Voting Light In 2nd Democratic Primary Saturday

Comparatively few voters went to the polls in Cisco and Eastland County Saturday in one of the quietest second Democratic primary elections in recent years. The final count in the only race requiring a runoff for local offices showed R. C. Farmer receiving 574 votes to Cearle's 467 in their race for constable for this precinct.

In the county vote, Coke Stephenson polled 2,645 votes to 2,317 for Lyndon Johnson in their race for the Senatorial seat.

Judge Allan D. Dabney carried Eastland county in his race against Cecil Collings for the office of Judge of the Court of Civil Appeals in Eastland by 41 votes, only to lose over the entire district. The Eastland County vote showed 2,499 for Dabney and 2,458 for Collings.

Ranger Team Wins Bowling Doubles

In one of the most hotly contested games since the start of the weekly doubles, at the local bowling alley, R. E. Kenney and daughter of Ranger nosed out Dick Bearman and Jean Cherry in the final game of the series to win first Monday night.

Bearman and his partner had a decisive lead at the end of the second game after Dick had shot a cool 245. Kenney and his partner, however, were not to be outdone. Finishing with a 237 actual by Kenney, and a 216 with handicap by the daughter they overcame the deficit and went ahead to win. Everett Reeves and wife won third money.

The mixed doubles will be bowled next Monday, Labor Day as usual it was announced. Due to the start of the City Men's League it will be necessary to move the doubles contest to Wednesday night for the balance of the season.

The order of finish is as follows: R. E. Kenney, Jean Kenney — 1274; Dick Bearman, Jean Kenney — 1204; Everett Reeves, Fern Reeves — 1165; Henry Coates, Mary Boatman — 1156; B. Slight Damage Is Caused by Fire At Lumber Yard

Answering a mid-morning alarm, city firemen were credited today with extinguishing a rapidly spreading fire which for a time threatened Burton-Lingo Lumber Co.'s sheds and warehouses.

The blaze, Fire Captain Anderson said, apparently was started by a grass fire burning near the yard's fence. Only the fence and a stack of cedar fence posts were partially damaged, he said.

Wranglers to Receive Uniforms And Begin Workouts on September First

The Cisco Junior College Wrangler 1948 football campaign will get under way officially Wednesday September 1, at 8 a.m. with the issuing of grid equipment to some 45-to-50 expected aspirants, Coach Jack Everett said today.

The Wrangler footballers will start actual workouts at 5 p.m. tomorrow in preparation for their opening grid game with the Harlan-Simmons frosh eleven at Chesley Field September 16. The opener is a scheduled night game. The workouts will be held on the practice field at Chesley Park.

Everett expects to field a somewhat heavier line this season noting that several linemen have put on extra poundage since last season.

The Wranglers will blast the seasons cap open in new and durable uniforms, the mentor stated.

Another ore as good as pitchblende, but rarer, is uranite, in which uranium appears as crystals up to three inches long. The ore itself looks like granite rock and is called pegmatite. Another high grade ore is carnotite, which is a secondary source caused by the wearing out of a primary uranium ore. This ore has a tell-tale yellow color.

There are almost two dozen other uranium ores, but the prospector out to win \$10,000 would do well to study up on uranium mineralogy. Radioactivity is the clue to uranium ores and the best tool for detecting it is the Geiger counter, which now comes in back-pack sizes.

Anti-Hay Fever Serum To Bring Relief To Millions

Five million American hayfever sufferers will greet the news that about 20 anti-allergy drugs which can be taken in pill or capsule form, are now on the market. Last year tests showed that these drugs brought relief to thousands. They also were effective against hives and other varieties of allergy which afflict about ten percent of our population. The drugs might have unpleasant effects for some people. Unless taken as a supplement to immunizing injections, doctors caution that choking coughs might result, although other symptoms of hay fever may be relieved. Suspected as the cause of all allergies, including hay fever, is a substance known as histamine, found in small quantities everywhere in the body. The drugs now on the market get at the trouble directly by neutralizing the histamine.

Veterans Planning To Enter School Must Apply Early

Veterans planning to enter school this fall or switch from one school to another are urged by the Veterans Administration to apply immediately for their necessary Certificate of Eligibility.

Veterans planning to enter school for the first time must obtain an original certificate of eligibility. The veteran will need a certified or a photostatic copy of discharge, and if he has dependents he will have to establish proof of dependency. Those who wish to change from one school to another must get a supplemental certificate of eligibility.

