyard, which had previously gone unnoticed."

Mr. Myrick further stated that the Sudan on the vetch plot was growing well, and would be ready for more grazing soon.

Fishermen report that the signs were good for fishing this week. The barometer was fairly steady to up and that is supposed to be good but we've never been able to figure out how you get the fish to read the things.

Four New Members Added Research Staff

HOUSTON, August 4 — Four new M. D. Anderson Hospital for Cancer Research staff members have been appointed, Dr. R. Lee Clark, director, reported.

They are Dr. Charles C. Henderson, clinical research fellow; Dr. Frank S. Rose, resident in surgery; and Alton Landua, organic chemist, and O. K. Towler, research technologist, in the laboratory.

Dr. Henderson, Dallas, attended Southern Methodist University, Southwestern Medical College and Baylor College of Medicine, and served in the Navy as a medical officer. Dr. Rose received his medical degree from George Washington University and served in the Air Force as Randolph Field surgical service chief.

Landua, Houston, is a Rice Institute graduate, and Towler, Baytown, attended Southwestern University.

API Releases Crude Oil Data

The American Petroleum Institute estimates that the daily average gross crude oil production for the week ended July 24, 1948 was 5,447,800 barrels. Daily production for the four weeks ended July 24, 1948 was 5,464,150 barrels.

Reports received from refining companies indicate that the industry as a whole ran to stills on a Bureau of Mines basis approximately 5,591,000 barrels of crude oil daily and produced 17,879,000 barrels of gasoline; 2,166,000 barrels of crude oil daily and produced 17,879,000 barrels of gasoline; 2,166,000 barrels of kerosine; 6,625,000 barrels of distillate fuel and 8,825,000 barrels of residual fuel oil during the week; and had in storage at the end of the week; 100,641,000 barrels of finished and unfinished gasoline; 20,382,000 barrels of kerosine; 54,756,000 barrels of distillate fuel and 64,556,000 barrels of residual fuel oil.

COMMUNITY CENTER WORK TO BEGIN IN NEAR FUTURE

Johnson and Stevenson Open Runoff Battle For U. S. Senate Office

Former Governor Takes Swing At CIO in Address

AUSTIN, Aug. 5. — Former Governor Coke Stevenson opened his runoff campaign for the Senate here Wednesday night with a radio address in which he took a swing at the CIO.

He said he did not lead in a county in the first primary "where the CIO tells its members how to vote."

Stevenson led in 168 of the state's 254 counties in the first primary. His runoff opener, a radio speech delivered here, did not name his opponent, Rep. Lyndon Johnson of the Austin congressional district. Stevenson did compliment the campaign policy of George Peddy, Houston, eliminated in the first primary. Both Stevenson and Johnson are making a strong bid for Peddy votes.

Johnson will have his formal opening at Center, Shelby County, Friday night.

There were three portions of Stevenson's talk that could be interpreted as inferential cracks at Johnson.

1. He left the impression that the CIO opposed his candidacy. Johnson is his only opponent now.

2. Stevenson praised Peddy by saying "both Colonel Peddy and I tried in the first primary campaign to discuss governmental principles instead of attempting to distract the attention of the people from the serious issues in this race." Johnson's first primary campaign was marked by direct personal attacks on Stevenson.

3. Stevenson said it was amazing that a Russian spy ring had been going on in Washington and those in Congress didn't know anything about it.

Early Indians Were Well Fed

AUSTIN, Aug. 5. — The fierce Karankawa Indians who lived along the Texas coast must have had plenty to eat, judging by the size of a shell heap found on the Aransas National Wildlife Refuge.

Dr. T. N. Campbell, University of Texas anthropologist, and a group of students recently spent two weeks salvaging evidences of the fish, birds and animals eaten by the Karankawas. Funds for the investigation were furnished by the Texas Memorial Museum.

They returned to the University with 20 different kinds of shells, and bones of almost 40 different kinds of fish and birds.

"We also got a good idea how the Karankawas lived," Dr. Campbell said. "We found flint tools, arrow points, scraping and cutting tools. We also found quantities of pottery. Those Indians used melted asphalt to decorate their pots, and also to line their baskets."

The Karankawas were living on the Texas coast when the Spaniards and French came to Texas, and were the tribe which destroyed La Salle's Fort Louis.

Health Agency Reports 182 Cases of Typhus Fever During Current Year

AUSTIN, Aug. 5 — Statistical information compiled by the State Health Department shows a total of 182 cases of typhus fever so far this year. During the week between July 17-24, seven new cases were reported, one-half the seven year median of fourteen for the week of July 24.

The disease reaches its peak in the month of August, Dr. Geo. W. Cox, State Health Officer, said.

