The Gay Philosopher

(Copyright New York Graphic Society) By J. W. S.

WHAT ARE YOU going to write about me when I die, demanded a fellow once when we were editor of a country weekly. And he was serious. He'd just had a mild heart attack and while he was resting in bed a few days he'd picked up a copy of the home paper. Several obituaries were in the paper and he started thinking about it.

WE EXPLAINED that when a citizen of the community dies, the home paper always tries to "cover the story." By that we meant we make every effort to obtain complete information. If the editor has lived long in a community, the chances are he'll know just about everybody and will only need a few vital statistics to write his story.

WE TOLD OUR friend these things. He still insisted that he wanted to know what we were going to say. So we told him to go about his business and we'd write the story and submit it to him. We checked into the man's background. He was a good, solid leader, but had never been a leader or community worker. So just about all you could say was to give his vital statistics and church, lodge and civic affiliations and so forth.

WE'VE THOUGHT a lot about this fellow. And sometimes we wonder what they will say when our story is written.

MR. ED STEWART of Abilene, who recently enjoyed a European tour, was speaker at the Rotary Club today. And he told of running into Mrs. E. L. Graham and her sister in Paris, France. Mrs. Graham, you know, recently returned from Europe. Mr. Stewart said he decided that this wasn't such a big world after meeting the Cisco lady in France.

Future Homemakers Organize Officers For New Year Named

Members of the Future Homemakers of America, Cisco Chapter, in a recent election of club officers for the 1948-49 term of office, named Patsy Agnew as President and Willa May Carter, Vice-president of the all-girl organization. The meeting was conducted in the Cisco High School auditorium.

Included in the voting were Mary Dale Stenson, secretary; Nophlet Sheenan, treasurer; Joyce Fry, parliamentarian; Gae Ree Stowe, historian; Jesse Warren, song-leader; Johanna Chapman, pianist and Ann Sandler, assistant pianist. Mrs. H. J. Fry and Mrs. Homer Ferguson were elected by the group to be Chapter Mothers, and Mrs. R. E. Bradshaw, Chapter Advisor.

The Future Homemakers of America are planning to make a trip to Dallas by chartered bus to attend the State Fair, being held there next week. Billie June Anderson, club reporter, stated. More than thirty students are planning to make the trip.

Pic. Robert J. Brush visited relatives in Moran this week being transferred from San Antonio to Wichita Falls. He left for Sheppard Field on Wednesday.

Former Cisco Man Leads Department of Medical School

Dr. R. Lee Clark, Jr., who last week was named dean and professor of surgery for the newly established University of Texas postgraduate school of medicine, is a native of Cisco and the son of Mrs. R. Lee Clark, West 9th Street. His father died several years ago.

Dr. Clark has been director of the university's M. D. Anderson Hospital for Cancer Research in Houston, where the new school will be located until quarters are provided.

The late Dr. Clark was president of the junior college here for several years. The young doctor's mother, who resides here, is a noted musician. Her other son, Joe A. Clark, is secretary of the State Medical Association of Texas in Austin.

Cleaners, Dyers and Laundrymen Meet in Cisco

Dry cleaners, dyers and laundrymen in the Cisco area met at the Cisco Coffee Shop at 8 p. m. Wednesday to discuss the organization of the industry which has grown to be the fifth largest in the nation.

In the business session, the banding with the Texas State Institute was discussed and ideas were exchanged.

Theron Guffey, president of the Abilene Dry Cleaners Association, discussed the proposed new law governing the industry. Under the new law, he pointed out, all cleaners, dyers and laundrymen will be governed by a board composed of three members of the profession, one consumer, and a representative of the Retail Clothing Merchants of Texas.

The purpose of the proposed law is to assure customers of better service and a better class of work by weeding out undesirable operators and to examine prospective members, Guffey pointed out. A price stabilization clause is to be added later, he said.

Guffey also told of the establishment of a school for cleaners in Arlington. The school is under the direction of the Texas body and is open to any member of employee. The purpose of the school is to assure a better type work over the state. New materials are to be tested and new methods explored, he said. Members may take courses lasting from eight weeks to two years.