Fall enrollments are expected to remain high. Delay in August by veterans who need certificates may result in serious inconvenience in September when classrooms open, VA warned.

Robert D. Deputy of the VA will assist in securing either the original or the supplemental certificate of eligibility each Monday 1 to 3 p.m. at Cisco Junior College.

(Editor's note: The GP is on a fishing vacation. Here's his first report on the trip.)

MEMPHIS, TEXAS, Aug. 30—(Air Mail)—Our trip began yesterday early and we landed in this good city—the Queen City of the Upper Red River Valley—for lunch.

THE DRIVE up was pretty nice. Not so hot as last week. Things look better from Wichita Falls on up this way. They've had more rain this year. Driving through Wichita Falls reminded us of attending a football game there a year or so ago.

We didn't know where the stadium was. So we stopped at a filling station and the man told us to go down the street and turn left at the third red light. We told our wife to count them.

We missed the stadium and got to checking up and found that we'd turned at the fourth light. Asking the wife about it, she pointed out that one of the lights had been green. So naturally you couldn't count that one!

HERE IN THE Queen City of Memphis is where we grew to manhood. We delayed lunch a short while in order to stop in the old home town. It was here that we first got into newspaper work. Started by sweeping out the weekly's office.

It doesn't look like the same town that we left some 15 years ago. Walking down the street, there are very few people we recognize. Business firms have changed. Trees look bigger. New buildings, new faces, a new football stadium.

THE GROCERYMAN we once worked for is now the undertaker. He used to send us out to his house in early September to give his white chickens a bath for their appearance at the county fair.

We wish we had time to drive out to the sandy land farm four miles southwest. There we spent most of the early years, plowing cotton, milking cows and the like. (Every once in a while somebody tells us that old one about you can take a man out of the country but you can't take the country out of a man.)

IT'S TIME to move on so will mail this. We put an air mail stamp on the letter, although we can't decide why, now that we think of it. The airlines serve neither Memphis or Cisco. The letter will probably go by train to Amarillo, then by plane to Abilene and finally by train to Cisco. Seems like the hard way, huh?

Burdian's donkey starved to death when paced equal-distant between two hay stacks. He was unable to choose which to eat first.

Accused Robbers of Hitchhiker Near Here Monday

Three Cisco men were being held in county jail at Eastland today facing charges of armed robbery filed in Justice of the Peace H. S. Stubblefield's court this morning in connection with the alleged hi-jacking of a 28-year-old immigrant and veteran of two years service in the U. S. Army during World War II.

Named in the charges filed by Deputy Sheriff Frank Schlaepfer, who arrested the trio at their homes in Cisco early Tuesday, are J. R. Pophin, 19; Ivory Hunt, 23, and Tommy Whitt, 25.

The three are accused of the robbery of Karl Brandt, who told officers he was hitch-hiking from San Jose, California, to New York City. According to information given the officers, Brandt was picked up at the corner of A Avenue and Eighth street at approximately 8:30 p.m. Monday, by three men in a car, who carried him toward Eastland. Five miles east of Cisco, Brandt told officers he was ordered out of the car, and while two of the men threatened him he was searched by the third.

Money, which Brandt said he carried in a secret compartment of his billfold was overlooked by the three men, and after being searched Brandt said he broke away and ran toward Eastland. He flagged a truck traveling toward Cisco and came to the city hall where he reported the incident to local officers. Deputy Schlaepfer, assisted by Cisco police, made the arrests. Clothing and luggage in excess of \$100 value was reported to have been taken from Brandt.

Brandt served with the Combat Engineers of the United States Army, and saw service on Okanaway. He said he is a native of Sweden, where he lived until he was 16, and that his mother was killed by the German Gestapo in 1943. His father, in Germany as the representative of a large automobile firm before the war, has not been heard of since 1938, Brandt said.

Before coming to America, Brandt said he was a pre-med student in Sweden, and after his discharge from the U. S. Army he was employed in California, resigning his job there to tour the United States prior to applying for citizenship.

T. C. U. to Observe 75th Anniversary

Texas Christian University will officially celebrate its 75th birthday Monday, Sept. 20, first day of classes for the 1948-49 school year, with a special Diamond Jubilee convocation on the campus.