Over a five year period 1943 to 1947, typhus fever has been responsible for 273 deaths. The death rate has been reduced from sixty-three in 1943 to thirty in 1948. "Typhus fever as we know it in Texas is transmitted by the fleas of infected rats," Dr. Geo. W. Cox, State Health Officer, said. "It can be controlled by the simple expedi-

Foreign Policy Is Cited By Johnson As Major Issue

HOUSTON, Aug. 5. — Battle lines were drawn today in Texas' top political race for a fight to the finish over the question of "isolationism versus preparedness."

Lyndon Johnson, second primary candidate for United States Senator, made it clear last night in a statewide radio broadcast originating here that he considers foreign policy a major issue in the campaign now.

The young Congressman — just returned from Washington where he was called for the opening of the special session of Congress — did not mention his run-off opponent by name during his 15-minute speech.

However, Johnson, a longtime critic of isolationists in this country, sharply criticized those who believe "our friends in Europe are tramps who should be given an axe and shown the woodpile."

He declared: "Such hasty and ill-considered judgments are as damaging to our bipartisan foreign policy as were the reckless, Communist-inspired phrases which came out of the Wallace convention in Philadelphia."

"The phrase of the tramp and woodpile has made our foreign policy an issue in this campaign since the first day of January, 1948. They are not my words. But they will remain an issue in this senatorial race until the man who gave voice to them chooses to publicly, and expressly, repudiate his own statement."

Until the words are repudiated, Johnson said he will not believe "that the leopard has changed his spots."

A veteran of eleven years' service on the House Armed Services Committee and other committees considering preparedness legislation, Johnson refused to share Truman's optimistic view of the Berlin situation.

Hickok Testing In Kleiner Well

Hickok Oil Co.'s No. 3 Kleiner, located in the new Mississippi pool a mile north of Cisco, showed considerable gas with occasional oil spray in a test late Wednesday after perforation and acidizing in the bottom 10 feet of the pay horizon.

Casing was perforated at 4,014 feet and 500 gallons of acid were used. Gas appeared at the rate of 2,250,000 cubic feet. Officials planned to perforate a higher section of the pipe and make another completion effort today.

Hickok has started drilling operations in their No. 4 Kleiner in the same general area.

Offsetting the Hickok No. 3, drilling at 3,780 feet early today Lone Star Producing Co. was and were expecting to top the Mississippi lime during the day. The Killingsworth No. 1 George P. Fee, which came in yesterday as a flowing well from the Chapell formation, was shut in awaiting installation of tanks and pipe.

Harvest of All Mature Crops Go Forward Rapidly

Moisture conditions were still favorable for growing crops in most of Texas, during the week ending August 2; and harvest of all matured crops went forward at a rapid rate, according to a report released by Department of Agriculture.

Cotton made good progress in all areas, and in the south-central and southern counties opening was hastened by hot dry weather. Fruiting continued on north-

Black Construction Company Awarded Building Contract

Workmen have completed the task of dismantling the building purchased in Del Rio for use in Cisco as a gymnasium, and the material has all been moved to the building site between Second and Third streets, just east of the softball field, it was announced today by school officials.

The J. L. Black Construction Company, who was in charge of taking down the building, has been awarded the contract on constructing the building, and plans to begin work on the foundation as soon as the location is staked off, the announcement said. It is estimated that 90 days will be required to put the building in shape for use.

Officials were high in their praise for the manner in which the building was dismantled and the material reached Cisco. A minimum of loss was incurred and better than 90 per cent of the lumber in the old building can be used in the construction work.

Four men were employed in the taking down of the old building, and were forced to work some of the time under a severe weather handicap. Workmen worked for two days in bathing suits in order to get the building down and the material in Cisco in time to begin rebuilding on schedule.

The new community center was made possible by the donations by civic-minded residents who have long felt a need for such a building. It will house a regulation size basketball court and a large stage. Bleachers will be installed, and will seat some 1,500 basketball fans.

When the building is used for stage plays, or other entertainment using stage equipment, chairs can be moved into the building, and a much larger crowd can be accommodated.

Officials again expressed their appreciation for the fine manner in which local citizens responded to the request for funds needed to finish the building.

Rotary Club Hears Musical Program At Noon Meeting

The Cisco Rotary Club and visitors were entertained at the noon luncheon at the college cafeteria Thursday, with musical and vocal numbers by the "Cousins Ensemble."

The ensemble was composed of Pearl and Pearlene Farley, and Wyleene and Geneva Bint. The four girls are cousins, and are granddaughters of commissioner and Mrs. Arch Bint. The quartet was under the direction of Mrs. Ben Krauskopf.

The first number on the program was a quartet with piano, violin and two accordions. The quartet played "Whispering Hope." Wyleene Bint then gave a rendition of "Twelfth Street Rag" on her accordion.

Pearla and Pearlene sang "My Happiness" and "Bouquet of Roses" accompanied by Mrs. Krauskopf. The program was ended with the quartet playing "Now is the Hour."