The meeting was under the direction of Pete Rumbley who is the only local member of the Texas State Institute of Cleaners, Dyers and Laundrymen.

Those attending the meeting were: O. L. Lee, J. C. Pre-lar, Mr. and Mrs. A. A. Alexander, Mr. and Mrs. Arnold Stroup, Troy Powell, Mrs. W. W. Donohoe, Pete Rumbley, Mr. and Mrs. Herman Reimers, all of Cisco; E. E. Jones, Theron Guffey and W. R. DeShazo of Abilene.

Sudden Weather Changes During Fall Months Bring Epidemic of Colds

AUSTIN, Oct. 7.—Sudden seasonal changes in the weather during the fall months often result in chilling, which in turn is usually followed by wide-spread incidence of the common cold. This disease always spreads rapidly because of the fact that very few people can live isolated lives, and in any group or crowd of people, coughing, sneezing and spitting will scatter millions of cold germs among susceptible persons.

Dr. Geo. W. Cox, State Health Officer says that there are countless ways of spreading a cold other than by coughing, sneezing and spitting. "For instance," the Doctor said, "if a member of your family has a cold and the other members share a common drinking glass with him, you may expect the whole family to pick up the germs he leaves on the glass. Sometimes a person with a cold thoughtlessly touches his mouth to nostrils with his hand, and then

At Great Harbor Cay, Bahama Islands, the airliner which made a forced landing on the beach lies partly submerged in the water. The huge sign ironically shows the survivors had no water to drink. All 23 passengers were uninjured.—(NEA Telephoto)

Cisco Host to Visiting Members of Mid-West Texas Firemen's Group

A large group of firemen from this region, members of the Mid-West Texas Firemen's Association, began registering at 10 a. m. today at the Cisco fire station for a full day of business and fun. The firemen were meeting for their semi-annual convention.

After the registration, visiting firemen and their wives were joined by the Lobo-Wrangler band and Cisco Junior College students in a big parade which began at 10th Street and Ave. D and ended at the fire hall. The band gave a concert and delegates from the various town represented went to the American Legion Hotel for the business meeting.

After the group had sung "America," Mayor Edward Lee welcomed the visitors on the behalf of the citizens of Cisco. He told the visitors that the city was pleased that they had selected Cisco for the meeting, and invited them to visit as long as they wished. Fire Chief Autrey and Snyder department responded for the visitors.

B. A. Butler, secretary-manager of the local chamber of commerce, also welcomed the visitors. Leonard Henderson of Colorado City made the response to Butler's welcoming address. Railroad Commissioner Olin Culbertson, first secretary of the State Fire Marshall's and Firemen's Association, of Austin, and Frank Williams, State Firemen's Pension chairman, also of Austin, made talks before the group.

Between talks the visitors were entertained with musical numbers by Ray Judia, Pearl and Pearlina Farley, Waddell Rains and Geneva and Wynne Birt.

After the business session the teams of the visiting departments and the Cisco team will compete in races and contests. Following the sports events the firemen and their guests will meet at Lake Cisco for a barbecue and dance that follows.

Alsabrook and Kemp File Report On McCrea No. 1

An official potential report had been filed with the Texas Railroad Commission today for the Alsabrook and Kemp No. 1 L. H. McCrea et al, Mississippi lime producer recently completed in the Kleiner pool north of Cisco.

Apparently an edge well, the official test showed 92 barrels of 44.7 gravity oil with 42 per cent water in 24 hours. The production was on pump from open hole at 3,973-85 feet. It is located on an 8-acre lease.

It was learned that Alsabrook and Kemp, who recently took 66 acres in the Kleiner pool on a farm-out deal from Hickok Oil Company, expected to begin a well on their new tract by October 15.

It was understood that a drilling company in Abilene has been given a contract for the well.

Mr. and Mrs. E. C. Collinsworth, Jr. of Midland, Texas spent the week-end with their parents, Mr. and Mrs. Ed Collinsworth and sister, Mr. and Mrs. Olan Smith and Patricia Ann.

Mr. and Mrs. Gay Campbell of Odessa were over night guests of their mother, Mrs. A. J. Wise Monday night. They were en route to Waco, Beaumont.