The convocation will commemorate the opening of the first TCU classes on the first Monday in September, 1873, in Thorp Spring. Featured speaker will be Dr. Henry G. Harmon, president of Drake University, Des Moines, Ia., sister Christian church school to TCU, the two being perhaps the best-known of the church's 17 colleges and universities.

Both TCU and Drake have quadrupled their student bodies and both carried on tensive building programs since 1941, the year when Dr. M. E. Sadler and Dr. Harmon, respectively, became presidents of the two schools.

The convocation will also commemorate the beginning of TCU's 30th year in Fort Worth, to which it moved in 1910 after 15 years in Waco and 22 years in Thorp Spring. It is the oldest college or university in West Texas and the fifth oldest in the state.

### TELL IT TO YOUR NEIGHBOR

The most realistic way to overcome the misinformation or lack of information among our American people about the human freedom and human happiness virtues of our American economic-social Way of Life is that of every informed citizen, particularly those with management responsibility, telling it to his neighbor. Here is a short statement that could, with general welfare educational profit, be passed on to your neighbor in one minute:

"What is or could be more optimistic than a philosophy that says: 'No man shall be poor?' That is the philosophy of capitalism—against which we hear the communist rave. On the contrary, the very opposite philosophy is that of the communist, who says: 'No man shall be rich.'

"Communism, born of poverty and hunger, seeks to perfect a system for the equal distribution of a scarcity of goods, so that ultimately no man has enough of anything. Capitalism, born of hardship and toil, seeks to provide such a plenitude of goods that ultimately, all men may have enough of everything. The greatest good for the greatest number resolves simply into the supply of goods for the most people. Capitalism has demonstrated this spectacularly.

"During the war one nation outproduced all the nations of the Axis America. It is peculiar that although all of Europe today awaits American magic of plenty to help solve their problems, almost no one assumes that it is our system that has created this provision. And it is just that, this American competitive individual enterprise system. It is a capitalist system and the most marvelous economic system ever invented by man. Under this system, the capitalist is every man who has a savings account, a life insurance policy, or a share of stock. 90 per cent of all stockholders in the country have incomes of less than \$5000 a year. There are 21,300,000 persons in the country whose incomes are more than \$5000, and only 138,000 who get more than \$25,000 a year. The selfsame workers who are the customers are also the principal owners of American industry. And when the soapboxer denounces profiteers, he is talking about you—Mr. average American."

### GROUP OF FRIENDS HONOR MRS. WATSON

A group of friends went to the home of Mrs. W. F. Watson, near Rising Star, Monday and gave her a surprise visit. Mrs. P. R. Warwick and Mrs. A. E. Jamison had telephoned her they were coming down to spend the day. She had killed a chicken and had everything in readiness for the two friends.

When they arrived, great was her surprise when she saw seven other friends getting out of cars which were parked at her front gate.

The occasion was the birthday of Mrs. Watson but she was not aware that any of them knew her natal date. She was very glad to have her friends so close to her home, but she was afraid she had not prepared enough luncheon for them. She was surprised again when she saw they were carrying in food which they had brought with them. A pretty birthday cake too was brought along and the candles were lighted on it and man good wishes were expressed.

The sumptuous luncheon was heartily enjoyed by all participating. The honoree was presented with a lovely gift from her friends for which she expressed her deep appreciation.

### NIECE OF CISCOANS WEDS IN ABILENE

Marriage vows were exchanged Saturday evening, Aug. 21, by Miss Mary Alice Little, daughter of Mr. and Mrs. Phil J. Little of Abilene and Fred Orville Browning, son of Mr. and Mrs. Fred Browning of Pampa in the Unit. Baptist Church of Abilene.

Rev. Howard J. Jones of Wellington officiated in the double-ring ceremony as the couple stood before a high fan shaped arrangement of fern entwined with asters and daisies flanked by baskets of white gladioli and white tapers in tall wedding candelabra.

Mrs. R. E. Kuykendall, organ-

ist, played the traditional wedding music and accompanied Pohn Petman, who sang "Always" and "Because."

The bride was given in marriage by her father. She wore a white slipper satin dress with a yoke outlined with Chantilly lace and long pointed sleeves. Her full hooped-skirt was scalloped with lace and net at the bottom and extended into a long train at the back. Her finger tip veil of illusion was caught to a halo of pearls and bugle beads in a scroll design. She carried a bouquet of stephanotis, gardenias and a single orchid placed on a white Bible. The Bible was borrowed from Lula Mae Hampton. For jewelry she wore a single strand of pearls, a gift of the bride.