Visitors at the meeting were Bob Keaton from Dallas; Rotarians R. J. Fleckner of Mineral Wells, and A. B. Youngblood of Abilene; and R. W. Crews of Cisco.

ern and northcentral counties, but insect infestation remained heavy. Windy weather restricted poisoning operations.

Feed crop prospects continued good over most northwestern and northcentral counties but hot, dry weather in the early summer cut the yield in much of the state. Vegetable crops are largely harvested and handlers are waiting for the fall yield. Watermelons are plentiful over much of the state and the Panhandle potato crop is moving fast.

Range conditions over most of the state was good. Grass on the plains area continues green after local showers added needed moisture.

# THE CISCO DAILY PRESS

Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.

Entered as Second Class Matter December 11, 1936, at the post office at Cisco, Texas, under Act of March 3, 1879.

J. W. SIMPSON and TED READ, Publishers.

National advertising representative: Texas Daily Press League, Dallas, Texas.

SUBSCRIPTION RATES: \$3.00 per year by mail (outside Cisco) in Bastian, Stephens and Callahan counties, Texas. In other Texas counties \$2.00.

Per year in advance (Cisco, by mail) \$3.00  
Per week (by carrier) .50  
No discount on carrier-delivered weekly subscriptions when paid in advance.

## A War Memorial.

The Pacific War Memorial, Inc. has urged the nation to observe V-J Day — Thursday, September 2 — as a "day to be set apart by all people as a far-reaching reminder of World War II" which so far as the United States is concerned began and ended in the Pacific.

The request was made by Lieut. General Robert C. Richardson, Jr., U.S.A. Retired, President of the Pacific War Memorial.

"We are today undergoing one of those national testing periods vitally affecting our way of living and our democratic institutions,"

said General Richardson. "We believe that in such times people need to sense their faith and to gain a new appreciation of the sacrifices made to safeguard the processes through which our country has prospered. We cannot afford any let-down in the tempo of our national spirit when our pattern of living is under attack."

"Only three short years ago World War II ended. So far as the United States is concerned, it ended, as a figure, in the Pacific Theater V-J Day, Thursday, September 2, which marks the beginning of a time when there is a constant talk of World War III. We seem to have forgotten to see the terrific sacrifices and the tremendous burdens of World War II."

"Under these conditions, we are urging the Government of the forty-eight states and the territories to issue proclamations calling on our people to fittingly observe V-J Day. We are not advocating a national holiday, but rather that citizens pause in their daily activities to think again of sacrifices made by those in our armed services."

The Pacific War Memorial originated with a group of Pacific veterans who believed that living symbols of peace, desire and service are more desirable than traditional monuments. The memorial has the full endorsement of the Pacific Science Board of the National Research Council, government agencies, the scientific world, and of the Navy, which has the responsibility for island governments under the United States Trusteeship of the Pacific Islands.

The highlights of the four-fold program of the Pacific War Memorial are:

1. Establish progressively and maintain a series of memorial field stations on carefully selected Pacific islands offering the most favorable conditions for research in the natural, physical and social sciences, in tropical diseases, in new sources of food, and to make these Stations available to accredited scientists from universities, museums and other scientific institutions. The Memorial has recently acquired from the Navy the Japanese scientific research building on the island of Koror in the Palau to use as the first Field Station.
2. Establish memorial conservation areas and sanctuaries where the unique wild life of the Pacific Islands will be preserved. The small areas of original vegetation remaining on the island of Saipan have already been set aside as the first of these conservation areas.
3. Established memorial fellowships to permit qualified applicants to undertake or continue scientific studies in the Pacific.
4. Facilitate and coordinate Pacific research. By close cooperation with all government and civilian agencies with jurisdiction or interests in the Pacific, the Memorial hopes to bring about a continuous and coordinated survey of the Pacific in all its scientific aspects.

## MORAN NEWS

By KRS. C. C. CADY.

Mr. and Mrs. R. E. Hammond returned Sunday from a week's visit with their son, Mike of Ft. Worth, and Harold of Leonard, Texas.

Sgt. and Mrs. Hugh Smith and son, Charles are visiting his mother in Mississippi.

Mr. and Mrs. W. W. Wright of Meridian were weekend visitors in the home of Mr. and Mrs. John Griffith.

Mrs. Ernest Cain and children of San Antonio who are visiting her parents, Mr. and Mrs. I. L. Griffith, in Brookings were Sunday visitors in Moran.

R. N. Adair was a Stephenville visitor Sunday and Monday.

Mrs. Tommy Boiden of Hobbs, New Mexico, is visiting her mother, Mrs. Pearl Smart and sister, Mrs. Tom Hamilton and family.

Mrs. Gladys Teager of Abilene is a visitor in the home of her parents, Mr. and Mrs. Ballmark.