Lions Club Speaker Regards Third World War Unlikely in Near Future

Pointing out that nobody can speak with assurance as to the future, Dr. Rupert N. Richardson, President of Hardin Simmons University at Abilene, told members of the Cisco Lions Club that he doesn't regard a third World War likely to occur in the near future.

Dr. Richardson, widely known historian and author, was the principal speaker at the club's luncheon meeting at the College Cafeteria at noon Wednesday. He was introduced by Lion Charlie Burke, who was in charge of the program.

Neither Russia, the United States nor any other power is prepared for war, Dr. Richardson said, noting that the Russians, in particular, were still licking ugly wounds suffered during World War II. Nevertheless, he regarded the Berlin situation as serious and urged caution.

John Hansard, coach of the High School football team, was introduced as a new member.

First Class Rating Indicated For Cisco Post Office By January 1

If the current upward trend in gross receipts continues during the coming three months, the Cisco Post Office will be advanced from second to first class on January 1, 1949, according to figures released by Postmaster L. H. McCrea today.

To achieve first class rating, a post office must sell \$40,000 worth of stamps a year. Sales during the first three quarters of 1948 totaled \$29,519.01. Receipts for the third quarter, ended September 30, amounted to \$10,340.14—a 36 per cent increase over the same quarter of 1947.

First quarter 1948, receipts were 11 per cent above the first quarter of 1947, and the second quarter showed a 13 per cent increase. If the trend continues, the post office should exceed \$11,000 during the final three months of 1948 to achieve the first class rating.

Hassen and WTU Bowlers Win Tuesday Evening

Action in the Cisco Business Men's Bowling League was at high pitch Tuesday night at White's Bowling Lanes as the highly rated Collins Hardware quintet were goose-egged by a flashy Hassen Dry Goods squad.

The dope bucket was also overturned when the cellar dwelling West Texas Utilities Kilowatts, turned the "juice" on A G Motor Co. to the tune of three pins to one. The Utility crew had only one game in the win column prior to the games Tuesday night.

The 200 bowlers were: Dick Bearman, 200-205; F. Urban, 202; Bob Anderson, 203; G. White, 211-227.

The Wranglers of Cisco Junior College, still licking their wounds from a 19-0 setback last week, will make a determined effort to keep their conscience record clean when they line up against the Ranger Junior College team at Cheyey Field at 8 p. m. today.

And a Wrangler victory would be the end of a perfect day for the students of Cisco Junior College, who were observing "Wrangler Day" by official proclamation. Students staged a downtown parade at 12:30, expunging their determination to "help the football team to victory."

Students were to conclude their pre-game activities with a huge bon fire on the campus just before game time. A dance will conclude the day at the Wrangler Corral after the game.

Coaches Jack Everett and Stormy Davis put the finishing touches to their grid machine in a light workout Wednesday. The afternoon was devoted largely to a rehearsal of plays and work on passing. Dug Garner, Wayne Hayes, Melvin Nobles and Jack McGuire, regular starters, weren't expected to play due to injuries.

Ranger's team, reported to be in top shape, has been called the favorites. Their season's record includes a 45-0 win over Texas Military College and a 13-6 loss to Paris Junior College.

Probable starting lineups were announced as follows:

Table with 2 columns: CISCO and RANGER. CISCO: Owens, Nobles, Milsap, Moore, Price, Lee, Leveridge, Tompkins, Cleveland, Gann. RANGER: Blitch, Roye, Townzen, McClendon, Crum, Herrington, Frazier, Arterburn, Ford, Crawley, Woods.

Welcome Firemen!

Some 300 firemen of this region are in Cisco today to attend their regular convention. Purpose of the event is to enable firemen-volunteer firemen for the most part—to gather together for discussions and practical demonstrations of things new in fire fighting.

The convention is taking place while the nation as a whole observes Fire Prevention Week. Although the people are called on often to observe some kind of event or week, we cannot give too little thought to the proposition of fire prevention, and it is fitting and desirable that the general public join into the plans for the special week.

A good many of us are too busy with our own affairs to take the time to compliment the fellows who are safeguarding our property against fire. Few of us realize that a very large percentage of the nation's fire departments are manned by volunteers—men who are on the job because they enjoy it or because to them it is a civic duty.