Mrs. Howard J. Jones of Wellington was matron of honor. She wore a pale pink taffeta dress with fitted bodice and full skirt gathered in scallops at the bottom with lace and net. Bridesmaids were Jessie Myers and Marie Garrett of Abilene; Joy Browning of Pampa, the groom's sister; and Paula Joan Gee of Cisco, cousin of the bride. They wore identical dresses fashioned after that of the matron of honor in shades of pink ranging from pale pink to rose. All the bride's attendants carried colonial bouquets of blue and white asters surrounded with daisies and pink gypsophila. Their head dresses were varied shade halos of pink illusion.

Kenneth O. Browning, brother of the bridegroom served as the best man. Ushers were Maynard Johnson and J. B. Horn of Pampa, Phil Little, Jr., of Abilene, brother of the bride and Jack London of Canyon.

A reception in the home of the bride's parents followed the wedding. The bride's table was laid with a maderia cloth and centered with the three tier wedding cake, topped with a miniature bride and bridegroom. On either side of the cake were white candles with pink roses. Mary Lou Ashburn of Dallas presided at the bride's table assisted by Mrs. Gene Flemings Jr., and Mrs. B. Rose.

When the couple left on a wedding trip to Colorado Springs, Colo., the bride was wearing a forrest green gabardine suit with dark brown accessories and an orchid corsage. Upon their return they will make their home in Abilene and attend Hardin-Simmons Univ. Mrs. Browning is a graduate of Abilene High School. She is a niece of Mr. and Mrs. Jimmie Gee of Cisco. Mr. Browning is a graduate of Pampa High School and served with the Air Force during the recent war and was in the Pacific theatre 22 months.

and non-profit institutions would receive preference in buying surplus goods. WAA, now engaged in selling out remaining inventories, is to be liquidated February 28, 1949.

In the five state southwest WAA region controlled by the Grand Prairie office surplus property originally costing \$88,461,000 went to veterans in a typical annual report ending in August 1947. This was 23 percent of all personal property disposed of during the period.

Analysis of government reports indicates that the southwest region was consistently highest or second highest in the proportion of total surplus inventory sold to veterans. Besides the thousands of ex-servicemen who were enabled to make selections of choice items for their own use, hundreds of others outfitted new businesses through acquisition or bargain surplus on their return to civilian life.

Despite this, the supply of veterans set aside items such as automobiles, cameras and typewriters never was adequate to meet the demand, WAA said. At one sale of approximately 500 vehicles held at the North American plant warehouse, nearly 8,000 ex-servicemen and women turned out. The Grand Prairie office alone has a customer list of 225,000 former GIs.

The termination of priorities, which applies only to the sale of personal property, appears to mean the end of preferences and public benefit discounts which have been accorded various governmental units and educational institutions. Under the system, huge quantities of materials ranging from nursery beds to multi-ton machine tools went to agencies or institutions at priorities immediately under those of veterans and at prices marked down from 40 to 95 percent from fair value figures set by WAA.

In this way about \$10,000,000 worth of surplus electronic materials have been distributed to colleges, public schools, hospitals, laboratories, and vocational institutes of Texas, Louisiana, Mississippi, Arkansas and Oklahoma.

property disposal. Bid forms for the sale will be furnished on request to the WAA regional office.

Retail Merchants Association  
L. SELF, Sec'y.  
A statement to merchants has been:  
While applications for affiliation with RMA of Texas by the two local Credit Bureaus were pending, some merchants having started a movement for another bureau here, a prominent attorney, of Austin, called on Mr. Chas. Lux, Executive Sec'y, and Mr. Horace Barnhart, member of the Board of Directors, also local Sec'y of the Austin bureau, in behalf of L. Self's investment in the original Credit Bureau of Ohio.  
The outcome was that the affiliation would be withheld from our competitors over a period of time until the attorney could contact the proponents here, and suggest the purchase of the files and office of L. Self.  
The plan was to have L. Self choose five secretaries over the State, out of which the above two men would choose three to appraise her files and office, then the attorney would make the suggestion of a purchase to the two set-up.  
Being unable to arrive at a definite law for the work that might be involved and being in doubt as to a satisfactory appraisal, L. Self chose to rely on the integrity of the Ohio merchants, and the Law of our Nation.