Mrs. A. J. Jackson and granddaughter, Christine, went to Ft. Worth last Saturday. Christine had spent her vacation in Moran. Mrs. Jackson was accompanied on her trip by Mrs. D. W. Parker and family of Odessa. They returned home Sunday afternoon.

Carroll Loutler returned from Bendrick Hospital in Abilene last Thursday where he was a patient for 18 days for a check-up and treatment. Carroll is improving nicely but not able to be out yet.

Mr. and Mrs. Morris Morris, Mr. and Mrs. Virgil Morris and daughters, Vera Mae and Margie Lou, attended the sales in Ranger last week.

Ed Hayden district attorney of Abilene was in Moran last Saturday. He visits his ranch home often to see the new improvements going on.

Mrs. Jennie Brewster returned home Monday from a two weeks visit with her daughter Mrs. C. A. Churchill of Midland.

Mr. and Mrs. J. G. Selms and daughters from Council Gap, Texas, visited in Moran with Mr. and Mrs. Balluff at the Balluff Cafe on Monday enroute to Council Gap.

Kenneth G. War Cree from Providence, R. I. has just returned to the United States from Japan and is visiting with Mr. and Mrs. Bon-

## Retail Merchants Association

L. SELF, Sect'y.

A statement to merchant has been:

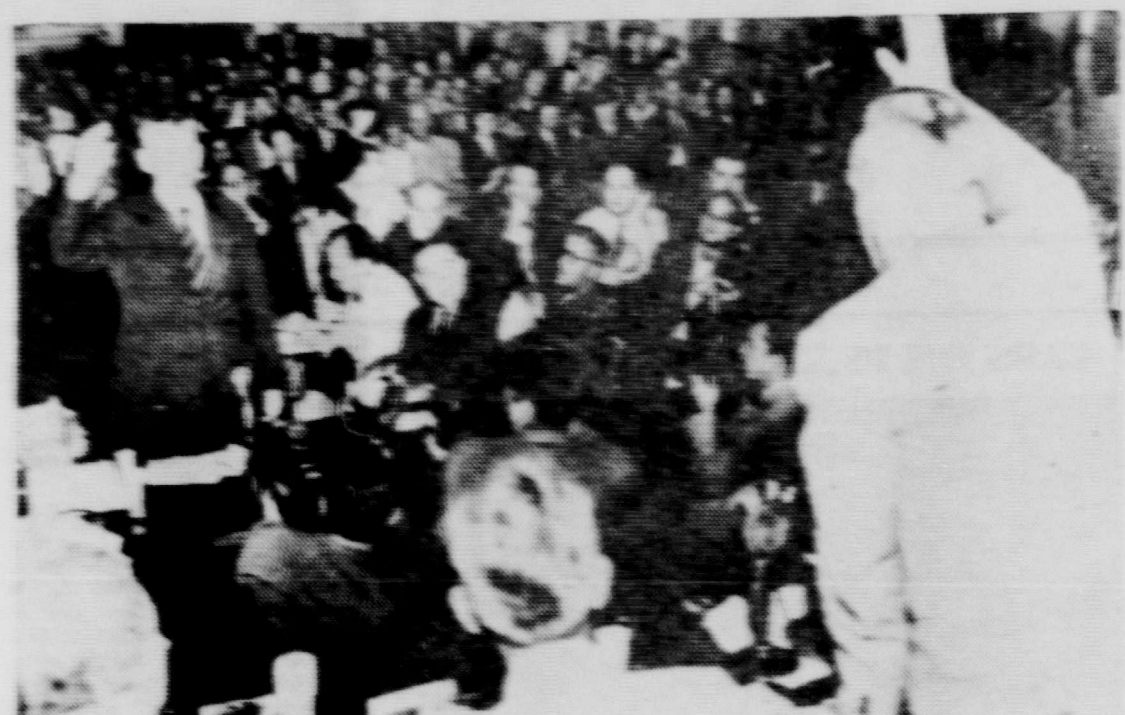

While applications for affiliation with RMB of Texas by the two local Credit Bureaus were pending some merchant having started a movement for another bureau here, a prominent attorney of Austin, called on Mr. Chas. Lutz, Executive Sec'y, and Mr. Service Barnhart, member of the Board of Directors, also local Sec'y of the Austin bureau, in behalf of L. Self's movement in the original Credit Bureau of Cisco.

The outcome was that the affiliation would be withheld from our competitors over a period of time until the attorney could contact the proponents here, and suggest the purchase of the files and office of L. Self.

The plan was to have L. Self choose five associates over the State, out of which the above two met which chose three to approve her files and office, that the attorney would make the suggestion of a purchase in the new set-up.

Being unable to agree at a definite fee for the work that might be involved and being in doubt as to a satisfactory appraisal, L. Self chose to rely on the integrity of the Cisco merchants, and the laws of our Nation.