The convention and Fire Prevention Week, coming at the same time, offers us all an opportunity to say to our own Cisco Firemen, as well as to visitors, "thanks for a job well done." And the entire city joins in expressing a wish that the convention will be successful from every standpoint.

LETTERS FROM READERS

Editor Cisco Daily Press:
Since the Firemen are in convention here today, I wonder if you will allow a little space for me to tell these visiting firemen something about the efficiency of CISCO'S FIRE DEPARTMENT, and at the same time express my appreciation of such efficiency?

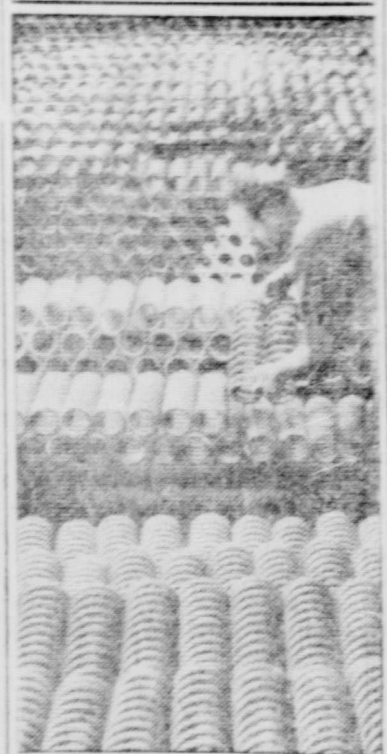

A couple of weeks ago when I waked up about 1 a. m. to find my kitchen afire and ran outside and called the R. D. McDaniels to turn in an alarm, then ran to a water faucet in my yard and turned the water on and ran back to the kitchen window and cut screen and broke out a glass and turned the water on the fire.
I do not believe this took me more than a minute, and in less than another minute the firemen were on the job with their expert knowledge and equipment and put out the fire before I could breathe a sigh of relief. That's what I call EFFICIENCY in capital letters.

WAA will offer for sale, along with the land on which they are situated. The post was kept active in connection with army activities at Fort Bliss, El Paso, until mechanization of the cavalry resulted in putting it on the surplus list following World War II.

The WAA's offering will be subject to applications by federal agencies, state and local governments and non-profit institutions until October 18, when the priority period will expire. Unclaimed property will be offered to the public without priority and bid forms will be available to the general public on October 28.

Details of the sale will be furnished by the Grand Prairie regional office of real property, P. O. Box 4030, Dallas 2, Texas.

WELCOME FIREMEN!

ALL CISCO

BIDS YOU A CORDIAL WELCOME TO YOUR CONVENTION CITY, and joins in an expression that your 1948 convention will be both pleasant and educational.

At the same time, all CISCO desires to offer sincere congratulations to members of their own Fire Department and to each department represented here on their splendid work during the past year. As time goes on, we realize more and more that our Volunteer Firemen are a genuine asset to their communities.

THIS IS FIRE PREVENTION WEEK!

It is highly fitting that our nation should set aside one week a year for the study of safety and fire prevention and, at the same time, to pay tribute to the thousands of volunteers who are contributing so much to outstanding records.

All Cisco is genuinely proud of its Fire Department—an organization made up largely of volunteers. Cisco's fire record is good, thanks to an organization of alert volunteers.

It is not often that volunteer firemen are paid the homage due them. For the most part, their job is a thankless one. We should never overlook an opportunity to express to them our sincere appreciation for the splendid work they are doing.

We are highly pleased that the opportunity has come on this convention day and during Fire Prevention Week to say: "Well done, firemen. We appreciate you and your constant effort to protect our lives and property against destruction by fire."

You won't need an abstract until the period of redemption is past—two years. Then will be soon enough to check up on your title and here's where your abstractor can render you a worthwhile service.

He can't duck

A bird can move before you pull the trigger, but a telephone wire can't duck. Last year, 2,500 wires were broken by stray bullets.

That's why we're asking all hunters not to shoot at birds on telephone wires or poles. One stray shot may break several long distance wires and interrupt important calls.