## HE DENIES CHARGES

Representative Earl Bender, chairman of the House Un-American Activities Sub-committee, right, speaks in Nathan Gregory Silvermaster, a former official of the Board of Economic Warfare, left, with hand raised. Silvermaster termed Mrs. Bender, woman whose outcries started the Communist investigations, a "neurotic liar" and said that espionage charges she lodged against him are "false and factitious." (NEA Telephone)

## PREPARE FOR ACTION

United States hurdles sharpen their spikes at Empire Stadium in preparation for the 120-meter event. In the semi-finals, Bill Porter, right, won his heat by equalling the Olympic record, with Clyde Scott, center, second. Craig Dixon, left, was qualified for the finals by winning his heat. (Exclusive Radiophoto via NEA Telephone)

By Bailey, parents of Sgt. Warren Bailey whom Mr. MacCrae has worked with in Japan air material area. Mr. Bailey came to Moran to meet Mr. MacCrae, who arrived on the bus from San Francisco Monday.

Mrs. Elveta Grace of Fort Worth spent the last week with her parents in Moran. Mr. and Mrs. A. T. Grace, Sr.

Mrs. J. C. Chambers and family spent Sunday in Big Spring visiting relatives. She made the trip with Lew Weir and family who also visited relatives there.

**WORTH WATER GOOD.**  
Our citizens will be happy to know that the reports from the State Health Department, Austin, Texas, in the samples of water for their analysis and approval are back and our water is pure and fit. The Water Department sends samples of water taken from fountains over town, to Austin at regular intervals for this test, that we might know our water is good at all times.

Not So Very Long Ago . . .

Most abstracts were wondering where the next order would come from. Then came the gradual rise in the price of petroleum products, release of more building materials, and increased inflation which swelled the price of lumber out of all reason. These factors and others contributed greatly to the demand for this work. But thru good times and bad—for more than 25 years — we have never thought it wise to sacrifice quality for quantity. And that's our business platform today!

## HALL-AKERS WEDDING HELD LAST EVENING.

Miss Doris Lee Hall, daughter of Mr. and Mrs. J. D. Hall, was married to Mr. Larkin Akers, son of Mr. and Mrs. J. L. Akers of Cisco in a candle light wedding Wednesday evening, August 4 at 8 o'clock in East Cisco Baptist church. Rev. Russell Dennis of Brownwood officiated with a most impressive double ring ceremony. The families of the couple and many friends were present.

Proceeding the ceremony Mrs. A. L. Thomas played "Always" as Misses Jean Harrelson and Wanda Hitchcock entered and lighted the candles. They wore blue dresses and corsages of yellow gladioluses. She accompanied Mrs. Herman Barron who sang "I Love You Truly." Mrs. Thomas also played the traditional and recessional music.

The bride was beautiful in a white silk dress with street length skirt; and was designed with fitted bodice and bustle back. Her hat was a dainty halo effect in white with tiny pink roses and shoulder length veil attached. She carried a shower bouquet of white carnations and gladioluses with streamers of net and tiny satin ribbon bows, on a small white Bible borrowed from her niece, Janet Hall of Abilene. Her dress and hat were made by her mother. She was given in marriage by her father.

Miss Fern Huestis, maid of honor, wore a becoming blue crepe dress and carried a colonial bouquet of pink and white carnations. Her accessories were of white.

Joe B. Hall, brother of the bride, served as best man for the bridegroom. The bridegroom wore a street suit of gray and butonair of a white carnation. His attendants wore street suits and white carnation boutonairs. Ushers were Lane Gilmore and Marshall Erwin. Mrs. Hall, mother of the bride, wore a black crepe dress with pink carnation corsage and white accessories. Mrs. Akers, the groom's mother, wore a navy crepe dress with pink carnation corsage and black accessories.

The church decorations were of pink and white gladioluses and potted ivy interspersed with candles along the choir rail. Tall baskets of the flowers were placed in attractive arrangement about the altar.

Following the wedding a reception was held in the home of the bride's parents on west Tenth street. Guests were welcomed informally and were directed to the table where Miss Lois Roberts was

in charge of the bride's guest book. They were next shown to the dining room for refreshments. The able, laid in white lace, held the three tier bride's cake of pink and white topped with a miniature bride and groom. Miss Christine Whitlock of Abilene ladeled punch and Mrs. Mac Harrelson served the cake after the first slice had been cut by the bridal couple.

Mr. and Mrs. Akers left after the reception for Uvalde where they will make their home at 316 Myrtle street.

Mrs. Akers graduated from Cisco high school in 1946 and has been employed recently by Southwestern Bell Telephone Company.

Mr. Akers attended Cisco high school until his enlistment in the Navy in 1942. He served in the South Pacific 18 months and received honorable discharge in 1946 with the rating of machinists mate of first class. Attending Cisco Junior College a year he later served on the local police force. He graduated in April from the Twelfth patrol training school and was assigned to Uvalde as his district headquarters.

Seventy-five guests registered in the bride's book. Out of town guests were: Mrs. Alvis Rhames, Brenham; Mr. and Mrs. Joe B. Hall and daughters; Miss Christine Whitlock, Miss Mary Alice Little, Abilene; Rev. Russell Dennis and family, Brownwood; Miss Dorothy Hall, Rhame, Tex.; Mr. and Mrs. H. E. Hall and family; Mr. and Mrs. L. V. Hall and family, Fort Worth; and Rev. I. W. Lawrence, Newcastle.

## MARIE ENGLISH, BRIDE-ELECT HONORED.

Miss Marie English, bride-elect of Dallas Johnston of Tenaha, Texas, was honored with a gift shower at Moran Baptist Church July 28, sponsored by the Fidelis Matrons, The Amoma, and T. E. L. Classes.

The banquet room was decorated to represent a County Fair, colored streamers and balloons waved in the ceiling and encircled each booth. Mrs. Roy McCoy presided at the registration booth, where guests registered in a book cleverly designed as a prize-winning blue ribbon. Lending a festive air to the gala occasion, Miss Patsy Weir played the accordion as the guests arrived.

Mrs. Floyd Pool presided at the refreshment table which was enclosed as a "pink lemonade" booth. Mrs. Pool's convincing act as bartender for the punch, sand tarts, pecan crunch and mints was a delight to guests. Interesting and appropriate plate favors were miniature simulated prize-winning blue ribbons, imprinted with "First Prize," Marie & Dallas.

Exquisite embroidery was displayed in the handwork booth. Shining jars of vegetables, jellies,

jams and pickles were on exhibit in the canned goods booth.

Mrs. M. C. Butler presided at the booth labeled "Feature Attractions." This was a husband contest, in which the contestants were to win a husband for the best letter written in 25 words or less on "Why I Want A Husband." The contestants were not asked to send in box tops to enter, but suggest a song title, and these songs comprised the musical program for the occasion. The four contestants were Miss Betty Morris, Miss Marie English, Miss Mary Weber, and Miss Jane Morrison. Miss Morris read her letter and suggested "Tonight We Love." This was beautifully rendered on the piano by Miss Ana Lou Williams. Miss English, after reading her letter, suggested "Love Came Calling." The quartet composed of Mrs. Martin, Mrs. Joe Allen, Mrs. Glen Cottle and Mrs. Paul Harper sang this enchanting love song. Miss Weber read her letter and suggested "Daisy Belle," which Miss Patsy Weir brought on the accordion. Miss Morrison read her letter suggesting "Melody of Love." Mrs. Garland Shelton played this melodic number on the piano.

The judges, Mrs. Gilbert Eubank, Mrs. Agnew and Mrs. Kirkpatrick, retired to make their decisions and Mrs. Shelton played lovely music during this interval. The Chairman, Mrs. Eubank, announced that Miss Marie English had won in the husband contest, stating that it was definitely in Miss English's favor that she had a prospective husband selected, even though they had promised one as a prize.

The Misses English, aunts of the honoree, won the handwork blue ribbon and presented these exquisite pieces to the honoree and contest winner. The other prizes in the contest were the many beautiful gifts, and the energetic ladies who entered their work in the canned goods exhibit, presented

## Letter Carriers Buy \$300,000 in Bonds

Representatives of the U. S. Letter Carriers' Association add a substantial amount of U. S. Savings Bonds (Series G) to the Association holdings in Government securities. Shown above, completing the transaction, are (left to right) Ben Faucett, editor of the Trades and Labor News; John M. Lovell, State Director for Tennessee of the Treasury Department's Savings Bonds Division; Ben Sparks, Chief Collector of U. S. Letter Carriers' Mutual Benefit Association; Robert T. Turner, Vice President of the American National Bank, Nashville, Tennessee; and G. F. Cole, Jr., Vice President and Trust Officer of the American National Bank.

## Savings Bonds Now Total \$3,410,000

Taking advantage of the U. S. Treasury Department's ruling raising limitations on the Series F and G Savings Bonds during the first half of July, the National Association of Letter Carriers has purchased \$300,000 of the Series G Bonds. The Association has made it a policy to purchase \$100,000 in F or G Savings Bonds each year. In fact it had already invested in the normal limit of bonds in June. The Treasury rule permitted the added investment which raised the total of Government Securities now being held to \$3,410,000.

William C. Doherty, President of the U. S. Letter Carriers' Association and the Board of Trustees of their Mutual Benefit Association authorized the purchase. Of a total membership of 81,000 letter carriers nearly 9,000 are protected by the Benefits Association.

marriage cows were exchanged by Miss Marleece Elliott and Mr. Ben Kendrick. The double ring ceremony was performed by Rev. C. A. Warden in the Methodist church of which he is pastor in Cisco in the presence of immediate families of the young couple.

The bride's dress was of white imported embroidered batiste made with a street length ballerina skirt

ELLIOTT KENDRICK WEDDING LAST SUNDAY. Last Sunday evening at 7:30

and fitted bodice. The bodice extended to two vest like points in front and a center point in the back. Tiny self covered buttons adorned the center front of the bodice and full long sleeves were closely gathered on narrow, fitting wrist bands. Her off-face straw hat had a twisted band of white, pink and blue ribbon and the under side of the brim was trimmed with the same color ribbons and pink and blue forget-me-nots. She wore a corsage of pale pink rose-buds, tied with light green ribbons and streamers. Mr. Kendrick wore a dark green conventional suit.

Mrs. Kendrick is the daughter of Mr. and Mrs. Carl Elliott of Eastland and Mr. Kendrick is the son of Mr. and Mrs. J. H. Kendrick of Cisco. Mr. Kendrick and his father are partners in the dairy business serving Eastland. August 2nd had been set as the date of the wedding, but since Rev. Warden is attending school in Fort Worth and would have been caused an extra trip back to Cisco, the young couple surprised their friends by a one day advance in their plans.

Mr. and Mrs. Kendrick are living in Eastland and are at home to their friends at 312 South Seaman street.

Mrs. Kendrick is a grand daughter of Mr. and Mrs. J. A. Elliott, 207 west Ninth street, Cisco.

# BRIEFLY TOLD

Miss Cynthia Parks was taken to the City-County Hospital at Ranger Tuesday where she will receive treatment while convalescing from her broken arm.

Mrs. Claude McBeth, president, was in charge Monday afternoon when the Women's Missionary Union of East Cisco Baptist Church met at the church for Bible study. The session was opened with prayer by Mrs. J. E. Shirley after which the meeting was turned to Mrs. J. O. Warren who directed the Bible lesson. The admonition, "Consider the Tithe" was the topic studied. The

meeting was adjourned with prayer. Mr. and Mrs. I. H. Skiles have as guests this week his son, Staff Sgt. James Skiles and family of Sumpter, South Carolina, who are accompanied by Mrs. Skiles' sister, Miss Shirley Rowse.

Mrs. Alvis Rnames of Brenham, Tex., is here visiting with her sister, Mrs. Sam B. King and family while recovering from a fourteen foot fall on June 9 in which she received a severe nerve shock and bruises.

Mrs. Gordon B. Murray of Corpus Christi who has been visiting here in the home of her brother and wife, Mr. and Mrs. Herman Lanham, returned home this week.

Mr. and Mrs. Joe Bentley of Archer City are visiting her mother, Mrs. J. S. Mobley and family.

Mr. and Mrs. W. P. Gunn have returned from a vacation of several weeks. They visited Mr. Gunn's parents in Houston and Mrs. Gunn's sister and family at Baytown, going on to Austin where they spent a few days with their daughter and son-in-law, Mr. and Mrs. Glen Baugh. They returned by Waco and visited with another daughter and husband, Mr. and Mrs. Ralph Triplett. They also made a trip to the Davis mountains while on their vacation spending a few days at Paisiano encampment.

Mr. and Mrs. J. T. Fields have returned from Baird where they visited his sister and brother-in-law, Mr. and Mrs. M. M. Dungan the first of the week.

Mr. and Mrs. O. O. Love visited relatives in Oklahoma over the past weekend.

Mrs. J. G. Bean has as guests in her home this week her son-in-law and daughter, Mr. and Mrs. Nelson Harris.

Mrs. Helen Hitchcock and son,

Sheb, have returned to their home at Adin, California, after a visit here with her parents, Mr. and Mrs. S. H. McCanlies.

Miss Mary Alice Little of Abilene is visiting here with her cousin, Miss Paula Gee.

Mr. and Mrs. Jimmie Gee have as visitors in their home this week her sisters, Mrs. Irene Mounce and Mrs. Maxine Green of Fort Worth.

Griffen Hart accompanied by two sisters, Misses Violet and Lillian Hart have returned from a pleasant sight seeing trip to Colorado on which they visited interesting places enroute.

Mr. and Mrs. G. R. Nance and daughter, Patsy, accompanied by Mary Jeannette Poe and Scripp Cluck made a business trip Wednesday to Dallas.

Mr. and Mrs. Britt Pippen and daughter, Patsy, of Moran were dinner guests Saturday evening of his sister and husband, Mr. and Mrs. Weldon Ussery.

Mr. and Mrs. Weldon Ussery and children, Bill and Mary Ellen, have returned from a few days trip to Del Rio.

Roy C. Davis expects to go to Llano Saturday where he has been asked to be a judge in a horse show.

Miss Denise Cummings, daughter of Mr. and Mrs. J. Clyde Cummings of Lubbock, former Home Economics teacher of Cisco High School, will be married Sunday to L. B. Lowry Jr., in the Broadway Church of Christ, Lubbock.

Joe O. Harris transacted business Wednesday at De Leon, Dublin and Stephenville.

Mr. and Mrs. O. G. Lawson visited with friends at Stephenville Sunday.

Mr. and Mrs. Rudolph Reich and son, Harold and Mr. and Mrs. Theodore Eifort have returned from a vacation trip to south

Texas. While away they visited at Austin, seeing among other interesting places, the state capitol, Texas University and the Lutheran College. They went on to War da and attended a dedication of the Lutheran Church where Rev. Paul Eifort, former Ciscoan, is pastor. They also visited relatives at Giddings and other points enroute. They report that rain is needed there as it is here, but some crops looked fairly well.

Mrs. Annie Reich and sons Martin and Carl Reich left this week for Round Lake, Minnesota, where they will visit her daughter and son-in-law, Mr. and Mrs. George Paulsen.

Mrs. T. A. Hicks returned to her home at Wichita Falls Tuesday following a visit here with her brother and wife, Mr. and Mrs. J. V. Heyser, Sr.

Mrs. James Shelton of Abilene spent today in Cisco with her sisters, Mrs. Cate Crawford and Mrs. Keefer.

Miss Nancy Cluck is spending the week at Rochester, Tex., where she is a guest of her cousin, Anita Mullins.

Pfc. Judd Fields of San Diego Marine base is here for a short visit with his parents, Mr. and Mrs. J. T. Fields.

Mr. and Mrs. Nolan Berry of Lubbock visited this week in Cisco with his sister and husband, Mr. and Mrs. Crigler Paschall.

Young Women's afternoon Circle of First Baptist WMS met with Mrs. M. F. Underwood as hostess Tuesday afternoon in her home on D Avenue. The meeting was called

ed to order with prayer by Mrs. A. G. Gary after which Mrs. T. E. Lisenbee conducted the business session. Minutes of the last meeting were read by Mrs. Richard Turknett and routine business was transacted. Mrs. Underwood, WMS Circle teacher, then gave a splendid lesson from the book "Stewardship in the Life of Women." A social hour followed and refreshments were passed to Messdames T. E. Lisenbee, J. T. Richardson, Jr., A. G. Gary, Richard Turknett and M. F. Underwood.

Celebrating the birthdays of her husband and son, Mrs. Guy Morris entertained her family Sunday with a nice birthday noon dinner. The table was laid with linen and was centered with a floral arrangement of pink gladioli. An appetizing meal of fried chicken and other appropriate seasonal foods was enjoyed with dessert of birthday cake and ice cream. Those present were Mr. and Mrs. Derward Morris and children, Mike and Melody; Mr. and Mrs. Bill Warren and small daughter, Sonja and Mr. and Mrs. Guy B. Morris.

Mr. and Mrs. J. T. Fields returned to their home at Wichita Falls Tuesday following a visit here with her brother and wife, Mr. and Mrs. J. V. Heyser, Sr.

Mrs. James Shelton of Abilene spent today in Cisco with her sisters, Mrs. Cate Crawford and Mrs. Keefer.

however, was very much below expectations, due largely to government policy, Dr. Cox said. The world supply-and-demand situation, the rising price level, and the government loan program do not justify expectation of drastically-lower cotton prices, even though our crop should prove to be relatively large, he added.

**MAN HOURS UP.** AUSTIN, Aug. 5. — Man-hours worked in 414 Texas manufacturing establishments were 2 per cent above May and 8 per cent above June 1947, the University of Texas Bureau of Business Research reported.

### DEVELOP NEW RUBBER.

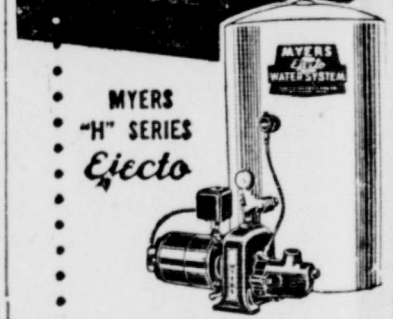

Attractive Phyllis Smith, research chemist in Phillips Petroleum Company laboratories is one of the many Phillips researchers who helped develop the new low temperature chemical rubber called PHILPRENE. The 30 pound bales loaded in the conveyor are ready to be sent to tire factories for fabrication into test tires. Recent road tests have proved that the new chemical rubber will outwear natural rubber in tire treads.

If You're Having Plumbing Troubles, Why not Call Us. We do plumbing work of all kinds. Install and repair air conditioners.
